#### Chapter 3461: Jiang Buyi: I'll Give You A Big Gift (4)

Calabash, absorb.

Fortunately, he had the Demon Purification Pot. The Demon Purification Pot wouldn't refuse such energy.

Sure enough, the Demon Purification Pot quickly left his body and floated in Han Fei's palm. A tremendous amount of source power kept pouring in.

Boom, Boom, Boom ~

At this moment, outside the cave, there were continuous explosions.

After about ten seconds, countless insects walked in from the hole.

"Found you."

Swish! Swish! Swish!

In the next moment, Senior Brother Six God and the others had already appeared in this cave.

Lei Heng's expression changed drastically. "Little Junior Brother, what happened? Why is source power fluctuating in your body so fiercely?"

Blue veins bulged all over Han Fei's body, and he shouted in a low voice, "I was ambushed. Jiang Buyi injected a Sea Quelling God-level Origin Star into my body. It has completely fused with my body. The energy erupted too quickly and the time was too short. I can't absorb it for the time being."

"What?"

"Jiang Buyi is still alive?"

Yue Lingke was stunned. They had all personally witnessed Jiang Buyi's death.

Old Fierce shouted, "Can you transfer this power out?"

Han Fei tried to transfer the source power, but it wasn't his. Unless he refined it, he couldn't use it at all.

"No!"

Of course, Han Fei had thought of transferring this source power out, or Senior Brother Six God and the others could directly absorb it from him. But the problem was that this source power was Jiang Buyi's killer move. The moment it entered his body, it completely fused into his body and had no intention of dissipating.

It was like compressing a Star Core. It could only be compressed from the inside out, but not from the inside out. Even Senior Brother Six God and the others couldn't help him even if they wanted to.

Lei Heng said, "The Demon Purification Pot is not complete! If it's really injected with the source power of the Sea Quelling God, the Demon Purification Pot will probably reach its upper limit soon."

Senior Brother Six God shouted, "Little Junior Brother, don't move. Let me do it."

Senior Brother Six God immediately took out the Creation Worm Nest, and three big bumps bulged on the nest. Everyone looked nervous. After about a hundred seconds, three Divine Realm long worms with hundreds of feet hatched from the nest.

"Go!"

As Senior Brother Six God pointed, the long worm immediately climbed onto Han Fei's back, and hundreds of feet extended out of the cracked flesh on Han Fei's body.

In the next moment, the long worm's body expanded at a visible speed, but after only three seconds, the long worm's hundred feet broke one after another. Clearly, it couldn't withstand the impact of the source power.

One insect was full, and the other continued to attack.

However, after all, it was a god-level insect. It was already unbelievable that it was blown up immediately after being filled with source power.

"No!"

Senior Brother Six God's expression changed drastically. "That source power has been refined. Unless I can give birth to a Sea Quelling God-level Origin Devouring Worm, I can't absorb this source power."

Qiu Wanren suddenly said, "Don't be hasty. I have three ways. We can have a try."

Everyone looked at the old man, hoping to see if he was bragging.

Qiu Wanren said proudly, "This is a massive amount of source power after all. It should be a great tonic for the Sea Quelling God. You survived it partly because of the Demon Purification Pot and partly because you gave birth to source power. If you handle it well, you might be able to absorb this source power."

With that, Qiu Wanren stomped and Dao Patterns gathered in front of him. These Dao Patterns intertwined with Qiu Wanren's soul power and gathered into a scroll, forming a Dao Pattern painting a hundred meters long.

He shouted, "The first way is to seal the power. As long as you can seal this power, you can take time to absorb it."

As the painting surrounded Han Fei, it tried to seal his body.

But when the painting was about to enter Han Fei's body, with a swish, the Dao Pattern painting was torn into pieces and shattered on the spot.

"Puff ~"

Qiu Wanren vomited a mouthful of blood and said with difficulty, "No, this power is too violent. I can't seal it at all."

Lei Heng asked anxiously, "What about the second method?"

Qiu Wanren wiped the blood at the corner of his mouth. "The second technique is Bloodline Devouring. Han Fei, you've swallowed the blood of ten thousand gods, so your bloodline level should be extremely high. Try swallowing source power with your bloodline."

"Devour source power with bloodline?"

Everyone was lost for words. "How can it be devoured?"

Qiu Wanren said, "It's not necessarily impossible. This is also a kind of sealing technique. Otherwise, how was the bloodline of a divine descendant sealed? The essence of a cultivator is that the bloodline carries everything. It's not your body, your soul, or your bloodline. Bloodline determines the limits of the soul and the body. Even source power is the fusion of soul power and power after all. It can't escape the fundamental power of the bloodline."

Han Fei's heart stirred. It was true that he couldn't control the source power, but he could control his Qi and blood! He immediately activated the majestic Qi and blood in his body, trying to separate the source power.

However, his eyes lit up. "It worked. Wait for me for a few days."

With that, Han Fei entered his Origin Star.

One day later, the Demon Purification Pot couldn't absorb anymore. After all, it wasn't in its complete state. If the Demon Purification Pot killed doomsday-level ominous creatures, it could at most kill dozens or even hundreds of them. If it was Sea Quelling God-level ominous creatures, it probably couldn't swallow any of them.

However, the Demon Purification Pot's appetite was not to be underestimated. It swallowed 30% of the source power alone.

Once the Demon Purification Pot stopped absorbing, Han Fei felt the pressure again.

Three months later, Han Fei's face changed slightly. It seemed that his bloodline could no longer carry more source power.

However, Han Fei gritted his teeth and forcibly extracted his bloodline. At the same time, the infinite spiritual fruits he looted this time and a massive number of refined stars revolved around him, reproducing his essence blood.

Half a year.

One year.

...

Three years later.

Han Fei reproduced ten bodies of blood and finally stabilized the violent energy of the source power in his body.

Not only that, but he also felt that in the past three years, under the fusion of the source power, his physique had been strengthened. Now, the carrying power of his physique had finally reached ten times.

Even his source power had increased by about 20,000 to 620,000, which saved him a lot of cultivation time.

Otherwise, it would take at least hundreds or thousands of years for the Supreme Divine Technique to slowly improve.

Buzz!

When Han Fei came out of his Origin Star, a day had passed.

Lei Heng asked, "Little Junior Brother, how is it going?"

Han Fei smiled. "I'm fine now."

With that, Han Fei cupped his hands at Qiu Wanren and said, "Thank you for your guidance, Senior."

Qiu Wanren raised his head and stroked his beard. "Didn't I tell you? I'm a genius. Otherwise, why was it I who guarded the blood of all gods?"

Han Fei couldn't help but smile. "Okay! You're intelligent and peerless. However, what's the third method you mentioned?"

Qiu Wanren smiled in disdain. "You're in a treasure mountain but you know no treasure! Let me ask you, is the source power yours?"

Han Fei said, "Of course not. If it's mine, I'll give each of you some."

Qiu Wanren said again, "Since it's not yours, can't you just take him into the Path of Reincarnation? Have you ever seen anyone who can maintain his combat power after entering the Path of Reincarnation?"

Han Fei was suddenly enlightened. Yes! Since it wasn't his, if he jumped into the river on the Path of Reincarnation, it could be washed away in minutes! How could he forget this?

Qiu Wanren said, "So! Jiang Buyi still doesn't know you, nor does he know the significance of having an extraordinary bloodline. Otherwise, he wouldn't have harmed you in this way. Unfortunately, the best way is not to devour source power with your bloodline, but to directly seal it. In this way, you can automatically cultivate quickly even when you lie down and sleep in the future. Isn't that great?"

