### [God of Fishing](#)

#### Chapter 2921: Tree Body Stars (1)

##### 2921 Tree Body Stars (1)

This centipede was not very strong, at least weaker than he thought. He wondered if it had something to do with the memories of the Primordial Star Tree.

After Han Fei shattered the centipede, he reached out and grabbed a pill pearl and a saw-like centipede tooth.

Bang!

Han Fei crushed the tooth and the touch was so real. He subconsciously wanted to put the pill bead into his Origin Star, but of course, he couldn't. Then what could he do with it? It was something between reality and illusion. He could only hold it in his hand as if he were holding a big watermelon.

Suddenly, Han Fei saw Little Black and Little White appear around him.

"Daddy ~"

The corners of Han Fei's mouth curled up slightly. The existence of spiritual beasts was not affected by his Origin Star. Or rather, their appearance was not directly related to his Origin Star, which was gratifying.

Han Fei threw the pearl the size of a watermelon to Little Black. "Eat it. If my guess is correct, this should be a good thing."

"Crunch!"

Crunch ~

Little Black chewed the pearl in one bite. After swallowing it, his eyes suddenly lit up. "Yummy."

Han Fei's eyes lit up too. "Son, can you feel what you're eating?"

Little Black said coolly, "I don't know, but I'm more energetic and have an appetite after eating."

"You become more energetic?"

Little White took Han Fei's hand and added, "I feel refreshed. After I eat stars, I feel lazy, but this time, I don't have this feeling."

Han Fei gently touched Little White's head and narrowed his eyes. Sure enough, all of this was not reality!

Han Fei said, "Since you have good teeth, eat more."

After that, Han Fei was not in a hurry to go to the star. Instead, he shuttled through the Shattered Star Belt at the speed of light. Soon, he saw a divine tree burning with flames, which was a little similar to the

Tree of Flames in the Water-Wood World. Then, Han Fei saw a phoenix soaring in the sky from the Tree of Flames, raising boundless waves of flames as it charged at Han Fei.

“A phoenix? So that’s what it looks like.”

It was also the first time that Han Fei had seen such a legendary creature. Different from what Feng Xingliu showed, this one was more realistic. It was just a little different from what he thought. At least, it wasn’t that kind.

Its wings were like clouds of flames, its body was majestic, and there were dark flames burning on it. There were many feathers on its tail, and because of the slight explosion of flames, the color of the feathers was distorted, looking like colorful crystals.

If all of this could be considered beautiful, then its eyes gave off a different feeling. Those eyes were filled with coldness, killing intent, and rage, like a crazy cockfight’s eyes.

Little White said, “Daddy, this big bird looks fierce.”

Little Black said, “This is nothing. Look at me.”

Without Han Fei saying anything, Little Black’s petite body jumped out and then suddenly turned into a huge black fish. In terms of temperament and appearance, Little Black and Little White were not bad, at least not uglier than this phoenix.

Little Black’s double fins were like colorful ribbons, and his tail was like a curtain. His scales were dense and small, like transparent silk that swept across his arms.

As Little Black slapped his tail, the ferocious phoenix closed its wings and spewed out scorching flames. However, the scorching flames did not cause any harm. Instead, they were rolled up by Little Black’s tail, attached to the surface of Little Black’s body, and quickly entered Little Black’s body.

The ferocious phoenix didn’t seem to care that its attack was broken. It hooked its claws and grabbed at Little Black. The speed was so fast that Han Fei was a little surprised. This thing was at a different level from the previous centipede.

The speed of this ferocious phoenix was probably comparable to him. But Little Black didn’t dodge at all. At the moment when the sharp claws seemed to be about to pierce his body, Little Black turned into a black fog and directly enveloped the sky for hundreds of thousands of kilometers. This place seemed to have become an absolute forbidden area.

At this moment, Little White turned into white light and disappeared into the forbidden area. Han Fei was quite interested. This was the Yin-Yang Life-Death Forbidden Seal that Little Black and Little White had acquired after they proved Dao.

In the area that Little Black transformed into, Little Black and Little White were immortal and indestructible. However, this Yin-Yang Life-Death Forbidden Seal had a time limit. At present, with Little Black and Little White’s abilities, they could hold out for less than a hundred seconds.

During this period, the people locked in this space would be completely enveloped by the Yin-Yang law. They couldn’t use the power of the Heavenly Dao, so they could only survive the hundred seconds with the power of their bodies or forcefully break through the Yin-Yang law.

However, Han Fei had tried it. If one really fell into such a situation, he would immediately feel that his power had been distorted. Then, all the laws related to Yin Yang and Five Elements would be banned.

This ferocious phoenix was obviously of the fire attribute, so Han Fei could only see that the flames on its body were quickly extracted, and it couldn't even use its innate talents. And the extracted fire was absorbed by this Tai Chi pattern-like Life-Death Seal, causing this space to glow with a faint golden luster.

"Tsk, tsk ~"

Han Fei couldn't help but sigh. The Yin-Yang Life-Death Forbidden Seal could suppress Yin Yang and Five Elements, reverse Yin Yang, and extract the power of the Five Elements to strengthen the Life-Death Seal. At this moment, if Han Fei wanted to break into the Life-Death Seal from the outside, he wouldn't be able to unless he could break through the defense of the Life-Death Forbidden Art. Han Fei had personally experienced this.

### God of Fishing

#### **Chapter 2922: Tree Body Stars (2)**

##### 2922 Tree Body Stars (2)

Of course, the Yin-Yang Life-Death Forbidden Seal wasn't absolutely invincible. Apart from the Yin-Yang Five Elemental Laws, they couldn't lock down the power of the laws. Besides, they could fight back and forth in the Life-Death Seal. Although Little Black and Little White were absolutely immortal when the Life-Death Seal was activated, they still had to fight and would be heavily injured by the laws that weren't Yin-Yang Five Elemental Laws. Once Little Black and Little White were heavily injured together, it would actually be dangerous. It was equivalent to giving others a chance to kill them at the same time.

However, this ferocious phoenix was obviously not among them. Unless it was a real powerful phoenix that could crush Little Black and Little White with absolute strength, it would definitely lose.

Sure enough, after the power of fire was banned, Little Black whipped the phoenix into pieces after only twenty seconds.

Similarly, after the phoenix was annihilated, there was also a pill pearl left. It was a demonic pill, although Han Fei didn't think that it was really a demonic pill, because compared to this phoenix, this pill pearl was clearly a physical object, not a manifestation.

It was precisely because of this that these manifestations were half illusionary and half real, causing a relatively substantial threat.

After killing this phoenix, Little Black and Little White seemed to be in better and better spirits. When they passed through the entire Shattered Star Belt, the two of them hunted a total of eight Star Sea Giant Beasts.

