Chapter 3331: Senior Brother Azure Dragon's True Combat Power (1)

Dragon Palace.

The Dragon God's Horn sounded, and a million dragons roared.

The dragons who were already prepared were restless, wishing they could kill their way to the battlefield of dragons in an instant.

The moment the four divine dragons heard the Dragon God's horn, they looked at each other. The four divine dragons spewed out dragon balls, and the space where the Dragon Palace trembled, twisting open a spiral channel.

"Let's go, boys. Let's go to the dragon battlefield ~"

Roar!

"Roar!"

Those small dragons below the Sky Opening realm were not qualified to participate in the battle, but many of them let out dragon roars as if they were blessing the dragon army.

"The dragon race will win."

"The dragon race is invincible."

"Long live the Dragon Monarch."

"Roar ~"

...

On the dragon battlefield, the white dragon and the God Slaying-level ominous creature on the opposite side didn't take action. At the beginning of the battle, the strong were meant to serve as a balance. They would only intervene when the situation on the battlefield clearly tilted in favor of one side.

Apart from the white dragon, the seven divine dragons had already rushed out.

There were 23 doomsday-level ominous creatures. Even if the dragon race fought against them three to one, there would still be two left.

Next to Han Fei, Senior Brother Azure Dragon said solemnly, "Little Junior Brother, this battle is my battle. Cooperate with me and attack when necessary with the Demon Purification Pot. If I've guessed right, the Demon Purification Pot with eight divine vines is enough to wipe out all the doomsday-level ominous creatures here."

Han Fei nodded slightly and didn't speak. If Senior Brother Azure Dragon made a breakthrough, he wouldn't be as simple as a god. Senior Brother Azure Dragon was ranked fourth in the Void Temple. If he didn't break through to the God Slaying level, Senior Brother Azure Dragon might be embarrassed.

Senior Brother Azure Dragon walked in the air and reminded Han Fei, "Little Junior Brother, gods have three realms, which are god-level, god slaying-level and dominator-level. Ordinary gods have divine personas. It's not that divine personas are bad, but that the gods with divine personas all have fatal weaknesses, which is the divine persona itself. At that time, you will find that divine personas have become a kind of restraint..."

Han Fei followed Senior Brother Azure Dragon and soon met the three doomsday-level ominous creatures.

The three doomsday-level cultivators on the opposite side spewed out three black pillars of light. The pillars of light fused and turned into a big spear that spanned hundreds of thousands of kilometers. Wherever it passed, all kinds of laws surrounded it, and the tip of the spear became sharper and sharper. In the end, this spear tore through space along the way, carrying spatial turbulence as it attacked Senior Brother Azure Dragon and him.

Senior Brother Azure Dragon looked calm. He reached out and grabbed at the air, and a spear glowing with golden light appeared in his hand.

Roar!

When Senior Brother Azure Dragon raised his hand, ancient dragon roars resounded in the Sea of Stars. Han Fei looked back, only to see nine long dragons behind him, all made of the power of laws, reflected out of thin air.

Senior Brother Azure Dragon said, "This is the ultimate technique of the dragon race, Nine Dragon Demon Subduing. I could only use it once with my current ability. I left it as my trump card before, but today, I don't need to reserve it anymore."

Roar!

As the spear stabbed out, Han Fei saw nine long dragons roaring. When they soared into the sky, the void tens of millions of kilometers behind them collapsed at the same time. From the endless void, all laws turned into mysterious law patterns and gathered on the long dragons.

The dragons swam, devouring the laws along the way. The scene was like the sky collapsing. Han Fei couldn't understand how Senior Brother Azure Dragon launched this blow. According to the strength of a Great Monarch, even if Senior Brother Azure Dragon was much stronger than him, even if his basic combat power reached 400,000, even if he could unleash several times his combat power, how could he launch such a terrifying spear attack?

At the moment this spear erupted, opposite the white dragon, the God Slaying-level ominous creature tried to attack, but was repelled by the white dragon's tail.

The God Slaying-level ominous creature's voice was sharp and cold. "I didn't expect the Nine Dragon God-ferrying Spear to still be in the dragon race."

The white dragon's voice was calm. "How can you measure the heritage of the dragon race? The ancient Dragon God could kill his way to the end of the Sea of Stars, so can the current dragon race."

Only one of the nine divine dragon laws resisted the ominous spear. The divine dragon law hovered in the void and wrapped around the ominous spear. The ancient dragon charm forcibly strangled the ominous spear. A destructive aura was born from the divine dragon law.

Rumble!

Han Fei couldn't calm down. The combined attack of the three doomsday-level ominous creatures was only on par with a divine dragon law?

In the blink of an eye, Senior Brother Azure Dragon stopped, and Han Fei stopped too. The other eight Dragon God laws instantly collided with the three doomsday-level ominous creatures. The bodies of the three doomsday-level ominous creatures kept exploding, and the spreading ominous power was annihilated by the destructive power contained in the Dragon God laws.

In the round of indiscriminate bombardment, Han Fei had no chance to attack at all. The three doomsday-level ominous creatures died on the spot.

Han Fei was dumbfounded. Three doomsday-level ominous creatures were killed with a single blow? He suspected that he was a fake Great Monarch.

Senior Brother Azure Dragon said calmly, "Don't look at me. This spear is an ultra-quality Nature Spiritual Treasure called the Nine Dragon God-ferrying Spear. It was forged by the nine dragon gods in ancient times with each of their thoughts. It can only be used with the power of faith of the dragon race, not my own power. Otherwise, this spear can be ranked as a Supreme Nature Treasure."

Han Fei opened his mouth but didn't speak. An ultra-quality Nature Spiritual Treasure killed three doomsday-level ominous creatures with one spear. I want one too. Our human race has a lot of Power of Faith.

The ominous side had actually paid enough attention to Senior Brother Azure Dragon. After all, Senior Brother Azure Dragon was only a Great Monarch at this moment. They had thought that even if they couldn't kill Senior Brother Azure Dragon with three doomsday-level ominous creatures, it shouldn't be a problem to trap him in the battle.

[God of Fishing](#)

Chapter 3332: Senior Brother Azure Dragon's True Combat Power (2)

But to his surprise, as soon as the other divine dragons began to fight, these three doomsday-level ominous creatures were killed before they could launch a single attack.

Senior Brother Han Fei reached out, picked up three level-seven energy crystals, and then looked at Han Fei. "Little Junior Brother, lend me your level-seven energy crystal!"

"OK, Senior Brother, take it."

Han Fei felt that with Senior Brother Azure Dragon's personality, he probably rarely asked others for things! But now he asked him for this energy crystal, which meant that it must be very useful to him.

He probably needed the soul power manna in the level-seven energy crystal. Although Han Fei was also curious about what it was, he had plenty of opportunities to get it in the future. Today was the big day

of Senior Brother Azure Dragon's breakthrough. Not to mention a level-seven energy crystal, he would even give out all the refined stars he had without hesitation.

Taking Han Fei's level-seven energy crystal, Senior Brother Azure Dragon didn't continue forward but said, "Before the Primordial Era, the cultivators didn't target gods. At that time, there were many treasures in the Sea of Stars, so it wasn't difficult to reach the peak of the Great Monarch realm. And transcending the divine tribulation wasn't that difficult. It would just consume a lot of treasures. Therefore, for a period of time, a large number of gods appeared. At first, those who became gods felt that they were standing on the ceiling of cultivation. It wasn't until the ominous erupted again and a large number of gods died that they realized that there was a higher realm above gods. But when they wanted to break through that realm, they found that they were bound by divine personas and couldn't break free from these shackles..."

