God of Fishing

Chapter 3431: Subduing the Concealing Divine Seal (3)

The Concealing Divine Seal trembled slightly. He seemed to sense something. Was he tricked? Weren't they going to refine the spiritual consciousness of the Creation Void Spiritual Drum? Why did this guy stop?

Han Fei laughed and said to the Concealing Divine Seal, "Although I don't like him, it doesn't mean that I will really destroy him! Different from those people in the Central Sea Divine Realm, I know what righteousness is. When the ominous returns, all of you need to participate in the battle, and he is no exception. Of course, this doesn't mean that I will let him go far away."

Only then did Han Fei look at the Creation Void Spiritual Drum. "I allow you to choose a person as your master, but this person has to be a member of our human race. If you don't agree, there's really no room for negotiation. I will definitely refine you."

It wasn't that Han Fei hadn't thought of completely refining the Creation Void Spiritual Drum, but Fifth Senior Brother had secretly told him that if the Creation Void Spiritual Drum was unwilling, even if he really took action, it would take at least thousands of years to refine a Supreme Nature Treasure.

Han Fei didn't have the time to wait. He couldn't break it, nor did he have the time to refine it. Threats and promises were useless, so he could only settle for the next best thing.

"Okay~"

This time, the Creation Void Spiritual Drum didn't refuse. After all, he had seen how the Void Temple dealt with Jiang Taixu. He was extremely disgusted that Han Fei killed his master. It was just like how you had to acknowledge a thief as your father. It was difficult for him to accept it. But if it was the huge human race, he could have a choice.

Han Fei said, "I've already chosen a person for you."

"I want to find it myself."

Han Fei sneered. "The person I chose for you has mastered the sound of human Dao. She's the best musician in the human race and is kind-hearted. You will definitely not be disappointed."

"I want to see the person first."

Han Fei formed a series of seals and recalled the Five-Colored Divine Soil. The Creation Void Spiritual Drum was a little stunned. What was going on?

"Aren't you afraid that I'll attack you again?"

Han Fei sneered. "You can have a try."

The Creation Void Spiritual Drum snorted and asked, "Where is that person?"

Han Fei said, "Find it yourself. Jiuying Ling, Sound Ending Mountain, Central Sea Divine Realm. If you don't like her, you can return. Of course, you can try escaping, but if I meet you again, I'll definitely kill you."

Clank, Clank, Clank ~

Swish ~

The Creation Void Spiritual Drum disappeared without a trace in an instant. He hated Han Fei so much that he didn't want to see him for a second.

Yue Lingke frowned. "Little Junior Brother, do you trust him so much?"

Han Fei said, "I have no choice. I won't really try to destroy a Supreme Nature Treasure. Besides, there's really nothing I can do to him now."

Fifth Senior Brother said, "The person Little Junior Brother chose shouldn't be bad. In short, the Creation Void Spiritual Drum is in the hands of our own people. It's a blessing."

Yue Lingke sneered. "If he really runs away, you two will be at a loss!"

Fifth Senior Brother laughed. "Since he is not afraid of refining and has the pride to refuse Little Junior Brother, he won't go back on his word."

"Cough, cough ~"

Le Renkuang coughed and pouted at Han Fei. Han Fei turned his head with a smile and looked in the direction of Xia Xiaochan and Han Chanyi, only to see that the two of them were staring at him and whispering very openly.

"Mom! Is Jiuying Ling his mistress?"

"That's right! He rushed to give her a Supreme Nature Treasure, but we, his wife and daughter, didn't get any."

"Then this person is simply bad. Even worse than Uncle Yu."

"Cough, cough, cough ~"

Zhang Xuanyu quickly coughed. Your family's business has nothing to do with me! It's really not easy to take care of children today!

...

Han Fei felt a headache, and Yue Lingke couldn't help but laugh. The latter couldn't help but look at Fifth Senior Brother. "Fortunately, you are afraid of women."

Fifth Senior Brother: "..."

Yue Lingke raised her head proudly and then said, "Little Junior Brother, you placed the entire human race on your Origin Star. What are you going to do next?"

Han Fei said indifferently, "Our war with the Central Sea Divine Realm is not over yet. As for how the Central Sea Divine Realm is doing now, we have to go out first. If possible, I hope that the divine descendants can temporarily ally with the human race and live in the West Wilderness."

Han Fei had thought of returning to the Infinite Mining Area, but since he had come to the West Wilderness, and there were countless opportunities in this place, although the conditions were relatively poor, it was beneficial to the growth of the human race!

Besides, in the West Wilderness, there was the Ferocious God Valley, the Wild Ancient Race, and now the divine descendants. The human race should be safer. Of course, this was not enough. He still had to set another record of the Primordial Tower. Only in this way could the human race be safe.

Yue Lingke replied, "The divine descendants are naturally willing to ally with the human race. This is indeed a good choice. At least, I'm afraid the Central Sea Divine Realm won't dare to invade the West Wilderness for the time being."

Han Fei said, "But the problem of the divine descendants still exists. This time, no one took out the Star Sea Boundary Map. If the divine descendants want to transcend the divine tribulation, I'm afraid you still have to consider it carefully."

Yue Lingke snorted. "Because you don't have to bring the map with you when you use the Star Sea Boundary Map. I've already thought about it. I'll take them to the Guardian Sea to transcend the tribulation."

At this moment, Qiu Wanren and Luo Xiaobai seemed to have paused their discussion and walked over. "Han Fei, I have something to discuss with you."

"Oh? Senior, please go on."

Qiu Wanren said, "As you know, the divine descendants are extremely short of resources. Can you give the Origin Stars of the dead powerhouses of the Central Sea Divine Realm to the divine descendants? In addition, the divine descendants want to take 70% of their treasures..."

Han Fei looked calm. Qiu Wanren shouldn't be asking for an exorbitant price out of thin air, so where did he get the confidence?

[God of Fishing](#)

Chapter 3432: Subduing the Concealing Divine Seal (4)

Qiu Wanren continued, "I'll give you something in exchange."

"Oh?"

"What is it?"

This time, many strong masters from the Central Sea Divine Realm had died. There were three god-slaying level powerhouses and 18 gods. If the divine descendants emptied all their Origin Stars, it would be enough for them to have dozens of gods.

Although he had a lot of resources, they might not be enough to completely refine his Origin Star.

Qiu Wanren took out a small bottle with about three drops of shining liquid in it.

Han Fei was puzzled. "What is this?"

"Blood of All Gods."

Han Fei raised his eyebrows. Is this the blood of all gods that the Eternal Race and the Central Sea Divine Realm are competing for?

Even Fifth Senior Brother couldn't help but say in surprise, "The descendants of gods are really generous. Little Junior Brother, you've made a fortune from this deal."

Han Fei couldn't help but ask, "What is the blood of all gods?"

Fifth Senior Brother explained, "Back then, the divine descendants' divine heritage was extracted not just because they made a huge mistake, but also because of a deeper secret."

"Oh?"

Han Fei immediately perked up.

