Chapter 3451: Sweep the Divine Demon Forest (2)

Yue Lingke pointed her sword at the Sea Quelling God of the Chaotic Divine Race and said, "Come on! If you don't come, I'll kill the Chaotic Divine Race alone. You have no choice."

The Sea Quelling God looked angry, but he knew that Yue Lingke could do it. The Ancient Demon Race was a living example. Almost everyone above the Venerable Realm in the Ancient Demon Race had been killed. Although it wasn't Yue Lingke and the others who did it, they had the courage. Especially Qiu Wanren, he didn't care about the negative karma at all and attacked like a lunatic.

Therefore, he didn't dare not to fight.

And Old Fierce's old opponent was the white-haired old man. The other party's injuries had already recovered. His strength was indeed not as good as Old Fierce's, but Old Fierce's strength was not at its peak. It was not easy to beat him.

The white-haired old man glanced at the God Slaying-level god from the Divine Demon Forest and said via voice transmission, "That's all we can do. As for Han Fei and that Qiu guy, I'll leave them to you."

Swish, Swish ~

The four Sea Quelling Creatures disappeared almost at the same time, leaving only Han Fei, Qiu Wanren, and the 32 gods of the divine descendants.

Han Fei said, "Senior, I'm going to explore the Divine Demon Forest. Just watch."

Qiu Wanren said, "Are you looking down on me?"

Han Fei said, "Of course not, but there's no need. After all, the other party has five God Slaying-level powerhouses. They're determined to fight us head-on. Or, you can take the 32 gods into your Origin Star first."

Qiu Wanren turned around and shouted, "You heard it? It's not the time for you to erupt yet. If you stay here, you will only be in the way. So open your minds and enter my Origin Star."

Qiu Wanren was bold and prepared to fight four alone. This was equivalent to four people challenging the entire Central Sea Divine Realm. He also thought to himself, Fortunately, Han Fei grew extremely fast. Otherwise, even if the crisis of the divine descendants was resolved, it would be almost impossible for them to conquer the Central Sea Divine Realm.

Han Fei rushed into the huge forest area of the Divine Demon Forest. When all those dirty tricks were meaningless, the only thing left was the frontal battlefield. In the end, strength spoke louder than words. This was the final state of cultivation.

The God Slaying-level powerhouse from the Divine Demon Forest roared, "Leave Han Fei to me. I'll leave that Qiu guy to you."

Boom!

Tens of thousands of lightning marks instantly swept across the forest.

Whoosh!

Within millions of kilometers, lightning and fire spread, directly shattering the forest.

The powerhouse from the Divine Demon Forest was shocked by Han Fei's strength. Although he knew that Han Fei was definitely not weak and couldn't be underestimated as a Great Monarch, he didn't expect him to be so terrifying.

"Sea Quelling God?"

The power of this blow really frightened the strong master of the Divine Demon Forest. The latter immediately retreated. At the same time, the entire Divine Demon Forest began to sway and tremble. The strength of this strong master of the Divine Demon Forest quickly rose.

"Sword Five, Shattering ~"

Swish ~

Source power condensed into a sword, raising tens of thousands of waves. There was lightning and fire on the sword. Wherever it passed, countless vines turned into powder.

In the blink of an eye, the strong master of the Divine Demon Forest gathered the power of the Divine Demon Forest and used the divinity of the leaves to block Han Fei's sword.

Bam! Bam! Bam!

The explosion swept in all directions, and the sword light flashed through the rolling grass and leaves.

"Puff ~"

One of the Divine Demon Forest powerhouse's arms was cut off. Source power burned at the wound, trying to rush into the body of the Divine Demon Forest powerhouse.

"How is that possible?"

The latter was shocked. With the power of the Divine Demon Forest, his combat power could barely enter the Sea Quelling God level. Why was he defeated in one slash?

The corners of Han Fei's mouth curled up slightly. "This slash is called Shattering. It can shatter all kinds of strange techniques and point at the target. You can't block it. You can only fight me with all your strength."

"Even so, so what? You can't kill me in the Divine Demon Forest."

One of the God Slaying-level powerhouse's arms was cut off, but this was the Divine Demon Forest after all. With the power of the Divine Demon Forest, the other party immediately destroyed the burning of source power and grew another arm.

"Really?"

A cold smile appeared on Han Fei's face. The Wheel of Life appeared behind him. As the Wheel of Life spun, all vitality within millions of kilometers was crazily sucked into the Divine Wheel. And all kinds of demon plants and creatures within millions of kilometers were withering at a visible speed.

Han Fei said disdainfully, "The Divine Demon Forest is very big, but if I want to destroy it, how can you stop me?"

Boom!

Han Fei stomped, and billions of sword streams swept across. The trees that were already withering exploded one after another. The ground veins here were constantly impacted by the Sword Wanderers or rumbled.

For a moment, the Divine Demon Forest shook. Under the violent shaking, huge cracks quickly destroyed the ground veins of the Divine Demon Forest.

On one hand, Han Fei destroyed the ground veins of the Divine Demon Forest wantonly. On the other hand, Han Fei didn't stop and fought the strong master of the Divine Demon Forest in the blink of an eye.

Both of them used external powers to upgrade themselves to the Sea Quelling God level. But the difference was that Han Fei was a True Sea Quelling God and used source power.

As for the powerhouse from the Divine Demon Forest, his combat power exceeded the five-million shackle too, but he didn't have the conditions to fuse his strength and soul power.

Therefore, as soon as the two collided, the body of the powerhouse from the Divine Demon Forest was pierced through and shattered on the spot. If it weren't for the demon plant-type creature's extremely good escape technique, he would have died.

[God of Fishing](#)

Chapter 3452: Sweep the Divine Demon Forest (3)

However, even though he escaped, Han Fei still forcibly stripped a lot of the other party's vitality.

Besides, he was still in this forest. How could he escape? Of course, he didn't dare to escape. Otherwise, with the destructive power of Han Fei, it would only take him a moment to destroy half of the Divine Demon Forest.

As soon as the strong master of the Divine Demon Forest appeared, Han Fei appeared in front of him again. The power of his punch crushed the energy barrier condensed by the surrounding forest.

In the next moment, Han Fei used his hand as a knife and pierced through the strong master of the Divine Demon Forest again.

"Hahaha! Han Fei, do you really think our Divine Demon Forest doesn't have any means to keep you in check?"

The man was not shocked but delighted to be pierced by Han Fei. Light curtains suddenly rose from the ground, and billions of brilliance enveloped this place. A copper bell clanged.

Han Fei felt an invisible force trying to invade his soul.

The cultivator from the Divine Demon Forest who was caught by Han Fei took the initiative to explode his body again and escape. His body appeared outside the brilliance. He laughed. "Han Fei, this is the Soul Death Bell. It's refined from the Heavenly Dao Death Bell. It can cut off the soul and break your secret technique. Once you can't use the power of the Sea Quelling God, let's see if you can continue to be so arrogant."

"Oh, really?"

Suddenly, a calm voice appeared behind this person. This powerhouse from the Divine Demon Forest was shocked and immediately prepared to escape again.

However, this time, he couldn't activate this technique at all.

"Pfft!"

In the next moment, chains of life laws clasped his limbs, neck, and waist, crazily extracting his vitality.

"How is that possible?"

