Chapter 3361: The Ominous' Choice (2)

Bang! Bang! Bang!

Perhaps Zhang Xuanyu and the other three were more conspicuous together, or maybe they were too strong, so they were targeted.

Therefore, the world-ending level ominous was targeting them.

The spear waves were penetrated by the world-ending level with an ominous sword light level by level.

Clang!

Swish ~

Just as Zhang Xuanyu was about to erupt, suddenly, the space around the world-ending level seemed to be instantly imprisoned. In the next moment, dozens of law chains immediately pierced through it.

The world-ending level was instantly purified by the light emitted by the law chains.

Zhang Xuanyu was stunned for a moment and then looked back at Han Fei. "Feifei! What's your current strength? A world-ending level ominous has died just like that? And it can't reassemble itself."

Han Fei smiled casually. "In the same realm, ominous creatures are relatively weak in the first place. If you had used the Tertiary Body and a secret technique just now, you would probably have been able to resolve it. The four of you can definitely kill it together."

Han Fei didn't doubt Zhang Xuanyu's strength. After all, they were all in the late-stage of the Immortal Level at this moment, and they had been in this realm for nearly 300 years. During this period, the four of them were all cultivating in the Primordial Tower. Their strength had clearly been stabilized, and their divine paths had appeared. It was only a matter of time before they became Great Monarchs. Therefore, it wasn't difficult for the four of them to kill a world-ending level ominous creature with their own abilities.

Zhang Xuanyu smiled speechlessly. "You're quite confident in us."

Xia Xiaochan was stunned. "What is... your current strength?"

As soon as Xia Xiaochan said so, she felt hundreds of gazes on her. Obviously, the anomaly on Zhang Xuanyu's side had attracted their attention.

These people probably wanted to remind them or try to help, but before they could speak, the world-ending level powerhouse had been quietly killed.

Han Fei said, "It's hard to say how strong I am now. But this time, I'll definitely clear the list of the Primordial Tower."

Le Renkuang was lost for words. "Li Daoyi's list?"

Han Fei smiled and said, "Well, let me try. The pressure on the front line seems to be a little great. Let's fight our way through from here!"

Hearing Han Fei's words, although the four of them didn't know Han Fei's current strength, they knew he was probably unbelievably strong. Otherwise, he wouldn't have said such a thing.

With Han Fei and the others as the center, tens of thousands of life-law chains extended from the surrounding void.

"Puff! Puff! Puff!"

Bang! Bang! Bang!

As soon as the chains of life rules appeared, nearly 6,000 ominous creatures were pierced almost at the same time, regardless of whether they were above or below the corruption level, and they had no chance to condense again.

"Sh*t!"

Zhang Xuanyu cursed. The place they were at was equivalent to a city wall, blocking the ominous creatures surging from the Star Sea Broken Cliff on the first line of defense. Therefore, there were a lot of ominous creatures on the defense line they were in.

It was precisely because of this that even if they let go of those ominous creatures below the terrifying level, they still needed to keep fighting.

However, Han Fei had wiped out a group of ominous creatures. He was equivalent to thousands of people in terms of combat power!

It wasn't that Zhang Xuanyu and the others hadn't seen a Great Monarch attack, but even a Great Monarch wasn't so powerful!

However, Zhang Xuanyu and the others were fine. The Monarchs who were fighting nearby were all shocked to see that Han Fei had easily eliminated a group of ominous creatures.

"So strong."

"How is that possible?"

"Who did this?"

"This directly tore a gap in the ominous army. Is it the Fellow Daoist who just came?"

Seeing this scene, some Great Monarchs couldn't help but look at Han Fei.

Han Fei stepped out and strolled in the void. As he did, a storm of laws rose behind him, seemingly endless mysterious patterns circulating in the void.

In the blink of an eye, Han Fei had already rushed millions of kilometers away. Wherever he passed, no ominous creatures could survive.

"I remember now. He's Human Emperor Han Fei. He disappeared for nearly three hundred years and now he's back in the Guardian Sea."

"Hiss! The Han Fei who destroyed the Heaven Concealing Divine Race?"

"Oh! Is he here to clear the rankings?"

"Is he crazy to clear the rankings at such a critical moment?"

"Has he become a god? Why is he so strong?"

Those who could charge at the front line were all Monarchs who had gained many combat experiences. Otherwise, they wouldn't have been able to guard such a large territory. However, among the Great Monarchs they had seen, it couldn't be said that there were no Monarchs who could unleash such power with a raise of their hands, but they had either used supreme secret techniques or were the only ones in the world.

Bang! Bang! Bang!

Like fireworks blooming in the Sea of Stars, wherever Han Fei passed, all the ominous creatures within tens of millions of kilometers exploded into balls of fireworks, without exception.

If the list of the Primordial Tower was only ranked by the number of kills, Han Fei was 10,000% confident that he could top it.

Now, the world-ending level ominous creatures should have been blocked at the front by the strong masters of the Time Temple, so most of them were at the terrifying or destruction level.

The ominous creatures of this level couldn't shake Han Fei at all. Unless millions of them surrounded him, they couldn't shake Han Fei at all.

Therefore, when Han Fei rushed out of the first defense line of the Skynet, he created a vacuum. In the blink of an eye, countless ominous creatures died.

God of Fishing

Chapter 3362: The Ominous' Choice (3)

Of course, Han Fei's goal was definitely not these ominous creatures. No matter how many of these ominous creatures he killed, he couldn't achieve his goal of clearing the rankings. He just took action by the way to relieve some pressure on the front line.

This was because as Han Fei moved forward, the ominous creatures that didn't have much intelligence and only fought instinctively would pounce on him one after another.

Xia Xiaochan and the other three went forward together. It wasn't easy for the five-person team to reunite, so they certainly wouldn't watch Han Fei rush to the Star Sea Broken Cliff alone.

Gradually, the five of them disappeared from the eyes of countless people on the first line of defense of the Skynet. Some Great Monarchs were curious and wanted to go over to take a look, but a divine voice sounded here, "Everyone, guard the front line and don't leave your spots."

Han Fei's battle was not something ordinary people could participate in. Even if there were strong masters from the Time Temple guarding the Star Sea Broken Cliff, they had no time to care about the lives of so many people.

Han Fei forcefully cut through a vacuum zone all the way. On the way from the Skynet to the Star Sea Broken Cliff, he had killed more than 100,000 ominous creatures of various sizes.

Le Renkuang and Luo Xiaobai helped pick up the energy crystals along the way.

Le Renkuang said, "Feifei! With your current strength, if you stay on the first front line of the Skynet, you can get at least 300,000 to 500,000 energy crystals. Why are you in such a hurry to go to the Star Sea Broken Cliff?"

Han Fei said, "There should be a unique perception between the ominous creatures, like the shattering of a life tablet. If too many of them die at once, the strong masters in the ominous mist might think that a god-level powerhouse has taken action, and may start a divine battle first!"

