Chapter 2811: You're Back?(4)

2811 You're Back?(4)

The way Luo Xiaobai and the others came was quite winding. This was because they knew that there were three major factions in the Chaotic Wasteland. Ignoring the City of Origin, they had avoided the City of Wanderers at that time. This was because at that time, they didn't know if the City of Wanderers was good or bad, and they had never seen the people from the City of Wanderers.

Therefore, Luo Xiaobai still took a long detour along the route she came from in the past.

Because there were many detours and ominous creatures blocking their way, it took Luo Xiaobai and the other five more than a month before they finally arrived at the location of the No. 80 farm, the Mountain City.

Yu Jiaojiao exclaimed, "Huh! The city here is already empty!"

Lu Xuan explained, "The small void storms here are the remnants of the battle in the Sky Opening Realm. The city was badly damaged, but not a trace of death aura or blood Qi was left. Maybe it's been too long since the fight!"

Luo Xiaobai's eyes lit up, but she also had some doubts. "I remember there are more than a hundred villages under this city. In the past, there was one Sky Opener, nearly twenty Sea Establishers, and nearly 900,000 Venerables. The rest of the people added up to more than three million. It's not difficult to take down such a city, but there should be remnants of blood Qi and death aura left. It can't be so clean as if it has been abandoned for thousands of years."

Lu Xuan suggested, "Maybe these people have been transferred away."

Luo Xiaobai shook her head. "There are many traces of battle in the city. At that time, it seemed that the entire city was at war. However, the Dao runes left aren't strong. There don't seem to be many Venerables who participated in the battle, and the battle is so dense... Let's go to the next city."

Han Fei had obtained the map of the Chaotic Wasteland through soul searching, so Luo Xiaobai had a map. She couldn't tell much from Mountain City alone.

Half a day later.

Lu Xuan said from a distance, "This city is also empty. The traces of battle are much heavier than those in that Mountain City. The void storm is raging, and it seems to have experienced a super-large-scale battle."

When Luo Xiaobai and the others arrived, someone in the team said, "There are still some remnants of the city-protecting array here. The array foundation is all shattered. It was broken by someone."

Luo Xiaobai said, "There's also no residual blood Qi or death aura, but the scale of the battle is more than ten times stronger than in Mountain City... This shouldn't be..."

Buzz!

Suddenly, Luo Xiaobai's pupils constricted and her expression changed slightly.

Yu Jiaojiao asked, "Xiaobai, what's wrong?"

Luo Xiaobai said, "It's the Immortal Temple. Only the Immortal Temple can empty the death aura without leaving any blood Qi."

Lu Xuan said in surprise, "Ah! Didn't you come from the Sky Crater World? The Immortal Temple is at war with the East Sea Divine Realm. Why did they bypass such a large wilderness and come to the Chaotic Wasteland?"

Luo Xiaobai said, "Death energy. The Immortal Temple needs death energy, and a war once broke out here. There were countless casualties, so the death energy must be extremely strong."

Luo Xiaobai shouted, "Go!"

In the following period of time, Luo Xiaobai and the others saw empty cities one after another. Every one of them was full of traces of battle, and every one had turned into a small forbidden land, enough to prove how fierce the battles in these cities were.

Until Luo Xiaobai and the others came to the place where the Ten Thousand Scale Monarch died.

Lu Xuan's expression changed drastically. "I don't even need to use my perception. This is a place of certain death. Once your perception passes, it will be shattered."

Yu Jiaojiao's face turned pale. "What a terrifying forbidden place. This battlefield stretches millions of kilometers. We are still at the periphery, but I already feel a terrifying crisis coming at us."

Lu Xuan said, "There must have been a great battle between the strong here."

Luo Xiaobai pondered for a moment. "Go around it."

Lu Xuan asked, "Is the City of Scavengers behind us?"

For a moment, everyone was alert. That was a city guarded by Monarchs.

Then, just as Luo Xiaobai and the others circumvented this dangerous place, they suddenly saw a small bamboo pole-like green stick in front of them.

In the next moment, Lu Xuan and the others couldn't move at all. A terrifying suppressing pressure suppressed their souls.

Lu Xuan was shocked. "A, a Monarch?"

The person who came was naturally Liu Qiansi. He said, "Who are you? Huh, there's a human. The others... are demon plants? Who are you? Why are you here?"

Lu Xuan hurriedly said, "Lu Xuan greets Master Monarch. We are..."

Lu Xuan didn't know what to say for a moment. He didn't know if this guy was an enemy or not. If he said something wrong, he would be doomed.

Lu Xuan looked at Luo Xiaobai, who was quite calm. She said, "Luo Xiaobai, a human, has returned from the wilderness to support the human race and crusade against the Ten Thousand Scale Race."

"Uh! Support the human race? Crusade against the Ten Thousand Scale Monarch? Are you so short of information? 52 years have passed since the war. My master, the Human Emperor, has slaughtered a hundred cities in a row, killed 19 Monarchs of the Dao Proving Level, 10 Monarchs of the Carefree Level, two Monarchs of the Immortal Level, and the strongest powerhouse of the Ten Thousand Scale Race, Ten Thousand Scale Monarch... Do I need you to support such a powerful human race?"

Lu Xuan: "???"

Yu Jiaojiao: "???"

Everyone: "???"

However, a brilliant smile miraculously appeared on Luo Xiaobai's cold little face.

"So, Han Fei won?"

Liu Qiansi screamed, "How dare you! How can you call my master by his name? Woman, I'm going to whip you!"

Bang!

In the next second, with a bang, Liu Qiansi was sent flying 100,000 miles by an unknown force, collapsing a small hill.

Liu Qiansi was dumbfounded. "Who hit me?"

At this moment, opposite Luo Xiaobai, Han Fei grinned brightly. "You're back?"

"Um."

[God of Fishing](#)

Chapter 2812: Han Fei Seen Through at a Glance(1)

2812 Han Fei Seen Through at a Glance(1)

Lu Xuan and the others were dumbfounded.

Killing 32 Monarchs? They didn't believe it at first, but the scene just now had completely shattered their understanding of the Monarchs.

A Monarch was sent flying without being able to fight back. Was he... a human?

On the way, although Luo Xiaobai didn't reveal too much detailed information to them, they knew that the human race was very weak, so they were here to help the human race fight. They knew that the human race was enslaved by the Ten Thousand Scale Race and that Luo Xiaobai had a friend who was fighting for it. But they never expected that Luo Xiaobai's friend was already so strong.

Gulp!

Yu Jiaojiao glanced at Lu Xuan. The destruction of more than a hundred cities scared him. The population of the so-called Mountain City was more than five million. If hundreds of cities were massacred, wouldn't billions of people be slaughtered in the battle 52 years ago?

As for Lu Xuan, he knew that Luo Xiaobai must have insisted on coming here for someone. He liked Luo Xiaobai too much. Since he first saw Luo Xiaobai, he had been amazed by her. He even felt that no one in this world was worthy of Luo Xiaobai.

