Chapter 3491: Chaotic Era (1)

As Han Fei expected, the Master of Time had no intention of killing him, but Han Fei didn't expect to be nailed down by these eighteen Soul Devouring Awls.

As for Ximen Linglan, her body was frozen by the law of time. It seemed that the Master of Time temporarily froze her to prevent her from doing anything out of line.

On this point, Han Fei felt that there was no problem with the Master of Time. If Ximen Linglan died, it would definitely become Han Fei's greatest knot.

"Roar!"

Han Fei roared in pain, "Don't... do... stupid things... Wait for me..."

At this moment, Ximen Linglan was already in tears. Although she was frozen at this moment, she could still speak. She shouted in a low voice, "Use the void mark. Don't try to come over."

"Humph..."

Blue veins bulged all over Han Fei's body as he tried to prop himself up. "What he said... is right... Only by unforgettably experiencing... how hard to obtain it ... can I know... how precious it is... Roar!"

Han Fei tried to take a step forward, only to fall.

"Ahhh~"

"Idiot, I told you to use the void mark. I order you to use the void mark."

However, Han Fei raised his head with difficulty and smiled at Ximen Linglan.

"Roar!"

Han Fei roared, "Even the world can't suppress me... How can a mere road stop me?"

Han Fei staggered, trembled, and got up again. This time, Han Fei walked seven or eight steps in a row before he fell to the ground.

"Idiot, moron, fool... Since you're here to save me, listen to me."

However, Han Fei still just smiled at her, got up, and continued forward.

"Idiot Wang Han, don't you even listen to me? If you want me to forgive you, do as I say."

"Idiot, I beg you."

"Don't go anymore."

"Han Fei, if you don't listen to me, even if you crawl to me, I won't forgive you again. Never."

From the order at the beginning, to begging, to the final determination, Ximen Linglan had no choice, and Han Fei had already fallen to the ground countless times.

"Hahaha..."

Han Fei's voice was hoarse, but he laughed. "Linglan... I let you down for 100,000 years... From now on, I'll use my entire life to repay you... Don't be hasty. Between you and me... there's less than a thousand kilometers left. I should... enjoy this moment."

"B*stard, b*stard, b*stard..."

Han Fei was so stubborn that Ximen Linglan wanted to stomp her feet, but she couldn't move at all. She could only watch Han Fei do whatever he wanted.

One day.

Two days.

Seven days.

Half a month.

On the 27th day, Han Fei finally arrived, but many parts of his body had decayed.

Originally, although this road was only thousands of kilometers long and could be covered in eight days normally, Han Fei had already staggered for twenty-seven days.

At this moment, he was only a hundred meters away from Ximen Linglan.

For some reason, Ximen Linglan's tears couldn't stop flowing. She was sobbing uncontrollably and no longer cared about her image. Both she and Han Fei had already lost their image.

Han Fei gritted his teeth and walked forward step by step, leaving his blood as a mark along the way.

Finally, when Han Fei stood in front of Ximen Linglan, the Soul Devouring Awls on his body gradually turned incorporeal and finally turned into the law of time, dissipating on the spot.

Time Temple.

In the Time Temple, the Master of Time sat on the throne and sighed slightly. "In the end, I can't activate his Supreme Divine Technique. This path is difficult!"

As for Ximen Linglan's master, the beautiful woman also heaved a long sigh. "Perhaps the subsequent path of the Supreme Divine Technique has nothing to do with potential. After all, this divine technique is too ancient. In the long river of history, perhaps only the first-generation creatures of the Chaotic Era can understand its true meaning."

"Um!"

...

River of Eternal Darkness.

Half a meter in front of Han Fei, Ximen Linglan, the seventh Temple Master of the Time Temple and a peak-level Great Monarch, was crying like rain.

Han Fei had completely forgotten his injuries. A gentle smile appeared on his face, and he said gently in a low voice, "You used to ask me to wander with me! And I did. Now, come home with me!"

"Boohoo ~"

Ximen Linglan burst into tears. At this moment, she could no longer be determined, could no longer hide the feelings in her heart, and began to cry like a child.

Han Fei waved his hand, and the law of life erupted, and healing divine brilliance swept out. His and Ximen Linglan's rotten bodies recovered at a visible speed. Only his rotten battle suit was withering.

Han Fei gently pulled Ximen Linglan into his arms. His Original Great Dao was operating, and his strength had been raised to the level of Sea Quelling God.

In his palm, the law of time gathered, and the six Soul Devouring Awls in Ximen Linglan's body were gradually disassembled by the law of time.

Bam! Bam! Bam! Bam!

The five Time Sealing Sky Locks that locked Ximen Linglan also broke at this moment.

"Sorry to keep you... waiting."

Ximen Linglan, who had regained her freedom, immediately hugged Han Fei tightly. This long-lost temperature almost made him lost.

"Ahhh~"

Ximen Linglan opened her mouth and bit Han Fei's shoulder. However, Han Fei didn't react at all.

"Idiot, Wang Han..."

When Ximen Linglan came back to her senses, she found that Han Fei had already fallen into a deep sleep, having completely forgotten the pain of the Eternal Darkness Tide.

[God of Fishing](#)

Chapter 3492: Chaotic Era (2)

Ximen Linglan immediately loosened her mouth, helped Han Fei sit down, and let him sleep in her arms. At this moment, she didn't make a sound but looked down at Han Fei with complicated emotions in her eyes, and the corners of her mouth subconsciously curled up slightly.

As she watched, tears appeared in her eyes again.

"Why are you crying again?"

Han Fei's eyes were still closed, but he gently raised his hand and wiped the corner of Ximen Linglan's eyes.

"You didn't sleep?"

Ximen Linglan pretended to get up, but she suddenly found that Han Fei had become extremely heavy. She couldn't get up. Han Fei opened his eyes and chuckled. "I don't know when it started, but I don't even feel tired anymore. However, I know that you must be very tired."

Ximen Linglan took Han Fei's hand away, and her face turned cold. "I'm not tired."

Han Fei knew that women had to be pacified.

Han Fei reached out to touch Ximen Linglan's cheek, and the latter leaned back slightly and deliberately avoided it.

Han Fei couldn't help but smile. He waved his hand, and a time tide surrounded the two of them, forming a time cocoon. The Time Divine Chains intertwined in all directions, sealing this place.

"Linglan?"

Ximen Linglan turned her head away.

