#### Chapter 3281: Battle for Ranking on the Ominous Battlefield (4)

"The law of life?"

Le Renkuang and the others didn't know what method Han Fei used, but the seven god-level powerhouses who came to watch were all shocked.

A god said in an uncertain tone, "If I'm not wrong, that's the law of life, right?"

A god nodded. "That's right. Although I haven't come into contact with it, this is indeed the law of life. He forcibly takes the ominous' vitality and has the extraordinary power of purification. I knew that the Void Temple wouldn't accept people so easily. This guy is indeed extraordinary."

A god sighed. "I'm very curious. How did he comprehend the law of life in this era?"

A god said, "Why do you think so many people are fighting for the Demon Purification Pot? It's said that the Demon Purification Pot will give birth to something called the Dew of Origin. This thing can evolve the Great Dao of Origin, the law of Origin, a Supreme Nature Treasure, and so on. I remember that someone once evolved a Supreme Nature Treasure with the Dew of Origin. I didn't expect Han Fei to evolve a law. How bold!"

When this god mentioned the ability of the Demon Purification Pot, the other gods present were stunned. They had never owned the Demon Purification Pot and didn't know this.

However, the Dew of Origin immediately piqued their interest.

However, the god just now added, "Everyone, don't covet it. The Demon Purification Pot seems to only give birth to one drop of the Dew of Origin after it changes hands. Not to mention that you can't get the Demon Purification Pot, even if you can, it's a question whether you can wait until the Dew of Origin is born. It's very likely that you will be killed in a few days."

A goddess also said, "His situation can't be replicated. It's not enough to just master the law of life. It can only make you stronger when fighting the ominous, but at other times, such as fighting the strong masters of the myriad races, the effect of the law of life is not so obvious."

Outside the arena, Lin Zhi tugged at Le Renkuang's sleeve and said, "What kind of law chain is this? What a terrifying purifying power. A terrifying-level ominous creature doesn't even have the ability to resist it."

Le Renkuang opened his mouth. "I don't know!"

"Isn't he your best brother?"

"I just don't know! We each have different opportunities. We haven't been together much recently. It's normal that I don't know."

The other God Slaying Bandits were dumbfounded. They had thought that Young Master's potential and aptitude were unparalleled in the world, but now it seemed that Young Master's brother seemed to be even more terrifyingly talented!

If possible, they even felt that it was not impossible to change the young master.

"Puff! Puff! Puff!"

When thousands of terrifying-level ominous creatures were not even qualified to be killed by the Demon Purification Pot, the world-ending level ominous creatures roared.

Immediately, in addition to the terrifying-level ominous creatures, a large number of destruction-level ominous creatures entered the arena. Although these destruction-level ominous creatures didn't seem to want to participate in the battle too early, in the face of the world-ending level ominous creatures' orders, with their underdeveloped intelligence, they still rushed out in groups.

Sure enough, this time, although Han Fei could still kill some with the law chains, he couldn't block all of them.

After all, the destruction-level and the terrifying-level were of different levels. He could kill dozens or even hundreds of them at the same time, but he couldn't kill tens of thousands at the same time.

In just a moment, hundreds of thousands of ominous creatures dodged and attacked in the void.

The Demon Purification Pot finally showed its power at that moment. Around Han Fei, there was almost an absolute restricted area. Anyone who tried to step into this restricted area, be it terrifying-level or destruction-level, would be penetrated immediately.

However, unlike Han Fei's previous battles, perhaps because there were too many ominous creatures on the Star Sea Broken Cliff, there were naturally more ominous creatures gathering around.

Originally, it would take Han Fei more than two hours to kill 50,000 ominous creatures.

But here, in just half an hour, Han Fei had killed more than 50,000 ominous creatures, including more than 10,000 destruction-level ones.

However, the Demon Purification Pot's killing speed began to slow down, and its efficiency kept decreasing.

Lin Zhi said, "Look, the Demon Purification Pot seems to be reaching its limit. It can no longer kill in one blow."

Le Renkuang's expression was also ugly. Although the Demon Purification Pot was powerful, it was indeed weak now. Not only could it not kill ominous creatures in one blow, but its speed had even decreased a lot.

Le Renkuang was about to shout at Han Fei, when the middle-aged man next to him said, "Young Master, don't be hasty. It's impossible for the Human Emperor not to know the problem of the Demon Purification Pot at this moment, but do you think he has any intention of retreating? No at all, so he still has other means that he hasn't used."

Le Renkuang was slightly relieved to hear that. Han Fei had many trump cards, which he completely believed.

A moment later.

When those ominous creatures could revive after being pierced by the Demon Purification Pot, the hundreds of world-ending level ominous creatures that had been waiting for this moment seemed to see an opportunity and swarmed up, determined to tear Han Fei apart on the spot.

However, the moment these hundreds of world-ending level ominous creatures appeared beside Han Fei, most of them were pierced by the Demon Purification Pot.

The Demon Purification Pot's efficiency was declining, but these world-ending level powerhouses were too close to it and couldn't dodge. However, they felt that they didn't have to worry about the Demon Purification Pot anymore, so they didn't care about being penetrated.

However, the moment they were pierced through, they were surprised to find that although their ominous bodies dissipated, they couldn't recombine.

A god couldn't help but sigh. "He sealed the connection between the ominous creatures in that area and the River of Life. Without the support of the River of Life, these ominous creatures still have to die. This law of life is indeed terrifying."

Buzz!

It was also when Han Fei instantly killed nearly 200 world-ending level ominous creatures that the names on the stone tablet in front of the teleportation door of the ominous battlefield suddenly changed.

A line of golden words was inserted into the list of the top hundred.

Han Fei, ranked 72nd, had killed 198 world-ending level ominous creatures and 15,200 terrifying level ominous creatures.

Instantly, even the air in the Primordial Tower was hot, because the cool air was absorbed by countless people...

### [God of Fishing](#)

#### **Chapter 3282: Fight Doomsday-level Ominous Creatures (1)**

Ferocious God Valley, Primordial Tower.

When Han Fei's name suddenly appeared on the stone stele, it immediately caused exclamations.

Someone exclaimed, "He's on the list! Human Emperor is on the List!"

Someone was surprised. "Isn't it too fast? How long has it been?"

Someone sneered. "Is it strange for the Human Emperor to be on the list? He's the owner of the Demon Purification Pot and is extremely powerful. Now he's a real Great Monarch. It would be strange if he isn't on the list."

Someone was puzzled. "That's true, but the speed at which he got on the list is too fast. He killed nearly 200 world-ending level ominous creatures and jumped to 72nd place in one go."

Someone said, "Don't look at the 200 world-ending level ominous creatures first. In just a few hours, he killed 15,200 destruction-level ominous creatures, which are comparable to Immortals!"

Everyone sighed. They really wanted to watch this battle. But they knew that even if they went, it was impossible for them to watch this battle, because the place where Han Fei fought was not something they could step into at all.