Han Fei said, "It's already not bad. I can also refine the divine blood. If it were a refined star, it would probably be as much as five million."

Senior Brother Six God said, "Little Junior Brother, it's a blessing in disguise for you this time, but you have to be careful of Jiang Buyi in the future."

Lei Heng asked, "Isn't he dead?"

Everyone was speechless. Do you think he's dead?

Han Fei nodded. "Yes! Without the Concealing Divine Seal, how can he escape the search of the Vast Ocean Navigator? I'm not in a hurry to solve Jiang Buyi, but this Ancient Divine Vine hasn't matured yet. If I can't take it away, can I directly cut it off?"

## God of Fishing

### **Chapter 3462: From Now On, the Human Race Will Be the King in the Sea Realm (1)**

"Cut off?"

Everyone was speechless, and Qiu Wanren retorted, "Do you know how much power this vine has absorbed since it grew? How can you cut it off so easily? Although he looks harmless now, if you attack him, I won't be surprised if he unleashes the power of a dominator."

Han Fei was stunned. "Isn't it too much?"

Old Fierce said, "It's not an exaggeration. There was a precedent. In the past, a treasure calabash gave birth to the calabash race. A Sea Quelling God coveted the treasure calabash and tried to snatch it, but he was killed by the treasure calabash with seven hammers on the spot. At that time, what he faced was not the treasure calabash itself, but the power of the myriad worlds and the entire Sea of Stars. It's hard to imagine how powerful it was."

"Ah, well! Forget it."

Han Fei didn't know that there was such a secret in this world, but after what Qiu Wanren and Old Fierce said, he immediately gave up the idea of suppressing the Ancient Divine Vine by force.

Everyone looked at the ancient divine vine in bewilderment. They didn't know where the vine was rooted. It seemed that its nutrition was transmitted from these roots.

After a round of exploration, they couldn't even trace the root of the vine.

Han Fei surrounded the Ancient Divine Vine, and the Demon Purification Pot couldn't see the information of the vine. He said, "Senior Brother Six God, since Eldest Senior Brother asked you to guard it, do you know when this fruit will ripen?"

Senior Brother Six God shook his head. "I don't know, but these fruits are glowing at this moment, which means that they are absorbing power. And the source of this power should be the million people from the Ancient Demon Race, the Divine Demon Forest, and the Chaotic Divine Race who have recently been slaughtered. However, these alone shouldn't be enough to accelerate the fruits' maturity. I think we might as well wait and set up a seal here."

Senior Brother Lei Heng said, "When Eldest Senior Brother is done, ask him. He will definitely know."

Lei Heng was a typical lazy person. This Ancient Divine Vine had nothing to do with him, so he didn't take it seriously at all.

Qiu Wanren said, "This divine vine has a long history and involves the Chaotic Era. In this era, very few people know it. Even I haven't seen or even heard of it."

Yue Lingke said, "Little Junior Brother, you'd better collect the Primordial Purple Gate first! There are still 20 billion ordinary people waiting for you to deal with outside. This is a matter of your human race. It depends on your thoughts. However, it's unrealistic to kill all of them. You'd better deal with them appropriately."

All the strong masters of the Chaotic Divine Race fled and almost failed Han Fei. This was really another lesson for Han Fei.

The strong masters ran away, leaving twenty billion people behind. Han Fei was speechless, thinking that the Chaotic Divine Race was really shameless.

Han Fei sighed slightly. "Where is the Primordial Purple Gate?"

"It's outside this cave. We saw it when we came in."

Han Fei couldn't help but ask, "Do you think this Primordial Purple Gate has anything to do with the Ancient Divine Vine?"

Qiu Wanren said, "What are you asking? It must be related! Otherwise, it would be too much of a coincidence. They kept the matter of the Ancient Divine Vine a secret, and they all have the Primordial Purple Gate."

Han Fei said, "Then let's take down the other forces first."

After a while, Han Fei collected the Primordial Purple Gate. They stood in the sky and looked down at the 20 billion creatures underneath their feet.

They were basically ordinary people below the Sea Establishment realm. Han Fei certainly couldn't kill them. After all, the Chaotic Divine Race was a branch of the human race. These people could basically be regarded as human beings.

But if he kept them, these people would definitely not have a good impression of Han Fei at all. In their perspective, he was the one who ruined their long happy life.

It was even more unrealistic to directly take them into the human race. Otherwise, God knew how many traitors would appear among these people.

Lei Heng shook his head. "Little Junior Brother, the Chaotic Divine Race has indeed given you a big problem!"

Han Fei shook his head. "Is this a problem?"

Han Fei thought for a moment. "Elder Qiu, can I trouble you with something?"

Qiu Wanren shook his head quickly. "I don't have the ability to deal with it. I can't do that to 20 billion ordinary people!"

Han Fei said, "I'm not asking you to take action. I just hope you can seal this place."

Yue Lingke asked, "Little Junior Brother, do you want them to be imprisoned here?"

Han Fei nodded. "We don't have time to deal with these people. Since they are all ordinary people, let them live here in peace. If the Sea of Stars is defeated, everyone will be doomed. If we can defeat the ominous, it won't matter if we let them out. Besides, what are they worried about? Our human race has been trapped in the ancestral land of the human race for countless years. Why was this a problem for them?"

Han Fei chose not to take the blame. Just because he couldn't kill them didn't mean he would take them. The population of the human race was rapidly increasing, and their overall strength was taking a qualitative leap. He couldn't let these people bring disaster to the human race.

Senior Brother Six God said, "That's appropriate, but since you want to seal them, seal them more thoroughly. Otherwise, just because you don't let them go doesn't mean that the Chaotic Divine Race won't find a way to exile them to the Sea Realm. At that time, you won't be able to kill them, but they will hate you and cause trouble for you."

Qiu Wanren nodded. "Yes."

Han Fei grinned. "Okay, that's it. However, leave a channel for ourselves. We'll have to watch the Ancient Divine Vine."

Senior Brother Six God said, "I'll arrange for the insect race to guard this place. If anything happens here, I'll know immediately."

### God of Fishing

#### **Chapter 3463: From Now On, the Human Race Will Be the King in the Sea Realm (2)**

"That's good. Then let's go to the Sky Spider Worm Valley without further ado."

...

The collective escape of the Chaotic Divine Race meant that the human race and the divine descendants had won this battle. After all, the entire race had run away, but the Sea Quelling God was still here. He must be out of his mind.

Therefore, the Sea Quelling God of the Chaotic Divine Race had definitely run away too. As for the other white-haired old man, even if he still stayed in the Sea Realm, he could only surrender.

Sky Spider Worm Valley.

At this moment, a rain of blood was falling, and Great Dao cracks crisscrossed.

The 80 million kilometers of Worm Valley had almost been flattened. Lin Xian was right. They were all abandoned. Since they couldn't kill the human race and the divine descendants, they would serve as nutrients for the Ancient Divine Vine.

In a sense, even if Han Fei and the others won, they couldn't escape the fate of being chess pieces.

And the chess player never appeared.

"Kill!"

Luo Xiaobai led the 80 million-strong human army into the battlefield.

Zhang Xuanyu, Xia Xiaochan, Le Renkuang, and a few other Monarchs fought the other party's Monarchs first. However, in terms of the number of Monarchs, how could the Sky Spider Worm Valley compare to the divine descendants? Therefore, in less than an hour, all the Monarchs in the Sky Spider Worm Valley died.

Han Fei was standing with Xia Xiaochan and Zhang Xuanyu.

