#### Chapter 3201: The Eighth Little Vine (1)

Buzz—

For a moment, countless people in the five Divine Realms were shocked.

"How is it possible? Have gods perished?"

"Heavenly Dao Death Knell represents the death of a god, and... two gods died?"

"Who died?"

At the junction of the South Sea Divine Realm and the Central Sea Divine Realm, the three gods who were chatting with Qi Xing and Sword Vine One a moment earlier were all horrified at this moment.

The three of them felt a chill down their spines and broke into a cold sweat.

From the moment Sword Vine One and Qi Xing disappeared, they knew that something was going to happen, but they didn't expect it to be so fast and ruthless.

"It's over. Did the Sea Quelling God take action?"

"I don't think so. If the Sea Quelling God wanted to take action, he would have done so long ago. He doesn't need to care about our identities at all. Does anyone dare to challenge him?"

"Then who could it be? Qi Xing and Sword Vine One aren't weak, especially Sword Vine One. Even if he's at the God Slaying level, he shouldn't have been able to be killed so quickly."

"Why the f\*ck do you care so much? Let's leave now."

Swish ~

At this moment, the three of them activated all their secret techniques. They didn't dare to stay any longer, fearing that they would die on the spot if they were any slower.

In the Central Sea Divine Realm, an ancient divine door slowly opened.

A man in black walked out of the door. As he calculated with his fingers, he frowned slightly. "The God Sealing Heavenly Book? You've returned in the end."

...

The Phoenix Divine Race in the South Sea Divine Realm.

The Phoenix Patriarch was horrified. "Phoenix Ancestor, you... did you do this?"

Feng Yu and Lei Heng also looked at the Sea Quelling God in shock, wondering who else could've killed two gods in a row.

However, the Phoenix Ancestor's expression changed slightly. "What do you mean by I did it? It has nothing to do with me. Someone is just warning the gods in the Sea Realm. As for who it is, you won't be able to guess it. So don't guess blindly."

Feng Yu asked, "Is he the person behind Little Junior Brother?"

The Phoenix Ancestor didn't respond. Instead, he looked at the place where Qi Xing and Sword Vine One died and slowly said, "Feng Tianwu, now only the Phoenix Divine Race is left in the South Sea Divine Realm. From today onwards, the South Sea Divine Realm will belong to our Phoenix Divine Race, and it will be directly separated from the Central Sea Divine Realm. If anyone dares to blame you for this, kill them. If any god dares to harass you, call me to kill them."

"Yes, Phoenix Ancestor."

Although the Phoenix Patriarch didn't know what happened, Feng Yu's guess must be right. It was very likely that the person behind Han Fei had taken action. This attack was as powerful as a bolt of lightning and directly killed two gods, which was terrifying.

The two gods who attacked the South Sea Divine Realm had both died. Which god else still dared to take action casually?

The Phoenix Patriarch's mind was racing. This move was simply awesome. The Sea Realm was a trial ground, and even the gods were reduced to pawns. It was better for the Phoenix Divine Race not to get involved in this matter. It would be good if Feng Yu went to the Chaotic Sea.

Void Temple.

Eldest Senior Brother, Senior Sister Shen Le, and Senior Brother Undead saw this scene through the void.

Senior Sister Shen Le stood on Eldest Senior Brother's shoulder and said indifferently, "Why can't I see clearly the road they paved for Little Junior Brother?"

Senior Brother Undead said leisurely, "Perhaps, even they themselves can't see it clearly."

Eldest Senior Brother said, "The two of you, don't care about others' paths. Shen Le, you don't have much time left. I'll give you another ten thousand years."

Shen Le frowned. "Do you have to go?"

Eldest Senior Brother's voice was leisurely as if he was sighing. "Teacher is waiting for me."

...

The death of two gods shocked the Sea Realm.

In the Chaotic Ice Domain, Han Fei and Xia Xiaochan were also shocked.

Han Fei was stunned. "Fifth Senior Brother, what astronomical phenomenon is this? Why is a Heavenly Dao bell ringing?"

Fifth Senior Brother said casually, "It's not a bell, but a death knell to mourn the dead gods."

"Puff ~"

"Cough, cough ~"

Xia Xiaochan choked, so did Han Fei. Both of them were stunned.

"What do you mean? Mourn the dead gods? You mean..."

Fifth Senior Brother said leisurely, "Two gods have perished."

"Two?"

Han Fei looked at Fifth Senior Brother in surprise, and the latter smiled. "Yes, two."

Han Fei gaped and couldn't say anything for a long time.

Xia Xiaochan asked, "Who can kill a god?"

Fifth Senior Brother smiled. "Although gods are not easy to kill, they are not invincible. In this world, there are many people who can kill gods. Ordinary gods are vulnerable when facing real experts."

Han Fei was lost for words. "Fifth Senior Brother, how should I understand the 'real experts' you mentioned? Are gods not strong enough?"

"Sizzle~ Ah~"

Fifth Senior Brother took a sip, and there seemed to be a trace of disdain in his voice. "What gave you the illusion that gods must be very strong? Little Junior Brother, don't look so far away now. Your Supreme Divine Technique is still there. It won't be too late for you to think about the god realm when you break through the barrier of the Supreme Divine Technique!"

"Uh ~"

Xia Xiaochan didn't dare to speak. Are the disciples of the Void Temple so strong? They don't seem to care about gods at all!

Han Fei was full. He had a guess in his heart, but he didn't know if it was right. However, it was obvious that he had nothing to do in the South Sea Divine Realm now.

Even the gods had perished. At this moment, no one would go to the South Sea Divine Realm unless they were fools.

Immediately, Han Fei cleared his mind. "Fifth Senior Brother, I'll stay here for a few days."

Fifth Senior Brother grinned from ear to ear. "Great! You'll cook, OK?"

Han Fei nodded. "Okay! But please do me a favor, Senior Brother."

Buzz!

An almost rotten coffin appeared here.

**Chapter 3202: The Eighth Little Vine (2)**

Xia Xiaochan's heart suddenly tightened and she stared at the coffin. At this moment, she was a little excited and nervous. Finally, this day had come.

Seeing this, Fifth Senior Brother said, "No hurry! Sister-in-law, finish my wine first."

Han Fei said, "She has to reach the Immortal Level first?"

Fifth Senior Brother nodded slightly. "She has waited for so long. She probably won't mind waiting a little longer."

Xia Xiaochan also nodded slightly. "I'm going to cultivate in seclusion. Let's talk about it after I become an Immortal."

