

[God of Fishing](#)

Chapter 3511: Teacher (1)

Han Fei and Ximen Linglan had stayed in the Prophet's residence for three years. The Prophet had already informed Cangtian and Qingming and asked them to strictly block any news about Han Fei.

At this moment, the Prophet summoned the two of them and set up a barrier with the Primordial Purple Qi, explaining their background and telling Cangtian about Han Fei's parasitizing.

Before Cangtian said anything, Qingming's expression changed drastically. "I don't agree. Master Prophet, Cangtian is the emperor of the human race. How can you let others take advantage of him?"

This time, Cangtian laughed. "It doesn't matter. I will separate a part of the space in the Soul Sea. This part of Junior Brother's soul can only watch the memories during the parasitic period. He can't observe my soul."

Han Fei couldn't help but exclaim. As expected of the first Human Emperor, his breadth of mind was worthy of praise.

Qingming said with a sullen face, "But this might affect your luck?"

Cangtian sneered. "I am the dragon of luck of the human race. If I don't even dare to resist this trivial risk, how can I break through the Supreme Dao?"

Han Fei smiled. "Senior Brother, you're not surprised at my real identity at all?"

The corners of Cangtian's mouth curled up into a confident smile. "Since the battle with me, when I offered you to be the king of the human race but you refused, I knew that you were not from this era. Otherwise, why would you have a super god-level powerhouse who walked the Great Dao of Time accompany you? I thought that I would have plenty of time to communicate with you in the future. I didn't expect you to stay in this era for so short a time. What a pity."

Han Fei cupped his hands. "Senior Brother, you're indeed righteous."

Cangtian sneered. "Same to you. You don't even take me seriously. By the way, do you know my way out?"

Han Fei smiled. "Aren't you afraid that this question will affect your state of mind?"

"Hahaha! This is nothing. If I can't see through this, how can I be the Human Emperor? Whether I live or die, I can accept it."

However, Han Fei shook his head slightly. "To be honest, I don't know. Not to mention our era, there aren't many rumors about the Chaotic Era even in the Primordial Era. I really don't know where Senior Brother will go in the future. Of course, I can take a look."

Cangtian shook his head. "No trouble. It's fine if you don't know. It's not a big deal. Come on!"

In the next moment, a soul shadow walked out of Han Fei's body. Han Fei slashed out, severing the consciousness.

Cangtian opened his mouth and swallowed this part of the soul body.

The two of them acted decisively without any hesitation.

Then, Cangtian smiled and said, "Sister-in-law, do you want to go together? I'll save a seat for you."

Ximen Linglan shook her head. "Thank you. It's fine as long as Wang Han knows. If he knows, I know."

Seeing this, Cangtian naturally wouldn't stand on ceremony with Ximen Linglan. Instead, he looked at Han Fei. "Junior Brother, let's go?"

Han Fei said, "I might stay for a while, but I'll be in the Chaotic Mist. I don't think I'll come back."

"What a pity. Let's meet again someday. I hope that when we meet again, I can comprehend the second level of the path of invincibility. At that time, let's fight again."

"I won't let you down."

With that, Han Fei looked at the Prophet and cupped his hands. "Senior, I'll take my leave first."

The Prophet just smiled and nodded without saying anything else.

...

After a while, Han Fei and Ximen Linglan left the Sea Realm.

In the Prophet's residence, Qingming said with an ugly expression, "Master Prophet, I have no right to interfere in your decision. However, isn't this too hasty?"

The Prophet smiled. "Mingqing! Why don't you observe Cangtian's luck these days? The day you comprehend it will be the day you become a Supreme. Let's wait and see!"

Qingming was stunned and was silent for a long time. "No Guardian has ever become a Supreme."

"Who knows? You won't suffer a loss even if you try."

The Prophet smiled and waved his hand. In a book, a tree-shaped peerless Dao Seed appeared in his hand.

Cangtian chuckled. "This junior brother is not greedy."

The Prophet said lazily, "After all, he's also the Human Emperor. Go! In less than 300 years, the people of the demon plant lineage will come. Since they dare to come, stay here forever!"

Cangtian smiled and said, "Of course. They are my first target on my path of conquest."

...

In the Sea of Stars.

