### [God of Fishing](#)

#### Chapter 2821: War Commander Luo Xiaobai (2)

2821 War Commander Luo Xiaobai (2)

Han Xuan looked at Han Fei, thinking that Luo Xiaobai had never been so ruthless before! She had shown an aggressive personality after her return this time.

Han Fei shrugged. "Well, let me introduce you. Xiaobai, the current war commander of the human race. I may be powerful and can sweep through the City of Origin, but I can't squeeze out the value of the City of Origin. Uncle Xuan, you're also very powerful. You can govern the entire human race. The strongest thing you have is the ability to plan, but Uncle Xuan, you're too busy and have limited manpower. In the future, our human race will go to the wilderness and fight countless battles. We can't count on you alone to lead us, so Xiaobai's identity as the commander is particularly important."

Han Xuan nodded. He really didn't have much time to care about war. Just planning to develop and expand the human race was exhausting enough. This was not the previous Nine Palace World, but the entire human race.

Han Xuan said solemnly, "From now on, the battlefield command of the human race will be handed over to you. Hong Yue, gather all the powerhouses above the Venerable realm who are currently in the human race. Since I want to fulfill your identity as the commander, I shall do it with great fanfare."

Then Han Xuan said, "I'll inform Gu Tingnan."

Luo Xiaobai said, "Uncle Xuan, Han Fei and I will go to the City of Wanderers. They don't need to fight this battle. I want all the resources in the City of Origin."

Gulp!

Hong Yue swallowed hard. Although he didn't know what Luo Xiaobai was going to do, he knew that the City of Origin was doomed.

Han Xuan nodded with a smile. "Now that we have a plan, I can finally let go."

...

The human race had been in the Chaotic Wasteland for 52 years, and the number of Venerables had increased by a terrifying amount. Although the breakthrough frenzy had passed, many people had broken through to the Venerable realm every day in the past decades because of the large population. As a result, there were 160 million Venerables.

Of course, this number couldn't be compared to the breakthrough tide. After all, in the first 15 years, the Venerable realm had increased by 100 million times, and in the 37 years since, the Venerable realm had only increased by less than 30 million.

However, even so, the total number was shocking. Not long ago, Venerables were already the top existences in the Raging Sea. Who would have thought that one day there would be Venerables everywhere?

When 160 million people gathered, the scene was spectacular.

In the sky above the central Emperor City surrounded by cities, 982 of the 1,702 Sky Opening Realm powerhouses had arrived. 290,000 Sea Establishment Realm powerhouses, 190,000 Sea Establishment Realm powerhouses, and 160 million Venerables had gathered from all directions.

In the city, countless people looked up. "What happened? Why are there so many strong masters all at once?"

"Oh my god! How many people are there? They almost cover the sky and the sun. The scale is comparable to the human race's Spirit Gathering Day!"

"How can the human race's Spirit Gathering Sun compare to this? Look at these people. All of them are stepping on the sky. Even the weakest is in the Explorer realm, right? But if they are really Explorers, why didn't the explorers of our Imperial City participate in today's matter?"

Someone couldn't help but sigh. "Are they all in the Venerable realm?"

This guess shocked many people. If they were all Venerables, how many Venerables would there be?

In midair, most of the venerable powerhouses were dumbfounded. They'd been informed to gather, but they hadn't expected so many people to come. Didn't this mean that all the venerable powerhouses of the entire human race had been summoned?

Someone said, "It seems that it's going to be a decisive battle this time!"

Someone sighed. "I never imagined that one day, our human race would grow to this point."

Someone said expectantly, "We're going to follow the Human Emperor to fight again! Then the City of Origin is doomed."

"..."

This situation lasted for four hours. When these Venerables spontaneously lined up, in the eyes of the world, they were like heavenly soldiers in battle.

At this moment, a giant ten thousand feet tall stepped forward from the sky.

"It's the Human Emperor."

"Master Human Emperor is here."

"I knew that the human race would definitely start a war after cultivating for so long."

"Huh! Isn't the tidal wave coming? Is Master Human Emperor going to destroy the City of Origin before the tidal wave?"

"Look, on the left shoulder of Master Human Emperor, that's Master Han Xuan."

"Is this Lord Han Xuan? For so many years, Lord Han Xuan has been planning the development of the human race and working hard, but not many people really know him. This time, it's time to let the world know him."

“Wait, who is the woman on the other shoulder of Master Human Emperor?”

“I’ve never seen this woman before!”

“I haven’t seen it either... Huh, wait, it’s that woman. Master Human Emperor once personally took this woman shopping in Ginkgo City.”

“Hiss! It’s actually that person. Is she the empress?”

“Wow, is it true? Is she really the empress?”

“Who knows? This woman has only appeared once. Everyone is guessing, but who knows if she is the empress or not? We’re not close to Master Human Emperor.”

At this moment, Han Fei stood still.

“My fellow human beings above the Venerable realm, you may have guessed why I summoned you today. Yes, a new war is coming for the human race, which is to crusade against the City of Origin.”

### God of Fishing

#### **Chapter 2822: War Commander Luo Xiaobai (3)**

2822 War Commander Luo Xiaobai (3)

“Fight, fight, fight...”

The sound shook the sky, and the fighting intent raged.

Han Fei raised his huge hand, signaling everyone to be silent.

Han Fei’s voice swept across the world. “Yes, I want to crusade against the City of Origin and destroy it. It has been 52 years since the human race came to the Sea Realm. Destroying the Ten Thousand Scale Race is only the first step. Destroying the City of Origin will be the second step. Walking out of the Chaotic Wasteland will be our third step. The human race needs to be honed and grow. We can’t be like flowers in a greenhouse. The rise of the human race doesn’t depend on my strength alone. Therefore, I can fight and win some wars, but it’s meaningless. And the war against the City of Origin is like this. This is a war that needs you to complete. Only by winning this war can you become the torrent of the human race’s rise. Your victory will guide the direction of hundreds of billions of human beings...”

When Han Fei spoke, all the people in the Sky Opening, Sea Establishment, and Venerable realms on the opposite side held their heads high. Han Fei had a high evaluation of them and high expectations of them. It was their honor to be rewarded by the Human Emperor. Everyone was proud of them.

Han Fei continued, “Today, I’d like to introduce two people to the whole human race. The first is the one on my left. He created the human race’s law, built the human race’s cities, and created the city’s arrays. He governs the human race and maintains the order of the human race. I think you should know his name, Han Xuan, the guardian of the human race.”

