Chapter 3311: Living People Enter the Path of Reincarnation (2)

There were too many things worth learning about the cultivation path of the divine race. Therefore, even those below the Sky Opening realm were still members of the divine race and their clansmen couldn't be compared to them.

"Human Emperor is magnanimous."

"Hahaha, Human Emperor, if you do this, I'm afraid the Heaven Concealing Divine Race won't be enough to sell!"

"Well, I have to buy some back today."

"Human Emperor, when will those below the Sky Opening realm be sold to the public?"

Han Fei couldn't help but look at Li Yan, who was standing in the corner of the stage with a stiff smile. He immediately smiled and said, "The fastest will be in a few days, and the slowest will be in half a month. However, the Rock Dragon Auction House will take care of the rest. If you have any questions, you can ask Li Yan."

Han Fei walked to Li Yan with a smile and patted his shoulder. "Don't worry. I won't mistreat you. The Rock Dragon Auction House will get 5% of the profits this time. Old Li, you'll gain both fame and fortune."

Li Yan was immediately refreshed. "Yes, yes. You can rest assured, Human Emperor. I won't let you down. I'll definitely do this job well."

"Um, not bad."

Li Yan was not stupid. The profits this time would be terrifyingly high. The Monarchs had been sold by nearly 180,000 refined stars. And there were 530,000 Sky Openers and each was sold by three refined stars, so it was also an astronomical figure. The two added up to nearly 1.8 million refined stars. Including the people below the Sky Opening realm, the Heaven Concealing Divine Race could definitely be sold by 2 million refined stars this time.

If the Rock Dragon Auction House got 5%, it would be 100,000 refined stars. How many years would it take for him to earn this amount?

Therefore, Han Fei had given such a high return. If he still couldn't do it well, the cooperation between Han Fei and the Rock Dragon Auction House might be over.

...

Returning to the private room, Le Renkuang and the others seemed to be calculating.

Seeing Han Fei return, Zhang Xuanyu immediately said, "Feifei, Xiaobai said that you lost at least 500,000 refined stars this time. Is it true?"

Han Fei was stunned for a moment and then smiled. "More or less. It shouldn't be that much, but there should be a loss of two or three hundred thousand."

Le Renkuang said, "You've already earned a lot of refined stars! How can you lose so much?"

Luo Xiaobai said, "The invisible value of the Heaven Concealing Divine Race has been greatly underestimated by you. Although the inherited bloodline of the Heaven Concealing Divine Race has been stripped away, the level of their bloodline is still very high. Even if the human race develops for another 10,000 years and produces many strong masters, after the new human race's bloodline is greatly strengthened, they might not be able to keep up with the average bloodline level of the Heaven Concealing Divine Race. Therefore, even if the price of the Sky Opening Realm today is increased to four refined stars, many people will still buy it. In this case alone, we lost 500,000 refined stars."

Han Fei touched his nose. "I don't think I'll lose so much. I've already increased the price of Sky Openers. Otherwise, ordinary Sky Openers can probably be bought with one refined star. Two is already a high price."

Luo Xiaobai said, "Don't forget, although their inherited bloodline has been stripped away, they have still mastered countless advanced techniques, techniques, and even divine techniques... However, you can sell them like this. This way, they will be sold out very quickly. If I've guessed right, in a year or so at most, the entire Heaven Concealing Divine Race will be sold out."

Chu Hao interjected, "It's just a few million refined stars. In the future, when the divine descendants rise and sweep across the Central Sea Divine Realm, not to mention a few million, even tens of millions won't be a problem."

Han Fei rolled his eyes. "Even if the divine descendants rise, how can you resist the Central Sea Divine Realm in a short period of time? I'll thank the heavens if you can block the Central Sea Divine Realm for some time."

Yue Lingke said, "Have some faith in us. Even if the divine descendants are no match for the Central Sea Divine Realm after we rise, don't forget that there are still the four Divine Realms."

Han Fei nodded slightly and then said, "Senior Chu Hao, since you have nothing to do, can you help me collect the money here?"

Chu Hao was speechless. "Collect the money for you? Where are you going?"

Han Fei said matter-of-factly, "I'll be cultivating in seclusion, of course. Otherwise, how could I break the records?"

Chu Hao said, "Aren't you afraid that I'll pocket the money?"

Han Fei smiled. "If you don't want to save the divine descendants, do it."

...

After handing over all the Heaven Concealing Divine Race in his Origin Star to Chu Hao, Han Fei and the others returned to the "Waiting for Someone" tavern.

Another moment later.

In Han Fei's Origin Star, the five of them sat together, and Han Fei said, "Compared to the old antiques in the Sea Realm or the Sea of Stars, what we lack the most is time. And here, time is accelerated by 1,024 times. While I have enough resources now, let's cultivate as hard as we can! At least, we won't be restricted by resources here."

Zhang Xuanyu was shocked. "It's already 1,024 times? Isn't cultivating for a hundred years here equivalent to others cultivating for a hundred thousand years outside?"

Han Fei said, "But some stages can't be calculated with time. Just like the law stacking stage, time alone is meaningless."

Luo Xiaobai asked, "Law stacking?"

Han Fei said, "It's a stagnation period in the intermediate stage of the Immortal Level. Why are there so few Great Monarchs in the Sea Realm or even the Sea of Stars? Why are those powerhouses above the Immortal Level who have cultivated at least for tens of thousands or even hundreds of thousands of years? These are all related to this law stacking period. Without the law stacking period, there will be countless times more Great Monarchs in this world than now."

Le Renkuang said, "But what can we do? It's difficult to stack laws quickly!"

Luo Xiaobai looked at Han Fei. "So, have you learned a new way of law stacking? Or is there any way to accelerate law stacking?"

[God of Fishing](#)

Chapter 3312: Living People Enter the Path of Reincarnation (3)

Even Xia Xiaochan looked puzzled. After all, when she reunited with Han Fei, the Path of Reincarnation hadn't opened yet. Even Han Fei didn't know that the Path of Reincarnation could stack laws.

Han Fei glanced at them. "I have a method that may allow you to complete the law stacking in decades..."

"What?"

