Chapter 3121: Creation Divine Prison (1)

In the Monarchs' Jail.

Han Fei had already broken through a hundred prisons because of his Great Dao of Life Replacement.

On this day, when he branded more than a hundred laws in his body, his body suddenly began to tremble. Because there were too many different laws in his body, they began to collide with each other and tried to transform his body.

Whether it was flesh, blood, bones, or soul, they were all transforming.

Fortunately, he had saved a huge amount of resources in the past, which was enough to support the consumption of resources needed for him to enter the Immortal Level and cross the early stage of the Immortal Level.

Another three hundred years passed.

Han Fei had already broken through 185 prisons and had stacked 241 laws. This was because each Great Monarch didn't only master one original law. While Han Fei absorbed their original laws, he also absorbed other laws, so the number of laws stacked exceeded his expectations.

At this moment, there was only one prison here.

Before Han Fei was about to enter the prison, the old man suddenly said, "Before you enter this prison, if you have any defensive spiritual treasures, take them out! This person could even fight gods and had already reached the peak of the Immortal Level. Because he pursued the ultimate divine path, he went crazy and lost himself. You'd better not try to resist him head-on. Although this person has died, his power is not something you can completely resist now."

"Ultimate Divine Path? Could even fight gods?"

Han Fei looked solemn. The prisons that the old man pointed out were indeed terrifying. Many of them were Extreme Dao body refiners or Extreme Dao soul refiners. Because he hadn't reached the late stage of the Immortal Level yet, it was very difficult for him to break through these prisons, so he had used the Great Dao of Life Replacement hundreds of times.

This time, the old man pointed out that there was a Great Monarch who could even fight gods in this prison. This was equivalent to telling him that there was a super expert comparable to the War God in this prison, so Han Fei certainly didn't dare to underestimate him.

However, Han Fei had been through a lot along the way. No matter how difficult it was, he had to pass it.

Han Fei looked at the prison. Strange patterns were engraved everywhere in this world. The laws here had even been woven into various Dao diagrams, which were extremely complicated.

When Han Fei stepped into the prison, he immediately saw a terrifying sword intent sweeping over, as if it wanted to kick him out of the cage.

The Blood Sky Blade was instantly activated. Han Fei's Original Great Dao was activated, and the Draw Technique was launched with surging knife intent.

However, Han Fei's face suddenly changed. He felt that the Blood Sky Blade was trembling slightly, and his knife intent was shattered by this sword. The terrifying power of the sword swept him into the barrier.

Before Han Fei could forcibly grab the terrifying sword intent and absorb the law within, a palm that covered the entire prison pressed down on him.

Han Fei felt that the ferocity in his body was aroused. No matter how strong the law runes left behind by a dead person were, could he still maintain the combat power he had when he was alive?

Han Fei gathered all his laws on his fist and punched at the attack head-on.

Bang!

In the next moment, Han Fei's body was resplendent, and a blood mist dispersed. He was slapped on the spiritual barrier again, and the Great Dao of Life Replacement was activated. Han Fei had to rely on the invincibility state to survive.

"So strong! No wonder he could fight god!"

Han Fei was shocked. He tried his best but couldn't even shake the palm mark, which showed how strong this person was when he was alive.

At this moment, Han Fei didn't dare to be negligent. Taking advantage of the invincibility state, he forcibly stole the law of the palm. Fortunately, the Great Monarch had died, so the remaining power of the law didn't resist violently.

However, the power of the law contained in this palm filled Han Fei's entire body, forcing him to summon the green jade stone bridge.

After a while, Han Fei came out again, narrowly blocked three fist marks, and the Great Dao of Life Replacement was blasted out again. He was speechless. He should have come to this damn place when he reached the late stage of the Immortal Level. Although he had advanced to the intermediate stage of the Immortal Level now, his Supreme Divine Technique and Origin Star hadn't been strengthened yet, so his realm wasn't stable. He had to spend a lot of time and resources to comprehensively improve himself in order to truly stand firm in the intermediate stage of the Immortal Level.

At present, with his current strength, he couldn't resist the remaining power of this Great Monarch's law.

Once, twice... ten times, a hundred times...

Perhaps because the law here was constantly being absorbed by Han Fei, or maybe because Han Fei's combat experience with this Great Monarch was constantly improving, by the time he was pierced 121 times, Han Fei could already withstand a hundred blows from this Great Monarch.

After using the Great Dao of Life Replacement as many as 212 times, the remaining law here finally couldn't kill Han Fei.

Only at this moment did he have a chance to see the law diagrams left here clearly. On the ground, on the prison wall, and on the dome, there were Dao diagrams engraved everywhere. After decades of research, Han Fei finally figured out that this Great Monarch was actually thinking about how to enter the godly realm, so as to completely surpass all other gods. In many Dao diagrams, he even detonated himself and transformed into the world.

In some Dao diagrams, the world was combined into one and transformed into a human.

Among the many Dao diagrams, Han Fei finally saw a Dao diagram that compressed stars. It was an extreme compression that finally turned into a starry sky.

It was not difficult for Han Fei to understand this. Compressed to singularity, and then collapsed. This theory was actually being used in cultivation. Wasn't this person afraid of exploding himself?

"He is indeed a lunatic!"

Han Fei didn't figure out anything from these Dao diagrams, but although he didn't figure out any essence, he had comprehended many things related to arrays from the composition of the Dao diagrams, causing his array skills to be improved by a level.

After Han Fei came out of this place, the number of laws stacked increased from 241 to 272. In other words, he had absorbed dozens of law brands from this Great Monarch.

[God of Fishing](#)

Chapter 3122: Creation Divine Prison (2)

This place was good, but it was a little life-consuming. Those who didn't have enough lives were basically courting death if they came here.

Buzz—

As soon as Han Fei came out, he felt that the entire Monarchs' Jail was trembling.

The old man's voice immediately sounded, "Hahaha, I didn't expect that after countless years, this Creation Divine Prison would appear one day."

As soon as the old man said so, a thick, hoarse, and even ferocious voice sounded, "I didn't expect that this brat could really break through the Monarchs' Jail. Humph, not bad."

The old man smiled and said, "Old guy, you should be happy that the Creation Divine Prison has appeared. This means that you will have a chance to get out."

However, there was a hint of disdain in the voice. "Get out? Only when he's qualified to release me."

Han Fei was horrified. He didn't expect that there was another person here. He had always thought that the old man was the only living person in this place, but he didn't expect that there was another mysterious expert hidden here.

"Creation Divine Prison? What is that?"

