#### Chapter 3261: Trafficking Captives, Making A Fortune (4)

"60,000."

The Great Monarch who came here spoke as if he had been prepared and replied almost instantly.

"70,000."

"80,000."

Most of the Immortal-level powerhouses who came to bid smiled bitterly. It was rare to see a Great Monarch-level captive! Unfortunately, this was not something they could afford.

A Great Monarch said, "100,000. Let's start with this price! Don't bid below this price."

"120,000. My God Sealing Arena wants her."

"150,000. Brother Chen, your God Sealing Arena is so big. Isn't the price too low?"

In a private room, a Great Monarch said in a low voice, "200,000. Fellow Daoists, do me a favor and give her to me, OK?"

"Hiss!"

Curses rang in many private rooms. "Brother Gao, you're raising the price too fast!"

"Brother Gao, are you really buying her for your arena?"

"Hahaha!"

All the private rooms burst into laughter.

On the auction platform, the Divine Demon Forest's female Monarch was trembling slightly. Shameless b\*stards, a bunch of shameless b\*stards. She swore that she must flatten the West Wilderness in this life.

Han Fei, who was sitting in the private room, had already taken out his big pipe, drinking spiritual fruit wine and smoking the big pipe happily.

If he had known that the Great Monarchs of the Central Sea Divine Realm were so valuable, he would have caught two more in the Uninhabited Forbidden Area. If he couldn't catch them in the Uninhabited Forbidden Area, he would have gone to the front line battlefield to catch them.

After a round of bidding, in the end, the Great Monarch from the Wild Arena who had offered 200,000 refined stars won the bid for this Divine Demon Forest's female Monarch with a terrifying number of 280,000 refined stars.

Although there might be a million refined stars surrounding the Origin Star of a Great Monarch, in fact, there were usually only about 100,000 of them that could reach the 360,000-kilometer level. Han Fei had robbed more than one or two Great Monarchs, so he knew this quite well.

It could be said that the price of 280,000 refined stars had already exceeded the real value of this Divine Demon Forest's female Monarch. Even including her Nature Spiritual Treasures and Soul Suppressing Spiritual Treasure, she might not be worth this price.

Besides, he had exploited almost 10,000 refined stars of the female Monarch.

At this moment, Han Fei could only say that he had made a fortune.

Li Yan was overjoyed at such a high price. This would be his signboard in the future!

However, Li Yan called out to everyone, "Everyone, please take a rest. Next, there are ten Nature Spiritual Treasures, all of which are the best of the best. Don't miss them."

Han Fei, who was drinking fine wine, frowned slightly and then looked at Long Yan beside him. "Ten pieces?"

Long Yan hurriedly explained, "Senior, the rarer something is, the more precious it is. If your treasures are released at once, it will only lower the price of the spiritual treasures. Ten pieces, no more, no less, is the most suitable. Of course, the Rock Dragon Arena will buy the other spiritual treasures at the market price. You can decide according to the price of this auction. In short, we will definitely not let you suffer a loss."

"Um!"

Han Fei nodded slightly. Although this girl had her own thoughts, she was right. If he took out too much at once, it might indeed cause market prices to fluctuate.

He was short of resources now. As long as the Rock Dragon Arena paid him enough money, it didn't matter if he gave the Nature Spiritual Treasures to them or others.

However, after this auction, to be honest, Han Fei wanted to be a bandit here. It turned out that another reason for the fact that there were countless bandits here was that these captives were very valuable. If he robbed a batch of them and sold them in the Ferocious God Valley, he could become rich overnight. No wonder countless people served as bandits in the West Wilderness.

Han Fei only gave out low-quality and mid-quality Nature Spiritual Treasures. He had obtained a lot of these spiritual treasures in the Primordial Ancient Land, so he didn't care.

Soon, he got a rough value.

A low-quality Nature Spiritual Treasures was worth about 3,000 to 5,000 refined stars.

A mid-quality Nature Spiritual Treasure was worth between 10,000 and 50,000.

Generally speaking, there were very few Immortals who had mid-quality Nature Spiritual Treasures. Among these captives, there were only one or two who had mid-quality Nature Spiritual Treasures, and their treasures had long been taken in by Han Fei.

According to this calculation, the value of a high-quality Nature Spiritual Treasure was definitely above 100,000 refined stars. However, this was reasonable. A high-quality Nature Spiritual Treasure could support a whole sect. Its value could be seen.

In the end, Han Fei earned 180,000 refined stars from the ten Nature Spiritual Treasures.

Han Fei had earned 570,000 refined stars on this trip to the Ferocious God Valley although he hadn't found the divine descendants yet. This amount of resources was probably equivalent to the Origin Star of a peak-level Extreme Dao Great Monarch.

Long Yan often turned her head to look at Han Fei, secretly clicking her tongue and fantasizing. If she could become an outstanding bandit one day and rob a Great Monarch, she could probably earn the wealth enough for her to spend in her entire life.

"Gulp~ Ah~"

Han Fei finished the spiritual fruit wine in the cup in one gulp and threw out a bag of refined stars. "You did a good job. This is what you deserve."

Long Yan was overjoyed and quickly took the bag. No matter how much others earned, it was theirs. It was useless for her to be jealous of others.

However, when she scanned the bag with her perception, she was slightly stunned. "Senior, there are 50 more. I only charge 50."

Han Fei said, "The others are my tip for you. They're not worth mentioning."

Upon hearing this, Long Yan didn't reject. Who wouldn't want the money picked up for free? However, she still reminded him out of morality, "Senior, you have too many refined stars at the moment. This matter will definitely spread. Therefore, if you want to leave the Ferocious God Valley in the near future, you'd better get someone from the Wild Ancient Race to receive you. Otherwise... it's very likely that you won't be able to walk out of the periphery of the Ferocious God Valley."

Han Fei thought to himself, That's good. I'll just rob those who want to rob me.

Of course, Han Fei had no time to rob now. The most important thing now was to solve the bloodline problem of the divine descendants as soon as possible so as to start a full-scale war between the West Wilderness and the Central Sea Divine Realm.

As soon as the Primordial Divine Race reappeared, the Central Sea Divine Realm no longer had the power to suppress the other four Divine Realms. At that time, it would be time for him to enter the Central Sea Divine Realm.

### **Chapter 3262: Looking Back (1)**

Under Li Yan's enthusiastic invitation, Han Fei stayed at the Rock Dragon Auction House for a night and drank a lot of spiritual fruits and wine.

In the end, there were nearly 60 Chaotic Spiritual Treasures and Nature Spiritual Treasures left. Li Yan offered a high price of 200,000 refined stars. Han Fei had no objection to this.

There were only 24 Nature Spiritual Treasures he gave out, and he had sold ten of them at the auction. The rest were only low-quality and mid-quality Nature Spiritual Treasures, totaling about 150,000 refined stars. And the prices of Chaotic Spiritual Treasures below Nature Spiritual Treasures were not so

high. More than 50 of them were only sold for 50,000 refined stars in total, but Han Fei was satisfied with this price.

That night, Han Fei received 770,000 refined stars. He was really rich now.

