Chapter 2981: I Have A Tribulation to Kill Immortals (1)

2981 I Have A Tribulation to Kill Immortals (1)

It would take hundreds of years for a sea of insects to erupt. The sea of insects was so dense that the defense line of the seaweed city walls of hundreds of thousands of kilometers was annihilating at a visible speed. Some were drained of their vitality, annihilated, and some were gnawed away.

Among them, there were multiple worm tides that charged forward crazily, trying to open a channel through the seaweed city wall.

The undead army of the human race was resisting bravely.

For a time, in the wilderness, killing intent soared.

And this time, among the demonic insects, wrapped in dense insect tides, one insect after another appeared, emitting golden light.

Bang! Bang! Bang!

Golden light bloomed, and the light of purification spread on the seabed. For a moment, a large number of human undeads were purified and disappeared.

Han Fei watched this scene coldly, but he knew that now was not yet the time to take action. With the insect sea as the vanguard, the sea demon tide would arrive in less than four hours. The Divine Demon Forest, the Light City, and the ancient demons hadn't launched attacks yet, so Han Fei had to wait.

Four hours passed.

The sea demon tide had finally arrived. As the sea demon tide was launched, the Divine Demon Forest showed up. A billion soldiers from the Central Sea Divine Realm descended on the Seaborne Prairie. These people were not humans, but all kinds of demon plants.

These demon plants took root in the Sea Grassland and grew rapidly, wantonly destroying the Seaborne Prairie and seaweed city walls.

Luo Xiaobai ordered, "The ten legions, clear the way. Kill."

Each of the ten legions of the human race had 100,000 Sea Establishers. The strong opened the way, and the weak fought off the enemy.

Sure enough, in the sea demon tide, a large number of Sea Establishers soared into the sky, and there were also a million Sea Establishers from the Central Sea Divine Realm.

Knock, knock, knock!

As the Sea Establishers entered the battlefield, the army of the 10 billion soldiers from the Central Sea Divine Realm all entered the battlefield, and formed an alliance with the sea demons and the insect sea to attack the defense line of the human race.

The first offensive and defensive battle officially entered a battle of close combat.

“Kill!”

“Brothers, let’s kill these b*stards. If we die, we’ll just turn into undeads.”

“A hundred years of bitter cultivation is just for this battle. Kill.”

“If you have the guts, destroy our human race. Otherwise, sooner or later, we’ll kill your entire clan and dig your ancestors out of their graves.”

Bang!

Rumble!

For a moment, roars, slashing sounds, the roars of great techniques, the sound of armor detonating, and the sound of self-detonation rang ceaselessly.

The war in the wilderness was much fiercer than in the Chaotic Wasteland. In just one clash, hundreds of thousands of people had died.

In just an hour, this place had turned into a sea of blood, and more than a million humans had died.

Luo Xiaobai said, “All the Sky Openers, fight.”

Luo Xiaobai looked at Han Fei in the void. The early appearance of the Sky Openers was bait. Now it was up to Han Fei.

Sure enough, when the human Sky Openers stepped into the void, the other party immediately sent out more than 30,000 Sky Openers.

At the same time, the other party’s first round of probing began. In the seaweed walls, the places that hadn’t been penetrated suddenly turned into a sea of fire. Someone activated the eight blazing sun-like stars and made them roll on the seabed.

This was only a method of the Sky Opening Realm, but also the limit of the Sky Opening Realm. The combination of the eight stars was completely comparable to a Monarch.

Because the human Sky Openers joined the battle, the other party used this method.

It was also at the moment when this method was used that a group of Monarchs appeared on the floating giant ship. They wanted to force the human race’s Monarchs to join the battle.

In that case, they could capture and kill human Monarchs.

If the human Monarchs didn’t take action, these eight blazing stars were almost unstoppable.

This was the other party’s way of testing, because these stars contained the power of purification, which was not something the undead humans could resist.

The other party was forcing the Void Temple to take action. If the latter didn’t take any action, these stars would open eight passages through the seaweed city walls.

When the tide of sea demons passed through the seaweed walls like a flood, the human race would suffer heavy losses.

In the sky, the Monarchs of the Central Sea Divine Realm looked indifferent, and some even had a teasing look on their faces.

Someone said, "This commander of the human race can really endure! If she still resists this time, won't we have to wait another hundred years?"

Someone said indifferently, "The last time was an accident. Perhaps there were too many battles and the battles were too intense, so it triggered an anomaly in the Godfiend Sea. But this situation only happened once, and now the battlefield has changed. I'm afraid it won't happen again. No matter how much Luo Xiaobai can endure, she can't afford it this time."

Someone smiled. "Actually, I'm looking forward to her continuing to endure. If she endures it this time, we can definitely kill another 50 billion human beings. At that time, there will be less than half of the humans left. Then next time, they might be wiped out."

Someone echoed, "That's right! It's useless to endure it. The human race can hold out for another three or five hundred years at most. We can just take it as a chance to train our soldiers."

Someone pondered. "Now, the only thing we don't know is where Han Fei is. It's said that he has returned but hasn't shown up yet. I'm afraid he's planning something."

At this moment, a deep voice came from behind everyone. "What can he do? If this wasn't the East Sea Divine Realm where it's difficult for us to mobilize troops, the human race would have died long ago. On the frontal battlefield, it's only a matter of time before the human race is destroyed. As the Human Emperor, Han Fei will definitely appear. He has to save this human race even if he doesn't want to. When the void mark is used, it will be his death."

Chapter 2982: I Have A Tribulation to Kill Immortals (2)

2982 I Have A Tribulation to Kill Immortals (2)

Everyone looked back, only to see a burly middle-aged man holding a trident with two short horns on his head slowly walking over.

Everybody frowned and stepped back. This was Gu Meng, the commander of the Ancient Demon Race. He was a domineering and unlikable man.

"Giggle!"

Then, a spider silk descended from the sky, and a beautiful woman who was half human and half spider descended. "Human beings! Their biggest problem is that they are unwilling to give up. Isn't it good to turtle up? They have tried to rise again and again. This time, it's best to wipe them out in one fell swoop. It's best if I can see Han Fei. His flesh and blood should be delicious."

Gu Meng glanced at the woman. "You Dunv, the insectoids have suffered three defeats. I hope you won't disappoint me this time."

The beautiful spider woman said disdainfully, "You simple-minded idiot. The human race is not made up of 180 billion insects. How can our insect race fail? Use your brain!"

"Alright, the human race hasn't been wiped out yet. Let's not have internal strife."

Gu Meng was about to glare at You Dunv, when an ice flower bloomed and a girl walked out. She looked pretty and even a little cute, but her eyes were filled with coldness.

You Dunv chuckled. "Wood Demon Shanshan, keep pretending to be innocent! You're already so old, yet you're still dressed like this."

Wood Demon Shanshan glanced at You Dunv coldly and then turned her eyes to the battlefield. "Han Fei must appear in this battle."

Buzz!

