Chapter 3341: A Dominator Takes Action (2)

"Is this the real Twenty-Four Heavens? So, it was just a galaxy just now, and it forced these eight people to use the blood of a dominator?"

Under the gaze of thousands of people, the drop of blood seemed to want to appear, but the eight Star Rivers pressed down and suppressed it. No matter how infinite power gushed out, the body of the Soul Race powerhouse became fainter and fainter, and his strength became weaker and weaker. In the end, the drop of blood failed to appear.

It was only a matter of time before the Eternal Race powerhouse was annihilated. He couldn't move at all, and Senior Brother Azure Dragon no longer paid any attention to him.

Rumble!

At this moment, the ninth divine tribulation gathered in the sky. It was no longer as simple as lightning, but lightning of laws.

Then, Senior Brother Azure Dragon said, "Little Junior Brother, this tribulation is to withstand ten thousand bolts of law lightning. It tests your control of the law after the law fusion."

Rumble!

One, two, three...

In an instant, thousands of law lightning bolts struck down, and all kinds of laws moved around Senior Brother Azure Dragon. He took the initiative to brave the law lightning. It looked like he was fighting the heavens.

When ten thousand bolts of lightning descended, the figure of the Eternal Race powerhouse had already disappeared, leaving only the drop of blood that was still releasing the power of laws.

Perhaps because the blood of a dominator was too powerful, although it was suppressed, for a moment, even a Supreme Nature Treasure couldn't quickly annihilate it.

In that case, Senior Brother Azure Dragon's Twenty-Four Heavens should still be far inferior to the Path of Reincarnation.

The ninth divine tribulation was not a bolt of lightning at all. Judging from the law lightning that filled the sky, the more laws you mastered, the more law lightning would descend.

Senior Brother Azure Dragon was filled with divinity at this moment, and the refined star under him was drying up at a visible speed.

Han Fei couldn't help but ask Zhu Bai, "Does it need so many resources to break through to the God Slaying-Level?"

Zhu Bainian blinked. "I don't know! I've never tried it."

The old Dragon God said, "It varies from person to person. Under normal circumstances, if you reach the perfected God Realm, break free from the shackles and make a breakthrough, you don't even need a million refined stars. However, it's abnormal for a Great Monarch to break through to the God Slaying-Level. Besides, our dragons' bodies are huge, so we naturally need countless times more resources than ordinary people."

Han Fei was slightly relieved. In that case, the consumption was still within his acceptable range. After all, he had already swallowed millions of refined stars. Compared to Senior Brother Azure Dragon's divine tribulation, his need for resources seemed to be even more ridiculous.

At this moment, with so many law lightning strikes, Senior Brother Azure Dragon's original body finally couldn't hold on anymore. His flesh, blood, and scales cracked inch by inch.

However, Senior Brother Azure Dragon was already prepared. Seven level-eight energy crystals appeared around him in a row, which must have been accumulated by the dragon race over the years. At this moment, the eight energy crystals surrounded him, and a mysterious power was guided into Senior Brother Azure Dragon's body to quickly repair his body.

Rumble!

After Senior Brother Azure Dragon completely carried more than 50,000 law lightning strikes, the seven level-eight crystals and the million refined stars were all exhausted.

The dragon race certainly didn't lack refined stars, so Senior Brother Azure Dragon took out another more than 500,000 refined stars. Including the previous ones, it was almost 3 million refined stars.

At the same time, for the Supreme Nature Treasure, Twenty-Four Heavens, except for the eight heavens that suppressed the dominator-level Blood Bead, the remaining sixteen all surrounded Senior Brother Azure Dragon.

Endless laws of heaven and earth surged out from them, supporting Senior Brother Azure Dragon.

"60,000 law lightning strikes."

"70,000 law lightning strikes."

"80,000 law lightning strikes."

Even the Supreme Nature Treasure couldn't provide endless power to Senior Brother Azure Dragon. By the time 90,000 law lightning struck, nine of the sixteen heavens had dimmed. They probably needed to accumulate energy before they could be used again.

But at the same time, the drop of dominator-level blood suddenly erupted, trying to break free from the suppression of the eight heavens.

Senior Brother Azure Dragon frowned slightly and pushed back, pressing over the remaining six Star Rivers around him. Only then did he suppress the dominator-level blood bead again. Although it trembled occasionally, it shouldn't be able to break free for the time being.

After all, it wasn't the original body of a dominator. It was already very strong for a drop of blood to restrain the power of the fourteen heavens.

"Humph! Without the 24 Heavens, I can still transcend this tribulation. Don't waste your effort."

Senior Brother Azure Dragon said. Obviously, he knew that the eight people just now didn't really die, but were protected by this drop of blood.

However, he didn't care.

Boom Boom Boom ~

One law lightning after another struck Senior Brother Azure Dragon, exploding into clouds of blood mist. When the last law lightning fell, Han Fei counted. It was 98,992 in total.

"It's almost 100,000 laws! It seems that real powerhouses have almost all reached the peak of the law stacking path!"

At this moment, there was not a single intact scale on Senior Brother Azure Dragon's body. In the end, he was still seriously injured. Zhu Bainian immediately shouted, "Success, Brother Dragon Monarch has succeeded."

Even the Divine Dragons looked delighted, but the old Dragon God and the white dragon didn't say anything. The ominous didn't retreat either. Although they didn't attack, they seemed to be waiting for something.

Rumble!

In the tribulation clouds, thunder rumbled. They didn't seem to have any intention of dissipating.

Han Fei was also puzzled, when Zhu Bainian said, "What's wrong? Hasn't he transcended the divine tribulation? Why aren't the tribulation clouds dissipating?"

The old Dragon God said, "The divine tribulation is not over yet."

"It's not over yet?"

[God of Fishing](#)

Chapter 3342: A Dominator Takes Action (3)

Han Fei, Zhu Bainian, and some divine dragons were all stunned.

Zhu Bainian said, "How is that possible? Aren't there only nine divine tribulations?"

The old Dragon God didn't speak, and the Dragon God Pearl appeared in front of Senior Brother Azure Dragon. In the next moment, Senior Brother Azure Dragon swallowed the Dragon God Pearl into his body and then slowly said, "Little Junior Brother, fight the heavens, humans, and yourself. This is the tenth tribulation, the God Slaying. It's also the second shackle. What you fight is yourself who should have had a divine persona."

Han Fei was shocked to hear that. Senior Brother Azure Dragon was still telling him about the divine tribulation even in such a situation. However, he also realized that if Senior Brother Azure Dragon transcended this tribulation, he would be a God Slaying-level powerhouse.

Was Senior Brother Azure Dragon giving him pointers to directly enter the God Slaying-Level?

"Fight!"

Buzz!

Senior Brother Azure Dragon's injuries were recovering at a visible speed. His scales returned, his strength soared, and his suppressing pressure instantly swept across the Sea of Stars.

Around him, Han Fei, Zhu Bainian and the others all retreated. The suppressing pressure had already made the gods tremble, and Han Fei felt that his Qi and blood were stagnating. God knew how many times Senior Brother Azure Dragon's strength had improved.

Within the range of the surging tribulation clouds, a beam of light descended vertically, covering millions of kilometers of the void. In the beam of light, the might of the heavens was vast, and the endless laws turned into an azure dragon that was tens of thousands of kilometers long, fighting towards Senior Brother Azure Dragon.

