Chapter 3301: Little Junior Brother, Bring Me the Wine (4)

Han Fei immediately said, "Senior Brother Azure Dragon, I'll be there in a hundred years."

"OK, I'll wait for you."

At this moment, Senior Brother Six God appeared on the mountain next to Han Fei and said, "Little Junior Brother, your human race needs to be careful. You destroyed the Heaven Concealing Divine Race. Although the Central Sea Divine Realm doesn't dare to attack rashly for the time being, there will definitely be harassment. Many insects in the Sky Spider Worm Valley tried to secretly enter the East Sea Divine Realm, but I blocked them. That's fine, but there are actually many strong masters of the Heaven Concealing Divine Race outside. Be careful of them lurking into the human race."

Han Fei said, "Thank you for reminding me, Senior Brother Six God. I'll tend to it."

Soon, Senior Brother Undead, Senior Sister Dark Shadow, and Fifth Senior Brother arrived one after another.

Everyone greeted each other and listened to Senior Sister Shen Le's lecture...

One day later.

Han Fei felt that his killing intent was overwhelming, and his understanding of the Dao of Slaughter God was even better.

Senior Sister Shen Le said, "Alright, there are no big secrets in the Sea Realm and the Sea of Stars now. Let's talk about our recent situation. Azure Dragon, when are you going to make a breakthrough?"

Senior Brother Azure Dragon hovered in the sky and replied, "I still need to prepare for more than 200 years. After completing the entire breakthrough process, I will probably sleep for hundreds of years, so I won't appear for the next hundreds of years."

Senior Sister Shen Le nodded. "What about Old Five?"

Fifth Senior Brother said, "I just need to make a breakthrough within a thousand years. Senior Sister, don't push me too much!"

Shen Le snorted. "If I don't push you, you'll just drink and sleep every day. Little Junior Brother, what do you have to say?"

"Uh... Ah, me?"

Han Fei was stunned for a moment and immediately realized that Senior Sister Shen Le must be reminding him.

Han Fei immediately said, "Fifth Senior Brother, I occasionally have a jar of peerless wine in the Ferocious God Valley. I've already tasted it with my own mouth. It's unparalleled. Let me give it to you..."

"No, I don't want it. I don't want it. Why did you all betray me after going to the Ferocious God Valley? Little Junior Brother, don't forget I'm your dear senior brother."

Fifth Senior Brother hurriedly refused, shaking his head like a rattle drum.

Han Fei said solemnly, "Fifth Senior Brother, I don't want to get involved in the matter between you and Senior Yue Lingke. However, Senior Yue has helped me after all. She asked me to do such a small thing. How can I mess it up?"

Fifth Senior Brother picked up the wine calabash and took a few sips. Then, he said, "She helped you, so you want to push your senior brother into mountains of knives and seas of fire?"

Han Fei rolled his eyes. "Fifth Senior Brother, it's just a jar of wine. You don't have to go through mountains of knives and seas of fire. Besides, Senior Yue said that this is the last jar of wine she will give you in this life. There won't be another time."

"In this life?"

Senior Brother Azure Dragon emphasized the word and pretended to be deep in thought.

Senior Brother Six God said, "Little Junior Brother, have the divine descendants been forced to this point? Even Senior Yue is determined to die?"

Senior Brother Six God instantly understood what he meant, and he sounded a little stunned.

Lei Heng hurriedly asked, "Little Junior Brother, did something happen in the Ferocious God Valley?"

"Alas..."

Fifth Senior Brother said with a buzz, "Little Junior Brother, stop acting. Who do you put this show for?"

Han Fei said solemnly, "Fifth Senior Brother, I know that Senior Brother Azure Dragon, Senior Brother Six God, and Senior Brother Lei Heng have all given you this jar of wine. However, this time, Senior Yue did say that. This wine is like a tribulation that must be transcended. Fifth Senior Brother, you planted a tribulation for her and tortured her for hundreds of thousands of years. How long do you still want to torture her? Accept this jar of wine. You don't have to drink it! But at least, let each other go..."

"Gulp, gulp..."

Everyone looked at Fifth Senior Brother, and Green Lotus, Red Lotus and Feng Yu were the most excited, although Feng Yu didn't seem to know anything.

Fifth Senior Brother drank crazily for a moment, and everyone waited for a moment. When Fifth Senior Brother was about to speak, Senior Brother Undead, who had always been taciturn and easy-going, suddenly spoke. His voice was like a bell, his aura was like a dragon, and his divine voice was resounding. It was like a heavy hammer striking everyone's heart.

"Let go ~"

His voice was deafening. Han Fei didn't know how others felt, but he suddenly felt that his mind was clear, which was an unprecedented clarity.

Han Fei suddenly had a strange feeling. He seemed to be a little lost. He came from the human race, from a small fishing village to this huge Sea Realm, carrying the rise and fall of an entire race and the expectations of billions of human beings.

Why did he help the descendants of gods? Why did he come to the Ferocious God Valley? Why did he resist the Central Sea Divine Realm?

This was because the human race had to rise. He had to wipe out all the obstacles in front of him.

This was because he had to let go, let go of the human race.

Only by letting it go could his true self return.

At that moment, Han Fei seemed to comprehend. He seemed to see a peak that he could reach easily, which was to let go.

At this moment, everyone fell silent. After a long time, Fifth Senior Brother seemed to come back to his senses in advance.

For the first time, Han Fei saw Fifth Senior Brother look so serious. He bowed deeply to Senior Brother Undead. "Thank you for your teaching, Third Senior Brother."

With that, Fifth Senior Brother's temperament seemed to have changed. He turned around, no longer as slovenly as before, and held his head high. Covered by the void mist, he stood on the top of the mountain, his clothes fluttering in the wind.

Fifth Senior Brother said loud and clear, "Little Junior Brother, bring me the wine."

[God of Fishing](#)

Chapter 3302: Han Fei, Take Care of Your Woman (1)

This was the first time Senior Brother Undead had taken action. Hearing his "Let go", everyone, including Han Fei, fell into some kind of deep thought and comprehension.

Han Fei came back to himself and quickly threw "Looking Back" to Fifth Senior Brother through the void mist, fearing that he would go back on his word.

Anyway, he had given him the wine. As for whether he drank it or not, it was none of his business.

Now, Han Fei was even more curious. If Senior Brother Undead could remind Fifth Senior Brother, why didn't he do this before?

Or rather, this kind of reminder also required some kind of opportunity?

However, before Han Fei could think further, Senior Sister Shen Le continued, "Green Lotus, how are you doing now?"

Green Lotus said, "Senior Sister Shen Le, we've entered the Sea of Bitterness."