Han Fei put away the smile on his face, straightened up slightly, and looked at Ximen Linglan. "Linglan, from now on, as long as you want, I will never leave you alone, never again."

Ximen Linglan's eyelids twitched slightly, and her heart began to beat quickly, but she still said stubbornly, "I don't want."

"You don't?"

Han Fei suddenly turned over and pressed Ximen Linglan under him. The two couldn't help but look at each other.

Han Fei said, "If you don't want to, I'll snatch you back and make you my wife."

Ximen Linglan looked straight at Han Fei. "If I'm your wife, how about Xia Xiaochan? I'm afraid Xia Xiaochan will have a problem with me... Oh, although I'm suppressed here, I'm not ignorant of the outside world. I heard that you gave birth to an extremely talented daughter, Han Chanyi, right?"

Han Fei: "..."

Han Fei looked a little embarrassed, but then he said shamelessly, "I don't care. I can't go against my deepest desire. Both you and Xia Xiaochan are the most important women in my life. You know, I carry the hope of too many people. They hope that I can fight my way out and fight alongside them to repel the ominous. In fact... I don't care at all. What does the rise and fall of all races have to do with me? However, I'm willing to fight to the end of the Sea of Stars for you. Even if the Sea of Stars is destined to be destroyed, I'll take you to fight for a chance of survival in this destruction."

"Humph ~"

Ximen Linglan turned her head away. Since the human race appeared in the Sea Realm, she had already known about Han Fei's past. She knew everything Han Fei did in the Raging Sea, even in the Yin-Yang World.

Strictly speaking, she was the one who entered Han Fei's life later. Although she hoped that Han Fei belonged to her alone, she knew that she couldn't be so selfish. After all, she had already known Xia Xiaochan's existence when they were in the Grand Myriad Mountains.

Suddenly, Ximen Linglan felt that something was wrong. The rotten but not completely rotten battle suit on her body was decaying at an extremely fast speed. In the blink of an eye, nearly half of it had dissipated. Not only was her battle suit rapidly decaying, but Han Fei's own battle suit was also decaying.

Ximen Linglan felt Han Fei's fingers brushing past her palm, her wrist, and her fair and tender arm, brushing past her shoulder.

Plop, Plop ~

Ximen Linglan couldn't help but tense up. Although they ate and slept together when they were young, They didn't take the last step.

At this moment, the touch of their skin seemed to ignite the feelings that had transcended 100,000 years. In the blue intertwined time law, their lips and teeth touched, as natural as ripples in the ocean, as gentle as water and milk blending.

The long Time River separated the two of them. But at this moment, it witnessed them sleeping and making out together...

...

One day later.

The faint blue time cocoon finally slowly dissipated. Han Fei hugged Ximen Linglan and leaned against the white bone tombstone, enjoying the temporary warmth.

Crack~

However, at that moment, in the River of Eternal Darkness, boundless tribulation clouds gathered. With the white bone tombstone as the center, they radiated out for millions of kilometers and suddenly became transparent. As if affected by the rules of the tribulation clouds, they became visible.

Ximen Linglan looked up at the heavenly tribulation and smiled as if she was confident.

She said, "Shall I transcend the tribulation first?"

However, Han Fei didn't let go. Millions of refined stars and hundreds of Spirits of Plants and Trees appeared in front of the two of them.

Ximen Linglan was stunned at first, then a smile appeared on her face. "I have resources."

Han Fei: "Keep them then."

Ximen Linglan laughed. "Are these Spirits of Plants and Trees? One is enough. How can I use 100?"

Han Fei said, "If I say you can use it, you can. My wife has the potential to become a dominator. These resources are not even enough for you."

Then, Han Fei shook his wrist and the Blade of Hope appeared.

God of Fishing

Chapter 3493: Chaotic Era (3)

Han Fei said leisurely, "Hope is indelible."

A trace of mist flashed in Ximen Linglan's eyes. She turned her head and kissed Han Fei's cheek like a dragonfly pecking water. In the next moment, Ximen Linglan stepped on the air and stepped up. In an instant, her gentleness was gone, and her valiant bearing appeared. She curled the corners of her mouth into a smile. This was Ximen Linglan's true appearance. It was as if the captain of the Avenger Pirates was standing on the deck, facing the fierce wind, slashing forward bravely.

Han Fei didn't get up. Instead, with a thought, he moved horizontally with the white bone tombstone under him. A wine calabash appeared in his hand at some point in time, and green wine poured out of the wine calabash.

"Gulp~ Ah~"

"As expected of the best wine in the world!"

Rumble!

Rumble!

After a while, the divine tribulation rumbled down. The power of the Spirit of Plants and Trees roared like a tide and entered Ximen Linglan's body. A million refined stars contained endless energy.

When Ximen Linglan passed eight divine tribulations in a row, thousands of level-seven energy crystals and hundreds of level-eight energy crystals appeared beside Han Fei and were projected into Ximen Linglan's divine tribulation.

Ximen Linglan glanced at Han Fei sideways with a smile on her lips. She turned around and flew up to the sky. The Blade of Hope bloomed with brilliance, slashing out a law of hope unique to Ximen Linglan.

Crack~

The power of the divine tribulation was overwhelming, but it couldn't resist that faint brilliance. Ximen Linglan was fearless. Han Fei's return gave her the courage to fight this world. Even if there were difficulties and dangers in front of her, she wasn't afraid.

Buzz!

The faint law of hope gathered crazily, suddenly illuminating the entire area enveloped by the divine tribulation.

At that moment, Han Fei could clearly see that a divine persona was broken.

This meant that at this moment, Ximen Linglan was already between a god and a god-slayer.

In the next moment, Han Fei saw the sky collapsing. This was completely different from Senior Brother Azure Dragon's God Slaying Tribulation. What Ximen Linglan faced was the collapse of the world and the withering of all things.

Even Han Fei subconsciously sat up straight.

Ximen Linglan shouted, "My heart already belongs to someone. Even if the world collapses, what's there to be afraid of? Kill."

As the law of hope split the sky, the sky collapsing scene instantly disappeared.

Han Fei smiled. God Slaying Level.

Everyone had their own persistence. When this persistence was so strong that even gods couldn't tempt it, it was the god slaying level.

However, Ximen Linglan clearly didn't stop. With bangs, the energy crystals around her shattered one after another. The massive amount of power of the Divine Source was swallowed by Ximen Linglan in the blink of an eye.

