Chapter 2941: A Terrifying-Level Ominous Lifeform (1)

2941 A Terrifying-Level Ominous Lifeform (1)

One month Later.

The East Sea Divine Realm was in an uproar. Even though the Heavenly Race kept the matter of the Primordial Star Tree a secret, it caused such a huge uproar that news gradually spread out.

Less than 200 years later, the Heavenly Race were attacked again and the Heavenly Ancestor Divine Tree was uprooted, which caused a great uproar in the East Sea Divine Realm.

And there were still a large number of strong masters from the Central Sea Divine Realm in the East Sea Divine Realm, so this news naturally spread to the Central Sea Divine Realm.

For a time, the news of the decline of the Heavenly Race spread among the strong.

In fact, the Heavenly Race at this moment was far from declining. At least they still had Great Monarchs and more than 20 Monarchs. However, the Heavenly Race who had lost the inheritance of the Heavenly Ancestral Tree and the door talent had already declined in the eyes of many large factions.

Regarding this, the Divine Capital Dynasty didn't say anything. The Capital of Horror was gloating. Many Sea Realm Heavenly Talents who originally wanted to squeeze their heads into the Gate of Heaven hesitated and began to flow towards places like the Fist Light Mountain and the Ghost Strait.

At this moment.

On Han Fei's Origin Star.

Han Fei was waiting for the moment when the sixth small pill ripened. His hands were already under the fruit, waiting for it to fall off.

Han Fei had to admit that he underestimated the Demon Purification Pot's absorption of resources. This time, only the seventh vine returned, and the sixth small pill matured. As a result, the Demon Purification Pot consumed the energy and resources of 86 pieces of refined stars.

Of course, it wasn't like Han Fei didn't bear to lose these refined stars, but this was only the seventh vine. Then would the eighth vine absorb dozens of times more resources? Besides, this was only a one-time use, not counting the daily absorption of the vine.

Besides, the time acceleration in his Origin Star would also consume a lot of resources.

Han Fei couldn't help but think that if the ninth vine returned, most of his resources would probably be eaten up. In addition to his need for resources, Little Black and Little White's needs, and the needs of the human race... for a moment, Han Fei felt that the road ahead was long and he was far from rich!

Clatter ~

While Han Fei was lost in thought, suddenly, the sixth small pill fell off. Han Fei was overjoyed.

Looking at the small pill that was emitting a red glow, Han Fei's eyes were burning.

After consuming this sixth pill, the user would attain a lifespan as long as the heaven and earth, and an invincible divine body. He would be able to cultivate the supreme divine body, breathe like the four seasons and ever-changing weather and sound like thunders, with eyes that outshine the sun, moon, and stars, a body as stable as the four earth poles and as vast as the earth, blood as boundless as the rivers and seas, and thoughts that flow like rain and dew.

Although the Supreme Divine Technique was also a body-refining technique, it was just an ordinary body. Although it could continuously strengthen one's body, it didn't have the characteristics of being indestructible.

Of course, it was impossible for the real body to be really indestructible. But at least, after taking this pill, his physique would be fundamentally different from his current one.

Han Fei wasn't worried that he would lose balance between his body and soul after taking the sixth divine pill. As long as he had the Godfiend Formless Technique, this wouldn't happen.

If this trend really happened, his body or soul that was suddenly strengthened would definitely be unable to continue being strengthened because of the restrictions of the technique. At the very least, Han Fei could transform the energy between his strength and soul.

Although too many transformations would cause his foundation to be unstable, this could always be slowly made up for over time. And he happened to be in the Chaotic Thunder Domain. If such a situation happened, he could completely use the power of lightning to polish his foundation and return to his peak state.

Thinking about that, Han Fei swallowed the sixth pill without hesitation.

In front of the Demon Purification Pot, Han Fei sat cross-legged, the divine pill entered his body, and his blood was surging. After only five seconds, Han Fei felt that his entire body was in a spasming state.

Even though he thought he was tough, his face couldn't help but twist. This was because he felt that every inch of bone in his body seemed to be squeezed, every trace of flesh and blood, and every meridian seemed to be about to be annihilated.

Including his soul, Han Fei felt that his soul was also suffering unprecedented torture. It felt no different from his body. He felt that his soul seemed to have been crushed.

This situation lasted for three days and three nights. The pain he had experienced before gradually subsided. Han Fei could clearly feel that his bones, flesh, and blood seemed to have changed. And his soul had changed from its previous invisible state. At this moment, he felt that his soul was liquefying, turning from a void soul to a void liquid.

That feeling was extremely strange. It was as if his body and soul suddenly had an indestructible characteristic. At that moment, he felt like the sky, the earth, and every blade of grass and tree on his Origin Star. He even felt that he was the wind, the rain, the drifting Immortal Qi, and the shining brilliance. It seemed that he was the world, and the world was him.

He realized that he no longer needed to use the power of the Heavenly Dao, because he was the Heavenly Dao. He could fight endlessly and no longer be troubled by the consumption of spiritual power. This was because his spiritual power was the spiritual power of the world.

“So that’s what it means.”

Han Fei’s eyes flashed. The so-called indestructibility meant that he could transform the Heavenly Dao into his power at any time. The so-called “thoughts are like rain and dew” was like the laws between heaven and earth, which were tangible and intangible. The same was true for the soul. His soul sea itself is composed of intangible Qi, but now it has become a tangible liquid. And now, within this intangible existence, tangible forms were bred, reaching higher levels.

[God of Fishing](#)

Chapter 2942: A Terrifying-Level Ominous Lifeform (2)

2942 A Terrifying-Level Ominous Lifeform (2)

However, the indestructibility didn’t mean that he wouldn’t perish. If a Great Monarch or a god could easily lock down a world, there was still a possibility of him being killed. Therefore, the so-called indestructible characteristic was that he could be indestructible without external force.

Besides, he only felt that his body was indestructible. He didn’t feel that it had become a divine body.

Everything was in good shape except for his body. Although it had been strengthened, Han Fei didn’t think it was much.

He could only guess that the so-called indestructibility of the divine body didn’t mean that it would never shatter. Instead, even after being shattered, it would not truly perish as long as it didn’t completely disappear. Even if the body was shattered and reorganized, its strength would be no different from before the shattering.

In the past, body refiners were most afraid of their bodies being shattered. Although they could still be rebuilt, it would take a long time for them to return to their peak state. They would have to constantly nourish and repair their bodies, and it was very easy for them to have hidden injuries.

But now, this problem should be gone.

Suddenly, Han Fei seemed to realize something. He looked at his bloodline information.

Number of Races in the Infinite Ocean: 2,962,1397

Ranking of the Host’s Bloodline: the 10,086th

Bloodlines Nearby: Twin Yin-Yang Spirit Swallowing Fish, Emperor Sparrow

Recommended Bloodline: None

When Han Fei saw the data, he couldn’t help taking a deep breath. Sure enough, the Sixth Divine Pill didn’t just help him comprehend the indestructible characteristics. With his spiritual power, Heavenly Dao comprehension ability, and even physique enhanced, there was no reason why his bloodline

wouldn't be enhanced. His entire life level was improving, and his bloodline ranking had been raised by more than 18,000 places all of a sudden, almost entering the top 10,000 of the entire Sea of Stars.

