**Chapter 2891: Visitors From the Central Sea (3)**

2891 Visitors From the Central Sea (3)

He ignored the music that filled the sky, the mystic sounds played by the zither player, and the soul stings shot out by the two women's hair.

Swish ~

Formless Infinity Sword, Time Arcane Technique, Ragnarok, Invincible Fighting Intent... Han Fei activated all his great techniques. The person holding the flute was shocked. The moment his eyes met Han Fei's, he knew that this person was not affected by his hallucinating pupils at all. Furthermore, the flute's sound was shattered, and the soul sound couldn't stop Han Fei at all. Furthermore, Han Fei's speed was too fast. It was too late for him to continue playing the flute. The center of his eyebrows flashed.

However, he didn't intend to launch a Star Bead attack. Instead, he instantly summoned a giant clam.

He knew that there was no time for the Star Bead to launch an attack. At this moment, if he wanted to survive, he could only sacrifice his Companion Spirit.

Crack! Puff!

The Companion Spirit was pierced through by the sword and couldn't resist it at all. The person didn't expect that his carapace, which was comparable to an ultra-quality godly weapon, couldn't withstand even a single blow from the sneak attacker.

"Carefree Level?"

In the next moment, a jade flute appeared between this person's eyebrows. It was naturally his Soul Suppressing Godly Weapon. He had no choice but to buy time.

But to his surprise, the moment the Soul Suppressing Godly Weapon appeared, it disappeared and appeared on Han Fei's side.

"Soul Explosion."

Seeing that there was no time to use the Star Bead to defend against the enemy, this person chose the most straightforward way, which was to block Han Fei with the power of the Soul Explosion.

However, in his eyes, Han Fei ignored the infinite power of the soul explosion and had already reached the center of his eyebrows.

"How is that possible?"

This person was a little surprised. Why did this person break his four life-saving methods in a row? Why?

"Pfft!"

Ding ding ding!

Clang! Clang! Clang!

Han Fei's attack succeeded, but in the end, he was delayed by the Companion Spirit. It was during this period of time that thousands of mystic sounds slashed at him, causing his soul to be shaken.

As for the two women, dozens of fine needles shot out of their hair and pierced through the barrier of Han Fei's invincible will.

Swish!

In an instant, Han Fei advanced instead of retreating. No matter who this flute-holding powerhouse was, he would definitely die at this moment. However, this zither player was a problem. This person's reaction was too fast and his soul power was extremely strong. Although he wasn't an Extreme Daoist, his strength wasn't at the Dao Proving Level at all, but the Carefree Level.

At this moment, the distance between him and the zither master was extremely short. This was the best time to kill him.

Although this person retreated immediately, Han Fei followed him like a shadow, and a pair of scissors appeared in his hand.

The moment the zither player saw the scissors, he knew that something was wrong. The enemy was determined to attack him despite the attacks of two Monarchs and even took out a pair of scissors. It couldn't be simple.

Crack!

Sure enough, in the next moment, the zither player felt that he had lost his speed.

But at the same time, the terrifying energy from between the zither player's eyebrows rushed straight at Han Fei.

Different from the flute holder, Han Fei's first target was the flute holder. He died because Han Fei attacked too quickly and had too many means.

But the zither player was different. After seeing Han Fei's hunting skills, he was already preparing to launch a Star Bead attack. If Han Fei could kill the flute holder, he could kill him. He had to be prepared.

When Han Fei took out the scissors, he knew that Han Fei was going to attack, so he released the Star Bead Strike without hesitation. At the same time, he lost the law of speed and was sent flying.

Bang!

Han Fei's figure was sent flying by the blow. Even an Immortal-level Monarch would avoid the Star Bead Strike of a Carefree-Level Monarch unless necessary. After all, the Star Bead Strike mobilized the power of the whole Origin Star and released terrifying energy.

"What a strong body."

A woman exclaimed. Han Fei was hit by the zither player's Star Bead Strike, but he could still put his hands together in front of him to block it. His body was golden and his defense was not broken.

“This is a good chance!”

The three men attacked at the same time. Three terrifying fist marks crushed the void around Han Fei who was sent flying. Soul power surged on this fist mark, and the fist mark was almost made of laws. The three of them worked together, determined to take Han Fei down in one fell swoop.

The zither player was slightly relieved. What a horrible enemy! He was almost killed. It was a pity that his good friend was killed before he could see his enemy clearly.

However, in the next moment, the zither player’s expression suddenly changed. He wanted to move, but a sword light instantly pierced out from the back of his head.

Only then did he know that there were two enemies.

Unfortunately, he didn’t know that his extremely fast Star Bead Strike only repelled a clone.

“Twin in one.”

Buzz!

Han Fei picked up the bodies of the zither player and the flute holder and then appeared in front of the remaining five people.

At this moment, the five of them were shocked. Damn it, why was he here? Was the guy they were attacking just now fake?

“Hehe... Everyone, are you looking for me?”

Han Fei sneered, and the five people opposite him felt their scalps tingle. This person was so strong. In less than a second, he had killed a Carefree-Level Monarch and a peak-level Dao Prover.

These were freaks from the Absolute Sound Mountain! Each of them was monsters with extremely powerful soul power and terrifying fighting intent. But two of such monsters were killed in an instant.

Standing in a triangle, the three men didn’t want to fight Han Fei anymore, because they found that Han Fei seemed to be terrifyingly strong.

#### **Chapter 2892: Visitors From the Central Sea (4)**

2892 Visitors From the Central Sea (4)

One of them said, “We just need to hold you back for a while. Then you won’t be able to escape.”

In other words, this person was telling Han Fei that if he didn’t run now, the other Monarchs would arrive and he wouldn’t be able to escape.

Han Fei didn’t speak, but a black raven suddenly appeared on his shoulder.

“Not good! The Emperor Sparrow...”

In the next moment, the eyes of the three men turned bloodshot and they began to attack each other.

“Run!”

The remaining two women finally confirmed the identity of the visitor. Wasn't it Han Fei, the target of their trip?

However, Han Fei was unbelievably strong and had amazing means.

Just now, their Soul Slaying Spikes failed to pierce through Han Fei. Just as they passed through the invincible golden light, they were blocked by gravel.

Now, two of his allies were gone, and only the two of them were left. It was too dangerous to fight such a monster.

However, at this moment, the sky turned dark, and the Turtle Shell Sky Sealing Array appeared again.

"Sorry, it's too late for you to leave now."

Seeing this, the two girls knew that they had nowhere to retreat. Han Fei had already forced them to a dead end.

One of them said, "If we don't kill the three of them now, when we break free, it will be a five-on-one situation."

Han Fei smiled. "Test me out? Let me tell you clearly, the three of them won't wake up. Do you think anyone can wake up from the curse of the Emperor Sparrow?"