But today, he got a heavy blow. What if the guy Luo Xiaobai liked was a Monarch? What if this Monarch could kill other Monarchs at will? What could he use to compete for her?

Just when everyone thought that this was a destined meeting, Luo Xiaobai frowned slightly and said indifferently, "You are not Han Fei."

"Ah! Woman, don't talk nonsense. My master is the Human Emperor. I've been following him since he was in the Infinite Mining Area. How can he not be my master?"

Liu Qiansi jumped over again, spinning in anger. This guy was now completely convinced by Han Fei. He felt that the greatest blessing in his life was to meet Han Fei.

Swish! Swish! Swish!

When Luo Xiaobai said this, she saw the Beast King and the two elders of the Lava Giants appear here at the same time.

The Beast King looked at Luo Xiaobai. "Little girl, you have to be responsible for what you say."

For the Beast King and the others, Han Fei often appeared in front of them, and they had been working hard for the human race all these years. How could the person in front of them not be Han Fei?

However, they couldn't ignore Luo Xiaobai's words. It would be disastrous if Han Fei was possessed.

When Lu Xuan and the others heard the name Han Fei, they found it familiar, but they didn't remember it. Then, they saw three more Monarchs appear at the same time. At this moment, they didn't dare to make a sound. Luo Xiaobai, on the other hand, looked at Han Fei quietly in front of the Monarchs without changing her expression.

Han Fei was also a little surprised. He couldn't help but smile. "How can you tell?"

"Huh?"

The expressions of the Beast King, Liu Qiansi, and the two elders of the Lava Giant Clan changed at the same time, and they felt that all the hair on their bodies stood on end.

They couldn't believe that Han Fei, who they spent all their time with, was fake. If Han Fei was fake, who was this person in front of them?

For a moment, the atmosphere here was tense, and pressure fluctuations appeared in the space. Lu Xuan and the others were enveloped by this Monarch-level might, and their bodies stiffened and even trembled slightly.

Luo Xiaobai said calmly, “Divine Manipulators can sense the fluctuations of all demon plants. When I first saw you, I felt it. At first, I thought it was that... demon plant. But then I realized that something was wrong. The life energy fluctuations in your body have already affected me. So even if I can’t see it, I can confirm that you are not a human being. You... are a demon plant.”

“What? Demon plant? Woman, are you mistaken? I signed a contract with Master. At that time, Master was still in the Sky Opening Realm. The human race and the City of Scavengers hadn’t started a war yet. If Master was a demon plant, how could I not sense it? And if he was fake, why would he risk his life to attack the Ten Thousand Scale Race?”

Liu Qiansi was dumbfounded. What Luo Xiaobai said was simply absurd.

But what shocked her most was that Han Fei admitted it.

“Oh?”

Luo Xiaobai raised her eyebrows in confusion. She had a bold guess in her heart, but she felt that this guess was a little too bold.

Han Fei still maintained a faint smile, but Luo Xiaobai hesitated and said tentatively, “Are you... an avatar?”

The Monarchs: “???”

The Beast King said, “How is that possible? Han Fei has only been in the Sea Realm for 600 years. He just opened the sky when he left. If his avatar is already so strong, how strong is his original body?”

“Six hundred years? A Sky Opener at first?”

Yu Jiaojiao, Lu Xuan, and the others couldn’t help but look at each other. This guy had just entered the Sky Opening Realm 600 years ago, but now he had already proven Dao? And this was only his avatar?

Although they trusted Luo Xiaobai’s judgment very much, this time, they still felt that it was a little ridiculous.

But as soon as the Beast King said so, a voice came from the void, and another Han Fei walked out of the void.

“As expected of you. I didn’t want to reveal this, but I didn’t expect you to see it through as soon as you came back.”

The Beast King: “???”

Liu Qiansi: “???”

“Huff!”

Luo Xiaobai breathed a sigh of relief and then glared at Han Fei, but she didn’t acknowledge him directly. Instead, she thought for a moment and said, “Make me a dress. I want my favorite one.”

[God of Fishing](#)

Chapter 2813: Han Fei Seen Through at a Glance(2)

2813 Han Fei Seen Through at a Glance(2)

Han Fei was taken aback for a moment and then nodded. Luo Xiaobai was a cautious person. She said her favorite dress, but she never said which dress she liked most. Besides, Han Fei had made many clothes for them when they were young. If he was possessed, even if the person could read Han Fei's memory, he might not be able to analyze which her favorite dress was.

Han Fei simply waved his hand and spiritual energy intertwined into a net. Then, a white long pleated Hanfu dress with a pink waist band and collar appeared in front of everyone.

Seeing this scene, Lu Xuan's heart skipped a beat. He would have no chance. They were childhood sweethearts and this guy had even made clothes for Luo Xiaobai. The relationship between the two was not something he could interfere with.

Luo Xiaobai finally let down her guard and snorted, but there was a hint of relaxation and joy in her voice. "I'm fine. Are Le Renkuang and Zhang Xuanyu around?"

Han Fei was about to speak, when a voice buzzed, "Brat, tell me what's going on first. My head hurts..."

Han Fei glanced at Lu Xuan and the others and said, "My friends, just pretend you didn't hear anything, OK?"

Lu Xuan nodded slightly in embarrassment, and Yu Jiaojiao and the others all nodded like chickens pecking at rice. This one looked different. This was a big shot having a Monarch-realm avatar and killing 32 Monarchs in a row. How could they dare to be impudent?

Han Fei said, "Teacher, you don't know, but Xiaobai should know. Do you remember the golden page in the Ideal Palace?"

Luo Xiaobai nodded. she naturally wouldn't forget the golden page Han Fei obtained by beating the Heavenly Vine.

Han Fei said, "It's a special technique that allows you to cultivate avatars, but I'm the only one who can practice it because of my inheritance."

Luo Xiaobai nodded again, knowing that Han Fei was talking about the source of his avatar.

Han Fei asked, "Have you ever heard of me winning first place in the 100,000-year Competition of the Divine Capital Dynasty?"

"Yes, it's said that you were rewarded with an Origin Ground."

"Huh!"

Immediately, everyone looked behind Luo Xiaobai, and Yu Jiaojiao exclaimed, "Han Fei, a disciple of the Void Temple..."

Suddenly realizing something, Yu Jiaojiao hurriedly covered her mouth.

Lu Xuan and the others all sweated. No wonder the name sounded so familiar. It turned out to be Han Fei. After the 100,000-year Competition, Han Fei's name resounded throughout the East Sea Divine Realm and he had become a legend.

For a moment, Lu Xuan and the others couldn't help but look at Luo Xiaobai. Luo Xiaobai didn't reveal anything about this along the way. If anyone else had such a friend, they would probably brag every day!

But thinking of Luo Xiaobai's personality, they felt that it was only natural.

