**Chapter 3321: Dragon Battlefield (4)**

He couldn't help but understand why the dragon race had to migrate out of the Sea Realm. If they didn't migrate, the Sea Realm would probably be eaten up.

Sizzle ~

Han Fei stirred the soup with a big void hand and added some ingredients to the fish soup.

In the meat pot, the fragrance of meat wafted, and the meat juice enveloped every piece of meat. Han Fei activated the Water Technique, and the meat in the pot was quickly dried, turning into pieces of jerky stained with seasonings.

Han Fei spread his hands. "It's done."

Buzz—

Tens of thousands of dragons turned into human forms. Someone was about to reach out to grab it when it was stopped by Long Wanwan's glare.

Long Wanwan shouted, "There are many dragons in the front line, but there's only this much jerky. Don't snatch it. Anyone who sees it will get a share. Hurry up and divide it up. Otherwise, the dragons in the front line can't have a taste of it."

With that, with a thought from Long Wanwan, the jerky was divided into nearly 20,000 portions.

As for the soup, it was also a pot of fish soup drink made by Han Fei. Han Fei cut the fish bones and let the marrow flow into the thick soup. Then, he stirred it. The golden marrow glittered in the soup pot, and in the blink of an eye, it was also divided into more than 20,000 portions.

"Munch! Munch!"

Someone took his share of jerky and eagerly stuffed a piece of jerky into his mouth. Compared to the size of a human, the piece of jerky was actually not small.

"Hiss! Is this meat?"

"I've never eaten such delicious meat."

"Oh my god, Han Fei, why didn't you come to our dragon race earlier?"

"I haven't had broth in a long time. It's delicious."

"This is bone soup, but it's indeed delicious. I didn't expect a bone to be used like this."

"Brother Han Fei, welcome to stay permanently in our dragon race."

Even Long Wanwan couldn't help but feel a little intoxicated when she chewed the jerky. Last time, Feng Yu secretly gave her some meat and she had long finished it. Even now, the aftertaste was still lingering.

But compared to Han Fei's jerky today, she instantly forgot what the meat Feng Yu gave her tasted like.

After chewing a piece of jerky, Long Wanwan took out another piece and put away the rest. In the dragon race, meat was scarce. If there was an opportunity, she could just take it out occasionally to have a taste. It would be too extravagant to eat it all at once.

"Munch! Munch!"

The dragons, who were still immersed in the delicious taste of jerky and fish soup a moment ago, began to eat the fruit crazily, as if they wanted to suppress the taste of meat with the fruit.

Han Fei couldn't help but click his tongue in wonder. This was also a way to temper their Dao hearts. Although these people claimed to want to eat meat, when they were really given meat, they mostly ate it piece by piece, and rarely ate three pieces of meat in a row.

Han Fei thought to himself, If I solve the meat problem of the dragon race, I should be able to obtain the absolute friendship of the dragon race, right?

However, although Han Fei had some thoughts at this moment, he couldn't mention it to Long Wanwan. If he wanted to mention it, he should tell Senior Brother Azure Dragon.

After a while, the tens of thousands of dragons turned from human beings into dragons. Long Wanwan said, "Han Fei, come up on me. Let's go to the dragon battlefield."

Han Fei thought to himself, Aren't we going there now? But it's easier to ride a dragon. Long Wanwan didn't mind being used as a mount at all. Perhaps because they have been away from the myriad races for too long, they no longer have the concept of mounts.

When Han Fei sat on Long Wanwan's head, he heard continuous dragon roars. Long Wanwan swam in the void and plunged into the Void World.

Swish! Swish! Swish!

When Han Fei discovered that all the dragons could enter the Void World, he couldn't help but be shocked. Even in the Sea Realm, there weren't many people who could enter the Void World. This required a certain level of mastery of the law of space. But now, all the dragons had this ability, which was a symbol of strength.

As soon as she entered the Void World, Long Wanwan's strength finally erupted. As her body swayed, Han Fei saw that layers of space barriers were broken. This was not pure speed, but a more advanced use of the law of space.

Han Fei looked calm on the surface, but his heart was greatly shocked. There were barriers in space. As long as one penetrated these barriers, they could cross a very long distance in a short period of time. This was like... these dragons drilled one wormhole after another in space.

Yes, if Han Fei understood it right, they were constantly digging wormholes to achieve a speed exceeding ten thousand times the speed of light.

"Awesome!"

Han Fei sensed the state when Long Wanwan entered the space barrier. She seemed to have turned herself into the law of space, or disguised herself as the law of space, so she wasn't rejected by space.

When Long Wanwan took Han Fei forward, Han Fei was also covered by the spatial law disguised by Long Wanwan, so he could clearly feel that he was like a space being moved.

However, this movement required a powerful physique. Han Fei estimated that ordinary Great Monarchs might not be able to do this. Ordinary peak-level Great Monarchs might.

And in his current state, he was probably at the peak of the Extreme Dao Great Monarch realm, so he could naturally completely withstand this power.

As they walked forward, Long Wanwan said, "Your physique is very strong! You don't feel uncomfortable at all. When I took Feng Yu with me, I didn't dare to walk so fast."

Han Fei smiled and said, "If Feng Yu were a Great Monarch back then, it wouldn't have been a problem for her!"

### [God of Fishing](#)

#### **Chapter 3322: Fierce Battle against Doomsday-level Ominous Creatures (1)**

Long Wanwan asked, "Where is she now? She said she would come again, but she didn't come even when you came."

Han Fei said, "She's on the other side of the Chaotic Sea. The ominous has returned. The stronger she is, the greater the pressure."

Roar!

Long Wanwan roared, "That's true. Recently, there have been more and more ominous giant beasts. The Giant Demon Star Sea has increased its soldiers three times in a row. Our batch has retreated from the front line to rest."

Han Fei asked, "Is anyone from the Time Temple here to help?"

"No. The Time Temple doesn't need to take action in the territory of our dragon race. Although their Time Resurrection Technique is good, its sustainability is too poor. Our dragon race is different. Although there aren't many of us, we are very good at fighting."

Swish ~

After about an hour, Han Fei finally came to the front line battlefield of the dragon race.

As soon as he appeared, Han Fei felt that the void was shaking with dragon roars. On the distant battlefield, millions of dragons were fighting. Han Fei saw with his own eyes that under the dragon breath of a dragon, several ominous creatures melted.

Yes, not purified, but melted. Even the ominous aura melted away without a trace.

"Huh!"

Han Fei was surprised. "The ominous can be melted?"

Long Wanwan said, "The Destruction Dragon Breath can destroy everything in the world. The ominous aura is just a kind of energy body, so it can be destroyed."

"Destruction Dragon Breath?"

Before Han Fei could ask further, he heard a dragon roar and a dragon's voice. "Wanwan, why are you here? There are still three months before you rotate, right?"

Long Wanwan roared in response, "I brought the junior brother of the Dragon Monarch to observe the battlefield of our dragon race and warm up."

"Oh? The Dragon Monarch's junior brother? When did he have a junior brother?"

"Huh? Which race is this strong master from?"

"He looks very thin, but he is indeed a Great Monarch."

For a moment, on the battlefield, many dragons turned around and looked in Long Wanwan's direction. When their eyes fell on Han Fei, their eyes were full of curiosity.

However, their dragon faces were naturally dignified, so they all looked solemn and even fierce.

