

[God of Fishing](#)

Chapter 3481: River of Eternal Darkness (3)

Han Fei stomped, and ripples spread. With bangs, explosions sounded one after another. In the blink of an eye, these skeletons were shattered.

"Not weak, but only about the Carefree Level."

Being easily shattered by Han Fei, the tower was completely shattered. In the next moment, Han Fei saw a huge weird skeleton covered in gray skin appear in front of him.

This skeleton only had the upper half of its body, and half of its head was a skeleton, and the other half was full of tentacles. On its two arms, there were seven or eight pairs of skeleton hands.

He tried to shake it with the power of the Sea Quelling God, but it didn't shatter, which meant that the other party's strength was at least at the level of a god.

Han Fei took a closer look. It was indeed at the god level. However, this level was just a symbol. Han Fei didn't believe that this thing could transcend a divine tribulation. It should be condensed from some power in the River of Eternal Darkness, giving him the power of a god.

Han Fei slapped back with the power of purification, shattering one of the skeleton's arms. The latter roared in pain, and seven or eight pairs of hands on his other hand aimed at Han Fei. In the next moment, dozens of dark rays stabbed at Han Fei.

Such an attack naturally couldn't shake Han Fei. Han Fei didn't need to do anything. He just needed to activate the surrounding laws to block it.

However, Han Fei took the initiative to withstand this wave of impact. He felt the fusion of dozens of laws, so this blow was actually not weak even in the Divine Realm. However, the other party's power only had a little power of the Divine Source. Han Fei confirmed that this power didn't come from the skeleton itself, but from the River of Eternal Darkness.

Therefore, if this skeleton fought a real godly powerhouse, even the most ordinary god could easily kill it.

Bang!

Han Fei crushed the huge skeleton into powder. In the next moment, a large mass of the power of the Origin of the dead and dozens of small masses of the Origin of the dead were absorbed into his body.

This time, perhaps because the power of the source of the dead was a little more, Han Fei felt it more clearly. He felt that after this power was absorbed by the Eternal Darkness Spiritual Heritage, the power that escaped from the Eternal Darkness Spiritual Heritage circulated between the Eternal Darkness Spiritual Heritage and the Origin Spiritual Heritage, finally gathering in the black hole and turning into origin power.

"Has the Supreme Divine Technique been activated?"

Han Fei was a little happy and a little worried. He was happy that the subsequent growth of the Supreme Divine Technique was very passive. Han Fei had eaten the Spirit of Plants and Trees and had thought that the source power contained in the Spirit of Plants and Trees would be quickly absorbed, driving the growth of the Supreme Divine Technique.

Logically speaking, as long as he didn't encounter a bottleneck, there was still a lot of room for improvement in the Supreme Divine Technique. However, the power of the Spirit of Plants and Trees was scattered throughout his body as if it had been stored. Although it did make the passive growth of the Supreme Divine Technique a little faster, in his estimation, it would take hundreds of years to completely digest a Spirit of Plants and Trees.

But now, the source of the dead could actually activate the rapid growth of the Supreme Divine Technique, and it was activated with spiritual heritage. Could it be that the Supreme Divine Technique was related to spiritual heritage?

Han Fei sensed that this time, his origin power had grown by about 300 points, nearly ten times more than before.

How far had he gone? It was only a million kilometers, but the River of Eternal Darkness already had a God-level Fear Undead. It might not be a good thing if the Fear Undead appeared too frequently, because it was impossible for him to activate his Original Great Dao all the time.

Besides, now that a god had appeared, would there be any God Slaying-level or even Sea Quelling God-level Fear Undead in the future?

Several hours passed.

Han Fei still returned to the Great Monarch realm. During this period, he did encounter a lot of Fear Undead, but most of them were below the Great Monarch realm. The Origin of the dead he could collect was limited. More than a thousand of them only provided an increase of less than 3,000 points of origin power. During this period, he only encountered two God-level Fear Undead, but he didn't see any stronger ones.

However, this was only an improvement for a few hours. After he rested for a while, he could try to do it again.

About a month passed.

Han Fei would use the Vast Ocean Navigator to fine-tune the direction every day, and in this month, his origin power had increased by more than 100,000 points.

If he had known that the River of Eternal Darkness would increase his strength so much, Han Fei might have come long ago.

After another month and a half, Han Fei found that he had reached a bottleneck.

Information popped up in Han Fei's eyes.

Owner: Han Fei

Level: 119 (Great Monarch)

Bloodline Ranking among the Clans in the Infinite Ocean: the 2nd

Origin Power: 7,999,999

First Spiritual Heritage: Origin Spiritual Heritage

Second Spiritual Heritage: Eternal Darkness Spiritual Heritage

First spiritual beast: Twin Yin-Yang Sky Swallowing Fish (level 119)

Second spiritual beast: Emperor Sparrow (level 119)

Main Art: Supreme Divine Technique, Godfiend Body

"Is this the limit?"

The breakthrough of the Godfiend Body showed Han Fei a new limit. However, this new limit was not too high, such as directly giving Han Fei a million combat power.

However, a peak-level Great Monarch with 800,000 combat power might not have existed in the history of the Sea Realm, even if it was the creator of the Supreme Divine Technique.

Han Fei knew that at this point in strength, it probably meant the end of the Great Monarch realm. If he wanted to improve further, he would probably have to take the rest of the path. The God of War had stagnated here for millions of years, but he didn't have millions of years left. He could only study it with old pedants like Qiu Wanren when he returned.

God of Fishing

Chapter 3482: River of Eternal Darkness (4)

Another two months passed.

There was no need for Han Fei to attack the Fearful Undead, because the source of the dead was meaningless to him.

After Han Fei entered the River of Eternal Darkness for a year, he saw all kinds of dark creatures. Most of them were different, but some were very similar.

For example, a faceless humanoid crawling monster bathed in black flames. Han Fei named it the Slave of Flame.

For example, a kind of black mask that often appeared out of nowhere, the kind of mask that tried to put itself on Han Fei's face. Of course, they never succeeded. Han Fei called it the Dark Mask.

For example, skeleton soldiers were relatively common.

For example, a kind of weird body with mixed limbs. It was called Limb Monster by Han Fei.

After such a long time, Han Fei had discovered one of their special characteristics, which was that most of these creatures mastered the law of fear. It was not that they should have mastered this law in the first place, but that the River of Eternal Darkness had given them this law.

Han Fei guessed that it might be some creatures that died under the law of fear. Some part of their souls might be immersed in the River of Eternal Darkness, and then these souls entangled each other, giving birth to these monsters that were lifeless but could survive.

Therefore, the River of Eternal Darkness could actually be called the River of Fear. Because he often interacted with these strange creatures, Han Fei had mastered the law of fear extremely well now.

...

Two years after entering the River of Eternal Darkness.

On this day, Han Fei activated his Original Great Dao as usual and traveled with the strength of a god.

Suddenly, he hit a huge object that looked like a mountain. More importantly, it wasn't shattered by his power.

When Han Fei scanned around with his perception, he immediately exclaimed, because he saw a huge fish head. It was a big black fish with a mouth full of sharp teeth and two eyes like two stars. With his perception range, he could only see half of the big fish head.

