Chapter 3421: I'll Kill Jiang Taichu (2)

"Okay, Senior Brother."

As soon as the endless lightning entered the Lightning Pool, it turned into liquid and was swallowed by Senior Brother Lei Heng. Then, above the Lightning Pool, a majestic and domineering body of the Thunder God gradually condensed, completely made of Lightning Tribulation Fluid.

As Senior Brother Lei Heng exerted strength, the four lightning domains' fusion speed accelerated. Han Fei sensed the River of Life and was taken aback. He said helplessly, "Senior Brother Lei Heng's vitality is ridiculously vigorous. He doesn't seem to need our help!"

Senior Brother Six God said calmly, "That's normal. He's a lightning spirit, the spirit of the heavens and earth. He should exist as long as the heavens and earth. Lightning is the most purifying power. Otherwise, why would Senior Brother Undead leave so easily? However, the purification of lightning shouldn't be easy to endure. He wanted to slowly fuse the four lightning domains to reduce the pain, but he had no choice. Senior Sister Shen Le doesn't allow it."

Han Fei clicked his tongue. He couldn't empathize with this kind of thing, nor could he understand the pain of Senior Brother Lei Heng. He didn't want to feel it either. For example, he could withstand the burning of hellfire, but it didn't mean that he liked to be burned by hellfire. That was a great test of his spiritual will.

After about half an hour, Senior Brother Lei Heng hadn't made a breakthrough yet, but the dominator-level ominous creature had been worn to death by the Primordial Seal.

Han Fei thought to himself, This Primordial Seal is so powerful. I don't know how long it will take for a dominator-level ominous creature to be produced, but it's killed in less than an hour.

Seeing this, Senior Brother Six God shouted at Lei Heng, "Hurry up! If you still don't make a breakthrough, the ominous mist will be penetrated."

"Hmph! It's easier said than done. Come experience the feeling of your body and soul being disintegrated and reforged every second."

Senior Brother Six God said indifferently, "I'm not a lightning spirit."

On this side, Jiang Linxian and Han Guanshu finally killed the dominator-level ominous creature and instructed Han Fei. "Don't try to enter the depths of the ominous now. That's not something you can interfere with. Let's help others kill the dominator-level ominous creatures first."

Han Fei said, "I'm not stupid. Go about your business!"

Han Fei also sighed. He had just started this battle, and almost the entire time, he was just watching the show. Senior Brother Six God was even more ridiculous. He didn't even fight and was just watching the show. He didn't know why he was here.

The two of them stared at each other, having nothing to do. Han Fei couldn't help but take out two drinks and say, "Senior Brother, these are spiritual fruit drinks I got from the dragon race. They're very delicious. Do you want some? I can give you a million cups."

"Okay!"

Slurp~

Slurp~

The two of them drank their drinks and watched Lei Heng struggle in pain. At this moment, countless ominous creatures collided with the body of the Thunder God.

However, whether it was the doomsday level or the God Slaying-level ominous creature, if they really collided with it, they would gradually be purified by the power of lightning, so they could only bombard it from a distance.

Of course, during this period, there were also ominous creatures who tried to attack Han Fei and the others. However, as soon as these ominous creatures touched the void wave in front of them, they shattered and weren't even qualified to take a step in. Therefore, at this moment, it was simply too easy for Han Fei and the others.

Finally, half an hour later, Han Fei had already taken out his big pipe and began to smoke. When he even ate skewers with Senior Brother Six God, the four lightning domains finally fused.

Immediately, Senior Brother Six God perked up. "It's the time now."

The remaining void wave suddenly swarmed up. It felt as if the Sea of Stars was collapsing, and all the ominous creatures he encountered were instantly annihilated.

This wave overturned and cleared this space. Dozens of God Slaying-level ominous creatures, hundreds of Doomsday-level ones, and countless ones below the Doomsday Level died. Even if there was endless ominous mist continuously supplying power to them behind them, it was useless. This was because this void wave didn't stop but continued to slap back until it disappeared from Han Fei's perception.

Even though Han Fei had already seen the power of the void, he was still amazed. With Eldest Senior Brother's strength, there was no need for 1,081 ominous battlefields to appear in the Sea Realm. A single piece of void could probably flatten a battlefield.

Of course, Han Fei also knew that Eldest Senior Brother wouldn't do that. Otherwise, the person behind the ominous would definitely come out, and then an ultimate battle would break out in advance.

Han Fei couldn't help but ask, "The Death God and the Master of Time are both masters of the Three Temples. How much weaker are they than Eldest Senior Brother?"

Senior Brother Six God shook his head. "I don't know! I know what you want to say. Eldest Senior Brother restrains the ominous, and they are responsible for clearing the ominous battlefields!"

Han Fei nodded hard.

Senior Brother Six God said calmly, "It's useless! They've tried the method you can think of a long time ago. In fact, it doesn't matter how many ominous battlefields there are in the Sea Realm. Even if you seal all these battlefields, it's meaningless. This is because as long as that one is around, he can always open ominous battlefields. Therefore, the 1,081 ominous battlefields left now can be considered a tacit understanding between the Sea Realm and the ominous."

Han Fei understood. This was why. So the so-called ominous war was actually against the one behind the ominous. However, no one had ever won in history.

If sealing the other party counted as winning, they had won twice.

As the two chatted, they saw that the fused lightning domains were gradually shrinking and seemed to be surging into Senior Brother Lei Heng's body.

[God of Fishing](#)

Chapter 3422: I'll Kill Jiang Taichu (3)

Han Fei asked, "Senior Brother Lei Heng swallowed four seas of lightning alone?"

Senior Brother Six God nodded. "The Ancient God of Thunder Note was the creator of the lightning technique. After releasing the Chaotic Thunder Domain, no one can completely gather those scattered lightning domains. However, releasing the Chaotic Thunder Domain also has benefits, which is to release the lightning spirits nurtured by the Chaotic Thunder Domain for thousands of years..."

Han Fei was stunned. "Senior Brother Lei Heng?"

"That's right. Recovering the Four Thunder Domains is only the first step, but this step can't make him a dominator. However, when he rebuilds the Chaotic Thunder Domain, it will be the day he becomes a dominator."

Han Fei nodded quickly. Today, he learned a lot of secrets. The identity of Third Senior Brother, the realm of Fifth Senior Brother, Lei Heng's background, the strength of Old Han and his mother, the reason why they dealt with the Eternal Race, and prehistoric secrets like Jiang Taichu.

All of this indicated that he was gradually entering the world of the real top powerhouses.

After about half an hour, Han Fei's face suddenly changed. He saw ominous creatures surging over like a tide.

Han Fei was stunned. "Why are there still so many?"

Senior Brother Six God also said solemnly, "After all, the Creation Star Compass has been controlled by Jiang Taichu for too long. God knows how many ominous creatures he has hidden in it. We have no choice. Eldest Senior Brother's void has been used up. We can only fight by ourselves now."