Then, Green Lotus looked at Han Fei. "I have to thank Little Junior Brother for the technique he gave me. If nothing goes wrong, we might be able to leave the Sea of Bitterness in three thousand years."

Shen Le pondered for a moment. "The Sea of Bitterness is boundless. You were born extraordinary. It's not a bad choice to go to the Sea of Bitterness."

Han Fei was about to ask where the Sea of Bitterness was, when Feng Yu said, "What is the Sea of Bitterness? Why have I never heard of it?"

Senior Sister Shen Le didn't hide anything but replied directly, "The Sea of Bitterness is a forbidden sea, where infinite troubles and hardships in the world gather. The Sea of Bitterness is not in reality, but in illusion."

Han Fei thought to himself, This world is magical. There is actually such a place.

Senior Sister Shen Le asked Senior Brother Six God and Senior Brother Lei Heng, and the two of them replied the same. They both said that they would make a breakthrough after the situation in the Sea Realm stabilized.

As for Feng Yu, Han Fei didn't know that she had already gone to the front line battlefield and became one of the top ten Heavenly Talents.

When it was his turn, Han Fei pondered for a moment and said, "Senior Sister Shen Le, at present, I'm trying to break the records of the Primordial Tower in the Ferocious God Valley. I have to break at least one record so that I can barely resist the Central Sea Divine Realm. In short, I'll finish this job as soon as possible."

It seemed that since Senior Sister Shen Le took over the Void Temple, the gathering had become a work reporting meeting. It seemed that Senior Sister Shen Le was very anxious.

After everyone was done reporting, Senior Sister Shen Le said, "Alright, you can communicate on your own now."

However, since they had basically finished talking, there seemed to be nothing else to talk about. They chatted for a while and then left respectively.

Everything seemed to be in a hurry, but Han Fei was in a good mood. At least he had given the wine to Fifth Senior Brother and finished the task Yue Lingke assigned to him.

As soon as he returned, Han Fei found Yue Lingke. Seeing the smile on Han Fei's face, the latter's eyes flickered. "Have you given the wine to him?"

Han Fei chuckled. "Fortunately, I didn't disappoint you. Under my sharp words and half a day of persuasion, Fifth Senior Brother finally accepted the 'Looking Back' wine. However, I don't know if he will drink it or when he will drink it."

A rare brilliant smile appeared on Yue Lingke's face, which made her look gorgeous. "It's not up to him whether to drink it or not. As long as it's in his hands, he will definitely drink it. Huff... Han Fei, thank you."

Han Fei waved his hand. "Sister-in-law, you're too polite. I just hope that all lovers in the world can be together."

"Hehe! Then you have to work hard. Don't fall in front of the ominous. Otherwise, no lovers can be together in the end."

Yue Lingke's tone was relaxed and even a little cheerful. She said, "Sit down. I'll make you two dishes."

"Uh ~"

Han Fei thought to himself, Really? But when he turned around, he found that Chu Hao was not around again. He couldn't help but ask, "Did he go shopping again?"

Yue Lingke: "No, he went to the ominous battlefield. He must have been stimulated."

"Stimulated? He's so old. What can stimulate him?"

Yue Lingke chuckled. "Don't you know what stimulated him? This guy got the Demon Purification Pot too. If it weren't for his bad luck, it could have been him sitting in your place today."

Han Fei shrugged. Is it my fault?

...

In his Origin Star, Han Fei cultivated in seclusion for about a year when he suddenly felt the Creation Divine Prison shaking.

"Done?"

When Han Fei entered the second floor of the Creation Divine Prison, a strange blood bottle appeared in front of Qiu Wanren.

"Senior, what is this?"

Qiu Wanren grinned and said, "This is a sealing blood bottle refined from the essence blood of Baili Qingfeng. This bottle can absorb the bloodline of the Heaven Concealing Divine Race, just like when the bloodline of the divine descendants was stripped away. You can strip their bloodline inheritance now."

Han Fei's heart stirred. "This bloodline power can only be sealed but not destroyed?"

Qiu Wanren said, "No. The so-called bloodline is a kind of creation by the world after all. Everything in this world follows the law of conservation. If you destroy this bloodline today, this inherited bloodline will definitely appear again by some chance in the future. Besides, do you think this blood bottle is used to draw blood? No, this is used to extract the divine heritage of this race and snatch the heavenly blessings of this race. Otherwise, there are still countless people of the Heaven Concealing Divine Race scattered outside. After a long time of recuperation, wouldn't another Heavenly Hidden Divine Race appear?"

"Oh? Deprive a race of their heavenly blessings?"

Qiu Wanren said, "After you become a god, I can try to teach you. Now, take this! Anyway, the entire Heaven Concealing Divine Race is in your hands. When the number of people of the Heaven Concealing Divine Race whose divine heritage has been stripped reaches a certain number, it will shake the foundation of this race, which is their destiny bloodline inheritance. Once this inheritance is shaken, whether it's the gods of the Heaven Concealing Divine Race far away in the Sea of Stars or the unborn

babies in the bellies of the people of the Heaven Concealing Divine Race, they will never be able to inherit this bloodline again."

Chapter 3303: Han Fei, Take Care of Your Woman (2)

Han Fei immediately grabbed the blood bottle and put on a smile.

Suddenly, Han Fei seemed to think of something and said, "Senior, do you think the Destiny Bloodline of the ancient six lineages can be stripped?"

Qiu Wanren looked at Han Fei speechlessly. "Do you know how many people, branches, and inheritances the ancient six lineages have in this world? If... I said if, if your strength reaches the peak of this Sea of Stars, it's not impossible for you to surpass all races and the ancient six lineages. The premise is that you have to be so strong."

Another moment later.

Han Fei returned to his Origin Star.

Here, there were billions of people from the Heaven Concealing Divine Race. They had no food to eat or no chance to flee. This was Han Fei's Origin Star in the first place. Before their strength far exceeded Han Fei's, they were like fish on a chopping board, unable to resist at all.

When Han Fei was stripping their bloodline with the blood bottle, red light surged out of the bodies of these billions of people, which really frightened them.

Everyone was uneasy.

However, after several days, they didn't feel anything wrong and were slightly relieved. However, these people didn't know that their bloodline inheritance had been stripped away. The countless people of the Heavenly Hidden Divine Race who hadn't awakened their innate talent had no chance to awaken it again in their lives.

However, in the Sea of Stars, the god-level powerhouses of the Heaven Concealing Divine Race and even the Great Monarchs all felt the change in their bloodlines. They felt the abnormality of their bloodlines, and the inheritance power from their bloodlines seemed to be fading.