Immediately, the hearts of the two women sank. One Han Fei was already difficult enough to deal with, and now there was the Emperor Sparrow.

The two of them exchanged a look. "Persist for a hundred seconds. Someone will definitely come."

One of the women said, "We can quit this battle. Besides, we can tell you whatever you want to know."

However, Han Fei condensed a sword with two fingers and smiled faintly. "Sorry, I don't want to hear it now. If you want to stall for time, try it!"

Han Fei took action and swept over. The two women's bodies trembled at the same time, and tens of thousands of silver needles burst out from every corner of their bodies.

"Shoot! Hidden weapons?"

Han Fei didn't notice that the two women were covered in hidden weapons.

At this moment, these silver needles intertwined into a net, each of which was attached with soul power and shot crazily at Han Fei.

"No, it's definitely not as simple as hidden weapons."

From the moment the two women attacked him just now, Han Fei had sensed that their way of attacking was very special. Their Soul Killing Technique had such powerful penetrative power that his Invincible Golden Body could actually be penetrated and he had to rely on the Star Sea Mystic Sand to resist it.

Logically speaking, after he activated his Great Dao and the Invincible Eyes, not to mention Dao Provers, even a peak-level Carefree-Level Monarch wouldn't be able to penetrate his defense. Of course, Han Fei

was referring to ordinary Carefree-Level cultivators, and these people were clearly extremely talented and combat-ready.

Therefore, at this moment, the two women casually unleashed tens of thousands of Soul Sting Silver Needles. Each of them had powerful penetrative power. This kind of power couldn't be condensed immediately. Han Fei thought for a moment. If it were him, he definitely wouldn't be able to condense ten Soul Sting Silver Needles at the moment of battle. At the same time, even if he had the corresponding cultivation technique, it would be very impressive if he could condense ten of them.

And these two women were only at the peak of the Dao Proving Level, which meant that their Soul Sting silver needles had been condensed in advance. Oh no, Han Fei's heart did a flip. They had locked the Soul Killing Technique into these silver needles in advance. During the battle, they could use a large number of super powerful piercing silver needles to take down the enemy in one round.

"What an abnormal killing technique. Fortunately, I have both the Invincible Golden Body and the Star Sea Mystic Sand to protect me. Otherwise, I would have been tricked."

But at this moment, tens of thousands of Soul Piercing Silver Needles were unleashed at the same time. Obviously, the two women realized how powerful Han Fei was, so they planned to heavily injure Han Fei in one go.

If it were anyone else, even if they were at the peak of the Carefree Level, they might have been killed by this blow.

If every needle was so penetrating and destructive, Han Fei felt that the Invincible Golden Body and the Star Sea Mystic Sand couldn't resist it at all.

Therefore, Han Fei threw out a refined star without hesitation. The two girls turned green when they saw the refined star.

"Are you crazy?"

"Explode!"

Rumble!

This was a refined star of the Monarch realm, which these people could certainly recognize. At the Monarch level, the detonation of a refined star could be ten times or a hundred times more powerful than a Star Bead Strike.

Therefore, when the two women saw how crazy Han Fei was, their hearts turned cold.

At the moment the refined star was detonated, the coverage of the Turtle Shell Sky Sealing Array automatically shrank, and Han Fei was already outside the array.

The dazzling light lasted for a long time in the Turtle Shell Sky Sealing Array. Han Fei waited for more than fifty seconds, but still didn't enter. He thought to himself, Let those people be tortured for a while longer!

Besides, although this was a refined star of the Monarch realm and might be able to crush those people when it detonated, it was very likely that they would be reborn later.

The Emperor Sparrow said, "You can be so unscrupulous because your turtle shell is too high-levelled. In fact, if you take that blow head-on, you should be able to withstand it."

Han Fei said, "Why should I fight them head-on? There are still many enemies. I can't fight to the death with everyone. It will save me a lot of trouble."

The Emperor Sparrow asked, "Haven't you reached the peak of the Dao Proving Level? In my inherited memories, if you want to advance from the Dao Proving Level to the Carefree Level, you have to have an epiphany."

Han Fei asked, "What is carefree? If you have inherited memories, can you directly cross this realm?"

"Yes!"

Then the Emperor Sparrow continued, "Everyone's definition of being carefree is different. The most straightforward meaning is to be carefree in the world, watch the mortal world with a smile, dream about the nine heavens, and seek freedom. But not everyone can enter the Carefree Level with this mentality. Some people can also enter the Carefree Level with hatred. Their comprehension of being carefree is that they have gotten their revenge. Some people want something but can't get it, so they enter the Carefree Level when they get it. Some people are secluded and aloof. Entering the mortal world to experience the mortal world can help them enter the Carefree Level. Carefree is a kind of mentality and attitude. The easiest time to comprehend carefree is when you're in a life-or-death situation. When you have no choice, you can find out what you want most."

"Oh?"

Han Fei frowned. In a life-or-death situation? Wasn't this hunt the best opportunity?

#### **Chapter 2893: Crushing Those on the God Roll with One Hand (1)**

2893 Crushing Those on the God Roll with One Hand (1)

Han Fei was tempted by the Emperor Sparrow's words.

He had cultivated in his Origin Star for 20,000 years and had enough resources to support himself. Now, he was firmly stuck at the peak of the Dao Proving Level. In fact, this was the necessary condition for him to break through to the Carefree Level.

Now that the Emperor Sparrow had mentioned the key to the breakthrough, Han Fei actually had an epiphany.

Without hesitation, Han Fei dove into the Turtle Shell Sky Sealing Array again, and a terrifying power swept across his body in an instant. He dispersed his invincible will and the Star Sea Mystic Sand and resisted it with his body alone. His skin turned red at a visible speed, but this baptism of power didn't really break Han Fei's defense.

But at this moment, the five people in the array were different. At this time, except for the three guys who were obviously body refiners who still had their bones left, the two women were directly blasted into pieces.

However, they didn't die. The three men even woke up from the frenzy because of this. Although the explosion of a refined star was terrifying, as long as Monarchs tried their best to protect a wisp of soul or a wisp of flesh and blood, they could survive it.

They could even clearly see that Han Fei had come in and weathered through the terrifying energy with his body.

"Dao Proving Level?"

At the same time, the five of them asked the same question. Is this the Dao Proving Level? How can the body of a Dao Prover be so strong?

"Not good. His Heavenly Dao Jade Marrow Bone has probably been refined."

"How is it possible? How many years has it been?"

Unfortunately, no one gave them an answer. Han Fei used his finger as a sword, and every step he took was a sword.

In the blink of an eye, all five of them perished, unable to resist at all.

After storing the remains of the five people into his Origin Star, Han Fei didn't leave the range of the Turtle Shell Heaven Sealing Array but felt the baptism of these energies.