Apart from the centipede at the beginning, which was rather weak, the rest of the beasts were quite strong. In addition to the phoenix, he also encountered strange creatures such as Mystic Turtle, Three-Horned Divine Bull, Star Sea Octopus, and Star Swallowing Dragon Snake.

At this moment, Han Fei didn't let Little Black and Little White return until he landed on this star. After all, he wasn't here to hunt. It wasn't a good thing to make such a big noise.

When Han Fei fell from the sky and landed in a place like a quagmire of stars, Han Fei felt that danger was lurking in the sky.

As soon as he passed the quagmire, green lightning surrounded him. Yes, Han Fei found that he seemed to have become a lightning rod.

As Han Fei passed through this place, there were knife-like wind and rain and misty sea tides. Han Fei tried to cut open the void, only to find that the space in this world was exceptionally stable and couldn't be opened at all. In other words, neither the second void nor the Void World could be entered.

Han Fei could understand. This was a memory space. How could there be a Void World in a memory space?

At this moment, Han Fei stepped onto the planet. If this was the troposphere, he would indeed encounter wind, rain, lightning, and thunder. However, what was the lightning dragon shadow cruising over? Also, why were there giant whales and fish in the misty sea? Why did the rain change direction? Why were there beast roars in the whistling wind?

"Wow, there are strange creatures everywhere here."

Yes, Han Fei immediately made a judgment. All he saw was half illusionary and half real creatures. Perhaps this was what ancient times looked like. In the world, between the heavens and earth, there were all kinds of living beings that existed.

The lightning dragon shadow rolled up a lightning hell and bombarded Han Fei. Its power was no less powerful than the Star Sea Giant Beasts he had seen before. In the sea of mist, countless white fish were also rushing towards Han Fei.

For a moment, Han Fei was surrounded by enemies on all sides. More importantly, he didn't know the specific realm and strength of these creatures.

Han Fei simply stretched out his hand, and the raindrops that swept at him suddenly gathered towards him. As the Infinity Water spewed out, the raindrops three thousand kilometers around Han Fei all stopped. Han Fei grabbed with one hand, and the raindrops turned into short knives. It was as if Han Fei was holding a long knife three thousand kilometers long and sweeping up a sword storm.

Although Han Fei could clearly see these creatures being minced by him, he couldn't be excited at all. He even felt that everything was a little ridiculous.

This was not the real world. The Primordial Star Tree was only a Great Monarch. Even if it was powerful, it couldn't be so unbelievably powerful, right? Han Fei had encountered a few Monarch-realm creatures in the short time he had been here. Even if these creatures were condensed with spiritual power, wouldn't it consume spiritual power if they were killed? Even if these things didn't consume spiritual power, could a Great Monarch really create so many powerful creatures with his own spiritual power?

If it was really so powerful, why didn't the Primordial Star Tree use its spiritual power to cut open the roots and get rid of the shackles the god behind the door had imposed on him?

Bang! Bang! Bang!

This feeling of fighting was no different from actual combat. Around Han Fei, a large number of creatures were minced, but this time, unlike the previous Star Sea Giant Beasts, there were no pill pearls left after they were minced.

At this moment, even though Han Fei was on a killing spree, more and more strange creatures rushed at him. Immediately, he knew that this was probably not just a battle trial.

After a while, Han Fei was a little shocked, because he felt a different kind of suppressing pressure descend. The realm of this suppressing pressure was definitely higher than his realm.

In the next moment, a roc that blotted out the sky and covered the sun flew over with purple-black smoke.

Those sharp claws actually shattered the Infinity Water, leaving a gap as it was pouncing on Han Fei.

Han Fei recalled the Infinity Water without hesitation and fell quickly, not caring about the attacks of some creatures.

For a moment, one person and one bird broke through the clouds.

Buzz!

Six-Dao Heavenly Cicada Wings appeared, and Han Fei's body flashed and appeared behind the roc. The roc's speed was not slow at all, and its black feathers rolled up. The black feathers were like swords that cut through the sky, catching Han Fei off guard.

### [God of Fishing](#)

#### **Chapter 2923: Tree Body Stars (3)**

##### 2923 Tree Body Stars (3)

Han Fei's fist mark swept across. Just as he shattered these black feathers, he saw the roc transform into a human, holding a black-feathered fan in his hand, and slapping back at Han Fei.

"Huff~"

For a moment, a strong wind blew and the air rushed into the clouds. Han Fei felt that the sky was densely filled with strong winds and laws.

"So strong!"

Small cracks were torn on Han Fei's body by the gale and the laws here. The Primordial Star Tree reminded him that he was different from others. When others died, their consciousness would return, but if he died, he probably really died.

"Huh!"

Right when Han Fei was about to fight back, the roc made a sound.

This was clearly a puzzled voice. Han Fei was shocked. This was impossible! If it was just a simple memory world, could it still have consciousness?

Han Fei shouted, "Hey! Big bird, let's stop fighting, OK?"

Han Fei just shouted tentatively, but the roc actually stopped and frowned slightly. After a while, it said to Han Fei, "Where is this?"

Han Fei: "..."

Han Fei was lost for words. "You attacked me first, and you're asking me where this is?"

The roc frowned even harder. "I seem to have forgotten a lot of things. Why... why should I chase you?"

Han Fei asked, "I want to ask you the same question. Why are you chasing me?"

Han Fei also found it strange. By logic, the creatures in this memory world shouldn't have consciousness, because they were only formed by the spiritual power of the Primordial Star Tree...

Wait...

Han Fei suddenly had a strange feeling. This wasn't so difficult to understand. Since the Primordial Star Tree could create such a strong master, it must have been someone he had encountered before. When he cultivated some special visualization methods and visualized certain things, the original bodies of those things might react.

It was like a sacrificial ritual or some special mental transmission. When someone praised him, he would have some perception. It seemed that sometimes he would have such a situation.

Han Fei seemed to have experienced this situation on his Origin Star. When the people he created worshiped and prayed to him, he would sense it.

But wasn't this situation based on the fact that the person being visualized and chanted was still alive? But the Primordial Star Tree should have been sealed for a long time, right?

Han Fei found it ridiculous. How many years had passed from the Chaotic Era to the Primordial Era? Except for the Primordial Star Tree, who could survive until now?

Han Fei continued, "Fellow Daoist, do you remember who you are?"

As for the roc cultivator, he fell silent and seemed to be thinking about this problem. However, he didn't remember anything in the end. Han Fei clearly saw that the roc's eyes gradually lost their clarity and it turned around to attack Han Fei again.

Seeing this, Han Fei knew that there was no room for negotiation. However, he didn't know why this roc would have a short moment of clarity, which didn't make sense.

