#### Chapter 3011: Take Over the Infinite Mining Area (3)

Before Han Fei finished speaking, the humans were already overjoyed. In the past four hundred years, they didn't dare to slack off at all. Everyone was cultivating hard. All their goals were the same: to become stronger, stronger, and stronger.

Today, Han Fei's words made many people cry.

Han Fei continued, "My fellow humans, although the human race is safe now, this is not the time for us to slack off. Although we are already safe, we cannot let our 70 billion human brothers and sisters die in vain. The Central Sea Divine Realm bullied our human race, and I will definitely return it tenfold. But now is not the time for me to take action, because the human race hasn't grown into a towering tree yet... I can tell you that the golden age of the human race doesn't mean that the human race no longer has enemies. I can ensure a thousand years of peace and recuperation for the human race, but we can't just hide in this corner of the Infinite Mining Area. The Sea Realm is vast, with five divine realms and a territory of trillions of kilometers, all of which our human race will explore. In a thousand years, we might face even more challenges. So, please cherish the thousand years to come..."

"A thousand years."

"A thousand years of peace is already a luxury."

"With so many enemies around, how much pressure does Master Human Emperor have to bear to ensure the peace of the human race for a thousand years?"

"After the trip to the wilderness and 400 years of fighting, I realized that 100 years is a hurdle, not to mention 1,000 years. I dare not hope for 1,000 years of peace."

"Everyone, don't be pessimistic. As the Human Emperor said, our human race is going to set foot in all parts of the Sea Realm. This is to better strengthen our human race, so we should be looking forward to it."

"That's right. In this battle and cultivation, we have too many things to settle down. The human race in a thousand years will definitely be different from now."

Han Fei's voice sounded again, "Brothers and sisters, the Infinite Mining Area is not under our control yet. Hundreds of forces from the Sea Realm are entrenched here. But none of this is important. These forces are as insignificant as ants to our human race. I will personally lead you to fight. Any Explorer or above can come out and follow me to fight. Let's take over the Infinite Mining Area."

"Count me in!"

"Hahaha! Master Human Emperor is personally leading the expedition. How can we not go?"

"With Lord Human Emperor here, are we going to fight? No, we're going to pick up treasures that are everywhere."

"I can't miss such a good opportunity."

"I didn't expect to encounter such a good thing as soon as I arrived at the Infinite Mining Area. This reminds me of the scene when we swept through the Ten Thousand Scale Race."

"Ah! Why can't Law Enforcers go?"

"What are you thinking? It's said that even a small mine demon in the Infinite Mining Area can't be stopped by Law Enforcers. Even explorers can only go there to mine. Are you courting death?"

"Then why can you explorers go?"

"Isn't that obvious? Explorers have transcended tribulations. How can we be like you law enforcers? Besides, we're going to pick up treasures. Do you really think that when Master Human Emperor goes to battle, it'll be our turn to fight?"

"That's right. Young people are too immature. They don't know what it means for Lord Human Emperor to go to war."

...

After that, Han Fei said, "Hong Yue, stay here and take care of the human beings below this realm."

Hong Yue said, "Master Human Emperor, you're all gone. What if..."

Han Fei said, "There's no 'if'. Just stay here and take care of the remaining people. Don't let the mine demons invade. It's very safe here. Even if Great Monarchs come, they will die."

"Ah... Okay."

Han Fei looked at a peak where Chu Hao was sitting cross-legged. He had been seriously injured and needed to recuperate, so he didn't need to join in the battle in the Infinite Mining Area.

...

In the Infinite Mining Area.

The power of the Ten Thousand Scale Race no longer existed. As early as the destruction of the Ten Thousand Scale Race, countless enemies had come to plunder resources.

Unexpectedly, however, the power of the Ten Thousand Scale Race in the Infinite Mining Area, which the other forces had thought to be easy to deal with, failed to be conquered after a long time. Besides, "Zhang Beihai" provoked, caused trouble, and looted everywhere. In just a few hundred years, more than ten forces had been destroyed by him.

The major forces had also besieged Zhang Beihai as many as eleven times. Finally, in the fifth siege, they destroyed the Ten Thousand Scale Race's power and executed "Zhang Beihai".

However, "Zhang Beihai" didn't die, but miraculously survived. So it became "Zhang Beihai"'s revenge.

Having no choice, the major forces could only continue to besiege Zhang Beihai. It wasn't until two hundred years ago, when some Monarchs from the Central Sea Divine Realm temporarily took a rest in the Infinite Mining Area, that they set a trap and killed Zhang Beihai in the ninth siege.

Yes, they had thought that they had killed him, but less than ten years later, Zhang Beihai had returned again, launching another crazy retaliation against the various forces in the Infinite Mining Area.

And this time, "Zhang Beihai" had already completed his Monarch Tribulation.

Later, some strong masters of the Fist Sect in the Central Sea Divine Realm felt that Zhang Beihai was quite strong, so they took him under their wing.

However, only 20 years later, when the Monarch of the Fist Sect went to the Godfiend Sea to participate in the war, the power of the Fist Sect in the Infinite Mining Areas was completely corroded by Zhang Beihai who killed all the people of the Fist Sect in the Infinite Mining Area.

When the Monarch returned, he burst into fury and searched the world frantically for Zhang Beihai.

During this period, the two fought many times. In the end, more than sixty years ago, the strong master of the Fist Sect found traces of "Zhang Beihai" and went to kill him.

This time, no one thought that "Zhang Beihai" would survive. After all, the Monarch of the Fist Sect was very strong. How could a new Monarch be his match?

### [God of Fishing](#)

#### **Chapter 3012: Take Over the Infinite Mining Area (4)**

However, in that battle, the peak-level Dao Proving Level Monarch of the Fist Sect died in the western mining area of the Infinite Mining Area.

This matter became a hot topic for a while, mainly because the strong masters of other forces mocked the strong masters of the Fist Sect for being incompetent. Some people also remarked that Zhang Beihai was a remarkable person who had miraculously survived multiple assassinations. He must have been very lucky.

Unfortunately, no one had found Zhang Beihai since then.

As soon as Han Fei's original body entered the Infinite Mining Area, he received synchronized information. It turned out that Zhang Daqian had hidden in the ferocious beasts' settlement.

In the past six hundred years, Zhang Daqian had provoked and disgusted his opponents in Zhang Beihai's name, angering countless people, and successfully exchanged for three chances of nirvanas.

