Chapter 2791: Two Women Fighting For A Man(4)

2791 Two Women Fighting For A Man(4)

At this moment, a girl ran out, becoming a beautiful scene in the Thug Academy. Before she arrived, her voice had arrived.

“Ahhhh! Darling, you’re finally back! I missed you so much...”

“Uh ~”

“Darling?”

Ren Yingying looked at Zhang Xuanyu in shock. “Junior Brother Yu, didn’t you say that you don’t have a wife?”

Zhang Xuanyu’s face stiffened. “Well...”

“Puff ~”

Yi Xiyuan plunged into Zhang Xuanyu’s arms, her little head nuzzling Zhang Xuanyu’s chest as she cried out excitedly. This scene made Ren Yingying’s face turn green.

Qu Jinnan and Ling Yuan had just arrived and saw this scene. Qu Jinnan was about to speak, when Ling Yuan stopped him. Ling Yuan looked at Ren Yingying and said in a low voice, “Let Senior Brother Yu solve it by himself!”

Su Daiji and the others arrived one after another. Then, they happened to hear Ren Yingying say, “Junior Brother Yu, you haven’t answered my question. Didn’t you say that you don’t have a wife?”

Only then did Yi Xiyuan notice that there were others. When she pulled her head out of Zhang Xuanyu’s arms, she saw a cold and sexy woman looking at her with a green face.

Yi Xiyuan immediately understood and interrupted, “Darling, who is this auntie? Why is she back with you?”

“Auntie?”

Ren Yingying was shocked and instantly infuriated. She gnashed her teeth and said, “Little girl, didn’t your elders teach you how to speak? Try calling me that again?”

“Auntie, Auntie, Auntie...”

Yi Xiyuan didn’t retreat at all. “You want to threaten me? Do you know who my Eldest Senior Brother is? He’s the current Human Emperor. He killed Monarchs as easily as slaughtering fish and shrimp. If you threaten me again, believe it or not, I’ll call my Eldest Senior Brother!”

“Uh ~”

Han Fei, who was watching the show, couldn't help but feel embarrassed. This girl is not shy at all. What the hell is she talking about?

Ren Yingying was furious, but she knew that this was destined to be a war without smoke. Although this was someone else's territory, she couldn't admit defeat.

She grabbed Zhang Xuanyu's arm and said, "Zhang Xuanyu is my junior brother and my dual cultivation partner. As a Sea Establisher, what else can you do except hold him back?"

Yi Xiyuan hugged Zhang Xuanyu's other hand and snorted coldly. "Take your dirty hand away. I'm already calling him Darling, so I'm definitely his wife! What's the big deal of dual cultivation? My husband can easily have a hundred or eighty dual cultivation partners, but he only has one wife. Right, Darling?"

As she spoke, Yi Xinyan pinched the flesh on Zhang Xuanyu's arm hard.

On the other side, Ren Yingying was also pinching Zhang Xuanyu's flesh as she said to Yi Xinyan tit for tat, "You're nothing but a burden. You can't keep up with Junior Brother Yu. You'd better let go. The two of you are too far apart. You won't be able to get together in the end."

Yi Xiyuan curled her lips. "Nonsense, I've only cultivated for less than a thousand years and have already reached the intermediate Sea Establishment realm. As long as I'm willing, I can reach the peak level of the Sea Establishment Realm in a hundred years. In a few hundred years, it won't be a problem for me to open the sky. You're already an old aunt. Look at the wrinkles on your face! How many tens of thousands of years old are you?"

"F*ck..."

Ren Yingying scoffed. "Wrinkles?! You sharp-tongued little b*tch."

"You old auntie tens of thousands of years old..."

Beside him, Old Bai was scratching his face as if he was thinking about how to deal with this situation. Su Daiji, Gu Qi, Xing Yue, and Su Sanqian were all on Yi Xiyuan's side. At this moment, they were all staring at Zhang Xuanyu angrily.

Wang Dashuai and Bai Lu had just seen this scene, and Wang Dashuai was about to greet Zhang Xuanyu, when Bai Lu stopped him. "Are you stupid? Can't you see what's happening over there?"

When the two women were fighting, Zhang Xuanyu said timidly, "Well, can you stop for a moment?"

"Shut up!"

The two girls shouted at Zhang Xuanyu angrily in unison.

"Alright, stop it, both of you!"

Zhang Xuanyu roared. His ears were ringing. He really should have snuck out himself!

In particular, more and more disciples of the Thug Academy were watching. His role model image was gone!

The two girls were stunned by Zhang Xuanyu's roar, but in the next moment:

Yi Xiyan pouted. "Darling, why are you scolding me for an old auntie?"

Ren Yingying shouted, "Junior Brother Yu, why are you yelling at me?"

"I..."

Hum...

Just when Zhang Xuanyu's head was dizzy, Han Fei thought that it was time for him to show up.

Han Fei's figure appeared a few meters away from Zhang Xuanyu. Seeing this, the latter seemed to see a lifesaver. "Feifei! You're finally here..."

Han Fei chuckled. "Tsk, tsk, tsk. Yu! Look what you've done!"

Seeing this, Ren Yingying immediately bowed and said, "Ren Yingying greets Master Human Emperor."

Han Fei nodded slightly. "Welcome to the human race."

Yi Xiyan looked at Han Fei angrily. "Eldest Senior Brother, didn't you say you would help me keep an eye on my husband? You didn't keep your word. Now this woman is bullying your dear junior sister."

"Uh..."

[God of Fishing](#)

Chapter 2792: Entering the Demon Domain Again(1)

2792 Entering the Demon Domain Again(1)

Han Fei was stunned by Yi Xiyan's question, and his air as the dignified Human Emperor was immediately gone.

Han Fei paused and said, "When did I say I would keep an eye on your husband for you? I don't have the time."

Ren Yingying's eyes lit up, and Yi Xinyan's eyes welled up with tears. Han Fei hurriedly added, "However, Eldest Senior Brother will definitely uphold justice for you."

Yi Xiyan's eyes lit up as her confidence returned. As for Ren Yingying, she was filled with worry.

Han Fei looked at Zhang Xuanyu seriously and said, "Yu! It's not that I want to criticize you, but we watched Yanyan grow up. If you dare to fail her, it will be difficult for us to be brothers."