Just as Wood Demon Shanshan said so, bang, bang~

Suddenly, the eight blazing stars stopped rolling at the same time. A proud figure was standing on one of the stars with his hands behind his back.

On each star, there was an identical proud figure.

As the figures waved their hands in unison, the eight perfected Star Transformation Realm cultivators who were pushing the blazing stars exploded without even having a chance to react.

"A human Monarch took action?"

"Hahaha! This is the moment we've been waiting for!"

The Monarchs of the human race had never shown up, so they had no chance to come out. If they attacked the human race's Monarchs first, the one protecting the human race would take action.

However, if the Monarchs of the human race took the initiative to take action, it would be a different story. If they attacked, it meant that they had participated in the battle.

Therefore, on the side of the Central Sea Divine Realm, some people immediately became excited.

All of a sudden, twelve figures rushed out. They had been in the East Sea Divine Realm for four hundred years, but they had never had a chance to fight.

Now, a Monarch of the human race finally took action. Their first reaction was that the human race sacrificed a Monarch to stop this test.

However, not everyone was so excited. For example, Wood Demon Shanshan shouted, "Come back."

However, these people were all from the major forces in the Central Sea Divine Realm. Although Wood Demon Shanshan was a strong master from the Divine Demon Forest, she was not qualified to command them.

Therefore, she only stopped three people.

The three people hesitated for a moment and reacted a little slowly.

The other nine people had already rushed over.

“Hahaha! Human Monarch, come and fight me for thirty rounds.”

“Everyone, don’t kill him. Capture this person, cut off his head and hang it high in the sky to intimidate the human race.”

Boom!

Suddenly, lightning exploded out of thin air, and cracks appeared.

“Puff! Puff! Puff!”

In the sky, lightning exploded like fireworks, forming an angular lightning mark where the powerhouses from the Central Sea Divine Realm were.

“So fast.”

“Not good.”

In the blink of an eye, the nine Monarchs, including three Carefree-Level cultivators, were all killed. All nine of them were captured and killed in a second.

The remaining phantoms of the Soul Suppressing Godly Weapons in the sky indicated that the Soul Suppressing Godly Weapons had appeared at the moment of their death, but they were instantly destroyed.

Rumble!

Rumble!

In the sky, there were nine Great Dao cracks in a row. Seeing this, countless strong masters from the Central Sea Divine Realm were shocked.

“How is it possible? He’s so strong!”

“No, he’s clearly at the Carefree Level. He is only at the Carefree Level!”

“How can a Carefree-Level cultivator be so fast?”

“No, this person is Han Fei. He is Han Fei.”

Not just the people from the Central Sea Divine Realm were dumbfounded, on the human side, the God of War, Liu Qiansi, the elders of the Lava Giant Tribe, and even Chu Hao were dumbfounded.

Liu Qiansi shouted in shock, “Master is so strong! What did I see? Is this the power of the Immortal Level? Wow, he killed nine Monarchs so easily. How can he be so strong!”

The corners of the God of War’s mouth trembled. “Now I really can’t understand this kid at all!”

Chu Hao looked at the lightning mark in the void and seemed to think of something. “Is this the inheritance of the Ancient God of Thunder Note?”

Luo Xiaobai smiled slightly as if she was relieved.

Sure enough, only when he was around could the human race be stronger.

Han Fei was very strong and few people in his realm were his match. If he took action, the people besieging him would have to consider whether they would be the first to die.

If it were someone else, such as Liu Qiansi, he might have been caught and killed in a single clash with the enemy. This was why Luo Xiaobai had never allowed the Monarchs to fight.

Han Fei waved his hand, grabbed the nine corpses, and threw them into his Origin Star.

Before the human race and the army of the Central Sea Divine Realm knew what had happened, they saw the sky full of Great Dao cracks.

Then, Han Fei stood proudly in the sky and his voice rumbled throughout the world, "I am Human Emperor Han Fei. I, have returned."

[God of Fishing](#)

Chapter 2983: I Have A Tribulation to Kill Immortals (3)

2983 I Have A Tribulation to Kill Immortals (3)

When he said that I have returned, it caused a great uproar. The hundreds of billions of humans felt their hearts tremble.

Someone cried with joy and his voice was trembling. "The Human Emperor has returned. Master Human Emperor has finally returned. The human race is saved."

"Master Human Emperor, I knew that you wouldn't abandon me."

"Hahaha! Master Human Emperor has returned. You shall all die."

"Master Human Emperor is invincible. Even if there are so many Monarchs, so what? Our human race is going to win."

"Master Human Emperor has returned. We're going to win. Brothers, let's kill!"

The undead human beings couldn't hide their excitement either.

"We've finally waited for the return of Master Human Emperor! Finally!"

"I have no regrets in death. Master Human Emperor will wipe out all enemies."

Yes, the human race's worship of Han Fei had reached a fanatical state. This was because they knew that Han Fei had never lost. Any enemy of Han Fei would be destroyed.

Although the strong masters of the Central Sea Divine Realm were gathered here, they trusted their emperor more.

The news of Han Fei's return seemed to have ignited the hearts of all human beings. They felt their blood boil and their combat power soar.

The two elders of the Lava Giant Race couldn't help but look at each other. "This is what we call charisma!"

On the side of the Central Sea Divine Realm, some of the Monarchs looked scared, but there were also many who felt refreshed.

“After more than 400 years, he’s finally back. Alright, the doomsday of the human race has arrived.”

“Since you’re back, don’t even think about leaving again.”

“Finally, this battle is about to end.”

Gu Meng, the Eight-Bone War Monarch of the Ancient Demon Race, suddenly laughed ferociously. “It’s great that you’re back. I’ve been waiting for you for so long.”

Han Fei sneered and stretched out his hand. The eight blazing stars floated into the air and suddenly smashed at the floating giant ship.

“I said that anyone who offends our human race will be killed without mercy. Since you’re here today, you can forget about leaving.”

The void shattered and eight stars appeared in a row. Outside the huge ship, 49 peak-level Carefree Level cultivators and 127 peak-level Dao Provers all came out.

However, different from the previous battle, they knew that Han Fei was extraordinary, so this time, the peak-level Carefree-level cultivators took the lead. Firstly, these peak-level Carefree-level cultivators had lived for countless years in the Central Sea Divine Realm and were not the younger generation. Their strength was not comparable to ordinary peak-level Carefree-level cultivators.

Even those at the peak of the Dao Proving Level were all old monsters. There was not much difference between the Dao Proving Level and the Carefree Level. Almost all of these old monsters could fight Carefree-level cultivators. Therefore, these people were not afraid of Han Fei’s strength.

In their opinion, no matter how strong Han Fei was, he was still a member of the younger generation. In terms of cultivation, experience, and comprehension, he was inferior to them. The people who had died just now were nothing but fools in their eyes.

If these people were still no match for Han Fei, it meant that Han Fei had the Immortal-level combat power, so it was only natural for Immortal-level cultivators to take action.

Of course, they didn’t expect to kill Han Fei with Immortal-level combat power, but they were confident that they could definitely force Han Fei to use the void mark.