Le Renkuang immediately stood up with a swish.

Zhang Xuanyu, on the other hand, was shocked and curious. "What method? I feel that it's difficult to stack a hundred laws, but you're telling me that you can help us finish stacking laws in decades?"

Han Fei said, "There is a way, but I'm not sure if this method is feasible."

Han Fei really didn't know if the Path of Reincarnation could let living people in, let alone if they could go into the river to take a bath. At least, he hadn't understood all the functions of the Path of Reincarnation yet.

But he guessed that it should be possible. He could give Chen Lingsu the right to stay on the Path of Reincarnation, but that was before she embarked on the Path of Reincarnation. Besides, Chen Lingsu entered the Path of Reincarnation as a remnant soul.

But now, if Xia Xiaochan and the others went in, just like him, they would enter the Path of Reincarnation with their bodies. What would happen was unknown.

Han Fei waved his hand, and the green jade stone bridge appeared in front of everyone.

"Huh? This bridge..."

Zhang Xuanyu and the others had all seen this bridge. Although Han Fei had never shown it to the public, they had come to Han Fei's Origin Star more than once, and Han Fei had never restricted them. Therefore, they had naturally seen this bridge, but they didn't take it seriously before and only thought it was a treasure.

Han Fei said casually, "This is not a bridge, but the Path of Reincarnation."

"Puff ~"

Le Renkuang vomited all the fish in his mouth and looked at Han Fei in disbelief. "What did you say?"

Han Fei said, "This is the Path of Reincarnation."

Even Luo Xiaobai couldn't help but widen her eyes, feeling that she was hearing things.

Even Xia Xiaochan looked puzzled. "What does the Path of Reincarnation have to do with law stacking?"

Zhang Xuanyu was dumbfounded. "What is the Path of Reincarnation?"

After Han Fei told everyone about the Soul Sea, the Bloodline Divine Tree, the Path of Reincarnation, and the Eternal Race, they were all shocked.

Zhang Xuanyu cursed, "That Eternal Race is really evil. They actually stole the opportunity of all races to become gods. What's the difference between them and the ominous?"

Le Renkuang's focus was not here. He said, "Feifei, won't the Eternal Race be furious after the Path of Reincarnation returns? Won't they take revenge on you crazily?"

Han Fei shrugged. "At least now, they can't find me. Now, except for my senior brothers from the Void Temple, there are only a few of you who know that the Path of Reincarnation is with me. I just told you that I can't be sure if you can walk on it, let alone enter the river to stack laws. Therefore, I have to find someone to try first."

With that, the space here changed, and the Immortal Level puppet from the Divine Demon Forest that Han Fei left behind appeared in front of everyone.

This person was right at the law stacking stage. As for whether living people could enter the Path of Reincarnation, they could test it with this guy.

"Go up."

Han Fei issued an order. Although the sealed soul in the puppet was unwilling, it couldn't resist Han Fei's order.

The moment the puppet stepped on the green jade stone bridge, it disappeared without a trace, and Han Fei followed closely behind.

On the green jade bridge, there were still 100,000 teams moving forward, waiting for reincarnation. When Han Fei appeared here, he saw that the person from the Divine Demon Forest had also appeared on the bridge, not under it.

"Huh? The power of the law is not absorbed."

Han Fei was overjoyed. The river didn't absorb his laws, which meant that living people could enter this place.

But after a few seconds, Han Fei discovered that although the power of this person's laws was not absorbed, his vitality was constantly flowing away.

Han Fei, who controlled the law of life, was very sensitive to the loss of vitality. He immediately tried to sense the River of Life and found that on the Path of Reincarnation, the connection between this Immortal and his River of Life was vague. Furthermore, his River of Life seemed to be corroded by some unknown power.

Logically speaking, after the Immortal Level, one's lifespan was already very long because their Rivers of Life gave them a long life.

However, once they lost contact with their Rivers of Life, their lives would be unsustainable. He used this method to deal with the ominous creatures, severing the connection between them and their Rivers of Life. Only then could he kill them in one blow.

Now, the same effect appeared on the Path of Reincarnation. This Immortal-level cultivator couldn't absorb vitality from his River of Life, and the vitality contained in him was flowing away. Under such circumstances, he would die soon.

Immediately, the law of life surged on Han Fei's body, and he guided the vitality of this person's River of Life into his body.

When the other party's vitality was relatively stable, Han Fei observed for another ten seconds, frowning slightly. This was because he found that although the connection between the River of Life and this person had recovered, his vitality was still flowing away.

That was because this person's body seemed to have turned into a funnel. Every inch of his skin, flesh, and blood were leaking vitality all the time.

Han Fei immediately communicated with the green jade stone bridge, but perhaps because he couldn't completely control the Path of Reincarnation, unlike Chen Lingsu's time, the Path of Reincarnation didn't listen to him. This person's vitality was still flowing away.

God of Fishing

Chapter 3313: Living People Enter the Path of Reincarnation (4)

Seeing this, Han Fei made up his mind and immediately guided his vitality to completely envelop this person.

Finally, this person's vitality stopped flowing, because the Path of Reincarnation wouldn't absorb his vitality.

"Phew! Although it's a little troublesome, it's feasible. Come down."

Han Fei grabbed the Immortal Level cultivator and jumped into the river. Han Fei said, "Try to absorb the laws here to stack laws."

But in the next moment, no matter how the puppet tried, the laws here seemed to be blocked by his vitality and couldn't enter this person's body at all.

Han Fei had to retract his vitality, only to see that the puppet's vitality was flowing away by tens of times. Although this was an Immortal-level demon plant and its life was long, it definitely couldn't last a year in this state.

How could Han Fei be willing? Since the Path of Reincarnation had chosen him, it should give him some special rights, right? Besides, he just wanted to use it to help some people transition a small realm. Why didn't it give him this little chance?

Han Fei made up his mind and injected his vitality into the puppet. After a pause, he saw that his vitality didn't dissipate. He shouted again, "Absorb the power of laws."

This time, when the puppet tried to absorb the laws again, the infinite laws in the river finally surged over.

