Chapter 2701: I Am Zhao Honghuang (2)

2701 I Am Zhao Honghuang (2)

Then, before the village leader could react, Zhou Chuan shouted, "My fellow humans in the Black Earth Village, have you seen the Great Dao crack in the sky?"

Everyone was puzzled, not knowing what Zhou Chuan was going to say.

Most people were still in a state of panic and wished they could stay far away from Zhou Chuan.

However, Zhou Chuan said, "My fellow human beings, this crack in the Great Dao foreshadows the death of a Monarch."

"Hiss!"

"Huh?"

"How is that possible?"

"How can a Monarch die?"

"Nonsense. It's said that there's only one Monarch in the City of Scavengers, and that's Ten Thousand Scale Monarch. How can such a peerless powerhouse die?"

However, Zhou Chuan's voice quickly overshadowed everyone's. He shouted, "My fellow human beings, the day has come when we are free from the enslavement of the Ten Thousand Scale Race... I am Zhou Chuan, a former member of the Black Earth Village. After walking out of the Black Earth Village, I entered the Black Ice City and was then selected to the City of Scavengers because of my outstanding performance. I originally thought that I could finally become stronger and cultivate stronger techniques to gain more resources. However, what awaits me is the bullying and endless insult of the Ten Thousand Scale Race... The Ten Thousand Scale Race threw the Sea Establishers of our human race into the trial ground and made us kill each other. I have experienced countless trials and have already lost hope for my life... However, the great Master Human Emperor has come. He saved us from despair and taught us peerless techniques and even divine-quality techniques..."

Zhou Chuan's voice changed from sorrow to excitement and impassion. In the end, he opened his arms and shouted, "I, Zhou Chuan, am now a member of the Seven Kill Army under Master Human Emperor. In order to prevent the Ten Thousand Scale Race from noticing, I'm ordered to return secretly. I'm waiting for the signal of the Human Emperor to counterattack... Now, please put down everything in your hands and listen to me... Master Human Emperor is the Human Emperor of our human race. He even has had the strength to kill a Monarch. The Great Dao crack today is the agreement between Master Human Emperor and us. When the crack appears, the Human Emperor's counterattack begins... And my goal is to take away the humans of the Black Earth Village."

"My fellow humans, it has been 100,000 years. We have been enslaved for 100,000 years. Today is our chance to get freedom. Today, we are making history... Please believe me and enter my Origin Sea. I will take you away, and I will take you to meet Master Human Emperor. Time waits for no man. Lord Village

Leader, please lead our fellow humans from the Black Earth Village into my Origin Sea, and I will take you away.”

The village leader was stunned.

The law enforcement team was stunned.

Everyone in the Black Earth Village was stunned.

They couldn't believe what they had heard. The human race had got an emperor who could even kill a Monarch? And he had actually arranged for someone to save them from the Black Earth Village and the control of the Ten Thousand Scales Race. Was this true?

This matter was really too sudden. The village leader couldn't make up his mind for a moment, because his current decision would decide the fate of everyone in the Black Earth Village.

Zhou Chuan knew the village leader's concerns. He said, “Leader, it's not just our Black Earth Village or Black Ice City. It's all the villages under the jurisdiction of the entire City of Scavengers. Master Human Emperor has already made arrangements. I'm not alone. Brothers, come out...”

Swish swish swish...

In the next moment, four more people walked out of the crowd of the Black Earth Village. The strength these four people showed was of the Sea Establishment Realm, and even the weakest of them was an intermediate Sea Establisher.

Zhou Chuan shouted, “My fellow human beings, to be frank, if the five of us really want to murder the people of the Black Earth Village, no one here can stop us. However, please believe that for the sake of the human race's counterattack, Master Human Emperor has convinced the Master of Silence of the City of Wanderers to fight with us. In a moment, our brothers from the City of Wanderers will come to open a passage for us to evacuate.”

“Well...”

The village leader was tempted. No, everyone was tempted. If they could escape the enslavement of the Ten Thousand Scales, who wouldn't want to?

As for the City of Wanderers, it had attacked the City of Scavengers more than once. Almost everyone in the entire Chaotic Wasteland knew that the City of Wanderers was a free city. It was the yearning of many humans who had been enslaved by the Ten Thousand Scale Race. However, this journey to that city had been difficult and too dangerous. It was said that there was a place called the graveyard battlefield between the City of Scavengers and the City of Wanderers. Almost no one could cross the graveyard battlefield alive to reach the City of Wanderers on the other side.

Therefore, if people from the City of Wanderers really came, they could really testify to everything Zhou Chuan said.

Just as Zhou Chuan finished speaking, less than five seconds later, a Sea Establisher appeared outside the Black Earth Village with five or six Venerables.

This person didn't look like a human, but a mushroom-like creature.

The man shouted, "I am Green Bone, a subordinate of the Four Generals of the City of Wanderers. I'm here under orders to clear the way for the human race. The situation is tense. Time waits for no man. All the strong masters in the Sky Opening Realm in our City of Wanderers have been deployed to contain all the cities under the jurisdiction of the City of Scavengers and buy us time. Hurry, hurry, hurry..."

Chapter 2702: I Am Zhao Honghuang (3)

2702 I Am Zhao Honghuang (3)

Zhou Chuan shouted, "Leader, you heard him. These are our reinforcements. Don't hesitate anymore. Instead of living under the enslavement of the Ten Thousand Scale Clan, it's better to witness Master Human Emperor's counterattack with your own eyes. Even if you die heroically in battle, it's more meaningful than living cowardly. Leader..."

The other four people who came with Zhou Chuan also shouted, "The human race will definitely win this battle. Please evacuate with us."

Zhou Chuan said, "Master Human Emperor has been preparing for today's battle for countless years. Everyone, please listen to me and open your minds. Let me take you away..."

Finally, the village leader relented. He knew that there was nothing worth scheming for in a mere Black Earth Village. They had already been living like this. How much worse could their life be?

The village leader shouted, "Everyone, open your minds..."

...

In order to win the trust of the humans in this village, Han Fei had told his men in advance that they should take action when they saw a Great Dao crack in the Chaotic Wasteland.

Only when the humans clearly knew that a Monarch had died could his men's words sound more credible.

Furthermore, every village had at least one of his men. These people were mostly from these villages to increase their persuasiveness.