Buzz~

This place was shaking more and more violently. Han Fei felt that his body was pushed forward by a huge force with a bang. In the next moment, he had already left the Monarchs' Jail.

When Han Fei looked again, he had already arrived at the periphery of the star tomb.

Ka ka ka ~

Bam! Bam! Bam!

The billions of chains that trapped the star tomb were cracking.

Han Fei didn't know what it meant yet. A black chain appeared under his feet, giving him a place to stand.

In his eyes, the billions of chains snapped, and the shape of the star tomb changed. It gradually turned from a circular bare star tomb into a huge black cube. Its shape was the same as the prisons Han Fei had experienced.

This huge cube was shrinking at a visible speed. In the end, it shrank to the size of a palm and suddenly tried to smash into the center of Han Fei's eyebrows.

However, the vines of the Demon Purification Pot blocked it and didn't let it in at all.

The cube hit several times and finally gave up. It smashed into Han Fei's chest, turning into a layer of black matter that covered his heart.

At that moment, Han Fei felt that more than half of his essence blood had been extracted. This cube must be recognizing him as its master.

"Wow, it took the initiative to recognize me as its master. It's so domineering that it even bumped into the Demon Purification Pot."

Soon, a wisp of consciousness appeared in Han Fei's mind. "I am the Creation Divine Prison that can suppress all gods. Any god who has committed a crime can be imprisoned by me."

"Are you talking?"

Han Fei was shocked. This was the first time he had encountered a spiritual treasure that could talk.

However, this Creation Divine Prison didn't respond to Han Fei. But then some information appeared in his mind, which seemed to be some rules and usages of the Creation Divine Prison.

Han Fei's heart seemed to have been refined. For a moment, he was standing motionlessly above the Nether River as if he was dead.

Finally, Han Fei came back to himself. With a thought, the Creation Divine Prison immediately appeared in his hand, with a more detailed introduction in his eyes.

<Name> Creation Divine Prison

<Introduction> In order to prevent gods from committing crimes, a peerless expert used the chaotic void, the Sigh Barrier, the myriad laws of the heavens, and the light of grandmist... to build a Supreme Nature Treasure, the Creation Divine Prison. This prison can suppress all gods. Any sinful god can be imprisoned. The Creation Divine Prison will make judgment on their merits, rewards, and punishments. The one in charge of the Divine Prison should be fair and just, can't wantonly kill the innocent or the weak, can't betray the myriad races, or associate with the ominous... The Creation Divine Prison has a total of four levels. It has to be opened level by level according to the strength of the criminals the guardian catches. The Divine Prison can't accommodate anyone below the Monarch realm.

<Quality> Supreme Nature Treasure

<Activated> Monarchs' Jail.

<Effect 1> Conviction: All people are sinful, only the gravity of their sins differs. The Creation Divine Prison can automatically reflect the crimes committed by designated individuals.

<Effect 2> Punishment: Anyone convicted guilty can be burned by hellfire, flogged, exiled, imprisoned, and sentenced to death. The Creation Divine Prison will decide the punishment on its own.

<Effect 3> An additional offense: Anyone who resists punishment will have an additional offense added to their sentence.

<Effect 4> Rehabilitation: If any person in prison who has not completed their sentence is willing to listen to the call of guardian of the Divine Jail, and perform deeds of goodwill for all races, deeds of resisting the ominous, deeds of eliminating evil and promoting good, and deeds of upholding justice... can all have their sentences reduced. However, anyone who behaves improperly will have an additional offense added to their sentence.

< Can't be Reforged >

<Refined>

<Note 1> Creation Divine Prison can only be used when the designated person is locked by the Law Enforcement Divine Chain.

<Note 2> Multiple people can be held in the same prison. If the prison is still full, those with minor offenses will be released early, while those with serious offenses can be sentenced to death.

When Han Fei saw the introduction of the Creation Divine Prison, he was stunned. This thing was actually a Supreme Nature Treasure, and it could suppress all gods. It was simply ridiculous.

"How terrifying. The path of cultivation is full of dangers. Who can say that he is not guilty? This Creation Divine Prison is unreasonable. As long as one is caught, he can be sentenced even if he is a Monarch or even a god."

"Gulp ~"

Han Fei couldn't help swallowing. If the first floor was the Monarchs' Jail, then the second floor should be for gods? Then what kind of existences would the third and fourth floors suppress?

However, if he wanted to use the Creation Divine Prison, he had to lock down the target person with the Law Enforcement Divine Chain first.

God of Fishing

Chapter 3123: Creation Divine Prison (3)

"Law Enforcement Divine Chain?"

Han Fei looked down. Wasn't the black chain under his feet the one that dragged him to the Creation Divine Prison?

As Han Fei lowered his head, new information popped up in his eyes.

<Name> Law Enforcement Divine Chain

<Introduction> In order to help the Creation Divine Prison to catch criminals and prevent the gods from committing crimes, a peerless expert used the chaotic void, the Sigh Barrier, the myriad laws of the heavens, and the light of grandmist... to build a Supreme Nature Treasure, the Law Enforcement Divine Chain. This chain can lock gods, all evil, and injustice. The Law Enforcement Divine Chain can only be held by the guardian of the Divine Prison. It has an indestructible characteristic. According to the strength of the guardian of the Divine Prison, its corresponding power can be unleashed.

<Quality> Supreme Nature Treasure

<Effect 1> Immunity, Law Enforcement Divine Chain is immune to all sealing means in this world.

<Effect 2> Imprisonment: Anyone who is imprisoned cannot break free unless they are found innocent. Their body and soul will be completely imprisoned.

<Effect 3> Whipping: It can ignore all means such as space and time. Anyone who catches the eye of the Divine Prison Guardian will be hit. However, it can only unleash the same power as the Divine Prison Guardian.

<Effect 4> Purification: The Law Enforcement Divine Chain has the ability to purify. For ordinary crimes, there's no need to use the Creation Divine Prison. The Law Enforcement Divine Chain can complete the punishment and purify all evil.

< Can't be Reforged >

<Refined>

<Note> Although it's a Supreme Nature Treasure, the Law Enforcement Divine Chain is not a powerful weapon.

Upon seeing the information of the Law Enforcement Divine Chain, Han Fei understood that the two were a set. The Creation Divine Prison was the real boss. Although this Law Enforcement Divine Chain was also known as a Supreme Nature Treasure, under normal circumstances, there were too many restrictions on it.

The only ability that could be used for combat was whipping. But the power of the whipping depended on the strength of the Divine Prison Guardian. Since he was Immortal-level, he definitely couldn't beat a Great Monarch.