Han Fei didn't know the ranking of the bloodline of the ancient human race, but he knew that his bloodline had been upgraded bit by bit. The level of this bloodline could already be ranked among the top among all the races. If he advanced to the Immortal Level later, his bloodline would definitely be among the top ten thousand.

He looked at his data, only to see the following information:

Owner: Han Fei

Level: 114 (Carefree Level)

Bloodline Rank in the Infinite Ocean: 10,086

Immortal Qi: 60,000

Soul: 908 Origins

Strength: 908 Star Powers

First Spiritual Heritage: Origin Spiritual Heritage

Second Spiritual Heritage: Eternal Darkness Spiritual Heritage

First spiritual beast: Twin Yin-Yang Sky Swallowing Fish (Level 110)

Second spiritual beast: The Emperor Sparrow (Level 111)

Main Art: Godfiend Formless Technique

"Sure enough, my physique hasn't been strengthened much, but I'm indeed different from before. My combat power doesn't seem to have increased much, but my hidden combat power has at least increased several times."

Han Fei grinned and suddenly stood up. Some transparent pale golden matter that emitted a faint spiritual fragrance overflowed from his body.

"It seems that no matter what stage it is, it can't be called a true pure body!"

Buzz!

Han Fei came to the Sea of Stars, flicked his finger, and a point of spiritual energy shot out. With a swish, it tore through the void and slashed out a void crack.

"My pure combat power has increased by about fifty percent. It's not as much as double. However, this shouldn't be the ultimate effect of the sixth divine pill. At least, my cultivation speed and potential should have improved, but I can't confirm it. Tsk, tsk... I really want to have a fight!"

Han Fei put on a faint smile. If he were besieged by those people from the Central Sea Divine Realm again, he was confident that he could kill more than 60% of them.

However, Han Fei wasn't proud. The effect of the Sixth Divine Pill was in terms of life level and potential. If he encountered a Great Monarch, he wouldn't be able to fight back at all.

He might not even be able to defeat Immortal-level cultivators. However, from the looks of it, the life level of an immortal-level cultivator might not be comparable to his.

This was because, in a sense, he could be considered an Immortal-Level cultivator now. It was just that he hadn't comprehended this level himself but by taking the sixth divine pill.

Therefore, he wasn't sure what he should comprehend at the Immortal Level. He would ask his senior brothers at the next gatherings.

Now that he had taken the sixth divine pill, it was time to test the Demon Purification Pot's present power.

Han Fei came to his Origin Star again and shouted, "Time Chain, evolve."

Above the Origin Star, between the heavens and earth, the time chain appeared and revolved, and a new time chain was strengthening.

Twenty-eight days later, after consuming 624 refined stars, the time acceleration of his Origin Stars was finally increased to 512 times.

Although the consumption was huge, the gains were indescribable. However, Han Fei also discovered that the consumption of resources this time was huge. Compared to the last time, it was not just a hundred times more, but more than a thousand times. According to this consumption, the next evolution of the time lock would probably require a Great Monarch-level Origin Star.

Next was naturally the deduction function of the Demon Purification Pot.

Previously, many great techniques had been deduced to the upper limit. Some didn't need to be deduced, so he didn't continue deducing them. But now, with the return of the seventh small vine, the Demon Purification Pot was enough for most of the deductions.

Of course, before the deduction, he had to absorb more Chaotic Qi and refine more Immortal Qi for the deduction.

Among the many techniques, Han Fei chose the most important ones. After condensing nearly 20 million points of Immortal Qi, he finally deduced three techniques.

Every deduction was a complicated learning process.

At this moment, the techniques deduced by the Demon Purification Pot were no longer simple. Although the deduction was fast, it would take time to study these techniques thoroughly.

Finally, Han Fei stayed in his Origin Star for nearly 40 years before completely cultivating three techniques. They were:

[God of Fishing](#)

Chapter 2943: A Terrifying-Level Ominous Lifeform (3)

2943 A Terrifying-Level Ominous Lifeform (3)

Divine Concealment (Unrated)

Introduction: On the basis of the Heavenly Concealment Divine Technique, it completely simulates the rules of the Heavenly Dao. With the rules of the Heavenly Dao, it can simulate one's face, voice, body, aura, luck, suppressing pressure, Great Dao, and so on. The Divine Concealment Technique can completely hide one's true strength. It can even imitate the aura of a Great Monarch of the same Great Dao. This technique can hide the secrets of the heavens and completely simulate the laws. When others see it, it's like seeing the Heavenly Dao. Only gods can detect it.

Disadvantages: This technique can deceive the world. If you pretend to be a creature, you will automatically absorb the law of the person you pretend to be. It's easy to cause a conflict of laws. It's recommended to choose a powerhouse of the same Great Dao to disguise as.

Note: Every time you disguise as a creature, you will understand everything about it. Those with weak willpower were easily forgetful of themselves.

The most terrifying thing about this technique was that it could simulate the aura of a Great Monarch. This gave him many choices. A Great Monarch, the intimidation effect was evident.

In comparison, it was impossible for him to forget himself. Han Fei believed that his mind was extremely firm and wouldn't be easily shaken.

As for pretending to be a cultivator of the same Great Dao, this was actually not very meaningful. He just needed to pretend to be an unfamiliar Great Monarch. Could his Great Dao be restricted to him?

In short, this was a divine concealment technique. It had already reached the extreme of disguise technique and couldn't continue to be deduced.

The second:

Ten Thousand Law Sky Travelling Technique (Monarch-level, Ultra-Quality)

Introduction: Born from the Wings of the Void, derived from the Micro-Distance of the Void, the Ten Thousand Law Sky Travelling Technique was once the divine magic of Kunpeng. It allows practitioners to transform themselves into laws, achieving a law leap and turning the Void into a Micro-Distance. By inscribing Dao Patterns onto themselves, they can harness the power of the technique. To master this art, one must possess an extremely strong physique and deepen their comprehension of the laws to increase their speed. The most powerful practitioners can even transform laws into wings to swiftly navigate the Void. However, the duration of the technique cannot be too long, lest one risks complete transformation into laws.

Deduction Cost: 50 million Immortal Qi

Effect: Void Micro-Distance, Sky Travel

Disadvantage: It can't be used for long.

Note 1: Whoever practices this technique must have an extremely strong physique.

Note 2: Once thoroughly transformed into a law, you may lose yourself and be assimilated by the law of the heavens.

This was a speed-type ultra-quality technique after deducing the Void Wings four times. This technique alone cost 12 million points of Immortal Qi.

There was no telling if Han Fei made the wrong choice in the basic technique he deduced, or if it was because speed-type techniques were rare in the first place. Anyway, after spending 12 million points of Immortal Qi, the Ten Thousand Law Sky Travelling Technique he got in the end was only a Monarch-level, Divine-quality technique, not a divine-quality one. Han Fei really didn't have the energy to continue absorbing 50 million points of Immortal Qi for deducing.