Therefore, with Han Fei’s appearance, the battle between Monarchs immediately began.

The 49 peak-level Carefree-level cultivators attacked together. The laws surged and instantly pressed down, and the eight stars exploded.

Boom Boom Boom ~

The terrifying power of the starburst shattered the void, the fire rolled out for tens of thousands of kilometers, and the energy poured into the endless void crazily. Even so, the power swept nearly tens of millions of kilometers away.

This power could be felt even on the human battlefield.

The God of War, Liu Qiansi, and the two elders of the Lava Giant Tribe could only protect the battlefield. Han Fei's current battle had exceeded their strength. Although they were also Monarchs, they knew that they couldn't even resist the eight stars, let alone participate in this group battle.

Luo Xiaobai's voice spread across the human battlefield. "My fellow humans, the Human Emperor has returned. Let's cherish our lives and turn to defense, waiting for the Human Emperor to kill the enemy."

Someone laughed. "Brothers, did you hear that? Cherish our lives. The Human Emperor has returned. We're about to win. We have to keep our lives to witness the golden age of the human race."

"Did you hear that, everyone? If you can't beat them, shrink the front line. Don't risk your lives. Repeat, don't risk your lives."

"Brothers, this battle is the battle of the Human Emperor. If the Human Emperor wins, the human race wins. Guard well. Don't be accidentally killed."

...

Tens of millions of kilometers away, in the flames that filled the sky, Han Fei stepped into the void like a dominator of flames. With a boom, thousands of lightning bolts filled the sky.

On the side of the Central Sea Divine Realm, many people who surrounded Han Fei were instantly shocked.

Bang!

When everyone was in shock, one person had already been pierced. Both he and his Soul Suppressing Godly Weapon were shattered in an instant, his soul was shattered, and his remnant body scattered on the sea.

"No, this is Lei Heng's technique."

"Not good! It's the Thousand Thunder Flash, the unique killing technique of the Ancient God of Thunder Note."

"How is it possible? He, he actually broke into the Thunder Note Ancient Temple?!"

They finally realized that something was wrong. Han Fei had exceeded their imagination.

Boom!

Thousand Thunder Flash was activated again, and a lightning ring appeared. Within the range of the lightning ring, three people had nowhere to hide. In an instant, lightning jumped between the three of them and burned them.

"It's that thunder technique, Lei Heng's Twelve Thunder Seal Technique, the legendary Twelve Thunder Seal Technique."

[God of Fishing](#)

Chapter 2984: I Have A Tribulation to Kill Immortals (4)

2984 I Have A Tribulation to Kill Immortals (4)

At this moment, these old monsters panicked. They all knew where the Thunder Sound Ancient Temple was. Countless forces had once flocked to it. However, no matter how many people entered it, no one came out alive. Even Great Monarchs couldn't come out.

Later, they gave up the Thunder Note Ancient Temple, believing that it was not a place for humans to enter because it was a dead end.

But today, other than Lei Heng, someone else had used the supreme Thunder Technique again. How could they not be shocked?

Bang!

"Pfft!"

Boom!

In the sky, Great Dao cracks appeared one after another. In the blink of an eye, there were already thirteen Great Dao cracks, indicating the death of thirteen Monarchs.

It was not that they didn't want to block it, but they couldn't stop it at all.

The Thousand Thunder Flash was too fast. Han Fei's speed was nearly a thousand times the speed of light. It was not a speed that the Carefree Level could achieve at all. To match this speed, only an Immortal could.

According to this combat power, this was no longer a battle of the same level. No matter how many Dao Provers and Carefree Level cultivators came, under this horrible speed and terrifying combat power, they would still die.

The people from the Central Sea Divine Realm reacted very quickly. Immediately, several figures broke out of the void. It was an old man with white hair. When Han Fei used the Thousand Thunder Flash, this person turned into a beam of light and his speed exceeded a thousand times the speed of light. He could barely chase Han Fei.

It was not that he couldn't catch up with Han Fei's speed, but that if Han Fei used the Thousand Thunder Flash, he could appear anywhere in the lightning mark, so this old man would inevitably be slower than Han Fei. As long as Han Fei didn't fight him, he would never be able to catch Han Fei.

However, Han Fei discovered that although he would be one step ahead, as long as this person closely followed him, he wouldn't have a chance to kill these Monarchs at the Dao Proving or Carefree Levels.

"Han Fei, you brat, do you think you can win? So what if you have the inheritance of the Ancient God of Thunder Note? In the end, you are only at the Carefree Level."

This person tried to use words to force Han Fei to appear and fight him.

Around them, many Monarchs retreated. Fortunately, an Immortal-level cultivator took action. Otherwise, it would be really terrifying.

Everyone scattered, and someone sighed. "Fortunately, he's an Immortal-level powerhouse from the Light City. He's not afraid of lightning."

Someone sneered. “No matter how strong Han Fei is, so what? There is always someone stronger than him. In any case, Han Fei can’t escape death today.”

However, as soon as he said so, he suddenly sensed a life-and-death crisis. He didn’t even have a chance to activate his Star Bead. With a flash between his eyebrows, a mirror-type Soul Suppressing Godly Weapon appeared.

However, at that moment, he saw a huge hammer. On the hammer, lightning flashed and laws surged.

Crack!

The Soul Suppressing Godly Weapon mirror shattered.

The man was stunned. This was an acquired spiritual treasure! Why was it broken? But in a moment, a scorpion tail appeared between his eyebrows, and it seemed that his companion spirit was about to rush out.

Boom!

Ka ka ka ~

The scorpion tail was instantly crushed into powder. The man felt that his head was hit with a clang and then he lost consciousness.

Han Fei had never been an easy person to deal with. He was already prepared to fight this Immortal-level cultivator, but before this battle, he had to collect some interest and use his strength to shut these people up.

“How arrogant.”

The old man from the Light City followed him closely. The moment Han Fei was about to attack, he had already activated his Original Great Dao, boosted his combat power by four times, and swung his hammer at the sky. The power of this blow clearly exceeded the expectations of the strong master from the Light City.

Rumble!

There was a loud bang between the heavens and earth, and dust raged in the sky. One of the Immortal-level cultivator’s arms shattered into pieces. The law of light, like a mirror, also shattered.

Boom!

A bolt of lightning suddenly struck the Immortal-level cultivator, striking his soul and interrogating him. Han Fei was surrounded by a lightning waterfall. Before the Immortal-level cultivator woke up, the lightning fused into one and struck down. The Soul Slaying Lightning followed closely.

Half of the Immortal-level’s body was blown up by Han Fei, and his Soul Suppressing Godly Weapons floated out.

However, the lightning law couldn’t shake this thing.

“A Chaotic Spiritual Treasure?”

Han Fei made up his mind. "Steal."

He was already at the peak of the Carefree Level, and the other party was just at the Immortal Level. Why couldn't he steal it?

Then, the jade pot-like Chaotic Spiritual Treasure was snatched by Han Fei.

Boom! Boom! Boom!