Therefore, Han Fei felt that this thing could be called a Supreme Nature Treasure mainly because of his immunity and imprisonment ability. In this vast Sea of Stars, there was nothing that could suppress it.

To put it bluntly, its passive ability was very powerful, while its active ability was very weak. It was even much weaker than the Blood Sky Blade.

However, no matter how poor its active ability was, it was still a Supreme Nature Treasure.

Besides, if he wanted to whip someone at the same level as him, the whip would be quite powerful. With the guaranteed hit feature of this whip, its group combat ability was probably impressive.

In fact, Han Fei was very satisfied. The only flaw was that the two treasures, the Creation Divine Prison and the Law Enforcement Divine Chain, both relied on his strength to suppress the strong. It was obviously impossible to directly suppress gods with the Monarchs' Jail, because they wouldn't give him a chance at all.

It could only be said that with these two Supreme Nature Treasures, he could almost be truly invincible at the Immortal Level.

Han Fei was about to refine the Law Enforcement Divine Chain, but it took the initiative to wrap around Han Fei's arm. In just a moment, it completely fused into his right arm.

"As expected of a Supreme Nature Treasure. It can even recognize me as its master without injuring me."

At this moment, Han Fei felt a little smug after subduing two Supreme Nature Treasures in a row. Although these two Supreme Nature Treasures were extremely targeted, it was undeniable that their abilities were too strong.

At this moment, he had subdued the Creation Divine Prison and the Law Enforcement Divine Chain. The nebula flowing in the Chaotic Nether River no longer avoided him and began to surge over. The Law Enforcement Divine Chain took the initiative to appear in Han Fei's hand and transformed into the size of an azure dragon, allowing Han Fei to stand on it steadily.

"No wonder the old man said that I could walk around the Graveyard of Gods after I came out. With the Law Enforcement Divine Chain, as long as I have enough time, I can walk through the entire Graveyard of Gods!"

At this moment, Han Fei seemed to sense something. With a thought, he disappeared and appeared in the Creation Divine Prison.

"Boy, how does it feel to get two Supreme Nature Treasures at once?"

Han Fei asked, "Senior, what level of treasure is a Supreme Nature Treasure?"

The old man said leisurely, "At the level of Supreme Nature Treasure, there are no stronger treasures above."

Han Fei suddenly asked, "What about Primordial Spiritual Treasures?"

It was said that the Blade of Hope had the possibility of upgrading to a Primordial Spiritual Treasure. In terms of level, it should be at the level of a Supreme Nature Treasure.

"It seems that you know a lot."

The old man said casually, "Let me put it this way! Primordial Spiritual Treasures are mostly extremely powerful spiritual treasures born with the Sea of Stars. They're definitely powerful. As for Supreme Nature Treasures, some were born in nature and some were forged later. However, in terms of level, they're actually not inferior to Primordial Spiritual Treasures. Therefore, there's actually no difference in their levels. However, Supreme Nature Treasures and Primordial Spiritual Treasures each have their own areas of expertise. There is no distinction of strength or weakness between the two."

"B*llshit!"

At this moment, another fierce voice suddenly sounded, "Nonsense. Don't talk nonsense if you don't know it. According to you, what about the Demon Purification Pot!"

The old man retorted, "The Demon Purification Pot is indeed an exception. It surpasses Supreme Nature Treasures and Primordial Spiritual Treasures. Perhaps there are treasures comparable to the Demon Purification Pot in this world, but at least I don't know. Hey, Old Fierce, do you know?"

The fierce voice snorted coldly. "Of course there are, but you and I can't see it. You should ask the guy on the fourth floor if he's willing to talk. Or, when this brat collects all the vines of the Demon Purification Pot, he might know the treasures at that level."

[God of Fishing](#)

Chapter 3124: Creation Divine Prison (4)

"Sure enough, they have seen through the existence of the Demon Purification Pot."

However, when they mentioned the fourth level, the old man shut up and didn't ask further.

However, it seemed that there were still strong masters on the fourth level?

Han Fei asked, "Seniors, are you on the second or third floor?"

The ferocious powerhouse snorted and didn't speak. The old man who had been chatting with him smiled and said, "Of course. We made a mistake back then and should have been locked up for a while. However, the guardian of the Divine Prison died, and no one in this world can release us. As a result, the two of us have been imprisoned here for countless years. Unfortunately, you haven't even reached the Immortal Level. We have to wait until you become a god to release us!"

Han Fei thought for a moment. "If I want to go to the second floor, do I have to catch a god?"

The old man said, "If you become a god yourself, you can also open the second level. But this is not urgent. Since we've waited for so long, it doesn't matter if we wait for a few more years. Boy, since you have gone out, can you do me a favor?"

Han Fei was puzzled. "What favor?"

The old man said, "Help me find my descendants. The members of my race died, reincarnated, possessed by the ominous or trapped on that road... Anyway, the bloodline of the gods had a problem back then, so we had to sever the bloodline connection with our descendants, causing divine paths to lose. I have to return this lost thing to them."

"Descendants?"

Han Fei couldn't help but ponder. "Senior, you were all gods back then, right? Are your children all divine descendants?"

"Of course."

Han Fei immediately understood.

When he met the divine son, the divine son had said that the path had been severed. Later, he met Chu Hao, who had reincarnated many times but still hadn't advanced to become a god.

It turned out that there was a problem with his bloodline, so he couldn't become a god.

So, this old man should be an ancestor of the Primordial Divine Race? If he knew that the Primordial Divine Race was almost wiped out, what would he think?

After much hesitation, Han Fei still briefly told them about the Primordial Divine Race.

"B*stard, how dare they scheme against divine descendants? The Central Sea Divine Realm is simply courting death!"

Before the old man could speak, the fierce-sounding senior spoke angrily, his voice hurting Han Fei's ears.

Han Fei said, "Senior, calm down. This world is very different from the primitive era. I happen to be going to the West Wilderness after I leave here. I also know two divine descendants. If you have any questions, I can ask them for you."

The old man's voice became angry too. "Central Sea Divine Realm? Good, very good... Old Fierce, it wasn't easy for us to keep some descendants back then, hoping they would fight against the ominous in the future. In the end, they weren't killed by the ominous, but by our own people... We have to settle this score."

The guy named Old Fierce's voice was filled with killing intent. "Someone is clearly plotting to snatch our bloodline, so they killed divine descendants. It's definitely not something ordinary Immortal-level cultivators can do. Boy, there must be gods in the Central Sea."

"There are gods in the Central Sea Divine Realm?"