Yes, his Heavenly Dao Jade Marrow Bone had been completely polished. It was precisely because his realm, body, and soul had reached a limit that Han Fei was going to leave the Chaotic Wasteland to seek a new breakthrough.

There was no point in cultivating hard. Han Fei's eyes were firm under the terrifying power.

At this moment, it had been more than 70 seconds since Han Fei fought them. Finally, a second group of people arrived.

There were a total of six people in this batch, but Han Fei knew that it was impossible for him to kill these six people in a sneak attack. Because there would definitely be more and more people coming soon, the only thing he could do was fight.

At this moment, the six of them seemed to be a joint team of three powers.

Someone said, "Huh! The battle here is very intense, and there are no signs of transfer. It can't be!"

They spread out their perceptions. Suddenly, they saw a space appear out of nowhere, and a terrifying power swept out in an instant, rolling thousands of kilometers away.

The six people bore the brunt of the blast and were all shaken back by the violent explosion.

"Watch out, someone is here."

Rumble ~ Rumble ~

As one of them spoke, Great Dao cracks appeared in the sky one after another.

All six of them looked horrified. As they retreated, a fist mark suddenly descended. This fist mark fused with the power of the explosion and used this power to erupt with greater power.

The man didn't even have a chance to summon his spiritual beast before his Star Bead was shattered.

Then, the remaining five people gathered together in shock.

"The guy is very strong. Let's not stay separately."

"Damn it, who is attacking? Why is he so strong?"

Rumble ~ Rumble ~

In the distance, the many Monarchs who were rushing over also looked shocked. Another eight consecutive Great Dao cracks? Were they serious?

They believed that someone could kill three people in an instant, but killing eight people in an instant? They didn't believe it. If this person really had the strength to kill eight people in an instant, he would have swept through them in the past hundred years.

Someone came to a realization. "This person temporarily blocked the Heavenly Dao's perception. He must have set up some kind of barrier."

"Even if they set up a barrier that blocks the Heavenly Dao, how long has it been since the last three people died? In less than a hundred seconds, they killed eight Monarchs. I'm afraid there's more than one person here."

"Huh! What a strong energy fluctuation up ahead. We're here."

"Hiss! This..."

"One person?"

In the sky, the Great Dao cracks were intertwined. Where Han Fei was, energy swept in all directions. The sea was surging into the sky.

These Monarchs saw that at the center of the explosion, a young man was bare-chested, and his long hair was fluttering. His body was full of vitality and fighting intent. The muscles on his body were tough and powerful, and his skin was hot red. He looked like a god of war revived from the explosion of stars.

At this moment, as many as 19 Monarchs had arrived.

Yes, in this short period of time, more and more Monarchs had come. Some might not have arrived yet, but the Monarchs with boundless vision had witnessed the man who was like a god of war at this moment.

These people didn't attack, nor did Han Fei speak. More and more Monarchs were gathering around.

Thirty people.

50 people.

A hundred people.

In the end, 132 Monarchs appeared here.

Someone said, "Is this guy who killed eleven Monarchs in a row?"

"Is this guy Han Fei? Isn't it said that he has just proven Dao? But he is obviously already at the peak of the Dao Proving level!"

"It doesn't matter if he's at the early or peak stage of the Dao Proving Level. It's already impossible for him to escape today. If he doesn't seek the help of the Void Temple, it's impossible for him to survive."

### **God of Fishing**

#### **Chapter 2894: Crushing Those on the God Roll with One Hand (2)**

2894 Crushing Those on the God Roll with One Hand (2)

"Why didn't he run? Could it be that he was fishing and had actually set a trap?"

"That's impossible. The last disciple of the Void Temple, Lei Heng, is already at the peak of the Immortal Level. Furthermore, he hasn't really taken action in 30,000 years. We aren't at the Immortal Level. How can the Void Temple interfere in this matter?"

"That's right. Did we bully them? They have so few people in the Void Temple. What has it got to do with us?"

"This is the trial method of the Void Temple. Since they dare to play like this, they have to bear the price of death."

"He dares to show up before he grows up. He asked for it."

"Even if there's someone behind him, so what? Do you really think we're the only ones here this time? How can there be no immortal-level powerhouses in the dark?"

While these people were discussing secretly, Han Fei twisted his head and sneered. "Why, is everyone here? 132? Is that all?"

In fact, Han Fei still sensed that there seemed to be a few people who hadn't appeared. Perhaps they wanted to sit on the sidelines and watch the tigers fight?

Someone shouted, "Han Fei, you can't escape today. The Void Temple destroyed my sect in the past. Today, I'll make you people pay with blood."

Han Fei sneered. "Destroying your sect is actually giving you face. Since you're here today, I'll send you along. It's better if the entire sect stays together."

"A\*shole."

Someone raised his saber. "He's already dead meat. Don't bother talking to him. Let's just kill him together!"

"Heh ~"

Han Fei sneered. "Hey! I'm really curious. What grudge do I have against you? Did I slaughter your entire family, kill your parents, or abduct your daughter and steal your inheritance? Why did you suddenly come to kill me? You have to give me a reason!"

Someone said, "The Void Temple once swept across the Central Sea Divine Realm and killed along the way. This is a feud. This is the reason."

Han Fei curled his lips. "Ridiculous. If you didn't do anything bad, why would the Void Temple want to kill you? I'm sure you didn't do anything good before."

"A\*shole."

"Humph, go to hell!"

Han Fei sneered in his heart. This was just an excuse. They couldn't have risked their lives to come here to kill me just for this, right? If they really hated the Void Temple so much, his senior brothers and sisters might have long killed them. How could they let them jump around here?

At this moment, the voice of the Emperor Sparrow sounded in Han Fei's heart. "I'll give you a reason. Most of these people who are at the peak of the Dao Proving Level have no grudges with you, but they want to reach a higher state of mind and break through to the Carefree Level in one fell swoop by killing you. Think about it, how glorious is it to kill a disciple of the Void Temple? If they succeed, they can brag about it for the rest of their lives. Therefore, with such a different state of mind, it would be easier for them to enter the Carefree Level, which is indeed a good way to break through to the Carefree Level."

"I see."

Han Fei asked again, "Then what about the Carefree Level powerhouses here?"

There weren't many Carefree Level cultivators here, but there were still as many as 38. Among them, at least half were at the peak of the Carefree Level.

The Emperor Sparrow said, "Most likely, the Carefree-Level Monarchs really have a grudge against you. This is because it's meaningless for them to kill you. Although it's worth bragging, there won't be any help to their mental state, so the possibility is that they hate you or have other motives."

Han Fei knew that there must be something wrong with the Carefree Level cultivators who came today. If these people weren't here for revenge, it could only be because of the human race. Some of them didn't want the human race to rise. The best way to stop the human race from rising was to kill him, the Human Emperor.