However, this technique was indeed extraordinary. After refining it, Han Fei's current speed reached about 270 times the speed of light without borrowing any power.

In the Void World, his speed was only 300 times the speed of light. Now, with this technique, Han Fei could travel at nearly 800 times the speed of light in the Void World. And he hadn't fully mastered the technique yet.

With this speed, Han Fei knew that he had the ability to compete with immortal-level powerhouses. However, this was not enough. His Carefree path was far from over. However, this was a good start.

Finally, it was the deduction of the Godfiend Formless Technique. Since Han Fei obtained the Godfiend Formless Technique, he knew that this technique could be deduced, but at that time, he couldn't.

Perhaps it was because no one had cultivated this technique before, so it was difficult to have a reference. Therefore, the Godfiend Formless Technique was actually only a Sky Opening-level, Divine-quality technique.

After some deduction, he obtained the Godfiend Body, a Monarch-level, Divine-quality technique.

Godfiend Body (Monarch-level, Divine-quality technique)

Introduction: Derived from the Godfiend Formless Technique, this technique can only be practiced by those who follow the Dual-Extreme Dao. It is suitable for all races and compatible with all Daos in the world. By practicing this technique, the soul and body are cultivated together, circulating through the same spiritual heritage, merging, entangling, and transforming each other until they eventually merge into one. Once the soul and body are merged, there is no path ahead; one must create a new path. This practice is too shocking and violates the will of heaven. As most races are born with a single spiritual heritage, it is difficult to practice both the soul and the body, making it easy to cause drastic changes in one's personality, physical form, and even the soul, even leading to complete transformation into a demon. This technique is not included in the rankings of the "Myriad Races of the Vast Sea".

Effect: A perfect balance between the soul and the physique, until the two integrate into one.

Disadvantage 1: It perfectly conforms to the Heavenly Dao. When in a pass, you will definitely suffer the backlash of the Heavenly Dao.

Disadvantage 2: All races are born with one spiritual heritage, which can't accommodate dual techniques. If you cultivate this technique, it's very easy for you to mutate and fall into the demonic Dao.

Note 1: To cultivate this technique, you must have an extremely powerful spiritual will. Otherwise, you will definitely fall into the Demonic Dao.

Note 2: The creator of this technique is both a god and a demon.

Note 3: No one has ever touched the path of soul-body integration. It remains unknown if it's good or bad.

After studying the Godfiend Body, Han Fei suspected that there was no transition technique between the Godfiend Formless Technique and this technique. However, the existence of the Godfiend Body made him wonder if someone had embarked on this path in the long river of time.

Unfortunately, these were all unknown puzzles.

But at least, there was definitely no further cultivation technique after Godfiend Body. If one day, he reached the so-called state of soul-body integration, if he wanted to go further, he could only create a new path himself.

In the end, Han Fei stayed in the Origin Star for nearly 50 years. Only about 70 days had passed in the outside world.

[God of Fishing](#)

Chapter 2944: A Terrifying-Level Ominous Lifeform (4)

2944 A Terrifying-Level Ominous Lifeform (4)

Han Fei wanted to continue cultivating for a while, but suddenly heard his Eldest Senior Brother's voice transmission. "Feng Yu wants to inform Han Fei that the Primordial Star Tree has been successfully rescued. She said that the Heavenly Race's god had laid an extremely huge and difficult to find seal. It wasn't easy for them to find it. In addition, Feng Yu sent a message saying that she had sacrificed a lot to help Han Fei save the Primordial Star Tree."

Han Fei didn't know what Feng Yu sacrificed, but it was good that she found the Primordial Star Tree. It wasn't easy for him to find such an old tree. Its value was immeasurable. If it could be used by him, it would be a blessing for the human race. If it couldn't be used by him, this Primordial Star Tree owed him two lives. If this guy really dared to burn the bridge after crossing it, he would burn it one day and turn its trunk into a Chaotic Spiritual Treasure.

However, at this moment, the Primordial Star Tree couldn't return to the East Sea Divine Realm. Everyone knew that the Heavenly Race's ancestral tree was gone and coveted it. It could only stay in the Phoenix Divine Race for the time being. When he had time in the future, he would go fetch this old tree back.

This time, Han Fei's wishes were all fulfilled.

The little vine of the Demon Purification Pot returned, the sixth divine pill was ripe and taken, the time lock evolved, and the great techniques were deduced.

Next, it was time for him to cultivate. Ever since he advanced to the Carefree Level, he hadn't cultivated. He had only consolidated his cultivation slightly when he was in the Heavenly Race.

Now, he had to cultivate as much as possible before those b*stards from the Central Sea Divine Realm launched an attack on the human race.

Buzz!

Chaotic Lightning Domain.

Han Fei came out of his Origin Star. As soon as he appeared, many lightning bolts struck.

Boom Boom Boom ~

The continuous lightning strikes twisted Han Fei's long hair and made him frown.

"Yin-Yang Great Millstone."

Even if the lightning in the Chaotic Thunder Zone was indeed dangerous, it was impossible to kill a Dao Prover in one go, let alone mysterious creatures like Little Black and Little White.

This cultivation could not only allow him to grow quickly, but also allow Little Black and Little White to grow quickly. Of course, the Emperor Sparrow didn't like the Chaotic Lightning Domain. His strength was mostly strange and he hated lightning very much.

Han Fei sat cross-legged under the Yin-Yang Millstone. The lightning, filtered by Little Black and Little White, hit Han Fei, and even its power was weakened.

However, in terms of quality, this could barely be considered a miniature heavenly tribulation.

On average, every ten days, Han Fei would take out the Mystic Martial Monarch Armor, set up the Turtle Shell Sky Sealing Array, and then enter the Origin Star to rest. When he had enough rest, he would come out.

...

Thirty-three years later.

In a chaotic lightning domain in the Sea of Stars, a figure was flashing rapidly with a strange footwork, shuttling through the countless lightning bolts.

Buzz!

After the figure came out of the vast sea of lightning, he looked back at the sea of lightning and sighed. "I'm finally out."

Han Fei was not wearing any armor. In addition to being struck by lightning, he had also been practicing footwork.

The Supreme Divine Technique, the Godfiend Body, the Ten Thousand Law Sky Travelling Technique, the Heavenly Dao Visualization Technique, with the help of all these techniques, he came out 33 years later. Although it was only 33 years, under such an extreme environment, ordinary Carefree Level cultivators couldn't even stay for 33 days, let alone 33 years.

Therefore, Han Fei had gained a lot.

On the Sea Realm's side, Hong Yue would report every half month.

However, recently, Hong Yue reported every five days on average.

At that moment, the human race stopped in the wilderness for the seventh time to undergo a trial. It was also from this time that the human race gradually began to suffer the invasion of sea demons. There were many of them, forcing the human race to stop and start a long practical trial.