The Ultimate Hammer was activated. However, an Immortal-level cultivator was still an Immortal-level cultivator after all, and their physique and strength were extremely powerful. Although Han Fei created a three-second window of opportunity, he failed to kill this old man and only crushed nearly half of his body.

On the side of the Central Sea Divine Realm, many people looked at each other in bewilderment. How could an Immortal-level cultivator be suppressed so easily?

Gu Meng: "Han Fei, let me fight you."

However, someone was even faster than Gu Meng. It was another Immortal-level cultivator. He didn't attack until he saw that the person from the Light City was obviously no match for Han Fei.

However, Han Fei suddenly turned his head, and with a swish, the Emperor Sparrow flew into the sky.

"Hellfire Burning!"

The newcomer was using a great technique, but he didn't expect this scene and immediately fell into the void.

As for the Immortal-level cultivator from the Light City, he had already woken up after weathering through the lightning attack. He was pale with fright and intended to escape first.

"Do you think you can escape? Lightning Reduction."

This space turned into a lightning domain, and this person's speed suddenly weakened by nearly half.

Bam! Bam! Bam!

The Ultimate Hammer erupted. The Ragnarok, the Dao of Slaughter God, the Invincible Path, and all kinds of techniques were fused. Every strike could shatter a large amount of the soul power of the old man from the Light City. His body cracked countless times.

Gu Meng finally took action and roared, "Han Fei, die!"

"Hehe!"

Han Fei laughed dryly and the Infinity Water appeared in his hand. The law patterns spread on the Infinity Water and it pierced through the Immortal-level cultivator from the Light City.

Facing Gu Meng, Han Fei jumped up and held the Thunder God's Hammer in both hands. "I have a tribulation to kill Immortals."

God of Fishing

Chapter 2985: Demon Purification Pot Appears (1)

2985 Demon Purification Pot Appears (1)

Between the heavens and the earth, the weather changed, and the laws surged on the Thunder God's Hammer. Behind Han Fei, the endless void opened, and a terrifying thundercloud suddenly appeared.

"Is this... Is this a heavenly tribulation?"

Gu Meng's face changed drastically and he was puzzled. How could a Carefree-level cultivator trigger the power of the Heavenly Tribulation? Was the Heavenly Tribulation a power that humans could control?

At that moment, although there were still Immortal-level powerhouses appearing at the periphery, no one went forward. Come on, should they go up and resist the heavenly tribulation?

Gu Meng roared, "Impossible! I don't believe you can activate the heavenly tribulation. I'd like to see how strong this lightning is!"

Roar!

Gu Meng's body turned into a demonic ape three hundred meters tall as he flew.

Knock, knock, knock!

The demonic ape stepped in the air, and with every step it took, nomological array patterns appeared under its feet. It held the trident in its hand, accumulated strength, and roared, "Primordial Demon Spear."

Law array patterns condensed on the tip of his spear, circle after circle, accumulating a total of eight law array patterns.

Boom ~

Bang! Bang! Bang!

Ka ka ka ~

The purple-black heavenly tribulation fell with a bang, but regardless of whether it was a divine technique or something else, the eight array patterns shattered one after another and could only block the heavenly tribulation for half a second.

"Ahhh~"

The power of the Primordial Demon Spear was instantly destroyed by the heavenly tribulation, and even the acquired spiritual treasure trident was shattered. The Demon Ape's entire body was enveloped by the heavenly tribulation, and its flesh and blood were dissipating at a visible speed.

In less than three seconds, the flesh and blood of the Demon Ape turned into nothingness. He hurriedly took out three door-shaped shields in an attempt to block it. At the same time, an acquired spiritual treasure-level battle suit appeared on the surface of his body.

In addition, Gu Meng took out six array talismans in a row and turned them into a law array, protecting him.

Crack! Crack! Crack! Bam!

Bang!

Bang!

The Heavenly Tribulation lasted for eight seconds, and Gu Meng was horrified. The three sets of acquired spiritual treasure-level magic weapons were actually all destroyed, and he was badly mutilated.

This was really a f*cking heavenly tribulation! And an extremely terrifying kind of heavenly tribulation.

On the side of the Central Sea Divine Realm, everyone exclaimed in horror.

“How is it possible? Can, can this guy really summon a heavenly tribulation?”

“If it weren’t for the fact that he had so many treasures, wouldn’t the Eight-Bone War Monarch have been blown to death on the spot?”

“Even Lei Heng can’t do that, can he?”

Wood Demon Shanshan said, “The power of this tribulation can kill anyone below the Immortal Level. Even Immortals can’t escape death without the protection of treasures.”

You Dunv narrowed her eyes. “This Human Emperor is indeed terrifying. As a Carefree Level cultivator, he fought three Immortals alone and crushed them. If we let such a person grow... he will definitely become a huge problem for us.”

Han Fei frowned slightly. The Heavenly Tribulation was very strong, but he still underestimated the Immortal-level powerhouses. They were not destruction-level ominous creatures, but strong masters from the Central Sea Divine Realm who had all kinds of means and magic weapons.

His heavenly tribulation had only destroyed three acquired spiritual treasures and seriously injured the other party.

“Humph, you’ve got a lot of treasures, right? Let’s see how many treasures you can take out today.”

Buzz!

Electric arcs flashed on the surface of Han Fei’s body, and lightning and fire burned in his eyes. The Mad Thunder Dao Body was activated, and lightning patterns appeared. Behind him, a Lightning Technique Divine Plate condensed. In the next moment, the Lightning Technique Divine Plate spun, and the power of the Heavenly Dao gathered.

“Take this! Supreme Divine Lightning!”

Like a king walking out of lightning, Han Fei looked extremely ferocious at the moment, like an unparalleled killing god.

The demonic ape that Gu Meng turned into roared and his dissipated flesh and blood gathered. His deep voice resounded throughout the world, "I am the Eight-Bone War Monarch. Han Fei, you brat, you've pissed me off."

"Roar!"

The Demon Ape's body expanded again, turning thousands of meters tall and extending eight arms at the same time.

"I dare you to grow another four heads!"

Han Fei stepped on the air, and with a swoosh, there were only lightning marks left in the sky.

Boom ~

This time, it was a competition of strength. However, in terms of strength, Han Fei believed that even if he was not yet an Immortal, ordinary Immortals couldn't compare to him.

Rumble!

Bolts of lightning struck the demon ape one after another, and every hammer strike dented its flesh and even broke its bones.

However, the overwhelming fist auras couldn't touch Han Fei's shadow at all. They could only shake the void and force Han Fei to appear by disrupting the space.

This method was actually quite effective. If the void shattered and spatial turbulence surged, the effect of the Thousand Thunder Flash would be greatly reduced.

However, even if it was a head-on clash, how could Han Fei be afraid?

When Han Fei appeared, the Demon Ape threw out eight punches at the same time, filling the sky with fist seas. Han Fei held the hammer in one hand and concentrated all his strength on one point.

"Ultimate Hammer."

Boom ~

Rumble!

Ka ka ka!

