Chapter 3381: Han Fei Kills A God slaying-level Powerhouse (2)

"OK!"

...

On Han Fei's Origin Star.

Xia Xiaochan was watching the sky with Han Chanyi, who said, "Mom! Can this uncle do it? I heard that he hasn't become a god yet. How can he fight a god-slayer?"

At this moment, Han Fei had turned into a black fog and was floating outside the East Sword Pavilion. Hearing this, he was full of mixed feelings. Women! Whether young or old, they were very good at infuriating people.

Han Fei said leisurely, "Little girl, I've never lost a battle. I can destroy a mere God Slaying level powerhouse with a flick of my finger."

"Heh! Uncle, give me a break!"

Xia Xiaochan didn't know whether to laugh or cry. "If this uncle says he can do it, he can! When you need to hand over your fate to him, believe him."

"Mom, can you remove the seal on me?"

Xia Xiaochan said, "Yiyi, your bloodline is too strong. It's not a good thing to walk too fast. When your father was a peak-level Venerable, he spent as many as two hundred years staying in the mortal world to gain experience. If I remove your seal, you might make a breakthrough in two days. Although it's fast, you can't reach the extreme, so you have to walk steadily in every realm to have the ability to settle down in the future."

Ye Chanyi asked, "Mom, I heard that a certain person was fat when he was young. Why do you like him?"

"Puff ~"

Xia Xiaochan couldn't help but laugh. "Then for a period of time, he was bald and ugly."

"That's right. I don't even dare to think about being fat or bald."

"Cough, cough!"

Han Fei's voice sounded again, "That's enough! At that time, I was very charming."

"Bah!"

Xia Xiaochan spat. "Don't eavesdrop on us."

"That's right."

Han Chanyi echoed.

Han Fei: "..."

...

Several hours passed.

About half a light-year away from the East Sword Pavilion, undersea volcanoes gathered. In the middle of one of the surging volcanoes, a huge squid was bathed in fiery magma.

The squid was burning with flames and had ten claws and ten eyes.

"Huh?"

Suddenly, the squid opened its eyes at the same time and scanned the volcanoes with its perception.

At the same time, Han Fei was entering the hinterland of the volcanoes with his black-mist body. He naturally didn't release his perception or dissipate any aura. The Divine Concealment Technique could not only make him transform into all creatures, but also simulate everything in the world.

But even though he was extremely careful, he was still quickly scanned by a perception. Almost in an instant, Han Fei knew that he had been exposed, because the perception had soul power attached to the law of space and water. When it swept past him, there was residual soul power that seemed to be stuck to him.

Buzz!

In the blink of an eye, a void whip mark instantly whipped at Han Fei from the void beside him, so that before Han Fei could react, he was swept away by a blow, and his black-mist body was shattered on the spot.

"The peak of the Extreme Dao?"

The big squid didn't seem to recognize Han Fei immediately, but the sudden appearance of a peak-level Extreme Dao cultivator and this person's stealthy intrusion into his soul power barrier were obviously strange.

The big squid's first reaction was that he had been exposed, but how could a peak-level Extreme Dao cultivator discover his existence?

He was even confident that even a god wouldn't be able to discover his existence, because he was a Ten-Eyed Sky Ghost Squid, a real illusion creature. He didn't dare to say that the illusion he set up was unique in the Sea Realm, but there were no more than three people in the entire world who could see through his soul power barrier at a glance.

Therefore, this peak-level Extreme Dao cultivator must have found something.

Bang!

Han Fei's black-mist body exploded, and his white-mist body appeared. Han Fei immediately activated his Original Great Dao, and his strength increased by five times.

He had wanted to launch a sneak attack, but he discovered that the Twin Divine Technique had been seen through so easily. This meant that the other party was probably stronger than he had expected.

When Han Fei activated his Original Great Dao and his strength soared to 900,000 combat power, he glanced around and still didn't find any traces of the other party.

"Impossible!"

Even a God Slaying-level powerhouse couldn't hide from him at such a close distance.

Rumble!

It was also at this moment of hesitation that Han Fei's body was attracted by some kind of soul power. The surrounding void completely collapsed, and the void storm almost swept Han Fei in on the spot.

"Human Emperor Han Fei?"

In Han Fei's Origin Star, Xia Xiaochan and Han Chanyi were both startled by the sudden attack. Han Fei clearly didn't notice the other party at all. Instead, he was almost killed by the other party first.

Clang! Clang! Clang!

The dense void fragments turned into boundless blades that swept across Han Fei, instantly forcing him to retreat step by step.

Han Fei scanned around with his perception, but still didn't find the other party.

"No, it's an illusion."

"Fuse."

Buzz!

In an instant, Han Fei fused with Little Black and Little White, and his combat power increased again. His eyes turned black and white.

However, the moment he fused, ten whip marks were already right in front of him. With a thought from Han Fei, the Blood Sky Blade swept across, and the Immortal Slaying Knife erupted with all its strength.

Rumble!

Fortunately, the god slaying-level powerhouse didn't use his full strength. Han Fei managed to block the blow, but he was instantly sent flying hundreds of thousands of kilometers away.

In Han Fei's Origin Star.

In fact, Han Chanyi couldn't see what was going on at all, but she knew that Han Fei had been beaten. This was the first time in her life that she had seen the void collapse hundreds of thousands of kilometers. She couldn't imagine how anyone could be safe and sound in such a level of void collapse.

[God of Fishing](#)

Chapter 3382: Han Fei Kills A God slaying-level Powerhouse (3)

Xia Xiaochan was also nervous at this moment. Not to mention that Han Chanyi had never seen such a scene, she had also never seen such a scene. Although her strength had reached the late-stage of the Immortal Level and she was already extremely powerful, she couldn't imagine how she would deal with such a void collapse. It seemed that if it really happened to her, it was almost impossible for her to survive, and this seemed to be only a casual blow from the other party.

"Is this the power of the God Slaying Level?"

Xia Xiaochan's eyes flickered, and her desire to become stronger gradually became stronger. Not only to catch up with Han Fei, but she also didn't want him to bear all this alone.

In the outside world.

Han Fei was surprised. "Are you at the god slaying level?"

The big squid sneered. "Stop pretending. Being able to come here means that you're not simple. It seems that you've seen through our plan."

The big squid didn't continue to attack Han Fei. Instead, it perceived its surroundings and wanted to retreat.

He was not stupid. Since Han Fei came to him, it was impossible for him not to know that he was a God Slaying-level powerhouse. Since he knew his strength and still dared to come to him, how could he not have anything to rely on?

He was not a fool to cultivate to the God Slaying level. Even if Han Fei was only a Great Monarch, so what? It was already unbelievable that a Great Monarch could block his God Slaying-level attack.

"Since you know it's me, you should know that you can't escape. Senior..."

Qiu Wanren had been waiting for a long time. At that moment, he had already taken action. Before he arrived, a blue halo circulated in this world, turning into a soul domain. The big squid had just crossed less than ten million kilometers when it was stopped by a soul barrier.

However, his reaction was not slow. The ten eyes on his body burst out with fiery red light and collided with this soul barrier, breaking it in one fell swoop.

"A God Slaying-level soul cultivator?"

The big squid was shocked, but then he was slightly relieved. Although a God Slaying-level soul cultivator was powerful, how could it be so easy to kill him?

Besides, he was also a god-slaying soul cultivator. It was unknown who would win. Although Han Fei's combat power was strong, if that was all, it was only one more god, which could pose no threat to him.