Han Fei took a long breath and held Ximen Linglan's hand. "I'm still a little uncomfortable under the watch of that prophet. This is not my human race after all. It's better to be careful now."

Ximen Linglan said, "Those Divine Wood books record countless things, but there are no detailed records of the prophet. We don't even know how he was born."

Han Fei smiled and said, "It doesn't matter. It's a headache to think about it. Supreme Venerables of the human race are too rare. The Prophet deliberately hid it. I even guess that he is no weaker than the First Supreme."

"That powerful?"

Ximen Linglan was a little surprised, because in those divine wood books, the First Supreme had already become a peerless legend, almost invincible. If the Prophet was the same, didn't it mean that two super powerhouses had suddenly appeared in the human race that can dominate all the races in the Sea of Stars?

Han Fei said, "It's just a guess. Let's go. It's useless to think too much. Our time is limited. We can't waste the opportunities in the Chaotic Era. Now that half of the Sea of Stars here is covered by the Chaotic Mist, it should be our top priority to make up for the gap in fundamental talent."

[God of Fishing](#)

Chapter 3512: Teacher (2)

...

In the Chaotic Era, it was not difficult to find the Chaotic Mist. Most of the Chaotic Sea was enveloped by the mist. It could be said that one could find Chaotic Mist anywhere.

However, when people of this era went to find the Chaotic Mist, it was mostly because there were peerless treasures, Supreme Nature Treasures, various spiritual treasures, divine fruits, Immortal Soil, Creation, and luck.

However, what Han Fei and Ximen Linglan needed was only the Chaotic Origin Energy, which they only needed to slowly absorb.

Therefore, in a Chaotic Mist of the Chaotic Sea, two big cocoons wrapped in the Chaotic Origin power stood quietly.

Within a radius of billions of kilometers, the law of time was flowing, enveloping this place.

500 times time acceleration was Ximen Linglan's limit. In time acceleration, after only 3,000 years, Han Fei's bottleneck loosened.

Two hundred years later in reality.

Suddenly, one of them broke out of the cocoon first.

In the next moment, Han Fei appeared from the cocoon, and the broken big cocoon turned into a torrent and poured into his body.

With nearly 500 times the time acceleration, in fact, Han Fei had already replenished his fundamental talent after about 40 years in reality, which was about 20,000 years in the acceleration state.

And this so-called completion of fundamental talent was actually increasing sensitivity to the laws, spiritual energy, and Chaotic Qi between the heavens and earth. His body was more adapted to these powers than before.

In terms of basic combat power, it had only increased by 400,000 points.

For Han Fei, this improvement was already very great. This meant that at his peak, he could reach 12 million combat power, even surpassing Cangtian.

Of course, he didn't surpass Cangtian much, and Cangtian had already reached the second level of the path of invincibility, the Invincible Body. Therefore, he couldn't win a life-and-death battle against Cangtian, but he might not lose either.

However, Han Fei wasn't very surprised about this now, because whether it was the peak-level 8 million combat power or the peak-level 12 million combat power, they were at most the early or mid-stage combat power of the Sea Quelling God. It didn't affect the overall situation of the Sea Realm. He could beat those who should be defeated, and he still couldn't beat those who shouldn't be defeated.

It was even as difficult as ascending to the sky to kill a Sea Quelling God.

Of course, the real benefit of replenishing one's fundamental talent would only be revealed after he broke through the Supreme Divine Technique.

After learning the Supreme Technique, Han Fei knew that the real power that could enable him to change the layout of the Sea Realm would only be obtained by him after he broke through the Supreme Technique.

Once he broke it through, if he guessed right, he would directly enter the dominator realm. After all, the Supreme Technique was a cultivation method of the dominator realm in itself.

Another three hundred years after Han Fei broke out of the cocoon, Ximen Linglan's big cocoon was also broken.

After Ximen Linglan broke out of the cocoon, she saw Han Fei sitting cross-legged not far away from her, as if branding a seal on his own body.

"Seal? Is your power going to exceed your body's capacity?"

Ximen Linglan's face changed slightly. She had almost read all the books on the Prophet's side, so she naturally knew how terrifying the Supreme Divine Technique was. If Han Fei couldn't suppress it and didn't have a way of breakthrough, as time passed, his body would explode and he would die.