"God Slaying Level?"

Han Fei couldn't help but ask, "Once one breaks free from the shackles, will they reach the God Slaying level?"

Senior Brother Azure Dragon said, "That's right. Only by breaking free from the restraints of the divine persona can you advance to the God Slaying level. Or, don't make a breakthrough easily when you're in the Great Monarch realm. Becoming a god doesn't necessarily require a divine persona."

Han Fei couldn't help but ask, "What level is the Ancient God of Thunder Note at?"

Senior Brother Azure Dragon said, "The Ancient God of Thunder Note condensed a divine persona and then broke it. At his peak, he reached the peak of the God Slaying level. You can understand him as the Sea Quelling God. In his later years, he became the master of lightning, but unfortunately, he comprehended it too late. Not long after he became a dominator, he encountered the strongest counterattack of the ominous. He resisted the ominous in the Sea of Stars alone and died in the end."

Han Fei raised his eyebrows and was about to speak, when Senior Brother Azure Dragon continued, "I said that to advance to the God Slaying level, one has to break free from the restraints of the divine persona. Although most people can't break free, there are naturally exceptions. Some talented people have walked to the peak of a path, reached the strongest in the Sea of Stars, broke through the restraints of the divine persona, and became Sea Quelling Gods. The Ancient God of Thunder Note is one of them. Dark Shadow is also at this stage of breaking free from the shackles..."

"Senior Sister Dark Shadow?"

Han Fei's heart stirred. In the recent gatherings of the Void Temple, Senior Sister Shen Le didn't ask about Senior Sister Dark Shadow's situation. So that was the case.

Han Fei couldn't help but ask, "If Senior Sister Dark Shadow breaks free from the shackles, will she directly advance to the Sea Quelling God level?"

Senior Brother Azure Dragon shook his head slightly. "I don't know. However, she is very strong. I think there should be no problem. The premise is that she can break free from the shackles."

Taking advantage of the lack of battle, Senior Brother Azure Dragon taught Han Fei about the god level and told him about the understanding and advancement ways of the God Realm.

As he spoke, Han Fei suddenly saw that the black dragon had become extremely huge and swallowed a doomsday-level ominous creature. Han Fei's eyes widened. This was the first time he had seen someone swallow an ominous creature alive. Even the Emperor Sparrow hadn't swallowed it directly.

Senior Brother Azure Dragon explained, "Dragons of different colors have different talent abilities. Black dragons are born with an ultimate dark body. They are the only dragons who can break into the ominous mist and swallow the ominous without being corroded by the ominous."

Han Fei smiled. "What an abnormal talent."

Han Fei couldn't help but think that the black dragon that escaped to the Sea Realm seemed to be of an extremely special kind, but it seemed to have betrayed its race because it was about to become a god and stole the Dragon God Pearl.

Perhaps because Senior Brother Azure Dragon's performance just now was too shocking, these doomsday-level ominous creatures were a little distracted. Or maybe the black dragon was too strong, so not long after the battle began, the fourth doomsday-level ominous creature died.

At this speed, coupled with the abnormal combat power of the dragon cultivators, it seemed that more than 20 doomsday-level powerhouses were nothing.

Senior Brother Azure Dragon looked at the God Slaying-level ominous creature and said indifferently, "Call for reinforcements! You can't win with these few people. Or, in fact, you've already called for reinforcements, but they haven't arrived yet, right?"

The God Slaying-level ominous tilted its head and looked at Senior Brother Azure Dragon. There was no telling what it was thinking. Because its body was a mist, it had no expression.

However, from the scene when he was about to attack just now, it could be seen that he was anxious. Only then did Han Fei understand that perhaps he didn't care about losing one doomsday-level ominous creature, or even losing three or four. But in just a few hours, seven doomsday-level ominous creatures had died.

If the doomsday-level ominous creatures were so easy to nurture, how could there be endless terrifying-level-level, destruction, and world-ending level ominous creatures?

Therefore, so far, at least on the dragon battlefield, the ominous had suffered a huge loss.

As if to confirm what Senior Brother Azure Dragon said, except for the white dragon, the seven divine dragons all let out a world-shaking dragon roar. Han Fei could feel their sudden soaring strength.

[God of Fishing](#)

Chapter 3333: Senior Brother Azure Dragon's True Combat Power (3)

Originally, when the seven divine dragons fought against the ominous three on one, they were not at a disadvantage at all. At this moment, they seemed to have used secret techniques at the same time, so their strength naturally became even stronger.

At the same time, a void passage opened behind the dragon battlefield, and countless dragons rushed out of it.

Swish! Swish! Swish!

The first to rush out were four divine dragons, one white, one red, and two gold.

Judging from the strength displayed by these divine dragons, Han Fei had already discovered some clues. A red dragon could also be called a fire dragon. It should be talented in fire techniques.

Logically speaking, the golden dragons looked nobler, but there were the most of them. Furthermore, their combat power didn't seem to be as strong as the black and white dragons. Compared to the fire dragon and the green dragon, they didn't seem to be particularly outstanding.

The strongest species should be white dragons and black dragons. For example, the God Slaying-level white dragon suppressed the other party's God Slaying-level ominous creature to the point of not daring to attack. As for the black dragon, it was so abnormally strong that it could swallow a doomsday-level ominous creature in one bite.

Therefore, among the four divine dragons, the white dragon should be the strongest.

As for the other dragons that rushed out of the void passage, they were relatively weak. There were a few Monarchs, and most of them were in the Sky Opening realm.

In a full-scale war, it was impossible for the ominous mist to only release ominous creatures above the corruption level. The largest in number were still low-level ominous creatures.

Therefore, these dragons still had a lot to kill on the dragon battlefield.

However, the core battlefield was not a place where ordinary dragons could set foot. At least, a divine battle had already broken out on the core battlefield. Not to mention ordinary Monarchs, even Great Monarch-level dragons weren't qualified to participate in the battle for the time being.

The four divine dragons all rushed to the core battlefield.

"Dragon Monarch, we're here to help."

"How can I miss the divine war?"

Apart from the white dragon, the other three divine dragons had already rushed into the divine battle.

The white dragon flew to Senior Brother Azure Dragon first and shouted sweetly, "Brother Dragon Monarch, I'll fight side by side with you."

Han Fei inadvertently saw the corners of Senior Brother Azure Dragon's mouth twitch. He couldn't help but look at the white dragon, thinking that it seemed a little strange for a divine dragon to sweetly call a Great Monarch "Brother".

However, on second thought, it didn't seem strange. This was because if Senior Brother Azure Dragon really wanted to transcend the tribulation and become a god, he might have become a god eight lives ago and wouldn't have waited until now.

Therefore, the dragons after him might not have his great ambitions, so it was possible for them to become gods before him.

Senior Brother Azure Dragon said, "This is Little White Dragon, Zhu Bainian. If I can successfully make a breakthrough today, Bainian will guide you to the Dragon Pool to be baptized."

"Little... White Dragon?"

Han Fei looked at the huge dragon that was at least three thousand kilometers long and thought to himself, "little" white dragon?!

