#### Chapter 3001: Do You Want Wolf Meat? (1)

##### 3001 Do You Want Wolf Meat? (1)

There was a deeper meaning to his words. As long as Han Fei was still alive, it was fine. As for how crippled he was, who cared?

Han Fei had only used Chu Hao to attract the Great Monarchs from the Central Sea Divine Realm to take action. He really didn't expect that the Hidden Monarch City would become a target of vigilance of these Great Monarchs.

Although his plan did include the Hidden Monarch City, that was after he reached the Infinite Mining Area. It had nothing to do with the present.

"Right!"

Han Fei seemed to understand something. Perhaps in their opinion, the Demon God had actually perished, and the Godfiend Sea was filled with some old demons. After so many years, even survival was a problem for them. Even if they really came out, what could they do?

Han Fei couldn't help but laugh. This was originally an overt scheme. He was even prepared that the other party had guessed that there would be a problem in the Godfiend Sea. But the other party's Great Monarchs didn't seem to care.

In order to complement the seemingly tense situation, Han Fei waved his hand and put away the hot pot and barbecue. The Creation Jade Spirit Tower appeared in his hand again and appeared above Bai Ye's head. Han Fei said, "Whether I can kill my way out today or not, this wolf is dead meat."

"Thief, you're asking to be killed!"

Among these Great Monarchs, the Primordial Silver Wolf of the Ancient Demon Race finally took the lead to attack. As long as one of them attacked, all the Great Monarchs naturally attacked together.

Chu Hao grabbed Han Fei and rushed out. The phantom of the Primordial Silver Wolf was shattered by a punch.

A giant centipede swayed in the chaotic laws. Then, billions of sword shadows smashed down like rain.

Chu Hao pushed with a single hand, and the power of the spiral stirred the laws, forming a storm of law in his palm, sweeping up the billions of sword shadows and throwing them at the other Great Monarchs.

A demon plant instantly transformed into a vast forest. Chu Hao sneered. "Have you forgotten that I've walked this path?"

As Chu Hao flicked a vine with his finger, the tens of millions of kilometers of void jungle instantly collapsed like dominoes.

However, Han Fei also saw a wisp of redness appear at the corner of Chu Hao's mouth because a ray of light swept past him from behind. However, he rolled back his hand, retracted the ray of light, and smashed it at another unknown Great Monarch.

The battle here was dazzling. Even if Han Fei didn't do anything at the moment, he could only see less than one-fifth of the battle clearly.

He suddenly discovered that it seemed simpler for a Great Monarch to attack, but actually, every slight movement of theirs might contain extremely terrifying power. Just by pointing at the void, they could break through the seals of millions of kilometers.

"Do all Great Monarchs attack like this?"

No, in a battle of any realm, there was always a tit-for-tat situation. It couldn't be explained by just this casual way of fighting. Then there was only one reason, that was, the strength of the two sides was imbalanced. These enemies of the Central Sea Divine Realm relied on their large number of people, so every attack gathered a terrifying power at one point, forcing Chu Hao to take their power head-on. In this way, they had the numerical advantage.

Otherwise, if they were to fight Chu Hao in close combat, it would definitely affect other people's attacks or even affect themselves, making it easy for Chu Hao to kill them.

Being surrounded by the Great Monarchs for a full hour, Chu Hao could only barely bring Han Fei across hundreds of millions of kilometers of sky. When he wanted to step directly into the endless void several times, Han Fei thought that Chu Hao could really escape with him, but then Chu Hao was forcefully pulled back from the endless void.

"It's just like real!"

In the eyes of these Great Monarchs, Chu Hao had almost run away several times, so they were always on guard.

Only Han Fei knew that he had long discussed with Chu Hao to attract as many Great Monarchs as possible to hunt him down.

As long as the enemy believed that Chu Hao could escape, more Great Monarchs would join the battle.

The Great Monarchs of the Central Sea Divine Realm were also speaking to each other via voice transmission. "Everyone, don't just sit by. You should have seen Chu Hao's strength. This time, not only will we snatch the Demon Purification Pot, but Chu Hao also has to die. Otherwise, Chu Hao will definitely retaliate."

"Everyone, you should know how strong Chu Hao was in the past. This time, we can't let him leave again."

"What are you waiting for? Isn't it obvious? Han Fei's only reliance is Chu Hao. He wanted to lure and kill us, but he underestimated our determination."

"As long as the Hidden Monarch City doesn't interfere, there will be people from the Central Sea Divine Realm who will deal with the ferocious beasts. What else is there to fear??"

Someone was puzzled. "I have a feeling that this matter is not simple. The Demon Purification Pot has appeared. Han Fei can't recognize the seriousness of the problem. Can't Chu Hao also?"

Someone said, "Whether it's a trap or not, everyone, what trap can ambush dozens of Great Monarchs like us? The Godfiend Sea? This place hasn't opened for 1,800,000 years. And according to countless historical records, that god died a long time ago, and he didn't even die in the Godfiend Sea."

Someone echoed, "Everyone, you should have felt the chains of order in the Godfiend Sea. There are no conditions for recuperation there at all. Even obtaining spiritual energy is extremely extravagant. If there is a problem with the Godfiend Sea, it should have been launched long ago. Why would the human race still sacrifice 70 billion people?"

"That's true."

...

On Han Fei's side, Chu Hao's expression was ugly. "There are still more than 30 drops of Spring of Life left. I haven't recovered to my peak state, and escaping from nearly 30 Great Monarchs is already my limit. Those who haven't come out now are probably all scheming people. Do you want to reel in the net now?"

#### **Chapter 3002: Do You Want Wolf Meat? (2)**

3002 Do You Want Wolf Meat? (2)

Han Fei thought that he had attracted a lot of people this time. It seemed that it was time to reel in the net.

Suddenly, Chu Hao stopped and a cage full of spider webs appeared in front of him. At this moment, a woman was hanging on the spider silk and saying, "Chu Hao, you can't escape. We're all Great Monarchs. The path ahead has been sealed and your retreat has been cut off. Today, you no longer have the Demon Purification Pot to use. How can you think of leaving with Han Fei?"

A powerful voice sounded, "Han Fei, hand over the Demon Purification Pot. Half of the Great Monarchs here will not attack again. You may still have a chance to leave."

Han Fei said, "Senior Chu Hao, please cover me. I'm going to use a technique."

Upon hearing this, the emperors frowned. What was the use of him using a technique at this moment?

However, an ancient altar appeared. The moment they saw the altar, they knew that Han Fei was going to summon certain existences.

"So that's why you're so confident."

"The altar in the West Wilderness? Who is this guy going to summon?"

Someone immediately shouted, "Attack!"

Chu Hao cursed in his heart. This brat is still not satisfied. He's risking his life!

Unfortunately, at this point, it was impossible to stop.

Chu Hao roared and spewed out a mouthful of essence blood, which transformed into a huge tree behind him. On the tree, there was a human-shaped phantom sitting cross-legged. "Blood Inverses the Spirit, God's Projection."

In an instant, the seven Great Monarchs of the Sky Spider Worm Valley behind Chu Hao all retreated.