In the blink of an eye, Lei Heng seemed to become a little weaker. Now that most of the lightning domain had been absorbed by him, he only had a lightning pool left to protect him. Someone had to guard him.

Immediately, Han Fei said, "Senior Brother Six God, the small ones are mine, and the big ones are yours."

Bang! Bang! Bang!

Just a few seconds after the two of them stood in front of Lei Heng, the ominous army surged over like a tide.

Swish! Swish! Swish!

This time, Han Fei immediately used the Demon Purification Pot. This was not as simple as farming in the Guardian Sea. This was a real battle, and he and Senior Brother Six God were alone for the time being.

Although this place was filled with energy crystals, this was meaningless to them for now.

"Puff! Puff! Puff!"

The small vines of the Demon Purification Pot attacked crazily, and there were tens of thousands of life law chains. Han Fei didn't activate his Original Great Dao immediately. There were millions of ominous impacts of this level, and at least hundreds of thousands of world-ending-level ones. Even with the Demon Purification Pot, he could only stall for time.

However, after only three seconds, Han Fei discovered that Senior Brother Six God had summoned the Six God Mantis because a dozen doomsday-level ominous creatures and three God Slaying-level ominous creatures had already surrounded him.

In the next moment, Han Fei saw a tumor millions of kilometers long suddenly appear in the void, and half of Senior Brother Six God's body fused with the tumor.

Then, tens of thousands of star worms spewed out of the tumor, and they were all peak-level Great Monarchs.

However, although the combat power of these spewing star worms was very terrifying, they couldn't withstand the impact of this massive number of ominous creatures!

In less than three or five seconds, these star worms were torn apart, and countless ominous creatures rushed up.

But in the next moment, the ominous creatures that wanted to tear the tumor were covered by it. Han Fei even saw a doomsday-level ominous creature being sucked up and covered by the tumor. Then, a big bump appeared on the tumor. In the blink of an eye, the big bump exploded, and a God Realm Mantis flew out.

"Is this a Supreme Nature Treasure?"

Han Fei was certainly not stupid. This kind of thing that could even transform doomsday-level ominous creatures into insects couldn't be simple. With such a heaven-defying ability, it would be unreasonable to say that it wasn't a Supreme Nature Treasure.

But even if Senior Brother Six God took out this Supreme Nature Treasure, he was only a peak-level Great Monarch after all. Before he broke through to the God Realm, no matter how strong Senior Brother Six God was, he couldn't resist such a surging ominous army.

Not to mention the ominous army, when the other party's god slaying level powerhouses realized that something was wrong, they didn't approach but attacked the wart from a distance, attacking Senior Brother Six God who was in a half-fused state.

Several times, Senior Brother Six God's river of life was shaken. Even if the wart could spontaneously protect Senior Brother Six God, it still couldn't withstand it.

Han Fei roared, "Senior Brother Six God, stop fighting. Come to me."

But at this moment, those ominous creatures tried to stop Han Fei and Senior Brother Six God.

Han Fei guarded Lei Heng and couldn't help him for a moment. At this critical moment, a shadow swept over with a bang, and the ominous creatures on the field exploded one after another. Now that their lives had been cut off by Han Fei, these ominous creatures couldn't be resurrected.

Senior Sister Dark Shadow finally arrived. In an instant, she blasted out tens of thousands of fist marks, and each fist mark pushed tens of thousands of kilometers away.

Don't underestimate these tens of thousands of kilometers. Under the siege of the ominous army, Senior Sister Dark Shadow could crush tens of millions of ominous creatures with every punch.

"So strong."

Han Fei saw that more than three God Slaying-level ominous creatures and more than twenty Doomsday-level ominous creatures were shattered by Senior Sister Dark Shadow's sweep just now.

As soon as Senior Sister Dark Shadow appeared, Senior Brother Six God finally could catch a breath. He quickly put away the tumor and ran to Han Fei.

Han Fei was lost for words. "Senior Brother, is that really a Supreme Nature Treasure? It's the weakest Supreme Nature Treasure I've ever seen."

[God of Fishing](#)

Chapter 3423: I'll Kill Jiang Taichu (4)

Senior Brother Six God was panting. "This is the Creation Worm Nest. It's special. It's a growth-type Supreme Nature Treasure. If my strength doesn't increase, its strength won't increase."

Han Fei asked, "Haven't you already completed the canal?"

Senior Brother Six God was lost for words. "But I still have to make a breakthrough!"

Han Fei was even more speechless. "Then make a breakthrough!"

"This Creation Star Compass is not suitable for me to make a breakthrough."

The two of them chatted and couldn't help but sigh in their hearts. Fortunately, Senior Sister Dark Shadow was here. Otherwise, they would have died.

Senior Sister Dark Shadow was so fast that she cleared the ominous creatures around them with her fists.

In the next moment, Senior Sister Dark Shadow said, "Little Junior Brother, I'm afraid I can't give you the God Slaying Demon Puppet. It has now become my skeleton and completely fused with my life."

"Ah! It doesn't matter, it doesn't matter..."

Han Fei couldn't help being shocked. How tough she is! She had fused with the God Slaying Demon Puppet and used it as her bones. It was like cheating. In the future, who would be able to kill Senior Sister Dark Shadow?

In terms of physique alone, Senior Sister Dark Shadow was probably so strong that even a dominator might not be able to compare to her.

Senior Brother Six God was also stunned. "Really? Then there's no need to temper your body?"

Senior Sister Dark Shadow said, "There are pros and cons. The advantage is that my individual combat power is very strong now. The disadvantage is that it's meaningless for me to temper my body. No matter how I temper my body, my physique won't be strong anymore. In this life, I can only stop at the dominator level."

Han Fei was speechless. Those who didn't know better would think that you were showing off. Isn't it enough to be a dominator? That's the ceiling-level existence in the Sea of Stars. Eldest Senior Brother is also a dominator, so is the other temple masters of the Three Temples. Do you want to surpass a dominator?

"Ahhh!"

At this moment, with Lei Heng as the center, a lightning ring rippled out instantly. At this moment, the four-sided lightning domain had completely disappeared, and Senior Brother Lei Heng's body finally quickly returned to its original appearance.

"Hahaha! Worm, I'm a Sea Quelling God now. Are you envious..."

"Bah! So slow. I was almost killed."

Han Fei was stunned and pointed at Lei Heng with a strange look.

Lei Heng looked puzzled. "Little Junior Brother, what's wrong?"

Han Fei said, "Senior Brother, you are naked."

Lei Heng: "..."

"Roar! Senior Sister, turn your head away!"

Lei Heng instantly condensed a dress, but it was too late. The corner of Senior Sister Dark Shadow's mouth twitched. "Heh ~"

The excitement of Lei Heng's breakthrough collapsed in an instant. His face was red, and then he glared at Han Fei. "Why didn't you tell me earlier!"