The big fish seemed to be a little puzzled. It didn't do anything but was suddenly hit.

When he saw Han Fei, he seemed to be interested. He immediately opened his mouth and roared at Han Fei. In an instant, infinite terrifying laws blew past Han Fei.

As for Han Fei, he protected himself with the Light of Purification and was not disturbed by this power.

Boom!

Han Fei punched back, blasting a hole in the big fish's head. In the next moment, Han Fei saw dense small fish blowing bubbles in the fish's head, repairing the hole in the blink of an eye.

"Sea Quelling God-level?"

Han Fei was shocked. This was the first time in a year that he had encountered a Sea Quelling God-level Fear Undead in the River of Eternal Darkness. However, this big fish seemed to be composed of countless small fish.

Han Fei immediately realized that this was another undead combination body.

"Roar!"

Seeing that this person actually injured him, the big fish immediately roared. Han Fei felt that his scalp was a little numb, as if some power was trying to shake his soul and invade his body.

In the next moment, Han Fei saw the Heavenly Dao Dharma Eye appear beside him, the flowing Chaotic Nether River, and even a god-slaying-level ominous creature.

"Illusion."

Han Fei immediately made a judgment. It was fine if the Heavenly Dao Dharma Eye and the Chaotic Nether River appeared, but what was with the ominous creatures? Could it be that the ominous had opened a channel in the River of Eternal Darkness? Wasn't that asking for destruction? There were so

many undead creatures here, and the law of fear was everywhere. There must be something wrong with the ominous to come here to fight. Therefore, Han Fei concluded that this was an illusion.

"Thunder Fire!"

With a swish, a thousand kilometers around Han Fei was instantly filled with thunder and fire.

The lightning had the ability to purify evil. It was impossible for a mere illusion to resist the power of the Sea Quelling God-level lightning and fire. In the lightning and fire, the Heavenly Dao Dharma Eye, the Nether River, and the ominous creature were overturned and instantly purified before they could attack.

A large number of holes were burnt on the big fish's head by the lightning and fire, and countless small fish were annihilating inside.

"Roar!"

The big fish opened its mouth, and millions of small fish formed a tide and surged out. Although the lightning and fire were ferocious, they could only burn the outermost layer.

"World Destruction Fist."

The Star Fist Technique was domineering and arrogant. When the fish tide was about to submerge Han Fei, the fist smashed out, leaving a vacuum.

But in the next moment, Han Fei saw that the big fish's mouth covered his perception. It was trying to eat him!

"Sword Five, Shattering."

"Time Arcane Technique."

Swish, Swish ~

Two consecutive peak-level strikes cut open the fish head, and the slash marks extended out of his perception. At the same time, thousands of lightning bolts burst out around Han Fei, crazily purifying the strange fish.

This time, the big fish was finally killed. Han Fei couldn't help but heave a sigh of relief. Fortunately, his peak combat power had been increased to 8 million, which had reached the standard of ordinary Sea Quelling Gods. Otherwise, it wouldn't have been so easy to deal with.

Feeling the abnormality of the Eternal Darkness Spiritual Heritage, the source of the dead entered Han Fei's body. Although it should be a lot, it couldn't increase Han Fei's strength.

"It seems that I have to reserve a certain amount of combat power for the rest of the way. Otherwise, it will be difficult to encounter this monster again."

Han Fei recovered a little and continued to set off.

Three years.

Five years.

Without Ximen Linglan's precise location, Han Fei could only search slowly.

In the seventh year, Han Fei was already numb. Every day, except for rushing, he experienced some trivial battles. Of course, he also had to withstand the baptism and corrosion of the River of Eternal Darkness that was comparable to hellfire.

...

Seven years later.

Han Fei still rushed to the unknown area of the River of Eternal Darkness.

Boom!

This was the umpteenth time Han Fei had bumped into something. He instinctively prepared to enter combat mode. However, when he took a closer look, he was surprised to see that this was a cage barrier completely made of the law of time.

Buzz ~

Han Fei was refreshed and overjoyed. Had he finally found her?

Han Fei scanned around with his perception. This Time Cage was very strong, but it didn't block the tide of the River of Eternal Darkness. This meant that the purpose of this barrier was just to get rid of some Fearful Undead. With his time law, it wouldn't be a problem for him to enter.

Just as Han Fei was trying to blend into the light ball cage, suddenly, in front of him, time intertwined and turned into a man in a green battle suit.

"Master Human Emperor, you're finally here."

"Who is it?"

Han Fei frowned slightly.

"Yuan Kong, the Third Master of the Time Temple, has been waiting for a long time."

[God of Fishing](#)

Chapter 3483: Test of the Time Temple (1)

"You want to stop me?"

Han Fei was a little surprised. Ximen Linglan only had the strength of a peak-level Great Monarch, right? Even if she was the Seventh Temple Master, the Time Temple shouldn't continue to offend him for a Great Monarch.

After all, the ominous had come back. Wasn't the most important thing now to deal with the ominous?

Yuan Kong said indifferently, "I'm not trying to stop Master Human Emperor, but Ximen Linglan is not so easy to save. To be honest, even if I let you in now, you won't be able to save her."

Han Fei sneered. "Really? Since you know that I can't save her, why are you standing here?"

Yuan Kong smiled. "Help you."

"Help me?"

Han Fei felt that he had heard something funny, but then he asked, "Oh? How can you help me?"

Yuan Kong said leisurely, "Master Human Emperor, you should know what the strongest power of the Time Temple is, right?"

"Six Divine Time Techniques?"

The Six Divine Techniques of Time were too famous. So far, Han Fei had only seen two. The first was the Time Resurrection Technique, which could be said to be extremely powerful. As long as he could get the corresponding ancient corpses and other resources, he could temporarily resurrect ancient powerhouses. And in history, there were countless powerful creatures who were as many as carps crossing the river.

This divine technique alone could help the Time Temple establish an extraordinary status in this Sea of Stars.

The other Six Divine Technique of Time was naturally Time Acceleration, similar to the time chain of the Demon Purification Pot. Han Fei had never personally witnessed this divine technique, but in the 100,000-year competition in the East Sea Divine Realm, the Spacetime Cultivation Bead rewarded was refined with this technique.

It seemed that the Time Temple's time acceleration technique should be an auxiliary divine technique, but it could separate time. It was quite different from the time chain of the Demon Purification Pot. After all, the spacetime cultivation bead could be used by anyone, and the time chain could only be used in his Origin Star.

As for the other four of the Six Divine Techniques of Time, Han Fei really didn't know.

Han Fei couldn't help but sneer. "Are you going to teach me?"

"Master Human Emperor is indeed smart."

"Uh ~"

This was something Han Fei never expected. Are the people of the Time Temple out of their minds? He wasn't even a member of the Time Temple, and they wanted to teach him the Six Divine Techniques of Time?

Yuan Kong said, "In the past, the Time Temple invited you many times. In fact, you should have agreed. With your omnipotent combat power, if you walk the Great Dao of Time to the extreme, you will be a very terrifying existence."

