Chapter 2731: Put Ten Thousand Scale Monarch on the Spot (4)

2731 Put Ten Thousand Scale Monarch on the Spot (4)

In addition to the Sky Openers, there were a total of 70,000 Sea Establishing Realm soldiers, including 3,400 people from the City of Wanderers, 466 from the Chaotic Wasteland, and 119 from the Raging Sea.

As for the number of Venerables, there were as many as 24 million.

And there were hundreds of millions of Explorers.

When so many people appeared above the City of Scavengers, the entire City of Scavengers was almost covered.

Down below, in the City of Wanderers, everyone was on guard. The death of more than 130 Monarchs had killed all the Sky Opening Realm powerhouses in the City of Scavengers.

Therefore, facing so many strong masters of the human race at this moment, many people were almost desperate. Because the City of Scavengers had limited space, not all the Sky Opening Realm powerhouses released the people in their Origin Stars.

As a result, the City of Scavengers was not only suppressed in the number of Sea Establishers, but also equaled the human race in the number of Venerables. Perhaps they had a million people more than the other party, but in front of this huge population, a million people was not a lot.

More importantly, their Sea Establishers and Explorers were no match for the humans at all.

And could these Sea Establishers just sit by and watch their Venerables die? Of course not, so Sea Establishers would definitely be involved in the battle of the Venerables.

Not to mention the people in the City of Scavengers, even the human powerhouses released by Han Fei were also stunned. When had they ever fought a war of this scale?

Han Fei shouted, "My fellow humans, the Ten Thousand Scale Race that oppressed and enslaved you in the past is right below. This huge City of Scavengers has enslaved you for 100,000 years. Now, it's time to fight back. Everyone, find your own battlefield and fight your own battles. This battle is a battle to take back the dignity of the human race. This is a battle for your revenge. This is a battle to break your inner demons. This is a critical battle on your cultivation paths. If we win this battle, our human race will be invincible... And I, I have my own battle too. I want to tell all the races in the world that whoever offends our human race... will... be... killed..."

Han Fei roared the last sentence. His voice shook the sky and the earth like thunder, exploding in everyone's ears.

"Long live the Human Emperor."

"How many years has it been? Our human race can finally take revenge."

“The Ten Thousand Scale Race enslaved our human race. They deserve to die.”

“We must win this battle. We can’t lose. Master Human Emperor has already won too much for us. We will definitely not let him down.”

“Kill!”

“Ula~”

At this moment, Han Fei looked at the Ten Thousand Scale Monarch. “As I said, I hate being threatened the most. Do you still have any cards?”

The Ten Thousand Scale Monarch’ face changed greatly. He didn’t have any cards left!

This time, he was defeated. He guessed that Han Fei might have a trump card, and he was sure that this trump card was definitely not a god. Otherwise, there was no need to fight. He would just surrender.

Therefore, he thought that even if Han Fei’s trump card was a Great Monarch, so what? Logically speaking, it was impossible for him not to sense it.

Once he noticed it, it was impossible for the other party to break into the City of Scavengers under his nose, kill so many Sky Opening Realm powerhouses, and snatch his chips.

However, he really didn’t expect that this divine beast tiger and fox didn’t appear from the void. They actually appeared from the bodies of two Sky Opening Realm powerhouses.

But even Great Monarch-level powerhouses couldn’t find the Origin Stars of a Sky Opening Realm powerhouse so quickly! Therefore, there could only be one result, which was that the two people who died first weren’t actually murdered. They voluntarily used themselves as a bridge to pass through the quagmire of the Sea of Stars, detonate their Origin Stars, and create a void channel. And Great Monarch-level powerhouses, or all Monarch-level powerhouses, could actually descend through this channel.

This was something that the Ten Thousand Scale Monarch never expected. He didn’t expect that someone else’s puppet would be right under his nose.

However, it was too late for regrets. His chips were gone, and Han Fei certainly wouldn’t stop now.

The Queen of Horror, who had been watching the whole time, was amazed. This was the first time in hundreds of thousands of years that the human race had shown its powerful strength. She was also surprised that the divine beasts and the ferocious beasts cooperated. This was simply unheard of. These two powers had always been at odds with each other but now this iron rule was broken because of Han Fei, it undoubtedly made her feel that she had made the right decision.

At this moment, the Ten Thousand Scale Monarch’ expression gradually turned indifferent, and his voice became thick. “The current Human Emperor, it seems that you want to fight to the death with my City of Scavengers?”

“Heh ~”

“You’ll die, but I won’t.”

Han Fei stepped into the void and walked in the direction tens of millions of kilometers away unhurriedly. As he walked, he said, “Now, the Ten Thousand Scale Race has two choices. The first is to start a full-scale war. You think that as a Great Monarch, you might be able to fight me, right? However, let me put it bluntly, if you choose this path, you will definitely lose. My Human Emperor Path has basically been completed at this moment. The human race has regained hope and will definitely rise. As for me, Han Fei, the current Human Emperor, the master of the Emperor Sparrow, and the disciple of the Void Temple, even if I can’t beat you, I can kill you.”

God of Fishing

Chapter 2732: Put Ten Thousand Scale Monarch on the Spot (5)

2732 Put Ten Thousand Scale Monarch on the Spot (5)

“Huh ~”

The Queen of Horror’s heart did a flip. Why did Han Fei introduce himself? Logically speaking, it was unnecessary! Since she knew Han Fei, although he had been high-profile, he had never been as high-profile as now.

Something must be wrong. The Queen of Horror looked at the billions of human powerhouses and seemed to understand something. Why did Han Fei destroy the City of Origin? Why did he fight to the death with the Ten Thousand Scale Monarch? Why did he announce his identity in such a high-profile manner?

He even asked her to come over because he wanted to use her mouth to spread what happened in the Chaotic Wasteland today. He wanted to use the name of the Void Temple to protect the human race.

Li Luoluo clicked her tongue in wonder. “Sure enough, he’s still the same. When he’s high-profile, he can be really high-profile.”

The Ten Thousand Scale Monarch suddenly glared at Han Fei. He seemed to understand something. Why did the Capital of Horror take action? Why did the divine beasts and the ferocious beasts temporarily join forces? Why were so many Monarchs gathered today?

The reason was that Han Fei was the disciple of the Void Temple.

The Ten Thousand Scale Monarch didn’t doubt Han Fei’s identity as a disciple of the Void Temple. Han Fei didn’t want to lie to him about this.

The Ten Thousand Scale Monarch asked, “What about the second option?”

Han Fei said, “The other way is to send someone out to fight me one by one. I want them to fight me one by one. Otherwise, I won’t be able to fight them. I’ll let go of anyone who can survive my attacks.”

The Ten Thousand Scale Monarch knew what Han Fei was thinking. Han Fei wanted to kill the strong masters of the Ten Thousand Scale Race one by one to better complete his foundation for Dao Proving.