Buzz!

One, two, three... eight dragons broke through the space and appeared on the battlefield.

Han Fei was shocked. There were so many gods.

Yes, these eight dragons were all gods. With the dragon might emitted from their bodies, they were like killing gods.

Among them, there were three golden dragons, two green dragons, a white dragon, a black dragon, and a fire dragon.

Han Fei smiled and cupped his hands. "Greetings, seniors of the dragon race."

One of the golden dragons said, "The junior brother of the Dragon Monarch is the friend of our dragon race. Little friend Han Fei is very strong. You have reached the peak of the Extreme Dao Great Monarch at such a young age. With this strength, you can look down on all the dragons even in our dragon race."

"The peak of the Extreme Dao?"

Long Wanwan couldn't help but exclaim. Although she knew that Han Fei should be quite powerful, she didn't expect him to reach the peak of the Extreme Dao directly. In the entire dragon race, there were very few people who could reach the peak of the Extreme Dao. Even she was still a certain distance away from the peak of the Extreme Dao. She would probably have to cultivate for tens of thousands of years to reach that level.

Han Fei smiled. "Senior, you flatter me. I see that the physique of the dragon race is astonishing. Extreme Dao cultivators should be very common in the dragon race."

The black dragon said, "Extreme Dao cultivators are very common, but peak-level Extreme Dao ones are rare. There are even fewer people who have surpassed the Extreme Dao. Little friend, you don't have to be modest. However, since he is a friend of the Dragon Monarch, why didn't you take him back to the Dragon Palace but come to the dragon battlefield, Wanwan?"

Han Fei immediately said, "I'm here this time with the help of the Distanceless Gate. I have an agreement with the Distanceless Gate. Every time I use it, I have to kill 50,000 ominous creatures as compensation."

"Oh? 50,000 ominous creatures? Ominous creatures in the same realm as you? Then I'm afraid you'll have to stay in our dragon race for at least thousands of years."

Han Fei smiled. "Of course not. I'll just kill whatever ominous creatures I meet, but most of them should be at the world-ending level. After all, the ominous creatures are not stupid. They won't send a large number of destruction-level ominous creatures to their deaths for nothing."

"Can the Distanceless Gate already deliver people?"

"Doesn't that mean I can sneak to the Sea Realm and get some meat back?"

Han Fei was speechless. Did divine dragons like to eat meat too?

Han Fei immediately said, "Seniors, I think the Distanceless Gate only has this agreement with me. I'm afraid it's difficult for others to use it."

"Oh? It seems that Little Friend Han Fei is very special! He can actually win the favor of the Distanceless Gate."

Han Fei thought to himself, The Distanceless Gate doesn't favor me, but the Demon Purification Pot.

The fire dragon said, "Alright, don't think about using the Distanceless Gate anymore. We'll use it if we can. However, Little Friend Han Fei, even if it's the destruction-level ominous creatures, as long as there are enough of them, even a peak-level Extreme Dao Great Monarch will be afraid of them. After all, although peak-level Extreme Dao cultivators are strong and the ominous creatures may be no match for them, as long as they are contaminated by a large amount of ominous aura, they can still be seriously injured."

Han Fei smiled. "It's okay! It's just that if I take action, it may disrupt the order of the dragon battlefield to a certain extent. I'd like to apologize to you in advance."

"Change the order of the dragon battlefield?"

An Azure Dragon laughed out loud. "Don't worry. It's just 50,000 ominous creatures. It won't disturb the order of the dragon battlefield."

Han Fei didn't speak but smiled.

A golden dragon said, "Since Little Friend Han Fei is here to kill ominous creatures, do you need the help of our dragon race?"

Han Fei shook his head. "That's not necessary. Well... Seniors, since you agree, I'll take my leave."

"OK, Little friend Han Fei. Which battlefield do you need? We'll ask the dragons on that battlefield to retreat for the time being."

These divine dragons all knew how strong a peak-level Extreme Dao Great Monarch was. It couldn't be said that he could resist an army of 100,000 alone, but it was not a problem for him to temporarily guard a territory.

Long Wanwan said, "Han Fei, I have a good place. There are many ominous creatures there, but their combat power is relatively weak. If you just want to fulfill the agreement, that place is a good choice."

However, Han Fei pointed at the ominous mist at the front and said, "I'll go there!"

Long Wanwan was speechless. "That's the core battlefield of the dragon battlefield. A peak-level Extreme Dao cultivator can't withstand such pressure."

Han Fei chuckled. "Although it's just an agreement, I'm the current Human Emperor after all. How can I just make do? Otherwise, when I face billions of ominous creatures in the future, I can't just hide behind others, right?"

An Azure Dragon said with a buzz, "Little friend Han Fei, it's not that we don't trust your strength, but you are the junior brother of the Dragon Monarch after all. If anything happens to you on the battlefield of our dragon race, we won't be able to explain to the Dragon Monarch."

"It doesn't matter!"

At this moment, a divine sound suddenly came from the distant void. In the next moment, an Azure Dragon broke through the void and appeared here.

Buzz!

Who else could it be but Senior Brother Azure Dragon?

"Ah! Dragon Monarch, why are you here in person?"

Long Wanwan was surprised. She didn't expect the Dragon Monarch to stop cultivating for Han Fei.

Han Fei was overjoyed. "Greetings, Senior Brother Azure Dragon."

The Azure Dragon nodded slightly, looked Han Fei up and down, and then patted Han Fei's shoulder heavily. "I knew that your cultivation speed was extremely fast, but I didn't expect it to be so fast."

The divine dragons were also a little surprised. The Dragon Monarch's attitude towards this person seemed to be unusual.

Senior Brother Azure Dragon turned serious and nodded at the divine dragons. "Uncles, you underestimate my little junior brother. If he wants to go to the core battlefield, let him! There's no need to stop him."

### [God of Fishing](#)

#### **Chapter 3323: Fierce Battle against Doomsday-level Ominous Creatures (1)**

Han Fei was a little surprised that Senior Brother Azure Dragon came in person. However, since his senior brother was here, wouldn't he be able to do whatever he wanted on this dragon battlefield?

Han Fei said, "Senior Brother Azure Dragon, I'll go finish the battle first."

"Um!"

Swish ~

After Han Fei stepped in the air and left, a divine dragon asked, "Dragon Monarch, you seem to believe this guy very much? Is there something special about him?"

Senior Brother Azure Dragon said solemnly, "Uncles, Patriarchs, just wait and see. Before a doomsday-level ominous creature appears, no ominous creatures here can shake my Little Junior Brother."

"Huh?"

"Although a peak-level Extreme Dao cultivator can resist doomsday-level ominous creatures, he can't resist them for long. But from what you say, it seems that this guy is not an ordinary peak-level Extreme Dao cultivator?"

Long Wanwan also asked, "Is the human race so strong?"

Senior Brother Azure Dragon said calmly, "The human race is not strong now, but it's hard to say if they will be strong in the future."

At this moment, a divine dragon looked at Long Wanwan. "Wanwan, take it out!"

"Huh? Take what?"

"Heh, you're full of the fragrance of meat. Do you think we can't smell it? You little girl, it's one thing to secretly eat meat, but it's too much that you don't even share any with your elders."

Long Wanwan's dragon whiskers drooped down. Is the fragrance of meat so strong?

Long Wanwan turned into her human form and reluctantly took out some jerky. "Uncle-Masters, this is all I have..."