Waves rolled to the sky, the seawater collapsed, and smoke and dust filled the air. Two figures were sent flying millions of kilometers away at the same time.

Gu Meng, who had transformed into a Demon Ape, had returned to his original body, but his arms had disappeared, and his body was twisted like mud. It seemed that every bone was crushed.

More than half of his soul had been destroyed, and he had suffered an indescribable heavy injury.

As for Han Fei, he was also sent flying millions of kilometers away, but he ran back with Thousand Thunder Flash in midair.

Holding the Thunder God's Hammer, Han Fei twisted his neck and flexed his wrist. "The Eight-Bone War Monarch is so weak. If it weren't for your treasures, you would have turned into dust."

With that, Han Fei pointed at the air with two fingers. "Sword Four, Carefree Roaming."

God of Fishing

Chapter 2986: Demon Purification Pot Appears (2)

2986 Demon Purification Pot Appears (2)

Swish ~

The intimidating sword light pierced through the sky and the earth, vowing to kill this so-called Eight-Bone War Monarch.

At the moment Han Fei attacked, a giant spider phantom appeared out of thin air and blocked the attack.

Bang!

The spider exploded and turned into smoke. Carefree Roaming was still flying forward, but its power was reduced by 50%.

Then, a giant wood appeared in the air and crashed into Carefree Roaming.

Crack, Crack...

The giant wood was cut apart, but Carefree Roaming was also exhausted.

Han Fei turned to look at the two people who attacked. One was a spider girl, and the other was a girl with roots spreading out from her feet.

"You two ruined my business. Are you looking for death?"

Wood Demon Shanshan said, "Han Fei, we admit that you are very strong, but if only you are strong, how can you protect the entire human race? Today, you can't kill anyone."

You Dunv: "Honey, you're just too anxious. If you had lain dormant for a few years and returned after entering the Immortal Level, you might have been able to save the human race... Tsk, tsk, but now, you're still at the Carefree Level!"

As they talked, three more Immortal-level powerhouses appeared on Gu Meng's side.

Beside the Immortal-level cultivator that was being burnt by hellfire, two Immortal-level powerhouses appeared too to protect him.

Two people appeared next to the Immortal-level cultivator from the Light City too. However, the moment they appeared, Han Fei grinned. "It's up to me whether to kill them or not. Whoever I want to kill must die. Explode..."

Rumble!

The one from the Light City was pierced and sealed by the Infinity Water. As for the Infinity Water, it was now a super powerful weapon at the level of Chaotic Spiritual Treasure. It could certainly kill an Immortal-level cultivator.

The two Immortals who had just appeared hurriedly retreated. The terrifying self-detonation shattered the Immortal-level cultivator from the Light City, his body and soul both crushed.

With the death of an Immortal, the Great Dao crack was extremely terrifying. All the human powerhouses were overjoyed.

Someone laughed. "Master Human Emperor has started to slay Monarchs again. That feels so good."

"Let's see how many Monarchs the other party has. Is it enough for Master Human Emperor to kill?"

"Haha, I knew it. As long as Master Human Emperor returns, all enemies will die."

...

On Han Fei's side, he said casually.

"Emperor Sparrow, send that guy off."

"Demon Releasing."

"Frenzying Eye."

The Immortal-level cultivator who was being burned by the hellfire suddenly unleashed monstrous killing intent and suddenly attacked his two guardians. Because of his sneak attack, the hellfire burned another person.

Hellfire couldn't be extinguished. Once it was ignited, you just had to wait for it to burn out.

Therefore, there were now two people being burnt by hellfire.

The demon in the man's heart was released, and charmed by the Frenzying Eye, he charged crazily at Wood Demon Shanshan who was closest to him.

After all, he was an Immortal-level cultivator. His attacks were ruthless and domineering, and in the blink of an eye, three carefree-level cultivators had been crushed by him.

Instantly, on the side of the Central Sea Divine Realm, everyone's expression changed drastically. The power of the Emperor Sparrow exceeded their imagination. Without even looking at them, he directly activated cause and effect killing techniques. No wonder every time this creature appeared, someone tried their best to besiege and kill him. They had to kill him! When this thing grew up, who could withstand him?

Swish ~

Just as Han Fei was watching them how to solve this problem with a smile, he suddenly saw two black chains extending out of the giant ship.

"Rule Chains?"

Han Fei's pupils were constricted slightly. In the next moment, the two Immortals were bound by the chains. No matter how they twisted or went crazy, they couldn't break free.

Han Fei couldn't help but look at the giant ship. "B*stard, come out if you want to fight. Let's see if I can kill you."

"Villain."

A silver-haired young man slowly stepped out of the giant ship, followed by six people, all of whom were at the Immortal Level.

At this moment, the Dao Proving-Level and Carefree-level cultivators all fell silent. They had thought that this was their battle, but who knew that Han Fei was like a different person from 400 years ago? His strength had increased so quickly that it was no longer someone they could deal with. Now, they could only let the Immortal-level cultivators take action.

The silver-haired young man slowly walked over with a cold smile. "I'm out. Come and kill me."

Han Fei picked up the Thunder God's Hammer and spat. "Get your ass over here and have a one-on-one fight with me."

The silver-haired young man chuckled. "Idiot, this is a war, not a competition. There is no absolute fairness. Do you think you can save the human race? No, you are just a reckless man with brute force but no brain. You can't save anyone."

Slap!

The silver-haired young man snapped his fingers, and someone immediately shouted, "All troops, attack and kill the human race."

The 10 billion-strong army of the Central Sea Divine Realm was deployed, and the tide of sea demons came again and again. The human race was under a lot of pressure soon.

Han Fei narrowed his eyes. "You're asking to be killed."

The silver-haired young man said lazily, "There are hundreds of billions of people in the human race. Do you really think you can contend with the Central Sea Divine Realm? It's because of you that the human race wasn't really wiped out before. Now that you're back, it's time for the human race to be wiped out."

Han Fei raised his head. "So, are you sure you can beat me?"

The silver-haired young man smiled casually. "So far, so it seems."

Han Fei asked, "Who are you? How dare you flash your tongue like this? You're just a nobody from the Central Sea Divine Realm. How dare you try to destroy our human race? Believe it or not, I'll destroy you along with the forces behind you!"

Chapter 2987: Demon Purification Pot Appears (3)

2987 Demon Purification Pot Appears (3)

“Hahaha!”

The silver-haired young man laughed arrogantly as if he had heard something funny. When the laughter stopped, the silver-haired young man sighed and said, “A disciple of the Void Temple can be so ignorant. I am Bai Ye, the pure-blooded descendant of the Primordial Silver Wolf of the Ancient Demon Race. Destroy the Ancient Demon Race? Do you really think the Void Temple is invincible in the world?”

However, after hearing what Bai Ye said, Han Fei touched his chin with one hand.

Now, he had already known who had been preventing the rise of the human race.

Ancient demons, insects, and demon plants were exactly among the six ancient bloodlines.

The six ancient bloodlines were respectively: the primordial human race, primordial demonic plants, primordial strange beasts, primordial demons, primordial insect eggs, and a stillborn.