In fact, in the eyes of the Ten Thousand Scale Monarch, Han Fei should already have the ability to prove Dao after saving all human beings. However, Han Fei was obviously not satisfied. He wanted to push his Human Emperor Path to a new height. Although he had never walked the Human Emperor Path, he was

also a peak powerhouse of a race. He had once used the power of faith too, but the route he took was different from Han Fei's.

Ten Thousand Scale Monarch looked at the two divine beasts and then glanced around. The other party now had a Great Monarch. Including Chu Hao, they had three and a half Immortal-level Monarchs. Although they didn't have many Carefree-Level Monarchs, one Immortal-level Monarch was enough to crush all the Carefree-Level Monarchs. As for Dao Provers, he didn't consider them because it was actually very simple to kill Dao Provers in a chaotic battle of this level.

Not every Dao Proving Level cultivator had so many trump cards like Han Fei. No matter how strong they were, they couldn't exert the power of the Carefree Level. Therefore, in this battle where even Great Monarchs were involved, they could only be cannon fodder.

Even so, he wasn't sure if Han Fei still had any trump cards.

The Ten Thousand Scale Monarch said, "Don't tell me you want to fight me."

His words were full of disdain.

Han Fei smiled casually. "Yes! I admit that I can't beat you. You're a Great Monarch, while I'm only in the Perfected Star Transformation Realm. Even if I use all my strength, I might not be able to hurt you at all. However, it's none of your business. Do you dare to kill me? Like I said, except for those at the Dao Proving Level, anyone can fight me one-on-one. It's my business who I can fight. If you don't accept my challenge, we can only start a group battle. You can choose either path."

The Ten Thousand Scale Monarch said gloomily, "Do you think I'll believe you?"

Han Fei said, "I'm the dignified Human Emperor. How can I go back on my word? Of course, I'll fight my peers. The Sky Openers will fight the sky openers, the Sea Establishers will fight the Sea Establishers, and the Venerables will fight the Venerables. This is a race war. Do you think I'm kidding?"

Chapter 2733: Killing Four Monarchs in a Row, Congratulations to the Human Race (1)

2733 Killing Four Monarchs in a Row, Congratulations to the Human Race (1)

The conversation between Han Fei and Ten Thousand Scale Monarch echoed in the void. He wanted everyone to hear it. Otherwise, how could he show his strength and collect the power of faith?

When he saved the humans in the Chaotic Wasteland and slaughtered the people in the cities under the City of Scavengers one after another, Han Fei had deeply realized the change of power of faith. This was an indescribable power. It was not the power of the Heavenly Dao or the law of the Great Dao, but more like a power that stimulated the potential of different races.

In other words, this power could stimulate the potential of a race and even transfer this potential to one person.

This phenomenon was terrifying. With the potential of an entire race to help him cultivate, he naturally became the strongest of this race.

Therefore, cultivating with the power of faith could make rapid progress. Besides, when he cultivated with the power of faith in the past, it would cause his foundation to be unstable if his cultivation speed was too fast. But now, Han Fei had already cultivated the Supreme Divine Technique of the human race and the Godfiend Formless Technique. This could directly resolve this problem. This meant that if he proved Dao, his cultivation speed would only be even faster.

Before the power of faith condensed into a bead, Han Fei didn't have this feeling. But now, the power of faith condensed into something like a pill bead in his body. Han Fei felt that once he released the power in this pill bead, he would probably immediately have to face the Monarch-level Tribulation.

At this moment, Han Fei looked extremely domineering, launching a challenge to the Ten Thousand Scale Monarch as a victor. At least, that was what everyone present thought.

However, only Han Fei knew that he hadn't finished his Human Emperor Path yet, but he couldn't show it.

He had saved the human race and restored their hope. This time, the war in the City of Scavengers was their war. Only after experiencing the baptism of fire and killing their former enemies would their trial be over.

As for Han Fei, he had only walked 70% of the Human Emperor Path. This 70% was to subdue the human race, ignite their hope, and complete their trial.

Han Fei felt Old Han's gaze, who smiled and nodded.

Here, only Old Han and his mother knew Han Fei's real purpose. Han Fei crossed back in a second, looked at the Million Scales Emperor proudly, and said indifferently, "What's your choice?"

The Ten Thousand Scale Monarch looked solemn. Han Fei was trying to exterminate the Ten Thousand Scale Race and cut off his path.

If a full-scale war broke out, he would definitely have no chance of survival. If the Void Temple really wanted to hunt him down, even if he escaped to the Sea of Stars, he wouldn't be able to escape their pursuit.

As for the second option, this was really evil. Choosing this was equivalent to giving up the entire Ten Thousand Scale Race. However, he might still have a chance to survive.

This was because as the dignified Human Emperor, the ruler of hundreds of millions of humans, and the spiritual leader of the human race, he couldn't go back on his word.

Besides, there were so many Monarchs watching here.

Besides, no matter how many trump cards Han Fei had, the Ten Thousand Scale Monarch thought that he could only beat Immortal-level cultivators at best. What could he use to fight those above the Immortal level?

Even with his entire brainpower, the Ten Thousand Scale Monarch couldn't imagine how a Perfected Star Transformation Realm could kill an Immortal-level Monarch. Even if the power given to him by a god could give him the combat power of an Immortal-level Monarch, it wouldn't work. This was because

Han Fei didn't have the comprehension of the Immortal level at all. He didn't know how powerful the power of the law of this realm was.

It was even more impossible for Han Fei to have a treasure of the Great Emperor realm. There was a critical step between the Immortal Level and the Great Emperor realm, which was the Divine Path. To be able to enter the Great Emperor realm meant that one's Divine Path had been confirmed and he had already embarked on it.

In the early Age of the Gods, Monarchs were all at Immortal level. It was not until later that the Great Monarch Realm was derived. Therefore, could the Great Monarch level be classified as a demigod level? No power could allow mortals to have the power of a demigod, not even gods.

"Then let me see what level you can reach."

In the end, the Ten Thousand Scale Monarch compromised. He had no choice. Han Fei had blocked all paths. His only way out was to abandon the Ten Thousand Scale Race.

But as long as he didn't die, even if the Ten Thousand Scale Race was wiped out, it would only increase the difficulty of his divine tribulation. This was because his path was different from Han Fei's. Han Fei took the Human Emperor Path. If the human race was gone, Han Fei's path would be severed, and he would definitely suffer a catastrophe during his tribulation.

And his path didn't lie with the Ten Thousand Scale Race, but with himself. Therefore, he could afford the price of the Ten Thousand Scale Race's destruction.

Han Fei grinned and suddenly closed his eyes. On Han Fei's Origin Star, there were trillions of human beings, most of them from the Raging Sea.