Zhang Xuanyu nodded quickly. "Yes, yes, I won't. I definitely won't fail her."

Han Fei looked at Ren Yingying and asked, "When did you become dual cultivation partners?"

Although Han Fei didn't release any suppressing pressure, Ren Yingying felt inexplicably scared. She wanted to fool him, but she couldn't help but tell the truth. She said, "We just haven't had a wedding, but everyone in the Ghost Strait knows my relationship with Junior Brother Yu."

"Oh! After all, you two haven't had a wedding. This girl and Yanyan, after all, we're in public. How can we make such a scene? If the news gets out, how will outsiders look at our Thug Academy? Let go."

Ren Yingying let go of her hand in fright. She knew Han Fei. When she heard about Human Emperor Han Fei, she immediately thought of Han Fei, the disciple of the Void Temple, the man who won first place in the 100,000-year Competition of the Divine Capital Dynasty. She couldn't afford to offend such a person!

Although Yi Xiyuan was unwilling, she still reluctantly let go because of Han Fei's words.

Zhang Xuanyu cast a grateful look at Han Fei, and Han Fei glared back. "Alright, young lady, Zhang Xuanyu's choice is up to him. I think he will give you a clear answer. Of course, he can't abandon Yanyan. Since you're here, you can stay at the Thug Academy for the time being. If you don't mind, you can give a few classes to the disciples of the Thug Academy, teaching them about the Sea Realm and the wilderness. What do you think, Miss?"

Yi Xiyuan opened her mouth and wanted to speak, but she choked back her words under Han Fei's gaze.

Ren Yingying bowed slightly. "Thank you, Master Human Emperor. I can teach here for the time being."

Han Fei nodded slightly and then glanced at the other students. "Dismiss! President, I have something to talk to Zhang Xuanyu in private. We'll come back for dinner."

Old Bai nodded quickly. "Okay, go ahead! Anyway, the Thug Academy is here and can't be moved away. I'll ask Old Jiang to make a few dishes and make some dumplings. When you come back tonight, let's have a drink."

"OK! No problem."

...

A moment later, Han Fei and Zhang Xuanyu walked in the sky above the human cities. After a simple introduction of the battle, Han Fei said leisurely, "Alright! You are really cold-hearted. Yi Xiyuan has been eagerly waiting for you to return but you bring her your senior sister. Heh, you have to pacify her yourself. I can't do anything about it."

Zhang Xuanyu said, "Do you think I want to? I had no choice. If she hadn't followed me, I wouldn't have had a chance to leave the Ghost Strait."

Zhang Xuanyu suddenly changed the topic. "Alas! We were separated less than a hundred years ago. At that time, you were only in the peak-level late-stage Star Transformation Realm, right? Have you already proven Dao?"

Zhang Xuanyu felt that his cultivation speed was fast enough, but he didn't expect Han Fei to be even faster than him.

"Some things have nothing to do with time. How long will you stay this time?"

Zhang Xuanyu said, "I can only leave the Ghost Strait with the excuse of going out to gain experience and seek a breakthrough. I'll be back in about ten years. Otherwise, I won't be able to come out again. Besides, I have a master in the Ghost Strait who hasn't taught me many major techniques yet."

Han Fei nodded slightly. "It doesn't matter when you leave. The point is that you have to arrange Yi Xiyan well. You can take her away or something. Anyway, you have to pacify her yourself. I don't have the time to do it for you."

Zhang Xuanyu blushed. "Okay! Any news on Kuangkuang and Xiaobai?"

Han Fei told him about what happened to Le Renkuang, and Zhang Xuanyu immediately exclaimed, "Kuangkuang is going to prove Dao? Gosh, when we separated, this guy hadn't opened the sky yet."

Han Fei said, "He has a Great Monarch-realm master who is as strong as Great Monarch East Martial. Who in the Ghost Strait can compare to him?"

Zhang Xuanyu : "..."

Zhang Xuanyu hesitated for a long time and finally said, "The fatty seems to be luckier than us since childhood!"

Han Fei nodded in agreement. "I haven't heard from Xiaobai yet, but since you two are here, she must be on her way. You can stay here for a few years. Maybe we can meet again."

Zhang Xuanyu said, "Alright, I'll leave some soul techniques to the human race."

In the evening, Han Fei and Zhang Xuanyu returned to the Thug Academy for a meal. The only disharmony at the dinner table was that Zhang Xuanyu was sandwiched between the two women. There was no telling how he felt during the meal.

The next day, Han Fei left Zhang Xuanyu alone. This guy was going to teach the human race soul techniques, which could make up for his shortcomings in this aspect. After all, he was a body refiner. Although his soul was powerful, he didn't leave many related inheritances.

Chapter 2793: Entering the Demon Domain Again(2)

2793 Entering the Demon Domain Again(2)

On Han Fei's Origin Star, he could finally stop and consolidate his realm.

"Huh?"

Han Fei could perceive the slightest change in his Origin Star. However, at this moment, a translucent black brocade sachet was hanging on the small vine of the Demon Purification Pot.

"How could I have forgotten that?"

Back in the Dao Enlightenment Palace of the Divine Capital Dynasty, when the mysterious man helped him kill the ominous, he had left this brocade sachet to him. At that time, when he reunited with Ximen Linglan in the Time River, he was hurriedly sent back to the Raging Sea. Then, he went to the Lava Giants to take them away. After that, he was preparing for the human race's east expedition into the Sea Realm, so he didn't have the time to care about this.

Han Fei didn't know why the Demon Purification Pot hung the brocade sachet up, or if the brocade sachet ran over on its own. Anyway, Han Fei remembered that this thing was definitely not hanging on the small vine.

Han Fei took off the brocade sachet and opened it without any hesitation.

He was also very curious about who the one who helped him with the Self Severing Tribulation was and what the brocade sachet would tell him.

The brocade sachet looked very ordinary. When it was opened, there was only a note inside. On it was written, "Death is not the end of life but only means that the door of reincarnation has not been opened yet."

Han Fei: "???"

Han Fei was dumbfounded. What did this mean?

The literal meaning was that after death, life would still exist in a certain form. But what did this have to do with the door of reincarnation?

The brocade sachet that the mysterious cultivator gave him couldn't be opened until he finished the Self Severing Tribulation. If he didn't finish it, the brocade sachet would automatically dissipate. If he opened this brocade sachet before finishing the Self Severing Tribulation and saw this sentence, would it be any different? If it was just this strange sentence, he could open it at any time, right?