The hundred Spirits of Plants and Trees all turned incorporeal and were also absorbed by Ximen Linglan.

Ximen Linglan ascended to the sky. Just as the God Slaying Tribulation ended, she stepped into it.

Unfortunately, Han Fei couldn't see this scene. However, this scene was very similar to the scene when Senior Brother Azure Dragon entered the Divine Sea. Senior Brother Azure Dragon swallowed the tribulation clouds and didn't let them leave. He didn't know what Ximen Linglan's tribulation was.

After about half an hour, the surging heavenly tribulation suddenly began to dissipate, and the Eternal Dark Tide came again. Han Fei's perception range began to shrink in order.

At that moment, Ximen Linglan appeared in his vision, but there were still tears on her face, and she looked a little tired.

The moment she saw Han Fei, she plunged into Han Fei's arms.

"I knew you wouldn't leave me."

Hearing this, although Han Fei didn't know what Ximen Linglan's Sea Quelling God Tribulation was, it couldn't be easy.

He said softly, "Of course I won't leave. Even if you drive me away, I won't leave you alone."

After a while, Ximen Linglan finally calmed down, and Han Fei asked, "What did you encounter in your last tribulation?"

Ximen Linglan still held Han Fei's arm tightly and then cast an aggrieved look at Han Fei. "You."

"Me?"

Han Fei was stunned. I can even become a Sea Quelling God Tribulation?

Han Fei asked, "What did I do?"

Ximen Linglan pursed her lips and didn't speak. Instead, she changed the topic. "The Sea Quelling God doesn't transcend a tribulation, but his heart. Remember this."

"Not transcend a tribulation, but his heart?"

Han Fei murmured, only to find that the surrounding time laws were intertwined again.

Han Fei was puzzled. "What's wrong? Is someone eavesdropping?"

However, a blush appeared on Ximen Linglan's face. "Yes."

...

Three days later.

The time cocoon dispersed, and Ximen Linglan held Han Fei's hand with a sweet expression, completely losing the valiant demeanor of the female War God.

Ximen Linglan said, "Although theoretically speaking, we can go against the current, no one can be sure if you can enter that era. Therefore, when the time comes, I'll enter that era first."

Han Fei shook his head. "If you want to enter, let's enter together. I said I wouldn't let you go alone."

Ximen Linglan said, "But what if you're not allowed to enter that era?"

Han Fei said, "Can that era kill me? I'm undead. The Great Dao laws of that era can't destroy me easily."

Ximen Linglan asked, "What if you really can't enter?"

Han Fei smiled. "Then let's go home. It's just a guess of the Time Temple that we can find the way to kill the ominous from the Chaotic Era. I don't believe that there's only one way in this world to kill the ominous."

[God of Fishing](#)

Chapter 3494: Chaotic Era (4)

Hearing Han Fei's words, Ximen Linglan couldn't help but put on a sweet and blissful smile. "Okay, if you can't enter, we'll go home."

...

Swish, Swish ~

The long Time River spanned billions of years. With the protection of the law of life, Han Fei and Ximen Linglan crossed it all the way.

At this moment, the two of them had already crossed to the Primordial Era. Through the Time River, Han Fei saw the boundless Primordial Land and the current Sea of Stars.

In that primordial world, all races were fighting for supremacy. In the Sea of Stars, there were peerless rocs swimming in the starry sky and fighting the Sea of Stars Giant Beasts. There were also strong masters competing for supremacy, shattering the starry sky and shaking the Star Core.

Every time they crossed an era, the efficiency of the reverse flow became harder. In front of them was an era of rapid change. Even if there were occasionally strong masters looking at the Time River, they disappeared in the blink of an eye in the eyes of Han Fei and Ximen Linglan.

The scene in their eyes was like a white horse passing through a gap. Endless images flashed in front of their eyes until they came to the time barrier of the Chaotic Era.

Ximen Linglan: "We're here."

Buzz!

Han Fei immediately activated his Original Great Dao and pushed his strength to the level of Sea Quelling God.

In the next moment, the two of them rushed into a time storm. The Time Sealing Sky Lock locked the two of them tightly to ensure that they wouldn't be separated.

In the storm, Han Fei activated the law of life with all his strength. Finally, after they crossed more than 300,000 years of time, the storm gradually subsided, and what Han Fei and Ximen Linglan saw was a desolate Sea Realm, a lonely Sea of Stars.

In this era, the Sea of Stars was filled with a massive number of purple nebulas.

"Primordial Mist."

Han Fei looked at the purple nebula and recognized that it was the Primordial Mist. He had just felt it not long ago.

In addition to the purple nebula, Han Fei and Ximen Linglan also saw some extremely ancient and powerful existences in the Sea of Stars. For example, there were ancient trees rooted in the vast starry sky, with stars hanging on their branches. There were giant beasts with huge bodies and mouths that swallowed stars. There were plants that enveloped billions of kilometers of the starry river. Han Fei even saw that the Sea of Stars was burning, the fire curtain was burning the sky, and a sword was floating in it. It was very magical.

"Is that the Primordial Star Tree? No, it's different."

Ximen Linglan said, "That sword seems to have appeared in history. It's called the Creation Fire God Sword. It's a Supreme Nature Treasure, but it was broken at the end of the Primordial Era. I don't know how it was broken, but it seems to be related to the pouring of the Chaotic Fire Domain."

Han Fei couldn't help but sigh. "As expected of the Chaotic Era. All kinds of divine treasures can be seen everywhere."

Ximen Linglan asked, "Since we're already here, when should we go in?"

The Vast Ocean Navigator appeared in Han Fei's hand, and Han Fei shouted, "Before the first ominous return."

Among the three ominous returns in history, only the first one was the weakest. The Emperor Sparrow once said that at that time, his father, who was the leader of the primordial strange beasts, could defeat the ominous.

In the Primordial Era, not to mention winning, even if the six ancient lineages joined forces, they wouldn't be a match. Therefore, if they wanted to explore a way to defeat the ominous, they had to wait until the first ominous battle broke out.

As the streams of light shuttled, with Han Fei and Ximen Linglan's current strength, it could be said that they had jumped for a thousand years. Finally, at a certain time node, the Vast Ocean Navigator suddenly moved.

Han Fei roared, "This is it!"

Swish ~

Ximen Linglan looked at Han Fei and grabbed Han Fei's arm tightly.