In the next moment, the body trapped by the Soul Death Bell instantly disappeared.

This person was shocked. "How can the Soul Death Bell be useless? It's impossible for it to be useless. Even if you have the Dual Body Divine Technique, you'll definitely be affected by the Soul Death Bell. How can you escape safely?"

Han Fei's figure appeared in front of this person. Holding the Concealing Divine Seal in one hand, he smiled and said, "Because the one inside is not the current me! Otherwise, do you really think I would have been tempted by you to go deeper into the Divine Demon Forest?"

A moment ago, when Old Fierce told him that countless strong masters had gathered in the Divine Demon Forest, Han Fei had fished out his old body.

He was not stupid. Since these people from the Central Sea Divine Realm were forced to fight head-on, how could they not have any means?

Otherwise, once the Divine Demon Forest was broken, the other families would also be broken. Therefore, there must be a trap in this battle.

It was for this reason that Han Fei used his old body as bait and hid his original body with the Concealing Divine Seal.

"Concealing Divine Seal?"

The body of the cultivator from the Divine Demon Forest was rapidly decaying. He stared at the Concealing Divine Seal. It was this thing that covered this place and severed his connection with the Divine Demon Forest. Therefore, his death substitution technique failed.

However, they had guessed that the Concealing Divine Seal might fall into the hands of Han Fei or someone, but they didn't expect it to reappear in such a way.

Han Fei said casually, "I know that since you have a death replacement technique, your current body shouldn't be completely your original body. But it doesn't matter. I'll kill your original body first. When I sweep through all the enemies later, I'll kill all of you."

Bang!

Han Fei slapped this person, extracted all his vitality, and smashed him into powder.

As Han Fei expected, there were no Great Dao cracks or Heavenly Dao Death Knells. This person still had part of his body left.

Han Fei smiled contemptuously and grabbed the Soul Death Bell in the sky with one hand. It turned out to be an ultra-quality Nature Spiritual Treasure, not a Supreme Nature Treasure.

"I thought it was a Supreme Nature Treasure. However... Hehe, I happen to lack a Nature Spiritual Treasure to sacrifice to my knife. I'll use you for it then."

Buzz!

No matter how the Soul Death Bell trembled, Han Fei didn't care. He injected source power into it and cut off the soul brand of the powerhouse from the Divine Demon Forest. In the next moment, with a thought from Han Fei, countless fragments of the Blood Sky Blade floated in the air. These fragments immediately attached to the Soul Death Bell, producing all kinds of ear-piercing sounds.

The Blood Sky Blade couldn't be revived until it ate a spiritual treasure of the same level. Han Fei didn't know if the Soul Death Bell that exceeded the level of the Blood Sky Blade could still be swallowed. But now it seemed that the Blood Sky Blade could also eat ultra-quality Nature Spiritual Treasures.

The Soul Death Bell was attached to the Blood Sky Blade's fragments and couldn't get rid of them at all. After all, the Blood Sky Blade was just a weapon and didn't have a soul body, so the Soul Death Bell's attack was meaningless to the Blood Sky Blade's fragments.

After Han Fei let go, the Soul Death Bell immediately escaped with the Blood Sky Blade.

However, Han Fei didn't care. When the Blood Sky Blade swallowed the Soul Death Bell, it would come back sooner or later.

The corners of Han Fei's mouth curled up slightly. At this moment, the powerhouse from the Divine Demon Forest hadn't died yet, and within the range of the Concealing Divine Seal, Han Fei hadn't been exposed either.

Holding the seal, Han Fei turned into a black fog and quietly approached Qiu Wanren's battlefield.

On the other side, everyone was fighting fiercely. Qiu Wanren was bathed in blood. The four God Slaying-level powerhouses besieged him, and the twelve gods worked together to set up the Soul Subduing Technique. Qiu Wanren's body was tattered, and he could barely protect himself with a treasure bottle.

However, even so, Qiu Wanren was still a tough guy. He only targeted one person and attacked with endless Soul Killing Techniques, making the person in a worse state than him.

While the five of them were fighting, suddenly, three of the twelve gods who had set up the Soul Subduing Killing Technique exploded.

Before the Heavenly Dao roared, a sword light appeared out of thin air and instantly attacked a big spider at the God Slaying level. The spider was shocked. From the death of the gods to the appearance of this blow, it was too fast for him to react.

[God of Fishing](#)

Chapter 3453: Sweep the Divine Demon Forest (4)

"Sea Quelling God?"

"Puff ~"

The Sword of Shattering instantly crushed this person, directly destroying his body and soul.

Rumble!

Knock, knock, knock!

The Great Dao crack and the Heavenly Dao Death Knell sounded at the same time, indicating the death of a God Slaying-level powerhouse.

As soon as this sword appeared, the other three God Slaying-level powerhouses who were fighting Qiu Wanren immediately retreated.

But how could Qiu Wanren be willing? He roared, "Soul Assault, Soul Weaving Technique."

Qiu Wanren actually controlled a God Slaying-level powerhouse from the Light City with a soul technique, causing the powerhouse to lose consciousness for a moment. This was similar to Han Fei's Void Stealing Technique.

Seeing this, how could Han Fei let it go? This was simply a dish delivered to his door. He immediately turned his source power into a knife and crushed over, killing this person in one blow.

Rumble!

Knock, knock, knock!

The Great Dao crack appeared and the Heavenly Dao Death Knell sounded again.

The two God Slaying-level powerhouses who had fled in panic were no longer willing to fight. Han Fei's appearance far exceeded their expectations. In their calculations, it was impossible for Han Fei to appear. This was because the Divine Demon Forest had already set up a trap for him. With Han Fei's personality, it was impossible for him not to enter the trap!

However, why was there no warning at all when Han Fei came out of the Divine Demon Forest?

They were shocked. There was no warning, which only meant that the one from the Divine Demon Forest had been killed. They didn't know how he was killed, but this was the only explanation.

Besides, the strength Han Fei had just shown made the two of them even more certain of this. Han Fei was already a Sea Quelling God. Even if he launched a sneak attack, only a Sea Quelling God-level

powerhouse could kill a God Slaying-level powerhouse in one blow. Only with absolute strength could he kill so powerfully.

Seeing this, the two of them immediately roared, "Let's go!"

They knew that they had no chance on the Divine Demon Forest's side. Three of the five God Slaying-level powerhouses had already died. Unless other Sea Quelling Gods appeared, it was impossible for this battle to continue.

But if there were still Sea Quelling Gods, they should have appeared long ago. Since they hadn't appeared yet, it meant that something had happened in the Sea of Stars, and the strong masters of the various races couldn't come back.

In that case, they had to make plans early.

However, the battle here had reached this point. How could they leave as they pleased?

Old Fierce's voice suddenly echoed, "Since you've come, stay."

As soon as he said so, Han Fei saw that the Law Enforcement Divine Chain was flying towards him. With his current vision, he saw that the white-haired old man was chasing Old Fierce as if he wanted to stop him.

Han Fei immediately understood Old Fierce's intention. He was asking him to block the white-haired old man!

Han Fei took the Law Enforcement Divine Chain with a swish, and source power instantly filled it. Han Fei used the Law Enforcement Divine Chain as a knife again and slashed at the white-haired old man with all his strength.

"Get lost."

Seeing this, the white-haired old man roared.

"You're the one who should get lost."

