Chapter 3371: Boundary Map of the Sea of Stars (3)

"A person from the Chaotic Era?"

Han Fei couldn't help but ask, "Then the record of the Primordial Tower..."

"It was filled casually."

The Primordial Tower said, "He filled in the records randomly. In his words, he has to give future generations a goal."

"Well..."

Suddenly, Han Fei thought of something. "Did he cut the Star Sea Broken Cliff?"

The Primordial Tower: "Who else could it be?"

Han Fei couldn't help but smile bitterly. He knew that Li Daoyi wasn't simple. It turned out that he was even more powerful than he had imagined. How could a person who could easily cut open the Star Sea Broken Cliff only have such a level of battle record?

Han Fei couldn't help being curious. "What's at the end of the Sea of Stars?"

This time, the Bandit God said, "As a disciple of the Void Temple, you should know better what's there. If you don't know, we naturally don't know either. We only know that no one who went there returned alive, be it a god, a god-slayer, or a dominator."

Han Fei shrugged slightly. Obviously, Senior Sister Shen Le and the others didn't intend to tell them about this at all for the time being.

The Primordial Tower said, "Human Emperor Han Fei, I can help you protect the divine descendants, but there are some things I have to tell you in advance. If the other party mobilizes a dominator, I won't be able to resist it. If it's just a dominator-level method, I can block it. However, I don't think it's that simple."

Han Fei raised his eyebrows. "Why?"

The Primordial Tower said, "I've lived for countless eras. In the West Wilderness, theoretically speaking, no one can break through my protection. However, I can't guarantee it. The Central Sea Divine Realm used to be the main battlefield. Too many strong masters gathered there and left too many treasures there. I don't know if any of them can resist me."

The Bandit God also said, "I don't think it's right either. Since the appearance of the divine descendants, the Central Sea Divine Realm has been too quiet. They did nothing more than threatening the West Wilderness with force and sending some people to wander around the West Wilderness. There's no real big move at all. This doesn't make sense."

Han Fei's heart sank. "So, the Central Sea Divine Realm must have other plans?"

The Bandit God laughed. "Not necessarily. What if they really can't do anything? After all, there aren't many real strong masters in the Sea Realm, and the other places of the Sea of Stars won't allow many existences who can break the taboo to exist in the Sea Realm."

Han Fei shook his head. "The more unlikely something is going to happen, the more likely it will happen. It's impossible that the strong masters of the Central Sea Divine Realm really do nothing. They know that the revival of the divine descendants means the beginning of revenge. How can they sit by and watch me unseal the bloodline of the divine descendants?"

Han Fei frowned slightly. "Seniors, I'll take my leave first. I have to go back and discuss this matter. I wonder, if I really go to the place of the divine descendants, how can I use the power of the Primordial Tower?"

Buzz!

The floating stone slab floated to Han Fei and the Primordial Tower said, "This thing can only be activated once. Once it's activated, I can arrive anywhere in the West Wilderness in an instant. No one can be faster than me."

Han Fei took the stone slab and then looked at the Bandit God. "Will Senior Bandit God take action?"

The Bandit God smiled and said, "Haven't I already taken action?"

Han Fei cupped his hands. "I'll take my leave first."

...

In the Primordial Tower, when Han Fei appeared, he found that the tower had been solidly surrounded by three layers inside and three layers outside.

When Han Fei appeared, someone immediately exclaimed, "Look, it's Human Emperor."

"Human Emperor, I'm willing to follow you."

"Master Human Emperor, have you already become a god?"

"Master Human Emperor, I have a beautiful daughter."

"Han Fei, have sex with me if you have the ability. I won't bother you after this..."

"F*ck..."

Han Fei was speechless. He glanced at the ranking stone stele and then disappeared from the Primordial Tower.

On the stone stele, the battle records showed: 1 God Slaying-level, 3 Doomsday-level, 4,328 World-ending-level, and 78,081 Destruction-level ominous creatures.

Although the number of destruction-level ominous creatures didn't exceed 200,000, under such circumstances, he didn't have the time to kill destruction-level ominous creatures. Besides, a God Slaying-level ominous creature was more important than any number of destruction-level ominous creatures.

Now, there was no telling how long this battle record would hang on the Primordial Tower, if the Guardian Sea still existed in the future.

"Waiting for Someone" tavern.

This place was also surrounded by people, but the shop had been closed, so these people couldn't enter. As for forcing their way in, it was impossible. With Yue Lingke's strength, very few people could break into the shop.

When Han Fei came back, Xia Xiaochan and the others were already in the shop.

"You're back. Can you control the Primordial Tower now?"

Xia Xiaochan asked first.

Han Fei raised the stone slab in his hand and said, "I only have one chance."

With that, Han Fei looked at Yue Lingke and said, "Sister-in-law, do you think the Central Sea Divine Realm has any means to suppress the descendants of gods when they know that we are protected by the Primordial Tower?"

When Chu Hao heard this, he couldn't help but ask, "What do you mean?"

Yue Lingke frowned slightly. "Theoretically speaking, no. In the West Wilderness, there is no existence that can suppress the Primordial Tower. This is because the Primordial Tower is closely connected to this primordial land. If one wants to shake the Primordial Tower, he has to cut the entire West Wilderness out of the Sea Realm. It's impossible for those people from the Central Sea Divine Realm to do that."

Han Fei asked, "Is there a dominator-level powerhouse in the Central Sea Divine Realm?"

Yue Lingke continued to shake her head. "That's impossible. There aren't many dominators in the entire Sea of Stars. Even if there is really such a person, do you think he will stay in the Sea Realm? Why would he stay here?"

[God of Fishing](#)

Chapter 3372: Boundary Map of the Sea of Stars (4)

Han Fei asked, "Then do you think our trip will be blocked?"

Yue Lingke was silent for a moment. "Logically speaking, the Central Sea Divine Realm won't easily let us off. They will definitely take action to stop us, but what can they do to us in the West Wilderness?"

Luo Xiaobai suddenly said, "What if not in the West Wilderness?"

"Not in the West Wilderness?"

Everyone couldn't help but look at Luo Xiaobai, who said, "What will the first thing a divine descendant do after he recovers his bloodline?"

Chu Hao said, "Of course to make a breakthrough."

They had been suppressed in the Great Monarch realm for too long. Logically speaking, they should have had the ability to make a breakthrough, but their bloodlines were incomplete.

Luo Xiaobai asked again, "Where can he make a breakthrough?"

Han Fei, Yue Lingke, and Chu Hao were all briefly stunned.

Han Fei couldn't help but ask, "That's impossible, right? Even if the divine descendants want to make a breakthrough, they must enter the Sea of Stars outside their Origin Stars! This vast Sea of Stars is infinite. Can those people from the Central Sea Divine Realm go to the Sea of Stars to snipe them?"

Suddenly, Chu Hao and Yue Lingke were both a little stunned. Then, Yue Lingke said, "It's not impossible."

"Huh?"

This time, it was Han Fei and the others' turn to be dumbfounded. Could they find the divine descendants in the Sea of Stars?

Yue Lingke said, "If there's one thing in the Central Sea Divine Realm that can do this, it's the Boundary Map of the Sea of Stars of the West Wilderness."

"Boundary Map of the Sea of Stars?"

Han Fei's heart stirred. He had the Boundary Map of the Sea of Stars! Back then, the Sea Quelling Painting of the Thirty-Six Mystic Worlds combined to form a Boundary Map of the Sea of Stars.

