God of Fishing

Chapter 2991: Unparalleled Six God (3)

2991 Unparalleled Six God (3)

The worm tide in the Sky Spider Worm Valley was caught up by countless void worms. They trembled nonstop and the bottom of the sea was almost covered with worm corpses.

The Ancient Demon army, on the other hand, encountered all kinds of dense void ants. Like flying locusts, they swept past. Wherever the void ants passed, there was nothing but bones. These big demons activated all kinds of techniques. Although they could annihilate ants, there were too many void ants.

Furthermore, these void ants had a clear division of labor. They even formed a unique cone-shaped defense system. Once one swath of ants died, the other would continue to fill in. Once they approached, no matter what kind of big demon it was, they would be bitten through and devoured. Although some big demons had tough bodies, they would be drilled through wherever there was a hole and their internal organs would be eaten in the blink of an eye.

Some powerful demons tried to block it with barriers and arrays. However, a special gray void ant could extract the energy of the barrier and break through their barriers in only a few seconds.

Originally, the coalition army was besieging the human race, but now, the insects were covering the coalition army.

“Oh my god!”

The human beings who were in the middle of defense all watched this scene in shock. They felt their blood freeze and their mouths water.

Too many insects had appeared around them. When they saw these insects, they only had one thought in their hearts. It’s over. I’m doomed this time.

However, at the moment of despair, they discovered that those insects didn’t attack them but counterattacked from their line.

The enemies that they could only resist with difficulty were devoured by these insects in an instant.

“Did... Did these insects help us?”

“It’s Master Human Emperor. These insects must be allies of Master Human Emperor.”

“Hahaha, killing insects with insects. Master Human Emperor is awesome.”

“Thieves of the Sky Spider Worm Valley, it’s time for you to die.”

“Hahaha, that’s great!”

“F*ck, let me tell you, I almost peed my pants just now. I almost wanted to die. How am I supposed to fight these insects?”

“Me too! I’m still shaking.”

“I can’t watch this. They arouse my trypophobia. I don’t want to be an enemy of insects for the rest of my life.”

“I agree with you.”

...

On Luo Xiaobai’s side, Liu Qiansi exclaimed, “It’s horrible! Is this the power of the insects?”

The Beast King said, “Wow, they’re simply the natural bane of ferocious beasts!”

The elder of the Lava Giant said, “The Insect race is one of the six ancient races. Legend has it that in the primeval era, they were at their peak. Wherever the Insect race passed, even the Sea of Stars trembled. They once made great contributions in the wars against the ominous.”

Luo Xiaobai added, “But they would be easily controlled by the ominous, right?”

The elder of the Lava Giant said, “That’s right, but the insect race took another path. They fused their insect thoughts and gathered the lives of an entire race into a human and fought the ominous in a human form. They would rather die than let their insect bodies be tainted by the ominous.”

...

At this moment, on the battlefield where Han Fei was, one insect person after another walked out of the wormhole.

Some were in the Sea Establishment realm, some were in the Sky Opening realm, and some were in the Monarch realm. They all went to different battlefields.

Those Monarchs who wanted to retreat were all surrounded and couldn’t escape.

The strong masters of the insect race wouldn’t hesitate at all. They had already started to fight.

At this time, the barrier that blocked Han Fei had been sucked up by the Insects, and it could no longer block Han Fei.

Han Fei was also a little surprised. He didn’t expect Senior Brother Six God to look like a kid.

However, Han Fei cupped his hands with a smile. “Thank you for your help, Senior Brother Six God.”

Senior Brother Six God said, “Don’t laugh. Hold it in.”

Han Fei said, “Ha, I’m not laughing. I won’t laugh.”

Looking at the beaming Han Fei, Senior Brother Six God snorted and ignored him.

At this moment, a middle-aged man stepped into the void. “Six God Mantis, you are the overlord of the North Sea. Even if you are a disciple of the Void Temple, how can you personally interfere in the battle here? Is this the so-called fairness of the Void Temple?”

Senior Brother Six God looked at this person quietly. “When you try to wipe out the human race, have you ever thought about what fairness is? You ask me what fairness is? Heh, if the Void Temple says it’s fair, it is. If the Void Temple says it’s not, it’s not.”

The middle-aged man said, “The Void Temple mobilized all the insects to attack us. It seems that you are determined to become enemies with everyone in the world?”

Senior Brother Six God said, “Firstly, you can’t represent everyone in the world. Secondly, if the Void Temple becomes the enemy of everyone in the world, everyone in the world must be wrong. Thirdly, you overestimate yourself. Do you think you’re worthy of me mobilizing all the insects?”

Chi la!

Behind Senior Brother Six God, the Six God Mantis slashed down with its sickle and sharp blade-like feet, cutting the huge ship into three pieces before it exploded.

Senior Brother Six God looked at the middleman and said casually, “I’m going to kill you. Get ready.”

The middle-aged man’s expression changed drastically. “I’m a Great Monarch. I didn’t participate in this battle.”

Senior Brother Six God said calmly, “Since you’re here, you have to die. This is your fate.”

With that, Senior Brother Six God put his hands together, and the void was locked. The Six God Mantis slashed down with one claw, and the heavens and earth seemed to have been split open. The huge claw blade excited countless people. How could they resist this thing?

[God of Fishing](#)

Chapter 2992: Unparalleled Six God (4)

2992 Unparalleled Six God (4)

The middle-aged man roared, “Overlord of the North Sea. I’m the Great Monarch of the Ancient Demon Race. If you kill me, can your North Sea afford the consequences?”

Senior Brother Six God said, “Shut up.”

“Ahhh~”

Seeing that he couldn’t shake Senior Brother Six God at all, the middle-aged man seemed to have made a decision. With a roar, he turned into a primordial bull and rammed at the child-like body of Senior Brother Six God with a devastating force.

Although he didn’t know why the overlord of the North Sea had two bodies, it was obvious that this little baldy looked much easier to deal with than the Six God Mantis.

Boom ~

A dull bang swept across the world, which should have caused terrifying ripples, but in Han Fei’s opinion, the power formed by the collision seemed to have been absorbed by Senior Brother Six God’s body.

Bang!

Then, the giant bull bounced back.

He said in shock, "How is it possible? How can you swallow my law body?"

Senior Brother Six God scratched his head. "I don't know how to fight, but I can eat."

The Reckless Bull Great Monarch: "..."

Everyone : "..."

Han Fei looked at the ferocious and destructive sickle and thought to himself, This is called not knowing how to fight? Isn't this sheer lying?

At this moment, the Reckless Bull Great Monarch had nowhere to dodge, and the mantis's claw had already slashed down.

Billions of hairs rose from the body of the Reckless Bull Great Monarch, turning into dao patterns that filled the sky, forming a huge Array.

"Rip ~"

A golden line appeared on the big array, which was cut in half by the sickle.

"Ahhhhhh!"

The middle-aged man summoned nearly ten spiritual treasures at once, but when they touched the sickle claw, they shattered one after another, unable to stop the giant claw at all.