"Heh ~"

Han Fei said casually, "If the Time Temple had such a layout back then, I might have joined. However, there is no free lunch in the world. Why did you teach me the Six Divine Techniques of Time?"

"Return to the ancient times and return to the Chaotic Era to find a way to defeat the ominous."

Han Fei narrowed his eyes slightly. "Oh?"

This time, Han Fei was a little surprised. He said, "Return to the Chaotic Era? Do you think so highly of me? As far as I know, no one can go back to the Chaotic Era, right? Even if someone can, shouldn't it be the Master of Time? Why are you looking for me?"

Yuan Kong shook his head slightly. "Although my master is strong, going against the current doesn't just depend on strength. Going against the flow of time requires endless lifespan and endless spiritual power. But this is only the basic condition. To enter that era, one needs the approval of that era. My master can touch the time of that era, but he can't enter that era. So far, our Time Temple has only found one person who has this power to cross eras."

Han Fei narrowed his eyes. "Me?"

"No, it's Ximen Linglan."

"Linglan?"

Han Fei was stunned. How could Ximen Linglan do something that even the Master of Time couldn't do?

Yuan Kong said, "Ximen Linglan can enter the Time Temple not because she comprehended the Great Dao of Time, but because she comprehended an indestructible power."

"Hope?"

"That's right!"

Yuan Kong also sighed. "This is a technique that has never appeared in the Sea of Stars. It's her unique Dao. This Dao is no weaker than time, the void, death, life, fear, and all other powerful Great Daos. As far as we know, none of the myriad Daos in the world can suppress her Dao of Hope. Therefore, she has the potential to dominate. However, there's not much time left in the Sea of Stars. She appeared too late. We don't have time to wait for her to grow. Besides..."

"And what?"

Yuan Kong looked at Han Fei deeply. "Besides, we found that this Dao has a big drawback. This Dao can be destroyed. This Dao was born because of you, so it can also be destroyed because of you. This is because if you die, her hope will be gone, so this Dao should be destroyed. This is why she has been unable to break through to become a god, but she can still be ranked as the Seventh Temple Master."

Han Fei's face darkened slightly. "As long as I'm here, this Dao won't be destroyed. Besides, since Linglan has the power to enter that era, it doesn't mean that I can enter that era, right?"

Yuan Kong said, "You have the possibility of entering that era. First of all, what I can be sure of is that you have the ability to touch that era with the law of life alone. If you want to enter that era, you need the approval of that era. And your identity as the Human Emperor might be able to fool the Heavenly Dao."

Han Fei frowned. Yuan Kong's words were too mysterious and unbelievable.

[God of Fishing](#)

Chapter 3484: Test of the Time Temple (2)

"So, is this the purpose of you teaching me the Six Divine Time Techniques?"

Yuan Kong smiled and said, "You've become a disciple of the Void Temple and comprehended the Death Dao of the Immortal Temple. Don't you want to obtain the six divine techniques of the Time Temple? In this era, there is ultimately a need for a real strong master. Mortals are mediocre, and there are countless examples of former Heavenly Talents who are now down and out. The only purpose of the Void Temple is to nurture true strong masters, so if everyone in the Void Temple is given enough time, they can be a top powerhouse who can suppress an era. They are very strong, but not strong enough. What the Void Temple wants is an existence who can break the taboo, and our Time Temple is willing to help, but... not everyone can comprehend the Six Divine Techniques of Time. If you want to comprehend this technique, it depends on your own luck."

Han Fei put on a faint smile. "Okay! Someone gave me the Six Divine Techniques of Time for free. How can I not dare to accept it?"

Yuan Kong slowly raised his head and said proudly, "Defeat me."

"Defeat you?"

Han Fei glanced at Yuan Kong. "You're only a peak-level Great Monarch. I'm afraid you can't even take one blow from me."

Yuan Kong raised his voice slightly. "Han Fei, the peak-level Great Monarch of the Time Temple is not as weak as you think. In time, it's not impossible for Great Monarchs to suppress the sea. Come and fight me."

After all, all the strong masters of the Three Temples were proud and aloof.

Behind Yuan Kong, a time tide surged ceaselessly, and an ancient divine python appeared behind him. This was not the Time Resurrection Technique, but Yuan Kong's Companion Spirit.

The Primordial Divine Python had a single horn, spewed green light from its mouth, and gathered purple lightning on its horn. It was magnificent. Yuan Kong waved his hand, and a time tide turned into a time sword tide and surged over.

"Very strong. You can fight a god. However, if you don't use the Time Resurrection Technique, I'm afraid you won't be a match for me with such an attack."

Han Fei hadn't even activated his Original Great Dao. The enemy had a tide of swords, yet I could slash waves with a single move.

Swish ~

He drew his broadsword and slashed, and the power of time surged on it. Perhaps the law of time that Han Fei mastered was not as good as Yuan Kong's, but he was very familiar with breaking all laws with strength.

"Puff ~"

Clang!

With a single slash, he cut through the tide in front of him, and a surging wave swept over. With the enhancement of origin power, how could ordinary strength resist it? With a single slash, the tide split, and Yuan Kong's body exploded. The knife light didn't stop, and when the knife slashed at the time barrier, a rumbling sound erupted.

...

In the Time Barrier.

Ximen Linglan was wearing a broken battle suit. Because of the corrosion of the Eternal Dark Tide, her battle suit had long decayed. Not only the battle suit, but even most of Ximen Linglan's body had decayed.

Her limbs were shackled by the Time Chains, and she leaned against a white bone tombstone, barely having a place to lean.

At this moment, in front of Ximen Linglan stood a beautiful woman.

The beautiful woman said, "Linglan, the Master of the Void gave you a Void. Why don't you use it? If you use it, you won't have to suffer so much."

Clang! Clang!

Ximen Linglan's arm moved slightly, and the white Dao Bones on her wrist collided with the chains.

"Mas... Master, you're here?"

"This is the punishment I deserve. Although it's a punishment, it's also cultivation. In 100,000 years, when I come out of seclusion, it will be the day I become a god."

The beautiful woman heaved a long sigh. "Even if he becomes a god, so what? Can you forget him after you become a god?"

Ximen Linglan turned her head slightly, and only her bones and rotten flesh were left on her cheek.

A trace of pity appeared in the beautiful woman's eyes. "Linglan, I know you are still angry with him, but is there a need to torture yourself like this? You should know that the last time you saw him, he hadn't proved Dao yet. Although he is a genius and has already reached the Immortal Level, how long will it take for him to stack laws? He doesn't even know that you are suffering such torture here. Why?"

"Master... Cough..."

Ximen Linglan wanted to raise her head, but with the six Soul Devouring Awls on her body, every time she moved, it was as if her entire body and soul were torn apart.

"Master, I'm not waiting for him."

"Child, do you know that his wife has been resurrected?"

Ximen Linglan's body trembled slightly. "Okay!"

The beautiful woman continued, "He gave birth to a daughter named Han Chanyi. She's extremely talented and can be said to be a rare genius."

"OK!"

The beautiful woman sat down beside Ximen Linglan and said unhurriedly, "He's here."

"OK!"

"Huh?"

Ximen Linglan suddenly raised her head. Although her body and soul were enduring inhuman pain, she still raised her head and looked at the beautiful woman in shock.