Zhou Chuan tried to persuade the people of the Black Earth Village to leave when he saw the Great Dao crack, while some people had already secretly communicated with the village leader and the others in advance.

Zhou Chuan had planned to go to the village leader after he got familiar with the people of the Black Earth Village, but he didn't expect that Han Fei had started so quickly that he didn't even have time to persuade the village leader.

Of course, although Zhou Chuan's words were impassioned, this couldn't completely convince the enslaved humans. This was because they had been enslaved for 100,000 years. The long hopeless life had long made them lose hope.

Therefore, these two points alone were not enough to ignite their hope.

Therefore, the City of Wanderers had moved. Gu Tingnan wasn't completely unprepared for this day. Among the four generals, Xing Yu was actually responsible for nurturing powerhouses. After so many years, he had cultivated tens of thousands of Sea Establishment Realm powerhouses.

In the Chaotic Wasteland, the City of Wanderers was essentially just a training tool for the City of Scavengers and the City of Origin, but others didn't know! For the humans enslaved by the Ten Thousand Scales, the City of Wanderers had always been a free city in their hearts.

Therefore, when the people from the City of Wanderers really appeared, their desire for freedom was immediately aroused.

The same scene happened in tens of thousands of villages on this day and at this moment.

The plan itself was not complicated. As long as the confidentiality was done well, it could be done.

However, Han Fei could do this plan, but Gu Tingnan couldn't.

This was because the so-called human retreat plan could only last for half an hour at most. This was because Duan Qingsi and Lin Yu had indeed arranged for people to feign an attack on the major cities under the jurisdiction of the City of Scavengers.

Besides, the death of a Monarch would definitely make the real strong masters in the Chaotic Wasteland realize that something was wrong here.

But Han Fei killed An Heng, a strong master from the City of Origin, so theoretically, the strong master behind the City of Scavengers would return a little late.

However, this matter was not absolute, because Han Fei didn't know the conditions for the return of the strong masters behind the Chaotic Wasteland. Gu Tingnan had said that even if he personally arranged for people to go to that place, they could only be sent to limited places. Even as a Dao Proving Level powerhouse, he didn't know where these people had gone.

Now that a Monarch had died in the City of Origin, the person behind it would definitely send a Monarch down, not just a Sky Opener. And if a Monarch wanted to go to the City of Origin, how could the strong master behind the City of Scavengers let another Monarch appear in the Chaotic Wasteland to affect the balance of power here?

Therefore, the City of Scavengers would probably send people back too, and so would the City of Wanderers.

The reason why Han Fei felt that the City of Scavengers would lag behind was just his guess. After all, the people from the City of Origin would return first, so the City of Scavengers might not pay much attention at the beginning. Even if they did, it shouldn't be too rushed.

But no matter when the Monarch of the City of Scavengers would come back, Han Fei had already thought of a way to buy time for the Seven Kill Army, which was to use himself as bait.

He said, "Dad, Mom, please help me take care of these people here."

Jiang Linxian smiled. "Don't you want me and your father to go with you?"

Han Fei looked at Old Han who had been watching the show with a smile since he came back. Although he knew that Old Han could definitely cross realms to kill a Monarch, he would probably feel a little uncomfortable under his stare.

Besides, Old Han and Jiang Linxian were too strong. He didn't want them to interfere in his trial.

Therefore, Han Fei shook his head and said, "Not for now! You just need to send the two people from the City of Origin over at the right time..."

As for what the right time was, Han Fei glanced at Han Guanshu, who nodded slightly. Obviously, Han Guanshu had already seen through Han Fei's intentions.

Jiang Linxian nodded and said, "Fei'er, be careful. Don't be careless."

Chapter 2703: I Am Zhao Honghuang (4)

2703 I Am Zhao Honghuang (4)

Han Fei: "Hey! Don't worry... Liu Qiansi..."

Han Fei waved his hand, and Liu Qiansi immediately appeared in Han Fei's hand. Han Fei turned the Vast Ocean Navigator at the same time. Then, as he issued an order in his heart, the few of them disappeared in the ice in the blink of an eye.

Although Ning Tianlong and the others were Monarchs, their speed wasn't that fast. It might be possible for Carefree-Level Monarchs to reach here from the City of Scavengers in five seconds, but it was almost impossible for Dao Proving-Level Monarchs like them.

Therefore, they must have set up a teleportation array somewhere around. Sure enough, Han Fei confirmed the location of the teleportation array about five seconds later.

Buzz!

Han Fei didn't know where he would be teleported to, but it didn't matter even if he was teleported to the City of Scavengers. Anyway, what Han Fei wanted was the attention of the strong masters of the Ten Thousand Scale Race.

After crossing the teleportation channel, they were tens of millions of kilometers away from the City of Scavengers.

On this mine, one could see the City of Scavengers with a sweep of perception.

However, when Han Fei released his perception, he saw a middle-aged man in black on a mountain peak of this mine, looking at Han Fei and the others with his hands behind his back.

In addition to the black-clothed middle-aged man, there were also four strong masters here. Han Fei could sense that three of them were at the Dao Proving Level, and the other was actually at the Carefree Level.

As for the black-clothed man, he was like a dead person, not revealing anything.

Chu Hao said, "Two of them are Carefree-Level Monarchs and three are Dao Proving-Level ones. The man in black seems to be at the Carefree Level, but I feel a trace of the pressure of an Immortal-level cultivator. He might be half a step into the Immortal Level... In short, we've been ambushed!"

Han Fei frowned and looked at the black-clothed man, who happened to look up at Han Fei and the others.

The man asked first, "Just the four of you?"

This person clearly included Liu Qiansi.

The man said, "Three Monarchs? Not bad, but I don't believe it. From the moment the Monarch died just now, I knew that this time, the comers were not simple. But among the four of you, only three are at the Dao Proving Level and one is at the Perfected Star Transformation Realm. This is clearly not right."

