#### Chapter 3271: Killing A Great Monarch with One Slash (2)

On the other side.

Jiang Buyi wasn't that shocked and panicked. He just frowned slightly.

The God Slaying-level powerhouse who attacked just now said, "How do you feel after fighting this guy several times?"

Jiang Buyi thought for a moment. "He's a little reckless, but he's too lucky and grows too fast. He seems to have... mastered the law of life."

"Oh? Why do you say that?"

Jiang Buyi said, "I sensed that someone was peeping at my River of Life, so I left the Ferocious God Valley immediately. You know what happened later. In this era, can anyone still master the law of life? Even if they do, how can this law break the Concealing Divine Seal?"

The God Slaying-level powerhouse was silent for a moment and said indifferently, "A Supreme Nature Treasure is not absolutely invincible. Every Supreme Nature Treasure has its own characteristics. Perhaps this law of life happens to be the flaw of the Concealing Divine Seal. Okay, since there are some things that can't be obtained with wisdom, forget it. The person who obtains the Demon Purification Pot seems to be invincible, but in history, no one has had a good ending."

Jiang Buyi narrowed his eyes slightly. "He won't get what I can't get. Patriarch, I want to give the last Demon Purification Vine to the Eternal Race."

After a few seconds, the God Slaying-level powerhouse said indifferently, "Only if the Eternal Race dares to take it."

The corners of Jiang Buyi's mouth curled up. "They will take it. Even if they don't, now that the Path of Reincarnation has appeared again, the strong masters of the Three Temples and the Sea of Stars won't let them off in the future. Therefore, it would be a waste if they don't take this Demon Purification Vine. Although no owner of the Demon Purification Pot has had a good ending, after all, someone still wants to have a try."

"Up to you!"

...

Han Fei didn't know that Jiang Buyi had a new plan. He was a little puzzled at this moment. Was he not strong enough? The three of them joined forces but failed to take down Jiang Buyi.

At this moment, his identity had been exposed. With such a huge uproar, even if there were still strong masters from the Central Sea Divine Realm hiding in the Ferocious God Valley before, most of them would have run away by now.

After all, as long as these people knew of the existence of the Vast Ocean Navigator, they would definitely be afraid.

At this moment, countless people looked at him. Han Fei was not a monkey and was not interested in being watched. The three of them disappeared with a swish and returned to the tavern.

...

In the Sea of Stars outside Han Fei's Origin Star.

Hong Yue, who was summoned by Han Fei, hurriedly exclaimed, "Master Human Emperor, you've finally appeared."

Han Fei said, "You make it sound like I've been away for a long time."

Hong Yue said, "Maybe I'm used to it. Every time you leave, hundreds of years pass. It feels like a long time."

Han Fei said, "Okay, I called you here because I have a few things for you to do."

Hong Yue immediately looked solemn. Han Fei had disappeared for three hundred years and suddenly appeared to say that he had something for him to do. It was definitely not a small matter.

Han Fei said, "The first thing is that when you go back later, go to Xie Wukuan immediately and ask him to take you or Uncle Xuan to the Hidden Monarch City in person. Find a person named Bai Ze and tell him to protect the human race before the conflict between Primordial Divine Race and the Central Sea Divine Realm is over. Tell him that if the divine descendants win, the human race will prosper."

"The second thing is to tell Han Song to go to the East Sword Pavilion in person to find Li Tiangan and invite him to visit the human race. He can do anything, take in disciples, pass by, eat, or visit... Anyway, as long as he goes there."

"The third thing is to ask the people of the Divine Capital Dynasty to deliver my message to Great Monarch East Martial..."

"The fourth thing is to try every possible means to make the human race give birth to as many children as possible. Tell the entire human race that in the next hundred years, countless genius talented children will be born."

Han Fei said several things in one breath, and Hong Yue was highly nervous, fearing that he would miss a word. However, the matter of having more children had already begun when the human race took root in the Infinite Mining Area. It seemed that the Human Emperor still didn't think it was enough!

After saying these things, Han Fei said, "By the way, Old Hong, how is Yiyi now?"

Hong Yue immediately said, "Uh! Miss Yiyi has already grown up. Her personality..."

Han Fei's face changed slightly. "Don't tell me that her personality is like Yi Xiyi's."

Hong Yue shook his head quickly. "Of course not. Miss Yiyi's personality is still like yours, Master Human Emperor. She's very... lively."

"Like me? Lively? What does it mean?"

Hong Yue thought to himself, Don't you know what it means?

Hong Yue said, "As for Miss Yiyi's strength, she could already fight peak-level Sea Establishers when she was only a peak-level Venerable. She finally broke through to the Sea Establishment Realm three years ago."

Han Fei said, "Nonsense. No matter how strong a peak-level Venerable is, there is a limit. Don't fool me."

Hong Yue said, "I'm really not lying to you. Miss Yiyi's talent is too shocking. She masters many Great Daos, combat skills, and even mastered divine techniques in advance. However, I don't know if I should say this..."

"Just say it. Don't hem and haw."

Hong Yue asked, "Master Human Emperor, isn't the seal you set for Miss Yiyi too difficult? As a result, when Miss Yiyi transcended the tribulation... the heavenly tribulations were all purple-black, which frightened us. Fortunately, she had your avatar and Senior Xie's protection. Otherwise, we wouldn't have dared to imagine what would happen."

Han Fei frowned slightly. "It doesn't matter. Being able to break the barrier I set up means that she's strong enough to transcend the tribulation. By the way, who does she look like?"

Hong Yue said, "Of course more like Miss Xiaochan."

Han Fei was lost for words. "Not like me at all?"

Hong Yue glanced at Han Fei. "If she looks like you... that's not good."

### **God of Fishing**

#### **Chapter 3272: Killing A Great Monarch with One Slash (3)**

"Uh..."

Han Fei's face immediately darkened. "Why? Do you think I'm not as handsome as Zhang Xuanyu?"

Hong Yue didn't speak, but judging from her attitude, he probably tacitly agreed. He changed the topic and said, "Master Human Emperor, do you want to see Miss Yiyi? Although she doesn't say it, she... really wants to see her parents."

Han Fei was silent for a moment. "He's gone. I don't want to see her like this. Tell her that her father and mother will appear in front of her in the most grand way. But not now."

Hong Yue sighed inwardly. "Okay, I'll tell her."

After a pause, Han Fei took out a red hair band and handed it to Hong Yue. "Tell her that her mother gave this to her. No matter what method you use, it must be tied to her head..."

Hong Yue immediately became serious, thinking to himself, Is it already so dangerous? In a place like the Infinite Mining Area, Master Human Emperor still had to personally deliver a life-saving item to Miss Yiyi.

Hong Yue immediately said, "I won't let you down, Master Human Emperor."