Han Fei seemed to smell a conspiracy. Did the gods covet the bloodline of divine descendants or something else?

Bang!

Old Fierce seemed to be pounding the ground, and the whole Creation Divine Prison shook. Han Fei secretly clicked his tongue. How strong is this guy? Isn't it said that a Creation Supreme Treasure is already the strongest treasure? How can this guy still shake it?

Han Fei said, "Seniors, don't panic. Don't panic. When I go to the West Wilderness and learn more about it, I might be able to know some of the reasons."

The old man said leisurely, "Okay, boy, I'll leave this matter to you. Although we can't go out, if you have any questions, you can ask me. Now, go... Boy, being the guardian of the Divine Prison is a terrifying identity. Since the Divine Prison chose you, it means that to a certain extent, you can do whatever you want and won't be restricted by the Divine Prison... Are there some juniors from the Central Sea Divine Realm? Aren't you going to kill them?"

"Uh ~"

No wonder this old man was locked up in the Divine Prison. His propensity for killing seemed to be quite strong too.

"Roar!"

Old Fierce roared, "What are you hesitating for? As the guardian of the Divine Prison, you can even punish gods. Whoever you say is guilty is guilty. Do you have to hesitate to kill a few people?"

Buzz—

The Creation Divine Prison shook again, and Han Fei was speechless. You deserve to be locked up. How can you become a god with your recklessness?

Han Fei heaved a sigh. "In that case, I'm leaving."

...

[God of Fishing](#)

Chapter 3125: Tell Love Stories to A God (1)

Han Fei felt that he had been in the Graveyard of Gods for hundreds or even thousands of years, but in fact, he had only been in it for twelve hours. Chu Tianlang and the others probably hadn't come over yet.

At this moment, Han Fei had to consider where to go.

Han Fei felt that the trial in the Graveyard of Gods was quite dangerous, at least in the Creation Divine Prison.

His first reaction was to go to Xia Xiaochan and the others, but it had not been a day and the Vast Ocean Navigator couldn't be used yet, so he could only give up this idea for the time being.

"To the place where I came from, where the ancient divine tree is."

Han Fei was still thinking about the longbow of the goddess. That thing was definitely not ordinary. It was very likely a weapon stronger than a high-quality Nature Spiritual Treasure.

Anyway, he could now swim freely in the Chaotic Nether River without the guidance of a spiritual treasure, so it should be his freedom to go to any star tomb.

Although the Creation Divine Prison and the Law Enforcement Divine Chain were good, there were too many restrictions on them. Although their abilities were strong, they were probably not as effective as a high-quality Nature Spiritual Treasure in ordinary battles.

More than two hours later, Han Fei came to the dense area of the tomb of the gods. However, before he reached the star tomb of the Goddess, he was attracted by a battle axe on the tomb of a god.

There were no remains of gods on this star tomb, but this star was exceptionally rich. It was enshrouded in rays of light and full of spiritual fruits. There were huge trees that reached the sky, surging blood-colored rivers, divine waterfalls, and divine soil shining... More importantly, there was an axe mark on this star that almost cut across the surface of this star tomb. At the end of the axe mark was a divine platform. In front of the platform, there was a battle axe stabbed into the ground. On the divine platform, there were eight spiritual treasures.

The longbow of the Goddess was a treasure, but so was this battle axe.

Han Fei immediately stepped up.

However, just as Han Fei tried to step into the star tomb, he saw that an axe light shot out of the axe mark that cut across the star and slashed at him.

"Huh? Don't allow me to enter?"

Boom!

The axe light came too fast, and Han Fei immediately used the Thousand Thunder Flash. In the Creation Divine Prison, Han Fei had broken through all the prisons and experienced several life-and-death battles. In order to fight the law auras left behind by the strong masters in the prisons, the Thousand Thunder Flash had been increased to the state of one transforming into 6,000. Although it hadn't reached the level of one transforming into 10,000, it was actually much faster.

However, even if Han Fei used the Thousand Thunder Flash, billions of streaks of divine light escaped from the axe light.

"Puff! Puff! Puff!"

The six thousand lightning marks were all shattered. Even though Han Fei had already reacted very quickly, he was still swept by a stream of divine light and was forced to use the Great Dao of Life Replacement.

"Huh?"

Han Fei was shocked. Didn't you leave the inheritance to wait for the fated person? I've taken the initiative to come to your door. Can't I be considered your fated person?

At this moment, Han Fei was in an invincible state. He wanted to take a chance and pull out the axe while he was in the invincible state.

However, before Han Fei touched the axe, he sensed the laws in this space condensing. The eight spiritual treasures on the altar rose to the sky at the same time and swept at Han Fei.

Bam! Bam! Bam!

Han Fei was swept all the way out of the star tomb by these spiritual treasures.

"Not even in my invincible state?"

Although he was in an invincible state, he couldn't ignore attacks. He just wouldn't be injured or killed. The other party didn't want to kill Han Fei but just to drive him away. What could Han Fei do?

Han Fei was already in a bad mood. In the Creation Divine Prison, he had only experienced the Monarchs' Jail. Although the Great Monarchs were very strong, the laws and powers left behind after their deaths were mostly not enough to kill a strong master like Han Fei on the spot.

However, he was now exploring the tomb of a god. A god was completely different from a Great Monarch. Even his remaining power was not something Han Fei could resist. If he weren't in the invincible state, he would have been killed just now.

"Not working? Then what if I use the Law Enforcement Divine Chain?"

Han Fei's heart did a flip. The Law Enforcement Divine Chain would not be sealed by any methods in the world.

Swish!

Han Fei brandished the Law Enforcement Divine Chain and grabbed the battle axe.

However, this time Han Fei suddenly saw the projection of a god rise from the ground. The projection slapped the Law Enforcement Divine Chain away and then consciously transmitted, "Guardian of the Divine Prison, this place doesn't belong to you. If you want to snatch my inheritance by force, your current strength is far from enough."

"F*ck, can this god manifest himself?"

Han Fei hurriedly retreated and then cupped his hands. "Senior, you... are you still conscious?"

The burly figure said, "I have managed to preserve a trace of divine thought until now, but it's not prepared for you. With your talent as the guardian of the Divine Prison, why bother to snatch my inheritance?"

Han Fei said, "Senior, although I'm the guardian of the Divine Prison, I don't have many treasures on me. Our enemies are fierce, and I want to get a few more spiritual treasures... Senior, I fight for all races, annihilate evil, and punish all evil. I wonder if you can spare me some treasures... You have so many spiritual treasures. I think your inheritor can't use them all! Besides, since you can pass them on to others, you can give me some! I'm the guardian of the Divine Prison anyway. I can help you find two successors in the future to promote your inheritance."