“Han Xuan, Han Xuan, Han Xuan...”

“Although we have never seen Lord Han Xuan, he has always been in our hearts.”

“Who in the human race doesn’t know Lord Han Xuan? He is the creator of all the orders of the human race.”

“We will remember Master Han Xuan for the rest of our lives.”

“Thank you for your hard work, Master Han Xuan...”

Han Xuan didn’t want to come. Seeing this scene, he couldn’t help but blush.

Amidst the noise, Han Fei pressed his palm again, indicating for everyone to be silent.

Han Fei continued, “Previously, Lord Han Xuan had to maintain the order of the human world and the war between the human race and the City of Origin. He was under great pressure and couldn’t split up. Therefore, I’ve summoned you here to introduce you to another person.”

For a moment, everyone looked at Luo Xiaobai.

Most humans knew Han Xuan. Although they had never seen him in person, his name had always been printed on the Human Race’s Codex. Furthermore, every time a decree was issued or a major decision was made, it was Han Xuan who signed it. Therefore, everyone was very familiar with this name.

However, in their impression, Luo Xiaobai didn’t seem to have an important role in the human race as important as Han Xuan.

At this moment, Luo Xiaobai was calm as Han Fei announced, “The person next to me is called Luo Xiaobai. She’s close to the Perfected Star Transformation Realm and is the second most promising person in the human race to become a Monarch...”

“Hiss!”

Hearing that Luo Xiaobai might be the second Monarch of the human race, everyone was shocked. Was the human race going to have another strong master so soon?

Someone sighed. “Sure enough, anyone who can win the favor of the Human Emperor must be extraordinary.”

“This makes sense. It’s mainly because she’s strong!”

“It’s said that the Perfected Star Transformation Realm cultivators are very powerful. The big guys of the Lava Giant Tribe once said that a Perfected Star Transformation Realm cultivator can almost sweep through all people below this realm. It’s not easy to kill them with numbers.”

“Is this the empress or not?”

“Ask Master Human Emperor.”

In a corner of the crowd, Lu Xuan, Yu Jiaojiao, and the others were also present. Since they had chosen to submit to the human race, they naturally had to fight for it.

Yu Jiaojiao said, “Old Lu, Xiaobai has broken through to the peak-level late-stage Star Transformation Realm. I remember that she just succeeded in entering the Star Transformation Realm 20 years ago and creating earth veins three years ago.”

Lu Xuan said, "Her talent is extraordinary, and she's a born leader. The resources that the Human Emperor has are unimaginable. Therefore, it's only natural that she can break through to the peak-level late-stage Star Transformation Realm so quickly. I won't even be surprised if she advances to the Perfected Star Transformation Realm in a few decades."

Yu Jiaojiao was stunned. "Really?"

Lu Xuan said, "You should know that resources determine the growth of a strong master."

...

Han Fei continued, "From today on, Luo Xiaobai will be the war commander of the human race for a long time. She can command all the human race's large and small battles. The battle to conquer the City of Origin will be led by Luo Xiaobai. Everyone, applaud..."

Everyone: "???"

Pa! Pa! Pa!

In the next moment, loud applause broke out, but the scene of hundreds of millions of people applauding together was really shocking. Above the Imperial City, raging waves slapped.

Seeing this, Han Fei quickly raised his hand to stop the applause.

After the applause ended, Han Fei said, "Now, Luo Xiaobai, the war commander of the human race, will give a speech to everyone..."

No one knew Luo Xiaobai, so they were very curious about her.

Although she was very strong, it didn't mean that she knew how to fight. Suddenly hearing that a stranger was going to lead them to fight, and it was a female cultivator, many people weren't convinced.

For example, many people knew Hong Yue. This person's fame was only second to Lord Han Xuan's. Furthermore, his methods were quite powerful. He had personally saved tens of thousands of Sea Establisher-level powerhouses from the Chaotic Wasteland. Furthermore, Hong Yue was also responsible for part of the battles in the City of Origin. Therefore, many people thought that Hong Yue was more suitable for this role. If it weren't for Lord Human Emperor's personal order, there would even be people raising objections on the spot.

### [God of Fishing](#)

#### **Chapter 2823: War Commander Luo Xiaobai (4)**

##### 2823 War Commander Luo Xiaobai (4)

Luo Xiaobai naturally knew this. She took a step forward and glanced at the dense mass of human powerhouses in front of her. Her voice was crisp and cold. "I know that many people are unconvinced by me, but I don't care. I can give you a promise. Under my command, within 50 years, the human race will have more than 10,000 Sky Opening Realm powerhouses and more than 1 million Sea Establishing Realm powerhouses. If I can't do it, I'll voluntarily give up my position as the war commander of the human race."

Boom~

“Is she crazy?”

“Fifty years?”

“How is it possible? The breakthrough tide has already passed.”

“This is too unbelievable. Even Master Human Emperor can’t do it, right?”

“Where does she get her confidence from?”

“Crazy, crazy. I definitely don’t believe it. The human race has been in the Sea Realm for 52 years. Including the strong masters that the Human Emperor subdued in the Sea Realm, even if we’ve experienced a breakthrough frenzy, there are only 1,700 people in the Sky Opening Realm. If she wants 10,000 Sky Openers in 50 years, this means that she has to make at least 8,300 people to enter the Sky Opening Realm. How can there be such a fast cultivation method in this world?”

Han Xuan also looked at Luo Xiaobai in shock. She really dared to speak! Although there were many peak-level Sea Establishers in the human race now, it was not easy to make a breakthrough. As for a million Sea Establishers, this was also quite difficult. Now there were less than 300,000 Sea Establishers. In 50 years, another 700,000 Sea Establishers? At least, Han Xuan didn’t dare to say that.

However, no matter if Luo Xiaobai could do it or not, the name Luo Xiaobai would spread throughout the human race today. Her promise would be the hope of the entire human race and everyone would look at her. The pressure on her was obvious.

Luo Xiaobai continued, “However, as the war commander of the human race, my orders are above everything else. There’s no reason but only acceptance. I’ll tell you when I should tell you, but don’t ask if I haven’t. Any passive combatant will be punished by military law. The basic rules of military law will be pasted under the statues of the Human Emperor in the various cities in three days. Everyone can read them on their own. I’m done.”

It seemed that Luo Xiaobai had changed a lot!