Bam! Bam! Bam!

The two sides instantly fought fiercely, and the power of divinity swept out.

Han Fei saw two identical Senior Brother Azure Dragons fighting. Was he challenging his own limits? No, Senior Brother Azure Dragon said that the God Slaying Tribulation was to defeat yourself who had a divine persona?

In other words, the fake Senior Brother Azure Dragon who had gathered all the laws was a real god.

In the tribulation, blood splashed, and the laws collapsed. Senior Brother Azure Dragon fought around the drop of blood of the dominator. He spewed out dragon breath, his sharp claws tore the sky, and his fist light dazzled the world. The battle between the two dragons turned into two dragons fighting each other to attack the blood of the dominator, forming a situation where the two dragons were playing with a bead.

"No! They're competing."

Yes, Han Fei realized that Senior Brother Azure Dragon and the Azure Dragon formed by the God Slaying-Level seemed to be competing in something, trying to suppress each other.

As for the blood of the dominator, it trembled and finally a phantom appeared from it. A humanoid soul, faceless and formless, snorted coldly. "You're quite bold. How dare you use me as a stepping stone? Aren't you afraid of breaking your feet?"

Under the divine tribulation, Senior Brother Azure Dragon's voice was majestic. "Heavenly Soul Dominator, you should be aware that you're a stepping stone. Do you think you can overturn the sky with your blood body? Dragon God Pearl, fuse it..."

"Sh*t!"

The hearts of the dragons here sank. A dominator?

Han Fei's eyelids were also twitching crazily. The blood body of a dominator-level powerhouse was just a solid clone. Sure enough, this Eternal Race was here to destroy Senior Brother Azure Dragon's tribulation.

However, at this moment, Senior Brother Azure Dragon had passed nine divine tribulations in a row and was no longer a Great Monarch. Because the tenth tribulation was the God Slaying Tribulation, Senior Brother Azure Dragon was clearly not at the God Slaying-Level yet.

However, even in the Divine Realm, there were strong and weak, so it was difficult to judge the strength of Senior Brother Azure Dragon at this moment.

At this moment, Senior Brother Azure Dragon's body was emitting divine brilliance, and the Dragon God Pearl in his body was shining. Thirteen dragon shadows surrounded Senior Brother Azure Dragon's body.

Han Fei couldn't help but remember that the Dragon God Pearl was a Supreme Nature Treasure-level dragon pearl refined from the dragon balls of thirteen ancient Dragon Gods. By fusing with this pearl, one could obtain the inheritance of the ancient Dragon God. Obviously, Senior Brother Azure Dragon was using this to challenge himself, his strongest self in the God Realm.

After swallowing the Supreme Nature Treasure, Senior Brother Azure Dragon's combat power clearly soared again. Furthermore, his body expanded rapidly. Without refined stars or energy crystals, Senior Brother Azure Dragon's green dragon scales condensed like jade in clear water, looking extremely handsome.

Han Fei felt that Senior Brother Azure Dragon might be the most handsome dragon in the history of the dragon race at this moment. Beside him, Zhu Bainian's eyes were almost spewing peach blossoms, and her heart was pounding like thunder.

Boom! Boom! Boom!

Senior Brother Azure Dragon, who was transformed from the God Slaying Tribulation, couldn't break the protective barrier of the thirteen ancient dragon god phantoms at all. In the end, as if to stop Senior Brother Azure Dragon from transcending the tribulation, the God Slaying Tribulation Azure Dragon gathered all its strength and turned into a dragon breath.

Senior Brother Azure Dragon also spewed out destructive dragon breath. As for the phantom formed by the blood of the dominator, because it was suppressed by the fourteen heavens and hadn't been broken, it was right at the center of the two dragon breaths.

Rumble!

Buzz—

Ka ka ka ~

Han Fei didn't know what the phantom of the Heavenly Soul Master was like, but the huge God Slaying Tribulation Azure Dragon was dissipating.

Bang!

As the Azure Dragon formed by the God Slaying Tribulation dissipated, the divine tribulation returned to its original position, and a large amount of strange matter surged into Senior Brother Azure Dragon's body.

"He made it."

This time, the old Dragon God, the white dragon, Zhu Bainian, and even the three Yamas heaved a sigh of relief.

The judge smiled and said, "Congratulations, Dragon Monarch, for advancing to the God Slaying Level."

Senior Brother Azure Dragon nodded slightly. He silently glanced at the phantom of the dominator who had already broken through the six heavens. Just now, this blood body had used that blow to break through the six heavens, which was a little difficult to deal with. However, he didn't take it seriously. Then, he soared into the sky again.

However, at this moment, the power of the divine tribulation was gradually weakening and was clearly about to dissipate. Why did Senior Brother Azure Dragon take the initiative to rush towards the divine tribulation?

[God of Fishing](#)

Chapter 3343: A Dominator Takes Action (4)

In the next moment, the Azure Dragon roared, "Did I let you go?"

The divine dragons: "???"

Han Fei: "???"

The three Yama Kings: "???"

Everyone was confused. Who was here? Did someone else try to sneak attack and destroy the divine tribulation?

Senior Brother Azure Dragon plunged into the tribulation clouds. In the next moment, his body expanded and became bigger and bigger.

Han Fei was lost for words. "Baibai, can your dragon body expand infinitely?"

Zhu Bainian was dumbfounded. "No, no!"

Han Fei looked at the dragon that might have grown to hundreds of thousands of kilometers long. The entire dragon was surging in the tribulation clouds, doing something.

Ka ka ka ~

Suddenly, the phantom of the Heavenly Soul Dominator erupted and instantly broke through three heavens. Then, in only a second, he broke through the fourth heaven. His speed was extremely fast, and it seemed that the twenty-four heavens could no longer suppress him.

However, Senior Brother Azure Dragon didn't forget this guy. He directly teleported him out of the range of the divine tribulation.

Suddenly, on the Immortal Temple's side, the judge suddenly said, "As expected of the Void Temple. It turns out that the Dragon Monarch's goal is not the God Slaying Level at all, but... the Sea Quelling Divine Dragon."

"Sea Quelling Divine Dragon?"

Han Fei had learned before that a god-slayer might not be able to become a Sea Quelling God, but a Sea Quelling God must be an extremely powerful god-slayer.

The Sea Quelling God level was closer to the dominator level than the ordinary God Slaying Level.

At this moment, Han Fei suddenly understood why Senior Brother Azure Dragon was ranked fourth in the Void Temple. It was because he had the potential and qualifications.

Gulp.

Han Fei swallowed, and the old dragon god reacted too, looking overjoyed.

Roar!

"Roar ~"

The dragon roars spread throughout the dragon battlefield. Seeing this scene, many dragons who were fighting also roared excitedly.

Although they didn't know how Senior Brother Azure Dragon was doing, they knew that the dragon race had another God Slaying-level powerhouse, which was enough for them to celebrate.

In the void, Senior Brother Azure Dragon was swallowing the tribulation clouds and the divine tribulation that hadn't dissipated.

Finally, the phantom of the Heavenly Soul Dominator broke through the suppression of the Twenty-Four Heavens. However, he had long been blocked there by the old Dragon God. Perhaps he was no match for a dominator, but could a mere blood body kill him?