[God of Fishing](#)

Chapter 3126: Tell Love Stories to A God (2)

"Hmph!"

Han Fei made it sound fancy, but the remnant of the god's will was not an idiot. He snorted coldly, and one of the eight spiritual treasures flew towards Han Fei, which was a battle axe.

"Don't come again, or don't blame me for being rude."

Han Fei took the battle axe. Although it was not the one he wanted, he found that it was a high-quality Nature Spiritual Treasure.

Instantly, Han Fei put on a smile. "Thank you for your kindness, Senior. I'll definitely live up to this axe's fame."

With that, the Law Enforcement Divine Chain pulled Han Fei away. This time, Han Fei didn't even look back.

He felt that he had found a new way. He didn't know that it was so easy to get a high-quality Nature Spiritual Treasure. Wasn't it easier than digging everywhere in the God Ferrying Ancient Land? Besides, there were few high-quality Nature Spiritual Treasures in the God Ferrying Ancient Land. He still lacked a high-quality spiritual treasure for Nezha.

A moment later, Han Fei tried to challenge a god who was good at arrays, but he was almost trapped to death. Fortunately, the Law Enforcement Divine Chain took him out, or he would have been trapped to death. Unfortunately, the god on this star didn't appear, so he couldn't ask the god for anything even if he wanted to.

In the third divine tomb, it was a knife cultivator who was very short-tempered. When Han Fei woke up the god's remnant divine thoughts, he had to use the Great Dao of Life Replacement three times before he could leave.

After being rejected twice in a row, Han Fei cursed, "What are you doing?! I'm doing this to help you promote your inheritance. What kind of attitude is this? It's not friendly at all."

Han Fei tried five times in a row, but each time he was kicked out. Except for the first god who gave him a battle axe, the other gods didn't buy it at all. As soon as Han Fei came to their star tomb, they drove him away.

Han Fei simply gave up trying. These gods were too dangerous. Their goal was very clear, which was to find the kind of person who was completely compatible with them.

Although Han Fei was very strong and talented, he was not the person they were waiting for.

He tried the tombs one by one but was beaten all the way. More importantly, he didn't get any treasure.

"Let me go back to the Goddess star tomb."

More than two hours later, Han Fei finally returned to the place close to the goddess's tomb. The reason why he had been thinking about this bow was that the goddess's tomb was too close to the starting point.

However, it was precisely because this divine tomb was close to the starting point that Han Fei found it strange. Logically speaking, the inheritance of this divine tomb should have been taken long ago, but her divine persona and weapon were both here. This showed that the difficulty of obtaining this goddess' inheritance was extremely high.

However, this also meant that the inheritance of this goddess was good, and that bow was definitely not ordinary. A divine-level bow was so powerful that it could kill enemies billions of kilometers away with a single arrow. It was simply a peerless weapon.

Han Fei thought for a while and tried to visit the divine tomb again. He thought that even if he was kicked out, he would give it a try.

When Han Fei stepped into the star tomb, the attack he expected didn't come. Instead, there was a melodious melody, and someone seemed to be singing.

At this moment, when Han Fei looked at the goddess who was leaning against the dead divine tree, he was shocked to find that her head had turned around at some point and was looking at him.

"Uh ~"

Han Fei felt a chill down his spine. In other star tombs, there would at most be a wisp of remnant soul or spiritual sense left by the god. But why could this goddess' body still move?

Just when Han Fei didn't know what to do, the goddess suddenly opened her mouth and said in an ethereal and crisp voice, "It's not a good thing to have too many treasures. You already have too many treasures."

"Uh ~"

Han Fei's eyelids twitched crazily. "Senior, are you... still alive?"

The goddess turned around, still looking into the distance. "No, I'm dead."

I don't believe you! Han Fei thought to himself, If you're dead, what's alive?

However, the goddess suddenly said, "Guardian of the Divine Prison, chat with me! Do you have a lover?"

The goddess asked gently without even looking at Han Fei, like a person with depression chatting casually with a stranger, casual yet sad.

"Yes."

"How many?"

"Uh..."

Han Fei didn't know how to answer this question. The goddess said, "I think I saw two just now."

Han Fei: "..."

Even if a woman became a goddess, would she still be so gossipy?

"Tell me! Tell me your story. It's been a long time since anyone talked to me."

Han Fei thought for a moment and only told her Xia Xiaochan's story.

After a while, the goddess said indifferently, "It's very plain! But you're better than me. You came to find her and found her. As for him, he promised me but didn't come back to find me. Perhaps he died!"

Han Fei frowned. "Him? Where did your lover go, Senior?"

The goddess said calmly, "He has gone to the other side of the Sea of Stars. It's very far away. Perhaps one day, you will go there too. But I hope that you can take these people who love you deeply with you, even if it's a path of no return, even if it's a dead end."

"The other side of the Sea of Stars?"

Han Fei's heart trembled. This goddess must know some big secret. However, she didn't care about it. At this moment, the goddess seemed to be somewhat resentful in her heart, as if she had been waiting for too long and had developed some grievances.

God of Fishing

Chapter 3127: Tell Love Stories to A God (3)

Han Fei asked, "Why don't you go to him, Senior?"

The goddess sighed. "I did, so I died."

"Cough, cough..."

Han Fei was stunned. "Dead? Senior, you... You don't look dead!"

The goddess said calmly, "Every time the Graveyard of Gods opens, my spiritual will revives. I want to see if he has returned. Unfortunately..."

Han Fei asked, "Senior, what's the name of the person you're looking for? Maybe I'll meet him someday."

The goddess said indifferently, "With the Vast Ocean Navigator? It's useless. The Vast Ocean Navigator will be useless there. That's no longer the Sea of Stars we know."

Han Fei said, "Perhaps he has returned, or he has already reincarnated, or he doesn't know that you are waiting for him here. If he returns, won't we be able to find him with the Vast Ocean Navigator?"

The goddess turned around again and looked at Han Fei deeply.

Then, she said slowly, "It does make sense."

Then, the goddess raised her hand, and two items appeared in her palm, a green arrow and a butterfly-like spiritual treasure hairpin.

The goddess said, "His name is Li Daoyi. This is the hairpin he gave me. I like it very much. If you find him, please give this hairpin to him. The butterfly will lead him here."

The goddess paused for a moment and said, "I can't give you my bow and divinity. This arrow contains a strike of mine. Whether you can find him or not, it will be my repayment to you... Don't go to other star tombs. They won't give you anything."