Zhu Bainian came to the two of them and turned into a human with a swish. She was wearing a white-scaled battle suit of appropriate length, and her playful bangs made her look lively and cute. There was a faint blush on her slightly chubby cheeks, and she seemed to be chewing something.

Zhu Bainian looked at Han Fei up and down. "Little Junior Brother, hello! My name is Zhu Bainian. You can call me Baibai or Niannian, but don't call me Bainian."

Han Fei couldn't help but wonder, "Why?"

"Because it sounds silly. I don't know why my mother gave me this name."

"Huh?"

In the next moment, in the distant sky, the God Slaying-level white dragon immediately grunted, as if blaming Zhu Bainian for complaining about the name she gave her.

"Uh!"

Han Fei thought to himself, so Zhu Bainian is actually the daughter of the God Slaying-level dragon? Good lord, that God Slaying-level white dragon is so valiant. But when it comes to Zhu Bainian, she's only cute and doesn't look like a divine dragon at all!

However, Han Fei certainly couldn't show it on his face. He immediately nodded. "Baibai, Senior Brother Azure Dragon, should we participate in the battle too? Before more doomsday-level ominous creatures come."

"Yes! Little Junior Brother is right. Bainian, follow me to kill the enemy."

"Call me Niannian..."

"OK, Bainian."

Han Fei: "..."

At this moment, the situation on the battlefield had completely reversed. Originally, each of the divine dragons were fighting three alone, but now there were only 19 doomsday-level ominous creatures on the battlefield. On the dragon side, there were as many as 11 god-level powerhouses besides the God Slaying-level white dragon. Including Senior Brother Azure Dragon and Han Fei, there were 13.

In terms of numbers, they were almost evenly matched. Therefore, coupled with the fact that the divine dragons had all used secret techniques, the situation on the core battlefield immediately became one-sided.

Although no one had died yet, it would be soon.

As for Senior Brother Azure Dragon, Bainian, and Han Fei, under the lead of Senior Brother Azure Dragon, they began to defeat them one by one.

For example, on the fire dragon's side, the battle was the most intense. In a sea of fire, dragon scales flew all over the sky, trapping the two doomsday-level ominous creatures in that world.

As for that world, it seemed to have turned into a flame furnace that was constantly heating up, and some charm enveloped this place. The power of the Fire Dragon's law resisted the two suppressed doomsday-level ominous creatures. Without the help of others, this battle might have lasted for a period of time.

However, Zhu Bainian arrived first. The white dragon purified the world, enshrouded by holy light, and the flame furnace was filled with the holy light of purification, causing the two doomsday-level ominous creatures' bodies to rapidly decline. They were crazily attacking the fire dragon scales that blocked them.

God of Fishing

Chapter 3334: Senior Brother Azure Dragon's True Combat Power (4)

In the next moment, Senior Brother Azure Dragon charged forward with his spear. The spear beam was tens of thousands of feet long, and a holy light from his body gathered on the spear. He instantly collided with a doomsday-level ominous creature.

Clang! Clang! Clang!

With every blow, Han Fei could see that the doomsday-level ominous aura was dispersed.

As for the other doomsday-level ominous creature, seeing two divine dragons besieging them, and Senior Brother Azure Dragon, a Great Monarch, rushed in, it was about to help when a figure had already stood in front of it.

Although Han Fei couldn't beat doomsday-level ominous creatures for the time being, because of the natural restraint of the law of life, he could still fight them evenly. At least, that was what he thought.

The Demon Purification Pot had been used, so there was no need to hide the Immortal Slaying Knife. When Han Fei slashed out with all his strength, he felt a power stronger than the doomsday-level one he had killed.

This doomsday-level ominous creature clearly hadn't just advanced. Its control of laws far exceeded the previous one.

Han Fei was sent flying. However, one of the claws of the doomsday-level ominous creature was also chopped off by the Immortal Slaying Knife.

But the doomsday-level ominous creature didn't take it seriously. It knew that Han Fei had killed doomsday-level ominous creatures, but there were strong and weak doomsday-level ominous creatures.

However, just as it was about to continue to attack, it suddenly felt that its body was pierced through, and eight small vines had penetrated its ominous body from behind.

"Wasn't this person sent flying by me? Why is he behind me?"

This doomsday-level ominous creature still wanted to struggle, but how could it resist the Demon Purification Pot?

Seeing that the doomsday-level ominous creature had been penetrated by the Demon Purification Pot, the fire dragon immediately removed the flame furnace, and the billions of flame dragon scales, like dense blades, swept at the doomsday-level ominous creature that was being pushed back by Senior Brother Azure Dragon.

Buzz!

Buzz!

When Han Fei finished, Senior Brother Azure Dragon also finished. After all, it was equivalent to three divine dragons dealing with one doomsday-level ominous creature at the same time. Among them, Senior Brother Azure Dragon was the Dragon Monarch and was extremely powerful, and the white dragon was also an existence that was born to restrain the ominous, and the fire dragon's combat power was terrifying.

Under such circumstances, how could the doomsday-level ominous creature survive?

After killing the doomsday-level ominous creature, Zhu Bainian couldn't help but exclaim, "Is this the legendary Demon Purification Pot? It's indeed strong. It took the three of us to kill a doomsday-level ominous creature so quickly, but the Demon Purification Pot sucked one to death in only two seconds."

Han Fei smiled and said, "This is thanks to Senior Fire Dragon's burning power and your purification power. With multiple effects and my sneak attack, it worked."

Senior Brother Azure Dragon said indifferently, "Little Junior Brother, don't be modest. Although the Demon Purification Pot is strong, it needs you to be close to it to kill it. Therefore, you are actually very strong. Let's go to the next battlefield."

On this side, Senior Brother Azure Dragon, Zhu Bainian, and Han Fei cooperated perfectly.

Every time, Senior Brother Azure Dragon would launch a surprise attack, coupled with the divine dragon that was already fighting to suppress the doomsday-level ominous creatures. Zhu Bainian attacked with the power of World Purification and didn't use her full strength, nor did she need to.

As for Han Fei, he naturally would launch sneak attacks. The moment the doomsday-level ominous creature was suppressed, Han Fei would launch a sneak attack. He would no longer fight by himself but leave it all to the Demon Purification Pot.

With the Demon Purification Pot's ability, even if the ominous creature was at the doomsday level, it could suck one to death in two or three seconds.

The situation had been fundamentally reversed.

In just a moment, 12 of the 23 doomsday-level ominous creatures on the other side were killed, and the number of the remaining ones was less than the number of gods on the dragon race's side.

Suddenly, the God Slaying-level ominous creature that had been watching the doomsday-level ominous creatures being killed indifferently took action.

On the dragon side, the God Slaying-level white dragon said, "Dragon Monarch, hurry up. Their reinforcements will be here soon."

The God Slaying-level ominous creature was naturally waiting.

Originally, on the dragon battlefield, there were nearly 30 doomsday-level ominous creatures and a God Slaying-level one. With such strong strength, they didn't expect the dragon race to dare to take the initiative to attack in such a comprehensive manner.

Now it seemed that he had been careless. The dragon race was a strong race after all, and their combat power was among the top among the myriad races in the Sea Realm.

They were indeed not qualified to start a full-scale war with the dragon race.

Although the God Slaying Level powerhouse was stopped, at this moment, roars came from the ominous mist.