Han Fei smiled and said, "It doesn't matter. The God of War has survived for a million years, so I'll naturally be fine. Besides, after replenishing my basic talent this time, my strength has soared, and my upper limit has greatly increased. What about you?"

Ximen Linglan nodded. "Yes, as you know, my talent and foundation haven't been very good since I was young. Even when I entered the Time Temple, it was only because the Dao I comprehended was powerful, so it made me seem powerful. But in fact, my basic talent is much weaker. The Chaotic Origin Energy is not only modifying my basic talent, but also modifying my bloodline. Therefore, my improvement is relatively slow. Without time acceleration, this time might be as long as nearly 300,000 years."

"It doesn't matter. You're now a Heavenly Talent of the Time Temple. Then how much has your combat power increased?"

Ximen Linglan pondered for a moment. "More than 8 million, nearly 9 million. However, I can feel that after my talent was replenished, the bloodline modification stopped. Therefore, I'm afraid I won't have a chance to improve by trickery in the future."

Han Fei couldn't help but smile. "It's already powerful enough. Have you ever seen anyone who can have 18 million combat power as soon as he steps into the Sea Quelling Divine Level? However, born in the Chaotic Era, they do have some innate advantages. The human race's God Slaying-level powerhouses are all extremely powerful. I think it's the result of completing their basic talent. This means that the strong masters of the Chaotic Era far exceed the strong masters of the later generations."

Ximen Linglan nodded heavily. This improvement did indeed make her feel incredulous. Not only did it repair the gap in her talent, but it also made up for the lack of bloodline. In just 500 years, her strength had almost doubled. How unbelievable was that?

However, thinking of the situation in the future, Ximen Linglan frowned slightly. "Unfortunately, it's not enough. This is not enough to compete with the ominous."

"You still have me!"

Now, he at least had a direction for the breakthrough of the Supreme Divine Technique. With a ready-made example in front of him, he would definitely benefit greatly.

Ximen Linglan said, "Time is tight. We've already wasted a lot of time. I'd better accompany you to comprehend the path of invincibility first! This is much more difficult than absorbing the Chaotic Origin Energy."

"Okay!"

...

[God of Fishing](#)

Chapter 3513: Teacher (3)

Han Fei had clearly completed the first level of the path of invincibility. In the Great Monarch realm, even the first Human Emperor couldn't defeat him, let alone the strong masters of the same realm in the Sea Realm in the future.

As for the second realm, he used his invincible will to borrow the power of the world to comprehend "Momentum", so as to reach a state where the enemy couldn't hit or injure him.

While Ximen Linglan was absorbing the Chaotic Origin, Han Fei had used the Great Dao of Life Replacement many times. However, in just three seconds, it was really difficult for him to comprehend the so-called "Momentum".

However, according to the records of the Prophet, the way to comprehend "Momentum" was to observe the world and comprehend the power of the world. It meant that if one wanted to comprehend the power of the world, he had to observe the world itself.

Since Cangtian could comprehend it, Han Fei believed that he could too. He said, "Linglan, there are all kinds of races in the Chaos. Why don't we travel in this vast Sea of Stars?"

"Okay, it would be even better if there was a ship."

Ximen Linglan smiled. She liked the feeling of wandering.

"Hahaha! Then let's build a ship."

...

Time passed quickly. Five hundred years passed slowly, and a big black ship sailed silently in the vast Sea of Stars.

This era hadn't changed much because of the appearance of Han Fei and the others.

However, it wasn't that Han Fei didn't know anything. About 300 years ago, something happened that shook the Sea of Stars. A war between the human race and the demon plant race shocked all the races in the Sea of Stars.

Ten years later, the demon plant line announced to relocate to the Chaotic Vast Land. As everyone knew, that was the territory of the human race. This action of the demon plant line basically meant that they were willing to live under the human race. To put it bluntly, they had submitted to the human race.

Han Fei didn't go to the battle. However, after that, Han Fei went to that battlefield, traced back time, and saw some pictures of the past battles. In that battle, the Supreme-level cultivators didn't take action. Instead, Cangtian led the war and fought a battle in the Divine Body Realm, the third realm of the path of invincibility.