Someone shouted, "It's the bloodline atavism technique of the descendants of gods. This guy summoned the projection of a god."

Chu Hao said, "Han Fei, since you want to play, then go all out and don't hold back."

Buzz!

The fire curtain reached the sky, and above the altar, a Fire Cloud Cave appeared. A figure walked out of the cave. It was the burly and ferocious God of War holding a giant axe.

"Hahaha! Han Fei, has something good happened again?"

However, the next moment, the God of War cursed, "Where did so many Great Monarchs come from? What are you doing?"

Han Fei shouted, "Senior War God, since you're already here, it's up to you whether or not I can survive today."

Around them, the Great Monarchs from the Central Sea Divine Realm were filled with suspicion and surprise. Some became wary, and some secretly breathed a sigh of relief.

They were wary because the God of War was very incredibly powerful. This old guy had walked the path of Extreme Dao body refinement and had reached the peak of the Great Monarch Realm. His strength was almost godly. In terms of true combat power, he was probably even stronger than Chu Hao.

As for why they were relieved, it was because no matter how strong the God of War was, there were only two people on Han Fei's side. Furthermore, this kind of summoning technique couldn't last long. This meant that the time for the God of War to appear was limited. As long as they stalled for time, they would win this round.

"The God of War of the West Wilderness? How could you have returned? Aren't you trapped in the Sea of Stars?"

"God of War, are you really abandoning the people in the West Wilderness for helping this guy?"

"Everyone, this is a clone. If the God of War could return, he would have returned long ago. He wouldn't have waited until today. Besides, his aura isn't that strong."

"Shut up! How dare you threaten my people? I think you're tired of living."

Roar!

The God of War was as violent as ever. He jumped up, brandished his battle axe, and the light of the axe swept across thousands of kilometers, shattering the spider webs. The person who threatened the God

of War just now immediately activated a secret technique at the same time, and eight hundred blade edges darted out to meet the God of War's attack.

Ka ka ka ~

However, the power of the God of War was incomparable to that of a Great Monarch. Wherever the battle axe passed, all the laws were shattered.

In an instant, the five Great Monarchs attacked one after another, sending six divine techniques to meet the axe.

Rumble!

A terrifying explosion erupted here. With the combined strength of the six of them, only three of them vomited blood and their souls trembled. Instantly, someone shouted, "Everyone, he is indeed a clone. If his original body is here, we won't be able to withstand one attack from him."

"Pfft!"

The person who spoke was sent flying. He felt that the essence blood in his body stirred abnormally. In the next moment, the phantom of a god summoned by Chu Hao extended his palm and turned into a huge demonic hand, grabbing the hundreds of thousands of kilometers in this place.

The Great Monarch from before was caught off guard and was crushed.

Chu Hao shouted in a low voice, "Die."

No matter how strong a Great Monarch was, he couldn't resist the power of a god. Just now, the strike of the God of War forced him to block it. Now that he was enveloped by the demonic hand, he had no way to dodge.

Rumble!

The phantom of a god controlled the heavens and the earth. This person was wrapped in divinity, and his Great Dao and law were instantly destroyed by divinity. This was the power of the descendant of a god.

The Primordial Divine Race were all descendants of gods. Although they had been destroyed, Chu Hao, the descendant of a god, still had some god-like methods. This was why he claimed to be able to kill the Great Monarchs.

Rumble!

Three days later, the Great Dao crack appeared again, and the entire Sea Realm was looking at the East Sea Divine Realm. In recent years, the Great Monarchs of the East Sea had died time and time again, so it was naturally the center of attention.

Seeing this, the God of War laughed. "A descendant of a god. Interesting. Although it's just the two of us, we can still fight. All laws converge into one, the immense evil of power, the axe that dominates the universe. I will gather the power of heaven and earth in my hands to slay gods. Kill..."

Han Fei was dumbfounded. He felt that the law of power here almost transformed into patterns that gathered towards the God of War. On the battle axe, an earthy yellow light bloomed. The God of War, holding the battle axe, seemed to be holding up a vast world horizontally in the sky. At this moment, the true appearance of the God of War couldn't be seen with the naked eye.

“Slash!”

Han Fei saw that an old man covered in hooks and thorns exploded and turned into a giant sandworm, but he couldn't break free and was crushed into sand. And the gravel continued to be crushed into nothingness.

3003 Do You Want Wolf Meat? (3)

Rumble!

The news of the death of another Great Monarch spread throughout the Sea Realm.

...

In the Central Sea Divine Realm, someone frowned. “The void marks have been used up. How can Han Fei kill two Great Monarchs in a row?”

...

The totem of the Wild Ancient Race in the West Wilderness was shining.

Many cultivators surrounded the totem.

Someone muttered, “The totem has never trembled so violently. It seems that the God of War has returned.”

Rumble!

Everyone looked at the sky and then looked shocked. “Has the God of War really returned? But why did he go to the East Sea Divine Realm?”

“I heard from the God of War that he found a successor in the East Sea Divine Realm. Could it be that for that successor, he used some secret method to descend into the Sea Realm?”

“Well, Lord War God is too much. He doesn't come out no matter how many times we invite him. Is it really necessary for him to come back in person just for a disciple?”

An elder said, “He may not come back in person, but he must have sent back a clone. He killed Great Monarchs the moment he returned. Isn't this causing trouble for us?”

Someone shook his head. “The God of War is really... Alas, he said that he would send a group of giants over. We've waited for 500 years, but those people haven't arrived. He's unreliable!”

Someone laughed. “Other than fighting, when has the God of War ever been reliable?”

...

South Sea Divine Realm.

Feng Yu, who was cultivating outside the Chaotic Fire Domain, had just returned from a secret place of inheritance when Aunt Huo immediately appeared beside her.

“Feng Yu, how is your cultivation going?”

Feng Yu smiled and held Aunt Huo’s arm. “Not bad! It’s not difficult to cultivate at the Carefree Level, but the comprehension of the Immortal Level is a problem. At the moment, I’ve got some insights. I have to make a trip to the Chaotic Sea. I heard from my Senior Sister that the Chaotic Sea is suitable for breaking through to the Dao Proving Level and Immortal Level.”

Rumble!

The road rumbled, and Feng Yu was puzzled. “Has anything happened in the South Sea Divine Realm recently?”

“The South Sea Divine Realm is fine recently, but the East Sea Divine Realm is not.”

Feng Yu asked, “The East Sea Divine Realm?”

Aunt Huo smiled and said, “A third Great Monarch has died in the past few days. Our patriarch said that the human race is at war with some forces in the Central Sea Divine Realm.”

“Human? Han Fei?”

Aunt Huo nodded slightly. “By the way, Feng Yu, you are Han Fei’s senior sister. If your strength is surpassed by Han Fei, will it affect your prestige?”

“Huh? I’ve been surpassed? Impossible, absolutely impossible.”

Feng Yu immediately let go of Aunt Huo’s arm and said, “I’ve never been surpassed in my life. I introduced Little Junior Brother to the Void Temple. How can my cultivation speed be slower than his?”

With that, Feng Yu walked back.

“Alas! Girl, where are you going?”

