**Chapter 3251: The Legendary Bandit Returns (2)**

"Huh? Death Spiral?"

When the needle of the Vast Ocean Navigator pointed at the Death Spiral, he couldn't help but be a little stunned. This was because the Death Tree had said that the Death Spiral appeared from time to time, and every time it appeared, the location was different. Also, it said that few people could return alive from the Death Spiral. This should be a rather terrifying forbidden place.

Could it be that this was similar to the Abyssal Chasm in the Raging Sea, but was actually a teleportation channel?

Han Fei felt that it was very likely.

...

Half a month later.

Han Fei had been wandering in the no man's area for more than ten days. As guided by the Vast Ocean Navigator, he plunged into the Uninhabited Forbidden Area.

In the Uninhabited Forbidden Area, there were many spatial turbulences, and some places even had an entire space moving. Therefore, once one entered an uninhabited forbidden area, he could only try his luck if they could walk out.

However, with the speed of a Great Monarch, it was possible to forcibly tear open the spatial turbulence and kill a way out, but it would delay some time.

Han Fei appeared in multiple spaces with the Vast Ocean Navigator. Finally, on this day, he saw a spiral blue circle of light hanging in the sky.

Han Fei had thought that the Death Spiral was similar to the Abyssal Chasm, but he didn't expect it to be quite psychedelic, like a strange spatial ripple.

When Han Fei saw the Death Spiral, he didn't feel any suction force, as if there was no suction force.

However, Han Fei wouldn't enter rashly.

Activating the Twin Divine Technique, Han Fei went to the Death Spiral with his white-mist body. As a Great Monarch, Han Fei was naturally bolder now. Even his white-mist body was comparable to an ordinary Great Monarch. He could certainly easily enter a dangerous place!

The moment his white-mist body entered the Death Spiral again, billions of suction forces seemed to suddenly appear in an instant. The strength of the suction forces exceeded Han Fei's imagination. Even though he had an unparalleled body, the moment he entered the Death Spiral, he almost fell apart.

As Han Fei activated his Original Great Dao and gathered laws, his white-mist body barely stabilized his body. From the perspective of his black-mist body, the moment his white-mist body entered the Death

Spiral, it disappeared from the naked eye. However, Little Black and Little White's connection couldn't be severed by the Death Spiral, so he wasn't worried.

With the strength of an ordinary peak-level Great Monarch, Han Fei resisted the suction force until he saw a circular black hole-like barrier.

"Is it a teleportation channel?"

Han Fei was about to enter the black hole barrier, but in the next moment, a divine pillar of light rushed out of the black hole barrier.

With just an instant blow, the white-mist body that was comparable to an ordinary peak-level Great Monarch was instantly shattered and crushed without even having a chance to react.

"Puff ~"

Han Fei's twin bodies instantly fused, and blood oozed from his seven orifices. His vitality surged, and the injuries he had just suffered healed in the blink of an eye.

"What strong power."

Han Fei was shocked. It was definitely the power of a god. Just now, he seemed to be crushed by divinity and couldn't resist at all.

"Could it be that there are gods guarding the Primordial Divine Race in this Death Spiral?"

Han Fei was unwilling to give up. A moment later, he used the Twin Divine Technique again.

Different from last time, this time, as soon as Han Fei entered the Death Spiral, he shouted, "I'm Han Fei. I'm here to restore the bloodline of the divine descendants. Please don't get me wrong."

"Puff ~"

After dozens of seconds, Han Fei was penetrated again, and no one responded to him from beginning to end.

"Don't you believe me? It seems that I have to show the Creation Divine Chain."

After another minute.

"Puff ~"

Han Fei was crushed again and his twin bodies became one again.

"That shouldn't be the case! If it was a guardian god of the divine descendants, he should have recognized the Creation Divine Chain the moment he saw it. Why would he still attack me? Could it be that there is no god guarding, but just some kind of array?"

Once again, Han Fei entered the Death Spiral. But this time, he didn't rush in but began to observe the Death Spiral.

He could feel that there seemed to be another space in this spiral. The reason why this space had such a powerful suction force seemed to be related to the operation of the law of space.

"It seems to be purely the power of the law of space, but why is there divinity in the law of space? Without gods, how can there be divinity?"

Han Fei frowned. For the first time, he had doubts about divinity. Was divinity really born by a god?

Only when a Great Monarch fused all laws, transcended the divine tribulation, and focused his mind could he become a god. Only a god had divinity. That divinity should be a will of laws or some kind of rule emitted by a god. And the basic difference between a god and a Great Monarch should be a divine persona. Therefore, a divine persona gave birth to divinity. Or rather, a divine persona gave birth to divinity. But how did a divine persona condense?

"Law Fusion?"

Han Fei's eyes suddenly lit up. Only by transcending the law-fusion tribulation could one become a god. The divine persona was formed because of the law fusion. Didn't this mean that the divine persona was compressed by laws? This was a little similar to the compression of the Star Core of the Supreme Divine Technique.

Unfortunately, before Han Fei could continue to study it, he was crushed again. Although he didn't go deep into the Death Spiral, a divine power still shot out and crushed him.

Once, twice, thrice...

After Han Fei entered more than twenty times in a row, the Death Spiral suddenly disappeared. It faded in the void under Han Fei's watch and disappeared without a trace.

### [God of Fishing](#)

#### **Chapter 3252: The Legendary Bandit Returns (3)**

"Well..."

Han Fei was speechless. The Vast Ocean Navigator was clearly pointing at the Death Spiral, but he was already a peak-level Great Monarch and couldn't enter it. Then who could enter it except gods?

Han Fei even suspected that even gods might not be able to enter.

However, Han Fei was sure that this entrance was definitely right, but no one could enter it, which could only mean one thing. There was something wrong with the way they entered.

After repeatedly encountering obstacles, Han Fei didn't continue to search for the Death Spiral. Although he seemed to be able to comprehend something from the Death Spiral, he didn't know enough about gods. Therefore, it was meaningless to guess and deduce.

After he completely fused with his Origin Star, he might feel something different when he came to the Death Spiral again.

Since he couldn't enter, Han Fei didn't force it. As Liu Tianming said, the divine descendants were waiting for him, so they would definitely leave some clues for him.

As for the West Wilderness, the easiest place to go was not places like the Uninhabited Forbidden Area or the Dead Soul Gobi, but the Ferocious God Valley. It was the center of the West Wilderness, where the Bandit God was. Even the Central Sea Divine Realm didn't dare to mess around there.

...

Han Fei had already decided to try his luck in the Ferocious God Valley, but it was not so easy to get out of this Uninhabited Forbidden Area. It took him half a month to find the Death Spiral after he entered here.

When he went out, Han Fei forcibly broke through the void. After walking for only half a day, he suddenly perceived a team of eight people.