...

One month Later.

Han Fei frowned. Although the Time Chain had been upgraded to 1,024 times the time flow, the consumption was still far beyond his expectations.

He didn't expect that the consumption of resources this time was 200 times more than last time.

A total of 130,000 refined stars were consumed because of the upgrading of the Time Chain. This made Han Fei feel a little lucky. Fortunately, he didn't try to upgrade the Time Chain before. Otherwise, he would have been squeezed dry.

However, he was also a little distressed at this moment. This was only the eighth vine. If the ninth vine returned, would he still dare to upgrade the Time Chain?

After more than a month, the Time Chain finally upgraded, and Han Fei finally continued to cultivate in seclusion.

Until the issue of the Central Sea Divine Realm was resolved, he would not find inner peace.

Now, he had to continue to cultivate in seclusion. If he wanted to break the strongest record of the Primordial Tower, he wasn't qualified yet.

At this moment, in a certain mine in the Infinite Mining Area.

A girl in green had a delicate face, which was a little round, and there was a hint of melancholy in her bright eyes. She held a long knife in her hand and had a red ribbon on her head. Opposite her was a Mine Demon stone man at the peak of the Sea Establishment realm. At this moment, he was waving his fists and smashing at the girl.

The girl held the knife high above her head.

Bang!

A dull bang suddenly sounded here, and billowing airwaves swept nearly a thousand kilometers around. However, the girl stood where she was without moving at all. She just raised her hand gently and spun the long knife in her hand.

With this slight turn, the Mine Demon Stone Man lost his balance and leaned forward. At this moment, the girl raised her leg and kicked out in the air.

Bang!

The huge Mine Demon Stone Man was kicked away like a round stone ball. He smashed six mountains in a row like a meteor and finally left a long ravine on the ground.

The Mine Demon Stone Man struggled for a long time before getting up. He roared, clenched his fists, and sprinted at the girl as fast as he could. He seemed to be very angry. How could he be sent flying by such a small thing?

As for the girl, she looked calm. She raised her hand and took a deep breath. Spiritual energy surged behind her like a tide, and the blood and Qi in her body couldn't dissipate. She also clenched a fist and smashed it at the Mine Demon Stone Man.

Bang!

The ripples exploded in all directions, and gravel flew all over the sky. This Mine Demon at the peak of the Sea Establishment realm was actually blown up by this girl with a bare hand. And this girl's strength was only in the early Sea Establishment realm.

"Yiyi, you sneaked out again. Even my mother told you not to go out recently. It's not peaceful. Don't you know my mother's personality? If even she is careful, you have to be even more careful."

This girl was naturally Han Chanyi, Han Fei's biological daughter.

Han Chanyi curled her lips and then grimaced. "Sister Panpan, there you are!"

Zhang Panpan looked at the minerals all over the ground and shook her head slightly. "If you have the time, don't waste it on this! Go find Patriarch Xie. You can fight him."

Han Chanyi curled her lips. "I'm not going. He throws out clones to fight me every time. It's very tiring."

Zhang Panpan giggled. "You know tired? Okay, stop sulking. Go back!"

Han Chanyi was reluctantly dragged by Zhang Panpan and mumbled, "I'm not sulking, but he's already out to see Uncle Hong Yue. Why doesn't he want to see me? He just gave me a broken hair band. I heard from the Grandpa President that he stole my mother's heart with a hair band back then, and now he wants to use this trick on me too."

Zhang Panpan rolled her eyes. "Be content! At least your father gave you something and still has an avatar here. Look at my father. I've never seen him and he doesn't leave an avatar behind. I don't even know where he is or if he is meddling with some sluts outside. He abandoned my poor mother and me in the Infinite Mining Area but is enjoying himself."

Han Chanyi hurriedly said, "Don't worry. My father must be watching him."

Zhang Panpan snorted. "Who knows? However, Uncle Human Emperor didn't see you probably because he was afraid that seeing you would stir up emotional attachments.. Grandpa President said that they are actually very lazy. If it weren't for the fact that they really couldn't come back, they would have come back long ago."

"Humph."

Han Chanyi didn't speak, but she tacitly agreed. Just as she was about to follow Zhang Panpan back, suddenly, mist appeared around her, and vines and demon plants covered her feet.

### [God of Fishing](#)

#### **Chapter 3273: Killing A Great Monarch with One Slash (4)**

Zhang Panpan's expression changed drastically. "Not good, a trapping array."

Han Chanyi drew her broadsword in an instant. The dazzling broadsword beam passed through the vines, but it couldn't even shake a blade of grass.

"Divine Demon Forest?"

Zhang Panpan and Han Chanyi looked at each other. If it was a human manipulator, they were too familiar with them. Their plants would not appear by such a large area like now but would have needed manipulation.

"Tsk, tsk! You're only in the early Sea Establishment realm but you've already had such combat power? Han Fei's daughter is indeed extraordinary."

A man in a purple robe walked out of the smoke. The suppressing pressure released by him made Zhang Panpan and Han Chanyi unable to move.

Zhang Panpan said, "How dare you? This is the territory of our human race. In the middle is the Free City of our human race, in the south is the lineage of ferocious beasts, in the west is the Hidden Monarch City, and in the north is the Half-God, Grandpa Xie Wuqian. How dare you attack us here? Do you want to die?"

The purple-robed man chuckled. "That's why I spent so much time setting up a trap here before I took action today. Little girl, you don't know anything. There's no such realm in this world as 'Half-God'. He is just a Great Monarch, isn't it?"

He glanced at Han Chanyi and Zhang Panpan. He didn't intend to waste time. He had to hide well to avoid the heavily-guarded Infinite Mining Area.

This person grabbed at the two of them with one hand and materialized his Origin Star World, trying to take them in.

However, at the moment he attacked, a soaring Qi and blood instantly tore through the layers of seals here.

The tie that tied Han Chanyi's hair fell off voluntarily and straightened. All the laws here were instantly extracted and turned into a powerful slash.

"How is it possible? How can a mere Nature Spiritual Treasure control all laws here?"

Bang!

An extremely dazzling knife light crushed the entire mining area, and the endless vines here were instantly reduced to powder. As for the Great Monarch on the opposite side, the countless array barriers around the ruins were all shattered. In the end, he was crushed by this knife light and his body disintegrated. However, his soul managed to hold on with a mirror.

Han Chanyi and Zhang Panpan were so dazzled by the brilliance of the Ultimate Slash that they burst into tears and couldn't look straight at it. When they could see clearly, they saw a majestic figure tens of thousands of feet tall standing in front of them.

"You are not from the Divine Demon Forest, but you can pretend to be from the Divine Demon Forest... Heaven Hidden Divine Race, I will go to the Central Sea Divine Realm to find you."