Han Fei shrugged. "How would I know that you were naked just now?"

Bang!

As they chatted, in the distance behind them, the Sea of Stars that was once again enveloped by the ominous mist suddenly exploded. The Ten Yama Kings, the master of the Time Temple, Old Han, Han Fei's mother, Fifth Senior Brother, and Yue Lingke came out together.

Lei Heng immediately patted his chest. "Not bad, not bad. I was so close..."

Fifth Senior Brother asked, "So close to what?"

Senior Brother Six God was about to speak, when Lei Heng immediately roared, "Worm, don't say it."

Senior Brother Six God looked disgruntled, but he didn't expose him.

Fifth Senior Brother seemed to be in a good mood and didn't ask further. He said, "There are still many ominous creatures! However, there aren't many strong masters among them. Everyone, it's time to go to the depth of the battlefield to take a look."

After a while, Han Fei and Senior Brother Six God continued to watch the show. Senior Brother Six God was calm, and Han Fei was already numb. Everyone present could shake a dominator.

Although the ominous army was large, under such a lineup, they couldn't even escape. Any one of them could control a galaxy. Where could these ominous creatures run to?

Han Fei took the opportunity to approach Fifth Senior Brother. "Fifth Senior Brother, what realm are you in now?"

"Gulp~ Ah~"

Fifth Senior Brother took a sip of some unknown wine and then said leisurely, "I don't know either! In terms of realm, I should be a Sea Quelling God. But in terms of strength, I can probably use the strength of a dominator! It seems that having a realm is no different from not having a realm."

Han Fei: "..."

No one deliberately killed these ominous creatures, because the real enemy was Jiang Taichu. As long as Jiang Taichu died, no matter how many ominous creatures there were in the Creation Star Compass, they couldn't escape death.

Another moment later.

Before Han Fei sensed the battlefield, a ripple suddenly swept over from a place that he didn't even perceive. Wherever the ripple passed, the void shattered, and there was a void storm everywhere.

However, as soon as Fifth Senior Brother extended his hand, the broken void returned to its original position, and the terrifying ripples were distorted and circled around them.

When Han Fei saw the battlefield on Jiang Taichu's side, it was only billions of kilometers away.

Han Fei saw that Jiang Taichu's black coffin was locked in the void by the Time Chains. The Master of Time was obliterating the black coffin. What was really fighting were Senior Sister Shen Le, the Death God, and Senior Brother Undead.

At this moment, four dark skeleton hands clasped Jiang Taichu's limbs.

Jiang Taichu's body was almost riddled with holes, and billions of evil ghosts seemed to be crawling out of his riddled body. This was clearly the masterpiece of the Death God.

In addition, Han Fei saw four huge ghost shadows standing proudly in four directions respectively, motionless. He didn't know what they were doing.

God of Fishing

Chapter 3424: I'll Kill Jiang Taichu (5)

Among the ten Yama-Kings, someone said, "Four Ghosts Lock the Sky, imprisoning all the Daos in the world. This is to prevent Jiang Taichu from escaping."

At this moment, Senior Sister Shen Le's two swords crossed the sky, and streams of fire flowed out. The swords seemed to extract the power of this domain and fuse it into the two swords.

"Puff! Puff! Puff!"

Jiang Taichu's body was cut into pieces on the spot.

On Han Fei's side, everyone was shocked, thinking to themselves, What a coincidence. I happened to see Jiang Taichu die.

However, before Han Fei and the others could be happy, Jiang Taichu's dozen pieces of flesh shattered at the same time, turned into boundless black fog, and gathered together again.

"As I said, you can't kill me. After swallowing the ominous, the greatest benefit is to inherit the ominous' characteristic. As long as the myriad races are not destroyed, I won't be destroyed. Death God, like you, I'm now Immortal."

"Really ~"

The Death God said leisurely, "Shen Le, Time, undead, break this Reincarnation Coffin."

Senior Sister Shen Le seemed to know what the Death God was going to do. In the blink of an eye, she appeared in the black ancient coffin.

Senior Brother Undead's figure directly faded and disappeared. In the next moment, Senior Brother Undead was also lying in Jiang Taichu's black ancient coffin.

In an instant, the black ancient coffin began to crazily absorb the boundless ominous power here, trying to transform Senior Brother Undead. However, since Senior Brother Undead dared to lie in it, it meant that he was qualified to devour or purify the ominous.

Jiang Taichu wanted to chase after him, but a black void barrier blocked his way.

The Death God said leisurely, "I hereby grant you eternal death."

In an instant, the piece of the Sea of Stars turned into nothingness, and the Creation Star Compass seemed to be completely silent. Han Fei said, "There is no River of Life there."

Fifth Senior Brother frowned slightly. "If it's really as he said and he inherited the ominous characteristic, I'm afraid the eternal death of the Death God can't really kill him. That characteristic is almost unsolvable and can only be sealed."

Old Han also said, "The premise is that he has completely inherited that power."

Boom!

At this moment, everyone suddenly stopped with a loud bang. Everyone looked in the direction of the sound, only to see a massive amount of ominous mist turning into a coffin lid, sealing the black coffin.

Han Fei asked, "What's going on with Senior Brother Undead?"

Fifth Senior Brother said, "Transforming the ominous aura. His power is also extremely special. As long as someone dies, he can obtain power. Therefore, Third Senior Brother is also called the undead, the Spirit of the Dead. And any power can be transformed into a dead state by him, with characteristics equivalent to the power of purification."

Lei Heng asked, "What is that black coffin? Even the three of them together couldn't break it."

Fifth Senior Brother continued, "That's something that the real ominous brought into the Sea of Stars. This is the second time this thing has appeared, so I don't know much about it. I only know that this thing can absorb the ominous power without stopping."

Han Fei: "..."

Everyone : "..."

Time passed minute by minute. After about half an hour, almost half of the ominous power in the Creation Star Compass was absorbed by the black coffin, but Senior Brother Undead still didn't come out, and the black coffin still showed no signs of continuing to be damaged. Instead, the void of the Death God's Eternal Death began to riot, rising and falling.

Everyone could vaguely hear Jiang Taichu's voice from the void. "Hahaha... Death God, you've killed me seven times. Can you kill me?"

Everyone's heart skipped a beat. If they couldn't kill Jiang Taichu, there would be a second ominous in this world. This was an extremely terrifying thing that concerned the destruction of the Sea of Stars.

Just as everyone's hearts were in their throats, the sky suddenly cracked, and the Creation Star Compass seemed to crack from the outside. In the next moment, a dignified voice echoed in the Sea of Stars.

"Death God, Time, Shen Le, you hold off the ominous. Jiang Taichu, I'll kill him."

Han Fei and the others were refreshed and overjoyed.

"Eldest Senior Brother?"