This also meant that Zhang Daqian had undergone a total of 4 nirvanas including the first nirvana he had when he came back from the Divine Capital Dynasty.

Every time he underwent nirvana, Zhang Daqian's strength would double. And every time his strength doubled, it meant that Zhang Daqian's potential was several times higher than ordinary people.

After only four nirvanas, Zhang Daqian had already become one of the top geniuses. At this moment, he had already reached the peak of the Dao Proving Level.

"The Giant Beast Divine Dao is really powerful. As long as he keeps making enemies, he can use the other party's anger and huge resources to achieve nirvana. At this rate, if he can be killed by his enemy

when he is at the Carefree Level, Immortal Level, and Great Monarch Realm, Zhang Daqian's combat power will probably be comparable to that of a Dual Extreme Dao cultivator."

Of course, although it was easy to cause trouble, he had to be sure that he could counterattack after being killed. Otherwise, it would be over if he was killed again after nirvana.

...

The ferocious beasts' settlement.

Obviously knowing that his original body had come, Zhang Daqian immediately found Li Luoluo. "I was too naive back then. I thought that I could come over in a hundred years, but who knew that it would take more than five hundred years. However, although it's a little slow, fortunately, I finally came over. The Infinite Mining Area is ours."

Li Luoluo's beautiful eyes lit up. "You sensed your original body? By the way, how did you win? So many Great Monarchs died in a day. Who was helping you? Was it the god back then? Or the Void Temple?"

Zhang Daqian said, "No god joined in that battle. I just befriended some seniors who have been suppressed for many years."

"Those in the Godfiend Sea?"

Li Luoluo couldn't help but ask in surprise, "How can they still have such terrifying combat power after being trapped in that damn place for so long?"

Zhang Daqian said, "True cultivators can't be erased with time. Some people are too strong. Even in their weak state, ordinary Great Monarchs can't compare to them."

Li Luoluo was full of curiosity. "Unfortunately, I couldn't witness that battle. Hey, what's the strength of your original body now? Where's the Emperor Sparrow? He had proven Dao 400 years ago. Don't tell me he's here to compete with me for the right to rule?"

Zhang Daqian said, "You're already a Great Monarch. What are you worried about? Besides, I'm not very interested in the ferocious beast lineage now. We just need to maintain a good cooperative relationship."

Li Luoluo said, "Heh, now that you've become a Monarch, you're much more confident. Forget it, let's send troops! Hurry up and grab territory."

Li Luoluo's voice suddenly sounded above the ferocious beasts' territory. "The army of the ferocious beast lineage gathers and attacks the Hundred Alliance City, snatching resources, people and territory. Clean up all the forces from the Central Sea Divine Realm along the way. Don't show any mercy."

Since the ferocious beasts took action, the divine beasts immediately reacted.

"Lord Fire, the ferocious beasts have sent their troops."

The Blazing Fire Kylin was refreshed. "Here he comes. He actually did it. So many Great Monarchs have died. I really don't dare to believe it's all because of Han Fei."

The Blazing Fire Kylin sighed for a while and immediately shouted, "The divine beasts will march to the Hundred Alliance City, near the southern area. Capture all the people from the Central Sea Divine Realm and take them to the Hundred Alliance City."

Hundred Alliance City.

A strong master from the Divine Capital Dynasty said to his subordinates, "It's about time. Take down all the forces controlled by the dynasty."

In the Capital of Horror, Xiangxiang said, "We've been ambushed for many years. It's time to reel in the net and grab as much territory as possible."

### [God of Fishing](#)

#### **Chapter 3013: The New Pattern in the Infinite Mining Area (1)**

Han Fei led the human army in a mighty sweep. Along the way, all kinds of mine demons turned into mines and fell into the hands of the human race.

The human army finally understood what the Infinite Mining Area was. Along the way, they had passed by more than a dozen super mineral veins of various sizes. More importantly, the mines that erupted from the body of a single mine demon were simply worth ten thousand high-quality spiritual stones.

Unfortunately, it was impossible for Han Fei to stop and let them mine during the march. But they all knew that this territory would be theirs in the future.

After leaving the northern mining area, the danger was greatly reduced. Han Fei's goal was the Hundred Alliance City.

Although he said that he was here to sweep the Infinite Mining Areas, in fact, he didn't need to do anything at all. He was confident that the people who should have received the news had already received it. What he needed to do was to take over territories.

In the end, after leading the human race to wander for a full seven days and realizing the richness of the Infinite Mining Area, Han Fei still thought that the Explorers' march speed was too slow. In the end, he took everyone with him.

In the past seven days, astronomical changes were common. It was naturally the people who should take action taking action.

By the time Han Fei came to the Hundred Alliance City, the population of the city was one-third less than when he came before. Few people could enter the Infinite Mining Area in the first place. The Hundred Alliance City was said to be a city jointly managed by a hundred major powers, and all the people coming and going were strong masters.

But now, there were no hundred major powers here at all. Han Fei spread out his perception and found that there were only a dozen forces here, as well as some Sky Openers who didn't seem to belong to any forces. These people followed behind the camp of itinerant cultivators, seeming to be watching the show.

...

The mighty human army was released by Han Fei and spread tens of millions of kilometers. Humans certainly needed to have an imposing presence when they made an appearance.

"Formation!"

The Sky Openers of the human race and the ten legions all shouted. They knew that something important was coming. When Han Fei took them to the northern mining area, they didn't have to be too restrained.

But now, this was a meeting of all the powers. The human race might not be that strong, but they definitely couldn't lose in momentum.

Billions of human cultivators followed Han Fei and Luo Xiaobai into the safe area where the Hundred Alliance City was located.

Beside Han Fei, in addition to Luo Xiaobai, there was another person, who was Zhou Run. After the farewell in the Divine Capital Dynasty, the Avengers Alliance led by Zhou Run had moved to the Capital of Horror.

Now that the human race had conquered the Infinite Mining Area, the Avenger Alliance naturally had to return. After all, although they were considered Heavenly Talents in the Capital of Horror, it wasn't their territory.

No matter how well the Capital of Horror treated them, they were living under someone else's roof. On the human side, Han Fei was their boss after all, so they naturally felt different.

Han Fei said, "Zhou Run, it's not a problem to bring you back from the Capital of Horror, but this is not a chance for you to use the human race to deal with the big clans of the Divine Capital Dynasty. At least, it's still far from that time."