When the arrow and the hairpin flew to Han Fei's side, Han Fei was shocked. A God-Killing Arrow? Anyone below the level of a god would definitely be killed by this arrow, and even ordinary gods would be injured by the arrow.

"This thing is even stronger than a divine tribulation?"

Han Fei immediately realized that he had picked up a treasure. Divine Tribulations couldn't shake gods and would only cause damage to Great Monarchs. But the Demon Purification Pot's evaluation of this God Slaying Arrow was that it could kill anyone below the divine realm. It showed how terrifying this arrow was.

Han Fei accepted the two items, and the goddess said again, "Tell me some stories! I'm a little bored being alone."

Han Fei thought to himself, You're already dead. Why are you afraid of boredom?

However, Han Fei thought for a moment and told the story of Ximen Linglan.

This time, the goddess was slightly moved. After a long time, she said, "Poor girl. Don't let her down. Humph, damn the Time Temple."

As she spoke, she grabbed her longbow and shot an arrow at the endless Sea of Stars.

Han Fei asked, "Senior, what are you doing?"

"Shoot him and vent your anger."

Han Fei: "???"

In the distant Sea of Stars, on the river of time, the Time Temple stood magnificently.

The Master of Time was bathing in time, seeming to be reminiscing about some things in time.

Suddenly, an arrow went against the current, crossing countless time laws, and suddenly appeared outside the hall.

"How dare you!"

"Who dares to mess around in the Time Temple?"

A Temple Master-level powerhouse's body appeared in time. The moment he appeared, eight chains gathered.

Bang! Bang! Bang!

Ka ka ka ~

However, the layers of seals were all broken, and the chains were broken one after another.

"Puff ~"

This Temple Master-level powerhouse dodged with difficulty. Even so, half of his body was blown to pieces by this arrow, and his soul was seriously injured.

"A god?"

Horrified, the temple master hurriedly shouted, "Enemy attack..."

The arrow didn't stop but went straight to the main hall of the Time Temple. A divine-level powerhouse pushed with one hand and an unparalleled wheel stirred time, trying to destroy this arrow.

However, sharp light blossomed on the arrow, and the unparalleled wheel shattered inch by inch. The arrow was about to penetrate the god.

Suddenly, a big hand stretched out from the main hall and grabbed the arrow.

Buzz!

The arrow vibrated, and there seemed to be infinite thrust behind it. The laws on Time Master's arm trembled as he looked at the distant Sea of Stars.

Bang!

The arrow exploded, the seals of the Time Temple all collapsed, and the door was completely destroyed. Outside the Time Temple, a time tide surged out, and in the blink of an eye, the broken door was completely restored.

The god who almost failed to catch the arrow burst into fury. "Master, I'm going to..."

However, before he finished speaking, the Master of Time shook his head slightly. "This is the God-Killing Arrow of the ancient god Chen Lingsu. Why are you going there? To court death?"

The god was speechless and puzzled. "Hasn't Chen Lingsu perished?"

"That's why this arrow came from the Graveyard of Gods. Perhaps someone badmouthed the Time Temple and Chen Lingsu's remnant soul shot an arrow. Otherwise, you would have been dead by now."

The god was shocked. This woman was still so strong even after she died?

"Master, what should we do? We can't just let it go, right?"

The Master of Time looked into the depths of the Sea of Stars with his hands behind his back. "Why bother fighting a dead person? Can you go dig her grave? Forget it. If her man is still alive and finds out that you dug her grave, not to mention that I can't protect you, you won't be able to escape even if you run to the end of time..."

"Well..."

...

In the Graveyard of the Gods, Han Fei was dumbfounded. What was this place? What was the Time Temple? Could a god shoot an arrow all the way from here to the Time Temple?

The goddess looked at Han Fei again. "Are there any more stories?"

Han Fei thought for a moment. "You want more?"

God of Fishing

Chapter 3128: Tell Love Stories to A God (4)

The goddess said, "How can the little girl who obtained the Creation Void Divine Flute have nothing to do with you? Being able to obtain the Creation Void Divine Flute shows that she's very talented. I know a woman who is very strong at sound killing techniques. Unfortunately, she ran out of energy and died in the depths of the Chaotic Sea in the end. Even her corpse can't return."

Han Fei was stunned. "Dead too?"

The goddess sighed slightly. "That's right! Do you know why there is a place like the God Ferrying Ancient Land?"

Han Fei asked, "Isn't this the place where the gods transcend tribulations?"

The goddess shook her head slightly. "Not exactly. Why would we leave behind inheritances and opportunities after we transcend the divine tribulation? That's because after we become gods, we might not have the time to set up an inheritance place. Therefore, after we become gods, we might as well leave our inheritances first, in case we die in the Sea of Stars and don't even have a chance to leave behind an inheritance."

Han Fei's heart trembled. So this was why the God Ferrying Ancient Land existed. It turned out that this was a place where gods left their inheritances, waiting for the destined person to take them.

The goddess said, "There are many things that you don't understand now, but you will find out in the future. But it's useless to talk about them now. You'd better just tell stories!"

"Uh! Okay!"

Since the goddess wanted to listen to love stories, he would let her listen enough. At first, he talked about the story between him and Jiuyin Ling, which made the goddess sigh, but she didn't say anything. Then, he began to tell novels. In the end, Han Fei even told the goddess about the story of the Butterfly Lovers.

Swish!

While the goddess was listening attentively, Han Fei suddenly saw that someone was dragged into the depths of the Graveyard of Gods by a spiritual treasure.

The person who was taken away by the spiritual treasure also looked at Han Fei, only to see Han Fei sitting cross-legged on the star tomb, muttering something.

Han Fei knew that one day had passed. Chu Tianlang and the others had come and were already sensing the inheritances.

Han Fei's heart did a flip. He was going to hunt them. Why did he come here to tell stories?

The goddess said, "The gods have to leave behind their inheritances. It's not easy for this place to open. If you kill them, who will inherit the inheritances of the gods? We're all remnant souls and can't be reincarnated. It wasn't easy for them to leave behind some inheritances. Just let them fulfill their wish."

Han Fei was anxious. But these are my enemies! If I don't kill them, will I wait for them to return to the Central Sea Divine Realm with the inheritances?

"Can't be reincarnated?"

Suddenly, Han Fei felt that something was wrong. Yes, gods were immortal! As long as their bodies and souls weren't destroyed, they could still live, right? Besides, it seemed that there were remnant souls of gods in the various star tombs in the Graveyard of Gods. After so many years, why couldn't they be reincarnated?