This person said with a dignified expression, "With you, Gu Tingnan, it's impossible for the few of them to kill a Monarch under your Heaven Enlightenment Divine Technique. Therefore, the Monarch killed must be Ning Tianlong or a Monarch from the City of Origin. If it was Ning Tianlong, I would have known long ago and wouldn't have waited until now. Therefore, you must kill the Monarch of the An Family. That's a smart move... However, if the Monarch of the An Family really died, then you'll have an inescapable obstacle. In addition to An Heng and An Bailin, there's also An Feng. Ning Tianlong and An Bailin disappeared for seven days, so it's impossible for An Feng not to notice this. But no second powerhouse has died in the past seven days. This means that An Feng has been suppressed or has been occupied by a Carefree-Level powerhouse. Therefore, it's impossible for only the four of you to come from the human race this time. There must be some other powerhouses who can suppress Carefree-Level Monarchs. Am I right?"

Chu Hao said to Han Fei via voice transmission, "This person is not weak. If I fight him, I'm afraid it will be difficult to beat him in a short period of time. Therefore, I can only deal with this one. As for the other four, you have to solve them yourself."

Han Fei thought that he could hold them off for a while, but the people in the City of Scavengers had already discovered the problem.

It was extraordinary for them to have such foresight and patiently set up a trap here in advance to take them down.

Han Fei asked, "Who are you?"

The man sneered. "My name is Zhao Honghuang."

[God of Fishing](#)

Chapter 2704: Death of Zhao Honghuang (1)

2704 Death of Zhao Honghuang (1)

Han Fei wasn't surprised at all to hear the name Zhao Honghuang.

Everyone knew that Zhao Honghuang in the City of Scavengers had a clone. However, because of the existence of the so-called Ten Thousand Scale Monarch, no one suspected that Zhao Honghuang was a clone.

After all, in the eyes of ordinary people, how could a strong master at the Perfected Star Transformation Realm who could suppress the entire City of Scavengers be a clone?

However, Han Fei and Gu Tingnan were not surprised at all to hear this person announce his name. This was called darkness under the lights, right? For a long time, some people had suspected him, but there had never been any evidence. Zhao Honghuang was like an old Buddha, guarding the City of Scavengers for so long that no one was willing to guess if he was a hidden powerhouse.

However, although Zhao Honghuang's identity had been exposed, Han Fei and the others weren't afraid. If it was just the few people in front of them, it wouldn't be a problem. No matter how strong Zhao Honghuang was, they had Chu Hao on their side. Could he be stronger than Chu Hao?

Without Zhao Honghuang, the only threat here was the Carefree Level powerhouse.

Han Fei thought that Gu Tingnan should be able to temporarily block it. After all, Gu Tingnan had cultivated hard for 100,000 years. He wasn't just an ordinary Dao Proving Level powerhouse. Otherwise, it was impossible for him to fight three Dao Proving Level powerhouses alone.

Although this was related to Gu Tingnan's Great Dao of Heavenly Enlightenment, which had a powerful life-prolonging and health-recovery ability, it was a fact that he could fight three alone.

Then, the rest was easy to handle. But Han Fei didn't choose to fight immediately. Instead, he pretended to be solemn. "Five Monarchs, the City of Scavengers is really rich. But what I don't understand is why you chose to set up an ambush here?"

Zhao Honghuang didn't seem to be in a hurry to attack either. Instead, he said indifferently, "Aren't the people from the City of Scavengers taking action? In just seven days, they made so many arrangements. It's definitely not as simple as an ordinary siege battle. And you didn't show up, which shows that you haven't gone far from the place you came out. No matter who you are planning to ambush there to lure, you have to cooperate with the City of Wanderers' siege operation. And in order to quickly reach the City of Scavengers without being discovered, you will definitely choose to use the teleportation array of my City of Scavengers to arrive here."

After that, Zhao Huangyu looked at Han Fei with a faint smile. "Interesting. It's not the three Monarchs but you that are speaking. Really interesting."

Han Fei said, "That's because I'm smart. So I'm the one who speaks."

Zhao Honghuang sneered. "Smart? So smart that use this way to stall for time?"

"Do I stall for time? No, no, I don't need to stall for time. I'm just... fishing."

Of course, Han Fei was not stalling for time. When he found that Zhao Honghuang and the others had already ambushed him here, he knew that someone had already returned from that place.

However, only the little fish had taken the bait. To be honest, he wasn't interested in this fish.

Originally, his plan didn't need to be kept a secret anymore. The operation had already begun when the first Monarch died.

Since it had begun, it was normal to be exposed. But was it important? If it was exposed, so be it. The problem was whether the City of Scavengers could stop it.

“Fishing? You?”

Zhao Honghuang was confident that he would win this battle. Even if Ning Tianlong died, it didn't matter. Without Ning Tianlong, there would still be Li Tianlong or Zhang Tianlong. Anyway, the so-called Great Monarch of the City of Scavengers was just a puppet at the Dao Proving Level. It didn't matter who he was.

Zhao Honghuang said casually, “If the people from the City of Scavengers were so easy to intercept, they would have been snatched away long ago. However, you'd better be executed first! The human race is still too weak. You're not qualified to escape the control of our Ten Thousand Scales Race.”

Then, Zhao Honghuang nodded, and the four powerhouses attacked at the same time.

Zhao Honghuang didn't attack anyone else but Han Fei because he was the only one who wasn't a Monarch here, but he had the right to speak. It didn't make sense.

Therefore, whether or not what Han Fei said was true, or something else, this person must be taken down first.

However, when he thought that he could take Han Fei down with a stretch of his hand, the void hand suddenly distorted and turned into a twisted vortex.

Bang!

Chu Hao stood in front of Han Fei and said indifferently, “If I kill him, I'm afraid I won't have much combat power left.”

Han Fei smiled casually. “It doesn't matter. If there's a chance, just kill him. Don't wait.”

Zhao Honghuang's expression changed drastically. “Dao Proving Level? Impossible, you're definitely not at the Dao Proving Level...”

Zhao Honghuang realized that something was wrong. Chu Hao's strength seemed to be fluctuating. He had thought that he was just a new Monarch who had just proved Dao.

But he didn't expect that this so-called new Monarch could easily twist his power and destroy his casual attack in an instant.

The others didn't know, but Zhao Huangyu knew that he was half a step into the Immortal Level. How could he not be able to defeat a Dao Proving Level cultivator? No matter how strong this Dao Prover was, he couldn't defeat an Immortal-level Monarch.

Therefore, with just this strike, Zhao Honghuang was certain that this person was definitely not a Dao Prover. As for the human race, it was clearly impossible and unreasonable for them to have such a strong master. Therefore, he guessed that this person might have returned from that place too.