"Little girl, don't lie."

The fire dragon said majestically and seemed to be able to see through Long Wanwan's heart.

Finally, Long Wanwan gave a handful of jerky to each of them and said, "There is really not much left now."

The divine dragons didn't dwell on it with Long Wanwan. They were just bored and wanted to have a taste. However, when the jerky entered their mouths, their expressions couldn't help but become strange.

"Did Han Fei give you this jerky?"

A divine dragon spoke, seeming very surprised. He had never eaten such delicious jerky.

This time, before Long Wanwan could answer, Senior Brother Azure Dragon sighed slightly. "Uncle-Masters, in addition to being talented in cultivation, my junior brother is also extremely talented in culinary skills. I forgot to remind him never to cook for the dragon race. It seems that I'm still a step late."

A golden dragon said, "The Dragon Monarch! Sometimes, you don't have to be so harsh. It's not bad to get some meat from the Sea Realm occasionally."

However, Senior Brother Azure Dragon shook his head firmly. "Pure desire for food will only harm our Dao hearts. Hunger is the greatest tempering for the dragon race. Besides, once we start, the consequences will be unimaginable. Do you want the dragon race to experience another bloodbath era?"

"Alas! Fine, you're the Dragon Monarch now. We'll listen to you! I hope this time, we can destroy the ominous and remove the curse on our dragon race."

The divine dragons all sighed slightly. It was so difficult to destroy the ominous and remove the curse. They had worked hard for this goal for their entire lives but had never achieved anything. It was impossible for the dragon race to achieve it alone.

"Look."

As Long Wanwan shouted, everyone looked at the dragon battlefield.

At this moment, Han Fei had already entered the core battlefield.

On the dragon battlefield, the ominous creatures still came out of a large area of ominous mist. It seemed that they could only enter the Sea Realm in this way.

And the so-called core battlefield was a battlefield surrounded by ominous mist on three sides. Here, there were as many as 30,000 powerful giant dragons. Although there were very few of them, they were all Monarchs. Most of the dragons were fighting ominous giant beasts, not ordinary ominous creatures.

As soon as Han Fei entered this place, he felt that the laws here were relatively chaotic. An inexplicable power was crazily destroying the laws in this void. Although the laws could self-condense and gather, under this destructive power, many battlefields couldn't be completely stable for a moment.

As for the ominous giant beasts, they were powerful offensive ominous creatures. Han Fei could understand them as existences like the Mountain Giants. They had powerful strength and a richer ominous aura. Therefore, although they were world-ending level ominous creatures, their attacks were stronger than ordinary world-ending level ominous creatures.

Of course, they also had a disadvantage, which was that their speed was relatively slow. A powerful attack required accumulation of power. However, this slowness was relative. After all, they were at the world-ending level. No matter how slow they were, they were not something that the destruction-level ominous creatures could compare to.

"Roar!"

When Han Fei entered the battlefield, countless giant dragons looked at him.

"Why is this outsider here?"

"I saw that the dragon gods seemed to be quite friendly with him. He should be a guest, right?"

"He must be a guest of another race. Even the Dragon Monarch is here. Could it be that the Divine Dragon and the Dragon Monarch want to see his strength?"

A dragon said, "Fellow Daoist, this place is dangerous. If you want to show your strength, you can stay back a little. We'll attract some ominous creatures over for you."

"Thank you for your kindness, but no need."

However, as soon as the giant dragon said so, a divine dragon's voice sounded. "Everyone on the core battlefield, retreat for the time being."

"What? Retreat?"

"Why are we retreating? Are dragon gods planning to let in a wave of ominous creatures?"

"That's not right. Why is that guest still moving forward?"

Han Fei's speed was very fast. He passed countless strong masters along the way until an ominous giant beast raised its huge claw and slapped over. That claw left darkness in the Sea of Stars and even caused a void storm.

### [God of Fishing](#)

#### **Chapter 3324: Fierce Battle against Doomsday-level Ominous Creatures (2)**

However, Han Fei waved his hand, and a huge long knife formed by the law of life appeared in front of him. Han Fei pushed the long knife forward.

"Pfft!"

The long knife instantly pierced through the giant claw of the ominous beast and then its body. The moment it passed the ominous beast, purifying flames burned on its body, and the infinite ominous aura was completely purified.

"Puff! Puff! Puff!"

However, Han Fei's slash was not over. There were tens of thousands of ominous giant beasts here. Han Fei pushed his knife forward like a dragon or a snake, leaving a stream of light on the core battlefield. This blade rushed out and pierced through more than 20 ominous giant beasts in the blink of an eye.

"So powerful ~"

The dragon powerhouses who were retreating but hadn't completely left the battlefield couldn't help but widen their eyes when they saw this scene. Han Fei's speed was extremely fast. For the ominous giant beasts that were relatively slow among world-ending level ominous creatures, they almost couldn't resist Han Fei's charge that was full of the power of purification.

A dragon was shocked. "That's not right. No matter how powerful his law of purification is, how can it completely burn this ominous aura? It shouldn't be!"

A dragon was puzzled. "Some ominous creatures could barely suppress the power of purification, but why did they still die?"

In the distance, a divine dragon said, "Is this the law of life?"

Senior Brother Azure Dragon didn't speak. He didn't know that Little Junior Brother had comprehended the law of life. However, this law seemed to be able to restrain ominous creatures.

As soon as Han Fei attacked, the ominous creatures on the core battlefield realized that something was wrong. Although this human was tiny, his combat power was unimaginably strong.

Even the Destruction Dragon Breath of a peak-level Extreme Dao dragon couldn't kill more than 20 world-ending level ominous beasts in an instant. How could the Light of Purification be so capable?

When the dragons on the core battlefield retreated like a tide, Han Fei's figure became unusually conspicuous.

The ominous giant beasts were the main combat power against the dragon race in the first place. In terms of size and combat power, the giant beasts actually had a slight advantage. But at this moment, with a guy who could instantly kill the ominous giant beasts, those ordinary world-ending level ominous creatures naturally rushed up immediately.

Han Fei didn't reveal the Demon Purification Pot, so these world-ending level ominous creatures were not afraid at all. This was because their growth was accompanied by swallowing and being swallowed. Although Han Fei was very strong, he was the only one left on the battlefield. If they were still afraid, the ominous creatures would have long been eliminated.

A large number of destruction-level ominous creatures and a small number of world-ending-level ominous creatures rushed over. In their opinion, it was just one enemy. How could he withstand their round of attacks?

However, at this moment, Han Fei activated his Origin Great Dao, and his combat power soared by three times.

Around him, tens of thousands of life chains suddenly surged out of the void.

"Puff! Puff! Puff!"

A large number of destruction-level ominous creatures were pierced by the sudden life chains before they could react. The ominous creatures were generally not afraid of the law chains, because not all the law chains could kill them.

But this time, the world-ending level ominous creatures saw that none of the destruction-level ominous creatures that were pierced by the law chains could condense their ominous bodies again. They were killed in one blow.

In the distance, the dragons that came with Long Wanwan finally arrived. However, when they took a closer look, they were all dumbfounded.

The small figure stood on the huge core battlefield. The chains around him stirred. After countless ominous creatures were pierced, they inexplicably burned and were completely purified without any chance to resist.

"Well! Is Fellow Daoist Han Fei so strong?"