Clang!

At this moment, a loud bang erupted on this time barrier, and the vibration sound spread into the barrier.

The beautiful woman extended her hand, and the scene outside the barrier appeared.

When Ximen Linglan saw that figure, she felt her soul tremble. Then, ignoring the pain on her body, she shouted in a low voice, "Master, let him go. Let him go quickly."

Ximen Linglan clearly panicked. She even wanted to drag the time chain, but her strength was all locked by the Soul Devouring Awl and couldn't completely move the time chain.

The beautiful woman said indifferently, "Linglan, your judgment of people is indeed not bad. This guy is growing very fast, unbelievably fast. Look, Yuan Kong fought with all his strength, but in the end, he couldn't even withstand a single slash from this guy."

"Master, for the sake of us being master and disciple, let him go!"

God of Fishing

Chapter 3485: Test of the Time Temple (3)

Even though half of Ximen Linglan's face was rotten, one could still see the anxiety and fear on her face.

The beautiful woman turned around and looked at Ximen Linglan. "The barrier contains the Time Killing Technique set up by our lord, but you still want to let him leave, without even mind sacrificing our relationship as master and disciple, right?"

Ximen Linglan roared, "After all, he is from the Void Temple. If you attack him, the Void Temple won't let it go. Master..."

"Alas..."

The beautiful woman sighed slightly. "Look, as long as you see him, you can't calm down. Look down."

Outside the barrier.

Han Fei was frowning. If it were an ordinary Great Monarch, he would believe that the other party had no chance to fight back.

However, this person was the Third Temple Master of the Time Temple. If the Time Temple calculated strength according to ranking, this person definitely shouldn't be so weak that he couldn't even withstand a single slash from him.

Sure enough, in the next moment, time intertwined, and a piece of time formed Yuan Kong's body.

"As I expect."

Seeing Yuan Kong appear again, Han Fei felt that it was normal. However, he felt that something was wrong. The power that the other party burst out just now was definitely Yuan Kong's original body.

And with the strength of a peak-level Great Monarch, it was impossible for him to withstand the slash he launched, so how did he revive?

Han Fei's heart skipped a beat. "This is one of the Six Divine Techniques of Time."

Yuan Kong smiled. "That's right. This is the Indestructible Time of the Six Divine Time Techniques."

A time wave appeared behind Yuan Kong again, but this time was different from before. Just now, Yuan Kong knew that he was no match for Han Fei, but he still deliberately fought Han Fei to show the Time Indestructibility Technique.

Now, around Han Fei, the laws of time were intertwined in all directions. One Yuan Kong after another and one time wave after another surrounded Han Fei.

Swish... Swish... Swish...

It was still the Time Sword Tide. This time, nearly a thousand Yuan Kong attacked at the same time. This technique was almost completely a super upgraded version of the Time Arcane Technique. It could launch a thousand attacks in an instant. If they were in the same realm, who could resist it?

Even if Han Fei could kill Yuan Kong with one slash without activating his original Great Dao, could he kill a thousand Yuan Kongs?

When the thousand sword tides of time rushed at Han Fei, in the barrier, Ximen Linglan looked at the beautiful woman in despair and said anxiously, "Master ~"

This was because Ximen Linglan knew the power of this technique. This was a cross-realm God Slaying Technique. She had only been suppressed for less than a thousand years. Although Han Fei was talented and had already entered the Great Monarch realm, how could he block such an attack?

The beautiful woman didn't respond to Ximen Linglan, and just when Ximen Linglan felt that it was impossible for Han Fei to resist this blow, Han Fei's strength soared, and the Blood Sky Blade appeared in front of him.

"Immortal Slaying."

The Immortal Slaying Knife instantly extracted the power of the Heavenly Dao here and slashed out at a speed so fast that even Great Monarchs couldn't see it clearly.

Bang! Bang! Bang!

With a single slash, he cut off the thousand sword tides. The thousand Yuan Kongs were shattered at the same time.

At this moment, Ximen Linglan was already struggling to stand up as if she had made an important decision. Suddenly, she froze. She almost couldn't believe her eyes.

"The Time Splitting Technique failed?"

The beautiful woman said indifferently, "Sit down! It's not that the Time Splitting Technique has failed, but that Yuan Kong's strength is limited. With his strength, he can kill gods, but he won't be able to deal with a God Slaying-level powerhouse. And if he faces a Sea Quelling God, of course he will lose."

"Sea Quelling God?"

Ximen Linglan's heart skipped a beat. "Master, what's going on?"

The beautiful woman said leisurely, "Although I don't know how Han Fei did it, he can indeed unleash the combat power of a Sea Quelling God in a short period of time. Oh, maybe this time is not short, but for us, no matter how long it takes, it's short."

"How did he..."

The beautiful woman smiled. "You want to know? Then wait for him to tell you himself!"

Ximen Linglan's heart skipped a beat. How could she meet him in such a state?

When she resolutely broke into the Time River, she didn't panic. She would rather be suppressed in the River of Eternal Darkness than panic. But at this moment, she finally panicked.

Outside the barrier.

Yuan Kong's body reappeared.

Han Fei said, "All of you are your original bodies. No wonder the Time Temple can bear the responsibility of resisting the ominous army. What's the name of this technique?"

Yuan Kong smiled and said, "Time Splitting Technique."

Splitting himself from different times and simultaneously stacking these times into the current time?

Han Fei nodded slightly. He knew how terrifying this technique was. If he mastered such a power, he would probably be invincible in the Sea Quelling Divine Realm.

It didn't even need to be him. If the Time Temple had a Sea Quelling God, he suspected that even Lei Heng and Senior Brother Six God couldn't resist such a terrifying power. Of course, the premise was that they didn't have any trump cards.

Han Fei thought for a moment. "It's impossible for you to unleash such a powerful force at any time. It's impossible for there to be no limit to trigger different times at the same time."

Yuan Kong didn't hide it. "This blow does need to be prepared. In a battle, with my strength, I can only unleash three bodies, not a thousand. This blow just now will take at least a thousand days for me to prepare."

[God of Fishing](#)

Chapter 3486: Test of the Time Temple (4)

"Phew! In that case, it's not bad."

That being said, Han Fei had a different guess. For the people of the Time Temple, could a thousand days of planning accelerate time?

If this technique could be used through time acceleration, for example, on his Origin Star, it would only take one day to set up a trap and launch such a blow.

If Master of Time took the initiative to use this technique, how powerful would it be?

Obviously, this technique should have other restrictions. Otherwise, it would be too heaven-defying.

Yuan Kong shook his head slightly. "But that blow just now was only part of the power of the Time Splitting Technique."

Han Fei said, "It seems that you've mastered the Six Divine Techniques of Time well. I also want to see what the other two divine techniques are."

"No rush. You have plenty of time to feel it."

"There's no rush. Come on! Let me see what else you have."

Han Fei was not in a hurry to learn, nor was Yuan Kong in a hurry to teach him. The current confrontation was just foreplay.

A huge humanoid skull appeared in front of Yuan Kong.

"Time Resurrection Technique?"