The Great Monarch was shocked. He had planned for a long time to get this opportunity, but in the end, he couldn't even resist the power of the Human Emperor's single slash? Was the Human Emperor so powerful?

However, there was no time for him to think. He had to escape immediately and pretend to be someone else to avoid this disaster.

However, just as he tried to escape, a sharp claw pierced through the wisp of soul.

The body of a big crab appeared in the void. Xie Wukuan chuckled. "I've been waiting for you for a long time. Who knew that you would lie low for hundreds of years and only take action now?"

Swish swish swish!

One figure after another quickly came over.

Han Chanyi, on the other hand, was staring at the magnificent figure standing in front of her. Han Fei's spiritual will turned around and their eyes met.

However, Han Fei's spiritual will was only enough to launch this blow. At this moment, it had faded away and disappeared from the world, turning into a red ribbon again.

Swish!

Han Song appeared and held the red belt. A large amount of soul power poured into the belt.

Yes, Han Song was equivalent to his original body. Although it was not as strong as his original body, it could replenish the power of the straps. He came to Han Chanyi and naturally stroked her hair. "Did you see that? These people from the Central Sea Divine Realm are really vicious. Don't run around alone in the future."

"Humph! They dared to attack because you didn't come back."

Han Song smiled and said, "What are you talking about? Haven't I always been like this?"

"It's different."

Han Chanyi said stubbornly, but she was staring at the scene in front of her. The mineral veins within tens of thousands of kilometers were flattened, and a huge abyss appeared hundreds of thousands of kilometers away, in which knife Qi swept across.

Han Xuan, who had just arrived, looked awful. "Are those people from the Central Sea Divine Realm already so unscrupulous?"

Xie Wukuan clicked his tongue. "What a pity. Han Fei, you destroyed his body. Otherwise, we might have been able to have a full meal."

Han Song said, "Senior Xie, when I come back in the future, you can eat as much as you want. You can choose whatever variety you want."

Then, Han Song sprinkled many seeds around the abyss and they began to grow.

"Uncle Xuan, this place can only be sealed as a forbidden area."

Han Xuan nodded slightly and then looked at Han Chanyi and Zhang Panpan. "Yiyi, in a few days, the First Sword God, Li Tiangan, will visit the Free City. He said that he could take in a few disciples. Are you interested? That's a real god, even stronger than your father."

Han Chanyi curled her lips slightly. "Let's see."

...

### [God of Fishing](#)

#### **Chapter 3274: Guardian Sea of the Primordial Tower (1)**

One year later.

On Han Fei's Origin Star, a large number of refined stars turned into dead stars, and infinite energy was absorbed into the ground veins of his Origin Star.

To Han Fei's surprise, it was not easy to fuse the Eternal Darkness Spiritual Heritage with the ground veins. In a thousand years, only half of it was completed.

Two years passed.

Han Fei spent a total of 90,000 refined stars and nearly 30,000 energy crystals to fuse the Eternal Darkness Spiritual Heritage with the ground veins. However, as soon as the two spiritual heritages fused, Han Fei discovered that his Origin Star didn't seem to be able to withstand the flow of the two spiritual heritages.

This was just like how the body couldn't carry a powerful and extraordinary spiritual heritage. Although Han Fei's Origin Star had been strengthened countless times, from the Mystic Yellow Soil to the Chaotic Spiritual Soil, it was still not enough.

Having no choice, Han Fei could only continue to cultivate in seclusion.

It had taken Han Fei nearly two thousand years to fuse with the ground veins alone. Now, Han Fei wasn't sure if he had enough resources to fuse with the entire Origin Star.

One year.

Two years.

Ten years.

50 years.

When Han Fei woke up from his cultivation, fifty years had passed in the outside world, but 50,000 years had passed in his Origin Star.

And this was not that he took the initiative to stop cultivating, but that his resources were used up.

Yes, a total of 770,000 refined stars. Apart from the 130,000 that upgraded the Time Chain, a total of 640,000 refined stars were swallowed by him.

Han Fei didn't even dare to imagine this number. He finally understood why the God of War was so short of resources. How could he not be short of resources? A Great Monarch could only provide a

hundred thousand refined stars of this quality. This swallowing was equivalent to swallowing six Great Monarchs.

It turned out that the path of the Supreme Divine Technique was different from the path of ordinary Great Monarchs. One set up the refined stars outside his Origin Star, and the other swallowed the refined stars.

No wonder the Supreme Divine Technique was also called the Star Devouring Divine Technique. It turned out to mean this. It was laughable that he had always thought that the Star Devouring Divine Technique was to shatter stars and make them surround his Origin Star to strengthen his Star Core.

Now, he finally understood.

But more importantly, after consuming so many refined stars, Han Fei found that the degree of fusion of his Origin Stars was less than one-fifth, and he had fused only a thousand laws.

This meant that if he wanted to reach the peak of the Great Monarch realm, he still needed countless resources.

However, the only good news was that although his Origin Star hadn't completely fused with him, it could already withstand the flow of the ground veins.

Han Fei knew that he had to go out to make money. He couldn't help but look at his information.

Owner: Han Fei

Level: 119 (Great Monarch)

Bloodline Ranking among the Clans in the Infinite Ocean: the 3801st

Immortal Qi: 13,602

Soul: 59,842 Origins

Strength: 59,842 Star Powers

First Spiritual Heritage: Origin Spiritual Heritage

Second Spiritual Heritage: Eternal Darkness Spiritual Heritage

First spiritual beast: Twin Yin-Yang Sky Swallowing Fish (Level 118)

Second spiritual beast: The Emperor Sparrow (Level 116)

Main Art: Godfiend Body

Seeing this data, the corner of Han Fei's mouth twitched. He was sure again that the basic combat power of the God of War definitely exceeded the 100,000 level.

He had only fused with the second spiritual heritage and one-fifth of his Origin Star, but he had already surpassed the level of an ordinary peak-level Great Monarch. If he had enough resources, he would probably be able to reach the level of a peak-level Extreme Dao Great Monarch in another hundred years.

The problem was that his Star Core hadn't been fused yet.

However, Han Fei seemed to have neglected one thing, which was that the God of War didn't have a second spiritual heritage.

Buzz!

Han Fei appeared in the tavern "Waiting for Someone".

He glanced around and found Chu Hao sitting on a chair reading a book with a pot of tea in front of him.

There were two tables of guests around. They were attracted by Han Fei's sudden appearance and seemed to know who he was. They couldn't help but look at him curiously for a while.

Yue Lingke looked up at Han Fei with a dark expression. "You missed the gatherings several times."

Han Fei scratched his head awkwardly and said, "Senior, I was cultivating in seclusion and I couldn't stop halfway."

"Humph! Next time, you must participate in the gathering."