"God's Horn."

The Reckless Bull Great Monarch went crazy. It burned its life, soul, and transformed into a Reckless Bull Dharma Idol. Its huge horns welcomed the sky as it smashed at the huge mantis claw, trying to shatter the sickle with its strongest horn.

Crack!

Crack!

A crisp cracking sound came, but what shattered was not the mantis sickle, but the bull horn.

"Pfft!"

The majestic bull hit the mantis sickle head-on and was cut in half together with its horn.

Senior Brother Six God frowned. "It's really strange. Someone bumped into my knife because he couldn't wait to die."

Han Fei was speechless. Was that he couldn't wait to die? He clearly wants to knock away your Mantis Sickle!

However, this scene shocked Han Fei. Wasn't Senior Brother Six God ranked ninth? But why did his combat power feel no weaker than that of Senior Brother Azure Dragon?

In fact, even Senior Brother Azure Dragon didn't seem to be as strong as him.

However, this was not the time to think about this. The Great Monarch was not dead yet. His soul wanted to run, but Senior Brother Six God clasped his hands, and a black hole appeared in front of him.

“Huff~”

As Senior Brother Six God took a deep breath, his soul and body were sucked back by Senior Brother Six God. In the end, they turned into a small dot and were forcefully swallowed by Senior Brother Six God.

Han Fei: “...”

The strong masters of the Central Sea Divine Realm: “...”

“What a freak!”

Han Fei muttered in his heart. From the looks of it, only he and Feng Yu were relatively normal in the entire Void Temple. Oh, maybe Senior Brother Lei Heng was normal too. After all, he had once been chased like a stray dog.

Rumble!

After the death of the Great Monarch, the sky changed and cracks spread throughout the East Sea Divine Realm.

Great Monarch East Martial shook his head slightly. The guys from the Void Temple were still as violent as before. They had killed a Great Monarch. Were they going to completely fall out with the Central Sea Divine Realm? Alas, another storm of blood!

In the Central Sea Divine Realm, among the ancient demons, a Great Monarch-level powerhouse suddenly changed his expression and stood in the sky. “Good, what a great Void Temple. You killed a Great Monarch-level powerhouse of our race just because of the fights among our disciples. Do you really think we’re afraid of your Void Temple?”

At this moment, another Great Monarch slightly shook his head. “I told the Ancient Demons not to send a Great Monarch to guard the battle. Great, now they’ve lost a Great Monarch for nothing.”

Someone smiled. “I’m afraid that the Great Monarch wants to take the Demon Purification Pot, right? Hehe. Otherwise, why did he rush there alone so quickly?”

In the West Wilderness, a certain bandit group, Zhan Nanye, muttered, “Another one died. The East Sea is indeed a troubled place!”

In the headquarters of the Southern Dipper in the South Sea Divine Realm, an edict was issued. “Assassins of Southern Dipper shall not enter the East Sea Divine Realm for the time being.”

The Great Monarchs of the Phoenix Divine Race looked at the sky, and the patriarch said leisurely, “I bet that the death of this Great Monarch must have something to do with Han Fei.”

Aunt Huo: “You don’t have to bet! He’s responsible for the deaths of all those Great Monarchs. This one must be no exception.”

Feng Yu’s Second Uncle: “Xiaoyu is the best! If Xiaoyu is like this, I’m afraid our family will have to think about how to fight every day.”

The white-bearded elder beside the three of them was the Primordial Star Tree. He said leisurely, "If the golden age of the ancient human race can be restored, the world will change."

...

After Senior Brother Six God finished his business, he looked at Han Fei and said, "Little Junior Brother, the Great Monarch here is dead, so I won't take any action. As for the others, solve them by yourself!"

Senior Brother Six God said that he wouldn't do anything, but at this moment, there were at least 20 Immortal-level insect cultivators surrounding the Immortal-level cultivators from the Central Sea Divine Realm.

Bai Ye of the Ancient Demon Race was attacking crazily, trying to rush out. Now that the Great Monarch had died, he had lost his trump card.

Why? Why was the overlord of the North Sea from the Void Temple?

Han Fei stepped in the air and slowly walked towards Bai Ye. As he walked, he said to the strong masters of the insect race, "Well, can you leave those two behind? Yes, yes, that spider and the Tree Demon."

Then, Han Fei turned his head and looked at Bai Ye. "Bai Ye, right? You seemed to be looking forward to me using the void mark, right? Why are you so panicked now? What are you afraid of?"

[God of Fishing](#)

Chapter 2993: Cooking and Eating Immortals

2993 Cooking and Eating Immortals

The appearance of Senior Brother Six God had reversed the human race's battle situation. Now the battlefield situation could be described as one-sided.

Without the interference of the other Immortal-level powerhouses, Bai Ye was no longer as confident as before. Watching Han Fei walk over step by step, he was inexplicably frightened.

Being crushed by Han Fei's momentum, Bai Ye realized his fear and burst into fury. He roared, "Do you think you've won? Even if you have the Demon Purification Pot, so what? Who on the battlefield can defeat me?"

As he spoke, Bai Ye completely erupted. The power of laws surged on his body, and a bright moon wheel appeared behind him. From the wheel, a huge hand shot out, like a demon king descending.

In terms of strength, Bai Ye was indeed a Heavenly Talent of the Ancient Demon Race. His strength was not something ordinary Immortals could compare to.

However, it depended on who his opponent was.

Han Fei looked at the hand casually without stopping. Behind him, a Dharma Idol thirty-three thousand feet tall appeared. Han Fei and his Dharma Idol were both glowing with golden light.

The Dharma Idol clenched his fist like a dazzling star.

Bang!

Ripples spread across the sea, and the Godfiend Hand and the Star Fist Technique exploded at the same time.

The Thunder God's Hammer in Han Fei's hand had been accumulating power for a long time, and the Ultimate Hammer burst out. This time, it was no longer a full-strength blow, but the deafening sound of millions of heavy hammers pounding.

Bang! Bang! Bang!

The terrifying power of 5,000 stars covered the space around Bai Ye. In less than ten seconds, the two threw hundreds of thousands of punches at each other.

The more he fought, the more shocked Bai Ye became. "How is that possible? Even if you have completely mastered the Heavenly Law Jade Marrow Bone, how can you have such a physique?"

Han Fei's voice was calm. "You only know that I've mastered the Heavenly Dao Jade Marrow Bone, but you don't know that I've also cultivated the Supreme Divine Technique of the human race. I can also use the Dual killing Technique of body and soul. I walked the path of invincibility and cultivated the Dao of Slaughter God... It's only natural that I can kill you."

Bang! Bang! Bang!

In less than twenty seconds, Bai Ye was smashed so hard that he couldn't even keep his human form. Han Fei saw a silver wolf appear, dripping with blood.

However, the small tower appeared again and hovered above Bai Ye's head. As mystic light swept past, Bai Ye's injuries recovered by more than half in the blink of an eye.

"Hahaha! You can't kill me. I have the Nature Spiritual Treasure, Heavenly Law Jade Spirit Tower. You can't kill me."