[God of Fishing](#)

Chapter 3425: Eldest Senior Brother, Invincible in the Sea of Stars (1)

Eldest Senior Brother's voice sounded like music to everyone's ears.

Upon hearing this, the Death God waved his hand and disappeared, leaving only his voice echoing. "I'll leave him to you."

The Master of Time also disappeared with a swish, leaving only the residual divine sound. "The time was too short. It only consumed 20% of the power of this reincarnation coffin."

Senior Sister Shen Le said, "Old Three is still inside."

"It doesn't matter."

Elders Senior Brother's voice was dignified and his words were convincing. Hearing this, Shen Le also disappeared with a swish.

Less than three seconds after they disappeared, a peerless figure broke through the Void Domain of the Eternal Death.

However, the moment Jiang Taichu rushed out, a huge hand covered the small Sea of Stars. As the palm pressed down, Jiang Taichu exploded.

"Void, they can't. You can't either!"

Buzz!

The huge hand turned into a void, and Jiang Taichu's body exploded again as soon as it regathered.

A massive amount of ominous aura exploded from the void and instantly spread billions of kilometers. Jiang Taichu's body gathered again, about to soar into the sky and break through the Creation Star Compass.

In the Creation Star Compass, stars shone. Jiang Taichu's blow broke through the sky billions of kilometers long. Just as he tried to break out of the domain, another void wave pressed down and extinguished him again.

The ominous aura that Jiang Taichu unleashed just now had been quickly purified. The power of the two voids instantly fused, and Jiang Taichu was obliterated again.

Lei Heng said, "He doesn't seem very strong! Why can't he be killed? There must be a time when his power is completely purified, right?"

"Doesn't seem very strong?"

Even Han Fei looked at Lei Heng sideways. How could you tell that Jiang Taichu didn't seem very strong? He had been killed so many times, but he had recovered unscathed. Don't you know what level of boss was fighting him? With just a wave of his hand, he destroyed the world and shattered the galaxy. How could he not be strong?

Buzz!

A magnificent figure finally appeared at the huge gap of the Creation Star Compass. The figure didn't enter the Creation Star Compass immediately, but stood near the gap, looking dignified. Under his feet, a circular void power spread out like ripples from the gap of the Creation Star Compass to the entire Sea of Stars.

"Puff! Puff! Puff!"

Bam! Bam! Bam!

Wherever the void ripples spread, all the ominous aura dissipated. All the ominous creatures were instantly annihilated. Cui La tried to sweep the entire Creation Star Compass at once.

Han Fei couldn't help but feel excited. Eldest Senior Brother's attacks were indeed different from those of the Death God and the Master of Time. Those two might be very strong, but he had never seen them sweep the entirety of this piece of the Sea of Stars at once!

Not to mention Han Fei, everyone present was shocked. Old Han couldn't help but sigh. "As expected of a powerhouse who controls the void."

After doing all this, Eldest Senior Brother descended into this world. At this moment, the two void powers fused, and Jiang Taichu was completely locked in.

Rumble!

As Eldest Senior Brother extended his hand and pointed, the void power that spanned billions of kilometers quickly shrank into a ball at a visible speed, turning into a void ball less than 100,000 kilometers long in the blink of an eye.

"Annihilation!"

As if the sky had opened, all laws trembled.

Rumble!

The void ball exploded, but there were no energy ripples immediately. Instead, the surrounding space instantly shattered, and the void ball turned into a singularity. Han Fei felt that the entire Creation Star Compass began to tremble. After nearly three seconds, a white light erupted from the singularity.

Buzz!

The energy tide quickly spread, instantly sweeping the place where Han Fei and the others were.

Fifth Senior Brother and Old Han were about to block, when Eldest Senior Brother's figure suddenly turned into the size of a human and blocked in front of them.

In the entire Creation Star Compass, they were probably the only safe place. The other places were all white and didn't dissipate for a long time. The black ancient coffin that locked Senior Brother Undead was sent flying somewhere.

Anyway, when everyone saw the ancient coffin last, with a crack, a crack seemed to appear on the coffin lid.

At this moment, he couldn't see anything with his eyes. Han Fei's perception tried to penetrate out, but as soon as it left the protection of his Eldest Senior Brother, it was instantly crushed and he couldn't see anything.

Lei Heng said, "Little Junior Brother, you and Worm are the weakest here. Don't try."

Han Fei smiled. "We protected you just now."

Lei Heng said proudly, "But you are the weakest now."

Fifth Senior Brother asked, "Has he died?"

Eldest Senior Brother said calmly, "No."

Everyone's heart sank. How could he not die under such power?

The Time Temple Master said, "Has he really completely turned into the ominous?"

Eldest Senior Brother said again, "Not necessarily."

After more than ten seconds, the violent energy impact quickly weakened. Obviously, something was wrong. This kind of power couldn't be extinguished so quickly.

Fifth Senior Brother couldn't help but explain to everyone, "Eldest Senior Brother used this method to fill the entire Creation Star Compass. Coupled with the power of the void just now, he completely purified the entire Creation Star Compass. Just like a candle flame can illuminate a space, if the candle flame itself is extinguished, the room will quickly return to darkness. However, this time, the Creation Star Compass should be almost purified."

[God of Fishing](#)

Chapter 3426: Eldest Senior Brother, Invincible in the Sea of Stars (2)

Everyone immediately understood. So that was the case.

Sure enough, after only three seconds, the violent energy gradually subsided.

"Ahhh!"

"Void! Even if you come in person, so what? Even the Death God and Time can't obliterate me. What makes you think you can do that? Just with this void?"

Opposite them, countless Great Dao laws and Heavenly Dao Patterns quickly gathered and condensed into Jiang Taichu again.

Bang!

However, the moment Jiang Taichu appeared, the damaged part of the Creation Star Compass burst out with a strange light, as if a power was about to rush out.

Eldest Senior Brother stepped in the air and said calmly, "The Creation Star Compass is the battlefield you chose. It suits me. I'll keep you here forever."

Everyone immediately realized that Jiang Taichu was making a feint. On one hand, he appeared in front of everyone, and on the other hand, he was trying to escape from the Creation Star Compass.

Unfortunately, his plan was seen through by Eldest Senior Brother. At the crack of the Creation Star Compass, Eldest Senior Brother had already set up a void seal.

Two Jiang Taichus appeared at the same time and said in unison, "So what? You can't kill me. Even if you can temporarily seal me, I will break this cage one day."

Eldest Senior Brother shook his head slightly. "No! You are different from the ominous. You swallowed a part of it, but since it can be swallowed, it can be sealed. Do you really think the Death God and Time can't obliterate you? It will take a lot of time to obliterate you. They are too lazy to waste time with you."

"Stop pretending. Let's see how you can obliterate me. If you can't suppress me, the people behind you will all die today. Don't forget, the Creation Star Compass is mine."

Jiang Taichu took the initiative to attack, not with the ominous' combat skills, but with the combat skills of the myriad races. The power of a single sword triggered billions of stars, as if the entire Creation Star Compass was providing him with power.