Han Fei said, "Enter my Origin Star and cultivate in seclusion."

"Okay!"

Without further ado, Han Fei entered his Origin Star with Xia Xiaochan. Xia Xiaochan was going to cultivate in seclusion, and he also had something to do too. The eighth vine had returned. When Han Fei came to the Demon Purification Pot, he saw a drop of dew lying quietly on the leaf of the eighth vine.

This drop of dew was obviously a reward from the Demon Purification Pot for taking the eighth vine back. In his eyes, information emerged:

<Name> Dew of Origin

<Introduction> In the Chaotic Era, before the creation of heaven and earth and the establishment of all laws, there was a divine dew called the Dew of Origin. The Dew of Origin can nurture the initial life of chaos, nourish the initial laws of chaos, transform into the initial Great Dao of chaos, and give rise to nature treasures... With a single drop of the Dew of Origin, only one birth can be chosen.

<Effect> Give birth to a life, a law, a Great Dao, or a treasure.

<Note> The Dew of Origin can only be found by chance.

"Hiss ~"

"Wow, there's actually a treasure of this level?"

In other words, could it be that the Dew of Origin was the source of all races? A drop of the Dew of Origin gave birth to an ancient race from the Chaotic Era?

Apart from ancient creatures, this thing could also give birth to supreme treasures, such as the Creation Divine Prison. This drop of dew could give birth to treasures of that level.

As for the laws of origin and the Great Daos of origin, he wasn't clear about the exact differences between them and the current laws and Great Daos.

However, he had an all-knowing Fifth Senior Brother in the Chaotic Ice Domain whom he could turn to whenever he encountered a problem.

In the Chaotic Ice Domain, Fifth Senior Brother was still eating. Seeing Han Fei appear again, he couldn't help but ask, "Little Junior Brother, want some more?"

However, Han Fei wasn't in the mood. He said directly, "Fifth Senior Brother, I have a question. How are the laws of origin, or the Great Daos of origin, different from the current laws or Great Daos?"

Fifth Senior Brother's eyes lit up. "Of course they can't be the same. Do you know what the words 'the primordial chaos' mean?"

Han Fei shook his head. If he knew, why would he bother to ask?

Fifth Senior Brother smiled and said, "For example, the Great Dao of Strength that you have grasped now is to enter the Dao with strength and then slowly understand more of it. And the Great Dao of Strength of Origin is the birth of power, which means that after you grasp the Great Dao of Strength of Origin, your comprehension of the Great Dao of Strength will be complete. No matter what the Great Dao of Strength contains, you will be able to grasp it all in an instant. This is also why in the Chaotic Era, the strong masters of some races were born extremely powerful, even comparable to gods. Do you think they can be the same thing?"

"F\*ck, this... wouldn't this be like reaching perfection in a single step??"

Fifth Senior Brother shrugged. "That's why countless strong masters and countless big clans were born in the Chaotic Era. It's because they were ridiculously strong."

Han Fei thought for a moment. "Is the law the same?"

Fifth Senior Brother said, "Of course, let me still use the law of strength as an example. There are countless laws of strength. Ordinary people can become peerless experts after walking several of them to the extreme. However, the law of strength of origin contains all the states of the law of strength. The law of strength you're cultivating now is cultivated according to the law derived from the law of strength of origin."

"Sizzle~ ah!"

Looking at the dumbfounded Han Fei, Fifth Senior Brother said leisurely, "Little Junior Brother, you must make good use of the Dew of Origin! If you use it well, you can become the strongest overnight, or even become a god in a day. If you don't use it well, it will be a waste."

Han Fei asked in a low voice, "Senior Brother, do you know about the Dew of Origin?"

Fifth Senior Brother smiled and said, "Yes, that's why the Demon Purification Pot is so popular!"

Han Fei's heart sank. This was only the eighth vine, but there was already something like the Dew of Origin. What would be born when the ninth vine returned?

Han Fei looked at Fifth Senior Brother, who smiled and said, "What the ninth Demon Purification Divine Vine will produce is meant to deal with the ominous. Don't think too much about it."

"Thank you for answering my questions, Fifth Senior Brother."

Han Fei wasn't disappointed to hear that the ninth vine was aimed at the ominous. Dealing with the ominous was equally important to him.

Returning to his Origin Star, Han Fei thought for a moment and had an answer in his heart. Although the effect of the Dew of Origin was powerful, he had to use it carefully. Creating a new race of life was meaningless to him, or to the Sea Realm.

A Great Dao of Origin could immediately allow him to comprehend the Great Dao to the extreme. This might be very strong, but he had many Great Daos. Perhaps it could make a certain Great Dao abnormally powerful, but since the Chaotic Era, no one had been able to win against the ominous with a single Great Dao, so he could give up on this choice.

Supreme Nature Treasures were very powerful. This drop of Dew of Origin could give birth to a Supreme Nature Treasure that exclusively belonged to him. This tempted Han Fei, but no matter how tempted he was, this couldn't push his current path forward.

### God of Fishing

#### **Chapter 3203: The Eighth Little Vine (3)**

Therefore, he only had one choice, which was to nurture a law of origin. With his dual spiritual heritages, according to his guess, he should be able to master two origin laws at the same time, life and death.

Among them, the requirements to comprehend the law of life were too harsh. Perhaps there were people in the world who could, but they would definitely not be able to master it completely. However, the Dew of Origin could provide him with the most complete law of life. This was what he urgently needed now.

Although it seemed extravagant to nurture a law with the Dew of Origin because a law couldn't compare to a Supreme Nature Treasure in value, it was of great significance to his special dual spiritual heritages. This meant that he could comprehend his original law without needing to go to the River of Origin.

Since he had made up his mind, he immediately swallowed the drop of Dew of Origin.

With his thoughts, the Origin Spiritual Heritage began to operate. The Dew of Origin was placed in it, blooming with some power that was similar to divinity but seemed to be stronger than divinity.

Buzz!

In an instant, Han Fei's consciousness seemed to be immersed in a warm river. It was as if he could feel a tolerant power in every part of his body, flesh, and every cell. Even his soul seemed to have been gently cleansed. Han Fei was so immersed in it that he couldn't extricate himself.

After a long time, Han Fei finally felt that his body seemed to have turned into a river, flowing like water.

He was like a river flowing between the heavens and earth, flowing through the Sea of Stars and the stars. A seed was absorbing the myriad techniques of the heavens, absorbing the colorful dust drifting in the chaos, and then sprouting and growing. He seemed to sense everything growing in this tree, blooming, bearing fruits, withering, decaying... However, at the root of this tree, there was still a trace of vitality. It was not extinguished. This trace of vitality was bound by the rotten tree. He wanted to break free. He wanted to break the shackles. After countless years, this trace of vitality finally broke through the shackles. He completely fused himself into this rotten wood. After a long period of absorption, he finally revived...