"Oh, really?"

Han Fei couldn't help but look at the small tower that couldn't be stolen. No wonder. It turned out to be a Nature Spiritual Treasure. This made sense. At the level of a Nature Spiritual Treasure, it had strong autonomy. Perhaps its level was too high, so it resisted the Void Stealing Technique.

Han Fei couldn't help but wonder if there was still a chance to improve Void Fishing. When the eighth vine returned, he should be able to deduce a technique that surpassed the Monarch realm, right?

However, he could still try to steal this tower.

"Steal!"

The Heavenly Dao Jade Spirit Tower disappeared again and reappeared between Han Fei and Bai Ye, struggling crazily.

Han Fei's lips curled. "Do you think you're the only one who has a Nature Spiritual Treasure? Go, blow him up."

Han Fei cursed and the Thunder God's Hammer flew out of his hand, turning into a lightning mark, and smashed at the Heavenly Law Jade Spirit Tower. Without Han Fei controlling it, the Thunder God's

Hammer was wild. As if it could launch the Thousand Thunder Flash, it flickered in the void and law lightning poured down on the Heavenly Dao Jade Spirit Tower.

As for the Heavenly Dao Jade Spirit Tower, it buzzed and emitted a protective mystic light, colliding with the Thunder God's hammer. The two shuttled through the void, no longer caring about Han Fei and Bai Ye.

"How is it possible! How do you have a Nature Spiritual Treasure too?"

Bai Ye's face changed greatly. A Nature Spiritual Treasure, a real legendary secret treasure, was rare in the world. Each of them had their own unique and powerful abilities. He had used all kinds of means to obtain this Heavenly Dao Jade Spirit Tower. But how old was Han Fei? How many years had he cultivated? How could he also have such a treasure?

Han Fei waved his hand, and the Infinity Water appeared in his hand and turned into a short knife.

Bai Ye was shocked, "Why? Do you have a second Nature Spiritual Treasure?"

"Roar!"

The White Wild Wolf pounced up and roared at the moon, spewing out ice laws.

Seeing this, Han Fei smiled and said casually, "Yin-Yang Life-Death Forbidden Spell."

Buzz!

In the next moment, this place turned into a space where Yin and Yang circulated, and the power of ice instantly disintegrated here. Bai Ye intuitively felt that the Great Dao of ice in his body was being swallowed by this strange Yin and Yang barrier and quickly passed away.

"Stop pretending. Open..."

Bang!

Han Fei certainly wouldn't let Bai Ye attack in the Yin-Yang Life-Death Forbidden Spell. Although he knew that Little Black and Little White could definitely block it, it was unnecessary. Bai Ye was doomed to die today. He couldn't bear to see Little Black and Little White injured.

Han Fei stepped into the Yin-Yang Life-Death Restriction and used the Void Stealing Technique to steal Bai Ye's claw that could tear the sky and the earth apart. In an instant, he approached him with Thousand Thunder Flash.

"The Drawing Technique."

"Pfft!"

One of Bai Ye's giant claws was cut off, and the other giant claw slapped down. Han Fei put his hands together and took this blow head-on.

"Supreme Yin-Yang Wheel."

The Yin-Yang Life-Death Forbidden Spell disappeared, and the Supreme Yin-Yang Wheel slashed down on Bai Ye's head. Bai Ye pounced forward crazily to avoid this blow, but a small half of his body was cut off.

However, what awaited him was a pair of ruthless and indifferent bird eyes.

Bai Ye discovered that the Emperor Sparrow had appeared in front of him at some point in time. His pair of sharp claws transformed into infinite sizes, enveloped in black light, and grabbed at Bai Ye.

"What can you, a mere Dao Prover, do to me?"

God of Fishing

Chapter 2994: Cooking and Eating An Immortal (2)

2994 Cooking and Eating An Immortal (2)

On Bai Ye's body, the silver hair left his body and turned into an infinite rain of swords, drilling into the sky, trying to penetrate the Emperor Sparrow.

However, the sword rain that filled the sky seemed to only penetrate a phantom. The Emperor Sparrow said proudly, "My body is versed in the mysteries, impervious to all laws. Do you really think these petty mortal arts can harm me? Mental Wander, Soul Separation Claw."

One of Bai Ye's eyes exploded, and half of his soul power was torn apart.

However, after performing this blow, the ferocious shadow of the Emperor Sparrow turned into a ray of light and landed on Han Fei's shoulder again.

"This is as far as I can go."

Han Fei didn't say much. The Emperor Sparrow had just reached the peak of the Dao Proving Level, and it was already unbelievable that it could hurt Bai Ye like this.

Han Fei rushed up and used the Silencing Fist to lock the air to defend against the enemy. At the same time, he said, "Why didn't I know you had this ability?"

Emperor Sparrow: "I'm not just good at staring. In terms of combat power, I'm unparalleled in the world."

Bang!

Being punched into the bottom of the sea by Han Fei, Bai Ye jumped up and controlled half of his body to escape, but Han Fei's Dharma Idol slapped him back.

Rumble!

He grabbed Bai Ye's body and held it tightly in his hand. He squeezed hard, but failed to crush it. A bronze bell appeared on the surface of Bai Ye's body.

Han Fei's Dharma Idol closed his hands and pressed down.

Rumble!

The bronze bell exploded, but Bai Ye took the opportunity to escape.

“Do you think you’re the only one with a Dharma Idol? Silver Wolf Dharma Idol, come out.”

Roar!

The Silver Wolf roared, jumped up, and pounced at Han Fei’s Dharma Idol. Just when Bai Ye thought that he could escape this way, he was shocked to see that the Silver Wolf Dharma Idol suspended in mid-air, and Han Fei’s Dharma Idol bare-handedly prying open the wolf’s mouth.

“Rip ~”

Under the witness of countless people, the Silver Wolf Dharma Idol was torn in half. Han Fei’s Dharma Idol opened its mouth and sucked the Silver Wolf Dharma Idol into its stomach.

Not far away, Senior Brother Six God, who was watching the battle, said indifferently, “Little Junior Brother, your Dharma Idol is really cruel.”

Han Fei said, “Senior Brother Six God, I just saw you swallow a Great Monarch.”

The childish voice of Senior Brother Six God said, “It’s different. I am a bug, and you are a human.”

Han Fei rolled his eyes. This reason was really special. So, insects could just eat anything?

Bai Ye didn’t want to accept his fate. He really panicked. The Nature Spiritual Treasure seemed to be suppressed by that damn hammer. His Dharma Idol was eaten, and half of his body was cut off. He had no time to recover. Half of his soul was torn off, and he was seriously injured. The golden bell protecting his body was crushed... In terms of speed, he was no match for the Thousand Thunder Flash. How could he escape?

And Han Fei had already given him an answer. Thousands of lightning marks appeared beside him, fist lights raged, and knife auras swept across.