The Heavenly Soul Dominator slapped out, and the void collapsed, enveloping the old Dragon God. The latter turned over and shattered the collapsed void turbulence.

The old Dragon God roared and spat out a dragon ball at the Heavenly Soul Dominator. "How can our dragon race be a place for traitors like you to be impudent?"

"This generation's Dragon God is nothing more than this."

The Heavenly Soul Dominator formed seals with one hand, and the void opened, and the water of the Soul Sea poured over. The Heavenly Soul Dominator guided the water of the Soul Sea to shoot out with the void as a bow and the soul tide as an arrow.

Rumble!

With the place where the two of them were fighting as the center, the surrounding void shattered.

Crack ~

Suddenly, a crisp sound spread out. A crack appeared on the old Dragon God's dragon ball, and the Dragon God was forced to recall the dragon ball. In the next moment, the soul tide arrow pierced through the dragon ball.

"Master Dragon God."

All the divine dragons' expressions changed. The dragon ball was the intrinsic item of the dragon race. If this thing was broken, the Dragon God would definitely be seriously injured.

"Don't come over. If you want to destroy my dragon ball, a mere blood body is not enough. Come again."

Roar!

The old Dragon God was bathed in blood and burned his life. He detonated a certain secret technique and his strength soared.

This time, the Dragon God's Ten Thousand Scales shot out at the same time, turning into spears that charged at the Heavenly Soul Dominator's blood body again.

Bang! Bang! Bang!

The two of them fought their way out of the vast sky in the blink of an eye. Wherever they passed, there was no complete void.

At this moment, without the protection of the Dragon God, something unexpected happened again. A black shadow suddenly rushed out of the ominous mist and instantly entered Senior Brother Azure Dragon's divine tribulation.

"No ~"

The old Dragon God let out a mournful cry. The white dragon had already gone there as soon as possible, but she couldn't keep up at all. The other party had come too suddenly and quickly.

"A dominator-level ominous creature."

Everyone had this thought. When Han Fei discovered it, the black shadow had already appeared only ten feet away from Senior Brother Azure Dragon.

At this moment, not to mention that Han Fei couldn't keep up, even if he could, he probably couldn't suppress the dominator-level ominous creature power.

The Demon Purification Pot was not enough, because it only had eight vines now.

Everyone saw that the dominator-level ominous creature reached out to grab Senior Brother Azure Dragon. No one knew how powerful this blow was and if Senior Brother Azure Dragon could withstand it.

However, because the dominator-level ominous creature attacked too quickly, the result immediately appeared in front of everyone. A dark barrier suddenly blocked in front of Senior Brother Azure Dragon.

Clang!

The oscillating ripples of this grab swept across the entire core battlefield. Han Fei had to withstand it with all his strength to barely block this ripple.

In the next moment, Senior Brother Azure Dragon's voice was calm and teasing. "I was worried that you wouldn't come. I didn't expect you to still take action in the end. I've been waiting for your level-nine energy crystal for a long time."

Everyone: "???"

The dominator-level ominous creature also realized that something was wrong. It suddenly opened its mouth and spewed out an ominous pillar, but in the next moment, the ominous pillar disappeared into the dark barrier.

Taking advantage of this opportunity, the dominator-level ominous creature instantly retreated billions of kilometers away and said coldly, "Who is it? Void and Shen Le are both in battle. It's impossible for them to come over. Who can protect you? Death God?"

God of Fishing

Chapter 3344: Break Through, Sea Quelling Divine Dragon (1)

Not to mention the God Slaying-level ominous creature, everyone present was curious.

Han Fei and the others couldn't help but look at the judge and the others, but the judge shook his head slightly. "The Death God is very busy, not available."

Not the Death God? Could it be...

Although Han Fei didn't dare to believe it, there was only one answer.

Sure enough, in the next moment, Senior Brother Azure Dragon said casually, "Third Senior Brother, thanks."

"Um!"

A dull sound came from the void. There was no source of the sound, and this sound seemed to be everywhere.

Han Fei was immediately relieved. It was indeed Senior Brother Undead. He almost had a heart attack. He knew that Senior Brother Azure Dragon wouldn't let anything go wrong. No matter how strong Senior Brother Azure Dragon was before, he was only a Great Monarch. He should have kept at least one void mark.

Sure enough, his senior brothers and sisters from the Void Temple were reliable.

However, Han Fei was also extremely shocked. Third Senior Brother was a dominator? This was completely beyond his expectations. He thought that only his Eldest Senior Brother was a dominator in the Void Temple. Even Senior Sister Shen Le was only a Sea Quelling God. She might be infinitely close to a dominator, but she wasn't a dominator yet.

But now it seemed that that was not the case at all.

Everyone looked at the void in front of Senior Brother Azure Dragon, and a human figure gradually outlined in the void.

Its body was probably nearly a million kilometers tall. When this body was completely outlined, everyone was surprised to find that it was a huge skeleton enveloped by a dark mist.

It was called a skeleton because compared to this figure's height, his bones were too thin as if he had no flesh at all. His two eyes were like two black holes.

"Impossible. The third disciple of the Void Temple has long died. How can he be here?"

The dominator-level ominous creature's voice was full of shock.

However, Senior Brother Azure Dragon began to swallow the tribulation clouds and ignored him. As for Senior Brother Undead, he had always been quiet and had no intention of answering.

Senior Brother Undead first turned his head and looked at the Heavenly Soul Dominator who had temporarily stopped fighting the Dragon God. The latter seemed to be surprised that the Void Temple had such a person.

However, as soon as he looked at Senior Brother Undead, he found that his soul trembled involuntarily. The surrounding void seemed to be suppressed by an invisible aura, and a void barrier appeared in all directions.

Immediately afterward, a pair of skeleton hands appeared out of thin air in the void, clasping its palms together.

"You're too careless. Even if it's just my blood body, how can your two palms suppress it?"

Senior Brother Undead didn't respond to him at all. As the palms squeezed the void, Han Fei saw with his own eyes that the entire space was crushed like a marshmallow.

At first, the Heavenly Soul Dominator's blood body tried to resist, but when the void was squeezed by 80%, his body began to tremble.

Seeing this scene, the dominator-level ominous creature tried to retreat quietly. But as he retreated, he found a black barrier sealing the void. When he triggered this barrier, the entire barrier was activated. Only then did he see that it was a square ball cage, like black glass, trapping the dominator-level ominous creature inside.

As for the God Slaying-level ominous creature and the group of as many as 42 doomsday-level ominous creatures in front of the ominous mist, they were about to turn around and enter the ominous mist.

But when they looked back, they found that black bones rose behind them one after another, like a row of pillars, blocking their way back.

At this moment, Zhu Bainian nudged Han Fei with her elbow and said in a low voice, "Why does this senior brother of your Void Temple look even more terrifying than the ominous?"

Han Fei thought to himself, Is Third Senior Brother scary? He has always been like this. Every time they meet, Eldest Senior Brother is the largest in size, sitting there like a mountain. Third Senior Brother is the

second largest in size. The others all stand on the top of the mountain, while Third Senior Brother stands at the bottom of the mountain, but he's still higher than the mountain they stand on.

However, from the perspective of megalophobia, it was indeed quite terrifying. Han Fei had never thought that there would be such a big person in this world.