Han Fei continued to flow. He sensed that countless stars were born in the river, and countless lives were descending. He felt that he was vegetation, wind, rain, earth, countless creatures, and even the stars themselves.

He seemed to be everywhere. Everything in the world was me, yet not me.

Some people were fighting, their bodies were broken, and their lives were lost. However, Han Fei could clearly sense that although their lives had disappeared, the river that represented their lives had returned to the place where life should have existed. His flesh and blood seemed to melt in this world, returning to a time when nothing had happened. Their souls were also a kind of life, returning to a sea that belonged to the soul. The river of life had flowed past this sea.

Han Fei had been flowing. He had seen the rise and fall of all things, life, and death. Life nurtured everything, encompassed everything, and even death, as if it were an unending and tireless will.

In his Origin Star, the Origin Spiritual Heritage in Han Fei's body emitted light. In his body, countless laws surrendered. No laws dared to move when the Origin Spiritual Heritage emitted light. They didn't even tremble as if they were completely silent.

After a long time, Han Fei couldn't tell how long it had been. He felt that it was very long, but everything seemed to be fleeting and unreachable.

However, the moment he came back to his senses, plants and flowers bloomed everywhere on his Origin Star.

Xia Xiaochan, who was cultivating in seclusion, the Lava Giants who had been in the area of Han Fei's Origin Star where the flow of time had slowed down by half, and everyone on the thick surface of his Origin Star, seemed to have noticed something wrong.

The Lava Giants' settlement.

Someone exclaimed, "Elder, the internal injuries in my body are all healed."

"But Elder, why do you suddenly look much younger?"

"Huh? My arm that was shattered by the law is growing back? Why?"

The Lava Giant Race's elder: "This is the Human Emperor's Origin Star. Perhaps he has obtained some kind of treasure that contains vitality?"

...

On the ground outside the Origin Star, the human race that Han Fei created was already at its peak. Some people with incomplete Spiritual Heritage had their Spiritual Heritage restored, and some who were sick and dying and unable to recover felt that there was a power healing their injuries for some reason.

So, on the altars, countless people were singing and kneeling on the ground, thanking the gods for their blessing.

...

Xia Xiaochan was unrestricted in Han Fei's Origin Star. Walking among the endless flowers, she saw that Han Fei exuded an inexplicable attraction of life.

Little Black and Little White circled around him. Even the Emperor Sparrow unfolded his wings and soared into the sky.

"Huff!"

Han Fei let out a long breath. The moment he opened his eyes, he saw that Xia Xiaochan was looking at him with her rosy cheeks and watery eyes.

"Uh ~"

"Aren't you cultivating in seclusion? Why are you here?"

Immediately, Han Fei felt the change in his Origin Star and couldn't help but sigh. Is this the law of life?

Xia Xiaochan, on the other hand, put her arms around Han Fei's neck and said softly, "Why don't we have another baby?"

Han Fei laughed. "You speak as if our first child has been born."

### [God of Fishing](#)

#### **Chapter 3204: The Eighth Little Vine (4)**

Xia Xiaochan clung to Han Fei's ear and said seductively, "I don't care. I haven't fused with my other self yet anyway... umm..."

Han Fei turned around and pounced down. "You're provoking me. It seems that I have to teach you a lesson today."

In the endless sea of flowers, some indescribable sound continued day after day.

Finally, when everything returned to calm, the two of them languidly hugged each other in the grass and watched the stars. The starry river was quiet as they fell asleep. This might be one of the few times they had fallen asleep naturally since they were young.

...

Half a year later.

More than 200 years had passed in Han Fei's Origin Star. Xia Xiaochan had finished the wine given by Fifth Senior Brother and officially stepped into the Immortal Level more than ten years ago.

Chaotic Ice Domain.

Xia Xiaochan looked at herself in the coffin and took a deep breath. "I'm going to start the fusion."

Han Fei nodded. "Okay, I'll guard you from the side."

Xia Xiaochan's reincarnation body trembled, her soul scattered in the world, and her body turned into infinite power that surged into the coffin.

In order to protect the child in Xia Xiaochan's stomach, the reincarnation body had to return to the original body. In this process of fusion, not only did Xia Xiaochan's original body need to undergo a qualitative transformation, but the child in her stomach would also absorb the power from its mother and undergo a transformation.

In the coffin, Xia Xiaochan's flesh and bones were transforming crazily, and the power that her reincarnation body carried was quickly consumed.

One day.

Two days.

Three days passed.

After a full seven days, Fifth Senior Brother suddenly said, "Little Junior Brother, resources."

Han Fei didn't dare to be negligent. He immediately took out a huge amount of resources and a million spiritual fruits. At the same time, as he issued an order in his heart, infinite vitality in the world crazily poured into Xia Xiaochan's body.

"Huh!"

Fifth Senior Brother suddenly looked at Han Fei. "This level of vitality, this form of vitality... Little Junior Brother, have you comprehended your original law?"

Han Fei said, "I haven't fully grasped it yet."

Fifth Senior Brother said with interest, "Interesting, the law of life. This is the first time I've seen such a level of law of life. Little Junior Brother, I have now started having expectations of you."

Han Fei rolled his eyes. "Senior Brother, can you not interrupt me at such a critical moment?"

Fifth Senior Brother snorted. "Take out a drop of your essence blood. Otherwise, your previous bloodline is not enough to support the child's potential growth."

Han Fei immediately injected his natal blood into Xia Xiaochan's body.

Fifth Senior Brother said, "Alright, the growth of her original body is already very fast, but it can't be too fast. This requires a transition. About 300 years. There's a high probability that she can revive in no more than this period of time."

"Three hundred years?"

Han Fei looked at Fifth Senior Brother in shock.

The latter said, "Do you think it's very slow to fuse a Sea Establisher body with a reincarnation body and become an Immortal in 300 years?"

"Uh! Not slow, not slow..."

Han Fei realized that it did make sense. Xia Xiaochan's situation was special. Three hundred years wasn't a long time. Anyway, it would only take more than half a year in his Origin Star.

Fifth Senior Brother asked, "Are you going to stay here?"

Han Fei thought for a moment and then looked at the Chaotic Ice Wall. "I... I'll go kill the ominous!"