Han Fei quickly nodded. "Of course, of course. I won't miss it next time."

Then, Han Fei came to sit opposite Chu Hao. "Why are you still here?"

Chu Hao said calmly, "If not here, where can I be? From what I know of you, you've been in seclusion for a long time this time!"

Han Fei sighed in his heart. Then, he thought of something and said in a low voice, "Well, how about lending me some refined stars?"

Chu Hao couldn't help but look up at Han Fei. "You want to borrow from me? Don't you know how many refined stars you have?"

Han Fei simply said, "I've used them up."

"Cough, cough ~"

Chu Hao immediately stood up and looked at Han Fei in shock. "What?"

Han Fei frowned. "They're really used up."

Chu Hao was speechless. "Are you... kidding me?"

Han Fei said, "Now that things have come to this point, I have nothing to hide. The Supreme Divine Technique I practice requires too many resources."

Chu Hao was silent for a moment. "I used to rely on you for resources. After I came to the West Wilderness, I came straight to the Ferocious God Valley before I had the time to get resources. How many refined stars do you think I have?"

Han Fei asked, "What about energy crystals?"

Chu Hao raised his eyebrows. "It's not cheap to stay in the tavern. I've been here for more than 300 years and I'm about to spend all my money. If you're not in a hurry, I'll go to the Primordial Tower to get some resources for you, OK?"

### God of Fishing

#### **Chapter 3275: Guardian Sea of the Primordial Tower (2)**

Han Fei looked at Chu Hao speechlessly and said leisurely, "I'm afraid you are the poorest Great Monarch I've ever seen."

Chu Hao: "..."

Chu Hao said, "To be honest, if you want resources, you have to go to the Primordial Tower early."

"Of course I'll go."

After speaking to Chu Hao, Han Fei got up, walked to the counter, and came to Yue Lingke.

"Well, Sister-in-law..."

"Wait..."

Yue Lingke interrupted Han Fei. "What did you call me?"

"Sister-in-law!"

Yue Lingke put on a rare smile. "Speak, what's the matter?"

Han Fei said, "Sister-in-law, I... I'm short of money. Can I borrow some refined stars from you? I promise I'll pay you back double in the future."

Yue Lingke asked, "How much do you want?"

Han Fei was immediately refreshed. It seemed that he had to find the right person to rely on. He said, "Lend me a million first."

"F\*ck off."

Han Fei: "..."

Yue Lingke rolled her eyes. "Where can I steal a million refined stars for you with such a small tavern?"

Han Fei asked, "Sister-in-law, your shop has been open for hundreds of thousands of years, right?"

Yue Lingke sneered. "Then do you know how many people I've raised over the past hundreds of thousands of years? It's inconvenient for many people in my race to appear, let alone come out. Every time, I give them resources from my Origin Star. I can't make ends meet. I've only saved for more than 300 years. How much money do you think I have?"

Han Fei asked, "Well, Sister-in-law, didn't you catch some captives to sell?"

Yue Lingke looked at Han Fei deeply. "Do you think I can walk out of the Ferocious God Valley?"

"Sorry to disturb you."

Han Fei was disappointed. It wasn't easy for everyone these days!

Suddenly, Han Fei thought of something. "Sister-in-law, do you think I can leave the Ferocious God Valley now? The God Slaying-level powerhouses from the Central Sea Divine Realm won't dare to touch me, right?"

Yue Lingke asked, "You want to catch captives?"

Han Fei nodded quickly. What could make money faster than catching captives? Killing the ominous in the Primordial Tower? That was possible, but he mainly thought the resource form of energy crystals was too monotonous.

Yue Lingke said, "That's fine, but I'm afraid your void mark will be forced out. But it's not bad. Why don't you ask the strong masters of the Void Temple to help you? If you solve the bloodline problem of the divine descendants, I can mobilize the strong masters of the entire Primordial Divine Race to help you make money. At that time, we can get you as many resources as you want."

"Uh! Forget it. I'll think about it."

Han Fei thought to himself, How long will it take? Once the problem of your divine bloodline is resolved, there will definitely be a large number of strong masters who want to transcend the godly divine tribulation. Then how can there be resources for me?

By the time they get resources for me, it would probably be thousands or even eight hundred years later.

Han Fei asked, "Sister-in-law, do you think I can borrow resources from the Bandit God?"

Yue Lingke smiled. "Although the Bandit God has been attacking frequently recently, ask how many people in the Ferocious God Valley have seen the Bandit God. Everyone knows that the Bandit God is here, but they don't know where the Bandit God is. Why don't you go to the street and call for him?"

"Forget it."

Han Fei asked, "What about fighting in the arena?"

Yue Lingke asked, "Who will fight you? Besides, how can there be so many Great Monarch-level battles in the arena?"

Han Fei asked, "Then I can only enter the Primordial Tower to take the trials?"

Yue Lingke said, "To be precise, among the seven trials of the Primordial Tower, only the most profitable one is the ominous battlefield. On the ominous battlefield you'll be sent to by the Primordial Tower, you can not only earn energy crystals, but also refined stars. Of course, you can also enter other trial fields of the Primordial Tower to see if you can catch some captives. However, under normal circumstances, people who are not from the West Wilderness won't enter the trial fields of the Primordial Tower. Once they enter, they may face the siege of all the strong masters from the West Wilderness. It's no different from courting death. However, there are some conceited people or some spies from the Central Sea Divine Realm who might sneak in."

Han Fei said, "Then I'd better go to the ominous battlefield first!"

If he wanted to break the trial records, he had to have strength. If he wanted strength, he had to have resources.

Fortunately, he still had time. Since even Yue Lingke and the others were not in a hurry, he didn't need to be in a hurry either.

In the end, Han Fei turned around and asked Chu Hao at the table, "Did they come out when I was cultivating in seclusion?"

Chu Hao said, "They often came out, but you were not around. There are only a few trials in the Primordial Tower. You'll have to encounter them sooner or later."

Han Fei nodded. "Okay, then it's time for me to challenge the tower."

...

In front of the Primordial Tower.

Han Fei didn't expect to set a new record all at once. They were all the strongest records left behind in the endless years. Although his strength had improved greatly again, he was still inferior to those people.

In front of the tower, Han Fei's arrival attracted the attention of many people.

Every day, many strong masters came and went in the Primordial Tower, but there were almost no Great Monarchs entering or leaving. Therefore, the appearance of a Great Monarch could still cause a commotion.

"Look, that's Human Emperor Han Fei."

"Ah! It's really him. Has he finally come to challenge the tower?"

"Definitely. A powerhouse of this level shouldn't be interested in resources. Otherwise, why would he cultivate in seclusion for fifty years?"

"His cultivation time is too short. I heard that he hasn't been a Great Monarch for long."