The news that the Rock Dragon Auction House had auctioned a Great Monarch-level powerhouse from the Divine Demon Forest spread throughout the Ferocious God Valley on this day. The Rock Dragon Auction House was in the limelight for a while.

Li Yan took the opportunity to announce that the second round of auction would begin in a month.

However, Han Fei was no longer interested in how Li Yan would auction the treasures.

...

The next day, Long Yan still served Han Fei with all her heart. However, Han Fei didn't go straight to the Primordial Tower to meet the people of the divine descendants. Instead, he asked Long Yan to take him around the Ferocious God Valley and introduce the Ferocious God Valley to him.

At the same time, Han Fei had another purpose, which was to evolve the Time Chain.

In fact, he should have evolved the Time Chain a long time ago. After all, it had been a while since he obtained the eighth vine.

However, the last time he evolved the Time Chain, he consumed 624 refined stars, which was hundreds or thousands of times more than last time. Therefore, he didn't dare to evolve the Time Chain again.

Now that he had obtained a large amount of resources, he wasn't afraid of wasting them. He didn't believe that the consumption of this time would still be hundreds or thousands of times more than last time.

In his Origin Star, resources were being consumed crazily. Han Fei estimated that he wouldn't be able to see the Time Chain upgrade for a while. Last time, it took 28 days. This time, it would take at least a month.

Therefore, he was not in a hurry. Instead, he strolled leisurely in the Ferocious God Valley.

On the first day, everyone talked about Han Fei happily. People often looked at Han Fei who had even captured a Great Monarch.

However, after shopping for three days in a row, no one was interested.

On the fifth day after Han Fei came to the Ferocious God Valley, he said to Long Yan, "Let's go to the Primordial Tower."

Long Yan thought to herself, You're finally going to the Primordial Tower. She had never seen such a strong master come to the Ferocious God Valley but not go to the Primordial Tower.

After a while, the rock dragon carried Han Fei to the vicinity of the Primordial Tower. The rock dragon was about to fly to the Primordial Tower when Han Fei said, "Stop. Before going to the Primordial Tower, I want to eat my fill."

"Okay, Senior. I can recommend a top restaurant to you. It's very good."

Han Fei said, "Let's go to that tavern 'Waiting for Someone'."

"The tavern 'Waiting for Someone'?"

Long Yan said in surprise, "Senior, I didn't expect you to know that tavern. This tavern is extremely famous in the Ferocious God Valley. This shop has been open here for hundreds of thousands of years and can be considered an old restaurant in the Ferocious God Valley. Although their dishes are ordinary, their refined wine is very good. If you like to drink, you can't miss this shop. But..."

"But what?"

Long Yan said, "However, it's said that only those who are fated can drink the tavern's refined wine. Sometimes, no one can taste it even in hundreds of years, and sometimes a jar of wine is opened every once in a while. I wonder what kind of fated person is."

Han Fei asked, "The tavern's name is 'Waiting for Someone'. Who the tavern owner is waiting for?"

Long Yan shook her head. "I don't know. If the landlady had met the one she is waiting for, this tavern might have been closed. I don't know what kind of man is worth her waiting for."

Han Fei asked, "How do you know that she's waiting for a man?"

Long Yan said matter-of-factly, "That can only be a man! In this world, if there's something that both ordinary people and gods have, it's feelings. Especially love, it's such a wonderful thing. Unfortunately, in the world of cultivation, everything is too cruel. Who knows if the other party can accompany you for the rest of your life? Alas..."

Seeing Long Yan's sentimental look, Han Fei couldn't help but ask, "Did your lover die?"

"No, no. Senior, I don't have anyone I like yet."

Han Fei: "..."

"Then come on, let's go and take a look."

Long Yan grinned, patted the head of the rock dragon, and then flew to the tavern 'Waiting for Someone'.

In the Ferocious God Valley, although there were many strong masters, there were also many strong masters who liked delicious food and wine.

However, it was not possible for everyone to come to the restaurant to eat every day, so after Han Fei entered the hotel, there were only two or three tables of customers.

However, the guests at these tables were not ordinary. There was a Great Monarch and a peak-level Immortal among them. Even the landlady was a Great Monarch.

At this moment, these people all looked at Han Fei.

Long Yan didn't notice anything wrong. She felt that it was normal. After all, Han Fei was big. Anyone would take a second look at him. She couldn't help but look at Han Fei who was more than 40 meters

tall, wondering if there was a table for him to sit on. His bulging muscles looked like iron lumps that were about to explode.

Long Yan couldn't help but think that her Rock Dragon race was the best. Although she was also a mineral-type lifeform, their Rock Dragon race wasn't big at all, and they were quite beautiful with porcelain-white skin. If she became like Han Fei, she would be horrified.

### [God of Fishing](#)

#### **Chapter 3263: Looking Back (2)**

Long Yan asked, "Senior, should we become smaller?"

However, Han Fei didn't respond to her, because he had already recognized the people sitting here.

At one of the tables, a young man who was drinking tea was looking over with a smile. This person was Jiang Buyi, who had almost ruined his plan in the Miracle Forest.

As for the person at the other table, he was even more familiar with him. It turned out to be Chu Hao, who was sitting there drinking. Opposite him, a set of bowls, chopsticks, and wine glasses had been set up, but there was no one opposite him. Clearly, he was waiting for someone.

The landlady was dressed ordinary and even looked like a village girl. However, no matter how plain her clothes were, they couldn't hide her beautiful face and the special temperament of a Great Monarch.

Seeing Han Fei come in, the landlady sighed slightly and then took out a golden wine jar.

Seeing this, Long Yan took a deep breath and said, "Senior, look, this is the peerless wine I mentioned..."

However, Han Fei still didn't speak or move.

Just as Long Yan was wondering, Jiang Buyi gently raised his cup to Han Fei, smiled, and said, "Fellow Daoist Wang Han, oh no, Fellow Daoist Han Fei, long time no see."

Chu Hao also said, "I've been waiting for you for a long time. I didn't expect that I would have to wait for you for three hundred years."

Long Yan was dumbfounded. Who were they talking to? Wang Han? Han Fei? Wasn't that the Human Emperor of the East Sea Divine Realm? How could the Human Emperor be here?

Seeing this, Han Fei knew that his identity had been exposed. Although he didn't know why his identity was exposed, from the moment he stepped into this tavern, he knew that.

At this point, Han Fei stopped pretending. His tall figure slowly shrank, and in the end, he was only one head taller than Long Yan. Under Long Yan's stunned gaze, a living war giant turned into an extraordinary human man with sharp eyes.

She suddenly realized that this person was not a strong master of the War Giants. Thinking back to the time she had followed Han Fei these days, she had discovered many times that Han Fei knew very little about the Ferocious God Valley.

At that time, she thought that it was because Han Fei rarely came to the Ferocious God Valley. After all, the Wild Ancient Race was very large. They didn't have to be familiar with the Ferocious God Valley.

But now, she was a little stiff, because the suppressing pressure suddenly emitted here had reached a point where she couldn't resist it.