On the other side of the Chaotic Sea, in an extremely magnificent giant starry city.

The gods of the Heaven Concealing Divine Race found the Sea Quelling God guarding this place. There was not just one Sea Quelling God here, but three, including the Phoenix God.

"Return to the Sea Realm?"

Hearing the requests of the gods of the Heaven Concealing Divine Race, the Phoenix God snorted coldly. "Now is the time of war. If we allow you to return to the Sea Realm, should I let the others go back too?"

A god of the Heaven Concealing Divine Race said with an ugly expression, "However, the foundation of our Heaven Concealing Divine Race has been removed, our bloodline inheritance has been stripped, and our entire race has been abducted by Han Fei. How can we fight in peace?"

The Phoenix God said indifferently, "Everything has cause and effect. If your Heavenly Hidden Divine Race hadn't done anything, who would have uprooted the foundation of your Heavenly Hidden Divine Race? Besides, the situation in the Sea Realm will be reset. Don't you know that? Didn't you guys reach a tacit understanding long ago? Now that something has happened and you want to go back, why? Do you want to die?"

At this time, another Sea Quelling God said, "The old phoenix is right. Since he dares to touch your Heavenly Hidden Divine Race, he is naturally not afraid of your return. Now it seems to be the competition between the Central Sea Divine Realm and the divine descendants, but in fact, it's a competition among the six ancient lineages. If you go back and don't follow the rules, no one will follow the rules with you either. To put it bluntly, you'll only be killed easily."

Immediately, the gods of the Heaven Concealing Divine Race were shocked, but their leader still braced himself and said, "Then are we just going to let it go?"

The Phoenix God said leisurely, "The tables have turned. It's true that the Heavenly Hidden Divine Race was destroyed by Human Emperor Han Fei, but he wouldn't kill the juniors and ordinary people of your race. As for removing the bloodline of your Heavenly Hidden Divine Race, heh... haven't the bloodlines of the divine descendants also been severed since the Age of Gods? But have the divine descendants been destroyed? The rise and fall of races is fated. No clan can enjoy a golden age all the time. If you lose, you have to admit it. At least, stripping away the bloodline inheritance will only make your descendants no longer enjoy the bloodline inheritance, and you yourselves won't be affected."

The gods of the Heavenly Hidden Divine Race didn't say anything. They knew that there was someone behind the competition of the Sea Realm, and they no longer had any say.

After the gods of the Heavenly Hidden Divine Race left, the third Sea Quelling God suddenly said, "Old Phoenix, everyone has their own selfish motives. There's no need to blame them too much. However, the premise of everything is that the human race doesn't go too far. If the human race returns to its former glory and suppresses the other five lineages, there must be someone coming out to stop it. After all, there are not only the Heavenly Hidden Divine Race in the Central Sea Divine Realm, but many forces. If they are all wiped out, I'm afraid before the ominous battle officially begins, the myriad races will be already completely in chaos."

The Phoenix God snorted coldly. "Is declining but staying alive or all races dying together better? When the time comes, you'll see. Without the Three Temples, the Sea of Stars would have long disappeared. How could there be the Sea Realm? So! At this point, we can only mind our own business. Let the others be! What do you think?"

...

Ferocious God Valley.

Three years had passed, and the Rock Dragon Auction House had held many auctions in a row recently and had gained a lot.

This time, when Han Fei came out of his Origin Star, he saw Xia Xiaochan and the other two sitting at the dining table, drinking with Chu Hao.

"Ah! You're out?"

Xia Xiaochan rushed over, hung on Han Fei, and gave him a big hug. Xia Xiaochan said, "Have you gone back and seen Yiyi?"

Holding Xia Xiaochan in his arms, Han Fei grinned and said, "Not yet. The East Sea Divine Realm is quite peaceful. Let her live a peaceful life for now. When the Central Sea Divine Realm is pacified, we'll go back together."

[God of Fishing](#)

Chapter 3304: Han Fei, Take Care of Your Woman (3)

"Um!"

After Han Fei took a seat, he asked curiously, "Why are you all here?"

Le Renkuang said, "I'm going to your Origin Star to cultivate."

Zhang Xuanyu said, "I heard that you've conquered the entire Heaven Concealing Divine Race. This super auction is going to start in a few days. How can we miss such a big scene?"

Xia Xiaochan said, "I miss you. You disappeared for more than three hundred years. But you became a Great Monarch so quickly? How did you stack laws?"

Zhang Xuanyu said, "I'm curious too. I just learned about law stacking. How long will it take to stack hundreds or thousands of laws?"

Chu Hao interjected, "There are many ways to stack laws. However, if you want to stack laws quickly, either there are countless strong masters supplying you with the power of laws, or you're slowly collecting the laws in the void. Or, just like some big clans, they have already prepared some laws for their juniors. It's very common for ordinary people to stack laws for 100,000 years. If it weren't for the law stacking, with many people's talent, they might have reached the Great Monarch realm long ago."

As he spoke, Chu Hao looked at Han Fei. "What is abnormal is someone like him, killing people like flies and using the power of laws contained in the corpses of the strong to quickly stack laws. However, this kind of path is not for ordinary people. Even if you are very strong, there are only this many strong masters in this world. How can there be so many strong masters for you to kill?"

Han Fei stuffed a mouthful of fish into his mouth, thinking that he'd better not tell Chu Hao the secret of the Path of Reincarnation. Otherwise, if this guy knew that he had stacked 100,000 laws in just a few years, he might not be able to withstand this blow.

However, when Xia Xiaochan mentioned law stacking, Han Fei immediately had some thoughts. Since the Path of Reincarnation was his and he could quickly stack laws in the river, it shouldn't be a problem for him to take a few people over, right?

After having this idea, Han Fei thought that he could give it a try. It was impossible for him to use the Path of Reincarnation to help too many people, but if it was just Xia Xiaochan and the others, there was no reason for him not to help them.

After all, they were also very talented. Under his terrifying growth speed, they could still catch up, which already explained something.

Han Fei said, "I'll talk to you about law stacking later. Since you're all out, don't go to the Primordial Tower for the next few days. Let's wait until the auction completes!"

...

Half a month later.

The Rock Dragon Auction House had been overcrowded these past few days. All the private rooms and halls had been reserved. Even the seats in the hall had basically been reserved.

Many people were not even here to watch the auction. They just wanted to see the miserable end of the Heaven Concealing Divine Race.

On this day, it was the three-year period. Including Yue Lingke, Han Fei and the others came to the Rock Dragon Auction House. Li Yan took Long Yan to guard the three spears.

There were too many people here today. If someone broke this seal and released these people, the Ferocious God Valley would be in chaos.