[God of Fishing](#)

Chapter 2705: Death of Zhao Honghuang (2)

2705 Death of Zhao Honghuang (2)

In the next moment, Zhao Honghuang shouted, “Chen Ta, ignore the others and take down this Perfected Star Transformation Realm guy first.”

Chen Ta was that Carefree Level powerhouse. This person was puzzled, but when he turned his head, he found that Zhao Honghuang was actually stopped by a Dao Prover. The power that the Dao Prover displayed clearly exceeded the strength that a Dao Prover should have. How could he not understand this? These people were clearly stronger than he had imagined.

However, he was more convinced that this was just an accident. It was impossible for everyone here to have the ability to cross realms to fight.

The others looked very ordinary. None of them were stronger than him.

Therefore, when Chen Ta heard this, he didn’t hesitate and immediately activated the law of strength to attack Han Fei.

However, Han Fei had no intention of attacking. Gu Tingnan had already met the attack, and Han Fei threw Liu Qiansi out with a swish.

There seemed to be only a level difference between the Carefree Level and the Dao Proving Level, but in fact, there was a huge gap. Gu Tingnan alone was no match for the other party. Gu Tingnan could only ensure that he didn’t die.

As for Liu Qiansi, he lived in the Storm Quicksand Sea all year round and resisted the law of strength every day, so he could barely fight one-on-one, but in a one-on-one battle, he would definitely be abused by the other party.

Han Fei paused for a moment and said, “Teacher, can you help them? I don’t think they can beat a Carefree-Level Monarch.”

The Beast King was surprised. “What about you?”

Han Fei said, “No Dao Prover can kill me.”

The Beast King trusted Han Fei. Since he dared to start this battle today, he must be fully prepared. Otherwise, Han Fei wouldn’t be so stupid as to make them fight these Monarchs head-on.

Since it was prepared, the Beast King naturally chose to believe Han Fei. Otherwise, even if it could hold back a Dao Prover, Han Fei would still have to face two Dao Provers. The difference didn’t seem to be huge.

Therefore, without any hesitation, the Beast King roared and charged forward. Han Fei felt that it was enough for the three of them to fight a Carefree Level powerhouse of the Ten Thousand Scale Race. After all, Gu Tingnan was not a newbie. He had been on this path for a long time. Even if it was a one-on-one battle, the other party, a Carefree Level cultivator, couldn’t kill him.

At this moment, it was three against one, which was for safety reasons. There was no need to take the risk of someone being seriously injured.

The reason why he didn't let his parents take action was that the two of them couldn't be considered normal combat power at all. Han Fei thought that if they really took action, he might not need to do anything.

Therefore, Han Fei certainly had to fight this battle, which was his own battle.

At this moment, Chen Ta was held back by the three of them, and Zhao Honghuang roared again, "Take this guy down!"

The three of them didn't hesitate at all. Since Zhao Honghuang and Chen Ta were held back, their target could only be Han Fei.

At the same time, Han Fei fully activated his own Great Dao. His aura soared several times, and the Invincible Eyes slowly opened.

It wasn't like he hadn't fought three Monarchs at the same time. In the Infinite Mining Area, Han Fei had killed two of the five Dao Proving-Level Monarchs who were besieging him. Although he took advantage of the other party's underestimation of him, now it was no different from that time.

Of course, the three of them didn't take it lightly. It was unusual for a Perfected Star Transformation Realm cultivator to participate in such a battle. Besides, a lion would use its full strength to catch a rabbit, let alone that they weren't lions, and Han Fei wasn't a rabbit.

The three Ten Thousand Scale Race Monarchs immediately took action. One of them mastered the Law of Strength, the other was good at soul attacks, so the weapon he used was a bell that could magnify the soul impact. The last one was a knife cultivator. His combat power was certainly extraordinary, but his strength was definitely not comparable to the one specialized in the law of strength. His soul might not be weak, but it was definitely not comparable to the one who specialized in soul attacks, so his strength should be relatively balanced.

Seeing these three people coming at him, Han Fei immediately had a plan.

The outcome of a battle between Dao Provers was often decided in a flash. Therefore, it only took the three of them less than half a second to reach Han Fei.

The fist light, the knife light, and the bell sound were launched at the same time.

Han Fei didn't even dodge, letting the fist light and knife light approach him. And he directly used the Void Stealing Technique on the Monarch who was good at soul attacks. When a golden bell appeared, he used the Void Stealing Technique again to steal the golden bell.

The man was horrified. He didn't understand why his soul suppressing godly weapon flew out voluntarily, nor did he understand how the soul suppressing godly weapon cut off its connection with him.

Then he saw a big pair of scissors cutting the void, and the power of his law actually failed.

"Kill ~"

A Primordial Dao Sword broke through the void in an instant, shattering the soul attack and directly exploding the person. During the entire process, the other party didn't even have the chance to fight back before his body and soul were destroyed.

Rumble!

A Great Dao crack appeared again, indicating the death of another Monarch.

However, Han Fei had done this more than once. As early as when he came out of the ferocious beasts' settlement, he already had the ability to kill Monarchs. Therefore, Dao Provers had no advantage in the realm in front of him.

When the fist aura and knife light were about to hit Han Fei, two pieces of mystic sand formed a sand wall in front of Han Fei.

[God of Fishing](#)

Chapter 2706: Death of Zhao Honghuang (3)

2706 Death of Zhao Honghuang (3)

Bang!

Puff! Clang! Clang! Clang!

The powerful defense of the Star Sea Mystic Sand managed to withstand the two attacks. Even if it collapsed in the end, the power that could still fall on Han Fei was insignificant.

"Hiss..."

Zhao Honghuang, Chen Ta, and the other two Dao Provers were all stunned. Was this guy at the Perfected Star Transformation Realm? He had only used one strike to kill a Dao Prover?

Even Gu Tingnan was a little dumbfounded. He knew that Han Fei slayed Monarchs in the Infinite Mining Area, but he didn't expect it to be so simple for him.

It had to be known that even the Dao Provers had passed the Monarch-level Tribulation. Be it their physique or soul, they were extremely powerful.

To kill a Dao Proving Level powerhouse, Han Fei had to first ensure that his strength and soul were completely beyond the physique and soul of a Dao Prover.

The Beast King, on the other hand, was shocked. He knew that Han Fei should be strong enough to fight a Monarch, but he didn't expect Han Fei to be able to kill a Monarch so easily.