Upon hearing that Han Fei was going to kill the ominous, words immediately appeared on the Distanceless Gate. "Okay! You have to keep your word. You have to kill a hundred thousand."

Han Fei laughed. "Don't worry. It'll only be more, not less."

After putting Xia Xiaochan back into his Origin Star, Han Fei went to the ominous guardian place outside the Chaotic Ice Domain for the first time.

Here, he found a darkness blocked by the ice domain, surrounded by countless ominous creatures. It gave Han Fei the feeling that they were bees.

Countless bees surrounded the beehive and attacked whenever an outsider came.

When Han Fei arrived here, more than a dozen destruction-level ominous creatures swarmed over.

Han Fei even saw two or three humanoid ominous creatures, but they didn't attack immediately.

Swish! Swish! Swish!

Han Fei strolled in the vast river of stars, and all the eight small vines of the Demon Purification Pot shot out, piercing through a group of ominous creatures in an instant. And the ominous creatures were like moths to a flame, never stopping.

The suicide charge was extremely crazy. When more than 52,000 ominous creatures died under the small vines of the Demon Purification Pot, Han Fei finally felt that the Demon Purification Pot couldn't absorb anymore.

Obviously, fifty-two thousand ominous creatures was the Demon Purification Pot's limit.

This number of kills seemed terrifying, but in fact, only a small portion was destroyed.

At the moment when the Demon Purification Pot couldn't absorb it anymore, the three humanoid ominous creatures suddenly moved.

Yes, they were waiting. They didn't take action until the Demon Purification Pot couldn't kill the ominous creature anymore.

"Oh, world-ending level ominous creatures?"

### [God of Fishing](#)

#### **Chapter 3205: Birth and Farewell (1)**

A world-ending level ominous creature was equivalent to a Great Monarch.

When he was in the Hidden Monarch City, Han Fei had seen world-ending level ominous war beasts and world-ending level ominous creatures. This time, these three were exactly world-ending level ominous creatures.

Han Fei didn't avoid the battle. He might not have been able to defeat a Great Monarch in the Sea Realm with his current strength.

However, ominous life forms had special characteristics.

Han Fei jumped back and distanced himself from the ordinary ominous creatures. These three world-ending level ominous creatures thought that Han Fei was going to retreat and sped up to chase him.

The corners of Han Fei's mouth curled up slightly, and he suddenly stopped. As he clenched his hand, glowing magical chains swarmed over from all directions.

Each of them contained the power of purification.

Ominous creatures hated the power of purification the most, so when such a large number of chains of laws rolled over, their instinctive reaction was to retreat. However, then they seemed to realize that the person in front of them was only at the Immortal Level and the Demon Purification Pot had lost its effect. This was the best opportunity to kill him. How could they retreat?

Therefore, the three world-ending level ominous creatures roared, calling other ominous creatures to hurry up. As for themselves, they released boundless black fog, trying to resist these chains of laws and kill Han Fei.

Having completely mastered the law of life, Han Fei found it difficult to judge how strong he was now.

He stopped retreating and said, "Purify."

In millions of voids of this world, the purifying power hidden in the world suddenly bloomed. Large swaths of black fog sizzled and dissipated crazily.

Roar!

The three world-ending level ominous creatures roared angrily, but the power of purification hadn't hurt them yet, so they were still charging at Han Fei.

There was a faint smile on Han Fei's lips. Although it wasn't obvious, he sensed life from this ominous creature.

"Deprive."

As soon as Han Fei spoke, all the laws of life in this world seemed to be dissipating. And these three world-ending level ominous creatures had completely severed their connection with their river of life.

This meant that as long as they died once, they would never have a chance to be reborn.

This was the power of the law of life. Great Monarchs and even gods were difficult to kill because they had incomparably powerful vitality. They could constantly revive with endless resources and couldn't be killed no matter how hard you tried.

However, once their connection with the river of life was cut off, it meant that as long as they died once, they would really die.

Han Fei nodded slightly. Sure enough, if one completely grasped the law of life, he could control the fundamental power of the long river of life. However, he could only control a certain range. Beyond this range, he couldn't control it. Therefore, if he wanted to really deprive the other party of their lives, he had to restrict them or directly bind them up.

Swish! Swish! Swish!

The chains of law covered the sky and the earth. The three world-ending level ominous creatures didn't realize that the river of life had been separated from them and were still charging at Han Fei.

However, ominous creatures were still ominous creatures. This place was full of the power of purification, and they were still injured in the end.

"Pu! Pu! Pu!"

Two world-ending level ominous creatures were pierced by the chains of law and had their way blocked. The other one was about to reach Han Fei, when the small vine suddenly activated and pierced through him with a swish.

This ominous creature didn't care at first, but the moment he was pierced, he was a little stunned because he found that he was really dissipating. The ominous power couldn't be recombined at all. It wasn't that there was a problem with the ominous power, but that there was no life power to support him to revive.

Han Fei waved his hand gently, and the light dispersed the ominous. This world-ending level ominous creature was cleansed so easily as if it had never existed.

As for the other two world-ending level ominous creatures, they were pierced by the chains of laws and couldn't escape for a moment. They could only barely resist.

Han Fei strolled across the sky and came to the two world-ending level ominous creatures in the blink of an eye.

He gently held a law chain with his fingers and said indifferently, "Life Extraction."

Buzz!

A large amount of vitality flowed out of the bodies of the two world-ending level ominous creatures. This was not the kind of flow of a hundred or a thousand years, but the loss of life foundation. Without the connection with the river of life, their bodies were like containers, and the life power they could store was limited.

Han Fei just extracted the life power casually, and in the blink of an eye, the life power in their bodies was drained. Without the enhancement of life power, the world-ending level ominous creature was nothing but a ball of ominous power. The law chains burst out with a purifying brilliance and dispersed them in the blink of an eye.

"Oh! It seems that the existence of ominous creatures is also based on the long river of life, no different from the myriad races. This means that they still belong to the category of creatures in the Sea of Stars."

Han Fei didn't feel smug because he had killed three world-ending level ominous creatures, because this was a law suppression. If it were a Great Monarch of the Sea Realm, even if he could deprive the river of life here, he wouldn't be able to control the other party. After all, the other party only needed to escape the range of this place. Furthermore, the Purification Law Divine Chain was useless to ordinary Monarchs, so he could only use the law to fight the ominous now.