Han Fei raised his hand and gently pressed it on Long Yan's shoulder. Instantly, an invisible force washed away the extremely uncomfortable suppressing pressure on Long Yan.

Seeing this, Jiang Buyi was slightly surprised. "Oh, you're already a Great Monarch? I'm really impressed by Brother Han's improvement in strength. It's really enviable that you became a Great Monarch in just three hundred years!"

Long Yan looked at Han Fei in surprise. Great Monarch? Didn't he say he was an Immortal-level cultivator? She suddenly realized that she seemed to have learned some great secret. If she sold this secret immediately, it would definitely be priceless. Perhaps she could sell it for tens of thousands or even hundreds of thousands of refined stars.

However, Long Yan was not stupid. Was she qualified to sell such a secret?

No, she wasn't.

Not to mention that she didn't, even her teacher, Li Yan, wasn't qualified. Therefore, although she knew that this information was very valuable, she could only keep it to herself.

Han Fei looked at Long Yan and said casually, "Okay, your escort time is over. This matter has nothing to do with you. Don't leave the Ferocious God Valley for the time being..."

Then, Han Fei threw a bag of a hundred refined stars to her and said, "This is the compensation for you."

Long Yan immediately bowed respectfully to Han Fei. "Yes, Senior. I didn't see anything or know anything."

It wasn't until Long Yan left the tavern that Han Fei slowly said, "I'm very curious. How did you recognize me? I think my concealment technique can't be seen through by you."

Chu Hao said, "Sometimes, you don't have to see through your disguise to see through you. When you came to the Ferocious God Valley to look for traces of the divine descendants, we knew it's you."

Jiang Buyi smiled faintly. "The West Wilderness has long been searched through by the Central Sea Divine Realm. I dare not say that I've turned this place upside down, but it's about the same. I don't think you can directly find the Primordial Divine Race by coming here. Therefore, the best way is to wait for you in the Ferocious God Valley. You may or may not appear, but this is at least the only choice. Fortunately, you came."

Han Fei narrowed his eyes, thinking that the Primordial Divine Race had caused this trouble for him. If they had long discovered that something was wrong with the Ferocious God Valley, shouldn't they have told the Wild Ancient Race how to go to the Primordial Divine Race?

"Wait..."

Suddenly, Han Fei's heart stirred. When he came to the Wild Ancient Race, Liu Tianming and the others didn't give him a chance to enter the Wild Ancient Race.

Logically speaking, since they were guests from afar, they should have invited him into the Wild Ancient Race to entertain him, but they didn't. Instead, they tried to make him come to the Ferocious God Valley. Did this mean that the Wild Ancient Race at that time was actually being monitored, or had a god been paying attention to there?

Han Fei's heart turned cold. If that was the case, the Central Sea Divine Realm would have set up a big trap. In addition to searching and fighting the West Wilderness with various means on the surface, they had also planned a big plan.

Sure enough, the Central Sea Divine Realm who could suppress the other four divine realms couldn't be that simple.

Jiang Buyi continued, "You have the Vast Ocean Navigator. Everyone knows this. This is your advantage, but it can also become my advantage."

### **God of Fishing**

#### **Chapter 3264: Looking Back (3)**

Han Fei casually walked to Chu Hao's table and chuckled. "Good move."

Jiang Buyi took a sip of tea and said, "You flatter me."

Han Fei looked at Chu Hao. "Your race only sent you to the Ferocious God Valley? Can't you send more people?"

Chu Hao took a deep look at Han Fei. "Several of us came, but we are all being targeted. Now, the others are all in my Origin Star."

Han Fei's pupils were constricted. He couldn't help but look at Jiang Buyi. "How did you find them?"

Jiang Buyi smiled and said, "Of course I can't tell you how, but the bloodline of the divine descendants is very special. There are only this many people in the Ferocious God Valley in total. It's impossible for the Central Sea Divine Realm not to find a few people here."

Han Fei sneered. "But you haven't found the Primordial Divine Race after searching for 100,000 years."

Jiang Buyi shrugged. "That's different. The Ferocious God Valley is naturally incomparable to the vast Sea Realm."

At this moment, the landlady came to Han Fei's table with a pot of wine. Her voice was elegant and crisp. "Try it. It might not be as good as Zhang Shaoling's wine, but in terms of taste, it will only be better than his."

Han Fei's heart stirred. Good lord, the landlady immediately called out Fifth Senior Brother's name. She was indeed not an ordinary person!

Han Fei: "Thank you."

At this moment, Han Fei's mind was racing. He had really underestimated the means of the Central Sea Divine Realm. Now that he had been discovered, could he still leave the Ferocious God Valley?

He could even imagine that his current words and actions might cause a divine battle at any time.

From Chu Hao's words, Han Fei knew that within a small range, the divine descendants couldn't escape the investigation of the Central Sea Divine Realm. They should have some way to distinguish the bloodline of the divine descendants.

Han Fei chuckled. "This is another one of your clones, right? Why? Are clones so cheap? How can you abandon them so easily?"

Han Fei was sure that Jiang Buyi was definitely fake. If he were really here, he would have been killed long ago.

Jiang Buyi said indifferently, "A clone is naturally used. I'm not stupid enough to come to the Ferocious God Valley with my original body. Otherwise, the one opposite you would have torn me apart long ago."

Han Fei asked, "Aren't you afraid that I'll tear you apart now?"

Jiang Buyi clicked his tongue. "How do you know that I'm only a clone?"

Han Fei said, "It seems that your clones are really worthless. Then let's see how many I can kill."

At this moment, the landlady suddenly said, "In the Central Sea Divine Realm, the Heaven Concealing Divine Race had a Supreme Nature Treasure called the Concealing Divine Seal. This seal has the magical power to conceal the Heavenly Secrets and avoid all techniques. This is also one of the only Supreme Nature Treasures known to be able to avoid the locking of the Vast Ocean Navigator."

The landlady said calmly, revealing why Jiang Buyi was so fearless.

Han Fei frowned slightly. A Supreme Nature Treasure? Did this b\*stard also have a Supreme Nature Treasure? A Supreme Nature Treasure that could even resist the Vast Ocean Navigator.

Didn't this mean that he would never be able to find this guy's original body?

"Concealing Divine Seal?"

Han Fei's eyes turned cold. "I hope you hide well. Don't let me find you."

"I will. However, we don't have to be enemies. I don't care if the divine descendants revive or not."

"Oh? What do you want?"

Jiang Buyi held a teacup and said leisurely, "Give me the Demon Purification Pot, and the Chaotic Divine Race and I will no longer interfere in the affairs of the divine descendants. All grudges between us can be written off. What do you think?"

"Heh ~"

This time, Han Fei didn't even bother to answer. He reached out a void hand and enveloped Jiang Buyi with the strength of a Great Monarch. The latter didn't dodge, because if he couldn't dodge it, why should he?

Bang!

Jiang Buyi's clone was crushed by Han Fei's void hand. The terrifying explosive power failed to shake Han Fei's palm. Who could have known that an Immortal-level clone would die in this small tavern in the blink of an eye?

"B\*stard, how dare you covet the Demon Purification Pot?"