Zhang Xuanyu muttered, "Feifei! Although your daughter was born late, she's stronger than my daughter in terms of strength. Isn't it ridiculous that she has so many divine techniques?"

At this moment, Han Chanyi was also fighting a bloody battle on the battlefield. However, her talent was to control the Great Dao of Space. At the same level, her teleportation speed, frequency, and mastery of the Great Dao of Space made even Xia Xiaochan a little nervous.

At this moment, Han Chanyi, Zhang Panpan, Wang Xiaoxiao, and the others were like a strong army. They were all Heavenly Talents among Heavenly Talents. Any opponent in the Perfected Star Transformation Realm would be killed within a hundred rounds.

Han Fei looked at Zhang Xuanyu with a smile and said, "Don't think I don't know that your talent has been passed on to Panpan. Such talent is not weak. It's no weaker than yours."

Le Renkuang sighed. "Shouldn't I give birth to one as soon as possible so that my child can form a team with Yiyi and Panpan?"

Zhang Xuanyu scolded jokingly, "Then hurry up!"

Suddenly, Han Fei seemed to remember something. "By the way, Fatty, where is the boss of the top three bandits of the West Wilderness? I don't see them after the battle of the divine descendants. Don't you know?"

Le Renkuang said, "I do! But you didn't ask me. The old man and the other two went to transcend the divine tribulation together. At this moment, they should be burning, killing, and robbing in the Central Sea Divine Realm. You know, bandits are just like us back then."

"Nonsense."

Han Fei immediately retorted, "When have I ever burned, killed, and robbed? I always beat my opponent head-on and took away resources."

"Heh heh!"

Zhang Xuanyu and the others smiled without saying anything.

...

Another three days passed. After clearing up the Sky Spider Worm Valley, he found another Primordial Purple Gate.

It seemed that the Primordial Purple Gate was probably scattered in the six forces that Lin Xian mentioned.

Light City.

When Han Fei and the others arrived, the entire Light City had been disbanded, and a massive population had dispersed to the entire Sea Realm.

But even if their population dissipated, it couldn't stop Han Fei. For seven days in a row, he quickly found the strong masters who hid resources with the Vast Ocean Navigator and successfully snatched back the countless resources of the Light City.

As for the strong masters of the Light City who scattered into the Sea Realm, their lives might not be easy.

In the past few days, the other four Divine Realms had completely stopped hiding, and the borders had all been sealed. As long as the people of the Light City were in the Sea Realm, they would be besieged.

The four Divine Realms couldn't be underestimated. Their information channels weren't bad. They immediately took action after Han Fei destroyed the Ancient Demon Race and the Divine Demon Forest.

For a moment, countless forces in the entire Central Sea Divine Realm were trembling. Many relatively weak forces had long wavered and chose to ally with the four Divine Realms.

As for large forces such as Fist Sect, Flying Immortal Tower, Mirage Sect and Illusory Sky Sect, although no one was attacked at the moment, there were countless strong masters from the four Divine Realms who came to negotiate with them every day. On one hand, they couldn't bring themselves to do it, and on the other hand, they naively felt that such a big event wouldn't affect them.

After all, it was impossible for Han Fei to completely overthrow the order of the entire Central Sea Divine Realm and start over.

As for forces like the Sound Ending Mountain and the Thousand Phenomena Sect, they were very decisive. They didn't care so much about face, so they readily cooperated with the four Divine Realms.

Of course, there were also some forces that were neither big nor small. They had Great Monarchs and Nature Spiritual Treasures protecting them, so they forcibly retained the right to continue to live in the Central Sea Divine Realm. But the Central Sea Divine Realm had changed. Who could stay out of it? Therefore, they fought some forces from the four Divine Realms.

The most miserable ones were the small and medium-sized forces that relied on the protection of the Ancient Demon Race. They had no choice at all. Whether they chose to surrender or disband, no one would believe them. Therefore, war was inevitable.

In just half a month, the entire Central Sea Divine Realm had completely become a battlefield.

Above the sea, battles could be seen everywhere.

At this moment, Han Fei led an army of 80 million human beings and 8 million divine descendants to the Primordial Divine Academy.

The old man who had fought Old Fierce twice blocked Han Fei and the others with a solemn expression. "Han Fei, the Primordial Divine Academy gathers the Heavenly Talents from the entire Central Sea Divine Realm, even the other four Divine Realms. It's the cultivation holy land of countless students. Do you want to destroy our Primordial Divine Academy?"

### [God of Fishing](#)

### **Chapter 3464: From Now On, the Human Race Will Be the King in the Sea Realm (3)**

"Oh! So you're from the Primordial Divine Academy!"

Old Fierce put on a creepy smile. "Big bird, I'm very glad that you didn't escape."

The white-haired old man was not afraid of Han Fei and the other three Sea Quelling Gods. He said, "I am the only one who is recognized by the strong masters in the Sea of Stars as to guard the Sea Realm. You can call me the guardian of the Sea Realm."

"Bah!"

Yue Lingke spat. "Are you the guardian of the Sea Realm? Then where were you when the Central Sea Divine Realm slaughtered the divine descendants? Where were you when the Central Sea Divine Realm joined forces to try to destroy the human race? How do you have the cheek to say that you are the guardian of the Sea Realm?"

The white-haired old man was still tough. "I'm blocking external enemies, not a civil war. Besides, the strongest person who attacked the divine descendants is no more than a god, and the strongest person who attacked the human race is no more than a Great Monarch. Who do you think set this hurdle?"

Han Fei grinned, a smile similar to Old Fierce's. "Are you still quite proud? Do you think I should thank you?"

Han Fei walked forward step by step and said indifferently, "I, Han Fei, am only a peak-level Great Monarch now. Do you have any objections to me challenging the Primordial Divine Academy? Don't worry. I won't use any secret techniques. I'll only use the combat power of a peak-level Great Monarch."

The white-haired old man's pupils were constricted slightly. "Human Emperor, aren't you looking for the wrong person to take revenge on? The entire Primordial Divine Academy didn't participate in the east expedition."

Han Fei asked, "Really? But without your indulgence, can they destroy some forces from time to time to nurture the Ancient Divine Vine?"

The white-haired old man's pupils were constricted. From the moment Lin Xian betrayed him, he knew that the secret of the Ancient Divine Vine couldn't be kept anymore. However, the old man was fearless. "You don't know the significance of the reappearance of the Divine Vine at all. This is an opportunity."

"F\*ck your opportunity."

Han Fei roared, "Old man, if it weren't for the fact that you are a Sea Quelling God, I would have killed you today. However, although I can let you go today, I need you to take the initiative to complete three things. Firstly, hand over everyone in the Primordial Divine Academy from the Divine Demon Forest, the Ancient Demon Race, the Light City, the Sky Spider Worm Valley, and the Chaotic Divine Race. Secondly, hand over the Primordial Purple Gate. Thirdly, finish the first two things and get out of the Sea Realm immediately, never to return."

"How dare you! Since the founding of the Primordial Divine Academy, there have been five dominators, 128 Sea Quelling Gods, 501 God Slaying Level powerhouses, and more than 3,900 gods in history... Han Fei, are you qualified to touch the Primordial Divine Academy?"

"Heh heh!"

Han Fei couldn't help but grin. "Then let the strong masters of the Primordial Divine Academy take revenge on me! Senior Brother Lei Heng, Senior Brother Six God, I'm afraid I can't listen to Senior Sister Shen Le anymore. Old Fierce, let's kill him."

Old Fierce licked the corner of his mouth, his eyes bloodshot. "You should have done this long ago."