However, Han Fei didn't continue to fight the roc. In his opinion, the current battle was meaningless. If there were many strong masters at the level of the roc in this Astral Trial Ground, and the trial-takers had to defeat them to obtain the door talent, there was no need to continue the trial. Han Fei was almost certain that no one could make it to the end.

Therefore, in terms of the number of creatures that had appeared so far, this was more like an escape trial. Whoever had the ability to go to the door, which was the place where the trunk of the Primordial Star Tree was sealed, under such heavy siege should have passed the trial.

The trial itself was simple, but the process was not simple at all. The roc's speed was unexpectedly fast. Han Fei fought fiercely in midair while sinking.

If he guessed right, the original body of this roc was at least at the Immortal Level. However, in this so-called Astral Trial Ground, their strength had been greatly reduced to match the strength of the trial-takers.

Perhaps because their strength was about the same, and Han Fei had no intention of fighting, the two were just chasing each other. Soon, Han Fei saw the bodies of towering trees extending into the sky.

"How can that be?"

Han Fei was stunned. Logically speaking, this place was still very far from the ground, at least billions of kilometers away. How could there be a tree in the sky?

When Han Fei got closer, he was shocked to find that the bushes that stretched for millions of kilometers were actually formed by extended and dispersed twigs of a single branch. And there seemed to be many of these unusually thick branches.

"Is this thing a star?"

Han Fei was confused. Were all the trees on this star so awesome that countless extraordinary divine trees grew out of them?

"Tweet ~"

Then Han Fei saw countless birds flapping their wings in the sky on the branches. The dense number was ten times, a hundred times, or a thousand times more spectacular than the migratory birds.

"Sh\*t!"

Han Fei's eyelids twitched crazily. He had to slow down. If he really plunged in, he didn't know if he could get out.

At this moment, the roc seemed to have found an opportunity. He waved the feather fan in his hand, and a strong wind blew between the heavens and the earth. The law of wind formed countless visible roc shadows in the sky that pounced at Han Fei.

### [God of Fishing](#)

#### **Chapter 2924: Tree Body Stars (4)**

2924 Tree Body Stars (4)

"Is this fan so awesome?"

Swish! Swish! Swish!

Han Fei flapped his wings, and the Six-Dao Heavenly Cicada Wings kept flashing in the sky. The Infinity Water turned into the Million Knife Art and wrapped him in the middle, making an opening in the law of wind.

"How can he be so strong?"

Han Fei frowned. The roc chasing him and the bird army flapping their wings were really strange. Could it be that the people of the Heavenly Race were so strong that they could make it to the end of this level of trial?

Impossible! Since it was a trial, it should look like a trial. How could this be a trial? This was clearly a hunt. If these things were formed from the memories and spiritual power of the Primordial Star Tree, these things wouldn't have chased him so relentlessly! Unless the Primordial Star Tree couldn't control these creatures in the Astral Trial Ground.

Was it because the Primordial Star Tree was sealed by the god behind the door?

Buzz!

Han Fei began to operate his Great Dao, doubling his strength. Otherwise, if he kept fighting here, he wouldn't even know when he could reach the door.

Unlike others, he was not here for trial. As Han Fei's strength suddenly soared, he shook off the roc. But then, he heard a sharp tweet, and the roc also began to speed up, doubling its strength too.

Not only that, when Han Fei shuttled through the tree trunks in the sky, an azure dragon rolled up the branches and attacked him.

In the next moment, the azure dragon spewed out a flame bead, which burst out laser beams and chased him crazily. As for the azure dragon, it could actually break through the void and appear in front of him.

"Are you kidding me?"

At that moment, countless bird creatures, serpents, and even flying insects were swarming around Han Fei. It was not a matter of running, but there were too many of them for him to run.

Swish ~

Without hesitation, Han Fei threw out the Infinity Water and shouted, "Explode."

Rumble!

The self-detonation of the Infinity Water, a Chaotic Spiritual Treasure-level treasure, was extremely powerful. Sure enough, under Han Fei's ruthless attack this time, a large number of creatures were directly crushed by this terrifying power.

Han Fei reached out to recall the Infinity Water, and All Great Daos in One Sword passed through the azure dragon's body.

When the aftershock of the explosion dissipated, Han Fei was nowhere to be seen.

The roc's body was shining, and the azure dragon reappeared. They looked around but didn't find Han Fei.

Little did they know that amidst the fluctuations of the void, a black fog was moving with the waves and descending rapidly.

“I’m being targeted.”

This was Han Fei’s conclusion. Only if he was targeted would this trial be so difficult from the very beginning. The people coming up were all top-notch super powerhouses. If it weren’t for the limitation of the conditions, it was possible that a Great Monarch-level creature would chase him down.

As for why he was targeted, Han Fei’s first thought was the god behind the door. His purpose was different from others. He was here to remove the seal, so logically speaking, the god behind the door must have discovered him and targeted him.

However, the more he was targeted, the more it indicated the significance of what he was doing.

Turning into a black mist, Han Fei didn’t intend to change back to prevent being targeted.

Han Fei slowly landed among the intertwined trees in the sky, but he soon discovered a problem. There seemed to be no land in this world at all. This entire star seemed to be a big tree. The branches of the tree spread in all directions, forming a spherical shape, so he mistook it for a normal star.

Several hours later, Han Fei finally broke away from the tree crown world that was full of bird nests. He looked around and saw that the trees that extended to the sky were like ladders to the sky.

Han Fei saw some bird people living on the tree. Yes, they were humanoid birds with human bodies, bird wings, and bird faces. He saw at least thousands of birds of different shapes and sizes, as well as insects living on the tree, including humanoid insects.

There were also three-eyed humans, six-armed apes, half-human spiders, half-bird half-bee monsters, and squirrels with ears longer than their bodies, with four bird claws but a body like a rabbit, as well as Void Swimming Fish and many other creatures.

For example, in the area Han Fei passed by, he saw many colorful flowers with extremely long stamens. These flowers seemed to be parasitic on trees.

Occasionally, a Void Swimming Fish would swim past, and the stamen would shoot through the fish like an arrow and drag it back, wrapping it in its petals and turning into a flower bud again.

“Even a flower is so strong?”

Han Fei wasn’t overly curious. Just like when he first came into contact with the sea area of the Yin-Yang World, he felt that every creature looked strange. But this was the wonder of nature, so there was nothing to be surprised about.

However, it was impossible to tell which era he was in. This was because the so-called star was a tree. It could be called the Chaotic Era or the Primordial Era. In any case, there was nothing iconic to prove it.

The only thing he could be sure of was that he had never seen these creatures before, and they were all very strong. Therefore, he could be sure that this was probably a certain stage in ancient times.