Fifth Senior Brother explained, "In the Primordial Era, in addition to the Three Temples, there were also some powerhouses. One of them was called the Patriarch of the Myriad Gods. He created a path of bloodline. By gathering the bloodlines of the gods, he refined a magical bloodline that was said to exceed the dominator level. This blood of all gods succeeded, but it didn't succeed either. Later, the Patriarch of the Myriad Gods fought the ominous three times without a winner. But for some reason, he suddenly embarked on that path and never returned."

"He embarked on that path too?"

Han Fei couldn't help but wonder, "What kind of path is that? Why hasn't anyone returned?"

Fifth Senior Brother said, "It's a path to an unknown place. No one knows what's on that road unless they step on that road in person to take a look. However, the blood of all gods is indeed magical. Although there are only three drops, no one can estimate its value."

Han Fei immediately grinned. "Senior Qiu, with our relationship, I can't be stingy with you. Just take as many as you can. If it's not enough, I'll give you some energy crystals. I got a lot of them from the Creation Star Compass just now."

Qiu Wanren smiled. "That's good. However, this blood of all gods contains infinite power and is filled with infinite divinity. You should be at least a Divine Realm powerhouse to try to use it. However, with your current strength, you can try fusing a drop. If it doesn't work, don't forcibly fuse it."

"Of course. After all, it's for dominator-level powerhouses!"

Han Fei was not stupid. He could get more resources. Besides, he did have a lot of energy crystals, so he could go to the Ferocious God Valley to exchange them for other resources. However, even Jiang Taichu was coveting the blood of all gods. How could the Origin Stars of some gods compare to it?

Besides, if the blood of all gods was really as precious as Fifth Senior Brother said, Qiu Wanren probably had other purposes.

Han Fei couldn't help but say, "Senior, you're quite generous."

Qiu Wanren said, "At this point, what's there to be stingy with? You haven't seen the ominous war of the Primordial Era. If you have, you will know that at that time, no matter what it was, you could afford it, let alone the blood of all gods. Besides, instead of being coveted by others, I might as well give it to you."

Han Fei accepted the blood of the gods and sighed in his heart. He had never thought of taking this thing from the beginning. He even thought that this thing was just used to revive the bloodline of the divine descendants. He didn't expect this good thing to fall into his hands.

Of course, Han Fei wasn't the only one who was stunned.

Sound Ending Mountain, Central Sea Divine Realm.

Jiuyin Ling was standing on a lone peak, playing a flute. Her white clothes were as white as snow, and her clothes fluttered in the wind. In fact, she had a lot of experience in the mortal world, but no matter how much experience she had, there was always an otherworldly aura on her that was really difficult to wear down. In the end, she just let it go.

Suddenly, in front of Jiuyin Ling, a demonic sound vibrated, directly breaking the faint celestial sound of the Creation Void Divine Flute.

A trace of blood oozed out of the corner of Jiuyin Ling's mouth, but she didn't panic. She just quietly looked at the peculiar large drum with a round and flat shape in front of her.

The drum vibrated, and in the next moment, it actually spoke. "With the method of resonance, you can guide the mystic sounds of the world to reach the state of being one with the heavens and fuse laws with the body. You little girl, you're quite talented. What a pity..."

Jiuying Ling tried to contact the outside world, but in the next moment, she felt that her perception was sealed and she lost contact with her Origin Star.

"Who are you?"

Since he couldn't resist it, it meant that the power of the drum far exceeded his and even suppressed the Creation Void Divine Flute. Since she couldn't break free, fear was meaningless.

"I'm here to kill you. Someone wants to transcend the divine tribulation, but there's an inner demon in his heart, so he ordered me to kill you."

Jiuyin Ling blinked and didn't speak.

Seeing this, the Creation Void Spiritual Drum said, "You don't have any reaction?"

Jiuying Ling said calmly, "What reaction do I need?"

"Aren't you afraid of death?"

Jiuyin Ling: "Yes."

"Then why is your reaction like this?"

"Will you kill me?" Jiuying Ling asked.

"Of course. Han Fei told me himself. I'm a Supreme Nature Treasure. How can I break my promise?"

"Puff ~"

Jiuyin Ling couldn't help but smile. "Senior Supreme Nature Treasure, then do it!"

"I... Are you crazy?"

Jiuyin Ling smiled. "Okay, Senior, don't lie to me. If he wants to kill me to prove his Dao, so what if I die? Senior, do you have anything to tell me at this moment?"

The Creation Void Spiritual Drum: "..."

"Why would I lie to a little girl like you? I have a habit of listening to the groans and laments of others before they die. If you play a song on me, I will remember your voice, and this is your great honor."

With that, the Creation Void Spiritual Drum flew to Jiuying Ling and floated quietly.

He said, "I have fifteen layers of mystic sounds, and every layer has seven layers of sound rhythms. You only have half an hour."

Jiuyin Ling smiled as her white and tender fingertips gently slid across the body of the Creation Void Spiritual Drum.

"Boom, Boom, Boom..."

Fifteen seconds later, a faint mystic sound echoed from the top of the mountain. The rhythm was sometimes soothing and light, and sometimes faintly sad. It was the love of a lifetime, the lingering pain, and the messy thoughts that couldn't be sorted out, which rose and fell between the heavens and earth.

"B*stard, I knew that Han Fei wasn't a good person."

The drums suddenly stopped, and the Creation Void Spiritual Drum shook the void, making the entire Sound Ending Mountain tremble.

Jiuyin Ling: "He is a good person, a very good person."

"Nonsense. If he's a good person, how can you play such a melody?"

Jiuyin Ling couldn't help blinking. "Senior, aren't you here to kill me?"

"Humph! I'm in a good mood today. I'll kill you in a few days..."

"Oh ~ In that case, I'll go back to the mountain first. This place was shaking just now. If I don't go back, my master will be worried."

The Creation Void Spiritual Drum: "..."

[God of Fishing](#)

Chapter 3433: Cultivating in Seclusion for Three Hundred Years, Reborn (1)

Half a year later.

Now, the situation in the Sea Realm had changed.

The defeat of the Central Sea Divine Realm couldn't be hidden. Now that the army of the Central Sea Divine Realm had all retreated, the other four Divine Realms had already begun to pressure the Central Sea Divine Realm.

Some of the strength of the Central Sea Divine Realm had already secretly contacted the major forces of the four Divine Realms. This reshuffling of the Sea Realm had quietly begun at this moment. In the eyes of many people, the Central Sea Divine Realm actually only existed in name. Now, only someone needed to completely light the last fuse.

However, as the saying went, a starving camel was still bigger than a horse. The Central Sea Divine Realm seemed to have suffered heavy losses this time and even lost four Supreme Nature Treasures. But don't forget, a Sea Quelling God had once taken action.

The four Divine Realms didn't dare to really join forces to try to overthrow the rule of the top forces in the Central Sea Divine Realm.

Therefore, they still needed to wait patiently for this fuse, which was Han Fei.

However, at this moment, Han Fei was still busy working for the human race to settle down in the West Wilderness.

Han Fei wasn't familiar with the West Wilderness, but the divine descendants were! They had already found a place not far from the Dead Soul Gobi, relatively close to the Wild Ancient Race, suitable for a temporary rest.

