Chapter 3471: The Story of the Emperor Sparrow (2)

However, these ferocious beasts certainly didn't take the Dao of Extreme Balance.

Swish ~

The Emperor Sparrow finally spread his wings and soared into the sky. Black clouds filled the sky and gathered into a terrifying black divine hawk that spanned tens of thousands of kilometers.

"My clansmen, I'm back."

"Roar! Roar ~"

"Emperor Sparrow, Emperor Sparrow, Emperor Sparrow~"

Instantly, on the entire island and the surrounding tens of thousands of islands, countless ferocious beasts roared crazily. Ten thousand beasts roared at the same time, and the sky changed color.

Many ferocious beasts even shouted, "Kill all the divine beasts. Your Majesty, we shall kill them all in this life."

"We are willing to follow you to wipe out the divine beasts."

"Kill all the divine beasts, kill all the divine beasts~"

After greeting the Emperor Sparrow, countless ferocious beasts immediately boiled with blood and wanted to start a war.

"Be quiet ~"

As soon as the Emperor Sparrow spoke, the ten thousand beasts hurriedly stopped talking. Emperor Sparrow said, "I'm no longer alone. I'm not back to eliminate the divine beasts but to subdue the divine beasts and break the causal curse of the ominous. I'll help you reach the God Realm and make primordial strange beasts reappear."

Buzz!

"What?"

"Is it possible?"

"Can we break the cause curse?"

"Should we have a try?"

Immediately, a ferocious beast shouted, "Your Majesty, you can completely sweep through the divine beasts like the Human Emperor destroyed his enemy. As long as all the divine beasts die, we can also break the cause and effect curse."

"That's right! Master Emperor Sparrow, we are like fire and water with the divine beasts. How can we fuse again?"

"Master Emperor Sparrow, you've tried many times, but you still haven't realized that it's impossible?"

Buzz!

The Emperor Sparrow's divine might descended and he shouted loudly, "I'm sure you've heard what the Human Emperor said. There are only ten thousand years left for this vast sea of stars. It's time for the battle between ferocious beasts and divine beasts to come to an end. I've witnessed the death of countless ferocious beasts, and my hands have been stained with the blood of countless divine beasts. But don't forget, who made you turn from primordial strange beasts into ferocious beasts? It's ominous. We should have a unified enemy, which is ominous. Otherwise, there is no difference between divine beasts and ferocious beasts in this world. I want to prove to this world that I, the Emperor Sparrow, am the king of strange beasts and not the embodiment of the ominous. I will also clear the name of ferocious beasts. We are not ferocious beasts, but primordial strange beasts with noble identities and pure bloodlines..."

"Roar! Roar! Roar!"

Countless ferocious beasts roared crazily.

As for the black clouds in the sky, they slowly dissipated, and the Emperor Sparrow had already turned into a human form. It was a thin young man with fierce eyes and a proud face.

The Emperor Sparrow who was wearing a black-feathered cloak raised his hand, and roared, "Divine Monarch Spear!"

Buzz!

Among the tens of thousands of islands, on an island, the earth was shaking, and the surrounding seawater rose to the sky.

Bang!

A black-gold spear drilled through the island, blooming with world-shaking divine light in the void. In the next moment, it shattered the void and instantly rushed at the Emperor Sparrow.

He took the spear with one hand, and a giant eagle phantom flashed behind him.

The Emperor Sparrow held the spear horizontally in front of him, gently stroked the spear, and sighed. "Old friend, long time no see."

...

As an outsider, Han Fei witnessed the return of the Emperor Sparrow and wondered what the cause and effect curse the Emperor Sparrow mentioned was.

From what the Emperor Sparrow said, this causal curse seemed to come from the ominous. Could it be a more powerful curse than the one on the dragon race? It already involved a causal problem.

Besides, the ferocious beasts seemed to have a deep hatred for divine beasts. They even knew that the way to become gods was to slaughter all divine beasts. But what did the Emperor Sparrow mean by subduing divine beasts?

At this moment, the Emperor Sparrow landed on the ground again and looked at Chu Tianxue. "Can you understand me?"

Chu Tianxue nodded. "I can understand, but are you sure you can do it in this life? Even if the divine beasts know that you are the Human Emperor's spiritual beast, they will choose to acknowledge you. However, our ferocious beasts and divine beasts have been at odds for too long. I'm afraid it won't be easy to unite all the beasts."

The Emperor Sparrow said calmly, "A thousand years. If I can't completely subdue the divine beasts within a thousand years, I'll slaughter them."

Hearing this, Chu Tianxue's eyes lit up and she shouted, "The ferocious beasts are willing to follow our Monarch."

"Roar!"

The elephant cry spread throughout the ferocious beasts.

As soon as Chu Tianxue expressed her stance, all the ferocious beasts shouted again, "We are willing to follow our king..."

...

Han Fei seemed to have underestimated the prestige of the Emperor Sparrow. Emperor Sparrow must have never been to the Sea of Strange Beasts, so it didn't seem reasonable that the entire ferocious beast race submitted to him as soon as he showed up.

After the Emperor Sparrow pacified the ferocious beasts, Chu Tianxue and several top powerhouses of the ferocious beasts who had surpassed the Extreme Dao briefly introduced the current ferocious beasts, divine beasts, and the specific situation with the major forces in the Central Sea Divine Realm.

Chu Tianxue said, "If Human Emperor hadn't swept across the Central Sea Divine Realm this time, our ferocious beasts and even the divine beasts wouldn't have been able to escape the control of the Central Sea Divine Realm."

Han Fei said, "Have you ever thought of nurturing some gods yourself? I think you can do it."

"Of course, but we are in the Central Sea Divine Realm. Do you think those forces in the Central Sea Divine Realm will allow us to nurture gods?"

"That's true."

Chu Tianxue said, "Since the Age of Doom, we haven't started a real war with the divine beasts. It's all because of the oppression of the Central Sea Divine Realm. They want us to provide them with mounts, but they don't want us to rebel to affect the Central Sea Divine Realm, nor do they want us to break free from their control, so they placed us in this Sea of Strange Beasts."

[God of Fishing](#)

Chapter 3472: The Story of the Emperor Sparrow (3)

The Emperor Sparrow asked, "How many people are there in the ferocious beast lineage, and how many Monarchs are there?"

Chu Tianxue said, "There are still more than 180 million ferocious beasts, more than 80,000 Monarchs, and more than 300 Great Monarchs. But there are less than a thousand Monarchs and only eight Great Monarchs in our race. The others have all been sent to the Sea of Stars to fight. We have no choice in this matter."

Han Fei was shocked to hear that. More than 80,000 Monarchs? What kind of race was this? Why were there so many Monarchs? Even if most of them were sent out, there were still more than a thousand Monarch-realm ferocious beasts. If it weren't for the fact that there were no gods guarding them, they should be the number one force in the Sea Realm.

However, the Emperor Sparrow frowned. "So few strong masters?"

Han Fei was lost for words. "So few?"

Chu Tianxue said, "There are indeed few. The growth of strange beasts is not slow in the first place. But it's not that we can't give birth to more strong masters, but that the Sea of Strange Beasts is the most barren place in the Central Sea Divine Realm. Even if it's so barren, half of the resources we collect will be given to those major forces. Therefore, our growth is very slow. Of course, it's the same for the divine beasts. The strong masters of the Central Sea Divine Realm deliberately let the ferocious beasts and divine beasts maintain a balance."