Finding a safe place, Han Fei quickly took out the Vast Ocean Navigator, which pointed in a direction. After confirming the direction, it was not until three days later that a figure suddenly swept past him.

“Huh! Who is this... Um, Yi Qingxue?”

## God of Fishing

### **Chapter 2925: Enter the Immortal Level (1)**

2925 Enter the Immortal Level (1)

Han Fei couldn't be mistaken about this person. She was the master of Nezha! She was considered the most talented Monarch in combat in the Heavenly Race. He didn't expect to meet her here.

Logically speaking, this tree was already very big, and there were only 24 people who came in this time. It was quite difficult to meet them.

However, everyone's goal was the same, so if they could all succeed in the trial, they would meet each other in the end.

Han Fei was not in a hurry. He was not afraid that Yi Qingxue would snatch something from him. Anyway, he was not here to improve his door talent.

However, not long after Yi Qingxue left, Han Fei encountered a fog. Han Fei was speechless. He had been walking well in his black-mist body. Because he hadn't been discovered, no random creatures came to cause trouble for him.

He had thought that they could just float to the finish line, but trouble came one after another when Yi Qingxue arrived. To them, this was a kind of assessment after all. Since it was a test, it was naturally impossible for them to complete it easily.

Therefore, Han Fei was also caught in the mist.

Han Fei thought that there were at most some unknown creatures in the mist. However, when Han Fei was caught in it, he escaped from the mist in only three or five seconds.

Then he appeared on a cliff.

"A cliff? There's no land here. How can there be a cliff?"

At the bottom of the cliff, clouds swirled, and white clouds filled the sky. Occasionally, there were cranes flying. There was a wooden house by the cliff, and beside it was a branch less than two meters tall.

That branch had clearly just been planted. The soil beside it was still a little loose, and there were traces of irrigation from the Earth Vein Spring. There was a strange spirit gathering array replicated around it.

This Spirit Gathering Array didn't trigger spiritual energy, but a visible multi-colored spiritual energy that was clearly several levels higher than spiritual energy.

At this moment, there was a young man with a bird's nest on his head, holding a strange cat-sized, tiger-shaped, triangular little beast in his hand.

In the bird's nest above the man's head, three young birds were chirping. The young man had gotten worms from somewhere and was putting one of them on his head.

The three juvenile birds competed for the worms, raising their necks and opening their mouths. The little beast in the young man's arms seemed to feel uncomfortable being held with one hand, so it roared in dissatisfaction.

After feeding the worm, the young man knocked on the little beast's head. "You are the laziest. You should cultivate now."

With that, the little beast jumped to the ground and swaggered to the edge of the cliff. It opened its mouth, and purple light suddenly appeared in the sky and was swallowed by the little beast like noodles.

"Is it cultivating?"

Han Fei was dumbfounded. This cultivation method was too shocking. If he didn't see it wrong, the little beast didn't eat spiritual energy at all! It seemed to be eating Great Daos.

After eating for a while, the little beast burped and then dragged a Great Dao with its mouth to the small tree. With a flutter, it weaved the Great Dao into a ribbon-like scarf and tied it to the tree. No matter how the colorful light wanted to fly out, it seemed to have turned into a flying silk scarf and couldn't fly away.

"Such a small piece... Is this the Primordial Star Tree?"

Han Fei couldn't help being horrified. The Primordial Star Tree had told him that he wasn't the original Primordial Star Tree, but a branch.

Seeing this scene, Han Fei couldn't help but wonder about the background of this young man. He planted the Primordial Star Tree and his pet seemed to be an extraordinary species. Although the three birds on his head didn't have fully grown feathers, they couldn't be ordinary.

Suddenly, the naughty little beast stepped in the void and pounced in Yi Qingxue's direction. Yi Qingxue was startled and wanted to retreat, but she seemed to have underestimated the speed of the little beast and was pounced on.

However, the little beast simply passed through Yi Qingxue's body.

Yi Qingxue thought that she was going to die, but when she found that the little beast couldn't touch her, she grew bolder. After panicking, she observed curiously again.

"Come back! Cultivate hard and finish your homework. Don't just play around."

The young man shouted, and the little beast reluctantly ran back from the air and circled the young man a few times.

The young man said, "There are always some spirits in this world who will appear in some strange way and in places where they shouldn't appear. There's nothing to be surprised at. Get used to it."

With that, the young man looked up in Han Fei's direction. Then, he calculated with his fingers and said casually, "Huh! I shouldn't have met you here!"

The young man rubbed the little beast's head, then fed the worms on the table to the three fledglings on his head. In the end, he walked to the small tree beside the house. He scratched his head and seemed to be deep in thought.

Immediately, he took out a one-foot-long green leaf from his pocket, buckled it with a red rope, and hung it on a small branch of the tree.

He heaved a sigh. "The world is unpredictable. Who can reverse the universe? Who can be invincible in the heavens? Why don't you leave yourself a way out?"

After that, the young man clapped his hands and put on a satisfied smile. Then, he glanced in Han Fei's direction, which made Han Fei's blood freeze.

### [God of Fishing](#)

#### **Chapter 2926: Enter the Immortal Level (2)**

##### 2926 Enter the Immortal Level (2)

Of course, he knew that this young man was definitely not an ordinary person, but how could he discover him? It could be seen from the way the little beast pounced on Yi Qingxue just now that both this person and this little beast seemed to be able to sense them.

Or rather, they might not know them, but they could realize that there was a certain existence, looking at them at this moment.

The little beast was still young. Perhaps it felt that it had been offended, so it chose to pounce.

But the young man didn't care. After he tied the leaf, he began to urge his little beast to cultivate.

The little beast squatted on the edge of the cliff as if looking at it from a distance, but immediately afterward, purple gas came from the east, dyeing the little beast completely purple.

At this moment, Han Fei felt that the mist around him was getting thicker. Han Fei knew that this piece of memory might be about to dissipate when Yi Qingxue suddenly jumped out, trying to grab the leaf.

However, her hand passed through the tree at once and she couldn't catch it at all.

Buzz!

In the next moment, this piece of memory dissipated, and Yi Qingxue and Han Fei reappeared in the thick fog, which seemed to be quickly receding. Yi Qingxue's first reaction was to immediately launch a great technique, sweeping her sword light across, as if she was attacking aimlessly.

She wasn't stupid. The direction that the young man looked at twice was not where she was, which was enough to alarm her. Therefore, she believed that she wasn't the only one who saw this memory in this fog.

Unfortunately, Yi Qingxue didn't find anything.

Han Fei was actually not with her. After all, it was impossible to perceive anything in the mist, and the range covered by the technique was too small.