Xia Xiaochan asked, "Do you think that by acting like this, they won't start a divine war first?"

Han Fei said, "All the more reason to hurry up."

Han Fei was not afraid of starting a divine war, but he was worried that when a god-slaying-level battle would start, once a god-slaying-level powerhouse took action, it would be difficult for him to continue to clear the rankings in peace.

Therefore, he needed to set a record in a limited time.

On the Star Sea Broken Cliff, there were seven Great Monarchs and one god from the Time Temple. These people controlled hundreds of thousands of ancient creatures and were fighting millions of ominous creatures.

This scale was much larger than the last time he saw it.

In addition, more than three hundred Great Monarchs from the Guardian Sea were also helping with the battle.

However, on the other side of the cliff, groups of world-ending level ominous creatures, as well as a massive number of destruction-level and terrifying-level ominous creatures, surged out.

Someone asked solemnly, "Why are there suddenly so many world-ending and destruction-level ominous creatures here?"

Someone cursed angrily, "Hey, ominous, are you going to start a divine war?"

In one of the ominous mists, a doomsday-level ominous creature stuck its body out. "Even if a divine battle starts, it's started by you guys. A god actually took action in the rear and killed more than 100,000 of our soldiers in an hour. Don't tell me you don't know."

"Huh?"

Everyone was dumbfounded. Could it be that the pressure of the Skynet was too great, and a god had taken action?

Swish! Swish! Swish!

At this moment, Han Fei and the others broke through the void and appeared in everyone's perception in the blink of an eye.

"Huh? Four Immortals and one Great Monarch?"

A Great Monarch scolded, "Why are Immortal-level cultivators here? Do you want to die?"

Someone frowned. "Who asked you to come here?"

"Stupid, that Great Monarch, why aren't you guarding the Skynet? Why did you bring four Immortals here?"

"Huh?"

After all, few of the Great Monarchs came from the Ferocious God Valley. Most of them were transferred from various fronts, so most of them didn't know Han Fei.

However, a few people recognized Han Fei at a glance.

"Fellow Daoist Human Emperor, have you come out of seclusion?"

"Fellow Daoist Han Fei, are you here to clear the rankings?"

A few people had met Han Fei once in the Ferocious God Valley and knew that Han Fei was extraordinary. This person hadn't appeared for three hundred years, so his appearance this time was definitely not simple.

A Great Monarch was puzzled. "Human Emperor? Han Fei? Who is he?"

Many Great Monarchs were puzzled. This person seemed to be quite famous, but why didn't they know him?

At this moment, a god of the Time Temple looked at Han Fei and said, "Human Emperor, now is not the time to clear the rankings."

Han Fei said calmly, "Those who know me should know I'm not merely for the sake of ranking clearing. Thank you for your reminder, but I'm definitely going to clear the list today."

"What a bold statement."

The Great Monarchs were speechless. How could this guy still be so tough in the face of a god? Was he crazy?

However, they didn't know that Han Fei didn't like the Time Temple. Perhaps these people had the same goal as the Void Temple. However, in addition to the same goal, they still had a lot of schemes in their hearts, for example, they once schemed against him for the Demon Purification Pot.

Also, Ximen Linglan was still suppressed in the River of Eternal Darkness. After this matter in the Sea Realm was over, he had to save her no matter what.

Seeing that Han Fei's tone was tough, the god of the Time Temple surprisingly didn't say anything, many Great Monarchs were very surprised. What's this guy's identity? Why didn't he give the Time Temple any face at all?

Immediately, a white-robed goddess appeared in the void. Here, there were more than one god. If nothing unexpected happened, they usually wouldn't take any action.

However, it was a surprise that Han Fei came.

The goddess took a deep look at Han Fei. "Only this once."

[God of Fishing](#)

Chapter 3363: The Ominous' Choice (4)

Han Fei smiled. "Thank you, Senior."

Then, Han Fei said to Xia Xiaochan and the others, "Don't attack rashly. If anything happens, retreat."

Xia Xiaochan said, "Be careful."

In the next moment, the goddess said, "Everyone, retreat billions of kilometers."

The god of the Time Temple also nodded slightly. "Retreat for now."

For a moment, the hundreds of Great Monarchs were stunned. Just because someone came, they all retreated?

Besides, would the countless ominous gods that had just surged out give them a chance to retreat?

At this moment, Han Fei stepped on the air and passed the Great Monarchs in the blink of an eye. At the same time, the iconic chains of life appeared around Han Fei.

Swish! Swish! Swish!

Puff, puff, puff!

Wherever the chains of the law of life passed, one ominous creature after another was pierced through. No one survived.

The doomsday-level ominous roared angrily, "It's you?"

Han Fei raised his head and replied with a smile, "It's me."

"You again."

This time, roars came from another ominous mist that spanned the Star Sea Broken Cliff.

Han Fei sneered. "Stop pretending. If you want to talk, come out."

"Kill ~"

The doomsday-level one that had already appeared hesitated and didn't attack. This was because he knew who Han Fei was and that the Demon Purification Pot was with him. Before seeing Han Fei's real strength, or rather, before the power of the Demon Purification Pot was exhausted, he wouldn't attack.

Han Fei knew this too, so he wasn't afraid at all. Even if there was a row of doomsday-level cultivators standing opposite him, he wouldn't be afraid.

When Han Fei entered the battlefield, the ominous creatures that were about to besiege the other Great Monarchs and ancient creatures all stopped fighting and rushed towards Han Fei.

In the blink of an eye, more than 100,000 ominous creatures besieged Han Fei. These 100,000 ominous creatures were not low-level ominous creatures. Their strength was at least at the terrifying level, and most of them were at the destruction level. Even the number of the world-ending level ones exceeded 3,000.

"What's going on?"

"Look, there are still a large number of destruction-level ominous creatures surging over."

Some people still didn't know what Han Fei's attack meant. They were shocked. Han Fei fought hundreds of thousands of ominous creatures alone. What was the difference between this and fighting hundreds of thousands of Monarchs alone?

Puff, puff, puff!

Although the life law chains were powerful, those below the world-ending level had no chance to fight back.

However, no matter how strong they were, they couldn't resist so many people. Besides, this time, not only were there destruction-level ominous creatures, but there were also dozens of world-ending creatures.

The doomsday-level ominous creature was sure that no matter how strong Han Fei was, under the interference of dozens of world-ending-level ominous creatures, he had to use the power of the Demon Purification Pot.

However, Han Fei, who was surrounded, held the Blood Sky Blade in his hand and slashed out the Immortal Slaying Knife. Seventeen streaks of light intertwined in the void, and the 17 world-ending level powerhouses mixed in the army of ominous creatures were all crushed by the knife and purified into nothingness.

"Huh!"

In the rear, the goddess was slightly depressed. "Has he become so much stronger?"

The god of the Time Temple also frowned slightly. Although the combat power of the world-ending level ominous was not as good as that of ordinary Great Monarchs, it was a little unusual to kill 17 in a row.