Han Fei said, "The golden page, the power of the Heavenly Dao in the Origin Ground, the Origin Star of a Monarch, and the help of an Immortal-level powerhouse created this demon plant avatar for me."

This explanation made sense.

Luo Xiaobai didn't want Lu Xuan and the others to hear too many secrets of Han Fei, so she nodded slightly and said, "Let's talk about it later!"

"Wait!"

The Beast King said, "No, tell me everything now. The flowers, plants, demonic trees, and strange vines planted by the human race are actually not for adding fun to the lives of the human race, right?"

Han Fei looked at the Beast King with a smile. "Teacher, let's talk at home."

The Beast King glanced at Lu Xuan and the others. "Why don't you cut off some of your memories?"

Before Lu Xuan and the others responded, Han Fei said in amusement, "Teacher, don't scare them. These are Xiaobai's friends, so they are naturally my friends. How can you just cut off their memories?"

The Beast King said in a muffled voice, "Alright! Then you can catch up with each other. Tell us when you have time. It's outrageous of you to hide everything from me, your teacher!"

Han Fei smiled and nodded. The Beast King beckoned and the two elders of the Lava Giant Tribe were about to leave, but Liu Qiansi pretended not to hear him and wanted to stay.

Liu Qiansi said, "Master, welcome to joining the demon plant lineage!"

"Get lost."

"Okay!"

...

After the others left, Han Fei issued an order in his heart and Han Song disappeared into the void.

Only then did Han Fei look at Lu Xuan and the others. He cupped his hands and said, "Thank you for escorting Luo Xiaobai all the way here. Thank you."

Yu Jiaojiao hurriedly said, "You flatter me... Master, Master Human Emperor, you're welcome... Xiaobai is our castle lord, so we certainly should come together."

"Castle Lord? A mobile sea monster fortress?"

Seeing Yu Jiaojiao nod, Han Fei was slightly taken aback. Wasn't there a Perfected Star Transformation Realm cultivator here? How did Luo Xiaobai, who had just entered the Star Transformation Realm, become the master of the castle?

Luo Xiaobai said, "It's a long story. I should've arrived earlier, but I was too far and too many things happened on the way, so I didn't arrive until now. Sorry."

Han Fei rolled his eyes and said, "Why are you apologizing? I didn't intend to call you back in the first place. Kuangkuang and Zhang Xuanyu both came after the war. Zhang Xuanyu wanted to wait to meet you, but you didn't arrive seven or eight years later, so he left first. But he asked me to leave something for you."

With that, Han Fei handed over the Spacetime Cultivation Bead and said, "This is a Spacetime Cultivation Bead. If you cultivate in it, you will obtain fifty times the time acceleration, which can last for ten years."

Yu Jiaojiao and the others were all shocked. What kind of treasure was this? In the wilderness, it was almost impossible to cultivate in peace for 500 years. Therefore, this Spacetime Cultivation Bead might be one of the best treasures they had ever seen in their lives.

God of Fishing

Chapter 2814: Han Fei Seen Through at a Glance(3)

2814 Han Fei Seen Through at a Glance(3)

Luo Xiaobai just took it casually and asked calmly, "What about himself?"

Han Fei smiled and said, "Those two guys were lucky. Kuangkuang got lucky and became the disciple of a Great Monarch. Now he is in the West Wilderness and may have already proved Dao. Zhang Xuanyu is very popular in the Ghost Strait. When he came, he was at the late stage of the Star Transformation Realm. Now he should be in the peak-level late-stage Star Transformation Realm. He still has one of these things, and I don't need it, so take it!"

Putting away the Spacetime Cultivation Bead, Luo Xiaobai introduced him to Lu Xuan and the others. "This is Han Fei, my childhood companion."

In the end, Lu Xuan cupped his hands. "Lu Xuan greets... Master Human Emperor."

Han Fei smiled and said, "You're welcome. You traveled hundreds of millions of kilometers to reach here. I should be the one who says thank you."

Luo Xiaobai said, "These are my friends I got to know in the wilderness. This is Lu Xuan, the strongest person in the demon plant fortress. If it weren't for him, it would have been difficult for me to return to the Chaotic Wasteland. This is Yu Jiaojiao..."

Here, Luo Xiaobai described Han Fei as a companion and Lu Xuan and the others as friends. Only women could tell what she meant.

Yu Jiaojiao secretly shook her head, thinking that it was impossible for Old Lu to win this time. This was no longer something she could matchmake. The difference was too great. Who in the world could compare to the descendants of the Void Temple?

After a while, Han Fei took Luo Xiaobai and the others to the human cities. Before they arrived, they saw a towering bamboo in the passing city. In a nearby city, a golden tree eight hundred kilometers tall towered.

Han Fei didn't enter the city as a stranger. Instead, he took Luo Xiaobai and the others to Ginkgo City in his true appearance. The city was named after the Ginkgo Tree.

After entering the city, Luo Xiaobai felt that she had entered a different world.

"Wow! It's so beautiful..."

Yu Jiaojiao and the others couldn't help but exclaim. Along the way, the Chaotic Wasteland they had seen was a wasteland. Apart from frequently encountering ominous creatures, there was nothing.

But here, it was a paradise.

On the way, there were rows of houses, shops, and stalls facing the street. More importantly, almost every house had demon plants in front of them.

For example, they saw seven or eight peach trees, fig trees, banana trees, loquat trees, cherry trees, rhododendron trees, rose bushes, ginkgo trees, sword hemp bushes, purple vines...

These demon plants decorated the human cities in colorful colors. Furthermore, there were various spiritual fruits growing on those trees.

Lu Xuan said, "They're all demon plants. Although they're very weak, there are... so many of them."

Yu Jiaojiao said in shock, "There are so many people... too many to count."

Gulp!

Having been adrift in the wilderness all year round, they naturally knew what population meant. Population meant an opportunity to rise. The major mobile fortresses in the wilderness cared about population the most. Population cultivation had almost become the meaning of the existence of mobile sea monster fortresses.

Luo Xiaobai scanned the area with her perception and looked at Han Fei in shock. "They're not weak anymore. How did the human race become so strong? Even the weakest are Dangling Fishers?"

Han Fei said, "Once Human beings enter the Sea Realm, they will inevitably evolve in order to adapt to the environment. You've already established the sea, so you don't feel it clearly, but ordinary people will definitely welcome a breakthrough tide after they arrive here."

Luo Xiaobai asked, "How can humans like to grow demonic plants? Well... Tell me in detail later."

Han Fei nodded. "Let's go. I'll introduce you to the human race again."

Han Fei led Luo Xiaobai and the others to the street. When Luo Xiaobai saw the stunned and shocked gazes of everyone, she knew that everyone must have known Han Fei's true appearance. In such a situation, Han Fei didn't intend to hide himself at all and still wanted to take her to the street. There must be something fishy.

Luo Xiaobai pinched Han Fei's arm. "I just came back. How do you know I won't leave?"