"Why did he rush into the core battlefield alone?"

"Why did the dragons on the core battlefield retreat?"

On the other side, the eyes of the eight divine dragons flickered.

The fire dragon said, "In addition to the law of life, this guy's secret technique is also very strong! If this guy can break the Extreme Dao, he will have the power to shake gods."

A golden dragon sighed. "What a pity. If I'm not wrong, he seems to cultivate the Supreme Divine Technique of the human race, right?"

The black dragon echoed, "At first, I thought I was mistaken, but now it seems that it must be the Supreme Divine Technique. Unfortunately, the peak of the Great Monarch realm is the end of this path. If he can break the restrictions of the Extreme Dao, he can be comparable to a god, but even so, he is not too strong among gods. What a pity..."

Senior Brother Azure Dragon said calmly, "What if he breaks the limit of the Supreme Divine Technique?"

"Impossible!"

The divine dragons all shook their heads, and an Azure Dragon God said, "Since ancient times, we have never heard of anyone who can reach the end of the path of the Supreme Divine Technique."

The corners of the Azure Dragon's mouth curled up slightly. "However, someone did achieve it back then, didn't he? For example, the creator of the Supreme Divine Technique."

The black dragon said, "No one has witnessed the legend recorded in the Chaotic Era. Even the great Dragon God has no records about this. Therefore, it's hard to say if this matter is true."

The other golden dragon also said, "There are also rumors that even the creator of the Supreme Divine Technique failed to become a god. Therefore, the rumors are not credible."

The Azure Dragon shook his head slightly. "If there is anyone in this world who can clear the path of the Supreme Divine Technique, I'm afraid it's only my little junior brother. Once this path is clear, there will be another several or even dozens of top powerhouses in the Sea Realm."

### [God of Fishing](#)

#### **Chapter 3325: Fierce Battle against Doomsday-level Ominous Creatures (3)**

Long Wanwan looked at the divine dragon and then at the Dragon Monarch, dumbfounded, not knowing what they were talking about.

In the field, Han Fei held the Blood Sky Blade, and his body turned into lightning, flashing crazily here.

The combat power of 300,000 was not something ordinary peak-level Great Monarchs, or even peak-level Extreme Dao Great Monarchs, could compare to.

The Dao of Slaughter God poured into the bodies of the surging world-ending level ominous creatures under the slash of the Blood Sky Blade. The Ragnarok instantly annihilated their consciousness. The law of life cut off their vitality, and the fire of purification burned their ominous aura.

A world-ending level ominous creature couldn't even withstand a single slash and died on the spot.

Puff, puff, puff!

In just a hundred seconds, Han Fei had killed nearly a thousand ominous creatures. Even more than thirty world-ending-level ominous creatures had died. This battle record stunned the dragons who had temporarily retreated from the battlefield.

Long Wanwan and the other giant dragons couldn't help but feel that they were watching a monster. When Han Fei first came, they had thought of attacking him. However, seeing Han Fei's superb combat skills at this moment, they felt helpless. They even had the illusion that the legendary human race was all so strong.

Han Fei's speed was getting faster and faster, and his attacks were even more elusive. In just half an hour, more than 30,000 ominous creatures above the destruction level were killed by Han Fei on the spot.

In the distance, the retreating ominous beasts were attacking remotely and launching Great Monarch-level blows. However, most of those attacks were shattered by the rules of life halfway.

The divine dragons who were worried about Han Fei were no longer worried at all. With such combat power, 50,000 ominous creatures were nothing to Han Fei.

Finally, after nearly an hour, Han Fei's wanton killing finally attracted the attention of a stronger existence in the ominous mist.

When a giant claw extended out of the ominous mist, dragon roars sounded on the dragon battlefield.

"A doomsday-level ominous creature is coming."

Many dragons in the field were eager to try, but that battlefield belonged to Han Fei for the time being. Although they didn't know why the Dragon Monarch asked them to give up the battlefield for the time being, so far, Han Fei had performed extremely well. It could be said to be the most glorious battle in thousands of years.

Many dragons looked at Senior Brother Azure Dragon and couldn't help but remember that when the Dragon Monarch rose, he seemed to have such a brilliant battle record too. He was fighting three doomsday-level ominous creatures alone without being at a disadvantage.

Now, someone was going to fight a doomsday-level ominous creature alone again? However, could this person reproduce the glory of the Dragon Monarch in the past?

Han Fei didn't mind fighting. He had been in seclusion for too long. Although only a hundred years had passed in reality, it had been a hundred thousand years in his Origin Star.

Although this was the time price he had to pay to swallow the refined stars, it had indeed been a long time since he tried his best to fight.

The doomsday-level ominous creature roared and rushed out of the ominous mist. It said angrily, "What a good dragon. This guy already has the combat power of a god. How dare you let him onto the battlefield? Do you want to start a divine war?"

This time, Senior Brother Azure Dragon said, "Humph! Open your eyes wide. Is this the god-level combat power?"

When this doomsday-level ominous creature's claw completely extended out, the ominous creatures that were attacking Han Fei all stopped attacking, as if they were waiting for the doomsday-level ominous creature to attack.

Immediately afterward, when the huge doomsday-level ominous creature popped its head out of the ominous mist, Han Fei saw a dark dragon head, followed by a dragon claw. It was clearly an ominous dragon.

Han Fei couldn't help but look back at Senior Brother Azure Dragon, who said, "Ominous creatures have no form. They can transform into any kind of creature as long as it's suitable for them to fight. And this is the battlefield of dragons. It's not strange for him to transform into an ominous black dragon."

The corners of Han Fei's mouth twitched. He had thought that all ominous creatures looked the same. They had dark ghost-like heads, sharp teeth, and sharp claws... He didn't expect them to transform on the dragon battlefield.

The ominous dragon that was more than 5,000 kilometers long seemed to be used to the fighting style of the dragon race. It opened its mouth and spewed a mouthful of dark dragon breath at Han Fei, which was actually an ominous aura that had been transformed into an attack power.

Han Fei certainly wouldn't stand still and wait stupidly. With a bang, Han Fei turned into ten thousand lightning marks and took the initiative to rush at the doomsday-level ominous creature.

However, in the next moment, he felt that space was imprisoned, and his position was forcibly teleported. The doomsday-level ominous creature tried to forcibly teleport Han Fei to the range of the dragon breath.

"A clash of laws?"

Last time he fought a doomsday-level ominous creature, it was more like a one-sided beating. Even if he used all his strength, he could only shake the doomsday-level Monarch a little.

But this time was different. Han Fei had already broken the peak of the Extreme Dao. In terms of the power of laws, he was not weak either. The law of space was one of the first laws he fused.

Bang!

In the Sea of Stars, the space where Han Fei was shattered like glass. Han Fei activated lightning jumping and avoided the range of the dark dragon breath again.

Furthermore, tens of thousands of life chains quickly swept towards the doomsday-level ominous creature.

"Can he actually break through the law shackles of a doomsday-level ominous creature?"

Many dragons exclaimed. After all, the control of laws in the Great Monarch realm couldn't compare to that of the gods. Therefore, in the Great Monarch realm, in many cases, the battle would eventually

evolve into a head-on clash. However, it was rare for someone like Han Fei to forcibly break the other party's law power.