These eight people were all at the Immortal Level. Furthermore, among them, there were three demon plants, three insects, and two guys holding strange compasses. Obviously, they were not from the West Wilderness.

"Divine Demon Forest, the Sky Spider Worm Valley?"

Han Fei's heart stirred. This was a coincidence. He didn't find the Primordial Divine Race but accidentally encountered people from the Central Sea Divine Realm.

Liu Tianming had said that the people of the Central Sea Divine Realm were very valuable if they were sold in the Ferocious God Valley.

What he lacked the most now was resources. Since he became a Great Monarch, he had been so poor that he had to rely on energy crystals to make a breakthrough.

Although the energy crystals were good, they didn't contain enough kinds of resources after all. There were only Chaotic Qi and ownerless souls in them. There were not many kinds of energy in them. If he absorbed too many of them, it would take some time to transform them.

However, these people were all at the Immortal Level and should be worth a lot, right? If each of them could be sold for thousands or 800 high-quality refined stars, it would be almost 10,000 refined stars.

Immediately, Han Fei was tempted. He transformed into the Giant King again, and his strength was at the peak of the Immortal Level. After all, a Great Monarch was probably famous. Even if he pretended to be a War Giant, he had to be convincing. So, he put on the Star Explosion Bracer, not fearing that someone would see through his identity.

Not far away.

The three strong masters of the Sky Spider Worm Valley were receiving the return of some insects from multiple space cracks. It seemed that the insects were released by them earlier.

The three strong masters of the Divine Demon Forest sat cross-legged. From time to time, petals bloomed around them or vines appeared.

One of the men holding the compass said, "Did you find anything?"

The three people from the Divine Demon Forest shook their heads. "No, the Uninhabited Forbidden Area is too big. The space here is complicated. More than half of the marks we left before have been minced by the space here. And there is no information feedback from the rest."

A woman from the Sky Spider Worm Valley also said, "I didn't find anything either. Less than 10% of the Void Escape Spiders we sent out survived. So far, we haven't found anything special about the Uninhabited Forbidden Area."

One of the women said, "I found a ruin, but it seems to have been looted. I haven't checked the others."

Someone sighed. "In my opinion, let's just search for treasures. We've already discovered more than 30 secret realms and more than a dozen ruins, but we haven't found any trace of the Primordial Divine Race."

Another man holding a compass said, "Actually, even if we find it, so what? Although the descendants of the Primordial Divine Race can't become gods, there must be many peak-level Great Monarchs. The few of us are probably not enough to fill the gaps between their teeth."

A woman from the Divine Demon Forest said, "No, even if it's in the Uninhabited Forbidden Area, the Primordial Divine Race probably won't dare to show up. They don't know if we have any communication items on us. Besides, if anything happens to us and we die, our families will definitely know. At that time, they will naturally suspect the Uninhabited Forbidden Area. Therefore, even if the Primordial Divine Race discovers us, they might not attack us."

Someone said, "But the forbidden area had been searched 100,000 years ago, and people have been looking for it since. Except for a few Death Spirals, there are only large swaths of secret realms and ruins left."

"Do you think it's the Death Spiral?"

"No. The Death Spiral can appear everywhere. You don't have to come to the Uninhabited Forbidden Area to find the Death Spiral. Besides, didn't a god-level powerhouse come out after entering in the early years? It seems to be the source of the Infinite Sea of Sand inside. It's the place where the former god of the Sea of Sand released the Infinite Desert. Only by obtaining the inheritance of that god of the Sea of Sand can you enter safely."

Soon, when the last person from the Sky Spider Worm Valley recalled all the Void Escape Spiders, he shook his head slightly. "Let's go to another place. We don't have to be discouraged. Maybe the other teams have already discovered something."

### [God of Fishing](#)

#### **Chapter 3253: The Legendary Bandit Returns (4)**

Han Fei was excited to hear that. There were other teams?

The two guys holding the compass spun for a long time and finally confirmed a direction. "The space in this direction is relatively stable. Let's go!"

Just as they were about to move, they felt a terrifying suppressing pressure descend at the same time. Before they could attack, a spear beam pierced at them from the side.

"Puff! Puff! Puff!"

Three people were pierced through in a row and couldn't react in time.

"Who is it?"

The other five people were shocked and immediately prepared to escape, but how could Han Fei give them a chance? He blasted out the Star Explosion Divine Fists one after another, and they were sent flying.

Under Han Fei's absolute suppression, the Immortal Level cultivators had no room to resist at all. In an instant, the five of them were seriously injured.

Roar!

Han Fei shouted and grabbed the spear that had already nailed three people. Its length increased exponentially and it pierced through them one after another. In the blink of an eye, these eight people were all skewered on the spear.

One of them was holding a jade slip in his hand. He had just taken it out and was about to crush it, but unfortunately, he didn't have the time. After being skewered, they discovered, to their shock, that their strength had been sealed.

At this moment, Han Fei walked over from the void. He grinned. "The eight of you, not bad."

These people's expressions changed drastically. One of them stared at the Star Explosion Bracer on Han Fei's wrist and said with difficulty, "Primordial Divine Race, Star Explosion Bracer, who are you?"

Smack!

Han Fei slapped his head sideways. "How rude. You recognized the Star Explosion Bracers and asked me who I am. Is there something wrong with your head?"

The man was furious, but he couldn't do anything now.

A female cultivator from the Sky Spider Worm Valley said, "There are only two Star Explosion Bracers. One is in the hands of the Patriarch of the Primordial Divine Race, Liu Tianming, and the other is in the hands of the deputy patriarch, Quan Tiangang. If the two of them want to take us down, they don't need to launch a sneak attack. You are their disciple, right? As far as I know, the Primordial Divine Race hasn't participated in the battle yet. If you capture us now, it means that the Primordial Divine Race has participated in the battle. Do you know the consequences?"

Han Fei thought to himself, I just want you to doubt my strength. Otherwise, it would be inappropriate for me to directly show the strength of a Great Monarch.

Han Fei sneered. "You talk too much. So what if our Primordial Divine Race participates in the battle? Since I've encountered you, don't even think about running away. However, I can give you a chance. Eight of you, take out 80,000 refined stars, and I'll let you go."

"80,000?"

The eight of them looked awful, and a female cultivator from the Divine Demon Forest said, "Who in the Immortal Level can easily take out 10,000 refined stars? Fellow Daoist, if you need resources, we can each take out 1,000 refined stars."

With a thought from Han Fei, the seal on the eight of them was slightly relieved.

"OK, give them to me."

The female cultivator from the Divine Demon Forest's face changed slightly. "Fellow Daoist, this is inappropriate, right? Let us go, and we will give you resources."

"Shut up."