What he was most afraid of was that Han Fei would call the Void Temple. Although in that case, the Central Sea Divine Realm's plan to force Han Fei to use the void mark would succeed, he would be dead meat. After all, he hadn't had the time to take down Han Chanyi.

Of course, even if he wasn't afraid of Han Fei and this God Slaying-level soul cultivator now, there was no need for him to stay here. Since Han Fei had already come to him, Han Chanyi definitely wouldn't be

able to be caught. It was meaningless to fight Han Fei now. Otherwise, if Han Fei was really forced to a corner, he might find people from the Void Temple to deal with him.

The big squid pushed with all its ten claws, turning into a sharp cone. All laws condensed at the tip of the cone and he rushed out again.

However, Qiu Wanren certainly wouldn't let him have his way. They were both soul cultivators. Besides, in the era where Qiu Wanren was, whether it was combat skills, great techniques, the use of laws, or even magic weapons, it was completely superior to today.

Therefore, as soon as the big squid broke through the barrier of the Soul Domain, he found billions of soul threads densely sealing the void.

Buzz!

Upon seeing this, the big squid spewed out a massive amount of soul fire. Countless laws were accompanied by soul fire, instantly burning a big hole in the soul silk domain.

However, although these two methods couldn't crush the big squid, they had already kept it here.

In the next moment, Qiu Wanren tore the sky with his hand, and the starlight was dazzling. Like the billions of starlight over there, they turned into knives and slashed down.

"Ten laws in one sky."

The big squid roared and instantly condensed ten law barriers with the ten strongest laws he had mastered.

Bang! Bang! Bang!

As the blade fell, the stars were destroyed. Within tens of millions of kilometers, the world lost its color, the sun and moon dimmed, and ten law barriers shattered one after another. Every time one was broken, a tentacle of the big squid would break.

In just a second, nine of his tentacles were broken one after another. Only the last fire barrier barely blocked the knife.

The big squid was shocked. This soul cultivator was so strong. Why was this guy's soul power stronger than his own?

At this moment, Han Fei had already arrived. The Dragon Blood Soul Pearl on his chest shone, and he activated ten times his combat power. The Immortal Slaying Knife instantly mobilized the power of heaven and earth here and slashed down.

Ragnarok and the dual killing of body and soul were activated.

The Time Arcane Technique turned one slash into two.

The God Killing Technique was extremely destructive. It could stop the reshaping of the body and reverse the circulation of the spiritual heritage.

Of the three peerless divine techniques, one was something that only he and the Demon God could use, one came from time, and the other came from the void. When the three techniques were combined, their divine might was unparalleled.

Clang ~ Clang ~

Crack~

The last fire barrier of the big squid shattered.

"Puff ~"

On the Blood Sky Blade, the power of heaven and earth poured out. With all his strength, the Blood Sky Blade tore apart most of the squid's body in one fell swoop.

Blood splashed across the sea. The big squid was shocked. How could Han Fei, a mere Great Monarch, be so strong? Since ancient times, he had never heard of a Great Monarch who could shake a God Slaying-level powerhouse.

"Illusion Sky Fiend Poison."

The big squid spewed out ink. In the blink of an eye, the sea area was pitch-black, blocking soul perception.

Qiu Wanren shouted, "Han Fei, this thing is a Ten-Eyed Sky Ghost Squid. It's good at strange methods such as soul poison, illusions, and Sky Ghost summoning. This poison can be broken with the Demon Purification Pot."

"Absorb!"

Swish! Swish! Swish!

Eight small vines shot out at the same time and quickly extracted the soul poison here. The so-called soul poison was also a kind of soul power. In that case, it was within the absorption range of the Demon Purification Pot.

[God of Fishing](#)

Chapter 3383: Han Fei Kills A God slaying-level Powerhouse (4)

At the same time, Han Fei's body emitted a world-purifying brilliance. However, he was not at the god slaying level after all, so it was difficult for him to quickly purify the boundless darkness.

Han Fei's face changed drastically. Squid could also spray ink. This was the other party's talent skill. A God Slaying-level powerhouse's born skill couldn't be weak. If this squid escaped, he would be in big trouble.

Fortunately, in the next moment, this dark domain was densely packed with threads, and pure soul power flames bloomed.

Han Fei heard a thousand consecutive bangs. Qiu Wanren and the big squid must be fighting again.

Qiu Wanren roared, "It's just the Dao of Soul Poison, which is nothing more than an abandoned skill of mine. The ultimate Dao of Soul Poison is purity, which is the same as the Dao of pure soul. Unfortunately, your soul poison is not enough."

"Hula..."

In the soul fire, the darkness faded, and Han Fei activated his Yin-Yang Divine Eyes. When he finally found the big squid, he attacked again.

The big squid was horrified and shouted, "Who are you exactly? With such a powerful comprehension of the Soul Dao, you can't be a strong master of the Sea Realm. Did you return from the depths of the Sea of Stars? Do you know the consequences of returning without permission? If you stop, I'll pretend not to know. After all, I don't want to provoke a troublesome person like you."

"Heh! I'm Qiu Wanren, an ancestor of the divine descendants. You b*stards want to scheme against my descendants, and you want me to stop? In your dreams."

"An ancestor of the Divine descendants?"

Upon hearing this, the big squid's heart sank. This wouldn't end well.

Crack!

A crisp sound resounded in this place, and the big squid laughed and said, "I admit that you are indeed stronger than me, but what makes you think you and Han Fei can kill me? Also... Han Fei, do you really think I'm the only god-slaying level powerhouse deployed by the Central Sea Divine Realm? I've already sent a message. A god-slaying level powerhouse will attack the human race immediately. You have to abandon one of the two battlefields... If you continue to fight me, the human race will be gone."

"Humph! It's none of your business whether our human race will be gone or not. Do you really think we can't do anything to you?"

"Huh? What do you mean?"

The big squid somehow felt that he had been tricked.

Han Fei smiled. He had been waiting for this moment. He had thought of a thousand reasons, but he couldn't find an excuse for the Central Sea Divine Realm not to attack the human race.

Yiyi was actually relatively safe in the East Sword Pavilion. The East Sword Pavilion might not be able to resist a God Slaying-level powerhouse, but Li Tiangan was not a piece of trash. If the East Sword Pavilion's Sect-Protecting Array was fully activated, he might be able to resist it for a while.

But the human race was different. The human race didn't have any protective arrays. The only thing they relied on was the Hidden Monarch City. Therefore, the strong masters of the Central Sea Divine Realm could still threaten Han Fei by attacking the human race. If Han Fei abandoned them, his Human Emperor Dao would collapse and he would be no threat anymore.

This was why he asked the Demon God to return and asked Li Tiangan to go to the human race too.

At this moment, since the big squid had already told him that they had started to take action against the human race, there was no need for him to hide anymore.

With a flip of his hand, Han Fei took out the Creation Chessboard.

Pa! Pa! Pa!

As Han Fei raised his hand, 24 chess pieces fell, and 24 projections of gods immediately appeared.

The Creation Chessboard was powerful, but the big squid opposite him was not the God Slaying-level ominous creature that could be killed by an arrow. With this person's strength, he could resist him and Qiu Wanren at the same time. Although he was no match for them, it was definitely not a problem for him to fight them for a few days and nights.

Therefore, facing this person, Han Fei didn't know if 24 chess pieces were enough.

Seeing this, Qiu Wanren immediately attacked, turning into an indomitable soul shadow, and pressed down with his palms.