However, unlike Yi Qingxue, Han Fei knew from the beginning that he couldn't get that thing at all. Besides, the young man had said that he should always leave himself a way out. Whether he needed to use it or not didn't matter, the important thing was that he had it. This should be a reminder that the leaf shouldn't be ordinary.

Others couldn't find this leaf, but he was different. He had the Vast Ocean Navigator!

Therefore, Han Fei fused his twin bodies without hesitation. He didn't intend to continue floating, thinking that he should get the leaf first.

However, just in case, Han Fei didn't use his own appearance. With a thought, he turned into a Feather Man. Except for his head being different from those bird men's, his body was stronger, and his wings looked like mutated products. Han Fei thought for a moment and turned the Infinity Water into a feather fan in his hand, just like the feather fan in the hand of the roc that chased him before.

After the transformation, the mist had faded a lot and would completely dissipate in a few seconds. Han Fei quickly took out the Vast Ocean Navigator, which pointed in a direction.

"Huh!"

When the mist dissipated, Han Fei raised his eyebrows. Wasn't this direction... the central part of the tree?

"Yes, when the young man tied the leaf, the tree was still very small. The leaf should be near the root."

So, Han Fei put away the Vast Ocean Navigator and flew away.

Because of the time gap between Han Fei and Yi Qingxue, the two of them didn't meet. Seeing the mist dissipate, Yi Qingxue thought about where the leaf might be. Although she didn't have the Vast Ocean Navigator, she wasn't stupid and also thought of where the leaf might be. At this moment, she couldn't help but smile. This leaf might be the opportunity for her to enter the Immortal Level or even the Great Monarch Realm.

Of course, she still suspected that someone had seen this scene, so she wanted to compete, so she rushed down the tree trunk as fast as she could.

However, not long after, the two were attacked again. But this time, the scale was much smaller than when the roc and the azure dragon chased Han Fei.

One day later.

Han Fei had encountered at least tens of thousands of kinds of creatures that were attached to this tree. Although there were Monarch-realm creatures blocking him, Han Fei's combat power was extraordinary. Even when he encountered the roc or the azure dragon, he didn't need to use his full strength.

During this period, Han Fei used the Vast Ocean Navigator twice. At this moment, he finally understood that the only purpose of this trial was to let you go to the root of the tree. Only there should be the place where the Primordial Star Tree was sealed.

Then, the content of the trial was nothing more than to pass the obstacles of these ancient creatures and get there.

However, when Han Fei broke through a layer of vines, he suddenly found that space was twisting.

"Huh ~"

Han Fei subconsciously wanted to retreat, but he couldn't. The moment he was swept away by this twisted space, Han Fei wasn't worried about any danger, but he found it strange. The space here was unshakable. How could it still be distorted?

In the next moment, Han Fei suddenly discovered that the space opposite him was also distorted. In the next moment, five strong masters of the Heavenly Race appeared.

"Oh?"

Han Fei's heart skipped a beat. Had he been tricked? Someone wanted him to fight the Heavenly Talents of the Yi family. Furthermore, he had to fight them. Instead of fighting them in the sealed place and letting them ruin his plan, he might as well solve them here.

It was not difficult to understand why there were only five of them, because not everyone could break through the siege and make it here.

Among the five, there was Yi Qingxue. Among the other four, one was Yi Shuo, who had a conflict with Yi Wulang. He was good at speed and was not a threat. One was a female cultivator named Yi Mengling who was talented in shadow manipulation. Although her methods were special, she shouldn't be too difficult to deal with. One was called Yi Qi, good at various techniques, but his physique was too poor. The other was Yi Kai, who had extremely powerful spiritual power, but it was meaningless to Han Fei.

### [God of Fishing](#)

#### **Chapter 2927: Enter the Immortal Level (3)**

2927 Enter the Immortal Level (3)

Among the five of them, Yi Qingxue was the best at fighting. Her strength was at the peak of the Carefree Level, close to the Immortal Level. Her soul power was not bad, and her physique was strong enough. She walked the Dao of Balance, but not Extreme Balance.

Han Fei couldn't help but sneer in his heart. In the outside world, Yi Qingxue and Yi Mengling could fight him, but here, could they really unleash their full combat power?

At this moment, Yi Qingxue said, "Since we are here together, it only means one thing, that is, the person opposite is very strong. It's up to you whether we should fight together or escape separately."

Yi Mengling said, "Since the other party is indeed very strong, let's fight them! Otherwise, it won't be worth it if we're defeated one by one."

Yi Shuo said, "There's only one destination. If we don't get rid of him, I'm afraid it will be difficult for us to reach our destination."

The other two nodded. The moment they agreed to attack together, Yi Qingxue instantly took action. Her speed was so fast that before anyone realized what was going on, the knife light she released had almost reached Han Fei.

Han Fei didn't dare to be careless. After all, the other party was almost an immortal-level powerhouse. He activated the Great Dao in his body and took half a step back. The black feather fan had already swept across like a sharp blade, emitting a terrifying knife light. He actually wanted to exchange injuries with Yi Qingxue.

Buzz!

In the next moment, Yi Qingxue retreated, and the knife light stopped. Han Fei immediately took another half step back, watching the knife light slash down in front of him without touching him.

Yi Qingxue did not want to exchange injuries with Han Fei. They were both combat-type talents. As soon as Han Fei attacked, Yi Qingxue knew that this person was extremely talented in combat and had extremely strong judgment. She could bet that if she really exchanged injuries with him, she would lose this round.

At this moment, the other four began to attack. Yi Mengling stirred her fingers and the shadow threads entangled. First of all, she blocked Han Fei's way, creating a space for Yi Qi to use the great techniques.

But in the next moment, she was shocked to find that Han Fei took a step forward, ignored her shadow threads, and even rushed in. His body was immediately entangled by a thousand shadow threads.

"Shadow Manipulation, Soul Attraction... Puff..."

Yi Mengling suddenly spewed out a mouthful of essence blood. Her expression changed drastically. The backlash meant that the other party's soul power was much stronger than hers.

Yi Qi was horrified. As soon as he used a great technique, Han Fei almost rushed over. He hurriedly retreated, waiting for another opportunity to attack.

Yi Mengling wanted to retreat, but he suddenly found that her shadow threads were held by the other party. This was the first time she had encountered such a situation. The next moment, a saber beam flashed, and she realized that this person's first target turned out to be her.

"Pfft!"

In the next moment, Yi Mengling's ten thousand shadow threads were cut apart by the knife light that suddenly appeared. Then, she was pulled away by Yi Shuo. In the next moment, a knife light swept past her and Yi Shuo, making them break into a cold sweat.

Han Fei frowned slightly. Yi Qingxue had cut off Yi Mengling's shadow threads, helping her avoid his fatal blow.