Han Fei reached out and grabbed, and the female cultivator was thrown into the sky. In the next moment, fist light soared to the sky, and the woman was blown to pieces on the spot. Even her Soul Suppressing Spiritual Treasure was crushed by Han Fei.

Rumble ~

In the sky, a Great Dao crack appeared, and a rain of blood dyed the sky red.

In the Uninhabited Forbidden Area, many teams looked at the sky at the same time, their expressions changing. Someone had died?

At this moment, on Han Fei's side, the other seven were all shocked, wondering why this person was so rude and killed a person without any warning.

That was an Immortal Level powerhouse. It must be very difficult for her to cultivate to this level, but she was killed just because she disobeyed this person?

Han Fei was not the kind of person who cared about women. In his eyes, these people were just moving refined stars. It was good to use the example to educate them so that these people wouldn't waste his words.

Han Fei glared at him. "Just take out the refined stars."

These people didn't dare to disobey. Han Fei didn't kill them, which meant that they were still useful. In fact, they already knew the outcome. The worst outcome was that they would be sold to the Ferocious God Valley, but at least they were still alive, as long as someone from their family came to ransom them. This was better than dying.

Immediately, they threw out piles of refined stars.

Han Fei immediately grinned. Here came resources! Not only could he make a fortune from looting these people, but he could also sell them in the Ferocious God Valley and make another fortune.

Han Fei said, "Come on, I know you have a way to communicate with other teams. Tell me quickly, or you'll see what happened to that person just now."

[God of Fishing](#)

**Chapter 3254: Ferocious God Valley (1)**

In the Uninhabited Forbidden Area, a spear dozens of feet long was stabbed into the ground with seven Immortal-level powerhouses on it. Han Fei had no intention of putting these people into his Origin Star.

As the saying went, sharpening the knife wouldn't delay the cutting of firewood. He hadn't found the Primordial Divine Race yet, but he could get some extra income.

As for killing an Immortal Level Monarch, in Han Fei's opinion, it was not a problem at all. One of the eight people had died. Even if someone noticed it, they would only suspect that these people had encountered some kind of danger. Otherwise, it shouldn't be only one out of eight who died. After all, this was the West Wilderness. Even if they were Immortal Level Monarchs, it was normal for one or two to die occasionally.

The two guys holding the compass were elders of the Thousand Phenomena Sect in the Central Sea Divine Realm. They could use space to detect Nature Spiritual Treasures, so they could explore the Uninhabited Forbidden Area. And the compass was also a short-distance communication device, just like the flame emblem of the Phoenix Divine Race.

Perhaps the contact distance of this thing was not as far as the flame emblem, but although the Uninhabited Forbidden Area was large, it was only a forbidden place in the West Wilderness. Its range was like the area occupied by the Infinite Mining Area in the East Sea Divine Realm.

While communicating with the two teams nearby with the compass, Han Fei set up an array here.

Five days later.

A seven-person team came here, led by a female Great Monarch from the Divine Demon Forest.

The moment this person appeared here, she sensed that something was wrong. There was a mist here, and the abnormality of the spatial law was greatly reduced. Obviously, it was abnormal.

The female monarch shouted, "Be careful. The law of space here is quite stable. They said that there is an unexplored ruin here. We have to be careful."

The female monarch didn't suspect that she was ambushed. She casually waved her hand, and thousands of long vines appeared in the mist. Giant flowers bloomed and began to swallow the mist.

Suddenly, the Female Monarch's heart skipped a beat. Under the sea of sand, fist marks that looked like exploding stars rose to the sky.

"Star Explosion Divine Fist?"

The female monarch's reaction was extremely fast. As she slapped down, a large net of golden vines pressed down.

Bang! Bang! Bang!

Ignoring the others, the female Monarch immediately retreated. At this moment, she naturally knew that she had been ambushed. No matter who was ambushing, he must be from the Wild Ancient Race.

Under such circumstances, she certainly had to protect herself first. It was not a wise choice to fight the savage natives in the West Wilderness.

But at the moment she retreated, Han Fei appeared and slashed down from behind.

Bang!

"Puff ~"

The Female Monarch immediately spewed out a mouthful of essence blood. A Divine Wheel intertwined with flower rings appeared behind her, and a pagoda appeared in front of her.

However, as soon as the Flower Ring Divine Wheel appeared, it withered in the blink of an eye and its vitality was extracted. Although the pagoda in front of him was extraordinary, the Star Explosion Bracer on Han Fei's arm emitted a dazzling brilliance.

"Star Explosion Bracer?"

The moment the female monarch saw the Star Explosion Bracers, her expression changed drastically. Boundless fist power spewed out of the bracer and Han Fei punched out, sending the Soul Suppressing Tower flying. And the fist light didn't stop and instantly branded on her chest, directly smashing most of her body into pieces.

"Puff ~"

In the next moment, a spear beam pierced through him.

This Great Monarch was only an ordinary Great Monarch, and she hadn't even reached the peak of the Monarch realm. But the Star Explosion Bracer could condense the Star Explosion Divine Fist of an Extreme Dao powerhouse. It was obvious which party was stronger.

The female monarch was shocked and wanted to resist, but she suddenly found that all her strength had been sealed.

All of this happened in a flash. As soon as the Immortal-level powerhouses realized what had happened, they saw that the Great Monarch who led them had been skewered on a spear. At the same time, there were already seven people skewered on the spear.

After a while, Han Fei skewered the six remaining Immortals on the spear too and nodded in satisfaction. Five days had not been in vain.

The female monarch shouted angrily, "Who are you? Why do you have the Star Explosion Bracer?"

Smack!

Han Fei slapped the female monarch's head to the side, making it buzz. "Who are you yelling at? I'm the disciple of Teacher Tiangang and Teacher Tianming. It's your honor to fall into my hands. Now, hand over all the refined stars on you. Otherwise, you've seen the Great Dao crack a few days ago. I don't mind sending you to reincarnation too."

After being humiliated like this, the female Monarch's eyes were filled with anger and coldness, and she wished she could swallow Han Fei on the spot.

"Did you kill my people? Has the Primordial Divine Race joined in the war?"

Pa!

Han Fei slapped the female monarch's head again. "You don't hear me? It's none of your business whether our Primordial Divine Race has joined in the war or not. Now, give me your refined star, or I'll kill you."

The female monarch had never been beaten like this before. She still shouted angrily, "Do you dare to kill me? You caught so many people. Are you going to sell us to the Ferocious God Valley? If I die, the Central Sea Divine Realm will definitely fight the Primordial Divine Race to the death."

Pa!

Pa! Pa! Pa!

"How arrogant! You're just asking for a beating. It's fine if you don't give your refined stars to me. I'll strip you naked and carry you all the way into the Ferocious God Valley from the no man's forbidden area."

With that, Han Fei grabbed and almost tore off the female Monarch's battle suit.

"How dare you!"