Compared to the humans in the Chaotic Wasteland, the humans from the Raging Sea could actually provide more power of faith. This was because their population was so large that any faction in the Sea Realm would be tempted.

At this moment, these people were all discussing.

"Unfortunately, I'm too weak to even participate in the battle. If I were an Explorer, I could go out and participate in the battle!"

"Nonsense. I'm an Explorer, a peak-level one. Did I go out? Master Human Emperor mainly let those people in the Chaotic Wasteland go out. After all, it's only satisfying to take revenge personally."

[God of Fishing](#)

Chapter 2734: Killing Four Monarchs in a Row, Congratulations to the Human Race (2)

2734 Killing Four Monarchs in a Row, Congratulations to the Human Race (2)

"That's right. The humans in the Chaotic Wasteland have been enslaved for 100,000 years. How much hatred do they have! Let's not snatch this chance from them."

"Of course not. It's a pity that we don't have the chance to witness the victory of the human race! I really want to see how powerful Master Human Emperor is."

“Heh! Can you understand it even if he shows you? What level is Master Human Emperor at? I heard that he has even slain Monarchs. Do you know what the Monarch realm is? Master Human Emperor is the only one who can do that in the entire Raging Sea.”

“Alas! That doesn’t seem right. I heard that Master Human Emperor is still an Emperor, but he can kill Monarchs.”

“Who did you hear that from?”

“Oh, those tall and mighty lava giants! They’re easy to communicate with. They even chased us and asked us to tell them stories.”

“Tsk, really? They look so intimidating. I didn’t even dare to come into contact with them.”

“Hey, they’re easy to get along with.”

Just as these people were discussing these messy things, they suddenly saw a mirror-thing scene in the sky, which showed what was happening in the outside world.

“Huh? Where is this?”

“Is this the outside world?”

“Is this the Sea Realm?”

“Why does this place look so barren?”

“Barren my ass! Do you know how many resources those guys who participated in the battle snatched? In just four days, they snatched resources that the Raging Sea couldn’t have accumulated for ten thousand years, and you’re telling me it’s barren?”

“Huh? There are still people outside. I don’t know them.”

“Heh, how can you know such powerhouses?”

Suddenly, Han Fei’s huge face appeared between the heavens and earth.

“Master Human Emperor?”

“Is Master Human Emperor willing to let us out?”

Han Fei said, “My fellow human beings, I said that I would show you the strength and potential of the human race... Now, I’m going to start slaying Monarchs. I’ll reflect the images of the outside world here. I might lose or die in this battle, but I want you to know that the human race has an unyielding will, an invincible faith, and a fearless heart. I hope that all of you can uphold hope and advance forward bravely to fight for the rise of the human race... My name is Han Fei. As long as I have one last breath, I will never give up my ambition...”

Han Fei’s words sounded resolute, which might be a farewell to everyone.

The people in the Origin Stars were wondering if Han Fei was going to lead them to attack, but they didn’t expect to hear this.

At that moment, everyone had a bad feeling, and their faces became extremely solemn. They thought that the Human Emperor must have encountered an extremely dangerous situation, or he wouldn't have motivated them in such a way. In fact, to them, Han Fei's words sounded more like his last words.

Instantly, countless people burst into tears.

"Master Human Emperor, we will not let you down."

"Master Human Emperor, as long as there is life, there is hope. We have plenty of opportunities. You don't have to risk your life this time!"

"Master Human Emperor, we're willing to fight. Even if we die, so what? When has our human race ever been afraid?"

"Master Human Emperor, you must win!"

"Master Human Emperor, we're still waiting for you to lead us to create a glorious world for the human race."

"Master Human Emperor..."

For a moment, all the human powerhouses in the Origin Star felt sad.

Someone said, "Cheer up. Master Human Emperor is fighting for us. We should believe in Master Human Emperor. Master Human Emperor will definitely win."

"Master Human Emperor, you must win!"

"Victory!"

Instantly, a tsunami-like sound echoed in the Origin Star, cheering Han Fei on.

Even the Hexagon Starfish was moved by Han Fei's words. Is this bad guy really in danger?

The Hexagon Starfish also shouted, "You haven't given me any treasure yet. You haven't found Xia Xiaochan yet. You can't die!"

Little did the people in the Origin Star know that their shouts turned into wisps of power of faith and condensed in Han Fei's body. The latter was smiling faintly.

Sure enough, humans were very emotional creatures. With just a few words, his power of faith soared again. If this went on, the bead of power of faith should be able to grow even stronger, right?

Opposite Han Fei, there were a total of two Immortal Level powerhouses, ten Carefree Level powerhouses, and 18 Dao Proving Level powerhouses.

Including the Ten Thousand Scale Monarch himself, there were 31 Monarchs in total, including the four levels in the Monarch realm.

And Han Fei had previously said that the Dao Proving Level powerhouses didn't need to fight him one-on-one. Therefore, at this moment, the 18 Dao Proving-Level Monarchs were all gathered together and seemed to be preparing to launch an attack at the same time.

Han Fei stepped in the air, step by step, extremely firm. Five locks appeared on his body.

Crack... Crack... Crack...

The five locks shattered one after another, and Han Fei's momentum was also rapidly increasing.

When the fifth lock was broken, Han Fei's body glowed faintly.

“Buzz ~”

Han Fei looked at the sky. At the moment the Dao Lock was broken, he felt that his Monarch-level Tribulation was approaching. However, at this point, he didn't care anymore.

At this moment, Han Fei felt that he had never been so powerful. His basic combat power had already reached the upper limit of the Sky Opening Realm. His basic soul power had reached 99.99 Origins and the power of stars he had was the same.

[God of Fishing](#)

Chapter 2735: Killing Four Monarchs in a Row, Congratulations to the Human Race (3)

2735 Killing Four Monarchs in a Row, Congratulations to the Human Race (3)

This was already stronger than the weakest Dao Proving Level powerhouses.

However, this was not enough. He activated his Original Great Dao, and the aura on his body soared six times again.

Han Fei waved his hand, and the God Slaying Boxing Gloves appeared on his hands. Then, every time Han Fei raised his foot, golden ripples could be seen. It was an act of power accumulation.

The eighteen Dao Proving Level powerhouses knew that they had to fight. Although they didn't know Han Fei's true combat power, they knew that this person was not to be trifled with judging from the tone with which he spoke to the Ten Thousand Scale Monarch.

These people looked at each other. They knew that they couldn't let Han Fei accumulate power anymore.

Suddenly, one of them shouted, “Kill.”

These Dao Proving Level powerhouses didn't dare to hold back. This was a critical battle concerning their survival. Instantly, 18 powers of laws covered this space.

At the very least, they were at the Dao Proving Level. Different from Sky Openers, they had the power of laws. In theory, they could completely crush Sky Openers.