Seeing this, the divine dragons couldn't help but roar and attack with all their strength.

Senior Brother Azure Dragon shouted, "Uncles, stop suppressing them one-on-one. Let's join forces and kill as many as we can."

Immediately, the ten divine dragons fighting on the field, plus Han Fei and the other two, almost formed a three-on-one situation. Only four battlefields were opened.

Before the other party's reinforcements arrived, it would be good enough to kill four of them.

Bang! Bang! Bang!

However, as soon as they killed another doomsday-level ominous creature on the core battlefield, they saw two figures rushing out of the ominous mist.

To be honest, Han Fei didn't react at all. However, on this core battlefield, an old dragon suddenly appeared from the void. This old dragon even had a white beard and was tens of thousands of kilometers long.

Of the two figures rushing out of the ominous mist, one was blocked by the old dragon's dragon breath, and the other was swept away by its tail.

But even so, there was another figure that avoided the old dragon's attack range and actually rushed out of the endless void. He grabbed at Senior Brother Azure Dragon.

"Ahhh~"

After Zhu Bainian realized that someone had launched a sneak attack, she knew that the intruder was a God Slaying-level Monarch. Although she knew that the Dragon Monarch would be very strong after the breakthrough, he was only a Great Monarch now. How could he be a match for a God Slaying-level Monarch?

Therefore, the World Cleansing Holy Light on Zhu Bainian formed a barrier that enveloped Senior Brother Azure Dragon and Han Fei in the blink of an eye.

However, the God Slaying Level was still the God Slaying Level. Its sneak attack was not something Zhu Bainian could block.

A hole was corroded in the Holy Light of Purification, and the God Slaying-level creature was about to kill Senior Brother Azure Dragon and Han Fei together.

After all, they were already in front of him. This little white dragon was born to restrain the ominous. It was very difficult to kill her. But Han Fei and Senior Brother Azure Dragon were different. They were just two Great Monarchs and he could tear them apart with one claw.

When Han Fei discovered this scene, he was about to use the Great Dao of Life Replacement. However, with a clang, the God Slaying Level powerhouse was sent flying.

When Han Fei took a closer look, he found that it was a black pearl floating quietly here, blocking the God Slaying-level ominous creature's blow.

The God Slaying-level ominous creature's voice was cold. "A Supreme Nature Treasure, the Dragon God Pearl?"

Senior Brother Azure Dragon put his hands behind his back and looked at the God Slaying-level ominous creature calmly. "I've finally caught one."

God of Fishing

Chapter 3335: I'm Just Fishing (1)

Han Fei was stunned. When he heard Senior Brother Azure Dragon say this, he suddenly realized that all the battles just now were just Senior Brother Azure Dragon fishing with himself as bait.

Obviously, Senior Brother Azure Dragon's real goal was not the doomsday-level ominous creatures at all, but the God Slaying-level one.

Han Fei was surprised. Although he didn't know the difference between the doomsday-level and the God Slaying-level ominous creatures, Senior Brother Azure Dragon was only a Great Monarch! How could he kill a God Slaying-level ominous creature?

As for the Dragon God Pearl in front of him, wasn't it the one that was stolen by the black dragon and taken to the Sea Realm? This was the treasure of ancient Dragon Gods, but Han Fei didn't expect it to be a Supreme Nature Treasure.

Information immediately appeared in Han Fei's eyes.

< Name > Dragon God Pearl

< Introduction > The Dragon God Pearl is a Supreme Nature Treasure that combines offense and defense. It's refined from the dragon balls of thirteen ancient Dragon Gods. This pearl is engraved with the dragon vein brand of ancient Dragon Gods. It can swallow the origin power of the dragon race and erupt with the power of ancient Dragon Gods.

<Quality> Supreme Nature Treasure

<Effect 1> Dragon God Body Protection: In order to protect the inheritance of the dragon race, the will of the ancient Dragon God can absorb the laws of the world every day and trigger the Dragon God Body Protection, which can resist a dominator for less than a hundred seconds.

<Effect 2> Void Ball: It can be activated every 3,000 years to refine the void and instantly release 3,000 Void Balls. Each blow is comparable to a blow from a god.

<Effect 3> Dragon God's Reappearance: It can be triggered once every 130,000 years to summon the projection of an ancient Dragon God, which can unleash dominator-level combat power.

<Effect 4> Supreme Inheritance: Fuse the Dragon God Pearl and obtain the inheritance of the ancient Dragon God. After that, the Dragon God Pearl will disappear.

< Can't be Reforged >

<Refined>

<Note> The Dragon God Pearl contains the obsession of ancient Dragon Gods. Only the leaders of the dragon race can control it.

"Shoot ~"

Han Fei had thought that the Creation Chessboard was already invincible. In terms of attack power alone, it could even instantly kill many Supreme Nature Treasures he had seen.

However, when he saw the Dragon God Pearl, he was shocked. This thing could actually unleash the power of a dominator?

That was a dominator! An existence on the same level as Eldest Senior Brother. If that power erupted, Han Fei didn't know how many people in the vast Sea of Stars could resist it.

Fortunately, although the Dragon God Pearl was powerful, its most commonly used power was the Dragon God Body Protection. Whether it was the Void Ball or the Dragon God's Reappearance, it would take a long time to accumulate power. Otherwise, it couldn't be used again.

It would even take 130,000 years to use the Dragon God's Reappearance once. 130,000 years was enough time for too many things to happen. Otherwise, if the Dragon God's Reappearance could be used once a day, no, once a year, the Dragon God Pearl might have surpassed the level of a Supreme Nature Treasure.

No wonder Senior Brother Azure Dragon had been remembering the black dragon who defected into the Sea Realm.

However, Han Fei was also curious. How could the black dragon steal such a Supreme Nature Treasure from the dragon race?

Back then, he thought that the black dragon was only an Immortal-level powerhouse.

However, after witnessing Senior Brother Azure Dragon's true combat power and the fact that there were so many god-level powerhouses in the dragon race, he instinctively felt that this matter was not simple. Perhaps the black dragon back then was not really at the Immortal Level. He could only retain

the strength of the Immortal Level after he escaped. Then, he lay low, trying to control the Dragon God Pearl.

Unfortunately, he bumped into him and ruined his plan.

Of course, even without him, it would probably be difficult for the black dragon to control the Dragon God Pearl. After all, this Dragon God Pearl could only be controlled by the dragon leader.

As for the Supreme Inheritance effect of the Dragon God Pearl, since it was listed as the last ability, it was probably the strongest ability. Han Fei didn't know how strong Senior Brother Azure Dragon would be if he fused with the Dragon God Pearl.

At this moment, the God Slaying-level ominous creature was about to retreat the moment it saw the appearance of the Dragon God Pearl. However, Senior Brother Azure Dragon had put in a lot of effort to act for so long just for this moment. How could he let it escape?

The void here was sealed, and void balls appeared around them one after another.

Han Fei and Zhu Bainian became two bystanders at this moment, because it was not their turn to attack at all.

Above his head, the old Dragon God laughed. "Today, our dragon race will definitely take this dragon battlefield."

The other three God Slaying-level powerhouses immediately wanted to avoid the battle. It was not a good time to attack at this moment, because they all knew that this God Slaying-level ominous creature was dead meat.

However, since Senior Brother Azure Dragon had taken out the Dragon God Pearl, he had clearly made some decisions.