Feng Yu said, “I’m going to the Chaotic Sea to find my senior sister. It’s faster to go through the dragon race.”

Aunt Huo was lost for words. “Hey, wait a minute. What’s the rush? The God Ferrying Ancient Land of the South Sea is going to open in a few years, and all the elites of the Sea Realm will gather in the South Sea to compete for treasures. Just wait a bit longer. Also, the Holy Lady of the Miracle Forest said that she was going to find a spouse by fighting. You should represent the younger generation in this matter, so you have to go.”

Feng Yu said, “I can understand the matter of the God Ferrying Ancient Land, but what does this spouse finding thing have to do with me? I’m a woman. could she even choose me? Besides, I don’t like that woman. She’s too scheming.”

“Who asked you to participate in the spouse finding event? You’re just attending on behalf of your family.”

“Ah! Can I not go? Let Feng Xingliu go instead! He likes excitement, and when he sees that woman, he definitely won’t be able to walk straight.”

“No, Feng Xingliu is so loud and noisy. I’m afraid he’ll be killed before he even reaches the Miracle Forest.”

...

Outside the Godfiend Sea.

The God of War and Chu Hao were incomparably powerful.

The God of War was charging. His time was limited, so he had to make the best use of it. Everyone knew how powerful the God of War was, so there were seventeen Great Monarchs fighting him.

The remaining people tried to destroy the divine projection many times, but they were all beaten back and couldn’t do anything to Chu Hao for a while. If they attacked by force, as Chu Hao said, who would want to be the one to die?

If it was just Chu Hao, it would be fine. It wouldn’t be a problem to slowly wear him down. But with the addition of the God of War, it was a big problem.

The Ancient Demon Race’s Primordial Silver Wolf said, “Witch Lin, don’t hold back at this juncture. Shouldn’t you take out your Soul Locking Clock?”

A female Great Monarch sneered. “Easy for you to say. Why didn’t you take action first with your God Transformation Token?”

After that, the two of them looked at the coquettish woman, and the woman said, “I can attack first, but I’m afraid the effect of the God Breaking Silk is far inferior to your Nature Spiritual Treasures.”

Primordial Silver Wolf: “It’s better than nothing. Let’s work together and take down the God of War first.”

The three of them nodded. God of War swung his battle axe crazily. In the blink of an eye, three thousand rounds had passed. The Great Monarch besieging him was in great agony. If this hadn’t been a clone, they would have been chopped into pieces long ago.

Even so, five of them had been seriously injured.

Suddenly, a Void Swimming Snake continued to wrap around the God of War.

“A mid-quality Nature Spiritual Treasure?”

The War God’s giant axe slashed down, but the Winding Snake was invisible as it swept past the battle axe and tied up the War God.

“Soul Locking Clock!”

Above the head of the God of War, a bronze bell appeared. This bell circled in the void and a pillar of light shot down. The God of War was locked in the pillar of light and failed to break it after trying three times.

“God Transformation Token.”

A Moon Divine Plate appeared behind the Primordial Silver Wolf, and a Flame Token floated in front of it. Then, a wolf claw emerged from the Divine Plate behind it. It was so powerful that it seemed to have divinity.

### **God of Fishing**

#### **Chapter 3004: Do You Want Wolf Meat? (4)**

3004 Do You Want Wolf Meat? (4)

The God of War’s face changed slightly. “A Divine Strike?”

Roar!

The God of War roared, “You think a mere attack from a god can shake me? Do you really think I’m just a Great Monarch? Break!”

Bang! Bang! Bang!

The body of the God of War turned red, and the God Breaking Silk was shattered by a huge force.

“Axe in Chaos, Cut the Grand Void.”

At that moment, the War God’s clone completely blended into the battle axe. Under Han Fei’s shocked gaze, the battle axe expanded continuously and eventually burst open the Soul Locking Bell with a crack.

The wolf claw was about to reach out, but the axe glowed, and infinite chaotic power surged out of the endless void to support it, tearing apart the divine wolf claw.

“Puff! Puff! Puff!”

The Primordial Silver Wolf, the female spider, and the one from the Divine Demon Forest all vomited blood.

In the next moment, the God of War appeared and shouted, “If it’s a Supreme Nature Treasure, of course I can’t beat it. But a mid-quality Nature Spiritual Treasure is only enough for me to split it with three strikes.”

While Han Fei was stunned, he suddenly heard the God of War’s voice. “Kid, is that enough? How long do you want me to fight? If you want me to keep fighting like this, the Great Monarch’s Origin Star you gave me isn’t enough. You need to give me at least three.”

Han Fei said, “Just try your best to kill the female spider.”

“Alright, after I’m done, my clone will disperse. What a loss for me this time.”

Han Fei completely ignored the God of War at all. He cried that he was poor every day, but in fact, he had had enough.

The God of War was even more ferocious this time. The void behind him shattered, and he directly extracted the Chaotic Qi of Chaos, condensed a huge axe, and slashed at the spider.

The female spider's expression suddenly changed. "Are you kidding me? Why did you attack me?"

The female spider was surrounded by a powerful law of strength and couldn't escape. As for the other two, the Primordial Silver Wolf and the demoness from the Divine Demon Forest simply abandoned her and ran first. This guy was a tough opponent who could even fight a god. With one strike of this guy, to put it bluntly, they were sure to be finished.

"No! My ancestor, save me..."

While the female spider cried in horror, one, two, three... In the end, tens of thousands of pillars of light blasted out of the endless void, and a huge spider with thousands of eyes on its body spewed out scorching beams of light at the axe at the same time.

Rumble!

The Chaotic Giant Axe finally exploded under multiple attacks.

Han Fei suddenly stood up and pretended to be shocked. The God of War, on the other hand, looked awful. "Ancient demon, Thousand-Eyed Sky Spider?"

In Han Fei's heart, the voice of the God of War sounded. "Kid, I can't kill it. Without my original body, my clone is running out of strength and can't fight anymore."

Han Fei said, "Senior God of War, you can go back!"

God of War: "Go back? How are you going to deal with so many Great Monarchs? The Thousand-Eyed Sky Spider can't be killed by ordinary Great Monarchs. She alone can destroy the god projection."

Han Fei said, "Don't worry. I have my ways. I'll give you the Origin Stars of three Great Monarchs later."

"Good!"

Without further ado, the God of War stepped back to the edge of the altar as the curtain of heavenly flames rose again. He burst into laughter and said, "You pesky bugs from the Sky Spider Worm Valley, you ruined my plan. Don't let me encounter anyone from the Sky Spider Worm Valley in the Sea of Stars."

After saying this, the God of War slipped away. His identity was very valuable. Since Han Fei had a way to deal with these people, he didn't need to waste the last bit of his strength.

The Thousand-Eyed Sky Spider's face was all dark. He didn't want to piss off a lawless guy like the God of War. This time, his clone could completely block his Thousand-Eyed Divine Light. If his real body showed up, he would probably be killed.

However, since things had come to this point, he certainly wouldn't give up just because of the God of War's harsh words.

The Thousand-Eyed Sky Spider's eyes all looked at Han Fei. "The Void Temple asked you to gain experience, not to court death. Now I'll give you a chance. Hand over the Demon Purification Pot."