This place seemed to carry the power of the Sea of Stars. Just seeing the sword light, Han Fei and Senior Brother Six God's eyes instantly exploded.

Han Fei immediately activated his Original Great Dao and pushed his strength to the God Realm, and his eyes instantly recovered. However, when he looked again, he saw that Eldest Senior Brother had his hands behind his back. In front of him was a sword light that spanned tens of thousands of kilometers, but it was suspended in midair.

Senior Brother Six God had just recovered when his eyes exploded again.

Boom~

Eldest Senior Brother gently raised his hand and flicked his finger on the sword. With continuous cracking sounds, the sword light finally turned into powder with a bang.

"You're wrong! Since the Creation Star Compass contains a void, how can it be yours? Since there is a void in it, shouldn't it be mine?"

"What?"

Jiang Taichu's expression changed slightly. He immediately tried to mobilize the power in the Creation Star Compass again, but this world no longer listened to him.

He seemed to realize something and said in shock, "You weren't annihilating the ominous power just now. You were purifying the Creation Star Compass itself."

"Um!"

Jiang Taichu realized that something was wrong. He seemed to realize something and immediately jumped up, reaching his five fingers into the sky, trying to break the seal on the crack of the Creation Star Compass.

However, his body seemed to be imprisoned by billions of threads. As soon as the huge hand was raised, he couldn't move anymore.

Boom ~

Everyone saw that Jiang Taichu's body shattered again, but this time, it seemed to be a little different. There seemed to be something in the ominous body. When they took a closer look, they found that it was composed of dense void fragments.

"What terrifying control."

Jiang Linxian couldn't help but exclaim. It shattered the vast void into hair-like pieces. God knew how many billions of pieces Jiang Taichu had been crushed into.

Jiang Taichu's eyes even tried to move, twisting and deforming into a strange pattern. Han Fei scanned it with his perception and couldn't help but click his tongue. He had been f*cking disassembled into molecules, right? Jiang Taichu was fighting against billions of void powers by rolling his eyes.

Eldest Senior Brother said calmly, "After all, you are half a person! Even if you die, it's better to be a human. Why do you have to have anything to do with the ominous?"

"You..."

Jiang Taichu wanted to speak, but his mouth shattered into billions of pieces. He didn't say the word "you", but his soul did. But clearly, his soul seemed to have been disassembled too.

Eldest Senior Brother reached out and grabbed the black ancient coffin from somewhere.

Bang!

Eldest Senior Brother opened the coffin lid with one hand, and Senior Brother Undead was soaking in the liquid ominous that filled the coffin. After seeing Eldest Senior Brother, he said indifferently, "It's a little troublesome. I need a million years to digest it."

Eldest Senior Brother nodded slightly. "It's okay. I'll ask Time to help you accelerate later. Eat more."

With that, Eldest Senior Brother casually waved his hand, and a large amount of ominous aura in Jiang Taichu's shattered body was forcibly extracted by Eldest Senior Brother, condensed into a liquid ominous, and sent into the Reavatar Coffin.

Crack ~ Crack ~

Jiang Taichu couldn't speak, but he was probably extremely shocked at this moment.

He could only watch helplessly as the ominous power that had fused with for billions of years was extracted bit by bit.

In less than a hundred seconds, he could no longer extract any ominous power from his body.

Only then did Eldest Senior Brother say leisurely, "If you had appeared ten thousand years later, you might have had a chance to cooperate with the ominous from the inside out. Unfortunately, you came out too early. Destroy."

Boom ~

Jiang Taichu's entire body turned into nothingness, and his soul dispersed into specks of stardust. Han Fei immediately looked at the River of Life and found that countless fine streams were converging into the main meridians of the River of Life.

Chapter 3427: Eldest Senior Brother, Invincible in the Sea of Stars (3)

"We won!"

Han Fei was amazed. What kind of f*cking heaven-defying method was this?

While Han Fei was amazed, Eldest Senior Brother suddenly looked back at Han Fei.

"Uh ~"

Han Fei was dumbfounded, so were the others.

A void film suddenly appeared in front of Han Fei, and on the void film, a figure was reflected. It was Jiang Taichu's face.

"Shoot ~"

Han Fei was taken aback, because Jiang Taichu's face was less than half a foot away from him, making him break into a cold sweat.

Eldest Senior Brother said indifferently, "The Path of Reincarnation is no longer yours. How can it be a place you can go as you please?"

In the next moment, the small space in front of Han Fei collapsed into a bead, which Eldest Senior Brother waved his hand and held.

Gulp!

Han Fei swallowed. "Is he dead?"

Han Fei looked at Eldest Senior Brother, but he couldn't see any expression on his face. He couldn't even describe Eldest Senior Brother's facial features. His face seemed to be more handsome than Zhang Xuanyu's, but in a daze, he seemed to be even more ordinary than the Bandit God. Then, he seemed to be extremely elegant, but his eyes seemed to contain a sea of stars, unfathomable.

Is this the appearance of all living beings? Han Fei muttered in his heart.

Eldest Senior Brother said, "He hasn't completely died yet! It will take some time to obliterate him."

With that, Eldest Senior Brother looked at Han Guanshu and Jiang Linxian and nodded slightly. "You don't have to interfere in Little Junior Brother's future. Everything is predestined."

Jiang Linxian also bowed slightly. "We can't interfere anymore."

Eldest Senior Brother grunted and then said, "The ominous is coming. It's very strong this time. You don't have much time left."

Everyone's heart sank. For now, in their hearts, Eldest Senior Brother was probably the strongest in the Sea of Stars. Even so, if Eldest Senior Brother still said that the ominous was very strong, how strong was the other party?

With that, Eldest Senior Brother stopped talking to Han Fei and the others. Instead, he turned around and looked at Third Senior Brother. "Can you carry it?"

Senior Brother Undead said leisurely, "Okay."

Eldest Senior Brother said, "That's good. This is your opportunity. Just keep it. It may be of great use in the future."

"Yes!"

Buzz!

In the next moment, Han Fei and the others felt that the sky changed, the stars moved, and the world seemed to be reversed. In the blink of an eye, they returned to the world within a world.

The Law Enforcement Divine Chain was still holding the Concealing Divine Seal, floating in midair.

"They're back! They're back."

Seeing Han Fei and the others return, the divine descendants all shouted, and many people cried with joy. They knew that from this moment on, they would be free.

Qiu Wanren stood on the side of the city of divine descendants and didn't come to join Han Fei and the others.

Xia Xiaochan, on the other hand, came to Han Fei immediately. "Has the guy in the big coffin died?"

Han Fei sighed, recalling the scene just now, and smiled. "Sort of!"

Only then did Xia Xiaochan realize that Han Guanshu and Jiang Linxian were also here. She hurriedly said, "Greetings, Father and Mother."