This painting was the corresponding part of the Central Sea Divine Realm in the Sea of Stars. There might be an Origin Ground hidden in it, but he didn't go to the Central Sea Divine Realm, so he had never used this painting.

With a wave of Han Fei's hand, the Boundary Map of the Sea of Stars appeared.

Han Fei asked, "Is that it?"

"Uh!"

Everyone widened their eyes, and Zhang Xuanyu was lost for words. "You even have this?"

Han Fei said, "This is the Sea Quelling Painting! The Sea Quelling Paintings of the Thirty-Six Mystic Worlds became this when it was combined."

Yue Lingke said, "Let me take a look at this map."

Before Yue Lingke could take it, Chu Hao shook his head and said, "This map doesn't work. I got this map by the way when I obtained the Demon Purification Pot. It only maps a part of the corresponding section of the Central Sea Divine Realm in the Sea of Stars."

Yue Lingke asked, "Why didn't you tell me earlier?"

Chu Hao shrugged. "What's the use of telling you earlier? Do we fight our way over, or can anyone go to the Central Sea Divine Realm?"

Han Fei was puzzled. "If that doesn't work, what is the Boundary Map of the Sea of Stars of the West Wilderness, which you mentioned, like?"

Chu Hao said, "The Boundary Map of the Sea of Stars we're talking about refers to the corresponding Boundary Map of the Sea of Stars of the entire West Wilderness. It's said that in the Primordial Era, a powerful figure explored the mysteries of the Primordial Land and the Origin Stars, so he traveled through the mountains and rivers and explored the Chaos of the Sea of Stars. In the end, he drew an extremely grand Boundary Map of the Sea of Stars. This map covered the entire Primordial Land. Later, because of the ominous' attack, the strong masters of the myriad races needed to use this map to quickly go to some places in the Sea of Stars, so this map was divided into many pieces. It was controlled by the strong masters of the myriad races... Later, the myriad races withered, and the Boundary Map of the Sea of Stars of various sizes scattered in the Sea of Stars, making it difficult to find. Therefore, future generations tried to draw the Sea of Stars again and reset the Boundary Map of the Sea of Stars. But not long after they did this, the Primordial Land was shattered. After that, no one drew this map again..."

Han Fei raised his eyebrows. "Since it has long been lost, can the Central Sea Divine Realm still find it?"

Yue Lingke said, "Logically speaking, it's impossible to find them. Countless races were destroyed in the Primordial Era. God knows where their parts of the Boundary Map of the Sea of Stars is."

Suddenly, Yue Lingke perked up. "I see."

Everyone looked at Yue Lingke, who looked awful. "I see. In the past hundreds of thousands of years, the Central Sea Divine Realm has searched all over the West Wilderness. It seems that they are looking for the whereabouts of the divine descendants, but in fact, this is just their cover. Their real purpose is to measure the land of the West Wilderness and redraw the Boundary Map of the Sea of Stars of the West Wilderness."

Yue Lingke suddenly stood up and said solemnly, "100,000 years. They spent 100,000 years redrawing the Boundary Map of the Sea of Stars."

Chu Hao also looked solemn. "Those who can draw the Boundary Map of the Sea of Stars should be at least at the God Slaying level, right?"

Yue Lingke said, "No, the Boundary Map of the Sea of Stars is not something profound. You can use the West Wilderness as a node. After entering the Sea of Stars, you just need to spread your perception, mark those spatial nodes and draw a map. Not to mention gods, even Great Monarchs can draw it. It's just that the speed of drawing is different because of the difference in perception range."

Chu Hao said, "If that's the case, wouldn't the Central Sea Divine Realm have waited for this day for 100,000 years?"

Yue Lingke frowned slightly. "The Sea of Stars is so big. Even a Great Monarch might not be able to finish walking it in only 100,000 years. How can it be possible for them to draw the Boundary Map of the Sea of Stars of the West Wilderness? Even if multiple gods take action together, it will be extremely difficult."

Han Fei asked, "Wait, why don't I understand your meaning? So, the Central Sea Divine Realm does have this Boundary Map of the Sea of Stars, right?"

Yue Lingke said, "There might be, but it shouldn't be complete. Because it's too difficult, we haven't thought in this direction at all. But even if it's incomplete, it's still a huge threat. The divine descendants

have lived in the primordial ancient land of the West Wilderness for generations. Our Origin Stars must also be within the Sea of Stars boundary corresponding to the West Wilderness. Even if the world changes, their locations won't change. Therefore, once we transcend the divine tribulation in the Sea of Stars, it can be seen on the Boundary Map of the Sea of Stars. At that time, as long as they find the places where strange astronomical phenomena appear on the Boundary Map of the Sea of Stars, they can go straight to our Origin Stars and stop us from transcending tribulations."

Le Renkuang said, "Isn't it simple? Anyway, the divine descendants haven't become gods yet. Can't they just go to the Sea of Stars to transcend the tribulation through others' Origin Stars, such as Feifei's Origin Star?"

"No!"

Chu Hao said in a slightly hoarse voice, "Divine tribulations are different from other heavenly tribulations. Divine tribulations involve condensing divine persona. No matter where we transcend the divine tribulation, our Origin Stars will react. We can leave, but we can't take our Origin Stars away. Unless... unless we refine our Origin Stars and take them out of the West Wilderness. But refining our Origin Stars is tantamount to killing the goose that lays the golden eggs. Although we can temporarily strengthen ourselves, it limits our room for subsequent improvement. It can be said that if we refine our Origin Stars, I'm afraid we won't be able to reach the God Slaying level in our entire lives. Even if we become gods, we won't be able to reach the peak of the god realm. And once we can't reach the God Slaying level, no matter how strong we are, we will never be able to challenge the peak powerhouses of the Central Sea Divine Realm."

Just as Yue Lingke and Chu Hao looked solemn and their minds were in a mess, Luo Xiaobai said indifferently, "Han Fei has already helped you a lot. If you want to restore your bloodline problem, you have to pay some price. For example, let some people become gods first. The divine descendants have been lying low for so long. There should be many people stuck at the peak of the Great Monarch realm, right?"

[God of Fishing](#)

Chapter 3373: Start By Any Means (1)

"Waiting for Someone" tavern.

Among the five of them, except for Han Fei, only Xia Xiaochan had the bloodline of a divine descendant. If it weren't for Han Fei, Luo Xiaobai and the others wouldn't have even come into contact with a divine descendant.

Although Chu Hao was also a divine descendant and had helped guard the human race, it couldn't be compared to Han Fei's help to restore the bloodline of the divine descendants.

Luo Xiaobai's suggestion to let some people become gods first meant giving up on these people.

In fact, everyone present knew that if they wanted to resist the Central Sea Divine Realm, the Primordial Divine Race that only had the God of the Southern Dipper as the high-level combat power couldn't be compared to the Central Sea Divine Realm at all.

Even if the Bandit God supported the descendants of gods and the other four Divine Realms were willing to cooperate to restrain the Central Sea Divine Realm, the foundation of this war was actually the clash of gods.

At this moment, almost all the gods of the Sea Realm were in the Central Sea Divine Realm. If the descendants of gods didn't make sacrifices, even if they could fight this battle, it would be extremely difficult and even dangerous.

Luo Xiaobai said, "Senior Yue, how many God Slaying-level powerhouses are there in the Central Sea Divine Realm?"

Yue Lingke said, "Two so far, according to the countless pieces of information we gathered."

Luo Xiaobai asked, "What about gods?"

Yue Lingke said, "13. Except for the gods of the Heavenly Hidden Divine Race who were killed by Han Fei, there are a total of 13 gods."