Of course, this possibility was extremely small, but it didn't mean it wasn't.

It wasn't until Han Fei arrived that Li Yan breathed a sigh of relief and hurriedly greeted him. "Master Human Emperor, you're finally here."

Han Fei nodded with a smile and reached out to grab. Only then were the layers of sealing barriers unlocked. The Monarchs who were stabbed into the spears looked ashen under their masks. In the end, no one came to save them. They couldn't escape the fate of being sold. This would become the shame of their lives.

After sealing these people one by one, Han Fei shouted, "Everyone, I am Human Emperor Han Fei. Sorry to keep you waiting. I announce that the auction will begin in a moment."

"Roar, roar, roar!"

Countless people shouted, but Han Fei pretended not to hear them. They were personally led into the Rock Dragon Auction House by Li Yan and Long Yan.

It wasn't until Li Yan sent them to their exclusive private room that he said to Han Fei in a low voice, "Master Human Emperor, I'm afraid many people from the Central Sea Divine Realm will participate in this auction. Although the West Wilderness hates the Central Sea Divine Realm, we won't reject their money, so we can't expel them. What do you think?"

Han Fei smiled casually. "It doesn't matter. As long as they are willing to pay, just let them buy."

"Okay, okay."

Li Yan thought to himself, Since Han Fei had said so, he must be prepared. Otherwise, if the Heavenly Hidden Divine Race that he had persecuted were bought by the Central Sea Divine Realm and tried their

best to sneak into the East Sea Divine Realm and attack the human race, Han Fei would have shot himself in the foot.

Seeing that Han Fei didn't care, Li Yan said, "Master Human Emperor, you still have a lot of Sky Openers and Sea Establishers of the Heaven Concealing Divine Race, right?"

Han Fei said, "Of course. There are more than 500,000 Sky Openers, not to mention Sea Establishers."

Li Yan looked troubled. He said, "Master Human Emperor, the Sky Openers are fine, because there are many people coming this time and they can afford it. But below that realm... we might have to auction them as a whole."

Han Fei nodded. "It doesn't matter. Go about your business. Sell the Monarchs first. As for the Sky Openers, let's talk about it later."

After Li Yan left, even Chu Hao said, "Aren't you afraid that the Heavenly Hidden Divine Race will target your human race?"

Han Fei shook his head slightly. "First of all, it's not easy to sneak into the East Sea Divine Realm at this moment. Besides, there are many strong masters in the Infinite Mining Area. Not everyone can sneak in. The Heaven Concealing Divine Technique is not omnipotent."

God of Fishing

Chapter 3305: Han Fei, Take Care of Your Woman (4)

Han Fei had mastered the ultimate knack of the Heaven Concealing Divine Technique. The Heaven Concealing Divine Race, which had no god and might only have one Great Monarch left, would only be courting death if they sneaked into the human race.

Yue Lingke was not worried either. She said, "When the bloodline of the divine descendants revives, the Central Sea Divine Realm will decline. At that time, they will become prisoners, let alone the people of the Heavenly Hidden Divine Race. Now, if there are people from the Central Sea Divine Realm participating in the auction, there is only one purpose, which is to use them as cannon fodder."

Han Fei said, "Then the cannon fodder is very valuable. I'm afraid they will feel the pinch."

"You're wrong!"

Yue Lingke said, "The Central Sea Divine Realm is full of rich people. They don't care about a million refined stars. However, they might not buy anyone below the Monarch level because they are of no use."

Han Fei said, "Who cares? Let's just see."

After a while, the auction house was overcrowded. Li Yan went on stage sweating profusely. It could only be he who hosted such a big scene.

Li Yan said, "Everyone, I'm sure you've been looking forward to today's auction for a long time. There's only one kind of auction item in this auction, which is the strong masters of the Heaven Concealing Divine Race in the Central Sea Divine Realm. Everyone knows the number of the Monarchs for auction.

In the past three years, you may have got some information and already know some of them. So now, let's start auctioning..."

"Old Li, will you start from the Monarch realm? Won't you sell Sky Openers?"

Li Yan looked at the private room where Han Fei was with a smile and then said, "After the Monarchs are sold, Human Emperor Han Fei may come down in person. There's no rush."

Upon hearing this, everyone stopped asking. In fact, many people had their eyes on the Sky Openers. In the Sea Realm, the Sky Openers were actually the pillars of the major forces. This group of people was much more valuable than they seemed.

"That's fine. I'm afraid we'll have to compete for them."

"We've been waiting for this day for three years. Let's start quickly!"

"Guests from the Central Sea Divine Realm, be careful with your bids. Otherwise, I'm afraid you won't be able to walk out of the Ferocious God Valley."

A big bandit suddenly said, making the field instantly quieten down.

Although the West Wilderness didn't like the people from the Central Sea Divine Realm, most of the strong masters from the Central Sea Divine Realm who could come to the Ferocious God Valley were rich and powerful, and they were here to consume. After all, they were rich people, so the people of the West Wilderness wouldn't kill the goose that laid the golden eggs. Besides, under normal circumstances, killing was forbidden in the Ferocious God Valley. Therefore, the people from the Central Sea Divine Realm were relatively safe in the Ferocious God Valley, but it was hard to say after leaving the Ferocious God Valley.

Of course, at Han Fei's level, it was not easy to control. For example, when Han Fei attacked last time, the Bandit God didn't do anything. Not only did he not do anything, but he also helped him.

This time, it was not just the people from the Central Sea Divine Realm. As the core of the West Wilderness, the Ferocious God Valley had long had strong masters from the four Divine Realms stationed here. Furthermore, there were some vassal stars around their Origin Stars, making it convenient for them to communicate with their own people.

Therefore, the bidder this time could be anyone. In a place surrounded by bandits, it was uncertain who could take these people away.

Li Yan hurriedly eased the atmosphere and shouted, "I know you're anxious, so I won't dawdle. Come, let's directly put the items on auction. There are 19 Dao Proving-Level Monarchs, 27 Carefree-Level Monarchs, and 12 Immortal Level Monarchs in this auction. We'll introduce them one by one from the Dao Proving Level onwards... The first item is a female Monarch at the Dao Proving Level of the Heaven Concealing Divine Race..."

In the private room, Han Fei saw the female Monarch who had been pushed up. She had already changed her clothes. Her luxurious clothes outlined her curvy body, and the red gown she was wearing had a high slit, revealing her slender and fair thighs. Dewdrops glistened on her fair arms, shining brilliantly under the spotlight.

"Bah! What auction house did you find? It's simply vulgar!"

Xia Xiaochan couldn't help but spit and blush.

Long Yan hid behind everyone, not daring to speak. This woman was so casual to the Human Emperor. It was obvious that she was not a simple person.