Jiang Linxian smiled and said, "Xiaochan, you're making rapid progress! Not bad... I have some secret techniques that I can teach you."

Xia Xiaochan was briefly stunned. "Teach me now?"

Jiang Linxian smiled. "Your father and I are leaving later. Now."

Han Fei's heart stirred and he immediately said, "Go!"

Xia Xiaochan seemed to understand something and immediately followed Jiang Linxian.

Then, the judge of the Ten Yamas of Hell said, "Fellow Daoists, the Eternal Race is still causing trouble. We'll take our leave first."

The master of the Time Temple said stiffly, "Everyone, goodbye."

After the people from the Immortal Temple and the Time Temple left, Lei Heng nagged, "The guys from the Time Temple don't seem to like us!"

Fifth Senior Brother smiled and said, "That's just his temperament. Besides, why should we care about him?"

Lei Heng just rambled on casually and then changed the topic. "Then what should we do now?"

Senior Brother Six God said, "You've all transcended the divine tribulation, so it should be my turn now. I've guarded you, so you have to guard me now!"

Lei Heng was shocked. "Are you going to transcend the divine tribulation? I've never understood how you do it."

Senior Brother Six God said, "You want to see it? Come with me to the Shattered Star Sea first!"

Lei Heng was immediately refreshed. "Oh! Are you leaving the Sea Realm?"

Senior Brother Six God said impatiently, "Are you coming or not?"

"Yes, yes... Let's go! Fifth Senior Brother, Senior Sister Dark Shadow, we'll leave first. Let's meet again someday."

Fifth Senior Brother said, "Go! Remember to take it easy. The Shattered Star Sea can't withstand your torture!"

Senior Brother Six God: "Fifth Senior Brother, don't worry."

With that, the two of them left the world within a world in the blink of an eye. Senior Brother Lei Heng seemed to be very eager.

Seeing that everyone had left, Senior Sister Dark Shadow immediately said, "Fifth Senior Brother, Little Junior Brother, see you in the Sea of Stars."

Han Fei said, "Goodbye, Senior Sister."

In the blink of an eye, only Fifth Senior Brother, Yue Lingke, Han Fei, and Old Han were left.

Seeing this, Yue Lingke pulled Fifth Senior Brother and said, "Come on, go back to my clan and marry me..."

Fifth Senior Brother asked, "Ah... m-marry you?"

Yue Lingke said, "Of course! You molested me in public, and you still want to run?"

"Hey, I... Well..."

Chapter 3428: Eldest Senior Brother, Invincible in the Sea of Stars (4)

After Fifth Senior Brother left, Han Fei said, "How is it? Now there are only the two of us left. It's time to tell us, right? How many more traps have you set up?"

Old Han chuckled. "Didn't you hear what your mother said? No more traps left. There is really no more left this time."

"Really?"

Old Han said, "You've already cultivated the Supreme Divine Technique to this point. We can't set up any traps for you. Besides, the Central Sea Divine Realm was defeated in this battle and suffered heavy losses. The divine descendants' bloodline has been restored and they have regained their freedom. There's nothing left in the Sea Realm that's worth setting up."

"What about the Central Sea Divine Realm?"

Old Han said, "The Central Sea Divine Realm has suffered a great defeat this time. Even though they still have strong masters, how can they dare to attack again easily? Besides, with your senior brothers' current realm, how can they be afraid of the Central Sea Divine Realm?"

"What about the Eternal Race?"

Old Han narrowed his eyes slightly. "The Eternal Race has always been a matter for your mother and me. We have never deliberately set up a trap for you on this matter. As for the Demon Purification Pot's last vine, don't try to collect it for the time being. Your mother and I will take this vine back."

Han Fei said, "The Path of Reincarnation is with me. This is also set up by you, right?"

Old Han smiled and said, "Yes, but this is just snatching the luck of the Eternal Race. At least, they don't know that the Path of Reincarnation is with you yet. They won't specially come to you."

Han Fei said, "No! This matter has already involved me. The Path of Reincarnation can be hidden for a day or two, but I can't watch the Path of Reincarnation all the time. The Eternal Race will see through it sooner or later. Therefore, it's impossible for me to stay out of trouble."

Old Han sighed slightly. "What you should be thinking about now is how to walk through the path of the Supreme Divine Technique. Your mother and I are also helpless about this path."

Han Fei said, "Don't talk about that. It's my business how to walk through this path. By the way, what's his name?"

"Who is it?"

Han Guanshu looked at Han Fei, who was also looking at him.

"That's in the past!"

Han Fei said, "Then why don't you tell me about him? Don't forget, the Path of Reincarnation is with me. It's still possible to find him."

Han Guanshu shook his head slightly. "Don't."

"Why?"

Han Guanshu's face became solemn for once. "As your Eldest Senior Brother said, the ominous is coming. 10,000 years is too short. We might as well let him be an ordinary person and live well. If he's ordinary, he might be able to live a few more lives."

Han Fei asked, "What's his name?"

Seeing that Han Fei seemed to want to get to the bottom of it, Han Guanshu finally said slowly, "Han Ling."

"Han Ling."

Han Fei remembered this name in his heart. Han Ling was clearly the inner demon of Old Han and his mother. Otherwise, how much resentment and hatred was there for them to live nine lives just to destroy the Eternal Race?

"Just one?"

Han Guanshu didn't know whether to laugh or cry. "How many more do you want? No one in this world can escape from worldly affairs. There are always some grudges. When the Central Sea Divine Realm attacked Yiyi, you protected her. But what if you can't? Just give birth to another child?"

Han Fei raised his eyebrows. "Were you there?"

Han Guanshu smiled. "What did you say? I didn't hear you clearly just now."

"Don't pretend. I know you must have been there."

Han Guanshu said, "Anyway, you've won. What's the difference whether we were here or not? That's probably what I'm talking about. You should know."

Han Fei nodded slightly. "Okay! Then I won't ask further. Since you said that your plan is over, where are you going and what are you going to do in the future? Where is my sister?"

Han Guanshu said, "Yin'er has her own path. You don't have to worry about her. As for where we are going, you should be able to guess something, right?"

"Nine lives?"

Han Fei knew that Old Han and the others must have helped Yin'er pave a lot of roads and set up many traps, but he didn't know where these traps were.

However, with Old Han's plan, Yin'er shouldn't be in much danger, and they definitely wouldn't want to suffer the pain of losing their child again. Therefore, he didn't ask about Yin'er again.

Han Guanshu nodded slightly. "I still have my last life and haven't fused with it. It's time."

Han Fei asked, "Can you enter the dominator realm after that?"

Han Guanshu shook his head. "I don't know. Maybe, maybe not. But whether I can or not, the destruction of the Eternal Race will definitely happen."

Han Fei nodded. "Okay!"

After a pause, Han Fei said, "What's the identity of my mother?"