Han Fei grinned and said, "If you can't enter, go home and find another way."

Ximen Linglan nodded heavily. As she waved her hand, the Blade of Hope cut open the Time River and touched the Chaotic Era.

Buzz!

When the two of them stepped in through the gap in the Time River, Han Fei felt dizzy, as if something had been extracted from him.

Swish, Swish ~

In the next moment, when Han Fei came back to his senses, he heard Ximen Linglan's nervous cry, "Idiot, what's wrong? Is there something wrong?"

Han Fei covered his head with one hand and slowly opened his eyes. In front of him was a shattered Sea of Stars, which looked like the Shattered Star Sea.

Han Fei's eyes glittered. "I'm fine. Have we entered?"

Ximen Linglan also looked incredulous. "Yes, we're in. This is... the Chaotic Era."

Han Fei couldn't help but feel excited. This was a real ancient age!

He immediately wanted to take out the Vast Ocean Navigator to guide him. However, this time, Han Fei's expression became solemn.

Seeing this, Ximen Linglan couldn't help but ask, "What's wrong?"

Han Fei said solemnly, "The Vast Ocean Navigator has disappeared."

God of Fishing

Chapter 3495: The First Human Emperor (1)

"Disappeared?"

Ximen Linglan was stunned. "It was still there a moment ago. Besides, the Vast Ocean Navigator had long been refined by you and became one with you. How could it disappear?"

Han Fei shook his head. "I don't know. Besides, it's not just the Vast Ocean Navigator that disappeared."

"You mean..."

"The Demon Purification Pot is gone too."

"I can't feel the Path of Reincarnation anymore."

"The Concealing Divine Seal is gone too."

"The Creation Divine Prison is gone too."

Han Fei extended his hand and the Blood Sky Blade appeared in his hand. Han Fei was a little confused. The Supreme Nature Treasure was gone, but the Creation Blood Sky Blade was still there. What did it mean?

Ximen Linglan said, "These things are all with you. It's impossible for them to be gone. If you could still use them in the Time River just now, but you can't now, it can only mean that... this era is rejecting them."

Han Fei narrowed his eyes. "Or rather, it's not a repulsion, but that these things also exist in this era."

Han Fei couldn't help but think that the Vast Ocean Navigator came from the Chaotic Era. If there was a Vast Ocean Navigator in this era, there would obviously be a paradox if he took it out.

It could only be said that when two identical objects appeared, there would be conflicts. This world instinctively would only accept what was in the current era and not what Han Fei brought. And the Creation Blood Sky Blade could exist, probably because it didn't exist in this era at all. In other words, the Blood Sky Blade was forged by later generations. There was no other Blood Sky Blade here, so it could exist.

"Then what should we do now? I can't feel my Origin Star at all. All the resources inside seem to be isolated together."

Han Fei was not surprised. After all, this was not the same era as his era at all. This was the early stage of the appearance of all races.

"We can only take it one step at a time. We should find a native creature to understand the situation of the Chaotic Era first."

Rumble!

Suddenly, in the sky above the Sea of Stars, a Great Dao crack appeared and spread out for billions of kilometers.

Han Fei and Ximen Linglan were both shocked.

"A God Slaying-level powerhouse died?"

The two of them had just entered the Chaotic Era, but they immediately welcomed the death of a God Slaying-level powerhouse?

Han Fei and Ximen Linglan immediately scanned around with their perception, only to find a group of seven or eight people rushing through the Sea of Stars in their direction.

"Humans?"

Han Fei and Ximen Linglan looked at each other, both reading surprise in each other's eyes. This was definitely not a coincidence. In the vast Sea of Stars, as soon as they appeared, they encountered a human powerhouse.

Besides, the human powerhouses who were charging over didn't look weak at all. There were a total of eight people, including one Sea Quelling God-level powerhouse and seven God Slaying-level powerhouses. The ratio of these powerhouses was too high. They had only met some random people, but they were already so strong?

At the moment when Han Fei and Xia Xiaochan spread out their perceptions, the eight people who were running over seemed to notice something wrong and their perceptions swept towards them.

The eight people on the other side were also stunned, as if wondering why their compatriots appeared in this place.

Bang! Bang! Bang!

Before Han Fei and Ximen Linglan could meet the other party, they saw that in this broken piece of the Sea of Stars, a divine vine broke through the ruins and seemed to be chasing those people.

In his perception, a group of more than 30 top powerhouses were chasing the eight of them. These powerhouses were obviously from the ancient demon plant lineage, because a few of them even looked like trees or demonic flowers.

A pink sea of flowers blocked the eight of them.

In the sea of flowers, a pink flower bloomed. In the middle of the flower stood a woman with tentacles on her head and wearing a purple robe. The woman's face was cold. As she raised her hand, pink petals, like vortexes in the Sea of Stars or spinning blades, instantly spanned billions of kilometers. Wherever they passed, the broken stars in the ruins were all shattered by them.

There was also a Sea Quelling Divine Tree that controlled endless vines, which swept across the ruins like a tsunami.

There was also a girl who turned out to be the main force of the other party. She held a green leaf longbow and shot continuously in the sky. As the arrows left the bow, infinite laws between the heavens and earth quickly gathered on the arrows, turning into galloping giant beasts that ran wildly in the Sea of Stars, looking wild and extraordinary.

The human Sea Quelling God took out a golden bell and covered the other seven.

Han Fei's pupils were constricted. He had seen this bell before. In the battle of the Divine Descendants, there was a page in Old Han's God Sealing Heavenly Book that recorded the power of this golden bell. It was also this golden bell that protected the entire City of Divine Descendants.

However, Old Han's golden bell was just a power preserved by the God Sealing Heavenly Book, not the golden bell itself. He never expected to see the original body of this bell here.

"Roar!"

In the golden bell, the expressions of the seven God Slaying powerhouses changed drastically. "My emperor, let us out. We can still fight."

"Shut up. It's no longer your turn to attack here."

"Heavens, you b*stard, you set up an ambush here. But even so, do you think you can escape today?"

The woman holding the longbow shouted. Obviously, she had seen Han Fei and Ximen Linglan and thought that they were the strong masters of the human race lying in ambush here.

[God of Fishing](#)

Chapter 3496: The First Human Emperor (2)

As for the young man called Cangtian, he was also very dumbfounded, thinking to himself, When did I set up an ambush here? However, the other party was clearly humans, human powerhouses. He couldn't be wrong about this.