At this moment, Han Fei didn't even use the Demon Purification Pot, nor did he activate his secret technique.

Those who had doubted Han Fei were all surprised.

"So strong."

"What a fast blade."

"Why can't the ominous creatures he killed regather their ominous bodies?"

A Great Monarch who knew Han Fei sneered. "What do you know? Human Emperor Han Fei is a disciple of the Void Temple, the owner of the Demon Purification Pot, and the guardian of the Divine Prison in the Creation Divine Prison... He came to clear the rankings three hundred years ago and almost entered the top ten of the Primordial Tower. In the end, he was defeated by the doomsday-level ominous creatures. Today, he must have the confidence to resist the doomsday-level ominous..."

"What? A disciple of the Void Temple?"

"He even fought a doomsday-level ominous creature one-on-one?"

"Demon Purification Pot? Yes, there are indeed rumors that the Demon Purification Pot has appeared. I thought it was fake."

"So it's this person?"

Everyone in the rear was discussing, but Han Fei laughed out loud. "You think you can distract me with just a few world-ending level cultivators? Are you stupid or what?"

"Puff! Puff! Puff!"

Han Fei drew his broadsword faster and faster. In the blink of an eye, a thousand broadswords swept across and killed all the ominous creatures that approached.

In just a moment, more than 5,000 of the 100,000 ominous creatures had been killed by the Immortal Slaying Knife and the Life Law Chains. Furthermore, this number was still increasing.

At this moment, an doomsday-level ominous creature drilled out of the ominous mist. Han Fei wasn't sure if it was the one he fought last time, but only two had come now, which was still not enough. At least three had come before he had a chance to surpass Li Daoyi's record.

Instead of retreating, Han Fei advanced. Although he was surrounded by hundreds of thousands of ominous creatures, he still stepped into the void step by step and walked straight to the cliff.

While walking, Han Fei shouted, "Aren't you two going to take action? If you don't, I'll cut off the ominous passage connecting the two sides of the Star Sea Broken Cliff."

In the rear, a few more gods appeared beside the goddess, one of whom was the one who met Han Fei in the Guardian City.

The goddess said, "As long as the Demon Purification Pot doesn't appear, doomsday-level cultivators won't dare to approach him. Those below the world-ending level can't shake him at all. It seems that he has indeed come prepared this time, forcing the other party to either release the world-ending level or give up the ominous channel."

"Yes! I only let him come because of this. If he can cut off even one ominous channel, it will greatly relieve the pressure on the Guardian Sea. Unless the other party's god-slaying level powerhouses take action."

[God of Fishing](#)

Chapter 3364: The Strongest Record in History (1)

Han Fei's purpose this time was very clear. He was here to clear the rankings, not to harvest energy crystals, nor to kill for the Distanceless Gate to see.

Li Daoyi's record was not just difficult to break. This was because once he killed a large number of world-ending level powerhouses, doomsday-level powerhouses would inevitably appear.

In the face of him, the ominous wouldn't stupidly release the world-ending level ominous creatures for the Demon Purification Pot to kill. Therefore, even if Han Fei was at the peak of the Extreme Dao, he didn't come to clear the list because he knew that without absolute strength, he couldn't force the ominous to release the world-ending level ominous creatures at all. They would only release a massive number of destruction-level ominous creatures to consume him.

This painstaking cultivation was already the limit he could reach over the years. It could be said that he had never cultivated in seclusion for so long.

At this moment, Han Fei didn't believe that anyone could grow faster than him.

Now, the two doomsday-level powerhouses were in a dilemma.

This was because Han Fei's combat power had completely exceeded the concept of peak-level Extreme Dao. Besides, the strong masters of the myriad races were stronger than ominous creatures of the same level. Therefore, in terms of basic combat power, Han Fei could barely resist doomsday-level ominous creatures at this moment.

At this moment, hundreds of thousands of destruction-level ominous creatures were attacking the void where Han Fei was, but the more there were, the more destructive the chains of the law of life would be. Besides, under the Immortal Slaying Knife, no ominous creature could withstand the power of a single slash unless a god appeared.

The two doomsday-level powerhouses seemed to have made a decision. More than three hundred world-ending level powerhouses rushed at Han Fei like moths to a flame.

Faced with three hundred ominous creatures at once, even if Han Fei's current combat power was extremely strong, it was impossible for him to kill them in an instant unless he took out the Demon Purification Pot.

Han Fei's heart stirred. Could it be that the other party had thought it through? If they wanted to consume him, they had to use the world-ending level ominous creatures?

Swish! Swish! Swish!

The Demon Purification Pot was immediately taken out. Three hundred world-ending level cultivators was a big piece of meat. Of course, he wouldn't let it go.

Of course, if the world-ending level and the destruction-level ominous creatures attacked at the same time, it was impossible for the Demon Purification Pot to only kill the world-ending level ominous creatures. The world-ending level ominous creatures were fast and had a certain chance to avoid the Demon Purification Pot's attack. Therefore, when the Demon Purification Pot attacked, Han Fei held the Blood Sky Blade to prevent anyone from escaping.

"Puff! Puff! Puff!"

In an instant, more than a hundred world-ending level ominous creatures were pierced through. Han Fei thought to himself, As long as these things get close, they won't be able to escape.

However, before he could be happy, he perceived that most of the ominous creatures that were besieging him had retreated the moment the world-ending level powerhouses rushed up.

"What's going on?"

"Puff! Puff! Puff!"

The Demon Purification Pot was still piercing through these world-ending level powerhouses. Han Fei didn't idle either. He slashed out the Immortal Slaying Knife one after another. He realized that something was wrong. These world-ending level powerhouses were trying to hold him up with a suicide charge.

Boom Boom Boom ~

The moment several world-ending level explosions occurred, Han Fei realized that something was wrong. Before he could activate the Thousand Thunder Flash, at that moment, more than 50,000 ominous creatures detonated themselves at the same time.

The scene was spectacular. The void within tens of millions of kilometers collapsed, and endless ominous mist enveloped the void where Han Fei was.

"Not good!"

Xia Xiaochan and the others were all shocked, and even all the gods here were shocked.

They never expected that in order to kill Han Fei, the ominous would use 300 destruction-level ominous creatures as bait and 50,000 destruction-level and terrifying-level ominous creatures to blow themselves up to kill the enemy.

The Great Monarchs who were watching the battle were deeply shocked. What was going on? Were these ominous creatures crazy?

"It's over. The entire void has collapsed. The ominous aura covers the entire area. How can we survive?"

"The Human Emperor is doomed!"

"The Demon Purification Pot doesn't seem to be a defensive treasure, right? Even a god can't resist such an impact, right?"

"What a pity. I told him that the ominous was crazy this time, but the Human Emperor still came to clear the rankings. Now, the ominous has gone crazy. He won't be able to clear the rankings anymore."

"Shut up. What do you know? He won't die."