The God Slaying-level white dragon coughed lightly. "Niannian, what are you talking about?!"

Everyone watched with their own eyes as the skeleton closed its palms and the void was completely crushed into its palms.

Bang!

In the next moment, the palms trembled, and then some smoke emerged from the gap between the palms, as if something had exploded between the palms.

Rumble!

Rumble!

"..."

In the blink of an eye, eight Great Dao cracks crisscrossed in the sky in a row. Clearly, the eight Eternals who had planned to sneak attack Senior Brother Azure Dragon had died at the same time.

They had to die! Even the dominator's blood body had been crushed. If these so-called Heavenly Talents who tried to steal the fruits could still live, wouldn't it be a slap in Senior Brother Undead's face?

Han Fei sighed in his heart. So strong! Senior Brother Undead is really strong!

In the past, Han Fei felt that Senior Brother Azure Dragon and Eldest Senior Brother were his idols. Senior Brother Azure Dragon had attacked in front of him, and Eldest Senior Brother was omnipotent.

But now, he felt that Senior Brother Undead was also ridiculously strong, and most importantly, he was so cool, killing a dominator's blood body so easily.

As for the others, including the Dragon God, they were all dumbfounded. All the dragons on the dragon battlefield who could witness this battle felt their hearts tremble.

They had never seen such a ridiculously strong powerhouse. A dominator was killed by a pressing of the palm!

[God of Fishing](#)

Chapter 3345: Break Through, Sea Quelling Divine Dragon (2)

These dragons didn't care if the Heavenly Soul Dominator was a blood body or not. They only knew that the strongest Dragon God of the dragon race couldn't suppress the Heavenly Soul Dominator even though his dragon ball had cracked, but the latter was now killed easily with a slap.

Everyone thought that Senior Brother Undead's next target would be the dominator-level ominous creature. Senior Brother Undead spread his arms, which caused the void to tremble for millions of kilometers.

However, Senior Brother Undead ignored the dominator-level ominous creature. Instead, he stepped away, opened his hands, and extended his arms a million kilometers.

His five fingers swept across the void, tearing ten marks in the void that connected to the Endless Void. Everyone thought that Senior Brother Undead needed to absorb power from the Endless Void, but no power was attracted out of the Endless Void.

On the dragon battlefield, first, the void around the world-ending level ominous creatures was suddenly torn apart, and then a finger crushed them.

Yes, in the words of Feng Xingliu, it was as easy as crushing an ant. In the blink of an eye, on the dragon battlefield, thousands of world-ending level ominous creatures were crushed to death by the dark fingers that suddenly appeared.

"Shoot ~"

Han Fei couldn't have felt worse. How much control did Senior Brother Undead have over the law of space? His fingers tore the void in the core battlefield, but his fingers appeared next to thousands of world-ending level ominous creatures.

One step, two steps, three steps...

Senior Brother Undead only took seven steps before all the world-ending level ominous creatures on the dragon battlefield were crushed and died. Then, nearly 2,000 level-six energy crystals automatically flew from various places on the dragon battlefield to the tribulation clouds where Senior Brother Azure Dragon was.

"Gulp ~"

Zhu Bainian nudged Han Fei again. "Look, do I still have a chance to join the Void Temple?"

Han Fei: "..."

On the dragon battlefield, the dragons who were fighting these world-ending level ominous creatures were all stunned. What happened? How did those huge fingers appear? How did the enemy disappear?

On the core battlefield.

The God Slaying-level ominous creature quickly sprinted in the void, trying to find a way out. And the doomsday-level ominous creature scattered, trying to find a way out too.

However, no matter how they ran, they discovered, to their shock, that they couldn't run far.

At that time, a huge palm appeared in the void. At this moment, the palm was facing up and slowly raised.

At this moment, the God Slaying-level ominous creature and the doomsday-level ominous creature discovered, to their shock, that they had been in the palm of others.

At this moment, the palm was slowly clenching.

"Well..."

Not to mention Zhu Bainian and the others, even Han Fei was dumbfounded. Third Senior Brother seemed to be too strong. But he was only ranked third in the Void Temple?

At this moment, Han Fei felt that he couldn't guess the strength of Senior Sister Shen Le and Eldest Senior Brother at all, because he couldn't understand them at all.

At the same time, Han Fei couldn't help but feel great pressure. If Third Senior Brother was so strong, then Eldest Senior Brother must be stronger than Third Senior Brother, right? However, even Eldest Senior Brother couldn't beat the real ominous. What kind of existence was that?

At this moment, as the huge palm slowly clenched, a God Slaying-level and 42 Doomsday-level ominous creatures finally disappeared into the skeleton fist.

Bang! Bang! Bang!

Bang! Bang! Bang!

In the skeleton's fist, explosions were heard one after another, and the surrounding void trembled, accompanied by powerful ripples that swept across the core battlefield.

In the end, the skeleton palm disappeared, leaving only a level-eight energy crystal and 42 level-seven energy crystals.

These energy crystals also flew towards the tribulation clouds where Senior Brother Azure Dragon was.

At this moment, half of the tribulation clouds had been swallowed by Senior Brother Azure Dragon. Everyone was looking forward to it. But at this moment, everyone was looking forward to another thing, which was to watch Senior Brother Undead kill this dominator-level ominous creature.

The dominator-level ominous creature had seen the power of Senior Brother Undead. It already knew how strong the person in front of it was. Or rather, he couldn't be called a human at all. He was some strange creature that he had never seen before.

In the end, Senior Brother Undead lowered his arms, looked at the dominator-level ominous creature in the dark barrier, and said solemnly, "You only have one chance, if you are strong enough."

Han Fei and the others didn't know what an opportunity Senior Brother Undead was talking about, but the dominator-level ominous creature seemed to understand.

The dominator-level ominous creature replied, "Then I'll have a try."

The dominator-level ominous creature's body suddenly exploded, turning into an ominous mist that filled the entire dark barrier.

As for Senior Brother Undead, he stood where he was without moving. Suddenly, the ominous mist that filled the dark barrier turned into a fist mark, rubbing against the dark barrier with sizzling sounds.

Crack... Boom...

There was no telling what price the dominator-level ominous creature had paid, but it had indeed successfully broken the dark barrier. The ominous fist mark kept moving and blasted in the direction of the tribulation clouds.

It knew that even if it used all its strength, it was impossible for it to kill or even defeat Senior Brother Undead. Therefore, it used this move.

It also left a figure behind, trying to retreat from the dragon battlefield and rush in the direction of the ominous mist.

However, this dominator-level ominous creature might have overestimated itself and underestimated Senior Brother Undead.

Around the huge ominous fist mark, countless square barrier spaces, or rather, strange matrixes, suddenly appeared. These square barriers appeared densely and even overlapped and intertwined, as if this Sea of Stars had been mosaiced.

God of Fishing

Chapter 3346: Break Through, Sea Quelling Divine Dragon (3)

Before the fist mark hit the tribulation clouds, it was cut apart by countless square barriers. Every barrier seemed to be forcibly sealed with some ominous aura.

Then, these square barriers began to quickly annihilate and devour the ominous aura.

Senior Brother Undead's voice sounded again, "Unfortunately, you wasted this opportunity. If you had attacked with all your strength, you might have had a chance to survive. But now, it's gone."