In addition to the God Slaying-level ominous creature sealed by the 3,000 Void Balls, a strange light illuminated the sky in the Dragon God Pearl. The strange light quickly condensed into an ancient terrifying dragon shadow hundreds of thousands of kilometers long.

When they saw this terrifying dragon shadow, the three God Slaying-Level powerhouses desperately tried to escape.

However, the God Slaying-level white dragon of the dragon race forcibly entangled one of them with the World Cleansing Holy Light. Although it couldn't completely hold it back, it could at least reduce the time for it to escape.

On the other side, the old Dragon God was a veteran God Slaying-level powerhouse. At that moment, he instantly triggered all the laws in this world. The power of divinity swept across the Sea of Stars, drilling countless big holes that connected to the Infinite Sea of Stars. Energy storms formed in each of those holes, completely sealing a God Slaying-level ominous creature in them.

[God of Fishing](#)

Chapter 3336: I'm Just Fishing (2)

At that moment, in the ominous mist, nearly 30 doomsday-level ominous creatures had just crawled out, but seeing this scene, they quickly turned around and crawled into the ominous mist.

However, no one cared about them. Senior Brother Azure Dragon smiled and said softly, "That's enough. We've won."

Swish! Swish! Swish!

The three thousand Void Balls bombarded the god slaying-level ominous creature one after another. No matter how hard he tried to break through the barrier of the Endless Void or break out, he was helpless, because the divine light of the Dragon God Pearl had already enveloped him.

Bam! Bam! Bam!

The God Slaying-level ominous creature might be very strong, but each of these Void Balls was comparable to a blow from a god, which meant that he had to take three thousand rounds of a god's blow in an instant. Even a God Slaying-level powerhouse couldn't escape the fate of being killed.

This had nothing to do with strength. This was simply because the Supreme Nature Treasure, the Dragon God Pearl, was too powerful. Today, unless it was the Sea Quelling God who was trapped, anyone who came would probably die.

Han Fei and Zhu Bainian watched as the God Slaying-level ominous creature was visibly pierced through. In the end, the ominous god became more and more faint and finally completely disappeared, leaving only a level-eight energy crystal floating here.

On the other side, the projection of the ancient Dragon God had already taken action.

Han Fei saw that the ancient Dragon God opened its mouth and spewed out dragon breath, targeting the God Slaying-level creature controlled by the old Dragon God.

A tremendous amount of ominous aura escaped from the body of the God Slaying-Level powerhouse. He even severed half of his body and forcibly shot out an ominous pillar in the form of a drop in the realm, as if he wanted to weather through this dragon breath, because he had nowhere to hide.

Rumble!

An explosion that could destroy the world bloomed in the Sea of Stars. Even the current Dragon God was shaken back and had to stay away from the center of the battlefield.

However, where the dragon breath touched, the void barrier disappeared, and the entire Star Domain seemed to have been flattened by some force. The void shattered, or rather, it couldn't be said broken, but that the void was annihilated and became a part of the Endless Void. Furthermore, there was a big hole left where it was, connected to the Endless Void, making it impossible for the Endless Void to heal. It was just connected to the outside world.

As for the God Slaying-level ominous creature, it had already disappeared under such a terrifying attack. Han Fei didn't know where it went. It seemed to have been annihilated with the entire void, without even leaving any residue.

As for the God Slaying-level ominous creature that was entangled by the white dragon, the moment the ancient Dragon God attacked, it detonated its ominous body and managed to push back the white dragon, trying to find a chance to escape.

However, no matter how hard it tried to escape, he was trapped on the spot. Han Fei saw that the void began to flow in the opposite direction, dragging the God Slaying-Level powerhouse back.

Roar!

In the next moment, the roar of the ancient Dragon God spread throughout the dragon battlefield. It opened its mouth and swallowed the God Slaying-level creature and the space of the Star Domain.

The body of the projection of the ancient dragon god exploded, making the body of the projection of the ancient divine dragon bulge. In the end, perhaps because this ancient divine dragon was just a projection, it couldn't completely withstand such a powerful explosion. Its body of laws was riddled with holes.

But in any case, the God Slaying-level ominous creature that was swallowed couldn't escape out.

Not only Han Fei, but Zhu Bainian and the countless dragons who were fighting were also stunned.

"Is this the power of a dominator?"

A projection of the ancient Dragon God killed two god-slaying level powerhouses? This combat power was too shocking. That was a god-slaying level ominous creature after all. Could it be that they didn't even have a chance to resist it?

"Alas!"

At this moment, Senior Brother Azure Dragon sighed slightly. "What a pity. One of them ran away. This ancient Dragon God projection has consumed too much power to attack twice. It's impossible to deal with the remaining doomsday-level ominous creatures in the field."

Han Fei rolled his eyes. "Senior Brother, this is already powerful enough. This is... three God Slaying-level ominous creatures!"

Senior Brother Azure Dragon said noncommittally, "After killing these three God Slaying-level ominous creatures, it will be impossible to use it again for a long time. Therefore, this Supreme Nature Treasure has become almost useless."

Han Fei was lost for words. The Dragon God Body Protection was still an ability. You couldn't just say that this Supreme Nature Treasure was useless just because it had used up its strongest power!

At this moment, the old dragon god found a level-eight energy crystal from the void and threw it to Senior Brother Azure Dragon, shouting, "Dragon Monarch, there's a chance."

The God Slaying-level white dragon also rushed into the aftershock of the annihilation of the ancient Dragon God and threw out a level-eight energy crystal.

She said, "Dragon Monarch, stop stalling. Before the ominous reacts, you can make a breakthrough."

Senior Brother Azure Dragon nodded slightly and then said, "Little Junior Brother, Bainian, stay away from me and guard me."

At this moment, the remaining ten doomsday-level ominous creatures took the opportunity to escape.

Because the divine dragons wanted to guard Senior Brother Azure Dragon, they didn't chase them. They could kill doomsday-level ominous creatures at any time, but Senior Brother Azure Dragon only had this one chance to become a god.

The Dragon God Pearl floated quietly in front of Senior Brother Azure Dragon. Senior Brother Azure Dragon put his hands behind his back and looked up at the sky, looking tall and majestic.

[God of Fishing](#)

Chapter 3337: I'm Just Fishing (3)

He stepped into the endless void that had been penetrated by the ancient dragon and couldn't close even at this moment.

"Tribulation, come."

Buzz!

As Senior Brother Azure Dragon roared, tribulation clouds quickly gathered on the dragon battlefield. The surging lightning tide intertwined in the sky and gathered towards Senior Brother Azure Dragon.

Suddenly, Han Fei looked at the core area of the ominous mist, where more than 40 doomsday-level ominous creatures were standing, as well as the God Slaying-level ominous creature that had escaped earlier.

Three God Slaying-level ominous creatures and 17 Doomsday-level ominous creatures had died, but they still hadn't given up. They appeared at this moment, obviously to see if there was a chance to stop Senior Brother Azure Dragon from transcending the tribulation.

Han Fei frowned slightly. Although the dragon race had many strong masters and two God Slaying-level powerhouses, the ominous had sent four God Slaying-level ominous creatures just now. Who knew if they still had reinforcements?

Therefore, at this moment, Han Fei wasn't sure if Senior Brother Azure Dragon could transcend the tribulation.