Han Fei was a little puzzled. Yuan Kong should know that he had already mastered the Time Resurrection Technique, right? It was meaningless to use this technique to deal with him! Unless Yuan Kong could revive dominator-level creatures.

Otherwise, even if Yuan Kong really resurrected a Sea Quelling God-level creature, he might not be able to beat it, but he could definitely hold on until Yuan Kong couldn't maintain the Time Resurrection Technique.

But in the next moment, Han Fei felt the law of time ripple, and a huge ball cage intertwined with time blocked the range of his perception.

Han Fei slashed back. He was just puzzled. With Yuan Kong's strength, it was obviously impossible for him to trap him in this time cage. But he still set it up, which meant that there must be something wrong with this cage.

However, after Han Fei slashed out again, the cage voluntarily turned incorporeal and disappeared without a trace, and this place was filled with a rich law of time.

"Roar!"

At this moment, Yuan Kong had already resurrected the humanoid skull. An ancient demon ape appeared under the interweaving of the law of time.

There was no need to feel it. Just from the suppressing pressure emanating from the other party, Han Fei knew that this Demon Ape must be at the Sea Quelling God level.

"How many seconds can you last before this Sea Quelling God-level resurrected creature?"

The Ancient Demon Ape roared, grabbed a long stick made of the power of time from the law of time, and slashed at him.

Han Fei had some experience in dealing with giant apes. Of course, he just needed to break all laws with strength.

Therefore, Han Fei immediately blasted out a golden fist light, preparing to break through the force with force.

Bang!

The fists and rods collided, and the power shook the heavens and the earth. After all, it was a power at the level of Sea Quelling God. Just the power that dissipated was not something Yuan Kong could withstand, so Yuan Kong directly retreated.

As for Han Fei, he was sent flying by the rod. But this place was only so big, and the entire cage was only a thousand kilometers long. For the two Sea Quelling Gods, this space was too narrow.

Therefore, Han Fei was crushed on an invisible barrier by the rod.

Han Fei realized that this Demon Ape was much stronger than him. In this narrow space, he didn't even have many chances to escape. When the Demon Ape tried to hit Han Fei with the Time Stick in its hand, with a bang, Han Fei dodged with the extraordinary speed of the Thousand Thunder Flash.

Bam! Bam! Bam!

Boom, Boom, Boom.

After only ten seconds, Han Fei estimated that the other party's strength was at least 50% higher than his. Although he had mastered the Thousand Thunder Flash, the space was narrow after all, so he was still hit hundreds of times by this ancient Demon Ape.

After more than twenty seconds, the Ancient Demon Ape faded away. This must be Yuan Kong's limit.

Just as Han Fei was about to investigate why this space could withstand the power of the Sea Quelling God, he saw Yuan Kong appear out of nowhere.

"No rush. You have plenty of time to feel it."

Yuan Kong said this for no reason.

In the next moment, a huge humanoid skull appeared in front of Yuan Kong.

Han Fei suddenly realized something.

In order to confirm his guess, Han Fei fought the same battle again, which ended in more than twenty seconds.

In the next moment, Yuan Kong appeared out of nowhere and said again, "No rush. You have plenty of time to feel it."

In the next moment, another huge humanoid skull appeared in front of Yuan Kong.

"Time is repeating."

Wasn't this the time cycle technique he created?

Han Fei had once made a deal with Ximen Linglan's disciple, Mo Qi. Mo Qi taught him the Time Resurrection Technique, and he gave Mo Qi the Time Cycle Technique.

However, his time cycle was in the form of a circle, forming a time loop, so that the head and the tail were connected.

If this was one of the Six Divine Techniques of Time, how could Mo Qi not know it in the past?

"What's the difference?"

Han Fei knew that once he fell into the time cycle, the result would be the same even if he fought this ancient Demon Ape a thousand times.

Therefore, the answer was the time cage that appeared at the beginning.

Although the cage was gone, the invisible time barrier was still there. This time barrier could block his battle with the ancient Demon Ape, which meant that this time barrier was not set up by Yuan Kong at all.

The person who set up the cage should be at least at the God Slaying level, or even the Sea Quelling God level.

In other words, in addition to Yuan Kong, there was someone else here. That person was powerful and helped Yuan Kong set up this killing trap.

If this was the time cycle he created, it didn't seem difficult to crack it.

Since the time cycle was a cycle, there must be a cycle direction. As long as he reversed this direction, he could break this technique.

After all, this place was only so big, so it wasn't difficult to find the law of circulation. However, when Han Fei felt the flow of the law of time, he discovered that the person who set up this trap didn't use a timeline as a cycle, but a section of the Time River as a cycle.

This was a strengthened version of the time cycle he created.

However, with his current strength as a Sea Quelling God, it wasn't difficult for him to break it. When Han Fei forcibly controlled the reversal of the Time River, the ancient Demon Ape disappeared with a bang.

Yuan Kong reappeared after this time cycle. This time, it was clearly his true body.

Han Fei asked, "The technique I created?"

Yuan Kong shook his head. "The Time Temple has existed for a long time. We've all created the techniques you can create. This is just a kind of time manipulation technique. The Time Temple's time manipulation technique contains the time cycle. Although this technique is not weak, it's not comparable to the six divine techniques. I used this technique on you because I wanted you to realize the power of the technique you comprehended. After all, you are actually very talented, but you don't seem to care. If you hadn't had the strength of the Sea Quelling God, I'm afraid you might not even have been able to break the technique you created."

Han Fei frowned. What Yuan Kong said did make sense. He had indeed broken it with his strength. But if he was still in the Great Monarch realm, it would probably be difficult.

Han Fei asked, "So, are you showing me the power of the Time Temple?"

Yuan Kong chuckled. "I want to tell you that don't underestimate the divine techniques of our Time Temple just because you can unleash the strength of a Sea Quelling God. If you can't even pass me... not only will you not be able to save Ximen Linglan, but you will even cut off her path to becoming a peerless cultivator. This is not an alarmist."

Han Fei nodded slightly. "Please ~"

Yuan Kong also said solemnly, "What I'm going to show next is the Six Divine Techniques of Time, Time Infinity..."

[God of Fishing](#)

Chapter 3487: Killing Intent of A Dominator (1)

When Yuan Kong attacked, Han Fei didn't.

Since Yuan Kong said that he would teach him the Six Divine Techniques of Time, this was actually no longer a life-and-death battle. It could only be said that he had been taking the blows passively.

At least, before he finished reading the Six Divine Techniques of Time, he wouldn't take the initiative to deal with Yuan Kong.

When the surrounding space was illusory, Han Fei clearly felt that the timeline had been displaced, and he was no longer in the normal time.

Even the time barrier in front of Han Fei had disappeared, including Yuan Kong.

"Time Predicament?"

It was true that this was still the River of Eternal Darkness, but he was the only one left. He didn't know what the so-called Time Predicament meant.

But Han Fei knew that since it was not in the normal timeline, he had to cross the current timeline, or he wouldn't be able to return.

The timeline was nothing more than before and after. With the normal timeline as the baseline, it was impossible for Yuan Kong to pass through the future timeline, so it could only be the previous timeline.