...

At this moment.

Ferocious God Valley, Primordial Tower.

When Han Fei's name covered the challenge of one of the seven major trials, the Primordial Giant Beast trial, it immediately shocked the entire Ferocious God Valley.

On the top floor of the Primordial Tower.

The Bandit God was drinking fruit juice against the wall of the tower, and Han Fei was also drinking a cup of fruit juice. The Primordial Tower said leisurely, "Actually, your strength can't be measured by the Great Monarch realm. I made an exception for you this time."

Han Fei said, "But I'm still a Great Monarch. This hasn't changed. It doesn't matter if I pass the other trials or not. You should understand what I mean. The human race is temporarily living in the West Wilderness. If anything happens, I'll have to trouble you to protect them."

"You're already on the list. I'll take action when I need to. What I'm curious about is how you won in the end."

Han Fei said, "It involves secrets, so I won't reveal too much. I can only say that the Central Sea Divine Realm will definitely lose."

"Boring."

The Primordial Tower muttered.

Han Fei asked again, "What's the Primordial Mystic Trial among the seven trials of the Primordial Tower?"

The Primordial Tower said, "Come to that trial after you become a god! It's meaningless to go now. I won't open it for you now."

Han Fei asked, "Are there no conditions to open it?"

"Yes! But I'm not telling you. If you come again after you become a god, I'll tell you if I'm in a good mood."

Han Fei: "..."

Han Fei thought to himself, You're still angry? Then he looked at the Bandit God and said, "Senior, the human race has a large population. We may have to trouble you in the future."

The Bandit God said indifferently, "You just need to follow the order of the Ferocious God Valley. However, if the entire human race comes, the Ferocious God Valley won't be able to accommodate them all. The premise is that they are at least in the Sea Establishment realm. Those below don't have to come."

Han Fei nodded. "Got it."

The Bandit God seemed to think of something and then added, "Although there are many opportunities in the West Wilderness, there are also many dangers. The human race in the West Wilderness has to adapt to the rules of the West Wilderness. As far as I know, the human race is not strong at the moment. It can even be said to be a little weak."

Han Fei said, "Thank you for your reminder, Senior. Although the human race is weak, it grows very fast. I believe that it won't be long before the human race returns to the stage of history."

...

Another half a year passed.

Han Fei, Zhang Xuanyu, and the others each left a series of inheritances and even many techniques in the Thug Academy.

Han Fei promoted the arena culture of the Ferocious God Valley and encouraged everyone to participate.

On the other side, the human race and the divine descendants had formed an alliance, and Han Fei had helped the divine descendants a lot, so on the divine descendants' side, many strong masters were happy to help the human race gain experience. Han Fei couldn't guess the effect of this racial conflict between gods and humans, but it would definitely promote the overall strength of the human race.

As for Yue Lingke, with the help of Fifth Senior Brother, she shared vitality and transcended the divine tribulation together with him, so she became the only Sea Quelling God after the awakening of the divine descendants.

In a short period of time, with Yue Lingke and Qiu Wanren around, they could protect the human race and the divine descendants. When the divine descendants had more gods, this place would be even safer.

As for Old Fierce, he came back once after the war in the West Wilderness ended. However, when he returned, he was seriously injured. It was said that he was besieged by two Sea Quelling Gods who even used two Supreme Nature Treasures.

After Han Fei helped Old Fierce recover most of his injuries, the latter left alone, saying that he was looking for a secret place to truly recover his strength.

Therefore, whether it was the human race or the divine descendants, what they needed most now was time. They needed to recuperate and cultivate.

However, all of this required resources.

Although there were infinite opportunities in the West Wilderness, not everyone could obtain them, and there was no opportunity that could directly benefit a race.

Han Fei consumed most of the energy crystals collected from the Creation Star Compass to give the current human race the capital to establish themselves in the West Wilderness. This was Han Fei's limit. He knew that the resources he had were not enough to help the entire human race rise. Therefore, if the human race wanted to rise, they had to occupy the Central Sea Divine Realm.

On this day, Han Fei announced that he would cultivate in seclusion for a certain period of time. Zhang Xuanyu, Xia Xiaochan, Zhang Xuanyu, Luo Xiaobai, and the others all cultivated in seclusion with Han Fei.

In Han Fei's Origin Star.

Xia Xiaochan and the others needed time to polish themselves and break through to the Great Monarch realm.

[God of Fishing](#)

Chapter 3434: Cultivating in Seclusion for Three Hundred Years, Reborn (2)

As for Han Fei, he naturally continued to refine the Star Core. However, he only had 1.02 million refined stars left. He exchanged another 500,000 energy crystals in the Ferocious God Valley, but it was still not enough.

Whenever he didn't have enough resources, Han Fei's first reaction was to rob the Central Sea Divine Realm.

However, Luo Xiaobai reminded him that if he conquered the Central Sea Divine Realm, he would have everything. Why would he risk his life under the nose of the Sea Quelling Gods now?

What Luo Xiaobai meant was that with so many strong masters in the Void Temple, he could borrow some resources from them and repay them after taking down the Central Sea Divine Realm.

Han Fei agreed and tried to contact Senior Brother Six God, who was about to transcend the tribulation. As the overlord of the North Sea, he should have some wealth. As he expected, Senior Brother Six God was easier to talk to and told Han Fei to go to the North Sea Divine Realm to get two million refined stars.

In this way, Han Fei had as many as 3.52 million refined stars. This was already an astronomical figure. Han Fei didn't believe that he couldn't refine the Star Core with this.

This cultivation lasted for nearly 200,000 years.

Although Han Fei stacked laws very quickly, the law fusion speed was not that fast. After all, he was slowly fusing laws by refining his Origin Star, pushing himself to the peak of the Great Monarch realm.

Two hundred years had passed in the outside world. Xia Xiaochan and the others had already left. Unlike Han Fei, they didn't need to cultivate in seclusion for such a long time.

In less than 20,000 years, the four of them comprehended it one after another and went out to break through to the Great Monarch realm.

Even Han Song's loose life forms had already spread throughout the entire Origin Star. Furthermore, because of a large number of Soul Purifying Pearls, in the past two hundred years, Han Song had built a vast demon plant forest in the sea of sand of the West Wilderness alone.

As for Han Song, his strength had naturally reached the Great Monarch realm.

On this day, when there were only less than 180,000 refined stars left around Han Fei, his heart finally became clear. He had completely fused 100,000 laws. This meant that his Star Core had been fully tempered.

Han Fei immediately looked at his information, which appeared in his eyes.

Owner: Han Fei

Level: 119 (Great Monarch)

Bloodline Ranking among the Clans in the Infinite Ocean: the 792nd

Immortal Qi: 6,865,48

Soul: 2,795,23 Origins

Strength: 279,523 Star Powers

First Spiritual Heritage: Origin Spiritual Heritage

Second Spiritual Heritage: Eternal Darkness Spiritual Heritage

First spiritual beast: Twin Yin-Yang Sky Swallowing Fish (level 119)

Second spiritual beast: Emperor Sparrow (level 119)

Main Art: Godfiend Body

Yes, when he saw this combat power, Han Fei was slightly stunned. The effect of refining the Star Core was terrifying.