That was the problem. Would there be any changes after he read this sentence before he finished the Self Severing Tribulation?

"No, I can't be fooled like this. I still have to get to the bottom of it."

Han Fei gave up the idea of consolidating his cultivation immediately, stepped out of the Star Sea Quagmire, and offered sacrifices to the God of War again.

The God of War sent a message in advance. "Is the Great Emperor's Original Star ready?"

"Not yet. But I have a question that I need to ask you."

The enthusiasm of the God of War immediately disappeared, and he only replied with two words, "What question?"

Han Fei said, "Senior God of War, before I proved Dao and transcended the tribulation, someone helped me pass the Self Severing Tribulation in advance. Now I have an idea. What if I had failed to pass it?"

"Huh! Someone helped you with that? It seems that you have quite a powerful background!"

Han Fei said, "Senior, please be serious. This matter is very important to me."

The God of War didn't beat around the bush and simply replied, "Normal people don't pass the Self Severing Tribulation until they are proving Dao. If you don't succeed in passing the Self Severing Tribulation, your negative side will dominate and turn into the ominous, and the original body will naturally be reduced to ashes by the tribulation. And a small number of people will pass the Self Severing Tribulation in advance. If they don't succeed, not only will their negative sides completely turn

into the ominous, but they may also occupy the original bodies and deprive them of everything they have. There are pros and cons to everything. There are advantages to passing the Self Severing Tribulation in advance, so there are naturally disadvantages. That is, if your original body doesn't grow as fast as your negative side, it will be very dangerous."

Han Fei's heart did a flip. "Memories will also be stripped away?"

The God of War said, "Of course, everything you have will be occupied by the ominous. If you have some special purification-type treasures, they will automatically resist the ominous. But if they fail, they will only shatter."

Han Fei instantly understood. The mysterious cultivator didn't let Han Fei see the brocade sachet before he pass the Self Severing Tribulation because he was afraid that if Han Fei failed to pass his Self Severing Tribulation, the contents of the brocade sachet would be seen by Han Fei's negative side.

"Death is not the end of life but only means that the door of reincarnation has not been opened yet."

Although Han Fei didn't know the meaning of this sentence, he knew that at least he couldn't let the ominous see it. But could he ask the God of War about it?

Han Fei thought for a moment and refrained from asking.

After all, he had never met the God of War in person, so his trust in him was definitely not as high as his fellow disciples in the Void Temple. He should ask his Fifth Senior Brother.

Oh, no, there was actually a more suitable person, Senior Brother Undead. Han Fei couldn't really experience death, or he would have to switch to becoming an undead creature.

But what about Senior Brother Undead?

Han Fei said, "Well, that's it. Wait for me for some time. When I'm done, I'll immediately find the Origin Star of that Great Monarch."

Returning to his Origin Star, Han Fei didn't immediately contact his senior brothers. No matter what secret this sentence involved, it definitely required a certain level of strength to understand it.

He had just proved Dao and his strength hadn't completely stabilized. It would be better to wait until his strength had increased by five times like Feng Yu before he thought about this problem.

Han Fei would naturally rely on the Godfiend Formless Technique and the Supreme Divine Technique to stabilize his strength.

The Godfiend Formless Technique and the Supreme Divine Technique that focused on the physique could improve his strength by compressing his Star Core and extracting the power of others' star cores to pour into his own. And he had the Soul Sealing Pearl, which contained nearly 500 Origins of soul power, which was pure soul power taken from the Soul Sea. In this way, if he cultivated his body and soul at the same time, it would take at most a hundred years to completely stabilize his cultivation when his star core was compressed to its current limit.

[God of Fishing](#)

Chapter 2794: Entering the Demon Domain Again(3)

2794 Entering the Demon Domain Again(3)

Cultivation had no concept of time. Han Fei sat in his Origin Star for a hundred years.

In the past hundred years, Han Fei had shattered ten Origin Stars of Dao Provers. The star cores used by him, and the star fragments covered the surface of his Origin Star, forming an absolutely sealed super protective layer.

This made Han Fei's Origin Star look as if it had a radius of two million kilometers. This was only because his current capacity was limited. Otherwise, he could continue to expand his Origin Star with these star fragments.

This made Han Fei wonder, Could it be that the Origin Stars of Gao Yuhuo and the others were also expanded like this?

For this question, he specially asked the God of War, but the God of War's answer was very clear. He said that these were two forms but their essence was the same. However, the Origin Stars condensed with the Supreme Divine Technique were stronger.

This was because the Supreme Divine Technique used the powerful star core of the 810,000-kilometer Origin Star to support the star barrier that would be expanded later. And the strong masters who cultivated in the normal process were using more and more modified stars to expand the star barrier through their gravity and the transmission of chaotic energy.

The two seemed to be the same, but in terms of the ultimate power of the Star Core, normal cultivators' star cores were definitely not comparable to the star core cultivated with the Supreme Divine Technique.

Therefore, after hearing what the God of War said, Han Fei couldn't help but feel that he was quite powerful. Gao Yuhuo was already an immortal-level cultivator, but his Origin Star's radius was only 3 million kilometers. Now he was only at the Dao Proving Level, but his Origin Star's radius had already reached 2 million kilometers. There seemed to be much more room for his improvement than Gao Yuhuo.

On this day, the compression of the Star Core had almost reached its limit. It took 132 years, which was equivalent to half a year in the outside world.

Yes, with abundant resources, Han Fei's cultivation was so fast. He couldn't help but look at his information, only to see that it was:

Owner: Han Fei

Level: 112 (Dao Proving)

Bloodline Ranking among the Clans in the Infinite Ocean: the 29,142nd

Immortal Qi: 420,000

Soul: 317 Origins

Strength: 317 Star Powers

First Spiritual Heritage: Origin Spiritual Heritage

Second Spiritual Heritage: Eternal Darkness Spiritual Heritage

First spiritual beast: Twin Yin-Yang Sky Swallowing Fish (Level 109)

Second spiritual beast: The Emperor Sparrow (Level 109)

Main Art: Godfiend Formless Technique

“Huh? I upgraded by a level?”

Han Fei didn't expect this. He knew that his strength had definitely increased by five times, but he didn't expect it to increase by a small level.