Luo Xiaobai asked, "Do you believe it yourself, Senior Yue?"

Yue Lingke frowned slightly and didn't speak.

Luo Xiaobai changed the topic. "Senior Yue, how many gods does the Primordial Divine Race have?"

Le Renkuang was puzzled. "They can't become gods, can they? It should only be the god of the Southern Dipper, right?"

Luo Xiaobai shook her head. "It's true that the divine descendants can't become gods. However, the Primordial Divine Race might not necessarily all be the divine descendants, right? If the divine descendants didn't have trump cards, they wouldn't have let Han Fei clear the rankings at all. They could have just asked him to use the void mark to solve the problem once and for all. Why bother to let Han Fei clear the rankings?"

Even Han Fei found it a little strange. Yue Lingke said that Han Fei might need the void mark to protect himself, so she gave Han Fei the choice of the Primordial Tower.

Yue Lingke said, "Continue."

Luo Xiaobai said, "Let me try to guess. You didn't ask Han Fei to use the void mark not because you didn't want to owe him a huge favor, but because helping you recover your bloodline has already made you owe him a huge favor. Even if he uses a void mark, it will just be one more favor. Therefore, you hope that Han Fei can clear the rankings and obtain the help of the Primordial Tower. It seems that you took the initiative to help Han Fei save the void mark, but I guess in fact, you have other thoughts about the void mark, right?"

"Huh?"

Han Fei frowned slightly. Was there something Yue Lingke and the others hadn't told him?

Yue Lingke nodded slightly. "You're very smart. Yes, your guess is right. I'll tell you all this in the end anyway. But since you've guessed it, I might as well tell you in advance."

Yue Lingke said, "There are six gods in the Primordial Divine Race. As you said, they don't have the divine bloodline, but disciples we nurtured with care. So far, only one of them has been revealed, which is the master of the Southern Dipper. She was also the earliest to become a god, a god in the South Sea Divine Realm before the divine descendants were swept by the Central Sea Divine Realm. In the past 100,000 years, the divine descendants have been doing their best to nurture gods. Unfortunately, it's not easy to do it. In the end, we only nurtured five."

Han Fei said, "A hundred thousand years, five gods, it's actually very fast."

Yue Lingke said, "More than 100,000 years. The divine descendants can't become gods, so we have been nurturing gods since a long time ago. We also have a group of our own disciples. However, most of these disciples died in battle 100,000 years ago. Now, these five are Monarchs who survived back then. After 100,000 years, they became gods."

Luo Xiaobai frowned slightly. "Six is not enough, is it? If you only have six gods, it shouldn't be enough for you to have the confidence to resist the Central Sea Divine Realm."

Yue Lingke said, "The top three bandits of the West Wilderness will be our allies."

Luo Xiaobai looked at Han Fei, and Han Fei nodded slightly. "I've seen Zhan Nanye's strength. He can indeed fight a god of war, but it doesn't mean that they can fight gods for long, even if they exceed the peak of the Extreme Dao."

Yue Lingke said, "The Bandit God is on our side. You should know that."

Han Fei said, "Even if there are nine gods, plus one god-slayer and the protection of the Primordial Tower..."

As he spoke, Yue Lingke looked at him, and Han Fei laughed. Yes, he had mentioned to Yue Lingke that there was a god of divine bloodline in the Creation Divine Prison. Including him who could be barely taken as a god, there were 11 gods and one god-slayer.

In addition to the restraints of the other four Divine Realms on the Central Sea Divine Realm, in terms of combat power at the god level, it was indeed possible for the divine descendants to be on par with the Central Sea Divine Realm, if the Central Sea Divine Realm did only have 13 gods.

Yue Lingke said, "Luo Xiaobai is right. If we want to restore the bloodline of the divine descendants, we have to pay a price. I'll discuss this with our clan."

Luo Xiaobai asked, "Why did you ask Han Fei to keep the void mark?"

Yue Lingke said leisurely, "Now that you all know the history of our divine descendants, you should know that our divine descendants have had a bloodline problem since the Primordial Era. But at that time, our ancestors were still alive and extremely powerful, so no one dared to touch the divine descendants at that time. But our ancestors could do nothing to the Creation Divine Prison choosing a master, so they had no choice but to leave us an unimaginable treasure inheritance. When someone inherits the Creation Divine Prison and restores our bloodline, we can open the inheritance and return to the peak... Unfortunately, in the Age of Gods, the ominous also attacked us several times, and our ancestors were seriously injured. However, some people coveted the treasure inheritance left behind by our ancestors and plotted against our ancestors and killed them. And the treasure inheritance left behind by our

ancestors also fell into the hands of others. Although I don't know whose hands it fell into, I know that it must be in the hands of those forces in the Central Sea Divine Realm. We might not be able to find it, but you, Han Fei, can."

God of Fishing

Chapter 3374: Start By Any Means (2)

The corners of Han Fei's mouth twitched. "If this treasure inheritance is really enough for a race to rise, how can the Central Sea Divine Realm let a group of gods guard it..."

As he spoke, Han Fei's eyes turned green. "So, you want to use the strong masters of our Void Temple to snatch the treasure inheritance back?"

Han Fei finally understood. If this treasure house was held by a Sea Quelling God-level powerhouse, or even a dominator-level powerhouse, with the current divine descendants, it was impossible for them to take it back.

Yue Lingke: "Half!"

"What?"

Yue Lingke said, "The divine descendants need to rise, but the human race also needs to rise. There are few divine descendants. Although we don't have many gods, we are generally very strong and have many Monarchs. As for your human race, you have very few Monarchs but too many ordinary cultivators. If we can take back this treasure house, the divine descendants are willing to share it with the human race."

Han Fei narrowed his eyes slightly. This time, not to mention him, Luo Xiaobai, Zhang Xuanyu, and the others all fell into deep thought. Although they didn't know how much the resources were, it was probably not small. If they could really get half of them, the human race might rise.

But then they thought, Can't we keep this thing for ourselves?

Even Han Fei had the same idea.

However, he gave up on it after thinking about it. Swallowing this treasure alone was equivalent to cutting off his relationship with the divine descendants.

Han Fei was so proactive in helping the divine descendants mainly because he hoped to have such an ally. Once the divine descendants rose, not only would they be the staunchest ally of the human race, but they would also help the human race rise quickly.

Han Fei had even thought that after he joined forces with the divine descendants to take down the Central Sea Divine Realm, he would put down the position of Human Emperor. At that time, with the help of the divine descendants, the human race would be safe for generations to come.

While Han Fei was deep in thought, Luo Xiaobai came back to herself first. "We can't agree to this condition now. With the current strength of the divine descendants, it's still a problem whether you can resist the Central Sea Divine Realm or not. Besides, Han Fei is the owner of the Demon Purification Pot. This journey will definitely not be peaceful. It's difficult to guarantee that nothing special will happen

that requires him to use the void mark. Therefore, if you want to borrow a void mark, we can't agree to it. But we can make a better plan."

Han Fei's eyes glittered. "That's right! Even without the void mark, I still have the Vast Ocean Navigator. As long as I find the treasure, there will be infinite possibilities for me to snatch it."

Han Fei understood Yue Lingke's thoughts. She wanted to get these resources as soon as the crisis was resolved after the bloodline of the Divine Descendants was restored so that the Divine Descendants could make a breakthrough and rise.

However, this plan was only best for her. No matter how good the treasure was, was it more important than his life? The void mark was no longer as simple as a mark. It was a kind of confidence.