The Emperor Sparrow couldn't help but look at Han Fei. "When needed, I need to recall all the strong masters of the ferocious beasts and divine beasts who are fighting in the Sea of Stars."

Immediately, Chu Tianxue and the other ferocious beasts looked at Han Fei. This was not a small matter. Could Han Fei do it?

Han Fei asked, "Do they have to return?"

The Emperor Sparrow said, "If they want to become a god, they have to return."

Han Fei: "Okay!"

Han Fei agreed without hesitation. He was confident that with the influence of the Void Temple, this could be done. It had to be known that if these 80,000 people returned, they could become gods. Even if 70 to 80% of them died during the divine tribulation, 20,000 gods could be born. How could this be a joke? 20,000 gods and 80,000 Great Monarchs. The strong masters in the Sea of Stars certainly knew which to choose.

Chu Tianxue and the others were all relieved. It was good that they could return. If the Emperor Sparrow could succeed this time, strange beasts might really be able to reappear in this world.

Han Fei suddenly said, "Now you should tell me what's going on between you ferocious beasts and divine beasts, right? I'm still confused. If you can make strange beasts reappear and make them become gods, why didn't you do it in your previous lives? After all, who can resist the temptation of becoming gods?"

"Master Human Emperor doesn't know?"

Chu Tianxue and the others seemed a little surprised. Seeing Han Fei return with the Emperor Sparrow, they thought that Han Fei knew everything.

The Emperor Sparrow said, "Um! It's time to tell you. First of all, there are no Emperor Sparrows in the previous lives. The Emperor Sparrow in every life is me."

"What?!"

Han Fei was stunned. He couldn't help but remember that Old Yuan said that in every life, only one Emperor Sparrow would be born at the same time. He thought that it was because the Emperor Sparrow was special, but he didn't expect that they were all the same person.

Han Fei was stunned. "So, how long have you lived? Why did you become my spiritual beast? When I was young, I was terrifyingly weak. How did you know that I would come to this point?"

The Emperor Sparrow said, "That's a long story. Let me tell you slowly."

The Emperor Sparrow's voice was low and cold, as if he was stiffly telling a story that had nothing to do with him.

"At the end of the Chaotic Era, the ominous returned for the first time. The six ancient lineages and countless strong masters participated in the battle. Back then, the primordial strange beast was the strongest in the Sea of Stars except for the human race. My father was the patriarch of the primordial strange beast at that time. Although his strength couldn't be said to look down on the Sea of Stars, he was one of the few peak-level cultivators in the world. He once fought the ominous and won."

"Defeat the ominous?"

In just a few words, the Emperor Sparrow revealed shocking secrets. Even if the ominous was the weakest the first time, it was only relative. Its strength couldn't be much weaker. Otherwise, how could the Chaotic Era transition to the Primordial Era?

The Emperor Sparrow continued, "The ominous is scheming. Knowing that my father was powerful, he personally came down and secretly contaminated my mother, but she didn't know it herself. On the day I was born, my mother turned into an ominous body, and the entire race was shocked. Countless strange beasts witnessed that. My father had no choice but to kill my mother. However, now that my mother had turned into an ominous body, how could he stay out of it? Later, he found that he was actually contaminated by the ominous as well and was beyond recovery. Therefore, he chose to purify himself and burn everything. He could no longer reincarnate or revive and truly died. But he didn't kill me. Guess why?"

Han Fei didn't come back to himself until a few seconds later. He didn't expect the ominous to be so strange as to force one of the strongest powerhouses in the Chaotic Era to purify himself with this method.

Taking a deep breath, Han Fei said, "You're his son. He probably doesn't want to do it himself!"

The Emperor Sparrow raised his head slightly. "That's right. He didn't want to do it himself. But there were countless strong masters in the primordial strange beast race back then. How could they allow my

existence? Especially, when I was born, I swallowed all the ominous power of my mother. If it were you, what would you do?"

"I'll purify you."

This kind of creature born from an ominous body could swallow the ominous. Its first reaction was naturally to purify it.

The Emperor Sparrow said, "That's right. At that time, the strong masters of the primordial strange beasts thought so too. However, perhaps the ominous itself didn't expect it. My birth was an exception. I could be considered to have half an ominous body, so even if I was burned up, I could actually revive. In addition, I had half of the normal bloodline of strange beasts, so some of me wasn't afraid of purification. However, at that time, everyone only felt that I was more difficult to deal with, a stronger ominous body. Therefore, they forcibly burned me up with powerful means."

[God of Fishing](#)

Chapter 3473: The Story of the Emperor Sparrow (4)

Chu Tianxue also sighed slightly. Perhaps because this matter was too sad.

The Emperor Sparrow looked at Han Fei. "You know that I can swallow all the evil in the world, right?"

Han Fei nodded. This was a born talent of the Emperor Sparrow.

The Emperor Sparrow continued calmly, "After my parents and I died, the ominous bared its fangs and stopped lurking, launching a war against the primordial strange beast lineage. Although it was quickly saved by the other strong clans of the primordial six lineages, at that time, many people had already been secretly contaminated. Many people were becoming the ominous. For a moment, the primordial strange beast lineage seemed to be facing doomsday. Everyone was filled with hatred, and many people were contaminated by the ominous and attacked their own kind. Under the influence of the evil in the world, I revived."

"So? Even if you revive, so what?"

The Emperor Sparrow said leisurely, "I can devour the ominous in their bodies and make them return to normal. When I revived, they didn't know that it was me. They thought that some kind of divine fetus was born in their race that could devour and purify the ominous. It wasn't until I was reborn that they knew that it was me. Therefore, they hesitated about whether to purify me or not. As for me, I'm still young, so I naturally helped them devour the ominous. Some of them who were contaminated recovered well and maintained their original holy state. The other portion was contaminated heavily and mutated. Although the ominous power was swallowed by me, it couldn't return to normal. Furthermore, those who mutated were indeed more cruel and extremely ferocious. However, the danger of their race was temporarily resolved. And because I didn't become the ominous, I was worshiped as the new king and successfully grew up."

At this moment, Han Fei found that Chu Tianxue and the others didn't look good. There were even ferocious beasts who gritted their teeth, clenched their fists, and shouted in a low voice, "Damn the divine beasts. What a bunch of hypocritical guys."

The Emperor Sparrow glanced at him, and the man hurriedly shut up. The Emperor Sparrow said, "Those who had returned to normal felt that there was still an ominous aura in their bodies and wanted to destroy them, so they set up an ambush, trying to get rid of all the mutated strange beasts in one fell swoop. It was also on that day that I awakened the Eye of Disaster and attracted the ominous..."

Han Fei's pupils were constricted slightly. "What happened next?"

The Emperor Sparrow also took a deep breath and closed his eyes, as if recalling. "The ominous this time is just the remnant of the first time. It just hid. After killing some strange beasts, it was quickly repelled by the joint efforts of the first generation of major forces. However, the ominous hid among the primordial strange beasts for too long. During this period, a causal curse was set up. The curse is that if the strange beasts don't unify, they will never be able to transcend the tribulation and become gods. This is a curse engraved in their bloodline, just like how the dragon race will always be hungry. The dragon race's initial situation was no better than the primordial strange beasts, but their curse was half broken. Otherwise, they would be as miserable as our ferocious beasts and divine beasts now."