Seeing this combat power, Han Fei couldn't help cursing the God of War. If he was so strong, what about the God of War?

The God of War didn't have dual spiritual heritages, so the number of laws he stacked shouldn't be as many as his. Therefore, the basic combat power of the God of War should be lower than his.

"That's not right. I don't feel the limit of my strength. My soul and strength seem to be able to break through. It's my physique. Yes, although my flesh, blood, and bones are imperceptibly becoming stronger, it's not enough."

Han Fei couldn't help but feel hopeful again. He immediately activated his Original Great Dao.

"I can carry four times my combat power now, but five times is extremely difficult. No, since I'm going to reach the peak of the Great Monarch realm, I have to completely carry ten times my combat power."

Han Fei's heart was burning. If he could continue to become stronger, he might be able to cross the barrier of 300,000 combat power.

However, when Han Fei saw the resources he had left, he frowned. The upper limit of the Supreme Divine Technique was indeed very high, but the amount of resources needed was also extremely terrifying. 180,000 refined stars were clearly not enough to temper his body to that extent.

"It seems that I can only use the Dragon Blood Soul Pearl?"

Tempering the body was extremely troublesome. If he was given thousands of years in the outside world, he was completely confident that his body and bones could carry ten times his combat power.

But he didn't have the time, so the Dragon Blood Soul Pearl was the best choice. After all, didn't the person in the Dragon Pool give the Dragon Blood Soul Pearl to him because he practiced the Supreme Divine Technique?

Han Fei didn't hesitate. The Dragon Blood Soul Pearl might be precious, but his top priority was to become stronger. Otherwise, how could he wipe out the Central Sea Divine Realm?

He couldn't just rely on Yue Lingke, right?

Therefore, Han Fei, who had just finished his cultivation, continued to cultivate in seclusion.

Sure enough, when his physique gradually became stronger, there was still room for his basic combat power to increase.

However, when Han Fei's basic combat power reached the critical point of 300,000 combat power, it was finally stuck. Even if he continued to absorb the Dragon Blood Soul Pearl, it could only strengthen his physique and couldn't increase his combat power.

This time, only 60,000 years later, the Dragon Blood Soul Pearl finally ran out of energy and shattered on the spot.

And Han Fei's physique could carry more than eight times, less than nine times the limit of his combat power.

In fact, Han Fei knew that he was already very strong. His peak combat power had reached the God Slaying level, but he could only be considered a beginner in this realm.

If he could carry nine times his combat power, he should be able to be considered an ordinary God Slaying-level powerhouse.

Another 20,000 years later, after Han Fei refined the last 180,000 refined stars and some energy crystals, the capacity of his body finally reached nine times his combat power.

This time, if Han Fei was willing, his peak combat power could reach 2.7 million, which could be said to have soared.

"Is 300,000 basic combat power the limit of the Supreme Divine Technique?"

Han Fei knew that the resources he could use at this moment had basically been exhausted. Even if he still had energy crystals and could become stronger, if his basic combat power was constant, he would only have three million combat power at most, which was still incomparable to a strong master like Qiu Wanren.

God of Fishing

Chapter 3435: Cultivating in Seclusion for Three Hundred Years, Reborn (3)

With his current strength, if he swept through the Central Sea Divine Realm, he could at most fight a godly powerhouse. It was hard to say if he could kill a god-slaying level powerhouse.

Even if he could, he would probably be entangled for a long time. Therefore, Han Fei was not in a hurry to leave. He still needed to find a way to study what else he had that could resist the Central Sea Divine Realm.

"It's not a bad strategy to sneak attack the strong masters of the Central Sea Divine Realm with the Concealing Divine Seal."

Han Fei thought to himself, However, once this kind of thing was caught by the strong, even if he had the Concealing Divine Seal, he wouldn't be able to escape.

Of course, Han Fei could also ask Senior Brother Six God and the others to take action. In that case, with the help of Yue Lingke and Old Fierce, there would be a total of four Sea Quelling Gods, which should be enough to flatten the Central Sea Divine Realm.

However, Han Fei didn't want to do this unless he had to. This was because he wanted to avenge the human race himself. He wanted to seek justice for those dead people. He wanted the human race to step on the faces of all the strong masters in the Central Sea Divine Realm.

At this point, there were not many ways for Han Fei to improve himself. He could either try to fuse with the blood of all gods now or try to break the limit of the Godfiend Body now.

Suddenly...

Han Fei's heart stirred. He suddenly wondered if he could continue to deduce Void Fishing.

However, Han Fei had tried to deduce it for hundreds of years and studied Void Fishing over and over again, but he didn't find any advanced logic in Void Fishing. In the end, Han Fei could only give up this idea.

"It seems that I can only find a way to break the limit of the Godfiend Body!"

Different from the Supreme Divine Book, the Godfiend Body was deduced after all, so this technique itself still had room for cultivation. What was difficult was that after his soul and his body fused, there was no path. He could only think of a way to create the future path.

The Godfiend Body could only be cultivated by those with dual Extreme Daos. This technique could be compatible with all Daos in the world. The soul and the physique were cultivated in the same body and revolved in the same veins. They fused, entangled, and transformed each other. In the end, the soul and the body fused.

What was important was not to cultivate in the same body, but to fuse with each other and reach the realm of complete fusion.

In the past, because he hadn't reached the peak of the Dual Extreme Dao, Han Fei didn't try this fusion. However, his combat power was already stuck at 300,000, which probably meant that his Dual Extreme Dao had reached the peak.

Han Fei adapted to his current combat power and sat cross-legged again after only a few months. Dual Extreme Dao cultivation guided the cultivation of the soul and physique through the operation of dual spiritual heritages.

The fusion of the soul and the physique naturally happened through dual spiritual heritages. It needed to form a convergence of power at the place where the dual spiritual heritages converged.

Buzz!

When Han Fei tried it, he immediately felt that the two powers were mutually repulsive, like the two ends of a magnetic pole. Not to mention fusing with each other, even touching each other was very difficult.

"Huh? My soul and physique have no interaction at all. How should I fuse them?"

There was no specific way to operate the technique of the Godfiend Body, because in history, the Godfiend Body was already the end of this path of cultivation. It could no longer be deduced. In the past, some people might have walked this path, but they might not have reached the peak of the Dual Extreme Dao, or they left no experience for him to refer to, so Han Fei had to figure out the future path himself.

He was cultivating in seclusion for a long time.

Han Fei was not in a hurry to study the last step of the Godfiend Body in one go. He spent more than 3,000 years deliberating the cultivation concept of the Godfiend Formless Technique and the Godfiend Body.

In the past three thousand years, Han Fei had been thinking about a problem, which was that the Godfiend Formless Technique and the subsequent Godfiend Body could actually fuse the soul and the physique. Then his previous idea that he had to walk the Dual Extreme Dao to the extreme to fuse it was wrong.