After about half an hour, Bai Ye was finally defeated. In his unwillingness and humiliation, he was beheaded by Han Fei. However, Han Fei didn’t kill him immediately, but pierced the head of the silver wolf into the God Sealing Spear formed by the Infinity Water.

Han Fei said, “You are only worthy of becoming an ingredient for my meal. I’ll use you as a dish to go with my wine.”

Bai Ye felt a chill down his spine. Was this guy really going to eat him?

He roared, “Han Fei, if you kill me, the Ancient Demons will never let you and the human race off.”

“Haha! Do you think I will let go of your Ancient Demon Race? Don’t worry. Many members of your Ancient Demon Race are edible. They will be food for our human race.”

After that, Han Fei pressed a hand on Bai Ye’s head and forcibly separated the connection between him and the Heavenly Dao Jade Spirit Tower with the Soul-Attracting Technique. As soon as the connection was severed, the Heavenly Dao Jade Spirit Tower immediately wanted to escape. However, compared to the Thunder God’s Hammer, it was too slow. The small tower was sent flying by the hammer of the Thunder God.

Han Fei clasped the tower with a hand. "Surrender or be destroyed? If you resist, I'll crush you today."

The Heavenly Dao Jade Spirit Tower struggled for a while and fell silent. Clearly, it knew what was good for it. Its master had been captured and even the Great Monarch had died. What was the point of fighting? Just accept fate!

Besides, this guy seemed to be much stronger than Bai Ye although he was now in trouble. He didn't know if it would be a good ending if he followed this guy.

Han Fei was also looking at the Heavenly Dao Jade Spirit Tower, and information popped up in his eyes.

<Name > Creation Jade Spirit Tower (Damaged)

<Introduction > The Creation Jade Spirit Tower was born from primordial jade. It contains the laws of nature and can be used for all kinds of laws. The tower contains the inscriptions of laws and has formed a spiritual cage of its own. Because it once suppressed a god, it suffered certain damage. This tower can suppress all powerhouses below the god realm and refine them into Immortal Pills that can repair one's body. It can also refine strong masters and strip them of their Great Daos. This tower is born with spirituality. Once it acknowledges a master, under the same rules of the Heavenly Dao, it can find its master.

<Quality > Low-Quality Nature Spiritual Treasure

<Attached Soul> None

<Effect 1> Spiritual Tower Cage, under certain conditions, can suppress all powerhouses below the god realm.

<Effect 2> Refine strong cultivators into Immortal Pills, repair your body, and improve your strength.

<Effect 3> By refining the strong, it can deprive them of their Great Daos and completely master their Great Daos.

<Can't be Reforged>

<Unrefined >

<Note > Because of the damage to the Spiritual Tower, all kinds of its effects have been reduced.

"So powerful?"

Han Fei couldn't help being shocked by the abilities of the Creation Jade Spiritual Tower. Obviously, this spiritual tower was not a combat-type Nature Spiritual Treasure, so it was normal for it to be suppressed by the Thunder God's Hammer.

However, if this spiritual tower was repaired, its quality might even exceed the Thunder God's Hammer. After all, this thing had once suppressed a god, but it must have failed to suppress it and was broken through, so it was reduced to a low-quality Nature Spiritual Treasure.

[God of Fishing](#)

Chapter 2995: Cooking and Eating An Immortal (3)

2995 Cooking and Eating An Immortal (3)

As for the Immortal Pill, judging from its name, it was definitely of a high level. He could try it on Bai Ye. Well, he could just throw the wolf head in and keep the wolf body to eat.

As for stripping away the Great Dao, Han Fei wasn't too interested in it. He had already mastered a lot of Great Daos. However, he could use this method to help some strong masters of the human race quickly increase their strength.

There were quite a few Immortals here. There were nearly 200 people at the Carefree Level and the Dao Proving Level. If he could separate these people's Great Dao and give them to human Sky Openers to comprehend, wouldn't he be able to quickly build Dao Proving cultivators?

Although it might not be as simple as he thought, this matter was very promising. He might as well give it a try.

However, how could such a powerful Nature Spiritual Treasure fall into the hands of an Immortal-level?

Han Fei admitted that Bai Ye was very strong. Fortunately, he had many means. With the help of the Emperor Sparrow, Little Black and Little White, and the Thunder God's Hammer, he managed to take Bai Ye down. However, wouldn't Great Monarchs be interested in such a Nature Spiritual Treasure? Why did they just let an Immortal-level cultivator take such a high-level spiritual treasure?

Or maybe, Bai Ye's identity was not simple?

However, so what? The Ancient Demon Race and the human race were already mortal enemies. How could he just forget the lives of 70 billion of human compatriots?

Han Fei extended his hand and a drop of his essence blood flew out. "Follow me. I'll repair you and help you return to the peak."

The little tower trembled a few times. It was unknown if it believed Han Fei, but it couldn't run away now. The opponent's hammer was very powerful. At its peak state, it might not be afraid, but now, it really couldn't beat the hammer.

While refining the small tower, Han Fei beckoned, "Senior Brother Six God, do you want to stay and eat wolf meat after this battle is over? This guy is known as a pure-blooded ancient demon. Its meat must be delicious."

Senior Brother Six God smiled. "Okay! I've long heard from Fifth Senior Brother that Little Junior Brother's culinary skills are unparalleled in the world. I'm in for a treat today."

At this moment, Luo Xiaobai had already summoned the human race to launch a full-scale counterattack. On the battlefield, the sound of fighting shook the sky.

Han Fei's voice resounded through the sky. "My fellow human beings, I am Human Sovereign Han Fei. I announce that the human race has won this battle. Upon my return, I will establish a prosperous era for the human race. Those who are enemies of our race will be dealt with accordingly. In short, the rise of the human race is unstoppable. Even if gods or buddhas try to stop us, they will be killed."

"Long live the Human Emperor."

“Human Emperor is invincible.”

“I’m willing to follow the Human Emperor forever.”

“I knew it. As long as Master Human Emperor is here, the human race will not be destroyed.”

“Everyone, from today onwards, there will be no obstacles ahead.”

“...”

Han Fei paused and reminded them, “Humans, remember to keep those ancient demons and sea demons that are edible. I’ll lead you to fight your way out and celebrate.”

“Hahaha...”

Countless people laughed out loud.

“I’ve hunted a giant shark. I’ll share it with everyone.”

“That’s nothing. I’m just hunting a Venerable crab. Anyone who sees it will have a share.”

“I have an ancient demon. I don’t know what it is, but it has meat. It’s definitely edible.”

A Sea Establisher smiled casually. “Well, I’ve hunted several flood dragons. I can’t eat all of them alone. Let’s share them.”

“Awesome.”

“Great.”

...

Bai Ye, who was impaled by Han Fei’s spear, turned furious and roared, “Han Fei, the Ancient Demons won’t let you go. My ancestor is a peak-level Great Monarch. He will avenge me and kill you.”

“Alright, then I’ll cook you and eat your meat in front of them. I’d like to see if your so-called Great Monarch ancestor can save you. Or, will he save you, or will I cook him too.”

“How dare you... Ah...”

Slap!