Lei Heng and Senior Brother Six God looked at each other. Lei Heng was used to being lawless. He chuckled. "It's not that we didn't listen. Look at this old man. He thinks too highly of himself. Not to mention Little Junior Brother, even I can't tolerate him anymore."

Senior Brother Six God sighed slightly. "Fine, it's up to you!"

Han Fei immediately activated his Original Great Dao and shouted, his voice rumbling throughout the Sea Realm, "The Primordial Divine Academy is immoral. Colluding with the Chaotic Divine Race, the Divine Demon Forest, the Ancient Demon Race, the Sky Spider Worm Valley, and the Light City, they secretly slaughtered all the races for personal gain. Now, I, Han Fei, announce that the Primordial Divine Academy will be disbanded today."

The old man roared, "Ignorant brat, do you think the Primordial Divine Academy can be disbanded so easily?"

In the Primordial Divine Academy, countless students also looked solemn.

Someone snorted. "What a domineering Human Emperor. Who does he think he is? The Primordial Divine Academy has existed for billions of years. How can he disband it so easily?"

Someone echoed, "Han Fei is lying. He deserves to be executed."

However, there were also students who were secretly observing. In the past few days, there had been a rain of blood in the Central Sea Divine Realm. Those who didn't know the situation would eventually be buried in the dust of history.

Some students had received notice from their families that the big clans had already joined forces with the other four Divine Realms, so they would definitely not sacrifice themselves for the Primordial Divine Academy.

Besides, there were many disciples of the other four Divine Realms in the Primordial Divine Academy. They knew very well what to do and what not to do.

"Kill!"

As Han Fei roared, he took the lead to attack.

Now, Han Fei's strength had improved greatly. With his full strength, he had 6.2 million combat power. Although he was still at the bottom of the Sea Quelling Gods, he was much stronger than before.

Old Fierce was faster than Han Fei. Han Fei's strength certainly couldn't shake this old man, but Old Fierce was not Han Fei. He had long coveted this old man's body.

Boom!

The three of them instantly shot into the sky, shattering the void and causing explosions.

"Count me in."

The sky was full of lightning, locking down billions of kilometers of the sky, and a lightning divine shadow also joined the battle.

The strong masters of the four Divine Realms, such as the East Sea Divine Realm, the South Sea Divine Realm, and the West Wilderness, were relieved to see this scene.

The top three bandits of the West Wilderness all shouted, "Kill! Anyone who is under the control of these six major forces can be killed as you please. Such an opportunity comes once in millions of years. We can't let the other divine realms beat us in speed."

In the East Sea Divine Realm, the crown prince of the Divine Capital led an army to an expedition. "Take down the Light City and all its surrounding forces. The Divine Capital will garrison the Central Sea from here."

Countless strong masters of the Phoenix Divine Race covered the sky like a sea of flames.

### **God of Fishing**

#### **Chapter 3465: From Now On, the Human Race Will Be the King in the Sea Realm (4)**

The Phoenix Patriarch personally led the army and shouted, "From now on, there will be no Divine Demon Forest in the Sea Realm. Capture all the forces around it. Those who don't surrender will be killed on the spot."

As for the Sky Spider Worm Valley and the Chaotic Divine Race, no one went there. One of them could obviously only be left to the North Sea, and the other was a branch of the human race. Who would compete with Han Fei?

As for the Ancient Demon Race, it had become a competition ground for many medium-sized and large forces. The surrounding medium-sized and small forces had run away and surrendered at the beginning. There were too many people coveting this domain. Now that Han Fei had established his power, the forces in the Central Sea Divine Realm that could resist him had all been wiped out. What was the use of a Sea Quelling God of the Primordial Divine Academy?

As soon as Han Fei started this battle, all kinds of battles broke out around the Ancient Demon Race.

At this moment, Han Fei and the other two joined forces to besiege the white-haired old man. Although Han Fei was at the bottom of the Sea Quelling Divine Realm, it didn't mean that he couldn't shake the old man. In fact, the Immortal Slaying Knife and the Sword of Shattering, coupled with source power, were equally destructive. Although the old man was powerful, two fists couldn't resist four hands.

Old Fierce alone could cut off one of his legs after a long battle, let alone now. Senior Brother Lei Heng controlled the four lightning domains. Every time he attacked, it was comparable to a Sea Quelling Tribulation. Its terrifying power was no weaker than Old Fierce's at all, even stronger than Old Fierce's now.

At this moment, wherever Senior Brother Fan Leiheng passed, it turned into a lightning domain. This place was filled with the power of lightning techniques, and all other techniques' power was greatly reduced here.

Buzz—

Han Fei saw the phantoms of thunder gods rising from the ground. There were a total of twelve thunder gods, exactly the same as the statues Han Fei had seen in the Thunder Note Ancient Temple.

"Twelve Thunder Seal Technique, Materialize?"

Han Fei couldn't help but think that Senior Brother Lei Heng had reached the peak of the path of Ancient God of Thunder Note.

Whoosh!

The lightning and fire spread, the Ten Thousand Thunder Fusion Killing Technique, the Soul Slaying Lightning, the Lightning Jumping, Lightning Arcs and so on... The white-haired old man was charred all over, and one of his arms was torn off by Old Fierce.

Even Han Fei took the opportunity to slash at the old man's back. The Dao of Slaughter God surged into his body, causing the white-haired old man to bleed.

Senior Brother Lei Heng stood proudly on the many Thunder God Dharma Idols and summoned surging tribulation clouds. Seeing this, Han Fei's face changed. "The ultimate seal technique of the Twelve Thunder Seal Technique, Heavenly Tribulation Killing Technique."

Being able to use this move meant that Lei Heng had completely mastered the Twelve Thunder Seal Technique. This was a Heavenly Tribulation Killing Technique of the Sea Quelling God level, so its power couldn't be underestimated.

Rumble!

The heavenly tribulation descended, and the white-haired old man was instantly enveloped.

"Chirp!"

The old man was finally defeated and turned into a Heavenly Roc with thousands of feathers covering the sky. His eyes were cold as he roared, "Han Fei, you are the thief who brought disaster to all races. You deserve to be executed."

In the next moment, the two swords fused and charged at Han Fei.

"Lightning Form, Ten Thousand Tide Thunder Shield."

"Pfft!"

However, this sword was not only the white-haired old man's sword, but also the ultimate blow of the Supreme Nature Treasure. It was extremely powerful and actually cut through the sea of lightning.

Seeing this, Old Fierce's Dharma Idol turned ferocious and turned into a Qiong Qi phantom. He charged at the sword with his two horns.

Boom ~

Boom! Crack!

The Dharma Idol of Qiong Qi was also broken. It could be seen that even the Sea Quelling God couldn't resist the power of a Supreme Nature Treasure!

Han Fei narrowed his eyes and held the Law Enforcement Divine Chain, intending to attack with all his strength and block this sword in an invincible state.

Swish ~

But at the moment when the sword was about to reach him, Han Fei drew his broadsword and slashed, and a figure suddenly appeared.

Clank ~

In the next moment, the newcomer clamped his fingers together, and the violent sword that broke Lei Heng and Old Fierce's attacks was clamped and couldn't move at all.

"Fifth Senior Brother, you came at the right time."

Han Fei was lost for words. Did it have to be so thrilling?

"Gulp~ Ah~"

Fifth Senior Brother smiled faintly. "Bai Mei, our Daos are different. But you're bullying the weak. I can't turn a blind eye to this."

The white-haired old man shouted angrily, "Zhang Shaoling, one day, you will regret it."

Bang!