### God of Fishing

#### **Chapter 3326: Fierce Battle against Doomsday-level Ominous Creatures (4)**

Han Fei felt that there was a certain difficulty, but it couldn't stop him. Perhaps because he was in his peak state, he was very close to the lowest god-level combat power.

He knew that he certainly couldn't win in a head-on clash, but this didn't mean that he couldn't fight. In fact, Han Fei felt that his current combat power might be comparable to the Eastern Divine Crocodile. Even if there was a slight difference, it was definitely not far behind.

In the initial clash, the doomsday-level ominous creature seemed to sense that Han Fei was not as strong as it imagined, so it imprisoned the various laws here.

However, Han Fei had mastered 100,000 laws. After the laws here were sealed, he didn't compete with this doomsday-level ominous creature for the control of the laws. Instead, he shattered all the laws here.

Buzz!

A law storm suddenly set off on the core battlefield, stirring the entire battlefield. And these violent laws began to attack Han Fei and the doomsday-level ominous creature indiscriminately.

Under the impact of this violent law, Han Fei's body glowed with golden light. With the enhancement of the Invincible Golden Body, the law of life enveloped the surrounding space, and the ten thousand chains of the law of life didn't stop attacking amidst the raging laws.

Han Fei sneered. "To be blunt, I've mastered everything you've mastered. I've also mastered those you haven't mastered. Today, I'd like to see how strong the so-called doomsday-level ominous creature is."

With lightning techniques, Han Fei held the Blood Sky Blade and cut a bloody line in the Sea of Stars, slashing at the doomsday-level ominous dragon. The latter roared and swept its tail, and a huge dragon might came at him.

"Pfft!"

Bang!

Han Fei cut through the Sea of Stars like a meteor, leaving a star mark.

As for the dragon tail that was hundreds of kilometers long, it was cut off by this single slash, and the purification flames were ignited. However, in the blink of an eye, it was extinguished by the boundless ominous aura.

"Han Fei ~"

Long Wanwan exclaimed. Being hit by a god head-on was not something ordinary people could withstand. Many dragons were nervous.

Senior Brother Azure Dragon and the divine dragons looked calm, as if they had some guesses about this.

The golden divine dragon chuckled. "The Supreme Divine Technique is indeed extraordinary. Han Fei's physique is so strong. In terms of physique alone, he can completely compare to ordinary gods."

The fire dragon echoed, "That's right, but from this clash, it can be seen that Han Fei hasn't reached the end of the Supreme Divine Technique. This means that it's only a matter of time before he breaks the peak of the Extreme Dao."

The black dragon said, "Old Huo, perhaps he has already broken the peak of the Extreme Dao?"

"Huh?"

The black dragon said, "I think he did that blow on purpose. He had confidence so he dared to do so. If he were a normal peak-level Great Monarch, why would he fight a doomsday-level Monarch head-on?"

There was no telling if it was to confirm the black dragon's words, but lightning suddenly appeared. Han Fei flew back exactly the way he flew out.

He shouted, "I was wondering how strong doomsday-level cultivators are, but it turns out that you are nothing more than this. Without a physical body, you can only play tricks with the ominous power. Therefore, in the same realm, your combat power will definitely be slightly weaker than the strong masters of the myriad races in the same realm. Come, take another hundred thousand punches from me..."

A peak-level Extreme Dao cultivator was already a top existence in the Sea of Stars. Even if he couldn't shake the Sea of Stars, he could at least make the stars tremble. Han Fei was bathed in golden light as the Invincible Fist Technique poured out.

Han Fei's current Invincible Fist Technique was no longer the pure Invincible Fist of the past, but contained the power of many laws he understood and fused.

Bang! Bang! Bang!

Han Fei's invincible fist mark, like ten thousand stars, smashed at the doomsday-level ominous dragon. The latter triggered the ominous mist and produced countless dragon scale blades that slashed at Han Fei.

As soon as the two sides fought, like tens of thousands of stars exploding in tens of millions of spaces, countless energy pulses exploded in the Sea of Stars.

At this moment, the surrounding dragons all widened their eyes. They really couldn't figure out how such a terrifying power could be hidden in such a small body.

Perhaps 90% of the dragons here didn't dare to say that they could survive this round of star explosions.

When the space stabilized, most of the doomsday-level ominous dragon's body was gone, and its body was shackled by tens of thousands of life law chains.

Around Han Fei, the law of life bloomed, and his Invincible Golden Body was full of cracks.

A dragon couldn't help but sigh. "He can actually fight a doomsday-level ominous creature head-on to this extent?"

A Great Monarch-level dragon shook his head. "No, you didn't see the situation just now clearly. Although the body of the doomsday-level ominous dragon was shattered, Han Fei was also swept by the dragon seven or eight times in a short period of time. It's just that his physique is too strong, and the original law he mastered has extremely strong purifying power, so he ended up in this situation. Otherwise, ordinary people would have died long ago."

Han Fei panted slightly and thought to himself, The impact of this doomsday-level ominous power is indeed strong. This time, it seems that I took the initiative to throw 100,000 punches, but in fact, I have to punch. If I stop for a moment, I might be swallowed by the ominous mist.

Besides, although he had already cut off the river of life here, he couldn't extinguish this ominous mist or seriously damage the vitality of this doomsday-level ominous dragon.

For ordinary ominous creatures, as long as they were hit by him, they could basically be purified by him. However, this doomsday-level ominous creature emitted too much ominous aura. Even if he used all his strength, it was still not enough.

Bam! Bam! Bam!

Sure enough, in the next moment, the doomsday-level ominous lifeform recovered. The chains of life broke one after another, unable to withstand the corrosion of this ominous power.

When all the chains of the rules of life were broken, the body of this doomsday-level ominous dragon quickly recovered, but it became smaller by almost 500 kilometers.

This meant that if he launched another ten such attacks, he might be able to kill this doomsday-level ominous dragon.

However, the other party clearly wouldn't let him succeed. Therefore, the body of the ominous dragon quickly shrank. In the end, its body turned into the appearance of an ordinary doomsday-level ominous creature, and its body shrank to nearly 100,000 feet.

At this moment, Senior Brother Azure Dragon said via voice transmission, "Little Junior Brother, pay attention. When the doomsday-level ominous shrinks its body, the degree of condensation of the ominous aura is stronger. It's equivalent to a stronger physique."

Hearing this, Han Fei nodded imperceptibly. In the next moment, he still drew the Blood Sky Blade and defended against the enemy with the broadsword technique he was best at.

The doomsday-level's hands turned into blades, and in the next moment, it took the initiative to attack. At that moment, both its speed and strength seemed to have soared.

Clang!

Clang! Clang! Clang!

After a round of clashes, Han Fei could only barely resist and could only passively protect himself with the law of life.

In the distance, the divine dragons nodded slightly.

A fire dragon said indifferently, "To be able to fight to this point, he's not weak. If he cultivates for a while longer and continues to grow with the Supreme Divine Technique, he should be able to completely match a doomsday-level ominous creature."

A golden divine dragon nodded. "That's right. From the looks of it, he's still much weaker than the Dragon Monarch back then. I can only say that he's extremely strong among the peak-level Extreme Dao Great Monarchs."

However, at this moment, Senior Brother Azure Dragon suddenly said, "Little Junior Brother, it's about time. There's no need to give yourself too much pressure. Attack!"

"Huh?"

Immediately, the gods looked at Senior Brother Azure Dragon in confusion.