Zhang Xuanyu said lazily, "Don't make a fuss. Do you really think these female Monarchs will all be sent to the arena for fighting? The Heaven Concealing Divine Race is a divine race after all. Many people want to use them as furnaces. Also, don't forget that the Thousand Hidden Divine Race can transform into anything. They can transform into a different thing every night... Hey, stop... Ahh..."

"Pfft!"

Zhang Xuanyu was pierced by a knife and grimaced in pain. Xia Xiaochan held another dagger and said, "Say that again and I'll turn you into a woman."

Zhang Xuanyu said, "OK, I stop, alright? Han Fei, take care of your woman. She's killing me..."

God of Fishing

Chapter 3306: Reunion (1)

When Li Yan shouted the starting price of 200 refined stars, the audience immediately went crazy.

This was because the gap between the Dao Proving Level and the Carefree Level was actually not large. To put it bluntly, 2,000 refined stars wouldn't be enough to nurture a Carefree Level cultivator. Therefore, in the previous auction, Han Fei sold the two Carefree Level cultivators for 3,800 refined stars.

The starting price of 200 was very low, but there were too many people!

"300...500...600..."

This price was quickly raised to 1,200 refined stars. Even Han Fei was a little surprised. "So high?"

Yue Lingke said, "In a sense, Zhang Xuanyu is actually right. Didn't you almost become the son-in-law of the Phoenix Divine Race?"

Han Fei hurriedly said, "It's fake."

Yue Lingke said, "Whether it's fake or not, you should have experienced it. Many strong masters don't casually have children. Why is it that as soon as the talented girls of the major forces reach the Perfected Star Transformation Realm or the Dao Proving Level, there is an endless stream of people proposing marriage to them? It's for their bloodline and talent. Therefore... these itinerant cultivators and small forces will compete for a female cultivator even if they have to pay a high price. Of course, they are not stupid. They have a clear goal."

"Uh..."

Han Fei and the other two were dumbfounded. So, most people really bought Monarchs back to give birth to children for them?

On this side, a small force said, "1,500 refined stars. Everyone, this price is already high enough. There's no need for you to compete with me anymore!"

Someone sneered. "1,600. There are a total of 19 people at the Dao Proving Level, and only 11 of them are men. How can we not compete?"

"1,700. You're right. Anyone outbid me?"

At this moment, an itinerant cultivator suddenly said, "2,000 refined stars."

Everyone looked at the source of the voice, only to see a burly bandit whose face was flushed red. He seemed to have paid a heavy price.

"Brother, you're crazy. This price is too high."

The bandit snorted. "You're wasting time. This price has exceeded the price of the peak of the Carefree Level. If anyone else bids, I will quit."

Li Yan hurriedly said, "2,000 once, 2,000 twice... Is there anyone else bidding? 2,000..."

"2,500 refined stars..."

At this moment, a woman's voice came from a private room. Hearing this, everyone looked up.

A woman in white, with a pink waist belt and collar, and a pleated dress appeared in front of everyone, at the front of the private room.

Immediately, someone shouted, "F*ck, they're from the Divine Demon Forest."

Someone cursed, "Are you crazy? Are you here to cause trouble?"

Someone threatened, "Divine Demon Forest, I'm afraid you won't be able to take her away even if you have the money."

A bandit opened the curtain of his room. "Heh, the boss didn't show up but let a Carefree Level cultivator come out to bid. The Divine Demon Forest is getting more and more arrogant!"

As soon as the Divine Demon Forest's people appeared, it immediately attracted criticism from all directions. Although they wouldn't attack their sponsors, it didn't mean that they would treat them kindly.

The audience was in chaos, and the crowd's words were sharp.

In the next moment, in another private room, someone said, "This first bid can only belong to the West Wilderness. Our Savage Bandits offer 3,000 refined stars."

"Savage Bandits?"

Many people were relieved, and some were in a good mood. "The top three bandits have finally taken action. Humph, they want to compete with the strong masters of the West Wilderness as soon as they appear. Are they out of their minds?"

Someone looked at the woman in white proudly, the provocation in his eyes self-evident. He thought to himself, Come and compete if you have the ability!

For an auction, it was acceptable to create a lively atmosphere, but it should never escalate into a disturbance or turn into a commotion. Therefore, Li Yan shouted crazily, "3,000 pieces. Can anyone bid higher than this price? If not, 3,000 once, 3,000 twice. Deal..."

Li Yan spoke very quickly. After all, he was from the West Wilderness. He didn't want this first bid to be taken by the Central Sea Divine Realm.

The woman in white opposite him didn't say a word and retreated into the private room.

"Hush!"

"Go back! Don't disgrace yourself if you don't have money."

"Heh, I thought you were very capable. That's all you've got."

"Come to the Ferocious God Valley. Even if you're a dragon, you'll have to lie low."

The crowd was still excited, but in Han Fei's private room, Han Fei, Le Renkuang, Zhang Xuanyu, and Xia Xiaochan looked at each other with unknown meaning in their eyes.

Han Fei said, "Long Yan."

"Yes, Master Human Emperor, I'm here."

Han Fei pointed at the private room of the woman in white and asked, "Which room is that?"

Long Yan immediately said, "Master Human Emperor, that's Room A No. 3. It was reserved a long time ago. It's indeed a sponsor from the Divine Demon Forest."

Han Fei asked, "Do you know who is inside? For example, are there any Great Monarchs? How many are there?"

"Well... I don't know. However, most of the strong masters in the Central Sea Divine Realm are afraid of the Ferocious God Valley. Under normal circumstances, not many strong masters will come. And the transfer of resources is mainly from their Origin Stars. Few of them dare to go out directly from the Ferocious God Valley."

Han Fei asked, "So you think there might not be many strong masters on the other side?"

Long Yan didn't know what Han Fei was going to do, but the Rock Dragon Auction House became popular because of Han Fei. She had to answer Han Fei's questions.

Long Yan said, "I personally think so, but I can't be sure."

Chu Hao asked, "What are you going to do?"

Han Fei smiled. "It's nothing serious."

Chapter 3307: Reunion (2)

Buzz!

Although he said that it was nothing serious, in the next second, Han Fei disappeared from the spot. But even Yue Lingke couldn't find where Han Fei went.

But in the next second, Han Fei's voice came from the private room. He said, "Long Yan, take the best spiritual fruits and tea from the Rock Dragon Auction House to Room A No. 3 in person. As for the reason, just say that it's to express your apology."

"Huh!"

Long Yan was dumbfounded. She looked around but didn't find anything.

Xia Xiaochan said, "Do you need us to help?"