"No matter how long it takes, he can already capture Great Monarchs. I wonder which trial he is going to pass."

"Shall we follow them?"

"That's exactly my plan."

"Let's go together."

[God of Fishing](#)

### **Chapter 3276: Guardian Sea of the Primordial Tower (3)**

The news that Han Fei entered the Primordial Tower spread like wildfire.

At this moment, Han Fei was looking around the interior of the Primordial Tower. There was nothing special here. This was just a teleportation door, and its level didn't seem high. However, the teleportation door revealed some power of laws, which was very strong.

The six portals were in six directions, and a trial door was closed. This should be the ultimate secret of the Primordial Tower.

Among the six doors, only the two doors of the ominous battlefield and the Golden City had people entering and leaving.

In front of these two doors, there was a stone stele with the names of the top 100 branded on it.

On the ominous battlefield, one could earn resources, take trials, and also contribute to the myriad races, so most people entered and left the door of the ominous battlefield.

When Han Fei walked to the ominous battlefield, many people took the initiative to make way, curious. When he came to the door, the power of laws intertwined and surrounded Han Fei's wrist.

In the next moment, Han Fei felt a voice in his mind.

"Name."

"Are you the Primordial Tower?"

"Yes! Anyone who enters the trial must leave their names. If you die, even if the entire world will forget you, I won't."

"Han Fei."

Then, the law dissipated, forming a spiral mark on Han Fei's wrist. Han Fei could perceive it. As long as he activated the mark, he could be teleported.

It seemed that the Primordial Tower was a little similar to the Distanceless Gate. They were very passionate about killing the ominous!

It wasn't until everyone saw Han Fei step into the portal that there was an uproar.

Someone asked in surprise, "Am I seeing things? The Human Emperor wants to fight the ominous battlefield as soon as he comes?"

"Could it be that he's just going to kill the ominous?"

"Of course not. You are too weak, so I can't tell you. I can only say that Han Fei's only purpose in appearing in the Primordial Tower is to set a new record."

"How can an ordinary person break Li Daoyi's record? This name has never been replaced since ancient times. Even if Han Fei is talented and grows quickly, can he break the record?"

"What do you know? The Demon Purification Pot is with him. I heard that the Demon Purification Pot was originally meant for suppressing the ominous."

"I also heard that the Demon Purification Pot is not complete yet."

"No matter what, we'll find out in a day."

"Do you think he can be on the list?"

"I don't doubt it at all. After all, he is the owner of the Demon Purification Pot. But it's hard to say how far he can go."

...

When Han Fei appeared in the teleportation channel, the first thing he saw was a pale green seal that seemed to be a wall erected in the vast Sea of Stars.

Behind the wall were tens of millions or billions of strong masters of the myriad races.

On the other side of the wall, there seemed to be a sea. Han Fei could see a surging red nebula flowing. Countless ominous creatures were fighting the strong masters of the myriad races in the nebula sea.

Swish swish swish!

Behind Han Fei, figures were all here to watch the show. They wanted to see if Han Fei was as godly as the rumors said.

Han Fei waved at this person. "Brother, come here."

"Huh?"

Chen Mang was dumbfounded. He was here to watch the show, but he didn't expect to be called by Han Fei. He was excited and nervous.

"G-greetings, Master Human Emperor..."

Han Fei asked, "How should I address you?"

"Ah! Chen, Chen Mang."

Han Fei smiled and said, "Don't be nervous. It's my first time here. I want to ask you what this place is. It seems to be different from ordinary ominous battlefields. There isn't even a city here."

Chen Mang felt honored to hear that Han Fei was asking him about something. He immediately raised his head and puffed out his chest, his face slightly flushed. "Master Human Emperor, there is a city here, but it's not here. This place is indeed not a normal ominous battlefield. This is the Guardian Sea."

"The Guardian Sea?"

"The Guardian Sea is a nebula sea that protects the Sea of Stars. It's a natural barrier against the ominous."

"It's said that this is the border of the Sea of Stars. Have you seen that barrier? That's the embankment of the Guardian Sea. On the other side of the embankment, where the nebula flows is the Guardian Sea. We shouldn't have seen this embankment, but in ancient times, a gap was broken through by the ominous. It's just this place."

"We need to plug this gap. A long time ago, when the West Wilderness was still in the Primordial Era, the strong masters in the West Wilderness had been fighting here through the Primordial Tower. Therefore, this ominous battlefield can be considered the oldest super-large ominous battlefield."

"..."

Han Fei couldn't help but sigh. Didn't it mean that this battlefield had existed for endless years?

Han Fei asked, "What's in the depths of the Guardian Sea?"

Chen Mang shook his head. "There is the Guardian City. Except for the Guardian City, the others may not be known until Master Human Emperor goes there. Our strength is mediocre, so we can only fight near the embankment. However, many Immortals and even Great Monarchs are in the depths of the Guardian Sea."

Han Fei: "Thank you."

"Ah, you're welcome, you're welcome..."

Han Fei didn't ask further. Yue Lingke had said that there were endless ominous creatures on this ominous battlefield.

However, as far as he could see, there were no powerful ominous creatures near the embankment, but occasionally several terrifying-level ominous creatures appeared. And after checking most of the battlefield, Han Fei didn't see any destruction-level ominous creatures.

### [God of Fishing](#)

#### **Chapter 3277: Guardian Sea of the Primordial Tower (4)**

Therefore, this was clearly not the main battlefield.

Therefore, there were some situations that Chen Mang couldn't explain, so he didn't ask further.

Han Fei stepped on the air and crossed the embankment in the blink of an eye.

What greeted his eyes was a war of tens of millions or even billions of people. Clearly, besides the Primordial Tower, there should be other places that served as gateways to the Guardian Sea.

Behind Han Fei, a group of people followed him.

Countless people who were not fighting saw a large group of people following Han Fei and were a little curious. They couldn't help but look over.

Han Fei didn't stop at all, but thousands of knife lights blooming with divine brilliance appeared around him.

Swish! Swish! Swish!

The knife lights here all dispersed.

Within a hundred thousand kilometers of Han Fei, all the ominous creatures were targeted by these knife lights.

Puff, puff, puff!

In an instant, tens of thousands of ominous creatures were purified by the knife light that emitted divine brilliance.

"Hiss!"

"So fast."

"What a terrifying power of purification."

"Who is this person?"

Countless people exclaimed. After all, it was extremely rare for hundreds of thousands of long knives to slash into the Guardian Sea with one person.

It wasn't that no Great Monarchs came to the Guardian Sea, but Great Monarchs usually entered the depths of the Guardian Sea directly. It was difficult for ordinary people to see them fight.

Therefore, when Han Fei attacked, so many people were shocked.