But fortunately, at this moment, the human race had approached the Godfiend Sea.

It was also because of this that Han Fei stopped cultivating and came out of the Chaotic Thunder Domain. If nothing went wrong, the first challenge of the human race was coming.

However, he had no idea how big of a scheme the people from the Central Sea Divine Realm were planning this time and how they were going to execute it.

Although Luo Xiaobai said that it was just a test, since the test had begun, the battle wouldn't be far away. Han Fei was considering whether he should return to the human race.

Suddenly, Han Fei raised his eyebrows, and his body moved away with a hum, with dancing lightning arcs in the void.

When Han Fei looked back, he saw a figure rushing over.

Before Han Fei saw the figure clearly, he felt a strong darkness suddenly descend.

"Huh? Ominous?"

Han Fei frowned slightly. In the vast Sea of Stars, the possibility of encountering an ominous creature as soon as he left the Chaotic Thunder Domain was almost zero.

Unless, unless that damn Heavenly Race's god deliberately chose this place.

Immediately, Han Fei figured it out. The Heavenly Race's god wanted to force him to use his trump card, but he had almost died at that time. In that state, could he kill him?

Obviously not, so he never thought of killing Han Fei in person. He had set up many escape routes and set up a seal in an attempt to wear him down to death. If he succeeded, it would be great. If the seal couldn't kill Han Fei or was broken by Han Fei, as long as Han Fei wasn't taken away by someone, he would bet that Han Fei would leave the Chaotic Thunder Domain. Perhaps it was because he felt that Han Fei couldn't enter his own Origin Star under the dense lightning.

And once Han Fei left the Chaotic Thunder Zone, he would inevitably encounter ominous creatures, so these ominous creatures were the trump cards of the Heavenly Race's god.

"What a cunning old fox."

At this moment, Han Fei took half a step back and let the black shadow on the opposite side sweep in front of him. Only then did he see clearly that this ominous creature was in human form, a little like a ghost. It had scarlet eyes and in its cracked empty mouth were black sharp shadow-like teeth. If they suddenly appeared, they could scare ordinary people to death.

At this moment, information popped up in Han Fei's eyes.

<Name > A Terrifying-Level Ominous Lifeform

<Introduction > This is a terrifying-level ominous creature that was formed from a completely corrupted corruption-level ominous lifeform. It's full of negative energy and has lost all intelligence. Its combat skills are unknown because the source of its negative energy is unknown.

<Level > 116

<Ominous Level> Terrifying Level

<Realm > Carefree Level

<Battle Techniques> Unknown

<Collectible > Level-four energy crystal

< Unabsorbable >

<Note > Ominous level only represents the current state of the ominous lifeform and has nothing to do with its strength.

[God of Fishing](#)

Chapter 2945: Ancient Thunder Temple in the Sea of Star (1)

2945 Ancient Thunder Temple in the Sea of Star (1)

"A terrifying-level ominous lifeform? Carefree-Level?"

There was no time for Han Fei to think. The God's Prayer Bead on Han Fei's neck suddenly glowed brightly. Han Fei waved his hand and summoned divine brilliance. Enshrouded by this brilliance, this terrifying-level ominous lifeform seemed to be burning. Its ghost claw that grabbed at Han Fei had a sizzling sound, and a large swath of ominous aura dissipated.

Roar!

As the horrible creature roared, Han Fei felt like his head was hit by a hammer, but it was only a momentary thing. This should be a power similar to a mental attack, because at that moment, Han Fei felt that something was trying to attack his body, but it was instantly purified by the divine brilliance on his body.

"Puff ~"

Of course, Han Fei couldn't just stand there and take the beating. Before this thing had the time to retract his claws, Han Fei drew out the divine brilliance and turned it into a knife. Then he slashed out, cutting off one of the ominous lifeform's hands.

At the same time, Han Fei moved back and distanced himself from this thing. However, the severed hand didn't dissipate or be recalled by the ominous creature. Instead, like an octopus, it dispersed into the form of a tentacle and tried to entangle Han Fei. Even though Han Fei had the power of purification, it still entangled him without hesitation.

Han Fei didn't panic. He punched back, and the Invincible Fist quickly dispersed the ominous power.

"As I expect."

The corners of Han Fei's mouth curled up slightly. It was impossible to rely on the power of purification in a battle with ominous creatures. He had taken the Great Dao of Heavenly Enlightenment and could summon divine brilliance, but others didn't have such a Great Dao. Did people have to cultivate a Great Dao with the power of purification in a battle with ominous creatures?

Obviously not. Ominous matter was also a kind of energy, a negative kind of energy. In terms of nature, this kind of energy was polluting, parasitic, and could infect others. If people were contaminated and didn't have time to purify the ominous power in their bodies, the power might lie dormant or arouse the negative energy in their bodies.

But in the end, it was just a state of energy, and the power of the Monarch realm could completely penetrate it. Besides, in Monarch-level Tribulations, there was a Self Severing Tribulation, which was meant to cut off one's negative side. Therefore, in theory, all Monarchs had the ability to directly fight ominous creatures, but it was simpler for Monarchs with the power of purification to deal with ominous creatures.

Han Fei felt that when the Invincible Fist penetrated the ominous matter transformed from the broken hand, the power of laws shattered this ominous matter and also spontaneously purified this power.

"Huh!"

The law itself had the ability of purification?

No, it was just destructive to the ominous power.

This was the first time Han Fei had fought the ominous. He had no experience in this aspect. At this moment, he could feel that the power of the law was destructive to the ominous power. However, this destructive power was not complete, because after Han Fei threw out hundreds of punches, nearly half of the ominous power transformed from the severed hand still tried to return to the terrifying ominous lifeform.

The ominous creature didn't retreat because of the cleansing power of the divine light. Instead, it rushed up again. Its arm that had been cut off by Han Fei suddenly grew huge tentacles that looked like long snakes, as if the arm had transformed into a giant python, swinging and thrashing towards Han Fei to attack.

"Ten Thousand Knives in One."

Han Fei didn't retreat, because this instant of confrontation made him realize that this thing didn't seem to be very strong. Immediately, the Infinity Water turned into tens of thousands of saber beams that poured out like a wave. Every saber edge was enhanced by the power of laws.

The terrifying-level ominous lifeform waved its tentacles and spun like a top, shattering many knife lights. When the shattered knife lights turned into Infinity Water, the power of law attached to Infinity Water had actually disappeared.

“Um! The law can’t completely crush the other party, but it has an absolute crushing effect on the ownerless ominous power. The ominous power of the ominous lifeform actually has the power to contend with the power of the law. Does the ominous also master the law?”

Although this ominous lifeform was equivalent to a late-stage or peak-level Carefree Level cultivator, Han Fei was now so strong that he could completely ignore the gap between realms.

Unless it was an immortal-level cultivator, Han Fei was confident that ordinary people couldn’t survive more than three blows from him except for a few peerless geniuses at the Dao Proving Level and Carefree Level.