“Shut up.”

Han Fei cut off the wolf’s tongue and put it away. This was also an ingredient and couldn’t be wasted.

The ancient demons who were still struggling were horrified. The human race wasn’t like this before! Why was this Human Emperor so crazy?

With the addition of the North Sea Insects to the battlefield, the siege was carried out very quickly. Han Fei witnessed what was called the “insect race”. Wherever they went, they truly swept away everything like a storm.

Perhaps because Han Fei said that he wanted to eat ancient demons’ meat, Senior Brother Six God left the ancient demon corpses to him.

In this battle, the number of decapitated heads is unknown, but it is definitely more than tens of billions. The sea demons' tide collapsed. Without restraint, the sea demons that hadn't come to the battlefield all fled. They didn't want to participate in the battle but were controlled by the ancient demons. Now that the ancient demons were gone and no one was controlling them, they naturally escaped.

In just one day, outside the Godfiend Sea, it was full of corpses, and within tens of millions of kilometers, it had completely turned into a sea of blood.

The insects of the North Sea retreated from the wormholes one after another, and all the human beings were mobilized to clean up the battlefield. To them, this battlefield was a valuable treasure trove. There was so much to clean up that they couldn't even pick up everything. Almost everyone had picked up so much that their hands were sore.

In the human camp, Han Fei, Senior Brother Six God, Luo Xiaobai, the Beast King, Liu Qiansi, the two elders of the Lava Giants, and Chu Hao, who didn't come out just now, were gathered in a circle. Beside them stood a spear formed by the Infinity Water, and Bai Ye's silver wolf head was still inserted onto it, his eyes filled with anger. This was because in the middle of the people, there was a huge pot that was cooking his flesh and blood.

Not far away, You Dunv and Wood Demon Shanshan, were trembling under a barrier. They couldn't believe that Han Fei was really going to eat Bai Ye! They couldn't believe that a pure-blooded Primordial Silver Wolf would watch himself being eaten. It was truly horrifying.

[God of Fishing](#)

Chapter 2996: Cooking and Eating An Immortal (4)

2996 Cooking and Eating An Immortal (4)

However, the two women didn't dare to say anything. They had thought that they would gain great credits this time, but now, they only hoped that they wouldn't become food.

Inviting Senior Brother Six God to dinner, Han Fei didn't ask anything. Eating was eating. This was his way of thanking him.

Senior Brother Six God said, "Little Junior Brother, I didn't expect the Demon Purification Pot to be with you. However, I'm afraid the Central Sea Divine Realm will go crazy since you've shown the Demon Purification Pot. They had done that once a hundred thousand years ago, when a hundred Great Monarchs fought from the West Sea to the East Sea just to get the Demon Purification Pot. You have to be mentally prepared."

Han Fei said, "Senior Brother, don't worry. My path has always been bumpy. Even if I don't have the Demon Purification Pot, I still have many enemies. So, it doesn't matter if the Demon Purification Pot is shown or not. Besides, the Central Sea Divine Realm bullied me too much. A big victory alone is not enough. Our 70 billion compatriots won't die in vain..."

Han Fei's words were cold and murderous. Liu Qiansi and the elders of the Lava Giants didn't dare to interrupt at all.

The Beast King said casually, "That's right. Those b*stards should be executed."

Luo Xiaobai asked, "How long will it take for those Great Monarchs to arrive?"

Senior Brother Six God said, "If my guess is correct, someone will probably arrive in a few hours. But they won't attack alone. At least three or five Great Monarchs will take action together tentatively."

Han Fei asked, "Senior Brother Six God, can you stay for two more days? You don't have to do anything, but the human race still needs some time to clean up the battlefield."

Senior Brother Six God nodded slightly. "OK."

Han Fei immediately smiled and said, "Come on, let's eat. Senior Brother Six God, I made braised wolf meat, wolf bones in sauce, frozen wolf marrow, stir-fried wolf heart, and steamed wolf tongue for you..."

Watching from the side, Bai Ye was trembling with anger. He was about to go crazy as he watched his flesh and blood being cut up and even his p*nis being fed to the insects by the a*shole Han Fei.

Unfortunately, he was sealed, his tongue was pulled out, and his soul was sealed. He couldn't speak at all.

After eating and drinking to his heart's content, Senior Brother Six God sat cross-legged on the head of the big mantis. Han Fei asked around and learned that the big mantis was Senior Brother Six God's Companion Spirit. This surprised Han Fei. Therefore, Senior Brother Six God was a Great Monarch himself, and his Companion Spirit was also a Great Monarch, and both of them were extremely powerful, so he could control the North Sea.

He couldn't be more envious. Senior Brother Six God alone occupied one of the five realms. How powerful was that? For a moment, he wondered why Senior Brother Six God didn't surpass Fifth Senior Brother in ranking. It didn't make sense. Fifth Senior Brother just drank, ate meat, and slept every day!

"Ah-choo ~"

In the Chaotic Ice Domain, Fifth Senior Brother smacked his lips. "What a pity! It's a pity that I can't leave the Chaotic Wasteland. Otherwise, I would have to eat at least one of the wolf legs! Well, Little Junior Brother probably hasn't finished eating. I'll have him save some food for me and bring it to me in the next meeting."

...

People were cleaning up the battlefield in full swing, and the Beast King and the others had returned to their positions.

Han Fei and Luo Xiaobai came to You Dunv and Wood Demon Shanshan. The two of them had already been crippled. All their treasures had been taken away, their Great Dao had been severed, their souls were seriously injured, and their combat power had been reduced to the Dao Proving Level. It was impossible for them to escape unless they wanted to court death immediately.

Han Fei was still holding two skewers of wolf meat in his hand. While chewing, he asked, "I'll only give you one chance. I hope you can grasp the chance. After asking you, I will search Bai Ye's soul. So, you'd better think carefully about whether to answer and how to answer my questions."

Wood Demon Shanshan asked, "What do you want to ask?"

Han Fei smiled and said, "Three of the six ancient races participated in the siege of the human race. I don't believe this is purely to suppress our human race and prevent it from rising. So, tell me the reason."

You Dunv spoke first, "Because of luck."

Han Fei smiled faintly. "Oh? It seems that you can't wait? Come on, then tell me. Think carefully and make yourself clear. I think spiders are edible too. You're a pure-blood demon, right?"

God of Fishing

Chapter 2997: Attraction of the Demon Purification Pot (1)

2997 Attraction of the Demon Purification Pot (1)

You Dumu shivered. What kind of person is this?! How can you eat a spider?

She said, "It's said that in the Chaotic Era, the six ancient lineages were born from the same vine and shared the luck of the world. When one lineage declines, the luck of this lineage will be inherited by the other five lineages. When the human race declines, the other five lineages will become stronger. If five of the six lineages decline, the remaining lineage will become extremely powerful and even become the master of this Sea of Stars. This is why our lineages don't want to see the human race prosper again."

"Oh?"

Han Fei and Luo Xiaobai looked at each other. This reason was really unexpected.