If Han Fei could kill others, he could also kill him. The disciple he took in far exceeded his expectations!

The moment this Monarch died, Han Fei knew that the real big shots behind the City of Scavengers must have learned about the situation here.

So many Monarchs had returned, and one of them had died. It could only mean that something big had happened in the Chaotic Wasteland.

Gu Tingnan said that the people over there could come back soon. Han Fei didn't know how fast they could come back, but he knew that since the battle had begun, there was no turning back.

Han Fei shouted, "Go all out and kill these people first."

Han Fei attacked again, but not passively. Instead, he took the initiative to attack. The Invincible Eye between his eyebrows emitted a dazzling golden light. He used the same trick again and used the Void Stealing Technique twice in a row to steal the soul suppressing godly weapon of the Dao Prover with the law of strength.

This time, the World Destruction Fist, the path of invincibility, the Dao of Slaughter God, the Ragnarok, the divine techniques, and all other techniques were combined. Unable to dodge, the person could only rely on the force field and a divine shield, hoping to temporarily block Han Fei's blow.

This was because he could tell that Han Fei's attack was an explosive attack. As long as he could block it once, he would have a chance to counterattack.

Unfortunately, with a crack, the huge shield was shattered, and the murderous fist light enveloped this person.

Although the law of strength was not weak, there were many ways to restrain it. Ragnarok, double killing both the body and the soul, was the simplest and best method for Han Fei. Therefore, with just one punch, Han Fei blasted this person to death.

Rumble!

Before the first Great Dao crack disappeared, the second Great Dao crack appeared again. In the blink of an eye, two of the five Monarchs of the City of Scavengers were gone.

The first reaction of the remaining person was to run, but how could he escape now? The moment he had the intention to retreat, he discovered that his understanding of speed had disappeared from his mind.

In the next moment, his soul suppressing godly weapon flew out.

This person finally understood why the two of them died in the blink of an eye. It was because Han Fei could deprive them of their power, laws, and Great Dao comprehension.

The man shouted, "This guy can steal my power. There's no way to resist him."

When this person shouted, he took out a strange bead in his hand. Chu Hao suddenly reminded Han Fei, "That's the strike of a powerhouse of a higher level."

With a thought, Han Fei grabbed the God Shattering Scissors. At the moment the pearl exploded, the God Shattering Scissors cut through the void and seemed to have cut off an indistinct line.

Boom ~

The bead was crushed, but the scene of a powerhouse descending that the person was looking forward to didn't appear. Only the bead was broken.

Han Fei sneered and the Formless Infinity Sword crushed this person.

Rumble!

The third crack of the Great Dao appeared again. At this moment, both Zhao Honghuang and Chen Ta were shocked. A Perfected Star Transformation Realm cultivator had actually killed three Dao Proving Level powerhouses in a row in just a few seconds. Was this real?

And this was just because this person was at the Perfected Star Transformation Realm. What if he proved his Dao?

Han Fei wasn't excited at all about killing some Dao Provers at all. This was because his strength, physique, soul, means, and treasures had completely crushed the so-called Dao Provers. Under the premise that he was stronger than the other party in all aspects, if the other party lost control of the law, his combat power would be no different from that of a Perfected Star Transformation Realm cultivator to Han Fei. It would be strange if he didn't die.

If hundreds of such strong masters came at him at once, he might not be able to defeat them and would be besieged to death by them, but if there were only three or five of them, they would only be dead meat.

After three Dao Provers perished in a row, Zhao Honghuang shouted, "Chen Ta, retreat..."

After saying that, Zhao Honghuang was about to get rid of Chu Hao's vortex power.

But how could Chu Hao let him go? Chu Hao roared in a low voice, and a wisp of essence blood seemed to be burning. At that moment, the surrounding void all crystalized. Chu Hao pointed his finger, and a blood arrow seemed to be slow but was actually fast, almost hitting Zhao Honghuang's forehead.

The latter broke into a cold sweat, but he opened his mouth and spewed out a burning small sword.

[God of Fishing](#)

Chapter 2707: Death of Zhao Honghuang (4)

2707 Death of Zhao Honghuang (4)

"Huh! Primordial power?"

Bang!

The blood arrow exploded right in front of Zhao Honghuang's eyes. Chu Hao's attack didn't work, but half of Zhao Honghuang's body was exploded, although he was still alive.

"Divine Technique, Boundless."

Although Chu Hao didn't seem to be in a good state, he felt that he should do what he promised. Otherwise, if such a powerhouse who could almost be regarded as an Immortal-level Monarch ran away alive, it would be a big threat to Han Fei and the others.

A Monarch who had reached the peak of the Carefree Level and was even half a step into the Immortal Level. It was better to kill such an enemy as soon as possible.

Zhao Honghuang retreated quickly, only to discover that he would never be able to touch the void ice crystal wall.

“Cough, cough ~”

Han Fei felt a large amount of vitality draining from Chu Hao’s body and knew that this guy’s combat power was still unstable. He snapped his fingers and another drop of the Spring of Life flew towards Chu Hao.

Upon seeing this, Chu Hao looked at Han Fei speechlessly. You still have more Spring of Life? Why didn’t you take it out earlier? Why did you only give me eight drops?

“Huff~”

Chu Hao sucked the drop of the Spring of Life into his stomach in one breath. The vitality in his body immediately erupted, and he immediately felt much better.

He sneered. “Endless Cage.”

Ice crystals quickly formed around Zhao Yao. No matter how hard he tried, he couldn’t avoid these ice crystals.

Buzz!

Chu Hao extended his hand and an ice sword appeared in his hand. It spun in Chu Hao’s palm a few times and was immediately filled with a strange spiral mark.

As for Chu Hao, he was covered in ice and hadn’t been able to charge over.

Therefore, Chu Hao’s sword was bound to hit.

“Pfft!”

Ka ka ka ~

The void crystal shattered, and Zhao Honghuang’s body was crushed into powder. But unexpectedly, his soul-suppressing divine weapon seemed to be exceptionally powerful.

It was a fire seed, which protected Zhao Honghuang’s soul very well.

Zhao Honghuang roared crazily, “Three seconds. In three seconds, you will all die.”

Chu Hao glanced at Han Fei. “The Primordial Fire Seed can’t be broken with my current strength.”