He had used up the Nine Dragon God-ferrying Spear and the Dragon God Pearl. Perhaps the dragon race still had treasures, but it was unlikely for them to surpass the Dragon God Pearl.

After all, there were not many offensive Supreme Nature Treasures in the first place. Perhaps some Supreme Nature Treasures had the ability to fight, but Supreme Nature Treasures mainly focused on function, not combat.

At this moment, there was a fierce battle elsewhere on the dragon battlefield, but there was suddenly no battle on the core battlefield.

Han Fei thought to himself, Is Senior Brother Azure Dragon so careless as to make a breakthrough here?

But that wasn't right! Why did he make a breakthrough here? Why did he have to fight a divine battle to make a breakthrough? Was there an inevitable relationship between his breakthrough and the divine battle?

At least, Han Fei didn't know if there were still God Slaying-level powerhouses behind the ominous mist. But Senior Brother Azure Dragon didn't seem to care about this, which meant that he had absolute confidence.

However, no matter how confident Senior Brother Azure Dragon was, he should at least return to the Dragon Palace to make a breakthrough, right?

Suddenly, Han Fei's heart trembled. No, Senior Brother Azure Dragon was still using himself as bait. Otherwise, it didn't explain why he had to stay here to make a breakthrough.

If it was really for the ancient Dragon God to penetrate the Endless Void, he could be anywhere. There was no need for him to take the risk.

Rumble!

Lightning intertwined, but Senior Brother Azure Dragon didn't care at all.

After waiting for about half an hour, suddenly, a purple-black lightning bolt descended, and a thick lightning pillar blasted straight at Senior Brother Azure Dragon.

The first heavenly tribulation was a purple-black one, which attracted the attention of many people. Zhu Bainian clenched his hands nervously.

Roar!

Senior Brother Azure Dragon tapped his feet and turned into an Azure Dragon. He soared into the sky and swallowed the purple-black lightning pillar in one bite, leaving not even a trace of lightning.

In the next moment, lightning arcs flashed and jumped on Senior Brother Azure Dragon's entire body.

However, none of this seemed to hurt Senior Brother Azure Dragon at all.

About ten seconds later, the second lightning bolt struck. It was still purple-black, but the purple part was also purple-black, as if it was about to turn black.

Senior Brother Azure Dragon hovered in the air. When the lightning struck down, he opened his mouth and swallowed again as if swallowing rain and dew.

The third heavenly tribulation was the same. However, the heavenly tribulation completely turned black, but it was still swallowed by Senior Brother Azure Dragon.

Han Fei had thought that the divine tribulation was the same as the heavenly tribulation he had experienced before, except that it was more powerful. But the moment the fourth heavenly tribulation appeared, Han Fei realized that he had underestimated the divine tribulation.

That thing could no longer be called a heavenly tribulation. Han Fei saw that above the Sea of Stars, in the tribulation clouds, there was a black thunder ball with a diameter of thousands of kilometers,

surrounded by green lightning, red lightning, purple lightning, and many other lightning arcs of different colors.

This was the first time Han Fei had seen a spherical heavenly tribulation, and it was so big, like a small star.

What made Han Fei even more speechless was that Senior Brother Azure Dragon was even going to swallow this.

Yes, Senior Brother Azure Dragon had already opened his mouth and soared into the sky.

Similarly, the spherical lightning tribulation was swallowed by Senior Brother Azure Dragon in one bite. In the next moment, a bloody mist spewed out of the gaps between the scales on Senior Brother Azure Dragon's body, and his entire body was covered in lightning patterns. The power of lightning seemed to be destroying Senior Brother Azure Dragon's body.

After more than ten seconds, lightning exploded from the cracks of Senior Brother Azure Dragon's scales and spurted in all directions. Only then was the lightning completely digested.

At this moment, millions of refined stars appeared beside Senior Brother Azure Dragon.

Seeing this scene, Han Fei knew that Senior Brother Azure Dragon's body had already begun to mutate and needed a huge amount of energy to satisfy his growth.

The fifth lightning bolt was the same. It was stronger, but it didn't change much.

However, after the fifth lightning bolt erupted, the power of a million refined stars was completely absorbed by Senior Brother Azure Dragon. This speed was simply unbelievable. In a moment, it was even comparable to his 100,000-year cultivation in seclusion!

But now was not the time to care about this. All the divine dragons present looked nervous, and Zhu Bainian couldn't even speak clearly. "Brother Dragon Monarch's fifth heavenly tribulation is almost comparable to my ninth heavenly tribulation."

When the sixth heavenly tribulation appeared, Han Fei discovered that this heavenly tribulation was no longer like a thunder ball, but a lightning pool.

[God of Fishing](#)

Chapter 3338: I'm Just Fishing (4)

Han Fei couldn't help being a little absent-minded, because in the trial of the Ancient God of Thunder Note, he had experienced a similar baptism of the Lightning Pool and almost died.

Senior Brother Azure Dragon's original body suddenly turned into a human form, rose to the sky, and disappeared into the Lightning Pool. In the next moment, countless normal lightning bolts poured down from the sky, as if they were injecting power into the Lightning Pool.

This heavenly tribulation lasted for a hundred seconds. When Han Fei saw that part of Senior Brother Azure Dragon's body was about to turn into lightning and he was about to remind him nervously, a total of 49 level-seven energy crystals appeared above the Lightning Pool.

Han Fei's eyes widened. Didn't this mean that the dragon race had killed at least 49 doomsday-level ominous creatures? But on second thought, it made sense. There were so many dragon cultivators. It was normal for them to kill 49 doomsday-level ominous creatures.

However, it was still quite shocking to take out so many doomsday-level energy crystals at once.

Ka ka ka ~

Those energy crystals shattered, and infinite energy was swallowed into Senior Brother Azure Dragon's body. His body, which had turned into lightning, recovered again.

The power of the Lightning Pool finally dissipated.

At this moment, Han Fei had already felt a terrifying suppressing pressure from Senior Brother Azure Dragon, which seemed to be at the level of a god.

A divine dragon said, "The soul power of the Dragon Monarch has completely changed to the divine level. This is only the sixth heavenly tribulation."

"As expected of the Dragon Monarch. The bloodline of the Holy Dragon is indeed extraordinary."

"Huff!"

Senior Brother Azure Dragon let out a breath, and his body emitted a faint divine light.

He couldn't help but look in Han Fei's direction. "Little Junior Brother, in the sixth tribulation of the divine tribulation, the soul body mutated and turned into a Divine Source. You should know this tribulation."

Han Fei nodded. "Thank you for your reminder, Senior Brother Azure Dragon."

Then, the seventh heavenly tribulation, Thunder Fire Descended. Han Fei saw the hellfire descend. Its surging intensity seemed to be much stronger than the hellfire of the Ancient God of Thunder Note.

However, Han Fei saw that Zhu Bainian was relieved and even opened her palm to wipe her sweat.

Han Fei asked, "Huh?"

Zhu Bainian said casually, "Other heavenly tribulations may be dangerous, but this one is not a problem for Brother Dragon Monarch at all. He has extremely harsh requirements on himself. Since he proved Dao, he has never eaten a bite of meat. This surpasses almost all the strong masters of the dragon race."

"Uh ~"

As Zhu Bainian expected, in the Thunder Fire Tribulation, Senior Brother Azure Dragon remained unmoved and calm. He even took out nearly 500,000 refined stars and accumulated energy crazily.