As for those who attacked the human race, if he guessed right, they were from the Ancient Demon Plant Race, the Ancient Insect Race, and the Ancient Demon Race.

Han Fei didn't know why the three bloodlines attacked the human race. The bloodlines passed down from ancient times had long been divided into many branches. They shouldn't have such hatred for the human race and insisted on destroying it. What was the reason?

Besides, Han Fei had learned from the Primordial Star Tree that the ancient demon plants and the primordial human race were actually on good terms. And Sixth Senior Brother was obviously from the insect race and didn't show any hostility to the human race, or he would have told him.

Therefore, there must be a deeper reason for these three races to attack the human race.

However, there was at least one thing he was sure of. The enemy had already been revealed. They were the Ancient Demon Plants, the Ancient Insects, and the Ancient Demons from the Central Sea Divine Realm. As for the other lineages, Han Fei didn't think they were all enemies of the human race.

Han Fei grinned and waved his hand. A law of lightning crossed millions of kilometers in the void and landed on the surging insect tide.

The lightning law covered hundreds of thousands of kilometers and suddenly ignited an Indestructible Thunderfire. Instantly, the sea of insects was almost instantly incinerated.

Han Fei said, “I'm from the Void Temple, but I'm also a human. I'm the variable in this battle. Only by taking me down can you be qualified to touch the human race. The point is... can you take me down?”

As he spoke, Han Fei turned into a thousand lightning strikes, intending to fight the battle in person.

However, the moment Han Fei moved, array flags appeared in all directions.

With a bang, Han Fei hit a barrier.

Bai Ye smiled gloomily. “The inheritance of the Ancient God of Thunder Note is indeed powerful. However, as a disciple of the Void Temple, you should know that there is no absolutely invincible technique in this world. Even Lei Heng fled around like a stray dog when he was in the Central Sea Divine Realm. How can you, a mere peak-level Carefree Level cultivator, beat us?”

Bai Ye walked forward step by step. "The Emperor Sparrow is not invincible either. That cause and effect killing technique can only target one person at a time, right? As long as those two people are not dead, the Emperor Sparrow can't attack a second person. And what's the difference between a Dao Proving-Level Emperor Sparrow and trash?"

On Han Fei's shoulder, the Emperor Sparrow said, "Ancient demons, right? I'll personally visit you later. Offending me, you'll see your entire race wiped out. Just wait and see."

Bai Ye said, "That's if you can survive until then."

"Heh! Inner Demon Summoning."

The Emperor Sparrow raised his head proudly with a dark gleam in his eyes. Then, Bai Ye's face suddenly changed drastically, and layers of demonic Qi escaped from his body. Bai Ye grunted and a pagoda appeared above his head. The pagoda was enveloped by mystic light and forcibly suppressed the demonic Qi.

Bai Ye grinned. "It's a pity that you're only at the Dao Proving Level. If you had become an Immortal, I really wouldn't have been able to resist you."

The Emperor Sparrow said coldly, "Without this pagoda, you can't resist me now."

Han Fei put on a deep smile and reached out. "Steal."

The next moment, the pagoda disappeared, but then Han Fei frowned. Although the pagoda disappeared, it didn't appear on his side.

Immediately afterward, the white pagoda appeared between Han Fei and Bai Ye, trembling and spinning. It seemed to be quite intelligent and could resist the Void Stealing Technique. This was the first time Han Fei had encountered such a situation.

"Ahhh~"

Without the help of the pagoda, Bai Ye was surrounded by black gas and seemed to be about to go crazy. At this moment, the pagoda struggled hard, broke from the Void Stealing Technique, and returned to Bai Ye's head, once again suppressing Bai Ye's inner demon.

"Huh? Interesting."

Han Fei looked at the pagoda. It looked like a good treasure! It was at least a Chaotic Spiritual Treasure. If exaggerated a bit, it might be comparable to the Thunder God's Hammer, belonging to the level of Nature Spiritual Treasure.

"Kill him!"

Bai Ye flew into a rage out of humiliation.

After Bai Ye finished speaking, behind him, the six Immortals attacked Han Fei at the same time.

The Emperor Sparrow returned, and Han Fei activated the Thousand Thunder Flash and turned the sealed place into a sea of lightning and fire.

However, the six Immortals activated their laws at the same time, stirring the void and shattering it.

“Chaotic Secrets.”

“Void Shattering.”

“Law Storm.”

“Blood God Art.”

“Sky Penetrating Spell.”

“Infinite War.”

The six Immortals occupied six different directions, one messed up the law of heavenly secrets, one shattered the void, causing the void to be unstable and it was difficult to use the Thousand Thunder Flash. Another set off a law storm, making it difficult to absorb the power of the law. Just these three had almost broken the Thousand Thunder Flash.

Chapter 2988: Demon Purification Pot Appears (4)

2988 Demon Purification Pot Appears (4)

As for the Blood God Technique, it could affect the circulation of his blood. Han Fei immediately activated the Invincible Path and resisted with the Dao of Slaughter God.

The Sky Penetrating Spell, on the other hand, filled the sky with runes that were revolving around Han Fei and restricting his strength, just like the God Sealing Spear.

The last person broke out with a speed much faster than Han Fei's and actually engaged in close combat with Han Fei. However, this person moved like a phantom and was more like a hunter, which was different from Han Fei's fighting style.

However, with the strength of Immortal Level, Han Fei could only be on par with him for now.

“I underestimated the Immortal-level cultivators.”

Han Fei's face changed slightly. Immortal-level cultivators invoked the law too fast and powerful. Ordinary carefree-level cultivators couldn't compare to them. Furthermore, they had more means. Almost all of them had mastered divine techniques and their magic weapons were stronger. They weren't comparable to destruction-level ominous creatures. The six of them had completely suppressed him.

After these six people finished suppressing Han Fei, they joined forces to attack Han Fei.

At this moment, the Thousand Thunder Flash couldn't be used, but the Ten Thousand Law Sky Travelling Technique could still be used. In this void, the seven people flashed nonstop, bursting out with an extremely terrifying speed.

Although Han Fei had slowed them down with the Deceleration Technique of the Twelve Thunder Seal Technique, the lightning law was penetrated in less than ten seconds.

Bang! Bang! Bang!

The situation in the field changed quickly. Because Han Fei couldn't keep up with them in speed, they were bombarded by the six people consecutively.

"Fuse."

After Little Black and Little White fused with him, Han Fei found that his reaction speed still couldn't keep up with their attacks. After fighting for more than fifty seconds, Han Fei was at a disadvantage and was seriously injured.

On the human side, the Beast King said anxiously, "This won't do! These guys have already used the power of the Immortal Level. Although Han Fei is very strong, he's only at the Carefree Level after all. How can he be a match for so many Immortals?"

Liu Qiansi said, "Master, be careful! Come back if you can't beat them."

The Beast King glanced at Liu Qiansi speechlessly. Do you think he can still come back in this situation?

On the Central Sea Divine Realm's side, many people were relieved.