Xia Xiaochan scolded and glared at the sighing Great Monarchs.

Le Renkuang also shouted, "Don't talk nonsense."

Zhang Xuanyu and Luo Xiaobai also glanced at these people coldly.

Someone was unhappy and was about to scold them, but in the next moment, everyone's eyes were immediately attracted by the ominous mist.

Rumble!

Rumble!

Tens of millions of kilometers in the sky bathed in lightning and fire, and countless places were burnt through.

Although the void collapsed, the void turbulence didn't seem to be able to sweep Han Fei in. His voice was cold and low. "How bold. I thought you had figured it out."

Bang!

A huge hand was bathed in lightning and fire, tearing open an ominous mist. A 330,000-foot-long Dharma Idol stood above the ominous mist, in the void turbulence.

Han Fei was bathed in golden light, and the Wheel of Life behind him slowly spun.

Letting the ominous mist be burned by the lightning fire and minced by the void turbulence, Han Fei stood still.

"I knew you would be fine."

Xia Xiaochan raised her hand and shouted.

"Huff~"

Luo Xiaobai and the other two were also relieved.

Zhang Xuanyu said, "It's always like this. It scares me."

Le Renkuang said, "My heart almost stopped."

Luo Xiaobai only calmed down slightly, wondering what method Han Fei had used. Was it related to his Dharma Idol, the Wheel of Law behind him, or the Art of Invincibility?

"He's still alive?"

[God of Fishing](#)

Chapter 3365: The Strongest Record in History (2)

"How did he survive?"

"His law doesn't seem to be afraid of the ominous aura at all."

The surrounding Great Monarchs were also dumbfounded. This guy was still alive under such a terrifying power that could even kill a god?

Not only was he still alive, but he was also fine, almost unscathed.

The two doomsday-level powerhouses on the opposite side were also a little stunned. He was still alive? How could he still be alive?

Han Fei was very angry. He had thought that he had the other party under control, but he didn't expect these ominous creatures to be so ruthless as to try to die together with him.

Fortunately, he had the invincible state of the Great Dao of Life Replacement and had mastered the law of life. Otherwise, he would have died.

Han Fei smiled coldly. "Do you want to do it again? I'll stand still."

One of the doomsday-level ominous creatures' eyes were cold as he thought to himself, If this method works, I'll have to sacrifice a lot of our soldiers!

Han Fei didn't give them much time to consider. He dispersed his Dharma Idol and forcibly broke free from the void turbulence. The chaotic void laws swept around him, but they could only leave shallow white marks on him.

It could be seen that the void turbulence formed by the explosion of these ominous creatures was not enough to hurt his body.

Forcibly breaking through this place, Han Fei went straight to the Star Sea Broken Cliff.

On the Star Sea Broken Cliff, there were three ominous passages that connected to the Guardian Sea. Once one of them collapsed, the pressure on the Guardian Sea would be reduced by 30%. At that time, even without the Time Temple taking action, they might be able to resist the ominous invasion.

Of course, the two doomsday-level ominous creatures certainly wouldn't let Han Fei kill his way to the ominous passage. At this moment, another huge head poked out of the ominous passage. Obviously, the ominous creatures realized that only two doomsday-level ominous creatures might not be enough.

At this moment, the three doomsday-level powerhouses were respectively guarding the three ominous passages.

Seeing this, Han Fei sneered. Who are you trying to fool? Since he witnessed the battle on the dragon battlefield, he knew that there were definitely more than three doomsday-level ominous creatures behind the ominous mist on such a large battlefield.

Otherwise, why would the Guardian City need seven gods to guard it?

However, no matter how many doomsday-level powerhouses came, would you dare to attack?

Han Fei looked disdainful and charged into the encirclement of the ominous creatures again.

However, this time, those ominous creatures didn't besiege him. Instead, thousands of world-ending level ominous creatures surged out.

One of the doomsday-level ominous creatures said, "Human Emperor Han Fei, if you take another step forward, it will be regarded as the Guardian Sea officially starting a large-scale divine war."

Another doomsday-level ominous creature also spoke, but not to Han Fei, but to the strong masters of the Sea Realm who were watching the battle behind. "Once the battle starts, you may all be killed here. Do you really want to die for this person?"

However, this time, everyone's opinion was abnormally uniform.

A Great Monarch said, "I've been fighting on the battlefields in the Sea of Stars for hundreds of thousands of years. Why would I be afraid of death?"

A Great Monarch sneered. "The ominous has never won a war of gods. Do you have the qualifications to speak?"

The goddess of the Guardian City also said, "It's only Han Fei's battle now. If you want to turn this into a battle of gods, I have no objection."

The god of the Time Temple frowned slightly. The people of the Void Temple are all boorish. You're only a Great Monarch. What can you do? Can't you wait until you become a god before provoking the ominous?

However, he couldn't say that. The Three Temples were on the same side when it came to dealing with the ominous. If it really caused a war of the gods, he wouldn't stand by and do nothing.

Seeing that the strong masters of the Guardian Sea were not afraid of fighting, the doomsday-level ominous creatures on the opposite side immediately made up their minds and shouted, "Kill!"

If the method of mutual destruction didn't work, they wouldn't mind sacrificing their soldiers. Although it wasn't easy for ominous creatures to give birth to intelligence, if they could take down Han Fei, the owner of the Demon Purification Pot, all the sacrifices would be worth it.

This time, seeing a large number of people surrounding him, Han Fei knew that the other party had finally made a choice. In that case, he naturally wouldn't flinch.

"Puff! Puff! Puff!"

The Demon Purification Pot attacked again, assisted by the Life Law Chains and the Immortal Slaying Knife.

However, the doomsday-level ominous creatures on the opposite side were not stupid. Although they had asked the world-ending level ominous creatures to take action, they only attacked after hiding among the destruction-level ominous creatures.

In this way, Han Fei would be forced to attack the destruction-level ones when he killed the world-ending level ominous creatures.

Han Fei calculated. Every time he killed forty or fifty destruction-level ominous creatures, he would have to kill more than a thousand destruction-level ominous creatures.

It wasn't that he couldn't control the Demon Purification Pot, but that there were too many ominous creatures attacking him. There would always be fish that escaped the net. And once these fish got close, they would be killed by the Demon Purification Pot indiscriminately.

If he didn't use the Demon Purification Pot, the other party would immediately send world-ending level powerhouses to exhaust him.

After killing more than 500 world-ending level ominous creatures in a row, Han Fei found that he had killed more than 10,000 destruction-level ominous creatures at the same time, which made him unhappy.

If this went on, the Demon Purification Pot wouldn't be able to kill 3,200 world-ending level ominous creatures as Li Daoyi.

This was because once the power of the Demon Purification Pot was consumed, the other party's doomsday-level ominous creature would definitely attack. At that time, he wouldn't have a chance to attack the world-ending level ones.