Lei Heng arrived in an instant and punched the white-haired old man back billions of kilometers. Obviously, he was angry at this guy for attacking Han Fei just now.

He shouted, "What a sanctimonious person. Fortunately, I didn't enter the Primordial Divine Academy back then. Today, I'll send you to hell."

"Junior Brother Lei Heng!"

Fifth Senior Brother waved his hand. "Forget it. I shouldn't have attacked him. If he wants to escape, the three of you won't be able to take him down. In that case, let's just retreat. You'll meet again someday. At that time, if there are any conflicts, I won't stop you."

The white-haired old man returned to his human form and looked at Han Fei deeply. "I'm waiting for you to kill me, but the Primordial Divine Academy is not guilty."

"It's not up to you whether it's guilty or not. If I say it can be destroyed, it can."

Han Fei didn't care at all. He casually slashed through the Endless Void and immediately ordered the human army. His voice echoed in the sky above the Primordial Divine Academy, "Flatten the Primordial Divine Academy. Anyone who resists will be killed!"

"Han Fei ~"

Bai Mei shouted angrily.

"Get lost ~"

Han Fei became even more violent. "In the future, the human race will be the king in the Sea Realm. I'll show you that without those cowards, the Sea Realm will be stronger."

With that, Han Fei pointed at his white eyebrows. "Old Bai Mei, when I set foot in the Sea of Stars in the future, I will come to you."

With that, Han Fei turned around and left.

As soon as he stepped out of the Endless Void, before Bai Mei left, Han Fei's voice spread throughout the Central Sea Divine Realm. "I am Human Emperor Han Fei. Now I order the sect masters of the Jade Cauldron Sect, the Fist Sect, the Flying Immortal Tower, the Sound Ending Mountain, the Secret Assassin Sect, the Mirage Sect, and the Illusory Sky Sect to come to the old site of the Primordial Divine Academy to see me in half a day. If you don't come in half a day, don't come..."

#### **Chapter 3466: The End of the War, Doomsday Era (1)**

Han Fei didn't care what the people of the Sea Realm thought of him, because he knew that as long as he was strong enough, no one dared to say anything.

It was a foregone conclusion that the human race would take over the Central Sea Divine Realm. Even the many super forces that dominated the Central Sea Divine Realm had been wiped out. Even the strong masters in the Sea of Stars didn't react, which explained everything.

When eight million divine descendants and eighty million human beings rushed into the Primordial Divine Academy in one fell swoop, almost immediately, more than half of the students of the Primordial Divine Academy quit and avoided fighting.

Although those who could enter the Primordial Divine Academy were very strong and talented, this didn't mean that they were willing to sacrifice their lives for the pride of the Primordial Divine Academy. They were all cultivators. It wasn't easy for them to cultivate to their current realm. How could they casually court death?

Even if some people were unconvinced by Han Fei, they would probably retreat at this moment and wait for a better chance to attack the human race.

Of course, some people could leave, but some couldn't.

For example, every time someone tried to sneak away, there would always be a strong master of the divine race who discovered it and dragged him out from among the countless students.

Whether it was the ancient demons, demon plants, or the people from the Light City and the Sky Spider Worm Valley, they were all too characteristic. And there were probably very few members of the smart race like the Chaotic Divine Race left in the Primordial Divine Academy.

Therefore, in the sky above the Primordial Divine Academy, the powerhouses of these lineages kept shouting, "Everyone, Han Fei, this b\*stard, plotted against the eternal foundation of our Primordial Divine Academy. You cowards, the Divine Academy is in danger, but you're still fleeing for your lives. Aren't you letting the Divine Academy down?"

Someone shouted, "Everyone, follow me to kill the enemy. Although I'm no match for them, I refuse to surrender to them. Kill!"

Hundreds of thousands of Sky Openers and dozens of Monarchs joined forces. But in front of 80 million human beings and 8 million divine descendants, this was not worth mentioning at all.

Not only were most of the disciples of the Primordial Divine Academy not stimulated by their bravery, but they also shouted, "I'm a disciple of the Mirage Sect. I won't participate in this battle."

"I'm from the Fist Sect. I have no intention of starting a war with the human race."

"I am a disciple of the Thousand Phenomena Sect..."

"I'm from the Sting Hidden Sect. I've never attacked the human race."

Bang! Bang! Bang!

These students were afraid that they couldn't avoid it in time, so some directly revealed their original bodies and revealed their identities.

Behind them, in the Primordial Divine Academy, countless former classmates and fellow Daoists were drowned by the army of humans and divine descendants. In the sky, Great Dao cracks appeared one after another, densely packed and crisscrossing as if the sky was cracking.

...

Several hours later.

Han Fei stood proudly in the sky above the Primordial Divine Academy. Not far behind Han Fei stood dozens of peak-level Great Monarchs. Han Fei didn't speak, and they didn't dare to make a sound.

This time, Han Fei was too ruthless. He really dared to kill. Almost the entire Central Sea Divine Realm had been slaughtered. Although they were large forces, they couldn't compare to the Ancient Demon Race or the Divine Demon Forest, let alone the Primordial Divine Academy.

At this moment, the battle in the Primordial Divine Academy had basically subsided. After all, most of the disciples of the Primordial Divine Academy hadn't participated in the battle.

Of course, they couldn't leave either. Luo Xiaobai and Chu Hao led the crowd to surround these people. Just because they weren't killed didn't mean that they could leave at will. There was no free lunch in the world. There were conditions to leave.

At this moment, Yue Lingke and Qiu Wanren walked out of a secret realm of the Primordial Divine Academy, dragging a palm-sized mountain in her hand.

Han Fei's eyes glittered. "The divine descendants' treasure?"

Yue Lingke nodded and then looked at the void. "Shaoling, you can let him go now."

Han Fei couldn't help but say, "I thought this treasure would be taken away by the people of the Chaotic Divine Race. I didn't expect it to be left behind."

Qiu Wanren sneered. "Perhaps they don't dare to take it with them! This treasure mountain was refined by our divine descendants. If they take this thing with them, our divine descendants will come to them sooner or later. Therefore, carrying this thing will only be a burden."

Yue Lingke nodded. "Bai Mei didn't dare to carry it with him, so it was left behind in the Primordial Divine Academy."

Han Fei said, "Well, let's open it until this matter is over! Now, let's get down to business."

Buzz!

At this moment, the crown prince of the Divine Capital and Fire Lady arrived almost together.

The crown prince of the Divine Capital cupped his hands at Han Fei. "Fellow Daoist Human Emperor, how have you been?"

The Fire Lady giggled. "What a pity! If you had really married Xiao Yu back then, it would have been a good thing."

"Cough, cough ~"

Han Fei's unfathomable and ruthless image couldn't be ruined by the Fire Lady.

He nodded at the two of them indifferently and said, "Students from the East Sea Divine Realm and the South Sea Divine Realm, step out. You can leave now."

Immediately, many disciples of the Primordial Divine Academy were overjoyed. Nearly 300,000 people had walked out.

As for the other students who couldn't leave, they were nervous, especially the disciples of the Fist Sect and the Mirage Sect. They knew that some of their clansmen had indeed once attacked the human race and Han Fei.

Although not many people did it, they did participate.

Han Fei turned around, looked at the strong masters of the Fist Sect and other forces, and said indifferently, "The only reason I didn't attack you is that the ominous is about to return. Whether it's the Sea Realm or the Sea of Stars, they both need talents. However, this doesn't mean that what you have done in the past will be written off. You can take these people back, but if you can't do a few things, don't blame me for falling out with you."

Immediately, someone hurriedly said obsequiously, "If Human Emperor has any orders, we will definitely do our best."