It was the same for this ominous creature. After a moment of observation, Han Fei finally came to a few conclusions.

Firstly, purification-type great techniques, Great Daos or laws could naturally restrain ominous creatures, but they couldn’t instantly purify the latter.

Secondly, the power of the law had the characteristic of annihilating ominous power, which was the characteristic of annihilating negative things.

Thirdly, the ominous power contained a unique power that had the ability to devour part of the law. And the power of the law that was swallowed was likely to transform into the ominous power. Therefore, if one wanted to kill the ominous, he had to form an absolutely crushing situation.

Fourthly, the ominous power was very active. If it couldn’t be completely purified, they would return to the ominous lifeform. This might be one of the fundamental reasons why the ominous power was difficult to deal with.

Fifthly, ominous had the ability to transform. They would appear in various forms and might even transform into various shapes.

Sixthly, the ominous creatures were highly polluting and were good at negative mental shocks.

Seventhly, the ominous creature was extremely strong in combat and had various combat methods. It didn’t look like a person but more like a product of the combination of different species. It might know sword techniques, fist techniques, or bow techniques. They mastered various combat forms.

[God of Fishing](#)

Chapter 2946: Ancient Thunder Temple in the Sea of Star (2)

2946 Ancient Thunder Temple in the Sea of Star (2)

After only a moment, Han Fei had quickly summarized the characteristics of the ominous creatures. This made Han Fei feel that the ominous creatures seemed to be the fusion of multiple people. He even felt that the ominous creatures contained some kind of soul matter, but the source of the soul was different. It was a combination, causing it to seem to be involved in various things.

Han Fei was going to continue to fight this terrifying-level ominous creature and observe its characteristics, but when he suddenly sensed thousands of ominous creatures surrounding him from all directions, his face changed drastically.

“F*ck, you damn god.”

Han Fei’s face changed drastically. That damn god of the Heavenly Race definitely did it on purpose. He didn’t send him to this damn place casually, but knew that there was such danger here.

And the God of War was only a clone. His perception range might be large, but he probably didn’t notice the situation outside the Chaotic Thunder Domain.

Fortunately, he had just left the Chaotic Thunder Domain. He could return if he had to. The lightning had absolute restraint on these ominous lifeforms. This was beyond doubt. Otherwise, how could he have cultivated peacefully in the Chaotic Thunder Domain all these years?

At this moment, a large number of ominous creatures arrived. Han Fei naturally wouldn’t continue to fight. He suddenly raised his hands and activated the Heaven Enlightenment Divine Technique. The light of purification erupted here, enveloping the terrifying-level ominous creature in front of him.

The other party still wanted to dodge, but Han Fei suddenly burst into an extremely fast speed. Over the years, his Ten Thousand Law Sky Travelling Technique had improved greatly. Without needing the Void World at all, his speed had exceeded 300 times the speed of light.

The ominous creature couldn’t resist it and was instantly nailed through and sealed. It could only let the power of purification burn it into nothingness.

Han Fei didn’t have the time to check how this creature’s level-four energy crystal was different from ordinary energy crystals because tens of thousands of ominous creatures had come from all directions.

Han Fei, who already knew something about this ominous creature, didn’t activate his Origin Great Dao. With his current normal strength, plus the 50% increase in strength after the improvement of his life level, in terms of combat power, he already had the peak Carefree-level combat power. Even if he wasn’t a peak Carefree-level Heavenly Talent, it was enough to deal with an ominous creature of this level.

After all, for the time being, Han Fei hadn’t discovered that the ominous lifeform had any secret method, which meant that they couldn’t suddenly unleash multiple times their combat power.

Besides, Han Fei, who had taken the sixth divine pill, could fight endlessly without worrying about his spiritual power being exhausted.

Of course, Han Fei didn’t rush into the group of ominous creatures stupidly. After all, if these tens of thousands of ominous creatures were all in the Monarch realm, he wouldn’t be able to defeat them even if he had 18 hands.

Therefore, Han Fei could only rely on his speed to fight and run.

Bang! Bang! Bang!

Boom Boom Boom ~

After killing dozens of ominous creatures, Han Fei quickly discovered that not every terrifying-level creature was as strong as the first one.

There seemed to be only one at the Carefree Level. The dozen or so ominous creatures he had killed were all at the Dao Proving Level.

Han Fei had also discovered that the reason why the Carefree Level ominous creature came so quickly might be that he was stronger, so he came faster. And those who could barely catch up to him were all at the Dao Proving Level. Their strength was uneven, and there were about 300 of them.

“If there are only three hundred of them...”

“Holy Light Chains.”

Sizzle ~

Sizzle~

In the starry sky, thousands of chains seemed to be ignited in the void, which was spectacular. It was also the first time Han Fei had encountered an ominous lifeform, so he wanted to try too many things on them. If the pure power of purification was lethal enough to them, he would have to study the future path of the Heaven Enlightenment Divine Technique.

The chains of Holy Light forced these ominous creatures to stop, causing them to roar crazily. A large amount of the ominous power in their bodies was purified, but it wasn't to the point of directly purifying all the ominous power.

“No! The current Heaven Enlightenment Divine Technique is still related to my life river. I can't exchange my life for the death of these guys. Although the suppressing power is strong enough, it will take hundreds of thousands of years of my lifespan to destroy so many terrifying-level ominous creatures at the Dao Proving Level.”

Han Fei quickly reached the conclusion, so he no longer used the Heaven Enlightenment Divine Technique as a way to defeat the enemy.

Bang! Bang! Bang!

Boom Boom Boom ~

After fighting for more than six hours, Han Fei had killed more than five hundred ominous creatures and finally felt a little exhausted. It was not that his spiritual power was exhausted, but that he had activated too many techniques. The energy in his body was used too frequently and long, and his body was a little numb from fighting.

However, the number of ominous creatures didn't decrease at all. Instead, there were more and more. Just as Han Fei was about to rush back into the Chaotic Thunder Domain, suddenly, he perceived that a temple appeared, standing quietly in the Sea of Stars. Outside the temple, there was a layer of pale yellow light enshrouded, which seemed to be a barrier protecting the temple.

“Huh?”

A temple in the Sea of Stars?

Han Fei was taken aback for a moment. He saw that there were many ominous creatures around the temple. Immediately, Han Fei seemed to understand why so many ominous creatures suddenly appeared in this damn place. They weren't coming at him at all, but at the temple. He had just suffered an unexpected disaster.

God of Fishing

Chapter 2947: Ancient Thunder Temple in the Sea of Star (3)

2947 Ancient Thunder Temple in the Sea of Star (3)

However, what kind of temple was this? Why was it still standing here surrounded by so many ominous creatures? Judging from the appearance of the temple, it had been here for a long time.

It seemed that the barrier of this temple was very strong! It had blocked the impact of the ominous creatures for countless years in this damn place, but it was still holding on. It was definitely not an ordinary place.

Swish, Swish ~

As if realizing Han Fei's existence, outside the temple, many ominous creatures twisted their bodies and charged at Han Fei like ghosts.