At the moment when Jiang Buyi's clone died, a rock dragon at the entrance of the Ferocious God Valley lazily turned its head to the side and continued to sleep.

Seeing this, Chu Hao shook his head slightly. "This way, it will be even harder for you to find him."

Han Fei sneered. "Why do I need to find him? One day, he will come to me himself. Or maybe, he will never be qualified to come to me."

Then, Han Fei asked, "Can we kill in the Ferocious God Valley?"

The landlady said, "It's best not to. It's easy to cause chaos. After all, there are still many weak people here. Once they're implicated, it will affect the reputation of the Ferocious God Valley. However... it's not that we can't kill them. Just don't give them a chance to resist. The Bandit God will only turn a blind eye to this."

"Then I'll kill them. I lack money."

Although Han Fei didn't know how to address the landlady, she was obviously on his side. At this moment, he already knew that he couldn't leave the Ferocious God Valley for the time being.

Since he couldn't walk out, he would kill all the hidden spies of the Central Sea Divine Realm in the Ferocious God Valley first.

However, the landlady said carelessly, "No rush. Let's drink."

"Uh..."

Half of Han Fei's killing intent was dispersed by the lady boss's words.

At this moment, Han Fei remembered that he hadn't asked who the landlady was.

Han Fei asked, "Senior, you are?"

"Don't speak. Drink."

"Huh?"

Han Fei was full of doubts. He had drunk too much good wine. How could he care about this sip? However, when he opened the wine jar, an enticing fragrance wafted into his nose.

[God of Fishing](#)

**Chapter 3265: Looking Back (4)**

Gulp!

At that moment, Han Fei almost lost himself but calmed down in the blink of an eye. However, although he was calm, his thoughts began to run wild for some reason. He missed Xia Xiaochan, Ximen Linglan, and even Jiuying Ling...

"This wine..."

Han Fei's face changed slightly. He hadn't drunk the wine, but it could already awaken some feelings in the depths of his heart. What would happen if he drank it?

The landlady poured the wine herself. Looking at the crystal clear wine, Han Fei didn't know if he should drink it or not.

Opposite Han Fei, Chu Hao smacked his lips and said, "Lady Boss, can I?"

"No!"

Chu Hao sighed slightly and stared at the wine in front of Han Fei, a little envious.

Han Fei was stunned. "Senior, this is too sudden. Who are you?"

"Heh ~"

The landlady didn't threaten Han Fei with force, but tried to persuade him. Although her tone was a little harsh, unexpectedly, Han Fei found that he couldn't feel disgusted at all.

Han Fei immediately picked up the wine bowl and took a tentative sip.

All of a sudden, Han Fei felt a smell of alcohol that he had never felt before wash through his body. Countless images of what he had experienced in the past appeared in his heart, including Xia Xiaochan's, Ximen Linglan's, and Jiuyin Ling's...

At that moment, in an instant, he experienced countless emotions such as happiness, joy, sadness, weight, guilt, and so on.

Han Fei didn't expect this. This wine was simply terrifying. Who could make such a strange wine? No wonder the landlady said that her wine was more delicious than Fifth Senior Brother's.

Han Fei only took a sip and didn't dare to drink again. But next to him, the landlady was looking at him, which made Han Fei a little scared. He thought to himself, Aren't I here to save the Primordial Divine Race? But why do I feel that I've been in a crazy relationship in the Ferocious God Valley?

"Senior, what are you..."

"Finish it. Aren't you confident with your Dao heart?"

"Okay!"

In terms of the taste of this wine, it was indeed unparalleled, but the feeling of drinking it was also unparalleled.

When Han Fei finished the entire bowl in one gulp, his expression changed so much that even Chu Hao was a little envious.

It took Han Fei half an hour to recover from the alcohol. At the same time, he seemed to understand something.

Seeing that Han Fei had finished it, the landlady asked, "Does it taste good?"

Han Fei nodded with difficulty. "It's delicious, but I'm a little drunk. What's the name of this wine?"

"Looking back."

The landlady said calmly, "Every time Lei Heng came, I would open a jar for him. Six God also came once, but they didn't dare to come again. Azure Dragon once thought of coming to cause trouble, but after drinking a bowl, he left with a jar..."

Han Fei wasn't surprised at all that Senior Brother Lei Hen had been here, but why did Senior Brother Six God and Senior Brother Azure Dragon come here too? Besides, Senior Brother Azure Dragon wanted to cause trouble here?

"So, Senior, who are you?"

The landlady said indifferently, "Ying Lingke from the Primordial Divine Race. I almost became your senior sister."

"Hiss!"

Han Fei immediately became serious. This person was a ruthless person who almost became his senior sister. This proved that her talent was clearly enough to enter the Void Temple.

Han Fei asked, "Senior Yue, why didn't you become my senior sister in the end?"

Yue Lingke smiled faintly and said with a sigh, "Sometimes, falling in love with someone will ruin your life. Han Fei, can you help me bring this jar of wine to Zhang Shaoling?"

"Huh? Fifth Senior Brother?"

How could Han Fei not understand? Fifth Senior Brother loved wine as much as his life. Yue Lingke wanted him to bring him wine, and it was this kind of wine.

More importantly, this wine was probably not easy to bring! Otherwise, if Senior Brother Lei Heng, Senior Brother Six God, and even Senior Brother Azure Dragon had come, how could he succeed?

Han Fei said, "Senior, I can try, but I can't guarantee that Senior Brother will take it, let alone drink it."

Yue Lingke said, "It doesn't matter. You can give him the wine when you gather. Just tell him that this is the last time I'll send him wine. There won't be a next time."

"Uh ~ Okay."

Although Han Fei didn't know what the wine represented, he felt that there must be many stories behind Fifth Senior Brother's heartlessness. He also hoped lovers can have a happy ending, so he didn't refuse.

Seeing Han Fei take it, Yue Lingke was slightly relieved and then said, "The Central Sea Divine Realm won't be able to find the Primordial Divine Race so quickly, but Han Fei, don't leave the Ferocious God

Valley. It's not that you can't leave, but you won't be able to escape the pursuit of a God Slaying-level powerhouse."

"A God Slaying-level powerhouse?"

Yue Lingke said, "If it were a group of ordinary gods, how could they be qualified to harvest the descendants of gods? From the moment you stepped into the West Wilderness, it's very likely that you've been exposed. However, God Slaying-level powerhouses don't dare to attack you unless they want to die. However, although they won't attack you, they can use you to find the Primordial Divine Race, so they're not in a hurry."

Han Fei's heart sank. Sure enough, Liu Tianming and the others must know something, but they didn't tell him directly.

It made sense. Although Liu Tianming and the others were powerful, they didn't have a god-level powerhouse guarding them, so they were inevitably afraid of God Slaying-level powerhouses. It was for this reason that Liu Tianming made him come to the Ferocious God Valley and even gave him the Star Explosion Bracer.

Obviously, the Star Explosion Bracer was given to him to show the attitude of the Wild Ancient Race.

Luring him to come to the Ferocious God Valley meant that they were powerless to help the divine descendants.