Han Fei had already slashed out, but at the same time, he felt infinite pressure, as if all his bones were trembling.

Although he had the combat power of a Sea Quelling God, he was the weakest one among the Sea Quelling Gods, with less than six million combat power. Han Fei estimated that this white-haired old man's combat power was at least ten million, at least twice his.

Therefore, Han Fei knew that he couldn't stop the other party with this blow, but he just needed to buy some time for Old Fierce.

He was determined to destroy the Central Sea Divine Realm in this battle. If they let these two God Slaying-level powerhouses escape now, it would probably be difficult to kill them later.

Clang!

Unfortunately, this slash was blocked by the old man's two swords.

The old man created a projection and deceived Han Fei. In the next moment, it flashed past Han Fei's eyes.

"Old man, if you dare to let those two go, I'll wipe out your entire race."

Han Fei failed to stop the old man in the end, but his full-strength blow managed to block the other party for half a second and even forced the old man to use two swords, buying some time for Old Fierce.

Old Fierce's speed was much faster than the old man's. In that short moment, he had already caught up with one of them and shattered the God Slaying-level powerhouse with a claw, not allowing the other party to resist at all.

Seeing this, Han Fei couldn't help but click his tongue. Old Fierce hadn't recovered his peak combat power yet. What if he returned to his peak?

In the blink of an eye, Old Fierce was entangled by the old man again. Han Fei still wanted to chase him, but the double swords automatically slashed at him.

"Bloody hell."

Han Fei was helpless. After all, it was a Supreme Nature Treasure. Even if his fist light had enveloped it, he still couldn't resist it.

"Boom, Boom, Boom..."

All of a sudden, a hurried and murderous divine sound swept over from afar. In the end, the God Slaying-level powerhouse who was about to run crashed into the murderous music.

"Puff! Puff! Puff!"

In the blink of an eye, this person was dripping with blood.

The man shouted, "Creation Void Spiritual Drum, how dare you betray your master?"

The music of killing immediately became even more intense, and a divine voice sounded. "It was your Chaotic Divine Race who betrayed the myriad races first, causing me to almost help the villain and become an ominous accomplice. It's better to die by my hands than by that guy..."

"Boom, Boom, Boom..."

Even Fifth Senior Brother couldn't do anything to the Creation Void Spiritual Drum. Old Han could even use it to deal with the dominator-level ominous, which showed how powerful it was.

The God Slaying-level powerhouse of the Chaotic Divine Race was torn apart by thousands of divine sounds in the blink of an eye. Seeing this, Han Fei immediately extracted the vitality of the void.

Rumble!

Knock, knock, knock!

Now except for the one from the Divine Demon Forest, the four god-slaying level powerhouses had all died. Han Fei couldn't be bothered with the remaining nine gods. Qiu Wanren directly released 32 gods of the divine descendants. With such a huge gap, it was impossible for them to escape.

Han Fei looked at the Creation Void Spiritual Drum from a distance, and the latter snorted. "I'm not helping you. I'm just here to clean up the traitors."

Han Fei sneered. "Since we're here to clean up the traitors, get rid of the Sea Quelling God."

The Creation Void Spiritual Drum snorted. "If you want to get rid of him, fight him yourself."

Han Fei was speechless, thinking to himself, This Creation Void Spiritual Drum is really cunning. It's easy for him to launch a sneak attack on a God Slaying-level powerhouse, but it was a different story to sneak attack a Sea Quelling God. He knew it was tricky, so he quitted and slipped away. But on the surface, he made it look like I've owed him a favor.

Han Fei was speechless. He was too lazy to pay attention to this guy. In short, he had won today's battle. Unfortunately, he couldn't kill all the powerhouses.

At this moment, the two swords that stopped Han Fei flew away on their own. They must have been summoned away. Han Fei didn't chase them, mainly because he couldn't beat them.

Seeing the swords leave, Qiu Wanren stepped forward and said, "Heal me."

While summoning the healing divine light, Han Fei was slightly surprised to find that the healing divine light also carried the power of divinity.

Qiu Wanren wasn't surprised. Instead, he said thoughtfully, "I'm a little puzzled now. Do you think these people know that they can't resist it?"

Han Fei nodded. "Of course. My senior brothers from the Void Temple haven't taken action yet."

Qiu Wanren asked in confusion, "Then what's the point of these two Sea Quelling Gods guarding the Central Sea Divine Realm?"

Han Fei shook his head. "There must be some secret behind this. But it's obvious that they can't let go of this matter yet, so we should still have time."

"Let's go to flatten the Divine Demon Forest..."

[God of Fishing](#)

Chapter 3454: Ancient Divine Vine (1)

Han Fei estimated that Old Fierce and Yueling Ke Guang couldn't kill a Sea Quelling God-level powerhouse one-on-one.

However, when Han Fei really swept across the Central Sea Divine Realm, if the Sea Quelling God still dared to attack, he would do anything to kill these two people.

At this moment, Han Fei and Qiu Wanren went straight to the core of the Divine Demon Forest. And the core of the Divine Demon Forest, just like the Ancient Demon Race, was in a void crack.

The reason why these super forces all liked void rifts was that void rifts were safer. Once a large array was set up in them, it would be difficult to break.

And there were as many as three void cracks in the Divine Demon Forest.

However, Han Fei didn't seem to need to choose which one to go, because the God Slaying-level powerhouse from the Divine Demon Forest who had escaped earlier had already blocked in front of one of the void rifts.

Han Fei said casually, "If you die again, you won't be able to revive."

The powerhouse from the Divine Demon Forest said resolutely, "Han Fei, the winner takes all. You win this battle. Tell me, what price do you want our Divine Demon Forest to pay for you to let go of our race?"

Han Fei sneered. "Do you think you're qualified to negotiate with me now?"

The man's face turned cold. "Yes, I have something that is enough to protect the entire Divine Demon Forest, provided that you, Han Fei, are a man of your word."

"Oh?"

Han Fei narrowed his eyes slightly. "Does it matter why you stayed in the Central Sea Divine Realm?"

The man stared at Han Fei. "That's right! If you want to attack me, even if my soul is destroyed, I won't let you search my soul. Believe me, they won't tell you such a secret."

Qiu Wanren said, "Don't be tricked."

Han Fei smiled. "It's impossible to release everyone in your Divine Demon Forest, but I can guarantee that I won't attack anyone below the Sea Establishment Realm. Those Above the Sea Establishment Realm will be subject to the attacks of the human race and the divine descendants in the same realm for a day so that we can vent the hatred in our hearts. The Sea Establishers who are still alive after this day can stay in the Sea Realm. Those in the Sky Opening Realm will all be exiled and can't stay in the Sea Realm, or they will be killed without mercy. And you must die."

"Han Fei ~"

The powerhouse from the Divine Demon Forest gritted his teeth and seemed to be hesitating, because Han Fei's so-called one-day attack was too terrifying. If it were just 80 million humans, he would have agreed without hesitation. However, there were still 8 million divine descendants. Although there were few gods among the divine descendants, the Monarchs' combat power was extremely terrifying.

If they were really subject to the one-day attack, it could be expected that the strong masters of the Divine Demon Lin Fan would definitely be wiped out. It was impossible for anyone to survive. Only a small number of Sky Openers and Sea Establishers might survive. This price was still too high.