If he couldn't kill as many world-ending level powerhouses as Li Daoyi, then he had to kill four doomsday-level ominous creatures to surpass him in ranking.

"Tweet ~"

In the next moment, the Emperor Sparrow appeared in the sky after being summoned by Han Fei.

"So many?"

The Emperor Sparrow was speechless. As soon as he came out, he was faced with a dense mass of ominous creatures. How could he fight them?

Han Fei said, "Assist me. If any fish below the world-ending level tries to enter the coverage of the Demon Purification Pot, solve them."

[God of Fishing](#)

Chapter 3366: The Strongest Record in History (3)

"No problem."

The Emperor Sparrow's strength had already exceeded the peak of the Extreme Dao. A mere eight hundred destruction-level ominous creatures were no match for him.

"Emperor Sparrow?"

If the three doomsday-level ominous creatures had faces, their expressions must be very ugly at this moment.

In the ominous mist, a voice whispered, "The Emperor Sparrow has taken a human as his master?"

The voice immediately spread out of the three passages. "Stop wasting time. Consume him with the lives of world-ending level soldiers. Today, this person must die."

Hearing this, the three doomsday-level powerhouses all issued orders.

Immediately, more than 3,000 world-ending level ominous creatures charged at Han Fei fearlessly.

Seeing this, Han Fei was overjoyed. If he had known that the Emperor Sparrow was so reliable, he would have summoned him out earlier.

"Puff! Puff! Puff!"

One world-ending level ominous creature after another was pierced through.

1000...2000...3000...

Ferocious God Valley, Primordial Tower.

People still came and went here every day, and many people were queuing up to go to the ominous battlefield.

Suddenly, when someone glanced at the ranking stone stele, he suddenly exclaimed, "Look, Han Fei's ranking has moved. He suddenly became eighth."

"How is it possible? Han Fei has disappeared for three hundred years. If he went to the ominous battlefield, how could we not know?"

"I'm telling the truth. Take a look if you don't believe me."

"Look... F*ck! More than 3,000 world-ending level ominous creatures have been killed by him?"

"What happened? Why is Han Fei on the ominous battlefield? When did he go there?"

"Oh my god, his world-ending level kills have already exceeded Li Daoyi's."

Instantly, exclamations were heard under the Primordial Tower. After only a moment, the entire Ferocious God Valley knew that Han Fei had appeared and went to clear the rankings again.

"Waiting for Someone" tavern.

Yue Lingke was also a little stunned. Han Fei had promised to return in a hundred years at most, but he had been away for nearly two hundred years. She had thought that something had happened to him, but when she heard his news again, it was from the stone stele of the Primordial Tower.

"Why did he go straight to the Guardian Sea? Why didn't he come to the Ferocious God Valley first..."

Suddenly, Yue Lingke was refreshed. Han Fei suddenly broke into the Primordial Tower again, which meant that he was completely prepared. He didn't return before probably because he didn't want to attract any attention.

Today, he suddenly went to clear the rankings because he was confident that once he succeeded... it would be the time for the descendants of gods to appear again.

Immediately, Yue Lingke shouted, "Everyone, leave the shop. From today on, our shop is closed for the time being..."

...

On the Star Sea Broken Cliff.

After fighting for more than an hour, the power of the Demon Purification Pot was almost exhausted. Including the world-ending level ominous creatures that had died before, Han Fei had killed a total of 4,212 world-ending level ones.

As for the destruction-level and terrifying-level ominous creatures, Han Fei couldn't calculate them, because he didn't know how many of them had been killed by the explosion just now.

But no matter how many of them had been killed just now, it didn't mean much to Han Fei. The ranking of the Primordial Tower was mainly based on the levels of the ominous creatures he killed.

So far, if he guessed right, he should be ranked eighth.

At this moment, the Demon Purification Pot couldn't continue to fight, because with the Demon Purification Pot's current speed, even if it could continue to attack, it wouldn't be able to touch them.

However, more than 4,000 world-ending level ominous creatures had been sacrificed. They didn't care if a few more were sacrificed.

More than 300 world-ending level ominous creatures charged at Han Fei again. This time, Han Fei activated his Original Great Dao. With the enhancement of double combat power, his combat power exceeded 360,000, almost keeping up with the minimum combat power of a god of 400,000.

This combat power was seven times stronger than the basic combat power of ordinary peak-level Great Monarchs. Han Fei, like a swimming dragon in the Sea of Stars, slashed out with the Immortal Slaying Knife, and the power of the world was attracted by Han Fei.

"Puff! Puff! Puff!"

Even if these world-ending level ominous creatures also controlled laws and had all kinds of strange divine techniques, they were all killed by a single slash.

Besides, in addition to Han Fei, the Emperor Sparrow was also attacking. The Emperor Sparrow was not afraid of the ominous aura in the first place and didn't need any protection. With pecks of his claw and sweeps of his wings, not only could he kill the ominous, but he could also absorb some of the ominous aura.

A man and a bird were fighting 300 world-ending level ominous creatures. It was a crushing battle. Everyone in the rear was shocked.

Someone was shocked. "The power of this space is completely controlled by him. This is no longer the combat power of the Great Monarch realm."

Someone was shocked. "Another Great Monarch that can fight a god?"

A god said, "He's more than twice as strong as when he was in his peak state last time. This guy's growth speed is really shocking! However, if he wants to clear the rankings, he has to kill three doomsday-level ominous creatures. With his current strength, I'm afraid it's still not enough."

Another person said indifferently, "He can't come unprepared. Let's see what other trump cards he has."

After Han Fei killed more than 200 world-ending level powerhouses in a row, finally, a sharp claw broke through the power of the Immortal Slaying Knife and slapped in front of Han Fei.

Clang!

However, Han Fei was not afraid at all. He drew his broadsword, activated the law of life, and activated the Ragnarok, cutting off half of the doomsday-level ominous creature's palm.

Han Fei sneered. "You're finally willing to fight?"

The doomsday-level creature roared, "Without the Demon Purification Pot, no matter how strong you are, you are still a Great Monarch."

The half of the palm that was cut off by Han Fei returned to its original state in the blink of an eye. As for the doomsday-level ominous creature, it transformed into a spider crab. Its ten long sharp claws, like ten big spears, stabbed like streams of light, each blow carrying a void storm. Its speed was so fast that it struck a thousand times in the blink of an eye.

[God of Fishing](#)

Chapter 3367: The Strongest Record in History (4)

Han Fei abandoned his broadsword and punched out. There came one explosion after another in the Sea of Stars, shaking ripples that stacked thousands of times in an instant.

Boom! Boom! Boom!

Bam! Bam! Bam!

The two of them fought fiercely for a hundred seconds without giving in at all. Although Han Fei's current combat power was slightly weaker than the other party's, he was not afraid at all with the law of life surrounding him.

Outside the arena, Zhang Xuanyu muttered, "Is the gap between Great Monarchs and Immortals so huge?"