"Stop!"

"Hey! How dare you still be so arrogant? Do you really think you're something?"

### **God of Fishing**

#### **Chapter 3255: Ferocious God Valley (2)**

Rip ~

In the next moment, the female Monarch's battle suit was torn apart, and her slender and fair thighs were exposed to Han Fei.

Boom! Boom!

Han Fei poked the woman's thigh with his huge fingers and said leisurely, "It's quite tender. I'll give you another chance. Hand over your refined stars, or I'll continue to strip you."

The female Monarch almost went crazy. She cursed in her heart, When did such a shameless person appear in the Primordial Divine Race?

However, this guy was too bold, and judging from his words and deeds, the Primordial Divine Race seemed to have indeed joined in the war. At this moment, she was under his control, so she could only accept this loss.

Immediately, the female Monarch threw out nearly 6,000 refined stars in anger.

Seeing that the Great Monarch had taken out her resources, the others also took out their resources.

Pa!

Han Fei burst into fury and knocked the female Monarch's head askew again. "Are you looking down on me? You're a Great Monarch, and you only have 6,000 refined stars? Do you think I don't know how many you have? Believe it or not, I'll destroy your Origin Star!"

The female Monarch wanted to flare up, but she couldn't. She could only shout angrily, "What else do you want? Who will carry so many refined stars for no reason? Do you want to tear off my Origin Star and give it to you? If that's the case, can you still get the ransom?"

Han Fei said, "I don't care. Anyway, you don't give me enough resources. At least double them. Otherwise, I'll strip you naked."

"You're simply unreasonable."

Han Fei grinned. "Of course. Have you ever seen bandits reason with others?"

The female Monarch: "..."

This bandit of the Wild Ancient Race had completely regarded himself as a bandit. Had the Wild Ancient Race also established a bandit organization? How could such a thing become a disciple of Quan Tiangang or Liu Tianming?

However, it was useless to argue with Han Fei now. The female Monarch could only take out rivers of spiritual energy, spiritual heritage mountains, a large number of spiritual fruits, energy crystals, minerals, spiritual treasures...

"Is it enough?"

The female Monarch was ashamed and resentful. If she took out more resources, she wouldn't have any money left. This was equivalent to more than 10,000 refined stars. Not every Great Monarch could take out so many resources. She was really bankrupt this time.

Han Fei nodded in satisfaction. "Good. If you had cooperated with me earlier, you wouldn't have had to suffer so much."

Then, Han Fei strengthened the seal and lengthened the spear so that he could continue to skewer people.

...

Another half a month later, two more groups of people came, but Han Fei was not so lucky these two times. There were only five Immortals in one group, and there were two Carefree-Level Monarchs among the six people in the other group.

Since then, Han Fei had harvested more than 34,000 refined stars and resources equivalent to nearly 6,000 refined stars.

This number couldn't be considered a lot, but the quality wasn't bad. He didn't know if this was enough for him to fuse the Eternal Darkness Spiritual Heritage with the ground veins in his Origin Star. Even if it wasn't enough, if he sold these people, it should be enough.

Han Fei didn't continue to wait. Instead, he carried the spear that had been stretched nearly a hundred meters long and fumbled for a way out.

This was because he knew that no matter how hard these people searched, they wouldn't be able to find the Primordial Divine Race.

He didn't have so much time to ambush people here. After selling this bunch of people, he would naturally have other opportunities to obtain resources in the future.

...

Seven days Later.

Han Fei found his way to the Ferocious God Valley with a Great Monarch, 22 Immortals, and 2 Carefree-Level Monarchs on his shoulder.

As soon as Han Fei entered the range about a light-year away from the Ferocious God Valley, he found a group of bandits with more than 20 people. However, the strongest among them was only at the Dao Proving Level. They hadn't had the ability to discover Han Fei yet. Han Fei despised these people for being too weak. Even if he squeezed them dry, he probably wouldn't be able to squeeze out many resources, so he directly ignored them.

When Han Fei was less than half a light-year away from the Ferocious God Valley, he had encountered bandits more than 30 times, some of whom were deeply hidden and almost escaped his perception.

Half of these bandits discovered Han Fei. Han Fei let them discover him on purpose, but no one came to rob him.

He was carrying more than 20 Monarchs alone and had a Star Explosion Bracer on his wrist. Unless the bandits were extremely confident in themselves, no one would dare to touch such a monster at all.

In addition to these more than thirty groups of bandits, Han Fei had perceived more than a hundred secret realms along the way, as well as dozens of various ruins.

Han Fei sighed. The West Wilderness was indeed full of bandits, and these were only the bandits on one road. If the bandits surrounding the Ferocious God Valley added up, God knew how many there would be.

But what puzzled him was that although there were many secret realms and ruins here, with so many bandits surrounding them, would anyone really dare to come? Those who weren't confident probably didn't dare to approach the Ferocious God Valley at all, right?

After walking for about half of the journey, Han Fei was finally stopped by a group of bandits. Among this group of bandits, there was one Immortal Level, two Carefree Level, and six Dao Proving Level cultivators. There was actually no one below the Monarch Level.

This scale of bandits was already a little surprising, giving Han Fei the illusion that only Monarchs were qualified to be bandits.

Because Han Fei didn't hide his whereabouts, the nine people decisively stopped Han Fei.

The Immortal-level bandit roared, "Stop! Leave a thousand refined stars and we'll let you pass."

### [God of Fishing](#)

#### **Chapter 3256: Ferocious God Valley (3)**

These bandits didn't demand Han Fei to give them these people he was carrying. Once they wanted these people, Han Fei would probably fight them to the death. But if they only demanded a thousand refined stars, this person might not want to cause trouble and just gave them to them.

However, they didn't know Han Fei's personality. He had never paid a toll in his life. How could he give it to a group of bandits who didn't look strong?

Han Fei was a little stunned. Although he didn't pretend to be a Great Monarch, he was at the peak of the Immortal Level anyway. Therefore, even if someone discovered him, no one dared to stop him.

However, there was only one Immortal-level cultivator among the bandits in front of him, but they dared to stop him. He didn't know where they got the courage.

Han Fei said in disbelief, "You stopped me?"

The Immortal-level bandit leader shouted, "Of course. Is there anyone else here besides you?"

Han Fei raised the Star Explosion Bracer on his wrist and said, "Don't you know this?"

The Immortal-level bandit grinned and said, "Of course I do. There are only two Star Explosion Bracers in the entire West Wilderness. How can we not know them? Brother, I don't want the people you took down. Peace makes money. It's not too much for me to ask for a thousand refined stars, right?"

This person spoke arrogantly. He carried a serrated long broadsword on his shoulder, and his black-gold armor surrounded by flowing light made him look particularly powerful.

Han Fei couldn't help but sneer. "You? Who gave you the courage to rob me?"