However, Han Fei's expression seemed a little strange, because he felt that the massive amount of laws entered his body first before entering the puppet's body.

This also meant that he couldn't let go of this puppet at all.

Han Fei immediately tried to let go of the puppet. But in the next moment, he felt that the vitality he injected into the puppet became ownerless and quickly dissipated.

"Heh!"

The corner of Han Fei's mouth twitched. This was a little annoying. He had found a way for living people to enter this place and stack laws, but this method required him to accompany them. That was, he had to be present and transmit the power of laws to them through his body. And he was equivalent to a transit station. He had to accompany them for as long as they cultivated.

This also meant that if someone wanted to stack laws here, he had to be present. Otherwise, if living people came in, not only would they be unable to stack laws, but they would also die.

...

After a while, when Han Fei returned to his Origin Star with the puppet, Xia Xiaochan and the others hurriedly asked, "Is it done?"

Han Fei nodded slightly. "Yes, but have any of you already established your original law?"

Xia Xiaochan said, "Me."

Zhang Xuanyu said, "I think I can establish my original law at will, but I haven't stacked more than a hundred laws yet."

Han Fei raised his eyebrows. "Can you establish your original law at any time?"

Zhang Xuanyu was puzzled. "Isn't this very simple?"

Le Renkuang said, "I don't think it's difficult either."

"Uh!"

Han Fei couldn't help but think that Zhang Xuanyu had devoted his life to the Spear Dao, Le Renkuang focused on eating, and Xia Xiaochan had the inheritance of the Southern Dipper, and her dual divine paths had already appeared, so there would be no problem for them. If it were Luo Xiaobai, she might have directly chosen an original law most suitable for her.

It seemed that among the five of them, only he had some understanding of his original law after reaching the Immortal Level.

Han Fei said, "Okay! Then Xiaobai will stay on my Origin Star to cultivate. When you're about to condense a law body, I'll take you into the Path of Reincarnation to stack laws."

Luo Xiaobai asked, "Will it waste your time? After all, you still have to help the divine descendants recover their bloodline."

Han Fei shook his head. "I may be in a hurry, but these decades don't matter."

Luo Xiaobai nodded. "Okay!"

Zhang Xuanyu asked, "Then shall we go now?"

Han Fei said, "No rush. Let's eat first."

...

In fact, at this level, it was very rare that the five of them could gather again. This was because everyone had their own paths to walk and had to experience different things.

However, in a special realm like the Immortal Level, all he needed to do was to stack laws, and this was the only place he could help them on their respective paths.

Otherwise, if they really stacked laws slowly, without the support of a family as rich as the Phoenix Divine Race, no matter how fast it was, it would probably take ten thousand years. But in another ten thousand years, the ominous would probably come. At that time, even if they became Great Monarchs, it wouldn't seem to make much sense.

Besides, Han Fei was also looking forward to it. If one day, they could still fight side by side in the same realm, wouldn't it be great?

[God of Fishing](#)

Chapter 3314: Dragon Valley (1)

This was the first time Xia Xiaochan and the others had come to the Path of Reincarnation. When they saw the creatures of all races lined up in 100,000 long lines, they were really shocked.

In particular, on both sides of the road, hellfire was burning, and countless remnant souls were wailing, making them swallow crazily.

Le Renkuang asked, "If we die in the future, will we be here too?"

Han Fei nodded. "Yes! As long as your soul isn't shattered on the spot, and even your dissipating remnant soul is crushed, you will."

Suddenly, Xia Xiaochan said, "My vitality is fading. It's so fast."

Hearing this, Zhang Xuanyu and Le Renkuang quickly came back to their senses and also felt their vitality fading.

Han Fei said, "Take my hand."

Immediately, they held each other's hands, and a large amount of vitality in Han Fei's body instantly returned to the three of them. Only then did their vitality stop flowing.

Xia Xiaochan was a little surprised. "I seem to feel an abnormally rich vitality. It seems endless?"

Han Fei said, "Of course, it's because of the law of life I've mastered. Now jump into the river with me."

"The river?"

They jumped off the green jade bridge with Han Fei and fell into the water.

Under the water, they immediately felt that the water contained infinite power of laws. With a slight traction, a large amount of power of laws rushed into their bodies from Han Fei's body.

Xia Xiaochan asked, "Why is the power of laws coming from your body?"

Han Fei said, "You can't cultivate here directly, or your vitality will quickly pass. In less than a year, or even less, you will die. Therefore, I have to protect your vitality, so I can only guide the power of laws into your bodies."

Zhang Xuanyu asked, "Isn't the Path of Reincarnation yours? Why is it so troublesome?"

Han Fei was lost for words. "You think it's troublesome? How can there be no restrictions on the way to let people stack laws in an extremely short period of time? Otherwise, wouldn't I be able to directly increase the strength of all peak-level Carefree Level cultivators to the intermediate stage of the Immortal Level? Then, I can continue to increase their strength to the late-stage of the Immortal Level. In that case, wouldn't the Immortal Level be nothing to me?"

Zhang Xuanyu smacked his lips. That did make sense. If he could really directly upgrade a peak-level Carefree Level cultivator to the late-stage of the Immortal Level, wouldn't late-stage Immortal Level cultivators be born in batches? That was a result that ordinary people could only achieve in tens of thousands or even hundreds of thousands of years!

After about ten seconds, Xia Xiaochan, Zhang Xuanyu, and Le Renkuang exclaimed, "So fast! The laws came so fast!"

Le Renkuang asked, "What kind of speed is this? It only took me a minute to complete a law? If I had known this earlier, I wouldn't have condensed a law body. Wouldn't it be better to just soak here?"

Zhang Xuanyu smiled. "Great, great. I've never felt so much power of laws. It's ridiculous!"

Han Fei said, "Don't be happy too early. You go out first later."

"Why?"

Zhang Xuanyu was dumbfounded.

Han Fei said, "If you stack more than a hundred laws, the laws will be incompatible, which will cause your realm to be unstable and need to be stabilized. You, Kuangkuang, and the others have to go out to consolidate your cultivation after stacking more than a hundred laws. After you stabilize your realm and know what your original law is like, you can come in again."

"Ah, well!"