Suddenly, Han Fei's face changed drastically. "Oh no, I've been to the Uninhabited Forbidden Area and tried to enter the Death Spiral. Then wouldn't all this be seen by a God Slaying-level powerhouse?"

However, Yue Lingke said calmly, "It's useless. Even if they know that the Death Spiral is the entrance, they can't enter it. Even if they forcefully enter it, the space they go to will be wrong. Do you think the people in the Uninhabited Forbidden Area are looking for the entrance? No, they are fishing for the divine descendants to take the bait."

"Uh..."

Han Fei felt a chill down his spine. The Central Sea Divine Realm used a Great Monarch-level powerhouse and a group of Immortal-level cultivators as the bait? These people are really crazy!

However, they didn't expect that the bait they released would be accidentally swallowed by him.

Chu Hao said, "When I entered the West Wilderness, I was also used as bait. Fortunately, Shopkeeper Yue saved me."

Han Fei asked, "Then what should we do now? Isn't this a dead end?"

Yue Lingke shook her head slightly. "There's still a chance."

"What?"

Yue Lingke looked out of the tavern and said indifferently, "Primordial Tower."

[God of Fishing](#)

**Chapter 3266: Bandit God Takes Action (1)**

"Primordial Tower?"

Han Fei's heart stirred. "Can the Bandit God take me there in person?"

Yue Lingke shook her head. "The Bandit God can't take any action. If he goes to the Primordial Divine Race, won't it be equivalent to telling the God Slaying-level powerhouses of the Central Sea Divine Realm where the Primordial Divine Race is?"

Han Fei was puzzled. "Then what can this Primordial Tower do?"

Han Fei still remembered those words that "A real bandit dares to face the cruelty of the Primordial Tower... If you want to become stronger, come to the Primordial Tower."

He didn't need the Primordial Tower to help him become stronger now. It was only a matter of time for him to become stronger. As long as he had enough resources, he believed that he would reach the peak of the Great Monarch realm sooner or later.

Chu Hao sighed and said, "Han Fei, one thing is very cruel. We have to admit that the Central Sea Divine Realm has already set up an inescapable net. Whether you know the Divine Concealment Technique or any other concealment technique, it's useless. The Bandit God is restrained, the four Divine Realms are restrained, and the West Wilderness, including those forbidden places, is actually under their control. Unless the Three Temples come in person, if the Central Sea Divine Realm really attacks with all their strength, the four Divine Realms combined will still be no match for them. Now it's just that they don't want to fight a life-and-death battle."

Han Fei narrowed his eyes and pondered for a moment. "Is the Central Sea Divine Realm so strong?"

In addition to repairing the bloodline of the divine descendants, Han Fei still wanted to unify the Sea Realm. Now Chu Hao told him that the Central Sea Divine Realm was very strong, and the four Divine Realms combined couldn't beat it. Everything in the West Wilderness was monitored by them. How could he fight such a Central Sea Divine Realm?

Han Fei sneered. "It's already an inescapable net, but Jiang Buyi, that b\*stard, still wants my Demon Purification Pot? Is he out of his mind?"

"No! If he quits, it can indeed balance the power of the Central Sea Divine Realm and the four Divine Realms."

Yue Lingke pulled out a stool and sat down too.

While Han Fei was wondering, he heard Yue Lingke say, "Although the Chaotic Divine Race is not famous, it's only for ordinary people. There's no real strong master who isn't afraid of them. This race already has God Slaying-level powerhouses. On the surface, they have three gods. But in fact, it's unknown how many gods they have. Therefore, if the Chaotic Divine Race withdraws, the divine descendants will really have a chance to withstand the pressure of the Central Sea Divine Realm if they join forces with the four Divine Realms."

"Is the Chaotic Divine Race so powerful? Don't their strong masters have to go to the Sea of Stars battlefield?"

Yue Lingke said, "They still have so many strong masters here after the two conscriptions. That's why Jiang Buyi is so fearless. This is why we're too lazy to touch him."

Chu Hao poured himself a cup of wine and drank it in one gulp. "Therefore, although we know a way to return to the clan, we don't have a chance to return to the clan."

Han Fei couldn't help but ask curiously, "Didn't you say that there are divine descendants in your Origin Star? If even the West Wilderness is watched by the strong masters of the Central Sea Divine Realm, how did you come out?"

Chu Hao said, "It's precisely because we came out that the divine battles were triggered. The first time, someone came out to receive you. After being discovered, the Bandit God personally took action and saved them back to the Ferocious God Valley. The second time, I came out to receive you and investigate the news by the way. But I was discovered too and was saved by Miss Yue, which also caused a divine battle. The other time, two God Slaying-level powerhouses from the Central Sea Divine Realm were about to attack the Ferocious God Valley by force but were stopped by the powerhouses of the four Divine Realms together."

Han Fei was stunned. "Isn't it said that the three times the Divine Descendants were discovered are all because of those bounties, bandits, and whatnot?"

Chu Hao sneered. "Nonsense, that's just a distraction. How can they find the entrance that you can't even find with the Vast Ocean Navigator? The bounty, the encroachment, and the war are just to throw the West Wilderness into chaos. While the Central Sea Divine Realm monitors the divine descendants, they are also weakening the power of the West Wilderness. They even try to reconstruct the layout of the West Wilderness. Heh... After all, the West Wilderness has been independent for too long. Too many strong masters have been born here. The Central Sea Divine Realm is prepared to finish them in one fell swoop. This is the fundamental reason why the Bandit God attacked without hesitation."

Han Fei rubbed his eyebrows. "Doesn't that mean that the Central Sea Divine Realm is invincible? Then in addition to the Primordial Tower, I can only use the void mark, right?"

Yue Lingke suddenly said, "If you use the void mark, who will come? Lei Heng, Six God, Dark Shadow, Green Lotus, Red Lotus, Zhang Shaoling, Azure Dragon... Except for Dark Shadow who has become a god, there is no god among them. Even if they can directly advance to the God Slaying level, do they have the time?"

Han Fei couldn't help but look at Yue Lingke. He didn't expect her to know so much about the people of the Void Temple.

Yue Lingke continued, "Apart from them, only three people from the Void Temple can come. But as you know, the Three Temples are probably very busy at the moment since the ominous has returned. Although they will indeed come if you use the void mark, doesn't your Void Temple value personal trials very much? More importantly, are you willing to use the void mark for an irrelevant race?"

Han Fei said solemnly, "It's not irrelevant! My wife also has the bloodline of a god. If it's really necessary, I'll use the void mark. However, what's the situation with the Primordial Tower? From what you said, the Primordial Tower seems to be able to help us break through the net."

Yue Lingke said, "The Primordial Tower is a Supreme Nature Treasure from the ancient Primordial Era. It exists for guarding the West Wilderness. The West Wilderness can preserve the land, ruins, and secret realms of the Primordial Era to the greatest extent because of the Primordial Tower."

"A Supreme Nature Treasure?"

### God of Fishing

#### **Chapter 3267: Bandit God Takes Action (2)**

Han Fei was immediately energized. The Supreme Nature Treasures he knew so far all had extremely powerful abilities in one aspect.

For example, the Distanceless Gate could ignore distance.