Han Fei finally understood why the ferocious beasts and divine beasts couldn't become gods. The ominous scheme had actually succeeded. The ominous didn't destroy them directly because it knew that the ancient six lineages couldn't be destroyed. However, setting up karma so that they couldn't become gods was equivalent to eliminating one lineage. What was the difference between an ancient six lineages that couldn't become gods and trash to it?

As for the ferocious beasts' union, it was almost impossible. The Emperor Sparrow summoned the ominous on the spot. Although it was forced, it almost directly caused a greater crisis.

Who dared to serve an Emperor Sparrow who could summon the ominous? Even if it were Han Fei, his first reaction would definitely be to kill him.

The Emperor Sparrow said, "The primordial strange beasts couldn't tolerate me, let alone the others. Therefore, it seemed only natural that I died again. And because the ambush of those normal strange beasts was the fuse that caused this matter, two factions appeared among the primordial strange beasts based on whether they had mutated or not. One claimed to be Creation Divine Beasts, and the other was called Primordial Fierce Beasts. Furthermore, the Creation Divine Beast firmly believed that there must be ominous residue in the bodies of the Primordial Fierce Beasts. Because at that time, the ominous had done many things, and everyone was afraid."

"Many years later, I revived again. At that time, I knew that I was Immortal. Only I knew that all of this was a misunderstanding. I wanted to make things clear to the divine beasts and ferocious beasts. However, at that time, there was a saying among the divine beasts... Once the divine beasts submitted to me, I would obtain supreme power and become a true ominous. Therefore, I was killed again."

Han Fei couldn't help but click his tongue. The Emperor Sparrow's background was really tragic! Compared to the Emperor Sparrow, Han Fei immediately felt that Old Han and his mother were very good parents.

Han Fei asked, "Then you started a war after you were resurrected?"

The Emperor Sparrow sneered. "Of course. You've been killed so many times, but you can still maintain a kind heart? I was no longer kind in my previous life and was determined to suppress the divine beasts

by force, so I launched a war between divine beasts and ferocious beasts. However, no matter how many times I revived, the other party had thousands of means, and their ultimate goal was to kill me. Therefore, it was actually very difficult for me to escape the pursuit of so many strong masters. After all, I couldn't become a god. But there were many gods back then. However, the more I died, the more everyone realized one thing. Anyone who killed me would go crazy, die suddenly, be demonized, and so on... In short, they all died. That's why everyone said that anyone who killed the Emperor Sparrow will die. I think it must be that the evil of the world I absorbed had been transferred to them!"

"I see."

Han Fei couldn't help but click his tongue. "Then why did you come to me in this life?"

The Emperor Sparrow said indifferently, "At the end of the Primordial Era, I died once and embarked on the Path of Reincarnation. Because of my specialness, the Path of Reincarnation couldn't seal my memories. However, that time, I encountered your mother stealing the Path of Reincarnation, but she was seriously injured by the master of the Path of Reincarnation. I took the opportunity to leave a unique mark on your mother. I originally wanted to possess you, but your parents were too strong. In fact, they had long discovered the mark I left. It wasn't until your mother gave birth to you and touched my mark... I tried to possess you, and then as you should know, I naturally failed. However, they gave me another choice, which was to become your spiritual beast."

Han Fei raised his eyebrows. "My parents believed you?"

The Emperor Sparrow: "Your father is the smartest person I've ever seen."

Han Fei grinned. "So, you actually knew some of my father's plans, right? And then you kept pretending to be deaf and mute?"

The Emperor Sparrow said, "I don't know what the exact trap is, but I know that they have set up many means. When I saw the Demon Purification Pot on you, I knew that I would subdue the divine beasts in this life. After all, if I am really the embodiment of the ominous, how can the owner of the Demon Purification Pot, the dignified Human Emperor and a disciple of the Void Temple, collude with the ominous?"

Han Fei couldn't help but sigh. Therefore, he picked up a unique ominous body in the entire Sea Realm.

Chu Tianxue said, "Actually, His Majesty has explained these things to the divine beasts many times. However, they viewed His Majesty as a bad person, so they will only see the strangeness in His Majesty. However, with the help of the Human Emperor, they have no reason to doubt him anymore."

Han Fei said, "I didn't expect me to have such a function. Then what should I do now? Should I go to the divine beasts?"

The Emperor Sparrow said, "You just need to go through the motions with me. Then you can do what you want! I need to stay here for a while. After all, I've been enemies with the divine beasts for too long. Some things won't be resolved immediately because of your appearance. It takes time for divine beasts to return to their hearts."

Han Fei shrugged. "Okay. It just so happens that I have something very important to do. I hope that by the time I return, you will have subdued the divine beasts."

"Yes! By the way, the River of Eternal Darkness suits your Eternal Darkness Spiritual Heritage very well. You can try to stay inside for a while longer."

God of Fishing

Chapter 3474: It's Good That You're Back (1)

The divine beasts.

The return of the Emperor Sparrow had naturally been known by the divine beasts.

From the moment Han Fei swept across the Central Sea Divine Realm, they had already known that this moment would come.

At this moment, a group of divine beasts at the peak of the Great Monarch realm were arguing.

A divine beast shouted, "Just because I approve of the Human Emperor doesn't mean I approve of the Emperor Sparrow. The war between divine beasts and ferocious beasts has lasted for several eras without compromise. Do we have to compromise just because he has become the Human Emperor's spiritual beast?"

Another divine beast argued, "This is not a matter of compromise. The problem is why the Human Emperor approves of the Emperor Sparrow. The Human Emperor is the current owner of the Demon Purification Pot, a disciple of the Void Temple, a disciple of the Creation Divine Prison, and a pure descendant of the ancient human race. How can he collude with the ominous? Are the Void Temple and the Demon Purification Pot blind?"

A divine beast said, "Perhaps the Human Emperor was also deceived. Perhaps he doesn't know that the Emperor Sparrow can summon the ominous."

"But don't forget, without the Emperor Sparrow, the lineage of strange beasts might have been severed back then. There might not be any divine beasts or ferocious beasts in this world at all."

"That again. But the Emperor Sparrow led ferocious beasts to fight against our divine beasts for two eras. It's true, right? Think about it, how many divine beasts have died at his hands?"

"Don't you know the cause of the incident?"

The group of divine beasts were arguing fiercely.

Buzz!

At this moment, the arguing divine beast Great Monarchs all shut up and looked at the void at the same time.

The void opened, and the Emperor Sparrow, Han Fei, and Chu Tianxue walked out.

When the divine beasts saw the Emperor Sparrow, their hearts skipped a beat. Some divine beasts were even full of hostility.

Among the divine beasts, a white deer that emitted a faint divine light walked out and transformed into a handsome man in white.

"The current patriarch of the divine beast lineage, Yan Longshi, greets Human Emperor."

Yan Longshi just nodded at Han Fei and ignored the Emperor Sparrow and Chu Tianxue.

After that, Yan Longshi looked straight at the Emperor Sparrow. "Emperor Sparrow, long time no see."

The Emperor Sparrow snorted. "Why? Do you still want to fight me in this life?"