Han Guanshu said, "Jiang Taichu was indeed a great dominator in the past, and the current Chaotic Divine Race was created by him. Your mother was extremely smart. She saw some changes in Jiang Taichu a few years ago, so she took away some of the human race during the Primordial War. As for her identity, under Jiang Taichu's lead, some of the strongest powerhouses of the human race in the past

died directly or indirectly until Jiang Taichu disappeared. Your mother took advantage of the situation and obtained the Primordial Seal. She could be considered the guardian god of the human race."

Han Fei asked, "What about you?"

Han Guanshu laughed. "I'm not as talented as your mother. But my array skills are not bad."

"What about me? Your chess piece, or your son?"

"Fei'er."

At this moment, Jiang Linxian's voice suddenly sounded, "Let me tell you! First of all, don't listen to his nonsense. In the past, in the human race, your father was the most scheming and no one could break the heavenly trap he set. He was the one who saw through Jiang Taichu and instigated me to rebel against him. However, it turns out that he was always right."

Han Fei couldn't help tilting his head and looking at Old Han. He chuckled in his heart, thinking that the old guy is really unreliable!

Han Guanshu smacked his lips and said, "My talent is indeed not as good as yours!"

Jiang Linxian had returned with Xia Xiaochan, but at this moment, Xia Xiaochan was a little confused and seemed to have indeed accepted some inheritance and was digesting it.

Jiang Linxian said, "Fei'er, there are some things I didn't want to tell you, but you're old enough to know them. We did re-cultivate nine lives for revenge. But we didn't nurture you as a chess piece, but an accident happened when I was cultivating with your father, which evolved into a dual spiritual heritage that we couldn't bear. That's why you are here. We gave birth to you and Yin'er, but we also miss Ling, so we obtained the Path of Reincarnation. Now, you have long surpassed the chess game. No one can control your fate, let alone change it... And your father and I want to take revenge for Ling ourselves."

Han Fei listened quietly and finally smiled. "Got it. I have no more questions."

Chapter 3429: Subduing the Concealing Divine Seal (1)

After hearing his parents' explanation, although Han Fei didn't completely believe them, at least his doubts were resolved.

He didn't want to hate Old Han. After all, Old Han and his mother did everything for his own good. As parents, they had actually paid a lot. He had nothing to scold them for.

He couldn't say that his parents' paving the way for him was a bad thing.

An hour later.

Xia Xiaochan woke up slowly. Seeing that Han Fei was trying his best to persuade the Concealing Divine Seal, she couldn't help but ask, "Where are Mom and Dad?"

"You're awake? They've already left."

"They're leaving already? They haven't seen Yiyi yet, right?"

Han Fei thought that they had seen Yiyi countless times. He couldn't help but smile. "They have their own business. Let them be! By the way, what secret technique did my mother teach you?"

A smile appeared at the corner of Xia Xiaochan's mouth. "Some insights. I've benefited a lot from them. What are you doing?"

Han Fei pointed at the Concealing Divine Seal and said, "This guy is disobedient."

Xia Xiaochan was lost for words. "After all, it's a Supreme Nature Treasure. It won't surrender so easily. You should ask Fifth Senior Brother how to subdue it! He's knowledgeable. He might know what to do."

"That's true!"

Han Fei patted the Concealing Divine Seal that was locked by the Creation Divine Chain and said, "Okay! Okay, you have a temper. If you refuse to submit to me now, it might not be the case later."

Han Fei dragged the Concealing Divine Seal back to the city with Xia Xiaochan.

At this moment, the city was celebrating, or to be exact, holding a wedding. Yue Lingke was a woman who was willing to go all out. She did drag Fifth Senior Brother back to marry her.

At this moment, she was busy with something with Fifth Senior Brother in the room. Anyway, the barrier was sealed so tightly that no one could see or hear anything.

Han Fei's popularity among the divine descendants could be said to be at its peak. Immediately, a group of people bowed to him and thanked him, even if most of them were Monarchs or even Great Monarchs.

"Greetings, Human Emperor!"

"Thank you, Human Emperor, for saving our Divine Descendants from fire and water."

"Thank you, Human Emperor."

"..."

Han Fei walked all the way down with a stiff smile. Several hours later, Han Fei and Le Renkuang even became Fifth Senior Brother's personal chefs and prepared for Fifth Senior Brother's wedding.

The wedding was actually very simple. It was nothing more than swearing to the heavens and earth.

There weren't many participants. Although this was a big event, it was also the first intimate contact between the divine descendants and the human race.

At this moment, there were only a few dozen people in the yard.

Xia Xiaochan took Yiyi out to see the world and was saying something to her. Zhang Xuanyu was comforting his daughter, and Qiu Wanren seemed to be discussing soul techniques with Luo Xiaobai.

As for Fifth Senior Brother, Han Fei and Le Renkuang were cooking leisurely, but he was holding a wine calabash and drinking with the fragrance of the dishes. After all, after the divine bloodline recovered, Yue Lingke and Granny Meng had some plans to discuss, so they were not here at the moment.

Han Fei said, "Fifth Senior Brother, I'm not a chef for nothing. Can you shatter this Creation Void Spiritual Drum for me to reforge my Blood Sky Blade."

Old Han didn't take away the Creation Void Spiritual Drum, but left him and the Five-Colored Divine Soil behind.

At this moment, Han Fei was holding a kitchen knife in his hand. The Creation Void Spiritual Drum was placed on the table and knocked with the kitchen knife with clanging sounds.

The Creation Void Spiritual Drum seemed to be very unhappy and shook a few times but ended up being knocked even harder by Han Fei.

Fifth Senior Brother was lost for words. "You broke a Supreme Nature Treasure to reforge your high-quality Nature Spiritual Treasure? Little Junior Brother, you don't have to do that, do you?"

Han Fei said, "Senior Brother, I told you that if this guy doesn't submit to me, I'll make him my slave. I'm not kidding with him. In my opinion, a Supreme Nature Treasure for the enemy is not even as good as my Blood Sky Blade. Although the Blood Sky Blade is indeed not as good as him, it's my partner who can fight to the end of the Sea of Stars with me. And this guy can only be used by the traitors of the myriad races."

Buzz!

The Creation Void Spiritual Drum vibrated crazily, trying to say a word that sounded like teeth grinding from the sealed hole. "Nonsense."

"Oh! You can talk?"

Han Fei sneered. "But so what? Can it change the fact that you're a traitor?"

The Creation Void Spiritual Drum seemed to be furious, and it made an unpleasant and ear-piercing sound with difficulty. "There are many internal conflicts among the myriad races. This is just an internal strife. Everyone has their own masters. Why should I become a traitor?"

Han Fei said disdainfully, "Internal strife? I know you're blind, but I didn't expect your spiritual senses to be blind too. Jiang Taichu, the creator of the Chaotic Divine Race, a former powerhouse of the myriad races, swallowed the ominous and wanted to use your operation to overturn the Sea Realm. You've f*cking surrendered to the ominous. If you're not a traitor, which one is?"