However, Han Fei wasn't intrigued at such a small level now. Although his soul and strength had increased respectively by 72 Origins and 72 Star Powers, it was still far from enough compared to the strength of Immortal-level Monarchs.

Furthermore, Han Fei discovered that although his flesh and bone hardness had improved significantly after the Monarch Tribulation, his body and bones couldn't support it at all with the seven-time enhancement of his Original Great Dao.

He had tried it. Now, he could forcibly increase his combat power by four times at most. Once he used more than four times his strength, his body would begin to collapse. The only thing that could still withstand it was his bloodline.

He couldn't blame his Monarch Tribulation. The four times of His upper limit was nearly 1,300 Star Powers, which was thirteen times stronger than when his five Dao Locks were fully broken.

Therefore, the improvement brought by his Monarch Tribulation was actually good enough. It could only be said that he had grown too fast. What Han Fei needed to do now was to fundamentally improve the strength of his bones, blood and flesh.

The first thing Han Fei thought of was the Lightning Drawing Platform. When he transcended the Monarch Tribulation, the Lightning Drawing Platform attracted a small amount of lightning tribulations, producing a total of three Dao Proving lightning strikes. Including the one that came with the Lightning Drawing Platform, there were a total of four lightning strikes.

Han Fei felt that if he digested the four lightning strikes now, his physique would definitely become at least 10% stronger. However, this kind of enhancement was not a big deal now. What he wanted was not a 10% or 20% enhancement, but a multiple-time enhancement.

And the way to completely change one's aptitude was naturally to transform his Golden Jade Bone into the Heavenly Dao Jade Essence. This was not a difficult way to understand. Merging the Heavenly Dao into the bones and transforming the Golden Jade Bone into the Heavenly Dao Jade Marrow was the path one should take in the Monarch Realm. This path wasn't difficult. After all, there were many places where one could obtain the Heavenly Dao Jade Marrow. But there weren't many Heavenly Dao Jade Marrow that could really meet the requirements.

For example, his Golden Jade Bone had almost reached the limit, which was the manifestation of the Extreme Dao. Similarly, there was a limit to the Heavenly Dao Jade Marrow.

However, fusing with the Heavenly Dao was very friendly to those who had an Origin Ground. However, it was different for those who didn't have an Origin Ground. They had to forcefully absorb the power of the Heavenly Dao. The efficiency of such a fusion was very low.

The reason why the competition for Origin Grounds was so crazy was that after proving Dao, an Origin Ground could help cultivators continuously fuse with the Heavenly Dao to boost his cultivation.

But Han Fei couldn't. The power of the Heavenly Dao in the Raging Sea was no longer enough for Han Fei to cultivate. If Han Fei wanted to quickly condense the Heavenly Dao Jade Bone, he had to find a powerful Origin Ground.

However, this was not a problem for him. This was because he had a ready-made Origin Ground in his hand, which was the reward of the 100,000-year Competition of the Divine Capital Dynasty.

At this moment, the effects of all the hardships Han Fei had experienced in the Sky Opening Realm came out.

[God of Fishing](#)

Chapter 2795: Entering the Demon Domain Again(4)

2795 Entering the Demon Domain Again(4)

In the Sky Opening Realm, he had collected a large number of treasures, resources, and connections. He was far from using them up.

In fact, as far as the Origin Ground was concerned, the Sea Quelling Painting from the Raging Sea might contain more than one Origin Ground.

However, he had to go to the place where the Sea Quelling Painting was originally drawn. If he had the time now, Han Fei felt that if he really spent hundreds of years, he might be able to get several Origin Grounds.

As soon as Han Fei finished his cultivation, he stepped out of the Star Sea Quagmire and entered the Sea of Stars.

Then, Han Fei took out the bead that represented the Origin Ground, injected Immortal Qi into it, and began to refine it. This refinement didn't integrate the Origin Ground into his body, but opened a channel connecting to this Origin Ground, and this bead was that channel.

After a while, when Han Fei refined the bead, with a thought, a door to the void appeared in front of him.

Buzz!

Han Fei walked in without hesitation.

The Origin Ground might be dangerous, but Han Fei believed that with his current strength, as long as the other party hadn't reached the Immortal Level, it was impossible for him to defeat him.

Even if there were any immortal-level powerhouses in the Origin Ground, they couldn't kill him instantly. After all, he was no longer that Perfected Star Transformation Realm cultivator.

"Huh?"

When Han Fei's eyes lit up, he looked at the mountains and rivers in shock. Why did this place look so familiar?

"Demon Domain?"

Han Fei raised his eyebrows. Yes, this place was the Demon Domain. However, the current Demon Domain was no longer polluted by the ominous. There were no longer those disgusting black tentacles or the strange and terrifying demonic sources here.

The current Demon Domain had become a sea of demon plants. There were colorful flowers, giant trees that towered into the sky, fangrass that swayed with the wind, and fireflies that flew in the grass... Han Fei looked around and sensed that this place was like a demon plant planet that had never been cultivated. There were millions of types of demon plants, beautiful and enchanting...

The only problem was that the levels of these demon plants were very low, so low that most of them couldn't be called demon plants, because many of them weren't even fishing masters.

"Huff!"

Han Fei didn't know until now that no wonder Great Monarch East Martial used the Demon Domain as one of his tests. Because the Demon Domain was the final reward.

Han Fei was still in a daze. In front of him, a phantom appeared in the air. It was a big sunflower that had once fought side by side with Han Fei.

Han Fei immediately came back to his senses. "Hi, Senior Dao Domain Sunflower Head."

The phantom of the sunflower swayed, and a void channel appeared.

"Come here."

A clear voice came from the void passage.

Han Fei didn't hesitate. Although the Dao Domain Sunflower Head was an immortal-level Chaotic Spiritual Plant, its quality was definitely not bad.

When Han Fei stepped into the void passage, he came to the World Origin lake of the Demon Domain in the blink of an eye. This lake was 800 kilometers wide at this moment, and in the middle of the lake was the Dao Domain Sunflower Head.

In Han Fei's eyes, information emerged.