At this moment, Han Fei punched back at the void. With a rumbling sound, the guy with extremely strong spiritual power turned pale. He said in shock, "So strong. This person can break soul techniques with fist techniques, which means that his own soul techniques are quite extraordinary. He can block me with just the accompanying punch."

Yi Qingxue asked, "If he is not strong, why do we need to fight him together?"

Without any credit in the first attack, Han Fei turned around and pounced at Yi Qi. Yi Qi's face turned green. Come again?

However, Yi Qingxue shouted in a low voice, "Attack! I'll hold him back."

Then, Han Fei felt a sharp knife light slash at him. He sneered, waved the black feather fan, and activated the law of extreme cold. In an instant, the sky was frozen.

Bang!

Yi Qingxue broke through the extremely cold domain with a punch, her entire body covered in a layer of white ice crystals. Suddenly, she realized that something was wrong. In the next moment, tens of thousands of piercing forces suddenly burst out of her body.

“You...”

Yi Qingxue was horrified. She thought that the law of extreme cold and the domain of extreme cold were Han Fei’s means, but she could feel that the power was not strong enough to stop her. It was even weaker than she thought.

But to her surprise, the opponent’s goal wasn’t the law of extreme cold at all, but these ice crystals. Every ice crystal was like a terrifying sharp blade, instantly turning her entire body into a bloody mess, and strange forces intertwined between her internal organs.

Yi Qingxue had thought that Han Fei had discovered that she was the strongest, so he wanted to avoid her and kill Yi Qi and the others first. However, the first person Han Fei wanted to kill now was her. He pretended to attack Yi Qi to lure her to attack.

However, it was a little late for her to react, because Han Fei had already arrived. It was still the black feather fan. Yi Qingxue was heavily injured. Seeing Han Fei fan the feather fan, she knew that Han Fei might have used the same trick again. A door of light immediately appeared behind him. As he retreated, her figure appeared elsewhere, and two of her appeared in the door.

Yi Qingxue’s door talent was to summon a clone with the same combat power as her own body in the short term. But the moment she appeared with her clone, she saw Yi Shuo being cut apart by a fan. The speed he was so proud of had inexplicably failed. He didn’t know why.

Yi Mengling turned into thousands of shadows and was escaping, only to be cut through by tens of thousands of saber beams.

### [God of Fishing](#)

#### **Chapter 2928: Enter the Immortal Level (4)**

2928 Enter the Immortal Level (4)

Buzz!

Feeling that her soul was about to be seriously injured, Yi Mengling immediately summoned her Soul-Subduing Godly Weapon. Although she also had a door talent, which was Shadow Manipulation, she had tried it, but it almost didn’t work on Han Fei.

The moment she summoned her Soul-Subduing Godly Weapon, Han Fei suddenly appeared behind her and slashed down with his fan.

“Pfft!”

This was not the Twin Divine Technique, but the Void Descending Art. The moment Yi Mengling stopped, she died.

Among the remaining three people, except for Yi Qingxue, Yi Qi finally took action, but this place was suddenly enveloped in darkness.

Yi Qi shouted in a low voice, "You shouldn't have given me time. Divine Technique, Universe Stabilizing."

This was a great technique to freeze time and space. The combination of time and space could freeze Han Fei for several seconds.

Yi Qingxue certainly wouldn't let go of this opportunity. Her original body and clone, one in the front and one in the back, emitted dazzling saber beams.

Yi Kai took the opportunity to condense thousands of soul sword streams and attacked Han Fei from the side.

Under the triple cooperation, the three of them felt that they would surely succeed this time.

But the moment Yi Qingxue approached him, she was shocked to find that Han Fei's head was turning.

"How is that possible?"

Yi Qi was shocked, as if he was very surprised that Han Fei wasn't frozen.

Han Fei flipped the black-feathered fan in his hand and slashed at Yi Kai's sword stream with the Infinity Water. Then, he extended his hands, and Sword Four Carefree Roaming appeared. Yi Qingxue's clone and the knife light were shattered by this blow.

It was not that Yi Qingxue was not strong enough, but that the power unleashed by Han Fei was too powerful. Han Fei, who had completely activated his Great Dao, was no longer someone a Carefree-Level Monarch could kill easily.

However, Yi Qingxue didn't retreat, because Han Fei could only deal with two people at the same time. Therefore, at this moment, her original body had already slashed at Han Fei's body.

Clang~

Behind Han Fei, a golden figure appeared, and the two bodies in front and behind seemed to be glued together.

However, the golden figure put his hands together and blocked her saber beam.

Yi Qingxue's eyes turned cold as she roared, "Explode!"

With a boom, Han Fei was sent flying.

Yi Qingxue shouted, "It's the path of invincibility. This person walks the path of invincibility. He's very strong."

Yi Qi and Yi Kaixin were speechless. Of course he's strong. The five of them fought this guy, but two had been killed by him so quickly. Their seamless cooperation couldn't hurt him at all.

Han Fei secretly sighed, thinking that Yi Qingxue was still strong! At this moment, his combat power was definitely not weaker than hers, but his realm was still a little lacking. Unfortunately, he hadn't gone far

at the Carefree Level and his comprehension of laws wasn't as good as hers. Therefore, Yi Qingxue's blow still injured him.

However, Han Fei also felt that although Yi Qingxue's attack was strong, its destructive effect was actually focused on the mind.

In other words, part of Yi Qingxue's attack seemed to be normal, but in fact, at least 30% of it was mental pressure.

This must be this memory space's suppression of their strength. It seemed that their strength hadn't changed, but in fact, it had been weakened.

Without a word, Han Fei turned around and charged back. This time, Yi Qingxue frowned slightly and her body was also covered in a layer of golden light.

"Do you think you're the only one who is walking the path of invincibility?"

Suddenly, Han Fei was surprised. He saw that Yi Qingxue's body was also emitting a dazzling golden light. She had taken the path of invincibility? He hadn't noticed it at all before.

No, it was just because this was in the memory space. If two parties met in reality, they would immediately find that the other party had embarked on the path of invincibility.

When he was in the Heavenly Race, he had never appeared in front of them. Thinking of this, Han Fei couldn't help but feel a little scared. If he replaced Yi Wulang and entered the Heavenly Race, he would probably be discovered by this woman immediately.

At this moment, Yi Qingxue felt that this enemy walking the path of invincibility might have been specially prepared for her. How could she have expected that this was a trial-taker who came in with her?

The path of invincibility depended on means. Han Fei gave up on Yi Qi and Yi Kai without hesitation, because Yi Qingxue would not give him a chance.

So, a big battle began.