This also meant that both he and the Demon God had neglected something from the beginning.

Han Fei felt that this neglected thing was the key to unlocking the cultivation method of the Godfiend Body.

On this day, as usual, Han Fei lay on his Origin Star with his eyes closed, thinking.

Buzz!

Suddenly, Han Fei felt that Zhang Daqian had broken through to the Great Monarch realm.

Han Fei wasn't surprised, because Zhang Daqian's information was synchronized with his. Coupled with hundreds of thousands of years of cultivation and the baptism of the Path of Reincarnation, it would be strange if he didn't make a breakthrough.

Han Fei even felt that when Zhang Daqian and Han Song both reached the peak of the Great Monarch realm, if he tried to combine with them, his strength might be able to break through the 300,000 shackles of the Great Monarch realm.

However, he also felt that it would be a loss if he did that. After all, after he quickly became stronger, he could lead them to become stronger together. If he became a God Slaying level or a Sea Quelling God, his comprehension would definitely accelerate the cultivation of his avatars.

Han Fei waved his hand, and a large number of energy crystals, as well as half of the Chaotic Qi, Immortal Qi, and even spiritual energy in his Origin Star, surged towards Zhang Daqian.

He had no choice. He didn't have many resources left and still owed Senior Brother Six God two million refined stars. If Zhang Daqian continued to cultivate, he might be forced to come out of seclusion to get resources.

Suddenly, when countless energy crystals flew out, Han Fei saw that he still had a batch of abnormally shining energy crystals. It was a pile of level-seven and level-eight energy crystals.

[God of Fishing](#)

Chapter 3436: Cultivating in Seclusion for Three Hundred Years, Reborn (4)

He didn't dare to touch these energy crystals because Senior Brother Azure Dragon had used a large number of energy crystals above level-seven when he transcended the divine tribulation.

If he transcended the divine tribulation, he would have to probably use them too, so he had been keeping them.

Han Fei casually waved his hand and grabbed the energy crystals.

Han Fei didn't have any special thoughts, but he was so busy cultivating that he forgot to see what was different about these powerful energy crystals.

What greeted his eyes was a level-eight energy crystal. Information popped up:

< Name > Level-eight energy crystal

< Introduction > The only pure energy crystal core in the body of a god slaying-level ominous creature. It contains a large amount of power and soul power, a massive amount of Chaotic Qi, a massive amount of vitality, and a massive amount of ownerless souls that can be directly absorbed. It contains a large amount of pure Heavenly Dao laws and can be directly used for cultivation.

<Quality> God Slaying Level

< Contained Divine Sources > 18,682 wisps

< Contained Chaotic Qi > 36 million wisps

<Ownerless Souls Contained > 49,600 Origins

< Vitality > 60 million years

<Absorbable>

<Note 1> Strength Divine Source can only be absorbed after the Divine Source is born.

<Note 2> The ownerless souls in ominous creatures are completely attributeless and can be absorbed directly without side effects.

<Note 3> Pure laws of the Heavenly Dao that can be applied to any law.

Buzz!

Han Fei suddenly sat up. His eyelids trembled as he quickly looked at the other level-eight or even level-seven energy crystals.

However, he found a problem. These energy crystals contained different divine sources. All level-eight energy crystals had both soul divine sources and strength divine sources.

However, as long as it was a level-seven energy crystal, it contained only one kind of divine source, which was either a strength divine source or a soul divine source.

"What does this mean?"

Swish ~

With a thought, Han Fei left his Origin Star and immediately found Qiu Wanren who was preaching.

Seeing Han Fei, Qiu Wanren couldn't help but look him up and down. "You're out of seclusion? You seem to have become much stronger."

Han Fei hurriedly said, "Senior, I have a question that I need you to answer for me."

Qiu Wanren smiled and said, "What question? I'm not bragging, but my wisdom is not something ordinary people can compare to."

Han Fei said, "After you became a god, did your comprehensive power all transform into soul divine sources?"

Qiu Wanren nodded. "Of course."

Han Fei asked, "Did you still have any strength divine source left back then?"

Qiu Wanren said, "You should know that the path I walk is actually a kind of Extreme Dao. Even if there is a strength divine source, it has been transformed into soul divine source."

"Transform?"

Han Fei didn't pay attention to this detail. "Then if a Great Monarch who walks the Dao of Balance becomes a god, will he have both the strength divine source and the soul divine source?"

Qiu Wanren was puzzled. "Yes, but he can't preserve the power of two divine sources at the same time."

"Why?"

"Because no one in this world can achieve a true extreme balance. Then the strength divine source and strength divine source can't be truly balanced. This is one of the reasons. Secondly, the divine power of a god comes from divine sources, and divine sources come from the divine persona. And a divine persona means shackles. Then why is a divine persona called the shackles of a god."

"Why?"

"This is because the divine persona will forcibly transform the strength divine source and the soul divine source into each other. For example, after you become a god, if your strength divine source is very strong, your soul divine source will be weak. Then, the divine persona will guide the soul divine source to transform into the strength divine source. This is irreversible. This is the shackle."

Han Fei nodded slightly, deep in thought, and then asked, "So, after breaking through the shackles, although the divine persona is gone, the strength divine source and soul divine source will both return?"

"Wrong. When you break the shackles and reach the God Slaying Realm, if you want, you can condense a divine persona at any time. However, this kind of divine persona is different from the first one. It's a true divine power. You can strengthen your soul and physique by strengthening the divine persona, but it won't produce the compulsory transformation of divine sources."

Han Fei's pupils were constricted slightly. "So, the divine persona in the God Realm is fake?"

Qiu Wanren smiled and said, "You can't say that. I've studied it for countless years. It can only be said that the divine persona of ordinary gods is incomplete, and there is a saying that the divine persona can be rebuilt after being broken. It's like being reborn."

Han Fei thought for a moment. "Then is there a possibility that the soul divine source and the strength divine source fuse?"

Qiu Wanren suddenly narrowed his eyes and looked at Han Fei deeply. "This is what I'm studying now. It's a method for a god slaying-level cultivator to break through into a Sea Quelling God. If you can do it, you will be a Sea Quelling God."

Han Fei was stunned and couldn't help but fantasize. Senior Brother Azure Dragon transcended the divine tribulation, entered the God Realm first, broke the divine persona, and killed a god slaying-level powerhouse, but in the end, he didn't see him become a Sea Quelling God.

However, when Lei Heng transcended the divine tribulation, his tribulation might not be considered a divine tribulation, because he was originally transformed from a lightning spirit. He fused the four lightning domains and swallowed them all into his body. It seemed to be a little like the fusion of strength divine sources and soul divine sources.

In that case, was the Godfiend Body a cultivation technique at the level of Sea Quelling God in the first place?

Han Fei asked, "Senior, have you ever thought about how to fuse these two divine sources?"

Qiu Wanren shrugged. "Everyone's path is different. If there are specific rules for breaking through to become a Sea Quelling God and everyone imitates them, wouldn't there be many Sea Quelling Gods? You'd better focus on your present path first."