The square barrier began to envelop the dominator-level ominous creature's escape route. The void collapsed, but not into the endless void, but into countless square barriers. Like a beautiful building block, it instantly fell apart and scattered into pieces.

And the dominator-level ominous creature happened to be one of the pieces.

Senior Brother Undead extended his hand into the void and grabbed one of the broken square barriers. As he suddenly grabbed it, his palm exploded several times in a row, as if he wanted to shatter Senior Brother Undead's palm.

Crack~

In the end, one of Senior Brother Undead's finger bones was broken, and the dominator-level ominous creature was completely annihilated from the palm of Senior Brother Undead.

Under everyone's shocked gaze, Senior Brother Undead slowly extended his other hand, grabbed the broken finger bone, pressed it against the broken finger and threw it back.

Everyone : "..."

Then, a level-nine energy crystal that emitted brilliance flew into the tribulation clouds.

At this time, Senior Brother Undead turned to look at Han Fei and said kindly, "Little Junior Brother, the breakthrough of the Azure Dragon should be of extremely high reference value to you, but you can't follow it blindly. The Supreme Divine Technique will definitely form your own way of breakthrough."

Han Fei nodded. "Thank you for your reminder, Third Senior Brother."

Han Fei didn't say Senior Brother Undead, but only called Third Senior Brother. This was because from the dominator-level ominous creature's reaction, they didn't know the existence of Third Senior Brother at all.

Besides, the dominator-level ominous creature mentioned that the third disciple of the Void Temple had long died. Senior Brother Undead looked very similar to undead creatures. Could there be a connection?

At this moment, Senior Brother Undead stood there, and the entire dragon race relaxed.

Seeing that the dominator had personally come out to protect them, the three Yamas bowed to Third Senior Brother and then quietly disappeared into the Sea of Stars.

The old Dragon God turned into a dignified and domineering white-haired old man. He bowed to Third Senior Brother and then nodded at Han Fei.

"I'll leave the Dragon Monarch to you two."

Han Fei said, "Senior Dragon God, go about your business. Now is the best time to clear the dragon battlefield."

That was what the old Dragon God meant. Since there were so many strong masters left, there was no need to let the weak fight to the death. On such a huge battlefield, even they had to fight for a while.

"Niannian, let's go."

The God Slaying-level white dragon reminded him, but Zhu Bainian shook her head. "I'm going to stay here and watch Brother Dragon Monarch."

The old Dragon God said, "It doesn't matter. It doesn't matter if this girl is going with us or not."

...

Senior Brother Azure Dragon swallowed for about half an hour before he finally swallowed the tribulation clouds here.

In front of him, there was a dragon ball floating, and opposite the dragon ball, there was a level-nine energy crystal shining with divine light. And the dragon ball seemed to be swallowing the level-nine energy crystal.

Unfortunately, Han Fei hadn't seen what level-nine energy crystals contained with his own eyes, but it was definitely not something level-seven energy crystals could compare to.

Boom ~

Boom ~

Boom ~

After about half an hour, with Senior Brother Azure Dragon as the center, there seemed to be a muffled sound in his body, and the void ripples produced could cover the entire dragon battlefield. This coverage shocked Han Fei.

The ripples repeated a hundred times and didn't stop until the level-nine energy crystal completely dimmed. As for Senior Brother Azure Dragon, he emitted some pale red light before quickly converging.

At this moment, Senior Brother Undead said, "That's enough! You've already made too many breakthroughs. There's no need to break through to the dominator realm at this time."

Break through to the dominator realm?

Han Fei was quite stunned. Wasn't it ridiculous that a Great Monarch could directly become a dominator?

In the next moment, Senior Brother Azure Dragon slowly said, "I don't intend to break through to the dominator realm. I just want to try and see the barrier of the dominator realm. Thank you for your help, Third Senior Brother."

Han Fei was relieved to hear that. Good lord, he almost thought that Senior Brother Azure Dragon was going to become a dominator. That would be ridiculous.

Senior Brother Undead nodded slightly. "That's right! However, you can't be complacent. As long as you don't enter the dominator realm, you won't be able to hold your own. After this, you still need to spend a lot of time consolidating your realm and cultivation. How long are you going to sleep?"

Senior Brother Azure Dragon shook his head slightly. "I'm not sure, but it can't be less than a thousand years."

Senior Brother Undead nodded. "Then seal the dragon battlefield!"

"Okay!"

Han Fei couldn't get a word in the conversation of Senior Brother Azure Dragon and Senior Brother Undead at all, let alone Zhu Bainian.

Senior Brother Azure Dragon glanced at the two of them. "Little Junior Brother, Bainian, wait for me for a moment."

In the blink of an eye, Senior Brother Azure Dragon appeared at the ominous mist. He stomped, and all the laws of the entire dragon battlefield suddenly rioted. As Senior Brother Azure Dragon raised his hand, all the laws surged towards Senior Brother Azure Dragon like a tide.

Chapter 3347: Break Through, Sea Quelling Divine Dragon (4)

"Well..."

Han Fei couldn't understand for a moment. Was a Sea Quelling God so strong? Just a moment ago, he was still a Great Monarch, and his combat power was limited. In the blink of an eye, he could unleash a power that could shake the entire dragon battlefield and cover a trillion kilometers of sky?

Senior Brother Undead said indifferently, "The so-called Sea Quelling means that one can suppress an entire piece of Sea of Stars. If the Supreme Nature Treasure, Twenty-Four Heavens, released all its strength, it's equivalent to the attack of 24 Sea Quelling Gods. At this moment, Junior Brother Azure

Dragon has the power of a large world, or the power of a piece of Sea of Stars. Of course, this is only the basic combat power."

"A piece of Sea of Stars?"

Han Fei's eyelids twitched crazily. Senior Brother Undead was explaining to him, but he still felt that it was a little ridiculous. As for the Twenty-Four Heavens that Senior Brother Azure Dragon showed just now, the so-called piece of Sea of Stars was equivalent to a galaxy! In the sky, there were countless stars like sand.

Although the Twenty-Four Heavens couldn't completely suppress the dominator's blood body, it depended on who the opponent was. The other party was a dominator, the known highest level in the Sea of Stars.

Therefore, although the Twenty-Four Heavens had been broken through, it didn't mean that it wasn't strong. Instead, as long as one clearly recognized the power of a piece of Sea of Stars, he would know that it was extremely terrifying.

At this moment, Senior Brother Azure Dragon had become a Sea Quelling Divine Dragon. It could almost be said that the entire dragon battlefield, the entire Dragon Valley, and even the entire Dragon Palace were under his control.

Han Fei clenched his fists. After seeing the difference in strength between him and gods and the strength of the dominator realm, Han Fei suddenly felt that the Great Monarch realm didn't seem to be anything.

Senior Brother Azure Dragon had found his path. Where was his path?

"It seems that after bathing in the Dragon Pool this time, I have to cultivate to my peak quickly. I don't dare to hope to fight a God Slaying-level powerhouse, but I have to at least have the strength to fight the gods of the myriad races head-on."

On the ominous mist's side, Senior Brother Azure Dragon unleashed the power of the entire dragon battlefield and even a larger area, causing the ominous mist to quickly shrink.

This suppression lasted for two hours, and the area enveloped by the ominous mist was only less than a million kilometers in the end.