Zhou Run said, "Of course, we're not that stupid. It isn't easy for the human race to gain a foothold. You still have a lot of things to do and need to recuperate for a long time. Even if the human race really rises, we won't use the human race to do our things. We'll take back what we lost on our own."

Han Fei said, "OK! Don't worry. The Infinite Mining Area has existed for a long time. The major forces and itinerant cultivators won't give it up. These itinerant cultivators are a group of people you can recruit. But I won't give you these rights for free."

Zhou Run nodded solemnly. "Understood. The Avengers will eventually belong to the human race's camp. We will spare no effort to help the human race grow and develop."

Han Fei smiled and said, "Haha! There's no need to be so serious. Our human race is quite friendly. As long as you don't do anything to let us down, I can protect you no matter what you do. At least in the Infinite Mining Area, I guarantee..."

Han Fei said it casually, but Zhou Run just responded with a smile. This was because he knew that human beings were human beings after all. There were conditions for Han Fei to allow them to grow and establish their own forces. Han Fei could joke with him, but he couldn't joke with Han Fei.

In Zhou Run's opinion, the rise of the human race was inevitable. Han Fei could even survive that deadly situation outside the Godfiend Sea and dared to promise the human race a thousand years of peace for

recuperation. This was not something he could do with words. Although Zhou Run didn't know what had happened for the time being, he knew that the Central Sea Divine Realm had definitely suffered a loss, or even a huge loss.

...

Hundred Alliance City.

"Here they come."

"So many people."

"The human race already has so many strong cultivators?"

"Is this the human army that has fought bloody battles for 400 years outside the Godfiend Sea?"

"There should be more. Only humans above the Explorer realm have come. However, this number... It seems that the human race is going to conquer half of the Infinite Mining Area in one go?"

"Half of the Infinite Mining Area? Isn't this too much?"

"I'm talking about the half of the Infinite Mining Area that has already been explored. Those unexplored places naturally can't be counted."

"That's still too much."

Outside the city, Han Fei stood still, and the Sky Opening Realm army behind him stopped marching and ordered everyone to stay on the spot.

Han Fei, Luo Xiaobai, and Zhou Run entered the city as representatives.

The reason why Zhou Run was added was naturally that the rise of the human race needed smart people like Zhou Run. In terms of knowledge of the Sea Realm and the intrigues between some forces, as a member of the big clans in the Sea Realm, Zhou Run knew a lot.

### [God of Fishing](#)

#### **Chapter 3014: The New Pattern in the Infinite Mining Area (2)**

As for Luo Xiaobai, she had led the human race for four hundred years. Han Fei could tell that she was very tired, and it was time for her to take off some of her burden.

Before entering the Hundred Alliance City, countless pairs of eyes were looking at him. Outside the city, there were already more than a dozen masters of forces waiting for Han Fei.

Han Fei even knew a few of them.

It was Wushuang from the Capital of Horror, and Xiangxiang who was following Wushuang. They were Han Fei's old acquaintances. If Han Fei won, the Capital of Horror would definitely send Wushuang over. There was no suspense in this.

As for the representative of the Divine Capital Dynasty, it was a little unexpected. It turned out to be Princess Lan Xin. She seemed to have a particularly good relationship with Feng Yu. However, she didn't know Han Fei's relationship with Feng Yu, so he didn't have to treat her specially.

The people from the East Sword Pavilion were unexpectedly Wang Beichen and Wang Yijian. Yes, it was Wang Yijian. After not seeing him for so long, Wang Yijian had already reached the perfected Star Transformation Realm, and Wang Beichen had already proven his Dao.

As for the person from the Ghost Strait, it was Ren Yingying, Zhang Xuanyu's so-called senior sister. Although he didn't have a good relationship with the Ghost Strait back then, Zhang Xuanyu had joined it after all, and now they had Ren Yingying come over, which made Han Fei have to treat them differently.

The one from the Chaotic Wasteland was Duan Qingsi. It didn't matter if they came or not. He would definitely keep a portion for them.

Deng Xingtian, who came from the Fist Light Mountain, had also proved his Dao, but he had only had a meal with Deng Xingtian, and this guy had come over to freeload, so he wasn't familiar with him.

Apart from that, there were some people that Han Fei didn't recognize. However, Luo Xiaobai said, "The one in the blood-colored battle suit came from the Sky Crater World. He was my former commander, Wu Zhan. But you don't have to give him face. Just follow your own train of thought."

Han Fei nodded slightly and looked into the Hundred Alliance City. Li Luoluo was eating with several ferocious beasts waiting around her. No one dared to approach her.

On the divine beasts' side, the Blazing Fire Kylin was eating on the other side, cupping his hands at Han Fei. The divine beasts and the ferocious beasts were not on good terms, but at the same time, their relationship with Han Fei was not as good as Li Luoluo with Han Fei, so they still had to follow etiquette.

Li Luoluo said, "You gus talk. I'm going to wander around the city and have some fun. It's been a long time since I've been out, so don't call me."

"OK, have fun."

Han Fei had already made plans for the divine beasts and ferocious beasts, so it made no difference whether they participated or not.

Han Fei landed, nodded at Wushuang, and then looked directly at Wang Yijian. "Long time no see."

Wang Yijian nodded slightly and didn't change his attitude towards Han Fei because of the change of Han Fei's power, "It's a pity that I couldn't participate in the battle."

Han Fei was about to speak, when Wang Beichen continued, "Brother Han, don't blame him. When he came to the Infinite Mining Area not long after he came out of seclusion, this place had already been sealed. He killed more than 300 enemies in anger, but in the end, he couldn't pass."

Han Fei shook his head. "It's okay. But Brother Beichen, you'd better go back to the East Sword Pavilion now."

"Huh?"

Wang Beichen's face changed slightly. "Did something happen to the East Sword Pavilion?"

Wang Yijian also frowned slightly, as if he was worried that something bad would happen.

Han Fei shook his head. "No, it's just that the East Sword Pavilion will welcome a huge opportunity. If the two of you want to improve on the Sword Dao, you'd better rush back. After all, the number one sword cultivator in history should have reached the East Sword Pavilion by now."

"The number one sword cultivator in history?"

Hearing this, everyone couldn't help but look at Han Fei. Who dares to claim to be the number one sword cultivator in history?