Han Fei’s expression was ugly, but since Chu Hao couldn’t break it, he couldn’t use the Void Stealing Technique to steal it. It was simple to steal the soul suppressing godly weapon of a Dao Prover, but stealing that of someone at Zhao Honghuang’s level would definitely result in a backlash, a very serious backlash.

However, now that things had come to this point, those who deserved to die had to die. Otherwise, when more people of the City of Scavengers returned, they wouldn’t be able to kill him even if they wanted to.

Han Fei took out the Extreme Cold Pearl without a word.

When Chu Hao saw this, he shook his head and said, “It’s useless. This power is too scattered.”

However, Han Fei sneered. "I have a lot of ultra-quality godly weapons. This one is not a big deal. Kill..."

With that, Han Fei flicked his finger, and the Extreme Cold Pearl was wrapped in sword aura and slashed at the imprisoned Fire Seed. At that moment, Chu Hao understood what Han Fei meant. This guy was going to blow up the ultra-quality godly weapon to kill Zhao Honghuang.

Zhao Honghuang seemed to have foreseen Han Fei's purpose. He roared, "Human beings shall be exterminated..."

No one knew who he was talking to, but he was definitely not talking to Han Fei and the others, nor were these his last words.

But at this moment, Han Fei didn't care.

Boom... Crack...

The Extreme Cold Pearl enveloped the fire seed and completely detonated.

The cage formed by the void crystals was broken at this moment. The originally scorching Primordial Fire Seed was like a candle in ice and snow, dimming to only a small flame left.

The corner of Han Fei's mouth twitched. Even the explosion of an ultra-quality godly weapon failed to kill this guy?

At this moment, Han Fei and the others felt almost at the same time that the void seemed to be pierced between the heavens and earth.

Han Fei knew that someone was coming. He shouted at Chu Hao, "Kill."

Chu Hao also looked solemn. Although he didn't know what Han Fei's trump card was, he steeled his heart and sent out a drop of essence blood.

"Puff ~"

Rumble!

At that moment, Zhao Honghuang's soul was shattered and he was dying.

Han Fei approached and pinched the flame. He said in a very low voice, "By the way, there's something I forgot to tell you. Ye Fengliu is my clone."

"Uh ~"

Zhao Honghuang's soul was filled with anger. He was probably disgusted by Han Fei's last trick.

The fire seed was suddenly extinguished, and a terrifying Great Dao crack spanned hundreds of millions of kilometers. The legend of the Ten Thousand Scale Race, a powerhouse who was half a step into the Immortal Level, died.

In the depths of the void, there seemed to be a furious roar. "A*shole, you're courting death..."

Han Fei put on a smile when he heard the voice. The second fish was coming.

Chapter 2708: Monarchs Gathered (1)

2708 Monarchs Gathered (1)

Han Fei looked at the void calmly.

What would come would come sooner or later. He had already expected this scene, so he wasn't surprised.

Besides, this was exactly what he was looking forward to.

At this moment, the only Carefree Level powerhouse wanted to retreat several times, but he was stopped by Gu Tingnan and the others. Of course, Gu Tingnan and the others were also injured.

Just as the person was frantically trying to escape the encirclement, he felt his consciousness instantly blur.

“Puff ~”

Han Fei spewed out a mouthful of essence blood, but he was grinning.

Because in the next moment, Chu Hao attacked again, and a spiral burst out of the person's body.

Bang!

Rumble!

That person and his soul were shaken into powder.

Chu Hao's face was a little pale, but fortunately, he had the drop of the Spring of Life. Otherwise, Han Fei was afraid that he would be unable to fight anymore.

He said, “Just one drop?”

Han Fei said, “There were ten drops in total. One of them was given away, and the other nine were all given to you.”

Chu Hao looked at Han Fei speechlessly. “Why didn't you give it to me earlier?”

Han Fei said, “At least for now, your consumption should have been made up.”

Chu Hao looked at the void and sighed. “You really treat me as your thug!”

Han Fei grinned and smiled faintly. “Actually, our fates are connected. If something happens to you, something will happen to me. If something happens to me, it must be quite difficult for you to rise again. Only by helping each other can we win.”

Up to now, Chu Hao had helped Han Fei take down a Carefree Level powerhouse, killed a Carefree Level powerhouse, and cooperated with Han Fei to kill Zhao Honghuang, who was half a step into the Immortal Level.

Logically speaking, Chu Hao had already given enough because he had said that he could help Han Fei solve at most three carefree-level or one immortal-level cultivators.

Now, he had over-fulfilled the task. But it would be a waste not to use such a strong master. Although five Monarchs had died in the blink of an eye, Han Fei believed that he might have to face twenty, thirty, or even more.

The void vibrated. The guy who cursed just now had finally arrived, but Zhao Honghuang and the others were already dead.

When the person stepped out of the void, Chu Hao said directly, "He's an immortal-level Monarch, a veteran one. I can stop him at most, and I can block him for half an hour at most... What are you going to do next? Are you really not going to call him your senior brothers and sisters?"

Chu Hao didn't know Han Fei's experience outside. He only knew that Han Fei's real trump card was the Void Temple. Because of this, he wasn't worried that Han Fei would be killed. At the very least, with the Void Temple behind him, what was he afraid of?

But now it seemed that Han Fei had no intention of using the resources of the Void Temple at all. However, the surrounding void trembled. He didn't know how Han Fei could fight the Ten Thousand Scale Race without using the trump card of the Void Temple.

Anyway, it was definitely impossible for Han Fei to do that with him alone. If he were in his peak state, of course he could do it, but he was still thousands of miles away from his peak state.

The Beast King and the others had returned to Han Fei.

The Beast King was also very nervous, but he knew that Han Fei must have been prepared. But facing a real top powerhouse, it would be fake to say that he wasn't nervous.

Gu Tingnan was also waiting. He also wanted to see Han Fei's preparations. He didn't think that Han Fei would joke about the fate of the entire human race. Otherwise, Han Fei wouldn't have been able to become the Human Emperor.

As for Liu Qiansi, he was the calmest one. He thought to himself, His master is awesome. He knows a god, has hooked up with the strongest of the ferocious beasts, and can even fall in love in the Time River. Among these people, any one of them is very powerful, so he didn't think it was possible for these people to kill Han Fei.