Someone said, "Fortunately, he's only at the Carefree Level. This time, we can't let him go no matter what."

Someone echoed, "That's right. We can't let him live. He can kill Immortals when he's at the Carefree Level and has mastered the ancient Supreme Thunder Technique. And he's too good at escaping. If we don't kill him this time, there will be endless trouble in the future."

However, some people were still sober. "I'm afraid we can't kill him today, but if we can force him to use the void mark, Han Fei and the entire human race will be destroyed soon."

Now that Han Fei was besieged, Bai Ye said leisurely, "Han Fei, mankind has its limits. Do you still want to keep your trump card? Let's see if the survival of the human race can be exchanged for your trump card, hahaha..."

"Ancient demon, Step on the Sea."

Bai Ye put his hands together, and an unfathomable hole appeared behind him. From this hole, Han Fei saw billions of demons rushing out.

When Han Fei saw the demons charging at him, he discovered that these creatures were different from ferocious beasts. They were like upgraded versions of sea demons. There was demonic Qi in the ancient demons, similar to the special demonic Qi of sea demons and Inferior Man-Fish.

However, there were a variety of ancient demons. He saw Inferior Man-Fish, meandering human-faced centipedes, deformed sea monsters, demonic wolves burning with fire, and pythons transforming into water.

Perhaps, ferocious beasts and divine beasts were the offspring of the ancient demons. Or perhaps, ferocious beasts and divine beasts were powerful entities born from the heavens and earth in the Chaotic Era. And ancient demons, like humans, evolved.

Han Fei wasn't sure about this, but he would find out when the Void Temple held a meeting.

On the human side, although they had switched from offense to defense, the insect sea, the sea demon tide, the ancient demon army, and the allied forces of the Central Sea Divine Realm were still too much for the human race.

Immediately, Han Fei made up his mind and took the initiative to release the Great Dao of Life Replacement, ignoring all attacks. Then, between his eyebrows, one, two... A total of seven small vines reached out.

"If you want to see my trump card, I'll let you see as much as you want. Heh, you'll find that intercepting and killing our human race is the most regretful thing you've ever done in your life."

Swish! Swish! Swish!

The six Immortal-level powerhouses were suddenly wrapped by a small vine. The moment they were wrapped up, all their law powers lost effect. Their vitality, spiritual energy, Chaotic Qi, and immortal Qi were being drained away crazily.

Han Fei roared, "Since you are demons, you are only worthy of being the ingredients in my pot."

This was the first time Han Fei used the Demon Purification Pot outside his body. None of the six Immortals were spared. They felt that their strength no longer belonged to them.

"What is this?"

"Not good, my vitality, my Great Dao."

"Fellow Daoists, save me."

"Ah! This thing is eating my Great Dao."

This sudden scene horrified the people of the Central Sea Divine Realm. Han Fei was obviously no match for them and was about to be suppressed, but because of this small vine, he instantly suppressed the six Immortal-level powerhouses. What was this? How could this thing be so powerful?!

Bai Ye's face also changed greatly. What was going on? How could Han Fei be so capable?

Suddenly, among the Immortal-level cultivators, someone's face changed. It was Yi Xuanming from the Heavenly Race. He exclaimed, "It's the Demon Purification Pot. That's the strongest treasure of the ancient times, the Demon Purification Pot... It's you, Han Fei. You destroyed our Heavenly Ancestor Divine Tree and severed our door talents."

Chapter 2989: Unparalleled Six God (1)

2989 Unparalleled Six God (1)

"Demon Purification Pot?"

A stone raised a thousand waves, and the entire Central Sea Divine Realm's camp was in an uproar.

"What? The ultimate treasure of gods, the Demon Purification Pot?"

“Is it the Demon Purification Pot that can suppress the ominous and cause the gods to scramble for it?”

“How did Han Fei get such an ultimate treasure?”

“Is this his trump card?”

In the giant ship, a middle-aged man narrowed his eyes and trembled slightly.

“So, the Demon Purification Pot is here. Han Fei, have you run out of tricks?”

At the same time, in the Godfiend Sea, the Demon God, and a large group of ferocious big shots were also sighing.

Eastern Divine Crocodile: “Han Fei, you really dare to take it out!”

The big crab Xie Wukuan said, “I’m afraid this kid has gone crazy, but I like it. Hahaha, I really want to fight! The fight outside is so exciting.”

Jiang Honghua licked the corner of her mouth. “This kid is not afraid of us coveting it and just took it out? Tsk, tsk...”

The Sky Ghost Toad said, “I’m not interested in the Demon Purification Pot anyway. This thing, you can take it, but you can’t keep it!”

Li Tiangan said, “Something must be wrong. I’m afraid this Demon Purification Pot is not only for the people of the Central Sea Divine Realm to see, but also for us to see. I wonder what other trump cards Han Fei has.”

The Demon God said leisurely, “Don’t pay too much attention to the Demon Purification Pot. Only those with great luck can keep this pot. Since ancient times, no one who obtains this pot has a good ending. Besides, this pot has never beat the ominous. Whoever wants this pot probably wants to rise up for personal reasons and wants to use it to become a god. Let’s see...”

Old Yuan asked, “Demon God, when shall we attack?”

The Demon God said, “That’s your business. I’ve already paid off the favor I owe Han Fei.”

In the depths of the void.

Great Monarch East Martial looked at this scene and frowned slightly, as if he was thinking about something.

“The Sea Realm is going to be in chaos!”

On the human side.

Luo Xiaobai, the Beast King, and Liu Qiansi were all dumbfounded. What was the Demon Purification Pot?

The elder of the Lava Giant Tribe said leisurely, “It’s said that in ancient times, there was a calabash born in the world. With it, one can suppress the heavens and rule all races. Therefore, whenever this pot appears, there will be a storm of blood. For this pot, all the strong masters fought each other and

resorted to all means. In the end, it fell into the hands of the ancient human race and was passed down to gods... But there are also rumors that whoever obtains this pot won't have a good ending..."

Liu Qiansi exclaimed, "What do you mean? Judging from Master's rising speed, this thing obviously brings him good luck!"

The Beast King said, "It's better than nothing. Look how nervous those b*stards from the Central Sea Divine Realm are."

Looking at this scene, Luo Xiaobai murmured in a voice that only she could hear, "So this is the secret you have been hiding at the bottom of your heart since you were young."

...

The appearance of the Demon Purification Pot was really beyond everyone's expectation. 100,000 years ago, the Demon Purification Pot disappeared with Chu Hao.

100,000 years later, the Demon Purification Pot reappeared. However, today was different from that time. 100,000 years ago, Chu Hao was alone and couldn't represent anyone. Although there was the Primordial Divine Race behind him, there were no gods.

However, behind Han Fei was the Void Temple. But even so, could it really stop those coveting the Demon Purification Pot?

Bai Ye's pupils were constricted, and there was uncontrollable excitement on his face. He had never thought that he would have such an opportunity on this trip to the East Sea Divine Realm.