At this moment, a door of light opened in the void, and a young cultivator walked out. He was wearing a white robe and holding a long sword, his eyes cold.

"Yi Wulang?"

Han Fei knew this person. He was a strong master from the Gate of Heaven. He once besieged him at the periphery of the Divine Capital Dynasty. But when Senior Brother Azure Dragon appeared, this guy chickened out.

Yi Wulang was quite shocked to see Han Fei again. He couldn't imagine how fast Han Fei had grown. In less than 200 years, this guy had grown from the late-stage Star Transformation Realm to the peak of the Dao Proving Level. This speed was simply unbelievable.

Yes, others didn't know, but the Heavenly Race did. Han Fei's initial strength wasn't even at the late-stage of the Star Transformation Realm.

However, Yi Wulang didn't know that Han Fei had just entered the Star Transformation Realm near the Divine Capital Dynasty.

But whether Yi Wulang knew more or not, he only knew that Han Fei had to die. This guy had grown too fast and was decisive. Besides, he was the Human Emperor. Once the human race rose, with such a Human Emperor, it would be difficult for anyone in the East Sea Divine Realm to compete with the human race except for the Divine Capital Dynasty.

No matter which era it was, the rise of a huge race was inevitably accompanied by the decline of other races. The Gate of Heaven had a deep grudge with Han Fei, so whether they were willing or not, they had to stand on the opposite side of Han Fei.

Yi Wulang said, "I'm Yi Wulang, from the Gate of Heaven in the East Sea Divine Realm. Nice to meet you. The Gate of Heaven has a feud with Han Fei. This child reached the peak of the Dao Proving Level from the late-stage Star Transformation Realm in just two hundred years. I'm afraid that it was mostly because of the Spring of Life he snatched from the Gate of Heaven. Today, I'll attack him first. If I can successfully take him down, you won't have to offend the Void Temple again."

### **God of Fishing**

#### **Chapter 2895: Crushing Those on the God Roll with One Hand (3)**

2895 Crushing Those on the God Roll with One Hand (3)

Yi Wulang seemed to be for the benefit of others, but in fact, he was implying that Han Fei's foundation couldn't have been so strong after only two hundred years of cultivation. Besides, he implied that Han Fei could only cultivate so fast with the help of the Spring of Life. It gave everyone an illusion that Han Fei was actually weak.

However, most people in the field were still sober. At this moment, they sneered in their hearts, thinking that Yi Wulang was talking nonsense. Han Fei's strength was definitely not fake. Otherwise, it was impossible for him to kill 11 Monarchs in a row.

If Yi Wulang really wanted to attack first, why did he have to say so much nonsense? He was just putting on a show.

Then, a clear voice came from the sky. "There's no need for a Carefree Level cultivator to attack first. This is a battle of the Dao Provers after all. If the Dao Provers haven't been defeated, how can you attack first?"

A blue phoenix flew over from the sky.

A woman walked out of the phoenix carriage, holding a porcelain bottle in her slender hand. She was dressed in a long, sleeveless dress, and her white dress fluttered. On her cold and beautiful face, what was most attractive was her clear eyes.

Many people were shocked. Someone said in a low voice, "Zhao Qianqian from the Flying Immortal Tower, who used to be the seventh place on the God Roll, has appeared now after thirty thousand years?"

While someone was surprised, someone looked into the void. "Look, that's Mirage."

A palace phantom appeared in the sky. A young man wearing a purple-and-gold crown, flying cloud shoes, and a white crane cloak stepped down from the clouds with a sword in his hand.

Someone's expression changed slightly. "Mirage, Ye Tianren, the peerless sword cultivator who used to rank fifth on the God Roll. He's here too?"

As soon as this happened, the sky shook, and someone said, "Look, the clouds are moving in all directions, and the Qi and blood cover the sky. The fist sect is also here."

Boom ~

A golden figure descended from the sky and hit the sea with a bang. Ripples spread out for thousands of kilometers under his feet. Then, he saw a burly bald man who was golden all over like a celestial being.

This person had three bronze bracelets on each wrist. His fists were shining brightly from time to time.

"I'm Pei Qiannan from the Fist Sect, the former eighth place on the God Roll. It seems that every sect has sent all their Heavenly Talents to deal with Han Fei!"

Someone said in a low voice, "They're famous, but these people rarely appear after proving Dao. Now they all want to step on Han Fei to rise to the top. Let them have a try."

Apart from Pei Qiannan, the other two were followed by two Carefree Level cultivators. They must be their guardians. Zhao Qianqian was cold, Ye Tian was arrogant, and Pei Qiannan was fierce. They looked quite extraordinary.

The three of them just nodded at each other, but they were not cultivators on the God Roll from the same era and didn't know each other well.

Ye Tianren ignored the others and took the lead to say, "Are you Han Fei? A disciple of the Void Temple?"

Han Fei didn't answer.

Ye Tianren waited for a few seconds, his face dark. Not even bothering to answer him, this person was humiliating him.

Ye Tianren continued to maintain his arrogant attitude and said, "Why? Are you a mute?"

Upon hearing this, many people present were shocked. This was a blatant provocation. However, according to Ye Tian's personality, this seemed to be normal.

While these people were waiting for Han Fei's reaction, Han Fei gently grinned, put on a teasing smile, and said in a slightly hoarse voice, "There must be something wrong with your f\*cking eyes. What are you talking about? If I weren't Han Fei, why would you have surrounded me?"

"Vulgar."

Ye Tianren snorted coldly, his indifferent eyes as if looking at a dead person.

Zhao Qianqian slightly frowned, as if she felt that Han Fei's words didn't match his identity. She said, "I don't know where your confidence comes from. There are 139 Monarchs here. Even if there are only 39, can you block them? So, why are you pretending to be mysterious?"

Han Fei smiled. "Why don't you come and have a try to see if I'm pretending to be mysterious?"

Click, click~

"You talk too much nonsense."

Bang!

The space was shattered by someone's foot, and a ray of light suddenly appeared. Only the afterimage of Pei Qiannan was still in place. In front of Han Fei, the space converged and squeezed, and the fist mark sucked the power of the Heavenly Dao hundreds of thousands of kilometers away, forming a shock wave that was like a star that suddenly jumped over.

Rumble!

Everyone present was shocked by Pei Qiannan's attack.

"So strong!"

Zhao Qianqian frowned slightly, and Ye Tianren's pupils were constricted. They seemed to be judging Pei Qiannan's strength.

As for the others, they felt that he deserved his fame. Not only did this person's fist mark contain a powerful law, but there was also an unparalleled dominance and bloodthirsty courage.

The space suddenly exploded and collapsed in an instant. The surrounding waves were upside down, and chaotic energy surged back from the endless void with astonishing power.

"As expected of a powerhouse on the God Roll!"