Therefore, he just needed to follow the direction of the Time River and break the timeline.

However, Han Fei kept crossing one timeline after another and didn't stop until he couldn't cut open a new timeline.

But at this moment, Han Fei already knew that something was wrong. Logically speaking, he had returned to normal time, but the time barrier had disappeared, and Yuan Kong was not here.

Swish! Swish! Swish!

In the next moment, Han Fei saw a large number of skeleton soldiers rushing at him from outside his perception.

"Huh?"

The airwaves around Han Fei shook, and all the skeleton soldiers were shattered. However, after only a few seconds, tens of thousands or even a hundred thousand skeleton soldiers surged over.

"Where did so many come from?"

Han Fei had walked in the River of Eternal Darkness for seven years, so he had some understanding of the River of Eternal Darkness. Even if he encountered the Undead of Fear, he would only encounter them once in a while. How could there be so many of them?

After a hundred seconds, Han Fei found that in addition to the skeleton soldiers, there were only some limbs, dark masks, and so on, and they showed no signs of stopping.

If that was the case, there was no need for him to maintain the combat power of the Sea Quelling God level. As long as he had normal combat power, he could still crush them.

At least, he hadn't found a way to crack this Time Predicament yet. He could only fight while looking for a way to crack this Time Predicament.

"Since it's a time divine technique, there must be remnants of the law of time, right?"

But after searching for a long time, Han Fei couldn't feel the law of time circulating at all. Besides, these terrifying undead creatures weren't fake. Did this Time Predicament mean to summon endless combat power?

If that was the case, there was no need for the strong masters of the myriad races to guard the ominous battlefield. One strong master from the Time Temple would be enough.

"No, if it's not a problem with the law of time, it's a problem with the timeline."

Han Fei cut open the timeline again and shuttled through it. However, no matter how he shuttled, there was always a large number of Fear Undead surging at him.

"Impossible. Is there a problem with so many timelines?"

This time, Han Fei stepped directly into the Time River. When he entered the Time River, he discovered that the Time River here had turned into a time vortex.

"No! There can't be a problem with the Time River itself. If there is a problem, it can only be... fake."

"Fuse!"

Han Fei finally reacted and immediately fused with Little Black and Little White. The Yin-Yang Divine Eyes could see through illusions, and Little Black and Little White's bloodline level was extremely high. And Yuan Kong was only a Great Monarch. Without the help of a strong master, with his strength, no matter how strong he was, it was impossible for him to trap him.

...

In the normal timeline.

Xi Men Linglan looked puzzled. "Although Yuan Kong is very strong, his soul power is not strong enough. Otherwise, if Teacher took action, with the multiple times of time and time illusions, even if they couldn't trap him to death, it would be enough to trap him for a long time. But Teacher, you are here but didn't take action... Are you teaching him the Six Divine Time Techniques?"

The beautiful woman said indifferently, "Silly child, otherwise, how can he pass our lord's Time Killing Array alone? Of course, whether he can comprehend it or not is another matter."

...

"Illusion?"

Han Fei was shocked. The complicated timeline was superimposed with illusions, but this kind of illusion was not a fake illusion, but based on reality, it trapped a massive number of Fearful Undead into this time illusion, combining reality and illusion, making it impossible to tell if it was real or fake. If it weren't for the strong masters who had mastered the Great Dao of Time, they might not have realized that all of this was fake.

"Heh, interesting."

Han Fei seemed to realize something. He cut through timelines one after another until he finished all the timelines, and a smile gradually appeared on his lips.

All of them were fake. Every timeline was a kind of time illusion. But in this environment, three things were real. One was time itself, one was the Fear Undead, and the other was the time vortex.

Suddenly, Han Fei gave up searching in the timeline.

He seemed to have figured it out.

Han Fei sat cross-legged in the time vortex. In all the fake timelines, what really drove these illusions was this vortex.

Besides, only in the time vortex would he not be affected by the Fearful Undead.

[God of Fishing](#)

Chapter 3488: Killing Intent of A Dominator (2)

In the time vortex, one year, two years, three years...

After only three years, Han Fei suddenly opened his eyes and smiled. "As expected of the Six Divine Techniques of Time. It's indeed exquisite."

Han Fei suddenly stepped out of the time vortex and stepped into the timelines again, stopping for a period of time in each timeline.

Han Fei didn't stop until several days later. He shouted in a low voice, "Sword Five, Shattering."

This sword was completely made of the law of time, cutting through all the timelines in a row. At that moment, Han Fei's figure appeared in every timeline. All Han Fei tore open the Time River at the same time and slashed at the time vortex.

Boom!

At this moment, all the timelines collapsed, and the terrifying undead wandering in the timelines all disappeared.

The first time barrier finally appeared in front of Han Fei.

"Huff~"

Han Fei was slightly relieved. In front of him, the law of time intertwined, forming Yuan Kong. Blood oozed from the corner of the latter's mouth, and his breath was unstable. He had clearly been seriously injured.

"Three years."

Yuan Kong took a deep look at Han Fei. "In three years, you've comprehended two divine techniques. But I'm curious. How did you find me?"

The corners of Han Fei's mouth curled up slightly. "Actually, I discovered you a long time ago because of your vitality. Although you hid it very well, you don't know the law of life. Fear Undead is lifeless, and time itself isn't fused with the long river of life. However, there is vitality in the time vortex. If that vitality isn't mine, it can only be yours."

Han Fei continued, "You showed me the Time Indestructibility Technique, which means that in time, you are indestructible. Therefore, you turned into time itself and formed a vortex in the real Time River with your own time law. You also showed me the Time Division Technique, which means that you can mobilize your own power in multiple timelines. Of course, you need time and resources to set up a trap like this. You also showed me the time cycle. Only the cycle method can create so many terrifying undead creatures... Therefore, this so-called Time Predicament is a hybrid divine technique built from the Time Indestructibility Technique, the Time Division Technique, and the time cycle."

Yuan Kong couldn't help but cover his head and laugh. "You're very smart. However, this also shows that I taught you well. However, in the past three years, my soul has almost been in a state of loss. What did you do to me?"

Han Fei smiled casually. "Oh! Nothing. Didn't you say that I comprehended two divine techniques in three years? In fact, I comprehended more than two."

Han Fei raised his hand, and the law of time intertwined in his palm and finally turned into a ball. Then, Han Fei tore open the Time River and guided a large amount of the law of time into the ball. In the end, the ball turned into a crystal glass.

"Time Stacking Technique?"

Yuan Kong's pupils were constricted. "I remember I didn't teach you the Time Stacking Technique."

Han Fei smiled. "Don't be hasty!"

Behind Han Fei, the void cracked, and the Time River appeared.

Swish! Swish! Swish!

From the Time River, countless time chains spread out. The chains appeared and spread in all directions, grabbing the void, forming a time barrier.

Yuan Kong's pupils were constricted. "Time Sealing Sky Lock? Is it your stealing technique?"

Han Fei nodded slightly. "Sorry, I'm actually not very perceptive. My comprehension time is too slow. I can't afford to wait. If I comprehend it for 1,800 years, will Linglan have to wait for 1,800 years?"