Han Fei replied, "There's no need, in case someone says that the Ferocious God Valley broke the rule of not killing sponsors."

Yue Lingke was puzzled. "Are you going to kill the sponsor from the Divine Demon Forest?"

Han Fei said, "No, let me take a look first. Long Yan, let's go."

Long Yan couldn't have felt worse. These people were really bold. Today's Rock Dragon Auction House was overcrowded, but they still wanted to kill the sponsors from the Divine Demon Forest. This was simply crazy.

It wasn't until Long Yan calmed down and turned to leave the private room that Yue Lingke said, "Is there something wrong with the Carefree Level woman just now?"

Xia Xiaochan smiled. "Senior Yue, that's one of us."

Chu Hao suddenly thought of something and couldn't help but ask, "That dress! Is the girl just now Luo Xiaobai?"

That dress had only appeared once. It was made by Han Fei after Luo Xiaobai returned to the Chaotic Wasteland and saw through Han Fei's identity.

Chu Hao didn't take it seriously at all, so he didn't pay much attention to it. However, Han Fei and Xia Xiaochan were too familiar with that dress. The style of the clothes was created by Han Fei when they were young. Although it was no longer competitive in the Sea Realm and was just a very ordinary dress, it was impossible for them not to recognize it.

Therefore, the moment Luo Xiaobai appeared, they all knew that Luo Xiaobai was here. At this moment, they were overjoyed. They didn't expect their team to finally be complete under such circumstances.

...

In Room A No. 3, Luo Xiaobai was standing respectfully in front of a Great Monarch. The Great Monarch said, "Is this your so-called test? You just came back so dejectedly?"

Luo Xiaobai replied respectfully, "My lord, please give me three chances. Before the fourth bid, I will give you a surprise."

"Oh? Then I'd like to see what ability you have to give me a surprise under such circumstances. Let me make it clear that if you screw up today, you won't be able to return to the Divine Demon Forest."

The second bid was a Dao Proving-Level female Monarch.

Li Yan shouted, "The second round of bidding begins. The starting price is still 200..."

"3,000 refined stars."

"Uh!"

Many people wanted to slowly increase the price, but in the next moment, they were stunned.

Someone immediately said angrily, "F*ck, is the Divine Demon Forest here to cause trouble?"

Someone was furious. "So what if you're rich? You lunatic."

This time, even the Savage Bandits didn't take action, but someone from another private room said, "The one in Room Three, I won't compete with you this time, but don't do this again!"

It would be a loss if the price exceeded 3,000. No one present was a fool. Who was willing to spend so much money to bid for a Dao Proving Level cultivator? After all, some people would rather give up the Dao Proving Level and find a Perfected Star Transformation Realm female cultivator to have children with. The result might not be bad either.

Even Immortals might not have so many refined stars.

However, this time, Luo Xiaobai didn't walk out again. However, her words this time caused the Great Monarch in the room to be extremely dissatisfied. "You'd better explain to me why you took the initiative to provoke these people."

Luo Xiaobai said calmly, "My lord, I don't need to provoke the relationship between the West Wilderness and the Central Sea Divine Realm at all. You've seen what happened today. With so many people here, how many of the auction items can we get if we use normal means? Therefore, if we don't use a special approach, we won't be able to compete. Now, I bet that before the next bidding, someone will come to our private room."

Upon hearing this, the Great Monarch asked impatiently, "What about after he comes? Will he make a deal with us in private?"

Luo Xiaobai said, "Why not? Han Fei controls the entire Heaven Concealing Divine Race. The auction is just the foreplay."

The Great Monarch couldn't help but be interested. This new follower of the Carefree Level seemed to be smart and her words made sense. He asked, "And then?"

At this moment, someone knocked on the door of the private room.

Luo Xiaobai smiled. "Look, here he comes."

The Great Monarch was overjoyed. Could it be so simple? He nodded slightly and waved his hand. A girl from the Rock Dragon Race came politely with spiritual fruits and fragrant tea.

As soon as Long Yan entered, she immediately said, "Sorry, guests in private room No. 3. The auction house is in chaos this time. Some people spoke rudely, and the Rock Dragon Auction House can't appease them. Sorry for causing you trouble. The host specially arranged for me to apologize to you..."

"Oh? This is interesting."

The Great Monarch looked back at Luo Xiaobai. Someone had really come and was apologizing so sincerely. It seemed that the Heaven Concealing Divine Race was not as easy to sell as he imagined! If they really talked to him in private, he would have to bargain.

Luo Xiaobai raised her hand and set up another seal on the room.

Chapter 3308: Reunion (3)

The Great Monarch understood what she meant. There were all kinds of people in the Rock Dragon Auction House today, and there were many strong masters. If they didn't seal this place tightly, it was very likely that others would hear them.

The Great Monarch picked up the Dao tea handed over by Long Yan, sat on a big chair, and looked down at Long Yan. "Speak!"

Long Yan was dumbfounded. What? The Human Emperor just asked me to deliver something and apologize. He didn't ask me to say anything to them!

Seeing that Long Yan was dumbfounded, the Great Monarch was stunned when Luo Xiaobai said, "One Great Monarch, two Immortals, and me, there are only four of us."

This time, it was the Great Monarch's turn to be dumbfounded. He had no idea what Luo Xiaobai was talking about.

However, at this moment, he seemed to find that something was wrong. He was about to question Luo Xiaobai, when he saw Luo Xiaobai looking at him indifferently.

At the same time, he suddenly felt his wrist tighten, and a black chain had already wrapped around his arm. When he tried to break free from the chain, he discovered, to his shock, that all his strength and laws were completely sealed and couldn't be used at all. At this moment, he seemed to have become an ordinary person.

At the same time, a suppressing pressure descended into Room 3. The two Immortal-level attendants felt a pressure that almost suffocated them pressing down on them at the same time.

Long Yan's eyes widened. Is this the legendary Law Enforcement Divine Chain? A Great Monarch was instantly suppressed. How terrifying.

Why did she see this scene that she shouldn't have seen again? Her entry into Room Three would definitely be discovered later, right?

"It's over. I'm doomed."

The Great Monarch of the Divine Demon Forest was shocked. "Law Enforcement Divine Chain, Han Fei? Are you Han Fei?"

"I'm not."

Long Yan waved her hand quickly.

However, behind the two Immortals, Han Fei's figure appeared. He casually placed his hands on the shoulders of the two Immortals.

But Han Fei ignored the Great Monarch of the Divine Demon Forest and looked at Luo Xiaobai. "Why did you go to the Divine Demon Forest?"

Luo Xiaobai said, "After all, the Divine Demon Forest is the strongest force of demon plant cultivators. I learned a lot there."