Le Renkuang said, "Then I might have to go out first. The power of the law is coming too fast. I feel that I'm about to finish stacking another law."

Zhang Xuanyu cursed, "I'm almost done stacking one too."

Xia Xiaochan said, "You two talk too much. I've already stacked a law."

After about half an hour, Zhang Xuanyu said, "I've also successfully stacked one law. It's only been half an hour! It's comparable to a year of cultivation for me."

Xia Xiaochan said, "What are you bragging about? Can you stack one law a year? Unless you rob someone."

Zhang Xuanyu said, "I mean if there are conditions."

A moment later, Le Renkuang said, "I stacked another law."

Xia Xiaochan said, "I've stacked another one."

Zhang Xuanyu said, "I'll be done soon."

Therefore, throughout the day, Han Fei heard the three of them shout, "I've stacked another law."

After only half a day, Le Renkuang said, "Feifei, I've stacked more than a hundred laws."

Han Fei said, "Then go out first and quickly establish your original law."

After another day, Zhang Xuanyu also shouted, "Feifei, I've stacked more than a hundred laws too."

Han Fei said, "After you go out, cultivate in seclusion."

When there were only Han Fei and Xia Xiaochan left, Xia Xiaochan was almost immersed in the crazy law stacking process.

Two months passed.

170 years had passed in his Origin Star. With enough resources, Luo Xiaobai finally reached the peak of the Carefree Level. Han Fei took her into the Path of Reincarnation. It only took her seven days to condense a law body and advance to the Immortal Level.

Three years later.

When Xia Xiaochan's law stacking reached 90,000, she couldn't continue.

Three years and three months later, Zhang Xuanyu finally stopped after stacking more than 81,000 laws.

Three years and five months later, Le Renkuang had stacked more than 88,000 laws and stopped.

Three years and nine months later, Luo Xiaobai finally finished stacking more than 92,000 laws.

To Han Fei's surprise, Luo Xiaobai had the highest number of stacks among them. Was it related to Luo Xiaobai's ancient demon plant bloodline?

The moment Luo Xiaobai opened her eyes, she felt as if a lifetime had passed. A few years ago, she had just entered the Carefree Level, but in just four years, she had reached the late-stage of the Immortal Level.

[God of Fishing](#)

Chapter 3315: Dragon Valley (2)

Seeing Luo Xiaobai wake up, Han Fei couldn't help but ask, "How do you feel?"

Luo Xiaobai took a look. "Where are they?"

Han Fei said, "They have already stacked their laws to the limit and gone out."

Luo Xiaobai sighed emotionally. "Thank you."

Han Fei was lost for words. "Why? Why are you so polite after the trip to the Central Sea Divine Realm?"

Luo Xiaobai shook her head slightly. "It's precisely because I've been to the Central Sea Divine Realm that I know how shocking it is to almost cross the Immortal Level in four years. Time, resources, opportunities... Now that everything is available, it's almost inevitable to become stronger. I'm just a little curious. With all these, you're only a Great Monarch."

Han Fei chuckled. "What do you mean I'm only a Great Monarch? I'm an Extreme Dao body refiner. Besides, it will take a lot of time to consolidate my realm after rapid improvement."

Luo Xiaobai said, "There is a saying that applies to your Origin Star."

"What is it?"

"A day apart feels like three years. I used to think this description was an exaggeration, but now it seems that it really exists in this world."

Han Fei: "..."

Suddenly, Luo Xiaobai felt that this word was not right and blushed. Then, she changed the topic. "Do you know where this river leads?"

"Huh?"

Han Fei was stunned for a moment and didn't understand what Luo Xiaobai meant. He didn't walk along the river. He didn't even think about it and seemed to completely treat the river as a pool of laws.

Luo Xiaobai continued, "The world is full of laws. Then how were laws born?"

"Dew of Origin."

Before Luo Xiaobai could continue, Han Fei said, "In the Chaotic Era, at the beginning of the Primordial Era, before the birth of heaven and earth, before the establishment of all laws, there existed a divine dew called the Dew of Origin. The Dew of Origin can conceive the initial life of chaos, nourish the initial laws of chaos, transform the initial Great Daos of chaos, and give rise to Supreme Nature Treasure... This is the beginning of all races."

Luo Xiaobai looked at Han Fei. This was the first time she had heard of such a thing.

Luo Xiaobai said, "Even if the laws were born from the Dew of Origin, the soul has the Soul Sea, life has the Life River, and time has the Time River... Will there be a river of laws in this Sea of Stars? After a person dies, his laws are absorbed by this river, but it doesn't disappear. As for the newborns, they cultivate and grow. Some people embark on the same path and cultivate the same law. If the number of laws in the world is fixed, then over time, the laws in the world should become thinner and thinner. However, the world and the Sea of Stars are still filled with infinite laws."

Han Fei looked thoughtful, and Luo Xiaobai continued, "Therefore, either the number of laws is constantly increasing, and somewhere is constantly producing laws, or there is a river or other containers that contains laws, constantly recycling and releasing these laws. Either way, this river should be a river in reality, but it's difficult for ordinary people to see it. Or maybe, this is a river that can only be discovered between life and death..."

Buzz!

With a thought, Han Fei pulled Luo Xiaobai onto the green jade stone bridge. It was more convenient to talk on the bridge.

He said, "What do you think?"

Luo Xiaobai looked at the river, holding her chin with a hand. She thought for a moment and said, "This river flows."

Han Fei nodded. "So you think there's something wrong with its source?"

Luo Xiaobai shook her head slightly. "I don't know! I just think that this river might have something to do with the origin of the Sea of Stars. What do you think?"

Han Fei looked at the river under the bridge and fell into deep thought. "I really haven't considered this matter. However, when I have time, I can go to the upper and lower reaches of this river to take a look."

"Um!"

Hearing Luo Xiaobai's words, Han Fei pondered for dozens of seconds before he came back to himself. What Luo Xiaobai said did make sense. At present, only he could walk this river, so why not take a look?

However, when he looked back, he saw Luo Xiaobai staring at the remnant soul of the 100,000-strong queues.