How could Luo Xiaobai not know Han Fei's thoughts? As the Human Emperor, once he introduced her to everyone along the way, the next day, she would become a famous person in the entire human race. Her popularity, prestige, and the human race's trust on her would immediately soar.

It was unknown what Han Fei's purpose was, but Luo Xiaobai knew that Han Fei had jobs for her as soon as she came back.

Without dodging, Han Fei chuckled. "Kuangkuang and Zhang Xuanyu will leave, but you definitely won't."

Luo Xiaobai said, "I used battlefield points to apply for a vacation from the Sky Crater World. I only have a few hundred years. If I don't go back, I'll be considered a deserter."

Han Fei said, "I'll tell Great Monarch East Martial when I'm free."

Lu Xuan and the others: "???"

Luo Xiaobai smiled. "I suspect that you are bragging."

Han Fei smiled and said, "Great Monarch East Martial was here during the battle."

Luo Xiaobai said, "In that case, you'd better tell them that I wouldn't go back. However, can you not directly tell Great Monarch East Martial about this? Why bother a Great Monarch with such a trivial matter?"

Han Fei said, "I don't know anyone else."

"OK."

Lu Xuan, Yu Jiaojiao, and the others were all dumbfounded. They felt that they were dreaming. F*ck, why did they have to trouble a Great Monarch to take a leave of absence?

More importantly, it was Great Monarch East Martial! He was a god-like figure in the East Sea Divine Realm and could suppress the entire Divine Realm. How could you just inform him so casually?

[God of Fishing](#)

Chapter 2815: Han Fei Seen Through at a Glance(4)

2815 Han Fei Seen Through at a Glance(4)

"Greetings, Master Human Emperor."

When Han Fei and the others passed by the nearest shop, the boss was already waiting at the door. This shop specialized in the spiritual fruit business. Now this kind of fruit shop... Oh, no, spiritual fruit shop, was everywhere. People with capital were buying all kinds of spiritual fruits for those who had never tasted them.

Han Fei nodded slightly, then took two bananas from the booth and handed one to Luo Xiaobai. "Try it."

For Han Fei, although he was eating the bananas that grew from his body, he could still feel the pleasure of eating fruit.

Luo Xiaobai naturally wouldn't be polite. In addition to the banana, she also took a peach. She might not be interested in anything else, but she was interested in demon plants. She also wanted to see what Han Fei was up to and how effective this spiritual fruit was.

Han Fei said to the boss, "These are friends from afar. Give them one of each spiritual fruit."

As Han Fei spoke, he threw down a bag of energy crystals.

Immediately, the boss was unhappy and hurriedly said, "Master Human Emperor, you're slapping my face! You've sacrificed so much for the human race. How can I accept your money? With that, the boss hurriedly picked up the money bag and was about to return it to Han Fei."

Han Fei said, "That's a different matter. You paid for these spiritual fruits. How can I eat them for free?"

The boss shook his head quickly. "That won't do. Many people have seen you buy things in my shop. If I accept your money today, my business won't be able to continue tomorrow. But if I don't accept your money today, my business will boom later. I won't lose anything in this business. Master Human Emperor, please take the money back..."

"Uh! Okay then!"

Therefore, Lu Xuan and the others each received a large bag of various spiritual fruits.

Han Fei and Luo Xiaobai walked side by side on the road. Han Fei introduced something to Luo Xiaobai from time to time. Wherever the two of them passed, countless pairs of eyes were staring at them, and all of them put on a motherly smile.

"Haha! Master Human Emperor, you finally have a girlfriend! By the way, who is this girl? Why haven't I heard that Master Human Emperor has a girlfriend before?"

"Ha! How dare you call her a girl? To be by the side of the Human Emperor, she has to be at least at the Sky Opening Realm. Show her some respect."

"Hush, Master Human Emperor and the others can definitely hear us."

"What's wrong with them hearing us? Master Human Emperor is not young anymore. He should have given birth to a Little Human Emperor as soon as possible."

"Cough, cough!"

On the way, Han Fei coughed and looked at a corner of the crowd. "Hey, the human race is still rising and hasn't finished fighting. There will be a lot of things to do in the future. What are you talking about?"

"Greetings, Master Human Emperor. Long live Master Human Emperor."

The group of people who were stared at by Han Fei weren't scared, but bowed respectfully to him.

Then...

It was the same group of people. "I think this girl is not bad. She has a good temperament. With her calm and unhurried attitude, she must be the Human Emperor's girlfriend."

Someone shook his head. "Not necessarily. Maybe they are already married? Then she won't be Master Human Emperor's girlfriend but his wife."

Someone said, "Be bold. Maybe there is already a little Human Emperor, but Master Human Emperor hasn't announced it yet."

Han Fei was lost for words. "Hey, that's enough."

"Haha, long live Master Human Emperor..."

The group of people were very respectful, but they nodded at each other and continued to communicate silently.

Yu Jiaojiao couldn't help but look at Lu Xuan who was a little disappointed. She sighed in her heart, thinking that this was probably because of luck! Sometimes, falling in love with someone you shouldn't like wasn't the most painful thing. What was painful was that your love rival was tens of thousands of times better than you.

Lu Xuan looked at Luo Xiaobai, who was still chatting with Han Fei about the human race, seemingly unaffected by the noise at all.

Lu Xuan secretly sighed. Sure enough, what these people said was true!

Han Fei naturally noticed Lu Xuan's expression. He secretly shook his head. This person was not suitable for Luo Xiaobai after all. This was because he didn't understand Luo Xiaobai. He thought that Luo Xiaobai really had a relationship with him.

But in fact, Luo Xiaobai knew that this kind of thing couldn't be explained clearly, and no one would listen to her explanation. The more she explained, the more she seemed to be trying to hide it in the eyes of others.

Therefore, Luo Xiaobai chose to ignore it. This was the simplest and most effective method.

Unfortunately, Lu Xuan had traveled together with Luo Xiaobai for 48 years but still didn't understand her, so it was impossible for them to get any results.

God of Fishing

Chapter 2816: Luo Xiaobai's Breakthrough(1)

2816 Luo Xiaobai's Breakthrough(1)

Wherever Han Fei took Luo Xiaobai and the others in the Ginkgo City, discussions were heard.

Although everyone was surprised by the appearance of the Human Emperor, most of them were paying attention to Luo Xiaobai beside Han Fei. They were wondering who this girl was who was received by the Human Emperor personally and the latter even introduced the human race's cities to her so warmly.

As for Lu Xuan, Yu Jiaojiao, and the others, although some people paid attention to them, everyone felt that they should be Luo Xiaobai's subordinates. In any case, they were the kind of people who weren't important.

It took Han Fei half a day to take Luo Xiaobai to the giant ginkgo tree.

Although they could see it from afar, when they saw the huge ginkgo tree and the golden fallen leaves all over the ground with their own eyes, they couldn't help but be shocked.

It wasn't because the ginkgo tree was strong, but because it was too beautiful.