Seeing this, the big squid's face changed drastically. What the hell was in Han Fei's hand? How could he summon so many projections of gods?

Bang! Bang! Bang!

Some god projection wielded a giant axe and cut open the sky, some rolled up the power of the boundless void with a spear, and some lifted a finger and condensed all laws...

They were all strong masters in the Graveyard of Gods. Although most of them were only at the god level, they were not weak. They had fought in the Sea of Stars for countless years. How could they be simple?

At this moment, the 24 projections of gods used killer moves frequently, shaking the heavens and the earth. The unparalleled power here directly caused the ancient doors of the Divine Capital Dynasty to open.

"A god slaying-level battle?"

...

In Han Fei's Origin Star, Han Chanyi tried her best to widen her eyes. Every time they attacked, they were too fast for her to see clearly, but at this moment, she could still see the 24 projections of gods.

She gaped in shock and her eyes widened. Was she witnessing a war of gods?

The big squid had been slashed by Han Fei, and the remaining will of the God of Slaughter in his body had just been suppressed. Having no choice, he could only be forcibly held back by Qiu Wanren. At this moment, 24 projections of gods appeared around him, all releasing full-strength attacks. He knew that his life was at risk.

"Roar!"

"Death Gaze."

The big squid's ten eyes left his body, ten turned into a hundred, a hundred turned into a thousand, and a thousand turned into ten thousand. Countless big eyes flew in the sky, bursting out death rays.

Bam! Bam! Bam!

Tens of thousands of death rays swept across this place, which dumbfounded Han Fei. Is this the strength of a God Slaying-level powerhouse? He actually swept away the projections of 23 gods with one blow, shattering all kinds of divine techniques.

As for the last killer move, it was a spear that drew the power of the boundless void and shot out a dragon-like spear beam. With the enhancement of three times his combat power, it was indeed extraordinary, but the spear beam only exploded a mass of flesh and blood for a thousand meters on the big squid before its power was exhausted.

Fortunately, Qiu Wanren's palms had already pressed down.

"Ten Directions' Sky Ghost."

Countless eyeballs exploded, and ten demonic shadows of different shapes flew out of the ripples in a row. Not only did they forcibly break through the power of Qiu Wanren's palms, but they also entangled Qiu Wanren.

In the next moment, Qiu Wanren shouted, "Han Fei, this thing is difficult to deal with. Don't stop. Keep using the chessboard!"

Han Fei didn't know the combat power of the Ten Directions' Sky Ghost, but it could break Qiu Wanren's soul power impact in a row and crush thousands of kilometers of the sky in an instant.

The big squid was clearly prepared to give up on the Ten Directions' Sky Ghost and tried to escape before it could recover.

But in the next moment, he was dumbfounded.

"A*shole..."

When the big squid saw a total of 108 chess pieces fall on the chessboard, he couldn't have felt worse. Could this thing be infinitely used?

However, when the 108 phantoms of gods appeared, he was completely dumbfounded. How could he fight them?

The sky was full of divine techniques.

Those big eyes still tried to resist, but in an instant, an overwhelming number of divine techniques crushed them. This space was almost shattered.

Bang! Bang! Bang!

Boom! Boom! Boom!

After the big squid shattered 32 divine phantoms in a row, he finally couldn't hold on anymore. The Death Ray was pierced through, and his body was riddled with holes.

The three-time attack launched with the four killer chess pieces directly destroyed his tentacles, cut his body into seven or eight pieces, and penetrated his soul power tide.

After he barely pierced through 57 divine phantoms, he couldn't fight anymore. As Qiu Wanren said, even a god slaying-level powerhouse couldn't kill a hundred gods in a row. And these were only phantoms of gods. If they were real gods, only half of them might be able to completely crush this big squid.

In the end, a simple sword intent broke through all laws and instantly condensed ten times his combat power. Under the sword, it was like a river of stars turning into a sword. Before the sword edge arrived, the sword intent alone crushed the big squid.

In the end, the 180th chess piece erupted. With one slash, it almost cut off the big squid's throat.

As the sword fell, all laws retreated, not being controlled at all.

"No! The Jiang family lied to me..."

Rumble!

Boom! Boom! Boom!

The Heavenly Dao Gong swept across the world and spread throughout the Sea Realm. The five Divine Realms of the Sea Realm were densely covered in clouds, blood filled the sky, and a rain of blood poured down.

Han Fei took a long breath. He seemed to understand why his Eldest Senior Brother could fight the real ominous. The strong masters of the myriad races, even if they were enemies, Han Fei couldn't help but sigh in his heart. They were really f*cking strong!

"The Jiang family?"

Han Fei's eyes turned cold. There was indeed the shadow of the Chaotic Divine Race in this.

Before Han Fei could think further, Qiu Wanren shouted crossly, "Why are you sighing? Quickly let the remaining projections of the gods help me..."

[God of Fishing](#)

Chapter 3384: Old Fierce's Identity (1)

The Ten Directions' Sky Ghosts were not substantive creatures, but a power of the Heavenly Dao evolved by the Ten-Eyed Sky Ghost Squid with the power of the Heavenly Dao.

At this moment, the Ten-Eyed Sky Squid had already died. Without the original body to maintain their existence, coupled with the siege of a group of divine phantoms and Qiu Wanren, the sky ghosts only existed for less than thirty seconds before gradually fading.

However, it was worth mentioning that this power had completely suppressed Qiu Wanren. If Han Fei didn't have a treasure like the Creation Chessboard, this squid would probably have run away.

This also made Han Fei understand what the God Slaying-level powerhouses of the myriad races were like. This was completely different from the God Slaying-level ominous creatures. The latter could be

instantly killed with a three-time God Slaying Arrow, but as Qiu Wanren expected, this God Slaying-level powerhouse of the myriad races was equivalent to consuming hundreds of gods and almost destroyed half of his Creation Chessboard.

And this was with the help of Qiu Wanren. Otherwise, even if the Ten-Eyed Sky Ghost Squid was no match for the Creation Chessboard, if it refused to fight, he wouldn't be able to kill it.

"No wonder that despite so many ominous powerhouses, the myriad races can still defend against them. It seems that the two parties have a fundamental difference in terms of combat power."

Han Fei muttered in his heart and calculated. Even a God Slaying level powerhouse had such combat power. If it were the Sea Quelling God of the myriad races, Han Fei really suspected that even the Dragon Slaying trap might not be able to kill him.

In Han Fei's Origin Star, Han Chanyi's eyes were blurred and she was about to fall asleep. "Mom, my head hurts... Did, did he win?"

Xia Xiaochan was still shocked. "Yes."

Hearing that, Han Chanyi immediately fell asleep.

In this battle, for the first time, Xia Xiaochan experienced the power of the God Slaying level. It was simply terrifying. It could fight a hundred gods alone, which subverted her understanding.

Although Han Chanyi tried very hard to watch, she didn't see the real battle at all. With the speed of the attacks of the gods and the God Slaying-level powerhouses, she couldn't see it clearly at all.

Even when Han Fei attacked, her tears still flowed because of the knife light. However, it was not without gain. At least, she managed to imprint the appearance of the knife in her mind. Although it could only be branded for an instant, she still felt that her mind was impacted. It seemed that many insights had appeared in her heart.

In addition to Han Fei's slash, the scene of all the gods appearing also brought her unparalleled shock. All of this was accompanied by divine charm and countless laws. Therefore, Han Chanyi fell into a deep sleep after only seeing a few fragments. Her mind had to digest everything she saw.

...