You Dunv continued, "At present, it can be confirmed that not only can the six lineages snatch the luck of all races, but the luck of the six lineages far exceeds the luck of all other races. We attacked the human race because we wanted to snatch the luck of the human race."

Luo Xiaobai asked, "How? When the human race is destroyed, will their luck be transferred to you?"

You Dunv looked at Han Fei hesitantly and shook her head slightly. "No, to kill the Chosen One."

Han Fei frowned. "Who is the Chosen One? Me?"

You Dunv said, "The Chosen One is not a specific person. You are, and Luo Xiaobai is. All human beings who have reached a high position and their cultivation strength is at the peak of the human race are. They are much luckier than ordinary human beings. If you kill them, you can obtain luck."

Han Fei asked, "Doesn't that mean that everyone is the Chosen One, but the strength of their luck is different?"

You Dunv: "You can understand it that way."

Luo Xiaobai said, "Therefore, in your opinion, human beings are not humans, but luck. What you harvest is the overall luck of human beings."

You Dunv nodded. She didn't dare to lie at this moment. Even if she did, how could the overlords of the North Sea not know?

Luo Xiaobai suddenly asked, "According to what you said, since the six lineages can snatch the luck of all other races, why is there a situation of 'one's gain is another's loss' in the fortune of the six lineages? If you hunt enough strong masters of all other races, can't you increase the luck of your lineage without limit? In that case, why do you have to deal with the human race?"

You Dunv: "Competing for the luck of all other races and for the luck of the six lineages are two different things. One of the six lineages seizing the luck of all other races won't affect the other five. But among the six lineages, if one lineage declines, the luck will flow to the other five lineages. Therefore, it's a 'one's gain is another's loss' situation."

Han Fei asked, "So, the six lineages are special, or even integral. Just because they are integral will luck flow among them?"

You Dunv: "I don't know about that."

Luo Xiaobai said, "According to what you said, the human race was extremely powerful in the Chaotic Era. Why didn't they destroy the other five lineages and seize all the luck? At that time, the human race should be able to do it, right?"

"One of the six lineages can be destroyed."

Wood Demon Shanshan suddenly said, "Although there are very few historical records of the Chaotic Era, we can still learn some things from the remaining records. In the past, the human race was at its peak and wanted to wipe out the other five lineages. However, the six lineages are indestructible, and they will always rise again in places you can't see. For example, before you entered the Sea Realm, the five lineages didn't know of your existence, so they couldn't destroy the human race."

Suddenly, Han Fei and Luo Xiaobai looked at each other and seemed to think of something. Han Fei said, "Let me ask you a question. What is the primordial stillborn? Is it an undead?"

Of the six lineages, everything was easy to understand except the ancient stillborn. What exactly was this stillborn? Han Fei could only think of undead creatures.

"No!"

Wood Demon Shanshan confidently explained this issue.

Han Fei and Luo Xiaobai were both slightly relieved. If the undead creatures were also from the ancient six lineages, the existence of the human race should have been discovered long ago. The former human race was so weak. Why didn't the undead creatures attack the human race?

But Wood Demon Shanshan immediately said, "I know what you're thinking. Wherever there is a death, there are almost always undead creatures. We once suspected the undead is one of the six lineages, but no matter how strong an undead creature was killed, it couldn't increase our luck. Therefore, undead creatures are not from the ancient six bloodlines."

Han Fei couldn't help but look at Senior Brother Six God in the distance. Senior Brother Six God said, "What they said is true. But most of the time, there is no conflict among the six lineages. It's just like the place where human beings live. There are demon plants, insects, demonic beasts, strange beasts, and

undeads... Unless this entire world is annihilated, reincarnation is severed, and the Soul Sea is destroyed, the six lineages won't die. They only attacked the human race for their own selfish reasons."

After a pause, Senior Brother Six God said, "As for the primordial stillbirth, you don't need to know about it for now. It won't be too late to find out when you become a Great Monarch."

"Oh?"

Han Fei's heart did a flip. It seemed that there was a greater secret behind this ancient stillborn. It was probably because this lineage was too powerful for him to get involved now.

At this point, Han Fei finally understood why these people attacked the human race. These people didn't care about living beings at all but simply harvested the human race as a resource.

"The Ancient Demon Race, the Divine Demon Forest, the Sky Spider Worm Valley, you owe me 70 billion human lives. I'll remember you."

Han Fei's eyes were cold. It was impossible for these two people to be released. He would refine them into Immortal Pills! Or strip them of their Great Daos and make the best use of them.

Luo Xiaobai said, "Since the six lineages harvest each other's luck, can other races also harvest the luck of the six lineages?"

[God of Fishing](#)

Chapter 2998: Attraction of the Demon Purification Pot (2)

2998 Attraction of the Demon Purification Pot (2)

"Yes."

Wood Demon Shanshan nodded. Han Fei would definitely think of this, so she didn't hide it.

The corners of Han Fei's mouth twitched. So, the strong masters of the Central Sea Divine Realm were here to harvest luck because the human race was weak.

Now that he knew this much, there was nothing else to ask. Han Fei extended his hand and the Creation Jade Spirit Tower appeared.

"Go, collect them."

The two of them must have seen Bai Ye use the Creation Jade Spirit Tower, so they were shocked to see that Han Fei was going to use it on them.

You Dunv said hurriedly, "Han Fei, you can exchange us for resources with the Sky Spider Worm Valley or the Divine Demon Forest. Don't the human race need resources? The two of us can exchange for a lot of resources, a lot of resources."

Han Fei sneered. "Sorry, when we reach the Infinite Mining Area, the human race doesn't lack resources at all. If there weren't so many casualties in our human race, I would have been happy to exchange you for opportunities, but now, no way."

The Creation Jade Tower first collected You Dunv. When collecting Wood Demon Shanshan, Han Fei hesitated and looked at Luo Xiaobai. "This person is an Immortal-level demon plant. I can strip her of her Great Dao or kill her and pluck her Origin Star. What do you think?"

Wood Demon Shanshan seemed to be prepared and quickly said, "If you spare my life, I'm willing to teach Luo Xiaobai all my insights and two divine techniques."

Luo Xiaobai was about to speak, when Han Fei said, "Then I'll keep you for now. Do you think I don't know what you're thinking? Even if you teach the divine techniques to Luo Xiaobai now, she won't have the time to comprehend them. You might still think that since the Demon Purification Pot has been exposed, we'll definitely be subject to attacks from the Great Monarchs from the Central Sea Divine Realm, and then you might have a chance to be saved."

Wood Demon Shanshan's expression didn't change at all, but she did think so in her heart. Now that Han Fei had used three Void Marks, the human race was doomed. As long as she stalled for time, things might turn for the better.

However, Han Fei smiled casually. "I'll keep you, but you should go into the tower first. Maybe when I'm in a good mood, I'll let you out and show you what despair is."

...

Two days later.

The human beings had finished cleaning up the battlefield, and Han Fei knew that many Great Monarchs had arrived.