In that battle, as many as four Sea Quelling God-level powerhouses of the demon plant lineage died, and more than 30 God Slaying-level powerhouses of the demon plants died.

As for the human race, none of the Sea Quelling God-level powerhouses died. However, among the God Slaying-level powerhouses that Han Fei saved in the past, a total of seven died. Only the goddess who mastered the law of life didn't die, and the others all died.

Seeing this scene, Han Fei could only sigh. He couldn't change this era.

In the next few hundred years, there were endless battles in the Sea of Stars, but Han Fei didn't pay attention to it anymore, because he would find out what he should see and know when he saw Cangtian again in the future.

In the vast world, Han Fei and Linglan became pure spectators here, the two of them traveling in the starry river together.

There was a rumor in this world. It was said that in the vast Chaotic Sea of Stars, there was a lone ship that always sailed in the mist, mysterious and extraordinary.

On this day, the lone ship broke the silence of the starry sky and appeared in a place not too far away from the Chaotic Vast Land.

On the deck, Han Fei sighed slightly. "We've been in this era for a thousand years. Perhaps I was too hasty and tried to get to know the world in a mere five hundred years. It's unrealistic. I have to change my way. Let's go! It's time to leave."

Ximen Linglan gently hugged Han Fei from behind. "I will definitely miss this period of time. Although it's short, it's extremely beautiful. There are no disputes, no wars, no schemes or plots. What a pity..."

Han Fei smiled. "Therefore, we have to win. Only by defeating the ominous can there be infinite beauty."

Swish, Swish ~

The Time River was broken, the ship and this person disappeared without a trace.

The two of them came and left in a hurry. Only an old man in the human world stroked his pale beard and looked at the quiet deep sky with a smile.

Back to the Time River, the Vast Ocean Navigator, the Demon Purification Pot, the Concealing Divine Seal, and the Creation Divine Prison, Han Fei felt that everything had returned.

But this was already expected. Han Fei wasn't surprised.

At this moment, the two of them were going down the river, but not fast.

From the beginning, Han Fei had already thought about giving himself five hundred years to see the world and comprehend the Dao. If he didn't succeed in five hundred years, he would give up immediately. This was because in the Time River, he could still see the changes of this era clearly.

Sure enough, if one were in the Time River and looked at the Sea Realm, he would find that the mist on the Chaotic Vast Land was quickly dissipating, and everything on the Chaotic Vast Land was changing.

From the towering snowy peaks to the steep cliffs of the surging sea.

From bloody wars to silent tombs.

From the vast green forest to the earth cracks burned by the flames of war.

From the celebratory sacrificial dances to the heavy mourning of the death knells.

War, riots, landslides, seas overturned, the world changed, seas turning into fields, mountains buried in seas... As the long river of time flowed, Han Fei could see the prosperity of the human race.

One day in the long river of time was ten thousand years in chaos. When Han Fei and Ximen Linglan crossed 27 million years in a day, the six lineages were unified.

At this moment, the Chaotic Vast Land was almost divided up by the six lineages. Except for the primordial stillborn, each lineage controlled millions of races. When the Chaotic Vast Land couldn't bear the burden anymore, a large number of races moved away.

The moment Han Fei saw the six lineages gathering in the human world, he knew that Cangtian was about to make a breakthrough. He didn't expect that Cangtian's breakthrough would take more than 27 million years.

The six races pledged allegiance, and the four seas were unified. The heavens sought the Dao, and the path of the Supreme appeared.

[God of Fishing](#)

Chapter 3514: Teacher (4)

When Han Fei and Ximen Linglan cut through the long time slope again and appeared in this period of the Chaotic Era, Cangtian held the sky and swallowed the divine tribulation. Countless races bowed to him.

Han Fei could foresee that at this moment, the Power of Faith of the human world and all races gathered on him. Han Fei and Ximen Linglan felt that the Sea of Stars they were in was completely controlled.

The two of them immediately realized that since Cangtian had gained his Dao, all the creatures in this domain would submit to him. If they didn't leave, they would have to submit to him too.

Han Fei immediately congratulated him from a distance and cupped his hands. "Congratulations on your breakthrough, Senior Brother."