In the "Waiting for Someone" tavern, Chu Hao sighed slightly. "Unfortunately, I also obtained the Demon Purification Pot back then, but I wasn't so lucky."

Yue Lingke said, "This also shows the problem. You don't have enough luck, so you can't truly own the Demon Purification Pot. People only know the power of the Demon Purification Pot, but they have never thought that even if they were given some things, they wouldn't have the ability to take them."

...

At this moment, on the Star Sea Broken Cliff.

Han Fei had killed nearly 200 Great Monarch ominous creatures in an instant, but he knew that this chance was only once.

At this moment, he isolated this place from the River of Life. The small vines of the Demon Purification Pot were still dancing, and they could still take away dozens of ominous creatures every moment.

However, the world-ending level ominous creatures that hadn't arrived all stopped attacking. They weren't fools. Were they waiting to be harvested?

Therefore, the battle returned to its previous state.

However, the Demon Purification Pot's vines' killing efficiency had indeed decreased a lot, and their reaction speed was no longer so fast.

After Han Fei killed more than 20,000 ominous creatures, the Demon Purification Pot's killing efficiency on the world-ending level ominous creatures seemed to have dropped to the freezing point, less than half of its original level.

Therefore, more and more destruction-level creatures could avoid the Demon Purification Pot's vines. In addition to the Demon Purification Pot's vines, Han Fei also needed to rely on the life law chains and thousands of purified knife streams to continue the large-scale killing.

After realizing this, a world-ending level ominous creature finally ordered the terrifying-level ominous creatures to quit the battle, and a large number of destruction-level ominous creatures rushed up.

Swish! Swish! Swish!

"Puff! Puff! Puff!"

When tens of thousands of destruction-level ominous creatures attacked at the same time, the law chains and the purification knife light alone couldn't withstand the charge.

Boom!

Thousand Thunder Flash erupted, and tens of thousands of lightning marks were jumping on the field. Soon, amidst the flashing lightning arcs that filled the sky, destruction-level ominous creatures were killed by Han Fei one after another because they couldn't keep up with his speed.

At this moment, Han Fei's combat efficiency could be said to have dropped by more than ten times.

Outside the arena, the middle-aged man beside Le Renkuang sighed. "The Demon Purification Pot is much less efficient. If this goes on, this battlefield will be surrounded. I'm afraid it's impossible to break the record."

Lin Zhi said, "But he's still very powerful! He fought tens of thousands or even hundreds of thousands of ominous creatures alone. Under such circumstances, he can still fight. He can be considered a genius."

Le Renkuang didn't panic at all at this moment. He even took out some skewers and ate them while watching.

Lin Zhi asked, "Hey, how can you be in the mood of eating?"

Le Renkuang bit off a piece of meat and said, "What I'm afraid of is that he will enter a stable state in battle. In this case, he may have to fight for a long time."

"For a long time?"

They didn't know much about it, but people's energy was limited in the end. Even Great Monarchs were no exception. They knew that Han Fei could fight, but they weren't sure how long he could fight. In theory, as time passed, Han Fei's combat power should continue to decline.

At this moment, the space where Han Fei was was filled with energy crystals, but he had no time to take them.

At first, no one understood what Le Renkuang meant. They all felt that once the ominous creatures blocked the ten thousand lightning marks, Han Fei would probably be in a predicament.

In fact, those destruction-level ominous creatures did do that. Every time Han Fei used the Thousand Thunder Flash, a large number of destruction-level ominous creatures would block the Thousand Thunder Flash.

At first, Han Fei dodged the battles with Thunder Jumping and killed some terrifying-level ominous creatures along the way.

Realizing this, the terrifying-level powerhouses seemed to have received some kind of order. Every time, two or three of them would surround a lightning mark.

Just like at this moment, as soon as Han Fei appeared from the lightning, three terrifying-level ominous creatures attacked at the same time.

Han Fei raised his hand and brandished his sword. Three terrifying-level ominous creatures were purified in an instant. At this moment, a world-ending level ominous creature suddenly attacked, turning its ominous power into black needles that filled the sky and shot at Han Fei.

Han Fei reacted extremely quickly. He pushed back, and a light of purification appeared in front of him. The black needles fell like rain, but none of them could break through this light of purification.

Then, Han Fei flicked his finger, and a knife light filled with the light of purification counterattacked. At that moment, the world-ending level ominous creature wanted to retreat, but he found that Han Fei's knife came too fast. It was so fast that he could only cut part of his body to avoid this blow. However, at the moment he dodged out, Han Fei flashed and appeared beside him, activating the law of time. This world-ending level ominous creature froze for a moment and was pierced by the knife light the next moment, turning into nothingness.

### [God of Fishing](#)

#### **Chapter 3283: Fight Doomsday-level Ominous Creatures (2)**

In the eyes of others, Han Fei was naturally powerful. In just two moves, he killed a world-ending level ominous creature. But in the eyes of those world-ending level ominous creatures, Han Fei found that this person's combat efficiency had decreased too much.

This meant that Han Fei was not invincible at this moment.

Besides, at the moment they fought, the Demon Purification Pot's vines didn't even have the time to attack.

Therefore, another hundred world-ending level ominous creatures attacked.

Sure enough, this battle became a chase. After fighting for a full hour, Han Fei only killed more than 40 world-ending level ominous creatures in the end.

This was the manifestation of his current combat power. Although his basic combat power had already exceeded that of an ordinary peak-level Great Monarch, the world-ending level was comparable to that of a Great Monarch after all. It was already very powerful that Han Fei could kill more than 40 of them in an hour. If it weren't for the law of life, he might not have been able to kill even half of them.

In the battle, Han Fei had already recalled the small vines of the Demon Purification Pot. After observing Han Fei for several hours, the ominous side mobilized hundreds of world-ending level creatures again, trying to trap Han Fei.

However, at the moment when these world-ending level powerhouses attacked, a glint flashed in Han Fei's eyes. As the lightning on the surface of his body rumbled, this swath of Sea of Stars was immediately filled with lightning arcs, and the lightning arc deceleration domain was activated. The speed of all the ominous creatures here suddenly slowed down by more than 50%.

At this moment, the small vines of the Demon Purification Pot attacked again, and the hundreds of world-ending level ominous creatures here were tricked again and pierced through in the blink of an eye.

"Heh!"

A god shook his head slightly. "This kid is quite cunning. He held himself back until now."

A goddess said, "In the end, it's because he's weak that he needs to play these tricks. The hour just now showed his real strength."

A god shook his head slightly. "He's still a little weak. If that's the case, I'm afraid he won't even be able to enter the top ten."

On the God Slaying Bandits' side, Lin Zhi and the others were refreshed the moment they saw Han Fei erupt. Le Renkuang still didn't react much as if he had expected this.

Besides, he didn't think Han Fei didn't have any more means.

On the stone stele of the ominous battlefield in the Primordial Tower, Han Fei's name slowly rose to 64th place. Suddenly, it jumped by 16th place and became 48th, causing another wave of discussion.