Han Fei couldn't help but ask, "What do you think?"

Luo Xiaobai asked, "Can you specify where these souls will reincarnate?"

Han Fei's heart stirred. Of course, he understood what Luo Xiaobai meant. If these souls could be designated to reincarnate in the human race, it could be foreseen that countless strong masters would be born in the human race. However, the Door of Rebirth was full of stars. Who knew which star represented the human race?

Han Fei shook his head. "The Path of Reincarnation is not my exclusive item. Although I'm in charge for the time being, you should have discovered that I'm only exploring it and haven't figured out its full usage."

Luo Xiaobai looked at these remnant souls and said calmly, "Let's go! I'll ask them to cut off this memory after they get out."

Han Fei frowned slightly. Before he could speak, Luo Xiaobai said solemnly, "Since this path involves the Eternal Race, we can't slack off at all. Even we can't let our guard down. If one day, one of us falls into a life-and-death crisis, is possessed, or is abducted, the secrets of the Path of Reincarnation will definitely be exposed once the other party searches his soul."

Han Fei said noncommittally, "Okay! Do you want to cultivate here or something?"

Luo Xiaobai said, "Since I'm here, I'll cultivate here. When my realm is completely stabilized, I need to see the trials of the Primordial Tower. If I've guessed right, the Primordial Tower should be an opportunity for us to advance to the Great Monarch realm. At least, before you solve the bloodline problem of the divine descendants and start a war with the Central Sea Divine Realm, we will all be here."

[God of Fishing](#)

Chapter 3316: Dragon Valley (3)

Luo Xiaobai and the others knew Han Fei too well. They must fight this battle against the Central Sea Divine Realm. The Central Sea Divine Realm was just like the former Thousand Star City and later the Supreme Clearness World. Many forces in the Central Sea Divine Realm slaughtered the human race. They couldn't let go of this grudge.

"Okay! I'll wait for you."

...

A hundred years later.

Han Fei woke up from his cultivation.

In the past hundred years, Luo Xiaobai and the others left Han Fei's Origin Star one after another to challenge the Primordial Tower.

Although Han Fei occasionally wanted to go out to take trials, even if he swallowed and refined stars with all his strength, it was really difficult for him to quickly fuse with his Origin Star.

In the past hundred years, he had consumed 1.48 million refined stars and only fused with 60% of his Origin Star.

Le Renkuang, Luo Xiaobai, and the others had cultivated here for 10,000 years and had almost reached the Immortal Level. In total, they had only used less than 80,000 refined stars, not even a fraction of his.

"Phew! Are these resources enough?"

Han Fei was a little worried. As early as a year after he entered the Origin Star, the population of the Heaven Concealing Divine Race had been sold out. Excluding the 5% commission given to the Rock Dragon Auction House, Han Fei obtained a total of 1.96 million refined stars. In the end, Han Fei obtained a total of 4.21 million refined stars. He became extremely rich.

But now, after only a hundred years, he only had 2.65 million refined stars left. If he still had a million refined stars left after completely fusing his Origin Stars, he would be lucky.

Han Fei looked at his information.

Owner: Han Fei

Level: 119 (Great Monarch)

Bloodline Ranking among the Clans in the Infinite Ocean: the 3306th

Immortal Qi: 4,052,222

Soul: 100,213 Origins

Strength: 100,213 Star Powers

First Spiritual Heritage: Origin Spiritual Heritage

Second Spiritual Heritage: Eternal Darkness Spiritual Heritage

First spiritual beast: Twin Yin-Yang Sky Swallowing Fish (level 119)

Second spiritual beast: Emperor Sparrow (level 118)

Main Art: Godfiend Body

Han Fei wasn't surprised that his strength had exceeded the peak of the Extreme Dao. Otherwise, what was the point of him swallowing refined stars crazily for such a long time?

The Star Devouring Technique was the number one technique of the human race after all. As early as when Han Fei doubted the strength of the God of War, he had expected this.

The peak of the Extreme Dao might not be the real limit. Or rather, for different people, the concept of the Extreme Dao was different. According to such an increase in strength, if he completely fused his Origin Star, his basic strength might reach more than 140,000 points.

And this didn't consider the fusion of his Origin Star Core. Otherwise, this number might have increased.

Unfortunately, he promised Senior Brother Azure Dragon that he would go to the dragon race within a hundred years, so Han Fei could only stop cultivating for the time being. He didn't know what the effect of bathing in the Dragon Pool would be, but it was beneficial to him. While Senior Brother Azure Dragon wasn't asleep, he would go and come back early so that he could continue to cultivate in seclusion.

In the "Waiting for Someone" tavern, Han Fei appeared on the second floor. Except for Yue Lingke, no one noticed his arrival.

When Yue Lingke went to the second floor, she couldn't help but look at Han Fei up and down. "Such rich Qi and blood and the invisible charm you emanate... Are you already at the peak of the Extreme Dao?"

Although she said it calmly, Yue Lingke was quite shocked in her heart. Although she knew that the Supreme Divine Technique was very strong, no one had said that the Supreme Divine Technique could be cultivated so quickly!

Han Fei nodded slightly. "Sister-in-law, has the Central Sea Divine Realm been peaceful recently?"

Yue Lingke said, "It doesn't matter. As long as the Primordial Divine Race isn't exposed, this battle won't start. Are you going to challenge the Primordial Tower again?"

However, Han Fei shook his head. "No, Sister-in-law, I may have to leave for a while. If they ask, just tell them that I'm fine and let them cultivate in peace."

Yue Lingke frowned. "Leave? Are you going to the Central Sea Divine Realm again?"

Suddenly, Yue Lingke thought of something and couldn't help but say in surprise, "Don't tell me that you've used up your resources again."

Han Fei laughed. "How can it be so fast? That's a refined star worth millions. This trip is not dangerous. I'll definitely return in decades or a hundred years."

"Oh! Even if there's danger, you have to go. I'll inform them. Don't worry."

...

Outside his Origin Star, in the Sea of Stars.

As soon as Han Fei came out, he saw the divine light blooming billions of kilometers away. It was surrounded by infinite laws.