He was even looking forward to it. He felt that Han Fei was strong enough to be his boss.

The Immortal-level Monarch of the Ten Thousand Scale Race had just arrived and glared at Han Fei. "Good, very good. How dare you attack our Ten Thousand Scale Race in front of me? No one can save you today."

Chu Hao sighed slightly. He had no choice. He was now the top thug. He could only face such a person.

The powerhouse from the Ten Thousand Scale Race sneered. "No rush. Even if you have the strength comparable to an immortal-level beginner, so what? Today, none of you can escape."

Han Fei's voice was indifferent. "Some people never use their brains when they brag. I suggest you wait for your team to arrive first."

The strong master of the Ten Thousand Scale Race was provoked by Han Fei's words. Even if his original plan was to wait for his team to arrive, since Han Fei had said so, he had to take down the guy who could kill Zhao Honghuang first.

Therefore, the Ten Thousand Scale Race powerhouse snorted and stretched out a flame beast. The intense law of fire made even Chu Hao's expression change slightly.

Chu Hao clenched his fist, and his fist mark was like a convergence of nebulas as he charged head-on.

Rumble!

Under the terrifying force, Chu Hao was sent flying more than 3,000 kilometers away. His aura was extremely unstable, and the impact flattened all the mountains within hundreds of thousands of kilometers.

The Ten Thousand Scale Race powerhouse sneered and was about to take down Chu Hao. Suddenly, he found that a seven-colored mystic light had pierced through the world and even avoided his perception and landed on him.

Chapter 2709: Monarchs Gathered (2)

2709 Monarchs Gathered (2)

"Who is it?"

The powerhouse of the Ten Thousand Scale Race was surrounded by fire magic as if he wanted to shatter the seven-colored mystic light. However, after three consecutive puffs, he was pierced through.

"What? Peak of the Immortal Level?"

This person was shocked. Although he knew that the City of Scavengers was in great danger this time, he didn't expect it to involve a powerhouse at the peak of the Immortal Level.

Unfortunately, before he saw it, he felt an unbearable itchiness in his body. Then, something began to take root and sprout in his body, producing some spiritual plants.

Furthermore, not only were these spiritual plants growing extremely fast, but their fire resistance was also too high. From the moment he was hit, he discovered that something was wrong with his body. These extremely vital demon plants were actually trying to devour his essence blood and even digest his body.

"Fire Burn, Flame of Chaos."

This person no longer attacked Chu Hao. Instead, he tried his best to erupt with terrifying flames, looking like he was about to burn himself up. However, under the power of this fire, the power of the seven-colored mystic light was gradually purified.

Chu Hao said in surprise, "The Flame of Chaos is rare. Such a kind of fire seed can be found in the Sea Realm."

Han Fei asked, "Why?"

Chu Hao said, "It's said that the Flame of Chaos is a strange flame that can only be picked at the beginning of the Age of the Gods. However, few people have lived from that era to this day. So, isn't it rare?"

"Oh! You mean the Fire of Chaos?"

Chu Hao shook his head. "Not exactly. The Fire of Chaos gave birth to all kinds of unusual flames, not just this one. However, these flames mostly have purifying effects."

With that, Chu Hao looked into the void. There, a girl wearing dark blue lipstick and pink-blue eye shadow walked out of the void.

The girl looked at the Ten Thousand Scale Race powerhouse with disdain. She said, "I hate people playing with fire the most. Hey, big guy, as an immortal-level powerhouse, don't you have a conscience for attacking weaklings like them?"

The Ten Thousand Scale Race's immortal-level powerhouse retreated quickly and frowned, thinking that this woman couldn't be weaker than him. Otherwise, why didn't he notice her when the other party was close?

He said, "I'm Gao Yuhuo, a subordinate of the Ten Thousand Scale Monarch of the Ten Thousand Scale Race. Who are you? Why do you meddle in the affairs between the Ten Thousand Scale Race and the human race?"

However, the person didn't seem to hear Gao Yuhuo's words. Instead, she looked at Han Fei and smiled. "I thought about your proposal. Fine, I accept your proposal. At the same time, for the sake of those two little bugs, I can only come personally."

The person who came was naturally Li Luoluo, but not for free. The conditions were very simple, the Time Worm and the Space Worm.

Han Fei had thought that it shouldn't be difficult to go back to rescue Old Han and his mother. If he had known that this was a trap of the Time Temple, he really wouldn't have dared to use this to exchange for Li Luoluo's help.

Han Fei nodded slightly and said, "Actually, my proposal is the most important. I think you should come even for that proposal."

Li Luoluo curled her lips. "Alright! For the sake of your proposal, I'll stand up for you today."

Han Fei shook his head. "Only standing up for me is not enough."

"Hmph!"

Han Fei and Li Luoluo chatted and ignored Gao Yuhuo, causing the other party's expression to be extremely ugly, but he could only snort coldly.

Upon seeing this, Han Fei sneered at Gao Yuhuo and said, "Why, speechless? Didn't you say you were going to kill us all just now? I gave you a suggestion to wait a little longer, but you didn't listen. Look, now you're injured, right?"

Judging from Gao Yuhuo's expression, Han Fei knew that he was injured. But it didn't matter. After Gao Yuhuo, eight Monarchs walked out, all of whom were Carefree Level powerhouses.

At this point, the corners of Han Fei's mouth couldn't help but twitch. So many Carefree Level Monarchs had appeared at once. Even if the Chaotic Wasteland had hidden strength, it couldn't be so strong, right?

Gao Yuhuo sneered. "Even if you can find an immortal-level powerhouse, do you think that the Ten Thousand Scale Race can be easily crushed by an immortal-level cultivator?"

The void was still trembling. After seven or eight seconds, as many as 13 Dao Proving Level powerhouses walked out.

Han Fei: "..."

To be honest, Han Fei was dumbfounded. He couldn't help but look at Gu Tingnan. Gu Tingnan thought to himself, I didn't know they had so many strong masters. How can I be blamed for this?

Gao Yuhuo snorted coldly. "Now, I don't know if you still have the confidence to say this."

Han Fei was speechless. Did the City of Scavengers send out all the strength they had accumulated over the years?

He was even more surprised. How many Monarchs had the Ten Thousand Scale Race cultivated over the past hundreds of thousands of years?