Boom ~ Boom ~

The Heavenly Dao Death Knell was still wailing. A rain of blood fell in the five Divine Realms, as if the heavens were sighing.

Ordinary people didn't understand what kind of strong master had died. Most people only felt that this astronomical phenomenon was similar to the death of ordinary Monarchs, but it had more bell sounds than ordinary Monarchs. They didn't even know the existence of the Heavenly Dao Death Knell.

However, under the undercurrents of the West Wilderness, the strong masters of all parties immediately realized that something was wrong.

"Divine Death? No... If it's just a god, the Heavenly Dao Death Knell will only strike nine times at most. This is already the tenth strike. It's a God Slaying-level powerhouse."

"God Slaying Level? In the Sea Realm, who can kill a God Slaying Level powerhouse?"

"Is there a Sea Quelling God hidden in the Sea Realm?"

This battle broke out in the East Sea Divine Realm. The hidden gods of the Divine Capital Dynasty and Great Monarch East Martial couldn't sit still anymore. They never expected that the undercurrents in the West Wilderness would start to stir from the East Sea Divine Realm first.

In the Central Sea Divine Realm, there was an ancient sword cultivator from the Chaotic Divine Race who looked at the sky as if dragons and snakes were surging out of his eyes.

"The Ten-Eyed Sky Ghost Squid is dead. Has the plan failed?"

This person didn't even need to look to know that the plan had failed. If the plan succeeded, according to his plan, the Ten-Eyed Sky Ghost Squid wouldn't die. Even if the Void Temple took action, with the ability of the Ten-Eyed Sky Ghost Squid, if it had to risk its life, Han Fei's family would definitely die.

Therefore, since the Ten-Eyed Sky Squid was dead, it meant that the plan had failed.

This person burst out with a sword intent that condensed into a void Dao Pattern and broke through the sky. It shattered the void in the blink of an eye and entered the vast Sea of Stars.

...

Ferocious God Valley.

"Waiting for Someone" tavern.

Yue Lingke and the others all looked at the sky. After waiting for seven days, they finally got good news.

Le Renkuang said, "Heavenly Dao Death Knell. My master once told me that when a god dies, the Heavenly Dao Death Knell will ring nine times. This has exceeded nine times, which means that Feifei has succeeded."

Zhang Xuanyu clicked his tongue in wonder. "How did he do it?"

Luo Xiaobai said, "Be prepared! If a god-slayer dies, it means that the first battle between the divine descendants and the Central Sea Divine Realm will start in the East Sea Divine Realm by Han Fei. The battle... has already begun."

...

In the sea outside the East Sword Pavilion.

"Old Distanceless, open the door."

Carrying a huge squid tentacle, Han Fei roared.

Han Fei had tried his best in the battle here, which took him less than half an hour. But now that a god-slaying level powerhouse had died, the Sea Realm would definitely be in turmoil.

The god-slaying level had been killed, but the crisis on the human side hadn't been resolved yet, so Han Fei didn't dare to stop for a moment.

In the western mining area of the Infinite Mining Area.

This place was shrouded in mist all year round, which was the only way to the Hidden Monarch City.

At this moment, the mining area billions of kilometers long had been flattened, and terrifying sword marks were everywhere. At this moment, Li Tiangan only had one left arm left, standing proudly in the sky. The power of the huge mine under him had been drained, turning into a huge sword that spanned a hundred thousand kilometers. Where the sword edge pointed, it was held back by a man in red with one hand, and the sword body was full of cracks.

[God of Fishing](#)

Chapter 3385: Old Fierce's Identity (2)

On the other side, the goddess of Light was covered in blood, her battle suit was dilapidated, and there was a big hole in her chest and abdomen that still couldn't be recovered. At this moment, she was standing beside a sword abyss, holding a long bow, and a dazzling arrow shot out.

As for the man in red's main enemy, it was not Li Tiangan or the goddess of Light, but a black-clothed man. Who else could it be but a Demon God?

At this moment, the Demon God was like an unparalleled powerhouse that could split the heavens and earth. His fist light broke through seven void black holes in a row, and the tip of his fist rubbed against the void. The demonic fire thus produced spread out for tens of millions of kilometers, turning the area into a sea of flames.

Rumble!

The fist light collided and blasted one of the red-cladded man's arms into nothingness. Furthermore, the soul power of the two parties collided like countless stars exploding, directly turning this area into a forbidden place.

Boom! Boom! Boom!

The Heavenly Dao Death Knell sounded between the heavens and earth. Ignoring his injuries, Li Tiangan completely detonated the sword that was hundreds of thousands of kilometers long, forcing the man in red back.

In the next moment, the Demon God said, "That kid's growth speed is indeed astonishing. In less than a thousand years, he has already reached this point. My Dao is not alone..."

The goddess of Light said weakly, "It's not the time to be emotional."

Li Tiangan raised one arm, and the Sword Dao tide behind him was overwhelming. He said coldly, "Don't let him run."

The goddess of Light rolled her eyes. Don't you see my current state? How can I stop him from running?

Behind the Demon God, in addition to the Sky Penetrating Demon Body, another huge figure appeared. Different from the Demon Body, this second figure was bathed in golden light. The Divine Wheel behind him revolved, and it was actually a proper divine Dharma Idol.

The Godfiend Body was both a god and a demon, but Han Fei didn't know that this technique could nurture two Dharma Idol worlds at the same time. At this moment, the Godfiend Dharma Idol each pointed a finger, and all techniques returned to the origin.

With two fingers, he forcibly stopped the man in red.

"Blood Sacrifice."

The man in red roared, his Qi and blood soared to the sky, and his strength seemed to have soared. He cut off his arm and forcibly opened the space locked by the three of them.

"Close it."

The Demon God's fingers gave up attacking the man in red and charged into the sky, forcibly crushing the spatial passage.

However, just as the space in the sky collapsed, they suddenly felt a boundless pressure pressing down. They discovered, to their shock, that all laws in this world were no longer under their control.

"Puff! Puff! Puff!"

The Divine Lady of Light was directly shattered by this suppressing pressure, and Li Tiangan's other hand exploded. The Demon God's two Dharma Idols seemed to be pressed to the ground by an invisible hand, causing the earth to tremble.

The Demon God glared at the sky. "A Sea Quelling God?"

The man in red sneered. "Do you really think I'm going to escape?"

A man in golden armor fell from the sky. This person suppressed the Demon God and the other two with one hand and reached out with the other to grab the Free City of the human race.

"A group of small gods trying to subvert the Central Sea Divine Realm? Who gave you the confidence?"

This hand covered half of the Infinite Mining Area. Even the Demon God felt powerless against the boundless hand. He complained in his heart, Han Fei has already killed that god-slayer, but why hasn't he arrived yet?

The Demon God knew his strength very well. Although he had become a god, he had created this path alone. Everything still needed to be explored, so he couldn't directly become a god-slayer.

In the Divine Realm, no matter how talented he was, he could only reach the limit of the ordinary Divine Realm. He might be able to barely fight a God Slaying Level powerhouse, because in terms of strength and physique, he wouldn't be weaker than a God Slaying Level powerhouse, or even stronger. However, the Sea Quelling God was an existence that he couldn't reach now unless he immediately comprehended the fusion of god and demon bodies of the Godfiend Body.

Free City.

Not only the human race, but also the major races in the East Sea Divine Realm were gathered here. At first, everyone was overjoyed, because the human race's Spirit Gathering Day was a day of welfare.

However, when a rain of blood fell, the Heavenly Dao Death Knell mourned, who didn't know that something bad had happened?