At this moment, Cangtian turned his head and looked into the Sea of Stars. The Prophet, the Guardian, also looked at the Sea of Stars. Only they knew who had appeared.

Swish, Swish ~

In the next moment, Han Fei and Ximen Linglan left this era and returned to the Time River.

At this moment, Han Fei was still scared. Was this the power gained after breaking through the Supreme Technique? It was completely different from the breakthroughs of Senior Brother Azure Dragon, Fifth Senior Brother, and even Senior Brother Lei Heng.

That was a power that ruled the universe. Fortunately, he left in time. Otherwise, that world would definitely try its best to kill him and Ximen Linglan.

Ximen Linglan said, "I believe you can make a breakthrough too. You will be stronger than him."

Han Fei laughed. "You really think highly of me."

Ximen Linglan smiled sweetly. "Anyway, my husband is no worse than anyone else."

The two of them continued to descend along the Time River. Because they could only see a limited area, Han Fei and Ximen Linglan couldn't see clearly what happened in the Sea of Stars in the Chaotic Era.

However, less than ten million years after Cangtian became a Supreme, countless strong masters rushed to the Sea of Stars one after another. At that moment, Han Fei knew that the ominous had come.

Han Fei and Ximen Linglan tried to find the ominous through the Vast Ocean Navigator.

They did find it. At an unknown river embankment in the Sea of Stars, Han Fei saw the scene of the ominous fighting with Cangtian. The first glance at the ominous, Han Fei was in a daze, thinking that he had seen all living beings. It seemed that the ominous could be any creature or of any race.

Yes, a person was like all living beings, but different from the all living being-look like Eldest Senior Brother, the ominous' all living being-look was too ferocious.

Even through the Time River, this glance was discovered by the ominous. Immediately, an ominous mist tried to penetrate the Time River.

However, as soon as this mist touched the Time River, it was destroyed by Cangtian.

Han Fei and Ximen Linglan didn't dare to look anymore and immediately fled.

Han Fei asked, "That should be the ominous, right?"

Ximen Linglan also nodded in fear. "Yes."

Han Fei asked with lingering fear, "Did you see him clearly?"

Ximen Linglan shook her head. "I can't see clearly. I seem to see a great world with billions of living beings."

Han Fei smiled. "Me too."

Han Fei couldn't imagine how to fight such an enemy. He was already half a Sea Quelling God-level powerhouse, but in the face of such an opponent, he felt that he couldn't resist a single move of the other party. Therefore, only a dominator-level powerhouse, the strongest dominator-level powerhouse, could fight the ominous.

Ximen Linglan said, "Let's go straight to the end of the first ominous battle!"

Han Fei nodded solemnly. "OK."

As the Vast Ocean Navigator turned, the two of them no longer deliberately slowed down, but swam down the Time River at full speed.

After a few seconds, as the Vast Ocean Navigator pointed, Ximen Linglan waved her hand, and the Blade of Hope cut open the Time River. The two of them entered the Chaotic Era again.

But this time.

Entering this place didn't mean that they could watch the battles between the strong masters of this era and the ominous. Therefore, Han Fei and Ximen Linglan still appeared near the Chaotic Vast Land, which was close to the Sea Realm.

When the two of them appeared, after only a few seconds, a teleportation channel appeared in front of them.

An old and familiar voice sounded, "I haven't seen you for 90 million years. How have you been?"

"The Prophet."

Han Fei and Ximen Linglan looked at each other and appeared in the residence of the Prophet that they seemed to have just left.

As for the Prophet, he still looked sage-like and unfathomable.

Han Fei said, "Greetings, Senior Prophet."

The Prophet smiled. "It shouldn't have been long for you, right?"

Han Fei nodded slightly. "Senior Prophet, can you predict our arrival?"

The Prophet shook her head slightly. "No, I've been waiting for you to appear. Because your appearance this time should mean that the ominous has subsided. But unfortunately..."

"Unfortunately?"

He was really afraid to hear the other half of the Prophet's words, especially in such a tone.

The Prophet heaved a long sigh. "Unfortunately, you didn't appear at a good time."

Han Fei frowned. "Senior Prophet, is there anything wrong with this time?"

The Prophet looked at Han Fei. "You've mastered the Vast Ocean Navigator, right? That's why you can appear at this time accurately."