Han Fei guessed that this must be Luo Xiaobai’s temperament honed from the battlefield in the Sky Crater World, so Luo Xiaobai didn’t need to deliberately reveal the aura of a war commander.

After Luo Xiaobai finished speaking, Han Fei continued, “Now, dismiss on the spot. We’ll inform you if there are battles.”

A moment later.

Han Fei and Luo Xiaobai walked in the air towards Ginkgo City.

Han Fei said, “That’s a bold promise. Do you need me to give a sermon? I think a concentrated sermon might work out well.”

Luo Xiaobai shook her head. “Not for now. I learned in the Sky Crater World that war is the fastest and most stable way for an individual to grow up. How can one comprehend the Great Dao without experiencing life and death? You and I both understand this principle.”

Han Fei said, "But if too many people die, I'm afraid there will be many people who suspect you."

Luo Xiaobai said, "That's my business."

Han Fei smiled. Luo Xiaobai was keeping him in suspense. Then he asked, "Huh? Why are we in Ginkgo City?"

As she spoke, Luo Xiaobai had already arrived under the ginkgo tree. She reached out and picked up a chubby big starfish.

"Hey, hey! What are you doing? What are you doing?"

Seeing that it was Han Fei, the Hexagon Starfish rolled his big eyes crazily and shouted, "Starfish is cultivating. Starfish is extremely hardworking. Starfish is really not greedy for these yellow leaves..."

"Huh! Luo Xiaobai, why are you pinching me? Let go..."

Luo Xiaobai glanced at Han Fei. "I heard that he doesn't cultivate well?"

Han Fei nodded. "You're right."

Luo Xiaobai asked, "How soon can he open the sky?"

Han Fei glanced at the Hexagon Starfish and said without thinking, "I think he can do it now."

Upon hearing the word "open the sky", the Hexagon Starfish twisted crazily. "No! Starfish doesn't want to open the sky! Starfish doesn't want to transcend the tribulation! Starfish is not ready yet..."

Han Fei smiled. "Do you need his help?"

Luo Xiaobai nodded. "As the commander, I'm the enemy's first target and the best bait. But I'm only in the peak-level late-stage Star Transformation Realm after all. I can't really put myself in danger, so I need some help."

Han Fei nodded quickly. "I see. This guy will definitely open the sky in a month. By the way, I'll introduce you to my other special friends later."

...

## [God of Fishing](#)

### **Chapter 2824: Decapitation Operation in the City of Origin (1)**

#### 2824 Decapitation Operation in the City of Origin (1)

One month Later.

When Han Fei returned with the miserable Hexagon Starfish, the starfish's body was still shaking, but the Hexagon Starfish did make a breakthrough. Not only did he make a breakthrough, but he also lost weight and became as thin as before.

Han Fei grinned and said, "This guy has accumulated too much energy and resources. This time, he was fully stimulated by the heavenly tribulations. When he endured the last heavenly tribulation, he was almost killed."

Seeing Luo Xiaobai, the Hexagon Starfish quickly sucked on Luo Xiaobai's leg. He didn't care anymore. Whoever this person was, it was better than Han Fei.

This guy just watched as he was struck by the heavenly tribulations without giving him anything good. 70% of his belongings had been consumed in the heavenly tribulations, which really pained him.

Luo Xiaobai said, "It just so happens that I plan to set off for the battlefield in three days."

Han Fei raised his eyebrows. "Why the rush?"

Luo Xiaobai said, "Before the tidal wave comes, I need to do something. Otherwise, how can I create 10,000 Sky Opening Realm powerhouses?"

Han Fei nodded slightly, then waved his hand, and Wang Xiaojiu, Wang Lanlan, Sha Diao, Huang Ergou, and Yu Jue were released by him.

Han Fei said, "This is Luo Xiaobai, the war commander of the human race. Your mission is to protect her."

Wang Xiaojiu asked, "Huh! Can a mere peak-level late-stage Star Transformation Realm be the human race's war commander?"

Sha Diao: "Shut up and listen to Master."

Wang Xiaojiu said, "I'm the cat that's going to become a Monarch. Do I need to show up for such a trivial matter?"

Han Fei said indifferently, "I can send you back to the Emperor Sparrow to continue cultivating."

Immediately, Wang Xiaojiu shivered. "Although it's just a trivial matter, without the protection of this cat, this little girl in the peak-level late-stage Star Transformation Realm will be very dangerous. Fine, I'll go."

Luo Xiaobai glanced around and found that these guys were all stronger than her.

Luo Xiaobai frowned slightly. "You gave me so many strong masters. Who dares to kill me? More importantly, they don't seem very obedient."

Bang!

Wang Xiaojiu was suddenly smashed into the bottom of the sea, and Han Fei said, "You don't seem very obedient."

Wang Lanlan and the others: "..."

Wang Xiaojiu shivered and rushed out. "I, I will definitely be obedient. There is no cat more obedient than me."

Only then did Han Fei smile at Luo Xiaobai. "Look, he's obedient. Now if you ask him to go east, he won't dare to go west. If you ask him to hit a dog, he won't dare to chase a chicken."

Luo Xiaobai nodded. "Good!"

...

Two days later.

The Humans' Imperial City, War Command Center.

In the hall, a huge map was hanging on the wall. In front of the map was a sand table, but no one was surrounding the sand table or looking at the map.

Luo Xiaobai was sitting at a big desk, and there were 80 Sky Opening Realm powerhouses below, including Xu Meng and Yingyue, who were designated by Han Fei.

In fact, Xu Meng and Ying Yue weren't very strong. Xu Meng hadn't even entered the Star Transformation Realm yet. Even Ying Yue, who had been with Han Fei for the longest time, was only in the late-stage Star Transformation Realm.

However, the reason why these two people were stationed here was that in the early stages, no matter how Luo Xiaobai promised, there would always be some people slacking off or looking down on her. And with these two senior people around, they could have a certain deterrent effect.

As for the others, Luo Xiaobai had selected more than 80 Sky Openers, and only 20 of them had entered the Star Transformation Realm.

Luo Xiaobai said, "Do you know why I chose you to go with me?"

Everyone shook their heads, but there were only 1,700 Sky Openers in the human race, so it was normal to choose them.

Luo Xiaobai said, "I've read your information. After you opened the sky, you tried to walk on other Great Daos, trying to walk on multiple Great Daos, right?"

Everyone was puzzled. Why did Luo Xiaobai bring this up?