“Thousand Eye, give to whom? This is a problem.”

As he spoke, a branch extended out of the endless void. On the branch, a man in green held a folding fan and smiled.

“Great Elder?”

The demonic woman from the Divine Demon Forest was overjoyed to see him.

The blue-robed man looked at Han Fei. “You’re indeed very confident. With Chu Hao and the God of War guarding you, you might be able to escape. Unfortunately, you underestimate the value of the Demon Purification Pot.”

Roar!

The void vibrated and the roars of beasts were low. The already broken space was torn apart by three sharp claws, and a huge wolf head poked out.

The Primordial Silver Wolf also looked delighted. “Patriarch, why are you here?”

The Primordial Silver Wolf Patriarch’s voice was deep. “The Hidden Monarch City has no intention of helping this brat at all. Was it this brat who killed a Heavenly Talent of our Primordial Silver Wolf Race?”

“Yes, it’s me.”

“Damn it. Do you think a stray dog like Chu Hao can save you? Or can the Void Temple still protect you?”

The Primordial Silver Wolf stepped out of the void with a disdainful gaze and a heavy suppressing pressure.

Han Fei said calmly, “I thought no big fish would come, but it seems that I was wrong.”

The Patriarch of the Primordial Silver Wolf Race grinned ferociously. “You’re deliberately mystifying. Since ancient times, many disciples of the Void Temple have died. You’re no exception. Today, even the gods can’t save you. I said it.”

“Sigh!”

Chu Hao took the initiative to put away the projection of the god and sighed. “A bunch of idiots.”

“Hehe...”

Han Fei laughed awkwardly and then cupped his hands at the Godfiend Sea. “Seniors, do you want to eat wolf meat?”

### **God of Fishing**

#### **Chapter 3005: A Wild Dance of Demons (1)**

3005 A Wild Dance of Demons (1)

“The Godfiend Sea?”

Because of Han Fei’s behavior, the Great Monarchs all looked at the Godfiend Sea.

Although this was the Godfiend Sea, they didn't believe that the creatures suppressed in the Godfiend Sea would come out. How long had this place existed? The resources inside had been exhausted. After millions of years, how could there be any creatures living inside?

"Stop pretending."

The Patriarch of the Primordial Silver Wolves waved his claws and slapped towards Han Fei and Chu Hao.

But this time, Chu Hao didn't take action at all. With swishing sounds, dark chains suddenly extended from the bottom of the sea. The expressions of the Great Monarchs changed. Was there really a problem with the Godfiend Sea?

Upon seeing this, the patriarch of the Silver Wolf Race immediately tore at the dark chains but only broke dozens of them before he was tied up by the continuous dark chains.

Click, click, click ~

The chains shrank like sealing chains, crushing the wolf claw.

"Tsk, tsk. A group of Great Monarchs attacked a junior at the Carefree Level. Is that all you've got?"

An abrupt voice rang in everyone's ears. Countless black chains extended from the dark barrier of the Godfiend Sea, dancing like dragons and snakes. A middle-aged man in white stood on the chains, greedily sucking the air of the outside world.

"How wonderful!"

Han Fei cupped his hands. "Nice to meet you, Senior Li."

The person who came was Li Tiangan, a humanoid powerhouse. He gave Han Fei a piece of Universe Vast Soil and was considered the only big shot who looked like a normal person in the Godfiend Sea.

"How is that possible?"

"How can the people in the Godfiend Sea come out?"

"Why are there still living people in the Godfiend Sea?"

All the Great Monarchs were shocked that those people had really walked out of the Godfiend Sea.

Almost everyone realized something. Since Han Fei had long been related to the Godfiend Sea, why did he not hesitate to expose Chu Hao and summon the God of War before summoning the person from the Godfiend Sea?

Obviously, whether it was Chu Hao or the God of War, they were both acting. They appeared just to attract more Great Monarchs to come over. Therefore, this was still a trap. However, the final hunter was not the Hidden Monarch City, but the Godfiend Sea.

At this time, they realized that if the people in the Godfiend Sea were still alive, how many people were there? If these people still had their strength...

Immediately, some Great Monarchs began to retreat secretly. They didn't have a high chance of snatching the Demon Purification Pot to begin with. In addition to snatching the Demon Purification Pot, they also wanted to snatch people and harvest the luck of the human race.

But now, they could see the situation clearly. The Godfiend Sea had suppressed too many Demonic-Dao cultivators from the past. If this group of people didn't die, they could only run today.

Bang!

In a certain space, the darkness of the Godfiend Sea spread out, and a huge darkness enveloped a Great Monarch who had secretly retreated.

This Great Monarch's reaction was fast enough. He immediately unleashed his might, illuminating the darkness. But in the darkness, a whip mark rolled him up. Before he could escape, the darkness closed.

"Caw~"

The darkness in the Godfiend Sea receded, and a huge frog appeared in everyone's vision. There seemed to be something jumping around in the stomach of the giant frog, as if it was trying to break out.

However, the belly of the giant frog began to expand like an inflated ball. When it reached a certain level, it shrank with a boom and there was no longer any movement in its stomach.

Rumble!

The Great Dao crack appeared again, and a boom resounded throughout the five Divine Realms of the Sea Realm. Another Great Monarch died so easily.

"Hahaha! After starving for 1.8 million years, I finally have a full meal. Hahaha... Sea Realm, I'm back again!"

The Great Monarchs of the Central Sea Divine Realm all changed their expression. How was it possible? What creature could swallow a Great Monarch so easily?

The Thousand-Eyed Sky Spider's expression changed slightly. "A demonic magnate, the Sky Ghost Toad?"

"Hahaha! There is still someone who knows me, croak... Worms, delicious!"

Buzz!

The Godfiend Sea began to tremble, and colorful colors appeared on the continuous seals.

The cultivator from the Divine Demon Forest frowned and pointed his finger. The endless branches deep in the void, like the hands of a devil, shrank, trying to grab the Sky Ghost Toad.

But then, he heard a chuckle, and some red flowers grew on those branches for some reason.

The Great Monarch's face changed greatly, and he immediately cut off all the branches. But it had no effect. In the void, red flowers opened the way, and red flowers suddenly grew on the body of a strong master from the Divine Demon Forest.

"A Parasitic-Dao Great Monarch? Why?"

The Great Monarch stirred his law, trying to extinguish the red light on his body. However, the surging law actually bloomed flowers of law, which were still red.

The white-robed Great Monarch of the Divine Demon Forest immediately attacked. "Divine Purification Branch."

A thin branch bloomed with light, like a beam of light in the darkness, illuminating the world and piercing the power of law outside the strong master of the Divine Demon Forest.

However, the glowing branch was weakened at a visible speed and gradually turned scarlet from the white light.

"No! What is this?"

The Great Monarch who was possessed by the red flower didn't hesitate to use a great Nature Spiritual Treasure to suppress the various techniques, but when a red flower floated past, the Nature Spiritual Treasure exploded and perished with the red flower.

#### **Chapter 3006: A Wild Dance of Demons (2)**

3006 A Wild Dance of Demons (2)

"Giggle, Giggle ~"

A chuckle came. "Is this the power of the current Great Monarch? So weak?"