The invincible fist marks, divine techniques, saber beams, and the law of strength collided. Han Fei was not afraid, because even if Yi Qingxue walked the path of invincibility, it was useless because he had the Body-Soul Dual killing Technique, but she didn't. Even though Yi Qi and Yi Fei assisted her, the three of them still couldn't suppress Han Fei.

Finally, Yi Qi and Yi Kai found that Yi Qingxue was seriously injured. They looked at each other, and Yi Qi said, "Qingxue, I'm sorry."

Yi Qingxue didn't say anything. She didn't blame them for running, because she also felt that she was about to lose. But she didn't understand why. Wasn't this just a trial? Now who could pass this trial with such a strong enemy?

Could it be that this is specifically targeted at me? The purpose of the trial is to let me break through myself and enter the Immortal Level?

Yi Qingxue felt that this was the only possibility, so she crazily burned her soul. Unfortunately, after a full two hundred seconds, Han Fei suddenly felt that Yi Qingxue's power was getting stronger and stronger. In her battle, she had fused too many things of will. He saw that the golden light on Yi Qingxue's body was getting dimmer and dimmer. It was not that her invincible will had been defeated, but that this will had shrunk back into her body.

Then, Han Fei saw that Yi Qingxue's body seemed to emit a faint golden light. This woman had completely fused her invincible will into her bones.

At this moment, Yi Qingxue suddenly smiled and said indifferently, "I understand. I'm invincible in the world. All techniques can't destroy me. I'll live as long as this world. I am an Immortal now."

"Motherf\*cker..."

Han Fei was dumbfounded. She is making a breakthrough here? But she was going to be defeated. He didn't know that she could upgrade in this situation.

Just when Han Fei's heart sank to the bottom of the valley, Yi Qingxue suddenly punched him away and then raised her head with a smile.

Then, she smiled at Han Fei. "Master Ancestor Tree, I understand. For me, improving my door talent is meaningless. Improving myself is improving my door talent. I got it. Thank you..."

Han Fei: "???"

With that, Han Fei looked at Yi Qingxue with a stunned expression as she disappeared.

"She... voluntarily quit?"

Han Fei guessed that she probably had an epiphany and went back to break through to the Immortal Level. It was simply ridiculous.

However, Han Fei felt a chill down his spine. This woman probably thought that he appeared just to temper her. Otherwise, if she continued to fight, he would probably die.

Han Fei couldn't help muttering, "Is she talking about the next realm on the path of invincibility?"

However, since she was already gone, Han Fei quickly cleared his mind and restored his strength with the Heaven Enlightenment Divine Technique. Then, he continued to chase after them. Without Yi Qingxue, the remaining two were no match for him at all.

In less than half an hour, they were killed by Han Fei.

About an hour after killing Yi Qi and Yi Kai, Han Fei finally saw a strange place. It seemed to be a star, but it didn't seem right, because the star looked like a tumor, with many tree trunks growing on it in all directions.

"Is this a tree root?"

Han Fei saw that among the many trunks, there was a trunk surrounded by seven doors of light. Dense roots extended out of the trunk and buckled onto these doors, and this should be the end of his trip.

## God of Fishing

### **Chapter 2929: I Have A Leaf That Can Kill Gods (1)**

2929 I Have A Leaf That Can Kill Gods (1)

The situation in the sealed place was similar to what Han Fei learned from the Primordial Star Tree.

However, Han Fei didn't rashly enter the place sealed by the doors of light. According to the Primordial Star Tree, there was a god-level powerhouse behind this door.

According to normal procedures, when a powerhouse of the Heavenly Race entered this sealed place, he could increase the power of his door talent. How could the door talent be increased? It would naturally be increased after the cultivator bathed in a certain power behind the doors of light, right?

So, would there really be no power of gods here?

Han Fei thought for a moment and glanced around. In the end, he focused his gaze on one of the seven doors of light because among the many vines entwined on the door of light, there was a leaf with a red string.

"Found you."

Buzz!

Han Fei activated the Twin Divine Technique. When his black-mist body retreated far away, his white-mist body stepped out and entered the range of the seal.

Buzz!

In the next moment, the seven doors of light suddenly shone brightly, enveloping Han Fei in a dazzling white light.

Instantly, Han Fei heard whispers from ancient times.

"If you enter my door, you can gain eternal life..."

"Behind the door... Divine Path... Come in!"

"Who are you... I'll give you... Primordial..."

"Let me go... I've had enough... of this sea."

"You will also... enter here... hahaha..."

"Come on... Lost man... Come in! Come to me..."

Suddenly, Han Fei felt that thousands of words appeared in his mind, as if countless people were talking. Some words were vague, and some words couldn't be heard clearly at all.

These ravings stirred in Han Fei's mind like sharp blades, trying to pierce Han Fei's mind and tear his mind apart.

After bathing in the white light for only a moment, Han Fei felt that his seven orifices were bleeding. His eyes turned bloodshot, and he had a feeling that he wanted to walk into the door of light, where something beautiful seemed to be waiting for him.

He felt that as long as he entered the door of light, he could obtain a door talent, an extremely powerful door talent that might surpass all the strong masters of the current Heavenly Race.

Lured by these ravings, Han Fei even took two steps forward.

In the distance, his black-mist body was horrified. He felt that there seemed to be a certain mental barrier between the white mist body and him. He found it difficult for him to affect the white mist body.

At this moment, in Han Fei's mind, the Demon Purification Pot suddenly glowed. The strengthened function of the Demon Purification Pot to purify foreign souls and spiritual power was taking effect.

Only then did his white-mist body recover a trace of consciousness from the extreme psychedelic sounds.

Buzz!

Han Fei suddenly put his hands together, and his body was covered with a layer of resplendent golden light. The invincible will seeped out of his body and seemed to be barely blocking the light.

At this moment, a low roar seemed to come from the entire space.

"Outsider, how dare you... enter this place."

"Breaking into... the God's Domain... You deserve to be killed..."

"You can't get out. You will be suppressed here forever. You will accompany this old tree until the end of your life."

"Hahaha!"

Frowning, Han Fei suddenly roared, "F\*ck off!"

Unfortunately, Han Fei's low roar was useless. Although he had regained consciousness, some strange ravings kept coming out of the seven gates. Even his Invincible Golden Body was showing signs of instability.

He wanted to summon the Infinity Water, but at this moment, it was difficult to condense the Infinity Water. Every time the Infinity Water was about to condense the embryonic form of knife intent, it would disperse.

Upon seeing this, Han Fei simply drew his saber, but at that moment, he felt that his arm was unusually heavy, so heavy that he felt that he was not drawing a saber, but lifting a world.

At this moment, a vine suddenly wrapped around Han Fei's legs. Then, Han Fei felt some power transmitted in.