As soon as Han Fei appeared, he heard a voice from the divine light. "Is war about to break out?"

Han Fei shook his head. "Not yet. Senior, are you going to make a breakthrough?"

This person was Qiu Wanren. Han Fei had released him when he was in seclusion. In the battle in the Central Sea Divine Realm in the future, the other party had God Slaying-level powerhouses, and Senior Sister Shen Le asked him to unify the Sea Realm. Without a God Slaying-level powerhouse, how could he unify the Sea Realm?

Fortunately, Qiu Wanren had been suppressed in the Creation Divine Prison for too long and had figured out the way to advance to the God Slaying level, which replenished the lack of God Slaying-level combat power on his side.

"Humph! If it weren't for you stingy brat who didn't give me any resources, I would have made a breakthrough decades ago. But not yet. Although I still have some stock, it's still not enough. It's relatively slow to absorb energy from the Sea of Stars. It will probably take me another fifty or sixty years."

Han Fei rolled his eyes. Don't you know how many resources you demanded? Asking me for at least two million refined stars. How can I afford it?

[God of Fishing](#)

Chapter 3317: Dragon Valley (4)

Hearing that the other party hadn't made a breakthrough yet, Han Fei immediately said, "Senior, you can cultivate first. I still have something to do and need to leave the West Wilderness for the time being. I'll definitely return in at most a hundred years. If you make a breakthrough during this period, you can wait for me for a while."

"Go! Don't go to the Central Sea Divine Realm, or you might not be able to come back alive."

"Of course!"

With that, Han Fei immediately activated his token, and the Distanceless Gate appeared. This time, the Distanceless Gate directly showed, "You haven't attacked the ominous in a long time."

Han Fei said, "I was cultivating in seclusion and didn't have the time to do it. This time, I'm going to the Dragon Palace, the territory of the dragon race. You should know it, right?"

"Got it! Then I'll send you to the dragon battlefield first."

The corner of Han Fei's mouth twitched. "Okay! Old Distanceless, there are so many ominous creatures in this world. Even if I kill 100,000 or 80,000 of them now, it won't change the situation at all. When I become a god in the future, I can easily kill a million of them, right?"

The Distanceless Gate: "Kill one, one less."

"Fine!"

Han Fei stepped into the door. It wasn't until Han Fei disappeared into the Sea of Stars that Qiu Wanren secretly muttered, Dragon race? Aren't they cursed? Why aren't they extinct yet?

...

Swish ~

In a place enveloped by a green nebula, countless huge stars floated. On these stars, there were many huge demon plants. Each of them was comparable to the Cloud Sea Divine Tree. Although they couldn't compare to the Primordial Star Tree and the Miracle Tree, there were many of them!

On these demon plants, there were huge fruits one after another. Some of them might be even bigger than stars. The smallest fruit had a diameter of thousands of kilometers. The largest was actually as big as a star.

When Han Fei appeared here, he was dumbfounded. In front of him was a... melon with a diameter of more than 300,000 kilometers?

Yes, that thing was like a huge yellow peach with many huge pits drilled out of it.

Han Fei saw a dragon thousands of kilometers long, hanging on the yellow peach like a gecko and gnawing crazily.

There were thousands of such fruits around, and there were countless stars planted with giant demon plants here. However, there was a very obvious characteristic, which was that all the giant demon plants had fruits hanging on them. Some fruits were still growing, and some had already ripened.

Countless huge dragon bodies hung on the fruits and gnawed on them, giving Han Fei the illusion that the fruits in an orchard were full of worms.

Although this analogy was not appropriate, at this moment, Han Fei felt that way. This was because compared to the huge fruits, the huge dragons were really like worms.

"F*ck! Is this... the Dragon Race?"

A sentence quickly appeared on the Distanceless Gate. "If you walk forward, you'll reach the dragon battlefield."

With that, the Distanceless Gate faded and didn't stay to monitor if Han Fei had killed 50,000 ominous creatures.

"The Distanceless Gate?"

Voices sounded one after another here, as if they were surprised that the Distanceless Gate would appear here.

However, when the Distanceless Gate left, leaving Han Fei standing alone in the Sea of Stars, countless giant dragons immediately looked at Han Fei.

The corner of Han Fei's mouth twitched, and he secretly exclaimed in his heart. So strong. As far as he could see, the weakest dragon he saw here was in the Perfected Star Transformation Realm. And the Monarch-realm dragons accounted for 5% of the population. Without releasing his perception, Han Fei saw tens of thousands of Monarch-realm dragons.

Gulp!

Han Fei couldn't help swallowing. Tens of thousands of Monarchs? Seriously? It was a question if there were tens of thousands of Monarchs in the entire Sea Realm, but he had seen tens of thousands of Monarch-realm dragons with a single glance here?

If he had such strength, wouldn't he be able to sweep across the Sea Realm easily?

"Human?"

"Everyone, look, a human has come."

"Oh! This guy is so small! Only this little."

"Wow, so small, but I can't see through his strength. Is this person stronger than me?"

"Hey, that person, which race are you from? Why are you on the battlefield of our dragon race?"

Han Fei was speechless. "You called me human just now, so I'm a human!"

Looking at these dragons who didn't seem to be very smart, Han Fei looked around and said, "Everyone, I am Human Emperor Han Fei. I'm here to visit the Dragon Monarch."

"Humans? Visit the Dragon Monarch?"

"Han Fei, do you think you can visit the Dragon Monarch as you please?"

"That's right. You won't be able to see the Dragon Monarch, but I can treat you to fruits. Tell me, where are you from?"

"Even if you want to visit the Dragon Monarch, you're in the wrong place. This is the Dragon Valley, a battlefield. The Dragon Monarch is not here."

Han Fei said, "I know that the Dragon Monarch is in the Dragon Palace. However, I promised the Distanceless Gate that I would hunt some ominous creatures as the reward for his delivery. Therefore, I have to go to the front line battlefield first."

"You? How strong are you? Can you go to the front line battlefield?"

Bang!

In the next moment, the dragon who spoke was whipped away by a huge tail. Then, a white dragon appeared in the sky, and the white dragon snorted. "Shut up, all of you. This person is a Great Monarch. You might not be a match for him even if you join forces."