Red flowers paved the way for a stunningly beautiful woman, who walked barefoot on the petals with her long, fair, and slender thighs. She wore a bright red short skirt, as dazzling as a flower, and held her fair and tender arms in the air, smiling while plucking flowers.

All the Great Monarchs felt a chill down their spines, because when the woman picked up the flower, the Great Monarch of the Divine Demon Forest was withering at a visible speed. The red flower in the woman's hand, on the other hand, emitted a dazzling red light, illuminating the woman's gorgeous face.

Han Fei couldn't help but sigh. He remembered the last time he saw this woman, her upper body was beautiful, but her lower body was twisted like a tentacle monster. It seemed that she had recovered!

Finally, the white-robed Great Monarch of the Divine Demon Forest said with an awful expression, "The former lord of the North Sea, Jiang Honghua."

"What?"

"How is that possible?"

"Is she the North Sea Demon Flower?"

"According to the records, wasn't her body cut into pieces and her dead body suppressed in the Godfiend Sea?"

Han Fei's heart did a flip. The former King of the North Sea? Is her identity so awesome?

Now, Senior Brother Six God was the overlord of the North Sea, and this was the former king of the North Sea. After she came out, would she go to make trouble for Senior Brother Six God?

Jiang Honghua smiled sweetly. "Oh! If you hadn't mentioned it, I would have forgotten. Divine Demon Forest, is your god still alive? He damaged my body back then. Today, I'll collect some interest first!"

Rumble!

The Great Dao crack appeared again, and another Great Monarch died.

The cultivators of the five Divine Realms all looked solemn. They were all shocked. In just a few days, the Great Monarchs had died frequently. Just today, three Great Monarchs had died one after another. What happened in the East Sea Divine Realm?

The white-robed Great Monarch from the Divine Demon Forest looked solemn. He said, "Thousand Eyes, Wolf Ancestor, let's kill our way out together."

This time, the White-Robed Monarch didn't talk about snatching the Demon Purification Pot anymore. There would be plenty of opportunities to seize the Demon Purification Pot in the future, but with one monster after another coming out of the Godfiend Sea, he might not be able to leave if he didn't leave now.

The Thousand-Eyed Sky Spider said, "That's exactly my plan."

Although the Primordial Silver Wolf was reluctant, he still roared, "Let's go."

Clatter ~

Just when they were about to give up the battle, a huge wave surged into the sky, and a crab claw extended out of the wave. "If you leave, what will we eat?"

The huge pincers clamped at an old man with a single horn. Seeing this, the old man's expression changed drastically and he tried to retreat.

But in the next moment, a flash of knife light suddenly attacked from behind. Before he could think much, his single horn burst out with a strange blue light, transforming into an ancient giant ox, attempting to block the blade.

However, the moment the saber beam touched the horn, it turned into a spiral and easily pierced through the Single-Horned Mad Bull.

At the same time, the crab pincers clamped down, and a black dragon phantom rolled on this old man.

A Great Monarch was shocked. "A law-type divine technique."

Yes, as soon as the crab pincers clamped the void, the Great Monarch was locked down, and even his power of the law was sealed.

Patriarch Primordial Silver Wolf patriarch made a move. After all, he was a Great Monarch of the Ancient Demon Race and couldn't be killed so easily.

However, Li Tiangan, who had been motionless, flicked his finger and a marble was shot out. Han Fei had seen this kind of marbles too many times. They were not marbles but stars!

Buzz!

The stars shattered, and the infinite power turned into a sword.

“Stars into swords? Li Tiangan, that abandoned disciple of the East Sword Pavilion?”

Someone recognized Li Tiangan. As that guy spoke, Li Tiangan transformed the stars into swords and collided with the Patriarch of the Primordial Silver Wolf Race. The Patriarch of the Primordial Silver Wolf Race’s huge palm was pierced, and one of his claws turned into powder.

“What’s Li Tiangan’s background?”

The Patriarch of the Primordial Silver Wolf Race couldn’t believe that he was pierced by a sword and even lost a wolf claw. This meant that the other party’s strength was no longer that of an ordinary peak-level Great Monarch but a kind of person who could transcend the divine tribulation at any time.

The person who spoke first was from a sword cultivator faction in the Central Sea Divine Realm. He said, “It’s said that in the past, he was the eldest disciple of the god of the East Sword Pavilion and the first sword cultivator in history. In order to pursue the ultimate realm of the Sword Dao, he reduced himself into a devil. After that, his master, the Sky Splitting Sword God, couldn’t kill him with three slashes, so he just expelled Li Tiangan from the East Sword Pavilion and suppressed him in the Godfiend Sea.”

“Hiss!”

“F\*ck...”

Even Chu Hao, who was beside Han Fei, couldn’t help but be shocked. “I’ve heard of him. His sword path is unparalleled. It’s said that he comprehended the divine path as soon as he proved Dao. He was the person closest to a god in the East Sword Pavilion in the past.”

“Oh my god, such a big shot!”

Han Fei couldn’t help but sigh. When he was in the Godfiend Sea, Li Tiangan had only casually instructed him on the Sword Dao before he comprehended the Primordial Dao Sword and the Formless Infinity Sword one after another. At that time, he knew that Li Tiangan was definitely a great swordsman. The sword he saw just now confirmed his thoughts.

But after hearing Li Tiangan’s real identity, Han Fei couldn’t help but sigh. To be able to resist the three slashes of a god without dying, how deep had his understanding of the Sword Dao reached?

With Li Tiangan taking action, the Single-Horned Mad Bull was killed with double knives with its entire head twisted off.

A big crocodile laughed. “Old Xie, the body is yours, and the head is mine.”

The big crocodile was naturally the Eastern Divine Crocodile. When Han Fei left the Chaotic Wasteland, a scale of the Eastern Divine Crocodile blocked the attacks of Great Monarchs for more than thirty seconds, and that was just one scale. Han Fei didn’t know how strong he was.

However, at this moment, he saw that nearly half of the soul of the Single-Horned Mad Bull had been swallowed by the Eastern Divine Crocodile.

3007 A Wild Dance of Demons (3)

“Stupid crocodile, all you know is to grab heads with me.”

At this moment, the Single-Horned Mad Bull’s body was inexplicably cut into dozens of pieces. Because it was enveloped by the dragon shadow, its soul couldn’t escape. It could only watch as a big crab dragged its body into its mouth.

“Patriarch Silver Wolf, help me!”

The Patriarch of the Primordial Silver Wolf Race didn’t pay attention to him at all. At this moment, he even felt a chill down his spine. Five, five f\*cking super strong masters had already appeared. Each of the five was no weaker than the three of them, or even stronger.

Besides, at this moment, the Godfiend Sea had already begun to open. A big turtle swam out, and a turtle shell rose to the sky. The Great Dao here seemed to be about to be frozen.

It was none other than the old turtle, Grand Emperor Mystic Martial.

The patriarch of the Silver Wolf Race roared, “Go!”