However, Han Fei clenched his fist and punched out. Looking at this from Han Fei's Origin Star, everyone felt that the punch was launched by him.

Although everyone only saw a huge and dazzling fist light, if they took a closer look, they would find that wherever the punch passed, the void shattered and everything fell silent. Furthermore, the fist mark became bigger and bigger. It was not a fist mark but a collapsing star.

Bang! Bang! Bang!

The invisible power of laws in the space around Han Fei was shattered, and none of them could shake Han Fei's World Destruction Fist.

The onlookers all held their breath, wondering if they were Han Fei's match.

The Queen of Horror looked at the shocked Wushuang and said, "Do you see that? This punch is almost as powerful as that of a Carefree Level powerhouse. In a normal battle, none of these Dao Proving Level cultivators can withstand a single blow from him."

Wushuang said, "It seems that he can ignore those laws and even shatter them."

The Queen of Horror nodded. "Otherwise, how do you think he dares to challenge the Ten Thousand Scale Monarch? Without such a method, it would be difficult for him to even kill a Dao Proving Level cultivator, let alone face 18 Dao Proving Level powerhouses at once."

Seeing that Han Fei could break the encirclement of their 18 powers of laws in a row even though he didn't have any power of the law, the 18 Dao Proving Level powerhouses knew that they couldn't shake him with the power of laws, so they started to use great techniques. No matter how strong Han Fei was, he was alone. How could he block the intense bombardment of 18 people alone?

The eighteen people joined forces and launched many great techniques. The fist light, spear light, knife light, and sword Qi combined. Even a divine technique couldn't destroy the impact of so many strong masters at once.

Rumble!

Every time the eighteen powerful attacks impacted the World Destruction Fist, they caused the void to shake and one after another impact ripple was formed in the void.

Even after the World Destruction Fist was penetrated, some of the remaining power still hit Han Fei.

"Yin-Yang Great Millstone."

In front of Han Fei, a reversing black-and-white millstone appeared. The attacks were instantly shattered by the Yin-Yang Millstone.

"Yin-Yang Great Dao?"

The onlookers were all slightly shocked. The Great Dao of Yin and Yang was also an extremely powerful Great Dao. Just based on this path, Han Fei's talent had instantly killed countless people.

When these people's attacks were transformed by the Yin-Yang Millstone, Han Fei shouted, "Fuse."

And this time, Han Fei didn't fuse with Little Black and Little White. Instead, a pair of black wings grew out of his back. The moment this pair of black wings appeared, the fox demon, tiger demon, Li Luoluo, and other strong masters of the ferocious beasts all perked up.

"Emperor Sparrow?"

"Frenzying Eye."

As Han Fei glanced around, the other party's three people fell into madness. At the moment, Han Fei wasn't afraid of the backlash of attacking Dao Proving Level powerhouses, so the Frenzying Eye could completely affect these Dao Proving Level powerhouses.

The three of them went mad and began to attack randomly. Just this scene alone made the fox demon click her tongue in wonder. "As expected of the Emperor Sparrow. Although he hasn't proven Dao, he can instantly make three Dao Proving-Level Monarchs lose themselves. If he proved his Dao, he could probably make dozens of people below his realm go crazy."

The tiger demon said, "But his combat power is still not good enough now, and he has indeed become someone's Companion Spirit. I really don't understand why he chose to become a Companion Spirit."

The fox demon said, "Perhaps he has found the path to become a god? This might be an attempt. Furthermore, this Human Emperor is a disciple of the Void Temple. In terms of identity, he's not inferior to the Emperor Sparrow."

At the moment when Han Fei made the three people go crazy, he launched the Void Stealing Technique to activate their soul suppressing godly weapons.

In the blink of an eye, the moment the three soul suppressing godly weapons appeared, a Tai Chi Yin-Yang diagram appeared above one of them.

Puff, puff, puff!

As the Yin-Yang diagram revolved, this man's soul-suppressing godly weapon was crushed. Then, even the person was minced by the Yin-Yang diagram. At the last moment, a soul seemed to try to escape, but the Yin-Yang diagram revolved and ate it in one bite.

With Little Black's temper and ability, anything in the world could be his food.

[God of Fishing](#)

Chapter 2736: Killing Four Monarchs in a Row, Congratulations to the Human Race (4)

2736 Killing Four Monarchs in a Row, Congratulations to the Human Race (4)

Rumble!

A crack appeared in the sky. This meant that a Dao Proving Level powerhouse had died.

This was under the siege of 18 Dao Proving Level powerhouses. It was extremely difficult to instantly kill one of them.

In any case, exclamations were everywhere in Han Fei's Origin Star. Almost everyone was shocked.

The fist mark blotted out the sun. Even the trembling ripples could easily wipe out millions of them. This was from their first-person perspective in Han Fei's Origin Star. Even so, they could only barely see the fist mark. As for the attacks full of the sky, they couldn't see them clearly at all. They could only see colorful mystic light.

But anyway, there was a crack in the Great Dao, which represented the death of a Monarch.

"Master Human Emperor."

“Master Human Emperor is awesome!”

“Master Human Emperor is invincible.”

“Kill these b*stards!”

“...”

Countless people were excited and their admiration for Han Fei was indescribable. Especially the people born after Han Fei left the Raging Sea, their admiration for him was maxed out.

The power of faith came wave after wave.

However, Han Fei only had the time to kill one of the Monarchs. Although the other two were caught in frenzy too and their soul suppressing godly weapon appeared, Han Fei didn't have the time to kill them, because many people had already started to attack the Supreme Yin-Yang Diagram.

Although Little Black and Little White were extremely powerful now, they hadn't proven their Dao yet, so it was impossible for them to withstand the joint attack of so many strong masters.

With a thought from Han Fei, Little Black and Little White appeared above his head and then disappeared into his body, fusing with him.

After the fusion, the Yin-Yang Divine Eyes appeared, and Han Fei's killing intent soared.

“Steal, steal...”

Han Fei took the opportunity to steal the two soul suppressing godly weapons and wrapped them in the Star Sea Mystic Sand to suppress them. As the Star Sea Mystic Sand tightened, the two soul suppressing godly weapons were forcibly crushed.

Han Fei roared, “I am Human Emperor Han Fei. I just killed a Dao Proving Level Monarch of the Ten Thousand Scale Race...”

These words were naturally shouted to the humans from the Chaotic Wasteland who were fighting at the City of Scavengers. Firstly, it was to reassure them that it wasn't he who died, and secondly, it was to motivate them and increase their fighting intent.

Sure enough, after hearing Han Fei's words, the humans from the Chaotic Wasteland were all overjoyed. How long had it been? Their battle hadn't even started yet, but the Human Emperor had already killed a Monarch of the Ten Thousand Scale Race. What could be more exciting than this?