Han Fei asked, "Senior, you are gods. Why can't you be reincarnated? Your remnant souls are still here. You can at least be reborn!"

The goddess shook her head slightly. "No one can be absolutely immortal. Under normal circumstances, rebirth is indeed possible. However, many of us here have died in battle. Many of us don't even have remnant bodies, only remnant souls. The damage our bodies and souls suffered is beyond your imagination. How can we be reborn? As for reincarnation, the path of reincarnation is broken. The Sea of Stars has long lost the path of reincarnation. Therefore, other than waiting for death, we can only be waiting for some talented people to enter this place so that we can pass on our skills."

"The road of reincarnation is broken? The road of reincarnation..."

Han Fei suddenly rose as if he had thought of something. He quickly cupped his fists and said, "Senior, I need to go to the Creation Divine Prison first."

"Huh?"

Before the goddess asked, Han Fei had entered the Creation Divine Prison.

As soon as Han Fei arrived in the Divine Prison, he heard the irritable voice say, "Kid, what are you doing? I asked you to kill those people, but you went to chat. What's there to chat about? Love and romance? Chen Lingsu was delayed by those things, or she might have become an Overgod."

Han Fei didn't have the time to explain anymore. He simply said, "Senior, keep cursing..."

Buzz!

The green jade stone bridge appeared. Han Fei ignored the irritable god and entered the green jade stone bridge.

When he was in the Carefree Level, he was only one step away from reaching that door. Now, although his strength hadn't increased so much, he was already an intermediate Immortal Level expert. With his strength skyrocketing, should he be able to make it now?

Perhaps, as long as he walked through this path, he could unlock the secret of reincarnation.

He had waited for this day for too long. From the moment he saw the door, he had been curious about what the door was for and where it led.

Now, he could finally see its true appearance.

On the Path of Extreme Cold again, Han Fei's body was being cleansed by the power of extreme cold. However, now that he had a law body and stacked 272 laws, the power of extreme cold could no longer stop him from moving forward.

Activating his Origin Great Dao, the mist on the path of extreme cold was shattered. Han Fei walked forward step by step. The ice around him condensed and shattered, and this process repeated itself.

Finally, after an unknown period of time, there was only one layer of mist in front of him.

"Open!"

God of Fishing

Chapter 3129: The Ultimate Secret Behind the Reincarnation (1)

The last layer of mist was finally broken, and Han Fei felt a terrifying and majestic momentum coming at him.

When he took a closer look, he saw a magnificent gate towering in front of him. This gate was green and black all over, with towering pillars on the left and right sides. The pillars were engraved with ancient dragon patterns, and there were word brands on the left and right sides.

"The Six Paths of Reincarnation Cut off the Past Life, and Three Thousand Karma Decides the Next Life."

Han Fei immediately looked up at the extremely high lintel. There were three quaint words on it that were breathtaking.

"The Door of Rebirth."

"Huff~"

Han Fei took a slight breath. Yes, this must be the Door of Rebirth on the path of reincarnation.

Following the lintel down, many ancient patterns and carvings were engraved on the blue-black stone doors on both sides. At the bottom of the doors, there were all kinds of creatures, and these people seemed to be performing a ritual. Someone had died and were being carried by these strange individuals towards a giant gate.

If he guessed right, these strange creatures should represent the myriad races. However, the unknown person who died was worshiped by the myriad races. He must be a terrifying figure.

In the middle of the door, there was a depiction of a baby's birth, growth, rise to power, and ultimate triumph through battles. Han Fei looked back, only to find that the baby's appearance had changed into that of a bird. When he looked away and looked at it again, it turned into a strange race without a face or form.

"This baby also symbolized the myriad races, indicating the story of the strong masters of the myriad races reincarnating, experiencing the mortal world again, and ultimately becoming unparalleled experts."

Further up was the Chaotic Star Sea, where the myriad races fought against ominous creatures in the boundless Sea of Stars. Han Fei could tell what the mural was about. However, the myriad races suffered heavy losses. In the latter half of the battle, a small number of strong masters stepped into a dark abyss and disappeared. The ominous creatures were also sealed and disappeared without a trace.

However, the story was not over yet. Some people embarked on a path that stirred up stormy waves. Unfortunately, the story ended here. The stone sculpture murals didn't tell if anyone had walked through that path or what was behind it.

Han Fei sighed. Is that the path that Eldest Senior Brother mentioned? The teachers of the Void Temple, the ancestors of the Heavenly Race, and some strong masters seem to all have taken that path.

Han Fei came to the door step by step. His figure was extremely small, but as he approached, the door seemed to be shrinking and maintaining a certain ratio.

When Han Fei came to the door, he tried to push it.

However, when Han Fei pushed the Door of Rebirth, two golden seals suddenly appeared on the gate. They seemed to be a seal or a warning.

On the seal were the words, "The day the Door of Rebirth opens is the time when the ominous returns".

"What?"

Han Fei didn't know why. Did the ominous' return have something to do with the Door of Rebirth?

However, the Road of Reincarnation had disappeared since the Primordial Age, right? But in the Age of the Gods, the ominous had struck more than once. Could it be that the Door of Rebirth had opened at that time?

"Impossible!"

If the Door of Rebirth had been opened at that time, what was the use of the Bloodline Divine Tree and the Soul Sea? Therefore, in the Age of the Gods, the Door of Rebirth definitely wasn't opened. Otherwise, it would have been recorded that the Path of Reincarnation had appeared.

Han Fei frowned slightly. In that case, he couldn't open the door! At least not yet. What was his level? What was the level of the current Sea Realm? Did the strong masters of the Sea Realm have the ability to resist the ominous?

Even if countless people went to the Sea of Stars every day and became stronger in the Sea of Stars, could they resist the ominous? It was different. Every time the ominous came, it was a storm of blood and countless strong masters died.

Last time, the gods fought the ominous and defeated it.

But now, it was said that the divine paths had been severed. As far as he knew, there were only a few gods in total, and each of them had their own plans. Could such gods risk their lives to fight the ominous?

Han Fei didn't think it was likely. If the ominous really came, except for the Three Temples, the others would probably be a burden.

"Forget it. The human race has just settled down for a few years. If the ominous comes again, all our previous efforts will be in vain."

Han Fei sighed in his heart. When the time came, not to mention the entire human race, even he, a mere Immortal-level cultivator, wouldn't be able to resist the ominous.

"Since it can't be opened, I can't let the gods in the Graveyard of Gods enter the cycle of reincarnation. Otherwise, I can use this opportunity to squeeze out half of the treasures in their hands. What a pity..."