For example, the Creation Divine Prison could suppress the gods.

For example, the Chaotic Clock could seal all timelines.

For example, the Concealing Divine Seal he had just heard could avoid the locking of the Vast Ocean Navigator.

Although the Vast Ocean Navigator wasn't confirmed as a Supreme Nature Treasure, its abilities were of the same level.

Now, the Primordial Tower that could guard a territory appeared.

Han Fei asked, "What should I do?"

At this moment, Yue Lingke said, "Obtaining the strongest achievement of a random trial in the Primordial Tower, you'll be recognized by it."

Han Fei raised his eyebrows. "Doesn't the Primordial Tower belong to the Bandit God?"

Yue Lingke said, "The Primordial Tower doesn't belong to anyone. It only belongs to the West Wilderness, and its existence is only for this land. However, this doesn't mean that outsiders can't use the Primordial Tower. The Primordial Tower is known as the strongest trial ground below the god realm. Now, the Primordial Tower has seven trials. If you can achieve the strongest achievement in any of the trials, you can obtain the right to use the Primordial Tower once. After obtaining the right to use the Primordial Tower, even if the Primordial Divine Race is discovered, the Central Sea Divine Realm can't do anything. This is because even a God Slaying-level powerhouse can't shake the protection of the Primordial Tower."

"Huh?"

Han Fei was deep in thought and was a little interested.

Chu Hao said, "Don't be happy too early. I've been here for three hundred years. In any trial, not to mention the strongest, I can't even enter the top ten. My best one is only ranked 51st..."

As he spoke, Chu Hao looked at Han Fei deeply, but to his surprise, he didn't see any surprise or shock on Han Fei's face.

Instead, Han Fei was even a little excited.

Chu Hao said, "I know you've taken the Supreme Divine Technique, but... what I want to tell you is that even the Bandit God, a God Slaying-level powerhouse, only got first place in one trial."

"Which one?"

"Dead Soul Gobi, survival trial."

Chu Hao immediately handed over a jade slip. "This is the trial contents of the Primordial Tower and some of my data for your reference."

Han Fei scanned around with his perception and was a little surprised.

There were seven trials in the Primordial Tower. They were the ominous battlefield, the speed trial in the Eye of the Storm, the Primordial Giant Beast Challenge, the competition of the myriad races in the Golden City, the survival trial in the Dead Soul Gobi, the physique trial in the Endless Quicksand, and the mysterious Primordial Mystic Trial.

Among them, except for the mysterious Primordial Mystic Trial, the other six trials were completely equal regardless of level. You could go to these six trials, but the basic conditions of the trial were the Sea Establishment realm. It didn't provide trials below the Sea Establishment realm.

As for the challenge conditions of the mysterious Primordial Mystic Trial, they were relatively harsh. One had to reach the strongest achievement of any of the six other trials to challenge it.

Apart from the ominous battlefield and the Primordial Mystic Trial, the trials given by the Primordial Tower were all held in the forbidden places in the West Wilderness.

Among them, the only benefit was that on the ominous battlefield, every time a trial-taker killed a hundred ominous creatures of his same realm, he could obtain the help of the Primordial Tower once. When there was an accident that might make you die in the trial, the Primordial Tower would help you escape death.

However, it was extremely difficult to kill a hundred ominous creatures of one's same realm! For example, Han Fei was now in the Great Monarch realm, and he had to kill a hundred world-ending level ominous creatures in exchange for the protection of the Primordial Tower once. For most people, this was a difficult condition to achieve.

However, the only benefit of the trial in the Primordial Tower was that it saved him the trouble of teleportation. Since he could leave the Ferocious God Valley through the Primordial Tower, he could also return to the Ferocious God Valley through the Primordial Tower.

Of course, the premise of teleportation was that you had to be within the trial range of the Primordial Tower.

Han Fei immediately understood. No wonder they said that if you wanted to become stronger, you should go to the Primordial Tower. At least, the people in the Primordial Tower didn't have to worry that he would be robbed on the way after they gained resources.

However, this was probably why there were so many strong masters in the West Wilderness. People who had been fighting the ominous since they entered the Sea Establishment Realm had to be strong.

At the entrance of the ominous battlefield of the Primordial Tower, there was a ranking stone tablet, which recorded the situation of the top 100 of the trial.

Chu Hao gave him his data for reference. Han Fei glanced at it. This guy had killed 32 world-ending level ominous creatures and 682 destruction-level ominous creatures in one day. This number was actually a lot. Being able to kill so many in one day was enough to prove Chu Hao's strength.

Unfortunately, he couldn't even enter the top 100.

The data of the last place on the stele was 87 world-ending level ominous creatures and 2,432 destruction-level ominous creatures.

As for the first place on the stone stele, he actually knew him. The name was Li Daoyi. Wasn't this the person Chen Lingsu was waiting for? According to his data, he killed three doomsday-level ominous creatures, 3,200 world-ending level ominous creatures, and 220,126 destruction-level ominous creatures.

"Sh\*t!"

Yes, when Han Fei saw this number, he couldn't help being surprised.

"Who is Li Daoyi?"

Yue Lingke said, "That's a figure from a long time ago. No one knows which era he was born in. Anyway, his name has been branded on the Primordial Tower since the moment it appeared. No one has ever surpassed him."

### [God of Fishing](#)

#### **Chapter 3268: Bandit God Takes Action (3)**

"Did he kill all these just in one day?"

Chu Hao said, "You are the owner of the Demon Purification Pot, so you should know the Demon Purification Pot's ability to kill ominous creatures. However, Li Daoyi's kill count is still too terrifying. It's not impossible for a Great Monarch to kill a god. Perhaps his cultivation method can completely subdue ominous creatures. However, world-ending level ominous creatures are also extremely intelligent. They won't charge fearlessly, so no one knows how this person did it."

Han Fei suspected that Li Daoyi might have once owned the Demon Purification Pot. Otherwise, it was difficult to explain how he could kill so many ominous creatures in a day.

However, Han Fei continued to read and found that the fifth person had killed more than 200,000 destruction-level ominous creatures, and these people had all killed an doomsday-level ominous creature.

"Are these all the former owners of the Demon Purification Pot?"

Looking further down, Han Fei saw Yue Lingke's name in sixth place. Her data was one doomsday-level ominous creature, 800 world-ending-level ominous creatures, and 20,882 destruction-level ominous creatures.

Han Fei couldn't help looking at Yue Lingke. Although this data was naturally incomparable to the top five, the two people in front of him had really killed an doomsday-level ominous creature that was comparable to a god. More importantly, she didn't have the Demon Purification Pot.

Yue Lingke said calmly, "Don't be surprised. That's because you don't know where the Primordial Tower sent you. There, you have endless ominous creatures to kill, as if you can never kill them all. With the Demon Purification Pot, you can only kill more than me."

Han Fei said, "But I can't kill doomsday-level ominous creatures now."

Chu Hao smiled and said, "How long have you been cultivating? And you already want to kill an ominous creature at the level of a god?"

Han Fei curled his lips and then saw Lei Heng's name on the seventh list. His data was one doomsday-level ominous creature, 728 world-ending-level ominous creatures, and 19,908 ominous creatures.