Wang Beichen and Wang Yijian looked at each other. Han Fei's words were too exaggerated, but Han Fei didn't have to lie to them. Since he said that there was such a person, there must be.

Wang Beichen looked at the others and hesitated, but Wang Yijian's eyes lit up. "Really?"

Han Fei said, "I didn't say that. It was said by a Great Monarch from the Central Sea Divine Realm. If I'm not mistaken, a god is about to be born in your East Sword Pavilion."

"What?"

Buzz!

Everyone was in an uproar. Was it that exaggerated?

Princess Lan Xin said, "The divine path seems to have been cut off in the Sea Realm, right? How can anyone transcend the divine tribulation?"

Han Fei didn't know much about becoming a god. Some people said that the divine path had been severed, but the big shots he knew all said that god had always existed in the Sea Realm. He hadn't reached that level, so he didn't ask about it. But since Li Tiangan said that he was going to transcend the divine tribulation, he should be able to, right? After all, Li Tiangan wasn't stupid.

Han Fei said, "That's for the strong masters to decide."

Although Wang Beichen and Wang Yijian were old-fashioned sword cultivators, they couldn't help but be shocked at this moment.

Immediately, Wang Beichen cupped his fists. "Brother Han, then we'll take our leave."

Han Fei said, "Go! Just leave a few people here."

After that, Han Fei looked at Wang Yijian. "No matter what, just remember that you are a human! If the human race is in trouble in the future, try your best to help the human race out. Also, if you have a chance in the future, take in some disciples from the human race and teach them the Sword Dao."

Wang Yijian nodded slightly. "Okay, I'll try my best."

With that, the two of them said goodbye to Han Fei and flew away. They didn't come here for the interests of the East Sword Pavilion. Wang Yijian wanted to fight for the human race, and Wang Beichen was forced to come and take care of Wang Yijian by the way. At this moment, hearing that there would be such a shocking change in the East Sword Pavilion, although they looked calm on the surface, they couldn't wait.

## [God of Fishing](#)

### **Chapter 3015: The New Pattern in the Infinite Mining Area (3)**

The conversation between Han Fei and Wang Yijian was witnessed by others. The East Sword Pavilion was going to have a god, which was a huge event. It would directly change the status of the East Sword Pavilion in the East Sword Pavilion.

There were still three people from the East Sword Pavilion here. They were also excited, but they had to stay to listen to the new plan of the Infinite Mining Area, so they could only stay. However, when they looked at Han Fei again, they felt very intimate to him.

The others weren't stupid either. Han Fei's words seemed casual, but considering his relationship with Wang Beichen and Wang Yijian and his tone when he talked about the so-called number one sword cultivator in history, the human race was already strong enough to take down the Infinite Mining Area.

All the major forces were excited too. Was a god about to be born? Wasn't it said that the path of divinity had been broken? How could someone still become a god now?

Of course, Han Fei meant to warn the other forces here. After all, the friendship with a god was too threatening.

Then Han Fei looked at Ren Yingying and smiled. "Why didn't that guy come?"

Ren Yingying said, "The patriarch said that with his strength, it's meaningless for him to come. 400 years ago, he was suppressed by the patriarch in the Ancestral Forbidden Land of the Ghost Strait to receive the inheritance. When he came out of seclusion, he would have already proven Dao."

Han Fei nodded slightly. "Yes, indeed. Without strength, everything is useless. However, when he comes out of seclusion, it's not appropriate for him to stay in the Ghost Strait anymore. The strong are not cultivated but fought their way through. He knows this very well. I think the Ghost Strait should also understand this."

Ren Yingying bowed slightly. "Of course. After he takes over the inheritance, the Ghost Strait will no longer restrict him."

Han Fei nodded and then looked at Wushuang. "You've reached the Immortal Level. So quick!"

Wushuang responded with a smile, "Compared to you, it's still too slow."

At this time, Luo Xiaobai also nodded at Wu Zhan. "I was too busy to inform you."

Han Fei said that he would ask for leave for Luo Xiaobai, but he really didn't have the time, so he dropped the matter.

A rare smile appeared on Wu Zhan's solemn face. "I understand. You did a good job."

Han Fei simply greeted them and then said to the crowd, "Since everyone is here, let's get started. Some things have to be decided."

After a while, everyone came to a meeting hall. But this time, the main character could only be Han Fei. Han Fei, Luo Xiaobai, and Zhou Run sat down. The internal meeting of the major forces in the East Sea Divine Realm began.

Han Fei said bluntly, "As you all know, since I'm here, the pattern of the Infinite Mining Area will have to be reset. First of all, I hope to reach a consensus with you. That is, in the Infinite Mining Area, except for the divine beasts and ferocious beasts, all the other forces can only occupy a super mineral vein as the foothold. The reason why our human race is not included is very simple. It's because we have too many people. Furthermore, our human race will undoubtedly take a dominant position in the Infinite Mining Area."

"Hiss..."

Instantly, the atmosphere became a little subtle. Except for Wushuang, Princess Lan Xin, and the others, everyone felt that Han Fei wouldn't have to take over such a large territory all at once, right?

Many forces finally took advantage of the chaos to eat a lot of mineral veins, but Han Fei clearly wanted them to vomit all of them out.

Then, Han Fei said, "Secondly, all forces, including our human race, can share the cities, gathering places, or mines."

"Share?"

Someone couldn't help but ask, "Master Human Emperor, what do you mean by share?"

Han Fei grinned and said, "I want to establish a free Infinite Mining Area, and all the major forces can only occupy one super mine. I'm not restricting you, but I'm just giving you a foothold. As for sharing, it's easy to understand. We, the human race, will maintain peaceful, harmonious, friendly, and mutually supportive relationships with all major forces. These major forces, including itinerant cultivators, can conduct business, reside, explore, and mine together in the human race's territory. Everyone can communicate with each other, help each other, and grow together instead of fighting over one or two mineral veins and resorting to violence."

After a pause, Han Fei continued, "Our human race naturally won't be stuck in our own territory. Since we're in a mutually beneficial relationship, we naturally have a lot of people willing to join the major forces."

For a moment, many people fell into deep thought.

At this time, Wu Zhan, the commander who came from the Sky Crater World, said, "Master Human Emperor, the Sky Crater World has been fighting all year round and consumes a lot of resources. In the past, we were more inclined to dig by force. I wonder what Master Human Emperor will do about it now?"