In fact, many of the ominous creatures that Han Fei killed were pollution-level and corruption-level. Occasionally, there were a few terrifying-level ominous creatures.

Many people who were fighting the ominous creatures felt that with a sweep of the light, the ominous creatures fighting them were inexplicably purified, leaving only an energy crystal.

Many people didn't dare to take these energy crystals at first, but they discovered that Han Fei was walking very fast and had no intention of collecting these energy crystals at all. At that time, everyone hurriedly collected these energy crystals for free.

The group of people who came with Han Fei to watch the show were overjoyed to pick up a pile of energy crystals.

"Sure enough, the Human Emperor is here to break the record."

"So strong. With a wave of his hand, millions of ominous creatures were reduced to ashes."

"B\*llshit, he didn't wave his hand at all."

"Maybe the ominous creatures here are too weak. I don't know how far he can go."

"That's right. Real strong masters usually don't fight on the embankment. Even if Han Fei can kill all the enemies here, it's meaningless."

"Is he showing off?"

"That's bulls \* it. He's opening a path. Look how fast he is. He directly opened a path in the Guardian Sea."

"I yearn for it!"

Han Fei didn't care about this remark. He wasn't interested in the energy crystals at the moment. Low-quality energy crystals were meaningless to him.

In just a moment, hundreds of thousands of people followed Han Fei. Everyone followed the rules. The energy crystals would belong to whoever snatched them.

However, as Han Fei moved forward, fewer and fewer people could keep up with him.

From 100,000 people, it gradually became 10,000. When there were only thousands of people left, Han Fei saw a large number of ominous creatures rushing at him.

Han Fei suddenly stopped and looked back at everyone. "Everyone, if possible, don't follow me."

Swish! Swish! Swish!

In addition to the thousands of knife lights, there were also a large number of life chains extending out of the void. Under everyone's stunned gaze, Han Fei killed his way into the group of ominous creatures alone.

Soon, Han Fei's figure was covered by the nebula and disappeared from the crowd's eyes.

Faced with ominous creatures below the destruction level, Han Fei could easily purify them without relying on the Demon Purification Pot.

In the Guardian Sea, Han Fei rushed all the way, but surprisingly, he didn't encounter a single destruction-level ominous creature until he perceived big stars floating in the stardust. And these big stars were filled with the power of purification.

These floating purifying stars were like stars scattered across the sky. They were actually connected by chains that emitted the brilliance of purification, causing this Guardian Sea to seem to form a huge and dense star net.

Occasionally, Han Fei could see ominous creatures crawling over from the star net one after another.

Han Fei was full of curiosity. He had thought that the ominous battlefield was on the other side of the dam, but now it seemed that the ominous creatures there seemed to be fish that escaped the net of stars.

Someone had set up this exquisite star barrier.

On these floating purifying stars, Han Fei also saw Immortal-level powerhouses.

These people would occasionally attack and kill the Immortal-level ominous creatures who tried to pass the star barrier. Only then did Han Fei understand that this was probably the real battlefield of the Guardian Sea.

Han Fei seemed to have thought of something and took out the Vast Ocean Navigator. He recited it three times in his heart before the Vast Ocean Navigator finally pointed.

"Only Le Renkuang is here?"

Han Fei was a little disappointed. He had thought that Xia Xiaochan and the other two would act together, but after trying three times in a row, he found that only Le Renkuang was on the ominous battlefield.

However, it was better to have someone here than not.

Han Fei continued forward. With the speed of the Great Monarch realm, he was very fast as he shuttled among the stars. Soon, he found an extremely magnificent city among the stars. From afar, it looked like a huge palace emitting a milky halo.

People often left the city and went to the depths of the Guardian Sea, and people often returned from the depths of the Guardian Sea.

Han Fei came from the rear, so he didn't attract much attention. There was a city gate under the city, but no one was guarding the city gate. The words "Guardian City" were branded on the city gate. It was enshrouded in Dao runes. Obviously, a god had written it.

"No guards? Perhaps no one thinks that danger will come from the rear."

But the moment Han Fei entered the Guardian City, he could perceive that six or seven extremely obscure perceptions swept past him in a row.

"Gods?"

Han Fei's heart stirred. These perceptions were all different, but they were all in the realm of gods.

### [God of Fishing](#)

#### **Chapter 3278: Battle for Ranking on the Ominous Battlefield (1)**

The gods only scanned around with their perception and didn't communicate with Han Fei.

Immediately afterward, Han Fei felt some perception sweep over. There were Great Monarchs and Immortals. Obviously, there was no restriction on perception in the city. Many people might just look at him curiously.

"Feifei?"

Before Han Fei went to Le Renkuang, he had discovered him in advance.

Han Fei followed his perception and saw Le Renkuang eating barbecue with a ferocious-looking guy on a large platform.

"Heh ~"

Han Fei was speechless. Le Renkuang was still the same as before. No matter where he was, he could always make a few bites when he was free.

Space changed, and Han Fei arrived in a few steps.

Le Renkuang waved his hand excitedly. "Feifei! Are you done cultivating in seclusion?"

Han Fei shrugged. "I can't cultivate in seclusion all the time. Are you here for trial or food?"

Le Renkuang chuckled. "Of course for trial, but I can't take it if I keep fighting. I just started to eat. Come and get a bite or two."

At this moment, a group of people were staring at Han Fei. They naturally knew who Han Fei was. Now, who in the Sea Realm didn't know Han Fei's name? In the East Sea Divine Realm, he had killed more than 40 Great Monarchs. He was the one who caused the chaos in the South Sea and even killed two god-level powerhouses. Either identity of the master of the Demon Purification Pot and the guardian of the Divine Prison was shocking.

Han Fei had some impressions of a few of them. He had met them once in the God Ferrying Ancient Land. They were all strong masters of the God Slaying Bandits, two Great Monarchs, and 23 Immortals. Le Renkuang's strength had already entered the Immortal Level, but his realm was not stable yet. The laws he had stacked must not have exceeded a hundred.

Seeing Han Fei walking over, the God Slaying Bandits quickly made room for him.

They were not afraid of Han Fei, but Han Fei had a good relationship with their young master.

"Greetings, Human Emperor."

Everyone greeted him politely.

A relatively elegant-looking middle-aged man stood up and cupped his hands. Then, he looked at the others and said angrily, "Why are you all standing here? Go eat elsewhere."

Han Fei smiled and said, "No need. Now I no longer need to hide my identity. You don't have to be so polite."

Hearing Han Fei's words, the middle-aged man smiled and said, "Human Emperor, please sit down."

Han Fei nodded slightly in response. Then, he saw a valiant-looking woman beside Le Renkuang staring at him curiously and then blushing slightly.

Han Fei was curious. "Who is this?"

Le Renkuang's face was also slightly red. "Well, Lin Zhi... My..."