### [God of Fishing](#)

#### **Chapter 3467: The End of the War, Doomsday Era (2)**

The others also echoed, "Human Emperor, don't worry. We are not as pedantic as the Primordial Divine Academy. We are not satisfied with the decaying Central Sea Divine Realm either. This time, it's all thanks to Human Emperor sweeping the Central Sea Divine Realm and bringing us peace."

"Yes, yes."

The group of big shots all lowered their heads. Compared to the fate of their sects and the lives of tens of thousands of Heavenly Talents, they were nothing.

Han Fei glanced at everyone.

"Firstly, from now on, in the Central Sea Divine Realm, it's not allowed that small forces are attached to large forces."

"Secondly, everyone present, take out 60% of the resources of your sects."

"What?"

"60% of the resources?"

These people were dumbfounded. Wasn't Han Fei's appetite too big? 60% of the resources of forces like theirs was an astronomical figure. Who was willing to give away so many resources?

Once they gave away these resources, they could hardly make ends meet. How could they still be treated as large forces?

Han Fei snorted. "I will use these resources to build an unprecedented magnificent city, a free city without any racism where anyone can come. I'm not asking for your opinion. If anyone doesn't give resources, gives less resources, or hides any resources, once I catch them, what I want won't be as simple as 60%. I will take all their resources, and their sects will be disbanded."

Han Fei looked indifferent as if he was going to eat them. Although everyone was unwilling, who dared to resist?

Seeing that everyone was silent, Han Fei slowly said, "The third thing is that all the treasure places, training places, and mineral veins controlled by your sects shall be handed out."

Buzz!

For a moment, everyone wanted to rebel. This was not negotiating with them, but killing them!

Han Fei didn't care about their thoughts. He said, "Are you very puzzled and think that I've squeezed you too much?"

Finally, a strong master of a sect said with difficulty, "Human Emperor, is this any different from destroying our clans?"

Everyone looked at Han Fei, as if they wanted to get an answer from him.

Han Fei sneered. "It's easy for me to destroy your clans. Just watch what I do today. You might have to thank me later."

Everyone was speechless. You're going to take all our belongings, and we have to thank you? What kind of logic is this?

However, Han Fei ignored them at this moment.

After a while, when the disciples of these major forces returned, there were still seven or eight hundred thousand students left. Among them, half should be from small forces, and the other half might be itinerant cultivators.

Han Fei had no intention of letting them go. These Heavenly Talents were all nervous at this moment. This Human Emperor was too domineering. He even dared to sweep through the Primordial Divine Academy. Would he attack them?

Beside Han Fei, Yue Lingke was puzzled. "Little Junior Brother, if you really carry out these methods, I'm afraid these forces will rebel in the end. Besides, these forces have probably attacked the human race, right? Why don't you expel them from the Central Sea Divine Realm?"

Han Fei shook his head. "After all, I can't kill everyone who has offended me. Now that the ominous has returned, what's the point if the Sea Realm continues to develop so mediocly?"

Lei Heng said, "Little Junior Brother, why do you care about the Sea Realm? Let's pack up and go to the Sea of Stars!"

Senior Brother Six God said, "How can it be as simple as you think? If we all leave, who can you throw such a big mess to? Senior Sister Shen Le wants Little Junior Brother to unify the Sea Realm, so she naturally hopes that the Sea Realm can form a joint force to deal with the ominous in the future. Little Junior Brother must have his own thoughts."

Han Fei smiled and said, "Senior Brother Six God is right. This mess is too big. Someone has to control it. The Blue Sea Era is destined to be a mediocre era. In just a hundred thousand years, all the races have been crippled. It's time for the Sea Realm to enter a new era."

Everyone looked at each other, not understanding what Han Fei was thinking.

In the next moment, Han Fei's voice resounded throughout the Sea Realm, rolling like thunder. "I am Human Emperor Han Fei. Today, I rule the Central Sea Divine Realm. I destroyed the Ancient Demon Race, the Divine Demon Forest, and the Sky Spider Worm Valley and swept through the Light City, the Chaotic Divine Race, and the Primordial Divine Academy. I announce that from today on, the Blue Sea Era is over. All the races in the Infinite Ocean will enter a new era. This may be the shortest era in the entire history of the Sea Realm. I call it the Doomsday Era."

"Doomsday Era?"

Countless creatures in the Five Seas were listening.

Many people were shocked by the speed of the rise of the human race and Han Fei's strength. In less than a month, he had swept through six superpowers. They didn't dare to imagine it.

But they had thought that the defeat of the strong masters of the Central Sea Divine Realm would be the end of this turbulence.

But Han Fei had actually announced that he had overthrown the Blue Sea Era.

Han Fei's divine voice rumbled. "What I'm going to say next concerns the life and death of every race and every creature in the Sea Realm... The myriad races in the Infinite Ocean have been living since the Chaotic Era. We have experienced the Primordial Era, the Era of Gods, the Era of Doom, the Blue Sea

Era, and the current Doomsday Era. In these eras, the myriad races in the Infinite Ocean have a common enemy, which is the ominous. His first appearance ended the Chaotic Era. His second return destroyed the Primordial Era, which was an era a hundred times stronger than the Era of Gods. Now, he has returned again. This time, we don't have the endless treasures of the Chaotic Era, the countless strong masters of the Primordial Era, and we even have very few gods... All of you only have a mere ten thousand years left."

### [God of Fishing](#)

#### **Chapter 3468: The End of the War, Doomsday Era (3)**

"Hiss!"

"Only ten thousand years?"

Countless people were struck by lightning. Even the sect masters of many large and medium-sized forces in the Central Sea Divine Realm were stunned. How could it only be ten thousand years?

Even these strong masters were shocked, not to mention the ordinary people of the myriad races. For example, the 80 million humans, 8 million divine descendants, and nearly a million students of the Primordial Divine Academy in front of Han Fei were all shocked.

In other places in the Sea Realm, whether it was the powerful bandits who were looting or the itinerant cultivators who were struggling to seek opportunities in the Desolate Sea, they were all horrified and spontaneously put down what they were doing.

Han Fei's voice echoed in the void, "Whether it's the Sea Establishment Realm, the Sky Opening Realm, the Monarch Realm, or even the gods... You didn't hear it wrong. Everyone only has ten thousand years left. In the Sea of Stars, countless people are fighting a bloody battle. As for the so-called super forces in the Central Sea Divine Realm, they actually want to snatch the luck of other races for personal gain and strengthen themselves. Such a Sea Realm can't even resist me, a mere Human Emperor, not to mention the ominous."

"Therefore, I announce that from today on, the Central Sea Divine Realm will build an unprecedented magnificent city called the Free City. The Free City can encompass all races. Anyone can come, and all the resources here will be open to everyone. Whether it's resources, cultivation techniques, divine techniques, or everything you want, the Central Sea Divine Realm has them. Powers as strong as the Flying Immortal Tower, the Mirage Sect, the Fist Sect... the Thousand Phenomena Sect, and many other forces have agreed to publicize their secret realms, treasure troves, mining areas, top cultivation methods, and even divine techniques. As long as you are talented enough, you can join any force at will. Even if you are not talented enough, you can buy anything you want from the Free City..."

At this moment, the strong masters of the major forces present all took a deep breath. Their minds began to spin quickly. If what Han Fei said was true, it meant that their sects would expand rapidly. At that time, they could easily become a super force.

Besides, they thought about it carefully. In fact, they were only sacrificing the resources they controlled. Those vassal small forces were actually not easy to deal with. How could it be as convenient as them directly taking in a large number of disciples?