Han Fei said, "Commander Wu, you might not know this, but there are a lot of human beings in our human race, 120 billion. And in the next thousand years, we will reproduce, so there will only be more. The Sky Crater World can totally buy resources from the human race!"

"Buy resources?"

Wu Zhan asked, "The mines are a kind of resource, equivalent to currency. Is there a way to buy currency?"

Han Fei said, "Exchange. I won't keep it a secret. The human race hasn't been in the Sea Realm for long and hasn't interacted much with the strong masters of the Sea Realm. We badly lack combat skills, cultivation techniques, weapons, arrays, and other resources. And the Sky Crater World can exchange two things for various resources. One is points, and the other is things that points can be exchanged for. I believe that with the things in the hands of the Sky Crater World, we can exchange for a large number of mines almost effortlessly. Commander Wu, what do you think?"

### **God of Fishing**

#### **Chapter 3016: The New Pattern in the Infinite Mining Area (4)**

Wu Zhan smiled. This solution was not bad. When he went back, the probability of passing was almost 100%. If there was really something that couldn't be exchanged, he wouldn't take it.

As for whether the human race would learn those combat skills or not, they really didn't care at all. They even hoped that the human race could master these combat skills and techniques. Their ultimate goal was not to deal with the gods, but to fight the ultimate ominous battle.

As for the human race, such a super race would eventually embark on the path to fight the ominous. Then why should they stop this spread?

Princess Lan Xin said with a smile, "In that case, we naturally won't object. However, won't Master Human Emperor feel that it's a loss? Once shared, it is equivalent to the human race sharing something that was obtained at the cost of their lives with others."

Seeing that Princess Lan Xin was echoing him, Han Fei smiled and said, "If the human race wants to be strong and rise quickly, we have to absorb the strengths of everyone. Let's rise peacefully and create a free and thriving Infinite Mining Area. This should be more meaningful than the previous model of the Infinite Mining Area."

On the side of the itinerant cultivators, they were all smiling. Han Fei's words made them feel that he was simply supporting itinerant cultivators. Once this plan was carried out, the itinerant cultivators would no longer need to form groups. The entire Infinite Mining Area would be a large group.

Han Fei said, "Everyone, I know the situation of the human race. I won't elaborate. In short, from today onwards, no one can own a second large super mine."

Some people were overjoyed, and some were slightly amazed. It turned out that their long-time preparation was in vain!

Under such circumstances, who dared to challenge Han Fei? Those Great Monarchs had died one after another. How could they confront Han Fei?

Zhou Run looked at Han Fei and Luo Xiaobai and thought to himself, This move is really awesome! Indeed, what the human race lacks now is not mineral at all, but opportunities to communicate with the various major forces and various strong masters. The many techniques mastered by the major forces will definitely flow into the hands of the human race in large quantities.

Clearly, the human race and the major forces had mutual exchanges and shared resources, which was extremely beneficial to the human race.

Wushuang asked, "What about the divine beasts and the ferocious beasts?"

Han Fei smiled and said, "The divine beasts and the ferocious beasts will still control the southern and western mining areas. However, any divine beast and ferocious beast can freely enter any place in the Infinite Mining Area. They can coexist with us and are not much different from before. They are our human race's allies."

When the divine beasts and ferocious beasts fought against the Ten Thousand Scale Race, Han Fei had already informed them. This time, Li Luoluo and the Blazing Fire Kylin didn't come to snatch territory, but to tell everyone that the human race had many allies.

Seeing that everyone was deep in thought,

Clang! Clang!

Han Fei gently knocked on the table. "What do you think?"

Princess Lan Xin said, "What if the human race grows up and no longer needs the resources provided by the other forces?"

Han Fei smiled and said, "Everyone, the Sea Realm is vast and almost boundless. It's impossible for the strong masters of our human race to live in this corner for long. Besides, the principle of peaceful coexistence has been the most acceptable and favorite way for our human race for a long time. After all, not everything needs to be ended by war."

"Okay! I agree."

Ren Yingying, the representative of the East Sword Pavilion, took the lead to express her stance.

Princess Lan Xin also nodded in agreement. Everyone could see that Han Fei intended to integrate the human race into the Sea Realm and the myriad races. At this moment, the best option was to accept Han Fei's proposal. Otherwise, he had the power to expel any force at any time, such as the Heavenly Race, who didn't even bother sending people over because they knew there would be no chance for them and they might even be wiped out.

Although they had already controlled enough territory, they had to give up at this moment.

Wushuang nodded. "I agree. Such an Infinite Mining Area is very attractive to the entire East Sea Divine Realm and even the entire Sea Realm."

On the side of the itinerant cultivators, they sighed. "Thank you for your generosity, Human Emperor. This will definitely attract countless itinerant cultivators. Although itinerant cultivators are not necessarily very strong, our cultivation paths are diverse and we have extensive knowledge. If we share what we've learned, it'll definitely help humans integrate into the Sea Realm faster."

Han Fei got up and patted Zhou Run's shoulder. "In the future, these things will be handled by Zhou Run. Everyone, continue chatting. I'll go greet the divine beasts and the ferocious beasts."

Wushuang suddenly said, "Brother Han, what do you plan to do with the strong masters from the Central Sea Divine Realm? This time, many forces haven't had the time to leave and have already been taken down by us."

Han Fei patted Zhou Run's shoulder with a smile and said, "Anyone who has ever offended our human race will be killed without mercy. The rest will be expelled."

With that, Han Fei and Luo Xiaobai got up and left.

Zhou Run looked at everyone with a smile. "Then, please take out the mineral veins in your hands first!"

### God of Fishing

#### **Chapter 3017: Hidden Monarch City (1)**

Meeting the Blazing Fire Qilin and Li Luoluo, Han Fei's thoughts were much simpler. His goal was to let these two families take care of the human race and become allies. As for whether these two families would continue to be enemies against each other, it had nothing to do with Han Fei.

After doing all this, Han Fei and Luo Xiaobai walked on the streets of the Hundred Alliance City.

Luo Xiaobai said indifferently, "Now that the human race's business is over, I should leave."

Han Fei asked, "Where are you going?"

Luo Xiaobai said, "Currently, the Sea Realm is full of demons. Without strength, we can't deal with what will happen in the future. Let's... meet again in the Central Sea Divine Realm."