They had always thought that there was only one Monarch in the City of Scavengers. But it seemed that this was not the case at all. But in any case, the Monarchs that they couldn't reach and could only look up to couldn't last more than a few seconds under the hands of the Human Emperor. This made them feel the power of this Human Emperor for the first time.

After Han Fei shouted, the Monarchs of the Ten Thousand Scale Race rushed over. Only the two Monarchs who were caught in frenzy didn't know whom to fight.

Seeing these people rushing over, Han Fei suddenly slashed All Great Daos in One Sword at the void with one hand and the Primordial Dao Sword with the other.

These Monarchs of the Ten Thousand Scale Race wanted to block it, but suddenly, the two swords disappeared into thin air.

At this moment, because Han Fei was not a Monarch, he had no time to launch other techniques to counterattack after the two slashes.

And the techniques of the dozen people had already arrived. He could only use the Star Sea Mystic Sand to block them.

Bang! Bang! Bang!

“Puff! Puff! Puff!”

After only half a round of impact, the Star Sea Mystic Sand was penetrated, and the remaining techniques bombarded Han Fei almost at the same time.

“Pfft!”

Han Fei spewed out a mouthful of essence blood, and he was instantly drenched in blood.

This scene made the hearts of countless people in his Origin Stars tighten.

However, the Dao Provers of the Ten Thousand Scale Race were all dumbfounded. He was fine? Logically speaking, if it were anyone else, he would have been blown up under this round of attacks, but Han Fei was only injured on the surface. This meant that Han Fei’s physique was stronger than they had imagined.

But at this critical moment, Han Fei suddenly grinned. The person closest to him suddenly changed his expression. He felt that someone was depriving him of control of his body.

At the moment when the Monarchs attacked, Han Fei caught one of them with the Void Lines and punched out with the Invincible Fist Art, the Dao of Slaughter God, and the Ragnarok.

The person closest to Han Fei couldn’t move at all and was punched to death.

However, the Monarchs had already approached Han Fei, and three of them suddenly unleashed some kind of extraordinary power, which was a sign of activating a divine technique.

They wanted to get close to Han Fei and catch him in one fell swoop.

But at this moment, the two swords that Han Fei slashed out just now suddenly appeared out of thin air, pierced through these two people without any warning, and detonated.

Rumble!

Rumble!

Rumble!

Three Great Dao cracks appeared in a row, illuminating the sky, indicating the death of three Monarchs.

Someone realized that something was wrong and hurriedly shouted, “It’s the Great Dao of Time. These two swords jumped in time...”

All the Monarchs were shocked. Wasn't he a disciple of the Void Temple? How could he know the Great Dao of Time?

But at this moment, they had already approached him. A divine technique had been activated. It was a sword of law, branded with the power of Dao patterns.

"Steal..."

However, the Void Stealing Technique directly stole this sword and attacked another person. As for Han Fei, he was hit head-on by another round of attacks from the ten of the Monarchs.

"Puff! Puff! Puff!"

Rumble!

Han Fei vomited blood again, but another Monarch was pierced by this divine-level sword of law and died on the spot.

"Tweet ~"

...

Hearing the cry of the Emperor Sparrow, these Monarchs were so frightened that they hurriedly retreated.

Unfortunately, nothing happened next. Instead, a healing pillar of light fell from the sky and landed on Han Fei.

The wounds on Han Fei's body were quickly repaired, and his slightly hoarse voice sounded again.

"My name is Han Fei. I just killed four Monarchs in a row. Congratulations to the human race..."

Chapter 2737: The Nine of You, Come At Me Together (1)

2737 The Nine of You, Come At Me Together (1)

"Roar! Roar, roar!"

"The Human Emperor will not be defeated. The Human Emperor is invincible."

Roar!

In Han Fei's Origin Star, everyone had been worried that Han Fei was seriously injured, but in the blink of an eye, the situation had reversed. Han Fei had killed four Monarchs in a row, which stunned them.

Although they didn't know how these Monarchs died, this didn't stop them from cheering for Han Fei. In the entire Origin Star, words could no longer express their excitement. At this moment, they were all roaring.

Wang Xiaojiu and the others swallowed hard.

The strong masters of the Lava Giants were also shocked. They knew that Han Fei was not weak, but they didn't expect him to be so strong. Furthermore, Han Fei's tough fighting style perfectly showed them what invincibility was.

The Lava Giants thought that their defense power was amazing, but now it seemed that no matter how amazing it was, it couldn't block the joint attack of 18 Monarchs.

The humans from the Chaotic Wasteland were also crazy at this moment. They were excited and couldn't control their emotions. In the end, they vented their excitement on the cultivators of the Ten Thousand Scale Race.

Among the onlookers, the tiger demon, the fox demon, and Li Luoluo weren't too shocked. After all, Han Fei had too many identity tags. He was a disciple of the Void Temple, the master of the Emperor Sparrow, and the emperor of the human race.

Therefore, it wasn't beyond their expectations that Han Fei could achieve such a result. It was a publicly acknowledged fact that the Void Temple had the strongest combat power among the Three Temples. Even if Han Fei was only at the Sky Opening realm, he hadn't disgraced the Void Temple.

In the audience, the Ten Thousand Scale Monarch looked very solemn on the surface, but he was secretly relieved. He admitted that Han Fei was strong and was indeed worthy of being a disciple of the Void Temple.

However, judging from the current battle situation, it was not easy for Han Fei to destroy a team of 18 Dao Provers. He could fight, but could he kill a Carefree Level cultivator like this? Of course not. The difference between a Carefree Level cultivator and a Dao Proving Level one was huge.

Even if Han Fei could kill two or three Carefree Level cultivators in a row with his peak combat power, so what? Could he kill ten in a row?

If he couldn't even defeat the Carefree Level cultivators, how could he fight an Immortal Level one?

As for Gu Tingnan's side, they could only marvel at Han Fei's strength. Only Liu Qiansi felt that this was normal. Han Fei had long had the ability to kill Monarchs. Fortunately, he followed him back then. Otherwise, there would have already been a lot of weeds growing on his grave.

Seeing this, Han Guanshu and Jiang Linxian just looked at each other. Han Guanshu said, "Your decision was wise. Sure enough, it was a breakthrough attempt to remove Fei'er's bloodline and transform it into a spiritual heritage. Facts have proven that without a bloodline, Fei'er can still be as strong as I was."

Jiang Linxian glanced at him. "Don't be narcissistic. Were you so strong back then? He took the path of extreme balance, but you only took the path of single extreme. You're not nearly as good as him at all."

"Hehe! If it weren't for the interference of those guys in the Soul Sea, I would have embarked on this path long ago."

Jiang Linxian nodded slightly and then said indifferently, "There will be a chance. Didn't we reincarnate for nine lives just for those eternal?"

...