The Thunder Fire Tribulation burned for three quarters of an hour, but not only failed to seriously injure Senior Brother Azure Dragon, but it even allowed him to catch his breath. He might have had a small injury, but at this moment, he had clearly fully recovered.

In the eighth tribulation, Han Fei saw a hole in the tribulation clouds, and a bead descended from the tribulation clouds. Accompanying the bead was a pillar of lightning that was only dozens of kilometers thick and was almost completely made of laws.

Zhu Bai read, "It's a divine persona. Brother Dragon Monarch's divine persona has appeared."

Han Fei couldn't help being surprised. "Was the divine persona bestowed by the divine tribulation, not born by itself?"

Zhu Bainian said, "It was born on its own. This is the embryonic form of a divine persona, which represents divinity. After entering the body, it will closely fuse with the cultivator's original law and will and condense into a real divine persona."

At this moment, the divine dragons, including the old Dragon God and the God Slaying-level white dragon, were quite nervous. They were vigilant of the ominous mist while paying attention to Senior Brother Azure Dragon's divine tribulation.

However, at this moment, Senior Brother Azure Dragon's eyes were cold. He held the Nine Dragon God-ferrying Spear, and a million refined stars appeared under him.

Roar!

Senior Brother Azure Dragon transformed into a dragon again, and the million refined energy under him was drawn out and injected into his body. Senior Brother Azure Dragon bit the Nine Dragon God-ferrying Spear, surrounded by all kinds of laws, and charged at the divine persona.

At this moment, on the mist's side, the God Slaying-level ominous creature suddenly roared, "There's no way to cut off the shackles of the divine persona. Everyone, attack."

At this moment, it was no longer the time for them to cherish their lives. A total of 42 doomsday-level ominous creatures and a God Slaying-level ominous creature all attacked crazily at the lightning tribulation of Senior Brother Azure Dragon.

Roar!

"Roar!"

The God Slaying-level white dragons, including Zhu Bainian, all roared and instantly rushed out. At such a critical moment, how could they let anyone disturb the Dragon Monarch's tribulation?

However, on the dragon side, there were a total of 11 divine dragons and 2 god-slaying level powerhouses. Although there was one more god-slaying level powerhouse than the other party, there were 31 god-level powerhouses less than the other party.

Although the divine dragons were very strong and could fight three alone, the doomsday-level ominous creature had no intention to fight them. At this moment, their goal was all Senior Brother Azure Dragon, so they were not in the mood to fight the divine dragons.

The old Dragon God stood in front of Senior Brother Azure Dragon's lightning tribulation alone. Facing the doomsday-level ominous creatures who wanted to bypass him and snipe Senior Brother Azure Dragon, he finally unleashed the power of the Dragon God.

As the strongest of the dragon race and known as the Dragon God, the strength of the old Dragon God was beyond doubt. The old Dragon God spewed out a dragon breath and directly incinerated the void. A doomsday-level ominous creature was instantly annihilated by the destructive power, leaving only a level-seven energy crystal floating in the air.

Then, the old dragon god used his dragon might to wrap a void, twist the universe, and forcibly twist the two doomsday-level ominous creatures at the forefront together. With a dragon tail swing, the void completely collapsed, and the two doomsday-level ominous creatures were completely minced in the annihilation storm in the void.

[God of Fishing](#)

Chapter 3339: I'm Just Fishing (5)

"Roar!"

The old Dragon God's dragon roar shook the world, and the surging dragon roar deterred a doomsday-level ominous creature that was charging, causing its body to pause. In the next moment, the sound waves transformed into dragons, and thousands of dragon shadows bit the doomsday-level ominous creature into pieces.

At the same time, the old Dragon God's dragon claw tore the sky. He didn't attack a certain doomsday-level ominous creature, but cut off a void and blocked three doomsday-level ominous creatures.

Han Fei looked solemn. The God Slaying-level Old Dragon God was indeed very strong, so strong that he could instantly kill doomsday-level ominous creatures. In the blink of an eye, he had killed four doomsday-level ominous creatures and stopped three doomsday-level ominous creatures.

However, no matter how strong the old divine dragon was, two fists couldn't resist four hands. He couldn't control the entire void in an instant.

In the end, eight doomsday-level ominous creatures bypassed the attack range of the old divine dragon and suicidally rushed at Senior Brother Azure Dragon.

Han Fei frowned. At this moment, Senior Brother Azure Dragon still didn't use the void mark? Could it be that Senior Brother Azure Dragon had used up his void marks?

Han Fei didn't dare to take the risk. He took a step forward and the Creation Chessboard appeared in front of him. With a wave of his hand, he placed 23 pieces.

Buzz—

In the void, 23 god phantoms appeared in a row.

He had no choice. If Senior Brother Azure Dragon didn't show his trump card, he had to take action. Anyway, the Creation Chessboard spanned 19 paths and had a total of 360 pieces. He could afford it.

The appearance of 23 god phantoms immediately made all the divine dragons here heave a sigh of relief.

Bang! Bang! Bang!

Outside the place where Senior Brother Azure Dragon transcended the tribulation, there were continuous explosions. Among the 23 god phantoms, a god phantom holding a war hammer was the god who gave Han Fei a high-quality Nature Spiritual Treasure in the past. With a swing of his hammer, he attracted the power of the Nature Chessboard, and his strength soared by three times.

Bang!

The hammer shattered the void, and a doomsday-level ominous creature was directly annihilated.

Unfortunately, after smashing the hammer, the phantom of the god dissipated.

24 pieces of the Creation Chess Card could form a killing trap. The power of the killing trap could be three times the power of the chess pieces. Han Fei had already used one in the Heavenly Hidden Divine Race, so at this moment, when the 23 pieces fell, a killing trap naturally broke out.

Unfortunately, although this killing trap was powerful, it could only kill one doomsday-level ominous creature. The remaining 22 god phantoms only stopped the remaining seven doomsday-level ominous creatures, but they couldn't kill them instantly.

After all, what Han Fei used was only god phantoms. They didn't have the ability to instantly kill doomsday-level ominous creatures.

Although the Dragon God and the others could kill an doomsday-level ominous creature with a flip of their hands, that was because their original bodies were here, and they were a super strong race among the myriad races. Their strength was extraordinary in the first place. If it were any other god, not to mention killing the ominous, they might not even be able to resist them. Without using secret methods, it was very likely that they wouldn't be able to kill the doomsday-level ominous creature at all.

However, the eighth heavenly tribulation came and went quickly. Senior Brother Azure Dragon blocked it with his spear, and with a crack, layers of ripples exploded in the heavenly tribulation. The divine persona that fell from the sky was shattered by Senior Brother Azure Dragon's spear.

However, Senior Brother Azure Dragon didn't seem to be in a good state either. The spear shaft of the Nine Dragon God-ferrying Spear exploded, and Senior Brother Azure Dragon was dripping with blood. Half of his dragon scales were broken and fell from the sky.

"Dragon Monarch."

"Brother Dragon Monarch."

The divine dragons were shocked, thinking that the Azure Dragon had been seriously injured. At this moment, the eighth heavenly tribulation had passed. If he couldn't recover in time, it would be extremely dangerous to face the ninth heavenly tribulation.

However, Senior Brother Azure Dragon looked at Han Fei again and said, "Little Junior Brother, the divine persona is the first shackle."