Since then, this path had been completely cleared. However, Han Fei didn't feel that his Origin Great Dao could still be strengthened. Logically speaking, after he completed this path, his Origin Great Dao would more or less give him some benefits, but unfortunately, it didn't.

However, Han Fei immediately looked back. It was not necessarily true. He had only completed the second half of the road and hadn't walked the first half yet.

Immediately, Han Fei took the opposite path and embarked on the path of ultimate fire origin. Because the mist here could no longer stop him, Han Fei walked through this path without paying much price.

The moment he finished this path, Han Fei suddenly felt that something was wrong with his body. His Origin Great Dao seemed to be triggered instinctively. It was not until half an hour later that it gradually calmed down.

"This is..."

Han Fei probably knew that his Origin Great Dao seemed to have undergone some changes. Perhaps his strength had increased again.

[God of Fishing](#)

Chapter 3130: The Ultimate Secret Behind the Reincarnation (2)

Unfortunately, his physique was limited and couldn't support the operation of the entire Great Dao. Therefore, Han Fei didn't pay much attention to it. Perhaps he could strengthen his combat power by eight or even ten times, but he didn't need it for the time being!

At this moment, Han Fei was looking at the door in front of him.

This door had the same structure as the previous one, but it gave off a completely different feeling.

This door was called the Door of Life and Death. As the name suggested, once you entered this door, you would die. If you walked out of this door, there was no telling if you would be revived.

On the pillars on the left and right sides of the Door of Life and Death, there were also words, "When a person dies, he feels at ease. The hellfire burns his body and eliminates evil."

"Hellfire?"

Han Fei suddenly felt that something was wrong. Was the ultimate fire origin he thought was actually hellfire?

But that wasn't right! He had experienced the burning of hellfire and knew what hellfire was like. If it was really hellfire, once he embarked on this path, he would probably suffer.

However, the words on the door didn't lie. It clearly meant that after a person died, he would be free from the troubles of the mortal world. As long as he was burned by the hellfire, he could eliminate his sins and reincarnate.

If the fire origin on this road was actually the hellfire, then maybe he didn't feel it wrong, but this Door of Life and Death hadn't opened. Once the Door of Life and Death opened, this road might become a road of hellfire.

The relief sculpture on this door was different from the relief sculpture on the Door of Rebirth. On this door, two huge eyes, one black and one white, were engraved.

"Yin-Yang Divine Eyes?"

Han Fei was stunned for a moment. This should be the Yin-Yang Divine Eyes, right? But how could the Yin-Yang Divine Eyes be engraved on the Door of Life and Death? In addition to the Yin-Yang Divine Eyes, the door was also engraved with the scene of the myriad races being burned by the hellfire, wailing and howling as if they were in hell.

This was the only relief on the door. When Han Fei tried to push the door open, seals appeared too.

It read, "If you want to open the Door of Life and Death, open the Door of Rebirth first."

"Well..."

If Han Fei was speechless. The ominous would come if he opened the Door of Rebirth. Didn't this mean that if he wanted to open the Road of Reincarnation, the ominous would inevitably come?

However, hadn't the ominous creatures already appeared?

"No, I know very little about the ominous and the Path of Reincarnation. I have to ask Eldest Senior Brother about this."

Han Fei knew that although Eldest Senior Brother didn't say it, he had definitely known from the beginning that the Demon Purification Pot was with him. As for the Path of Reincarnation, although he didn't know if Eldest Senior Brother knew about it, he didn't have to keep it secret from him. Was there a need for Eldest Senior Brother to plot against him? It seemed no.

There was no doubt that Eldest Senior Brother's strength should represent the highest level in the current Sea Realm or the Sea of Stars. Those higher-leveled ones might have died on that mysterious path, such as the teachers of the Void Temple.

Therefore, it didn't seem necessary for such an expert to plot against the Road of Reincarnation. If he wanted to scheme, he should be plotting against the Demon Purification Pot!

Buzz!

Han Fei immediately left the Reincarnation Road and returned to the star tomb of the goddess without giving the irritable god a chance to curse.

Swish ~

As soon as Han Fei came out, he saw two spiritual treasures flying away with two people.

However, he simply ignored it and sat down cross-legged.

Seeing this, the goddess didn't say anything but wanted to see what Han Fei was doing.

In his mind, Han Fei activated the void mark.

"Eldest Senior Brother, are you there?"

"Little Junior Brother, what's the matter?"

Han Fei hurriedly said, "Senior Brother, I have something important to do but it's difficult to choose. Because this matter involves too much, I hope you can enlighten me."

"Little Junior Brother, please tell me."

Han Fei thought for a moment and said, "Senior Brother, I have the Path of Reincarnation with me."

Eldest Senior Brother seemed to be silent for a few seconds before saying, "I know."

Han Fei was shocked. He knew that too? Then what didn't Eldest Senior Brother know?

Han Fei said, "Senior Brother, I saw the Door of Rebirth and the Gate of Life and Death. However, I learned from the seals on the doors that when the Door of Rebirth opens, the ominous will return. I know too little about the Path of Reincarnation and the ominous, so I don't know what to choose."

Eldest Senior Brother avoided the topic and asked, "Little Junior Brother, have you found your original law?"

Han Fei was briefly stunned. Was this related to the Road of Reincarnation?

Han Fei immediately responded, "I haven't confirmed my original law yet, but I've had some thoughts about it."

Eldest Senior Brother said, "When you confirm your original law, open it!"

"Huh?"

"However, I'm only at the late-stage of the Immortal Level at most when I confirm my original law. What if the ominous returns when I open the Path of Reincarnation too early?"

The Eldest Senior Brother said leisurely, "The ominous has returned. Whether you open the Path of Reincarnation or not, the ominous will return. The difference is that after opening the Path of Reincarnation, the true ominous might descend."

"The true ominous? Then the ominous before..."

Eldest Senior Brother said, "Doomsday level ominous creatures represent divine-realm ominous creatures. However, above the doomsday level, there are still three levels of ominous creatures."

"Three? Aren't there two?"

"Ordinary people only know of two kinds, because the third kind has only appeared twice since the Chaotic Era."

Han Fei couldn't help being shocked. "Which three?"

Eldest Senior Brother said, "The first is the god slaying level, and the second is the dominator level. In the past, the highest level of the ominous would be the dominator level. As for the third, it appeared once in the Chaotic Era and the Primordial Era respectively. We define it as the Ominous. That's the origin of the name 'ominous'. It's an existence that surpasses the concept of gods."