In an instant, on the side of the Central Sea Divine Realm, as the Patriarch of the Silver Wolf roared, everyone moved. In fact, they had wanted to run for a long time, but the one who ran first died too quickly, so they didn’t dare to run.

Now that the three ancestor-level Great Monarchs took the lead to run, they naturally wouldn’t fall behind.

The old turtle said in a low voice, “Why didn’t you run earlier? The turtle shell seals the world, the law seals the universe, Seal...”

With this sealing from the old turtle, order chains appeared in billions of kilometers of void. Even the dark chains of the Godfiend Sea have joined the blockade.

After the old turtle set up this seal, a large number of strong masters rushed out of the Godfiend Sea into the Sea Realm.

“Hahaha! We’re finally out.”

“Great! I can finally see the light of day again.”

“I’m starving.”

“I smell pure-blooded demons.”

“Haha! Little friend Han Fei, you’re too slow. I’ve been waiting too long.”

“Little friend Han Fei, you’re too much. You’re cooking wolf meat outside to tempt us.”

“Little friend Han Fei, you can’t run away later. I’m going to catch some pure-blooded demons. Please cook them for us.”

“…”

Han Fei replied with a smile, “No problem. By the way, seniors, can you leave me three Great Monarchs’ corpses? I promised someone to sacrifice a few to him.”

“No problem, but you’ll have to be a cook for a few days.”

Han Fei smiled and said, “Sure. I still have many dishes for you to appraise. There’s also enough wine. It’s all ten-thousand-year-old fine wine.”

“Oh! I’m so hungry.”

“Hahaha, let’s kill!”

At that moment, the so-called three ancestors were horrified. This was because the number and strength of the enemy had far exceeded their imagination.

They wanted to run, but there was nothing they could do. Li Tiangan, Jiang Honghua, Sky Ghost Toad, Eastern Divine Crocodile, Xie Wukuan, Old Yuan, and other top cultivators didn’t give them a chance to escape at all.

In particular, the mid and low-quality Nature Spiritual Treasures the three of them used were shattered by Li Tiangan and Jiang Honghua. When they used their only high-quality Nature Spiritual Treasures, they were suppressed by the old turtle.

Since then, they didn’t even have a chance to escape. They were killed on the spot by the sword intent and killer move comparable to that of gods.

…

Beside Han Fei, Chu Hao’s eyelids and the corners of his mouth twitched. This was ridiculous. These ferocious devils were actually so close to Han Fei.

He had thought that Han Fei only had some means to release a small number of demons or make a deal with them.

But now, he was going to unseal the entire Godfiend Sea!

The seal of the Godfiend Sea was gradually dimming and trembling. The dark chains had already begun to dance wildly, and some parts had already begun to fade.

He didn’t even dare to imagine what kind of bloodbath the Sea Realm would face if all the demons here came out.

This was because he had seen more than a hundred Great Monarchs. Furthermore, there were still Great Monarchs who hadn’t come out.

Just as Chu Hao was feeling complicated, a white-robed man appeared beside him and Han Fei.

Han Fei hurriedly bowed. "Greetings, Demon God."

The Demon God nodded slightly. "The Demon Purification Pot has been revealed. Aren't you afraid that I'll be tempted too?"

Han Fei smiled and said, "I know you won't. First of all, the Demon Purification Pot is not in its complete state. It's still incomplete and its power is not enough for a god to use. Secondly, for a god, the Demon Purification Pot's main ability should be to point the way, right? For example, how to go down with the Godfiend Formless Technique?"

With that, Han Fei took out a jade slip and handed it to the Demon God. "This technique is called the Godfiend Body. It's the limit of the Demon Purification Pot's deduction and an upgraded version of the Godfiend Formless Technique."

"Oh?"

The Demon God's heart did a flip. "I've already had some insights about this technique, but I haven't completely deduced it. Has the Demon Purification Pot already deduced the next level of the technique?"

Han Fei said, "Senior, the Demon Purification Pot can't directly deduce a technique that doesn't exist. Since it can deduce the Godfiend Body, it means that this technique once existed. In the long river of history, we are not the first to walk the Dao of Extreme Balance."

Buzz!

The suppressing pressure of the Demon God was shocking, and the surrounding waves retreated. After a few seconds, the Demon God said, "Can the technique still be deduced?"

Han Fei shook his head. "No, the predecessors probably couldn't go any further after they reached this point. After the Godfiend Body is refined, the Dao of Extreme Balance is cut off."

#### **Chapter 3008: A Wild Dance of Demons (4)**

3008 A Wild Dance of Demons (4)

The Demon God took a deep look at Han Fei. "Are you giving this technique to me just like that?"

Han Fei smiled. "I do have a presumptuous request."

The Demon God took the jade slip. "Speak."

Now that he already had the Godfiend Body, the Demon God naturally wouldn't spend time deducing it. Besides, since there was no path after the Godfiend Body, the Demon Purification Pot was indeed of little use to him.

Han Fei said, "I hope that Senior Demon God can shelter the human race for three thousand years."

"You're really bold."

The Demon God looked at Han Fei with a smile, as if he wanted to see why Han Fei was so bold.

Han Fei said, "In fact, you don't need to stay in the Infinite Mining Area to protect the human race. A god only needs to say something if he wants to protect a race. Do these people from the Central Sea Divine Realm dare challenge your prestige?"

"But why would I do that? Just because of the Godfiend Body?"

Han Fei said, "Senior, in this world, only you and I can embark on the true Dao of Extreme Balance. After all, only we can explore whether there is still a way above the Godfiend Body. I promise that if I can comprehend something above the Godfiend Body in the future, I will tell you everything."

"Just with the Demon Purification Pot?"

Han Fei shook his head. "The Demon Purification Pot can only deduce existing techniques. I know this very well. This Senior Chu Hao beside me once controlled the Demon Purification Pot for a hundred thousand years. If the Demon Purification Pot can endlessly deduce something higher, he would have become a god long ago. Therefore, the key is not the Demon Purification Pot."

Rumble!

At this moment, the Great Dao crack appeared again, and another Great Monarch from the Central Sea Divine Realm died, but Han Fei didn't care.

Han Fei continued, "The myriad races' enemy is the ominous. When the ominous' arrival comes, even the gods can't do anything about it. The Dao of Extreme Balance is a new path. This path might have the ability to resist the ominous. The two of us joining forces is better than me resisting the ominous alone, isn't it? As long as I don't die, I will grow strong one day. With the Demon Purification Pot, I will inevitably embark on the path of fighting the ominous. This might be my mission, as well as the mission of the myriad races, so it's naturally your mission, Senior. You can't expect these useless people to fight against the ominous, right?"

The Demon God nodded slightly. "That makes sense. However, we are regarded as demons by all races. What do you think?"

Han Fei grinned, looked at the Great Monarchs of the Central Sea Divine Realm, and said indifferently, "If the myriad races you refer to are these selfish people, so what if I fall into the demonic path? So what if our human race falls into the demonic path?"

"Hahaha!"

The Demon God suddenly laughed out loud. "Interesting. You suit my taste. No wonder Mystic Martial said that you were born to be a demon. Okay, I agree with him."

"Thank you, Senior Demon God."