Xia Xiaochan and the others hadn't become Great Monarchs yet, so they didn't know the real combat power of Great Monarchs. However, from the battle between Han Fei and the doomsday-level ominous creature, they could tell that even if they used all their strength, they couldn't resist a casual blow from Han Fei.

Suddenly, Han Fei shouted in a low voice, "Fuse."

Buzz!

The number of times the Emperor Sparrow fused with Han Fei was limited. In the past, after they fused, they could only increase Han Fei's combat power by ten or twenty percent at most because the Emperor Sparrow's realm at that time was not high enough.

But this time, the Emperor Sparrow had already surpassed the peak of the Extreme Dao. After the fusion, Han Fei's strength immediately doubled.

At that moment, Han Fei's combat power finally entered the God Realm. When he fought again, the doomsday-level creature was shaken. Han Fei clasped the ominous creature's sharp claws with both hands, and the law of life burst out of his palm, instantly destroying the other party's entire sharp claw.

After fusing with the Emperor Sparrow, Han Fei was not afraid of the ominous aura at all.

"Do you think you're a god just because of this? In that case, let me show you what the real ominous is."

Whoosh!

The ominous creature that had turned into a big crab opened its huge circular mouth, as if it could swallow an entire void. Its nine sharp claws hugged the void, as if locking down that space.

Seeing this, Han Fei smiled in disdain. "You're right. I don't have divinity now. However, I do have a divine tribulation. Have a try."

Han Fei held the void and the Thunder God's Hammer appeared.

Although the Thunder God's Hammer obtained from the Thunder Note Ancient Temple was only a mid-quality Nature Spiritual Treasure, it had a characteristic. Its strongest killer move could unleash a heavenly tribulation of corresponding strength according to its master's strength.

With Han Fei's current strength, he didn't know if the Thunder God's Hammer could carry it. However, a mid-quality Nature Spiritual Treasure was also a Nature Spiritual Treasure. It shouldn't be so weak.

"A mid-quality Nature Spiritual Treasure?"

When the doomsday-level ominous creature saw the Thunder God's Hammer, he simply ignored it, thinking to himself, How can such a thing hurt me?

As Han Fei jumped into the air, the power of heaven and earth gathered. The surging tribulation clouds condensed into a vast lightning bolt. This was a divine tribulation targeted at Han Fei, but Han Fei's strength had long exceeded the peak of the Extreme Dao. How could this divine tribulation be simple?

Rumble!

The Thunder God's Hammer shone with boundless brilliance and divine might, and purple-black lightning struck down.

The doomsday-level ominous creature finally realized that something was wrong. It was just a mid-quality Nature Spiritual Treasure. How could it unleash such power?

Roar!

The doomsday-level ominous creature roared nonstop. The power of lightning filled his body and purified a massive amount of ominous aura.

Lightning had the ability to purify in the first place, so it was only natural that this doomsday-level ominous creature was seriously injured. At this moment, the other two doomsday-level ominous creatures attacked at the same time. One of them blasted out an ominous pillar, and the other spurted out dark Dao swords and attacked.

On the Guardian Sea's side, a god said, "Should we take action?"

"No! Wait, don't forget what he's here for."

Since Han Fei was here to clear the list, he certainly had the confidence to clear the list. It was a must for him to fight three alone. Otherwise, how could he clear Li Daoyi's list?

Sure enough, at the moment when the two doomsday-level powerhouses attacked, Han Fei laughed. He activated his Original Great Dao, increased his combat power by five times, and his strength immediately soared to 900,000 points. With the fusion of the Emperor Sparrow, his combat power directly broke through the million mark.

Han Fei raised his hand, turned his fist into a palm, and pushed out, blocking the ominous pillar. On the other side, Han Fei's Dharma Idol appeared again, and he clamped the dark Dao Sword with two fingers.

He had been waiting for this moment. He pretended and made the other party mistakenly think that his strength had just reached the god-level, and under such circumstances, he would kill one first.

At this moment, the other two doomsday-level ominous creatures attacked at the same time. Of course, he wouldn't let go of such a good opportunity.

Puff, puff, puff!

Hundreds of thousands of life law chains rose to the sky, stabbing the doomsday-level powerhouse who was seriously injured by the divine tribulation into a beehive. The river of life here had been cut off by Han Fei. No matter how powerful this doomsday-level powerhouse was, it was impossible for him to revive.

All of this happened in a flash. One second ago, everyone was worried that two doomsday-level ominous creatures would attack at the same time. In the next second, Han Fei counterattacked and fought three doomsday-level powerhouses alone.

A god breathed a sigh of relief. "Sure enough, he still has a trump card, and it's quite extraordinary."

The goddess smiled faintly. "Otherwise, why would he come to clear the rankings at this time?"

The pupils of the god from the Time Temple were constricted. Could a Great Monarch be so strong now?

Han Fei's sudden outburst made the two doomsday-level ominous creatures hesitate and immediately want to retreat for the time being.

"You come and go as you please? What do you take me for?"

Swish!

With a flip of Han Fei's hand, the Creation Chessboard appeared in his palm, and 23 pieces were placed in a row.

Buzz—

23 phantoms of gods appeared in a row, sealing this place.

"What?"

"Sh*t!"

"What kind of spiritual treasure is this? It can summon so many projections of gods?"

"If each of these projections can release a divine blow, how terrifying will it be?"

[God of Fishing](#)

Chapter 3368: The Strongest Record in History (5)

However, Han Fei didn't stop. He opened his mouth and spat out the Dragon Blood Soul Pearl, which glowed brightly and was branded on his chest.

Han Fei's strength soared again. This time, it was not as simple as five times his combat power. Han Fei felt that his flesh and blood were locked by a powerful force. As he activated his Original Great Dao, ten times his combat power was fully revealed.

"Slash!"

The Blood Sky Blade emitted the most dazzling brilliance. He felt that he had returned to his peak state. He could have unleashed three times his combat power, but because Han Fei was too strong at this moment, he couldn't withstand the increase in strength.

But even so, the Blood Sky Blade had almost doubled its combat power.

"Pu! Pu! Pu!"

Activating the law of life, he slashed out with the power of heaven and earth in this space, using the Time Arcane Technique to split the Immortal Slaying Knife into two.

With just one slash, Han Fei turned one of the doomsday-level ominous creatures into powder and killed it on the spot.

After all, Han Fei's combat power at this moment was nearly two million.

On the other side, 23 projections of gods launched 23 strikes in a row, which was not something an ominous creature could resist at all.

He had tried it on the dragon battlefield. At that time, he faced seven doomsday-level ominous creatures and killed two of them after consuming almost 12 divine phantoms.

Therefore, theoretically speaking, 23 phantoms of gods should be able to kill at least three doomsday-level ominous creatures. At this moment, wouldn't it be easy to deal with one?

At that moment, Le Renkuang shouted, "He's about to clear the rankings."

Zhang Xuanyu laughed. "Yes, yes."