Luo Xiaobai said, "In this war, if the Human Emperor doesn't take action, our human race has too few high-end combatants. If you travel with me, you might encounter some unexpected dangers. I ask you to leave a portion of your flesh, blood, and soul here. When you follow me, if you encounter any enemy you can't handle, you can destroy your Great Dao and pretend to die. Of course, as compensation, you will gain a sum of resources. If you don't want to, you can leave now."

"Huh?"

"Destroy my Great Dao?"

Everyone was a little stunned, but they were not stupid. As the commander of the war, Luo Xiaobai's status was indeed different. It made sense for her to be targeted.

However, what if they were enslaved after they gave out their flesh, blood, and souls? On second thought, this was the war commander appointed by the Human Emperor. She couldn't do such an outrageous thing.

It was definitely a life event for them to destroy their own Great Daos and pretend to die. However, if the resource return was enough, it was not impossible to do. After all, most of them had just opened the sky. Even if they had embarked on a new Great Dao, it wasn't that important.

Besides, what they thought at the same time was that Luo Xiaobai was very domineering and needed absolute obedience. They even suspected that this was a test Luo Xiaobai gave them. Therefore, they didn't dare to bet on the consequences if they retorted Luo Xiaobai.

After dozens of seconds, seeing that no one left and no one asked why, Luo Xiaobai said indifferently, "Alright, in that case, let me tell you the route of tomorrow's operation. After that, no one present can leave and has to follow me to the battlefield tomorrow."

### [God of Fishing](#)

#### **Chapter 2825: Decapitation Operation in the City of Origin (2)**

##### 2825 Decapitation Operation in the City of Origin (2)

...

Han Fei watched Luo Xiaobai leave with her men without escort. Han Xuan came to Han Fei with a teacup, scraped the tea with the cover of the teacup, and took a sip. "I'm finally relaxed a little. This girl is going to the front line before the tidal wave. Including the time she will use to come back, she will only have more than two months to stay on the front line. I'm quite curious. What will she do in more than two months? What can she do?"

Han Fei chuckled. "It's not a big deal. She's just going to accelerate the war between the human race and the City of Origin."

The human race was built on the old site of the City of Scavengers, not far from the City of Origin. If it were an ordinary Sky Opening Realm powerhouse, he would reach the City of Origin in at most seven days.

It was even closer to the battlefield. With the speed of Luo Xiaobai and the others, it would only take less than four days.

After all, the human race had just built their cities and the battlefield between them and the City of Origin was newly established, so there weren't many teleportation arrays in the middle. They mainly relied on manual travel.

It had been three days since Luo Xiaobai set off. She had brought very few people with her, only 80 Sky Opening Realm powerhouses.

At this moment, Yingyue followed Luo Xiaobai and asked, "Commander, I feel that something is wrong. We haven't encountered any ominous creatures for hours."

Luo Xiaobai: "Okay."

Seeing Luo Xiaobai so cold, Yingyue sighed in her heart. This person is really cold!

Seeing that she had been given the cold shoulder, Yingyue shut up obediently.

Several hours later, Luo Xiaobai suddenly stopped. In the next moment, the sound of cicadas filled the sky. All of a sudden, nearly a hundred figures rushed out of the void.

Luo Xiaobai was the first to be attacked. The person who attacked her was a powerhouse in the Perfected Star Transformation Realm.

Bang!

In the next moment, six purple lights soared to the sky. The starfish's Six Gate Array was powerful, but it was only in the Sky Opening Realm, so it was still not strong enough to deal with a Perfected Star Transformation Realm cultivator's blow.

"Ah! I'm dying! I'm dying!"

The Six-Gate Array was instantly broken, and dozens of places on the Hexagon Starfish's body exploded. Luo Xiaobai was sent flying, spitting out a mouthful of essence blood.

At this moment, Luo Xiaobai glanced at the person who ambushed her. It was a Perfected Star Transformation Realm cultivator, and the other people had combat power similar to that of the humans.

Seeing this, Luo Xiaobai actually sneered. The people who came to ambush her weren't that strong. There were only five people in the peak-level late-stage Star Transformation Realm of this hundred-person team led by a Perfected Star Transformation Realm powerhouse. This could only mean one thing. The people from the City of Origin wanted to test the strength of the human race. If they could kill or seriously injure a figure like Luo Xiaobai in ordinary battles, it meant that the current human race was just so-so. Their strength was indeed as they had shown, and they didn't hide their strength.

As for Luo Xiaobai, they wouldn't believe that she was the so-called war commander of the human race, so they didn't mind killing her.

But was that all? Luo Xiaobai knew that it was definitely not.

On the human side, someone shouted, "Commander, there's a traitor. Our whereabouts have been exposed."

Everyone's expression changed drastically. Someone shouted, "Who is it? We were clearly together yesterday. No one left alone."

Yingyue shouted, "Commander, there are a hundred of them. This is a hundred-person team from the City of Origin. Half of them have entered the Star Transformation Realm. They're far stronger than us."

As he spoke, the Perfected Star Transformation Realm powerhouse from the City of Origin had already appeared beside Luo Xiaobai. He condensed a long saber with his full strength and pierced through Luo Xiaobai's body with it.

However, in the next moment, long vines stretched out in all directions, and Luo Xiaobai's figure had already appeared tens of thousands of kilometers away.

Swish! Swish! Swish!

The tens of thousands of long vines were holding spears engraved with Dao patterns at the same time. It was the God Sealing Spear.

Almost instantly, the void here was sealed, and the strength of the hundred-person team of the City of Origin was suppressed by at least 30%. The expression of the hundred-person team suddenly changed drastically, and the powerhouse roared, "It's a trap! Stabilize the formation and retreat."

But at this time, how could they have a chance to retreat?

Although the Sky Openers of the human race weren't in high realms, the cultivation techniques and techniques they practiced were basically handed down by Han Fei. And most of the things Han Fei passed down had been deduced by the Demon Purification Pot, so the true combat power of these people was far stronger than on the surface.

Almost in the blink of an eye, a huge battle broke out between the two sides.

An Yuan, the captain of the hundred-person team of the City of Origin this time, was quite experienced. When he slashed at the array of the God Sealing Spear with all his strength, only a dozen God Sealing Spears exploded.

Immediately, An Yuan's heart skipped a beat. He was ambushed too! Was it the so-called commander's trick? Or was the human race's secret operation and this war commander actually bait?