The Void Temple valued training and growth. They gave the protection of the void mark to ensure that their disciples wouldn't die under an irresistible power.

However, you couldn't encounter something that you couldn't resist every time. That wouldn't be a problem of trial. That would be courting death. The Void Temple didn't need a brainless disciple who courted death. What they needed was a strong master who could hold his own. And the premise of holding his own was that he had to ensure that he was safe. Only by living could he become a real strong master.

Han Fei wasn't afraid of death. In fact, he wouldn't die now, but he had too many things to worry about now.

Although he wouldn't die, he didn't want to find that everything was different when he came back to life. All the people he was familiar with had disappeared.

Therefore, he cherished this life very much.

Although the temptation of the treasure was indeed great, with it, he would have resources for future breakthroughs and the human race would be more likely to rise. However, relatively speaking, it was still not as precious as his last void mark.

Han Fei said, "Let's not talk about the treasure. Let's talk about our next step!"

"Wait!"

Luo Xiaobai stopped him and said, "The next step should be to discuss why the Central Sea Divine Realm still dares to attack you since they should have guessed that you have another void mark. What makes them so confident? What can they do to make your void mark useless?"

Chu Hao said, "Xiaobai! I know you're smart. Have you already guessed something? Don't keep me in suspense. Just say it."

Zhang Xuanyu also said, "Yes, tell us."

Luo Xiaobai's expression became slightly solemn. "The most direct possibility is that the other party has a dominator-level powerhouse who can resist the Void Temple. However, Senior Yue said that it's impossible for there to be a dominator in the Sea Realm. Then, there are only two possibilities left..."

"Which two?"

Everyone looked at Luo Xiaobai curiously.

Xia Xiaochan blinked. God knew how Luo Xiaobai came up with so many clues from these details. She couldn't think of it at all.

The others probably felt the same. Han Fei frowned slightly. Luo Xiaobai's words gave him a bad feeling.

Luo Xiaobai took a deep look at Han Fei and Xia Xiaochan. "The human race and Yiyi are Han Fei's weaknesses."

"F*ck!"

Han Fei and Xia Xiaochan's faces both changed drastically.

Although the human race and Yiyi were both protected, if the Central Sea Divine Realm was determined to take down the human race or Yiyi first, it was completely possible as long as their God Slaying-level powerhouse took action.

[God of Fishing](#)

Chapter 3375: Start By Any Means (3)

At that time, they would probably force Han Fei to use the void mark. And they had hostages in their hands. Even if Han Fei used the void mark, he could only hold back.

Luo Xiaobai continued, "Don't panic! For the time being, the human race and Yiyi are safe."

Han Fei asked, "Why do you say that?"

Luo Xiaobai said, "If the Central Sea Divine Realm really wanted to come to this point, they could have taken action long ago. There was no need to wait until now. After all, the Creation Divine Prison is with you. As long as they force you to hand over the sealed divine bloodline, the divine descendants will be crippled. But they didn't do that. Why?"

Han Fei frowned, but he quickly calmed down. "If they are not afraid of the void mark, then... there is only one answer. They hope that the divine descendants can restore their bloodline."

"That's right!"

Luo Xiaobai said firmly, "The reason why they haven't attacked Yiyi or the human race now is that they don't want to fight your Void Temple in advance. Just because they don't want to doesn't mean they don't dare."

"Wait! You're confusing me. The Central Sea Divine Realm wants the divine descendants to recover our bloodline?"

Chu Hao was surprised. Was the Central Sea Divine Realm crazy?

Luo Xiaobai said, "If Senior Yue hadn't mentioned the treasure inheritance before, I wouldn't have understood. But now, the answer should be more obvious. The Central Sea Divine Realm has two purposes. One is to open the treasure of the divine descendants."

Yue Lingke asked, "What's the second?"

Luo Xiaobai said, "Even if the Central Sea Divine Realm allows the bloodline of the divine descendants to recover, they won't give you a chance to return to your former peak. Instead, for the divine descendants who have completely recovered their bloodline, it should be more meaningful for them to snatch the power of your bloodline, right?"

Xia Xiaochan said, "In other words, they won't really attack until the divine descendants' bloodline recovers."

Luo Xiaobai nodded. "That's right. What I'm more curious about is how to open the treasure of the divine descendants. I'm afraid the Central Sea Divine Realm has already mastered this method, right?"

"Impossible!"

Yue Lingke shook her head. "There are three conditions to open the treasure of a divine descendant. Firstly, the bloodline is complete. Secondly, it requires a thousand bloodlines of the same origin. The bloodline we inherited comes from different gods. A thousand bloodlines means a thousand bloodlines of different origins."

Han Fei said, "But 100,000 years ago, the divine descendants were swept away and many died. This is probably not a problem for the Central Sea Divine Realm."

"Therefore, there's a third condition: the God Returning Token. There are eight of them. They were originally in the hands of the eight elders of the Divine Descendants. Although three of them were lost in the battle 100,000 years ago, there are still five on our side. For example, I have one with me."

Han Fei asked, "Can it be replicated? I mean reproduce it."

Yue Lingke shook her head. "No. This is transformed from the flesh and blood of our ancestor in the past, who died in the ominous battle. Therefore, the God Returning Token can't be reproduced."

Luo Xiaobai said, "If there's a possibility of reproduction, it means that you're in a more dangerous situation. Since the Central Sea Divine Realm dares to let your bloodline revive, they must be fully prepared. In other words, they are absolutely confident that they can destroy the divine descendants. Their confidence comes from strength, which shows that they have greater strength than we know."

Yue Lingke asked, "Are you saying that there is a Sea Quelling God in the Central Sea Divine Realm?"

Luo Xiaobai said, "It's hard to say. It's not impossible for the Central Sea Divine Realm to hide a Sea Quelling God. Even if it's not a Sea Quelling God, they must have trump cards to deal with the descendants of gods."

Then, Luo Xiaobai continued, "In fact, the information that the divine descendants can get might not be what they want you to know. And the people from the Central Sea Divine Realm might have already considered what we can consider, so they are fearless. This is because in the eyes of the strong masters of the Central Sea Divine Realm, even if the divine descendants recover their bloodline, they will definitely lose... However, there is a variable..."

Luo Xiaobai looked at Han Fei. "Your existence is a variable. You've broken the record of the Primordial Tower, and you have a void mark. They have to control you first to ensure that nothing goes wrong."

Therefore, I think you need to break the power that can keep you in check first. Only in this way can you really break the situation. What you should do now is not to recover the bloodline of the divine descendants."

Luo Xiaobai's analysis was logical and indeed made sense. If the Central Sea Divine Realm really had the confidence to force Han Fei to use the void mark on the human race or Yiyi, if there was really a Sea Quelling God-level powerhouse in the Central Sea Divine Realm, once a war started in the West Wilderness, they would definitely lose.

As for whether Luo Xiaobai's analysis was accurate or not, it was simple to check.

Han Fei took out the Vast Ocean Navigator on the spot, and a map of the East Sea Divine Realm appeared around him.

Han Fei asked, "Point out the exact location of the God Slaying-level powerhouses from the Central Sea Divine Realm in the East Sea Divine Realm."

He asked this because it was impossible for a god-level powerhouse to deal with Yiyi or the human race under the watch of Li Tiangan, Xie Wukuan, and the Hidden Monarch City.

Then, if the Central Sea Divine Realm wanted to use Yiyi or the human race to threaten Han Fei or even make him waste a void mark, they could only mobilize God Slaying-level powerhouses.