He retracted his mind. He probably could only try it when he became a peak-level Great Monarch. But even if he was a peak-level Great Monarch, he wasn't sure if he could enter the top five.

This was because the Demon Purification Pot was not complete yet. It only had more than 50,000 kills in one go. Even if he mastered the law of life, he couldn't guarantee that he could reach the top five.

Besides, even if he made it to the top five, so what? Li Daoyi had killed three doomsday-level ominous creatures. If he wanted to surpass this guy, he had to kill at least three doomsday-level ominous creatures.

Han Fei thought that he should skip this first. Then he looked at the other trials, but among the seven trials, only the one in the Golden City had a ranking. The other five trials didn't have a ranking stone stele, only the name of the strongest.

He didn't know any of these records. Li Daoyi seemed to have only set an almost unbreakable record on the ominous battlefield.

As for Chu Hao, he was ranked 51st in the competition of the myriad races in the Golden City. Although Han Fei had never experienced it, the trial was definitely not simple.

When Han Fei glanced at the information, Chu Hao said, "As you can see, it's useless to be hasty now. Your physique is very strong. You can try the physique trial of the Infinite Quicksand."

Han Fei looked at the record holder of the Infinite Quicksand. It was a guy named Zhan Shen. He couldn't help but ask, "Who is this Zhan Shen?"

Yue Lingke said, "You didn't guess wrong. The God of War of the Wild Ancient Race is surnamed Zhan."

Han Fei immediately shook his head. "Forget it. I think I have to cultivate again."

Chu Hao and Yue Lingke were helpless. This couldn't be helped. Although they knew that it was difficult to obtain the strongest result in one of the trials, they had no choice.

But they didn't know that Han Fei said that he still had to cultivate not because he was afraid, but because he really still had to cultivate.

Han Fei didn't think he was weaker than these people. For example, he didn't agree with the way the God of War fused with his Origin Star. Besides, the God of War wasn't qualified to cultivate the Godfiend Body, so if he really reached the peak of the Great Monarch realm, he didn't believe that he would be weaker than the God of War. Han Fei didn't think it was difficult to break the record of the God of War.

However, he had just entered the Great Monarch realm. If he competed with the God of War now, he would only be asking for trouble.

Han Fei looked at Yue Lingke. "Senior Yue, can I borrow this place to cultivate for the time being?"

Yue Lingke: "Okay, but don't miss the gathering of the Void Temple."

Chu Hao asked, "How long are you going to cultivate?"

Han Fei said, "It depends. There are seven trials and seven records. I don't believe I can't break any of them."

Chu Hao said, "I just want to remind you that Zhang Xuanyu, Le Renkuang, and the others are in the trial. They've been waiting for you in the Ferocious God Valley for almost three hundred years."

"How many of them?"

Han Fei's face suddenly changed slightly. If the entire West Wilderness was watched by God Slaying-level powerhouses, would something happen to Xia Xiaochan and the others because of him?

After all, Xia Xiaochan was a descendant of a god. If there was a chance, the Central Sea Divine Realm probably wouldn't let her go.

Chu Hao said, "Three. Zhang Xuanyu and Le Renkuang were sent over by Zhan Nanye. Like me, Xia Xiaochan was personally brought back by Boss Yue. Otherwise, she might have fallen into Jiang Buyi's hands."

"F\*ck!"

Han Fei couldn't help but feel a chill down his spine. He had to kill Jiang Buyi. In order to target him, this guy would use any means now.

Han Fei took out a fishing pole without hesitation and threw it into the Time River. In the next moment, he fished out Jiang Buyi's Immortal-level clone.

### [God of Fishing](#)

#### **Chapter 3269: Bandit God Takes Action (4)**

Then, the Void Lines attached to the clone.

Unfortunately, some of his memories of this identity had been severed, and he couldn't find any information about Jiang Buyi's original body from these memories.

But Han Fei still didn't give up. In his eyes, the law of time was activated. He tried to trace back time from this clone. But in the next moment, he found that time was messed up and couldn't be crossed at all.

Seeing that the law of time didn't work, Han Fei didn't stop probing but took out the Vast Ocean Navigator, although Yue Lingke and the others said that Jiang Buyi had the Concealing Divine Seal.

However, he had to try.

Sure enough, the Vast Ocean Navigator didn't turn.

Han Fei asked again, "Where is Jiang Buyi's clone in the Ferocious God Valley?"

The Vast Ocean Navigator still didn't turn.

Chu Hao said, "There's no need to try. Since he dares to appear here, he must be completely prepared."

Han Fei sneered. "As long as someone has existed, there must be traces."

Then, Han Fei activated the law of life and inserted a hand into the clone's body. In the next moment, his consciousness saw the phantom of a flowing River of Life in a branch of the river of life.

Since it was Jiang Buyi's clone, it shared the River of Life with his original body. Sure enough, Han Fei found the tributary of this River of Life and then saw a rock dragon lying on the ground.

Swish!

Han Fei's figure instantly disappeared from the tavern.

Yue Lingke and Chu Hao's expressions changed slightly as they followed him out.

The moment Han Fei found the River of Life, at the entrance of the Ferocious God Valley, a rock dragon suddenly burst out and quickly rushed out of the Ferocious God Valley.

"Hey, you, stop!"

In a flash, Han Fei had arrived. This time, Han Fei had no intention of hiding his strength at all. He slashed out with all his strength with the Blood Sky Blade, and outside the Ferocious God Valley, countless rule chains extended from the void and grabbed at Jiang Buyi who had already turned into a human.

As for Jiang Buyi, his face sank for the first time. He had that Supreme Nature Treasure. Why was he still discovered?

At that moment, Jiang Buyi finally showed his true strength. He was a peak-level Great Monarch and was even faster than Han Fei. The Life Chains had no time to stop him.

As Jiang Buyi pushed back, the phantom of a god appeared and pressed at Han Fei with one palm.

However, Yue Lingke's reaction was even faster. She slashed out, and the laws here all stopped, as if a boundless ravine bloomed between the heavens and earth.

Yue Lingke blocked the blow of the god, and a divine shadow also appeared behind Chu Hao. An arrow shot out, and the sea of sand collapsed.

However, a mysterious seal appeared on Jiang Buyi's body, protecting him like a rune bell shadow.

Clang!

After a heavy blow, Jiang Buyi suddenly spat out a mouthful of essence blood, and the rune bell shadow almost dissipated.

Clang! Clang!

At this moment, Han Fei's full-strength slash finally arrived because Chu Hao blocked Jiang Buyi for a moment.

This knife contained the Time Arcane Technique, so when it hit, it slashed twice in a row, but it only shattered the rune bell shadow that was about to shatter.

Han Fei knew that with his current strength, he probably couldn't kill Jiang Buyi. However, the Law Enforcement Divine Chain had already jumped out, ignoring all seals. As long as Jiang Buyi was caught, he wouldn't be able to escape.

But at that moment, the space seemed to stop, and a divine light appeared. A figure stood in front of Jiang Buyi and casually waved his hand, sending the Law Enforcement Divine Chain flying.