"So fast! He's already in the top 50?"

"He killed more than a hundred world-ending level ominous creatures at once. He must have used some special method, right?"

Someone sighed. "Although this speed is already very fast, it's still incomparable to Li Daoyi's data. Besides, unless Human Emperor suddenly kills hundreds of world-ending level powerhouses again, it's a question whether he can enter the top ten."

"That's true."

"Indeed, it's probably difficult for him to break the record."

While many people were feeling a little regretful, Han Fei was harvesting the ominous creatures in the lightning arc deceleration domain. In addition to killing more than a hundred world-ending level ominous creatures, he also killed more than 10,000 destruction-level ominous creatures. Besides, he also collected the scattered energy crystals.

Han Fei sighed slightly. In fact, at this moment, he no longer had the means to suddenly kill a large number of world-ending level powerhouses. Perhaps the Creation Chessboard could, but it was too wasteful to use it here.

However, he didn't care, because he was here to earn money, not to break the record.

At this moment, the world-ending level ominous creatures that had been tricked twice finally became smart and stopped attacking in large numbers.

Without a large number of world-ending level powerhouses taking action, the pressure on Han Fei was greatly reduced. After harvesting the ominous creatures in the lightning mark deceleration domain, Han Fei activated his Original Great Dao without hesitation, and his combat power quickly increased by three times.

Because his strength was improving too fast, his physique couldn't keep up. Han Fei couldn't care less about the strengthening of his physique now.

However, three times his combat power was enough.

At this moment, Han Fei felt that he was unparalleledly powerful. Around him, a large number of destruction-level ominous creatures were still charging at him. But this time, the speed of the life law

chains soared as if dancing wildly in the Sea of Stars, so the destruction-level ominous creatures that approached him were instantly purified and didn't even have the qualifications to resist.

Han Fei had experienced the Immortal Level. Even if he was at the peak of the Immortal Level, his combat power was only 5,000. However, now that he had 180,000 Star Powers, his combat power had soared too much.

"Huh?"

A god suddenly said, "Is this a secret method, or what?"

A god said, "The Supreme Divine Technique doesn't have this move. It should be a secret technique."

The others didn't respond, because they weren't sure.

At this moment, Han Fei stepped in the air, and the surrounding destruction-level ominous creatures exploded one after another like fireworks.

His goal turned out to be the ominous mist. Finally, a world-ending level powerhouse took action. Although they knew the danger, they couldn't retreat.

A world-ending level ominous creature charged at full speed, its palm turning into a black blade. Han Fei simply clasped the void with one hand, and space shattered, turning into a knife stream that poured out.

"Puff! Puff! Puff!"

The world-ending level ominous creature was cut into powder in the blink of an eye. It was rolled up by the purification power emitted by Han Fei and immediately died on the spot.

On the God Slaying Bandits' side, Le Renkuang murmured, "That's it. This is his real strength."

Lin Zhi and the others were all dumbfounded. On the battlefield, Han Fei would definitely kill anyone he attacked, be it destruction-level or world-ending-level.

### [God of Fishing](#)

#### **Chapter 3284: Fight Doomsday-level Ominous Creatures (3)**

At the same time, among the hundreds of thousands of ominous creatures, a Divine Wheel bloomed behind Han Fei. Under the protection of the light of purification, everyone below the god realm was like ants.

This time, Han Fei had been charging for more than six hours. Countless destruction-level ominous creatures had died at his hands, and more than two hundred world-ending-level ominous creatures had died.

At this moment, countless people had gathered under the Primordial Tower.

On the stone stele, Han Fei's kill count was changing every second.

"He's 12th. Although there's not much time left, it doesn't seem to be a problem for him to enter the top ten."

"Look, there are more than 500 world-ending level kills."

"The most terrifying one is the destruction-level ones. He has already killed more than 50,000 of them. In terms of destruction-level kills alone, Han Fei is already ranked sixth."

"Look, he's ranked 11th."

It was noisy under the Primordial Tower.

On the battlefield, Han Fei didn't seem to be tired at all. Finally, he caused the ominous mist to tremble.

Something seemed to be unable to sit still in the darkness. A huge dark claw extended out of the ominous mist, which was a million feet long. The giant claw grabbed at Han Fei, and the space along the way faintly cracked.

"Doomsday-level."

Han Fei had seen doomsday-level ominous creatures more than once. This level was not something he could shake for the time being.

The moment the giant claw appeared, Han Fei knew that this battle couldn't be continued. Tens of thousands of lightning marks spread out, and tens of thousands of life law chains in the void buckled the giant claw.

The giant claw clenched into a fist and seemed to crush the space. From its palm, a terrifying purgatory swept in all directions, and the life law chains began to shatter under the impact of a large amount of ominous aura.

In the end, none of the tens of thousands of law chains could be attached to this doomsday-level creature.

At this moment, most of the other party's body was about to rush out of the ominous mist.

Han Fei took a deep breath and the Blood Sky Blade appeared in his hand. He made a posture of drawing his broadsword. In an instant, he gathered all his strength on this broadsword, and all laws fused, shining brightly.

Swish ~

An extremely dazzling knife light slashed at the huge body that was hundreds of thousands of feet long.

As for the head of the doomsday-level ominous creature, at this moment, it had already extended out of the ominous mist. Its twisted and irregular head, its big mouth like a black hole in the abyss, and its sharp teeth condensed from darkness.

Seeing Han Fei's slash, the doomsday-level ominous creature didn't dodge but met it with a palm.

Crack! Crack! Crack!

When the knife light that should have been invincible touched the ominous power of that level, it was like water and fire blending, producing sizzling sounds.

One of the fingers of the doomsday-level ominous creature was cut off. However, that was all. The knife dissipated in the end, and the broken finger recovered in the blink of an eye. And the palm continued to slap at him without being stopped.

Bang!

Han Fei was sent flying at a thousand times the speed of light, leaving a long fiery mark in the Sea of Stars.

"Puff ~"

After more than three seconds, Han Fei finally stabilized himself, but his body was already dripping with blood. The Wheel of Life behind him bloomed with brilliance and quickly repaired Han Fei's injuries.

"Sure enough, facing an ominous creature at this level, unless my original Great Dao is fully activated, I can't resist it at all."

Different from the strong masters of the Time Temple, they could use time and ancient lives to fight doomsday-level ominous creatures as Great Monarchs.

However, Han Fei was still not strong enough. Even if he fully unleashed his strength, it was still not enough. It was not that his laws were not strong, but that he was no match for a doomsday-level ominous creature in terms of absolute strength.

Although the gods didn't speak, they were still quite surprised that Han Fei could withstand this blow.

As for the God Slaying Bandits, the middle-aged man beside Le Renkuang sighed. "It shouldn't be possible for Master Human Emperor to kill this doomsday-level Monarch, but he is already powerful enough. Lei Heng used to try six times before killing a doomsday-level ominous creature, but he stayed in the Great Monarch realm for a long time before taking action. How long has it been since the Human Emperor advanced to the Great Monarch realm? To be able to achieve such a battle record is already enough to shake the Sea Realm."