"Hiss! Him? A Great Monarch? I don't believe it."

"Really? Then why can't I see his strength?"

The white dragon shouted, "What are you talking about? You're only at the peak of the Carefree Level. How can you see through a Great Monarch?"

Then, the white dragon looked at Han Fei and said in a gentler tone, "Han Fei, right? We dragons usually live with our original bodies. Please don't mind us. However, you said you wanted to see the Dragon

Monarch? Our dragon race has been cut off from the outside world for a long time. You have to give me a reason for the Dragon Monarch to meet you."

Han Fei nodded slightly. Finally, he met a normal person. He said, "Because I'm his junior brother."

God of Fishing

Chapter 3318: Dragon Battlefield (1)

"Junior Brother?"

"Impossible, absolutely impossible! How can the Dragon Monarch have a junior brother like you?"

"Are you lying? If the Dragon Monarch is your senior brother, who is your master?"

"That's the Dragon Monarch! The strongest Great Monarch of our dragon race."

Han Fei smiled. "My name is Han Fei. I'm the current Human Emperor and also the strongest Great Monarch of the human race. As for our human race, we're one of the six ancient lineages. We're extraordinary in the first place, so our identity won't be bad anywhere. As for why the Dragon Monarch has me as his junior brother, I can't tell you that."

A dragon said, "You said that you are the strongest in the human race? But the human race seems to have declined a long time ago, right?"

Han Fei smiled. "Now it's rising again."

At this moment, more and more dragons surrounded him. Han Fei thought to himself, It's just tens of thousands of ominous creatures, but the Distanceless Gate still sent me to the ominous battlefield. Fine, I don't know how long it has been since the dragon race last saw an outsider. They are just like a bunch of curious babies.

Finally, the white dragon said, "You said that you know the Dragon Monarch. Do you know Feng Yu?"

Han Fei's eyes lit up too. "Of course I know her! Feng Yu is my senior sister. I'm very familiar with the Phoenix Divine Race."

However, the white dragon frowned. "Your senior sister? Feng Yu was only at the peak of the Carefree Level when she left the dragon race. You're already a Great Monarch. Is she your senior sister?"

Han Fei said, "No one said that a junior brother can't be stronger than his senior sister!"

The white dragon thought about it seriously and seemed to think that Han Fei was alone. Even if he wasn't a good person, this was Dragon Valley. Even if a god came, he would have to be careful. A mere Great Monarch was indeed nothing.

She said, "You promised the Distanceless Gate to kill some ominous creatures. Then follow me. As for whether you can see the Dragon Monarch, I need to ask the Dragon Monarch."

Han Fei cupped his hands. "Thank you!"

Hearing that Han Fei was going to fight the ominous, a large group of colorful giant dragons immediately followed him. Some dragons even followed him with a fruit that was thousands of kilometers long, as if they were watching a show.

However, these dragons followed far away and didn't approach. Besides, Han Fei felt extremely slight fluctuations in the laws here. Something didn't seem right.

Buzz!

The white dragon that spoke to Han Fei transformed into the same size as Han Fei. She was dressed in a green and white dragon scale battle suit that outlined her voluptuous body. The two long white jade horns on her head were like natural jade hairpins, which were the most natural and beautiful decorations.

She held a scale with mysterious patterns branded on it. Then, light bloomed and disappeared in the blink of an eye.

Then, the dragon girl said, "My name is Long Wanwan. I've already told Master Dragon Monarch about you. I believe that since you dare to come, you won't dare to lie. Hey, are you from the Sea Realm?"

Han Fei nodded. "How do you know it?"

Long Wanwan said, "Although I've never been there, I still know the Sea Realm. Feng Yu is from the Sea Realm. It's said that our dragon race once lived in the Sea Realm. But later, our dragon race was cursed and was forced to leave the Sea Realm."

"Cursed?"

Long Wanwan asked, "Didn't you say that the Dragon Monarch is your senior brother? Didn't he tell you that our dragon race is a cursed race?"

Han Fei was stunned. "Senior Brother doesn't have to tell me everything."

Han Fei looked around and said suspiciously, "The dragon race is cursed, and you still have so many strong masters? With so many strong masters, you are enough to sweep across the Sea Realm and kill the person who planted the curse."

Long Wanwan chuckled. "Sure enough, you don't know anything. The curse of our dragon race is unsolvable. It's said that the oldest Dragon God went to the end of the Sea of Stars and his bloodline was contaminated in the battle with the ominous. Look, they are all holding big fruits. Do you know why?"

Han Fei said, "To eat them. Does the curse have something to do with these fruits?"

Long Wanwan didn't answer directly but asked, "Then do you know why we have to eat the fruits?"

Han Fei thought for a moment. In the Monarch Realm, eating was just a hobby. It didn't matter if the Monarchs ate or not. However, since Long Wanwan asked this question, there must be something wrong.

Before Han Fei answered, Long Wanwan said, "Stupid, because we'll be hungry if we don't eat!"

"Hungry?"

Han Fei was stunned. He seemed to have heard something ridiculous. "Monarchs will be hungry? No... does the curse you mentioned make you hungry?"

Long Wanwan nodded. "Of course. We'll be hungry if we don't eat. It seems that the dragon race migrated because we ate too much in the Sea Realm and the Sea Realm couldn't afford to feed us. Fortunately, we found the Giant Demon Star Sea. There are huge demon plants and fruits here, so we can barely eat to our fill."

Han Fei couldn't help being moved. This was the first time he had heard of such a curse that would make people hungry. This curse seemed to be a little vicious.

Han Fei asked, "Will you starve to death if you don't eat?"

Long Wanwan shook her head. "We won't starve to death, but we want to eat anything we see. There was a period of time in the history of the dragon race, which was called the Bloodbath Era. It was a chaotic era when our dragons fought and ate each other's flesh and blood. It was simply terrifying."

"Uh!"

Han Fei's eyelids twitched. At this moment, the dragon scale in Long Wanwan's hand flickered. Long Wanwan scanned it with her perception and was immediately relieved. Then, she called out to all the dragons, "The Dragon Monarch has replied. Human Emperor Han Fei is indeed his junior brother. He told us not to be vigilant."