Buzz!

Suddenly, Han Fei felt that his blood was freezing. An ominous creature was moving at a speed a thousand times the speed of light.

"F*ck!"

This time, Han Fei didn't dare to be negligent and activated Sword Four, Carefree Roaming.

Sword intent erupted, and the surrounding void trembled. The arm of the ominous creature turned into dozens of sharp chains, forcibly blocking Carefree Roaming.

Bang! Bang! Bang!

Although five or six chains were broken, the power of the Carefree Roaming was blocked. How could Han Fei not realize now? This was definitely an Immortal-level ominous creature.

Sure enough, information popped up in Han Fei's eyes.

<Name > An destruction level Ominous Lifeform

<Introduction > An destruction level ominous lifeform is evolved from a terrifying-level ominous lifeform that has awakened intelligence. This level of ominous lifeform is completely filled with negative forces, but it has intelligence. It has an extreme desire for killing and some negative behaviors, hoping to destroy everything. Because the negative sources are unknown, its combat skills are unknown.

<Level > 118

<Unlucky Level> Destruction-level

<Realm > Immortal Level

<Battle Techniques> Unknown

<Collectible > Level-five energy crystal

< Unabsorbable >

<Note > Unknown level. It only represents the current state of the ominous body and has nothing to do with strength.

“F*ck!”

Han Fei’s face turned green. After a terrifying-level ominous creature, a destruction-level one had appeared, and it had awakened intelligence. It meant that this guy knew exactly what he was doing.

“All races~”

A hoarse voice came from the creature’s mouth, and his hand had almost reached in front of Han Fei.

“Emperor Sparrow~”

At this moment, Han Fei didn’t dare to be negligent. Taking advantage of the moment when Carefree Roaming blocked this guy, he had already completely activated his Great Dao and summoned the Emperor Sparrow.

However, in the face of an immortal-level powerhouse, it was probably too late.

“Puff ~”

Crack!

This destruction-level ominous creature clawed at Han Fei’s chest. Although Han Fei had retreated fast enough, he was still touched.

Although his injury was not serious, Han Fei could feel that five claw marks had broken his defense, and his wound was burning with pain. In fact, it was not pain, but ominous power corroding his body.

Furthermore, cracks appeared on the God’s Prayer Bead again. Although it was an ultra-quality godly weapon, in this battle between darkness and light, the God’s Prayer Bead was clearly no match and almost shattered.

“Body Burning with Hellfire!”

Whoosh!

At the same time, the Emperor Sparrow took action. This ominous lifeform directly burned up, and its attack immediately slowed down. As for the Emperor Sparrow, he shed blood tears.

“Come on, cleanse him.”

The Emperor Sparrow was clearly injured, but he was not afraid. The destruction-level ominous lifeform seemed to be burned too badly. Black smoke billowed all over its body as it spun in the air and attacked randomly.

Upon seeing this, Han Fei shouted, “Heaven Enlightenment Divine Technique.”

With the Hellfire Body Burning Technique and the Heaven Enlightenment Divine Technique, one burnt the negative energy, and the other purified the ominous power. For this attack, Han Fei directly sacrificed 10,000 years of his lifespan. For no other reason than, he just wanted to get the level-five energy crystal.

It was a level-four energy crystal just now, and now it was a level-five one. These things were definitely very useful.

Although this destruction-level ominous lifeform was an Immortal-level creature, be it the Emperor Sparrow or him, they were natural counters to him. The probability of winning this battle was not small.

After activating the Heaven Enlightenment Divine Technique, Han Fei roared and activated the Invincible Eyes. He activated the Ragnarok and launched the Carefree Roaming again, doubling his power with the Time Arcane Technique.

“Puff! Puff! Puff!”

At this moment, other ominous creatures in the surroundings had rushed over. Han Fei roared, “Turtle Shell Sealing Technique!”

Buzz!

The turtle shell sealed the sky, and the array blocked the path of those ominous creatures. Then a hundred thousand God Sealing Spears surrounded it and finally suppressed the destruction-level ominous lifeform in the array.

At this moment, a big hole had been poked in this ominous creature’s body, and a tremendous amount of black smoke dispersed from his body.

Roar!

“I’m going to kill you.”

“You can’t leave. Hahaha... Ah...”

“Help me!”

“Damn all the races.”

The ominous creature roared, begged for mercy, and was angry. Its voice turned into an old man’s, a woman’s, and a child’s. All kinds of voices burst out of its body.

Han Fei’s eyelids were jumping crazily. What the hell is this? Is this what the ominous was like?

Terrifying-level, Destruction-level. Were there any other levels?

Han Fei knew that it couldn’t be that simple before the terrifying level. And the destruction level couldn’t be the end of ominous lifeforms, or it would have been destroyed 800 times.

Finally, perhaps because the burning of the hellfire was too terrifying and Han Fei spared no expense in purifying it, this destructive-level ominous lifeform was finally burnt up alive.

Han Fei secretly breathed a sigh of relief and grabbed the level-five energy crystal. Of course, he had no time to study it now. Although the Turtle Shell Sky Sealing Array was powerful, there were more and more ominous creatures outside. If he didn't run now, the Turtle Shell Sky Sealing Array might be broken.

[God of Fishing](#)

Chapter 2948: Thunder Sound Ancient Temple in the Sea of Star (4)

2948 Thunder Sound Ancient Temple in the Sea of Star (4)

"Let's go!"

Han Fei was about to enter his Origin Star and almost entered the spatial node. But suddenly, Han Fei was shocked. He saw that a hand suddenly stretched out from outside the spatial node.

Buzz!

Han Fei felt his vision go dark, and then he fell heavily to the ground, raising a cloud of smoke and dust. Like Han Fei, the Emperor Sparrow fell flat on his face, his legs erect in the sky, his head twisted 360 degrees, and his tongue stuck out.

"Who is it?"

The man and the bird turned over quickly and looked around warily.

Then, Han Fei saw that the place in front of him was that temple in the void. Who brought him here?

On the door of the temple, four words were written: "Thunder Sound Ancient Temple".

"Gulp ~"

Han Fei swallowed. He didn't feel any threat around as if no one had taken action just now.

He said, "Emperor Sparrow, we were captured and thrown here just now, right?"

The Emperor Sparrow's feathers stood up as he looked at the temple warily. "That's right. To be able to forcibly sever your connection to your Origin Star in that instant and bring you hundreds of millions of kilometers away, according to my inherited memories, I seem to be able to do this at my strongest state."

Han Fei's face changed slightly. "So, it's at least a Great Monarch?"

"No, in my inherited memories, I was a god back then, so..."

"A god?"

Han Fei felt that his blood was freezing. Had he recently had any conflicts with the gods? He could encounter them wherever he went. Wasn't it said that the gods had disappeared and died? Where did so many of them suddenly emerge from?

The Emperor Sparrow stood on Han Fei's shoulder again and said indifferently, "Treat me first."

Han Fei asked, "Are you injured?"