[God of Fishing](#)

Chapter 3437: Cultivating in Seclusion for Three Hundred Years, Reborn (5)

Han Fei nodded. "Senior, I'm going to cultivate in seclusion."

Before Qiu Wanren could speak, Han Fei disappeared again with a swish.

Qiu Wanren muttered, "Could it be that he has broken through the limit of the Supreme Divine Technique and found a way to become a god? Isn't this too fast?"

And this time, Han Fei already had an epiphany. His current soul and strength didn't have the enhancement of divinity, which meant that he didn't have the support of a divine persona.

However, the specialness of the dual spiritual heritages made it possible for his soul power and physical power to fuse.

Han Fei suddenly had a bold idea. He didn't have a divine persona, so he couldn't nurture divine sources and give birth to divinity. However, he happened to have the blood of all gods!

As soon as he entered his Origin Star, Han Fei immediately took the blood of all gods. This thing was extremely divine. Anyway, he would try to fuse with it in the end. Why couldn't he use it to help cultivate the Godfiend Body?

Immediately, Han Fei poured out a drop of the blood of all gods and injected it into his body. At the same time, he activated the Godfiend Body and gathered this drop of blood at the intersection of the Origin Spiritual Heritage and the Eternal Darkness Spiritual Heritage.

Buzz!

As soon as the drop of blood was in position, it emitted a large amount of divine power, trying to affect his bloodline. However, Han Fei didn't use the blood of all gods to modify his bloodline. He injected his soul and strength into the blood of all gods at the same time. It was equivalent to a container with part of the effect of a divine persona, which was used to forcibly fuse these two powers.

All of a sudden, Han Fei saw that the drop of blood began to tremble violently. At the same time, the power of his soul and power poured into the drop of blood uncontrollably.

Even the Qi, blood, and ten thousand laws in his body were sucked in.

"How can that be?"

The change of events was a little beyond Han Fei's expectations. He had planned to use the blood of all gods as a fake divine persona and the power of divinity in it to forcibly fuse his soul and power.

However, the blood of all gods showed signs of losing control.

"Suppress!"

Han Fei roared and forcibly controlled the blood of all gods.

One day.

Two days.

This state lasted for about three years, and Han Fei discovered that the blood of all gods gradually began to wither. When the blood of all gods withered to a certain extent, Han Fei seemed to see a black spot wrapped in the blood of all gods.

"Not enough?"

At this moment, Han Fei had completely forgotten Qiu Wanren's instructions. Seeing that he had succeeded, nearly 50% of his strength had been injected into this drop of the blood of all gods. Now that the blood of all gods was about to be gone, how could he care about Qiu Wanren's warning?

Immediately, Han Fei injected another drop of blood of all gods into his body.

Sure enough, after injecting this drop of blood, Han Fei's state stabilized again.

Five years passed in a flash.

If anyone else saw it, they would be extremely surprised that Han Fei's body had completely decayed.

At this moment, the third drop of blood of all gods was almost exhausted. Han Fei's strength was almost all injected into the blood.

At this moment, the third drop of blood was almost dry. Han Fei could only take a gamble and protect his original body with the law of life.

After another three months, when Han Fei saw that the last trace of the blood of all gods had dried up, the nail-sized black hole finally appeared.

Han Fei was lost for words. This thing absorbed all his power? But what would happen next?

Bang!

Just as Han Fei was thinking about how to activate the black hole, he saw a white light burst out of the black hole. This white light was filled with a power that Han Fei was not familiar with. It instantly

enveloped his entire body and made him lose consciousness, leaving only a dry body sitting cross-legged on his Origin Star.

...

Five hundred years later.

Crack!

A golden light cracked from Han Fei's rotten body, and a fair hand slowly stuck out of the rotten body.

"How did it become like this?"

Han Fei cursed. As soon as he woke up, he felt that he was trapped in an extremely narrow ball cage.

At this moment, when he crawled out of his rotten body, he was stunned.

He looked at his decayed body, swallowed, and looked down at his new body. His skin was smooth and fair and seemed to be fragile. But as long as he exerted a little strength, mysterious Dao Patterns would appear on his skin, and his body was instantly filled with the beauty of muscles.

Han Fei raised his hand, and a mirror appeared in front of him. Looking at himself in the mirror that seemed to have been beautified, Han Fei heaved a long sigh of relief. His skin was whiter, and his bones seemed to have changed slightly. They were not much different from before, but the ratio was more perfect.

"What is this? Rebirth? Reincarnation?"

Han Fei came back to himself and immediately looked at his information.

However, what he saw stunned him.

Information popped up in his eyes.

Owner: Han Fei

Level: 119 (Great Monarch)

Bloodline Ranking among the Clans in the Infinite Ocean: the 2nd

Origin Power: 6,012,24

First Spiritual Heritage: Origin Spiritual Heritage

Second Spiritual Heritage: Eternal Darkness Spiritual Heritage

First spiritual beast: Twin Yin-Yang Sky Swallowing Fish (level 119)

Second spiritual beast: Emperor Sparrow (level 119)

Main Art: Godfiend Body

[God of Fishing](#)

Chapter 3438: Battle Begins (1)

Han Fei never expected to be ranked second in the Infinite Ocean in terms of bloodline.

Of course, he knew that the blood of all gods was very powerful, but he didn't expect it to be so powerful. It actually raised his bloodline to the second place in the entire Infinite Ocean.

This level of bloodline had even exceeded that of the Emperor Sparrow, Little Black, and Little White.

Han Fei felt the surging blood in his body, which contained the power of divinity and could continuously give birth to divine power. In a sense, he could no longer be considered a Great Monarch, but a god.

As for whether this bloodline had other uses, Han Fei didn't know. He was also very stunned at this moment.

Compared to bloodline, Han Fei was more concerned about source power, because the appearance of this power directly replaced the power of the soul and the original power system.

"Is this the power after the fusion of soul and body?"

With a thought, Han Fei crossed the Star Sea Quagmire and appeared in the Sea of Stars in the next moment. He casually punched out a dazzling golden light.

At the moment he punched out, he felt that his Origin Spiritual Heritage and the Eternal Darkness Spiritual Heritage were both triggered, and soul power and physical power instantly fused into the black hole. Then, the two powers were transformed into a brand-new power. Not only did his combat power soar, but it also carried the power of divinity. Furthermore, this power seemed to be fused with the power of various laws, a little like the Ragnarok comprehended by the Demon God.

The Ragnarok was a technique of dual killing of body and soul. And now, after he comprehended this source power, a random punch of his could achieve the effect of dual killing of body and soul even without using the Ragnarok.

To put it bluntly, the power of this punch might not be much stronger than before, but once it was associated with the dual killing of body and soul, the lethality might be several times greater than before.

Besides, Han Fei could feel that the combat power of his punch was really 600,000 points. This meant that source power was indeed the effect of soul power and strength superimposed.

If that was the case...

Han Fei's eyes lit up, and he immediately activated his Original Great Dao. In the next moment, he was excited. He had thought that although he had increased the carrying capacity of his physique to nine times with difficulty, now he could probably only carry about four or five times.