Le Renkuang narrowed his eyes. "He's almost as strong as the old man."

The middle-aged man smiled and said, "Not yet. However, it's hard to say if we can let Master Human Emperor grow up for a while longer."

Han Fei tapped his foot and charged out again. This time, he turned into a Tai Chi Diagram and slashed at the doomsday-level Monarch.

As for the doomsday-level ominous creature, it raised its hand and punched, colliding with the Tai Chi Diagram with a vast ominous mist.

Bang!

The Tai Chi Diagram collapsed, and Han Fei was sent flying again. One of the doomsday-level ominous creature's fists was cut off.

At that moment, Han Fei tried to extract the doomsday-level ominous creature's vitality, but before he could cut off the other party's river of life, his law of life was forcibly shaken away by an invisible force.

The doomsday-level ominous creature didn't stop. It spewed out a sword pillar that arrived in an instant and almost nailed Han Fei into powder. A Time River appeared around Han Fei, and as the river rolled, thousands of Han Fei seemed to appear, attacking at the same time at different time nodes.

In this way, Han Fei managed to barely take this blow.

This time, when Han Fei appeared, his body was shining with golden light, and his Invincible Golden Body was full of cracks. The sword pillar was clasped by countless time chains and failed to hurt Han Fei in the end.

"I quit."

Han Fei shouted. Although he still had the strength to fight, it was unnecessary, because with his current strength, he couldn't kill this thing at all.

### [God of Fishing](#)

#### **Chapter 3285: Fight Doomsday-level Ominous Creatures (4)**

Han Fei stopped and shouted as he retreated, "Brother, go back!"

The doomsday-level creature still wanted to continue attacking, but the god beside Le Renkuang and the others had already appeared on the battlefield.

He said leisurely, "You're at the doomsday level after all. Do you want to bully the weak?"

The doomsday-level ominous creature shouted angrily, "This person has combat power comparable to a god."

"B\*llshit."

The god raised his hand, and a ten-thousand-foot-long divine sword hung high in the sky. "I told you to retreat."

The doomsday-level ominous creature took a deep look at Han Fei with its dark pupils and finally said, "You can't win with the calabash."

Han Fei smiled and said, "That's my business. Next time I come, I'll still fight you as a Great Monarch and kill you."

"Hmph!"

The doomsday-level ominous creature ignored Han Fei and gradually retreated into the ominous mist.

Behind Han Fei, the Wheel of Life spun, and his injuries recovered by seventy or eighty percent in the blink of an eye.

After Han Fei retreated, Le Renkuang said a bit enviously, "When I stack more than a hundred laws, I'll go to your Origin Star to cultivate in seclusion."

Han Fei grinned and said, "Okay!"

Then, Han Fei cupped his hands at the god-level powerhouse and said, "Thank you for your help, Senior."

The god smiled faintly. "He attacked because we acquiesced. In fact, he shouldn't have attacked in the first place. Your secret technique is very powerful."

Han Fei was stunned. These gods didn't know that it was his original Great Dao operating?

Han Fei replied with a smile, "Unfortunately, I'm no match for him."

The god shook his head slightly. "You're already good enough. I look forward to your next visit."

With that, the god waved his hand and led everyone away.

After a while, they returned to Guardian City. Han Fei was thinking about something.

This was the first time a god-level powerhouse had taken him to walk. He was touched. This didn't seem to be because the gods were fast, but because they had mastered a higher level of power. Besides, the place they walked wasn't reality, but a place similar to the Void World.

Unfortunately, he wasn't a god yet, so he couldn't touch the way of movement at this level for the time being.

After returning to the Guardian City, the god left without communicating much with Han Fei.

The first thing Han Fei said was, "Kuangkuang, how can I exchange my energy crystals for refined stars?"

Le Renkuang said, "Actually, it's not worth it."

Han Fei said, "But I have to do it."

Le Renkuang said, "Come with me. There is a special resource exchange place in Guardian City."

After a while, Han Fei came to an independent small palace in the Guardian City. He saw an old man in the Great Monarch realm sitting on a chair at the door, reading a book.

Le Renkuang said, "This is Senior Li, the resource operator of the Guardian City."

The old man also raised his head, looked at Han Fei, and couldn't help but ask, "I'm also very curious. How many ominous creatures has Human Emperor killed?"

Although no one went to the Star Sea Broken Cliff to watch the battle, the fact that Han Fei dared to challenge the Star Sea Broken Cliff was enough to make everyone curious. Not only this old man, but Han Fei sensed hundreds of gazes looking here.

Han Fei shrugged slightly. "548 level-six energy crystals, 61,012 level-five energy crystals, and 44,110 level-four energy crystals."

"Hiss!"

In the dark, many Great Monarchs were stunned. Is this person so strong? It hasn't even been a day, but he has killed so many?

Someone smiled bitterly. "Another ranker? These people are really monsters!"

Someone sighed. "This is a hundred times stronger than the last person who came to break the record!"

Someone sighed. "It seems that I have to go back to the Sea Realm to understand the current situation of the Sea Realm. We don't even know when such a person appeared."

The old man in front of the palace was also taken aback for a moment before he smiled. "Impressive."

Han Fei said, "You flatter me. Senior Li, how can I exchange for resources?"

The old man smiled and said, "Level-four energy crystals require ten to exchange for one refined star. Level-five energy crystals require two to exchange for one refined star. Level-six energy crystals can exchange for ten refined stars."

"Uh! Isn't this ratio too much of a loss?"

A level-six energy crystal was a world-ending level ominous creature's product, equivalent to a Great Monarch. But 100,000 good refined stars could be dug out from a Great Monarch's Origin Star, but this energy crystal could only be exchanged for ten. That was ten thousand times less!

The old man said leisurely, "After all, the ominous creatures don't have Origin Stars. Besides, the energy provided by energy crystals is relatively monotonous. In all aspects, it's much worse than refined stars. Therefore, it can only be in this ratio. Of course, if you want to use it yourself, although the effect of energy crystals is not as good, if you take time to adjust, the effect is not bad. How is it? Do you want to exchange them?"

Han Fei thought for a moment. This old man was right. Although energy crystals were not bad, they were far inferior to refined stars.

The Supreme Divine Technique was known as the Star Devouring Technique. Star Devouring was the main method to practice it.

Han Fei gritted his teeth and said, "Yes, everything below level-six energy crystals."

As for the level-six energy crystals, Han Fei planned to keep them, because when his soul power was to be greatly improved, he still needed the ownerless souls in the energy crystals.

Old Man Li laughed. "Little friend, you're straightforward. I'll give you 31,000 refined stars."

Another moment later.

Le Renkuang and Han Fei were walking on the road of the Guardian City when he said, "As I said, it was a loss."

Han Fei said, "It doesn't matter. Although it's not much, it's actually a lot. I'll come a few more times in the future."