### [God of Fishing](#)

#### **Chapter 3206: Birth and Farewell (2)**

Of course, the main function of the law of life was not to fight, but equaled a super strengthened version of the Heaven Enlightenment Divine Technique. He no longer needed to consume his lifespan to release the healing divine light. Furthermore, the healing effect was much stronger than the Heaven Enlightenment Divine Technique. Even if his body was pierced, he could recover in the blink of an eye. This was the power of the life law of origin.

Now that he had already grasped the law of life, there was only the law of death left. There was only one drop of the Dew of Origin, so it couldn't allow him to grasp a second original law. Therefore, he could only go to the Immortal Temple.

However, Han Fei felt that even if he really reached the Immortal Temple and mastered the law of death, he probably wouldn't be able to master the law of death to a level comparable to the law of life.

After all, the life law of origin contained all branches of the law of life, and it was difficult to master the law of death to this extent.

However, he couldn't stop trying to master it just because he couldn't easily master it completely. It was necessary to master both laws.

Half a year later.

Han Fei went to the Sea of Stars three times and killed a total of 150,000 ominous creatures, which made the Distanceless Gate very happy.

This person was indeed very strong. The original City of Origin and the Ten Thousand Scale Race combined couldn't kill as many as Han Fei in half a year.

However, when Han Fei went for the fourth time, he found that the ominous-enshrouded areas were gone. They seemed to have retreated.

After asking Fifth Senior Brother, the latter said, "The high-level ominous creatures are intelligent. They found that the ominous creatures below the doomsday level can no longer deal with you, so they chose to retreat for the time being. After all, the ominous creatures are not fools. There's no need to keep sending their lives to you."

Han Fei was helpless. He didn't expect to repulse the ominous creature so easily.

Fifth Senior Brother seemed to understand Han Fei's thoughts and couldn't help but say, "Little Junior Brother, don't think that the ominous retreated because they were afraid. It's just that they are restricted in the Chaotic Ice Domain. Otherwise, with your killing method, they would have already gathered their army and released doomsday-level ominous creatures."

"Huh? Why are they restricted here?"

Fifth Senior Brother said with a smile, "Because the ominous hasn't fully returned. Furthermore, in the depths of the Sea of Stars, there are countless people resisting. The Chaotic Ice Domain is just a battlefield in the rear. The existence of the ominous creatures here is just to test the situation here. Only when the ominous discovers that there are no strong masters guarding this place and there is a possibility of breaking through will a big battle break out here. Otherwise, under normal circumstances, a big battle won't break out in the Chaotic Ice Domain."

Han Fei raised his eyebrows. "So, the Chaotic Fire Domain and the Chaotic Lightning Domain are also the same?"

"Of course."

Fifth Senior Brother said lazily, "So, guarding here is actually quite boring."

Han Fei asked, "Does the wars breaking out in the Sea of Stars refer to the front line? I went to the front line once when I was in the Hidden Monarch City. The battle there seems to be quite fierce."

Fifth Senior Brother said, "That's just a certain line of defense in the rear. There are dozens of such lines of defense in the rear."

"Hiss ~"

Han Fei couldn't help taking a breath secretly. A battlefield at the level of that one in the Hidden Monarch City was only in the defense line of the rear? Then what was the front line like?

He couldn't help but be shocked. He seemed to have underestimated the intruding ominous.

On this day.

Han Fei was eating barbecue and exploring the magical effects of laws with Fifth Senior Brother. It turned out that Fifth Senior Brother's understanding of laws far exceeded his own. The laws he grasped also far exceeded his imagination. Fifth Senior Brother knew every idea he proposed and could also derive many magical effects of laws.

Suddenly, Han Fei sensed the fluctuations of Xia Xiaochan's life. In addition to Xia Xiaochan, he also sensed another young life fluctuation.

Buzz!

Han Fei threw away the barbecue in his hand and summoned the tree coffin. Xia Xiaochan frowned slightly and seemed to be about to wake up.

Han Fei didn't intend to keep it a secret that Xia Xiaochan could pass three hundred years in half a year, and Fifth Senior Brother was not surprised at all.

Since Fifth Senior Brother was so knowledgeable that he even knew about the Dew of Origin, it was almost certain that he knew that the Demon Purification Pot could accelerate time.

In fact, if it weren't for the fear of insufficient resources, Han Fei would have continued to strengthen the time chain in his Origin Star.

After all, after the battle in the Godfiend Sea, he had consumed a lot of resources. Not only had he left half of the resources for the human race, but also the food for Little Black and Little White, the food for the Emperor Sparrow, the need for his advancement, the compression of his Origin Star core, and the cultivation needs of the billion human beings on the periphery of his Origin Star...

All of this was like a big mouth swallowing the resources in his body. In the battle in the South Sea Divine Realm, although many Great Monarchs died, he didn't obtain the resources in their Origin Stars.

This time, Xia Xiaochan's recovery and the birth of his child also consumed a lot of resources. Therefore, Han Fei finally started becoming frugal again.

At this moment, Han Fei asked nervously, "Fifth Senior Brother, why don't I see Xia Xiaochan's belly bulging?"

The fifth senior brother said, "She's a Monarch after all. It's not surprising that she has an entire world in her body. Otherwise, do you think that within such a small space, it would be enough for a divine child to draw energy and be born?"

#### **Chapter 3207: Birth and Farewell (3)**

Han Fei opened his mouth, thinking that he was inexperienced.

Han Fei asked, "Fifth Senior Brother, do you think my child is someone's reincarnation?"

Fifth Senior Brother said, "With me here, who can silently reincarnate here? Don't worry! Unless someone is as capable as Eldest Senior Brother, it's impossible to hide it from my eyes."

Han Fei nodded slightly. That was good. After all, Eldest Senior Brother helped Xia Xiaochan steal the Miracle Fruit first. It was inevitable for him to have such thoughts.

Suddenly, Han Fei sensed an inexplicable affinity. It was a bloodline connection, inexplicably intimate.

Buzz!

Xia Xiaochan's body was shining with golden light. She slowly opened her eyes and looked much more haggard.

Han Fei waved his hand and boundless vitality enveloped Xia Xiaochan. Only then did she look better. A mass of golden light slowly emerged from Xia Xiaochan's body.

The moment this golden light appeared, the sky above the Chaotic Ice Domain was enshrouded in colorful rays of light. Han Fei saw dancing dragons and phoenixes, roaring exotic beasts, phantoms of divine trees, and flowing water... Even the sky emitted faint immortal sounds.

Fifth Senior Brother clicked his tongue. "It's really not easy for this little guy to persist until now. The Heavenly Blessing is magnificent. Such talent can only be described as terrifying."

Han Fei grinned from ear to ear, his palms sweating.