The Immortal-level bandit and the other bandits laughed out loud. "Can't we rob the Wild Ancient Race? Although you're wearing the Star Explosion Bracer, the Star Explosion Divine Fist is not the strongest ultimate technique in the West Wilderness. We're all from the West Wilderness. We've already given you a lot of face. We don't want much."

Han Fei raised his eyebrows. "What if I don't give the money to you?"

Laws surged on the Immortal-level bandit's broadsword. "Then beat me."

Han Fei was lost for words. These bandits were probably stupid. They knew his background but still dared to rob him. They were either very confident or really poor.

The Immortal-level bandit roared and slashed down with his serrated broadsword. At that moment, dozens of sand sea dragons intertwined from the ground, looking terrifying.

The corners of Han Fei's mouth curled up slightly. This person was very strong. The sand sea dragons were not fancy decorations. Each of them was a kind of knife intent, and this was not counting the broadsword in his hand. That knife was full of a will of laws and instantly raised this blow to the Great Monarch realm.

Han Fei raised his hand. He was a Great Monarch in the first place, so it wasn't difficult for him to use the Star Explosion Divine Fist. Besides, he had already fused the law of strength, so his control of the law of strength could be said to be perfect.

He punched out, and the will of the law descended.

Boom Boom Boom ~

With a Star Explosion Divine Fist, he crushed dozens of sand sea dragons and finally met the other party's strongest slash.

Clang!

The void trembled, and the sea of sand fluctuated. Han Fei felt a violent force surging into his body through the fist light.

"Your methods are not bad, but unfortunately, you are still too weak."

In the next moment, the other party's peak-level Immortal-level powerhouse flew like a star, crushing hundreds of thousands of kilometers of sea of sand.

When the man took Han Fei's punch, he felt that something was wrong. This person was too strong. His Law Breaking Mystic broadsword failed to shake this person. It shouldn't be!

In the next moment, the other eight Monarchs all activated some secret technique. Then, they injected all their strength into the Immortal Level powerhouse's body, and the latter flew out of the sea of sand with a swish, his strength several times stronger.

However, Han Fei didn't give these people any face. In an instant, thousands of divine punches were thrown out. Seeing this, the Immortal Level powerhouse's eyes were filled with madness. Stars flickered around his saw-toothed long knife as if he had borrowed the power of multiple stars at once. This blow was even much stronger than ordinary Great Monarchs.

Bang! Bang! Bang!

Boom Boom Boom ~

This place was instantly bombarded. Han Fei stood quietly in the void without moving. However, he was a little surprised. This bandit was too strong. With such combat power, he would be a top powerhouse in any other Divine Realm, but he would rather be a bandit here.

Whoosh!

The Immortal-level powerhouse's face also changed drastically. He admitted that the Star Explosion Divine Fist was powerful, but how could it be so powerful? Since he dared to stop Han Fei, he naturally had a certain degree of confidence. His slash just now could be called a peak-level blow. Its power exceeded 20,000 stars, but it was still penetrated. This made him feel incredible.

However, Han Fei was unwilling to let them leave now. He took a step forward and cut open the void where they escaped with an axe, cutting the void and blocking them.

Han Fei said leisurely, "I don't want you to leave behind any Nature Spiritual Treasures. It's not too much to leave three thousand refined stars, right?"

The Immortal-level powerhouse immediately frowned and gritted his teeth. "It's not too much."

This bandit was really tough. He really took out three thousand refined stars and threw them to Han Fei.

Han Fei raised his eyebrows. "You're quite rich!"

The bandit curled his lips and said, "It's not that we're rich, but that we're incompetent. It's only natural that we were robbed by you since we failed to beat you or escape. However, can I ask you how the Star Explosion Divine Fist can be so strong? You can cross realms to fight. But why haven't I heard of your name before?"

Han Fei said, "Quan Tiangang and Liu Tianming are both my masters. I cultivate in the depths of the Dead Soul Gobi and run amok in the Uninhabited Forbidden Area. Why does my name have to be heard of by you? It's just like there are so many secret realms in the West Wilderness. Can you know them all?"

### [God of Fishing](#)

#### **Chapter 3257: Ferocious God Valley (4)**

The bandit cupped his fists. "Impressive. Today, we, the Thousand Knife Bandits, were defeated. Let's spar again when we have a chance."

With that, the man ran away with his men.

After a while, someone said, "Boss, isn't this guy ridiculously strong? Even with the combined strength of the eight of us, we couldn't defeat him. And your combat power is already in the Great Monarch realm!"

The leader of the Thousand Knife Bandits shook his head. "So what? If you can't win, you simply can't win. It means that we're not strong enough. Brothers, it's getting harder and harder to rob recently. Those people from the Central Sea Divine Realm are not coming anymore. They've all gone to the front line to fight. If we continue like this, our resources will be used up. I've decided that we'll go to the front line too. We can rob anywhere. Even going to the front battlefield to rob is fine."

"Boss, you're crazy. I heard that the Central Sea Divine Realm has sent many strong masters to devour the West Wilderness. It's not safe for us to go there, right? Why don't we go to the Primordial Tower?"

"That's right, Boss. We can go to the Primordial Tower to kill the ominous. With our joint attack technique, I don't believe we can't get 100,000 energy crystals in ten thousand years."

"Are you crazy? If the ominous is so easy to fight, it has long been wiped out. 100,000 energy crystals? It's a question whether you can survive or not. Listen to me, let's fight on the head-on battlefield."

...

It had to be said that the bandits of the West Wilderness were really tough. Han Fei had to fully reveal his strength at the peak of the Immortal Level. And in the latter half of the journey, he encountered two more groups of bandits.

Fortunately, he didn't suffer any loss. Instead, he snatched five thousand refined stars.

At this moment, Han Fei was standing in front of a magnificent earth sea sand city. This city was unexpectedly beautiful. The Ferocious God Valley was built against a valley. Half of it was a city, and the other half was an oasis in the sea of sand. The city was extremely large, comparable to the Divine Capital Dynasty. The Divine Capital Dynasty was a group of islands, while the Ferocious God Valley was full of deep pit cities that scattered throughout, depending on the elevation of their respective locations.

The Ferocious God Valley was guarded by a barrier. As long as one was verified as being from the West Wilderness, he could enter. Otherwise, if outsiders entered, they would have to pay at least a refined star each.

There was no dispute about Han Fei's identity. With the Star Explosion Bracer on his hand, no one would doubt his background.

The guards guarding the barrier looked at Han Fei with respect and admiration.

Everyone looked at the hundred-meter-long spear that Han Fei was carrying, wondering how many resources it would sell for.

Han Fei didn't think much of it. After carrying his spear into the barrier, he saw rows of rock dragons lying lazily on the ground. These rock dragons weren't strong. They were mostly in the Sky Opening realm. The price was clearly stated. To hire a rock dragon for a month, one needed to pay a refined star.