Han Fei frowned slightly. "Are you going to the Central Sea Divine Realm at this moment?"

Luo Xiaobai said, "They're all dead. Who would know me?"

Han Fei nodded slightly. Judging from the current situation of the Sea Realm, the Central Sea Divine Realm was indeed the center of the Sea Realm, where many strong masters of the Sea Realm gathered. In terms of rising speed, the Central Sea Divine Realm was definitely the fastest.

However, Han Fei still said, "Let's go back to the Chaotic Wasteland first! Although my Fifth Senior Brother is lazy and likes to eat, I am sure that he is not an ordinary person. Of all the people I have met so far, there is no one that he doesn't know, regardless of where they are from in the Sea Realm or how many years ago they became famous. Therefore, you don't have to cultivate with Fifth Senior Brother, but in the Sea Realm, information and intelligence are especially important. If you master these, it'll be very beneficial for your growth."

Luo Xiaobai thought for a moment and nodded. "Okay."

Han Fei said, "In addition, I have a divine technique if you go to the Central Sea Divine Realm..."

Without hesitation, Han Fei gave the Divine Concealment Technique to Luo Xiaobai and then took out Wood Demon Shanshan who was dying after being refined by the Creation Jade Spirit Tower.

Although the Divine Demon Forest was an enemy force, it had to be said that they were also a representative force of the ancient six lineages. As for Luo Xiaobai, she had the mutated mixed bloodline

of the ancient human race and the ancient demon plant, so the techniques of the Divine Demon Forest were very beneficial to her.

...

Three days later.

Alone, Han Fei quietly appeared at the edge of the mining area in the west. Following the guidance of the Vast Ocean Navigator, he plunged into the mist of the mining area in the west.

Because the terrain was complicated, it took Han Fei three days to break through the layers of fog and come to a magnificent ancient city hidden in the depths of the mining area.

Up to now, there were no immortal-level or Great Monarch-level mine demons blocking his way. Han Fei was naturally not stupid. The Hidden Monarch City had been established in the depths of the Infinite Mining Area for so long. The mine demons who dared to attack them had long perished. Those who hadn't perished must have long been under their control. They didn't want to make things difficult for him, which was the reason why his journey was smooth.

This city stretched tens of thousands of kilometers, and the giant city wall was branded with some ancient battle marks. With just a glance, Han Fei saw countless sabers and swords rushing at him.

However, after being burned by the demon refining for two hundred years, his will and faith were already beyond ordinary people's reach. In a breath, he had seen through the illusions here.

Taking a slight breath, Han Fei cupped his hands and shouted, "I'm Han Fei from the human race. I'm here to pay my respects to the seniors of the Hidden Monarch City."

Buzz!

Crack, Crack, Crack...

The gate of the Hidden Monarch City that had been sealed for a long time slowly opened, but no one came to welcome him.

Han Fei was not afraid. He went straight to the door and looked at the words "Hidden Monarch City" written in ancient characters above his head. He immediately felt infinite suppressing pressure pressing down on him.

However, today was very different from when he was in the Sky Opening Realm. If it was the suppressing pressure of a Great Monarch, he wouldn't have felt this level of pressure. Then, these three words must have been personally written by a god.

"Huff!"

Han Fei slowly heaved a sigh of relief to relieve the pressure of this god. Then, he looked away and walked into the city.

Buzz! Buzz!

The door behind him was slowly closing, and a mist was blowing at his face.

Han Fei frowned slightly, but in the next moment, he heard shouts.

"Kill ~"

The scene in front of him changed, and Han Fei found himself standing on the high platform of the city wall. This city was overcrowded, each of them imposing. The weakest of them was actually in the perfected Star Transformation Realm. And there were millions of such strong masters in this city.

In the city, there were hundreds of thousands of strong masters, which shocked Han Fei. With so many Monarchs, couldn't such a force sweep across the Sea Realm?

But Han Fei quickly suppressed his shock, because the environment was not right. He looked up, only to see a boundless Sea of Stars outside, which told him that he was in the Sea of Stars at this moment, and this city was standing alone in the Sea of Stars.

At this moment, hundreds of thousands of strong masters were charging with millions of strong masters in the Perfected Star Transformation Realm. Han Fei was no stranger to the targets of the charge, which were the ominous life forms.

However, Han Fei had seen too many ominous creatures to count.

The Sea of Stars flashed and went out, and there were explosions one after another. From time to time, there would be rumbling sounds in the Sea of Stars. It was the Great Dao crack that should have erupted when a Monarch died. But in the Sea of Stars, the death of ordinary Monarchs seemed unable to cause the appearance of the Heavenly Dao crack, so there was only rumbling sounds.

"How is it? How is a war of this level different from the war of your human race?"

### **God of Fishing**

#### **Chapter 3018: Hidden Monarch City (2)**

Next to Han Fei, he suddenly saw a young man in green clothes, with his hair down, bare feet, and holding a wine calabash in his hand.

Han Fei paused and said, "Senior, are you a strong master in this illusion, or in the Hidden Monarch City?"

Han Fei knew that for some super strong masters, even across time and space, they could feel a wisp of their will or gaze.

The young man smiled. "Can you guess?"

Han Fei thought for a moment. This person mentioned the war of the human race. He was most likely from the Hidden Monarch City, and this illusion was most likely created for him to see.

Han Fei didn't say what he had guessed. Instead, he cupped his hands slightly. "I'm Han Fei from the human race. Greetings, Senior. In fact, in my opinion, as long as it's a war, it's no different. When facing life and death, everyone's mentality might be the same. The enemy wants to destroy our human race, so we humans fight to the death and pour our blood on the defense line. Although these people in front of us are very strong, in this vast Sea of Stars, they're no different from the temporarily weak human race

in the ominous' eyes. We have no choice. If we retreat, more people will die, and in the end, we won't be able to escape death. Therefore, we have no choice but to kill."

"What if you can't kill your way out?"

The person chuckled, but there seemed to be some emotion hidden in his words.

Han Fei said firmly, "We will. Since ancient times, it's not the first time that the myriad races have repelled the ominous. Therefore, if we can defeat him once, we can defeat him twice or thrice. Of course, the premise is that the myriad races are united."

"It's so difficult to unite all races."

Han Fei said, "They're about to die. What can they do if they're not united? They have to fight no matter what, don't they?"