However, at this critical moment, many giant claws extended out of the ominous mist. There was even a humanoid ominous creature that attacked in an instant.

"God Slaying Level."

On the Guardian Sea's side, the goddess scolded, "How dare a God Slaying Level ominous creature meddle in the war of the Great Monarch realm?"

However, the God Slaying-level ominous creature didn't respond. Instead, it reached out and tore apart the two divine phantoms, about to take the doomsday-level ominous creature away.

In the Guardian Sea, the goddess took action, and a Sky Subduing Jade Ruler collided with the God Slaying Level powerhouse in midair, forcing the God Slaying Level powerhouse to give up on the doomsday-level ominous creature.

However, Han Fei sneered and said in a high voice, "I had long guessed that someone would ruin my plan. However, you're just at the God Slaying level. Who gave you the courage? Kill..."

Smack!

On the Creation Chessboard, the 24th piece fell.

It was an arrow. What else could it be but the God Slaying Arrow?

Han Fei used the void as a bow and drew it with his bare hands. With a swoosh, the arrow was like thunder, instantly locking the God Slaying-level ominous creature.

Seeing this arrow, even the goddess stopped in shock. How could this blow be so powerful? No matter how many methods a Great Monarch had, how could he unleash the power of the god slaying level?

"You..."

"Pfft!"

Before the God Slaying Level ominous creature could react, it was pierced through by Han Fei's arrow on the spot. The ominous aura dissipated and it died on the spot.

Chen Lingsu was a god slaying-level powerhouse in the first place. The arrow left on the Creation Chessboard couldn't be considered an ordinary blow of a god. After being strengthened by the killing piece, its power was three times that of a god.

As soon as the God Slaying Level powerhouse died, the remaining 21 divine phantoms killed the doomsday-level ominous creature who was almost taken away in the blink of an eye.

"How dare you, Human Emperor? Your actions may lead to the destruction of the Guardian Sea."

Twelve doomsday-level ominous creatures crawled out of the ominous mist one after another. In the ominous mist, voices came out, furious.

Han Fei roared, "Shut up! Who do you think you are? How dare you speak so arrogantly here? Destroy the Guardian Sea? If we can kill a dominator of yours on the dragon battlefield, so can we in the Guardian Sea."

"Kill... a dominator?"

The gods here were all dumbfounded. Which side had killed a dominator? Where was the dragon battlefield?

Zhang Xuanyu and the others jumped up and shouted, "Feifei, kill them, kill them."

For them, after this success, the layout of the Sea Realm would be rewritten, so they were naturally overjoyed.

In the ominous mist, the voice stopped. On the dragon battlefield, the ominous had indeed suffered heavy losses. Now that Han Fei had come to the Guardian Sea, he really couldn't take the risk.

After all, this was not the real final battle.

Seeing that the other party hesitated for a moment, Han Fei was relieved. He shouted, "If you want me to stop, give up an ominous passage. Otherwise, I'll kill my way through these three passages today."

With that, Han Fei looked back at the gods of the Guardian Sea. "Seniors, please attack together with me. Even if the heavens come today, I can cover for you."

The goddess' heart stirred. It didn't matter if Han Fei was bluffing or not, but as long as they could destroy an ominous passage, it was indeed worth the risk.

She immediately shouted, "Kill!"

[God of Fishing](#)

Chapter 3369: Boundary Map of the Sea of Stars (1)

As the goddess spoke, the seven gods of the Guardian Sea, a god of the Time Temple, and Han Fei were equivalent to nine gods.

If Han Fei guessed right, the strength of the goddess seemed to be extraordinary. She was probably at the God Slaying level. In that case, the combat power of the Guardian Sea was not weak at all. If the other party only had 12 doomsday-level powerhouses, they could easily kill them.

Han Fei's strength exploded at this moment, and he and the goddess were the first to rush to one of the ominous passages. And the three doomsday-level ominous creatures guarding in front of the passage retreated to the other two passages.

In the next moment, without Han Fei and the others taking action, the mist at the front of the passage dissipated, and the ominous passage shrank into the Star Sea Broken Cliff.

"Huh!"

Han Fei was stunned. He had thought that he would have to fight no matter what. He had even been prepared for the other party to send out two God Slaying-level powerhouses, but the ominous retreated and cut off a passage.

The goddess of the Guardian City was also slightly stunned. Judging from the ominous' madness over the years, they had no reason to compromise with Han Fei!

A voice came from the remaining two ominous passages. "Human Emperor Han Fei, I'll remember you. Let's wait and see."

Han Fei narrowed his eyes slightly. "Aren't you afraid that I'll cut off your remaining two passages?"

The voice sounded again, "You can try. Although I know you're bluffing, I know you do have the ability to bluff for the time being. Therefore, I'll surrender one passage. But if you really want to start a war, I'm not afraid."

Han Fei chuckled. "At least you know your limits. Since you're sensible, that's it for today."

However, the voice snorted and sounded again, "There's no next time. If you come again, I'll definitely kill you!"

As soon as he said so, 21 black cones shot out of the ominous mist, so fast that Han Fei couldn't react in time.

Bang! Bang! Bang!

The 21 phantoms of gods exploded at the same time.

The moment this scene erupted, all the gods in the Guardian Sea were shocked. Han Fei's pupils were constricted. A god-slayer, or a dominator? The other party came too fast. Although the power of the divine phantoms was limited, they couldn't be destroyed easily. Only strong masters of the Sea Quelling Divine Level and the dominator level could do this.

"Humph! Do you think I'm afraid of you? If you have balls, come out! Don't hide inside. What's the big deal of defeating a few projections of gods? When I become a god in the future, I'll definitely come to challenge you."

Han Fei said arrogantly, but he didn't intend to fight anymore. It wasn't just because of the strength of the one in the ominous mist. In fact, that ominous creature was right. He was indeed bluffing. Although he did have another void mark to use, his goal of clearing the rankings had been achieved. He had no reason to use this void mark here.

Besides, even if they destroyed this ominous battlefield, there were still 1,079 ominous battlefields. It was meaningless to the general situation of the ominous' counterattack.

Besides, in addition to being a battlefield, the Guardian Sea was also a place for countless people to gain experience. At least, many people in the Ferocious God Valley relied on this ominous battlefield for a living. If it was really completely wiped out, it wouldn't do any good to the Ferocious God Valley or the Guardian Sea, so only fools would fight.

The gods of the Guardian Sea were speechless. Are you kidding me? They had never seen the ominous take the initiative to compromise with the myriad races. Why did they compromise this time?

However, this was not the time to talk about this. The goddess shouted in a low voice, "Everyone, retreat to the Skynet Barrier."

Since there was one less ominous passage, the pressure on the Guardian Sea was greatly reduced. Besides, the ominous had suffered such heavy losses this time, so it was almost impossible for them to recover in the short term.

It was definitely not a good choice to fight the one inside the ominous mist at this moment.