In the Sea Realm, there were few fools. Although the news was sent back that the Human Emperor appointed Luo Xiaobai as the war commander, it also pointed out Luo Xiaobai's current strength and the Human Emperor's claim that Luo Xiaobai would become the second Monarch of the human race.

The City of Origin certainly couldn't let the human race have another Monarch, or the consequences would be unimaginable. Therefore, if Luo Xiaobai really had the potential to prove Dao, she had to die.

### [God of Fishing](#)

#### **Chapter 2826: Decapitation Operation in the City of Origin (3)**

2826 Decapitation Operation in the City of Origin (3)

An Yuan shouted, "Kill the enemy first before breaking the array. Be careful of the ambush from the outside to the inside."

In the God Sealing Spear Array, there was a fierce battle. This was because the God Sealing Spear's restricted area was only ten thousand kilometers wide, but there were more than 80 battlefields. Therefore, the combat power here kept rushing at the God Sealing Spear Array.

Rumble!

Unfortunately, even though the strength of the cultivators from the City of Origin had been suppressed, Luo Xiaobai led 80 people, and the Sky Openers from the City of Origin were generally stronger than those of the human race. Therefore, in just one clash, one person on the human race's side was blown up, and the Great Dao crack only cracked for hundreds of kilometers in the sky.

However, the human race was brave. An Yuan personally witnessed a human cultivator hugging a powerhouse from the City of Origin and blowing himself up.

As for why this person dared to do this, it was naturally because he could still be reborn.

At this moment, everyone seemed to realize something. Luo Xiaobai seemed to have expected all of this, so without asking for their opinion, she forcibly took their flesh, blood, and soul.

From the looks of it, this was really a way to save their lives. Otherwise, they would have really died now.

As for An Yuan, he had his eyes on Luo Xiaobai. Although he had fallen into the other party's trap today, the other party was clearly not strong enough to kill the strong masters of the City of Origin. Therefore, so far, no one had suffered a loss in this battle.

An Yuan said, "You're not qualified to be a commander at all!"

Luo Xiaobai only responded with one word, "Kill."

In less than half an hour, the sky was full of Great Dao Cracks. More than 50 people had died on the human side, but only 32 people had died on the City of Origin's side.

Besides, even though An Yuan and the others' strength had been restricted by about 30% and the human race's great techniques were very strong, the latter was still no match for the former. Luo Xiaobai was even forced to run and could barely resist An Yuan.

Yingyue shouted, "Commander, call for reinforcements!"

Someone shouted, "Commander, we can't hold on anymore! Our realms are not as high as theirs!"

The Hexagon Starfish also roared crazily, "Luo Xiaobai! Starfish can't hold on anymore! Aren't you very smart? Why don't you have any Plan B?!"

Luo Xiaobai's face was slightly cold. "Come!"

Swish! Swish! Swish!

In the void, outside the God Sealing Spear Array, five figures rushed over. They were all in the Perfected Star Transformation Realm.

Who would they be if they weren't Wang Xiaojiu and the others?

Seeing this, An Yuan couldn't help but laugh out loud. "Just five Perfected Star Transformation Realm cultivators. I thought you had a lot of trump cards."

"Chirp!"

As the cicadas chirped, a hole appeared in the void, and 50 strong masters in the Perfected Star Transformation Realm suddenly appeared.

An Yuan mocked, "I've been waiting for your cards. Is that all you've got?"

"Puff ~"

However, as soon as An Yuan said so, a huge fierce cat phantom burst out with the shadow of a Sky Tearing Claw and tore apart a Perfected Star Transformation Realm cultivator from the City of Origin.

An Yuan's face changed slightly. "Dao Lock level?"

Wang Xiaojiu shouted, "Come on! I'm unparalleled in the world. I once fought ten thousand enemies with the Human Emperor."

Sha Diao was as swift as a shadow. With the protection of the sand, he rushed into the siege of the Perfected Star Transformation Realm cultivators, and his ferocious shadow wreaked havoc.

Yu Jue's defense was unparalleled, and he was like a humanoid ultra-quality godly weapon.

Wang Lanlan activated the Clam Mountain Array and trapped three people.

Huang Ergou's strength was mediocre and he could barely fight two people.

Then, Luo Xiaobai shouted, "Enter the array. Don't fight."

Upon hearing this, Wang Xiaojiu and the others rushed out of the battlefield. It's not difficult for five Dao Lock-level powerhouses to rush out of the siege of 50 Perfected Star Transformation Realm cultivators.

When Wang Xiaojiu and the others rushed into the God Sealing Spear Array, the others outside also tried to rush in, but they all bumped into the array.

"Huh!"

Wang Lanlan was surprised. "This array recognize people?"

Luo Xiaobai said, "Cut the crap. Kill them... Remember to keep their corpses. They're useful."

The expressions of An Yuan and the others changed drastically. Isn't this a sealed array? Why can't the people of the An family enter it?

But if even the Perfected Star Transformation Realm cultivators of the City of Origin couldn't get in... An Yuan's face changed drastically and he shouted, "An Ye, charge!"

Outside the array of the God Sealing Spear, a strong master roared, "Everyone, follow me to break the array."

But at this time, Wang Xiaojiu and the others had already begun to slaughter wantonly. The team of the City of Origin, which only had one Perfected Star Transformation Realm cultivator, was almost crushed by five lock-level powerhouses.

Luo Xiaobai looked calm and stopped attacking, letting Wang Xiaojiu and the others charge forward. Sha Diao caused a sand storm with the Protection of Sand, and in the storm, more than 30 people were crushed in the blink of an eye.

Wang Lanlan's Great Dao was very strange. It could actually slow people down. When the people of the An family used the Heavenly Cicada Wings, their speed was very fast, but under Wang Lanlan's Great Dao, their speed seemed to suddenly decrease by several times. Coupled with Yu Jue's sharp claws, more than ten people were killed in a row in the blink of an eye.

Outside, An Ye's men had launched a round of attacks, only to discover, to their surprise, that the spear array was intact with only less than 200 walls broken.

However, after this round of impact, there were only less than 30 cultivators from the City of Origin left in the array.

An Ye shouted, "Luo Xiaobai, even if they all die, you won't be able to survive today."

#### **Chapter 2827: Decapitation Operation in the City of Origin (4)**

##### 2827 Decapitation Operation in the City of Origin (4)

On the human side, there were only 27 people left at this moment. All of them looked at this scene speechlessly. They didn't hate Luo Xiaobai much. However, although Luo Xiaobai had prepared a trump card, there was already such a huge sacrifice before the war even started. They just felt that this war commander didn't deserve her position!