At this moment, the huge hand came extremely fast. Almost the moment the Sea Quelling God appeared, it was about to grab the entire human race.

Buzz!

Coincidentally, at this moment, the Distanceless Gate opened, unaffected by the suppressing pressure of the Sea Quelling God at all.

"Get lost."

The moment Han Fei appeared, he felt that he was suppressed. He immediately knew that this couldn't be a f*cking god-slayer. At this moment, his combat power exceeded 1.8 million and was almost comparable to a god-slayer, but this guy could still suppress him in an instant, which meant that he must be a Sea Quelling God.

"A*shole."

Han Fei had thought that the other party would at most send God Slaying level powerhouses over. He didn't expect them to mobilize a Sea Quelling God. It meant that they were determined to kill him!

Bang!

Han Fei immediately exploded into a mist of blood. He didn't hesitate to blow himself up and used the Great Dao of Life Replacement to break free from the suppression of the Sea Quelling God.

"Huh?"

"Huh? Damn it. Old Fierce, it's your turn to fight..."

However, as soon as Han Fei took out the Creation Divine Prison, he felt a certain power, which seemed to instantly strip him of the Great Dao of Life Replacement and forcibly break his Great Dao of Life Replacement.

Buzz!

Han Fei was shocked. This was the first time the Great Dao of Life Replacement failed. It lasted for less than a second before it was peeled off.

Fortunately, at this moment, he took out the Creation Divine Prison.

Chapter 3386: Old Fierce's Identity (3)

Roar!

A roar that seemed to come from ancient times suddenly exploded in Han Fei's ears, almost deafening him.

"Which b*stard dares to touch my descendants?"

A white light rushed out of the Creation Divine Prison. Before Han Fei saw clearly, he saw that this space turned into a big mouth and bit off the boundless hand.

Not only that, but three claw marks crushed all the way in the direction where the hand came from. The world was torn apart, and in the crack, a hook tail shattered the void and hooked at the Sea Quelling God.

At this moment, Han Fei saw a giant beast appear in the sky.

The giant beast looked like a white tiger. It had two big sky-blue horns on its head, which looked like a bull's. On its back, there was a pair of dark blue wings with lightning flashing on them. Its tail was like an arrow tail and was hooked. It looked extremely ferocious.

Roar!

At this moment, as the hook tail shattered the void, the suppressing power of the Sea Quelling God was cut apart by the tail. Han Fei immediately felt his body recover.

Han Fei roared, "Old Fierce, it's that b*stard. Countless divine descendants have died at his hands."

Roar!

Bang!

As soon as Han Fei said so, Old Fierce crossed to the western mining area in an instant. He was so fast that Han Fei couldn't react at all. When he hurriedly looked at the western mining area, he saw that Old Fierce had collided with the Sea Quelling God. On his two sky-blue horns, it was as if stars had exploded. Wherever he passed, the void exploded.

Old Fierce pushed against the Sea Quelling God with his horns, rampaging through billions of kilometers of mining areas. Wherever he went, it completely turned into a void storm.

"F*ck! Is Old Fierce so irritable?"

At the moment when the Sea Quelling God was sent flying by Old Fierce, the God Slaying-level man in red retreated quickly. He didn't expect that there was a Sea Quelling God on Han Fei's side too.

If the Sea Quelling God was restrained, it was meaningless for him to stay here. As for forcibly taking down the human race, it was even more impossible. These people clearly wouldn't let him succeed. Besides, Han Fei had already returned, but he hadn't taken down the human race. This had already made him lose the initiative. It was already impossible for him to take down the human race. If Han Fei used the void mark, he and this Sea Quelling God might both die.

With this in mind, the man in red immediately retreated without fighting.

The Demon God and the others had just been suppressed by the Sea Quelling God. Han Fei was still a distance away from the battlefield, and he wasn't as fast as Old Fierce. Therefore, this person was probably able to run.

As a God Slaying-level powerhouse, he might run away in the blink of an eye. Even if Han Fei called out Qiu Wanren now, he probably wouldn't be able to catch up.

Han Fei sighed in his heart. So be it! At least the human race was safe for the time being.

However, just when Han Fei and the Demon God and the others both thought that the man in red would run away, against Old Fierce, he suddenly twisted his back and jumped, instantly erupting with tens of thousands of times the speed of light. Anyway, Han Fei couldn't see Old Fierce's movements clearly at all.

"Roar! Anyone who touches my descendants shall die! Where are you going?"

The man in red didn't expect Old Fierce's extraordinary speed. He thought that Old Fierce wouldn't have the time to take care of him. But he didn't expect this thing to give up fighting the Sea Quelling God.

Old Fierce was extremely fast. His roar turned into a soul killing technique that shot at the man in red like a bolt of lightning.

"Cough ~"

The man in red felt an explosion in his mind. Immediately afterward, he saw a sharp claw shatter his original law, and even his battle suit was pierced.

Bang!

The man in red was shocked. He wanted to block it, but this monster was too fast for him to block.

Fortunately, as soon as he was pierced, a big hand grabbed the monster's tail, and a layer of ice crystals instantly covered Old Fierce.

Taking this chance, the man in red quickly left the battlefield. Unfortunately, although he had left the battlefield, Han Fei had already blocked his way.

Old Fierce had bought him some time, so Han Fei certainly wouldn't let him go.

"Get lost!"

The man in red certainly didn't take Han Fei seriously. He casually waved his hand, and two cold lights immediately slashed at Han Fei.

Swish ~

However, although Han Fei hadn't reached the God Slaying level yet, he wasn't that weak. How could he defeat Han Fei with a single blow? With the Immortal Slaying Knife and the Time Arcane Technique, he shattered the two cold lights with one slash.

Then, the man in red felt a sudden pressure behind him. A soul cone had appeared behind him at some point. Feeling the soul power that was even stronger than his, the man in red had to give up on Han Fei. He extended his hand and clamped out a huge pincer.

Bang! Bang! Bang!

Han Fei took the opportunity to throw out thousands of fist lights, but most of them were blocked by a red barrier.

Bang!

The man in red was finally pierced by Han Fei. Seeing that his chest and abdomen were about to be cut off, he finally turned into a red lobster.

"Not good."

Qiu Wanren roared and instantly appeared beside Han Fei, pulling Han Fei back.

Han Fei: "???"

Boom!

As soon as Han Fei retreated, the ice crystal that covered Old Fierce exploded. Even the Sea Quelling God, who had been strengthening the crystal seal, couldn't control it.

Qiu Wanren said, "This guy is the second most voracious eater in the Hundred Ghost Divine Race. It's fine if this lobster doesn't appear, but it appeared, so it'll be doomed."

[God of Fishing](#)

Chapter 3387: Old Fierce's Identity (4)

"The second most voracious eater?"

Han Fei didn't understand what it meant immediately, but then he saw a big mouth suddenly appear under the lobster.

Crunch ~ Crunch ~

Old Fierce only had time to take a bite before he was sent flying by the Sea Quelling God.

Roar!

Old Fierce, who had been punched, didn't seem to care. Han Fei looked again. Good lord, the lobster's tail was gone, but Old Fierce was very satisfied and chewed happily.

Han Fei could even clearly see laws surging in Old Fierce's mouth. He seemed to be transforming the lobster's flesh into the power of laws and swallowing it. And the seemingly hard carapace turned into countless Dao Patterns and disappeared into Old Fierce's body.

While chewing, Old Fierce roared in his throat, "Blood Clan, Blood-Sucking Lobster, tastes good..."