"How can it be so simple? You've already been targeted by the doomsday-level ominous creatures. Next time you come, you definitely won't be able to hunt so many unless you can resist the doomsday-level ominous creatures while killing them."

Han Fei: "..."

After more than ten seconds, Han Fei said, "Sure enough, money comes faster from robbery!"

Han Fei's eyes became firmer. Finally, he seemed to have made up his mind and said, "Fatty, I'm going back to the Ferocious God Valley."

Le Renkuang was lost for words. "You're back already? You're not fighting anymore?"

Han Fei said, "No, as you said, I definitely won't be able to get so many next time. Then what's the point of fighting?"

Le Renkuang seemed to have guessed what Han Fei was going to do and hurriedly said, "You're trapped in the Ferocious God Valley now. Where can you rob?"

Han Fei grinned and said, "Who told you that the Ferocious God Valley can trap me?"

Le Renkuang's eyes glittered. "Take me with you."

Han Fei immediately shook his head. "No! The place I'm going to is too dangerous. I can only go alone."

Le Renkuang's face immediately sank. "Where?"

"The Central Sea Divine Realm."

### [God of Fishing](#)

#### **Chapter 3286: Sneak into the Central Sea Divine Realm (1)**

Under the Primordial Tower.

The crowd was discussing.

"Huh? Why is the ranking not moving any longer?"

"Human Emperor has already reached the 11th place. Why did it suddenly stop?"

"Can't he fight anymore?"

"That's not right. According to Human Emperor's fighting style, I'm afraid a doomsday-level ominous creature has come out, so he can't continue fighting."

"Will he stop at the 11th place?"

Buzz!

While everyone was discussing, Han Fei came out of the Primordial Tower with a swish, only to find that there was already a sea of people here.

Countless people looked at Han Fei with excitement in their eyes. Han Fei glanced back at the list. It was normal for him to be ranked 11th. Although he felt that his strength had improved greatly and he had countless treasures, he was still inferior to a peak-level Extreme Dao Great Monarch.

In the Great Monarch realm, the gap between the lower limit and upper limit of strength was too vast. He had just advanced to this realm, so it was still not easy for him to catch up in decades.

Swish!

Han Fei ignored the people who came to visit and came to the "Waiting for Someone" tavern in the blink of an eye. However, when Han Fei came here, he found that the tavern was also full.

Many people even began to greet him.

"The Human Emperor is awesome!"

"Master Human Emperor, may I ask if you came back because a doomsday-level ominous creature came out?"

A female Monarch said, "Master Human Emperor, I'm a humanoid. I can enter the human race."

A big demon called out, "Master Human Emperor, our race has a peerless beauty whose beauty is unparalleled in the Sea Realm. We have admired you for a long time."

Someone hurriedly said, "Master Human Emperor, are you going to establish a bandit organization? We've been bandits for many years and are quite strong."

"..."

For a moment, there were all kinds of voices.

The corners of Han Fei's mouth twitched slightly, and he cupped his hands. "Everyone, within a thousand years, I'll be focused on breaking the records and have no interest in anything else. Sorry."

Then, Han Fei looked at Yue Lingke, who pointed at the stairs on the second floor.

The tavern was not big, and the second floor was never open to the public. Han Fei quickly went to the second floor. He didn't have the time to deal with so many people.

On the second floor, Han Fei found that this was a place of wine making. There were all kinds of liquors being brewed. If it were Fifth Senior Brother, he would definitely like this place. However, he was not Fifth Senior Brother and was not very interested in wine.

Yue Lingke's voice sounded behind him. Han Fei looked back, only to see that Yue Lingke had also walked up.

Han Fei asked, "Sister-in-law, aren't you downstairs to receive the customers?"

Yue Lingke said, "One clone will do."

Han Fei thought that it made sense and immediately asked, "Where is Chu Hao?"

"He couldn't bear the disturbance, so he went out for a stroll."

Han Fei: "..."

Han Fei thought to himself, This guy is so comfortable. He's still in the mood to shop.

Yue Lingke asked, "Did you get the money?"

Han Fei shrugged. "A little. Sister-in-law, I want to ask you something."

Yue Lingke came to an elegant tea table on the second floor, where tea was being cooked.

Seeing Han Fei's confusion, Yue Lingke said calmly, "He likes to drink, while I like to drink tea."

Han Fei thought to himself, Then you two are really different! With that in mind, Han Fei smiled and said, "It's good to drink tea. Amidst the bustling world, three cups of wine; for the eternal undertaking, a pot of tea. If you enter the Void Temple, you might have greater achievements than Fifth Senior Brother."

Yue Lingke smiled. "You really know how to talk. Tell me, what do you want to ask?"

Han Fei immediately said solemnly, "Senior, I want information, information about the Central Sea Divine Realm. No matter which force it is, the more, the better."

Han Fei knew that Yue Lingke must have this kind of information.

Although this information could probably be bought in the Ferocious God Valley, it was probably impossible to buy a lot of it. Besides, the cost was huge, and he might not be able to afford it.

However, the divine descendants had been lying low for so long, waiting for an opportunity. As long as their bloodline recovered, they would definitely take revenge on the forces that had once hurt them in the Central Sea Divine Realm.

Therefore, the divine descendants must have a lot of information about the Central Sea Divine Realm, which was beyond doubt.

"Huh?"

"What do you want to do?"

Han Fei smiled without saying anything. Yue Lingke frowned slightly. "Do you have a way to leave the Ferocious God Valley? How can you leave the Ferocious God Valley under such circumstances... the Distanceless Gate? But the Distanceless Gate doesn't seem to be used by individuals, right?"

Han Fei said indifferently, "That depends on what I'll do. If everything I do is for a better tomorrow, to kill more ominous creatures and even save all living beings from fire and water, what reason does the Distanceless Gate have to refuse?"

Yue Lingke was silent for a moment. She raised her hand, and a massive number of jade slips floated in the air.

She said, "This is the information about dozens of divine races and more than a thousand forces in the Central Sea Divine Realm. It was collected bit by bit by the divine descendants over the past 100,000 years."

"Wow! The divine descendants are really generous."

Yue Lingke snorted. "Some debts have to be paid. We just need to wait for the right time."

Han Fei didn't stand on ceremony with Yue Lingke. This information was probably priceless. He immediately scanned the thousands of jade slips with his perception, and all kinds of information flashed crazily in his mind.

"No, information about the small and intermediate forces is not very valuable."

"Superpowers such as the Primordial Divine Academy, the Divine Demon Forest, the Sky Spider Worm Valley, the Ancient Demon Race, and the Chaotic Divine Race are forces that I can't step into at all. If I go there, I'll be courting death."

Suddenly, Han Fei was stunned. "Sister-in-law, are there so many gods in the large forces in the Central Sea Divine Realm?"

### [God of Fishing](#)

#### **Chapter 3287: Sneak into the Central Sea Divine Realm (2)**

Yes, Han Fei discovered that those large-scale powers, such as the Fist Sect, the Flying Immortal Tower, the Light City, the Mirage Sect, and the Thousand Phenomena Sect, all had gods guarding them, but they were hidden extremely well.