Besides, it was rather careless of her to expose their whereabouts.

Luo Xiaobai said unhurriedly, "This place is only a little more than a day away from the front line of our human race. Besides, the human race's teleportation array has been under construction. Although it hasn't been completely completed, it will only take six hours at most to come here."

With that said, Luo Xiaobai took out a jade slip and crushed it. Then, she said indifferently, "Let's make a bet. In six hours, will you break through the array and kill us, or will human reinforcements arrive?"

An Ye sneered and bombarded the array. "Your array can't even last half an hour. Six hours? I think you're kidding."

Luo Xiaobai casually took out 100,000 God Sealing Spears and said indifferently, "The Human Emperor gave me a lot of these things. Do you want to try them?"

An Ye's expression changed immediately. What the hell is this? Doesn't this level of array cost money? Taking out 100,000 spears at once? Is this human emperor out of his mind?

When the 100,000 God Sealing Spear appeared, An Yuan's heart turned cold. They were doomed!

In less than ten seconds, An Yuan was slapped to death by Wang Xiaojiu's claw. He left quite peacefully without any pain.

Wang Xiaojiu was still mumbling. "Why don't we kill our way out now! I think if there are only 50 people on the other side, maybe we can make it."

Upon hearing this, An Ye shouted, "Stop, stop attacking."

An Ye wasn't stupid. They could destroy 200 of the 100,000 God-Sealing Spear Arrays on average every time they attacked together. If they wanted to destroy 100,000 of them, they would have to attack at least 500 times with all their strength.

But the five guys inside weren't weak. They were all Dao Lock-level powerhouses. If they attacked with all their strength five hundred times, with these five guys in the array, nearly half of his men might die.

Besides, 500 full-strength attacks were too time-consuming. If it were just ordinary attacks, they could bombard 500 times in an instant, but in the face of such a level of array, they obviously couldn't. In addition, Luo Xiaobai had already called for reinforcements. Although she said six hours, it was possible that human reinforcements would come faster.

An Ye shouted, "Humph, your human race doesn't even have high-level combat power on the front line battlefield. Who are you fooling?"

Luo Xiaobai asked, "If we don't have high-level combatants, why did we fight for decades?"

"That's because..."

An Ye suddenly stopped. The human race and the City of Origin had been fighting tentatively for decades. The strong masters of the City of Origin had always said that it was unknown whether the Great Monarch was alive or not, so they couldn't be too aggressive. Otherwise, if the Human Emperor and the Master of Silence joined forces and attacked, the war would continue to escalate, and the consequences would be very serious.

It was for this reason that the war between the City of Origin and the human race was actually just stalling for time. They had no intention of really starting a war.

However, he couldn't tell Luo Xiaobai about this. Otherwise, wouldn't it be equivalent to telling her that it was unknown whether our Great Monarch was alive or not? Come on, beat us!

Cold sweat broke out on An Ye's back. He almost fell for Luo Xiaobai's trick and told her the truth.

An Ye snorted coldly. "It's just a training exercise. Doesn't your human race have the same purpose? If your human race sends out high-end combat power, heh, aren't you afraid that our City of Origin will also send out high-end combat power?"

That being said, An Ye wasn't sure if the human race had any high-level combatants. Therefore, he said via voice transmission, "An Mo, go back to the front line through your Origin Star immediately and tell everything here to Commander An Liudao. In addition, tell him that Luo Xiaobai is indeed difficult to deal with. If we don't kill her today, she will definitely become a big problem in the future. Tell him that I need reinforcements..."

A person beside An Ye suddenly disappeared.

Luo Xiaobai said indifferently, "It's a technique to cross domains with Origin Stars."

An Ye sneered. "So what? Like I said, you will die today."

Luo Xiaobai didn't speak but just waited quietly. An Ye snorted coldly and didn't attack either. He thought to himself, Anyway, it will only take a hundred seconds at most for my reinforcements to arrive. I don't believe you won't die then.

Yingyue, Xu Meng, and the others were all very nervous at this moment. The result of this trip was far beyond their expectations. They had thought that something would happen, but they didn't expect it to directly trigger a war of this scale.

They didn't even understand why Luo Xiaobai was so calm.

...

On the other side, An Mo returned quickly.

“Commander-in-chief, something has happened. Please reinforce us quickly...”

An Mo’s Origin Star had long been refined and placed beside An Liudao. This was a habit of some big clans.

The reason why the human race didn’t do this wasn’t that they didn’t want to, but that the high-level combat power of the human race hadn’t gone up yet. An Mo was a Perfected Star Transformation Realm cultivator. but on the human race’s side, there weren’t any Perfected Star Transformation Realm cultivators yet, and there were only a few people in the peak-level late-stage Star Transformation Realm. It was meaningless to use this technique.

An Liudao immediately appeared. “What’s the matter? I saw that the life tablets of An Yuan and the others were all shattered. Were they tricked? Was Luo Xiaobai the bait?”

### **God of Fishing**

#### **Chapter 2828: Decapitation Operation in the City of Origin (5)**

2828 Decapitation Operation in the City of Origin (5)

An Mo said, “My lord, not exactly. Blah, blah...”

“Oh?”

After An Mo finished speaking, An Liudao was a little surprised. “Are you saying that Luo Xiaobai called for reinforcements from the front line battlefield?”

An Mo nodded. “Yes! Luo Xiaobai said that reinforcements would come in six hours, but we should be faster. My lord, there’s no time to lose. Luo Xiaobai seems not bad.”

However, An Liudao suddenly interrupted An Mo. After a moment of silence, he asked, “Was Luo Xiaobai very strong?”

An Mo said, “Not exactly. Nothing special has been shown so far, but she can indeed cross realms to fight. Also, she has a lot of treasures and five Dao Lock-level guardians. Those five people seem to be ferocious beasts and are very powerful. In just a moment, the five of them swept through sixty to seventy people including An Yuan.”

“Are you sure they don’t have any more trump cards?”

An Mo said, “I’m not sure about that, but I guess not, because more than 50 human cultivators brought by Luo Xiaobai died in this battle. The astronomical changes are obvious. They should be completely dead. If it weren’t for her five guardians, I’m afraid they would have all died by now. But I can’t guarantee it. It’s possible that the human race used more than 50 Sky Openers to put on a show.”