The man's expression was ugly. "What's the difference between this and annihilating our Divine Demon Forest?"

"Alas! You can't say that. Think about our human race. Thanks to you, even our children had to go to the battlefield to kill the enemy and fight the sea demon tide. You should be grateful that I can keep the demon plants below the Sea Establishment realm."

This person hesitated for a few seconds. "This matter is beyond your imagination. I want you to spare all the Sea Establishers in the Divine Demon Forest. As for the Sky Openers, they can all be expelled from the Sea Realm."

"No way."

Han Fei said impatiently, "Do you think I'm here to deliver you from misery? I'm indeed a little interested in the secrets you mentioned, but it doesn't mean I really care. I'll give you ten seconds to consider. I'll conquer the major forces in the Central Sea Divine Realm one by one. No matter what secrets there are, I don't believe I can't find them. It's just a matter of time."

"Han Fei ~"

"Nine!"

"Eight!"

"Seven!"

The cultivator from the Divine Demon Forest had a fierce internal struggle. Although he was not a good person, he really couldn't bear it since it involved countless creatures of his race.

Finally, when Han Fei counted to one, the man finally said dejectedly, "I agree."

Han Fei's eyelids twitched, and he was overjoyed. Suddenly, he felt that the void barrier was broken, and a sword light broke through the void barrier and slashed at the strong master of the Divine Demon Forest.

This sword came so fast that even Qiu Wanren couldn't react in time.

Han Fei's combat power was still at its peak. He instantly appeared behind the powerhouse of the Divine Demon Forest and pointed his finger at the sword.

Although the Sword of Shattering was strong, it was mainly good at attacking the enemy head-on. The only one who could catch up with the speed of this sword was Carefree Roaming.

Bang!

Crack~

However, the other party's sword was too powerful. When the two collided, Han Fei knew that he couldn't block it at all, so he immediately took the initiative to activate the Great Dao of Life Replacement and used his invincible state.

However, even so, under the power of the other party's sword, his invincible state was shattered in less than half a second.

This was the second time his invincible state had been shattered. This time, the moment his invincible state was broken, Han Fei discovered the reason.

The essence of the Great Dao of Life Replacement was to borrow the Great Dao cultivated by a cultivator and push this Great Dao to its peak state in an extremely short period of time. It was precisely

because of this that the invincible state of the Great Dao of Life Replacement could only last for three seconds.

However, the Great Dao of Life Replacement was still a Great Dao. The power it used was still the power of heaven and earth, but this slash of the Sea Quelling God was activated with source power. Because it was too strong, it directly broke the invincible state.

To put it more simply, the power of the Sea Quelling God had exceeded the limits of the Great Dao of Life Replacement.

However, Han Fei didn't only have one life. As soon as his invincible state was destroyed, it immediately reappeared.

Having his invincible state broken three times in a row, Han Fei finally blocked this sword.

[God of Fishing](#)

Chapter 3455: Ancient Divine Vine (2)

Han Fei grinned ferociously. "Are you trying to silence him?"

"Sky Dance!"

The moment this sword appeared, Yue Lingke appeared, but in the end, she failed to catch up with this sword. Immediately, Yue Lingke activated a secret technique, twelve Flying Dance Girls, and twelve divine techniques, sealing the Sea Quelling God in the blink of an eye.

Yue Lingke was relieved to see that the sword was suppressed by Han Fei.

Han Fei was slightly relieved. "Look, these are your so-called allies. In order to shut you up, he'd rather kill you. But don't worry. Some people of the Divine Demon Forest will be spared. But this Chaotic Divine Race, hehe..."

This person's expression was complicated. In the end, he sighed. "Yes..."

"Lin Xian, do you know what you are doing?"

In the void, a voice roared, as if calling the name of this powerhouse from the Divine Demon Forest.

Upon hearing this, Han Fei immediately shouted angrily, "If you say another word, my next stop will be the Chaotic Divine Race. I will definitely wipe out the entire Chaotic Divine Race."

It was fine if the Sea Quelling God didn't take action, but this time, it further confirmed Han Fei's judgment. In addition to the Primordial Purple Gate, there were also secrets in the Central Sea Divine Realm. Because of this secret, they had to stay in the Sea Realm.

In that case, Han Fei had a direction this time.

The Concealing Divine Seal in Han Fei's hand covered this place, not to prevent others from seeing, but to prevent others from hearing.

Han Fei said, "You should believe in the concealment ability of the Concealing Divine Seal. The Chaotic Divine Race will definitely follow in the footsteps of the Ancient Demon Race. I can tell you this clearly

now. But your Divine Demon Forest can at least have some seeds survive. If the myriad races can win this ominous battle, the Divine Demon Forest still has a chance to rise again, but I guarantee that the Chaotic Divine Race won't have this hope."

Lin Xian's expression changed as if he had made an important decision. He heaved a long sigh. "The Chaotic Divine Race, the Ancient Demon Race, the Divine Demon Forest, the Heavenly Pearl Insect Valley, and the Light City are your targets for revenge, right?"

Han Fei nodded. "That's right. I originally wanted to wipe out all these five forces. In addition to these worlds, some large forces in the Central Sea Divine Realm, such as the Fist Sect, the Flying Immortal Tower, the Mirage Sect, and the Illusory Sky Sect, will also pay a certain price."

Lin Xian said calmly, "Add the Primordial Divine Academy!"

"Primordial Divine Academy?"

Han Fei frowned slightly. Although he had a conflict with the Primordial Divine Academy, that was when he was in the South Sea Divine Realm. In the hundred-year war in the Godfiend Sea, there didn't seem to be anyone from the Primordial Divine Academy! Besides, wasn't this just a school?

Lin Xian said, "In addition to the five forces you mentioned, there's also the Primordial Divine Academy. The other forces are really plotting to snatch the luck of your human race."

"Oh? Do you mean that your real purpose for attacking the human race is not to snatch the luck of the human race?"

Lin Xian sneered and then shook his head. "The recovery of the human race's luck has just begun. Even if we want to harvest, it won't be now. Without you, do you think the human race can resist any of our forces in another 10,000 years?"

Han Fei narrowed his eyes slightly. "Continue."

Lin Xian said faintly, "You should know that the six ancient lineages are essentially all born from an ancient divine vine, so the six lineages share luck. The primordial stillborn disappeared for a long time, and the human race only appeared recently. The primordial strange beasts only exist in name, and like the previous divine descendants, they can't become gods. What's really left are the primordial demons, the primordial insect race, and the primordial ancient demon plants. Logically speaking, since three of the six lineages have declined, the remaining three lineages should be surprisingly powerful. However... No. Although our three lineages are not weak, we are still far from their peak. Do you know what this means?"

Han Fei's eyes flickered. "Is the overall luck of the six lineages disappearing?"

"That's right! Then do you know why the luck of the six lineages is disappearing?"

Han Fei said, "Of course I don't."

Lin Xian took a deep breath and said, "Because the Ancient Divine Vine has reappeared."

"Wait, what do you mean?"

Han Fei was a little stunned, and Qiu Wanren's eyes widened. "Are you talking about the Ancient Divine Vine that gave birth to the six lineages?"

Lin Xian smiled palely. "Yes! It's the ancient divine vine that reappeared in the world, and... it's in the Sea Realm."

Buzz!