However, to his surprise, he could still use nine times his combat power.

What did this mean? If he used his full strength, he could immediately unleash more than five million combat power.

"How could this be possible?"

In shock, Han Fei began to think about the hidden secret. He punched the Sea of Stars one punch after another, feeling the way the source power circulated and the state of the power he punched out.

It didn't take long for him to understand. It turned out that the composition of source power was still physical power and soul power. However, the power of the soul didn't need his body to carry it, so what Han Fei needed to carry was still the pure physical power.

"I see."

This also meant that if it was only the capacity of the body, it was still 2.7 million star powers. But after his body and his soul were fused, it could carry 5.4 million points of source power.

Han Fei couldn't help but realize that his current state was very special, a little similar to Fifth Senior Brother's. He was like a Sea Quelling God who hadn't transcended the divine tribulation.

The only difference between him and the God Realm now was that he hadn't transcended the divine tribulation or obtained the approval of the Heavenly Dao.

After realizing his current state, Han Fei suppressed his happiness, because the source power at this moment told him that there was still room for improvement.

This was because he was no longer stuck at 300,000 combat power. Otherwise, his source power would only be stuck at 600,000, not more.

And this should be the path behind the Supreme Divine Technique.

After all, Han Fei had already mastered the Godfiend Body. This path shouldn't bring him any further improvement. Then, it was only possible that he accidentally touched the path behind the Supreme Divine Technique, so he broke the original bottleneck.

However, he didn't remember cultivating the Supreme Divine Technique during this period of seclusion.

Besides, the Origin Star created by the Supreme Divine Technique had been completely fused by him.

"Wait, no..."

Han Fei suddenly realized that he didn't need to cultivate the Supreme Divine Technique. As long as he embarked on the path of the Supreme Divine Technique, he would keep becoming stronger until his body and soul couldn't withstand the continuous power of the Supreme Divine Technique anymore and finally exploded.

Obviously, under normal circumstances, he might have more combat power at this moment, but he should seal this part of combat power, just like the God of War.

However, he didn't feel that his body couldn't carry it. Even when he activated his Original Great Dao, he didn't feel that he had reached the limit.

Therefore, if he guessed right, this additional power should have been something he accidentally did when he lost consciousness, or something he triggered at the moment the black hole erupted.

However, Han Fei really had no idea about the Supreme Divine Technique at all.

Although he wanted to continue to study it, he didn't know how long he had been asleep. It had been more than 200 years. What if he slept for three or five hundred years?

Buzz!

When Han Fei appeared in the outside world, he immediately synchronized information with Han Song and Zhang Daqian.

Han Fei was relieved. "Fortunately, it seems that I haven't slept for long. I've only been in seclusion for 302 years."

"Have you finished your cultivation?"

As soon as Han Fei appeared, Yue Lingke appeared beside him.

God of Fishing

Chapter 3439: Battle Begins (2)

Yue Lingke looked Han Fei up and down and couldn't help but ask in shock, "Have you become a god?"

Han Fei shook his head. "No. Why do you think I've become a god?"

Yue Lingke couldn't help but heave a sigh of relief. "I thought you had broken the limit of the Supreme Divine Technique... You're full of divine power. No matter how I look at you, you look like a god, not a Great Monarch."

Han Fei couldn't help but feel a little embarrassed. He hadn't stabilized his current strength much, so it was inevitable that he couldn't control it well. After all, in this seclusion, his peak combat power was much stronger. From his original peak combat power of 900,000 to his current peak combat power of 5.4 million, he was six times stronger.

This level of improvement inevitably needed to be stabilized and adapted. Otherwise, he would be like now, with divinity dissipating all over his body.

Reminded by Yue Lingke, Han Fei knew that he couldn't cultivate anymore. He had to adapt to his current strength first. However, there was no need for him to continue cultivating in seclusion at this time.

After all, the resources had been exhausted, leaving only level-seven and level-eight energy crystals. Even if he cultivated in seclusion again, he had to have resources!

Han Fei couldn't help but explain, "Maybe it's because I took the blood of all gods!"

Yue Lingke narrowed her eyes. "More than that, right? I heard that your blood is surging and your Qi and blood are strong... Besides, you've changed completely. Is this because of the blood of all gods? Does improving your bloodline have the effect of rebirth?"

Han Fei smiled and said, "Of course, my strength has also improved a little. By the way, Sister-in-law, can I ask what your current combat power is? It's that ambiguous power. Soul, you know."

Yue Lingke said, "Sea Quelling Gods, gods and God Slaying-level cultivators may be a little different in combat power. It's a realm where power and soul are fused. How should I put it..."

"Kill both the body and the soul?"

Han Fei spoke for Yue Lingke.

Yue Lingke immediately nodded. "That's right. Little Junior Brother, you're quite perceptive!"

"Is that so?"

Han Fei casually pinched a thunder ball in his palm. Yue Lingke was shocked to see it.

In the next moment, Fifth Senior Brother appeared in front of Han Fei with a wine calabash and looked at Han Fei a bit in depression. "Little Junior Brother, have you mastered the power of the Sea Quelling God level?"

Han Fei asked, "Is this really the power of the Sea Quelling God level?"

Fifth Senior Brother looked at the thunder ball and nodded quickly. "That's right. Although the power you used is relatively weak, it's definitely at the level of a Sea Quelling God. Once you use a secret method, such as the dragon ball you used before, you can immediately exert the combat power of a Sea Quelling God. However..."

"Please go on."

Fifth Senior Brother hesitated for a moment and said, "The state of your power is surprisingly stable. Under normal circumstances, at the level of the Sea Quelling God, after fusing the soul and the body with divinity as the foundation, the state of your power can't be particularly stable. After all, these two powers are repulsive in themselves, but the divinity born at the level of the Sea Quelling God is purer, so it can temporarily act as a carrier."

Han Fei's heart stirred. He didn't feel unstable at all, nor did he need to use divinity as a carrier. But he felt that all of this might have been completed in the black hole.

Therefore, if what Fifth Senior Brother said was true, his strength was more stable than other Sea Quelling Gods.

Han Fei asked, "So, Fifth Senior Brother, do you have a measure of combat power? For example, what's your current power?"

Fifth Senior Brother said, "Little Junior Brother, since you have comprehended source power, you should know that this power can superimpose physical power and soul power. According to the standard of the Great Monarch realm, if either your soul or power reaches five million, you can be considered a beginner-level Sea Quelling God."

"Once you become a Sea Quelling God, when you fight, your soul and power will fuse, and the combat power you can unleash will be about 7 to 9 million. As your strength continues to become stronger, well... the strongest veteran Sea Quelling God will have higher combat power. As for the upper limit, I'm not sure."

"So high?"

Han Fei couldn't help but click his tongue and then ask, "Senior Brother, what about you?"

Fifth Senior Brother didn't hide it. After all, Han Fei had already cultivated source power, so it was necessary to measure the strength of the Sea Quelling God.

Fifth Senior Brother said, "More than 28 million!"

"How much?"

Han Fei's eyes widened in disbelief.