Faced with this blow, no one present dared to say that they could easily withstand it. Most of the people even thought that they might not be able to withstand this blow in time because Pei Qiannan's speed was too fast. It was difficult to imagine that the Fist Sect, which focused on body refinement, could be so fast.

However, in the collapsing and dense spatial cracks, Pei Qiannan left as quickly as he came. Everyone saw Pei Qiannan flying back. There was only a bone left on his entire arm, and his Dao bone was full of cracks.

### Chapter 2896: Crushing Those on the God Roll with One Hand (4)

2896 Crushing Those on the God Roll with One Hand (4)

What followed was a scorching fist mark. It was obviously not Pei Qiannan's fist mark, so it could only be Han Fei's.

Bang!

Without a word, Pei Qiannan punched again with his left hand. With a loud bang, Pei Qiannan shattered the void and flew millions of kilometers away in an instant. His left hand was completely fleshless, and the bones of his hand were also full of cracks.

In the next moment, Han Fei stepped on the broken space cracks and walked out of the endless void with a calm expression.

"Is he really a Heavenly Talent from the Central Sea Divine Realm? And he's on the God Roll. How dare he attack me when he is only halfway through the Extreme Dao? Even if you win and enter the Carefree Level, you'll just be a piece of trash."

Gulp!

"So strong!"

"Extreme Dao? Pei Qiannan is an Extreme Dao cultivator? Then Han Fei..."

Zhao Qianqian and Ye Tianren looked solemn. In their hearts, it was the same word, strong. Before they came, they didn't think much of it. They only felt that although Han Fei was a disciple of the Void Temple, he hadn't grown up for long. As for them, they had already stayed in the Dao Proving Level for tens of thousands of years. How could they be inferior to this guy who had only proven Dao less than a hundred years ago?

"Impossible!"

Zhao Qianqian and Ye Tianren had the same thought at the same time. There was no one in this world who could grow up so terrifyingly fast. He had walked the road of tens of thousands of years in a hundred years.

In such a situation, either there was a problem with the information they had obtained, or... the Time Temple.

They thought of the possibility of time acceleration. Only in this way could it explain why Han Fei could be so strong now. Historically, the Void Temple had produced many strong masters, but none of them had grown as fast as Han Fei.

It wasn't just Zhao Qianqian and Ye Tianren who thought of this. Many people seemed to have guessed that. If it were the Six Divine Time Techniques, it was indeed possible for Han Fei to grow to such a level in such a short period of time.

However, didn't the Void Temple value trials? Besides, according to the information they knew, although the Void Temple and the Time Temple weren't enemies, the Time Temple wasn't strong enough to nurture disciples for the Void Temple, right?

Some people who knew something about the Time Temple even calculated that anyone who could accelerate time by a hundred times was at least a Great Monarch from the Time Temple. Those who could accelerate a hundred years to thirty thousand years were definitely Great Monarchs. Otherwise, it was impossible.

Of course, it was also possible that Han Fei's cultivation speed was indeed fast, but even so, it would take at least a powerhouse at the peak of the Longevity Realm of the Time Temple to help Han Fei cultivate for a hundred years to reach this level, right? The limit they could accept was 10,000 years, and it would take Han Fei at least 10,000 years to cultivate to this level.

At this moment, only Pei Qiannan, who was fighting Han Fei, knew how terrifying Han Fei was. Although the punch just now didn't use his full strength, it still contained 80% of his absolute strength. But even such a powerful attack couldn't shake Han Fei at all.

Yes, just now, the other party only extended a single hand and threw a punch. His punch silenced the void with devastating power.

Clang!

At that moment, Ye Tianren's sword began to tremble as if it was about to be unsheathed.

Pei Qiannan roared, "Stop! I'm not done yet!"

Ye Tianren pressed his hand against the air to stabilize the unstoppable sword intent and said proudly, "Are the people of the Fist Sect all fools? You've already been defeated."

"One more blow."

Pei Qiannan roared, and the bronze bracelets on his wrist began to clink. His flesh and blood returned, and his arms were shining gold.

Roar!

Pei Qiannan stepped on the sea, and the huge tide soared into the sky. He opened his arms and held the infinite seawater, trying to condense it into a punch with the power of the seawater.

Han Fei thought to himself, This idiot is really reckless! Of course Pei Qiannan is strong. How can anyone who walked the Extreme Dao be weak? At least, he deserves to be on the God Roll.

What Han Fei didn't like was that those b\*stards from the Central Sea Divine Realm thought too highly of him. They sent so many strong masters at the beginning. Did they really intend to kill him in one fell swoop?

Or, did they want to force him to use the void mark once?

Yes, Han Fei was sure that someone was definitely targeting the void mark. They knew that the void mark could only be used three times. He had already used it once in the Divine Capital Dynasty. In the

Chaotic Wasteland, although he didn't use it, outsiders didn't know! The Queen of Horror definitely wouldn't tell others.

Therefore, many people guessed that Han Fei only had one chance left. And even if Han Fei used the void mark in such a battle and summoned the cultivators of the Void Temple, they wouldn't attack this group of people. This was because the Void Temple was usually reasonable. Since they were in the same realm, no matter how many people chased Han Fei, it was still a trial.

Therefore, the people sent by the Central Sea Divine Realm this time were all elites, all Heavenly Talents, to force Han Fei to use the void mark.

Han Fei grinned grimly. "B\*stards from the Central Sea Divine Realm, come on! Let's fight!"

#### **Chapter 2897: Enter the Carefree Level (1)**

2897 Enter the Carefree Level (1)

This time, Han Fei was no longer passively defending. Facing the punch that carried the power of the huge waves hundreds of thousands of kilometers long, he took the initiative to fight back.

"Since you're from the Fist Sect, I'll defeat you with my fist technique. When I punch out, the world will be destroyed."

Han Fei's punch was scarlet and terrifying. In the eyes of others, it was as if the world had collapsed and hell was burning. Although they didn't fight him, they still felt the overwhelming killing intent.

For a fight between Extreme Dao cultivators, one step forward, even if you were defeated, your Dao heart would still be safe; one step back, your Dao heart would be covered in dust, and your opponent would definitely become an unsurmountable mountain in your heart.

Pei Qiannan roared, his whole body shining with golden light. A Dharma Idol rose from behind him, and a Qilin appeared and fused between his eyebrows. He looked like a galloping beast. His combat power, soul, will, and many other aspects showed double growth.

Without the heart of a strong master, who could enter the God Roll?

The onlookers were also paying attention. They were all Heavenly Talents of their generation. Seeing this scene, their hearts were greatly shocked, but at the same time, they couldn't hide their excitement.

Perhaps many people felt inferior to this blow, but this didn't mean that they were afraid. On the contrary, they felt that once they successfully participated in a battle of this level without dying, it would greatly benefit their growth.

Rumble!

Rumble!