"Could it be people arranged by the Prophet?"

Cangtian shouted, "Don't just stand there. Come and help!"

Han Fei was speechless. Is this person's name Cangtian? Doesn't it mean Heavens?

Ximen Linglan's expression changed slightly. "Ancient demon plants. The other party has three Sea Quelling Gods."

Han Fei's face also sank slightly. He knew that there must be many strong masters in the Chaotic Era, but he didn't expect there to be so many. He had casually encountered so many Sea Quelling Gods. It was ridiculous.

At this moment, the fist light in the sky shattered the pink petals one after another. The power of the consecutive arrows surged and shook the world.

In addition, there were four divine swords floating beside him. All of them were extraordinary. They had left their master and cut off the vine tide alone, blocking the Sea Quelling Divine Tree.

This meant that these four swords had to be Supreme Nature Treasures.

Ximen Linglan looked at Han Fei. "Shall we help them?"

Han Fei roughly judged the strength of the two parties and said, "Yes! It shouldn't be a coincidence that we're here, and at this point, let's try to integrate into the ancient human race first."

As soon as Han Fei said so, Ximen Linglan took the lead to attack. Behind her, the time tide erupted, and the tide suddenly appeared in the sky above the battlefield like a waterfall, sweeping down overwhelmingly.

"Time Splitting, Raging Sea Tide."

Although Ximen Linglan had just entered the Sea Quelling God level, she couldn't be counted as an ordinary Sea Quelling God at all. That was a Sea Quelling God of the Time Temple. Coupled with the Six

Divine Techniques of Time, she might be lacking in head-on combat, but in terms of means, she had many. If she was given enough time, she might be able to compete with a dominator-level powerhouse.

Besides, Han Fei had already asked around. The Sea Quelling God that Ximen Linglan had become had at least 10 million points of source power. In terms of head-on combat, Han Fei was no match for Ximen Linglan.

Sure enough, as soon as Ximen Linglan took action, she directly blocked the attack of the ancient demon plant. The tidal-like vines, the petals in the field, and the arrows that looked like a beast tide were shattered by the time tide that entered the arena in the blink of an eye.

Buzz—

For a moment, the ancient demon plants all slowed down, and the woman in the flower shouted, "Be careful. It's a time-type powerhouse above god level. I'll stop her."

With that, purple flowers appeared in the Sea of Stars.

Swish! Swish! Swish!

As the flowers spun and bloomed, dense vortexes appeared, and the void shattered one after another. In the blink of an eye, black holes appeared one after another in the Sea of Stars billions of kilometers long.

Han Fei felt that the laws here had collapsed, so had the laws of time.

At this moment, the little girl holding a longbow bent her bow and shot angrily. Ten thousand arrows lined up and shot straight at Ximen Linglan.

Seeing this, how could Han Fei allow it?

He tapped his feet and instantly appeared on the battlefield. He shouted in a low voice, "Immortal Slaying."

The Blood Sky Blade flew out of his hand and instantly drew the laws of the world here. Activated by source power, it slashed out, and the ten thousand arrows along the way shattered.

Han Fei didn't stop. Instead, he extended his hand and pointed at the bow-holding girl. "Sword Five, Shattering."

Swish!

A sword light ignored the confinement of laws and instantly appeared not far in front of the girl.

The girl was shocked. She jumped back and spewed out a pale green arrow from the mouth.

Swish ~

Boom ~ Boom ~

This explosion annihilated the massive ruins here, and the area within tens of millions of kilometers almost turned into a vacuum. The collision ripples swept out billions of kilometers.

"Hahaha!"

"As expected of the powerhouses of our human race."

The group of God Slaying-level powerhouses trapped in the golden bell all looked overjoyed. They didn't expect the visitor to be so powerful.

Someone shouted, "It must be the reinforcements arranged by the Master Prophet. The Prophet is proficient in divination. He clearly calculated that we would be in trouble."

"That's right. This battle will be interesting."

"My emperor, let us out. It's time for us to fight back."

Cangtian didn't hesitate either. His body turned into the size of a star, and he struck out several times, shattering the heavens and laws. Every time he slapped down, the sky seemed to collapse, instantly flattening the chaotic power of the laws here, opening a way for those God Slaying-level powerhouses to go straight to the God Slaying-level powerhouses of the ancient demon plants.

Then, the golden bell was retracted, and on the human side, someone couldn't wait to take the lead to attack. Holding the Sky Opening Giant Axe, he charged at the more than 30 strong masters on the opposite side like a ferocious beast out of its cage.

The others didn't fall behind and roared. Someone slapped the opposite side with a strange spiritual treasure that looked like a pot lid. Someone opened his mouth and swallowed hundreds of Star Cores, his body ignited, and his blood and Qi soared to the sky. Eight arms grew out of his body and slashed at the billions of plants. Someone activated a secret technique and forcibly upgraded himself, summoning a star river. He actually used the star river as a knife and slashed at the opposite side like a lunatic.

Han Fei had seen battles between God Slaying-level powerhouses, but they were definitely not as crazy as these people. Was this even called a battle? This was called risking your life.

Chapter 3497: The First Human Emperor (3)

Of course, the ancient demon plants on the opposite side were not weak at all. The two groups of people rushed at each other and fought until the sky was dark. Even though their bodies were pierced and torn apart, they were still fighting as if their bodies were not broken at all.

The corners of Han Fei's mouth twitched. He felt like a modern person watching the savage battles of primitive people.

"Time cycle."

Suddenly, Han Fei found that the Immortal Slaying Slash and the Sword of Shattering he used just now appeared again. He couldn't help but look at Ximen Linglan. This was clearly deliberately done by Ximen Linglan, as if she wanted to temporarily protect the secret that he also knew the Great Dao of Time.

Han Fei understood and suddenly heard the human powerhouse shout, "Brother, help me block the other party's super powerhouse above the god level."

"Above god level?"

Just now, he heard the woman in the flower mention a powerhouse above the god level. She seemed to be referring to the Sea Quelling God.

Obviously, the realms that Han Fei and the others knew were those slowly adjusted and refined at the end of the Primordial Era. They were definitely different from the realms in the Chaotic Era.

At this moment, the bow-holding girl was temporarily trapped in the time cycle by Ximen Linglan, and Ximen Linglan was dealing with the Sea Quelling God in the pink flower alone.