[God of Fishing](#)

Chapter 3319: Dragon Battlefield (2)

"Huff!"

"Ha! When did the Dragon Monarch acknowledge a human junior brother?"

"Is it actually true?"

"I held myself back all the way to prepare for battle and didn't dare to speak."

At this moment, a group of dragons rushed over and surrounded Han Fei and Long Wanwan.

Han Fei was lost for words. So these dragons didn't speak along the way because they were waiting for news and preparing to attack him at any time.

At this moment, the misunderstanding was resolved, and a dragon immediately beckoned, "Han Fei, come and eat the fruits!"

A dragon beckoned, "Han Fei, do you have any meat on you? I'll exchange fruits with you."

"Uh..."

Han Fei thought for a moment and threw out a giant shark. There were always ingredients in his Origin Star, which was his habit. He didn't care if he ate it or not, because if he wanted to eat it, he could catch food at any time.

However, these dragons ate fruits all day long and probably didn't see meat all year round. Therefore, without hesitation, he threw out a Carefree Level giant shark.

Although he had collected ingredients, he didn't have many Monarchs on him. This was what he had obtained when he first entered the Monarch realm.

Buzz!

Instantly, thousands of dragons roared, "It's meat, it's meat."

A dragon roared, "Han Fei, I'll give you a peach in exchange."

A dragon knocked the dragon away with its tail. "Han Fei, I'll give you a dragon fruit in exchange."

With that said, the dragon carried a dragon-patterned fruit more than 3,000 kilometers in diameter, which made Han Fei speechless.

Han Fei looked at Long Wanwan, only to see that she was licking her lips and drooling. But Long Wanwan was a Great Monarch after all. With her firm will, she said with difficulty, "You shouldn't have taken out meat. The Dragon Valley only has fruits. Except for occasionally catching some Star Sea Giant Beast, we can't see meat... You have no idea how valuable meat is in our dragon race."

"Uh!"

Han Fei was dumbfounded and couldn't help but say, "That's not right! The Dragon Monarch knows that I'm best at cooking, but he never mentioned that he wants to eat meat."

Long Wanwan rolled her eyes. "Of course. That's the Dragon Monarch. He has the firmest Dao heart in our dragon race. Not to mention that he doesn't eat meat, he doesn't even eat fruits often just to temper his Dao heart. Many of us have tried, but we can't do it at all."

After a moment of silence, Han Fei suddenly said, "Fellow Daoists of the dragon race, this little bit of meat might not be enough for you to share. How about... me making it into jerky? Then each of you can have a taste. You don't have to envy each other."

"Dried meat?"

"Then won't there be less meat?"

Han Fei smiled and said, "Even if the meat hasn't decreased, this giant shark is only so big. Each of you can only have a lick of it. Why don't you become my size and eat dried meat? Although it's not enough for you to eat to your fill, you can at least have a taste of it."

Long Wanwan said, "We eat meat in human form. Otherwise, the meat will be gone in only a few bites."

"Oh? Is that so?"

In that case, this giant shark seemed to be able to be eaten for a long time.

However, Long Wanwan said, "However, I want to eat jerky."

A dragon said, "Dried meat is fine too. It's chewy."

At this moment, these dragons didn't know the difference between the jerky Han Fei mentioned and the jerky they understood.

Han Fei raised his hand, and hundreds of thousands of Void Blades cut off the giant shark in the blink of an eye, leaving only a skeleton without any flesh and blood.

Han Fei raised his hands, and a gas barrier appeared in the void, like a huge pot. Han Fei summoned water into the pot with one hand, cut off the fish bones, and threw them into the pot to cook the fish bone soup. On the other side, the meat that had been cut into billions of pieces floated in the air.

Han Fei took out buckets of meat oil, garlic, peppers, cumin, sweet and sour...

Whoosh!

The moment the meat oil was poured into the air pot, spiritual energy ignited below, and flames soared to the sky, spanning thousands of kilometers.

Immediately afterward, countless garlic, peppers, and a mess of seasonings were poured into the pot. Immediately, an alluring fragrance spread throughout the place.

"Gulp!"

"Gulp!"

"Roar!"

Dragon roars rose from all directions, and countless dragons were about to go crazy.

A dragon shouted, "This meat hasn't been put into the pot yet. Why is it so fragrant? Han Fei, can I lick the black soup?"

A dragon had already approached him, only to be slapped away by Long Wanwan.

Han Fei smiled. "Everyone, that's not soup, but seasonings."

This kind of simple stir-fried meat didn't require any skill at all. As long as the pot was big enough and there was enough seasonings, it was fine.

Hualala ~

When the billions of pieces of meat were put into the pot, stained with grease, the fire rose again, and the pillar of flames was tens of thousands of kilometers high.

Many dragons rushed into the flames with a swish, sucking the tempting fragrance crazily, which made Han Fei speechless.

Long Wanwan couldn't stand it anymore. She turned into a ten-thousand-kilometer-long dragon and sent the dragons flying with a few sweeps of her tail. Then, she shouted, "What a disgrace. Don't you have a Dao heart? All of you, watch by the side."

A dragon muttered, "You're drooling."

Bang!

The dragon who spoke was sent flying too. Its body twisted in midair, and its saliva splashed everywhere.

Han Fei thought to himself, It's too late now. The proud and dignified image of the dragon race has disappeared at this moment.

[God of Fishing](#)

Chapter 3320: Dragon Battlefield (3)

"Huff!"

"Ha! When did the Dragon Monarch acknowledge a human junior brother?"

"Is it actually true?"

"I held myself back all the way to prepare for battle and didn't dare to speak."

At this moment, a group of dragons rushed over and surrounded Han Fei and Long Wanwan.

Han Fei was lost for words. So these dragons didn't speak along the way because they were waiting for news and preparing to attack him at any time.

At this moment, the misunderstanding was resolved, and a dragon immediately beckoned, "Han Fei, come and eat the fruits!"

A dragon beckoned, "Han Fei, do you have any meat on you? I'll exchange fruits with you."