Suddenly, a voice came from the void.

"Brother ~"

"Huh, Yin'er?"

Han Fei looked back blankly and saw Yin'er flying over. Han Guanshu and Jiang Linxian stepped in the air and arrived leisurely with a smile.

Fifth Senior Brother slightly cupped his hands. "Congratulations, fellow Daoists. Are you satisfied with your grandchild?"

Han Guanshu returned the salute with a smile. "Haha, shared joy. Of course I'm satisfied... Brother Zhang, I have a pot of fine wine here. Would you like to drink it?"

"Oh? Then let's have a drink together. Wait a moment, I'll make two dishes."

Fifth Senior Brother grinned from ear to ear. How could the wine brought by Han Guanshu be ordinary? He was afraid that Han Fei wouldn't be in the mood to cook, so he decided to cook by himself.

Jiang Linxian put on a faint smile. "Fei'er, don't panic. The Divine Embryo has just appeared and hasn't been baptized by the heavens and earth. You still have to wait."

Han Fei asked, "Mom, why are you here all of a sudden? You came just at the right time."

Jiang Linxian smiled. "How can your father and I miss such a day? However, the astronomical phenomenon doesn't seem to be enough."

"Not enough?"

Jiang Linxian waved her hand, and a purple mist rushed to the Divine Fetus.

Boom!

Rumbling sounds burst out between the heavens and the earth. Mystic birds danced, lightning composed, wind and rain danced, and laws descended...

Han Yin'er pulled Han Fei's arm hard, obviously very nervous. She finally had another family in this world.

Han Fei: "Yin'er has already proved Dao? So fast."

Yin'er said, "Brother, you're already an Immortal."

Han Fei thought to himself, My path to the Immortal Level is full of obstacles. These two have never appeared by my side.

Han Fei glanced at Jiang Linxian. "Mom, did you kill those two gods?"

Jiang Linxian smiled. "I didn't do anything."

Han Fei suddenly looked at Old Han, who was showing off a wine calabash to Fifth Senior Brother not far away. He narrowed his eyes slightly. "So it's Old Han."

Han Guanshu smiled at Han Fei. "Son, would you like a drink?"

Han Fei said, "...You can drink it yourself!"

Although Han Fei looked calm, he was quite shocked in his heart. He had thought about it. If it wasn't the Void Temple, who did it? The Demon God definitely wouldn't help him do this. Even if he attacked, he couldn't instantly kill two gods.

He wasn't familiar with the others, but Old Han and his mother were elusive. It was difficult to tell what their real strength was.

He had once thought of a question. Old Han and his mother were gods in their nine lives. Then where were their divine bodies in their previous lives? Would gods definitely abandon their bodies when they reincarnated?

How many gods were buried in the Graveyard of Gods? Their bodies had been there since ancient times. How could the bodies of Old Han and his mother in their previous lives disappear?

Now, Old Han had killed two gods with a flip of his hand. Old Han was even stronger than he imagined before.

Han Fei didn't ask further. He was too lazy to think about Old Han and his mother's plan.

In this place, the glow gradually disappeared into the Divine Embryo.

"Hyah..."

Suddenly, the cry of a baby resounded. The golden light gradually turned into a set of Immortal clothes and dimmed. A cute baby cried in midair, rubbed her eyes, glanced at Han Fei, and then looked at Xia Xiaochan who had opened her eyes.

Han Guanshu saw it from afar and laughed. "A granddaughter is great too!"

Finally, the little guy chose to abandon Han Fei and crawl towards Xia Xiaochan in the void.

"Mama..."

Xia Xiaochan hugged the little baby, flew out of the coffin, and then landed on the ground. The little guy rubbed against Xia Xiaochan, struggled out of Xia Xiaochan's hand, climbed to Xia Xiaochan's shoulder, and then circled Xia Xiaochan's head. Before Xia Xiaochan reached out to grab her, she flashed and appeared directly above Han Fei's head.

"Daddy~"

"Uh!"

Han Fei was stunned. This was real teleportation. The little guy was born with the mastery of the Great Dao of Space.

Han Fei and Xia Xiaochan were both stunned. Isn't this baby too smart?

Xia Xiaochan was dumbfounded. "Is she already a Venerable? She doesn't have to transcend a heavenly tribulation?"

### **Chapter 3208: Birth and Farewell (4)**

Jiang Linxian smiled. "The Heavenly Tribulation turned into a gift from the Heavenly Dao and disappeared. It's not unheard of for an Innate Divine Embryo to become a Venerable from birth. In the Chaotic Era and the Primordial Era, there were many such cases. However, most of them didn't have as many astronomical phenomena as this little girl."

Xia Xiaochan finally noticed Jiang Linxian. She had seen Han Guanshu, but never Jiang Linxian.

As if thinking of something, Xia Xiaochan looked at Han Fei in a panic, and Han Fei smiled. "This is our mother."

Xia Xiaochan glared at Han Fei, then slightly bowed to Jiang Linxian, and said in a very low voice, "Mom."

Jiang Linxian couldn't hide the smile on her face. She said gently, "Alas! His father gave me a Nature Divine Bracelet that can cleanse the mind and hide my aura... I'll give it to you now..."

"Uh..."

Xia Xiaochan blushed and was about to decline, when Han Fei said, "Take it. Our mother is very rich anyway. It would be a waste if you don't take it."

Han Fei was carrying the little girl down from his head. However, the little girl's figure dispersed into a shadow. This time, she appeared directly in Han Guanshu's hand and extended her little hand to grab the wine calabash.

"Uh ~"

Han Guanshu chuckled. "Little kids can't drink. Come, Grandpa has a jar of nectar here. Have a taste."

With that, Han Guanshu raised his hand, and a small purple bottle appeared in his palm. The little girl hugged the purple bottle, cutely bit off the stopper with her mouth, and then lay flat in midair, pouring the nectar from the small bottle into her mouth.

Han Yin'er suddenly said, "Brother, she looks a bit like you when she eats resources."

Han Fei couldn't help but feel a little embarrassed. "Nonsense, that's impossible."

Yin'er giggled. "So, what's my niece's name?"

While Han Fei was thinking, Xia Xiaochan suddenly said, "Han Chanyi, Han Chanyi."

"Hyah..."

The little guy who was drinking the nectar called out, seeming to approve of the name.

"Huh?"

Han Fei couldn't help but look at Xia Xiaochan, and Xia Xiaochan said, "Without Chanyi, there wouldn't have been her and me... So just call her Chanyi, OK?"