Han Fei's head was buzzing. After a few seconds, he said, "So, do you mean that the divine vine is retracting the luck of the six lineages?"

"It's not retraction, but reshaping."

"Reshaping?"

Lin Xian's eyes were cold. "Six more fruits grew on the Ancient Divine Vine. If I've guessed right, these six fruits are six seeds. If they can give birth, six figures comparable to the top powerhouses of the first six lineages will reappear."

Han Fei was lost for words. "Is the Ancient Divine Vine crazy? There may only be tens of thousands of years left in the Infinite Ocean. What's the use of him giving birth to strong masters at this time? Besides, even if the Ancient Divine Vine is going to give birth to new strong masters, why are you slaughtering our human race?"

"Because we have to accelerate the ripening."

Lin Xian shouted in a low voice, "Because of our previous calculations, this Ancient Divine Vine may not really mature until hundreds of thousands or even millions of years later. Furthermore, its maturing can't be catalyzed with time acceleration because it needs supplies. For example, the luck of the six lineages, the luck of other races, and the blood of the gods... This is why we attacked the human race."

Han Fei's eyes turned cold. "So, over the years, it's to provide nutrients for that thing that the Central Sea Divine Realm has been unscrupulous and even lawless?"

God of Fishing

Chapter 3456: Ancient Divine Vine (3)

Lin Xian said, "After all, the Ancient Divine Vine only gave birth to six lineages. But how many races are there in the Infinite Ocean? Therefore, it's completely possible for us to make it mature before the ominous army arrives."

"And?"

Han Fei frowned. "Then you expect these six so-called strong masters to deal with the ominous?"

"No!"

Qiu Wanren suddenly said, "They want to possess them."

Han Fei suddenly looked at Qiu Wanren and then at Lin Xian, only to find that the other party was calm. "That's right. Therefore, only the six forces of us know about this. If we obtain the Origin Divine

Embryos, we can all become peerless powerhouses like the first Human Emperor. Think about it, who wouldn't be tempted? Unfortunately, your human race has risen in the end."

Lin Xian looked up at the Sea of Stars. "I didn't believe until a moment ago that no one would return! It turns out that our lineages are also sacrifices."

Han Fei seemed to have thought of something. "Therefore, you planned to overthrow the human race to accelerate the ripening of the Ancient Divine Vine. Now that the human race is strong and the divine descendants have revived, you know that you can't beat us... Therefore, you were treated as abandoned pawns. No, you'll be used as nutrients to feed the Ancient Divine Vine in the place of the human race?"

Lin Xian grinned. "Otherwise, why would I tell you such a secret?"

Lin Xian's eyes were cold. "The strong are ruthless. Even our own kind are scheming against each other. The human race has risen and will slaughter the Central Sea, which will definitely increase the speed of the divine vine's growth by ten thousand times. In the end, whether it's you or me, we're just chess pieces."

Han Fei asked, "Where is the Ancient Divine Vine?"

"Chaotic Divine Race."

Han Fei's eyes turned cold. It was the Chaotic Divine Race again. Sure enough, none of what Jiang Buyi said in the past was true. He even asked him to hand over the Demon Purification Pot and they would withdraw from the battle of the divine descendants. Bullsh*t, this was just a trick that this race often used.

The energy in Lin Xian's body surged, which was a sign of self-destruction.

He said, "Han Fei, since we're enemies, I admit defeat. But I hope you keep your word and leave a chance of survival for my race."

Han Fei said proudly, "I will do what I promised you."

Suddenly, Han Fei seemed to think of something and hurriedly asked, "Where are the remaining Primordial Purple Gates? Which forces are they in?"

"Earth veins... Boom ~"

Lin Xian chose to annihilate himself, but unfortunately, he was annihilated too quickly and couldn't completely answer Han Fei's question.

"In the ground veins?"

Although he didn't finish answering, at least the Primordial Purple Gate in the Divine Demon Forest shouldn't be difficult to find.

Qiu Wanren said, "If what he said is true, won't we become other people's chess pieces if we keep fighting like this?"

Han Fei said, "Let's see who this other person is. Who wants to possess these six fruits? In short, it can't be Lin Xian and the others. He's probably at least a Sea Quelling God, right?"

Qiu Wanren asked, "So, are we still slaughtering the Divine Demon Forest?"

Han Fei was silent for a few seconds. "Yes!"

Han Fei put away the Concealing Divine Seal and immediately said, "Senior Brother Lei Heng, Senior Brother Six God, if Fifth Senior Brother is here, you must not let the two Sea Quelling Gods of the Sea Realm leave."

...

Less than half an hour after Lin Xian died, the two Sea Quelling Gods who were fighting Old Fierce and Yueling Ke Zheng retreated. In the end, neither of them could defeat the other in a battle at the Sea Quelling God level.

Except for the two of them, the others had all died. It was clearly meaningless for them to continue fighting.

Half a day later, Han Fei found the Primordial Purple Gate at the core hub of the ground veins of the Divine Demon Forest.

He had once searched with the Vast Ocean Navigator, but it couldn't point to the Primordial Purple Gate, which meant that the Primordial Purple Gate itself was a treasure comparable to a Supreme Nature Treasure.

This time, Han Fei didn't try to push it open but let Qiu Wanren push it because he was also very curious about what was in the Primordial Purple Gate.

Even if this thing was used for cultivation, he had to know how to use it!

Sure enough, when it was not Han Fei who pushed the Primordial Purple Gate, the Primordial Purple Gate was immediately pushed open by Qiu Wanren.

Everyone saw that there was a purple mist in the door. Apart from that, they couldn't see anything else.

However, surprisingly, although the door was filled with purple mist, it didn't dissipate much. Only a little purple mist would flow out.

Qiu Wanren's face changed slightly. "If you want to open this door, you have to be at least at the God Slaying level. It can be seen that this thing doesn't open often."

Yue Lingke said, "I tried to absorb the power of this purple mist. It can neutralize the source power and even slowly transform into source power."

Old Fierce said, "Let me try."

Old Fierce opened his mouth and sucked, and the purple mist that spread out was swallowed by him. Everyone looked at Old Fierce. After waiting for a moment, Old Fierce suddenly opened his eyes. "It's indeed Primordial Purple Qi. The energy is very gentle, more stable than source power, and not easy to collapse. Unfortunately, the Primordial Purple Qi that dissipates is too little. Otherwise, it would return me to my peak in three years at most."

"Really?"

Han Fei was surprised. Old Fierce's injuries were actually not a big problem. He had basically recovered. However, the problem of strength was a lack of resources. It was like shattering the original cultivation and re-cultivating. It required time and resources. And the Primordial Purple Qi seemed to be able to completely replace source power.

Han Fei said, "Let's try going in."

They all nodded. No one had come into contact with the Primordial Purple Gate, so no one knew what was going on inside. Qiu Wanren said, "I'll go in first. If anything happens, you can still continue to sweep the Sea Realm."

God of Fishing

Chapter 3457: Ancient Divine Vine (4)

Old Fierce hummed. "Humph, don't die inside."

Qiu Wanren sneered. "I won't die even if you die."

As Qiu Wanren stepped into the Primordial Purple Gate, in the next moment, he was rushed out by a Primordial Purple Qi. The terrifying energy directly cracked Qiu Wanren's body, and his River of Life trembled as if it would break free at any time.