Immediately, everyone looked at the Vast Ocean Navigator, and Xia Xiaochan's breathing quickened.

The Vast Ocean Navigator turned and pointed at a place less than half a light year away from the East Sword Pavilion.

Buzz!

Han Fei's blood was surging, and his face was extremely ugly.

Le Renkuang asked, "Are these people from the Central Sea Divine Realm already so despicable and shameless?"

Zhang Xuanyu also cursed, "Shameless! A god-slaying level powerhouse wants to attack a child?"

Xia Xiaochan's eyes were cold. "Damn it, which force is this God Slaying-level power from?"

Yue Lingke said, "Don't panic yet. Since Xiaobai has foreseen this, it means that we have the upper hand now. I'm afraid those people from the Central Sea Divine Realm don't know that we have already guessed their plan."

Chu Hao said, "Indeed. The problem now is what to do with this God Slaying-level powerhouse? Can we kill him without relying on the Void Temple?"

Han Fei's pupils were constricted, and he pondered for a long time. "Yes."

Chu Hao asked, "How? I know you killed a God Slaying-level ominous creature, but a God Slaying-level ominous creature and a God Slaying-level powerhouse of the myriad races are probably two different concepts."

Luo Xiaobai also said, "I have to remind you that since the Central Sea Divine Realm has already set up an ambush in the East Sea Divine Realm to take Yiyi down to coerce you, it means that they already have the means to deal with the Void Temple. Otherwise, they would never dare to be so unscrupulous. As for what trump cards they have, I really can't guess. However, I suggest quietly bringing Yiyi and the human race into your Origin Star first. Then, you can choose to fight or retreat freely. At least, it can ensure that you don't have any weaknesses."

After a moment of silence, Han Fei slowly said, "In the end, all complicated things will go to who is strong and who is weak. Since the Central Sea Divine Realm has begun to use unscrupulous means, I can do it too... Girl, do you want to see your daughter?"

Xia Xiaochan trembled slightly. "Of course."

Zhang Xuanyu said, "And us."

Han Fei shook his head. "There's no need for too many people to go back. Xiaobai is right. I can't have any weaknesses. From today on, our war against the Central Sea Divine Realm has already begun. This battle will last until all the strong masters of the Central Sea Divine Realm die."

...

[God of Fishing](#)

Chapter 3376: Father and Daughter Reunite, Awkward (1)

In the Sea of Stars, Han Fei didn't summon the Distanceless Gate immediately.

As the saying went, sharpening the knife didn't delay the cutting of firewood. Chu Hao was right. The God Slaying-level ominous creatures and the God Slaying-level powerhouses of the myriad races were two different concepts. If he underestimated the God Slaying-level cultivators, he would be making a big mistake. This was an existence that could break the shackles of a god.

Qiu Wanren was still floating in the Sea of Stars outside Han Fei's Origin Star. Seeing Han Fei appear again, he couldn't help but ask, "Are we going to war?"

Han Fei said, "Senior, we're going to war, but we'll face a lot of trouble."

Qiu Wanren said, "I'm already a god-slayer, plus the Bandit God you mentioned before. Isn't this enough?"

Han Fei asked, "Senior, what if I say that the enemy might have a Sea Quelling God level powerhouse?"

Qiu Wanren was stunned. "A Sea Quelling God is cooped up in such a small place?"

Han Fei said, "The Sea Realm is the origin of all races. I wouldn't be surprised if a Sea Quelling God is here. Besides, he might not be in the Sea Realm, but he can reach here at any time."

Just a moment ago, before Han Fei left the tavern, he searched with the Vast Ocean Navigator but didn't find a Sea Quelling God-level powerhouse in the Sea Realm.

However, this didn't mean that the Sea Quelling God wouldn't appear in the battle of the divine descendants.

Qiu Wanren frowned deeply. "Then do you mean that this battle is impossible to fight? How about I secretly go to the divine descendants and restore their bloodline?"

Han Fei shook his head. "It's useless. Recovering the bloodline of a divine descendant now is equivalent to pushing them to death."

"How is that possible?"

Seeing that Qiu Wanren didn't believe him, Han Fei explained Luo Xiaobai's speculation to him.

After a while, Qiu Wanren's expression turned extremely ugly, but after his expression changed a few times, he said, "Even if the other party has a Sea Quelling God, it's not impossible to fight him."

"Oh?"

Han Fei hurriedly said, "Old Fierce?"

Qiu Wanren nodded. "Yes, the problem is that it's a little difficult to let him out now. If you want to unlock the third level of the Creation Divine Prison, you have to kill a God Slaying Level powerhouse. However... you haven't become a god yet. Even with my help, I'm afraid it's impossible. After all, I've just advanced to the God Slaying Level. Although my methods may be a little different, I'm afraid it's very difficult to kill a God Slaying Level powerhouse."

Han Fei's heart stirred. "Senior, can you tell me how strong the God Slaying Level is? I've never had a good concept of it. For example, after you advanced to the God Slaying Level, how much stronger were you than in the God Realm?"

Qiu Wanren said, "In terms of pure strength, it's about twice as strong!"

Han Fei was stunned. "Be twice as strong after breaking the shackles of the divine persona?"

Qiu Wanren said, "Don't make a fuss. You might have misunderstood something. As far as the gods are concerned, the standard of combat power doesn't completely depend on who is strong and who is weak. In a sense, the God Slaying level hasn't completely surpassed the divine level. It's just a difference in quantity. For example, if the god is a water ladle and the law of the Heavenly Dao is water, then the God Slaying level is a mouth vat that can contain more water. Water is water. Perhaps the water in the god's ladle is muddier because the law they master isn't deep enough. And the water in the God Slaying level vat is relatively clear. But in essence, they are all water and aren't much different, so the difference in strength between the gods and the God Slaying level isn't much, only one or two times. But the strength of the God Slaying level lies on the change in the magnitude between a ladle and a vat. Therefore, if you ask me how strong the gods and the God Slaying level are, I can tell you clearly that what is strong is the magnitude, not strength."

Han Fei said, "It still can be classified as strength. Gods can grasp one point, while the god slaying level can grasp ten points."

Qiu Wanren was lost for words. "No, you don't get what I mean. Gods and God Slaying level are both one point. The difference is that there is only one point for gods, but there are ten points for God Slaying level, and one point for God Slaying level is equivalent to two points for god-level... Uh, I've been led astray by you. Anyway, do you understand?"

Han Fei couldn't help but laugh. "Senior, I know. You have a fruit knife, and I have ten kitchen knives. If you cut me with one knife, you will have no knife left, but I might still have ten knives that can kill you."

"What kind of analogy is that? But it's not much different!"

Han Fei asked, "Senior, how many gods do you think you can beat after you advance to the God Slaying level?"

Qiu Wanren pondered for a moment and said, "In theory, it's not a problem to fight a hundred of them. But in fact, it's not like that. As I said just now, the level of power controlled by a god and a god-slayer is basically the same. Since a god-slayer can kill a god, a god can also kill a god-slayer. Therefore, if we really fight head-on, even a god-slayer can't resist four hands with two fists. Even if we can fight a hundred gods alone, we'll be almost crippled and need to rest and recover."

Han Fei couldn't help but nod. Suddenly, he said, "Senior, what's your current combat power, such as soul power?"

Qiu Wanren said, "It's not appropriate for you to take me as the measurement, because I'm stronger than Extreme Dao Soul Refiners. About four million!"

"Four million?"