Han Fei's heart did a flip. It seemed that after Xia Xiaochan completely fused with her reincarnation body, Ye Chanyi, she didn't completely forget that part of memory.

Han Fei nodded slightly. "Okay! Let's call her Han Chanyi."

Han Yin'er said, "Yiyi, come to me. Auntie has something fun for you to play with."

Han Yin'er took out a Cube and tempted the little girl. However, the baby only glanced at the Cube and wasn't tempted. Instead, she drank the nectar while controlling the Cube in Han Yin'er's hand to spin.

After a few moments, the Cube was restored, leaving Han Yin'er dumbfounded.

When she played the Cube back then, she was puzzled. She felt that her intelligence seemed to have suffered a blow.

However, the baby seemed to sense Han Yin'er's depression. She flew to Han Yin'er's side and handed the nectar to Han Yin'er's mouth with her chubby little hands.

"Hahaha!"

This action made everyone laugh.

...

One day passed.

In the Chaotic Ice Domain, Yiyi was sleeping soundly in Xia Xiaochan's arms. Under the effect of the nectar, the little girl had slept for a day, and from time to time, Dao runes spread out of her body.

Han Fei and Xia Xiaochan were saying goodbye to Old Han, Jiang Linxian, and Han Yin'er.

This was because Jiang Linxian said that it was time to take Yin'er to the Sea of Stars. In the Sea Realm, Han Fei would have to depend on himself on everything.

Han Fei had heard this countless times. Old Han said this every time, but in the end, no matter what happened, this guy would always be found.

Therefore, Han Fei was already immune to such parting words. They could go wherever they wanted! Anyway, existences who could kill gods could do whatever they wanted in this vast starry sky.

Han Yin'er said, "Brother, we'll come back to see you."

Han Fei said, "Ha, you can go in peace! I'll visit you in the Sea of Stars someday."

Han Guanshu said leisurely, "Son, just follow your feelings on the path of cultivation. Your mother and I won't give you any advice. No matter which path you think is feasible, just keep walking."

The corners of Han Fei's mouth twitched. "I won't suddenly discover your trace again, will I?"

Han Guanshu chuckled. "I won't interfere in your life anymore."

Han Fei didn't believe him at all.

Jiang Linxian looked at Han Fei gently and said, "Fei'er, one day, even if you break through the limit of the Supreme Divine Technique, don't rush to become a god. A real strong master never cares about the God Realm..."

#### **Chapter 3209: Visit the Immortal Temple (1)**

Old Han and the others left again. There was no telling if they were really leaving or not.

Han Fei and Xia Xiaochan certainly couldn't stay in the Chaotic Ice Domain anymore.

Han Fei said, "Fifth Senior Brother, I'm leaving."

Fifth Senior Brother smiled and waved his hand. "Go! By the way, let me remind you that some things in life have to be put down. Sometimes, when you put down something, you may get it."

Han Fei paused and nodded slightly.

Then, Han Fei looked at the Chaotic Ice Wall and said, "Old Distanceless, can you give us a ride?"

Han Fei's ability to kill the ominous had already been fully recognized by the Distanceless Gate. He directly repulsed the ominous, which made the Distanceless Gate very happy.

However, in the end, the Distanceless Gate was still the Distanceless Gate and wouldn't become a tool for private use, at least not yet, so a line of words quickly appeared on it. How about 50,000 ominous creatures at a time?

Han Fei: "..."

Seeing Han Fei fall silent, another sentence quickly appeared on the gate. "Thirty thousand is fine too."

"Deal."

Han Fei was not speechless because he had to kill tens of thousands of ominous creatures, but because he was wondering how the Distanceless Gates were made. Despite having unparalleled abilities, they strictly disciplined themselves and others. They seemed to exist only for the sake of destroying the ominous.

Han Fei smiled and said, "From now on, every time I call you, I will kill 30,000 ominous creatures. However, let's forget it this time..."

"Okay!"

The Distanceless Gate seemed to know Han Fei's temper and stopped bargaining with him. It probably thought that this one person was equivalent to two races, which was not bad.

...

In the Infinite Mining Area.

Free City.

It had only been a few years since the human race built the Free City, but it had directly transformed the ecological layout here. Now, the entire Free City was full of spiritual plants.

However, not every one of these plants came from the "All about Demon Plants" shops. The eight camps outside the Infinite Mining Area also provided a tremendous number of plant seeds.

The human race was hospitable and friendly. When there was no war, they directly entered a high-level development process.

Thug Academy.

A new round of admissions had already begun. The Thug Academy, which had been neglected in the past, had already become the most popular school of the human race.

The admission requirements were so harsh that many people were intimidated. Only the top Heavenly Talents could be admitted.

Old Bai and Old Jiang had retired and become the honorary presidents of the Thug Academy. They established a plantation and cave abodes in the back mountain.

Of course, their cultivation was not boring. Every now and then, various people would rush into their cultivation ground.

For example, at this moment, Zhang Panpan slipped in with a few companions of her team.

A young man said, "Panpan, will we really not disturb the old president's cultivation?"

A young girl, exuding a handsome temperament, with a mischievous sparkle in her eyes, was none other than Zhang Xuanyu's daughter, Zhang Panpan. She snorted. "Of course not. Grandpa Jiang must be making delicious food. I can smell it."

The other woman said, "Panpan, I heard that President Jiang is very good at arrays. Can we really slip over?"

Zhang Panpan bowed and said in a low voice, "Don't worry. I've inherited Uncle Human Emperor's true skills. I've cracked Old Jiang's array techniques more than 800 times. Don't use voice transmission. Although I've cast a concealment technique on you guys, in the eyes of the strong, voice transmission is no different from talking loudly. Besides, old men like to eavesdrop. It's a bad habit passed down from ancient times."

They moved stealthily along the way. Some turned into flowing water, some shuttled through the grass and leaves of the plantation, and some turned into a little bug, flying among the spiritual plants.

Zhang Panpan used many array techniques along the way and quietly erased hundreds of arrays and seals along the way. Finally, they passed through a plantation and came to the foot of a mountain.

Zhang Panpan was overjoyed. "We arrived. Let's hurry up while Senior Uncle Qu and the others are recruiting."

The others were also excited. At this moment, they saw intertwined knife beams on a mountain.

Someone was shocked. "Is this the knife beam left behind by Master Human Emperor?"

Zhang Panpan said proudly, "Of course, Uncle Human Emperor didn't just leave behind a knife light. Hurry up. Don't think about comprehending knife intent. What you need to comprehend is the realm of the intent."