At this moment, because the 18 Monarchs were not familiar with Han Fei's combat method, or rather, they had never encountered an opponent like Han Fei, five of them had died in a row, and two of them had even fallen into frenzy.

In the blink of an eye, there were only 11 of them left. This made these Dao Proving Level cultivators of the Ten Thousand Scale Race feel deep fear.

With Han Fei's physique and the legendary Emperor Sparrow as his companion spirit, it was impossible to kill him with normal approaches.

Therefore, someone shouted, "Everyone, let's die for the Ten Thousand Scale Race!"

Hearing that, everybody's heart skipped a beat. It was easier said than done!

But on second thought, if they were going to die anyway, what else could they do except risk their lives? Since they were going to die anyway, they might as well drag the Human Emperor down with them!

Someone sighed. "Everyone, we can't delay any longer. This person has also embarked on the path of Heavenly Enlightenment. For the Great Monarch and the future of the Ten Thousand Scale Race, I'll take my leave first."

One of them was covered in blood. His scale armor turned from dark green to scarlet, and his blood was burning. Between his eyebrows, the power of his soul was also burning, erupting with blue flames.

Behind him, a scale left his body with a crack.

Bang!

This person blew himself up and fused the power of his bloodline, soul, and life into the scale.

In the next moment, the scale turned into a saber beam, which contained everything of this person.

Han Fei's heart skipped a beat. This was no longer the power of the Dao Proving Level. This was definitely the power of the Carefree Level, and it wasn't ordinary Carefree Level combat power.

Han Fei immediately used the World Destruction Fist. At the same time, the Star Sea Mystic Sand condensed in front of him, and he chose to resist it head-on.

Clang!

The World Destruction Fist was shattered inch by inch under this blow. It was not because the World Destruction Fist was not strong enough, but because the gap between Han Fei and this person was too great. The other party was determined to kill him even if he died.

Therefore, when the World Destruction Fist was completely destroyed, the power of this blow seemed to have only been consumed by half. The Star Sea Mystic Sand turned into a sand cone in front of Han Fei, trying to block it. But at the same time, the Star Sea Mystic Sand also collapsed inch by inch.

[God of Fishing](#)

Chapter 2738: The Nine of You, Come At Me Together (2)

2738 The Nine of You, Come At Me Together (2)

However, the collapsed Star Sea Mystic Sand quickly condensed again and wasn't broken through. Han Fei tried his best. Blood kept flowing from the corner of his mouth as he forcibly used the power of the Star Sea Mystic Sand to lock down the power of this slash.

However, if one person couldn't take down Han Fei, what about the three of them? Two more people stood up and sacrificed themselves to slash at Han Fei.

"Huff~"

Inside Han Fei's Origin Star, everyone held their breath. Even the Hexagon Starfish's big flexible eyes stopped rolling at this moment, staring at the terrifying knife lights.

Just as the two saber beams were about to touch the Star Sea Mystic Sand, Han Fei suddenly reached out and grabbed a scimitar, waving it in the air.

In the next moment, the Star Sea Mystic Sand was pierced through and scattered. However, a crack filled with blue light appeared.

Swish! Swish! Swish!

Three consecutive Life-Risking Strikes sank into it and disappeared.

"Not good. This person sent our attack into time."

"It's the timeline. These three attacks didn't appear in the Time River. He directly cut through multiple timelines."

"How could this be possible?"

Han Fei continued to shout, "I am Human Emperor Han Fei. I've killed three more Monarchs of the Ten Thousand Scale Race for the human race! My fellow humans, release your anger and kill to your heart's content! The enslavement of the Ten Thousand Scale Race for a hundred thousand years must be repaid at the expense of the destruction of the Ten Thousand Scale Race."

When Han Fei shouted, these Dao Proving Level cultivators were all stunned. How could they fight him? They couldn't beat him in a head-on clash. In just a short moment, eight people had died.

Han Fei brandished the Blade of Hope and let it return to his body. This kind of unexpected combat method, once used, the other party would not be tricked again.

However, there were only 10 Dao Provers left now, including the two in a frenzy. However, the two were still looking for someone to fight. How much combat power could they have left?

But in the next moment, black light burst out of Han Fei's eyes, and one of the eight people suddenly attacked his companions.

"Hiss!"

The others all dodged, knowing that another person had been frenzied.

At this moment, they had run out of tricks. The three powerhouses of the Ten Thousand Scale Race in frenzy were attacking randomly, and there were only seven of them left that could still fight.

These seven people had to deal with the three people who were caught in a frenzy while facing Han Fei. Their combat power was obviously insufficient.

More importantly, they didn't dare to kill the three people who were caught in a frenzy, because they clearly sensed that with the current strength of the Emperor Sparrow, he could only cause the three of them to fall into a frenzy. Otherwise, the battle would have ended if he made them all fall into a frenzy and kill each other. Then there would have been no need to start a fight with Han Fei.

This was an unsolvable battle. They couldn't retreat or admit defeat. They could only bite the bullet and fight.

In the end, after half an hour, the remaining Dao Provers of the Ten Thousand Scale Race all turned into Great Dao cracks in the sky.

This couldn't be helped. Due to the limitation of their strength, they couldn't take down Han Fei at all. However, Han Fei had enough strength and means to kill them. It was just a matter of time for him to kill them all.

Therefore, after these people were completely wiped out, Han Fei stood proudly in the stormy void and said, "I am Human Emperor Han Fei. I've killed 18 Monarchs of the Ten Thousand Scale Race in total. Congratulations, the human race..."

On the side of the divine beasts, the fox demon rolled her eyes. "He could've ended the battle sooner, but he dragged it out and made himself seem miserable. Is he pretending to be pitiful in front of the human race?"

The tiger demon nodded. "Yes! Perhaps it's because he took the Human Emperor Path! There must be many people watching this battle in his Origin Star."

The fox demon said leisurely, "For the power of faith?"

The tiger demon said, "I don't know. I've never walked this path, but it should be for the power of faith."

On the Queen of Horror's side, Wushuang sighed. Seeing Han Fei kill Monarchs, she suddenly felt that her Dao Proving was not worth mentioning.

Even if she had already proven Dao, it was impossible for her to kill these eighteen Monarchs. But Han Fei had done it before he proved Dao, and his combat power didn't seem to be much damaged.

The Queen of Horror said, "Look! I asked you to seduce this guy, but you didn't. Tsk, tsk... Do you want to try again?"

Wushuang was speechless. "My queen, can you stop thinking about these things all day long?"

The Queen of Horror sneered. "You're just a fool. You don't know what's good for you when you're young. Girls always don't understand the good of men. Sigh..."

Wushuang: "..."

At this moment, Han Fei was experiencing the crazily increasing power of faith in his body. There was too much of it. The power of faith he collected after conquering cities and territories over the past few days had completely condensed into a glittering pearl in his body.