An Liudao shook his head. “No! You haven’t fought the human race before, so you don’t know their fighting style. They are a group of people who value friendship very much. On the battlefield, even if their partners only have a bone left, they will snatch it back if they can. If Luo Xiaobai has a trump card,

she shouldn't be indifferent to the deaths of so many Sky Openers. Unless she is a heartless person... Wait for me for a moment."

An Liudao left his Origin Star, and within a hundred seconds, he took six teleportation arrays in a row to the front line battlefield.

At this moment, nearly 50,000 soldiers were fighting in the front line, or to be exact, they were training their soldiers. This had been a tacit agreement for decades that they would hone themselves through war. In the past, it had been like this between the City of Scavengers and the City of Wanderers. Now that the human race had come, it was the same game.

Seeing An Liudao, someone hurriedly went forward and bowed. "Commander-in-chief, why are you here?"

An Liudao frowned slightly. "Why is the scale of the fight so large?"

The man said, "My lord, we don't know what's wrong with the human race. They suddenly sent ten times their original manpower to fight a group battle. How can we admit defeat? So we can only fight them!"

An Liudao's expression changed slightly. Ignoring this person, he unfolded the Heavenly Cicada Wings and instantly disappeared.

After a while, An Liudao's eyes flashed. "Sure enough, there are strong void fluctuations behind the human race. It seems that someone has indeed gone to reinforce them. Haha... Since we want to kill the war commander of the human race, why don't we destroy the front line too?"

Swish!

An Liudao disappeared and reappeared in the Sea of Stars.

On his Origin Star, a thousand Perfected Star Transformation Realm cultivators were sitting cross-legged quietly. These people were here only to prevent accidents from happening. Usually, they didn't have to go out to fight.

At this moment, An Liudao said, "An Mie, come out. Take a hundred-person team and follow An Mo to quickly attack and kill Luo Xiaobai, the war commander of the human race. The rest of you, come out and follow me to destroy the front line of the human race."

"Huh?"

Someone was surprised. "Destroy the front line of the human race? Are we declaring war on the human race?"

"The Great Monarch has returned?"

An Liudao shook his head. "This is an order from the Elder Council. Once Luo Xiaobai's potential is confirmed, she must be killed. Even if it means starting a war, our City of Origin must not let the human race have another Monarch."

...

## [God of Fishing](#)

### Chapter 2829: Luo Xiaobai's First War (1)

#### 2829 Luo Xiaobai's First War (1)

On the way to the front line of the human race, Luo Xiaobai and the others were waiting.

However, on the human side, be it Yingyue or the others chosen by Luo Xiaobai, they were all nervous.

In this battle, no one won. They even felt that Luo Xiaobai might not win. This was because this place was actually more than six hours away from the front line of the human race. There weren't that many so-called teleportation arrays.

However, they couldn't show it now. Their only hope was that Luo Xiaobai still had other trump cards.

It took An Mo about three hundred seconds to leave. An Ye frowned. Did An Mo run into some trouble?

Buzz—

In the next moment, An Mo appeared. As a phantom of a world appeared, a team of a hundred Perfected Star Transformation Realm cultivators appeared.

Yes, there were many Sky Openers in the City of Origin now. Another hundred-person team had randomly come, and they were all Perfected Star Transformation Realm powerhouses.

An Mo said, "Master An Ye, the commander-in-chief said that Luo Xiaobai must die. He asked Master An Mie to bring a team of a hundred Perfected Star Transformation Realm cultivators here to kill her."

Gulp!

Yingyue and the others were all dumbfounded. Although they had seen a lot of battles, a team of a hundred Perfected Star Transformation Realm cultivators was too much! Plus An Ye and his men, there would be 150 people. How could they defeat them?

Although there were five strong masters on the humans' side, it was unrealistic for each of them to fight thirty alone.

Before An Ye spoke, Luo Xiaobai said calmly, "It seems that the City of Origin is preparing to declare war on the human race?"

"Hahaha!"

An Ye laughed out loud and suddenly turned ferocious. "So what? Declaring war won't give you a chance to prove your Dao."

An Mie said, "Cut the crap. Let's end this quickly. The commander-in-chief has started the battle before the human reinforcement comes."

"Against our front line?"

An Ye's heart skipped a beat. This was really a declaration of war. Suddenly, the clan became so aggressive. Could it be that there was news of the Great Monarch Tianming?

An Ye shouted, "Let's attack together. This array is rather difficult to break. We need a hundred people to break it together. The rest of you, reserve your strength."

At this moment, a turtle shell appeared in Luo Xiaobai's hand. Then, the world seemed to be enveloped by darkness.

She said indifferently, "Alright, it's time to end this."

An Ye and An Mie: "???"

The humans: "???"

In the next second, the 100,000 God Sealing Spear rolled back, and Luo Xiaobai's figure changed. In the blink of an eye, she turned into a man.

The Hexagon Starfish: "???"

"Ah, how can it be you?"

Han Fei smiled casually. "I've been tolerating you for days, you stupid starfish. Boom..."

The Hexagon Starfish was slapped to the ground, his face full of shock. He felt so aggrieved! He was supposed to follow Luo Xiaobai. Why did it suddenly become Han Fei?

"Hiss!"

"Master Human Emperor?"

"Huh?"

"Greetings, Master Human Emperor."

"Greetings, Master Human Emperor."

Yingyue, Xu Meng and the others were all stunned. What kind of transformation technique was this?

An Ye and An Mie were dumbfounded. Human Emperor? The Monarch of the human race?

"Not good! We're tricked! Run!"

At this moment, An Mie reacted first. Facing a Monarch, they could only run or die. With their strength, it was impossible for them to kill a Monarch.

However, with continuous bangs, they all hit the Turtle Shell Sky Sealing Technique. Han Fei had come in person. How could they survive?

An Ye roared, "Human Emperor, you are declaring war on our City of Origin. Our Great Monarch is still around. How dare you?"

"Hehe..."

Han Fei chuckled. "Didn't you declare war first? The war on the front line battlefield should have started by now, right?"

For a moment, everyone thought, If the Human Emperor personally led this team, where was Luo Xiaobai?

Shocked, An Ye and An Mie immediately figured it out. This was a trap set up by the Human Emperor to deliberately make it look like they were defeated and asked the front line for help. Since this was fake, the so-called reinforcement from the front line must be fake too. The humans in the front line deliberately set up a trap to bait An Liudao.

In this way, if An Liudao attacked the human race first, it would be a real declaration of war.