At this moment, a voice came from the ominous mist. "What a dragon. Even if you seal this domain for the time being, you can't stop the destruction of the Sea of Stars."

"Humph ~"

Senior Brother Azure Dragon roared, "There is a full-scale war in the Sea of Stars, but in the territory of our dragon race, there is no existence that I can't control."

Billions of laws turned into countless Dao Locks. There might be a hundred thousand or a million of them. In the end, they completely sealed the million kilometers of the ominous. And the Sea of Stars here finally returned to peace. The ominous creatures on the dragon battlefield had no way back. What awaited them could only be death.

Roar!

"We won. Our dragon race won."

"Master Dragon Monarch has sealed the ominous."

"The Dragon Monarch is awesome!"

"Bah, Dragon Monarch? It's Master Sea Quelling Divine Dragon."

"Everyone, kill! After killing these ominous creatures, we can rest."

"Kill ~"

"Roar ~ Roar ~"

...

The battle on the dragon battlefield would end in a short period of time. After fighting for a while, the divine dragons probably wouldn't take action again. After all, the remaining ominous creatures were at most destruction-level. If the divine dragons had to personally take action to solve them, the dragon race would have long perished.

Swish!

In the blink of an eye, Senior Brother Azure Dragon came to Han Fei.

Zhu Bainian hurriedly called out sweetly, "Brother Dragon Monarch, no, you're the Sea Quelling Divine Dragon now. Let's go back and have a baby? Our baby will definitely be a Dragon God in the future."

Senior Brother Azure Dragon: "..."

Senior Brother Azure Dragon's eyelids twitched, and Han Fei pretended not to hear anything.

Senior Brother Azure Dragon said solemnly, "Bainian, stop fooling around. I need to fall asleep now."

With that said, Senior Brother Azure Dragon looked at Senior Brother Undead. "Third Senior Brother, now that you've been exposed, what's your next plan?"

Senior Brother Undead said indifferently, "Eldest Senior Brother is fighting that person. I'll go help him. Perhaps It can relieve him of some pressure. Since you've made a breakthrough, I'll leave."

"Take care, Third Senior Brother."

"Um!"

Third Senior Brother's body faded in front of Han Fei's eyes. Even if he left in front of his eyes, Han Fei didn't know how he left. However, he couldn't even understand the power of the Sea Quelling God, so he certainly couldn't understand the power of a dominator.

At this moment, the old divine dragon and the other divine dragons had already fought several rounds on the dragon battlefield. They were too lazy to care about the rest. They had all come to Senior Brother Azure Dragon.

The old divine dragon asked, "How do you feel?"

Senior Brother Azure Dragon said solemnly, "To be honest, I'm a little tired."

The fire dragon roared, "It's definitely not easy to upgrade from a Great Monarch to a Sea Quelling Divine Dragon. But hold on a little longer and sleep when we reach the treasure house."

Senior Brother Azure Dragon was too lazy to respond. He simply said, "I have a few things to tell you. While I'm sleeping, the ominous probably won't come. If they do come, you can wake me up. Also, the dragon race has been fighting for years. During this period of time, you can take a rest and go out of the Dragon Palace. As long as you don't go to the Sea Realm, you can visit any corner of the Sea of Stars..."

The white dragon asked, "Will the myriad races have a bad reaction if the dragon race suddenly leaves the Dragon Palace?"

Senior Brother Azure Dragon shook his head. "What happened today will soon spread throughout the Sea of Stars. It's time for our dragon race to come out. However, I need to remind all the dragons that they can't eat wantonly. The curse hasn't been removed. If they indulge too much, it will only backfire. Let them not disgrace the dragon race."

The black dragon said domineeringly, "Whoever dares to ruin the image of the dragon race outside, I won't let him off."

Senior Brother Azure Dragon nodded. "Just let them run to the battlefield more often. I'll leave the other matter to Bainian."

"Huh? Brother Dragon Monarch, I'll definitely complete it well."

Senior Brother Azure Dragon said, "Take my little junior brother to bathe in the Dragon Pool. However, you are not allowed to follow him to the Sea Realm."

"Huh?"

Senior Brother Azure Dragon snorted and thought to himself, Don't I know you well?

Zhu Bainian's mother also snorted. "There are too many temptations in the Sea Realm. If you go there, you will probably get lost."

With that, Senior Brother Azure Dragon looked at Han Fei. "Little Junior Brother, I only have one thing to tell you. Don't cook for the dragon race. No one is allowed to do so."

Han Fei's expression turned serious and he said, "Okay, Senior Brother Azure Dragon."

Senior Brother Azure Dragon was finally relieved. "Take your time. I'm going to sleep."

Swish!

In the eyes of everyone, Senior Brother Azure Dragon seemed to have disappeared out of thin air. It seemed that he was in a hurry. He must be holding on when telling them these things.

Zhu Bainian roared, "He just left like that?"

The old Dragon God laughed. "Okay, it won't be too late for you to pester him when he wakes up."

Then, the old dragon god looked at Han Fei. "Haha, Little Friend Han Fei, I'm sorry to get you involved in such a battle as soon as you came. We haven't even held a welcoming banquet for you. It's our dragon race's fault. Please go back to the Dragon Palace with us. Although our dragon race doesn't eat meat, we have enough spiritual fruits..."

"Senior Dragon God, you're too polite. Sorry for disturbing you."

Han Fei said politely, but when he thought of the star-sized fruit in his heart, the corner of his mouth twitched. He thought to himself, I probably can't eat one even if I have ten mouths!

God of Fishing

Chapter 3348: Bathing in the Dragon Pool (1)

Dragon Palace.

Han Fei looked at this magnificent palace. This guest hall alone was tens of thousands of kilometers high and hundreds of thousands of kilometers long. It was completely made of some star crystals. The huge dome was engraved with golden historical relief sculptures of the dragon race. There were so many carvings that Han Fei couldn't tell. If the sculptures could speak, then the relief sculptures on the dome were equivalent to dozens of movie drafts.

Although the palace was big, it was extremely exquisite. There were mountains, rivers, lakes, and seas in the palace. There were extraordinary flowers, exotic plants, swirling clouds, and burning earth fire.

In the place where the divine dragons gathered, where it was as small as a nail, there might be a dragon scale pattern engraved on it. The floor tiles were paved with golden jade, black crystals, colorful crystals, and various other extraordinary stones. The surrounding walls were like painted glass windows and full of exquisite and complicated dragon patterns.

However, Han Fei couldn't be happy at the moment.

In front of him were thousands of spiritual fruits, which looked all different. The problem was that as he expected, these spiritual fruits were all very big.

Among them, the smallest was about fifty kilometers in diameter.

Zhu Bainian introduced, "This is the Blue Dragon Fruit. In our Dragon Valley, they grow in bunches, with dozens of fruits on each cluster. I'll pick a few more bunches for you later."

Han Fei's lips twitched. "Baibai, you think too highly of my appetite."

Zhu Bainian said, "You're already a peak-level Extreme Dao cultivator and can already fight gods. A few small fruits won't be able to fill you up. I think you should grow larger and devour them in one bite."

Han Fei said, "I'm a human, not a dragon. Um, could you please ask people to stop sending me fruits? They're piling up like mountains."

Zhu Bainian shouted, "Okay, enough fruits here."