Yue Lingke said, "Otherwise, do you really think a mere Great Monarch can establish himself in a place like the Central Sea Divine Realm? However, you don't have to be afraid of these gods. There seem to be many of them, but they have been hiding for so long and won't easily expose themselves, so gods generally won't take action unless they are exterminated or threatened."

Han Fei counted. In this case, excluding those super forces, there were nearly twenty god-level powerhouses in these large forces alone.

It didn't seem to be much, but this was the Sea Realm! It wasn't the Sea of Stars. The Sea of Stars was boundless, but the Sea Realm was only this big. Most strong masters of the Sea Realm were fighting in the front line in the Sea of Stars, but they could still hide so many god-level powerhouses, which showed their deep heritage.

Han Fei continued to flip through it. After nearly an hour, Han Fei finally came up with a few options.

"Fist Sect, Jade Cauldron Sect, Thousand Phenomena Sect, Heaven Concealing Divine Race?"

Yue Lingke frowned slightly. Han Fei's choices were beyond her expectations. These four were all large forces. Han Fei's goal was self-evident.

Yue Lingke asked, "Do you want to give it a second thought?"

Han Fei shook his head slightly. "I've read their information. These families are all the focus of the investigation of the divine descendants. They all concluded with absolute certainty that their families have and only have one god-level powerhouse guarding them, while the information about the other families was inferred and not certain. Therefore, I don't want to bet on luck."

Yue Lingke said, "Since you're so confident, I won't stop you. However, aren't you going to try the other trials?"

Han Fei shook his head. "It's meaningless to go to the other trials now except to waste time. What I need is not combat skills, divine techniques, mastery of laws, or comprehension... What I need is to become stronger."

Han Fei knew his current situation very well. Before he became a Great Monarch, although the Supreme Divine Technique had obvious effects, it was completely different from the experience he had when he was a Great Monarch.

It could be said that all the hardships he had suffered before he became a Great Monarch had paid off the moment he became a Great Monarch. That was to devour stars crazily and quickly become stronger. As for the precipitation of strength, he wouldn't think about it until he reached a certain level.

Han Fei cupped his hands. "Sister-in-law, speed is the most important in war. I won't stay long."

Yue Lingke nodded slightly. "Be careful."

Buzz!

Han Fei directly entered his Origin Star. He wasn't worried that something would happen to Xia Xiaochan and the others in the Ferocious God Valley. He knew very well how capable they were.

Besides, they were protected by the Primordial Tower in the trials. There couldn't be a god-level powerhouse who broke into the protection range of the Primordial Tower and killed them. This was meaningless to those gods except to anger him.

Creation Divine Prison.

When Han Fei came in, the old man immediately said, "Han Fei, how is it going? I heard that this so-called West Wilderness is in chaos now, and divine battles have broken out several times. Are my divine descendants okay?"

"Heard?"

Han Fei looked at the two Great Monarchs who had been imprisoned in the Creation Divine Prison a few years ago. At this moment, they were tortured beyond recognition. The old man had been trapped here for so long and could only listen to them.

Han Fei chuckled. "Senior, I'm here for you."

"Huh? Okay!"

The old man seemed a little excited, thinking that Han Fei was going to let him out.

Han Fei came to the depths of the Monarchs' Jail, pushed open the cage door that suddenly appeared, and stepped through the darkness. His eyes suddenly lit up, and he heard the sound of water splashing, which was the sound of waves gently surging.

Han Fei scanned around with his perception. This was actually a huge sea spanning tens of thousands of kilometers. There were actually many creatures in this sea, but they were just the most ordinary creatures without any cultivation.

In the tide, above the waves, Han Fei saw a hale and hearty old man standing there, looking at him with a smile.

The old man's beard and hair were all white, but there were no wrinkles on his face at all. Apart from his beard and hair, people would believe that he was a spirited thirty-year-old.

"Hahaha! I finally see you. After endless years, I finally see a living person."

Han Fei smiled. "Senior, we finally met. I still don't know your name."

The old man stroked his beard and said, "Have you finally remembered to ask? I'm the formerly famous divine master, Qiu Wanren."

"Uh ~"

Han Fei was dumbfounded. Why don't you call yourself Qiu Qianren (note: a famous figure in a Chinese Wuxia novel)?

Before he could complain, Old Fierce complained, "Divine Master my ass. How many people have been harmed by your damn theory that cultivators don't need the body? If it weren't for this, you wouldn't have been locked up to suppress the bloodline of the divine descendants?"

"Hey, Wu Jiuxiong, don't mention that. You're too much."

Old Fierce snorted again. "That's the truth. You pointed countless people in the wrong direction."

"I changed it!"

"Heh!"

Han Fei was shocked and couldn't help but ask, "Cultivators don't need the body? What kind of theory is that?"

Qiu Wanren curled his lips. "That's a mistake I made in the past. The ominous attacked in the past, and I tried my best to find a way to create the Dao of pure soul. I thought that the Dao of pure soul would be stronger than the Extreme Dao of Soul Refining. But in the end... alas, the further cultivators take this Dao, the more ruthless they become. The gods are ruthless, treating mortals as ants and trampling on them wantonly, destroying all living beings."

### [God of Fishing](#)

#### **Chapter 3288: Sneak into the Central Sea Divine Realm (3)**

Han Fei's heart stirred. "Well... Senior, do you know the Eternal Race?"

Qiu Wanren curled his lips. "I already know the details from the two people outside. Yes, the rise of the Eternal Race is based on my pure soul Dao. However, I had already discovered the drawback of this Dao and didn't spread it out. Therefore, someone in the Eternal Race probably created a stronger path based on my pure soul Dao. However, the foundation of this Dao is wrong, so the stronger the cultivation technique they created based on this, the crookeder the path they will take. In the end, it was still me who caused this trouble."

"Shoot ~"

Han Fei was shocked. The Eternal Race used to be the Soul Race and had existed since the Chaotic Era. However, they rose after the Primordial Era. To be precise, they rose in the Age of Gods.

If they were really so powerful, they should have risen long ago. They didn't have to rely on the Bloodline Divine Tree.

Now, he finally understood. It turned out that someone had provided them with a way to become stronger, so they had come to this point.

Seeing that Han Fei was shocked, Qiu Wanren hurriedly said, "However, fortunately, only one scum, the Eternal Race, appeared. When I go out and catch a few Eternal Race people and study them carefully, I will definitely be able to find their flaws and break their technique. Now, let me go out first!"

Han Fei came back to himself and the corner of his mouth twitched. "Senior, let's not talk about catching the Eternal Race for now. The top priority is to restore the bloodline of the divine descendants. However, I'm not here to let you out, but to ask you to help me..."

Qiu Wanren's face darkened when he heard that. "I can't go out yet?"