However, for the sake of Senior Brother Six God, they didn't appear. After all, they couldn't bully Han Fei in front of the Void Temple.

The Void Temple followed rules. It was already against the rules for a Great Monarch-level powerhouse to come personally. Han Fei had put himself in a desperate situation. They believed that the Void Temple had nothing to say. But killing Han Fei right under the nose of the Void Temple was a slap to the face of the Void Temple. They wouldn't do such a thing.

The human race had been in the wilderness for 428 years, and their experience was enough. Han Fei believed that the current human race would no longer fear. Every one of them was brave. Han Fei had taken the entire human race into his Origin Star. The following battle was not something ordinary people could participate in.

On the head of the Six God Mantis, Han Fei sat next to Senior Brother Six God. He still hadn't adapted to the child-like look of Senior Brother Six God who looked like a handsome little monk.

When Han Fei glanced at Senior Brother Six God's head countless times, the latter finally couldn't take it anymore. "Little Junior Brother, that's enough."

"Ha! Senior Brother Six God, I'm just curious. Cultivators can change their appearance at will. Even if they don't, they will grow naturally! But what's wrong with you?"

Senior Brother Six God said in a childish voice, "My childhood opportunity made me Immortal and my appearance no longer changed. As for transformation, it's meaningless."

Although his voice was immature, Senior Brother Six God's tone was quite dignified, but not as serious as Senior Brother Azure Dragon's, but a little casual.

Senior Brother Six God said, "Little Junior Brother, there are a lot of Great Monarchs coming. Although I don't know what kind of killer moves you have, the Great Monarchs are not stupid. They just don't know what trap you have set. Therefore, they won't attack easily. Once I leave, they only need to send a clone to test you out. If Chu Hao is not exposed, you won't be able to stop them."

Han Fei said, "I know, but I didn't set any traps. If it weren't for you, they wouldn't dare to take action. I really want to invite you to stay and take a look."

Senior Brother Six God said, "It's great you have confidence to deal with them! By the way, your confidence is from the Godfiend Sea, isn't it?"

Han Fei was briefly stunned. "You guessed it so easily?"

Senior Brother Six God said, "Actually, it's not easy to guess. The Godfiend Sea has existed for 1.8 million years, and nothing unusual has happened in it in the past 1.8 million years. Besides, many strong masters can decay over time. Even if they guessed it, they wouldn't be too afraid. What they are afraid of is still the city deep in the Infinite Mining Area."

Han Fei was slightly relieved. "That's good! But is that city really that scary?"

Senior Brother Six God said, "The Infinite Mining Area hasn't been divided up by the strong masters yet. Do you think it's really because of the mine demons? Although the mine demons are strong, how can they resist the countless strong masters in the Sea Realm? It's just that the strong masters in the Sea Realm don't want to have a conflict with that city."

Han Fei remembered Great Monarch East Martial's reminder, which gave him some information. That was, in the depths of the Infinite Mining Area, there existed an ancient city called the Hidden Monarch City.

It was said that there were gods in the Hidden Monarch City. Great Monarch East Martial reminded him that if the human race wanted the Infinite Mining Area, it wouldn't be enough to solve the various forces in the Infinite Mining Area, and that they had to get the tacit approval of the Hidden Monarch City.

[God of Fishing](#)

Chapter 2999: Attraction of the Demon Purification Pot (3)

2999 Attraction of the Demon Purification Pot (3)

But Han Fei chose both. At first, he took a fancy to the Infinite Mining Area because of the resources there, as well as the existence of divine beasts and demonic beasts there. Then, he chose the Infinite Mining Area because of the Hidden Monarch City.

He had even made a plan. When the human race arrived at the Infinite Mining Area, he would personally visit the city. If the Hidden Monarch City didn't agree, he would let the human race only operate in the mining areas that had been developed so far. If the hostility of the Hidden Monarch City was exposed, he would choose to use the void mark without hesitation.

But in either case, the human race would definitely go to the Infinite Mining Area.

Han Fei smiled. "I'll take it one step at a time! If the Infinite Mining Areas really can't accommodate human beings, we'll go to the West Wilderness. Although the West Wilderness is very chaotic, I have some connections there."

Senior Brother Six God nodded slightly and then got up. "Then, I'm leaving."

"Take care, Senior Brother."

Senior Brother Six God had left, but the insects outside the Godfiend Sea and even along the way were all his. Therefore, Han Fei finally knew why Senior Brother Six God was so well-informed.

Senior Brother Six God walked very handsomely. He flashed on the spot, and a human-shaped golden pillar of light pierced through the sky from the bottom of the sea. After the pillar of light disappeared, he was gone.

Senior Brother Six God had left, but the Six God Mantis dug out a wormhole and entered it before leaving.

As soon as Senior Brother Six God left, Han Fei sensed murderous intent from someone. It had only been less than half an hour. It was obvious that the newcomers were eager to kill.

As expected by Senior Brother Six God, the source of the killing intent was a clone of a strong master, who was still a million kilometers away from Han Fei. He tapped at the void and tried to pierce through Han Fei.

However, the power of that finger was extinguished with a bang a hundred thousand kilometers away from Han Fei.

Han Fei smiled but was not in a hurry to leave. Instead, he sat in the air and set up a big pot. Then, he extended his hand and the Creation Jade Spirit Tower appeared. A wolf head flew out, breathless and dying.

"Pfft!"

The Infinity Water turned into a God Sealing Spear and pierced the wolf's head again, standing erect next to Han Fei.

Then, Han Fei took out the remains of the Primordial Silver Wolf and said with a casual smile, "Come out now that you're here! You're a Great Monarch. Why are you so cowardly?"

While talking, Han Fei cleaned the wolf skin, cut the meat open, and put it in the pot. Then, a pile of seasonings appeared in his hand. Han Fei seemed to be waiting for the wolf meat to be cooked before throwing the seasonings into the pot.

Billions of kilometers away, a silver wolf of the Ancient Demon Race stared at Han Fei coldly with murderous intent. Han Fei killed a Heavenly Talent of the Primordial Silver Wolf Tribe, snatched his treasure, and ate his flesh. How could he bear this?

“Good, good! Human Emperor, right? Now that you’re here, let’s see how you dare to treat our tribe’s Heavenly Talent like this.”

As he spoke, a middle-aged man stepped on the sky and arrived in an instant. He appeared tens of millions of kilometers away from Han Fei and in the blink of an eye, he was a million kilometers away. In another blink of an eye, he was only less than 100,000 kilometers away.

However, at a distance of 100,000 kilometers, a spiral black hole appeared. The laws of heaven and earth pressed down and the person tried to destroy it with a wave of his hand, but in an instant, he was minced by the vortex.

Then, a figure stood beside Han Fei with his hands behind his back.

“I thought you really had the guts to come out, but it’s just a clone. You’re really gutless.”

Chu Hao appeared and glanced at the sky. “How many old friends have come today?”

In the void, there were buzzing sounds.

“Chu Hao, you’re still alive?”

“What a surprise. The Demon Purification Pot fell into the hands of a mere human kid, but you didn’t take it back.”