Han Fei nodded. There was nothing to hide, and he couldn't.

The Prophet slowly got up. "Unfortunately, at this time, Cangtian hasn't defeated the ominous yet. However, this time is the day the ominous dies down. Therefore... there's only one way to defeat the ominous."

Han Fei's eyelids twitched. The Prophet's words shocked him. This was because from the meaning of his words, it seemed that the ominous wasn't defeated by Cangtian. If even Cangtian who had walked the path of the Supreme couldn't defeat the ominous, what would the only solution the Prophet mentioned be?

[God of Fishing](#)

Chapter 3515: Teacher (5)

Han Fei asked solemnly, "What solution?"

"Alas..."

The Prophet suddenly smiled and said, "Perhaps you can use this method too. Therefore, I'll take you to witness a way to temporarily calm the ominous."

Han Fei's heart trembled. Wasn't he here to find a way to solve the ominous? He didn't expect to see it in such a way.

In the next moment, the Prophet waved her hand gently, and the endless mist disappeared in an instant. In an instant, the Prophet took Han Fei and Ximen Linglan to a dilapidated Sea of Stars territory that was full of ominous aura.

At this moment, in this domain, 43 Supreme-level powerhouses, led by Cangtian, were trying their best to suppress and purify the ominous creatures that spanned the galaxies.

Swish ~

The appearance of the Prophet with Han Fei and Ximen Linglan immediately attracted the attention of all the Supreme-level powerhouses.

Cangtian immediately shouted in a low voice, "Old man, why... are you here?"

Cangtian's expression was extremely ugly, because he saw Han Fei and Ximen Linglan.

The Prophet sighed. "Alas! It's finally time."

Cangtian's eyes almost popped out as he said anxiously, "Old man, don't mess around."

The Prophet heaved a long sigh. "It's not that I'm messing around, but everyone here today may have to mess around with me. Cangtian, you are no exception."

With that, the Prophet looked at Han Fei with a smile and said, "This is the worst solution, as well as the last resort. But if there's really no way, you can give it a try."

Buzz!

The Prophet immediately turned into an extremely majestic body, expanding crazily.

"Huff!"

As the Prophet opened her mouth and took a deep breath, the ominousness of the galaxy quickly decreased at a visible speed.

In the ominous mist, countless races, faces, and voices were roaring and shouting.

"You're asking to be killed. I have an indestructible body. Even if you destroy my body, I will return one day... You can't trap me..."

The Prophet's voice rumbled, "I'll leave you to my descendants to kill you in the future. Among the myriad races, there are always people who are not afraid of sacrifice. Even if I destroy your body, I might not be sacrificed."

Han Fei was shocked. He didn't expect that the method the Prophet mentioned was to swallow the ominous. How could this be called a method?

"Wait, it's not swallowing... but sealing."

Han Fei saw that the billions of laws around the Prophet formed infinite brands that were also being absorbed into his body. Therefore, the Prophet was using herself as a container to seal the ominous.

However, how long could this seal the ominous?

Ximen Linglan: "Look."

The more than 40 Supreme-level powerhouses also sighed.

Someone smiled and said, "We've come to this point after all."

Someone shook his head. "Forget it. After all, we're already tired of looking at the Chaotic Star Sea."

Someone was even relieved. "I'm tired after fighting for so long. Haven't you always wanted to take a look on that road? Even if we can't return, so what?"

"Hahaha! It's been a long time since it's so lively. With so many people together, the road must be very lively."

Buzz—

These Supremes, like the Prophet, all used themselves as containers and began to devour the ominous.

In the ominous mist, countless faces were shouting, "You lunatics, hahaha... Without you, this Sea of Stars will be mine sooner or later."

"Shut up ~"

Cangtian roared angrily, his body shining with golden light. He reached out and patted his forehead, and a soul body left his body and flew towards Han Fei.

He said, "Junior Brother, it's up to you in the future."

With that, his body dispersed into boundless golden light, covering half of the Star River. The endless golden light actually swallowed nearly half of the ominous body in one breath.

"Human Emperor, how can you do this alone?"

"Human Emperor, you're going too far by eating it alone."