Han Fei was lost for words. "There are gods in the Divine Demon Forest, right? How can you sneak in so openly without being discovered?"

Luo Xiaobai said, "First of all, the Divine Concealment Technique is indeed at the peak of concealment techniques. Secondly, the gods don't have the time to pay attention to a small figure at the Dao Proving Level. Besides, the Divine Demon Forest has many branches. Not everyone gathers together."

At this moment, the Great Monarch spoke again, but this time he looked at Luo Xiaobai. "Who the hell are you?"

Luo Xiaobai's appearance changed into her original appearance under the watch of this Great Monarch. She said indifferently, "I am a human."

Gulp!

Long Yan, who was watching the show, didn't even dare to breathe heavily. The woman in front of her wasn't much stronger than her! She was only at the Carefree Level, but this woman had actually sneaked into the Divine Demon Forest and followed her to the Ferocious God Valley. Wasn't she too bold? Were all the strong masters of the human race so awesome?

Han Fei chuckled. "How did you fool this guy? You provoked so many people, but this guy still tolerates you. How strange."

Luo Xiaobai put on a faint smile. "Maybe he's stupid!"

The Great Monarch's eyes almost spewed out fury. He said, "Han Fei, this is the Ferocious God Valley. Killing is forbidden here. Do you want to break the rules of the Ferocious God Valley?"

Han Fei chuckled. "Don't you know what era this is? The conflict between the two parties is breaking out. If you weren't a sponsor, you would have been gone long ago. It wouldn't have been my turn to take action. Of course, even if you are a sponsor, so what? I'm not going to kill you."

The Creation Divine Prison appeared. After reading out the Great Monarch's crimes, Han Fei took him in.

Han Fei said, "Wait for me here for a while."

With that, Han Fei forcibly took the two Immortals into his Origin Star.

Han Fei's puppet technique was quite good. As it happened, Luo Xiaobai brought these people from the Divine Demon Forest. Han Fei completely controlled the two Immortals after studying them with the Soul Controlling Law Seal for a while.

As for the Great Monarch in the Creation Divine Prison, his situation was a little troublesome. Han Fei directly refined him into a living dead. Anyway, as long as he didn't kill him, the Creation Divine Prison didn't object to Han Fei's actions.

When Han Fei came out of his Origin Star, he saw Luo Xiaobai sitting on a chair drinking tea, eating spiritual fruits, and continuing to observe the auction.

However, the auction items had changed from the Dao Proving Level to the Immortal Level.

Seeing Han Fei come out, Luo Xiaobai got up and said, "It's done in an hour?"

Han Fei thought to himself, An hour has passed here, but almost three months have passed in my Origin Star.

Han Fei waved his hand, and the Great Monarch and an Immortal Level powerhouse appeared in the private room again. But at this moment, the two of them seemed to ignore Han Fei and Luo Xiaobai.

"Puppets?"

Long Yan was not stupid. She knew that these people had definitely become puppets. Oh my god, one Great Monarch and two Immortals were gone just like that?

She couldn't help but secretly glance at Han Fei, wondering if she had also been made into a puppet.

Chapter 3309: Reunion (4)

Feeling Long Yan's gaze, Han Fei turned around and looked at her with a smile. "A thousand refined stars, and you didn't see or know anything. You know the rules, right?"

Long Yan nodded quickly. "Yes, yes, I understand. Master Human Emperor, I don't know anything. I... I don't need your refined stars."

But Han Fei didn't care. He casually threw a bag of refined stars over and said, "Take it! Then I'll be more at ease. Otherwise, I'll have to turn you into a puppet too."

"Ah! No... I'll take it..."

Long Yan quickly took the refined stars, feeling nervous. At this moment, she really regretted meeting Han Fei. Also, damn old man, why did he have to ask her to serve Han Fei? Wasn't this sending her to die? She really wanted to gouge out her own eyes and stab her own ears deaf.

Luo Xiaobai, on the other hand, was a little puzzled. "Where is the other person?"

Han Fei said, "He's still useful, so I keep him for myself. Now, let's go to my place?"

"Um!"

...

When Long Yan returned to the private room where Xia Xiaochan and the others were, everyone looked at her, which made her a little scared.

In the next moment, Han Fei appeared out of nowhere.

Immediately afterward, Luo Xiaobai came out of Han Fei's Origin Star.

"Ah! Xiaobai... I missed you so much."

After Xia Xiaochan saw Luo Xiaobai, she pounced on her, and Luo Xiaobai finally put on a rare smile.

Although Han Fei and the others were a five-person team, the three of them were men after all, and girls were always closer to girls, so Xia Xiaochan was particularly excited at this moment.

Zhang Xuanyu said, "Xiaobai! It's not that I want to criticize you, but why were you running around all the time? Look, you missed the grand event in the God Ferrying Ancient Land of the South Sea Divine Realm!"

Le Renkuang said, "I never expected you to come to the West Wilderness."

Seeing that they were all here, Luo Xiaobai sounded much more relaxed. Although there were others around, she knew Chu Hao. As for the person next to him, although she didn't know him, Han Fei and the others should be very familiar with her.

Luo Xiaobai said, "After leaving the Infinite Mining Area, I returned to the Chaotic Wasteland and then went to the Central Sea Divine Realm. Although I learned about the news of the God Ferrying Ancient Land later, I couldn't make it in time."

Xia Xiaochan asked, "Why did you think of coming to the Ferocious God Valley?"

Luo Xiaobai recovered her unique calmness and wisdom. "There's a lot of information about the Central Sea Divine Realm. After the battle in the Miracle Forest, the divine descendants hid in the West Wilderness on a large scale. It's impossible for me not to know this. Han Fei caused such a big uproar, and the divine descendants happened to enter the West Wilderness at this moment. If I still can't think of anything, how can I survive in the Central Sea Divine Realm?"

Han Fei asked, "Why didn't you come until now?"

Luo Xiaobai said, "There are many cultivation methods and ideas in the Divine Demon Forest that I need very much. Otherwise, without strength, it would be useless even if I came to the West Wilderness."

After that, Luo Xiaobai glanced at them and found that she couldn't see through any of them. Then, after a few seconds of silence, she said, "However, I didn't catch up with you in the end."

Han Fei said, "Don't you see how many opportunities they all got? You went to the Central Sea Divine Realm alone and even sneaked into the Divine Demon Forest. It's already unbelievable that you advanced to the Carefree Level in less than 400 years."

Luo Xiaobai rolled her eyes slightly. "I'll take it as a compliment."