Countless dragons also looked at Senior Brother Azure Dragon, dumbfounded.

Long Wanwan muttered, "That's not attacking?"

### [God of Fishing](#)

#### **Chapter 3327: Outbreak of A Divine War (1)**

After a round of battle, Han Fei had roughly judged the strength of this ominous dragon.

First of all, doomsday-level ominous creatures didn't have divine personas, because Han Fei didn't feel any divinity. Besides, although they had also mastered the power of laws, the strength and control of the laws used by the other party were weaker than the gods he had met in the Miracle Forest. Therefore, there should be a fundamental gap between doomsday-level ominous creatures and ordinary gods of the myriad races.

Secondly, this doomsday-level powerhouse should have just advanced. If it was a very senior one, even if the law of life he mastered naturally restrained them, it would be difficult for him to crush the other party. But in this aspect, whether it was the law, strength, speed, or physique, nothing could suppress him.

Although after a round of confrontation, the other party had shrunk his body and condensed his combat power, if he continued to fight like this, he was confident that he could exhaust the other party to death.

Of course, that might take a long time, and provided that this doomsday-level ominous creature wouldn't escape.

However, Han Fei had already achieved his goal of testing his strength. His current comprehensive combat power should be stronger than that of the high priest of the Miracle Forest, or even slightly stronger than Chu Hao, but it was definitely below that of the Eastern Divine Crocodile and the others. As for comparing with Zhan Nanye and the others, Han Fei recalled Zhan Nanye's attack and quickly came to a conclusion that Zhan Nanye was stronger than the Eastern Divine Crocodile.

With such a general positioning of strength, Han Fei immediately learned that after the Extreme Dao, there should be an invisible realm, or rather, it couldn't be considered a realm, but a transition period from the peak of the Extreme Dao to the god realm.

During this period, although he was not a god, he had the power to match weaker gods.

At this moment, the doomsday-level ominous creature felt that if it pushed its strength to the peak, it should be able to deal with Han Fei, so it attacked again. And this time, Han Fei still chose to fight head-on.

Han Fei's body emitted a purifying light as he punched out with the Star Explosion Divine Fist.

Seeing this, many dragons couldn't help secretly holding their breath.

A dragon was puzzled. "Why did he choose to fight head-on?"

Even the divine dragons were puzzled. It turned out that although Han Fei was strong, he was still not strong enough. If he fought head-on, even if he didn't die, he would definitely be in danger.

Rumble!

On the field, Star Explosion kept happening, and ripples were surging. But this time, to everyone's surprise, Han Fei was not sent flying.

In the smoke and dust of the explosion, tens of thousands of life chains around clasped the doomsday-level ominous creature.

From Han Fei's body, eight small vines had extended out at some point and pierced through the doomsday-level ominous.

Han Fei put on a faint smile and muttered to himself in a voice that only he could hear, "So the Demon Purification Pot should be used like this. Ordinary ominous creatures still have to be killed with strength and the Demon Purification Pot should be used only on doomsday-level ones so that the record of the Primordial Tower be broken."

However, when Han Fei thought of the 220,000 destruction-level and 3,200 world-ending level ominous creatures that Li Daoyi had killed, he felt a headache. It wasn't as difficult to kill 220,000 destruction-level ominous creatures without the Demon Purification Pot as he imagined. The key was the world-ending level ones. He could kill thirty or fifty world-ending level ominous creatures in a moment because they were relatively scattered. However, if more than 3,000 of them attacked at the same time, the difficulty wouldn't be as simple as one plus one equals two.

Han Fei sighed slightly. In the end, he was still a little weak. Sure enough, in the long Time River, there were always some talented people who left behind insurmountable mountains for future generations.

At this moment, the eight small vines instantly swallowed nearly half of the ominous aura of the doomsday-level ominous creature. To Han Fei's surprise, the doomsday-level ominous aura wasn't sucked to death immediately.

"Demon Purification Pot ~"

The doomsday-level ominous creature roared and tried to break free, but under the control of the Demon Purification Pot, it was useless.

After a full two seconds, the doomsday-level ominous creature completely died and turned into a level-seven energy crystal.

In the distance, the divine dragons were all dumbfounded.

A divine dragon breathed heavily. "Dragon Monarch, is that really the Demon Purification Pot?"

The golden divine dragon breathed out white mist. "Has the Demon Purification Pot finally appeared? Is Han Fei your junior brother, Dragon Monarch?"

The flames on the Fire Dragon's body vibrated. "No wonder the Dragon Monarch is so confident in him. It turns out that he is the owner of the Demon Purification Pot."

However, there was also an Azure Dragon who looked solemn. "But how did the owner of the Demon Purification Pot embark on the path of the Supreme Divine Technique of no return? If he can't break the restrictions of the Supreme Divine Technique, won't he be crippled?"

The black dragon echoed, "Dragon Monarch, are you sure he can break the restrictions of the Supreme Divine Technique?"

Senior Brother Azure Dragon shook his head slightly. "I'm not sure. No one can be sure of that. However, my Little Junior Brother is very lucky. It might not be the will of the heavens that the Demon Purification Pot falls into his hands. However, it's definitely fate that he embarks on the path of the Supreme Divine Technique. As for whether he can break the restrictions of the Supreme Divine Technique, it depends on Little Junior Brother himself."

"Alas!"

"Sure enough, whoever obtains this pot must have great luck. He has cultivated the Supreme Divine Technique at such a young age. I hope he won't be discouraged."

The divine dragons sighed, and the dragons watching the battle on the dragon battlefield were dumbfounded. They had thought that this battle was almost over. However, the situation was instantly reversed. The doomsday-level ominous creature was dead just because of a few small vines?

### [God of Fishing](#)

#### **Chapter 3328: Outbreak of A Divine War (2)**

A dragon sighed. "As expected of the junior brother of the Dragon Monarch. He's so strong!"

A dragon swallowed. "Is this the emperor of the human race? He actually has this treasure that only exists in legends."

It wasn't that they hadn't heard of the Demon Purification Pot. It was recorded in the history of the dragon race, but this was the first time they had seen the Demon Purification Pot with their own eyes.

In their impression, there was only one person who could kill a god as a Great Monarch, and that was the Dragon Monarch.

But today, they saw another.

However, a dragon also said, "Although the Human Emperor is also very strong, he borrowed external things after all. Therefore, he is still inferior to our Dragon Monarch."

A dragon retorted, "Having treasures is also a kind of strength. He is at least a peak-level Extreme Dao powerhouse. Even in our dragon race, it's rare!"

A dragon turned into a human. "With such talent, do you think a dragon baby with him will give birth to a stronger bloodline?"

"That's possible, but how can it be so easy for us to have children at our level? How many times do we have to do that?"

"Then let him stay in the dragon race for a while longer. We can succeed in the end."

At this moment, Han Fei didn't know that he had been targeted by the dragons.

At this moment, the description of the level-seven energy crystal appeared in Han Fei's eyes. Information popped up in his eyes.

< Name > Level-seven energy crystal

< Introduction > The only pure energy crystal core in the body of a doomsday-level ominous creature. It contains a small amount of soul power, a massive amount of Chaotic Qi, a massive amount of vitality, and a massive amount of ownerless souls that can be directly absorbed. It contains a large number of pure Heavenly Dao laws and can be directly used for cultivation.