Han Fei was dumbfounded. Qiu Wanren had just broken through to the God Slaying level. Perhaps as he said, he had created the Dao of pure soul. Although he hadn't embarked on this path, he had created a new path and would indeed be stronger than ordinary God Slaying-level powerhouses. However, 4 million combat power still made Han Fei feel a little helpless. Even if he used the Dragon Blood Soul Pearl, his peak combat power was only more than 1.8 million.

[God of Fishing](#)

Chapter 3377: Father and Daughter Reunite, Awkward (2)

Qiu Wanren said, "However, according to your combat power, a God Slaying-level powerhouse is at least above 2 million. It seems that my 4 million combat power may be very strong, but our strength levels are the same, so it's very difficult for you to directly kill a God Slaying-level powerhouse with 2 million combat power, but you can certainly hold him off. If you launch a successful sneak attack, there's a possibility of killing him."

Han Fei couldn't help but ask, "Senior, what do you think of the Sea Quelling God-level?"

"Nothing."

Qiu Wanren sneered and said, "As a Great Monarch, don't think so much. It's extremely difficult for the two of us to kill a God Slaying-level Monarch. I advise you not to try. Just quietly hide your human race. Then try to see if you can sneak attack and kill a God Slaying-level Monarch. This is the best choice."

Han Fei shook his head. "It's impossible for me to lie low for the time being, and I don't have the time to try. Senior, believe me, I must kill a God Slaying-level powerhouse."

Qiu Wanren: "..."

Putting Qiu Wanren into the Creation Divine Prison, Han Fei went straight to Hong Yue's Origin Star City and summoned him.

"Master Human Emperor? Did something happen?"

Seeing Han Fei appear again, Hong Yue's heart skipped a beat. Every time Han Fei appeared, something would happen.

This time, needless to say, there must be something.

Han Fei said, "Go back and ask Xie Wukuan to secretly ask the Demon God to return. Tell him that the thousand-year agreement between me and him will be over in advance. This time, I need his help. And ask him to be extremely careful not to be discovered by others."

Buzz!

Hong Yue was immediately refreshed. Was the thousand-year peace of the human race coming to an end? They even needed gods' help this time?

Hong Yue immediately looked tense. "I, I'll do it right away."

Han Fei nodded. "Be quick. You need to inform me as soon as the Demon God returns."

"Got it."

Han Fei said, "Apart from the Demon God, find a random reason to go to the Hidden Monarch City. Find the Goddess of Light and ask her to protect the human race in the next few days. Tell her that this is a favor for me."

Hong Yue's eyelids twitched. "Master Human Emperor, is the human race in danger?"

Han Fei asked, "Don't ask. By the way, is the human race still holding the Spirit Gathering Day?"

Hong Yue nodded. "Yes. Master Han Xuan said that if the human race wants to rise, we have to be willing to spend resources. Therefore, the human race has been holding Spirit Gathering Days. On average, it's held every ten years."

Han Fei asked, "How long has it been since last time?"

Hong Yue said, "Almost eight years."

Han Fei said, "Hold it in advance this time, and make the scale unprecedentedly grand. Just say that it's to seek benefits for the human race in all aspects."

Hong Yue said, "I'm afraid the consumption of resources will be extraordinary."

"It doesn't matter. Even if it will squeeze out all the resources of the current human race, it doesn't matter."

"Yes!"

...

After meeting Hong Yue, Han Fei closed his eyes and thought for a moment. Although the Vast Ocean Navigator didn't show that there was a God Slaying-level powerhouse lying in ambush near the Infinite Mining Area, he couldn't be careless.

The people from the Central Sea Divine Realm had already begun to resort to unscrupulous means. He couldn't count on their conscience and bottom line. Therefore, he still had to be prepared.

As long as the Demon God returned, with his strength, even if he wasn't at the God Slaying level, he wouldn't be far from that level. Even if he had just entered the God Realm, ordinary gods couldn't compare to him.

Han Fei waited in the Sea of Stars for seven days in a row until Hong Yue appeared and said that the Demon God had quietly returned.

Buzz!

Han Fei activated the token and summoned the Distanceless Gate.

When the Distanceless Gate appeared again, Han Fei said, "Old Distanceless, this time, I'm going to do something big. During this period, I may need you many times, but I don't have time to kill the ominous. Is that okay?"

The Distanceless Gate: "What are you going to do?"

Han Fei said, "You don't have to worry about what I'm going to do. Anyway, you just need to know that no matter what I do, it's for the sake of better eliminating the ominous in the future. Look, last time I went to the Watch Sea, I killed three doomsday-level powerhouses and one God Slaying-level powerhouse. This is just the beginning."

The Distanceless Gate: "Are you guys going to fight among yourselves?"

The Distanceless Gate was not stupid. Although he didn't get involved in the matters of the West Wilderness and the Central Sea Divine Realm, it didn't mean that he didn't know.

Han Fei said solemnly, "The Sea Realm needs to be unified, and the Central Sea Divine Realm has decayed. I want to reorganize the Sea Realm. I don't expect you to understand. So far, although I have borrowed you many times, you should know that my attitude towards the ominous is far firmer than those people in the Central Sea Divine Realm. They hide a bunch of gods and avoid fighting the ominous. You should know that, right?"

The Distanceless Gate: "Am I participating in the internal strife of the myriad races?"

The Distanceless Gate seemed to be thinking. He was created to send people to participate in the ominous war, not civil wars. This caused some contradictions in his self-cognition.

Han Fei said earnestly, "There are a total of nine Distanceless Gates. The purpose of your existence is to better help the strong masters of the myriad races march quickly to deal with the ominous. However, you have existed for so long. You should know that the myriad races are not one race. They can be united in the full-scale invasion of the ominous. At other times, they mostly fight each other. This time, it's the third real ominous invasion since the Chaotic Era and the Primordial Era. As a Distanceless Gate, you should know what kind of war is going on at the end of the Sea of Stars. At this time, do you expect

those trash from the Central Sea Divine Realm to continue to rule the Sea Realm, or do you expect me, the owner of the Demon Purification Pot, to lead the myriad races?"

God of Fishing

Chapter 3378: Father and Daughter Reunite, Awkward (3)

The Distanceless Gate: "Okay, I believe you. But after this, I hope you can kill the ominous better than continue to fight among yourselves. Otherwise, I will never help you in the future."

"It's a deal. Old Distances, your efforts will eventually be rewarded. When I become a god in the future, I will definitely take you to kill all the way to the end of the Sea of Stars."

Buzz ~ Buzz ~

Han Fei's words seemed to touch the heart of the Distanceless Gate, making the entire door tremble slightly.

"I'll wait for you."

Han Fei smiled and thought to himself, After all, he's just a door. His intelligence is still limited. He got excited so easily!

However, he didn't lie. After all, he did have to embark on the path of fighting against the ominous in the end. However, the premise was that he had to break the bottleneck of the Supreme Divine Technique.

...

East Sea Divine Realm, East Sword Pavilion.

This was a sea of swords. Since ancient times, countless sword cultivators had come with full expectations, but they returned with regrets. Not everyone could enter the East Sword Pavilion, but their sword intent and sword Qi often left a mark in the trial of the East Sword Pavilion.

There were three forbidden areas in the East Sword Pavilion, which were:

Hidden Sword Cliff, where there were countless peerless swords hidden at the Hidden Sword Cliff, waiting for the fated person.

The second was the Primordial Sword Tomb. In the Primordial Sword Tomb, there had been countless sword cultivators since ancient times. This was a place for sword trials and sword burial.