Even the crown prince of the Divine Capital and the Fire Lady were intrigued.

The crown prince of the Divine Capital said, "Fellow Daoist Human Emperor, can only those powers recruit talents in the Free City?"

Han Fei grinned. "Of course not. All forces, big or small, can recruit talents in the Free City... There are strong and weak people among the myriad races in the Sea Realm, and there are all kinds of techniques, so don't be afraid of being unable to recruit talents."

Fire Lady frowned and said, "Han Fei, this will easily create new superpowers."

Han Fei smiled and said, "The human race and the divine descendants will supervise the major forces. As a disciple of the Void Temple, I can supervise the human race and the divine descendants. If our Void Temple is gone, it can only be said that the myriad races have been wiped out."

Han Fei laughed, and his voice spread throughout the Sea Realm for the last time. "I guarantee that in the future, there will be no oppression or injustice in the Central Sea Divine Realm. Whether it's the divine race, itinerant cultivators, or even gods, you're all equal... From today on, anyone who bullies the weak will be killed. If anyone violates my will, even if he's a god, he will suffer the same punishment as ordinary people. The people of all races can supervise them. If there is any injustice, report it to the human race or the divine descendants, and I will uphold justice..."

At this moment, the entire Sea Realm was shocked. It could be expected that countless forces, countless itinerant cultivators, and countless talented or ambitious people would try their best to go to the Central Sea Divine Realm.

However, going to the Central Sea Divine Realm from the four Divine Realms was a challenge in itself. After all, for ordinary Sea Establishers, they might not be able to cross a domain without hundreds of years. And how many people with poor aptitudes could come to the Central Sea Divine Realm after hundreds of years?

Immediately, countless itinerant cultivators in the Sea Realm were excited.

"I've decided. I'm going to the Central Sea Divine Realm."

"Heh! Do you need to decide? We're all going."

"We can join in a super force at will? How can there be such a good thing in the world?"

"A good thing? Brother, you seem to have forgotten what the Human Emperor just said. We only have 10,000 years. In 10,000 years, all races might be destroyed. I won't be surprised no matter what happens now."

"By the way, what is the ominous?"

"Ominous. It's said to be a terrifying enemy."

"What's the difference between telling me and not telling me?"

"What's the rush? Since the Human Emperor has already said such a secret, there should be a detailed explanation later! Otherwise, nine out of ten people don't know. It's meaningless for him to say this."

"However, the Divine Demon Forest and the other forces were really too ridiculous. How could they not reveal anything about this matter that concerns the survival of the myriad races? What kind of super forces are they?"

"Heh! Otherwise, why do you think Human Emperor attacked the Central Sea Divine Realm?"

For a moment, the entire Sea Realm was talking about Han Fei, what Han Fei said, and yearned for the Free City.

In the Chaotic Wasteland, Gu Tingnan sighed when he heard Han Fei's crazy plan.

Duan Qingsi sighed. "I didn't expect him to reach this height in just a thousand years."

Gu Tingnan also sighed. "Perhaps this is what the real Human Emperor is like! I've decided to migrate the entire City of Wanderers to the Central Sea Divine Realm."

### [God of Fishing](#)

#### **Chapter 3469: The End of the War, Doomsday Era (4)**

...

Hundreds of billions of human beings felt honored at this moment.

In the past, they were still weaklings who were slaughtered by others at will. It was precisely because of Han Fei that they fought their way out and held up a world. At this moment, he actually changed the layout of the entire Sea Realm alone. Han Fei's image in everyone's hearts was no longer as simple as being great. He was an incomparable existence that was really respected as a god.

At this moment, the eighty million humans in the Central Sea Divine Realm felt their blood boiling.

Next to Han Chanyi, Zhang Panpan exclaimed, "So cool! Uncle Human Emperor is so cool! He rewrote an era! He created a new era!"

Wang Xiaoxiao's face was also full of admiration. Since the moment Han Fei taught her the Giant Beast Divine Dao, she had begun to worship Han Fei. She didn't expect the person she worshiped to be so great.

Han Chanyi opened her mouth. Although she felt very proud too, she didn't want to admit it. "Shouldn't you be worried about ten thousand years from now? Didn't he say that there are only ten thousand years left for the Infinite Ocean?"

Zhang Panpan said without any scruples, "What are you afraid of? With Uncle Human Emperor, even if eight or ten ominous come, it won't be a problem."

Han Chanyi: "..."

...

At this moment, after speaking to the myriad races in the Infinite Ocean, under the gaze of countless people and divine descendants, Han Fei stepped into the air and walked towards the hundreds of thousands of Heavenly Talents. In the blink of an eye, he turned into a huge Dharma Idol that was 330,000 feet tall.

"In the Infinite Sea of Stars, there are countless strong masters fighting and bathing in blood just to protect the myriad races. You are talented, but you don't want to improve but mess around in the Central Sea Divine Realm all day long. The world you have seen is only this big. I'll give you two choices. The first is to embark on a journey to the ominous battlefield. However, you people won't help the Star Sea battlefields much. The second choice is that there are countless itinerant cultivators in this world who can't find a path of cultivation or advancement, but their aptitude and potential are not bad. You can stay in the Central Sea Divine Realm and teach them. I'll give you a hundred seconds to make a choice."

Half of the students present were talented itinerant cultivators. Because of various coincidences, they had passed one trial after another before coming to the Primordial Divine Academy.

At this moment, Han Fei's words reminded many people of the situation when they were still itinerant cultivators. They were really struggling on the verge of death.

Besides, Han Fei was obviously biased towards itinerant cultivators, which made them have a good impression of him. They actually felt that it wasn't bad.

Immediately, someone stood up. "I'm willing to stay and preach."

"Me too."

"Me too."

"..."

Compared to setting foot in the Sea of Stars at this moment, these students still knew their position. It was very dangerous to embark on the journey of the Sea of Stars. If the Free City that Han Fei mentioned was really built in the Sea Realm, it would definitely be a flourishing era.

At that time, not only would they teach, but they would also see all kinds of cultivation methods, secret techniques, and divine techniques in the Infinite Ocean. No matter how they looked at it, it was more comfortable to stay in the Central Sea Divine Realm.

At this moment, the remaining students also stood up. They were originally Heavenly Talents from small and medium-sized forces. After entering the Primordial Divine Academy, they were still inferior to the disciples of those major forces. Now, they seemed to see a chance to change their fate. How could they give it up?

...

Senior Brother Lei Heng felt a headache. "A new era has been opened. Little Junior Brother never fails to surprise me!"

Senior Brother Six God said, "This is why Senior Sister Shen Le asked Little Junior Brother instead of the two of us to unify the Sea Realm. After all, the human race is more experienced in unifying the myriad races."

At this moment, Han Fei looked at the two of them and said, "Senior Brother Six God, please do me another favor. The construction of this Free City is too huge. I want this city to be ten times or even a hundred times larger than the Divine Capital Dynasty, so I need the help of the Insect Clan."

Senior Brother Six God nodded. "No problem, but it can't be only us. There are so many forces in the Central Sea Divine Realm. Every force has to contribute."

Han Fei smiled. "Of course."

With that, Han Fei looked at Lei Heng, only to see that Lei Heng's expression changed drastically. He said in advance, "Little Junior Brother, I suddenly remembered that I have something to do. You go about your business. I'm leaving."

Boom!

The lightning mark cut through the sky, and Lei Heng had already disappeared.

Han Fei was lost for words. "Actually, I just want to ask about the Twelve Thunder Seal Technique. Why is he running?"

Senior Brother Six God said, "Let him be! That's his personality."