The Emperor Sparrow turned his head to stare at Han Fei. There was blood in his eyes. "You finally remembered me when you were dealing with the ominous creatures of the Immortal Level. I've just entered the Dao Proving Level!"

Han Fei asked, "Can't you fight someone two levels higher than you?"

While talking, Han Fei cast the Heaven Enlightenment Divine Technique on the bird.

The Emperor Sparrow said angrily, "I can jump levels, but it doesn't mean that there's no price! Besides, the realm of that thing just now is much higher than mine. He's almost at the peak of the Immortal Level."

Han Fei said, "I don't know if he's at the peak of the Immortal Level, but he's dead now."

After that, Han Fei didn't wait for the Emperor Sparrow to speak. Instead, he cupped his hands and said, "I'm Han Fei, the current successor of the Void Temple. It's an honor to meet you, Senior, may I ask why you've summoned me here?"

The Emperor Sparrow fell silent too. He was a little scared. He could try to fight an Immortal-level enemy, but if it were a god, he and Han Fei would be killed by a single slap.

After waiting for a while, seeing no response, Han Fei said again, "Senior, are you there?"

The Emperor Sparrow patted Han Fei's head with its wings and pointed at the door of the Thunder Sound Ancient Temple. "That door is unlatched."

Han Fei looked at the door of the Thunder Sound Ancient Temple and his eyelids twitched. It was indeed unlatched. Was he going in?

Han Fei said, "It's not good to enter uninvited, is it?"

"Didn't you already introduce yourself? He just ignored you."

Han Fei nodded slightly. This guy ignored him but grabbed him here. First of all, this guy was definitely not playing with him, nor was he trying to kill him. Otherwise, the moment just now would have been the best time to attack. He might not even have had time to call his Eldest Senior Brother.

Han Fei took a deep breath and came to the gate.

Clang! Clang! Clang!

"Senior?"

"Senior, I'm in!"

"Senior, please forgive me for my offense."

Creak!

Han Fei pushed the door open, and his hand was stained with dust. Obviously, no one had been here for a long time. He couldn't see anything inside, so he took a moment to sense his surroundings, ready to activate the Void Mark at any moment.

When Han Fei stepped into the door and stuck his head out, he seemed to see huge figures that posed in various shapes and postures in the darkness.

“Statues?”

At this moment, Han Fei had completely walked in.

Boom!

Suddenly, the door behind him closed. Han Fei looked back and smiled.

Han Fei said again, “Senior, I came to visit without an appointment. Please forgive the intrusion.”

Boom~

Suddenly, the two rows of lights on the left and right began to burn one after another like fish and dragons dancing. When he looked again, he saw twelve huge statues, like gods and buddhas, posing in various postures, all looking at the door.

“F*ck...”

Han Fei muttered to himself, What the hell is this place? It’s like a temple of horror.

“The trial of the Thunder Sound Ancient Temple is about to begin. There is no time limit for this trial. Those who pass the trial can leave. Those who fail... will be killed.”

God of Fishing

Chapter 2949: Trial in the Thunder Note Ancient Temple (1)

2949 Trial in the Thunder Note Ancient Temple (1)

The sudden heavy voice broke the silence in the temple.

“Trial?”

Han Fei’s face changed slightly and he couldn’t help but frown. This trial was too strange. It actually took the initiative to capture a person billions of kilometers away here to take the trial.

Besides, Han Fei didn’t know if it was a trap or really a trial.

If it was really a trial, this was probably a trial field set up by a god as the Emperor Sparrow guessed. The danger was self-evident. But if one could pass the trial, the benefits were also self-evident.

However, he was brought to this place by the Heavenly Race’s god. Since the Heavenly Race’s god knew that there were ominous creatures outside, he should know the reason why there were ominous creatures here was the existence of this Thunder Note Ancient Temple.

Could the Heavenly Race’s god be so kind as to give him a trial?

Han Fei didn’t think that the damn god could be so kind-hearted. That guy was quite ruthless, as could be seen from how he schemed against him and the Primordial Star Tree. Therefore, if the Thunder Note Ancient Temple was also arranged by him, this trial couldn’t be that simple.

Han Fei tried to communicate with his Origin Star, only to find that he couldn't contact it anymore. Even his perception was completely suppressed and couldn't even leave his body.

Under such circumstances, Han Fei naturally didn't rashly barge in. Instead, he directly activated the void mark and contacted his senior brother.

"Eldest Senior Brother, are you there?"

"Little Junior Brother."

Han Fei breathed a sigh of relief when he heard his Eldest Senior Brother's voice. Sure enough, his Eldest Senior Brother was awesome. His Eldest Senior Brother was omnipotent. In this domain of a god, his Eldest Senior Brother could still react instantly. Look, this was strength, this was the source of his confidence.

Han Fei said, "Eldest Senior Brother, I'm trapped in a strange place called the Thunder Note Ancient Temple. Do you know this place?"

Eldest Senior Brother said, "I do. This is the temple of Ancient God Thunder Note, who was in charge of lightning in the primeval era. He was the one who released the Chaotic Thunder Sea and resisted the ominous three thousand years alone."

"So powerful?"

Han Fei was shocked. A great god from the primeval age who blocked the ominous alone? How strong was he?

However, Han Fei didn't marvel at the strength of this god. The stronger this god was, the more dangerous he would be.

Han Fei quickly explained the current situation and then said, "Eldest Senior Brother, do you think I should take this trial?"

Eldest Senior Brother said, "I'm afraid you have to take this trial. The place you are in is the temple of the Ancient God of Thunder Note. Although he has died, this place is formed from his divine domain. If I forcefully break through this domain, you will be annihilated along with this place. Therefore, I can only give you a reference. In the history of the Void Temple, there were 11 people who took the Thunder Note Ancient Temple's trial. But only one person walked out alive, who is your senior brother, Lei Heng."

Han Fei's face changed slightly. The potential of a person who could enter the Void Temple was obvious. Even among the disciples of the Void Temple, only Senior Brother Lei Heng had successfully passed the trial. The survival rate was not even 10%!

Besides, even his Eldest Senior Brother couldn't take him out. This situation was a bit tricky.!

The Eldest Senior Brother said, "Little Junior Brother, wait a moment. Lei Heng should be able to give you better advice."

After a while, Han Fei felt that a voice sounded in Han Fei's mind from the void mark.

“Little Junior Brother, I heard from Eldest Senior Brother that you are now in the Thunder Note Ancient Temple? Tell me, which b*stard tricked you into going to that damn place?”

Han Fei hesitated for a moment. “Well, Senior Brother Lei Heng, can we talk like this?”

Lei Heng nodded. “Of course. In the Thunder Note Ancient Temple, you can’t enter the Void Temple and can only contact us through the void mark. Have you entered the Thunder Note Ancient Temple now?”

Han Fei said, “I’m already inside, and the trial seems to be about to begin.”

“Damn it, how did you get to that place? Who took you there?”

Han Fei said, “The god of the Heavenly Race.”