Sword Fire Divine Mountain gathered the ancient sword Qi of the East Sword Pavilion. Every once in a while, sword fire would naturally be born and divine swords would be nurtured from it.

At this moment, in the Primordial Sword Tomb, a girl with an exquisite face and sharp eyes was dancing in the sword tomb with a thin blade of grass as a sword. The red ribbon at the back of her neck danced with the wind. Infinite sword Qi came one after another like a river bursting its dam, washing towards the girl.

Although the girl was as agile as a fish dragon dancing, and the grass sword flew around her wrist, she couldn't take a step forward in the end.

Just as there was more and more sword Qi around the girl and she was about to be drowned, a powerful sword intent burst out of the girl. As soon as this intent appeared, all swords surrendered.

Unfortunately, this was not enough. Some sword Qi ignored this powerful sword intent and continued to gather towards the girl.

Not far away from him, a young man stood proudly in the middle of the infinite sword Qi, but all the surrounding sword Qi brushed past him, and no sword Qi touched him.

The man said, "Have you ever seen a girl walk this path? Your sword intent has to match your own characteristics. This intent is even inferior to your Tai Chi Sword Intent. Try again..."

The girl retreated dozens of steps and curled her lips. "Master, I've already comprehended 192 sword intents. Why are you not satisfied with any of them? Then what kind of sword intent do you think is strongest?"

"Hmph!"

Li Tiangan snorted. "It's useless even if you comprehend ten thousand kinds of sword intent that are not compatible with you. You have to comprehend the sword intent is what suits you best. Forget it. Perhaps you haven't seen enough of the world. Go back and prepare. I'll take you into the mortal world to gain experience tomorrow..."

"Ah! Really, Master?"

The girl was naturally Han Chanyi. At this moment, she jumped up happily. Experience in the mortal world! She had been looking forward to it for a long time.

Li Tiangan: "Of course..."

However, before Li Tiangan finished speaking, he suddenly looked into the depths of the Primordial Sword Tomb, and his pupils were constricted.

He said, "Your appearance surprised me."

Han Chanyi looked puzzled. "Master, who are you talking to?"

She instinctively realized that something was wrong, because most of the time, she saw Li Tiangan with a cold face, but at this moment, he looked solemn.

In the depths of the Primordial Sword Tomb, sword intent suddenly surged, and infinite sword intent bloomed with power, as if resisting something.

In Han Chanyi's eyes, she saw a blurry figure walking from the depths of the Primordial Sword Tomb. Wherever the figure passed, the sword intent nearby was dyed golden.

A sword intent that Han Chanyi had never seen before suppressed the myriad intents of the sword technique. That sword intent seemed invincible, but Han Chanyi was no stranger to it.

"Invincible sword intent?"

Han Chanyi's eyes were shining. The invincible sword intent represented the path of invincibility. As far as she knew and had seen, there was only one person who walked the path of invincibility, and that was her father.

Besides, at this moment, Han Chanyi felt that her bloodline was trembling, which was a resonance from her bloodline.

Yes, she already knew who was coming.

Li Tiangan snorted. "Don't show off your half-baked path of invincibility. You won't be qualified to suppress the Primordial Sword Tomb until you comprehend the true path of invincibility."

With that, Li Tiangan simply waved his hand, displaying an unparalleled sword intent that soared through the sky. In an instant, it shattered the invincible sword intent that was suppressing countless other sword intents.

"Senior, don't embarrass me in front of my daughter!"

"Then show up."

As he spoke, Han Fei had already walked out of the depths of the Primordial Sword Tomb. As the dignified Human Emperor, he was a little uneasy at this moment.

Han Chanyi's eyes widened as she looked at the man in front of her who looked no different from the statues in the human race. Bathed in golden light, she was a little absent-minded.

But then, the little girl immediately straightened her face, raised her chin, and snorted. "Uncle on the opposite side, please mind your words. There is only me and my master here. Your daughter is not here."

[God of Fishing](#)

Chapter 3379: Father and Daughter Reunite, Awkward (4)

"Uncle?"

Han Fei was stunned. Why does Yiyi call me 'Uncle'?

However, Han Fei immediately smiled. Han Chanyi's little tantrum was not a problem at all. Unlike him, she was born in the Sea Realm. When he was young, he didn't know who his parents were at all and didn't have any information source, but she was different. Therefore, this girl was just angry. She was implying to him to appease her.

"Oh! Really? Then whose daughter are you? You look so pretty and cute. If no one wants you, I'll take you back as my daughter."

Han Chanyi blushed and tried to look fierce. "Who are you? Who are you smiling at? Master, drive this uninvited guest away."

Li Tiangan said, "Those who come are guests. I can't drive him away but you can do that."

"Master..."

Han Fei chuckled and went to Han Chanyi, who immediately grabbed Li Tiangan's sleeve nervously, snorted, and looked away.

"Stranger, please stay away from me."

Han Fei cheekily took out a large bag of crisps and said, "Girl, for the sake of your master, give me some face. These are crisps that I carefully cooked. They're crispy and delicious."

"Who is your daughter? Don't call me that."

"Humph, it's just crisps. Why do you act like I haven't eaten anything good? I've been eating them since I was young. I've had too much of them."

"Uh ~"

Han Fei looked at Li Tiangan awkwardly. Li Tiangan: "Don't look at me. It's your daughter."

"Master, please don't speak recklessly. My father is a wooden man who enjoys spending his days at home tending to flowers, planting trees, and raising birds. However, he knows how to make others happy. Unlike some uncle who popped up out of nowhere and started claiming to be my father!"

Han Fei was embarrassed again. He hadn't taken care of this child for a day, so he wasn't very good at communicating with her!

Han Fei was discouraged. "Okay! Then may I ask this young lady, how can I calm down your anger?"

"I'm not angry. Why should I be angry with a stranger?"

Han Fei had a headache. He said with a buzz, "I'm your father. How can you keep calling me 'Uncle' and 'Stranger'?"

"Hmph! Whatever!"

Then, Han Chanyi rolled her eyes. "Besides, you can't be my father. My father once entrusted someone to tell me that he would appear in front of me in the most grand way. Tsk... It's really grand! I, Han Chanyi, have never seen such a grand way since I was born..."

"Cough, cough!"

Han Fei couldn't have felt worse. He seemed to have said that to Hong Yue before. Well, now his boasting had backfired!

Li Tiangan couldn't help shaking his head slightly. Even though he was a cold sword cultivator, he still felt embarrassed for Han Fei.

In the end, Li Tiangan couldn't stand it anymore and asked, "Did you come back alone?"

"Oh, no, with my wife."

Han Chanyi's eyes lit up.

It was true that she was angry at Han Fei, but she couldn't be angry at Xia Xiaochan. Born in the Thug Academy, she knew Han Fei's past too well. From Han Fei being a small fisher in the Heavenly Water

Village to leading the human race to the Infinite Mining Area, everything had been recorded in detail. This was already a very important history of the human race. It was impossible for her not to know it.

However, she could only hear about Xia Xiaochan's deeds from Grandpa President and the others. It was said that in order to give birth to her, Xia Xiaochan had to reincarnate and was on the verge of death several times.

Besides, she knew very well why Han Fei and Xia Xiaochan left. That was why she was angry at Han Fei the moment they met, but she didn't really hate him. And she couldn't even be angry at Xia Xiaochan.

Next to Han Fei, the phantom of a world appeared, and Xia Xiaochan appeared.