Han Fei said, "Senior, the two outside don't know anything about the situation in the West Wilderness at all. If I let you out now, I guarantee that you will be killed in less than a day."

"Nonsense, I'm the divine master... Uh... Although I haven't advanced to the God Slaying level, not everyone can touch me, okay?"

Han Fei asked, "Can you beat two God Slaying-level powerhouses?"

"Uh..."

Han Fei quickly explained the situation in the Ferocious God Valley, and Qiu Wanren asked, "So, you're trapped now?"

Han Fei said, "Not to that point. I can still use the Distanceless Gate."

Qiu Wanren asked, "The Distanceless Gate follows the rules very well. Can you use it?"

Han Fei said, "I'll be the main force to resist the ominous in the future. It can make an exception for me, can't it? Otherwise, if I can't grow up, it will suffer even more losses."

"That's true."

Qiu Wanren asked, "Then what do you want to do now?"

Han Fei asked, "Aren't you very strong? Can you help me kill a god?"

Qiu Wanren said, "Being able to defeat and being able to kill are two different things. Tell me about the strength of that god. Although I haven't fought for a long time, there aren't many gods who can stop me."

Han Fei smiled. "That's exactly what I want. If you really can't kill him, it doesn't matter. Help me hold him back and catch him into the Creation Divine Prison."

"That's fine. This is much simpler than killing a god."

Han Fei said, "Senior, wait for my news. By the way, after this battle, I'll let you out. I hope you can advance to the God Slaying level as soon as possible."

Qiu Wanren was delighted. "That's great."

...

With a god-level powerhouse supporting him, Han Fei was immediately confident.

In the Sea of Stars, Han Fei activated the token and summoned the Distanceless Gate.

Swish!

The Distanceless Gate was as fast as ever. In the blink of an eye, it appeared beside Han Fei, and Han Fei said, "Old Distanceless, thank you. This time, I have to go to the Central Sea Divine Realm."

The Distanceless Gate: "Okay, I'll send you to the ominous battlefield first."

Han Fei said, "Wait a moment. I just came back from the Guardian Sea. I killed 548 world-ending level ominous creatures, 61,012 destruction-level ominous creatures, and 44,110 terrifying-level ominous creatures. That's more than 100,000 in total. Old Distanceless! I know it's not easy for you, but look, the stronger I am, the more ominous creatures I will kill. Think about it. If I become a god in the future, I can easily kill a million ominous creatures. This will all be thanks to you. The other Distanceless Gates are really incomparable to you."

The Distanceless Gate trembled slightly, and words immediately appeared on it. "Let's go!"

Han Fei grinned. "Send me to the sea near the Heaven Concealing Divine Race in the Central Sea Divine Realm. Don't be discovered."

The Distanceless Gate: "As long as I want, no one can find me."

"That's good."

...

Buzz!

In the Central Sea Divine Realm, a vortex gate opened on a cliff at the bottom of the sea.

Han Fei walked out of the door and couldn't help but sigh. He didn't know who created the Distanceless Gate. This thing was really awesome.

"Old Distanceless, thank you. I'll definitely kill another hundred thousand ominous creatures next time."

The Distanceless Gate disappeared. Han Fei put on a smile, turned into a black fog in the blink of an eye, and disappeared.

Half a month later.

Under the furious waves, in a group of undersea mountains, three sea beasts were cruising here.

When the three sea beasts came to the undersea mountains, a spatial rift suddenly appeared. The three sea beasts rushed into the rift in the blink of an eye.

There was no seawater here at all. Instead, there were clouds and mist, celestial mountains floating, and gulls flying in the sky. A long staircase led straight to the sky.

As soon as they entered, the three sea beasts turned into human forms who wore silver masks in the blink of an eye. The leader was an Immortal-level powerhouse.

This person led the other two Carefree Level cultivators up the stairs without a word until they came to a transparent barrier. As green light appeared on the three of them, a hole appeared in the barrier, and they entered safely.

### [God of Fishing](#)

#### **Chapter 3289: Sneak into the Central Sea Divine Realm (4)**

At that moment, Han Fei saw floating islands. Weren't they floating islands?

However, under these floating islands, there were complicated patterns. It should be some kind of mountain-protecting barrier.

On these floating islands, most of them were relatively ordinary people, mostly strong masters below the Sea Establishment realm. The divine race had a large population. In terms of prosperity, although it couldn't compare to the human race, it still had a population of ten billion.

At this moment, the three of them were in a hurry. They crossed the cultivation places of ordinary people and entered the depths of the Heavenly Hidden Divine Race, crossing the second barrier.

And in this barrier, the population plummeted. It seemed that only those above the Sea Establishment realm were qualified to come to the second barrier.

However, starting from the second barrier, Han Fei found that everyone here was wearing masks.

As expected of the divine race that specialized in concealment. They were so cautious. Even their own people might not know who the people around them were.

Therefore, these people used numbers to show their identities.

Instead, in the outside world, they didn't wear masks, because in the outside world, they could be anyone.

Han Fei was curious. Although he wanted to take a good look at the Heavenly Hidden Divine Race, he couldn't release his perception at this moment.

It wasn't until Han Fei who attached himself to the Immortal Level powerhouse passed the third barrier that he confirmed that the real powerhouses of the Heavenly Hidden Divine Race were inside the third barrier.

This was because the spiritual energy here was a thousand times that of the outside world. Even Sea Establishers were not suitable to cultivate here. However, for cultivators above the Star Transformation Realm, this was the most habitable place.

Of course, there were actually very few of them. No matter which race it was, the structure of the population was always an inverted pyramid. The stronger they were, the fewer there were.

The Immortal Level powerhouse in the lead flew across the sky and came to a floating island.

"Patriarch, I'm back."

"Come in!"

The Immortal Level powerhouse had to unlock more than ten layers of mist in a row to open a way. Han Fei was speechless. Wasn't it enough for these people to wear masks in their own houses? Did they have to be so cautious?

After a while, Han Fei finally saw the patriarch of the Heavenly Hidden Divine Race. He was wearing a golden mask and sitting on a golden chair, holding a weapon that looked like a demon vanquishing pestle.

The patriarch asked, "Seventeen, how's the investigation going?"

The person Han Fei possessed said, "Patriarch, we found nothing. This person is very powerful. I set up layers of ambushes but didn't catch him. He seemed to know that I was coming."

The patriarch snorted coldly. "In just half a month, our race has lost 187 peak-level late-stage Star Transformation Realm and perfected Star Transformation Realm cultivators, 8 Dao Proving Realm cultivators, and 3 Carefree Level cultivators. You told me that you didn't find anything... It seems that there are strong masters targeting our Heaven Concealing Divine Race."

The Immortal Level Monarch said, "Patriarch, please forgive us. But the point is that the enemy seems to have a way to crack our secret technique. If we let this person escape unpunished, I'm afraid the strong masters of our race will be on tenterhooks when they go out in the future. Patriarch, should we ask the people of the Thousand Phenomena Sect to help?"