"Oh, a guide and transportation tool in the late-stage Star Transformation Realm?"

Seeing Han Fei and the spear he was carrying, these rock dragons seemed to have transformed. A moment ago, they were lazy, but now they were energetic and refreshed.

Immediately, a group of strong masters ran over from not far away. Among them, there were many at the Dao Proving Level. However, these people looked a little strange. Most of them had horns on their heads and their bodies looked a little like porcelain dolls.

"Are these from the Dragon Race?"

Han Fei thought to himself, That's impossible! How can the Dragon Race appear in the Sea Realm?

At this moment, a lot of people shouted at Han Fei.

"Senior, I'm very familiar with the buyers of the Ferocious God Valley. I can definitely sell them for a high price for you."

"Senior, use my baby dragon. He's very good."

As soon as this person finished speaking, a rock dragon pulled itself out and roared at the sky.

"Senior, don't listen to him. I'm very familiar with the Ferocious God Valley. I know everything about the Ferocious God Valley, including the major shops here."

"Senior, I'm known as Mr. Know All. Choose me, choose me."

"Senior, I charge very little. My service fee is only 100 refined stars at most."

"Bah, you call this a low charge? Senior, I'll only charge 50. I guarantee I can sell them all for you."

"..."

This group of people was very excited. Only then did Han Fei understand that these rock dragons were raised by this group of people. Their strength was extraordinary, but they served as pimps in the Ferocious God Valley. There was no telling what they were thinking.

However, this was the first time he had come to the Ferocious God Valley. It was indeed necessary to find a guide, which could save him many troubles.

Han Fei glanced around, chose a late-stage Star Transformation Realm rock dragon, and threw a refined star over. The rock dragon was stunned for a moment, but then quickly opened its mouth and swallowed it.

Han Fei smiled. "I'll pick this one."

"Ah! It's me, it's me."

Then, a dragon girl with a horn on her head hurriedly ran over. "Senior, I am Dragon Tamer Long Yan. This is my baby dragon."

The girl's fair face immediately turned red. Obviously, she was very happy that she was chosen by a big client.

Han Fei looked at the girl up and down. Why was a Dao Prover so excited for a refined star?

Han Fei quietly threw another refined star to the girl.

The girl took the refined star and was overjoyed. She had made a fortune this time.

As for the others, they sighed, thinking that this was a random choice. There was nothing they could do.

Someone muttered, "Long Yan is too lucky. Why was she chosen, not me?"

Someone sighed. "Is it because I don't have a loli face? Long Yan is almost the trademark of the Rock Dragon Race."

Hearing these words, Han Fei put on a faint smile, thinking that these people must have said it on purpose for him to hear. Although there was competition between them, no matter who he chose, the others seemed to secretly help the one chosen in this way, using these seemingly unintentional words to let him know that Long Yan was a good choice.

Immediately, Long Yan asked, "Senior, I'm now your personal guide. I can provide you with intelligence and communication services. In addition to intelligence services, communication can facilitate transactions. Under normal circumstances, I charge a hundred refined stars. However, you are a big customer. I'll only charge you fifty and will definitely help you sell these people for a good price. Senior, may I ask what their realms are..."

Han Fei said indifferently, "Oh! One Great Monarch, 22 Immortals, 2 Carefree Level..."

Buzz!

In an instant, the people of the Rock Dragon Race who were about to disperse all turned around, their eyes widened.

Long Yan's mouth gaped open in shock... Is there even a Great Monarch captive?

### [God of Fishing](#)

#### **Chapter 3258: Trafficking Captives, Making A Fortune (1)**

When Han Fei told them the strength of these captives, in addition to the pimps of the Rock Dragon Race, some nearby strong masters were also shocked.

These people looked at Han Fei's Star Explosion Bracer and his realm and already had some answers.

Someone said, "Another lunatic who cultivates the Supreme Divine Technique. No one can become a god on this path, but he still embarked on this path resolutely. What a waste of his talent!"

Someone shook his head. "Perhaps for some people, reaching the peak of the Great Monarch realm is already powerful enough. They don't pursue the God Realm. After all, there aren't many god-level powerhouses in the vast Sea Realm. This guy's choice is actually not bad."

Long Yan was stunned for a few seconds before she came back to herself and hurriedly said, "Senior, ordinary people can't afford to take a captive of this level. But I have a way. Senior, please follow me. Little Treasure, come here quickly."

A handsome and slightly chubby rock dragon quickly came to Han Fei and prostrated. Long Yan hurriedly said, "Senior, please take a seat."

Han Fei's huge body that was 40 meters tall required the Rock Dragon to transform at least hundreds of meters long to not look too big.

Therefore, a moment later, a rock dragon more than 300 meters long flew slowly above the Ferocious God Valley. On it sat a giant 40 meters tall and a little loli only 1.6 meters tall. However, this scene didn't attract much attention.

After all, this was the Ferocious God Valley. There were all kinds of people here. Sitting on the rock dragon, Han Fei saw the tall Mountain Giant digging the sand in the oasis and then refining the sand into huge cube-shaped rocks with some refining method. In the end, he stacked them into square bricks for use.

Also, in the bustling city, there was an endless stream of pedestrians on the road. At a glance, there were Sky Openers everywhere. After passing by a few people, Monarchs could be seen. Occasionally, Han Fei and some Monarchs would look at each other.

Different from the Divine Capital Dynasty, in the Ferocious God Valley, Monarchs were not so mysterious, nor would they deliberately hide themselves.

After all, the Divine Capital Dynasty was actually a dynasty system, while the Ferocious God Valley was a concentration camp of bandits. In decent people's eyes, this was probably the Capital of Sin.

Han Fei suddenly thought of something and said, "Long Yan, help me prepare a map of the Ferocious God Valley later, the comprehensive kind."

"Okay! I have a map. This is not a secret. I can give it to you for free."

Since even a Dao Proving Level cultivator personally served as a pimp, it would be ridiculous if a map was not for free. After all, their price was calculated by refined stars. It seemed that a refined star wasn't much, but it was something that Sky Openers dreamed of.

Fifty refined stars was a huge income for Sky Openers. It could even help them break through to the perfected Star Transformation Realm in one fell swoop.

Taking the map handed over by Long Yan, Han Fei perceived that it was indeed abnormally detailed. It actually was in three-dimensional form, almost copying the entire Ferocious God Valley, and there were words marking many popular places.

On the map, there were as many as 1,201 cities in the Ferocious God Valley. Two-thirds of the cities were built inside the mountain, and only one-third could be seen from outside.

Han Fei also learned that there were a large number of arenas in the Ferocious God Valley. There were more than 3,300 of them, covering all realms, and all races could sign up to participate.