Han Fei felt that if he fused this power of faith into his Original Great Dao or his Star Core at this moment, he might gain unexpected gains. If he used it to prove his Dao, he felt that it could block at least two or three tribulations for him.

He had already killed all the Dao Proving Level cultivators. Han Fei glanced at the Ten Thousand Scale Monarch and then looked at the ten Carefree Level cultivators. The latter were all horrified. If it was a one-on-one battle, the result would be hard to say.

Han Fei looked a little hesitant. The speed of a Carefree-Level Monarch was fast, and his physique and soul were very strong too. Even if his strength doubled, he should only be comparable to a Carefree-Level Monarch at best. It was actually very difficult to fight them.

[God of Fishing](#)

Chapter 2739: The Nine of You, Come At Me Together (3)

2739 The Nine of You, Come At Me Together (3)

Back then, when he killed the cultivators from the Fist Sect in the Godfiend Sea, he used the Azure Dragon's Heaven-Defying Scales. At that time, it was a three against one fight, so he had no choice but to use it.

This time, he didn't intend to fight these Carefree Level cultivators one-on-one, but he wanted to try and see if he could kill a Carefree Level cultivator with all his strength.

At the same time, he needed to kill a Carefree Level without external help to let others see it.

Han Fei glanced at these Carefree Level cultivators, and the voice of the Emperor Sparrow sounded in his mind, Are you looking for trouble? So what even if you beat a Carefree-Level Monarch?

Han Fei said, "The news of today's battle will definitely spread. The higher realm I beat with my true strength, the safer the human race will be in the future. If I defeat a Carefree Level cultivator now, then after I prove Dao, even the Immortal Level cultivators won't dare to have any improper thoughts about the human race."

The Emperor Sparrow said, "Since you are a disciple of the Void Temple, even if you don't win, no one will dare to attack the human race."

Han Fei said, "It's different. The Void Temple isn't human. I can't keep using the Void Temple as my trump card. If someone uses this to waste the opportunity of the Void Temple helping me, I'll suffer a huge loss."

"Up to you! If you want to fight them one-on-one, I don't think you'll need my Frenzying Eye, right?"

The Emperor Sparrow's Frenzying Eye could now make three Dao Proving-Level Monarchs fall into a frenzy, and had a certain chance to do that to a Carefree-Level one, but it might not last long.

However, this was a show. If the other party fell into a frenzy and became defenseless, even if he killed them, no one would admit his true strength.

Therefore, he definitely couldn't use the Frenzying Eye. Han Fei said, "The Heavenly Fiend Battle Body can almost double my strength now. Just provide this power to me. I can withstand it."

As for Little Black and Little White, they could only provide him with the Yin-Yang Divine Eyes. With it, he could see through and predict the other party's attack method.

Han Fei said, "Come on! Who wants to be the first to die?"

In the Carefree Level, there were strong and weak. If Han Fei followed the one-on-one procedure, the Ten Thousand Scale Race would definitely send the weakest to fight him first. After all, they were all peak combat power of the Ten Thousand Scale Race. When facing a freak like Han Fei, it was best not to attack.

Even if they wanted to fight, they had to let the other Carefree Level cultivators consume Han Fei's combat power or spiritual power. This was because Han Fei's spiritual power was also consumed a lot when he crossed realms to fight. If he fought them one by one and fought to the last, who was also the strongest Carefree Level cultivator, he was very likely to lose.

Besides, the weaker Carefree Level cultivators could also test Han Fei's strength.

Therefore, in the Ten Thousand Scale Race, a Carefree Level cultivator who might have just had a breakthrough walked out. He didn't really want to come because the others were all stronger than him. He knew that they asked him to fight Han Fei first because they wanted him to wear Han Fei down, or to see Han Fei's methods clearly.

But he had to fight this battle.

The man said, "My name is Luo Zhansan from the Ten Thousand Scale Race. I'm in the early stage of the Carefree Level. I know you're strong, but since it's a life-and-death battle, I'll try my best to kill you."

When Luo Zhansan said that he would kill Han Fei, some of the onlookers shook their heads in their hearts. If he knew some history about the Emperor Sparrow, he wouldn't dare to say that he would kill Han Fei.

Regardless of whether he could beat Han Fei or not, even if he really killed Han Fei, he wouldn't be far from death. As the king of ferocious beasts, the Emperor Sparrow almost couldn't be killed.

Han Fei didn't dawdle. The sooner the battle on his side ended, the more advantageous it would be for the human race.

Han Fei pointed his fingers and slashed out a Formless Infinity Sword.

However, just like before, this sword disappeared the moment it was slashed out. It was just that this move had been used now. Everyone knew that this sword would jump through time and appear at a certain point in time.

However, when Han Fei slashed out the Formless Infinity Sword, many people present looked at him in admiration. Han Fei didn't probe his opponent but attacked with all his strength. This was a wise choice.

Then, Han Fei took out the God Shattering Scissors.

Luo Zhansan didn't waste any time. He knew that the more time Han Fei had to prepare, the more dangerous he would be. Just imagine, if dozens of divine techniques were launched from unknown points of time, even if he didn't die, he would be seriously injured.

The Carefree Level was very different from the Dao Proving Level. First of all, their speed was several times that of the Dao Proving Level. Luo Zhansan appeared beside Han Fei in the blink of an eye, trying to suppress Han Fei with speed.

However, he activated the Void Stealing Technique at the beginning. With a few pops, Han Fei vomited blood from his seven orifices and suffered a backlash. However, Luo Zhansan's speed plummeted. Without a word, Han Fei held the God Shattering Scissors and cut off Luo Zhansan's speed law.

As soon as the speed law was broken, Luo Zhansan could only use the speed of other laws. However, compared to the speed he was good at, it was naturally much slower.

And Luo Zhansan didn't choose to give up attacking because of the sudden drop in speed. He knew that the Emperor Sparrow had the ability to frenzy others, but his soul suppressing godly weapon was stronger than the others'. Besides, if the Emperor Sparrow could really frenzy him, then no matter how he attacked, it would be in vain.

Therefore, Luo Zhansan could only charge at Han Fei like a hothead.

[God of Fishing](#)

Chapter 2740: The Nine of You, Come At Me Together (4)

2740 The Nine of You, Come At Me Together (4)

However, the Frenzying Eye that he was always vigilant of didn't appear. Instead, Han Fei's body surged with a murderous aura. With the Heavenly Fiend Battle Body, his strength doubled. At this moment, his peak strength could reach eight times his basic combat power, which was nearly 800 points of star power.

First of all, in terms of strength and soul power, he was already comparable to a Carefree-Level Monarch, but his comprehensive combat power was still not enough.

Han Fei held the God Shattering Scissors in his hand and transformed them into the Formless Infinity Sword.