"Young Master, it's not easy for you to get a wife. What's there to be ashamed of?"

"That's right. Our Sister Lin Zhi is the face of the God Slaying Bandits."

"Hahaha!"

Someone cheered, and Han Fei patted Le Renkuang's shoulder. "Not bad, Kuangkuang. You're finally enlightened!"

Le Renkuang stuffed a few skewers into Han Fei's hand and then glared at everyone. "What are you talking about?"

Then, Le Renkuang said in a low voice, "Lin Zhi, my fiancée."

Han Fei grinned. This was a happy thing, but at this moment, he was so poor that he definitely didn't have any gifts for Lin Zhi.

Han Fei said, "It's a blessing for you that Miss Lin Zhi took a fancy to you. When the Central Sea Divine Realm is pacified, you have to take Miss Lin Zhi back to the human race and have children with her."

"Ahhh~"

Lin Zhi blushed. She was good at fighting, but she really didn't know how to respond to these words.

However, Lin Zhi immediately raised her head and tugged at Le Renkuang's arm. "Did you hear that? I said that to you but you refused!"

Smack!

Han Fei slapped Le Renkuang's head. "You just don't know what's good for you."

"Hiss!"

Everyone thought to themselves, Except for the leader, this person is probably the only one who dares to slap Young Master.

After that, Han Fei nudged Le Renkuang with his elbow. "My daughter is very talented. You have to be quick."

Le Renkuang muttered, "Xiaobai hasn't had a child either."

Han Fei rolled his eyes. "Then introduce a man to her first."

The two of them chatted for a while before Le Renkuang said, "Why are you out of seclusion now? I heard that you got many refined stars in the Ferocious God Valley. I thought you would come out at least hundreds of years later."

"Alas!"

Han Fei sighed. "You may not believe it, but I'm broke now."

"Heh!"

This time, everyone curled their lips and rolled their eyes. It was already known that Han Fei had sold a bunch of captives and made a fortune. It was ridiculous to say that he was broke.

Le Renkuang was speechless. "I've never seen you broke."

Han Fei said, "I'm really poor this time. Otherwise, do you think I would have come here? By the way, tell me about the situation in the Guardian Sea. I have to leave after the battle."

Le Renkuang raised his eyebrows. "Why the rush?"

Han Fei said, "I'm really poor. This place might not be enough for me."

Le Renkuang was a little surprised. He knew Han Fei well. He knew that Han Fei would never lie to him. Now that he had said that he was broke several times, it seemed that he was really poor.

He said, "Aren't hundreds of thousands of refined stars enough?"

Han Fei shook his head. "Far from enough."

This time, the elegant middle-aged man said, "Has the Human Emperor cultivated the Supreme Divine Technique?"

Han Fei didn't keep it a secret. In the West Wilderness, many people knew about the Supreme Divine Technique.

### God of Fishing

#### **Chapter 3279: Battle for Ranking on the Ominous Battlefield (2)**

Everyone from the God Slaying Bandits nodded, but they still didn't understand. Even if Han Fei cultivated the Supreme Divine Technique, wouldn't the resources be used up too quickly? In 50 years, he had used up 500,000 refined stars, right? Didn't that mean he would have to use 10,000 a year?

Le Renkuang asked, "How much do you need?"

Han Fei shook his head slightly. "I'm not borrowing money from you. I want too much. You can't afford it."

Le Renkuang immediately tore off a piece of meat and said, "You underestimate me, don't you? I..."

Le Renkuang suddenly remembered that Han Fei had used more than 500,000 refined stars in the past 50 years and was discouraged. He couldn't even take out 100,000, let alone 500,000.

Although there were many strong masters from the God Slaying Bandits in the Ferocious God Valley, he couldn't ask everyone to give him their resources. His master had recently disappeared, and he was at the critical period of law stacking. He had very few refined stars, less than a thousand, which were not even enough to fill the gaps between Han Fei's teeth.

Han Fei smiled and said, "If you can get hundreds of thousands of refined stars yourself, I won't stand on ceremony with you. I won't take anything from the God Slaying Bandits. Okay, tell me about the Guardian City. I'm going out to hunt."

The God Slaying Bandits were secretly relieved, fearing that Le Renkuang would agree without hesitation. Even if they had no complaints, they couldn't gather more than 100,000 refined stars in total, which didn't mean much to Han Fei.

And Han Fei said that he wouldn't take anything from the God Slaying Bandits, which made them immediately like Han Fei more.

Le Renkuang didn't argue anymore. Instead, he said, "The Guardian City is not responsible for resisting the ominous, but for guarding the Skynet. You should have seen the purification stars on the way. These connected purification stars are called the Skynet. The Skynet spans nearly half a light-year, but this is only the rear barrier of the Guardian Sea."

Han Fei narrowed his eyes slightly. "What a magnificent project. Was this set up by someone?"

Le Renkuang nodded. "It's said that it existed in the Primordial Era. In front of the Skynet, there is also the Star Sea Broken Cliff. How should I put it? This is an inexplicable thing. You know my Deep Blue Roar's Black Hole Swallowing, right?"

Han Fei nodded. "A very big black hole?"

"No!"

The flesh on Le Renkuang's face trembled. "The Guardian Sea is a gap that connects to an unknown world. That gap is like a floodgate. The gap is not big, but the throughput is astonishing. Because of the spewing of this gap, it formed the Guardian Sea. But in the Primordial Era, or even longer ago, someone tried to cut off this gap to prevent the ominous from entering the Sea of Stars. He succeeded, but he didn't succeed either."

"Huh?"

Han Fei was quite shocked. To be able to form a floodgate of the Guardian Sea and cut it so easily, this strength was indeed unimaginable.

Le Renkuang continued, "He succeeded because most of the ominous creatures were blocked on the other side of the Star Sea Broken Cliff. He failed because after a long time of trying, the ominous creatures managed to pass the Star Sea Broken Cliff with the ominous power. It's equivalent to building bridges between the two cliffs. The ominous creatures we see now all come from those bridges."

"The bridges can't be destroyed?"

Han Fei's first reaction was to destroy those bridges, but if they could be destroyed, they would have been destroyed long ago.

This time, the elegant middle-aged man said, "They can't be destroyed. Countless people have tried it in ancient times. The Three Temples even took action in the past. It's said that the battle was extremely fierce. The gods died, and the ominous died even more. In the end, the two parties were in a stalemate and formed a tacit understanding. As long as the ominous creatures didn't attack with all their strength, the strong masters of the Sea of Stars would not try to destroy the bridge. This tacit understanding has existed since the Primordial Era."

"The Three Temples took action?"

Han Fei was puzzled. If the three temples joined forces, wouldn't there be a dominator-level war here? In the end, they both took a step back.