...

Another moment later.

Han Xuan asked, "What? I can't even handle the human race. You want me to manage the Free City?"

Hong Yue waved his hand quickly. "Master Human Emperor, we can't do it! We've just become Monarchs. How can we suppress so many powerful figures?"

Han Fei said, "If I say you can do it, you can! The Divine Capital Dynasty, the Phoenix Divine Race, the Ferocious God Valley, and the North Sea Insect Clan will send their top powerhouses to help you govern the Free City. They are all our allies. What are you afraid of?"

Fire Lady giggled. "The Phoenix Divine Race is in charge of the South Sea anyway. You don't have to feel burdened. When the time comes, our race will send some disciples who are not very strong but are definitely capable of helping you."

The crown prince of the Divine Capital Dynasty said, "The laws of the Divine Capital Dynasty are well-developed, and there are many people who are good at legislation. When the time comes, the Divine Capital Dynasty will be responsible for making laws and rules of the Free City. Besides, the Insect Clan is spread throughout the five seas. When the Free City is officially built, it will be easy for the laws to spread to the five seas."

Han Xuan said, "That's easy to say, but when the myriad races in the Infinite Ocean are united, there will definitely be pros and cons. With more people, there will definitely be more conflicts. I'm just afraid that it will be chaotic."

At this time, Luo Xiaobai said, "As long as there is no chaos in the Free City, it's fine. As for outside the Free City, they can fight at will. The fiercer the battle, the better. Only in troubled times can heroes appear. Otherwise, why would we need a golden age?"

Han Fei couldn't help but smile. "Xiaobai knows me best. Okay, Uncle Xuan, you can make a plan for this matter. There's one last place in the Central Sea Divine Realm. I have to go there."

"Huh?"

Everyone looked at Han Fei.

Han Fei said, "It's time to go to the divine beasts and ferocious beasts..."

### God of Fishing

#### **Chapter 3470: The Story of the Emperor Sparrow (1)**

In the Central Sea Divine Realm, there was such a special place called the Sea of Strange Beasts.

There were divine beasts and ferocious beasts living here. It sounded that divine beasts and ferocious beasts were extraordinary, but in fact, their status in the Central Sea Divine Realm was not low or high.

The periphery of the Sea of Strange Beasts was specially opened to the super forces of the Central Sea Divine Realm. Why was it opened? It was actually to let the Heavenly Talents of the major forces in the Central Sea Divine Realm hunt and tame the beasts they caught as mounts.

It was precisely because they sent some mounts to those major forces that the primordial strange beasts obtained a good status in the Central Sea Divine Realm.

After all, although they didn't have gods, there were many Monarchs among the divine beasts and ferocious beasts.

The Emperor Sparrow stood on Han Fei's shoulder. When he appeared in the Sea of Strange Beasts, countless ferocious beasts immediately ran into the depths of the Sea of Strange Beasts in fright.

They didn't interfere in the affairs of the Central Sea Divine Realm, but it didn't mean that they didn't know. In the past month, the Central Sea Divine Realm had been fighting crazily, and the rain of blood had never stopped.

Now that these two killing gods had appeared in the Sea of Strange Beasts, how could ordinary ferocious beasts not be afraid?

Han Fei scanned around with his perception. "The divine beasts and the ferocious beasts live in the same sea area. Wouldn't they go crazy fighting?"

The Emperor Sparrow said lazily, "If they fight too many times, they won't be so crazy. The ferocious beasts are the same as the divine beasts. On both sides, their realms are limited to the peak of the Great Monarch realm. If they really fight to the death, both sides will suffer heavy losses. Therefore, the conflicts between the two sides are mostly for training soldiers. If I don't appear, it will be difficult for them to fight to the death."

Han Fei raised his eyebrows. "But you've appeared now? You still want to take ferocious beasts to destroy the divine beasts?"

The Emperor Sparrow shook his head slightly. "There are many misunderstandings about me in history. In fact, I have never thought of destroying the divine beasts. What I want is the union of divine beasts and ferocious beasts."

Han Fei was puzzled. "You're just a ferocious beast. Why would divine beasts submit to you?"

The Emperor Sparrow tilted his head and looked at Han Fei. "Aren't you here for the primordial strange beasts? Divine beasts and ferocious beasts are collectively called primordial strange beasts. And I was born their king. Forget it, it's a long story. There are some things you will find out later."

Han Fei said, "Then let's go! Let them know that their king is back."

"No, wait for half an hour."

"Huh?"

...

After half an hour.

Without the guidance of the Emperor Sparrow, Han Fei only needed to follow the footsteps of some ferocious beasts and quickly came to the depths of the Sea of Strange Beasts.

It was a group of islands formed by tens of thousands of islands. At this moment, Han Fei perceived that outside the largest island, millions of ferocious beasts had already gathered. Some were standing on the islands, and some were flying in the sky, all looking in the direction where Han Fei and the others came.

In addition to the millions of ferocious beasts, there were also countless ferocious beasts standing on the other islands, looking out as if they wanted to see something.

As soon as Han Fei and the Emperor Sparrow appeared, they saw that the bird-type ferocious beasts in the sky had landed on the ground. Then, the ferocious beasts prostrated on the ground in unison and shouted, "Welcome back, Your Majesty."

Seeing this, Han Fei couldn't help but tease, "What a show. If they had helped me earlier, we might have come long ago."

The Emperor Sparrow's voice was cold and aloof. "They are controlled by the Central Sea Divine Realm. How can they mobilize on a large scale on the surface? Otherwise, why do you think the divine beasts came to help me back then?"

Han Fei said, "I'm still a little curious. The two divine beasts who helped us should be pacifists among divine beasts, right? But most divine beasts still hate you, right?"

The Emperor Sparrow said calmly, "If I hadn't become your spiritual beast, most divine beasts would have hated me and even tried their best to kill me."

Han Fei was stunned. "Did their hatred for you disappear after you became my spiritual beasts?"

"No, they're just wavering."

"Wavering?"

The Emperor Sparrow didn't continue to answer Han Fei, because the two of them had already arrived in front of this huge island. At the forefront of countless ferocious beasts was an ancient dragon elephant. The giant elephant's eyes were red, and two fangs were rolled up at the corner of its mouth, but its long nose was like a centipede's limb, except that it was circular and looked quite strange. Furthermore, the fur on the ancient dragon elephant's body was very short, and many dark patterns

appeared on its body. Even its feet were very strange. They didn't look like the big footprints of ordinary giant elephants, but a little like bear claws, but thicker.

On the back of the ancient dragon elephant was a woman in a snow-white cloak. The woman maintained her human form, but four curved red horns grew on her head like a crown, and her silver hair fluttered in the wind. At her waist, there was a long whip of extraordinary quality.

Han Fei landed and looked at the woman.

The snow-white cloak on the woman suddenly unfolded, and Han Fei was stunned. It turned out to be a pair of wings that looked like a cloak.

Then, the woman got down and knelt on one knee. "Chu Tianxue, the current leader of the ferocious beasts, greets Your Majesty."

The Emperor Sparrow didn't get off Han Fei but nodded slightly. "Divine Snow Sky Phoenix, a strange beast with a bloodline ranking in the top ten among the primordial strange beasts."

"Everyone, get up!"

"Yes."

As Chu Tianxue stood up, the million ferocious beasts behind her all stood up. Some were tall, and some were short. However, they all looked ferocious. No matter how one looked at them, they looked as if they had mutated before. This mutation was a little similar to the kind of mutation that walked the Dao of Extreme Balance. Only a few looked more harmonious.