<Name > Dao Domain Sunflower Head (Weak)

<Introduction > The Dao Domain Sunflower Head is the head of a domain, a simulated body of World Origin. When a world is strong enough, its World Origin will give birth to an autonomous will and high-level intelligence. The Dao Domain Sunflower Head is the incarnation of the World Origin of this world. It

has unparalleled power of purification, life, healing, and will. Its sunflower seeds have various abilities such as Dao enlightenment, soul recovery, potential arousing, and purification of darkness.

<Level > 118

<Quality > Chaotic Spiritual Plant

<Realm > Immortal Level

<Battle Technique> Annihilation Sunflower Seeds, Light of Purification, Light of Life, Light of Healing, Light of Soul

<Collectible > Dao Enlightenment Sunflower Seeds

<Absorbable >

<Remarks > The head of a domain, and the simulated body of the World Origin.

Although Han Fei had already seen this information once, this time, the Dao Domain Sunflower Head had changed from a dying state to a weak state. This meant that this world was reviving at an incredible speed.

The ethereal voice resounded above the World Origin lake, clear and high. "I've been waiting for you for a long time, but I didn't expect that when we met again, you had already proved Dao."

[God of Fishing](#)

Chapter 2796: Loose Living Beings(1)

2796 Loose Living Beings(1)

The Dao Domain Sunflower Head sounded a little aggrieved.

Han Fei replied, "I didn't know that the Origin Ground turned out to be the Demon Domain. In just a few decades, I didn't expect the changes here to be so great. Senior, you consumed so much energy in that battle. Have you... recovered?"

The big sunflower of the Dao Domain Sunflower Head swayed slightly. "I haven't recovered yet, but with the help of you, I've recovered a little."

Han Fei thought to himself, After all, she was an immortal-level powerhouse. Judging from her level, she was probably only one step away from the Great Monarch realm. With such strength, as long as she didn't have any natural enemies, she would naturally absorb the energy in the Sea of Stars and recover a lot in thousands of years.

The help of the Divine Capital Dynasty only accelerated the recovery here. Perhaps they felt that if the reward was the dilapidated Demon Realm, it would affect their prestige!

Han Fei smiled. "That's good..."

As he spoke, Han Fei had already looked around the World Origin lake. The World Origin lake was continuously absorbing the power of the Great Dao from the outside world. Beside the lake were tens of

thousands of strange demon plants that were being nurtured. There were probably hundreds of them, including those that had been newly born or had never died.

In addition to these spiritual plants, in the lake, a small red carp stuck its head out and stared at Han Fei curiously. Han Fei knew this little thing. This was the true core of this world, the heart of the World Origin!

Dao Domain Sunflower Head asked, "Since you've proved Dao, why did you think of this place?"

Han Fei didn't hide it. He said, "Senior, although I've already proved Dao, the power of the Heavenly Dao in the place I've proved Dao is thin and the World Origin is exhausted. And I need to grow quickly and temper the Heavenly Dao Jade Marrow Bones, so I thought I still had an Origin Ground in my hand. Since this place is still recovering, I can think of other ways."

However, Dao Domain Sunflower Head said, "No need! The Heavenly Dao here will cooperate with you. You need to condense the bones of the Heavenly Dao Jade Marrow anyway. It's better to do it here. This is my choice. If I have to choose an ally I can trust and fight alongside me in the future, I can trust you."

Han Fei's heart stirred. This... This was simply a blessing from the heavens. If it was an unfamiliar Origin Ground, he might have to fight, suppress, or even resist the World Origin of that Origin Ground before he could use the power of that world to cultivate.

Furthermore, ordinary Origin Grounds wouldn't have an immortal-level cultivator guarding it. If there was really an immortal-level cultivator guarding it, unless Han Fei called the senior brothers and sisters of the Void Temple to help him, he wouldn't be able to handle it himself.

Therefore, since Dao Domain Sunflower Head had agreed, this place was his best choice. The efficiency of tempering the Heavenly Dao Jade Marrow Bones here would at least be hundreds of times higher than in the Sea Realm. This was the charm of Origin Grounds.

Of all the Dao Proving Level cultivators he had encountered before, if they had had an opportunity to own the Origin Ground, how could they have been killed by him?

However, when he came to the Demon Domain again, Han Fei wasn't just thinking about the Heavenly Dao Jade Marrow Bones. He said, "Senior, are there still mainly loose living beings here?"

"Yes! They're loose, but they're also individuals. The ominous infiltrated this place and used the Loose Dao with evil thoughts."

Gulp!

Han Fei swallowed. This was a divine path, a very clear divine path. Han Fei had yearned for loose lives before.

Suppose that ants were cells of life. The queen ant was the brain and the reproductive system. The soldier ants were the defense tissue of the body. The worker ants were cells, mouths, and hands that were used to find food, transmit food, and maintain the brain. When the worker ants gathered together to transport food, it was like blood transmitting nutrients. At the same time, the worker ants had many other functions, such as cultivating new living cells, young ants.

In this way, the entire ant swarm was a complete life, a strange life called Loose Life.

The reason why Han Fei said that this was a clear divine path was that he couldn't see the end of this path. As more and more loose individual cells or lives were scattered, it was easier for the loose life to transmit all kinds of energy and mobilize power.

It was foreseeable that the one with the real body could become infinitely strong.

This was an opportunity, a life system that Han Fei felt had a promising future.

Han Fei said, "Senior, I have a presumptuous request."

Dao Domain Sunflower Head asked, "What's the matter?"

Han Fei took a deep breath and said, "Senior, I want to cultivate an avatar, an avatar that is a loose living being."

In addition to Nezha who was created with the lotus root body of Water Immortal, he also created Zhang Daqian who walked the Giant Beast Divine Dao with "One into Three" deduced from the All Things Three.

As for the "One into Three", it could completely separate a person into three. Apart from the original body, it could create two avatars.

Now, he could create another avatar. This time, he had too many resources and his strength had reached the Dao Proving Level. He could completely create an avatar that could ignore the level barrier and heavenly tribulations with the bloodline and potential of the main body.

In other words, he could directly create a Monarch-realm avatar. Of course, such an avatar would have a huge impact on his original body.

If he wanted to create such an avatar, he might have to cut off at least 10% of his current strength. However, Han Fei didn't want to cut off so little. He wanted to cut off half of his strength.

Chapter 2797: Loose Living Beings(2)

2797 Loose Living Beings(2)

If he cut off half of his strength to create an avatar, this new avatar would be very strong from the very beginning. He didn't need to cultivate from a young age. Furthermore, once an avatar in the loose life form controlled a world like Dao Domain Sunflower Head, it would grow up very quickly.