The power of the fist light swept across the world, and the billions of drops of water that splashed out either vaporized or exploded like rapid arrows.

Crack... Boom...

In the violent explosion and boom, at the opening of the broken endless void, everyone saw that three of the six bronze rings shattered, and three were sent flying thousands of kilometers away.

As for Pei Qiannan, he bent his body like a shrimp and was sent flying into the sky. His two arms were gone. There was only less than a third of his flesh and blood still left. Now only his Dao bones were shining.

“Hiss ~”

“So strong.”

In the blink of an eye, Han Fei wanted to press on. Although Pei Qiannan walked the Extreme Dao, he hadn't finished walking it. Therefore, the blow just now not only crushed him physically, but also shattered a large number of his soul and pierced through his Soul Suppressing Godly Weapon.

However, perhaps because Pei Qiannan was indeed a Heavenly Talent of the Fist Sect, his Soul Suppressing Godly weapon was not weak and was an Acquired Spiritual Treasure.

Therefore, if the World Destruction Fist couldn't kill him, Han Fei would just punch him again.

However, just when Han Fei was about to launch another attack, a mysterious jade hand formed a strange seal in the sky. A Dao pattern array hovered in the sky, as if it wanted to press Han Fei down.

“An array master?”

Someone who could condense an array of this level was definitely not an ordinary person. Han Fei glanced around and saw that Zhao Qianqian was already standing in the air, forming seals with one hand and attacking indifferently.

“Fuse!”

Han Fei's eyes turned black and white in an instant. He activated the Yin-Yang Divine Eyes and found the core of the array in a flash.

Bang!

The Dao pattern seal array, like a mirror, instantly shattered.

“Huh ~”

Zhao Qianqian's eyes flashed, as if she was a little surprised that Han Fei instantly broke her seal array.

“It's his eyes.”

Behind Zhao Qianqian, a Carefree Level cultivator said, “It's indeed a characteristic of the human race. If I remember correctly, those eyes are called Yin-Yang Divine Eyes, an extremely rare Pupil Spell. In history, it has only appeared a few times, but every time it appears, its owner is extremely powerful.”

Behind Ye Tianren, a guardian said, “Tianren, this person's strength has far exceeded what we expected. With such strength, I'm afraid he has reached the end of the Extreme Dao. Pei Qiannan alone can't defeat him. We...”

Ye Tianren frowned. “I don't want to bully you with numbers.”

The two guardians of Ye Tianren frowned. "Tianren, we're not here to fight. We can't let him escape!"

Ye Tianren was unmoved. "With me here, he can't leave."

Seeing that Ye Tianren was determined, the two guardians didn't say anything else.

However, Zhao Qianqian was not as arrogant as Ye Tianren. She knew that there were only a few people here who could really stop Han Fei today. She had heard of Ye Tianren's personality and couldn't count on him. Pei Qiannan was the first to attack. If he was killed, not only would these people's morale be affected, but it would also be completely possible for Han Fei to escape.

Although there were still many Carefree Level cultivators present, in the eyes of the ultimate cultivators, the Carefree Level was not unreachable. Even she and Pei Qiannan were not afraid of Carefree-Level Monarchs.

At this moment, Zhao Qianqian's attack was blocked. She slightly poured out a crystal clear drop of water from the jade bottle in her hand. As soon as this drop of water appeared, gravity was lost in this world.

"Chaotic Original Water?"

Han Fei's heart did a flip. Was it a coincidence or was he lucky? This woman actually poured out a drop of Chaotic Original Water. But the quality of this Chaotic Original Water seemed to be higher than his Infinity Water!

The Infinity Water was only a high-quality godly weapon now. In fact, it was of little use to him now. However, the Chaotic Original Water that this woman took out instantly extracted the law of power in this world, causing the gravity here to be gone. This seemed to be at least an ultra-quality godly weapon-level Chaotic Original Water.

"It's mine."

Han Fei's eyes flashed, and he waved his hand in the air. The law of time shattered time and space. If you have the ability to extract the law of strength, then extract the laws in other timelines!

#### **Chapter 2898: Enter the Carefree Level (2)**

2898 Enter the Carefree Level (2)

Sure enough, Han Fei stepped into another timeline. Then, Zhao Qianqian's heart skipped a beat. She formed another seal with one hand and pressed it half a meter away from her.

Bang!

However, as soon as this seal technique array appeared, it was pierced through by a single blow.

When Han Fei appeared and almost touched Zhao Qianqian, eight drops of Chaotic Original Water appeared in the jade bottle in a row. Plus the previous drop, there were nine drops. Every drop represented a law.

At this moment, the nine drops of Chaotic Original Water condensed into an array shield in front of him.

Bang!

Han Fei's attack didn't work. On the other side, Pei Qiannan had stabilized himself and his arms were recovering.

Pei Qiannan's seven orifices were bleeding. He quickly put a pill into his mouth and then his body crackled. He said to Zhao Qianqian, "Thank you."

Immediately, Pei Qiannan said, "Human Emperor Han Fei's strength has reached the peak of the Dao Proving Level. I admit that I lost, but unfortunately, today is not a sparring match. Since you have seen his strength, let's come at him together!"

"Attack!"

"Kill!"

"It's absolutely justified to kill an Extreme Dao cultivator."

Following Pei Qiannan's words, some people had already taken action. Now with Pei Qiannan and Zhao Qianqian holding Han Fei back, it should be the best time for them to kill him.

Otherwise, once these two people were defeated, no one could restrain Han Fei, and they would be easily targeted. To put it bluntly, they had already offended Han Fei, so they wouldn't hesitate to attack him.

Han Fei didn't pay attention to this. Unfortunately, he didn't know that the bottle contained Chaotic Original Water. If he had known, he would have long snatched it with the Void Stealing Technique.

Now the Chaotic Original Water had been released, and there were a total of nine drops. He could only grab three drops at a time with the Void Stealing Technique. This wouldn't do. Once the Void Stealing Technique was exposed, this woman would definitely collect them into her body.

Han Fei took out a heavy hammer. In an instant, thousands of hammer shadows appeared.

Boom... Boom... Boom... Boom...

He activated the Ultimate Hammer. No matter how many laws there were in the few drops of Chaotic Original Water, they couldn't be used at all.

Once a law appears, I'll just shatter it.

However, Zhao Qianqian wasn't someone easy to deal with. Her pupils turned white as she tried to send a wisp of her soul into Han Fei and his Origin Star.

However, this might be the most regretful move Zhao Qianqian had ever made in her life. This was because she thought that Han Fei's physique was very strong, even Pei Qiannan was no match for him, and he might have already reached the peak of the Extreme Dao, so the power of his soul would inevitably weaken. This should be her attacking direction.

In the face of an enemy of this level, she was obviously digging her own grave by competing with Han Fei in physique or technique.