"Human Emperor, do you think only you have a big appetite?"

"Hey, don't eat so much in one bite."

In the blink of an eye, the 43 Supreme-level cultivators and the Prophet had divided up the ominous body, which dumbfounded Han Fei and Ximen Linglan.

Swish! Swish! Swish!

One Supreme after another disappeared. The Prophet raised his hand and waved it, taking Han Fei and Ximen Linglan to pass through the endless mist together again.

When Han Fei's eyes lit up again, he saw a boundless dam. The surging tide emitted deafening sounds.

In front of him was a boundless sea, enveloped by a faint mist, and filled with divine light in the distance. Just looking at it, he seemed to feel an inexplicable summoning.

"The Path of No Return."

Han Fei was horrified. When he realized where he was, he immediately knew what the Prophet's so-called last resort was.

This method was not to use the bodies of these supreme beings as containers to seal the ominous, but to temporarily seal the ominous and bring it into this path of no return.

Once they entered this path of no return, they could even release the ominous at any time. How could the ominous return when even the First Supreme couldn't return?

The Prophet looked at Han Fei. "That's right. It's this path. Your appearance helped me prove the feasibility of this method. If the ominous can return, you won't appear. Since you can appear, it means that he can't return either. Although this Chaotic Star Sea is big, it's no longer interesting for a Supreme. It might not be a bad thing to embark on this path."

Han Fei was shocked. He subconsciously asked, "Senior, what about the Sea of Stars if you enter this path?"

The Prophet smiled. "There has never been a shortage of strong masters in this world. Not today, not in the future."

With that, the Prophet shouted at this place, "Void, my disciple. In the future, you have to guard this place."

"Yes, Teacher."

Before Han Fei could react, he felt that a vast void suddenly floated over, as if it had been waiting here. In the next moment, the huge void turned into a human.

Han Fei couldn't believe his ears and eyes, because in his eyes, the figure that appeared was as deep as the Sea of Stars and his appearance couldn't be seen clearly.

"F*ck, Eldest Senior Brother?"

Han Fei subconsciously said this, and the figure, the Prophet, and the heavens were all stunned.

In the next moment.

Cangtian laughed. "Hahaha! I didn't expect you to really be my junior brother. It's a pity that I can't fight you again. I hope I can fight you again one day."

Han Fei had already reacted and shouted, "Senior Brother, I'll wait for you to return and fight."

The Prophet looked at Han Fei, and Han Fei also looked at the Prophet. Although he was shocked, if the Prophet was the teacher of the Void Temple, he would gladly accept it. Han Fei bowed respectfully.

"Teacher."

"Hahaha! Hahaha!"

After laughing three times, the Prophet pressed a finger between Han Fei's eyebrows. "Since you're my disciple, I should give you a gift. Let me take you to foresee the myriad worlds."

In Han Fei's mind, billions of stars suddenly appeared. There were Origin Grounds, unknown domains, chaotic mist, and Primordial Chaos secrets.

At that moment, he seemed to transform into billions of pairs of eyes, looking down at the myriad worlds. Images flashed rapidly in his mind. He could even feel the changes in the world from birth to decay.

When the myriad worlds were combined, they formed a magnificent world.

Han Fei didn't know it himself, but Ximen Linglan saw it clearly. A third eye opened between Han Fei's eyebrows, and his body was shining with golden light, making him look like a fairy.

After a long time, suddenly, the countless images in Han Fei's mind froze and dissipated. Only one picture appeared. It was a divine vine, rippling in a flowing spring, and the spring was all made of laws.

Buzz!

Han Fei suddenly opened his eyes, looking excited.

However, there was no longer the prophet, Cangtian, and the others in front of him. Only Eldest Senior Brother was sitting on the shore of the dam, looking at him quietly.

God of Fishing

Chapter 3516: Crisis in the Sea of Stars (1)

The moment Han Fei opened his eyes, he knew that he had embarked on the second level of the path of invincibility.

Although Han Fei was confident that he could reach the second level with his own strength, it would take time, and what he lacked was time. Therefore, the last finger of the Prophet could be considered a heavy gift.

However, this was not the true gift of the Prophet. What he really sent out was the last picture. Han Fei was very familiar with that small vine. It was the Demon Purification Pot's Divine Vine.