The ginkgo tree and the Human Emperor Square were together. Because this was also the core of the city's array, there were many people cultivating nearby. Some were body refiners, some were sitting cross-legged to cultivate, and some were actually here to pray for blessings. The person they prayed to for blessings was naturally Han Fei.

"Greetings, Master Human Emperor."

Seeing Han Fei arrive, everyone stopped cultivating and looked at Han Fei and Luo Xiaobai curiously.

Han Fei said, "Everyone, continue cultivating. Don't worry about me."

After everyone calmed down, they stopped cultivating and fell silent.

Luo Xiaobai said, "Tell me! Instead of taking me to the Thug Academy, you took me around the city. What do you want me to do?"

Han Fei glanced at the people in front of him and said indifferently, "What do you think of the current human race?"

Luo Xiaobai said, "The human race has become much stronger. In just 52 years, the lowest level of the human race is in the Dangling Fisher Realm. This shows that the comprehensive strength of the human race has increased by at least two levels."

Han Fei asked, "How do they compare to the average level in the Sea Realm? For example, your demon plant fortress."

Luo Xiaobai said, "Not enough! There are still two levels lower."

Han Fei asked, "How do they compare to the superpowers like the Divine Capital Dynasty and the Capital of Horror?"

Luo Xiaobai said, "The average strength is at least three levels lower."

Han Fei nodded slightly. "Xiaobai, the human race now has 180 billion people, which is too many. At present, Uncle Xuan is helping me govern them. But no matter how capable Uncle Xuan is, it's difficult for him to handle 180 billion people. There are too many things involved."

After a pause, Han Fei continued, "The human race has just entered the Sea Realm and is rising quickly. The City of Scavengers was destroyed, but the City of Origin is still there. The human race needs war. Only the humans baptized in war are qualified to step onto the huge battlefield of the Sea Realm."

Luo Xiaobai looked at Han Fei. "There are many Monarchs on the human race's side now. Do you still need me to lead the race war?"

Han Fei said, "It's different. Liu Qiansi is a demon plant. Teacher Beast King and the two Monarchs of the Lava Giants just now are not human beings. I'm the only human Monarch of the human race. So far, the

human race hasn't even had a Perfected Star Transformation Realm powerhouse. Therefore, I've been waiting for you to come back."

Behind Luo Xiaobai, Lu Xuan, Yu Jiaojiao, and the others were dumbfounded. 180 billion humans was shocking enough, but this person actually wanted Luo Xiaobai to lead such a human race to war?

For a moment, Lu Xuan and Yu Jiaojiao thought that the demon plant fortress was nothing compared to the huge population of the human race.

At the same time, they were also a little shocked. The Human Emperor, the strongest person in this race, the faith of everyone, and the current successor of the Void Temple, but he handed the human race over to Luo Xiaobai. How much trust did he have in Luo Xiaobai?!

As soon as the leadership of the war was handed over, every decision Luo Xiaobai made would concern the life and death of countless people. Ordinary people didn't dare to take on this burden at all.

Even for the three million people in the demon plant fortress, Lu Xuan was on tenterhooks all day long. Every step he took was carefully considered. If these 180 billion people were handed over to him, Lu Xuan could guarantee that he wouldn't dare to take them on at all, nor could he bear this burden.

Luo Xiaobai rolled her eyes but didn't refuse.

She said, "By the way, what was that cicada chirping about?"

"Oh! I met a god when I was traveling in the Sea Realm and I did something for him, so he owes me a favor. I asked him to kill all the Monarchs of the City of Origin, including the Great Monarch of the City of Origin."

Luo Xiaobai: "..."

Lu Xuan and the others: "???"

Han Fei said it so casually that everyone who heard it was shocked and incredulous. Lu Xuan's heart even sank. Are you really going to say this to my face?

Yu Jiaojiao was a little nervous. Would they be silenced?

Luo Xiaobai wondered, "There are still gods in this world? Didn't they say that there were no gods?"

"Yes, there are, but I've only met one so far."

Luo Xiaobai glared at him. "How many more do you want to meet?"

"Haha..."

Luo Xiaobai thought for a moment. "I'll consider it. Let's go back to the Thug Academy first!"

Luo Xiaobai turned around and looked at Lu Xuan and Yu Jiaojiao. "Sorry, I will stay in the human race and can't enter the wilderness with you again. But if you want, you can bring demon plant fortresses to our human race."

Lu Xuan said in a deep voice, "You are the master of the demon plant fortress."

God of Fishing

Chapter 2817: Luo Xiaobai's Breakthrough (2)

2817 Luo Xiaobai's Breakthrough (2)

Yu Jiaojiao nodded repeatedly. "Xiaobai, from the moment you saved the demon plant fortress, we have already been your followers."

Luo Xiaobai said, "I've never admitted this. I came to the Chaotic Wasteland with the power of the demon plant fortress."

Lu Xuan said, "In any case, the three million people in the demon plant fortress are your followers. Since you chose to stay in the human race, we will naturally stay here too."

Han Fei smiled and said casually, "Liu Qiansi, come here."

Swish ~

Now Liu Qiansi was happy every day. His full-time job was to help every giant demon plant grow, or to teach those demon plants from the Forest of Terror.

Demon plants got along well with demon plants. Especially after Han Fei almost turned human cities into demon plant cities, for the first time, Liu Qiansi felt that she was no longer alone.

"Master."

Han Fei said, "Take these guests who have come from afar out of the Chaotic Wasteland and guide a mobile fortress over."

"Huh? Out of the Chaotic Wasteland?"

Han Fei said, "Just use the teleportation array between us and the City of Wanderers. Go!"

"Okay!"

After that, Liu Qiansi turned around and said, "Well, guests, let's go!"

After Liu Qianzhi and Lu Xuan left, Han Fei said, "These people are not bad! They actually accompanied you into the Chaotic Wasteland and came all the way here."

Luo Xiaobai nodded. "Yes, not bad, but not to the point where they can trust me with their lives. They kept me because of my abilities. This is because of the personality of the wilderness people. It's destined that they won't be completely trustworthy."

Han Fei said, "Tsk, tsk. I think Lu Xuan quite likes you. He made you the master of the castle although he's already a Perfected Star Transformation Realm cultivator."

Luo Xiaobai said, "Because my plan for the demon plant fortress can increase their survival rate by 50%, increase their strength growth speed by 20 to 30%, and stabilize the demon plant fortress in the chaotic wilderness."

Han Fei raised his eyebrows. "Didn't you refuse to admit that you're their master? Why are you..."

Luo Xiaobai looked up at Han Fei and said seriously, “Those words are meant to be heard by them. This is a strategy of retreating for advancement and playing hard to get. In this way, I can subdue the demon plant fortress more easily. Although the population of the demon plant fortress is only three million, there are many strong masters. If the human race wants to develop and enter the Sea Realm, we have to unit all possible forces.”

“Uh ~”

“Then your friendship?”