Near these arenas, there were a large number of cultivation technique books, body-refining spiritual fruits, precious medicines, and so on. There were even some shops whose names were directly called the Unique Techniques of the Bandit God.

These shops sold what the Bandit God had learned in his life.

Seeing this, Han Fei's heart stirred. In that case, he could set up such a shop in the human race like this too. He had learned a lot in his life and many techniques were deduced from the Demon Purification Pot. They were definitely of a high level.

Besides these skills and techniques, what was the most popular in the Ferocious God Valley was weapons. Perhaps because this was the West Wilderness here, there were countless secret realms and ruins, so the weapons here were generally of a higher level. Some shops could even directly sell Nature Spiritual Treasure-level weapons. Of course, such shops were extremely rare.

"Huh, the Primordial Tower?"

Suddenly, Han Fei saw a tower in the middle of the map. It was wrapped in colorful light and looked extraordinary. And the introduction of the Primordial Tower really made Han Fei speechless.

In front of the Primordial Tower, there was a huge stone stele engraved with the words, "A real bandit dares to face the cruelty of the Primordial Tower. If you want resources, come to the Primordial Tower. If you want to gain experience, come to the Primordial Tower. If you want the inheritance of the Bandit God, come to the Primordial Tower... In a nutshell, if you want to become stronger, come to the Primordial Tower."

"Interesting."

Han Fei put away the map of the Ferocious God Valley, only to see that the rock dragon was taking him to shuttle from city to city. Han Fei couldn't help but ask curiously, "Where are you taking me to sell these people?"

Long Yan hurriedly said, "Senior, we're not going to find buyers, but to find a private auction house. There aren't many places that can buy these captives in one go, so the best target is the arena. These captives will enter the arena to make money for the boss of the arena. They won't be allowed to be ransomed until they earn a certain amount of money. And there are less than 50 qualified arenas in the entire Ferocious God Valley. There are a total of 13 arenas that can support the battle of Great Monarchs. If I've guessed right, these 13 arenas must have known that you are going to sell these people. They will come to whichever auction house we go to. My master, the Rock Dragon Bandit, has a private auction house. I can borrow it and you don't need to pay any service fee. There are also tea, spiritual fruits, comfortable seats, auctioneer, resource appraisers, and so on there..."

### God of Fishing

#### **Chapter 3259: Trafficking Captives, Making A Fortune (2)**

"Oh, really? For free?"

Long Yan grinned and said, "Senior, it's true. That's because the invisible benefits of this auction are a lot. For example, if you auction a Great Monarch-level powerhouse at my master's place, it will definitely increase the reputation of my master's auction house. In fact, my master will earn by exchanging a small benefit for fame."

Han Fei couldn't help but smile. A real strong master indeed had an absolute advantage wherever he went. Look, the treatment was so good.

After a while, when Long Yan took Han Fei to a gorgeous manor, a spiritual plant garden bloomed here. In the huge fountain square, dozens of Immortal-level powerhouses who had mastered the Great Dao of Water were controlling the fountain to perform a beautiful visual feast.

A burly old man stood on the head of a rock dragon, followed respectfully by more than 300 attendants. However, most of these people were in the Sea Establishment Realm or the Sky Opening Realm who hadn't entered the Star Transformation Realm.

"Master."

Long Yan waved her hand and shouted happily.

The old man frowned. "How rude. How can you lose your cool in front of a fellow Daoist of the Wild Ancient Race?"

With that, the old man looked at Han Fei with a smile. "Fellow Daoist, it's an honor to have you here. What's your name?"

Carrying the spear, Han Fei nodded slightly. "You can call me Tianqing."

"So it's Fellow Daoist Tianqing. It's an honor to meet you. I'm Li Yan. Fellow Daoist Tianqing, you're so young, but you've already obtained the inheritances of Great Monarch Tiangang and Great Monarch Tianming. You're really talented... Come on in."

Li Yan was actually quite strong. His strength was at the peak of the Immortal Level, and it seemed to have been stuck at this bottleneck.

Han Fei nodded slightly. He shook his spear and said, "Then what about these people? I can't let them go now. That female Monarch is quite strong."

"Hahaha! Little friend, don't worry. In the Ferocious God Valley, a mere Great Monarch won't be able to escape."

"That's right. Brother Tianqing, you have the ability to suppress a Great Monarch when you're only at the peak of the Immortal Level. As expected of a Heavenly Talent. I admire you."

"Tsk, tsk. In the past, I once had a drink with Patriarch Liu Tianming. If he becomes a bandit, there will definitely be top four bandits in the West Wilderness now."

One figure after another arrived. Han Fei looked over and found that they were all Great Monarchs.

Li Yan hurriedly cupped his hands. "Greetings, Great Monarch Lin Feng, Great Monarch Bai Mang, Great Monarch Shen Man..."

Han Fei also nodded slightly at them. Although he didn't know them, they were all Great Monarchs.

Li Yan said, "Great Monarchs, please come in and take a seat. Fine wine, delicacies, spiritual fruits, and tea have been prepared. When everyone is here, the auction will immediately begin."

"Okay!"

"Brother Tianqing, see you later."

"Tsk, tsk. This female Monarch is not bad. It's a pity that she's a demon plant. Otherwise..."

The female Monarch, who was hung on Han Fei's spear, almost wanted to die. She had never suffered such humiliation in her life. She swore that she would definitely take revenge in her lifetime, and the Wild Ancient Race would become her lifelong mortal enemy.

...

After a while, the people hanging on Han Fei's spear had been taken away by Li Yan.

At this moment, Han Fei was sitting on a super-large throne specially made for the War Giants, holding a cauldron-like wine cup in his hand, which was filled with good wine with spiritual fruits soaked in.

Long Yan stood respectfully beside Han Fei and said, "Senior, everyone has arrived. A total of 13 Great Monarchs and more than 30 Immortals have come. Please wait a moment. It won't be long before the auction begins."

Han Fei nodded slightly, thought for a moment, and threw out more than 70 spiritual treasures. "Take these too and auction them together."

"Wow!"

Long Yan's eyes widened. There were so many treasures. There were as many as 24 Nature Spiritual Treasures, nearly 50 Chaotic Spiritual Treasures, Connate Spiritual Treasures, and so on. Was this person so rich?

Long Yan immediately said solemnly, "Okay, Senior. You can rest assured. I'll definitely get the best price for you."

"OK! Go. Except you, no one can come into my room. Don't let others disturb me."

"Okay, Senior."

Long Yan hurriedly picked up the treasures and walked out, excited. She had thought that it was just an auction for these captives, but she didn't expect there to be so many Nature Spiritual Treasures and Chaotic Spiritual Treasures. This time, her master would make a fortune. Although there were many top treasures in the Ferocious God Valley, Nature Spiritual Treasures weren't something anyone could easily take out.