Han Fei opened his mouth slightly and nodded in the end.

Suddenly, at this critical moment, for some reason, eight figures suddenly appeared in the range of the heavenly tribulation. When Han Fei took a closer look, he found that the eight figures were all bathed in the dragon blood sprinkled by Senior Brother Azure Dragon.

The old Dragon God roared, "Eternal Race, you're courting death."

Han Fei's face changed drastically when he heard that. Are they from the Eternal Race? Why did they suddenly appear in the range of Senior Brother Azure Dragon's lightning tribulation?

Almost at the same time, the moment the Eternal Race appeared, outside the range of Senior Brother Azure Dragon's heavenly tribulation, three black-robed figures broke through the void and appeared.

One of them said, "I am the first Yama of the Immortal Temple, the judge. Fellow Daoist Azure Dragon, let me help you..."

They are from the Immortal Temple?

Han Fei thought to himself, When did these people come? I seem to have underestimated the Ten Yamas. To be able to appear silently on the dragon battlefield without being discovered, it's enough to show their strength.

If he guessed right, the judge should be accompanied by the other two of the ten Yama-Kings.

However, before the judge took action, Senior Brother Azure Dragon suddenly turned into a human and stopped falling.

Senior Brother Azure Dragon was surprisingly calm. "Thank you for your kindness. However, our Void Temple has never liked to owe others a favor. Besides, I'm just... fishing."

[God of Fishing](#)

Chapter 3340: A Dominator Takes Action (1)

"Fishing?"

Han Fei thought to himself, F*ck, I'm scared out of wits and you're telling me that you're fishing?

The judge and the other two were silent for a moment. "I see. Dragon Monarch, please continue."

There were only five of the seven doomsday-level ominous creatures that were still resisting the god phantoms released by Han Fei, and there were only nine god phantoms left. The ominous creatures were about to break in. But the situation was suddenly reversed. When the five doomsday-level ominous creatures heard Senior Brother Azure Dragon's words, they were in a dilemma.

The old divine dragon came back to his senses. His strength was not to be underestimated, so the five doomsday-level ominous creatures chose to retreat at the same time.

The three Yama Kings didn't stop them, because they didn't know if they would ruin any of the dragon race's plans.

The old Dragon God didn't stop the ominous creatures either. At this moment, protecting Senior Brother Azure Dragon was the key. As for the ominous, they could be killed at any time. There was no need to rush now.

At this moment, the only ones who felt a chill in their hearts were the eight strong masters of the Eternal Race who appeared in Senior Brother Azure Dragon's divine tribulation.

Senior Brother Azure Dragon said leisurely, "You used the power of the Bloodline Divine Tree and my blood to deceive the heavens and enter my divine tribulation. Your methods are not bad and you're very bold. However, who gave you the courage to snatch my divine path?"

At this moment, before the ninth divine tribulation descended, the dragon scales that Senior Brother Azure Dragon exploded had all flown back, and the million refined stars were still transporting energy into his body.

The eight Eternals knew that they had been tricked. The Dragon Monarch pretended that he couldn't hold on anymore. They had wanted to snatch the Dragon Monarch's Divine Tribulation fruit at this moment, but they didn't expect this to be his trap.

However, one of the Eternals said, "Dragon Monarch, the ninth divine tribulation is coming soon. Perhaps we can't take you down, but if you fight us now, won't you be worried when the ninth divine tribulation comes?"

"Fight you?"

Senior Brother Azure Dragon snorted. "Do you think you're qualified to fight me?"

Seeing that Senior Brother Azure Dragon seemed to be about to attack, an Eternal Race member hurriedly said, "Since we dare to come, we can't be unprepared. The eight of us all have a divine secret technique to protect our bodies. If you want to kill us, it's equivalent to killing seven gods. Instead of wasting this time, why don't you let us retreat? We'll no longer disturb you, OK?"

"Oh? A secret technique of a god? Is it as powerful as a Supreme Nature Treasure?"

24 crystal beads flew out of Senior Brother Azure Dragon's body.

Senior Brother Azure Dragon said leisurely, "Since the Chaotic Era, our dragon race has stood tall in the Sea of Stars with three things. Firstly, our bloodline is noble. Secondly, we have many strong masters. Thirdly, we are full of treasures... This thing is called the Twenty-Four Heavens, a Supreme Nature Treasure that has the power of the 24 Star Rivers."

When the eight of them heard this, their expressions changed drastically. They immediately gave up the bodies they had condensed and turned into soul bodies. The runes around their bodies flickered as they tried to enter the Soul Sea.

But Senior Brother Azure Dragon said disdainfully, "This Sea of Stars belongs to me. Did I say you could leave?"

Outside the range of the divine tribulation, Han Fei saw a swath of Star River Sands completely covering the range of this divine tribulation. As for the eight strong masters of the Eternal Race, divine shadows appeared outside their bodies, but in an instant, the laws that formed those divine shadows dissipated as if they had been extracted by these Star River Sands.

The eight of them were shocked and hurriedly gathered together. They knew that they couldn't resist the Supreme Nature Treasure, so at this critical moment, they looked at each other as if they had made an important decision.

One of them shouted, "Since you insist on killing us, we can only fight to the death. Don't forget, our Eternal Race controls the Soul Sea..."

The eight of them used some secret technique at the same time, and their bodies dissipated, turning into a river of soul power that drilled into one of them. As for that person, a drop of blood floated between his eyebrows, and his body quickly expanded. It seemed that under the power of this Supreme Nature Treasure, he had forcibly established a connection with the Soul Sea.

Han Fei saw the drop of blood between his eyebrows. It looked familiar. His face changed slightly and he roared, "Senior Brother, there's something wrong with that drop of blood. It's a dominator-level drop of blood. They're not here to snatch your divine tribulation, but purely to stop you from transcending your tribulation."

Yes, Han Fei had seen such a drop of blood on the Path of Reincarnation. However, it was suppressed by the rules of the Path of Reincarnation and then bound by the Creation Divine Chain. Otherwise, the remnant souls of the two Eternal Race gods would have crossed the green jade stone bridge.

As soon as Han Fei spoke, the Eternal Race powerhouse who had turned into a huge soul shadow immediately looked at Han Fei, as if he didn't understand why Han Fei knew the blood of a dominator.

On the Immortal Temple's side, the judge and the others also looked at Han Fei, thinking, Han Fei has already fought the dominator-level power of the Eternal Race? Otherwise, how could he recognize this thing?

The old Dragon God snorted. "The Bloodline Divine Tree has already lost its effect, but the Eternal Race still dares to be so arrogant? They're simply courting death."

"Roar ~"

One divine dragon after another erupted with shocking dragon roars, full of killing intent, as if they wanted to kill their way into the Soul Sea.

However, the old divine dragon was only angry and not very worried. Obviously, he didn't think that a drop of the blood of a dominator could shake Senior Brother Azure Dragon.

Upon hearing this, Senior Brother Azure Dragon nodded slightly. "I see. The Eternal Race has really put in a lot of effort. Just eight peak-level Extreme Dao cultivators, with a drop of dominator-level blood, want to stop my divine tribulation? Heh, how much do the Eternal Race underestimate our Void Temple?"

Buzz—

With Han Fei's reminder, another 23 rivers of stars appeared around Senior Brother Azure Dragon. Each river of stars seemed to be composed of billions of stars, which stunned Han Fei.