Han Fei knew from the beginning that the Six Divine Techniques of Time were very strong and difficult to master. His Great Dao of Time was probably still those that he learned when he was young.

Later, he met Mo Qi and learned a little from her. Later, he absorbed some from the river when he was at the Immortal Level. In short, except for inventing a time cycle that others had already invented, Han Fei had never seriously studied the Great Dao of Time. Therefore, his understanding of time might be on a completely different level from Yuan Kong.

Therefore, it was not impossible to directly comprehend the Six Divine Techniques of Time, but there were too many foundations to build. How could Han Fei have the time?

Therefore, in the past three years, he had been stealing and crazily absorbing Yuan Kong's understanding of the Great Dao of time and the law of time. Han Fei didn't dare to say that he had completely caught up with Yuan Kong, but he had at least learned seventy or eighty percent of it. His understanding of the law of time was completely different from before.

Therefore, in his crazy stealing, he had learned all the Six Divine Techniques of Time.

Han Fei couldn't help but exclaim. The Six Divine Techniques of Time were indeed worthy of being the exclusive technique of the Time Temple.

Among them, the Time Resurrection Technique could revive ancient creatures and assist in combat.

The Time Indestructibility Technique could be said to be a kind of immortality technique. Unless one instantly crushed the user or severed his connection with the Time River, it was impossible to kill him.

The Time Splitting Technique was indeed as Yuan Kong said. It was not as simple as he had seen. In addition to being able to mobilize his power in different timelines, it could also cut enemies with different time powers and kill them in different times. It was the only super powerful offensive divine technique of the Six Divine Techniques of Time.

The Time Predicament was a little similar to dreams in dreams. It could make people fall into time illusions without knowing it. This was because every illusion was built on reality. It was a killing technique and a hybrid divine technique of the Six Time Divine Techniques that could fuse various other divine techniques.

[God of Fishing](#)

Chapter 3489: Killing Intent of A Dominator (3)

The Time Stacking Technique was an auxiliary divine technique that accelerated or decelerated time, but it also had offensive power. It was almost a sure-kill technique for those below the Immortal Level. After all, no one below the Immortal Level could resist the erosion of time.

The Time Sealing Lock, which was the time chains that filled the sky, extended from the Time River. It was a chain seal completely made of the law of time. It could seal the realm and form a wall of time. The Time River would continuously provide power. In addition, this technique could cut off the time in a domain. It was a pure defensive divine technique.

In Han Fei's opinion, the Six Divine Techniques of Time were both offensive and defensive. It also fused an immortality technique and the Thousand Opportunities Killing Technique. If he could master it, it would be almost a perfect combination of divine techniques.

Of course, although the description was a little exaggerated, it was not difficult to learn the Six Divine Techniques of Time. However, to learn this technique, one had to master the Great Dao of Time and the law of time.

This alone was one in a million.

Therefore, the threshold of the Six Divine Techniques of Time was very high. If the cultivation difficulty was also so high, perhaps only one in a trillion could practice it. But if it was really that case, the Time Temple wouldn't have many strong masters, so it couldn't become one of the three temples that shocked the Sea of Stars.

Yuan Kong's face changed several times, and then he cupped his hands at Han Fei. "As expected of the Human Emperor. Good move. However, this level is only the first level of the trial."

"Oh?"

Han Fei's heart skipped a beat. It would be ridiculous if this trial was divided into several levels. After all, the Master of Time secretly taught him the Six Divine Techniques of Time because he had a request. If the difficulty was too high, what could he ask for?

Yuan Kong looked back at the time barrier and slowly said, "This is a time barrier personally set up by our master. Even if it's casually set up, the danger inside is indescribable. Human Emperor, take care."

Han Fei looked at the time barrier in front of him, and inside the barrier, Ximen Linglan's heart began to thump.

Although she didn't know why her master and the Third Temple Master dared to teach Han Fei the Six Divine Time Techniques, since they had taught him, they probably wouldn't let Han Fei die.

However, she never expected that in just three years, Han Fei had mastered the Six Divine Techniques of Time. This cultivation speed was unbelievable. Sure enough, he was still the same as before, a peerless Heavenly Talent. And it took her 30,000 years to master the Six Divine Techniques of Time, from the basics to the myriad time control techniques.

Beside Ximen Linglan, the beautiful woman said indifferently, "Linglan, your strength is already at the peak of the Great Monarch realm. It's time for you to walk the rest of your path on your own. However, this path may be very difficult. I only remind you that no matter what, don't forget your own path. No matter how strong the myriad Daos in the world are, they are not as strong as your own Dao. Remember it."

"Master!"

Swish ~

The beautiful woman didn't intend to get involved in the meeting between Han Fei and Ximen Linglan, so she left first.

Outside the Time Barrier, Yuan Kong's warning was still ringing in his ears, but Han Fei had already pressed a hand on the Time Barrier.

With Han Fei's current comprehension of time, his body only trembled slightly, and he adjusted the power of time to the same frequency as this barrier. In the next moment, he disappeared into it.

Buzz!

The scene in front of Han Fei changed and he fell in front of the white bone tombstone.

When he saw that Ximen Linglan's body was imprisoned by the Time Chains and was about to decay, his eyes immediately turned red. That glance made Han Fei furious.

"Linglan."

Han Fei's first reaction was to go to Ximen Linglan and heal her. However, Han Fei took a step forward and found that he was still where he was.

Han Fei looked anxious and was about to unleash the power of the Sea Quelling God level, but at this moment, Ximen Linglan just raised her head slightly, glanced at him, and said calmly, "What are you doing here? I told you that there is no longer any relationship between us."

Han Fei looked pained. Although he was furious, he tried his best to be gentle. "Now is not the time to be angry. Let me save you out now."

Buzz!

In the next moment, Han Fei activated his Original Great Dao and immediately pushed his strength to the level of Sea Quelling God. At this moment, with his sharp perception, he found that he was controlled by countless time threads.

Bang!

With Han Fei as the center, the power of the Time Law exploded and shattered the time threads.

However, in the next moment, a time tide with unparalleled power whistled over like a starry sky and instantly swept him in.

The scene in front of Han Fei changed. Ximen Linglan disappeared, and he fell into a Time Predicament again. And in this Time Predicament, the world collapsed, and the supreme power pressed down on Han Fei until he couldn't breathe.

At the same time, billions of Time Blades slashed at him.

Han Fei knew that this was a barrier set up by the Master of Time. It was definitely not something Yuan Kong's traps could compare to. Even if he had mastered the Six Divine Techniques of Time, it was impossible for him to break it as easily as just now.

Therefore, Han Fei took out the Blade of Hope and roared, "Kill!"

Swish, Swish ~

The double knives were peerless and shattered layers of the void. Even the trapping and killing array set up by a dominator-level powerhouse was instantly cut apart like paper.

This was not a matter of strength, but the unique ability of the Blade of Hope.

[God of Fishing](#)

Chapter 3490: Killing Intent of A Dominator (4)

At this moment, Han Fei didn't hesitate to show the Blade of Hope. He was very angry and didn't want to waste time with the people from the Time Temple.

Sure enough, as soon as the Blade of Hope attacked, the Time Predicament was broken in the blink of an eye, and Han Fei returned to the time barrier.