Cangtian didn't hesitate and left the Sea Quelling Divine Tree to Han Fei.

Of course, Han Fei knew what he was thinking. The other party had too many God Slaying-level powerhouses. Although the human powerhouses were brave, they were all injured in the face of more than 30 God Slaying-level ancient demon plants. It was too difficult to kill the other party's God Slaying-level powerhouses, but the seven of them were surrounded by enemies on all sides. If they were not careful, they might die.

Therefore, Cangtian must be going to kill some god-slaying-level ancient demon plants first.

"Cangtian, how dare you?"

Cangtian grinned coldly. "Why wouldn't I dare? We just took a few fruits from you. Is this worth your chasing us all the way here?"

Swish! Swish! Swish!

As he spoke, the Sea Quelling Divine Tree had already taken action. If Cangtian succeeded, they would definitely suffer heavy losses.

The Sea Quelling Divine Tree was also a little excited. Billions of green leaves cut through the void and swept at Han Fei, trying to temporarily stop Han Fei so that he could turn to stop Cangtian.

However, Han Fei certainly couldn't let it go. With a bang, Han Fei turned into tens of thousands of lightning marks, ignoring the green leaves, each of which was almost comparable to a blow from a god.

Han Fei roared, source power surged, and the Silencing Fist swept across the sky, crushing infinite green leaves along the way, heading straight for the Sea Quelling Divine Tree.

Seeing this, a thick branch that could hang stars swept over.

Rumble!

With a bang, Han Fei was sent flying, but at that moment, he also used the Draw Technique to cut off the other party's branch.

Han Fei thought to himself, After all, I'm not a real Sea Quelling God. If such a violent battle lasts for more than an hour, I'm afraid I won't be able to hold on.

Besides, eight million combat power was still a little lacking in the face of these abnormal powerhouses from the Chaotic Era. Although this Sea Quelling Divine Tree didn't seem to be much stronger, the other party's strength was definitely more than eight million.

Bang! Bang! Bang!

Fortunately, at this moment, Cangtian had already killed three God Slaying powerhouses in a row.

Then, Cangtian couldn't help but glance at Han Fei in surprise. This guy took that blow with his body? Wasn't he comparable to him in strength?

The ancient demon plant also realized that Han Fei and Ximen Linglan were quite strong. Therefore, the woman in the pink flower decisively shouted, "Retreat."

They didn't know that Han Fei used secret methods to improve his strength, and the law of time was too strange. It would be too troublesome to fight against it. If they continued to fight, they would suffer a loss even if they had more people.

Therefore, she immediately realized something and chose to retreat.

The moment she proposed to retreat, she attacked together with the Sea Quelling Divine Tree, crushing this world and the Time Cycle Technique with laws, and releasing the bow-holding girl.

Han Fei and Ximen Linglan were both surprised. These people clearly didn't know the law of time, but they immediately found a way to crack it.

After all, the law of time was also one of the laws of the world. As long as it was completely disrupted with the power of this world, the law of time would be broken.

Of course, this method was only suitable for fighting someone in the same realm. If a powerhouse at the level of the Master of Time was here, he would be the world. The other party wouldn't be able to break his power no matter what.

At the same time, pink petals formed a law barrier, blocking the punch from Cangtian. Although the law barrier was broken, the God Slaying-level powerhouses of the ancient demon plants were not stupid. They reacted quickly and retreated.

Seeing that the other party had stopped, Han Fei and Ximen Linglan naturally wouldn't attack again. It was already enough to help Cangtian. They had just come to the Chaotic Era, so it was meaningless for them to start a long-lasting battle.

Cangtian laughed. "Fight! Why don't you fight anymore?"

Seeing the strong masters of the ancient demon plant retreat one after another, Cangtian had no intention of chasing them. He extended his hand and the four long swords disappeared into his body in the blink of an eye.

The seriously injured God Slaying-level powerhouses of the human race immediately rushed over. Among them, there was a burly man with a broken arm. He reached out and directly ripped off this arm.

Then, one of the women triggered divine brilliance that illuminated everyone. The injuries of the seven people recovered by more than half in the blink of an eye.

God of Fishing

Chapter 3498: The First Human Emperor (4)

"The law of life? But incomplete."

But even so, Han Fei couldn't help being surprised. These people were ridiculously strong. In later generations, there were almost no people who understood the law of life, but as soon as he came to the Chaotic Era, he found that someone had mastered such a law.

Cangtian's burly body dissipated and returned to its normal size. With a magnificent aura, he looked at Han Fei and Ximen Linglan with judgment.

"How should I address you?"

From the words of the heavens, Han Fei could feel that this was a very domineering person. Even if he and Ximen Linglan helped him survive a great tribulation, the other party's first words were not gratitude, but judgment and suspicion.

As the Human Emperor, Han Fei hadn't abdicated yet, so he was also used to being domineering.

He raised his head slightly. "My name is Wang Han. This is my wife, Ximen Linglan."

"Oh?"

Cangtian couldn't help but look at Ximen Linglan. "Your wife's Dao is unique. To be able to walk the Great Dao of Time to this point, she is really extraordinary."

Ximen Linglan nodded slightly, her tone neither servile nor overbearing. It seemed that she didn't like the attitude of the heavens, but she didn't want to embarrass the other party, so she stiffly replied, "You flatter me."

Pa!

Cangtian cupped his fists. "Thank you for today."

Behind him, the seven God Slaying-level powerhouses also cupped their fists. "Thank you."

However, at this moment, the seven of them were more vigilant. Clearly, they had discovered something wrong.

Han Fei smiled. "You're welcome. We're all human beings. I shouldn't just sit idle."

However, Cangtian looked at Han Fei deeply. "You don't know me?"

Han Fei shook his head. "No, who are you?"

Behind Cangtian, the woman who had mastered the law of life said, "This is our emperor, the emperor of the human race. As humans, you two don't know the Human Emperor?"

"Human Emperor?"

Ximen Linglan couldn't help but look at Han Fei, and Han Fei was a little speechless. What the hell is going on?

He had encountered the first Human Emperor just like that?

Han Fei was sure that this was definitely the first Human Emperor. This was because the strength of this Human Emperor was only at the Sea Quelling God level now. Besides, the six ancient lineages had clearly not been unified yet.

Han Fei's face remained unchanged as he looked at Cangtian. "I don't know him."