As for his original body, although his strength had been halved, he didn't lack resources at all. If he cultivated the Supreme Divine Technique and the Godfiend Formless Technique at the same time, he would definitely return to his peak in a hundred years.

Anyway, the human race was still in the Chaotic Wasteland, and with the existence of Fifth Senior Brother here, it could be said that the human race were absolutely safe. By the time he left the Chaotic Wasteland, he would have long recovered his peak combat power.

Of course, if he wanted to directly create such an avatar, he needed the help of Dao Domain Sunflower Head. That was, he needed a drop of her essence blood to fuse with himself and create an avatar that ignored the upper limit of realms and didn't need to transcend the tribulation.

Dao Domain Sunflower Head was silent for a moment. "Why do you cultivate?"

Han Fei said, "I'm now the current Human Emperor. The 180 billion people of the entire human race need to rise under my lead. However, regardless of whether the human race rises or not, once the ominous descends, everything will eventually turn into a bubble. Therefore, whether I'm willing or not, I will inevitably fight against the ominous in the future."

Seeing that Dao Domain Sunflower Head was silent for a long time, Han Fei continued, "I have another identity. I'm a disciple of one of the three Temples, the Void Temple."

The sunflower straightened up a little, and then a clear voice said, "Okay!"

Han Fei was overjoyed. Sure enough, the name of the Void Temple was more useful!

Dao Domain Sunflower Head: "How do you need me to help you?"

Han Fei cupped his hands. "I need a drop of your essence blood. I have my ways to get other resources. Also, I'll create my avatar here. Senior, you don't have to worry that I'll do anything bad with this drop of essence blood."

Dao Domain Sunflower Head: "Okay!"

Dao Domain Sunflower Head was straightforward. When she learned Han Fei's identity as a disciple of the Void Temple, she no longer hesitated. As for confirming the authenticity of Han Fei's words, she wasn't worried.

This was because Han Fei still needed to cultivate in this world and use the power of the Heavenly Dao here to condense the Heavenly Dao Jade Marrow Bones. When the Heavenly Dao fused with him, she would have a way to verify if what Han Fei said was true.

After all, the Dao Domain Sunflower Head represented a large portion of the Heavenly Dao power in this world.

In the middle of the big sunflower, a sunflower seed cracked, and a drop of dark green essence blood flew to Han Fei.

Han Fei didn't think that his decision was hasty. He only knew that this was an opportunity. Previously, the Demon Domain had been ruled by the ominous, so he couldn't embark on the path of loose living beings. Now that the ominous had been purified and the Dao Domain Sunflower Head was recovering, this was an opportunity.

Han Fei took out all the essence blood of the divine beasts and ferocious beasts he had obtained in the Divine Capital Dynasty. A large amount of soul power surged out of the Soul Sealing Pearl. This loose living being didn't cultivate the Godfiend Formless Technique, but his soul power must be super strong. Otherwise, how could he achieve infinite control?

Therefore, the soul that Han Fei cut off from himself was definitely not enough. He still needed the soul power in the Soul Sealing Pearl to help.

Then, Han Fei unleashed all the Immortal Qi, which was continuously growing. He also slashed off part of his soul power, flesh and blood, and spiritual will.

At that moment, in front of Dao Domain Sunflower Head, above the World Origin lake of the Demon Domain, the wind and clouds were turbulent, and spiritual energy was surging.

This was not enough. Han Fei took out the Star Pearls refined from the Origin Stars of 18 Dao Provers. There were 30 level-nine minerals and 360 level-eight minerals.

Seeing these resources, Dao Domain Sunflower Head was a little speechless. What kind of avatar did Han Fei want to create? The resources invested seemed to have completely exceeded the upper limit of his strength.

In the end, Han Fei needed to choose the type of his avatar.

First of all, it had to be a demon plant. It wasn't that other creatures weren't good, but that the longevity, growth speed, and escape ability of demon plants were very strong. After all, demon plants could transform into countless ones. Even if he was killed in the end, as long as a blade of grass survived, it meant that he hadn't perished and could cultivate back.

Take the Demon Domain as an example. The demon plants in the entire Demon Domain might be part of a loose life. Previously, the ominous had almost occupied the entire Demon Domain. However, in the end, once the Dao Domain Sunflower Head destroyed the ominous and took back the control of the Demon Domain, she could recover at an unbelievable speed.

As for which demon plant to choose, Han Fei closed his eyes and glanced around his Origin Star. Soon, he picked a few demon plants. One was dandelion, one was Sky Survey Sisal, and the last was the most ordinary bamboo.

Of the three demon plants, one was good at sowing seeds, one was good at attacking, and the last one was a bamboo. It was tough and could have many bamboo leaves. If used well, it could also be good at attacking.

After some thought, Han Fei chose the bamboo. He didn't create this avatar to fight. His original body and Zhang Daqian could be said to be extremely good at fighting.

However, he had an entire human race to protect now. What he needed most was tenacity and protection ability.

Chapter 2798: Loose Living Beings(3)

2798 Loose Living Beings(3)

Therefore, it only took Han Fei a short time to choose the most ordinary bamboo as his third avatar.

Furthermore, the structure of the bamboo was simple, unlike the human body that was too complicated and difficult to understand.

Just like Zhang Daqian, Han Fei constructed an extremely complicated Yin-Yang Millstone Array in the bamboo to better absorb energy and resources in the future.

In front of Han Fei, a bamboo shadow grew in the void. Whether it was his flesh, his soul, level-nine mineral, or those Origin Stars, they all turned into nothingness and were swallowed by the chaotic phantom in front of him.

Next was the natural time needed to create an avatar. Han Fei's original body was pale. Cutting off 50% of his strength and soul had greatly damaged his vitality.

He said to Dao Domain Sunflower Head apologetically, "Senior, I need to cultivate in seclusion for a while."

...

On the 100th day of Han Fei's seclusion, a green bamboo with golden threads appeared in midair.

In Han Fei's eyes, information emerged.