But what they didn't understand was why they had to set up such a trap. What was the point of such a trap? Furthermore, the Human Emperor had personally set it up.

Not to mention An Ye and the others, even Yingyue and the others didn't understand.

Finally, someone couldn't help but ask, "Master Human Emperor, since you want to take action, why did you set up such a trap?"

What this person meant was, why did they have to cut off a Great Dao?

Han Fei was not in a hurry to attack. He said casually,

"Firstly, your path has gone astray. This time, I'll help you cut off your Great Daos. Think carefully next time you choose a Great Dao to cultivate."

"Secondly, although I said I would leave the battle below the Monarch realm to you, I'm not asking the only thousands of Sky Openers of the human race to fight against the hundreds of thousands of peak-level late-stage Star Transformation Realm and Perfected Star Transformation Realm cultivators in the City of Origin. That would only be courting death. If I really want to do that, even if I mobilize all the strength of the human race, we won't be their match. Therefore, many people misunderstand what I mean."

### [God of Fishing](#)

#### **Chapter 2830: Luo Xiaobai's First War (2)**

2830 Luo Xiaobai's First War (2)

"Thirdly, who will declare war first? This matter is of great significance and involves the subsequent arrangements of your war commander."

After a pause, Han Fei turned around with a smile and said, "By the way, I didn't set up this trap today. I'm just a tool."

Everyone : "..."

An Ye seemed to have thought of something and his expression turned ugly. "Our spies are pure human beings."

Han Fei sneered. "Possession is not a difficult thing. If you think you can completely infiltrate the human race just by possessing someone, you're underestimating us!"

An Ye asked, "So, the news that Luo Xiaobai is going to be the human race's second Monarch is also a lie?"

Han Fei smiled casually. "No, the war commander of the human race must be the second person to prove Dao after me."

An Ye shouted in a low voice, "Human Emperor, you are a Monarch. Don't you think it's shameless to attack us who are mere Sky Openers?"

"I'm done talking to you."

Han Fei crushed the air, and An Ye felt gravity change around his body. His body seemed to be deformed, his bones seemed to be squeezed, and the world seemed to be pressuring him.

Bang!

An Ye exploded into a mist of blood.

However, Han Fei seemed to think of something and summoned a beam of divine light to revive a small part of An Ye's body.

Han Fei said to the others, "Next time you attack, remember to leave some body parts of the enemy. It's very useful. It can save you a thousand years of cultivation."

Everyone: "???"

Everyone looked at each other in bewilderment. Was there such a good thing? However, it seemed that Master Human Emperor didn't hold back and crushed him! If it were us, we wouldn't be able to cut him even if he stood still and let us slash him.

Yingyue was one of Han Fei's most trusted subordinates. At this moment, she boldly stepped forward. "Master Human Emperor, shall we go to the front line to provide support?"

Han Fei shook his head slightly. "No hurry. Wait a moment..."

...

Several hours ago.

In the rear command center of the human battlefield, a woman in white stood quietly in front of a sand table on the battlefield.

Beside her, Lu Xuan and Yu Jiaojiao were on her left and right, and Hong Yue was standing opposite Luo Xiaobai.

Someone said, "Commander, if An Liudao really attacks our rear, I'm afraid we don't have enough manpower!"

Someone frowned. "I'm afraid that the realm and strength of our human race can't keep up. I heard from the people in the City of Wanderers that there are many peak-level late-stage Star Transformation Realm or perfected Star Transformation Realm cultivators in the City of Origin. What if..."

Luo Xiaobai said calmly, "It's about time."

Everyone couldn't help but look at Luo Xiaobai in confusion. It's about time?

Luo Xiaobai picked up a small bamboo pole and pointed at a gap in the sand table. "Jiang Ya, listen."

Jiang Ya perked up. "Yes."

Luo Xiaobai said, "Lead twenty thousand Sea Establishers to ambush in the Nine-linked Mountains. Once the Sea Establisher army of the City of Origin retreated, cut off their formation from the middle."

"Yes, Commander."

After that, Jiang Ya turned around and left without hesitation. They were trained by Han Fei. Since Han Fei said that Luo Xiaobai was the war commander of the human race, she must be. Although they liked Hong Yue, it didn't mean that they couldn't accept Luo Xiaobai.

Luo Xiaobai said, "Ling Ran, listen up."

"Yes."

Luo Xiaobai instructed, "Take 20,000 Sea Establishers to the Guniu Mountains and wait for the defeated deserters of the City of Origin. Kill as many of them as you can."

"Yes, Commander."

Ling Ran didn't ask why Luo Xiaobai was so sure that there would be deserters. She just felt that since Luo Xiaobai had said so, there would definitely be deserters.

Luo Xiaobai said, "Chu Lingyu, Wen Ruqing, listen up."

"Yes."

Luo Xiaobai instructed, "After the battle, go straight to the command center of the City of Origin and behead all the commanders of the City of Origin. If the mission goes smoothly, evacuate from the Three World Mountain after completing it."

"Yes, Commander."

Luo Xiaobai continued, "Wen Ruqing, take 200 Sky Openers to take a detour to the Three World Mountain to receive Chu Lingyu and the others. If anything happens to their mission, you have to find Xingyu as soon as possible and ask him to take action. These are Chu Lingyu and the others' life tablets. Take them all with you..."

"Yes, Commander."

Luo Xiaobai led a small bamboo pole and picked 67 people in a row, including both Sky Openers and Explorers.

When there were only Luo Xiaobai, Lu Xuan, Yu Jiaojiao and Hong Yue who served as the acting commander left in the huge human command center, Yu Jiaojiao couldn't help but frown. "Xiaobai, if you send everyone out, won't the strong masters in the City of Origin notice?"

Luo Xiaobai said, "Firstly, the spatial fluctuations caused by the departure of the Sky Openers were originally left for them to see. Secondly, other than the mobilization of the Sky Openers, the rest are just

normal military mobilization. Cultivators are extremely mobile and can't only guard one place. The frequent random distribution of military power can greatly reduce the possibility of being targeted. The other party is experienced in battle and knows this. Even if they have seen some clues, they won't care about these trivial matters now."

Lu Xuan asked, "You're using yourself as bait. Who will protect you? Human Emperor?"

Luo Xiaobai shook her head slightly. "No. Besides, I'm not the only bait. There are a total of 403 baits. The Sky Openers I dispatched just now were all brought over later. The former Sky Openers on the front line battlefield are all here. Only in this way can An Liudao and the others believe."