Han Fei asked, "Then what kind of strong masters will come over now?"

Le Renkuang said, "It depends on what kind of powerhouses take action. If we send a god-level powerhouse over, the other party will naturally mobilize doomsday-level ominous creatures. Of course... for someone like you who has the Demon Purification Pot, if the doomsday-level ominous creatures don't come, you will easily launch a massacre on the ominous, so you will be directly recognized as god-level."

"Heh, I didn't know my level was so high."

Han Fei was speechless. He hadn't even fought yet, but he had already been recognized as a god. Come on, he was still far away from being a god!

However, it seemed that Senior Brother Lei Heng, Yue Lingke, and the others had clearly been recognized as god-level powerhouses. Was it because they had killed too many ominous creatures? Or was there a limit to the number of powerhouses on the ominous side?

"Okay! Since I'm already here, let me try."

"Crunch ~"

Han Fei took a bite of the skewer, got up, and said, "I haven't fought a doomsday-level ominous creature yet. I'm leaving."

Le Renkuang quickly got up. "I'll go with you."

"Okay!"

The God Slaying Bandits immediately stood up. If Le Renkuang wanted to go, so did they.

In the Guardian City, seven god-level powerhouses were also looking at Han Fei.

Someone said indifferently, "Is he the owner of the Demon Purification Pot? He doesn't look special. I also want to see how far he can go."

A goddess chuckled. "Don't underestimate him. How can anyone weak survive until now with the Demon Purification Pot in hand?"

### God of Fishing

#### **Chapter 3280: Battle for Ranking on the Ominous Battlefield (3)**

Someone said lazily, "I also heard that the Void Temple has a little junior brother. I didn't expect to see him so soon. It seems that he has grown quite fast. Let's go. Since you want to see him, let's go!"

...

After leaving the Guardian City and flying in the Skynet for about an hour, Han Fei and the others finally came to the end of the Skynet. Further forward, they encountered a large number of ominous creatures surging towards the Skynet. Here, Le Renkuang said, "From here on, we have to fight our way through. Otherwise, although there is a way to avoid these surging ominous creatures, when we reach the Star Sea Broken Cliff, we are very likely to be besieged. The ominous creatures above the destruction level are all intelligent."

Han Fei nodded slightly. "Then let's fight. If you can't keep up, don't follow me."

The elegant middle-aged man said, "I'll take Young Master there. You stay."

Lin Zhi: "I want to go too."

Le Renkuang said, "No, the Star Sea Broken Cliff is very dangerous."

Lin Zhi immediately frowned. "No, I want to go."

Buzz!

Suddenly, a man in green appeared beside them. Han Fei's heart stirred. So fast. When he realized what was going on, this person had already arrived.

Immediately, the middle-aged man cupped his hands. "Greetings, Lord God."

The god-level powerhouse said carelessly, "It's been a long time since anyone challenged the Star Sea Broken Cliff. I want to see it too. Since you want to see it, I'll take you there."

Han Fei and this god looked at each other. He couldn't judge the other party's strength at all. He could only judge that this person was a god-level powerhouse from the faint divinity he emitted.

The god glanced at Han Fei. "Is the Demon Purification Pot complete?"

Han Fei shook his head. "Not yet."

The god said regretfully, "That's a pity. You can't break the record."

Han Fei smiled and said, "I'm not here to break the record. I'm here... to collect money."

The god: "..."

...

Led by a god, in a moment, everyone stepped out of the void.

Han Fei saw that in the Guardian Sea that should have been full of nebulas, there was a completely blank vacuum, filled with endless dark and deep space.

In the endless dark sky, several areas enveloped by ominous mist could be seen. This area had been enveloped by another distant nebula.

Outside the ominous mist, a large number of ominous creatures gathered. At every moment, a group of them rushed to the Skynet. Similarly, ominous creatures came out of the ominous mist at all times.

Le Renkuang said, "Be careful! If you can't fight anymore, you can retreat to the Guardian City or leave with the mark of the Primordial Tower on your wrist."

Han Fei grinned and said, "I don't think that situation will happen. Let's see how many we can beat in a day."

With that, Han Fei took a step forward. He didn't care that a god-level powerhouse watched him fight. He even knew that more than one god had come.

Swish ~

In front of the ominous mist, countless ominous creatures were attacking continuously. Suddenly, in the Sea of Stars, a figure strolled over from the void, which stunned many ominous creatures.

Immediately, seven or eight world-ending level ominous creatures rushed out in an instant. They knew that the strong masters of the myriad races who could come here alone must be very strong. However, the other party was only a Great Monarch, so they weren't afraid.

"Puff! Puff! Puff!"

Unfortunately, before these seven or eight world-ending level ominous creatures could attack or unleash their full strength, they were instantly pierced by a green light.

The vines of the Demon Purification Pot bloomed in an instant, and the world-ending level ominous creatures exploded in the void like fireworks.

"Hiss ~"

Le Renkuang couldn't help but sigh. "No wonder countless people want the Demon Purification Pot. You didn't even need to kill them yourself. Isn't it like picking up money?"

The middle-aged man next to him said, "It's not that simple. Even if the Demon Purification Pot has all nine vines, it's not absolutely invincible. There seems to be an upper limit to its killing, which is the short-term upper limit of the Demon Purification Pot."

Lin Zhi also exclaimed, "That's like picking up money. The world-ending level produces a level-six energy crystal. One can be exchanged for ten refined stars."

On the battlefield.

The sudden death of seven or eight world-ending level ominous creatures immediately attracted the attention of a large number of ominous creatures.

Immediately, a world-ending level ominous creature shouted, "Kill!"

The ominous sound shook the Sea of Stars, and one swath of ominous creatures after another rushed at Han Fei.

Among them, there were mainly terrifying-level ones and very few destruction-level ones.

This was because ominous creatures below the destruction level had no independent consciousness. Even destruction-level ominous creatures only had a little intelligence. They probably knew that now was not the time for them to take action.

Han Fei didn't come here to set the record in the first place, so he didn't care if it was a terrifying-level or a destruction-level one.

However, even so, it didn't mean that any ominous creature of any level was qualified to challenge him.

Swish! Swish! Swish!

In the void, life law chains appeared one after another.

"Puff! Puff! Puff!"

Many terrifying-level ominous creatures were pierced through without any time to flash. After all, terrifying-level ominous creatures were only equivalent to the Carefree Level, and Han Fei was now a Great Monarch. He was on a completely different level from the Carefree-level ominous creatures.

Therefore, when tens of thousands of life chains appeared, they pierced through thousands of terrifying-level ominous creatures in the blink of an eye. And every ominous creature that was pierced by the life chains had no chance to revive at all, because their long river of life was blocked and their ominous bodies were purified.