The big lobster was shocked. This person was so powerful. There was a talent barrier on his carapace. How could his teeth break it? This guy was eating his flesh in front of him, which horrified him.

The Sea Quelling God didn't seem to expect Old Fierce's existence at all. However, since this thing came from the Creation Divine Prison, it was probably not a powerhouse of this era at all. It was possible that it had lived since the Primordial Era.

A long sword appeared in the middle-aged man's hand, and he snorted coldly. "A bull-tiger monster from the Hundred Ghost Divine Race. Are you from the Qiong Qi lineage? Your lineage is all vicious people. You're still alive after entering the Creation Divine Prison?"

Old Fierce roared at the sky, his roar like thunder. He actually changed from his beast form to his beast-human form, looking very much like... the divine son?

Han Fei was shocked. Yes, it was like the divine son very much.

In the past, on the Divine Son Peak of the Grand Myriad Mountains, the appearance of the divine son with a sheep head, a human body, and a fox tail had left a deep impression on him.

As for Old Fierce, in terms of form, he was very similar to the divine son. He had a tiger head, a human body, and a tail that Han Fei didn't recognize. However, the two horns on his head were raised, and his hair, eyebrows, and beard were extremely elegant. There were bone spurs extending out of his flesh and blood like lightning wings.

"Hundred Ghost Divine Race?"

Old Fierce's eyes were bloodshot. Infinite energy was gathering in his body. He had stayed in the Creation Divine Prison for too long and hadn't eaten any energy. He was already starving.

"Roar... Haha, hahaha... I'm finally out."

Old Fierce laughed out loud, and the void vibrated.

Swish!

Han Fei didn't intend to participate in the battle. Old Fierce looked very powerful, and Qiu Wanren deliberately pulled him out of the battlefield for a reason.

At this moment, he quickly came to where Li Tiangan and the others were. Except for the Demon God, Li Tiangan and the Goddess of Light were seriously injured.

The Goddess of Light was almost crushed.

With a thought from Han Fei, the river of life here surged, and the Goddess of Light quickly revived and condensed her body again. Li Tiangan's broken arms only had bones left.

Although the Demon God was also injured, they seemed to be mainly caused by the Sea Quelling God. And his injuries were also recovering quickly.

The Demon God said, "The three of us almost died here."

Han Fei said, "I'll remember your kindness forever. If you have any requests in the future, I'll definitely agree."

The Goddess of Light let out a long breath. "When you become a god, help me seal the ominous battlefield, which will be the best repayment."

Li Tiangan and the Demon God didn't speak but looked at the field.

The Demon God said, "The Hundred Ghost Divine Race. I didn't expect that there were still powerful existences of this race alive."

Han Fei asked, "What is the Hundred Ghost Divine Race?"

The Demon God glanced at Han Fei. "You don't know the person you released?"

Han Fei said, "I didn't have the time to find out."

Without waiting for the Demon God to answer, Qiu Wanren also retreated from the battlefield and said leisurely, "In the past, the ominous returned for the second time. With the current strength as the measurement, it was formed by a dominator and 99 Sea Quelling God-level powerhouses. Together, they fought against the ominous and were known as the Hundred Ghost Divine Race. The bloodline ranking of this race is among the top thousand in the Infinite Ocean..."

Han Fei couldn't help but open his mouth. "Old Fierce?"

Qiu Wanren said, "No, he wasn't one of the hundred people back then... Because he was the patriarch of the Qiong Qi Race back then, and his brother was one of the hundred. But there were too many races in the Infinite Ocean. Just because people remembered the Hundred Ghost Divine Race didn't mean they would remember the Qiong Qi Race. Therefore, later, people couldn't remember the Qiong Qi Race, but they remembered that there was a Qiong Qi in the Hundred Ghost Divine Race."

"Uh ~"

At this moment, Old Fierce, who had turned into a human, was so skinny that he was only skin and bones. He might be hungry. However, his hunger was different from the hunger of the dragon race. The dragon race was hungry for food, but Old Fierce needed energy. He seemed to be able to devour and transform other people's laws and Great Daos.

Old Fierce opened his hands, and all laws were combined on his five sharp claws. His eyes were cold as he completely locked onto the lobster.

The Sea Quelling God said, "Your strength is not at its peak yet. Even if you can fight, it's impossible for you to snatch someone from me."

"Roar! The food I chose can never escape."

The Sea Quelling God stood in front of the lobster and then glanced at Han Fei expressionlessly. He teleported and left the battlefield in the blink of an eye, disappearing without a trace.

Obviously, the other party had abandoned the battle.

Old Fierce didn't chase him. Instead, he opened his mouth and absorbed the remaining energy and law Dao runes of the surrounding battle. After about half an hour, Han Fei smiled bitterly in his heart. Now the western mining area had really become a wasteland. The energy and mineral veins within billions of kilometers had been swallowed by Old Fierce.

Only then did Old Fierce seem to gain some weight.

Then, Old Fierce looked at Han Fei. "Han Fei, Qiu Wanren, I'll leave the matter of the divine bloodline to you. I'm going to eat something. Don't mind the two people just now."

Swish ~

With that, Old Fierce disappeared without a trace.

"Uh ~"

Han Fei was stunned and couldn't help but look at Qiu Wanren. "He just left like that?"

Qiu Wanren smiled. "Don't worry. The Sea Quelling God won't have a chance to intervene in the war in the West Wilderness again. As for the lobster, it will definitely die. Just wait and see!"

Han Fei asked, "Will that person escape back to the Central Sea Divine Realm? After all, that's their territory."

Qiu Wanren sneered. "I forgot to tell you that Qiong Qi's speed can be ranked in the top ten among all the races in the Infinite Ocean. But to be honest, I haven't seen many people faster than him. Of course, I haven't seen anyone more violent than him either. Even if he hasn't recovered, I'm afraid the people of the Central Sea Divine Realm aren't qualified to keep him. But none of this is important. The top priority is to return to the West Wilderness. The other party has lost a Sea Quelling God, a God Slaying-level powerhouse has died, and another one is about to die. Our chance has come."

Chapter 3388: Chats in the Human World (1)

This series of battles was very fast. From the death of the Ten-Eyed Sky Squid to the sound of the Heavenly Dao Death Knell, to the appearance of Old Fierce and the retreating of the Sea Quelling God of the Central Sea Divine Realm, it only took less than a hundred seconds.

Fortunately, Little White had seen through the plan of the Central Sea Divine Realm. Otherwise, if he really went to the Primordial Divine Race from the beginning, the strong masters of the Central Sea Divine Realm would control the human race and Yiyi. Even if he had a void mark, what could he do to them then?

At that time, once he chose the human race and gave up the divine descendants, not only would it cause the complete annihilation of the divine descendants, but it would also destroy his Dao heart.

It was even more impossible for him to choose divine descendants and abandon the human race.

Han Fei really couldn't believe that such a despicable method could be used by the powerful forces in the Central Sea Divine Realm. Could it be that these people had all cultivated the Supreme Forgetfulness and didn't care about human affections?

Swish! Swish! Swish!

Less than ten seconds after the battle stopped, several figures broke through the void and arrived.

Taking a closer look, it was Great Monarch East Martial and an old man in a golden robe. Judging from his suppressing pressure, he was clearly a god, and he seemed to be extremely strong.

The old man glanced at everyone. When he saw Qiu Wanren, he cupped his hands slightly, but he didn't speak to Han Fei and the others. Instead, he said to Great Monarch East Martial, "A Sea Quelling God indeed took action."