Yan Longshi said calmly, "If the divine beasts don't want to recognize you as their king, what should you do?"

The Emperor Sparrow said, "Kill them all."

"Humph! How arrogant."

"Sure enough, you still haven't given up."

"Emperor Sparrow, I won't submit to you. If you have the ability, you can kill me now."

"Shut up ~"

Hearing Yan Longshi's roar, the group of divine beasts shut up resentfully.

Yan Longshi looked at Han Fei. "Master Human Emperor, do you have anything to say?"

Han Fei said calmly, "I've already known all the old grudges between the divine beasts and the ferocious beasts. I won't talk about who's right and who's wrong today. However, now that the Emperor Sparrow is my spiritual beast, I'll tell you in the name of the Human Emperor that I believe in the Emperor Sparrow. Now that the catastrophe has descended, there's no time for the myriad races in the Infinite Ocean. Compared to the real ominous, I suggest you divine beasts unify with the ferocious beasts. Now the Central Sea Divine Realm will no longer restrict you, snatch your resources, or tame you as mounts. Once the strange beast race revives, I believe that within ten thousand years, there can be a hundred thousand gods..."

Han Fei paused. "If the divine beasts don't even trust me and insist on continuing to fight the ferocious beasts... I will respect the Emperor Sparrow's opinion and kill you all."

When the words "kill you all" popped up, the group of divine beasts glared at Han Fei.

"Roar!"

Some divine beast roared, and soul sounds resounded.

"Hmph!"

Han Fei pressed down with one hand, and everyone felt as if a mountain was pressing on their shoulders. Blood oozed out of the corner of the mouth of the roaring divine beast.

Han Fei said calmly, "You don't have to look at me like that. I'm here this time to be a witness for the divine beasts and the ferocious beasts. Within a thousand years, I won't interfere, but divine beasts and ferocious beasts are not allowed to start a war. Whether the Emperor Sparrow can make you submit to him or not is between him and you. I'm a straightforward person and don't have much time to waste

with anyone. I think you've seen the battle in the Central Sea Divine Realm. Even if it's the ancient six lineages, I'll kill them if they stand in my way."

Yan Longshi didn't show any anger. He just said calmly, "We divine beasts have known what the Human Emperor means... Does the Human Emperor still want to stay as a guest?"

The corners of Han Fei's mouth curled up slightly. Chase me away? Fine, it's the Emperor Sparrow's family matter after all. I'll leave everything to him.

Han Fei said indifferently, "I won't interfere in your family matters. I only care about the results. However... if anyone dares to plot against the Emperor Sparrow while I'm away, I will show the divine beasts my methods."

Then, Han Fei looked at the Emperor Sparrow. "Be quick."

"Um!"

With that, Han Fei's figure disappeared.

...

Without interfering in the matter of the primordial strange beasts, Han Fei returned to the old site of the Primordial Divine Academy immediately. The battlefield was still being cleaned up, so most people hadn't left yet.

Although the Central Sea Divine Realm had changed to a new world, there were still many local battles in the four Divine Realms, which required a process. But Han Fei had no time to care about these things for the time being.

He had wanted to step down as the Human Emperor after this battle, but this was a critical period for the human race to enter the Central Sea Divine Realm. Having him as the Human Emperor was completely different from not having him. Therefore, he couldn't step down as the Human Emperor until the Free City was built.

[God of Fishing](#)

Chapter 3475: It's Good That You're Back (2)

Han Fei immediately found Yue Lingke. They found a deserted place, guarded by Han Fei, Qiu Wanren, Old Fierce, and Yue Lingke opened the treasure.

When a towering divine treasure mountain that stretched for thousands of kilometers and was almost entirely made of divine crystals appeared in front of him, even Han Fei, who had seen a lot of things, couldn't help but be stunned.

How many resources could such a huge divine crystal be counted as?

Countless blood-colored patterns were branded on the divine mountain. Qiu Wanren said, "Myriad God Blood Seal? The person who set up this divine treasure mountain is actually a dominator. Why didn't I know that there was a dominator in our lineage?"

Old Fierce's eyes lit up. "Perhaps we didn't know because we were locked up in the Creation Divine Prison earlier. However, Yue'er, if you have enough divine treasures, I want to take some to restore my strength."

Yue Lingke said, "Of course. If Patriarch Wu can recover, you will be the peak combat power of our divine descendant. You might even be able to become a dominator. I'll certainly do my best to help you."

Old Fierce shook his head slightly. "I dare not say that I can definitely become a dominator."

Han Fei also coveted it a little. "How can you enter this divine treasure mountain?"

Yue Lingke was surrounded by tokens branded with blood-colored runes. As the tokens fused, they turned into a Dao Pattern door and were branded on her divine treasures.

In the next moment, a door opened.

When they stepped in, Han Fei felt that his body was spontaneously and quickly absorbing the energy.

Old Fierce took a deep breath and a surging energy tide entered his body. He looked very comfortable.

Han Fei scanned around with his perception and found that this was an Origin Ground.

Yes, it was an Origin Ground. There was almost a universe in this place. It was billions of kilometers wide and almost everywhere was magical spiritual fruits and spiritual herbs. Besides, there were no intelligent races here, so everything was extremely primitive and hadn't been destroyed.

In the sky, rivers of stars flowed. Those stars were all refined stars.

"Hiss!"

Han Fei couldn't help taking a breath. "How many refined stars are there?"

Qiu Wanren couldn't help but sigh. "At the end of the Primordial Era, too many strong masters died, just like the infinite stars in the Sea of Stars. I think these should be mostly refined stars of the strong masters who died in the past, right?"

Old Fierce was also shocked. "How... how many are there?"

Qiu Wanren shook his head and said, "These refined stars seem to be a lot, but look at the spiritual plants here. They are all ancient spiritual creatures that have grown for tens of millions of years. There must be resources and energy to promote their growth, right? Therefore, after so long, the resources contained in these refined stars should have been greatly reduced."

Suddenly, Han Fei and the others all felt that there seemed to be creatures moving here. When they looked over, they found that some spiritual plants that had turned into energy seemed to be deliberately covering themselves.

Qiu Wanren said, "It's the Spirit of Plants and Trees. I noticed it just now. There are a large number of Spirits of Plants and Trees hidden here. In this era, it's rare to still see Spirits of Plants and Trees. Han Fei, you've made a fortune."

Han Fei was puzzled. "What is a Spirits of Plants and Trees?"

Qiu Wanren said indifferently, "After a long period of energy absorption, it usually takes at least 100,000 years for a Demon of Plants and Trees to be born in it. It takes a million years for a Demon of Plants and Trees to have a certain probability of becoming a Spirit of Plants and Trees. A newborn Spirit of Plants and Trees is not a complete spiritual body. It will take at least millions of years for it to become a real mature Spirit of Plants and Trees. And the effect of a Plant Spirit... Let me put it this way, the probability of a peak-level Great Monarch successfully transcending a divine tribulation will increase by 30% with the help of a Spirit of Plants and Trees. And if an ordinary person takes a Spirit of Plants and Trees, he can directly transform into an innate spiritual body, and his aptitude will be a thousand times or ten thousand times higher than ordinary people. At the same time, it's a healing medicine that can heal the hidden injuries in his body. For example, if Chu Hao takes a Spirit of Plants and Trees, the countless hidden injuries in his body can be washed away by 80%. If he takes two, his aptitude might even increase..."