<Quality> destruction-level

< Soul Power Divine Source Contained > 200 wisps

< Chaotic Qi Contained > 98.2 million wisps

<Ownerless Souls Contained > 629 Origins

< Vitality Contained > 1.2 million years

<Absorbable>

<Note 1> Soul Power Divine Source can only be absorbed after the Divine Source is born.

<Note 2> The ownerless souls in ominous creatures are completely attributeless and can be absorbed directly without side effects.

<Note 3> The pure law of the Heavenly Dao can be applied to any law.

"Soul Power Divine Source? Is it a power that only gods can have?"

At this moment, Han Fei had no time to explore the soul power Divine Source. Because of the death of the doomsday-level ominous creature, the ominous mist immediately trembled, and roars came out of it one after another.

At the same time, the terrifying-level and destruction-level ominous creatures on the entire dragon battlefield rushed at Han Fei crazily.

Of course, Han Fei knew what it meant. It was nothing more than using ordinary ominous creatures to consume the power of the Demon Purification Pot. Although he was at the peak of the Extreme Dao, when a certain number of ominous creatures surged over, there would always be fish that escaped the net.

For example, the Skynet in the Guardian Sea could be said to have stopped seventy or eighty percent of the ominous creatures on the Star Sea Broken Cliff, but there would still be a large number of ominous creatures crossing the Skynet and entering the rear battlefield.

The chains of the law of life were piercing and killing, and the Demon Purification Pot began to dance and kill wantonly.

The core battlefield where Han Fei was immediately surrounded. Many dragons roared and began to take the initiative to stop the ominous creatures heading to the core battlefield.

Long Wanwan also shouted at the giant dragons she led, "Everyone, follow me."

A divine dragon said, "Dragon Monarch, are you going to let him keep fighting? If I'm not wrong, his Demon Purification Pot doesn't seem to be complete."

Senior Brother Azure Dragon said, "Why don't we take this opportunity to start a war?"

"Huh?"

Senior Brother Azure Dragon explained, "I've been in the Great Monarch realm for too long. It's time for me to make a breakthrough. I might sleep for a period of time after that. And these thousand years are the craziest time for the ominous' counterattack. I might as well take this opportunity to let them calm down and not dare to rashly enter the dragon battlefield."

"Are you going to make a breakthrough?"

The divine dragons were overjoyed. If this was true, it was definitely a joyous event.

The fire dragon asked tentatively, "God Slaying Realm?"

The Azure Dragon nodded slightly. "It's time."

The divine dragons all took a deep breath. "Okay! We can fight this war. Then when you came..."

Senior Brother Azure Dragon said, "When I came, I had already informed our clan. In fact, whether my little junior brother comes or not, we need to fight a big battle and harvest a few level-seven energy crystals by the way."

Immediately, the eight divine dragons were excited. Starting a divine war was not a small challenge. They couldn't slack off.

The black dragon was puzzled. "What if a dominator-level ominous creature comes..."

Senior Brother Azure Dragon smiled. "How can it be so easy to become a dominator? Even if he really comes, it's good. Killing a dominator-level ominous creature will naturally intimidate the other party more."

"Kill a dominator?"

The divine dragons were a little stunned and couldn't help but wonder if the old divine dragon had secretly made a breakthrough.

However, they wouldn't doubt the Dragon Monarch's words. Being able to become the Dragon Monarch, he was the hope of the entire dragon race. Not only did he have to awaken a special dragon bloodline, but he also had to experience the inhuman dragon pool-baptism, the enhancement of an ancient dragon soul, and countless other conditions to become the Dragon Monarch. Although he was only a Great Monarch now, no one had ever only regarded him as a Great Monarch.

Therefore, when Senior Brother Azure Dragon said that he wanted to start a war, none of the eight divine dragons would doubt him.

Senior Brother Azure Dragon said telepathically to Han Fei, "Don't exhaust the power of the Demon Purification Pot. I need you to cooperate with me now."

The Demon Purification Pot had just pierced through less than 3,000 ominous creatures when Han Fei heard Senior Brother Azure Dragon's voice transmission. However, since he wasn't to use the Demon Purification Pot now, he could only fight them head-on.

### [God of Fishing](#)

#### **Chapter 3329: Outbreak of A Divine War (3)**

"World Purification."

The World Cleansing Divine Spell erupted, and with Han Fei as the center, a light of purification erupted. However, the World Cleansing Divine Spell hadn't been deduced to the highest level, and there were too many ominous creatures here. Even if it reached its strongest state, it couldn't resist them for long.

The World Cleansing Light didn't even last a second before it was almost extinguished by the ominous aura.

However, Han Fei didn't need to maintain the World Cleansing Divine Spell for long. He just needed to take the opportunity to kill his way out.

Swish! Swish! Swish!

The chains of life pierced in all directions. Accompanied by rumbling thunder, Han Fei managed to break free from the densely packed ominous creatures.

However, he had now become the primary target of all the ominous attacks, whose purpose was to consume the power of the Demon Purification Pot. Therefore, the ominous creatures in all directions followed closely behind him, refusing to let go.

It would be fine if it was that simple, because it was impossible for the terrifying-level and destruction-level ominous creatures to keep up with him. However, to Han Fei's surprise, thousands of world-ending level ominous creatures surrounded him together.

"Are these world-ending level ominous creatures courting death?"

However, Senior Brother Azure Dragon's voice sounded in Han Fei's ears again, "Keep the Demon Purification Pot to intimidate the doomsday-level ones."

Senior Brother Azure Dragon's meaning was very clear. Don't waste the Demon Purification Pot's limited power against world-ending level ominous creatures.

Hearing this, Han Fei couldn't help but smile bitterly. Senior Brother Azure Dragon, don't you see how many ominous creatures are chasing me now? Hundreds of thousands of them! There would probably be millions of them soon.

In the next moment, Senior Brother Azure Dragon's voice spread throughout the entire dragon battlefield. "All dragons in the Dragon Valley, listen to my command. Fight!"

Senior Brother Azure Dragon wasn't just talking to everyone on the dragon battlefield, because he was shouting at a strange dragon horn, which seemed to be a communication device.

In the Dragon Valley, in addition to the place where Han Fei came, there were dozens of other places where deafening dragon roars sounded.

Swish! Swish! Swish!

The dragons that were lying on the giant spiritual fruits and gnawing crazily rose to the sky one after another.

Roar!

"Roar ~"

"It's the Dragon God's Horn. The Dragon Monarch has started a war."

"Stop eating. Hurry up and rush to the dragon battlefield at full speed."

"Roar! The battle is starting. Charge!"

"The Dragon Monarch is summoning us..."

In the Dragon Valley, there were a hundred thousand dragons rushing to the dragon battlefield.

In the rear of the Dragon Valley, there lay a grand and magnificent complex of multiple colossal palaces, built from countless stars stacked together and transformed. They silently floated in the Sea of Stars.

Outside this huge palace was a sea of giant demon plants that stretched out for several light-years. Here lived the dragons of the entire dragon race. On any fruit, there might be thousands of small dragons.

Outside the Dragon Palace, dragons flew in the sky one after another, forming a long line. However, most of these dragons were not Monarchs, but in the Sky Opening realm.

These dragons were all full of fighting spirit. From time to time, they would roar and whisper to each other, excited.

"When are we leaving?"

"Why is a war suddenly about to break out?"

"I don't know! There was no signal at all before."