Fifth Senior Brother said, "After all, I'm not a beginner at the Sea Quelling God level, so my reference isn't very meaningful."

Han Fei: "..."

The corners of Yue Lingke's mouth twitched. "Show off! Don't scare your Little Junior Brother... Little Junior Brother, don't think that all the Sea Quelling Gods are like him. Most people who have just entered the Sea Quelling God level might only have combat power of about 8 million. For example, I'm not as strong as him, only less than 9 million."

Han Fei: "..."

Han Fei really wanted to roll his eyes at them.

He had just thought that he had already reached the Sea Quelling God realm, but he didn't expect him to be the weakest among the Sea Quelling Gods. It was easy for a Sea Quelling God to have the combat power of eight or nine million. For a freak like Fifth Senior Brother, his combat power was at least 15 million. This gap was really huge.

Fifth Senior Brother said, "In any case, when you really reach the Sea Quelling God level, you can't completely use this combat power as a standard. After all, the Great Daos and laws everyone grasps are different, the level of secret techniques is different, and the degree of control of source power is also different. It's not easy to define the strength of Sea Quelling Gods."

[God of Fishing](#)

Chapter 3440: Battle Begins (3)

Han Fei hurriedly said, "Okay, I understand. Fifth Senior Brother, Sister-in-law, I have no more questions. I just came out of seclusion and need to prepare. By the way, Sister-in-law, what's the situation in the Central Sea Divine Realm now?"

Yue Lingke said solemnly, "Very dangerous and complicated. Now they're only relying on a few superpowers to hold on. Many people are watching you, waiting to see how the human race will take action."

Han Fei smiled and said, "What can we do? Of course just fight them back. In fact, the battle in the Sea Realm is nothing more than the business of those Sea Quelling Gods. Perhaps someone is watching from the Sea of Stars, but they didn't care about it before. Now that the Central Sea Divine Realm has suffered a setback, they can't just come out to meddle. The divine descendants have already won this round. If they knew what was good for them, they would have quit the Central Sea Divine Realm long ago."

Yue Lingke also showed a rare fighting intent. "Okay, the divine descendants have been preparing for this battle for three hundred years. In the past three hundred years, there were 32 divine descendants who transcended the divine tribulation. If it weren't for the limited resources, this number could have been more. However, it should be enough to deal with the current Central Sea Divine Realm."

Han Fei nodded and suddenly said, "What I'm more curious about is why the people from the Central Sea Divine Realm didn't escape when they knew that they would definitely be defeated. Logically speaking, after the battle of the divine descendants, they should have chosen a chance to retreat from the Central Sea Divine Realm. Why did they have to stay in the Central Sea Divine Realm? Aren't they looking for a beating?"

Fifth Senior Brother smiled and said, "The Central Sea Divine Realm is prosperous and full of talents. They have been in charge of this place for countless years and have made deep plans. How can they give it up so easily? If the Central Sea Divine Realm fights to the death for this battle, it will really become a super civil war that sweeps the Sea Realm. This is something many people in the Sea of Stars don't want to see."

Han Fei asked, "Will they take action?"

Fifth Senior Brother thought for a moment. "If this battle lasts long enough to destroy countless cultivation forces in the entire Central Sea Divine Realm, they will take action."

Han Fei said, "I don't know how serious it is, but I don't care. The Divine Demon Forest, the Ancient Demon Race, the Heavenly Spider Worm Valley, the Light City, and the Chaotic Divine Race... We have to settle scores with them. I can't just let them off. I think the divine descendants should be the same, right?"

Yue Lingke nodded. "Of course. Eight million divine descendants tried to survive just for this day. No one can stop our determination to take revenge."

Han Fei grinned. "Sister-in-law, since we're going to fight, let's fight an earth-shaking victory so that no one in this world can resist us anymore."

Then, Han Fei looked at Fifth Senior Brother and said, "Senior Brother, Senior Sister Shen Le said that she wanted to unify the Sea Realm. We are not the kings of the myriad races, so we can't make the myriad races in the Sea Realm united. Therefore, we can only suppress them by force. In that case, I won't interfere in the matters of the Sea of Stars. I just care about the Sea Realm."

"Gulp~ Ah~"

Fifth Senior Brother took a big sip of the wine. "It's up to you! If possible, try not to involve some ordinary creatures."

"Um!"

...

Half a day later.

In an uninhabited forbidden area in the West Wilderness, a certain place was shrouded in clouds and rays of light overflowed. A half-human, half-beast and extremely ferocious-looking powerhouse was

entrenched here. Under his feet, there were many bones in all directions. There was even the skeleton of a god, but at this moment, even the slightest divine runes had disappeared.

"Senior."

Han Fei stepped into the void and cupped his hands. "The battle in the Central Sea Divine Realm is about to begin. Senior, have you recovered your strength?"

Old Fierce slowly opened his eyes, and killing intent rippled out. "How are we going to fight them?"

Han Fei said, "Senior, you can take action when you think it proper."

Old Fierce's voice was low and murderous. "Someone is watching in the Sea of Stars."

Han Fei said, "I know. This time, no one in the Sea of Stars will stop us."

"Okay!"

Han Fei didn't know how Old Fierce was locked up in the Creation Divine Prison, but he was indeed very murderous. Even though he had been locked up for countless years, it didn't seem to change.

However, this was good. Old Fierce was also one of the ancestors of the divine descendants, so he naturally stood on the side of the divine descendants. When he suppressed the Sea Realm, there would be no war in the Sea Realm. If Old Fierce was still killing wantonly in the Sea Realm, he would have to keep him in check.

...

"Old Distanceless."

Swish ~

The Distanceless Gate appeared again, and Han Fei said, "Do you know about the last war in the West Wilderness?"

Some words immediately appeared on the Distanceless Gate. "I don't know."

Han Fei smiled. "Then let me tell you about it."

After a while, perhaps because Han Fei's story was too exciting, the Distanceless Gate kept shaking.

Han Fei said leisurely, "Look, your help is meaningful. The Creation Star Compass contains billions of ominous creatures. After this battle, all of them have been erased. Jiang Taichu almost became the second ominous, who was also destroyed by our Void Temple. So? I'm not bragging, but you won't suffer a loss at all if you choose to help me... Now, I'm going to start reorganizing the Sea Realm. After this battle, it will be time for all races to unite to resist the ominous."

After fooling the Distanceless Gate, Han Fei had achieved his goal. At this moment, the Distanceless Gate trembled slightly and seemed a little excited.

Han Fei said, "Old Distanceless, to the North Sea Divine Realm."

...

"Old Distanceless, go to the East Sea Divine Realm."

...

"Old Distanceless, go to the South Sea."

...

"Old Distanceless, return to the West Wilderness."

...

In the human race's cities.

The human race was an extremely adaptable race. No matter what environment it was, they could adapt.

Especially for these humans that Han Fei had brought out of the Raging Sea, they had once stayed in the Raging Sea. Compared to the past environment, they actually enjoyed the current environment very much.

At least, no matter how displaced they were in the Sea Realm, there was an unparalleled concentration of spiritual energy here, as well as countless opportunities.