And Luo Zhansan was using a hammer. At this moment, a divine technique burst out. The power of the hammer seemed to push over from the world behind him. It was more like a world than a hammer.

Han Fei didn't show any weakness but continued to launch attacks.

When the Formless Infinity Sword fell on the giant hammer, suddenly, the Time Arcane Technique was activated, and the Formless Infinity Sword that Han Fei had just slashed out jumped out of time.

This was equivalent to Han Fei slashing out three Formless Infinity Swords at once, which was equivalent to performing three divine techniques.

Clang!

Clang!

Clang!

The shadow of the giant hammer that occupied half of the sea was cut apart by the three Formless Infinity Swords, but the result of the confrontation was not ideal. It was equivalent to the outburst of three divine techniques. After cutting off this hammer, there was only one left, and this was after he had used the Ragnarok to break the power of the other party's law.

As for the last Formless Infinity Sword, when it arrived in front of Luo Zhansan, although Luo Zhansan was forced to retreat 100,000 miles by this sword, the Dao Pattern Mystic Armor that appeared on his body lasted for a full second before shattering. Then, a divine-level armor appeared on his body. It was at least a high-quality godly weapon-level armor, but it was half broken.

However, this round of three divine techniques was actually blocked by Luo Zhansan. From this, it could be seen that the gap between the Carefree Level and the Dao Proving Level was really huge. If it was a Dao Proving Level cultivator, he probably couldn't block his Formless Infinity Sword or even All Great Daos in One Sword.

Han Fei looked solemn. Sure enough, he underestimated the Carefree Level cultivators. The Formless Infinite Sword and the World Destruction Fist were the two strongest combat skills Han Fei could use now, which could maximize Han Fei's strength.

And Luo Zhansan was the weakest of the ten. Han Fei thought that although he could still fight, he couldn't kill him instantly.

Luo Zhansan was also shocked. Not only was his Divine Technique broken, but his Body Protecting Technique was also broken and he almost lost a high-quality godly weapon.

But he also knew that the use of divine techniques couldn't be too frequent, so after blocking Han Fei's sword, he rushed to Han Fei again.

Seeing this, Han Fei didn't have time to use any divine techniques. With a swish, an invincible saber beam burst out from the Invincible Eye between his eyebrows.

Upon seeing this, Luo Zhansan's face changed greatly. A pair of gloves appeared on his hands, and then he put his hands together and chose to resist it head-on.

Ka ka ka ~

Once again, Luo Zhansan was forced to retreat hundreds of thousands of kilometers. By the time he stopped retreating, the high-quality godly weapon-level boxing gloves in his hand had been completely destroyed, and only his bones of gold and jade were left on his arms. His flesh and scales were shattered by the invincible knife light.

Han Fei didn't give Luo Zhansan time to recover. When Luo Zhansan had just stabilized himself, he had already arrived in front of him and punched out tens of thousands of fist marks in one breath.

The effect of the combat skills was quite shocking. The humans in Han Fei's Origin Star all applauded.

Only a few people realized that Han Fei could no longer kill this Monarch in an instant. This meant that Han Fei was basically in the same realm as the enemy, or even weaker.

Luo Zhansan was obviously also a body cultivator, or he wouldn't have practiced the hammer technique. Therefore, he counterattacked with his physique and overwhelming Qi and blood.

Bang! Bang! Bang!

Boom Boom Boom ~

"Puff! Puff! Puff!"

In just three or five seconds, both of them were drenched in blood and even three of Han Fei's ribs were broken. This was the first time since he entered the Sea Realm that his bones were broken.

It could be seen that although he could temporarily have the combat power of the Carefree Level with his Original Great Dao, there was still a gap between him and the true Carefree Level cultivators.

Of course, Luo Zhansan wasn't any better. Han Fei's Invincible Fist Mark was mixed with the power of the Dao of Slaughter God and the power of the Ragnarok. Luo Zhansan's body was shaken and his head emitted bursts of golden light. That was his soul suppressing godly weapon protecting his soul.

Finally, Luo Zhansan didn't dare to continue, because the power of the Dao of Slaughter God was crazily surging in his body, destroying his body all the time.

He knew that the longer the battle went on, the more disadvantageous it would be for him. The biggest disadvantage of close combat was that there was no time to use any divine techniques. Both parties had to parry each other's blows in a very short time. This was a collision of pure strength and Qi and blood.

Luo Zhansan suddenly vomited a mouthful of blood. The blood mist turned into a small hammer and struck down. Han Fei narrowed his eyes and his body suddenly turned into two pieces of mist. Even so, he was still hit hard. After the Twin Divine Technique was activated, Han Fei's face was slightly pale.

He stuffed a mass of liquid divine radiance into his mouth and rushed up again.

He didn't believe that Luo Zhansan's Qi and Blood Hammer could be used many times. If Luo Zhansan could use it, so could Han Fei, but there was no need. It wasn't like he couldn't fight anymore. This Qi and Blood Transformation Technique consumed too much vitality. Once or twice might work, but if he used it three or four times, Luo Zhansan would be crippled.

Sure enough, Luo Zhansan didn't dare to continue. He had no choice but to continue fighting.

The result was obvious. Han Fei still had the Heaven Enlightenment Divine Technique to recover, but Luo Zhansan could only rely on the power of the Carefree Level to recover by force. This kind of recovery was not complete, and it consumed a lot of his foundation and immediate combat power.

Therefore, in just ten seconds, Han Fei broke Luo Zhansan's soul suppressing godly weapon at the cost of breaking an arm.

It was not that Han Fei didn't want to use the Void Stealing Technique, but the backlash of the Void Stealing Technique consumed too much spiritual power.

The shattering of Luo Zhansan's soul suppressing godly weapon indicated that he could no longer resist the Ragnarok. After a few rounds of attacks, most of Luo Zhansan's soul was destroyed, and his strength had plummeted.

With a thought, Han Fei cut Luo Zhansan with the God Shattering Scissors.

Rumble!

A huge crack appeared in front of everyone. Han Fei was already covered in wounds, but he still shouted, "I am Human Emperor Han Fei. I've just killed a Carefree-Level Monarch of the Ten Thousand Scale Race. Congratulations to the human race..."

However, this time, although there were cheers in the Origin Star, most people fell silent. They had personally witnessed this battle and seen Han Fei covered in wounds.

However, there were still nine strong masters of this level!

After a moment of silence, someone in Han Fei's Origin Star shouted, "Human Emperor."

At this moment, they didn't need to say much. The word "Human Emperor" was their faith, their absolute approval of Han Fei's identity as the Human Emperor, and their highest respect for Han Fei.

"Human Emperor, Human Emperor, Human Emperor..."

In the Origin Star, billions of people were shouting for Han Fei.

At this moment, bathed in the Heaven Enlightenment Divine Technique, Han Fei said leisurely, "The next nine, come at me together..."