Buzz!

The Creation Void Spirit Drum seemed to still want to argue with Han Fei, but Han Fei ignored him and stuffed the skewers of barbecue into his holes.

Buzz!

Although the Creation Void Spiritual Drum was sealed, a few skewers of barbecue could still be shattered. However, just as he was about to do this, Han Fei sneered. "If you dare to destroy my skewers, I'll throw you into a feces pit and soak you there every day."

Le Renkuang wanted to speak. Since he heard that this thing was a Supreme Nature Treasure, he had been looking at it.

Seeing this, Fifth Senior Brother hurriedly tried to smooth things over. "Alright, alright. Little Junior Brother, he was used after all, so he went astray. The recovery of the Blood Sky Blade really doesn't need a Supreme Nature Treasure. Just forget it."

[God of Fishing](#)

Chapter 3430: Subduing the Concealing Divine Seal (2)

"Why should I forget it?"

At this moment, Yue Lingke's voice sounded. She came in a travel-worn manner, picked up Fifth Senior Brother's calabash wine, and took a sip. "This lousy drum almost killed all our divine descendants. How can we let it off? Kill it."

Han Fei smiled. "I think what Sister-in-law said makes sense. I agree. Does the Sea Realm lack a Supreme Nature Treasure like him?"

Fifth Senior Brother said, "Hey, don't be so serious."

Yue Lingke said, "Why not? Are you going to refute me as soon as we get married? The chessboard that Little Junior Brother paid for our divine descendants and the Blood Sky Blade are both extremely extraordinary. We can't waste them for nothing. Since this damn drum doesn't want to surrender, what's the use of it? We might as well destroy it in case others take advantage of it in the future."

"Alas..."

Fifth Senior Brother sighed slightly and looked at the Creation Void Spiritual Drum. "As you can see, what you did today is indeed infuriating. If you still refuse to obey, I can only refine your spiritual consciousness."

"I didn't know what would happen today."

Han Fei sneered. "You don't know Jiang Taixu? You're just a Supreme Nature Treasure. Don't you know what's going on? The ominous army is coming, yet you're still fighting me? Are you out of your mind?"

Yue Lingke said, "Cut the crap. Just refine it!"

Fifth Senior Brother shook his head slightly, and a gray fog appeared in his palm, and the Creation Void Spiritual Drum immediately vibrated eagerly. "I can choose a master, but I won't choose you."

Han Fei immediately said angrily, "Fifth Senior Brother, refine him."

When a gray mist enveloped the Creation Void Spiritual Drum, Han Fei waved his hand, and the Law Enforcement Divine Chain came with the Concealing Divine Seal.

Han Fei said, "Senior Brother, refine this Concealing Divine Seal too."

The Concealing Divine Seal immediately trembled. He and the Creation Void Spiritual Drum had witnessed Fifth Senior Brother transcending the tribulation the entire time. That strength might not be able to shatter them, but it was not difficult to refine their spiritual senses.

Seeing that the Concealing Divine Seal was shaking violently, Han Fei said leisurely, "The winner takes all. I'll give you one last chance. Submit to me. With my Vast Ocean Navigator, you may shine. Or, refine your spiritual senses. Perhaps the power of the Concealing Divine Seal will be greatly reduced, but I don't care. Remember, you only have one chance to choose."

With that, Han Fei raised his hand, obviously asking the Concealing Divine Seal to choose its master.

It couldn't be simple to become a Supreme Nature Treasure and cultivate spiritual consciousness. At least, none of Han Fei's Supreme Nature Treasures had spiritual consciousness.

Even the Demon Purification Pot didn't have any consciousness. There was no telling if it was because there was still a vine missing.

On the side, the Creation Void Spiritual Drum was being refined, and the Concealing Divine Seal trembled nonstop. Without much hesitation, it surrendered, took the initiative to draw Han Fei's bloodline, and condensed into a unique eye mark on the surface of Han Fei's body.

Han Fei was secretly delighted. It seemed that the Supreme Nature Treasures had different characters. He immediately sat cross-legged and refined them, leaving all the cooking to Le Renkuang.

It should be because Han Fei was very strong now, so it wasn't difficult for him to refine the Concealing Divine Seal. Supreme Nature Treasures were strong, but the process of their recognizing a master wasn't complicated. They didn't even need to extract much Qi and blood. They only needed to make a Qi and blood and soul brand and slightly refine it.

This was the difference between a Supreme Nature Treasure and an ordinary spiritual treasure. When a Supreme Nature Treasure wanted to acknowledge you as its master, it wouldn't hurt you at all. When they didn't want to acknowledge you as their master, just like the Creation Void Spiritual Drum, threats and promises were basically useless.

About half an hour later, Han Fei slowly opened his eyes and couldn't help but sigh. As expected of a Supreme Nature Treasure. Although it couldn't be used in combat, its concealment ability was ridiculously strong.

Information about the Concealing Divine Seal appeared in Han Fei's eyes.

< Name > Concealing Divine Seal

< Introduction > In the past, there was a great powerhouse who made an ultimate concealment-type treasure with the Dew of Origin. The Concealing Divine Seal has many effects such as concealment, perfect disguise, messing up heavenly secrets, concealing traces, blocking cause and effect, and isolating perception.

<Quality> Supreme Nature Treasure

<Effect 1> Breath Concealing: It can hide the aura of a powerhouse of any realm and hide the soul, luck, bloodline, Heavenly Secrets, Great Dao, and law... This is a passive effect that has always been used on the master of the Concealing Divine Seal.

<Effect 2> Disguise: It can disguise itself as any creature in any realm. No one in the known realm can see through it unless the other party can crack the Breath Concealing Technique.

<Effect 3> Hiding the Heaven and Earth: It can hide the traces of all creatures in an area according to its master's will, sealing all their contact with the outside world. This skill is suitable for all laws and can prevent detection, but it can't form a sealing barrier. Once you leave this space, this technique will fail.

<Effect 4> Sweep marks: It can wipe all traces in a fixed area, making this space untraceable.

<Effect 5> Mark Convergence: Forcibly disperse the techniques mastered by its master and make them completely disappear from the world. Once the casting is completed, it will hide in the world, unaffected by any power, and will guide its master away.

< Can't be Reforged >

<Refined>

<Note> It's better not expose the secret that you have the Concealing Divine Seal.

Even Han Fei couldn't help but admire the effect of the Concealing Divine Seal. Almost as long as he didn't take the initiative to expose himself, he wouldn't be exposed. He seriously suspected that the owner of the Concealing Divine Seal was once a strong master of assassination. After all, this effect was probably the ultimate treasure of the assassination world.

As soon as Han Fei finished refining the Concealing Divine Seal, Fifth Senior Brother gave up refining the Creation Void Spiritual Drum.