The young man smiled casually. "Let's talk about the Demon Purification Pot! Do you know what it means to take over the Demon Purification Pot?"

Han Fei asked, "What does it mean?"

The young man said leisurely, "It's said that no one who controls the Demon Purification Pot has a good ending. In fact, you should be able to understand why. Since ancient times, whoever takes over the Demon Purification Pot has to bear a major responsibility to resist the ominous and even act as the leading force. But when they really fight against the ominous, the person in charge of the Demon Purification Pot will discover that the Demon Purification Pot can't really stop the ominous. Therefore, for the person in charge of the Demon Purification Pot, facing the ominous is actually courting death. Are you still willing to take over the Demon Purification Pot?"

Han Fei's pupils were constricted, but then he grinned. "The holders of the Demon Purification Pot may all be talented people, but I am not them. I'm not afraid of death. Otherwise, how could I have grown to my current height and enter the Hidden Monarch City?"

The young cultivator laughed and pointed at the Sea of Stars. "Look."

In the Sea of Stars, the war scenes were changing. Before, there were millions of troops fighting against the ominous, but at this moment, half of them had died. This casualty rate was ridiculous.

The probability of a person growing up from an ordinary cultivator to a Monarch was quite low. There was no telling how many people had died and how many difficulties they had experienced during the process.

However, in a war of this level, the result was just like this. A large number of strong masters died, and there was no way to continue.

Suddenly, the void trembled as a woman dressed in a white skirt stepped forward from the rear of the army. With each step she took, she crossed millions of kilometers, and ripples of light spread out in all directions like water droplets. Instantly, the injuries of countless people were healed wherever the ripples of light passed by.

"What a strong recovery ability."

Han Fei couldn't help but be moved. He thought that the Heaven Enlightenment Divine Technique was already extremely powerful, but the power of the woman in front of him made him sigh. The Heaven Enlightenment Divine Technique was far from enough.

"A god?"

Yes, the strength of that woman exceeded Han Fei's understanding. Perhaps the Great Monarchs were also very strong, but they definitely couldn't easily revive the injured within tens of millions of kilometers.

Even if she was a god, Han Fei felt that this woman was too strong.

Sure enough, the woman waved a bell in her hand, and in this Sea of Stars, mystic sounds rang everywhere, and green light pervaded. In just a moment, hundreds of thousands of ominous creatures were purified.

Before the green light bloomed completely, infinite darkness enveloped over, forcibly blocking the green light, but in the end, it was still penetrated by the green light ripples.

Behind the darkness, Han Fei saw hundreds of ominous giant monsters that were even larger than his Dharma Idol appear above the Sea of Stars. On top of each giant monster's head stood an ominous life form.

Hundreds of ominous monsters attacked at the same time, narrowly blocking the bell ripples.

Han Fei frowned. "What are these?"

The man next to him said indifferently, "Those are world-ending level ominous behemoths and world-ending level ominous life forms. You can understand them as Great Monarchs."

"More than two hundred Great Monarchs working together to resist a god?"

Han Fei knew that the gods were very strong, but this was f\*cking ridiculous. This person was comparable to more than 200 Great Monarchs.

The man chuckled and didn't speak. The woman threw the bell in her hand into the air and formed seals with one hand. Behind her, a green circular divine disk appeared.

Swish swish swish!

Tens of thousands of green mirrors appeared behind her. In the next moment, green light spewed out of the mirror, like a beam produced by a starburst, enveloping the world-ending level ominous creatures.

"Puff! Puff! Puff!"

One after another, the world-ending level ominous beasts were annihilated. Wherever the green light shone, the ominous creatures were either cut off, pierced through, or annihilated. No one could resist this green light.

[God of Fishing](#)

**Chapter 3019: Hidden Monarch City (3)**

"So strong!"

The two hundred or so world-ending level ominous creatures wanted to launch some kind of ominous shock wave together, but they were scattered by the thousands of green lights.

In the blink of an eye, only half of the two hundred or so world-ending level ominous creatures were left.

At that moment, something seemed to be unable to sit still in the darkness. A huge dark claw that could traverse the Hidden Monarch City extended out of the dark fog and grabbed at the green light. Instantly, thousands of beams of green light shone at the huge hand. Although a large amount of ominous aura was purged, the huge hand was not destroyed in the end.

In the end, the woman had to combine ten thousand mirrors to pierce through the giant claw in one fell swoop. The mirror behind the woman also disappeared, and the Divine Wheel of Law still floated behind her. The woman didn't attack again but waited for the owner of the giant hand to come out.

Han Fei asked, "What is this?"

The young man said, "Well, a doomsday level ominous creature. You can understand it as a god."

Han Fei couldn't help but change his expression, not because he heard that a doomsday-level creature was comparable to a god, but because he saw that from the three voids, there were doomsday-level ominous creatures extending their hands out of the ominous fog.

Three were equivalent to three gods. When Han Fei saw the full view of the doomsday-level ominous life forms that crawled out, he couldn't help but be shocked. This thing was really too big. It was definitely the largest creature he had ever seen. Even a huge beast that had cultivated to the level of a god was probably inferior to this thing.

They could no longer be considered a body. The entire ominous area could be considered their body, spanning nearly a million kilometers. Fortunately, the young man beside them said, "Don't be intimidated by their size. They can transform into humanoid sizes."

Han Fei said, "I know. I'm just thinking that with such a huge body, they could easily block off the void, and many people won't even be able to dodge a slap from them!"

The young man said, "Continue to watch."

As Han Fei said, the woman wasn't the only enemy of the three gods. After all, the ominous creatures wouldn't talk about fairness. One of the doomsday-level ominous creatures slapped a group of strong cultivators with its palm.

And it wasn't the god who blocked this blow. The divine plate behind her was spinning, and countless cyan chains of rules stretched out in the boundless void. This blow was very powerful, but it clearly needed some time.

Therefore, Han Fei saw that there was a Great Monarch. Han Fei was sure he was a Great Monarch because if that person was a god, he would be shining like the goddess.

The Great Monarch used his myriad-foot-long Dharma Idol to transform into a cone of laws. It expanded by nearly ten times and emitted endless light. Although it was already very big, it was still less than a tenth of the palm. The power of light barely covered the palm.

Bang!

The light dispersed the ominous, and the Great Monarch unexpectedly blocked the ominous hand.