"Hiss!"

Han Fei couldn't help being shocked. Increasing the probability of transcending the tribulation by 30% was already unbelievable. It could even fundamentally rebuild the spiritual heritage. He suspected that there were no two such treasures in the entire Sea Realm.

Swish ~

Han Fei reached out and took it. It was a divine willow. When Han Fei grabbed it, the willow branches rolled towards Han Fei's void hand and wrapped it with all their strength, crushing Han Fei's void hand.

"Huh? You're not weak!"

Qiu Wanren said, "It's his autonomous consciousness attacking. It's like a passive barrier."

With a thought from Han Fei, the Immortal Slaying Knife shot out, and countless willow threads were broken. In the end, it was just a spiritual wood that instinctively protected itself. How could it resist Han Fei's real attack?

Swish ~

As soon as the Divine Willow was pulled out of the ground by Han Fei, the tree dissipated and turned into a piece of divine wood that emitted a yellow-green light.

Information immediately appeared in Han Fei's eyes.

< Name > Spirit of Plants and Trees

< Introduction > It's a floral spirit born after millions of years of natural nurturing. It can revive the dead under certain conditions. It can extend the lifespan of some strong masters, modify the spiritual body and divine bloodline, heal old illnesses, and improve aptitude and potential. It can strengthen life potential for a certain period of time and promote soul and physical cultivation... The floral spirit grows a life ring every million years. The more life rings there are, the better the effect.

Chapter 3476: It's Good That You're Back (3)

< Level > Creation Spiritual Wood

< Quality > 30 million year-level

< Contained Divine Source > 32,102 wisps

<Note> Spirit of Plants and Trees is extremely rare. Its medicinal properties are gentle, and ordinary people can take it.

"Oh my god, 30,000 Divine Sources?"

Han Fei couldn't help being shocked. If he remembered correctly, a level-seven energy crystal only contained a thousand wisps of Divine Source, and a level-eight energy crystal didn't contain more than 20,000 wisps of Divine Source.

The Divine Source contained in this plant was actually twice as much as a level-eight energy crystal?

"F*ck, isn't this a Sea Quelling God-level treasure?"

Han Fei scanned around with his perception. There were thousands of such plants in this Origin Ground.

Han Fei was dizzy and sighed. "As expected of a divine treasure. It's unbelievable."

It took Yue Lingke a long time to come back to herself. "Although there are a lot of resources, the divine descendants and the human race need more resources."

Qiu Wanren: "Han Fei, I really want to kill you at this moment."

Han Fei was lost for words. "Come on, we should help each other! Our human race has a population of 200 billion, but we only want 30% of the resources. It's really not much."

"Hehe..."

However, Qiu Wanren immediately came back to his senses. "However, there's no need for you to give these resources to the human race directly. Aren't you going to build a free city in the Central Sea Divine Realm? When the time comes, you just need to bury ten Spirits of Plants and Trees and connect them with the ground veins, which will be equivalent to a super huge Spirit Gathering Array that covers the entire city."

Han Fei asked, "What if I bury a hundred of them?"

Qiu Wanren said angrily, "Too much is as bad as not enough. If you really plant a hundred Spirits of Plants and Trees, cultivators above the Sea Establishment realm may be very happy, but below the Sea Establishment realm, such an environment is not suitable."

Old Fierce said, "Why are you two talking so much nonsense? Since you're already here, pick!"

Yue Lingke nodded. "That's true. It's impossible to use up all the divine treasures at once. Let's collect some first."

A moment later.

When Han Fei took in nearly a thousand Spirit of Plants and Trees, he discovered that the spiritual energy in his Origin Star was unbelievably rich. Even a Sky Opening Realm powerhouse might not be suitable to live on.

The countless clones left here by Han Song had to absorb the spiritual energy here crazily. Otherwise, the other creatures in his Origin Star would probably explode.

Han Fei said, "Okay, okay. I've collected so much this time. I can't collect anymore. I'd better get some refined stars."

Three days later.

Only then did the four of them come out of the divine treasure.

Old Fierce's face was glowing. "I'm going to recover. If I've guessed right, I'll return in about three hundred years."

Qiu Wanren said, "I'm going to cultivate in seclusion this time too. With so many Spirit of Plants and Trees, I can try to break through to the Sea Quelling God realm."

Yue Lingke asked, "Where are you cultivating in seclusion?"

Qiu Wanren said, "Don't worry. If anything happens in the Central Sea Divine Realm, we will know."

With that, the two of them left eagerly.

Yue Lingke put away the divine treasures and said to Han Fei, "This time, you've taken 10% of the human race's resources, and I'll temporarily keep the remaining 20% for you, OK?"

Han Fei said, "How can I not trust you, Sister-in-law? There are too many resources, and the human race doesn't need so many resources for the time being. There are still ten thousand years. We can take it slow."

Han Fei sighed in his heart. 10% of the resources? He had taken 1,021 Spirit of Plants and Trees and collected 80 million refined stars, but this was only 10% of the resources. Now that he thought about it, Qiu Wanren had cheated him of 20% of the divine treasure resources with three drops of blood of all gods. He didn't know if he had made a profit or not.

Another moment later.

Han Fei stuffed 300 Spirit of Plants and Trees and 20 million refined stars into Han Song's clone. Among his avatars, Han Song could eat the most.

Han Song had completely digested the previous Soul Purifying Pearls. Loose lifeforms were almost everywhere in the human race now. The temporary residence of the human race in the West Wilderness was full of loose clones.

Without fusing with a loose clone, Han Song had already reached the peak of an ordinary Great Monarch. If Han Fei wanted, Han Song could even transcend the divine tribulation now. This was the power of loose lifeforms.

Of course, transcending the divine tribulation now was meaningless. This was because Han Song could continuously nurture powerful creatures like the demonic sources in the Demon Domain back then, no stronger than demonic sources. There was even a chance for Han Song to nurture a group of loose life bodies in the Great Monarch Realm.

Of course, Han Fei didn't know how far Han Song could go yet, but Han Fei didn't mind Han Song staying in the Great Monarch realm for a while longer.

Then, Han Fei gave Zhang Daqian 100 Spirit of Plants and Trees and 20 million refined stars. Zhang Daqian walked the Dao of nirvana in the Giant Beast Divine Dao, and every nirvana required a huge amount of resources, so Han Fei directly gave him 20 million refined stars. If he guessed right, this amount of resources could definitely help him reach the God Slaying level or even the Sea Quelling God.

However, there would no longer be battles between real strong masters in the Sea Realm. In the future, unless a strong master returned from the Sea of Stars, no Great Monarch would die in the Sea Realm.

Therefore, after giving the resources to Zhang Daqian, Han Fei summoned the Distanceless Gate and let Zhang Daqian go to the Chaotic Sea. If the Great Dao of Nirvana wanted to continuously undergo nirvana, it needed to constantly create enemies.

Only the Chaotic Sea was suitable for Zhang Daqian. And giant beasts could swallow all things to temper their bodies. In the Sea of Stars, he would transform into a Star Sea Giant Beast and no longer need to appear in human form.