"Hmph!"

With a cold snort, Yue Lingke, Chu Hao, and Han Fei all grunted and vomited essence blood.

Yue Lingke and Chu Hao were naturally stronger than the current Han Fei, but even so, the two of them still seemed to be seriously injured.

As for Han Fei, he was directly forced to use the Great Dao of Life Replacement.

"How awe-inspiring of the Chaotic Divine Race to show up in my Ferocious God Valley!"

Suddenly, a voice sounded. The environment suddenly changed, as if there was only an endless sea of sand left. The entire sky turned into a fist mark that blasted at the figure in front of Jiang Buyi.

"Bandit God, how long can you protect them?"

The man raised his hand and raised a palm. With a bang, billowing ripples swept in all directions. The man seemed to be holding up the entire sky with one hand.

The Bandit God scoffed. "It's none of your business. You can try attacking again."

As the power of the Bandit God suddenly shook, the divine fist that was like the world suddenly pressed down, and there was only boundless rolling quicksand left in this sea of sand.

By the time Han Fei and the others came back to their senses, they had already returned to the city of Ferocious God Valley.

In the ears of Han Fei and the other two, the voice of the Bandit God sounded, "It's fine if he ran away. You can solve this person yourself in the future."

Yue Lingke said, "Thank you, Bandit God."

"Don't thank me. I'll beat up anyone from the Central Sea Divine Realm."

### [God of Fishing](#)

#### **Chapter 3270: Killing a Great Monarch with One Slash (1)**

Many people didn't expect a sudden battle outside the Ferocious God Valley. Except for the Great Monarchs, the others only felt the terrifying killing intent outside the Ferocious God Valley. When they all looked out, the Bandit God had already taken action. Outside the Ferocious God Valley, it was dark and they couldn't see anything.

"The Bandit God has taken action?"

"Who is it? Who is worth the Bandit God taking action personally?"

"What a terrifying power. I felt like I was suffocated just now."

"Look, who are the three people at the door?"

"Huh? Isn't that Yue Lingke, the boss of the tavern who is waiting for someone? Did she participate in the battle just now?"

"Huh? That young man looks familiar. I seem to have seen him somewhere before."

"Of course. Isn't that Wang Han who caused havoc in the South Sea? Oh, no... Is it Han Fei who caused havoc in the South Sea? He pretended to be a strong master of our West Wilderness. His portrait has long spread throughout the West Wilderness."

"Ah, isn't he only at the Immortal Level? But how can an Immortal-level cultivator cause that commotion just now?"

"The guardian of the Divine Prison. How can you and I be qualified to judge such an abnormal powerhouse?"

At this moment, the Great Monarchs who saw this battle were all shocked. The others only knew that the Bandit God had taken action, but they had personally seen how Han Fei and the other two took action.

Not to mention that Yue Lingke blocked the projection of a god alone and Chu Hao used the projection of a god, just the ultimate explosive power of Han Fei's slash alone chilled many Great Monarchs.

Was he serious? It was said that the Human Emperor rose rapidly, but wasn't this growth speed too fast?

On the other side, in the Rock Dragon Auction House, Long Yan was lying on a comfortable recliner, drinking spiritual fruit wine. Suddenly, a rumbling sound spread throughout the entire Ferocious God Valley.

"What's wrong?"

She was about to go out to take a look, but then she remembered that her identity was sensitive now. She had been serving as the Human Emperor's guide and hanging around in the Ferocious God Valley for several days. Once someone noticed her, they would definitely catch her for questioning.

At this moment, the only thing she had to do was to disappear. No matter what happened outside, she just wouldn't go out.

Long Yan thought that she had obtained a total of 200 refined stars anyway. When her teacher's auction house opened next month, she would get another share, which was enough for her to cultivate for a hundred years. In a hundred years, who would remember that she had once taken the Human Emperor to tour the Ferocious God Valley?

However, at this moment, Li Yan rushed in from outside in shock.

"Teacher, what's going on outside? Who is so bold as to fight in the Ferocious God Valley?"

However, Li Yan was sweating profusely and said nervously, "Little ancestor, we're doomed this time!"

Long Yan was dumbfounded. "Teacher, what happened?"

Li Yan said, "The Ferocious God Valley is only this big. Don't you know how fast the news spreads? Tianqing is fake, right?"

Long Yan nodded. They had just taken the rock dragon to the tavern 'Waiting for Someone'. Of course, this kind of thing couldn't be hidden from the eyes and ears of some people. However, had it been known so quickly?

Li Yan asked, "Is that person... Human Emperor?"

Long Yan was stunned. "Teacher, how did you know? I didn't say anything."

Li Yan said, "Do I need you to tell me? Human Emperor Han Fei, Boss Yue from the tavern 'Waiting for Someone', and another peak-level Great Monarch were fighting some strong masters of the Central Sea Divine Realm outside the Ferocious God Valley. The projections of gods kept popping up. In the end, the Central Sea Divine Realm sent out a god-level powerhouse, and the Bandit God was forced to fight personally... We're doomed. We won't be able to leave the Ferocious God Valley for the rest of our lives!"

Slurp~

Long Yan was dumbfounded. "B-Bandit God took action?"

"That's right. I didn't even dare to look. It's too terrifying. That terrifying power, even a ripple can kill me."

"Even so, it's not that we can't leave the Ferocious God Valley for the rest of our lives, right?"

Li Yan said, "You don't know this, but Human Emperor Han Fei is related to the Primordial Divine Race. As long as the Primordial Divine Race doesn't decline, the Central Sea Divine Realm won't stop. Everyone related to Han Fei will be targeted by someone. Perhaps the gods don't have the time to keep an eye on us, but there might be others who suspect that we are colluding with Han Fei. In fact, Han Fei has indeed sold a lot of things to me. There are still a lot of spiritual treasures that we haven't sold yet. If we release them all, someone will definitely suspect us."

Slurp ~ Slurp ~

Long Yan blinked and said, "Teacher, in fact, I think you don't have to worry too much. Didn't you just say that the Bandit God has taken action? Think about it, the entire West Wilderness is protected by the Bandit God. Even the Bandit God wants to help Human Emperor Han Fei, which shows that we should help him! In my opinion, since we can't get out for the time being, let's make a name for ourselves and earn more refined stars. The battle between the West Wilderness and the Central Sea Divine Realm will end eventually. Let's just treat it as cultivation in seclusion!"

"Alas ~ That does make sense. That's all we can do for now."

...

At the gate of the Ferocious God Valley, Han Fei's eyes were slightly cold. "Is this the power of a God Slaying-level powerhouse?"

Yue Lingke said, "That is just a tip of the iceberg. The Bandit God only briefly clashed with that person, so it's nothing. However... you can actually crack the Concealing Divine Seal?"

Han Fei frowned slightly. He wasn't sure if the Supreme Nature Treasure wasn't powerful enough, or if the law of life contained too comprehensive a law.

Han Fei said, "I can't be sure if there's something wrong with his Concealing Divine Seal, or if my law happens to be able to restrain the ability of the Concealing Divine Seal. However, this is a good thing."