"Puff ~"

Qiu Wanren kept coughing blood. Han Fei immediately stabilized his River of Life and summoned healing divine brilliance to heal him.

Han Fei and the other two were shocked. They knew Qiu Wanren's strength. If it were just this Primordial Purple Qi, it wouldn't be able to almost kill him in an instant, right?

Old Fierce immediately swallowed the Primordial Purple Qi that pushed Qiu Wanren out.

Yue Lingke directly sealed this place and blocked the energy impact with Old Fierce.

Han Fei asked, "What's it like in the door?"

"Cough, cough..."

Qiu Wanren seemed to still have a lingering fear. He said, "As soon as I entered, I felt a huge force pulling me, as if it wanted to suck me in. Then I seemed to hit a barrier and came out. Everything happened too quickly. At that moment, I almost thought I was going to die."

Han Fei asked, "Didn't you say that the Primordial Purple Gate can be used for cultivation?"

Qiu Wanren said, "I heard of it, but I haven't personally experienced this kind of thing after all. How can I know if it's true or not?"

Old Fierce said, "In the Primordial Era, there was indeed a legend of the Primordial Purple Gate. It's said that in the Chaotic Era, the first Human Emperor cultivated with this. Many people know it."

Yue Lingke said, "But from the looks of it, it doesn't seem like it can be used for cultivation. Does it mean that only Human Emperors can enter it and use it for cultivation?"

Han Fei was eager to try, and Qiu Wanren hurriedly stopped him. "If you want to try, try after you finish fighting the Central Sea Divine Realm. What if you're sucked in and can't come out? Then we'll be stuck midway in the Central Sea Divine Realm battle!"

Han Fei nodded slightly. "But if I touch this thing, it seems to disappear. Can you try taking it away?"

Old Fierce: "Let me."

Old Fierce grabbed the edge of the Primordial Purple Gate with both hands and unleashed his divine power. Everyone felt that the earth was shaking and the mountains were shaking. As if an earthquake, countless ground veins cracked, but the Primordial Purple Gate didn't move at all.

Old Fierce could only stop. "I can't take it away. If I use more strength, the ground veins here will probably all collapse."

Yue Lingke said, "Little Junior Brother, try touching this thing again. I think this might be something that only the Human Emperor can inherit."

"That's all we can do."

Han Fei tried to grab the Primordial Purple Gate, but just like last time, as soon as Han Fei touched the Primordial Purple Gate, the entire door disappeared with a swish. Han Fei hurriedly checked himself, but he still didn't find any traces.

Han Fei was stunned. "It's gone again."

Qiu Wanren recovered a little and said casually, "So be it! It seems that this thing indeed belongs to your human race. Others probably won't be able to use it."

Han Fei shook his head. "Not necessarily. If it's useless, why is the Primordial Purple Gate here?"

Qiu Wanren said, "Anyway, there are still four more Primordial Purple Gates. Let's study them when we find the last one."

Since the Primordial Purple Gate had disappeared, they had nothing to study.

Outside, the three void cracks in the Divine Demon Forest were broken by Han Fei and the others in a moment.

Eighty million human beings and eight million divine descendants all attacked.

However, this time, Han Fei ordered that they would only attack for a day, which fulfilled his promise to Lin Xian.

However, this day was still a disaster for the strong masters of the Divine Demon Forest.

Firstly, all the Monarchs were cleared. This was beyond doubt. How magnificent the Divine Demon Forest once was, how miserable it was now.

Almost half of the Sky Openers and Sea Establishers were killed or injured. More importantly, because of Han Fei's law of life, the human race and the Divine Descendants only had one-thousandth or two percent of casualties, which made countless strong masters in the Divine Demon Forest despair.

Of course, although Han Fei had fulfilled his promise to Lin Xian, he certainly wouldn't let go of the endless resources of the Divine Demon Forest. Besides, the Sky Opening Realm powerhouses of the Divine Demon Forest had all been exiled to the Sea of Stars. Once they entered the Sea of Stars, it was none of Han Fei's business how many people could survive.

After cleaning this battlefield for two days, he found countless resources, which exceeded 30 million refined stars.

"B*stard, have the people from the Central Sea Divine Realm just been transferring resources in the past three hundred years? Such a super force should have had at least billions of refined stars."

Qiu Wanren mumbled. He seemed to be a little arrogant. He didn't even care about 30 million refined stars.

Han Fei didn't care. "It's good enough that they can leave 30 million behind."

"What do you know? The resources in the Sea Realm are not infinite. These people have transferred so many resources away. It's like drying the pool to fish. It won't do the Sea Realm any good."

Han Fei said, "Don't shout. With more strong masters, there will naturally be more refined stars. The Sea of Stars is almost doomed. Who cares about these resources?"

Old Fierce snorted. "That's right. Old brat, you'd better think about how to make a breakthrough after this battle. You're already so old, but I've never seen any God Slaying level cultivators as embarrassing as you."

"Wu Jiuxiong, shut your damn mouth if you don't know how to speak. If I hadn't created my own Dao and had difficulty in developing it, I could have flattened this mere Central Sea Divine Realm with one hand."

"Keep bragging!"

While the two bickered, Yue Lingke asked, "Where are we going next?"

Han Fei said, "To catch the bandits, we have to catch their leader first. If we take down the Chaotic Divine Race first, it'll only be a matter of time before we take down the other lineages of the Central Sea Divine Realm."

Qiu Wanren asked, "What about the two Sea Quelling Gods?"

Han Fei said leisurely, "If someone really used the Divine Demon Forest and the Ancient Demon Race as nutrients to nourish the Ancient Divine Vine, the real mastermind must appear in this last battle, right? Otherwise, wouldn't he have raised the Ancient Divine Vine for nothing?"

Han Fei looked at the void. "Senior Brother Lei Heng, Senior Brother Six God, stop watching the show. I really can't handle the Sea Quelling Gods."

[God of Fishing](#)

Chapter 3458: Jiang Buyi: I'll Give You A Big Gift (1)

Boom!

A lightning mark appeared, and Senior Brother Lei Heng finally appeared. "Hahaha! Little Junior Brother, you've finally spoken!"

Han Fei curled his lips. "I'm just a Great Monarch after all!"

"Heh ~"

Everyone was speechless. You know you are only a Great Monarch?

Buzz!

A wormhole appeared in the void, and Senior Brother Six God slowly walked out of the wormhole and said in a childish voice, "Senior Sister Shen Le means to keep the two Sea Quelling Gods and exile them to the battlefield to atone for their crimes."

"What about the Ancient Divine Vine? Senior Brothers, you should know about this, right?"

Lei Heng shook his head. "Well! You may not believe it, but we just found out 100,000 years ago."

"Just 100,000 years ago. I even made a deal with that person from the Divine Demon Forest for this."

Senior Brother Six God said, "It's already very short. In fact, very few people in the entire Sea of Stars know about this. The reason why Lin Xian knows is that he is a powerful sacrifice. He once had a chance to advance to the Sea Quelling God, but for the sake of the Ancient Divine Vine, he has been stuck at the God Slaying level. And we know that it's mainly because the massacre of the divine descendants 100,000 years ago in the Central Sea Divine Realm aroused Eldest Senior Brother's suspicion."

Han Fei was surprised. "Is there anything suspicious about that?"