<Name > Creation Star Bamboo (Avatar)

<Introduction > The Chaotic Spirit Bamboo that appeared in the Chaotic Era is called the Creation Star Bamboo. Its characteristic is that the bamboo's body is abnormally tough, comparable to a Chaotic Spiritual Treasure. The Creation Star Bamboo belongs to the demon plant lineage. It has an extremely powerful physique and soul. This bamboo is a mutated Creation Star Bamboo. It can be immune to all weapons below the Spiritual Treasure level. It can be immune to the soul attack of all creatures of the same realm. As it takes the Loose Dao, even if there is any residue of it, it can cultivate again and re-create glory.

<Level > 112

<Quality > Creation-level

<Realm > Dao Proving Level

<Battle Technique> Immune to damage, soul attack, and demon plant manipulation

<Collectible > None

< Unabsorbable >

<Note > The Creation Star Bamboo was originally a kind of innate demon plant, but it was extinct in the Primordial Era.

"An innate demon plant? At the Dao Proving Level at the very beginning?"

Han Fei was quite satisfied with the Creation Star Bamboo avatar he created. Although his strength had plummeted, so what?

He would recover in less than a hundred years. It was equivalent to spending a hundred years to create an avatar at the Dao Proving Level. Considering the Creation Star Bamboo's realm, he had clearly profited.

“The Dao Proving Level? Is there such a technique in this world?”

Dao Domain Sunflower Head seemed to be stunned. Although she had seen Han Fei sacrifice so much and cut off so much of his strength, the avatar he created was ridiculously strong.

Han Fei was actually quite surprised. He couldn't help but wonder if it was too early to use the great technique “One into Three”. If he took the Giant Beast Divine Dao now, he might be able to create a Monarch-realm Giant Beast Avatar.

Of course, Zhang Daqian took the Nirvana Divine Dao and needed to improve himself through death again and again. Cultivation from a young age was more meaningful.

However, at this moment, he had created two avatars. If Han Fei wanted to use them again, he had to wait for his original body, Zhang Daqian, and the Creation Star Bamboo to reach the same realm. Only after the three were combined could he use the “One into Three” technique again.

Or after one of his avatars died, he could create another avatar.

It was easy to die, but it was meaningless.

As for the integration of the three, the difficulty was extraordinary. At present, Zhang Daqian's cultivation speed was still a little slow.

“Huff~”

Han Fei didn't think too much. He looked at the Creation Star Bamboo and said casually, “Since you're a loose life, I'll call you Han Song!”

The corners of Han Fei's mouth curled up slightly. He cupped his hands at Dao Domain Sunflower Head and said, “Thank you for your help, Senior. I may need to cultivate in seclusion for a period of time. Please forgive me, Senior.”

The big sunflower swayed slightly, and her voice was clear and ethereal. “I'll open a pure land for you to cultivate.”

...

Three years later.

After consuming a lot of resources, Han Fei managed to stabilize his current cultivation.

On this day, after Han Fei fused with part of the Heavenly Dao here, he knew that it was time to leave for the time being. In the past three years, he had used the Heavenly Dao here to temper the Heavenly Dao Jade Marrow Bones just to make the Dao Domain Sunflower Head believe him.

Now, he should go out.

After all, cultivating in his Origin Star for a year was equivalent to cultivating here for 256 years. It was more meaningful to him.

Besides, he had a channel to the Demon Realm and could come in at any time.

On Han Fei's Origin Star.

Han Song, on the other hand, transformed into Han Fei's original appearance. Anyway, it was him. Han Song could temporarily replace him and occasionally guard the human race. It was the best of both worlds.

In the Chaotic Wasteland, Ren Yingying was giving a lecture. Zhang Xuanyu seemed to have been wandering the human world these past few years, imparting techniques everywhere and experiencing the human world.

Luo Xiaobai hadn't returned yet, but the Sword God had returned, which was something Han Fei didn't expect.

However, Han Fei didn't greet the Sword God. He entered the human race as Han Song. However, before he approached, Chu Hao had already appeared opposite Han Fei.

Chu Hao sized up Han Fei and asked, "Who are you?"

Han Fei grinned. "As expected of a Great Monarch-level powerhouse. Even though your strength has dropped so much, you can still recognize me."

Chu Hao said, "I sense the aura of a demon plant."

Buzz!

Han Fei's main body stepped out of the Void World and said with a smile, "This is my avatar. In the coming period of time, he will occasionally supervise the human race in my place."

Chapter 2799: Loose Living Beings(4)

2799 Loose Living Beings(4)

"An avatar at the Dao Proving Level? You've just proved Dao yourself... Eh! Wait, your aura is unstable. Your strength seems to have plummeted."

Chu Hao's eyes were sharp. He could see the problem with Han Fei at a glance.

Han Fei smiled casually. "There's a price to pay if I want to create such an avatar, so I'll have to cultivate in seclusion for a long time. But it doesn't matter. The avatar is also me. Our souls are connected, so all the decisions of the avatar are my own."

"As expected of someone from the Void Temple. I've never heard of such a method. Since your souls are connected, I won't say anything else. Speaking of which, how long do you plan to let the human race stay here?"

Han Fei said, "For a hundred years first. I have to go through the tidal wave first and then destroy the City of Origin. After completing these two things, I'll have to leave."

Chu Hao nodded slightly. "Okay! But if you want the human race to temporarily have a Great Monarch-level powerhouse guarding it, you can consider helping me get more Spring of Life."

Han Fei said, "The Heavenly Race have two Great Monarchs guarding them... I can only say that I'll try my best, but it's definitely not something that can be done in the next hundred years."

...

Time passed quickly.

In the blink of an eye, four years had passed. This year, Zhang Xuanyu was leaving, but Luo Xiaobai hadn't returned.

Before Zhang Xuanyu left, he stuffed two Space-Time Cultivation Beads into Han Fei's hands and said, "Give these Space-Time Cultivation Beads to Xiaobai. Kuangkuang came and left earlier than me, and now that he's about to prove Dao, he probably won't need them. With the special care of the Ghost Strait, my cultivation speed is very fast, and it's only a matter of time before I enter the peak-level late-stage Star Transformation Realm. As for Xiaobai, you know her personality. She hasn't returned for such a long time. Either she was delayed on the way or she's not strong enough and is still on her way. But either way, she should need these two Space-Time Cultivation Beads more than me."