As for Wood Demon Shanshan and You Dunv, their eyes were also shining, but they restrained themselves. At this moment, rashly snatching it was no different from courting death. However, since the Demon Purification Pot had appeared, there would only be more people attacking Han Fei. At that time, they might have a chance in the bloody storm.

The moment the Demon Purification Pot appeared, countless people from the Central Sea Divine Realm were sending messages to their races. Yes, they all did it openly. Everyone was racing against time. The appearance of the Demon Purification Pot was such a great opportunity. Who would be willing to fall behind others?

Buzz—

On the side of the Central Sea Divine Realm, a forbidden place that had been sealed for ten thousand years suddenly opened, and a primordial demon let out a low laugh. "It finally appeared. Human race, Void Temple..."

In a certain vast demonic forest, a peerless demonic flower bloomed and turned into a coquettish woman. She held a green leaf in her hand and smiled. "Demon Purification Pot..."

Deep underground, a huge centipede woke up from its sleep. "It's time for me to become a god."

...

Outside the Godfiend Sea.

In Han Fei's palm, the Infinity Water gathered and turned into a palm-sized cone. On the cone, lightning techniques surrounded it and fused with it. The Ragnarok and the Dao of Slaughter God were both activated, making the Infinity Water extremely dazzling.

"Go!"

The Infinity Water surrounded Han Fei and stabbed into the heads of one of the six people around him.

"Pfft!"

This person had no power to resist at all. Even if he was an Immortal-level cultivator, so what? Standing still and unable to release his strength, he was no different from a fish or shrimp.

"Puff! Puff! Puff!"

The Infinity Water surrounded the six people, one, two, three... until all six of them were pierced and their souls were destroyed. Han Fei waved his hand and collected the six people into his Origin Star.

Han Fei grinned and his voice was cold and murderous. "So what if they are Immortals? If I want you to die, you have to die."

Six Immortal-level cultivators had perished. Those who were still coveting the Demon Purification Pot finally realized their situation. The Demon Purification Pot was good, but did they have the life to take it?

[God of Fishing](#)

Chapter 2990: Unparalleled Six God (2)

2990 Unparalleled Six God (2)

They were six Immortal-level powerhouses! Could they be stronger than Immortal-level cultivators?

You Dunv and Wood Demon Shanshan had already retreated. It was meaningless to fight Han Fei now. Bai Ye was not stupid and naturally realized this too.

He immediately backed out of the barrier and shouted at everyone, "All Monarchs, work together to reinforce the barrier. Don't let Han Fei come out."

However, Han Fei walked towards Bai Ye step by step.

His body was enveloped by holy light, and his previous injuries had all recovered.

Han Fei said calmly, "Do you think you can leave alive after I show my trump card?"

Bai Ye snorted. "Han Fei, even if you have the Demon Purification Pot, so what? As far as I know, the Demon Purification Pot is not a combat treasure. What can you do if I don't get close to you? Today, you shouldn't have revealed the Demon Purification Pot just to avoid using the void mark."

Han Fei grinned. "Who said that I won't use the void mark?"

"Huh?"

Everybody was stunned. What did he mean? Why would he show the Demon Purification Pot if he planned to use the Void Seal?

In the next moment, Han Fei said leisurely, "Senior Brother Six God, please take action. The fury in my heart can only be appeased with the heads of hundreds of millions of enemies. What I want is that everyone here today, including those in that big ship...all die."

As soon as Han Fei said so, a childish voice replied, "OK."

Buzz—

At the same time, millions of kilometers away from this world, all the way to the battlefield, black holes appeared one after another.

Knock, knock, knock!

In the blink of an eye, the sky became like a beehive. There were thousands of black holes densely packed.

Each of these black holes stretched tens of thousands of kilometers, and buzzing sounds came from inside.

In the giant ship, the middle-aged man seemed to realize something and immediately tried to penetrate the void to drive the giant ship away.

Clang!

Unfortunately, he couldn't leave after Han Fei said that. With a clang, a figure descended from the sky and stepped on the giant ship.

Taking a closer look, it was a child who looked to be in his teens. This person's head was bare, and there was a red ribbon around his neck that fluttered in the wind. If one only looked at this child, he wouldn't think him to be dangerous or powerful.

However, when the child stood still, black smoke spread out of his eyes, and a huge worm appeared behind him. Its body was green and black, and it could reach tens of thousands of kilometers long. It had six wings and its two front limbs were like sickles as it pressed against the huge ship. This was actually an extremely huge mantis.

In the camp of the Central Sea Divine Realm, You Duv's face suddenly changed. "How could it be him? The overlord of the North Sea, the Six God Mantis, how could he be from the Void Temple? These black holes all over the sky are wormholes. Everyone, be careful."

At this moment, many people were stunned. They had been forcing Han Fei to use the void mark, but they had always thought that the Void Temple was full of loners.

However, Senior Brother Six God was a low-key person. Senior Brother Lei Heng had tried to persuade Senior Brother Six God to come out more and even persuade Senior Brother Six God to travel the Sea of Stars with him, but Senior Brother Six God never agreed.

It could be seen that Senior Brother Six God was usually quiet. Han Fei was also slightly surprised that these people didn't know that Senior Brother Six God was from the Void Temple.

But it wasn't surprising, because no one knew that Feng Yu was from the Void Temple. It didn't mean that everyone who entered the Void Temple would expose their identity to the world.

For example, Senior Brother Six God.

For example, Feng Yu.

As if to confirm You Dunv's words, a dense army of insects flew out of the wormholes that filled the sky. Like black pillars, they gushed out of the holes.

These insects included flying mantises, various beetles, cumbersome giant Heavenly Bulls, colorful flying locusts, as many as ten thousand kinds of void ants, weirdly-shaped moths, dazzling butterflies, earthworms that could penetrate the void, and huge, powerful Unicorn Beetles...

There were too many insects of all kinds to count, and they kept popping out. In any case, at that moment, there were demonic insects everywhere.

Senior Brother Six God said in a childish voice, "Sky Spider Worm Valley, who do you think you are? How dare you touch my junior brother?"

A golden page appeared in front of Senior Brother Six God. He tapped at the golden page and said, "Insects of the Heavens, listen to my command. Kill all insects from the Sky Spider Worm Valley."

Swish! Swish! Swish!

The golden page immediately turned into billions of golden lights and entered all the wormholes in the sky.

You Dunv's face was pale, and her body was trembling. Why? Why was the Six God Mantis, one of the overlords of the insect race, a member of the Void Temple?

"It's over. The Sky Spider Worm Valley is doomed."

At the bottom of the sea, gigantic rhinoceros beetles that were thousands of meters long were charged in the opposite direction of the sea demon tide with their single horns.

Bang! Bang! Bang!

Wherever the horns hit, the sea demons were all crushed.

Butterflies danced everywhere in the Seaborne Prairie. There were all kinds of illusions and rosemary fragrances. Many strong masters from the Divine Demon Forest fell into various illusions. After one walked out, another entered. Most of them couldn't walk out at all and were killed in the illusions.