After a while, in the back mountain of the Thug Academy, knife lights bloomed and there was a constant roar. Including Zhang Panpan, the five of them were carried to the small square of the plantation by Old Bai to stand as punishment.

"Hmph."

Old Bai put his finger on Zhang Panpan's forehead. "You're simply lawless. Is this knife light something you can comprehend now? It's the lingering rune left by Han Fei when he fought a fierce battle with someone in the Infinite Mining Area. At that time, Han Fei was close to the Monarch realm... Fortunately, I set up the ultimate seal, or you wouldn't have been killed."

Zhang Panpan pouted. "I saw Junior Uncle Qu often go in."

"Of course! What is Qu Jinnan's current strength? And what is yours? You haven't even entered the Sea Establishment Realm, yet you dare to go anywhere. You're really troublesome."

Not far away, Old Jiang, who was cooking in the open-air study, shook his head slightly. "Okay, although she is a little too bold, she is kind of capable, being able to lead so many people to pass through so many layers of seals. Your squad is not bad either. Stay for lunch!"

### [God of Fishing](#)

#### **Chapter 3210: Visit the Immortal Temple (2)**

"Yay!"

Zhang Panpan immediately jumped up and wanted to run to the open-air kitchen, but in the next moment, she was pressed to the spot by Old Bai. "Stand until it's time for dinner."

Zhang Panpan pouted again, and the other four all rolled their eyes. They knew that Zhang Panpan was going to suffer a setback, so they simply didn't move.

Swish ~

Suddenly, a void door appeared here.

Old Bai and Old Jiang were shocked. Old Bai stood in front of Zhang Panpan and the others in an instant, and Old Jiang activated all the seals in the plantation in an instant.

In the front yard of the Thug Academy, Qu Jinnan and the others who were supervising the admissions suddenly changed their expression.

After a while, Qu Jinnan said calmly, "Don't worry. If anything happens, they'll start fighting before we sense it."

...

Buzz!

Han Fei and Xia Xiaochan walked out of the door, with Yiyi sleeping soundly in Xia Xiaochan's arms.

"Well..."

Old Bai widened his eyes and was about to scold Han Fei for coming back without telling him. However, before he said anything, he was shocked by Xia Xiaochan who came out from behind. What surprised him even more was that Xia Xiaochan was holding a child in her arms.

"Well..."

Old Bai couldn't believe it. "Xiaochan, is it really you?"

Xia Xiaochan grinned. "Grandpa President, long time no see."

Old Bai put on a rare brilliant smile. "I haven't seen you for a long time. You... have already had a baby?"

Han Fei smiled and said, "The process was a little tortuous, but the final result was good."

Old Bai and Old Jiang naturally knew what happened to Xia Xiaochan. Every time they thought of her, they couldn't help but sigh and say that Xia Xiaochan's life was full of misfortunes.

Seeing Xia Xiaochan return, even Old Bai couldn't help but sigh. Of course, his eyes fell on Yiyi from time to time.

Han Fei said, "President, my daughter, Chanyi."

"Good, good... What a good name."

While Old Bai was sighing, a big head came close.

Old Bai immediately glared at him. "Zhang Panpan, who allowed you to move? Continue to stand as punishment."

Xia Xiaochan turned her head and looked at Zhang Panpan. She couldn't help but chuckle. "With your handsome and unbelievably beautiful face, you must be Zhang Xuanyu's daughter, right?"

Zhang Panpan nodded quickly and asked tentatively, "Are you... Aunt Xiaochan?"

Xia Xiaochan couldn't help but laugh. "Yes! Good eyesight. Nice to meet you..."

Old Bai quickly interjected, "You don't have to give her anything. You can't give her anything... This girl doesn't lack treasures. I've confiscated all her treasures. Even if you give treasures to her, it will be in vain."

Zhang Panpan stomped her feet. Old man, why are you like this?

The four people behind Zhang Panpan all looked at Han Fei with admiration in their eyes. They were all excited.

Zhang Panpan looked at Yiyi in Xia Xiaochan's arms curiously and said, "Uncle Human Emperor, are you going to put Baby Chanyi in the Thug Academy?"

Han Fei was a little surprised. He didn't expect this little girl to be able to guess this.

However, it did make sense. Zhang Xuanyu came back once a few years ago and probably left after staying for a few days. Zhang Panpan probably felt the same way.

Even Old Bai sighed slightly. When he saw the child, he knew what Han Fei and Xia Xiaochan were thinking. Although the human race was recovering and growing quickly, they didn't have an absolute strong master.

Of course, they knew that Han Fei was very strong, but no matter how strong he was, he was not a Great Monarch yet. However, in the Central Sea Divine Realm, there were a lot of Great Monarchs. Therefore, they knew the heavy burden on Han Fei's shoulders. He couldn't stop. He had to become stronger. It could be said that the current human race was protected by Han Fei alone. Therefore, even if he had a child, Han Fei couldn't take her with him because it was too dangerous.

Han Fei smiled and said, "Panpan, you have to take care of your sister in the future."

Zhang Panpan nodded quickly. "I will. I will take good care of my sister. No one can bully Baby Chanyi."

Xia Xiaochan reached out and touched Zhang Panpan's head. "Panpan, thank you."

Zhang Panpan immediately raised her head. "Aunt Xiaochan, it's my duty. Well, have you seen my father?"

Han Fei smiled and said, "Your father's strength has improved greatly and he has already stepped into the Carefree Level. At this moment, he might have already gone to the West Wilderness. Don't worry. Your Uncle Le Renkuang is also in the West Wilderness. Nothing will happen if the two of them stay together. Besides, I'm going to the West Wilderness too."

When Zhang Panpan heard that Zhang Xuanyu was fine and had even advanced to the Carefree Level, while she was happy, she missed him very much. But then she changed the topic and said, "Uncle Human Emperor, did my father cheat on my mother and have illegitimate children with b\*tches?"

"Uh..."

"Giggle ~"

Xia Xiaochan chuckled. "Don't worry. Even if your father wants to, he doesn't have the time."

"That's good!"

Han Fei shook his head slightly. Like mother, like daughter. With her personality, no one would believe that she wasn't Yi Xiyang's biological daughter.

Yi Xinyan, who had rushed back, hurriedly called out, "Panpan, don't pester my eldest senior brother."

After that, Yi Xiyang and the others arrived. Yi Xiyang said, "Eldest Senior Brother, why hasn't my husband returned again?"

Han Fei said, "I'll bring him back next time. Okay, since you're all here, let's have something good. Well, Panpan, take your partners."