A moment later, Han Fei came to the territory of the Heavenly Race in the East Sea Divine Realm through the Distanceless Gate.

God of Fishing

Chapter 3477: It's Good That You're Back (4)

Many people of the Heavenly Race had already left the Sea Realm today. They didn't dare to stay for a moment. Several hours ago, the patriarch of the Heavenly Race passed the position of patriarch to Yi Qingxue, who had once broken through the path of invincibility in the battle with Han Fei.

As for the patriarch of the Heavenly Race, Yi Changsheng, and the hidden Great Monarch, Yi Chen, they had already stepped into the Sea of Stars and left the Sea Realm.

The Heavenly Race was not stupid. In the East Sea Divine Realm, they had the deepest grudge against Han Fei. When Han Fei announced that he would change the present world to a new one, Yi Changsheng and Yi Chen knew that they had to run. Otherwise, with Han Fei's personality, if they still stayed in the Sea Realm, wouldn't they be courting death?

Yi Qingxue was a martial arts maniac and was forcibly appointed as the acting patriarch. Although she knew that Han Fei might come back to take revenge, she was only an Immortal-level powerhouse, and Han Fei could already kill gods now. If Han Fei really wanted to be fair, he probably wouldn't attack her.

Of course, Yi Qingxue didn't dare to take the risk, so she sealed the mountain.

However, how could the Heavenly Race's array stop Han Fei? With a bang, the Heavenly Race's array had been penetrated.

Yi Qingxue and the Monarchs were extremely nervous. They didn't expect Han Fei's revenge to come so quickly. When they came out with the determination to die, they didn't see anything.

Han Fei, on the other hand, appeared in front of Nezha.

Among his three avatars, Nezha needed the Spirit of Plants and Trees the most. After all, Nezha was an avatar created with the original body of the Water Immortal. The upper limit of his strength couldn't be said to be in the God Realm, but it was extremely difficult for him to exceed the God Realm.

However, the Spirit of Plants and Trees could change all of this. A Spirit of Plants and Trees alone could modify the spiritual body and divine bloodline, and also increase aptitude and potential.

But even so, Nezha was the weakest of his three avatars. But it was precisely because he was weak that Han Fei handed over Nine Tails, Heavenly Dog, and Little Gold to Nezha to guard him and grow with him.

In the past, he used to lurk in the Heavenly Race, but now he could use the Heavenly Race to hide his strength.

Han Fei gave Nezha 100 Spirit of Plants and Trees and 12 million refined stars, which were enough for Nezha and Nine Tails to all reach the Immortal Level in a thousand years, which was more than enough. As for the future law stacking, they could only wait for his return.

After that, Han Fei slowly appeared in front of Yi Qingxue and the others.

Yi Qingxue's face sank. "Master Human Emperor, you're a step late. The patriarch and the Supreme Elder have already stepped into the Sea of Stars. Now there are only us left in the Heavenly Race. If Master Human Emperor still wants to take revenge, you can kill or torture us as you please."

"Hmph!"

Han Fei snorted and pretended to be angry. "They're lucky. The ominous is about to return, but you sealed your sect. Do you want to live in seclusion? I order you to reopen your sect and give you a choice. The Heavenly Race can only keep one Monarch and those Sky Openers who have no hope of becoming Monarchs in their lives in the Sea Realm. As for the rest, all those above the Sea Establishment realm shall enter the Shattered Star Sea in three days to gain experience and grow, waiting for the ominous battle in the future. Are you willing?"

Yi Qingxue and the other Monarchs were all secretly relieved. Fortunately, they would just be exiled to the Shattered Star Sea. The Human Emperor was fair, and the Heavenly Race deserved it.

Yi Qingxue immediately cupped her hands. "As you command, Master Human Emperor."

Yi Qingxue didn't want to be the leader either. She was a martial arts maniac. How could she be the leader? At this moment, she wished she could take Nezha and a group of strong masters of the Heavenly Race to the Shattered Star Sea right away.

She even had a trace of hope in her heart. That should be the place she was going.

...

One day outside.

Three years had passed on Han Fei's Origin Star.

In the past three years, Han Fei didn't cultivate but lived a leisurely and happy life on his Origin Star. He had found the Primordial Purple Gates.

The six doors all ran into the Path of Reincarnation, but he didn't intend to enter now, so he didn't investigate further.

At this moment, Han Fei, Zhang Xuanyu, and the others had just enjoyed a big meal.

Han Fei and Xia Xiaochan sat alone on a mountain peak, Han Fei looked at Xia Xiaochan, and Xia Xiaochan looked at the starry sky from the Star Sea Quagmire.

"Girl, I have something to tell you."

Xia Xiaochan stretched her legs and said casually, "Go!"

"Huh? Do you know what I'm going to say?"

The corners of Xia Xiaochan's mouth curled up slightly. "I've already seen your reincarnation memories. That sister is quite pitiful. Go pick her up! But this time, you can't leave without saying goodbye. You have to make it clear to Yiyi. Otherwise, I'm afraid she'll never forgive you when you come back."

Han Fei couldn't help but scratch his head awkwardly. Then he smiled in relief, gently hugged Xia Xiaochan into his arms, and looked up at the starry sky.

...

Several days later.

Han Fei and Han Chanyi sat opposite each other. Between the two of them, there was a chessboard. The chessboard spanned nineteen paths, and the pieces were black and white. Han Fei named it the Heavenly Star Chess.

Han Chanyi threw down the white chess piece in her hand. "You've been losing for days. Are you the inventor of the Heavenly Star Chess? I think the Heavenly Star Chess should have been invented by Aunt Xiaobai. If it were Aunt Xiaobai, you wouldn't have been able to pass more than thirty moves."

Han Fei chuckled. "Doesn't this mean that my daughter is smart?"

Han Chanyi said, "Hehe, I don't believe you. My mother said that you're good at lying."

"Nonsense. Ask your Uncle Kuang, Uncle Yu, or Auntie Xiaobai. I've always been honest."

[God of Fishing](#)

Chapter 3478: It's Good That You're Back (5)

Unexpectedly, as soon as Han Fei said so, Luo Xiaobai replied, "Don't ask me. I don't want to go against my conscience."

Han Chanyi put her hands on her hips. "Look."

Speechless, Han Fei looked back at Luo Xiaobai's cultivation place. "Hey, how old are you? Why are you still eavesdropping?"

Luo Xiaobai said, "I'm not eavesdropping. I'm watching chess."

Han Fei gloomily set up a barrier for the two of them. With clangs, he took out an exquisite wooden box. The wooden box was made of divine bones and was engraved with extremely subtle Dao Patterns and law patterns. It looked very exquisite.

Han Chanyi narrowed her eyes slightly. "You must be up to no good. Tell me, what do you want?"

Han Fei urged, "Open it. Open it."

Han Chanyi opened it skeptically. The box was made of more than 3,000 extremely minute accessories. As the box was opened, a beautiful tune sounded.

Dingdong, Dingdong, Dingdong...

Han Chanyi was astounded when she first heard it. The music was gentle, exquisite, and lonely, like a cloud under the moonlight, swaying in the wind as if it was hiding a secret that couldn't be told.

After the song, Han Chanyi burst into tears. It took her a long time to come back to herself.