Xia Xiaochan saw what happened just now, but when she really stood in front of Han Chanyi, her eyes were filled with tears.

"Yiyi... I'm sorry. I haven't come to see you until now."

Han Chanyi had already turned her head to look at Xia Xiaochan. She could see Han Song and Zhang Daqian. In a sense, she did see Han Fei often. However, this was the first time she had seen Xia Xiaochan except in portraits.

At this moment, seeing that Xia Xiaochan was sobbing, she couldn't help but sniffle, and tears welled up in her eyes.

"Mom?"

Han Fei couldn't help but smile awkwardly. Why did Yiyi treat him differently? Isn't it said that daughters are their father's darlings?

Xia Xiaochan wiped her tears and smiled. "Yiyi, your father's appearance was indeed embarrassing. However, we have to come back this time. No matter how embarrassing it is, we have to come back."

Han Chanyi didn't understand what Xia Xiaochan meant at first, but Li Tiangan interrupted them. "What happened?"

Han Fei glanced at Xia Xiaochan, who said, "Yiyi, I held you when you were born. Are you willing to tell me how you've been all these years? I really want to hear it."

However, Han Chanyi was actually not young anymore. In the eyes of Han Fei and the others, only a few hundred years had passed, and Han Chanyi was still a child. But in fact, Han Chanyi was already hundreds of years old, and her strength had reached the peak of the Sea Establishment realm, the extremely powerful kind. At this moment, she was actually very independent.

Han Chanyi said, "Mom, I want to hear too."

Xia Xiaochan was briefly stunned, and Li Tiangan also said, "The ominous has returned. We don't know if there will be a tomorrow for the myriad races. Everyone needs to carry a heavy burden forward. Let her listen!"

Han Fei paused for a moment and nodded slightly. "A God Slaying level powerhouse is going to attack Yiyi..."

God of Fishing

Chapter 3380: Han Fei Kills A God slaying-level Powerhouse (1)

"God Slaying-Level?"

Li Tiangan frowned, clearly unhappy.

"Has the Central Sea Divine Realm reached this point?"

Han Fei said, "In the battle of the Sea Realm, the winner is the king. For the Sea of Stars, this might just be a small matter. I'm afraid no one will care about these trivial matters. They just want to see the result."

"God Slaying-Level?"

Han Chanyi thought to herself, She might be angry at her father, but she was not stupid. Being able to force her incredibly busy father to come back in person, it couldn't be a simple character.

Besides, from the name alone, it could be seen that this was probably a realm higher than that of a god. Han Chanyi's heart sank. Could it be that her parents were facing strong masters of this level outside?

Li Tiangan asked, "What do you need me to do?"

Han Fei asked, "Senior, what's your current combat power?"

Li Tiangan pondered for a moment. "If it's just this, above 1.4 million, the limit is no more than 1.6 million. If it's against a God Slaying level powerhouse... it's not enough. I might be able to block the other party for a hundred seconds. I'm afraid that's the limit."

Han Fei's heart trembled. This was already very strong. Li Tiangan and the others had lived in the Godfiend Sea for nearly two million years, but now they had such combat power less than a thousand years after becoming gods. It was already extremely terrifying.

Han Chanyi's eyes widened. Even her master could only resist that strong master for a hundred seconds? But her parents hadn't become gods yet! How could they resist such a strong master?

Han Fei paused. "The Demon God has returned."

Li Tiangan said, "In our ultimate state, the two of us can resist him for half an hour at most. The Demon God is stronger than me, but sword cultivators are good at fighting and killing enemies. In terms of ultimate combat power, the Demon God is at most 30% stronger than me. Perhaps he can barely reach the God Slaying level. But there's a gap between him and a real God Slaying level cultivator."

"The Goddess of Light will take action too."

Li Tiangan said, "An hour."

Han Fei was slightly relieved. The Goddess of Light shouldn't be as strong as Li Tiangan and the Demon God, but her combat power must be above a million. After all, the Goddess of Light could fight three doomsday-level ominous creatures alone. It shouldn't be a problem for her to help the two of them.

Han Chanyi was really a little shocked at this moment. She knew the name of the Demon God. It was said that the Demon God would protect the human race for a thousand years and was even stronger than her master. As for the Goddess of Light of the Hidden Monarch City, she once wanted to take her as her disciple, but she wanted to learn swordsmanship, so she didn't go.

Now, even if the three gods joined forces, they could only resist the god-slaying level powerhouse for an hour? What kind of terrifying existence was that?

Han Fei said, "Senior, I want you to help me join forces with the Demon God and the Goddess of Light to guard the human race. So far, I haven't found any God Slaying-level powerhouses in the Infinite Mining Area, but I feel that something is wrong."

Li Tiangan couldn't help but look at Han Fei. "Then where did you find a God Slaying-level powerhouse?"

Han Fei and Li Tiangan looked at each other. "The outer domain of the East Sword Pavilion."

Buzz!

In the Primordial Sword Tomb, countless sword intents trembled slightly, which showed that Li Tiangan was not calm either.

Li Tiangan asked, "Do you suspect that two God Slaying-level powerhouses have come to the East Sea Divine Realm?"

Han Fei said, "That's possible."

In fact, what Han Fei was worried about was the Chaotic Divine Race. Jiang Buyi had a way to block the Vast Ocean Navigator, so could the others of the Chaotic Divine Race.

He had never come into contact with the Hidden Divine Seal, but it was a Supreme Nature Treasure after all. It was probably more than that. Therefore, he didn't dare to take the risk. The human race needed someone to guard it, and he was only familiar with these people.

Li Tiangan said, "If we all go to the Infinite Mining Area, what about the God Slaying-level powerhouse near the East Sword Pavilion?"

A trace of ruthlessness appeared in Han Fei's eyes. "This person will definitely die in half an hour."

"Okay."

Li Tiangan didn't ask further. If he didn't have a trump card, Han Fei wouldn't have said such a thing. Besides, the East Sword Pavilion had its own source of information.

He knew a little about Han Fei's experiences outside over the years. Since Han Fei was sure that the God Slaying-level powerhouse would die, he chose to believe him because he knew that Han Fei's luck was too good. Compared to the decaying Central Sea Divine Realm, he was more willing to believe Han Fei.

Then, Li Tiangan looked at Han Chanyi. "Since you're back, will Yiyi go with you?"

Han Fei looked at Han Chanyi with a smile and then back at Li Tiangan. "Before the war is over, the Infinite Mining Area is no longer a safe place for the human race. Now that I've returned, I'm going to take away the entire human race."

Li Tiangan nodded. "When will you take action?"

Han Fei said, "Speed is the most important in war. Now."

Han Chanyi hurriedly said, "I'm going back to the human race. Grandpa President and the others are all in the human race."

Xia Xiaochan said, "Yiyi, the battle in the East Sword Pavilion will end soon. When your father solves the matter here, we will go to the human race as soon as possible. I can't help your father in this battle, so I'll take you to watch the battle above the god realm in your father's Origin Star."

"Above the god realm?"

Han Chanyi glanced at Han Fei and pretended not to care. However, she really wanted to watch the battle above the god realm. She had never seen a god fight in her life, let alone one above the god realm.

Li Tiangan asked Han Chanyi to listen in because he wanted to give her some pressure and make her realize that the human race was at peace now because someone had been standing in front of the human race.

Li Tiangan also said, "Yiyi, your mother is right. Your father will go to the human race soon after the battle. If I take you with me, once someone ambushes me and I die, you will definitely become the enemy's trump card to threaten your father and the entire human race. You have to consider the big picture."