Han Fei glanced at the god of the Time Temple and said calmly, "Our Void Temple won't get involved in the matter of the ominous battlefield. Thank you, Fellow Daoists from the Time Temple."

Han Fei only called them Fellow Daoists, not Seniors, because he was speaking on behalf of the Void Temple.

At the same time, it was telling the Time Temple that since they had taken on the job of blocking the ominous, no matter how strong the enemy was, they had to defend against them.

The god of the Time Temple snorted. "Human Emperor, you don't have to worry. By the way, you'd better not take action before you grow up."

Han Fei ignored them. His figure flashed and he came to Xia Xiaochan and the others. Then, he looked at the goddess of the Guardian Sea and the gods he had seen before and nodded slightly. "Seniors, my matter has been resolved. Thank you."

The goddess nodded slightly. "In that case, Human Emperor, please help yourself."

In the next moment, Han Fei, Xia Xiaochan, and the others' wrists flashed, and their figures were pulled back to the Primordial Tower by an invisible force.

...

A moment ago.

In front of the ranking stone stele of the Primordial Tower.

When everyone saw that Han Fei's battle record stagnated at the 4,328 world-ending level ominous creatures, they certainly knew that Han Fei had encountered an doomsday level ominous creature.

Someone sighed. "Although I don't know Human Emperor's current strength, a doomsday level ominous creature is equivalent to a god. I wonder if Human Emperor can succeed."

Someone sighed. "Even if he succeeds and can kill one, it will be difficult for him to clear the rankings. He will probably fall to second place."

Everyone stared at the ranking stone stele and waited. Suddenly, an doomsday-level ominous creature popped up in Han Fei's kill count.

God of Fishing

Chapter 3370: Boundary Map of the Sea of Stars (2)

As this data appeared, Han Fei's ranking jumped to second place.

"Look, Han Fei killed a god. He did it."

"As expected of the Human Emperor. It's only been 300 years, but he has really killed a doomsday-level ominous creature."

"Will the record be broken this time?"

Buzz!

Before anyone had the time to discuss it, the number of the doomsday-level ominous creatures on the stone stele had become two.

"Hiss ~"

"So fast! The second one so soon?"

"Could there be a mistake with the ranking stone stele?"

"That's bulls * it. When has the Primordial Tower ever made a mistake?"

"But this doesn't make sense! Could it be that Han Fei has killed two doomsday-level ominous creatures alone?"

Buzz!

While everyone was exclaiming, suddenly, almost everyone in the entire Primordial Tower held their breath. This was because they saw that on the stele, in Han Fei's battle record, there was an additional God Slaying-level ominous creature. At the same time, his ranking soared to first place, breaking the record of the Primordial Tower.

"I..."

"How strong is this Human Emperor? How... how can he even kill a God Slaying-level ominous creature?"

Someone looked puzzled. "What is a God Slaying-level ominous creature? Why have I never heard of it?"

Someone sighed. "Not to mention you, most people have never heard of it. The God Slaying level is above the god level. It's said that one step up is the legendary Sea Quelling God level?"

"Is there really a Sea Quelling God?"

"How ignorant. Would the Sea Quelling God tell you that he is a Sea Quelling God? Since such an existence is recorded in ancient books, he must exist."

"That's right. We don't know because we're not qualified to know yet."

"Look, Han Fei killed another doomsday-level ominous creature."

"Crazy, is the battle in the Guardian Sea so crazy? So many powerful enemies appeared at once?"

"How strong is Han Fei? How can he kill so many strong masters?"

"He has definitely become a god. It's impossible for a Great Monarch to be so strong."

"I've never heard that a god's kill count will be displayed on the ranking stone stele!"

Buzz—

Everyone began to discuss heatedly. At this moment, Yue Lingke and Chu Hao were sitting alone in "Waiting for Someone" tavern. The two of them looked at each other. "He made it."

...

Swish, Swish ~

Xia Xiaochan and the others appeared in the Primordial Tower, but Han Fei was nowhere to be seen.

"Huh? Where is he?"

Luo Xiaobai said, "Don't worry. Let's go first. Don't forget, he defeated Li Daoyi. He deserves a chance to use the Primordial Tower."

As Luo Xiaobai expected, as soon as Han Fei appeared, he appeared on the top of the Primordial Tower. There was nothing special on the top of the tower except for a floating stone slab and some simple tables and chairs. It looked like a sightseeing place. He could even look down at many prosperous places in the Ferocious God Valley from the tower.

"I didn't expect you to defeat Li Daoyi in just two rounds. As expected of the successor of the Demon Purification Pot."

Han Fei suddenly turned around. He had just scanned this place and didn't find anyone here, but when he saw a figure walking out of a hanging painting in the tower, he couldn't help being surprised. This painting was probably not simple!

The painting was a map of the Ferocious God Valley. It was very detailed and reminded Han Fei of the Sea Quelling Painting.

"Senior Bandit God?"

There was only one person in the entire Ferocious God Valley whom his perception couldn't detect at all, and that was the Bandit God.

However, Han Fei was curious. If the Bandit God could appear here, wouldn't he be able to control the Primordial Tower at any time?

This figure walked out. He looked ordinary, like a middle-aged man who had been struggling for a living for many years. His skin was a little dark, his hair was slightly messy, and he looked a little travel-worn.

The middle-aged man waved his hand slightly. "Don't stand on ceremony. I didn't expect you to break Li Daoyi's record so quickly. I'm a little curious. You attacked so wantonly but didn't attract a dominator."

Han Fei sighed. "I might have attracted the attention of a dominator, but the other party didn't take action."

The Bandit God said lazily, "He won't take action at this time. With the Time Temple and you, a disciple of the Void Temple, both here, the ominous surely won't take this risk if it is not stupid."

Han Fei nodded slightly. He understood what the Bandit God said. What he was curious about now was why the Bandit God was here.

"Senior Bandit God, is this Primordial Tower under your control?"

"How is that possible?"

This time, it was not the Bandit God speaking, but a voice that naturally sounded from the tower.

The voice continued, "I won't be controlled by anyone. I'm just a little bored."

The Bandit God spread his hands. "Well, I'm just here to chat with him. If you can stay in the Ferocious God Valley for a long time, you can come often."

Han Fei was lost for words. Damn, the Primordial Tower could talk?

The Primordial Tower said, "It can't be helped. Few people can clear the rankings. Human Emperor Han Fei, congratulations on breaking Li Daoyi's record. Now, I can help you unconditionally once. However, it's only this once, and only in the West Wilderness."

Han Fei said, "That's easy. You should know my purpose. I'd like to ask you to protect the descendants of gods at the right time. But before that, I have a question... Who is Li Daoyi?"

"He's just a person! Li Daoyi was a strong master who lived from the Chaotic Era to the Age of Gods. Later, he went to the end of the Sea of Stars and never came back. By the way, he's not the owner of the Demon Purification Pot, but he once obtained the Demon Purification Pot."