Han Fei was relieved. With a thought, a Blue Dragon Fruit was disassembled in front of him. The flesh and juice were quickly minced and then turned into balls of juice. Han Fei waved his hand, and countless bottles and jars appeared in the void. There were billions of them, and then they began to be filled.

Seeing this, many dragons were dumbfounded. What was he doing?

In the end, Han Fei held a big jar of water in his hand, with a straw inserted on top, and he sipped on it with a slurping sound.

"Slurp~ Ah~"

Han Fei couldn't help but say, "Well, nice. When I return to the human race, I'll give each of you a cup."

Then, Han Fei began to turn the other spiritual fruits into fruit juice. He planned to give half of them to Kuangkuang, and the latter definitely wouldn't refuse.

The old Dragon God said, "Little friend Han Fei, you can use the spiritual fruits of the dragon race as you please. If it's not enough, I'll ask someone to send you some more."

Han Fei hurriedly said, "That's enough, that's enough. Senior Dragon God, if you give me more, I'm afraid I won't even be able to fit my Origin Star."

"Hahaha!"

The fire dragon smiled and said, "Little friend Han Fei, we have no choice. Our dragon race is only producing spiritual fruits now, so we can only entertain you with these. I have a question to ask you. I wonder if it's appropriate to ask?"

Han Fei said, "Senior, just ask me."

The fire dragon immediately smiled and said, "Well, before the Dragon Monarch fell asleep, he said that our dragon race could leave the Dragon Palace. However, to be honest, our dragon race has stayed in the Dragon Palace for too long. The Sea of Stars is so big that I'm afraid the juniors in our race don't know where to go. I wonder if Little Friend Han Fei has any recommendations?"

Han Fei thought for a moment and said, "Actually, I don't know much about the outside world, but there are a few places recommended."

"Firstly, the best place for Monarchs to go is naturally the Chaotic Sea. Ominous creatures, Star Sea Giant Beast, opportunities, and many unknown secret realms gather there. There are even many Origin Grounds that haven't been discovered. Therefore, if it's the Monarch realm, the only place I can recommend is the Chaotic Sea."

"Secondly, the Shattered Star Sea is the most suitable place for Sky Openers to gain experience. There are no ominous creatures in the Shattered Star Sea, but there are a large number of creatures and Star Sea Giant Beasts. The physique of dragons is stronger than that of ordinary strong masters, so their survival rate in the Shattered Star Sea will be relatively high. Not only can they obtain the corresponding experience, but they can also get some Star Sea Giant Beasts to taste... Cough, cough. Of course, we still have to try our best to implement Senior Brother Azure Dragon's principle of not eating."

"What about the Sea Establishment Realm?"

Han Fei thought for a moment and asked, "Where did the dragons below the Sky Opening realm cultivate and gain experience?"

Logically speaking, being so strong, it was impossible for the dragon race not to go through any tempering. However, the entire dragon race was isolated in the Dragon Palace. How could there be a training ground?

The Fire Dragon said, "Among the myriad races, we dragons are not the only ones who are isolated. In fact, in the Sea of Stars around the dragon race, there are some other isolated races. For example, there is another race in the Giant Demon Star Sea, the ancient demon plant race. This race is a branch of the prehistoric demon plant race. They are not weak and occupy a larger territory than the Dragon Palace."

A golden dragon said, "And the Weapon Spirit Race, this is the companion race of our dragon race. Where there is the dragon race, there is the Weapon Spirit Race. They were born as weapons. Most of the dragons of our dragon race have fought and sparred with the Weapon Spirit Race since we were young. Only by obtaining the recognition of the Weapon Spirit Race can we obtain a weapon. Apart from that, it's Origin Grounds."

"Uh ~"

Han Fei felt as if he were listening to a story. He had thought that he was already knowledgeable, but now he felt that he didn't know anything! Weapon spirits could even form a race! They could become weapons without being tempered by humans?

[God of Fishing](#)

Chapter 3349: Bathing in the Dragon Pool (2)

Han Fei was silent for a moment. "Then I think the current trial and cultivation places of the dragon race are quite good. Perhaps if we can find more Origin Grounds, they will be good trial grounds. However, it's best if the dragon race doesn't go to the Sea Realm. As Senior White Dragon said, there are indeed too many temptations in the Sea Realm. It's full of schemes, threats, and temptations."

"Alas!"

The old Dragon God sighed. "What a pity! The myriad races have withered now. During their prime, the myriad races were scattered throughout the Sea of Stars. There was no need for us to consider where to go, unlike the current situation."

...

After a welcoming banquet, Han Fei drank hundreds of drinks and went to the Dragon Pool under Zhu Bainian's lead.

Led by Zhu Bainian, Han Fei passed a sea of giant demon plants and came to a vacuum in the hinterland of the dragon race. There were no demon plants here, but a galaxy. The stars here were still giving birth to laws, but the power of laws born was flowing into the depths of the galaxy.

About half a day later, Han Fei saw the corpses of dragons floating here. Some dragons were so ancient that they had completely turned into energy and crystallized.

Zhu Bai read, "As long as we dragons don't die outside, we will come here and destroy ourselves when we're about to die. Therefore, we call this place the Dragon Tomb Star River."

Looking at the increasing number of dragon corpses, Han Fei couldn't help but ask, "Why are these corpses here?"

Han Fei thought to himself, If the dragon race completely declined one day, this place might become the treasury of other races. Although they were all corpses of dead dragons, the dragon veins, dragon tendons, dragon horns, and dragon teeth were still there, and they were all treasures.

Zhu Bainian said, "This is the last treasure house of our dragon race, which is also the guardian of the dead. Once we need to use this treasure house, it means that the Sea of Stars is about to be destroyed. And these dragon corpses will form some mysterious power to make the last guardian. However, I don't know what this power is. The old Dragon God didn't mention this, which means that I'm not qualified to know."

"The last guardian?"

Han Fei looked at the dragon corpses and found that the essence blood in their bodies seemed to have disappeared. He wondered if the guarding was related to this.

As there were more and more dragon corpses, Han Fei saw a star, a huge star that seemed to be completely made of blood.

"This is?"

On the blood-colored star, blood waves surged. On this star, one could still hear dragon roars that seemed to come from ancient times. However, there were no living creatures here at all.

Zhu Bainian bowed to the Dragon Pool and said, "This is the Dragon Pool. It's formed by the precipitation and transformation of the essence blood of countless ancestors of the dragon race. Any dead dragon will only leave a drop of essence blood for themselves, and the rest will be thrown into the Dragon Pool. However, the liquid in the Dragon Pool you see is not blood, but the divine source of the dragon race."

"Divine Source?"

Han Fei thought to himself, Is it what I saw in the level-seven energy crystal?

Han Fei asked, "What is the Divine Source?"

Zhu Bainian said, "It's just a higher-level energy. After a cultivator transcends the divine tribulation, his soul power and power will have divinity, and the soul power or power with divinity can be called the Divine Source. However, our dragon race's bloodline is special. Our bloodline contains the power of the Divine Source when we were born, so when dragons die, we will throw our essence blood into the Dragon Pool and transform it into the Divine Source. This is one of the reasons why our dragon race has been prosperous for generations."

"You were born with the power of the Divine Source?"

Han Fei was shocked. No wonder there were so many strong masters in the dragon race. It was because their bloodline was extraordinary.