Senior Brother Six God said, "Little Junior Brother, you can think about it. You just got the Creation Divine Prison recently. The people in the Central Sea Divine Realm didn't know that the Creation Divine Prison would reappear, nor did they expect the Blood of All Gods to reappear. But 100,000 years ago, they attacked the divine descendants. Why? If they wanted to seize luck, they could have quietly destroyed many small races. Why did they attack the divine descendants?"

Yue Lingke said, "Well, we suspected it too, but the final conclusion was that the other party failed to snatch the Demon Purification Pot, so they tried to kill us."

Senior Brother Six God said, "There has to be a limit even if they wanted to vent anger. The Demon Purification Pot disappeared in the end, but they still launched a divine war and swept through the divine descendants at the expense of countless casualties. The deeper meaning is worth deliberating."

Han Fei raised his eyebrows. "Since Eldest Senior Brother already knew, why didn't he take any action?"

Lei Heng said lazily, "Why do you think Bug and I have been staying in the Sea Realm?"

Han Fei was suddenly enlightened. It turned out that Eldest Senior Brother had already made arrangements. Even without him, Senior Brother Lei Heng and Senior Brother Six God would probably clean up the mess.

Of course, Eldest Senior Brother might have another meaning, which was to see who was behind all this.

Han Fei asked, "Is this Jiang Taichu's trap?"

"No. If it was Jiang Taichu's trap, why would he have bothered to swallow the ominous? He could just possess the new fruits. The temptation of being as powerful as the first Human Emperor is probably no worse than swallowing the ominous."

Senior Brother Six God said regretfully, "This person doesn't seem to exist at all. He hasn't shown up at all. Even Eldest Senior Brother doesn't know who he is."

Han Fei asked, "Will it be related to the Three Temples?"

Senior Brother Six God still shook his head. "No, we have excluded countless forces and strong masters, including your parents. We've traced back from the Age of Gods to the Primordial Era, but it's really difficult to find who would and could set up this trap. What's the significance of this trap?"

Qiu Wanren interjected, "I find it strange too. Even if the Ancient Divine Vine really rebuilt six lineages and gave birth to six peerless powerhouses comparable to the first Human Emperor, what then? What can this change? Repel the ominous? I don't think so."

Senior Brother Six God nodded. "Besides, with such an ability to deceive the entire world, does he need to possess the fruits of the Ancient Divine Vine?"

Han Fei said, "I have a bold idea. Could it be that a powerful existence planted the six lineages to eat them?"

Everyone rolled their eyes at Han Fei, and Old Fierce complained, "Who can fuse the six ancient lineages? Unless that person has six lineages. Even so, it's impossible for these six different lineages to be combined."

Han Fei said, "Then let's take a look. I'd like to see if the Chaotic Divine Race still has any trump cards."

...

Chaotic Divine Race.

Located in the corner of the Central Sea Divine Realm, it was not the center, but this corner was interesting. This place was vast and was backed by a chaotic sea area. This place was murderous and deathly silent. It was a forbidden place in the Central Sea Divine Realm called the Sky Flipping Sea. It was said that there were a large number of powerful sea demon beasts in it.

As for the spatial rift where the Chaotic Divine Race lived, it was a place where multiple spatial cracks converged. Thousands of ancient arrays were set up in the surrounding sea area to suppress this sea area, causing the area within millions of kilometers to be peaceful. It was an excellent place for trials and cultivation. It should be a cultivation field specially set up by the Chaotic Divine Race for their children.

However, Han Fei didn't see anyone in such a place.

Although Han Fei didn't specialize in arrays all year round, according to his estimation, it wouldn't be difficult to break the arrays here. After all, it was just an ordinary Dao field.

Han Fei said, "In half a month, I can break all the arrays here."

However, Qiu Wanren sneered. "Half a month to break these lousy arrays? Wait for me to break this place in six hours."

Han Fei raised his eyebrows, wondering why the old man was so strong. Although he was relatively weaker than Old Fierce, he was proficient in all kinds of techniques and was so good at arrays.

God of Fishing

Chapter 3459: Jiang Buyi: I'll Give You A Big Gift (2)

Qiu Wanren waved his hand and three thousand chess pieces burst out of his body in a row.

Swish! Swish! Swish!

The three thousand chess pieces broke through the water one after another. When the chess pieces were set up, the seawater immediately became violent. Boom, Boom, Boom. There were continuous explosions, which were signs that the arrays were twisted and broken.

Han Fei couldn't help but be shocked. Half of Qiu Wanren's array-breaking techniques directly broke other people's arrays and forcibly distorted the arrays, shattering them. The other half directly modified the ground veins to break the foundation of the Chaotic Divine Race's arrays. His methods were exquisite, and his layout techniques were interconnected. Except for Old Han, he had never seen anyone play arrays to this level.

Judging from his skills, how could it take six hours?

Sure enough, after only a little more than two hours, all the arrays on the periphery of the Chaotic Divine Race were broken, and the spatial rifts covered by the arrays finally appeared in front of everyone.

Bang!

As soon as the gate was opened, Old Fierce took the lead and crushed the void for a million kilometers with a punch. Except for the gate of the Chaotic Divine Race, everything around him collapsed.

Everyone stepped into this place, and the huge Chaotic Divine Race was in front of their eyes. This place seemed to be divided into the celestial world and the human world. There were 20 billion people here. And there was a huge sea here, forming a world of its own. The people lived and worked in peace and didn't seem to be affected. On the vast sea, countless people were still cultivating, unaware that the Central Sea Divine Realm had changed.

There were more than 100,000 palaces in the sky, surrounded by clouds and mist, protected by 99 layers of barriers, separating the celestial world and the human world. The only connection between the two worlds was a staircase that reached the sky and a Heavenly Gate.

However, these 99 barriers could stop ordinary people from peeping into the Heavenly Palace, but not Han Fei and the others.

But when Han Fei and the others glanced around, they found that there were very few strong masters living in the 100,000 palaces. There were less than a million of them, and most of them were in the Sea Establishment realm. There were less than a hundred Monarchs, and they all looked old, weak, sick, and

disabled. Most of their strength stopped at the Dao Proving Level. They didn't even have a Carefree Level cultivator.

Han Fei's heart skipped a beat. "They all ran away? Aren't they too fast?"

Lei Heng said, "The human race is so smart. I didn't even know when they ran away."

Senior Brother Six God said, "There are no insects in the 100,000 palaces. Impressive. I don't know how they ran away."

Qiu Wanren said, "There's no need to guess. It's the Star Sea Boundary Map."

Everyone was stunned when they heard that. Yue Lingke's expression changed slightly. "No wonder in the three hundred years since the battle against the divine descendants, the Central Sea Divine Realm has never used the Star Sea Boundary Map to attack the divine descendants. I didn't expect this map to be used to escape."

Han Fei said, "Besides, only they ran away. The Ancient Demon Race and the Divine Demon Forest didn't run away."

"Roar!"

Old Fierce shattered the Heavenly Gate with a single blow, and divine might descended. In the Heavenly Palace, the million creatures all knelt, unable to stand up.

In the next moment, Old Fierce roared, "All the resources have been taken away."

Han Fei's face changed. "Let's find out where the Ancient Divine Vine is and if it has been taken away."

Senior Brother Six God said, "No! Once the Ancient Divine Vine takes root, it'll absorb all laws of the Heavenly Dao here, and then swallow the luck of all races, it's not something anyone can move."