"You don't have to worry about this matter anymore. I've already arranged for someone to invite Master Tianxiang from the Thousand Phenomena Sect. You can leave now!"

"Yes, Patriarch."

At this moment, even the patriarch didn't notice that a black fog had already floated down from this person.

After Seventeen left, the golden-masked patriarch suddenly said, "Old Eight, come out!"

A Great Monarch appeared from the Void World. He was also wearing a silver mask, but there were golden patterns outlined on the silver mask. Clearly, he had a higher status than Seventeen.

Old Eight shook his head slightly. "Seventeen's bait should have been seen through. Or maybe, the other party doesn't have the strength to take down Seventeen and the others, so they chose to give up. I'm more inclined to the former."

"Oh? Then you didn't feel anything wrong from the beginning to the end?"

Old Eight shook his head. "No. I don't believe that the other party didn't find Seventeen and the others. Since the other party can accurately hunt the whereabouts of the strong masters of our race, he must have a way to find them. Therefore, I'm more inclined to believe that the other party is a powerful soul cultivator. He should have sensed my existence, but I didn't sense him."

"Hmph!"

A cold snort came from under the golden mask.

"Forget it. Since you can't catch that person, let's wait for another half a day. When Master Tianxiang arrives, I'd like to see where that person can hide."

As soon as the patriarch of the Heaven Concealing Divine Race said so, some ferocious laughter sounded.

"Sorry, you can wait for half a day, but I don't intend to wait."

### [God of Fishing](#)

#### **Chapter 3290: Imprison A God (1)**

"Who is it?"

The patriarch of the Heaven Concealing Divine Race and Old Eight's expressions suddenly changed.

They couldn't believe that someone could appear here silently without them knowing. If there was really such a person, how strong was he?

At the moment Han Fei spoke, Old Eight was punched through and his body was almost completely crushed.

Han Fei had been waiting for this moment. He needed someone to take him to the core of the Heaven Concealing Divine Race. As Old Eight said, Han Fei had long discovered him, so he didn't pretend to take the bait or harvest the fish this time. He just followed him all the way to the core of the Heaven Concealing Divine Race.

As long as he came in, Han Fei didn't intend to take it slow. This was because he knew that the Heaven Concealing Divine Race had a god guarding them, so the slow method wouldn't work. Once he attacked a Great Monarch or an Immortal Level powerhouse in the territory of the Heaven Concealing Divine Race, the patriarch of the Heaven Concealing Divine Race might not discover him, but that god would definitely discover him.

Therefore, now was the best time to attack.

Bang!

Old Eight was punched through, and at the same time, Han Fei had already slashed at the patriarch of the Heaven Concealing Divine Race.

At this moment, Han Fei's Original Great Dao was fully activated, his combat power was nearly 200,000 star powers, and his soul power was also extremely powerful. Even as a patriarch-level powerhouse, even if the other party was a peak-level Extreme Dao powerhouse, it was impossible for him to react instantly.

Furthermore, this slash was launched from behind him. The latter had no time to react as a high-quality Nature Spiritual Treasure-level battle suit appeared on his body.

Clang! Clang!

"Puff ~"

When Han Fei's blade fell, under the influence of temporal manipulation, it was equivalent to two slashes. In addition to the battle suit, there was also a jade plate blocking behind the patriarch. It should be a Soul Suppressing Spiritual Treasure.

Even so, many parts of the patriarch's body exploded. After all, not everyone had Han Fei's physique. Although the Heaven Concealing Divine Race was also a divine race, they were best at concealment and disguise. They could be very outstanding assassins, but they were definitely no match for body refiners, especially when they were approached.

After this slash, the other party knocked the demon vanquishing pestle in his hand on the ground. Just as he was about to awaken some kind of array, Han Fei smiled. "Steal."

This time, he didn't steal the demon vanquishing pestle in the other party's hand, but directly used it on the other party.

Without the protection of a Soul Suppressing Spiritual Treasure, Han Fei didn't believe that anyone in his same realm could completely block the Void Stealing Technique, even if it was only for an instant.

Sure enough, the patriarch felt that his consciousness was a little blurred. At this moment, the Creation Divine Chain had already swept over.

Bang!

A powerful soul power soared to the sky. When the patriarch reacted and saw the Creation Divine Chain, he naturally knew who this guy was. Although he was shocked, at this critical moment, he had no time to think. He didn't even have time to dodge the attack of the Creation Divine Chain.

Therefore, his first reaction was to shake this place with his soul power to attract their god to take action.

In fact, there was no need for him to summon the god at all. A divine might spread here.

"Who dares to break into our Heaven Concealing Divine Race?"

The divine might enveloped this place, but the power of divinity couldn't shake Han Fei.

The god pointed at Han Fei, trying to kill him with one blow.

But at this moment, the Law Enforcement Divine Chain had already clasped the patriarch of the Heavenly Concealed Divine Race. Han Fei looked at the god who appeared and put on a faint smile.

Ka ka ka ~

The Creation Divine Prison appeared, and Qiu Wanren appeared with his hands behind his back. In front of him, the divine finger shattered.

Qiu Wanren greedily breathed the air here. At that moment, all the spiritual energy in the Heaven Concealing Divine Race seemed to stop flowing in an instant, all surging towards Qiu Wanren.

"It's great! I can finally see the light of day again. This wonderful feeling makes me miss it!"

The god of the Heaven Concealing Divine Race shouted, "Who are you? Don't you know that the strong masters of the Central Sea Divine Realm have joined forces? If you dare to attack our Heaven Concealing Divine Race, don't even think about escaping from the Central Sea Divine Realm."

"Hehe! A group of brats trying to threaten me. You participated in the siege of our divine descendants, right? Today, my retaliation will begin with you."

In Han Fei's ears, Qiu Wanren said, "Han Fei, you solve the others here. Leave this little god to me."

Han Fei said, "Senior, you must keep him here. I'll help you later."

All of this happened in a flash. Old Eight was blown up. Because the vitality here was controlled by Han Fei, he hadn't recovered yet.

As for the current patriarch of the Heaven Concealing Divine Race, he was ambushed by Han Fei. Although he might not be weak, he was caught by the Law Enforcement Divine Chain before he could do anything.

After taking down two Great Monarchs at once, Han Fei smiled. These were two considerable resources.

Under the envelope of the Creation Divine Prison, golden inscriptions appeared. They were a series of sins of the patriarch of the Heaven Concealing Divine Race.

Han Fei said, "Baili Qiantu, you once assassinated the strong masters of the myriad races 15,201 times, allowed your clansmen to hunt the strong masters of the myriad races, and deprived other races of their luck 107 times... You've committed heinous crimes. I find you guilty... You will be imprisoned for 12 million years, burned by hellfire for 100 years, and whipped 16,000 times... Do you have any objections?"

When Han Fei read the punishment of Baili Qiantu, he was a little stunned. This punishment was probably no better than the death penalty. Being burnt by hellfire for 100 years?! This was the first time he had seen someone who would have to be burnt by hellfire for so long.