The Demon God said, "However, it can't be three thousand years. My prestige can suppress them for at most a thousand years."

"Huh?"

The Demon God said, "Do you think I'll stay here for three thousand years after I reappear in the Sea Realm? In a thousand years at most, I and many old friends here will go to the Sea of Stars. At that time,

although some people will stay, they won't be able to stop these guys from the Central Sea Divine Realm."

Han Fei said, "Then make it a thousand years."

What the human race needed now was time. Not to mention a thousand years, a hundred years was extremely important.

With the current growth speed of the human race, in a thousand years, it was enough for the human race to nurture countless cultivators. Although they weren't comparable to the other five lineages, the human race at that time wasn't easy to destroy.

Besides, it wasn't that he wouldn't grow up. In a thousand years, Han Fei didn't dare to say that he would definitely become a Great Monarch, but he was confident that he would cultivate to the peak of the Immortal Level. As for the Emperor Sparrow, Little Black and Little White, they were more likely to surpass him.

Rumble!

Rumble!

Two cracks of the Great Dao appeared in a row, and the battle here had gone crazy. Those who were suppressed in the Godfiend Sea were all great villains and lawless powerhouses. So what if a group of Great Monarchs came from the Central Sea Divine Realm? In the end, they couldn't escape death.

Countless strong masters in the five divine realms of the Sea Realm were horrified at this moment. The death of one Great Monarch after another was a rare spectacle that hadn't occurred in tens of thousands of years.

In the South Sea Divine Realm, Feng Yu sent a message to Han Fei in a daze. "Little Junior Brother, did you invite Eldest Senior Brother over?"

Han Fei replied, "No, it's just some seniors in the Godfiend Sea. They are a little hungry and are hunting for some food."

Feng Yu: "..."

...

Deep in the Infinite Mining Area, in Hidden Monarch City.

Someone looked at the Godfiend Sea. "The people in the Godfiend Sea have finally come out. From today on, the Age of Doom may end..."

...

When countless people looked at the East Sea Divine Realm, the dark seal of the Godfiend Sea finally disappeared.

In just one day, the blood of 37 Great Monarchs dyed the East Sea red.

Only five people escaped. Fortunately, none of the so-called three ancestors escaped. This was because they were facing people even older and more terrifying than them.

The reason why five Great Monarchs escaped was that the people from the Godfiend Sea were still feeble and hadn't recovered to their peak state. Otherwise, it was impossible for them to escape.

Han Fei was very satisfied with this result. The Great Monarchs might be precious, but what did it have to do with him?

Anyway, at this moment, the entire Sea Realm was shocked. The East Sea Divine Realm had become a forbidden area for the Great Monarchs, and no one dared to come.

In this place, only three Great Monarchs were released. Yes, they were released, not that they couldn't be killed.

The Demon God stood in front of the three Great Monarchs who weren't from the ancient six lineages and said indifferently, "Go back and tell the strong masters of the Central Sea Divine Realm that I'll protect the human race. Anyone who dares to touch the human race again will be killed!"

#### **Chapter 3009: Take Over the Infinite Mining Area (1)**

##### 3009 Take Over the Infinite Mining Area (1)

After the Great Monarch battle, most of the place where the Godfiend Sea was had become forbidden places.

Many strong masters from the major factions in the Infinite Mining Area fled. They were not stupid. How could they not be afraid when the Great Dao crack of that level appeared 37 times a day?

Especially the major factions in the Infinite Mining Area, they all knew that the human race was heading towards the Infinite Mining Area. Although they didn't know about the arrival of the Great Monarchs, the Dao Proving Level, Carefree Level, and Immortal Level cultivators had appeared repeatedly and even stayed.

Now, more than four hundred years had passed. No one expected the war to end in such a way. Some people who didn't understand the situation ran away in the end.

Han Fei and the demons came to the Infinite Mining Area, but they didn't launch an attack on the Infinite Mining Area immediately. They could kill those Great Monarchs, but couldn't attack ordinary people.

At this moment, Han Fei picked the Mine Demon Stream where the Puppet City used to be and began to cook.

The 1,072 people had been hungry for too long. Fortunately, they were not picky, so the simplest and most convenient hot pot and barbecue could satisfy them. The hot pot was delicious and there were enough seasonings. The demons didn't have as strong a desire for delicious food as the Fifth Senior Brother did, so the dishes were devoured almost instantly.

In addition to the three Great Monarchs that the Eastern Divine Crocodile threw to Han Fei, a total of 34 Great Monarchs became the food of these demons. Especially the patriarch of the Silver Wolf Race, his huge body was eaten up.

Han Fei kept his word and ate and drank with the demons for three days and three nights, drinking and eating to his heart's content.

In the past three days, Han Fei had seen the suppressing pressure of the demons constantly becoming stronger. In addition to the energy provided by the Great Monarchs' flesh and blood, the energy in this world gathered together, and one after another spiritual veins and earthly veins connected and came through.

On this day, Han Fei and the old turtle were sitting on the edge of the Mine Demon Stream. Both of them looked at the Mine Demon Stream with mixed feelings.

Han Fei asked, "Old Yuan, where did your clone take the Demon Vanquishing Tree?"

Old Yuan said leisurely, "Go on a new path and embark on a new journey. You know, I always leave a way out for myself."

Han Fei nodded slightly and asked, "What is your plan next?"

"The Sea Realm will definitely be in chaos now that we've appeared. In the Godfiend Sea, many of our old friends failed to weather through the corrosion of time and perished. Therefore, we'll definitely take revenge."

As he spoke, the Eastern Divine Crocodile came over with a few skewers of barbecue and handed one to Old Yuan and Han Fei respectively. "Hey, our enemies are all over the five Divine Realms. After this banquet, we'll return, and the Sea Realm will definitely be in chaos."

"Crunch!"

Han Fei took the skewers and took a bite. The sizzling gravy was gushing out.

Han Fei said, "Senior, although you have already come out, you still have to be careful on this trip. You should recover your strength before going to seek revenge. If you can survive in the Godfiend Sea to this day, the ancestors of many factions can probably survive to this day too."

"Hahaha!"

The Eastern Divine Crocodile laughed out loud. "It doesn't matter. Whether we'll live or die is up to fate. The heavens want us to live, so we certainly won't seek death. Besides, now that we won't mutate, we are all Extreme Dao powerhouses. There aren't many people who can rival us in the world."

From a distance, someone laughed and scolded, "Damn crocodile, stop bragging! There are not many strong masters in the Sea Realm, but there are many in the Sea of Stars."

Eastern Divine Crocodile sneered. "It's not easy for me to come out. Isn't it a matter of course for me to stay in the Sea Realm and enjoy a thousand years of peace?"

Jiang Honghua said, "There's no need to rush for revenge. We've just turned to cultivate the Singular Extreme Dao and haven't stabilized this Dao yet. When this Dao stabilizes, it's time for us to see this world. After a million years of cultivation, even if we can't become gods, it won't be a problem for us to advance further. It'll be easy for us to break through to the Great Monarch realm."

Suddenly, Li Tiangan said, "Everyone, I'm leaving. I've been away from the East Sword Pavilion for too long. I'll go back and pay tribute to my master."