Then, Luo Xiaobai said, "I'm here in the West Wilderness not only to find you, but also to freeloader on your resources. Although the Central Sea Divine Realm is huge and abundant with resources, the conditions for obtaining resources are relatively strict. It's too difficult for me to advance quickly, and it's inconvenient for me to make a breakthrough. Therefore, I need to come to you."

At this moment, in the auction house, Li Yan shouted, "6,600 once, 6,600 twice, 6,600 times. Deal... The guest in Room 7 wins an Immortal-level female Monarch."

Zhang Xuanyu pointed at Han Fei. "Look, he's the richest now."

Le Renkuang nodded quickly. "I've never seen such a rich person. I suspect that he is even richer than our God Slaying Bandits."

Han Fei shrugged. "What you see is just the surface. However, the easiest way to obtain resources is to snatch them. Come to my Origin Star to cultivate later. Anyway, you won't use much."

Zhang Xuanyu clicked his tongue. "Did you hear what he said? What a ."

After introducing Yue Lingke to Luo Xiaobai, Xia Xiaochan whispered to Luo Xiaobai.

After about half an hour, the last Immortal Level cultivator was also auctioned away. In the field, Li Yan shouted, "Everyone, now that all the Monarchs have been auctioned, don't be anxious. Next, Human Emperor Han Fei, please announce the auction method for those below the Monarch realm."

God of Fishing

Chapter 3310: Living People Enter the Path of Reincarnation (1)

Li Yan was an old fox. Han Fei didn't hand over anyone below the Monarch realm to him, which meant that Han Fei had his own thoughts.

In that case, Han Fei must show up at this auction. Therefore, although Han Fei didn't say anything, Li Yan still gave up the auction platform for Han Fei.

As soon as Li Yan said so, Han Fei appeared on the stage.

At this moment, there was no sound in the auction house. This Human Emperor was a legend. People were even more curious about Han Fei than about the subsequent auction items.

A brilliant smile appeared on Han Fei's face. "Everyone! Today is the auction of the Heaven Concealing Divine Race. But the real auction segment has actually passed. After all, the Heaven Concealing Divine Race used to be a divine race powerful in the Sea Realm and even the Sea of Stars. Although I've tried to strip them of part of their bloodline inheritance, the bloodline of the Heaven Concealing Divine Race is still extraordinary. If they are bought in large numbers, I'm afraid something will happen. Therefore, I have a different way to sell them this time."

Hearing Han Fei's words, many people understood.

A strong master from the West Wilderness smiled. "The Human Emperor is not giving the Central Sea Divine Realm any chance! Even if the Central Sea Divine Realm takes action, I'm afraid they won't be able to buy many of these people."

Someone echoed, "That's right. It seems that they will be auctioned in batches."

Someone agreed. "It's not bad to split them into batches. I heard that there are as many as 500,000 people in the Sky Opening Realm. There aren't many who can eat them in one go."

Han Fei continued, "This time, there are a total of 530,000 people in the Sky Opening Realm in the Heaven Concealing Divine Race, including everyone from the early stage of the Sky Opening Realm to the perfected Star Transformation Realm. According to the bloodline and talent of the Heaven Concealing Divine Race, I'll price each of these Sky Openers three refined stars. Yes, the price is fixed. Whether it's the early stage of the Sky Opening Realm or the Perfected Star Transformation Realm, it's the same. Anyone who wants to participate in the auction can bid blindly. As for what realm you can buy, it depends on your luck..."

"A blind auction?"

"Three refined stars are not much, but how does this blind auction work?"

"This thing feels like a lottery."

Han Fei said, "The so-called blind auction is that the participants can submit an amount they want to bid for with their number plates. If you want to bid for a person, fill in one. If you want to bid for a hundred, then fill in a hundred. If you want to bid for a thousand, then fill in a thousand. But in the end, it depends on luck how much you can bid for... I can only guarantee that everyone present can get some. But as for how many people you can get, it depends on the data given by the auction house."

Boom~

Immediately, someone laughed out loud. "This is interesting. I agree with this method."

Everyone present understood at this moment. Han Fei clearly didn't want the people of the Central Sea Divine Realm to bid for a large number of strong masters of the Heaven Concealing Divine Race!

The so-called blind auction was just an excuse. Han Fei had the final say on how many people he wanted to give you. No matter how much money the sponsors of the Central Sea Divine Realm brought, it was useless because you couldn't spend it.

If the Central Sea Divine Realm couldn't bid for many people, then the others could get more.

Immediately, someone in the private room objected, "Master Human Emperor, isn't this blind bidding unfair?"

Han Fei looked up and smiled. "I'm not asking you to do it. It's up to you whether to do it or not. As long as most people accept this method, this method is feasible."

The audience was in an uproar.

Someone sneered. "He just doesn't want you people from the Central Sea Divine Realm to buy many people. What can you do?"

Someone said disdainfully, "Those who object, stand up and object. Let's see who you are."

Someone laughed. "With the bloodline of the Heaven Concealing Divine Race, it's only three refined stars for one person. Do you still want to be picky? If you don't want to bid, get lost."

There might be sponsors from the Central Sea Divine Realm coming to bid, but this was the Ferocious God Valley. They were obviously outnumbered. If they forcibly stood up, they would only be hated and sieged by others.

Therefore, although some forces from the Central Sea Divine Realm wanted to object to this blind auction, they didn't say anything in the end.

Han Fei smiled and said, "Anyone who bids can specify the force you're from and the number of people you want to buy on their number plates. The day after this auction ends, the Rock Dragon Auction House will announce the result. Next, I'll talk about the way to sell those below the Sky Opening realm. Yes, to sell, not auction."

Someone asked, "Will they be sold at a fixed price?"

Han Fei replied with a smile, "It's fixed and can be sold in batches. Although there are a billion people below the Sky Opening Realm, you should know that the price won't be high. Since it can't be high, why should I auction it? I might as well dump it at a low price and let many forces choose to buy it. The Rock Dragon Auction House will set up a special department. As long as you don't buy these people to kill for fun and use them reasonably, you can buy them until they are sold out."

"Really?"

"A billion people. I have to buy some back."

"Are the cultivators below the Sky Opening realm so worthless?"

"Good lord, this is a divine race after all. Their bloodline is extraordinary. They've actually fallen to the point where even we can choose to buy them?"

In the field, many people had only come to observe the auction and didn't intend to take action at all, because they felt that even if they did, they couldn't afford it.

However, from the looks of it, the price below the Sky Opening realm would be ridiculously cheap. If that was the case, wouldn't he be able to buy a bunch of them with one refined star? Even if he didn't need them, he could take them back to replenish the population of his race and squeeze out some cultivation techniques of the Heaven Concealing Divine Race.