Lei Heng immediately cursed, “That damn god! He’s very insidious! You’ve been tricked by him.”

The moment his Eldest Senior Brother said that he couldn’t take him out, Han Fei knew that he had been tricked.

That damn god of the Heavenly Race tricked him into using his trump card for nothing and was sure that he wouldn’t return to the Sea Realm through his Origin Star. He guessed that Han Fei would leave the Thunder Region alive and that Han Fei would meet the Thunder Note Ancient Temple.

This damn god knew that he couldn’t kill Han Fei, so he led him to desperation step by step!

Han Fei asked solemnly, “Senior Brother, is there anything you can teach me about this trial?”

Lei Heng said, “Little Junior Brother, don’t move or walk around now. Remember, as long as you don’t enter the Hall of Gods, the trial won’t start.”

Han Fei looked at the twelve statues looking at him. The so-called Hall of Gods should be referring to this, right?

Han Fei asked, “Then?”

Lei Heng said, “Little Junior Brother, you must remember what I’m going to say next. As I’ve experienced this trial, I can tell you that this trial is too dangerous. After entering the trial, you will know that there have been nearly a million people who have taken the trial of the Thunder Note Ancient Temple since the primeval era. But including me, there are only three who made it out alive.”

“What?!”

Han Fei was shocked. Only three people out of a million survived this trial?

Those who could enter this place to take the trial were definitely all Monarchs with extraordinary talents. But only three people survived?

[God of Fishing](#)

Chapter 2950: Trial in the Thunder Note Ancient Temple (2)

2950 Trial in the Thunder Note Ancient Temple (2)

Lei Heng said, "I'm not bragging. I can pass it because I'm the spirit of lightning. I was born from lightning, so I was born with a lightning body and can transform into lightning. Most of the time, I'm immune to lightning. Even the heavenly tribulation can't hurt me. I'm born with special conditions, but Junior Brother, you need to act according to your own situation."

Han Fei's face sank. It seemed that Senior Brother Lei Heng passed the trial because of his innate talent.

Lei Heng continued, "First of all, the first step to pass the trial in the Thunder Note Ancient Temple is to master the Dao of Lightning and the law of lightning. Since you've been in the Thunder Note Ancient Temple, you must have experienced the Chaotic Lightning Domain, so you must know that it's difficult for anyone below the Immortal Level to survive the Chaotic Lightning Domain. And this is exactly the first level of the trial. I passed it directly. However, if you haven't mastered the Dao of Lightning and the law of lightning, the first level of the trial will be very dangerous. This is because those who haven't taken this Dao won't even be able to survive a hundred days in the Chaotic Lightning. Who can create a new Dao and comprehend a new law in such a short period of time?"

Han Fei asked, "So, if someone who hasn't mastered the Dao of lightning comes in, there's a 90% chance that he won't be able to survive the first level of the trial?"

Lei Heng nodded. "That's right. So, before the trial begins, it's your chance. You have to take this opportunity to comprehend the Dao of Lightning. Don't worry. This place is known as the Thunder Note Ancient Temple. It's not difficult for you to master the Dao of lightning. The law of lightning will take you some time, but it won't be a problem either. In this environment, if you're fast, you can comprehend it in a hundred years. In this way, the probability of passing the first level of the trial will greatly increase."

"A hundred years?"

Han Fei's expression changed. How did he have a hundred years? He had prepared to enter his Origin Star and return to the Sea Realm at any time. Who knew that this would happen?

Han Fei was silent for a moment. "What will happen after the first level of the trial?"

Lei Heng said, "Actual combat. As a place of terror that blocked the ominous in the past, the Thunder Note Ancient Temple is still surrounded by ominous creatures. Because the ominous doesn't want to see anyone inherit the inheritance of the Thunder Note Ancient Temple, it has never given up on the Thunder Note Ancient Temple. If a Great Monarch or a god descends, it's very likely to trigger an ominous god battle. Therefore, the second trial is actual combat, and your enemies are ominous lifeforms."

Han Fei said, "I think that's not very difficult for me."

Lei Heng said, "Don't underestimate the ominous creatures. Since you've reached the Thunder Note Ancient Temple, you must have known some secrets about the ominous creatures. The known ominous creatures are divided into parasite-level, pollution-level, corruption-level, terrifying-level, destruction-level, world-ending level and doomsday level... There seem to be two more, but Eldest Senior Brother didn't mention them, so I don't know. Near the Thunder Note Ancient Temple, there are mainly terrifying-level ominous creatures and a small number of destructive-level ones. Terrifying-level ominous creatures have no intelligence, but their strength is definitely not weak. There are easily tens of thousands of them. Destruction-level ominous creatures have intelligence and can actively devour the

ominous, so their strength is usually very strong. It's very likely that they are Immortal-level. The second trial is to survive the attacks of these two types of ominous creatures."

Han Fei understood. He had experienced this before. Although the ominous creatures were not powerful to him, under the siege of tens of thousands of them, less than ten percent of people could survive.

For example, when he left the Chaotic Wasteland, he only killed less than 50 people in total, but he felt that he had reached his limit. Although it was better now than then, Han Fei had already tried. Under the circumstances of restraining ominous lifeforms, his limit was about 500. His spirit could withstand more, but his body would be numb. At most 800 would be enough to kill him.

Han Fei said solemnly, "It sounds like there is the third level of the trial."

Lei Heng said, "The third level is the speed trial. This is the first inherited technique of the Ancient God of Thunder Note. To complete this trial, don't think about using your physique to withstand it. You have to run, keep running. When you finish to a certain point, you will pass this trial. Remember, don't stop. Once you stop, you might be finished..."

The corners of Han Fei's mouth twitched. "Are there any more levels of the trial?"

Lei Heng nodded. "Yes, the Ancient God of Thunder Note not only has thunder in his name, but also sound. Thunder Note can refine the soul and be extremely lethal. Little Junior Brother, remember to collect as many energy crystals as possible in the second level of the trial. The higher the level, the better. I almost died in this trial."

Han Fei asked, "Is that all?"

Lei Heng said, "Yes... I can tell you about the first four levels of the trial, but the fifth one... If you can get there, try it yourself. Junior Brother, if you can't walk out of the Thunder Note Ancient Temple... I'll help you destroy the Heavenly Race. How dare that damn god bully my junior brother? He has already started to use any means. Eldest Senior Brother, that god deserves to die."

Eldest Senior Brother said, "I can't go to the place where the god of the Heavenly Race is for the time being. It's not that I can't, but once I embark on that path, I won't be able to return. Unless one day, Shen Le can take my position. If I embark on this path, the god of the Heavenly Race will definitely die."

Lei Heng was silent, so was Han Fei. He didn't want to ask what the path was exactly, and his Eldest Senior Brother probably wouldn't tell him. Obviously, to take that path, one had to be a god first.

The God of War had personally said that he wasn't qualified to embark on that path yet, which was enough to prove this.

Han Fei took a deep breath and said, "Senior Brothers, if I can't return and the human race is in danger, please help them. Just take it that I've used the void mark."