Sky Ghost Toad said, "Old Li! Your master slashed you three times and drove you out of the sect. Why are you going back now?"

Li Tiangan said, "He's my master after all. Now that he has perished and the East Sword Pavilion has declined, I have to leave something for them. Besides, my mood is different when I return this time. I can also comprehend some of the teachings of my master in the past. Perhaps I can transcend the divine tribulation in the East Sword Pavilion."

Buzz!

Everybody who was having fun looked at Li Tiangan.

Han Fei also looked over in surprise. He was about to transcend the divine tribulation? That was unbelievable. The Demon God had just woken up, and Li Tiangan was going to transcend the divine tribulation. Then there would be two gods among them.

Jiang Honghua clicked her tongue. "That's great. Your tribulation is not hatred, and my enemy is already nowhere to be seen. Fine, I'll go to the Central Sea Divine Realm this time to see if I can make up with my past. After that, I may have to transcend the divine tribulation too. Old Li, come and guard me then."

"Okay."

Eastern Divine Crocodile glanced at Old Yuan and the big toad who was still eating and drinking. "Old Yuan, Old Ghost, you two should have the ability to transcend the divine tribulation too, right? When?"

Old Yuan said, "I'm going to resolve my long-cherished wish. If it's fast, it'll take hundreds of years. If it's slow, it'll take a thousand years."

Sky Ghost Toad laughed. "Old Li! I'll go with you to take a look at the divine tribulation."

Li Tiangan nodded slightly. "Okay."

For a moment, everyone talked about their next plans. Han Fei could tell that this was a farewell. They might meet again in the Sea Realm, but for now, they still had to complete some of the karma they had made.

### [God of Fishing](#)

#### **Chapter 3010: Take Over the Infinite Mining Area (2)**

Li Tiangan said, "Everyone, goodbye."

As for Sky Ghost Toad, he left with a pot, leaving only laughter.

"Thief."

"Smelly toad."

"Put down the pot!"

"B\*stard, I haven't finished eating yet."

...

Then, Jiang Honghua cupped her hands. "Everyone, I'll be on my way."

Eastern Divine Crocodile said, "Hey, they're all gone. Aren't they going to back up Han Fei? The people from the Hidden Monarch City have peeped at us many times."

Someone laughed. "We've backed him up for three days and three nights. It's enough."

Han Fei was also a little stunned and immediately understood something. Yes, where couldn't they eat? These big shots seemed to be eating and drinking here for three days, but in fact, they were here to back up Han Fei.

Han Fei immediately cupped his hands. "Thank you, seniors."

Someone laughed. "No need to thank us. We can come out because of you!"

Someone chuckled. "I like your temper. If you need anything in the future, remember to tell me."

"Sure."

...

These people said goodbye and left one after another.

In the end, only the Demon God, Old Yuan, and Xie Wukuan were left.

The Demon God didn't leave. It seemed that he was looking at the scenery. He gazed into the distance as if he had the ability to overlook the divine realms.

At this moment, everyone had almost left, and the Demon God said indifferently, "There are gods in the Sea Realm!"

Han Fei couldn't help but look over.

The Demon God said, "The gods can't die so easily. It's not easy to find their whereabouts. Although I don't know how many gods there are in the Sea Realm, from the heavenly signs, it can be seen that there must be gods hidden in the world. Han Fei, I'll wait for you to become a god."

With that, the Demon God took a step forward and disappeared.

Old Yuan said, "Even the Demon God is gone. I should go too. Han Fei, grow strong quickly! You came out at this time, and we came back at this time. Everything seems to be a coincidence, but there are no coincidences in the world. If we appear, it will definitely cause chaos in the Sea Realm, and in chaotic times, strong masters will rise. Some ancient existences in the past might revive. This is not a good thing. It might be a sign before a disaster erupts."

Upon hearing this, Han Fei nodded slightly. "I hope to transcend the divine tribulation with you."

"Heh! Are you kidding me?"

In the end, Old Yuan glanced at Xie Wukuan who was still calmly stuffing meat into his mouth and said, "Why are you still here?"

Xie Wukuan said, "You can go your own way. The Infinite Mining Area is suitable for my cultivation. In less than a hundred years, I will return to my peak state."

Old Yuan said, "It's up to you. I'm leaving."

After Old Yuan left, Han Fei sat next to Xie Wukuan and had another drink with him. "Senior Xie, why don't you recuperate in the human race?"

Xie Wukuan said, "I'd better stay away from you. Otherwise, you humans won't be able to cultivate."

Han Fei was stunned. It did make sense. How could ordinary people compete for spiritual energy with a Great Monarch?

Xie Wukuan said, "I'll find a place to eat slowly. Go about your business. Well, after you take action, you'd better go to the Hidden Monarch City later. After all, they are guarding this place. If you don't visit them, they will be unhappy."

Han Fei nodded. "That's exactly my plan."

What Xie Wukuan meant was that after Han Fei took over the Infinite Mining Area. Han Fei would definitely take over the Infinite Mining Area.

Xie Wukuan left with the big pot. Han Fei didn't know where he went, but he was in the mining area anyway.

Outside the Mine Demon Stream.

Buzz!

Han Fei's heart did a flip. In his Origin Star, Luo Xiaobai, the Beast King, Liu Qiansi, and the elders of the Lava Giants appeared one after another.

After a while, the human race's Sky Openers, the ten legions, and billions of humans were all released.

For a moment, the entire Mining Demon Stream was overcrowded. At this moment, the Mining Demon Stream was no longer the Mining Demon Stream as before. After the ominous was gone, the Mine Demon Stream had returned to normal. Because it was a place where mineral veins gathered, the number of ordinary mine demons around was not small.

Of course, the human race wouldn't stay here forever, but this place could be used as a temporary training ground. When all the Infinite Mining Areas were conquered, the footprints of human beings would spread throughout the entire Infinite Mining Area.

At this moment, hundreds of billions of human powerhouses were surprised to see this strange place. They sensed the abundant energy here, and the spiritual energy density was much higher than in the wilderness.

"Is this the Infinite Mining Area?"

"What intense spiritual energy."

"The energy concentration is so high."

"Any more enemies?"

"I'm afraid you're crazy. Master Human Emperor and the others are all standing there. They don't look nervous at all. How can there be enemies?"

"Finally, we have won the last victory."

"Ha, from the moment Master Human Emperor returned, I knew we would win."

"Hey, are we going to hold a celebratory feast?"

"I don't think so. The Infinite Mining Area doesn't belong to our human race yet. If we want to take this place down, we'll have to fight!"

"Master Human Emperor is back. It'll be a breeze for us to take down this place!"

"..."

At this moment, people were discussing spiritedly.

Han Fei's voice resounded. "My fellow humans, I am Human Emperor Han Fei. What I want to tell you is that our human race has passed the most difficult time. From now on, we don't have to worry anymore. We will start our golden age in this Infinite Mining Area under our feet..."

"Roar!"

"The Human Emperor is awesome!"

"Hahaha, as I said, the war is over."

"Master Human Emperor is invincible."

"The b\*stards from the Central Sea Divine Realm have finally been driven away by us."