"Has the ominous gone crazy and counterattacked crazily?"

A divine dragon shouted, "All dragons, calm down and wait for the Dragon Monarch's message."

...

On the dragon battlefield, Han Fei's pressure was quickly shared. Before he came, the other party could compete with the ominous creatures and only gave him a piece of the battlefield.

Now that the dragons had all returned, the pressure on him was naturally reduced.

At this moment, in the ominous mist, three doomsday-level ominous creatures extended their huge palms at the same time. A furious roar came from the ominous mist. "Dragon Monarch, how dare you take the initiative to start a war? The dragon race is courting death."

Senior Brother Azure Dragon said solemnly, "Only three? Are you here to seek death?"

In an instant, the eight divine dragons around Senior Brother Azure Dragon attacked at the same time.

The first to bear the brunt was a sea of fire, covering half of the dragon battlefield. The demonic fire rushed towards the ominous mist.

Boom!

Under the violent impact, the ominous mist that stretched billions of kilometers was burned into a huge pit tens of millions of kilometers long by the sea of fire.

Of course, compared to this huge ominous mist, such a pit was nothing. However, the three doomsday-level ominous creatures that were about to come out first were knocked out in advance by this blow.

These three doomsday-level ominous creatures probably didn't expect the eight divine dragons of the dragon race to suddenly attack, and so many gods attacked at once. There was no room for negotiation.

This was because this attack was too sudden. If they had known that these divine dragons would attack at the same time, these three doomsday-level ominous creatures wouldn't have appeared first.

They came out just to suppress the situation and prevent the dragon race from slaughtering. But now, they clearly realized that something was wrong.

Han Fei was also a little stunned. Why did things suddenly escalate to such a large scale? Were they going to fight a divine battle?

Oh, no, to be precise, a divine war had already begun.

The fire dragon burned the ominous, and the black dragon also took action. Billions of black scales appeared around him and swept out, directly sealing one of the doomsday-level ominous creatures. Then, each of the billions of black scales emitted a destructive power similar to the destructive dragon breath, cutting the void into a net.

The doomsday-level ominous creature was cut into countless ominous fragments. At that time, three golden divine dragons had already arrived. They spewed out dragon breath and golden halos enveloped the Sea of Stars.

### [God of Fishing](#)

#### **Chapter 3330: Outbreak of A Divine War (4)**

Han Fei couldn't help swallowing. An extremely powerful doomsday-level creature was purified into nothingness by the four divine dragons together, leaving only a level-seven energy crystal.

On the other side, the fire dragon's fire of destruction covered the other two doomsday-level ominous creatures. The latter's first reaction was to retreat into the ominous mist. But the eight divine dragons had already taken action. How could they still give them a chance?

The two Azure Dragons spat out two dragon balls, which drilled into the body of one of the doomsday-level ominous creatures. Han Fei saw that the doomsday-level ominous creature's body was melting and could no longer maintain its form.

A large amount of ominous aura dispersed, turning into thousands of snake-like ominous snakes, trying to escape.

"Fire Restriction, Divine Burning Dragon Fire."

In the sea of fire, fire dragons fluttered up and swarmed towards the ominous snakes.

In the next moment, the laws collided, and the fire dragon and the ominous snakes both had some parts annihilated. However, there were still two Azure Dragons on the divine dragons' side. Their dragon balls struck at an unbelievable speed in the flames. Any ominous snake that was touched by the dragon ball would be instantly purified.

In a three-on-one situation, the doomsday-level ominous creature would probably be purified in less than ten seconds. After all, it was unprepared for the battle. Besides, these ominous creatures were unarmed and only relied on their ominous aura. Once they were restrained, it was only a matter of time before they died.

The battles on both sides were fought with lightning speed. On the other side, the white dragon, one of the eight divine dragons, was facing an doomsday-level ominous creature alone.

However, unlike other divine dragons' flamboyant moves, this white dragon simply blocked the doomsday-level ominous creature's way. However, the latter chose to avoid the battle and tried to escape.

But the ominous creature found that space had been locked down. He couldn't even teleport. A dragon breath spewed out, and energy instantly rushed out. The power of the impact shattered the void within a million kilometers.

"God Slaying Level?"

Han Fei's pupils were constricted slightly. Although this white dragon only attacked once, this attack was too simple. The spatial confinement and the destructive dragon breath could directly purify a doomsday-level ominous creature just like that. If this wasn't the God Slaying level, what was it?

Besides, this fatal blow was straightforward, even stronger than Qiu Wanren's attack in the Heaven Concealing Divine Race. If Han Fei still couldn't judge the realm of this white dragon, there must be something wrong with his eyes.

This was the first time Han Fei had seen the combat power of a dragon. Three doomsday-level ominous creatures were equivalent to three gods. In the blink of an eye, there were only energy crystals left. In addition to the one he had killed, four doomsday-level ominous creatures had died today.

Han Fei didn't know how many ominous creatures there were, but he knew that the other party might have more doomsday-level ominous creatures than the gods in the myriad races, but the relative number was definitely very small. Otherwise, wouldn't the Sea Realm have long been conquered?

However, what Han Fei didn't understand was that he was just completing a small mission. How did it become a war of gods?

"Little Junior Brother! Since you're here and I'm about to make a breakthrough, I might as well use your Demon Purification Pot to intimidate the other party."

Han Fei turned his head and found that Senior Brother Azure Dragon had come to him at some point.

Han Fei was surprised. "Senior Brother Azure Dragon, are you going to make a breakthrough today?"

Senior Brother Azure Dragon said solemnly, "If everything goes well."

At this moment, in the ominous mist, roars were ceaseless. Unexpectedly, the mist slowly cracked, and there was more than one crack.

"Hula..."

A massive number of ominous creatures surged out of the ominous mist, from the pollution level corresponding to the Sky Opening realm to the world-ending level corresponding to the Great Monarch realm. There were countless of them, like locusts passing through.

Twenty-three extremely huge ominous creatures appeared on the core battlefield where Han Fei and the others were at the same time. And these were definitely doomsday-level ominous creatures.

Suddenly, on the head of one of the doomsday-level creatures, Han Fei found a small figure standing quietly on it. He seemed to be covered in a black gauze and his appearance couldn't be seen clearly.

The humanoid ominous creature slowly said, "Since the dragon race has started a war, let's see how strong the dragon race is and who gave you the courage to start a war."

The white dragon that attacked just now also turned into a human woman. She was dressed in white and held a silver spear. Her clothes fluttered as she said heroically, "It doesn't matter who started the

battle. What matters is that there are 1,081 battlefields in the entire Sea of Stars. How many battlefields can you take care of?"

"1081 battlefields?"

Han Fei's heart stirred. Were there so many ominous battlefields in the Sea of Stars?

The ominous creature covered in black gauze said frankly, "You'll find out after you try. Are there only eight of you? If the Dragon God doesn't appear, do you think you're qualified to start a war?"

Han Fei also frowned. "Senior Brother, the dragon race doesn't seem to have enough manpower!"

Although he knew that these divine dragons were very strong, the other party had 24 doomsday-level ominous creatures including this God Slaying level ominous creature. But the dragon race only had ten, including him and Senior Brother Azure Dragon.

Senior Brother Azure Dragon raised the Dragon God Horn.

"Those from the Dragon Palace, listen to my command. Come to the battlefield and fight..."