Great Monarch East Martial's face changed slightly. Without pretense, he asked, "Human Emperor, what's your plan now?"

Han Fei said, "I'll take the human race away. The war in the West Wilderness will start soon. I hope that the Central Sea Divine Realm can hold them back like before."

Great Monarch East Martial nodded slightly. "Okay!"

With that, Great Monarch East Martial and the old man left without looking back. They were not allies with Han Fei, but in some aspects, they were his natural allies.

It was impossible to count on Great Monarch East Martial and the others to fight the Sea Quelling God. Otherwise, they wouldn't have appeared more than ten seconds late. However, since Han Fei had the ability to defeat the Sea Quelling God of the Central Sea Divine Realm, it meant that the sky had changed, and they were willing to cooperate.

Li Tiangan had already recovered and said indifferently, "I'm going to find Jiang Honghua."

With that, Li Tiangan turned into a sword and left.

When Li Tiangan mentioned Jiang Honghua, Han Fei knew what Li Tiangan was doing. Jiang Honghua, the former master of the North Sea, had a deep grudge with the Divine Demon Forest. Once the West Wilderness started a war this time, she would definitely cause trouble for the Divine Demon Forest.

Li Tiangan went there either to help Jiang Honghua restrain the Divine Demon Forest, or because the knot in Jiang Honghua's heart hadn't been resolved. He took this opportunity to help Jiang Honghua transcend the tribulation and become a god.

But either way, Li Tiangan would cause trouble for the Divine Demon Forest this time. With his combat power, it wouldn't be a problem for him to restrain one or two gods.

According to the information collected by the divine descendants, there were only three gods in the entire Divine Demon Forest. Of course, Han Fei didn't know if this information was accurate.

The Goddess of Light said, "I can help with the matters in the Infinite Mining Area, but I won't get involved in the matters of the Sea Realm. Han Fei, remember, you owe me a favor."

Han Fei said, "Senior, don't worry. I won't forget."

The Goddess of Light naturally returned to the Hidden Monarch City. She had mixed feelings. She didn't die on the battlefield, but she almost died in the internal strife of the Sea Realm. If there was such a situation again in the future, she would not take action. She was afraid that she would be killed.

As for the Demon God, he said indifferently, "I will consider taking action when the time is right. However, since the thousand-year agreement with your human race is over, I will leave the Sea Realm after this battle."

Han Fei said, "Thank you, Senior Demon God. If I comprehend the fusion of the divine and demon bodies in the future, how can I find you?"

The Demon God's heart stirred, and he handed a Dao bone to Han Fei. "Crush this Dao bone and I'll come to you. I think it shouldn't be difficult to find you."

The corner of Han Fei's mouth twitched. What are you talking about? You make it sound like I'm very famous... Fine! There seems to be nothing wrong with this.

It wasn't until the Demon God left that Qiu Wanren said, "This person is quite strong! It seems that he takes the same path as you, and he is almost at the God Slaying level. However, this juncture is not easy to pass. If he can pass this juncture, I'm afraid he will soar to the sky. Ordinary people won't be able to stop him."

Han Fei thought to himself, The Dao of Extreme Balance is the Dual Extreme Dao. It's powerful in the first place, and its basic combat power is twice that of ordinary people. Ordinary people have 400,000 combat power when they become gods, so it's only natural that an Extreme Dao cultivator can almost reach the God Slaying level when he becomes a god!

However, the path he took was actually more difficult than the Demon God's. The Demon God was just taking a new path. He just hadn't found a suitable path, but it didn't mean that this path didn't work.

But for him, what troubled him the most was not the Godfiend Body, but the Supreme Divine Technique. Once he broke the restrictions of the Supreme Divine Technique, he might be even more powerful than the Demon God.

Han Fei said, "There's no time to lose. Now is not the time to discuss this. Senior, are you going back to the Creation Divine Prison?"

"Why should I go back now? This time, I killed two god-slayers and restrained a Sea Quelling God. I've already been exposed. Let's just kill our way back."

Han Fei nodded. "That's good."

...

In the Free City, countless humans looked solemn and had a bad feeling. Since they came to the Infinite Mining Area, nothing like this had happened.

Here, there were divine beasts, ferocious beasts, strong masters from the major forces in the East Sea Divine Realm, and countless itinerant cultivators. It could be said that the Infinite Mining Area was almost like an iron bucket now.

But today, this strange astronomical phenomenon, this earth-shaking scene, and even the City-Protecting Array were almost destroyed, making many people recall their experiences hundreds of years ago.

[God of Fishing](#)

Chapter 3389: Chats in the Human World (2)

Therefore, there was no need to mobilize them at all. Everyone who had survived the Chaotic Wasteland automatically entered a state of war.

The Free City and the ten nearby cities were built by Han Xuan later. The purpose was to arrange for the ten legions of the human race. Each city was guarded by a legion.

At this moment, war horns had been blown in the major cities.

"Seven Kill Army, gather."

"Dragon Tiger Army, gather."

"..."

For a moment, the sky was full of strong masters.

The new generations of human beings had only seen wars in history, but they had never experienced them, but this didn't prevent them from hating the Central Sea Divine Realm. In the human race's initiation teaching, the journey from the Chaotic Wasteland to the Infinite Mining Area was called the Blood Expedition, and 70 billion people died on the way.

Therefore, even the human youths were highly vigilant at this moment, ready to fight at any time, even if they knew that their strength was like an ant and not worth mentioning.

As early as seven days ago, the ten legions had already received Hong Yue's news and quietly entered a state of war. And the human race's Spirit Gathering Day attracted many humans outside back.

Hong Yue and Han Xuan didn't know the specific situation. Han Fei didn't say it, but they all knew that a war had begun without them knowing.

In the Free City, all the Monarchs of the human race were gathered in a room. Han Song was sitting cross-legged here. Everyone looked solemn and was waiting.

The synchronization of information between Han Song and his original body began the moment Han Fei appeared.

Suddenly, Han Song opened his eyes.

Han Xuan immediately asked, "How is it?"

Han Song smiled. "We won."

"Huff~"

"I was so nervous."

"As expected of the Human Emperor."

"I was so scared that I was covered in sweat. This astronomical phenomenon is really terrifying."

Everyone relaxed. At that moment, their hearts were in their throats. Although the human race was rising at an extremely fast speed, no matter how fast it was, it had only been less than a thousand years. It wasn't easy for them to quickly integrate into the Sea Realm with the help of the forces in the East Sea

Divine Realm, but this didn't mean that the human race really had the capital to shake the forces of the Sea Realm.

Therefore, all of them knew that once Han Fei couldn't resist the enemy, the human race would be doomed.

Han Xuan's heart stirred. "You won? Then shouldn't you be back?"

Buzz!

"My fellow human beings, I am Human Emperor Han Fei. I have returned."

Han Fei's voice echoed in the sky above the ten human cities.

At that moment, the people born after the Blood Expedition couldn't believe their ears. Since they were born, they had always heard of the legend of the Human Emperor. The story of the Human Emperor was circulated everywhere. However, the Human Emperor had never returned.

But on this day, the Human Emperor suddenly said that he had returned. It was an indescribable shock. It was as if the person in the story had suddenly appeared in reality.

At this moment, it happened to be the human race's Spirit Gathering Day, and countless people gathered in the center of the city, so the crowd was instantly in an uproar.

"Human Emperor, is it really Human Emperor?"

"Did I hear it right?"

"Is someone playing a prank?"