The young man next to him said, "The myriad races have an advantage in one-on-one combat. For example, we have a way to suppress their power. It's possible for the experts of the myriad races to resist a god head-on, but it doesn't mean that they can withstand it for long. Such an attack can last at most five blows."

Han Fei frowned slightly. "It means that he is not strong enough."

The young man smiled and said, "Do you think every Great Monarch-level powerhouse can become a god? After all, there are very few people at the peak of the world. You can't measure a Great Monarch with a god's strength. In fact, as long as they become a Great Monarch, they are already very strong."

Han Fei nodded slightly. At this moment, the law chains were binding the three doomsday-level powerhouses, but the law chains were constantly breaking at a very fast speed.

However, the woman didn't care. Instead, she opened her hands, and her whole body was suffused with green light. In the next moment, within tens of millions of kilometers, a green storm, or to be exact, a storm of laws, a cleansing storm set off.

This storm was extremely powerful and seemed to have supreme power. It almost cleared out all the ominous creatures within tens of millions of kilometers. And the three doomsday-level ominous creatures were also roaring crazily.

One of them roared, "The Water Spirit Purification Storm can't kill us."

When the green light disappeared, there were only the three doomsday-level ominous creatures left. And Han Fei clearly saw that the woman was exhausted.

But she only slowed down for a moment, and the bell from before turned into a huge bell that burst out with a sound of purification. The woman, on the other hand, walked with a sword in her hand. The sword broke through her palm and she sacrificed her blood. Han Fei felt that a tremendous amount of vitality was burning.

In the next moment, the boundless Sea of Stars turned into day, and the long sword tore through the air and killed three gods in a row.

After the three slashes, the woman sat cross-legged in the void. She seemed to be quite weak.

At this moment, the young man next to him said, "No matter how weak a doomsday-level creature is, it's equivalent to a god-level cultivator. Only a god can kill a god."

At this moment, the picture in front of Han Fei gradually dissipated. In the next moment, Han Fei found that he was still in the passage of the city gate. There was only a young man opposite him looking at him with a smile.

Han Fei asked, "Why is it gone?"

The young man said, "You'll have to experience it anyway. It's meaningless to see too much of it. What do you think of this god?"

Han Fei pondered for a long time. "Very strong, but not strong enough."

Han Fei's judgment was well-founded. He didn't know if the Demon God was so strong, but there was someone who could be used as a reference. It was the Ancient God of Thunder Note. Seeing this scene today, Han Fei was shocked. Then how terrifyingly strong would the Ancient God of Thunder Note have been when he resisted the ominous alone for 3,000 years?

### [God of Fishing](#)

#### **Chapter 3020: Hidden Monarch City (4)**

At that time, there were definitely more doomsday-level ominous creatures that attacked the Ancient God of Thunder Note at the same time. Perhaps five or six of them could go at the same time.

Under such circumstances, Han Fei didn't know how that guy survived for 3,000 years. Perhaps this was also the reason why he set up the Ancient God of Thunder Note Trial, which was to make people endure the pressure of limits.

The young man said with a smile, "Your evaluation is not high enough. You even think she is a little weak, don't you?"

Han Fei didn't comment. Although he was very surprised by the woman's strength, that was from his perspective. But from another perspective, it was naturally different.

The young man smiled and said, "Come in! It's not easy to get here from the Godfiend Sea. Let's talk inside."

Han Fei followed the young man into the city. As far as he could see, there was a huge cultivation field. Many young-looking strong masters were either sitting cross-legged or standing. They were all looking at him. From the Perfected Star Transformation Realm to the Monarch Realm, he had seen tens of thousands of them.

Han Fei didn't sweep his perception directly. After all, this was their territory. It was very rude to sweep his perception directly.

This city was designed to facilitate the gathering of troops and maintaining combat at any time. Behind the cultivation field was a palace building made of minerals. At this moment, three or five people were looking down from high above.

"They are all very strong and are all Great Monarchs."

Han Fei was slightly shocked. He had interacted with Great Monarch-level powerhouses more than once. Judging from their temperament and faint suppressing pressure, they were definitely Great Monarch-level powerhouse.

There were so many strong masters in the Hidden Monarch City, but they had been living in seclusion. Obviously, they were prepared for the next ominous battle.

Han Fei frowned slightly. "There are no battles. It doesn't seem right to cultivate like this..."

Suddenly, when Han Fei saw someone surrounded by the pure power of the Great Dao, he suddenly realized something.

Were these people cultivating with energy crystals? But energy crystals could only be obtained from ominous creatures. To be able to support the cultivation at this level, it was definitely not the ordinary ominous creatures in the Chaotic Wasteland. Then the real cultivation ground of these people was not here at all, but in the Sea of Stars.

Han Fei asked, "Can the Hidden Monarch City lead to the Sea of Stars?"

The young man asked, "Why don't you take a look for yourself?"

"How do I take a look?"

At this moment, suddenly, a huge wall appeared in front of Han Fei, and a strange vortex appeared on it.

"The Distanceless Gate?"

Han Fei wondered, Can the Distanceless Gate run around itself?

However, a line of words appeared on the wall. "Do you know me?"

Han Fei laughed. "You don't know me?"

Distanceless Door: "You might know another Distanceless Door."

Han Fei was stunned. "Are there many Distanceless Gates?"

The young man said, "Of course there is more than one. At present, there are nine known Distanceless Gates in the Sea Realm. The human race came from the Chaotic Wasteland. That gate can be called the No. 3 Distanceless Gate."

Han Fei: "..."

Han Fei was lost for words. There were suddenly Supreme Nature Treasures, which was unbelievable.

Han Fei was also a little curious, so without any hesitation, he stepped into the gate. Obviously, the Hidden Monarch City in the Sea Realm was just a temporary base. Why did they choose the Infinite Mining Area? Perhaps it was because this place was rich in resources!

Buzz!

Han Fei felt a gentle force push him from behind, and then the surrounding scenery turned incorporeal. When the incorporeal state ended, he had already appeared above a Sea of Stars. And here, there was also a city, which was exactly the same as the illusion he saw just now, except that no super war broke out here.

Han Fei also found that he was standing on the top of the palace.

Suddenly realizing something, Han Fei quickly looked back and saw a woman in a white dress looking at him quietly.

The woman was looking at him with a smile. "I heard that you think I'm a little weak?"

"Ah, isn't that just... a prehistoric image?"