Han Fei thought for a moment, took one of them, and said, "Trust me, as long as Xiaobai comes back, her cultivation speed will definitely not be slower than yours. The current human race is more suitable for her, so one bead is enough to represent your feelings. Although your cultivation speed is not slow, a space-time cultivation bead is equivalent to five hundred years of time. With such a long time, if it's used appropriately, not to mention the peak-level late-stage Star Transformation Realm, it's even possible for you to reach the Perfected Star Transformation Realm. Therefore, one bead should be enough for her."

Zhang Xuanyu grinned and didn't refuse. "Okay! Well, by the way, can you help me take care of Yanyan?"

Han Fei asked in surprise, "You're not taking her with you? She didn't make a fuss?"

Zhang Xuanyu said, "Of course she did, but the Ghost Strait is not our territory. The human race is about to rise, so it's better for her to stay in the human race. Even I will definitely come back after I prove Dao. As for the Sky Crater World, I might not go there."

Han Fei raised his eyebrows. "She agreed so easily?"

Zhang Xuanyu said with a dark face, "Of course not, so I gave her a baby..."

"Pfft!"

Han Fei choked and looked at Zhang Xuanyu in shock. "F*ck! You're awesome... Are you going to abandon the poor mother and her baby?"

The corners of Zhang Xuanyu's mouth twitched. "What do you mean by 'abandon'? I'll be back."

Han Fei asked, "What about Ren Yingying?"

Zhang Xuanyu said, "When I'm done, I'll bring her back with me..."

Han Fei took a deep look at Zhang Xuanyu and gave him a thumbs up. "You are really awesome..."

Chapter 2800: All About Demon Plants(1)

2800 All About Demon Plants(1)

In fact, Han Fei knew that Zhang Xuanyu was a very conflicted person. Although this guy often seduced girls, generally speaking, he wouldn't get serious.

This was related to Zhang Xuanyu's own experience. He didn't want to have too many attachments in this world, so when Han Fei heard that he gave Yi Xiyan a child, he was stunned.

Or rather, Zhang Xuanyu had seen something clearly in the past few years when he was wandering in the human world.

Han Fei didn't know what Zhang Xuanyu was thinking. As long as Yi Xiyan and Ren Yingying were willing, it was none of his business!

In the end, Han Fei gave Zhang Xuanyu nearly 10,000 modified stars. The human race needed strong masters now, and no matter how good Zhang Xuanyu's status in the Ghost Strait was, he couldn't have as many resources as him. Therefore, if he wanted Zhang Xuanyu to quickly prove Dao, he could just give him resources.

...

About eight years after Zhang Xuanyu left.

The breakthrough tide of the human race was finally over. This breakthrough tide lasted about 15 years. The craziest period was the first three years, when the average strength of the human race increased by a major realm. In the following 12 years, the breakthrough rate dropped greatly, but it could be said that the human race's overall strength had increased by another major realm.

So far, the overall strength of the human race had stabilized and increased by about two major realms. This was a benefit given to the human race by the new environment.

Of course, although it sounded rather intimidating that their overall strength had increased by two major realms, in fact, the improvement was much smaller than expected.

According to the latest statistics compiled by Han Xuan, the human race now had one Monarch, 812 Sky Openers, 150,000 Sea Establishers, and an unprecedented peak in the number of Venerables, reaching 130 million, more than four times higher than before.

This was a great number. Logically speaking, it was impossible for there to only be tens of thousands of Sea Establishers. It was just that most people had just advanced to the Venerable realm.

Once these human Venerables grew stronger, the number of Sea Establishers would soar like a rocket. It was only a matter of time for the human race to have a million Sea Establishers.

As for the Explorers, the number had reached a peak of more than three billion. There was no need to calculate the cultivators below the Explorer realm. The total population in the Dangling Fisher realm, the Hanging Fisher realm, the Hidden Fisher realm, and the Law Enforcer realm was about 180 billion. The number was decreasing in the form of an upside-down pyramid.

This was the human race, an ancient race that could win with population. From the Chaotic Era to the Primordial Era and the Age of Gods to this day, the human race had declined but never perished. As long

as the human race didn't perish, as long as enough time was given to the human race, it would still return as a flourishing super race.

This was only the beginning. Once the human race's inverted-pyramid cultivation structure was completely stabilized, there would only be more and more Sky Openers, and Monarchs would inevitably be born.

At this moment, the ten-year deadline that Han Xuan and Hong Yue had agreed on had passed. Han Xuan found Gu Tingnan and An Bailin, who was controlled by Han Fei, and began a small-scale training plan.

For the humans and the City of Wanderers, they were training their soldiers. But for the City of Origin, they thought this was a test from the humans and the City of Wanderers. Now it was just a small-scale test, but there would definitely be a large-scale test in the future.

But they had no choice but to delay. The only thing that made them feel lucky was that there was still a Monarch in the City of Origin. Of course, if they knew that this Monarch was just a puppet, no one knew how they would react.

Han Fei didn't care about this matter. He only told Han Xuan to leave as many broken limbs as possible. Han Xuan directly issued a point rule. Anyone who could obtain the enemy's body parts on the battlefield, be it broken limbs or weapons, could exchange them for points and resources.

As soon as this rule was announced, many people's enthusiasm was ignited. Human beings were not short of belligerents, especially those body refiners who followed Han Fei's footsteps. They were in dire need of fighting.

In the Raging Sea, there were still sea demons they could fight. But now in the Chaotic Wasteland, except for the so-called ominous creatures, they had no enemies at all, unless they went to the battlefield.

As for the revived graveyards, because the number was limited, it was only provided for some elite cultivators. This made many people crazy to join the battlefield against the City of Origin.

Of course, some people were passionate about fighting, and there were also people who were passionate about life. Those who had ordinary cultivation potential even though they had been transformed by the Raging Sea devoted themselves to the construction of the cities. All kinds of businesses were popping up like mushrooms after the rain.

As there were the most mining areas in the Chaotic Wasteland, these shops were mostly mineral and weapon shops. Some smart and stronger ones had even started trading with the City of Wanderers.

However, the population of the City of Wanderers was too small compared to the human race. As a result, the merchants in the City of Wanderers discovered this and took the initiative to go to the human race's cities to do business.

For example, the fat sapling creature who sold Sweet Pills was exhausted every day. This was because the Sweet Pills grew from themselves. If it weren't for the fact that the human race had a great spending power and spent a large amount of resources on them, these fat saplings would have died of exhaustion within three days in the human cities.