Luo Xiaobai said, “They treat me sincerely, and I treat them sincerely too. But friendship is friendship, and business is business. As a human, I naturally have to obtain more resources and strength for the human race.”

“Fine, fine!”

Sure enough, Luo Xiaobai was still the same Luo Xiaobai. Ever since she grew up, or rather, since the battle in the Thousand Star City, Luo Xiaobai had become extremely rational. Since then, she didn’t seem to have made any friends like the four of them.

Han Fei was happy that Luo Xiaobai had made a few friends who could trust her with their lives. However, Luo Xiaobai’s words made Han Fei recognize reality.

Han Fei said, “Let’s go! Let’s return to the Thug Academy. You know what, when Zhang Xuanyu and Yi Xiyan were waiting for you, they gave birth to a child named Zhang Panpan...”

Luo Xiaobai put on a rare smile. “Then I have to prepare a gift for our first meeting.”

Han Fei said, “Ha, she is already a big girl. With your identity, she should call you Aunt. But don’t give her too precious a gift. These children don’t lack anything now. The adults dote on them.”

Luo Xiaobai said, “Then let her follow me to gain experiences on the battlefield.”

“...”

Han Fei said, “Your gift will probably make her cry.”

Luo Xiaobai didn’t care at all. She asked, “Is there any news about XiaoChan?”

Han Fei shook his head. “Over the years, I’ve been to very few places. I’ve spent almost all my time on how to destroy the Ten Thousand Scale Race and haven’t had the time to find her.”

Luo Xiaobai said, “There’s no rush. It’s only been 600 years. Even if XiaoChan reincarnates into a big clan in the Sea Realm, it won’t be easy for her to open the sky in 600 years, so there’s still time.”

Han Fei nodded slightly. In fact, he had asked the Vast Ocean Navigator to show the location of Xia XiaoChan, which showed that she was in the South Sea Divine Realm. When his plan was done, it would be time for him to set off for the South Sea Divine Realm.

...

Several days later.

On the ginkgo tree.

In more than 300 human cities, rumors about Han Fei and Luo Xiaobai appeared one after another.

The rumors were not ill-intentioned. The people just felt that this was a good thing and worth talking about. Most of the people were asking why they had never heard of their relationship before, did the two just fall in love, or would the two of them give birth to a little human emperor or something?

While many people were guessing Luo Xiaobai's identity, Han Fei was telling Luo Xiaobai about the loose life form.

Han Fei said, "This is it. The combat power of the loose lives might not be very strong, but their overall combat power is definitely ridiculously strong. Besides, it's very difficult for such a life form to die."

Luo Xiaobai took a deep breath. "So, are you cultivating with the power of the entire human race?"

Han Fei nodded. "Yes."

Luo Xiaobai asked, "What about the cultivation efficiency?"

Han Fei said, "At present, I'm still at the Dao Proving Level, but it's not that I can only reach the Dao Proving Level. Every plant needs to split a trace of my energy, spiritual energy, and soul. Energy and spiritual energy are easy to get, and even ownerless souls aren't difficult to obtain. The problem is that the more people plant demonic plants, the more energy, spiritual energy, and soul power I'll have to split. Fortunately, loose living beings have individual memories and are gradually growing. Otherwise, I would have been sucked up sooner or later."

Chapter 2818: Luo Xiaobai's Breakthrough(3)

2818 Luo Xiaobai's Breakthrough(3)

Luo Xiaobai frowned. "Since it's all the soul power you distributed, how can it be enough for 180 billion people to nurture demon plants?"

Han Fei said, "Actually, there aren't that many. At present, only less than one tenth of the population can afford raising demon plants."

Luo Xiaobai said, "There are still 18 billion people. Even if you are a Monarch, even if each loose living being only needs a little bit of soul power, it's still 18 billion soul power. Where do you get so much soul power?"

Han Fei smiled and said, "Of course I don't. Therefore, among these 180 demon plants, only about 3 billion spiritual plants have already established a connection with me. The rest are pure demon plants, but that's also a seed distributed from me, so I can add soul power whenever I want."

Luo Xiaobai: "Three billion?"

Han Fei said, "Well, I accidentally got a treasure called the Soul Sealing Pearl, which can store a thousand Origins of soul power. Plus, you know that my Origin Star can accelerate time. After more than 10,000 years of cultivation, coupled with a Monarch-realm Divine-Quality Technique, the power I cultivate will

be all invested in these loose bodies. In the early stages, I might be at a disadvantage and my strength might even decline. But as time goes by, these loose bodies can feed back to me, so the longer I cultivate, the stronger I will be.”

Luo Xiaobai quickly analyzed, “There are 180 billion human beings. If you want your loose life forms to spread throughout the human race and enter every household, it will take more than 3,000 years even if you cultivate day and night. During this period of time, your demon plant avatar probably won’t be able to make any progress unless you gather parts into a whole.”

Han Fei nodded slightly. This was a problem. Three thousand years, and this was the result of cultivating on his Origin Star. Otherwise, it would have taken seven or eight hundred thousand years.

Therefore, the growth of loose living beings was actually not as fast as he imagined.

Of course, this was only if he didn’t use Han Song. If he really had no choice, it would be a different matter if he gathered all the loose living beings into his original body.

Once all his loose lives returned, his strength might soar, and it was possible for him to benter the Great Monarch Realm in one fell swoop.

Also, the time acceleration of the Demon Purification Pot could only be stopped at 256 times because of the lack of vines. He wondered if the time acceleration would continue to double if new vines returned.

Therefore, the small vine of the Heavenly Race was very important to him. As for the growth of loose living beings, he could only follow the current development route.

And loose life forms could only be held in his hands as the final trump card. Otherwise, once they were exposed and targeted by someone, all his efforts might be wasted overnight.

Or perhaps, he had another way, which was to find an Origin Ground and use the world origin and the power of the Heavenly Dao of the Origin Ground to achieve the rapid growth of loose living beings.

Just like Dao Domain Sunflower Head, how could she fill the Demon Domain with vitality in just a few decades? Apart from the help of Great Monarch East Martial, it might be related to the World Origin of the Demon Domain.

Furthermore, the last time he went to the Demon Domain, it seemed that many demon plants were still at very low levels. They might not belong to a loose lifeform but had to wait for the Dao Domain Sunflower Head to recover her strength to its peak before gradually changing this situation.

Han Fei was too lazy to think about it. The Demon Purification Pot’s vine and an Origin Ground were things that could only be chanced upon by chance. He couldn’t set foot in the Soul Sea easily now, so it was useless to think too much.

Han Fei suddenly changed the topic. “My problem can’t be resolved overnight. Now let’s discuss your problem.”

Luo Xiaobai asked, “What’s my problem?”

Han Fei said, “It seems that you’ve entered the Star Transformation Realm for a while, but your breath is still unstable. You must have just shaped the ground veins, right?”

Luo Xiaobai nodded. "Yes."