Even if every major faction in the Sea Realm had hidden strong masters, there shouldn't be so many! He believed that there should be many Sky Opening Realm powerhouses in the City of Scavengers. Excluding those in the so-called transit area, there might be between 100,000 to 150,000 Sky Openers who could return.

However, even with this ratio, how many Monarchs could be born? The Sky Opening Realm had multiple levels. Only more than one-tenth of them could really reach the Perfected Star Transformation Realm. Even if there were really tens of thousands of Perfected Star Transformation Realm cultivators in the City of Scavengers, now that one Immortal Level powerhouse, eight Carefree Level powerhouses, and even 13 Dao Proving Level powerhouses had appeared, plus the five who had died previously and the captured Ning Tianlong, there were as many as 28 Dao Proving Level powerhouses.

Chapter 2710: Monarchs Gathered (3)

2710 Monarchs Gathered (3)

There were twenty-eight Monarchs. Han Fei couldn't help but think that even the Divine Capital Dynasty only had a dozen Monarchs. Could it be that the City of Scavengers had more Monarchs than the Divine Capital Dynasty?

Han Fei looked at Gu Tingnan, who shook his head slightly. "I've already sent a message."

Han Fei's face darkened. What was important was not the thirteen Dao Proving Level powerhouses, but the eight Carefree Level powerhouses. This realm couldn't be underestimated. The Carefree Level

powerhouses were so powerful that the Beast King, Gu Tingnan, and Liu Qiansi couldn't kill one Carefree-Level Monarch even if they worked together. They had to rely on Chu Hao to kill him.

Now, the other party had eight Carefree Level powerhouses at once. Their current strength was naturally not enough.

Gao Yuhuo said, "Humans, I'll give you a chance now. Hand over the entire human race. Otherwise, all those who came today will stay!"

After that, Gao Yuhuo looked at Gu Tingnan. "Since the City of Wanderers is so disobedient, there's no need for it to exist from today on."

"Heh!"

Han Fei sneered and shook his head helplessly. Then he looked at Li Luoluo. "Call them out! I'm here to win a battle. I'm not interested in playing a game where less wins more."

Li Luoluo: "That's not enough!"

But around Li Luoluo, a world phantom descended, and five ferocious beasts appeared at once. Two of them were a black bear and the silver fox, who were Carefree Level powerhouses. The other three were all at the Dao Proving Level.

This wasn't all the Monarchs of the ferocious beast lineage, but it was impossible for Li Luoluo to really bring all the Monarchs of the ferocious beasts. Han Fei felt that it was already not bad to bring so many over.

"The ferocious beasts?"

Gao Yuhuo's pupils were constricted slightly. Shouldn't the ferocious beasts and divine beasts be in the Infinite Mining Area? How could they participate in the war in the Chaotic Wasteland?

Gu Tingnan was surprised. He knew the relationship between Han Fei and the Emperor Sparrow, but he didn't expect that Han Fei could really invite so many strong masters of the ferocious beasts.

At this time, the Emperor Sparrow hadn't grown up yet. Wasn't it like asking a tiger for its skin to cooperate with the ferocious beasts?

The Beast King, on the other hand, looked a little excited. He seemed to have found his home. He had been so lonely for so long that he had forgotten that he was a beast.

After Han Fei and Li Luoluo finished speaking, he cupped his hands at the void. "Your Majesty, please."

Although he didn't know if the Queen of Horror was here, Han Fei felt that she should be. Even if it was for Senior Brother Azure Dragon's sword, the Queen of Horror wouldn't be absent.

Sure enough, the void rippled, and a graceful figure stepped out of the void. She wore a black dress and bright red wristbands, and behind her was a girl. It was Wushuang.

Gao Yuhuo's face changed again. What a strong vibe! This vibe is even stronger than mine!

"Another immortal-level cultivator?"

Gao Yuhuo was shocked. He knew that this woman was not an ordinary immortal-level powerhouse because she was making his hair stand on end.

He didn't understand when the human race had the ability to find so many strong masters to stand up for them.

Initially, Gao Yuhuo thought that he could definitely suppress Han Fei, but the other party had called over two immortal-level powerhouses and Chu Hao, who was as strong as an immortal-level powerhouse. As for the top powerhouses, he couldn't take the upper hand at all.

Gao Yuhuo couldn't guarantee which of one Immortal-Level cultivator and eight Carefree-Level ones was stronger, but it was entirely possible for an Immortal-level cultivator to hold off eight Carefree-Level Monarchs.

The Queen of Horror said, "I only represent myself, not the Capital of Horror. Wushuang is here to broaden her horizons and will at most participate in the Dao Proving Level battle."

Han Fei cupped his hands. "Thank you, Queen."

After that, Han Fei looked at Wushuang. "Have you proved your Dao?"

Wushuang smiled. "I just proved my Dao a year ago."

Han Fei said, "Congratulations."

Wushuang nodded slightly, indicating that she accepted Han Fei's congratulations.

Gao Yuhuo frowned. The Capital of Horror? The Capital of Horror is so far away from the Chaotic Wasteland, yet it still wants to meddle in the matters of the Chaotic Wasteland?

Gao Yuhuo said, "Since you're a powerhouse in the Capital of Horror, you should know something about the Chaotic Wasteland. Do you really want to fall out with our Ten Thousand Scale Race? If you do, I'm afraid you're not qualified."

The Queen of Horror smiled. "It's none of your business. I'll skin you alive if you say one more word."

A weird flame suddenly burned on Gao Yuhuo's body. In this situation, he didn't know how to fight. If they really fought, the consequences would be unimaginable.

Even if they could resist it in the end, the City of Scavengers would be destroyed. More importantly, there were several immortal-level powerhouses on the other side. He felt that he might not be able to resist them.

At this moment, the void behind Han Fei and the others trembled. It was the teleportation channel where Han Fei came.

Everyone looked at the fluctuation, only to see Jiang Linxian, Han Guanshu, Ning Tianlong, An Bailin, and An Feng coming.

The Grand Elder of the Lava Giant Tribe and Elder Fire Spear came too.

Han Fei was surprised. "Old Han, you..."

Han Fei suddenly realized that it was the right time. The third fish had come.

Jiang Linxian smiled and said, “Fei’er, after all, we are still members of the human race. We may not be able to directly influence this war, but it won’t be a problem to stop a few strong masters of the same level as us.”