Besides, Zhao Qianqian didn't take the path of body refinement in the first place. What made her strong was her soul.

Although Zhao Qianqian knew that Han Fei must have a Soul Suppressing Godly Weapon, she was not worried. She suddenly opened her mouth and shouted, "Soul Restriction."

In the next moment, Han Fei felt a magnificent soul power rush into the center of his eyebrows.

To be honest, Han Fei was shocked. Up to now, he had never encountered anyone who couldn't wait to let their soul power drill into his mind.

In the next moment, the Demon Purification Pot moved. Han Fei didn't even need to erase these wisps of soul before they were caught by the small vines.

Zhao Qianqian's expression suddenly changed drastically. "You, how is it possible?"

"Puff ~"

Zhao Qianqian's blood splashed across the sky, not because Han Fei attacked her, but because of the backlash as her soul power was broken.

"Not good!"

"Young Master."

The two Carefree Level cultivators were waiting to watch the show, but in the next moment, what awaited them was the backlash on Zhao Qianqian.

"Kill her while she's down!"

"Steal, steal, steal..."

Han Fei was excited. If he used the Void Stealing Technique on the Chaotic Original Water, he could only get three drops of Chaotic Original Water at most. But if he killed Zhao Qianqian, he could take all the nine drops of Chaotic Original Water.

This amount of Chaotic Original Water was obviously not as simple as an ultra-quality godly weapon. It might even be able to upgrade to a Chaotic Spiritual Treasure.

In the blink of an eye, Zhao Qianqian's Soul Suppressing Godly Weapon appeared. It was a bronze seal that looked extraordinary.

However, no matter how extraordinary the bronze seal was, it could only be stolen by the Void Stealing Technique.

The first time the Void Stealing Technique was activated, a copper seal was summoned.

The second time Void Stealing Technique was activated, the Copper Seal was stolen.

The third time the Void Stealing Technique was activated, its target was Zhao Qianqian's consciousness.

When Han Fei stole Zhao Qianqian's consciousness, he clearly felt a strong soul power trying to counterattack him, trying to compete for the power of the Void Stealing Technique.

However, his current strength was at the peak of the Dao Proving Level, on the same level as Zhao Qianqian. In terms of Extreme Dao Balance, his soul power had also reached the upper limit of Extreme Dao. This was not something Zhao Qianqian could break free from.

Therefore, even Zhao Qianqian, who was once a strong master on the God Roll, failed to break free from the power of the Void Stealing Technique.

He used the Void Stealing Technique three times in one breath. Although the two Carefree Level cultivators had already taken action, ten thousand God Sealing Spears appeared around Han Fei and blocked the two of them. Unless everyone here attacked together, it was impossible for them to break his God Sealing Spear Array in a second.

And this second was already enough for him.

Han Fei had planned to go on a killing spree this time, but the woman was unlucky enough to be the first to be killed by him.

#### **Chapter 2899: Enter the Carefree Level (3)**

2899 Enter the Carefree Level (3)

At this moment, many people had already taken action. Including the two Carefree Level cultivators, only ten thousand God Sealing Spears could only withstand a few seconds.

Therefore, Han Fei had no intention of taking this woman as a hostage. He activated the Ultimate Hammer, the Ragnarok, and Dao of Slaughter God in an instant.

Bam! Bam! Bam!

After a series of bombardments, Zhao Qianqian was smashed into a bloody mess, and the ultra-quality godly weapon-level battle suit on her body finally couldn't withstand it.

Just as this ultra-quality godly weapon was shattered and Han Fei was about to launch a fatal blow, a pearl pendant under Zhao Qianqian's neck suddenly flashed.

"Huh?"

Shocked, Han Fei retreated quickly and grabbed the nine uncontrollable drops of Chaotic Original Water.

Bang!

Then he only felt a strong counterforce. A phantom appeared, which was the will of a strong master. The phantom counterattacked, and the terrifying power was so fast that Han Fei was poked by a finger.

BAM!

Clang!

The gravel splashed and the Star Sea Mystic Sand was shattered. Then, Han Fei's body completely cracked, and the outer skin armor formed by the Star Sea Mystic Sand fell off.

“The power of an Immortal-level Monarch?”

Han Fei’s eyes turned cold. These b\*stards were confident that they wouldn’t die, so they were so fearless.

Furthermore, those life-saving methods might have been set up on purpose. Some powerhouses had guessed that Zhao Qianqian and the others were no match for Han Fei, so they set up such life-saving methods to unleash their immortal-level strength to attack him. It was good if they could kill him, and even if they couldn’t, they could heavily injure him and create opportunities for these people to kill him.

“How is that possible?”

“He blocked the attack of an immortal-level cultivator?”

The two Carefree Level cultivators who were bombarding the God Sealing Spear Array looked horrified.

In the next moment, someone said, “There’s a scale in front of him.”

Han Fei bared his teeth. Fortunately, he had the Life Scale of the Eastern Divine Crocodile, which could block a blow from a Great Monarch and block the attacks of an immortal-level powerhouse for more than ten seconds. Otherwise, he would have been seriously injured.

However, since this immortal-level blow didn’t work on him, he wouldn’t be the one to die.

Han Fei put his hands together, held the giant hammer, and smashed it down with the power of thousands of hammers.

“Stop!”

“How dare you!”

Bang!

Zhao Qianqian didn’t even wake up before she was smashed into ashes.

Yes, at this moment, Han Fei didn’t consider putting Zhao Qianqian’s corpse into his Origin Star. If he didn’t kill her now, he wouldn’t have a chance in the next second.

Rumble!

In the sky, a Great Dao crack appeared. No one here had expected that the first to die among so many people would be a strong cultivator on the God Roll.

It could be said that Zhao Qianqian was very strong, but in this battle, she might not even be able to exert 30% of her strength.

Even Zhao Qianqian herself had never thought that she would end her path of cultivation in such a way.

Pei Qiannan was shocked. Ye Tianren’s sword hummed and tried to fly out of the scabbard.

They knew that Zhao Qianqian couldn’t be so weak. In fact, judging from the way Zhao Qianqian attacked, they even felt that she could suppress Han Fei. After all, with her graceful figure, floating in the

sky, forming seals with one hand, and the Chaotic Water dripping from the Purified Bottle, she looked like a Heavenly Talent of the Heavenly Talents.

Crack! Boom ~

At this time, the God Sealing Spear Array was finally broken, and Han Fei had already put away the Chaotic Original Water and the small seal.

“Roar! How dare you kill a Heavenly Talent of our Flying Immortal Tower? You’re asking to be killed!”

“Kill!”

At this time, more than fifty strong masters attacked at the same time.

But this time, Han Fei didn’t use the Life Scale of the Eastern Divine Crocodile. These scales were used for defense, but he wasn’t here to be beaten up today.