Han Fei asked, "How large was your Origin Sea when you entered the Star Transformation Realm?"

"810,000 kilometers."

"How large?"

Han Fei looked at Luo Xiaobai in shock and disbelief.

Luo Xiaobai was puzzled. "Why? Is there a problem?"

Han Fei asked, "Have you ever heard of the heavenly-number star transformation?"

Luo Xiaobai said, "I have. Everyone in the Sky Crater World knows it. There are clear analyses and records on star transformation on the battlefield."

Han Fei asked, "Have you told anyone else?"

Luo Xiaobai shook her head. "No. I know that there are very few people who can have a 810,000-kilometer star transformation. Although I don't know the deeper meaning of it, I naturally won't tell others about it. I publicly claim that I only had a 490,000-kilometer star transformation."

Han Fei asked, "Where did you get so many resources? The resources required for a 810,000-kilometer star transformation are quite terrifying. In addition to resources, it also requires a lot of energy."

Luo Xiaobai said indifferently, "I know. I entered the Sky Crater World before I entered the Star Transformation Realm, so I naturally prepared everything before I entered the Star Transformation Realm. As for the source of resources, apart from a portion that I accumulated by killing Sky Openers, it's also related to luck. As a Divine Manipulator, my talent is better than I imagined, so in the Sky Crater World, I sensed the place where a Carefree Realm demon plant powerhouse died. From there, I learned the way to step into someone else's Origin Star and inherited some of the senior's resources. As for the way to refine stars, in the Sky Crater World, it can be exchanged for points and is easy to obtain."

[God of Fishing](#)

Chapter 2819: Luo Xiaobai's Breakthrough(4)

2819 Luo Xiaobai's Breakthrough(4)

Han Fei was slightly relieved. "I see."

In the past, Luo Xiaobai had awakened a Dao Seed in front of them. Although Han Fei had never seen Luo Xiaobai awaken as a Divine Manipulator, the Divine Manipulator was a unique existence in the Yin-Yang World or even the Sea Realm.

With this in mind, Han Fei felt that it might have something to do with the Raging Sea. The Raging Sea was the ancestral land of human beings, and because of the influence of the Bloodline Divine Tree in the Soul Sea, all creatures would show signs of atavism. Luo Xiaobai might have inherited a powerful bloodline from the ancestral land of human beings.

In that case, the human race's ancestral land indeed had much more resources than he had imagined.

Han Fei asked, "Have you used up all your resources?"

Luo Xiaobai nodded. "Yes. After all, it's the Origin Star of an ancient powerhouse. When I went over, the Origin Star of that powerhouse had already been torn apart. The star core had been emptied, but there were still some resources left. Perhaps that bit of resources is nothing to powerhouses, but to me at that time, it was already a lot. In addition to the resources I accumulated from killing Sky Opening powerhouses, it was barely enough for me to enter the Star Transformation Realm. By the way, what kind of a star transformation did you have?"

Han Fei said, "A 810,000-kilometer one."

The corners of Luo Xiaobai's mouth curled up slightly. "Isn't it the same?"

Han Fei really wanted to say that there were so many awesome existences behind him. His parents were all gods! Besides, there were really few such people.

However, although there were few people who could have a 810,000-kilometer star transformation, there were still some. For example, the members of the Void Temple definitely all had a 810,000-kilometer star transformation. The known Great Monarchs were probably the same. This represented potential. There were always some talented people.

Han Fei said, "Leading the human race to fight a war will inevitably waste a lot of your time, so the top priority now is naturally to improve your strength. Since you've already created earth veins, you should be walking your Star Path now, right?"

Luo Xiaobai nodded. "Yes, I have 32 refined stars at present. After all, with my strength, I can only kill early-stage star transformation realm cultivators in the Sky Crater World. Only occasionally, with the cooperation of a team, will I have a small chance to hunt a late-stage star transformation realm powerhouse."

Han Fei asked, "The undead have Origin Stars?"

"Yes, and their Origin Stars are no different from ordinary people's. Or maybe I was too weak back then and hadn't seen the Origin Stars of stronger undead creatures, so I take this with a grain of salt."

Han Fei was deep in thought. After he came back to himself, he took out a bag of thousands of beads, which were refined stars. Luo Xiaobai raised her eyebrows.

"So many?"

Han Fei said, "There are a hundred refined stars here that span 810,000 kilometers. But I've studied them. These aren't the Origin Stars left behind by real powerhouses who had a 810,000-kilometer star transformation. They should be modified stars. There are also a thousand normal modified stars."

Han Fei was also shocked by the 810,000-kilometer-long refined stars. After studying it, he found that something was wrong, so it was easy to find out why. He estimated that the Ten Thousand Scale Monarch tried to make stars similar to the 810,000-kilometer-long stars, but after making them, he found that these modified stars were not like real Origin Stars, so he gave up on modifying them.

Luo Xiaobai opened her mouth, and then Han Fei took out a dozen more bags and said, "Well, I still have a lot of them here. Is 10,000 modified stars enough?"

Luo Xiaobai pondered for a long time. "Have you never taken the Star Path?"

Han Fei was a little surprised. "How do you know?"

Luo Xiaobai rolled her eyes at Han Fei. "Next time, don't give these to everyone you see. These are more than enough to push me to the Monarch Realm. The reason why I said that you didn't take this path is that if you have taken this path, you should know that I don't need to use so many at once. The system of the Star Path can only be slowly constructed. You have to have a structural direction first. Every modified star around your Origin Star needs to undergo a balance test. This is because modified stars will affect your Origin Star. It doesn't actually belong to you."

Han Fei raised his eyebrows. "Do you mean that you can't use these to quickly improve your strength?"

"No!"

Luo Xiaobai put on a rare smile and said, "There's a way. The balance test is not difficult. What's difficult is to obtain so many high-quality modified stars. With these... in ten years, I can enter the peak-level late-stage Star Transformation Realm in ten years. If I use the Spacetime Cultivation Bead you gave me, it won't take more than a year plus the time I'll use to consolidate my realm."

Han Fei was overjoyed. "Ha, you can keep them and make a breakthrough in my Origin Star. My time acceleration is faster than this thing."

Luo Xiaobai shook her head. "No hurry. I can try this Spacetime Cultivation Bead. I have to know its effect in case I'm not familiar with this thing when you're not around in the future. Entering it rashly might delay some things."

"That's good."

Luo Xiaobai was not a pretentious person. She had a very clear idea about the use of resources and the Spacetime Cultivation Bead. The human race lacked high-end combat power, so this was not the time to be pretentious with Han Fei. Besides, she didn't need to be pretentious to Han Fei.

Luo Xiaobai directly collected all the Origin Stars that Han Fei threw out and didn't stand on ceremony with Han Fei at all. Although she didn't know why Han Fei didn't take the Star Path, she had already taken it.

Han Fei had killed many Monarchs. She knew that Han Fei must have obtained more modified stars than these. Then, it was crucial for her to improve her strength.