"Who dares to pretend to be the Human Emperor?"

"Where did the Human Emperor speak?"

Countless humans of the older generation were glowing.

Someone smiled and said, "Human Emperor is extremely strong and his voice can spread throughout the human world. How can you see him so easily? Unless Human Emperor opens the Sky Curtain."

Someone laughed. "Don't worry. You'll see it soon. Human Emperor likes to open the Sky Curtain the most."

The rain of blood couldn't hide the smile on these people's faces. "I was wondering why there was such a big commotion. It turns out that the Human Emperor has returned. Needless to say, it must be another blind person who tried to touch our human race but was resolved by the Human Emperor."

"Haha, these people think they can hide it from Human Emperor's eyes. Why don't they take a piss and take a look at themselves?"

"I really miss it! I still remember the days when I fought side by side with the Human Emperor."

Someone laughed and scolded, "Didn't you just snatch a city following the Human Emperor? I'm afraid you haven't even seen the Human Emperor. What are you showing off for?"

The man said angrily, "That's bulls * it. Although I was far away from him, I saw him clearly. I still remember the heroic bearing of the Human Emperor in battle."

Someone scoffed. "Humph! That's nothing. When we were in the Chaotic Wasteland, Human Emperor even came to my shop for a meal."

In the East Sea Divine Realm, many strong masters of other forces who were watching the ceremony of the human race were speechless. This was Han Fei's prestige in the human race! His return made the entire city boil.

Buzz ~ Buzz ~ Buzz ~

As they chatted and laughed, the sky opened, and Han Fei's figure stood proudly in the void, covering the ten cities and hundreds of thousands of areas.

"Roar!"

"Human Emperor! Did you see that, brats? What did I say? I said that Human Emperor likes to open the Sky Curtain the most."

"Roar ~"

"Human Emperor, Human Emperor, Human Emperor ~"

"Is this the Human Emperor?"

Countless youths looked up at the sky, trying to see more clearly, their eyes filled with admiration.

"Human Emperor looks just like a normal person!"

"Of course. Human Emperor is a human too. If he's not like ordinary people, should he look like a demon?"

Everyone was talking in excitement.

In the Free City, Hong Yue and the others wanted to go to receive Han Fei, but Han Fei had no intention of coming down to catch up with them.

In the Sky Curtain, Han Fei pointed at the sky and said, "My fellow humans, you should have seen it. A rain of blood fell, and the Heavenly Dao Death Knell mourned the gods... Just now, a moment ago, some gods from the Central Sea Divine Realm tried to attack our human race, but I killed them..."

[God of Fishing](#)

Chapter 3390: Speech in the Human World (3)

"Roar ~ Roar ~"

Before Han Fei could finish his sentence, the entire human world was in an uproar.

"The Human Emperor can kill gods now?"

"What? The legendary gods were killed by Master Human Emperor?"

"Heavens! Those are gods! Even the peak existence of the Sea Realm has been defeated by Master Human Emperor?"

"The Human Emperor is invincible, the Human Emperor is invincible..."

"Good job. Everyone from the Central Sea Divine Realm deserves to die..."

"Cough, cough ~"

Han Fei pressed his hands slightly, but his face became extremely solemn. "My fellow humans, I'm sorry. I once said that I would fight for a peaceful age for the human race and give the human race a thousand years of peace and stability. Unfortunately, I didn't do it, because a new war has already begun. The gods of the Central Sea Divine Realm have already resorted to all means, trying to attack ordinary humans of the human race and force me to submit... Therefore, I have to return. I have to tell you a cruel thing, which is that you have to temporarily abandon the Infinite Mining Area, this place where you have lived for more than 600 years, and enter my Origin Star again... And this time, I will keep fighting until no one in the Sea Realm can be my enemy, until I overturn the Central Sea Divine Realm, until our human race stands at the top of the Sea Realm..."

Han Fei's voice was sonorous and impassioned. His voice seemed to be infectious again, making the entire human race go crazy in just a moment.

"We are willing to follow Master Human Emperor to conquer the Central Sea Divine Realm."

"Since someone doesn't want us to have a peaceful life, let's fight."

"If we don't kill them, those people will think that our human race is easy to bully."

Someone laughed out loud. "My life should have ended in the Blood Expedition. It's already a fortune for me to live to this day."

Someone shouted, "Although we are like ants, ants still have sharp teeth. Even if we can't hurt him, we have to bite him."

"Fight, fight, fight ~"

At this moment, countless people were already furious. Their blood was surging, and their anger was obvious. They couldn't wait to kill their way into the Central Sea Divine Realm and wipe out their enemies.

Hong Yue, Han Xuan, and the others finally understood why Han Fei returned in such a way this time. The death of the gods meant that Han Fei had been fighting without their knowledge.

In the eyes of Han Xuan and the others, Han Fei would have to bear greater pressure to bring the human race into his Origin Star. This was because once something happened to him, the entire human race would be doomed.

To be able to force Han Fei to take hundreds of billions of human beings to his Origin Star instead of the Infinite Mining Area, it could only mean that the price of leaving the human race behind would be greater than the pressure of taking them into his Origin Star.

In the Thug Academy, Old Bai sighed. "He has been fighting alone. The entire human race is a burden. Sometimes, I always wonder when he can let go of the human race."

Old Jiang sneered. "Let go? How? Who in the human race can take over his position now? Han Xuan is talented and has just stepped into the Dao Proving Level. It's even more impossible for Hong Yue. He has to manage the affairs of the human race and doesn't have much time to cultivate. Liu Qiansi and Wang Xiaojiu are external help after all. They were just recruited by Han Fei. It's impossible for them to lead the human race. They don't have the ability. If I have to say it, Xiaoxiao (Wang Dashuai's daughter) has grown rapidly. Han Fei could tell at a glance that she is extremely talented. Unfortunately, she is only in the peak-level late-stage Star Transformation Realm now. If she is given more time, she might be a good successor."

Old Bai asked, "You forgot Yiyi."

Old Jiang chuckled. "That girl is just like her father back then. She can't stay idle. It's just that Han Fei sealed her ability. Try unsealing hers."

Old Bai nodded slightly. "That's true. However, over the years, our newborns generally have very high-level spiritual heritages and hundreds or even thousands of them even have Divine Bloodlines. The one who cultivates the fastest has entered the Sky Opening Realm in only three hundred years. If they are given some time, I don't believe we can't find a successor from them."

While the two old men were chatting, Han Fei continued, "Now, in the name of the Human Emperor, I order the human race to pack up and prepare to enter my Origin Star in half an hour. In addition, the other forces in the East Sea Divine Realm who have witnessed all this today, please spread the news to the humans who are outside and don't have time to come back. Tell them not to panic. I, Han Fei, will come back when I sweep across the Central Sea Divine Realm."

...

The Sky Curtain closed, and Qiu Wanren appeared beside Han Fei. He couldn't help but click his tongue. "Not bad. As expected of the Human Emperor, the ultimate faith of the human race. However, there's a bewitching power in your voice. Are you asking the people of your human race for Power of Faith?"

Han Fei smiled casually. "It doesn't matter. I don't know how to continue on my way. Now that I have a chance to collect more Power of Faith, how can I miss it?"

The outer stars of Han Fei's Origin Star were still evolving, but he didn't have much time to pay attention to them. He wasn't sure if he should use the Power of Faith on them.

On this return, he decided to leave Zhang Daqian there for the time being to understand in detail how many changes the humans he had created had experienced and how many thoughts had been born.