She didn't know if her teacher could afford to buy all these weapons. If he could buy them and slowly sell them, he would definitely be able to earn more.

Long Yan was letting her imagination run wild, but after Long Yan left, Han Fei immediately set up layers of seals.

Then, Han Fei took out the Vast Ocean Navigator.

He materialized the map of the Ferocious God Valley and immediately asked, "Where are the divine descendants of the Primordial Divine Race waiting for me?"

Han Fei believed that there must be some divine descendants waiting for him. Otherwise, if he couldn't enter the Death Spiral, how could he unseal their bloodline?

Sure enough, the Vast Ocean Navigator pointed to a certain place on the map.

"Huh? A restaurant near the Primordial Tower?"

Han Fei was thinking of going to the Primordial Tower to take a look. Since the contact was there, it saved him some time.

After confirming the location of the person from the Primordial Divine Race, Han Fei put away the Vast Ocean Navigator, removed the seal, and enjoyed himself leisurely.

This feeling of being a master was really awesome. He didn't know how much this batch of resources could be sold for. He still hadn't fused with his Origin Star. Just fusing his Origin Spiritual Heritage with it had consumed him a lot of resources. God knew how many resources he needed to completely fuse with his Origin Star.

### [God of Fishing](#)

#### **Chapter 3260: Trafficking Captives, Making A Fortune (3)**

He believed that he still had the ability to get the resources he needed in the Great Monarch Realm. If it didn't work out, he could go to the Dragon Race to freeload. However, he had to accumulate resources now. It would take countless resources to go from the Immortal Level to the Great Monarch Realm. Then who knew how many resources it would take to go from the Great Monarch Realm to the God Realm?

What if he didn't save enough?

...

On the other side, in the auction house, Long Yan's master, Li Yan, couldn't help but burst into a cold sweat.

"It's over. I can't take these all! Yanyan, this client you picked up is too rich!"

Long Yan asked, "Master, you've been in the Ferocious God Valley for so long. You can't afford to buy all these treasures?"

Li Yan was speechless. "Girl, what are you talking about? There are so many Nature-level spiritual treasures, all of which are priceless. Do you know how many refined stars these can sell for? No, I have to call some rich peers over. I have to take all of them."

After about half an hour, an auctioneer finally went on stage. Han Fei took a closer look. Good lord, wasn't this Li Yan himself? As the boss, this guy actually personally went on stage to host the auction.

Li Yan smiled and said, "Thank you for coming, fellow Daoists. I believe you've already seen some of the auction items today. However, you might not know that in addition to the captives from the Central Sea Divine Realm, we also have some Nature Spiritual Treasures at our Rock Dragon Auction House today, so please don't be in a hurry..."

In a private room, a Great Monarch said, "Old Li, let's not talk about these formalities. Only we are here today. We're mainly here for people. Just show us the captives!"

In another private room, someone also said, "That's right, Old Li. There are no outsiders today. Just bring the auction items up."

Li Yan smiled and said, "Of course. Only you can afford the captives of the Immortal Level and the Great Monarch Realm. In that case, I'll just show you the auction items."

Pa! Pa!

Li Yan clapped his hands and two Carefree Level powerhouses who had been sealed were brought up.

Li Yan said, "Everyone, Fellow Daoist Tianqing only brought two Carefree Level cultivators. These two people are strong masters from the Fist Sect and the Light City in the Central Sea Divine Realm. Their strength has reached the peak of the Carefree Level. If you buy them, they will naturally go to fight in your arena. Compared to the Great Monarch realm, the Carefree Level is more cost-effective. In addition, since they are going to fight in an arena, they can keep their spiritual treasures. Therefore, the starting price is one thousand 360,000 kilometer-level refined stars."

Han Fei nodded slightly. Although the starting price was not high, the two were only at the Carefree Level. If he robbed them normally, he might not be able to get this number.

Besides, the starting price was only the starting price. As long as these two people bid 2,000, he would earn.

"Two thousand. Only the Fist Sect guy is worth the price. The Light City one isn't. Since it's a tie-up auction, the price is not bad."

An Immortal Level powerhouse said, not interested in the peak-level Carefree Level cultivator of the Light City.

"2,500. The one from the Light City is a little weak, but I have a few enemies of the Light City in my arena. Why don't you give them to me?"

"Two thousand eight hundred. These two probably don't have any good treasures. This price is about right."

"..."

These people belittled the cultivator from the Light City, but they didn't hesitate to bid for them at all and exceeded Han Fei's estimated price.

However, when the price reached 3,500 refined stars, no one bid anymore. They seemed to feel that a higher price was indeed not worth it.

From beginning to end, none of the Great Monarchs spoke. Obviously, they weren't interested in these two.

But Han Fei didn't care. 3,500 refined stars were not bad. It was even better than robbing.

In the second round of auction, a demon plant of the Divine Demon Forest was pushed out, everyone immediately became enthusiastic.

Li Yan said, "I don't need to say anything about the second one. As you can see, this is an intermediate Immortal Level powerhouse of the Divine Demon Forest, who has stacked more than 600 laws. He's not weak. The starting price is 1,000."

"I offer 2,000."

"I'll pay 2,500. His belongings are worth some money. 2,000 is indeed too little."

"3,000. After all, he's at the Immortal Level. Give him some face."

"3200..."

"..."

Han Fei was overjoyed. It seemed that the Immortal Level was really popular. After a while, the bid reached 4,200 pieces.

Finally, a Great Monarch said, "4,500 pieces. This price is very high. There's no need to raise the price anymore."

Sure enough, as soon as the Great Monarch spoke, no one bid anymore. Now Han Fei had known the value of the Immortal Level. He had thought that it would be good enough if he could get one or two thousand refined stars, but it far exceeded his expectations.

Next, round after round of Immortal-level powerhouses were pushed up. Faced with the bidding of a group of people, these people were ashamed and resentful, but since they were already in the Ferocious God Valley, they could only accept their fate.

However, among the 22 Immortals, only one from the Primordial Divine Academy and a peak-level Immortal-level cultivator from the Flying Immortal Tower were sold for 5,000 refined stars. The rest's prices only fluctuated between 3,800 and 4,500. The worst was the Immortal-level cultivator from the Thousand Phenomena Sect, who was only worth 3,200.

At this point, all the Immortals had been auctioned, and Han Fei had obtained 95,900 refined stars. Due to the high quality of the refined stars, this was barely comparable to the harvest of an ordinary Great Monarch's Origin Star and refined stars.

Li Yan shouted, "Everyone, next is the most important auction item of the first round. A Great Monarch from the Divine Demon Forest. Few Great Monarchs have been captured alive to the Ferocious God Valley. Its value can be seen. The starting price is 50,000 refined stars. The auction begins."