As the Human Emperor, Han Fei definitely had to think of a way to improve the strength of the human race, so these modified stars would definitely be sent everywhere. Instead of giving them to others, he might as well give them to her. This was because she didn't believe in the abilities of others.

The Spacetime Cultivation Bead was activated, and time flowed in this place. With a flash, Luo Xiaobai disappeared.

Han Fei thought for a moment and muttered, "Interesting. With my Great Dao of Time, I can't understand the way to refine this kind of spacetime cultivation bead."

The usage of the Great Dao of Time surged into Han Fei's mind. In the end, he was certain that this thing exceeded his understanding of time.

"Six Divine Time Techniques."

Han Fei was certain that this was definitely one of the Six Divine Techniques of the Time Temple. The usage of this law of time was too advanced. Han Fei didn't even know the mechanism.

Two and a half months later.

Swish ~

The time fluctuation appeared again, and Luo Xiaobai appeared again. Han Fei had deliberately not cultivated for the past two months, so the moment Luo Xiaobai came out, he immediately came to the top of the ginkgo tree.

At this moment, Luo Xiaobai had already entered the peak-level late-stage Star Transformation Realm.

"This effect is immediate! How is it? Have you mastered the usage of the Spacetime Cultivation Bead?"

Luo Xiaobai nodded. "OK, let's go to your Origin Star now."

[God of Fishing](#)

Chapter 2820: War Commander Luo Xiaobai (1)

2820 War Commander Luo Xiaobai (1)

Luo Xiaobai's greatest advantage was that she knew what she should do, what she shouldn't do, and how to do it.

In Han Fei's Origin Star, it only took Luo Xiaobai less than two months in reality, which was equivalent to more than 40 years of normal cultivation, to completely stabilize the Perfected Star Transformation Realm.

In the human race's cities.

Han Xuan was listening to Hong Yue's report.

Hong Yue asked, "Brother Han, the tidal wave is coming in five months. Shall we distribute the Clean Stones in advance?"

Han Xuan said, "Old Hong, you've experienced many tidal waves. The main source of our Clean Stones was the ones found after the destruction of the City of Scavengers. There are only more than 90 billion of them. Plus the hunting over the years, there are only 100 billion of them. What I'm worried about now is that the scale of the tidal waves may be determined by the size of the specific power to be impacted."

Hong Yue nodded slightly. "Well, I haven't been in the City of Scavengers before, so I don't know much about it, but it's very likely. This is because the City of Scavengers used to adopt a village system. How strong can an ordinary village be? But they resisted it, which means that there won't be many ominous creatures attacking the villages."

Han Xuan said, "That's right. It's exactly because of this that the human race is different from the Ten Thousand Scale Race. The Ten Thousand Scale Race only has a few billion people in total, but our human race has a population of 180 billion and more than 300 cities. That's why I'm worried that the number of Clean Stones might not be enough."

"Don't worry."

At this moment, Luo Xiaobai's voice came from outside, and Han Fei and Luo Xiaobai arrived together. Luo Xiaobai cupped her hands at Han Xuan. "Uncle Xuan, for human beings, we don't have to worry about the number of Clean Stones."

"Yo, Xiaobai has come out of seclusion? Your strength has entered the peak-level late-stage Star Transformation Realm. This speed is much faster than me and Old Hong."

Hong Yue couldn't help but sigh. The people around Han Fei were really abnormally strong. When Luo Xiaobai entered the Raging Sea, she was unknown and her strength seemed to have just advanced to the Venerable realm.

Now, she had transformed into a peak-level late-stage Star Transformation Realm cultivator. Even if Han Fei provided the modified stars, this speed was too fast.

Han Xuan looked at Luo Xiaobai with a smile. "I think I know what you think."

Luo Xiaobai nodded. "The Ten Thousand Scale Race needed to kill a large number of ominous creatures in order to obtain more energy crystals and refine more Clean Stones. In addition, except for the City of Scavengers, most of them were inhabited by human beings and other foreign races. They didn't pity them, so everyone had to participate in the war. But the current human race is different now. The human race won't stay long in the Chaotic Wasteland, so as long as most people below the Explorer or Law Enforcer realm are taken into the Origin Seas or Origin Stars of the powerhouses and only a few people were left outside to resist the tidal waves, we can easily go through this tidal wave. The Clean Stones will be enough."

Han Xuan said, "The problem is when the human race will leave the Chaotic Wasteland. A hundred years is neither long nor short. For ordinary cultivators, they can only cross one or two minor realms in a hundred years. Is it really fine to enter the Sea Realm so early?"

Luo Xiaobai said, "Uncle Xuan, we can't wait that long. It's impossible for us to wait for the human race to grow up before leaving. After the breakthrough tide, it may take hundreds or thousands of years for the overall strength of the human race to rise by another level on average. Even if the overall strength rises by another level, it can't reach the average level of the Sea Realm. What the human race needs now is not that everyone is strong, but that a small number of people are strong... For this, we can implement a plan to have those getting strong first help those getting strong later. We can concentrate the resources and let the strongest batch of people rise first to improve the combat power of the strong and be prepared to enter the wilderness."

Han Xuan couldn't help but grin. "That's a good idea, but the problem is resources... Even if Han Fei has the modified stars and a large number of resources, the powerhouses also need a lot of resources. If Han Fei can provide the resource needs of tens of thousands of people, can he provide the resource needs of a hundred thousand or a million people?"

Luo Xiaobai shook her head. "We don't necessarily need his resources. According to Han Fei, there are hundreds of thousands of Sky Opening powerhouses in the City of Origin. These are our resources."

"Oh?"

Han Xuan was also slightly surprised. "You want to?"

Luo Xiaobai nodded slightly. "I have a secret technique that can allow me to go to other people's Origin Stars, provided that I have the other party's corpse or life remains as a springboard. I can teach this technique to the human race, but I need someone I trust. At that time, even if hundreds of thousands of Sky Opening Realm powerhouses can't be cultivated with these resources, it shouldn't be a problem to cultivate hundreds of thousands of Sea Establishment Realm powerhouses. And some people who have already reached the peak level of the Sea Establishment Realm, with the supply of these resources and the help of Han Fei and the Lava Giants, it won't be a problem for them to open the sky."

Hong Yue couldn't help but ask, "How can the Lava Giants help us?"

Luo Xiaobai said, "Refining. The people of the Lava Giants are all refiners and have the means to forge godly weapons. They may not be able to forge powerful godly weapons, but low-quality godly weapons are still easy to forge for them."

Han Fei said, "They don't need to build godly weapons. In fact, every Lava Giant has hundreds of godly weapons. We can just borrow them. Let me talk to them."

Luo Xiaobai said, "That's even better. In any case, the City of Origin is an important resource for the rise of the high-end combat power of our human race. Therefore, we have to change our strategy of destroying their Sky Opening Realm army with the tidal wave."