Cangtian grinned. "Interesting. Brother Wang, where are you from? Do you have any clansmen?"

Han Fei shook his head. "No."

Han Fei didn't know the composition of the human race in the Chaotic Era. Since the human race was one of the six ancient lineages, they should have come from the divine vine. However, how the human race developed to this point was almost unknown to future generations. This secret had long disappeared in the long river of history.

Therefore, Han Fei's answer was simple.

Cangtian could ask him, and he could choose not to answer.

Also as Human Emperors, Han Fei felt that if Cangtian was Human Emperors, he would definitely have the magnanimity of Human Emperors.

"Hahaha!"

Sure enough, Cangtian laughed but looked straight at Han Fei. "Wang Han, you are the first human to be so calm and domineering in front of me."

Han Fei shrugged and still looked at Cangtian. "You probably came out earlier than me. Otherwise, it's hard to say who will be the Human Emperor."

"How dare you?"

The seven God Slaying-level powerhouses behind Cangtian were grateful to Han Fei a moment ago, but now they were only angry.

Ximen Linglan's gaze swept across them, and her divine might vaguely appeared, making their hearts palpitate. However, this group of people was obviously not ordinary. They didn't have much respect for a Sea Quelling God, so the scene was a little tense.

Cangtian smiled and said, "For some reason, I'm not surprised to hear that from you. Since you think you can do it, why don't we fight?"

"Okay!"

This was an indescribable feeling. When Han Fei and Cangtian stood opposite each other, both of them had a subtle feeling in their hearts. That feeling was a threat, a very strong threat.

Ximen Linglan couldn't help but look at Han Fei. Han Fei was using a secret method. If he kept fighting with the power of a Sea Quelling God, he wouldn't be able to last long.

Han Fei looked at Ximen Linglan with a smile. "It's okay. I'm just testing my hand."

Chapter 3499: Battle of the Two Emperors (1)

With the combat power of the Sea Quelling God, there might be times when he was no match for Han Fei, but this didn't mean that he couldn't fight.

Before, when Han Fei's combat power was only more than five million, it was indeed not enough. But now, his combat power had reached eight million and he could be considered an ordinary Sea Quelling God. At this time, in addition to basic combat power, it also depended on comprehensive strength.

Just like the three strong masters of the ancient demon plant just now, Han Fei had only fought the Sea Quelling Divine Tree once, but he knew that the other party's combat power was definitely more than ten million. However, when Ximen Linglan used the Six Divine Techniques of Time, she could also break the joint attack of the three Sea Quelling Gods. Of course, this was not because Ximen Linglan was stronger, but because of the use of laws and divine techniques.

Of course, if the gap in combat power was too great, no matter how many laws and means he had, it would be very difficult for him to fight. If he encountered someone like Fifth Senior Brother, he might not be able to withstand two slaps.

Han Fei had seen what Cangtian just did. It wasn't very strong. Otherwise, it wouldn't have been chased by the three strong masters of the ancient demon plant.

At this moment, the two of them looked at each other and instantly moved billions of kilometers away.

Neither of them had any pleasantries. Cangtian didn't use a Supreme Nature Treasure, but punched Han Fei head-on like rain.

Han Fei's eyelids twitched. Hand-to-hand combat? It seemed that the heavens were very confident in his physique. Han Fei also wanted to see how big the physique gap between him and a Sea Quelling God-level powerhouse was.

Immediately, Han Fei also punched out with a dazzling fist light.

Bang! Bang! Bang!

Boom, Boom, Boom ~

Not far away, Ximen Linglan was a little worried. She was afraid that the two of them would fight too fiercely.

As for the God Slaying level powerhouses of the human race, they looked relaxed.

Someone smiled and said, "This person wants to fight our emperor head-on? Unfortunately, he doesn't know our emperor's physique at all."

Someone clicked his tongue and shook his head. "I bet he will retreat in three seconds."

Someone chuckled. "In terms of head-on battles, our emperor has never lost."

Someone said disdainfully, "I admit that this person is strong, but he's still far from competing with our emperor."

"Hmph!"

Ximen Linglan snorted coldly. When they heard this, they just looked sideways and didn't take it seriously at all.

On the battlefield.

Han Fei and Cangtian couldn't help but look surprised when their fists collided.

What surprised Han Fei was that the physique of this Heavenly Monarch was weaker than he had imagined. Although his strength was strong, it was definitely not more than ten million.

However, he discovered that Cangtian's fist light carried an extremely domineering destructive power, mixed with the powerful power of space, the power of fire origin, and the continuous concept of waves. As soon as he attacked, the fist light poured out like a river tide. Perhaps he couldn't feel anything in the initial clash, but once he exchanged a thousand punches, he would find that he had fallen into the other party's continuous attacks.

But even so, Han Fei felt that the first Human Emperor was still weak.

This kind of weakness was not because his combat power was weak, but because he was weaker than he had expected. After all, the first Human Emperor was an existence who swept across the six lineages and dominated all races. But if he couldn't crush him, how could he rule all races?

What surprised Cangtian was that this person's physique was extraordinary. Furthermore, the other party's fist light revealed a strong killing intent. That power was trying to enter his body and destroy the operation of his origin power.

More importantly, he also felt extreme dominance from Han Fei. It was a temperament that could only be obtained from endless killing. This meant that this person had definitely experienced countless battles.

However, in this chaos, if there was such a strong master, he should have known!

Boom! Boom! Boom!

Bam! Bam! Bam!

Three seconds passed in a flash. The Sea of Stars where the two of them were fighting had long collapsed. Ripples spread out continuously, each representing a head-on clash between the two of them.

At this moment, the few God Slaying-level powerhouses of the human race couldn't help but look solemn.

Five seconds.

Ten seconds.

The two sides finally retreated temporarily, and the void storm in the Sea of Stars where they wreaked havoc. The energy tide poured down endlessly, and the laws of the heavens were in chaos.

Cangtian laughed. "Interesting. Let's fight again."

"Roar!"

The sky turned into a giant comparable to a star, and his Qi and blood dyed the Sea of Stars red.

As for Han Fei, he also roared and his Dharma Idol rose from the ground, turning into a dazzling golden body that was 330,000 feet tall. However, it was still too small compared to a star.

However, at the level of the Sea Quelling God, the size of his Dharma Idol was no longer a limit. 330,000 feet was just the length most suitable for fighting, but it didn't mean that it couldn't become bigger.