Han Fei couldn't help but ask, "The Dragon Race's Divine Source is something accumulated by countless predecessors of the Dragon Race. What will happen after I bathe in it?"

Zhu Bainian pursed her lips and thought for a while. "It seems to be able to improve the bloodline, strengthen the body, and consolidate the soul. There's also a certain chance that a trace of the power of a divine dragon will be fused into your body. It's all basic benefits. Oh... During the bath in the Dragon Pool, it can help with cultivation. Feng Yu cultivated the Ninth Transformation of the Heavenly Phoenix Nine Transformations here last time."

"What?"

Han Fei asked in surprise, "Has Feng Yu finished cultivating the Heavenly Phoenix Nine Transformations?"

"Uh! Don't you know? Isn't she from your Void Temple?"

Han Fei: "I..."

Han Fei was speechless. He had tried his best to overestimate Feng Yu, thinking that her Heavenly Phoenix Nine Transformations might have reached the seventh transformation or even the eighth transformation. He didn't expect her to reach the Ninth Transformation.

When he fought Feng Yu, she seemed to have just entered the Immortal Level. In that case, if she had completely used the Heavenly Phoenix Nine Transformations back then, he would probably be no match for her.

Han Fei was lost for words. He didn't know why Feng Yu was hiding her strength. If she had fully revealed her real strength back then, the people who were qualified to propose marriage to her would have been instantly reduced by 90%!

Han Fei couldn't help but ask, "Do you know which level of the Heavenly Phoenix Nine Transformations Feng Yu had cultivated before she bathed in the Dragon Pool?"

Zhu Bainian shook her head. "I don't know. I only know that as soon as she came out, she had made it. Besides, she had bathed in the Dragon Pool for 33 years. This length is extremely rare in our dragon race. My mother bathed for 27 years, and it's said that the old Dragon God only bathed for 25 years. Even Brother Dragon Monarch only bathed in the Dragon Pool for 49 years before coming out."

"What about you?"

[God of Fishing](#)

Chapter 3350: Bathing in the Dragon Pool (3)

Han Fei looked at Zhu Bainian, who turned her head away and said with a buzz, "Well... 21 years, but you can't underestimate 21 years. In the history of our dragon race, more than 20 years are at the level of top Heavenly Talents. The majority of dragons only bathe in the Dragon Pool for five years, most of them only two or three years."

With that said, Zhu Bainian looked at Han Fei up and down. "Your physique is very strong. I'm afraid you've suffered a lot to be able to cultivate to this level. Therefore, I believe you can definitely bathe for at least 20 years."

"Twenty years?"

Han Fei smiled. He had come to get opportunities, but now he was really a little curious about the power of the Dragon Pool.

Han Fei asked, "Then can I just soak in it?"

Zhu Bainian nodded. "Yes! But I have to remind you that everyone only has one chance to enter the Dragon Pool. Once you fall into the Dragon Pool, don't come out unless you feel your limit. Otherwise, the Dragon Pool will reject you and you won't have a chance to enter the Dragon Pool again in this life."

"Understood!"

Han Fei nodded slightly. Opportunities were always fleeting. How could an opportunity be placed in front of you every day, waiting for you to get it?

This was Han Fei's purpose here. Judging from the fact that Senior Brother Azure Dragon had only soaked in it for 49 years, it shouldn't be much longer for him. Therefore, it seemed that it wouldn't take much time.

Han Fei asked, "Is there anything else you need to remind me?"

Zhu Bainian thought for a moment. "There's only the two of us here. Can you secretly make me some jerky? I won't tell anyone."

Han Fei was speechless. Senior Brother Azure Dragon was right! He had just gone to sleep, and Zhu Bainian was already asking for meat.

"No."

"Humph! Fine then... Go! I'll wait for you outside."

Without hesitation, Han Fei plunged into the huge Dragon Pool. If there was really something special to remind him, Zhu Bainian would definitely tell him.

Buzz!

When Han Fei plunged into the Dragon Pool, his first feeling was that all the laws here were useless. Except for the power of laws contained in his body, he couldn't absorb any power of laws here.

Secondly, Han Fei felt that his movement was greatly hindered. He hadn't felt the power of the Divine Source yet, but he felt the great pressure and resistance in the Dragon Pool. At the same time, there was a numbing pain, but it was very slight.

In the end, he definitely couldn't connect to his Origin Star and had completely lost contact with it.

However, when Han Fei tried to summon the Emperor Sparrow, Little Black, and Little White, he received responses.

Han Fei immediately summoned them. As soon as the Emperor Sparrow appeared, his face changed. "Dragon Pool?"

Han Fei asked, "Do you know that?"

The Emperor Sparrow said, "Of course I know. After all, I'm the king of ferocious beasts. This is a good place. Except for the dragon race, only a few people who are particularly trusted by the dragon race will be allowed to enter the Dragon Pool. However, the Dragon Pool is difficult to pass. You have to be mentally prepared."

Han Fei asked, "How hard is it? I don't feel it yet."

The Emperor Sparrow said, "I don't know either. I've never been to the Dragon Pool in my previous life. However, since I can come to the Dragon Pool, I can enter the Great Monarch realm in advance."

Han Fei asked, "Didn't you say that you were going to the ferocious beasts' settlement to upgrade?"

The Emperor Sparrow said, "That's because my advancement is a little special and I need to obtain some power from the Divine Source. Since the Dragon Pool can satisfy this demand, I'll certainly make a breakthrough here. However, I don't know how long I can stay. If you leave the Dragon Pool first, remember to wait for me."

"Heh! It's not certain who will go out first."

Then, Han Fei said to Little Black and Little White, "Son, daughter, come down with me. If necessary, you can swallow some energy here, but if you swallow to the extreme, remember not to force yourselves."

With that, Han Fei began to sink.

Logically speaking, no matter how big the Dragon Pool was, with the strength of a Great Monarch, he could dive into the depths of the Dragon Pool in the blink of an eye. But at this moment, Han Fei felt that there was an invisible force blocking him.

When he tried to break through these powers, he felt a surging energy tide attacking him. Then, he felt these powers stabbing into his body and soul.

The pain was somewhat similar to the burning of hellfire. The hellfire burned from the body to the soul. And this invisible power also stimulated the body and soul.

The difference was that the burning of hellfire was pure purification, leaving only pain.

But this invisible energy had no power of purification, only pain. However, after this energy entered his body, it would gradually be suppressed by his own strength.

The corners of Han Fei's mouth curled up slightly. It was indeed a treasure trove of the dragon race. Han Fei could feel what Zhu Bainian said at this moment. After those invisible powers entered his body, as long as he suppressed them, they could gradually improve and strengthen his body and soul. The speed was relatively slow. However, he had just entered the Dragon Pool and didn't dive deep. Besides, he could stay for decades. If his body and soul kept improving for decades, it wouldn't be slow.

Besides, after the invisible energy entered his body, Han Fei vaguely felt that his bloodline was moving, as if part of his power had been swallowed by his bloodline.

"Is this the Divine Source? It can directly improve the bloodline, and it's the kind of accelerated improvement."

Unfortunately, he couldn't devour the bloodlines of the Emperor Sparrow, Little Black, and Little White. Otherwise, he could try to improve his bloodline with the power of the Divine Source.