Han Fei immediately took out the Vast Ocean Navigator again and searched, but to no avail.

Qiu Wanren said, "The Vast Ocean Navigator is a growth-type treasure, right? Besides, how can the Ancient Divine Vine be weaker than a Supreme Nature Treasure? It's normal that the Vast Ocean Navigator can't point to the Ancient Divine Vine's location."

Old Fierce asked, "What about these people?"

Han Fei's eyes turned cold. "Kill. To be able to keep these people here, the Chaotic Divine Race doesn't have any good intentions."

Yue Lingke said, "Then I'll call them out."

"Don't!"

"No."

Han Fei and Qiu Wanren spoke in unison. Han Fei said bluntly, "I don't believe anyone from the Chaotic Divine Race."

Han Fei came to the group of Dao Proving Level powerhouses kneeling on the ground with a swish and said, "Tell me what you know."

However, they struggled to resist the suppressing their pressure and then glared at Han Fei. "Human thief, we stay just to take your life. Explode ~"

However, the man discovered, to his shock, that he couldn't control his body. Even the others felt that they couldn't mobilize their power.

Han Fei sneered. "Human thief? What a good name. You seem to have forgotten who your ancestors are. How can you blow yourselves up in front of me? However, what you know doesn't seem to matter. Even if you want to die, you can only be killed by me."

Bang!

Han Fei activated his Original Great Dao and pushed his strength to the peak. He stomped, and the clouds in the sky turned into a rain of swords that swept across all the palaces.

"Puff! Puff! Puff!"

The powerhouses of the Chaotic Divine Race who were suppressed were pierced by the cloud Qi in the blink of an eye, and millions of people were killed one after another. Seeing this, the Monarchs' eyes almost popped out.

"Roar!"

"You're not worthy of being the Human Emperor."

"Come on! Kill me!"

Han Fei snorted. "You're not in a place to judge me. Okay, now, you can die."

As Han Fei waved his hand, hundreds of life chains pierced through these people.

At this moment, Han Fei had no pity at all, because he knew that if he didn't kill these people, they would definitely bring disaster to the human race in the future.

Rumble!

Rumble!

[God of Fishing](#)

Chapter 3460: Jiang Buyi: I'll Give You A Big Gift (3)

Heavenly Dao cracks spread out here one after another. The twenty billion people below all looked up at the sky, their faces full of horror and shock. They didn't know what had happened and why such a weather phenomenon suddenly appeared.

Immediately afterward, a divine voice descended. "Human Emperor is heartless. He shattered the Heavenly Palace and slaughtered our Divine Race. All living beings shall remember that he is a human thief! He is a human thief!"

Han Fei's face didn't change at all. It was this trick again.

Suddenly, Lei Heng roared, "Little Junior Brother."

When a million strong masters died, infinite Dao Patterns appeared under Han Fei.

Senior Brother Lei Heng, Senior Brother Six God, Old Fierce, and Yue Lingke took action almost at the same time. However, a golden barrier rose from the ground and forcibly blocked the blow of four Sea Quelling Gods.

Crack~

The barrier exploded, but it was too late for the four of them. Han Fei had already disappeared from the spot.

Swish!

In the blink of an eye, Han Fei appeared in a secret cave. On the wall of this cave, there were countless dense holes, like a beehive. And the place where Han Fei appeared was the center of this beehive. In the void here, there was an ancient vine rooted. The vine was full of Dao Patterns, which looked abnormally mysterious.

On this vine, six fruits were shining with a six-colored light.

Under the ancient divine vine, opposite Han Fei, stood a young man. Han Fei didn't know him, but the smile on the young man's face was unusually familiar.

"Jiang Buyi?"

"Smart. I didn't expect you to recognize me."

Han Fei narrowed his eyes. "Impossible! I've broken your river of life, cut your soul, and even the Concealing Divine Seal has fallen into my hands. How can you still be alive?"

Jiang Buyi smiled faintly and said, "I'll always leave myself a way out. I had thought that you would definitely die in the battle of the divine descendants, but in the end, I couldn't resist your great luck and the plans of the strong masters of the Void Temple. Unfortunately, my original body died in the end."

Han Fei sneered. "Oh? Your original body has died. You, a mere avatar, want to reverse the universe?"

Jiang Buyi said, "I don't know if I can reverse the universe, but I have a big gift for you today. I hope you can take it."

Jiang Buyi was about to raise his hand, but in the next moment, he found that he couldn't move at all. His avatar was only a peak-level Great Monarch, and Han Fei was a Sea Quelling God at this moment. Even the weakest Sea Quelling God was not something Jiang Buyi could shake.

Han Fei walked forward step by step and said leisurely, "You'd better keep your gift for yourself! Use it slowly in your next life."

Han Fei extended a finger and pointed at Jiang Buyi, instantly destroying his soul.

Han Fei hated this person very much. He knew that he couldn't give Jiang Buyi any more time to talk nonsense. He was either stalling for time or had other purposes.

However, when Jiang Buyi's avatar was killed by a single blow, a golden light burst out of his body. The power born instantly was the power of the Sea Quelling God. Han Fei's face suddenly changed, and he used the Great Dao of Life Replacement without hesitation to enter the invincible state.

However, the golden light ignored the invincible state and disappeared into Han Fei's body.

"Not an attack?"

An Origin Star was wrapped in source power and injected into Han Fei's body. This was definitely not something Jiang Buyi could do. Someone must have set up a trap in his body.

The person who set up the trap was very shrewd. Knowing that he would definitely kill Jiang Buyi's avatar, he used Jiang Buyi as bait to complete this blow.

However, what Han Fei didn't understand was what was the use of an Origin Star.

However, this Origin Star contained infinite power. As soon as it entered his body, Han Fei felt billowing source power enter his body. Because this energy came too much and too fast, Han Fei seemed to be hit by this power so hard that his internal organs rolled and his body cracked.

Besides, this Origin Star might have been refined by someone with a special method. At this moment, it quickly disintegrated in Han Fei's body, instantly covering Han Fei's flesh, blood, and meridians and melting into various parts of his body.

"Not good!"

Han Fei immediately activated the Godfiend Body and absorbed most of the source power through the black hole in his body. He understood that the gift Jiang Buyi mentioned was infinite source power.

He knew that it was impossible for him to kill him. All his attacking methods were very likely to be easily resolved by him, so he simply gave him a super gift. In an instant, he injected infinite source power energy into his body, trying to blow him up.

Han Fei had expected all kinds of situations, but he didn't expect such an outcome. For example, a Venerable's strength was limited, and the energy his body could carry was limited. But someone poured all the power of a Monarch into his body, so there could only be one result, which was an explosion and death.

And the power that Jiang Buyi unleashed was the Origin Star of the Sea Quelling God. It contained infinite source power and countless laws. With Han Fei's true realm, it was impossible for him to digest and absorb it. If it weren't for the black hole swallowing him, he would have exploded at that moment.

Han Fei immediately sat cross-legged. He wanted to summon Little Black, Little White, and the Emperor Sparrow immediately.

However, he immediately gave up this idea. At this moment, Little Black, Little White and Emperor Sparrow were only peak-level Great Monarchs. It was impossible for them to withstand the invasion of source power. Otherwise, they would only explode instantly and die.