Then, Han Fei received a voice transmission from the Primordial Star Tree in his mind, "Here, my power is limited and I can't contend with him. I can only... help you temporarily... Hurry, cut off the connection between me and these doors. Cut it off and I can get rid of his restraints..."

Han Fei quickly responded in his mind, "How can I cut through so many giant vines at once? I can't exert my strength to its peak."

The voice of the Primordial Star Tree was low. "I can only hold on for a moment. You can cut it off. Every time you cut a piece, my strength... will increase a little bit."

Han Fei roared in his mind, "I need power. I need you to help me block these damn white lights."

Sure enough, as Han Fei roared, the sound of the Ancient Star Tree disappeared. But then, Han Fei felt the pressure on his body loosen. The vines under his feet emitted a faint green light, trying to envelop him and isolate him from the white light.

Han Fei suddenly felt the pressure lighten, as if all his strength had returned.

However, a roar came from the door, like an ancient behemoth roaring crazily, "Primordial, with your strength, how do you dare to contend with me? I want to suppress you forever... I want you to be doomed forever..."

"Human, if you dare to draw your sword, it will be the end of you... You won't be able to survive. You will die. I will capture your soul, crush it into powder, and exile it to the eternally dark river, making it be tortured for billions of years..."

### [God of Fishing](#)

#### **Chapter 2930: I Have A Leaf That Can Kill Gods (2)**

2930 I Have A Leaf That Can Kill Gods (2)

Buzz!

Between Han Fei's eyebrows, the Invincible Eye opened, and the Invincible Fighting Intent was fully activated.

Then, he activated his Great Dao, increased his combat power by five times, and raised his strength to the limit.

Veins were bulging all over Han Fei's body, and he drew his saber like holding up a star.

"Roar! Are you done acting?"

Swish ~

The Draw's peerless knife light completely exceeded the strike of a peak Carefree-Level cultivator. It was comparable to the ultimate strike of an Immortal-level cultivator. It suddenly broke through the white light and slashed out.

Clang!

The echo rumbled, and a strange light surged in the sealing array. Han Fei vomited blood because of the counterforce and was seriously injured by the counterforce.

However, it was also because of this slash that the white light emitted from the doors of light all dissipated.

Han Fei's crazy slash didn't slash at the vines, but at the edge of a door of light. The moment it collided with the door of light, there was a continuous metallic echo.

The ravings disappeared.

The white light disappeared.

The small vines that clasped Han Fei's feet also disappeared.

Behind Han Fei, the voice that seemed to come from the Primordial Star Tree seemed to be roaring, "What are you doing?"

Han Fei sneered. "Stop pretending! Aren't you tired of acting alone? You even brought the strong masters of the Heavenly Race here to meet me just to make me believe you!"

After a long silence, a voice suddenly came from the door. "How did you find out?"

Han Fei touched his mouth with a cold look. He smiled in disdain. "Do you think I'm stupid? The first time I saw you, from the moment you gave me 108 drops of the Spring of Life, I knew that there was something wrong with you. Who the hell can give me so many benefits the moment they meet me? It's not 108 drops of water. Do you want to die more quickly by giving me these when you're dying? So, the more cooperative you are, the more you want me to trust you. After all, you've given me so many resources unconditionally. How can I still not believe you?"

"Just because of this? Since you know that the Primordial Star Tree is dying, you should know that he is still him and hasn't been possessed by me. Can't he be in a hurry to break free?"

The voice behind the door was low and slightly hoarse.

"Of course I know that he wasn't possessed."

Han Fei sneered. "But this matter is too simple, so simple that it completely suits my hopes. If I want the Spring of Life, you'll give it to me. If I want the Demon Purification Vine, you'll say that you can create an opportunity for me. If I want to deal with the Heavenly Race, you said that as long as I cooperate with you and cut the seal, you can make the Heavenly Race lose their inheritance of door talent. Everything looks perfect, completely in line with my expectations... However, in all my life, to be honest, I've never encountered anything that can be done so smoothly. Most of the things don't go as planned, but this matter is too easy. It's like when I want to eat, someone brings me food, sets the bowls and chopsticks, and finds me two girls by the way. One massages my shoulders, and the other fans me. Do you think I should doubt it or not?"

Behind the door, the hoarse voice said, "What if this is the truth?"

Han Fei said, "A lie can't be entirely a lie. For example, you didn't lie to me about the state of the Primordial Star Tree. You also told me Yi Beige's plan and said that he was fishing with the Demon

Refining Vine. I don't doubt this, because if it were me, I would also be fishing like this. After all, it's fine if the Great Dao is broken. As long as you have the Demon Purification Pot, it's easy to reconnect it. However, even if it's a lie with nine truths and one falsehood, it is still a lie. At first, I was a bit hesitant and skeptical, wanting to play it by ear and see what plans you had., but I have to say that you hid it well. I thought to myself, If you were lying to me, what was your purpose? Obviously, you spent so much effort just to make me cut off the vines that are holding the doors of light, which is the so-called seal you mentioned."

Han Fei paused and continued, "You tried to make me trust you and lure me into the Astral Trial Ground. As long as I enter the Astral Trial Ground, I will definitely be able to reach this place. What good will it do for you for me to reach here? Or rather, what good will it do for you for me to cut off the so-called tree vines? That should be the Primordial Star Tree. The Primordial Star Tree is a Great Monarch-level demonic plant anyway. Since it hasn't been possessed by you, it means that you can only suppress it, but you can't possess it at all. And the reason why you can't possess it should be related to the seal here. If I'm not wrong, it should be these vines blocking you, not you simply sealing the Primordial Star Tree. The two of you are in a balanced state at the moment, so if I break the balance, the Primordial Star Tree will fail. That's why the Primordial Star Tree used its memories to create so many memory creatures to chase me."

As soon as Han Fei finished speaking, he felt the surrounding trees tremble slightly, as if some power was counterattacking.

"Hmph!"

The creature behind the door snorted coldly. "Even if he finds out, so what? He is a mere Carefree Level cultivator. Even if he can't help me, how can he help you?"

He continued, "Human brat, even if what you say is right, so what? You entered here with your physical body. Do you think you can get out of here? If you have all the Demon Purification Vines, you might have a way. But your Demon Purification Pot is incomplete after all. As for the Void Temple, can you contact them in this place? Therefore... Human, you and I can still cooperate. I can give you more Spring of Life, and even the door talent. If I'm not mistaken, the Void Temple should know that you've entered the Heavenly Race. I don't want to be enemies with the Void Temple. Therefore, as long as you help me cut off the vines of the Primordial Star Tree, the grudge between the Heavenly Race and you will be written off. Furthermore, I can promise that the entire Heavenly Race will help you three times unconditionally, no matter how great the sacrifice..."