Han Fei was confident that no matter what kind of killing techniques the Time Master set up, they were meaningless in front of the Blade of Hope.

But as soon as Han Fei returned, he saw that the law of time intertwined into the image of a man in a golden robe.

"Master of Time?"

Although he didn't expect the Master of Time to come in person, when he saw him, Han Fei's eyes turned red. He held the Blade of Hope in his hand that then fused together, and slashed out with all his strength. Then, he roared, "Come at me if you have the guts. Why do you just make things difficult for a woman?"

At this moment, Han Fei didn't care who the person opposite him was. Even if the ominous came in person, he still dared to slash out.

Clank ~

But even the combat power of a Sea Quelling God was nothing in front of a dignified dominator.

The terrifying broadsword beam that could cut the starry river seemed to have crossed the barrier of time but completely dissipated five feet in front of the Master of Time.

Han Fei didn't stop. He knew that this blow couldn't shake the Master of Time, so in the next moment, his body turned into tens of thousands of lightning marks, which instantly attacked along the traces left by the Blade of Hope. This time, he used the Blood Sky Blade to erupt with double fighting intent and even fed his essence blood to the Blood Sky Blade to double his combat power again. He had really used all his strength.

Clank ~

But even so, the Master of Time held the Blood Sky Blade in one hand and slapped him. Han Fei flew backward with a bang and instantly hit the time barrier. His body was full of cracks, and he seemed to have been fished out of blood.

"Explode!"

Boom!

Even in such a situation, Han Fei didn't stop. After launching this strongest blow, he secretly left the Infinity Water behind. Although he knew that the Infinity Water couldn't shake the Time Master, as long as it could touch him, it showed his attitude.

However, the moment the Infinity Water exploded, it was as if a bubble was erected here. All the explosive power was locked in the time bubble, unable to dissipate at all.

"Puff ~"

The Master of Time reached out and gently touched it, and the Time Bubble shattered with a bang, but no power escaped.

The Master of Time only glanced at Han Fei, and Han Fei felt that infinite pressure was pressing on his shoulder, trying to make him surrender.

All of this happened too quickly. Ximen Linglan only saw two knife lights, but Han Fei was already dripping with blood. Suppressed by the power of time, he wasn't even qualified to get up.

Clang! Clang!

Ximen Linglan couldn't care less. She didn't expect the Time Master to come at all. How could a barrier set up by the Time Master be the same?

"Master Dominator ~"

"Kekeke~"

Han Fei spread his legs and put his hands on his knees. He raised his head and glared at the Time Master with a creepy smile. "Master of Time, since you don't dare to kill me, get lost. Otherwise, when I suppress all the powers under the heavens, I'll destroy your Time Temple."

"Hmph!"

The Master of Time snorted, looking dignified. "How do you know that I don't dare to kill you?"

Han Fei grinned coldly. "Then have a try."

The Master of Time snorted. "As you wish."

Buzz!

Around Han Fei, time was flowing backward, and billions of layers of distance seemed to be crushing him from different times. Han Fei knew that this was the Time Splitting Technique, one of the Six Divine Techniques of Time, but he couldn't shake it, nor could he beat the Master of Time.

Crack~

Crack~

In the next moment, Han Fei felt that the bones in his body were broken, and his body was full of cracks. Even the law of life couldn't make up for this injury.

"Blood Sky Blade."

Han Fei roared and the Blood Sky Blade returned, supporting him so that he wouldn't fall. Even if his body was shattered, Han Fei couldn't kneel in front of the Master of Time.

Ka ka ka ~

Every part of Han Fei's body exploded, and his flesh and blood filled this place. In the blink of an eye, he looked even more miserable than Ximen Linglan. Even the Dao Patterns on his Dao Bones were disintegrating.

Ximen Linglan couldn't care less. She dragged the time chain and shouted, "Master Dominator, please let him go. Everything happened because of me. It has nothing to do with him..."

Seeing that the Master of Time was ignoring Ximen Linglan and Han Fei's body was still shattering, Ximen Linglan immediately shouted, "Master Dominator, Linglan is willing to exchange a life for a life. Please let her go."

Ximen Linglan knew what she had and what the Time Temple saw in her. She was suppressed and couldn't use her own power, but she still had the power of that void.

She knew that this void power couldn't stop the Time Master, but she could kill herself with it. If she killed herself with the void, even the Master of Time might not be able to revive her. Therefore, if she was really so important, the Master of Time shouldn't be indifferent.

However, just as Ximen Linglan activated the power of the void, her body seemed to freeze, and the power of the void fell silent into her body again.

The Time Master said majestically, "How can I let you mess around in front of me?"

Ximen Linglan couldn't move at all, and tears flowed from the corners of her eyes. "Master Dominator, as long as you let him go, I can become a god and enter the Chaotic Era. Isn't this what our Time Temple has been pursuing?"

The Time Master shook her head slightly. "If the knot in your heart is not broken, you can't become a god. Even if you become a god, you won't be able to surpass the shackles of a god. It makes no difference whether you go or not."

Ximen Linglan was begging, which made Han Fei even angrier. Of course, he knew that Ximen Linglan was compromising for him. Therefore, when Ximen Linglan said that she had nothing to do with him just now, she was just angry.

Han Fei shouted, "Linglan, don't beg him. He doesn't dare to kill me. As long as the ominous doesn't disappear, the Time Temple will have to be destroyed. If he really doesn't care, the Time Temple's defense for billions of years will be meaningless. Time, if you have the guts, put down your pride. Let's fight one-on-one in the same realm. I bet you won't be a match for me."

The Time Master looked at Han Fei indifferently. "Do you really think you have the power to defeat the ominous? You don't even know the path behind the Supreme Divine Technique. How can you?"

"Hahaha! The Demon Purification Pot is in my hands, the Path of Reincarnation is on me, and I'm born with dual spiritual heritages. You have no choice..."

"Hmph!"

The Master of Time waved his hand gently, and the suppressing pressure around Han Fei disappeared. Time intertwined around Han Fei. His mangled body returned to normal in the blink of an eye. The power of the Time Immortal Technique was even better than the law of life in the Time River.

However, the Master of Time didn't let Han Fei go. He waved his hand and eighteen Soul Devouring Awls shot into Han Fei's body.

"Roar!"

In an instant, Han Fei felt that his soul seemed to be collapsing, his body seemed to be disintegrating, his strength was almost completely sealed, and his body and soul were enduring the most indescribable pain in history.

In front of Han Fei, a path constructed by the law of time appeared.

The Master of Time said in a dignified voice, "It's not my responsibility to enter the Chaotic Era, but your responsibility. It's up to you whether you go or not. However, only by unforgettably experiencing how hard to obtain it will you know how precious it is. If you can cross this thousand-kilometer distance with a mortal body, I'll pardon Ximen Linglan. If you can't, it's your own fate. You can't blame others."

After that, the Master of Time looked at Ximen Linglan. "That void can't shake my power yet. Let him walk this path on his own. If he can't even pass this path, it proves that he is not someone I should choose."

Swish ~

With that, the figure of the Time Master faded away.