“You’re still alive even though you were so severely injured. Chu Hao, you’re quite strong, aren’t you?”

These Great Monarchs seemed to have stopped hiding and didn’t care if Han Fei heard them or not. If it weren’t for the fact that they hadn’t confirmed if there was a trap here, they would have completely appeared.

Chu Hao snorted coldly. “Why don’t you try to see if I’m strong or not?”

“Chu Hao, you’re a Great Monarch, but you’re giving the Demon Purification Pot to someone else? Is that all you’ve got?”

Someone mocked, trying to anger Chu Hao.

Chu Hao, on the other hand, said indifferently, “You’re Great Monarchs, yet you’re ganging up on a Carefree Level cultivator? I’ve controlled the Demon Purification Pot for at least 100,000 years. What about you? A bunch of trash.”

On the side, Han Fei stoked the fire and seasoned the meat at ease. He also set up a grill, skewered the wolf meat, and brushed the oil on it.

He didn’t doubt Chu Hao’s strength. This guy had already become a Great Monarch two million years ago. In the past, he ran from the Sea of Stars to the West Wilderness of the Sea Realm and then to the East Sea with the Demon Purification Pot under the pursuit of countless strong masters. And in the end, he still took away most of the Demon Purification Pot.

From this, it could be seen that Chu Hao’s strength at his peak was beyond imagination. Besides, this was not his first life, but his sixth.

How could such a Great Monarch be ordinary? This kind of Great Monarch was equivalent to Old Han and his mother. They could easily become gods in each life.

Therefore, although Han Fei didn't know how many Great Monarchs had come, he believed that Chu Hao was 99% the strongest among them. If he couldn't do this, how could he run around with the Demon Purification Pot?

Someone said, "Chu Hao, the Demon Purification Pot is no longer in your hands. We're not interested in you. If you leave, we won't trouble you again. What do you think?"

[God of Fishing](#)

Chapter 3000: Attraction of the Demon Purification Pot (4)

3000 Attraction of the Demon Purification Pot (4)

Chu Hao sneered. "You sound as if you're letting me go like letting go of an ant. You people are always so annoying. You were like this a hundred thousand years ago, and remain the same now. Today, I'll temporarily be Han Fei's guardian. If you want to die, come. If you don't, get lost."

Han Fei said, "Alas! Senior Chu Hao, come have a bite of wolf meat. It's physically exhausting to quarrel with others. The flesh of this pure-blooded Primordial Silver Wolf is indeed extraordinary. It's really a delicacy in the world."

Next to him, Bai Ye almost had a mental breakdown. Watching his flesh and blood being eaten, he really didn't want to experience this feeling a second time.

At this moment, he knew who was coming. He wanted to shout, but he couldn't say anything. He could only look in the direction of the voice.

Han Fei and Chu Hao ate heartily without any scruples. Han Fei was not in a hurry, neither was Chu Hao. Besides, Han Fei's culinary skills were very good. The wolf meat was indeed delicious.

Finally, when the two of them were eating heartily for half an hour, Chu Hao suddenly moved. He flicked his finger in the air, and a wisp of law transformed into a sword in the sky. In an instant, a figure was pierced through and shattered.

Han Fei clicked his tongue. Chu Hao's blow was very strong. With just a flick of his finger, he probably couldn't withstand it even if his Original Great Dao was fully activated.

Sure enough, a Great Monarch was a Great Monarch. The only thing he could do in a battle of this level was to watch the show.

As for Chu Hao, he glanced at Han Fei first. "They seem to be prepared and start to test us."

Then, Chu Hao shouted at the void, "If you want to test my strength, come together! What's the point of sending your clones one by one?"

"As you wish."

In the next moment, Han Fei felt that the Great Daos in this space was completely chaotic. Except for the corner where he was, the surrounding laws were rioting, and the world was filled with killing intent.

Every blade of grass, tree, breeze, and sunshine seemed to contain terrifying power. That feeling made Han Fei feel as if he was on a lonely reef in the sea, about to be swallowed by the surging tide at any time.

As for Chu Hao, he stood where he was and stomped, causing countless spirals to flash in all directions. Han Fei didn't know Chu Hao's combat techniques. He only knew that Chu Hao seemed to be especially good at this strange spiral or vortex-type attack. Then, within a radius of a million kilometers, there were continuous booms and explosions. One layer after another, the void collapsed. In less than a hundred seconds, Han Fei's perception could no longer extend out, because void cracks and spatial storms raged within a million kilometers. There was no condition for his perception to extend.

To put it bluntly, the million-kilometer void had collapsed.

At first, Chu Hao just stomped his feet. Then, a needle appeared in his palm and began to swim in the void. Later, it turned into thousands of needles and attacked at the same time. In the end, this combat method seemed to be insufficient. Chu Hao finally began to use his full strength. A bronze divine tree appeared behind him. The bronze tree grew leaves and the leaves flew all over the sky, cutting through the void.

Later, Han Fei saw with his own eyes that the needles and copper leaves were shattering. As for Chu Hao, blood flowed from the corner of his mouth.

Chu Hao couldn't help but look at Han Fei. "There are a lot of visitors."

Han Fei narrowed his eyes and didn't speak.

A voice came from the void. "As expected of you. If I hadn't forced you to this point, I wouldn't have known that your injuries hadn't recovered. No wonder Han Fei was so unscrupulous. It turns out that you have recovered to this point."

Someone laughed. "Chu Hao, I admit that the power you showed is no weaker than 100,000 years ago. However, you haven't become stronger. You have once obtained the Demon Purification Pot, so you should be able to guess how many people will come this time. How dare you be so unscrupulous in front of us?"

Chu Hao frowned slightly and looked at the void again. "I can kill five. Have you thought about who will come to die?"

"Heh! Do you really think we're afraid of your bluffing? Even if some people die today, do you think what happened a hundred thousand years ago will happen again? Oh no, you might not be able to escape this time."

Buzz buzz buzz!

Chu Hao didn't attack again, and the Great Monarchs didn't attack again. Instead, 27 people appeared at once.

Han Fei couldn't help but click his tongue. "I didn't expect myself to be so valuable. Twenty-seven Great Monarchs have come in one go. You really think highly of me!"

After Han Fei finished speaking, Chu Hao shook his head slightly. "Not just 27. Eight more haven't appeared yet."

Han Fei narrowed his eyes. How many Great Monarchs were there in the East Sea Divine Realm? The Divine Capital Dynasty, the Heavenly Race, the Fist Light Mountain, the Ghost Strait, the East Sword Pavilion, the Capital of Horror... including the previous Chaotic Wasteland, how many Great Monarchs were there in total? Were there 20?

Just as Chu Hao finished speaking, an enchanting woman in sexy black tights and blue-black lip gloss walked out of the endless void.

She looked at the Great Monarchs and said, "The three ancestors have arrived and sealed off the Infinite Mining Area to prevent the Hidden Monarch City from attacking us. Let's end this quickly. Remember, capture Han Fei alive."