She hurriedly closed the box. "Did you make this? I know, is it that person? Don't think I don't know. She's the only one in the entire human race who has mastered the Voice of Human Dao. You don't have such talent."

Han Fei was stunned. "This is a song I made."

"That's impossible. You can't even beat me in chess. Okay! Are you finally going to bring back Jiuying Ling?"

Han Fei was lost for words. "What? I really made this. It has nothing to do with Jiuying Ling."

Han Chanyi asked in disbelief, "Then why did you give me this?"

Han Fei raised his voice. "Is it strange for a father to give his daughter something?"

"Something's wrong. You haven't been right for the past three years. Something's wrong with you today. Tell me, there must be something wrong with you."

Han Fei opened his mouth and sighed in the end. "Yiyi, I'm going to do something. If I'm fast, I'll be back soon. If I'm slow, it may take me a few years."

Han Chanyi's face immediately sank. She knew that Han Fei had something to do. The Sea Realm had just been pacified, and he hadn't even cultivated in seclusion but had been living leisurely for three years. She had long felt that something was wrong.

"Just a few years?"

Han Fei: "Probably!"

"What do you mean by 'probably'? Then why are you going there?"

Han Fei pondered for a moment. In the end, he couldn't tell Han Chanyi about him and Ximen Linglan! He hesitated for a long time and said, "Ask your mother when I leave."

Han Chanyi couldn't help but lean back and narrow her eyes at Han Fei.

Han Fei couldn't help but look serious, showing the temperament of a Human Emperor. "There are some things that I have to shoulder and can't escape. I've already delayed this trip for too long. I can't delay any longer."

Seeing that Han Fei was so serious, Han Chanyi thought that Han Fei was going to do something extremely dangerous, so she immediately stopped asking.

Finally, Han Chanyi pursed her lips and said in a low voice, "You can come back alive, right?"

Han Fei was briefly stunned. He knew that Han Chanyi had misunderstood, but it just so happened that he should let Xia Xiaochan explain this matter! Therefore, he nodded heavily. "Yes."

...

Swish ~

Outside the Origin Star, Han Fei and the others had just come out when a stream of light cut through the void, cut through the sky, and appeared in front of Han Fei.

It was the Blood Sky Blade that went to devour the Soul Death Bell.

It seemed that he had returned for a while, but Han Fei hadn't come out of his Origin Star, so he couldn't find him.

Information popped up in Han Fei's eyes.

<Name> Creation Blood Sky Blade

< Introduction > A high-quality Nature Spiritual Treasure condensed from the Qi and blood of the heavens from the battlefield of the gods in the Primordial Era. Because it fused with an ultra-quality Nature Spiritual Treasure, the Soul Death Bell underwent a metamorphosis. The Blood Sky Blade's killing intent is violent. When the knife is drawn, it must be stained with blood, and when the knife is drawn, it must be fearless. If the host's will can't suppress the Blood Sky Blade's will, it will be swallowed by the Blood Sky Blade in the end. This knife can cut through all things and all techniques. Even if it's no match for its enemy, it will still use its full strength to fight the enemy even at the expense of being shattered.

< Quality > Ultra-Quality Nature Spiritual Treasure

<Effect 1> Blood Fighting Intent: Whoever holds a knife can unleash double killing intent on the battlefield.

<Effect 2> Blood Drinking: This knife can drink the enemy's blood to strengthen itself. The more enemies it kills, the stronger this knife will be. Under the Blood Drinking state, its combat power will double.

<Effect 3> Soul Devouring: The Blood Sky Blade can absorb the enemy's soul power in battle. If injured by the Blood Sky Blade, it can swallow the enemy's soul.

<Effect 4> Fight to the end: Live under the knife and die under the knife. When you're at your limit, the more you fight, the braver you become. When surrounded by enemies, you can unleash five times your combat power until all the enemies die.

<Effect 5> Blade Meteorite: The ultimate slash can unleash five to twenty times the combat power according to the user's strength. After this slash, the knife body will shatter, and you have to eat a spiritual treasure of the same level to revive.

< Can't be Reforged >

<Refined>

<Note> Born for slaughter, die for slaughter.

Buzz!

The Blood Sky Blade trembled, and Han Fei said casually, "It's good that you're back."

...

"It's good that you're back."

[God of Fishing](#)

Chapter 3479: River of Eternal Darkness (1)

Swish!

The Distanceless Gate appeared in the vast Sea of Stars, but in Han Fei's perception, an extremely unstable void appeared.

"This is?"

Words appeared on the Distanceless Gate. "This is an entrance to the River of Eternal Darkness, but it's not very stable. There are endless void turbulences. I've never been there."

Han Fei nodded slightly. "That's enough. Old Distanceless, thanks."

It was fine as long as there was an entrance. Anyway, he had the Vast Ocean Navigator. How could he get lost?

Han Fei had seen too many void turbulences. With his current strength, it was impossible for this to stop him.

After the Distanceless Gate left, Han Fei stepped into the unstable void without hesitation. As Han Fei stepped in, he felt that there were countless chaotic space suction forces around him, trying to pull him in.

Buzz!

Han Fei activated his Original Great Dao and increased his strength to the level of Sea Quelling God. He held the Vast Ocean Navigator with one hand. As the needle spun, Han Fei shuttled through the countless spatial cracks and the edges of the holes.

With Han Fei's current speed, after using the Vast Ocean Navigator only once, he had passed through tens of millions of spatial cracks in a row and came to a void enveloped in darkness.

Han Fei felt the Eternal Darkness in his body tremble slightly, resonating with this void.

"This is the place."

Swish ~

When Han Fei disappeared into the darkness, all the unstable void around disappeared, and he heard the sound of the tide.

"So dark?"

There was almost no visibility here. Although this darkness was not as difficult to detect as Little Black's original body, it was still quite difficult to walk in it.

Han Fei tried his perception, only to see that the visual range was still very small, less than a thousand kilometers, and his perception picture was extremely gray, as if his perception ability had been reduced.

With a perception of less than a thousand kilometers, the speed of a Sea Quelling God was a little wasteful. Han Fei immediately returned to his normal strength.

Clatter ~

A wave hit Han Fei, making him a little unsteady. This wave was not water, but a wave of laws, but this law seemed a little strange.

Han Fei immediately frowned. When the wave hit him, he felt a burning feeling in his body and soul. It was not like hellfire burning, but there seemed to be a terrifying power tearing his body. This power was weaker than hellfire burning, but not much weaker.

In addition to pain, this wave also had corrosive power. Because he didn't deliberately resist it, he could feel that this power was attached to his body and trying to corrode him.

Han Fei's face couldn't help but turn cold. Ximen Linglan had stayed in such an extreme environment for thousands of years. What was the difference between this and being burned by hellfire for thousands of years?

Han Fei immediately suppressed his anger, restored his consciousness, and began to feel the power of the River of Eternal Darkness.

"A law of horror?"

"No, it's not just the terrifying law. It also contains some mixed power of laws and energy tides. There's even a little power of Divine Source in the energy? Interesting."

At this moment, in addition to the sound of waves, there were countless ravings in Han Fei's ears. He didn't know where they came from, nor did he know what creature made them. It seemed to be a kind of raving that came from the River of Eternal Darkness itself.

Han Fei's will was firm. Ignoring the interference, he held the Vast Ocean Navigator in his hand. "Where is Ximen Linglan?"