He originally wanted to hunt, but after the Emperor Sparrow’s reminder, Han Fei felt that this was an excellent opportunity for a breakthrough. In that case, he could only fight.

Roar!

The God Sealing Spear Array was broken, and Han Fei was instantly drowned by many powerful attacks.

Among the onlookers.

Ye Tianren tried to press down the sword in his hand. Although his fighting intent was overwhelming, his pride wouldn’t allow him to attack Han Fei like those people.

Yi Wulang put on a meaningful smile. So what if you’re a disciple of the Void Temple? You’re just one person. How can you win against so many Heavenly Talents?

However, before Yi Wulang could be happy for long, the smile on his face stiffened. Then, he looked slightly shocked.

Not just Yi Wulang, the others were also shocked.

“This! This guy’s physique is so strong.”

“Is he really an Extreme Dao cultivator?”

“If this guy grows up, who can stop him?”

On the battlefield, Han Fei’s body was soaring with blood and killing intent. Faced with the siege of more than fifty people, he actually defended one side and charged forward with Great Techniques and even divine techniques.

Pei Qiannan shouted in a low voice, “It’s very likely that his Heavenly Dao Jade Marrow Bone has been completely refined.”

“What? He’s already finished refining it? He’s only at the peak of the Dao Proving Level! Isn’t it necessary to reach the peak of the Carefree Level or even enter the Immortal Level to refine the Tian Dao Jade Marrow Bone?”

Someone said solemnly, "There was indeed someone who refined the Heavenly Dao Jade Marrow Bone at the Dao Proving Level. Just by refining this bone, he had his strength comparable to the Carefree Level."

### God of Fishing

#### **Chapter 2900: Enter the Carefree Level (4)**

2900 Enter the Carefree Level (4)

"Everyone, let's come together! Today, no one can kill Han Fei alone. I think it's enough if we can kill him together."

At this moment, Han Fei hadn't fully activated his Great Dao. The reason why he could completely refine the Heavenly Dao Jade Marrow Bone was firstly because he had absolutely sufficient resources, secondly because he borrowed the power of the Heavenly Dao in the Demon Realm, thirdly because he studied the green jade stone bridge, and fourthly, because the Supreme Divine Technique of the human race was imperceptibly improving his strength.

With these four opportunities, he could completely refine the Heavenly Dao Jade Marrow Bone at the Dao Proving Level. After refining this bone, with his physique and combat power, he would have enough combat power to fight a peak-level Carefree Level cultivator alone.

Therefore, although so many Monarchs were attacking him, he could still resist them.

Han Fei's figure was like a ghost, and there seemed to be eyes on his back. The golden fist mark was like the flashing starlight in the starry sky.

It seemed that no one dared to fight Han Fei head-on. But in fact, Han Fei knew that this couldn't go on. These people weren't ordinary Dao Provers. They were clearly kiting him.

Han Fei made up his mind and stepped into the Void World. In the next moment, he appeared beside a person, activating All Great Daos in One Sword and breaking his star bead

Rumble!

The moment a Great Dao crack appeared in the sky, Han Fei was also struck dozens of times.

Someone even shouted, "It's the Void World. He has comprehended the Void World technique. Everyone, be careful and pay attention to the void fluctuations."

Han Fei entered the Void World again, intending to attack a person. At the moment he appeared, someone slashed the void, causing the turbulent void to stir, and Han Fei was almost pulled in.

"No! My attack won't work even from the Void World. There are too many enemies. All small tricks are useless. It seems that I can only kill them by force."

In terms of Soul Killing Technique, physique, speed, and all other comprehensive strength, he was the strongest. However, Han Fei knew that this kind of strength wasn't strong enough.

He was fighting with three times his combat power, but even if he had formed the Heavenly Dao Jade Marrow Bone, he could only use four times his combat power at most. He had no choice. If he could

enter the Carefree Level, he might be able to use five times his combat power, but unfortunately, he couldn't use it now.

Han Fei thought of the Emperor Sparrow's words. At the edge of life and death, you can comprehend your way to enter the Carefree Level. Then what is my way to enter the Carefree Level?

Han Fei didn't care about anything else. He would just deal with whatever came his way. He used divine techniques and soul killing techniques to kill anyone he targeted.

Ten seconds later, Han Fei killed a person.

Thirty seconds later, Han Fei killed another man, but his nose and mouth were bleeding and his breath was unsteady.

Fifty seconds later, Han Fei killed another person and tore him into pieces. This man's blood splashed on the sea, but Han Fei's body was invaded by a great technique.

...

Two hundred seconds later, this was the thirteenth person Han Fei killed. Han Fei's strength was obvious to all, but this casualty rate didn't make these people retreat. This was because they could tell that Han Fei was just holding on.

Yi Wulang was among the crowd. He wiped the blood from the corner of his mouth and shouted, "Where has your previous awe-inspiring performance of killing eleven people in a row gone?"

Someone said, "Han Fei, I admit that I can't beat you. Your Void Temple is indeed strong, but you must die today."

"Stop resisting. If the cultivators of your Void Temple don't come out today, even gods won't be able to save you."

At this moment, neither Ye Tianren nor Pei Qiannan took action.

Ye Tianren said, "As many as 82 people are attacking Han Fei. If he hadn't been alone, these people would have been dead."

"Young Master, there is no fairness in this world. Why don't we take this opportunity..."

"No, I am not Pei Qiannan. I will not intervene in this chaotic battle."

Pei Qiannan sneered. "Heh! You think that it will be useful as long as you join in the attack? You're nothing."

In the distance, in the void, someone was watching from afar.

Someone sighed. "As expected of a disciple of the Void Temple! Such combat power is really unimaginable."

Someone replied indifferently, "He shouldn't release the human race at this stage. Once a strong master has a weakness, he is no longer a strong master. He will definitely lose this game."

Someone said indifferently, "He is still holding up. He doesn't want to use the void mark even now?"

“Don’t worry. It will be used eventually. If he dies, what’s the use of the void mark?”

At this moment, Han Fei was covered with cuts and bruises all over his body. This was not the Star Sea Mystic Sand, but his body. The Star Sea Mystic Sand had been broken a hundred seconds ago.

“Hehe! That’s what you’ve got? I thought you were very strong, but you can’t even kill me... Bah, you’re simply trash...”

“B\*stard, you’re still talking tough when you’re about to die?”

“Soul Twining Technique, Death Entanglement.”

“Don’t be intimidated by him. He’s already at the end of his rope.”

Someone activated a divine technique, intending to take Han Fei down while he was distracted.

“Carefree?”

Han Fei muttered. Suddenly, he reached out and grabbed at the air, crushing the Soul Killing Technique. His speed suddenly soared, and he instantly arrived in front of the person, grabbed his neck, and instantly sealed his body with the law of extreme cold.

“Haha! The real battle has just begun... Boom...”