Faced with the first Human Emperor, Han Fei didn't want his momentum to be overshadowed by the other party. His Dharma Idol world expanded crazily again, and in the blink of an eye, it changed to the size of a star.

Two Star Giants were fighting in the Sea of Stars.

On Han Fei's side, thunder rumbled, and on Cangtian's side, angry palms pushed forward, and stars surrounded him.

After a hundred seconds of fierce fighting, the two giants dissipated, and sword light and knife intent wreaked havoc on the field. Han Fei used the Draw Technique, Ten Thousand Knives in One, Carefree Roaming, and the Sword of Breaking.

Cangtian didn't use his Supreme Nature Treasure, the four swords. Instead, He condensed swords with his fingertips and at their craziest moment, he even turned the billions of kilometers of starry sky into a sword shape.

This round was another tie.

Chapter 3500: Battle of the Two Monarchs (2)

At this moment, the human God Slaying-level powerhouses no longer commented, and their expressions became abnormally solemn.

Cangtian stopped and looked at Han Fei proudly. "Not bad. How much combat power did you use?"

Han Fei asked, "How much did you use?"

Cangtian was not afraid of revealing any secrets. He laughed heartily and said, "Only 50%. Unfortunately, you don't have a top weapon. If I use all my strength, it will be an unfair victory."

Han Fei also chuckled. "Same to you. I still have some trump cards that I haven't used. Otherwise, I'm afraid you won't be able to withstand it."

"Heh! How arrogant. How about this? Let's decide the winner in one move."

"Okay."

Cangtian suddenly trembled, so did this piece of Sea of Stars. As he opened his mouth and took a deep breath, he swallowed the sky.

Bang!

In the next moment, golden light dazzled on Cangtian, and a power that Han Fei was extremely familiar with bloomed.

"The path of invincibility?"

Han Fei's pupils were constricted slightly. Could it be that the threat he felt didn't come from Cangtian's identity as the Human Emperor, but from his path of invincibility?

It was said that only one person could walk the path of invincibility. The others who walked the path of invincibility were all enemies.

However, Han Fei didn't know about it before. Now that Cangtian's path of invincibility had been activated, Han Fei had to fight. This was no longer a spar, but a competition on the path of invincibility.

The God Slaying-level powerhouses of the human race all shouted.

"Our emperor is invincible."

"Since the path of invincibility has appeared, our emperor is invincible."

"Our emperor is awesome."

Buzz!

However, before they could rejoice, they saw that Han Fei's body was shining with golden light, his blood was steaming, and dragon roars were echoing in his bloodline.

The human powerhouses were all shocked.

"What?"

"How is it possible? How did he embark on the path of invincibility?"

"Ridiculous! My emperor, defeat him!"

"Only our emperor is invincible in the world."

Seeing this, the corners of Ximen Linglan's mouth curled up slightly. From a young age, she had already been certain that Han Fei was her king. In the history of the human race she knew, Han Fei had never been defeated.

At this moment, Cangtian was also shocked. The feeling in his heart was right. This person was very strong, ridiculously strong. But if this person was so strong and had even become a Sea Quelling God, it was impossible for him to only have so little combat power!

However, Cangtian couldn't care less. He punched out, and the brilliant heavenly might seemed to be added to his body.

Han Fei also looked solemn. It was not that he couldn't be defeated, but as the Human Emperor, he wouldn't lose without a fight. He had an undefeated heart.

Although Cangtian's combat power was stronger than his, and this punch was indeed extremely powerful, making him feel afraid that he would be defeated, how could he be willing to give up without a battle?

"Destruction Divine Fist."

"Time Splitting."

It hadn't been long since Han Fei had mastered the Six Divine Techniques of Time, and he could only unleash three-layer attacks when he activated the Time Splitting Technique. It was equivalent to launching three Destruction Divine Fists.

At this moment, he couldn't care less about hiding the Great Dao of Time and really attacked with all his strength.

Bang!

Rumble!

Billions of voids collapsed, and rays of light burst out on the battlefield. The sky was full of brilliance, and the Dao Patterns of the heavens shattered. The void storm surged like a wave, submerging the two of them.

In the field, Han Fei and Cangtian were both cracked and dripping with blood. However, Han Fei was blasted back tens of millions of kilometers, while Cangtian only retreated a million kilometers.

"Huff~"

"Hahaha!"

Cangtian laughed. "Good, Wang Han, you're not bad."

The law of life surged in Han Fei's body. "You're not bad either, but let's end the fight here."

Buzz!

Before the power completely dissipated, Han Fei immediately returned to Ximen Linglan.

At the same time, Cangtian immediately returned to the God Slaying-level humans.

Buzz!

Their strengths were both declining at a visible speed.

"F*ck!"

Han Fei couldn't help cursing, and Cangtian opposite him was also shocked.

"A Great Monarch?"

"Are you a war general?"

Not only Han Fei and the sky, but even Ximen Linglan and the human cultivators were shocked.

Cangtian asked in surprise, "Do you cultivate the Supreme Technique?"

Han Fei narrowed his eyes. "You too?"

Han Fei couldn't help but feel incredulous. His experience was too similar to Cangtian's. They walked the same path of invincibility, cultivated the same Supreme Divine Technique, and walked the same path of the Human Emperor. They were exactly the same!

Cangtian looked at Han Fei up and down again. "Are you the successor of the First Supreme?"

"The First Supreme?"

Han Fei's heart stirred, and then he shook his head slightly. "I don't know the First Supreme you mentioned, but this Supreme Divine Technique was indeed taught to me by someone else."

Cangtian frowned. "Then he must be the First Supreme. Perhaps he didn't expose his true identity to you. This old thing actually found another successor. No wonder your path is so similar to mine. Forget it... Has that old man gone to that path now?"

"Which path?"

Han Fei said, "The person who taught me this technique didn't meet me but taught me this technique through an altar."

Although Han Fei didn't know who the so-called First Supreme Cangtian mentioned was, he was very likely related to the Supreme Divine Technique, or even the creator of the Supreme Divine Technique.

His Supreme Divine Technique came from the God of War, and the God of War had indeed never met him. It was indeed only taught through the altar. There was no problem with him saying that.

"No matter how he taught you, he must have taken a fancy to you. Since that old man has taken a fancy to you, it means that you have the bearing to be the Supreme. By the way, what is the Great Monarch you mentioned just now?"