Ka ka ka ~

When the needle pointed clearly, Han Fei was slightly relieved and didn't dare to stop. Although his perception range was only a thousand kilometers, he didn't necessarily need perception. With his current strength, it shouldn't be a problem for him to break through the unknown space.

However, when Han Fei tried to move forward quickly, he felt billions of layers of resistances pressing on him.

"Damn it!"

With Han Fei's current strength, even if he didn't activate his Original Great Dao, he still had the combat power of a god. But even so, Han Fei only covered less than 800 kilometers with each step he took. Then, he would be slapped back by the tide of the River of Eternal Darkness by another 300 kilometers. Therefore, with his strength in the Divine Realm, he only covered 500 kilometers with each step.

This was a little ridiculous. Han Fei knew that the River of Eternal Darkness couldn't be simple, but he didn't expect it to be so difficult. This river was difficult and dangerous, like walking against the wind in a sea of sand. Even a god was restricted to this extent, which was really beyond his expectations.

"If this goes on, how long will it take to reach Ximen Linglan?"

Even in the Sea Realm, it was easily several light-years away. And this was the Sea of Stars. Han Fei had no idea where Ximen Linglan was at this moment. He just had a direction. If he moved forward at this speed, he couldn't imagine how much time he would have to spend here.

Han Fei tried for a moment longer, walking against the Eternal Darkness Tide. After a hundred seconds, he had only traveled 300,000 kilometers.

"No!"

Han Fei immediately activated his Original Great Dao, hoping to pass through with the strength of a Sea Quelling God.

However, before he could activate his Original Great Dao, he perceived a huge meatball-like thing. Han Fei's pupils were constricted when he saw the meatball. This thing spanned about 300 kilometers. There seemed to be various broken limbs on the ball, and they were not the limbs of one creature, but the limbs of countless creatures.

On the ball, there were tens of thousands of eyes, which looked all different. If these could be described as aberrations, then the meatball had a big mouth that was chewing the corpse of a certain creature.

[God of Fishing](#)

Chapter 3480: River of Eternal Darkness (2)

The spherical creature had clearly discovered Han Fei. It spat out the half of the remains in its mouth and flew towards Han Fei with a smile. That smile was extremely strange and creepy. Because when this

thing smiled, countless broken limbs on the ball began to twist and shake. Some of the broken limbs even tried to grab something as if they were alive.

"Damn it."

Because his perception range was limited, as soon as this strange ball appeared, it was as if it was right in front of him. Han Fei raised his hand and punched. The power of the Divine Realm and the source power of the Sea Quelling God made Han Fei's casual punch like a powerful god's punch.

Bang!

Half of the big ball was shattered by the punch, and countless limbs flew everywhere. Some were directly annihilated by Han Fei, but the parts that weren't annihilated still crawled back to the meatball.

At the same time, the giant ball stuck out a tongue, which was completely made of laws.

Han Fei turned into a void hand and grabbed the tongue. At the same time, information popped up in his eyes.

< Name > Fear Undead

<Introduction> A creature that died in despair. When it was alive, it was dominated by fear and fell into the River of Eternal Darkness, turning into a fear undead. Every creature's fear is different, so the fear undead has all kinds of strange forms. If you are invaded by the fear undead, you may lose yourself and become a part of Eternal Darkness. If a living person enters this place, he should be fearless. Otherwise, it will be extremely difficult for him to walk out.

<Level> 119

<Realm> Great Monarch

< Contained Law of Fear > A little

< Battle Technique > Uncertain

<Collectible> Origin of the Dead

< Unabsorbable >

< Remarks > The Origin of the dead can strengthen all non-undead creatures.

"Fear Undead?"

Immediately, Han Fei felt that a power similar to soul poison began to corrode his void hand.

"A mere Great Monarch dares to be so fierce? Kill."

Clang!

The Blood Sky Blade was instantly unsheathed and the Immortal Slaying Knife shot out. The power of the surrounding laws was attracted and instantly swept past the strange ball, cutting it into hundreds or thousands of pieces.

"Huh?"

Han Fei's first reaction was to cut off the connection between this place and the River of Life, only to find, to his surprise, that this thing had no breath of life. To be precise, this was not life at all.

"What the hell is that?"

Those broken limbs were sent flying everywhere. Even if they were lifeless, under the effect of source power, they should have all been annihilated. But there were still a few broken limbs that surged towards Han Fei.

"Hmph!"

A light of purification burst out of Han Fei's body, purifying the broken limbs.

Han Fei wasn't surprised that there was a creature in the River of Eternal Darkness, but this creature was too strange. It was simply a mixture of countless strange things and didn't look like a creature formed alone.

Besides, the combat power of this creature didn't seem to be weak. If an ordinary Great Monarch were here, he would definitely fight a fierce battle, but Han Fei didn't give the creature a chance to attack.

After this creature was completely purified, there was still a power left in the air. It was a dark spherical energy body.

The moment the spherical energy body appeared, Han Fei felt the abnormality of the Eternal Darkness Spiritual Heritage.

"Origin of the dead?"

This thing should be the only thing he could collect from the Fear Undead. It seemed to be able to resonate with the Eternal Darkness Spiritual Heritage.

Han Fei approached the spherical energy. In the next moment, the spherical energy seemed to be attracted by his body and surged over.

Han Fei didn't resist. Since it could resonate with the Eternal Darkness Spiritual Heritage, it meant that this thing should be a power that could be controlled.

Sure enough, when the spherical energy entered his body, it was immediately absorbed by the Eternal Darkness Spiritual Heritage and then completely fused into the Eternal Darkness Spiritual Heritage.

"Huh?"

Han Fei couldn't help but feel that his strength seemed to have been slightly strengthened.

When he looked at the Demon Purification Pot, he found that his source power had been strengthened by more than 20 points. Although it wasn't much, it had indeed been strengthened.

However, this spherical energy was clearly not source power, but it could strengthen him. This meant that after absorbing this thing, he could activate the slow improvement of the Supreme Divine Technique.

Unfortunately, he didn't know how many such creatures there were. On this road, he only encountered this ball. If the number of the undead of Fear was small, then it was far from enough to improve himself by absorbing the origin of these dead people. Therefore, Han Fei didn't pay much attention to it. He still activated his original Great Dao. When his strength increased to the level of Sea Quelling God, Han Fei stepped in again and plunged into this darkness.

Because his perception range was limited, Han Fei didn't know what was ahead. After his strength soared, the Eternal Darkness Tide could no longer stop Han Fei.

This leap covered hundreds of thousands of kilometers, and his speed increased by about two hundred times. Although it was still very slow in Han Fei's eyes, it was better than a Great Monarch.

Bang!

After only three seconds, Han Fei felt that his body was hit by a certain force. He scanned around with his perception and was stunned. He had crashed into a tower-type building.

Han Fei didn't expect buildings to appear here. Was there a city in the River of Eternal Darkness?

Han Fei immediately stopped and scanned around with his perception, only to find that this so-called abandoned tower seemed to be made of some kind of skeleton. However, many giant skeletons were embedded in this six-sided tower.

Ka ka ka ~

The tower was full of cracks after being hit by Han Fei. Then, the skeletons twisted and struggled out of the tower. In the next moment, they all rushed at Han Fei.