Han Fei was excited. When he saw this vine, he remembered the words of the ancient human powerhouse back then. He said that the Demon Purification Pot had the tenth vine, but he wasn't sure. Because this was in the Chaotic Era, the Demon Purification Pot didn't belong to just one person in the future, and the vines had once collapsed. Therefore, Han Fei wasn't sure.

However, he had a way to be sure.

This was because in the last trace of soul that Cangtian returned to him, there were what he had seen and heard for 90 million years, even many insights, as well as some major events that happened in the Chaotic Era.

And in these big events, in addition to Cangtian's own mastery of the Supreme Technique, there was also a person involved, a person beyond Han Fei's expectations.

This person was called Li Daoyi.

Li Daoyi was the child of a human powerhouse and a female demon plant cultivator. As soon as he was born, he triggered a brilliant astronomical phenomenon and had three peerless Dao Seeds in the forms of a divine tree, a kylin, and a phoenix on him.

However, Li Daoyi didn't belong to the human race or the demon plant race.

He was born with a brand-new spiritual heritage. Being a lineage alone, he could be said to be the favored child of the heavens.

The Guardian of the human race, Qingming, once said that apart from the luck of six lineages, of all the luck in the Chaotic Era, Li Daoyi occupied eight percent.

Li Daoyi's path of growth was also magical. When he was young, he experienced tens of thousands of tribulations, but he could always avert danger. This confirmed the saying of Qingming about his luck. When Li Daoyi was young, he had already become very famous in the Chaotic Vast Land.

Of course, this couldn't do without the support of the human race and the demon plant lineage. After all, in terms of a sense of belonging, Li Daoyi could say that he was a human or a demon plant. He often entered and left the human race and the demon plant lineage and often called himself that.

And the ominous appeared because of Li Daoyi.

As far as the heavens knew, the ominous suddenly appeared because Li Daoyi pulled out the Demon Purification Pot in the depths of the chaos.

Yes, because of his brilliant luck, Li Daoyi became the first user of the Demon Purification Pot.

Therefore, as long as he confirmed how many vines Li Daoyi's Demon Purification Pot had, he would know if the divine vine he saw was the tenth.

"He's really a genius!"

Han Fei couldn't help but sigh. Even 80,000 years ago, Cangtian left the Vast Ocean Navigator to Qingming, the six Primordial Purple Gates to Li Daoyi, and the big bell he had once used to another super god-level powerhouse of the human race who had a chance to be a Supreme.

From this, it could be seen how much Cangtian valued Li Daoyi. Although he was not actually a human, Cangtian clearly regarded him as the main force of the future against the ominous.

In the end, Cangtian forcibly fused the three Supreme Nature Treasures and forged a divine seal with all their strength. He refined the will and luck of the Human Emperor into it and named it the Primordial Seal.

This seal was temporarily controlled by Qingming. Only those with the bloodline of the human race could control it. Cangtian wanted to use it as an inheritance, hoping that the human race could last forever.

However, treasures were treasures after all. Even with the Primordial Seal, the human race inevitably declined in the end.

However, this was already the last thing Cangtian could do for the human race.

Obviously, after fighting the ominous for many years, Cangtian also knew that the ominous was difficult to deal with, so he made plans in advance for some of his treasures.

Thousands of pieces of information poured into Han Fei's mind, and these were only a small part of the infinite information.

In this information, there was also the origin of the Primordial Purple Gates, which were actually given to Cangtian by the Prophet.

As for Cangtian's insights about the Supreme Technique, Han Fei needed to spend some time studying them carefully.

At this moment.

After Han Fei woke up from the power of the Prophet's finger, he instinctively began to search. Except for Ximen Linglan guarding this place, there was only Eldest Senior Brother.

The moment Han Fei opened his eyes, Ximen Linglan didn't notice it, because she was sitting beside Han Fei, cultivating. The law of time surged around her, and she had clearly used time acceleration.

Seeing this, Han Fei's first reaction was that a long time had passed. Otherwise, Ximen Linglan wouldn't have needed to make use of even a moment. With her personality, she would probably have been guarding him all the time.

Han Fei immediately bowed. "Greetings, Eldest Senior Brother."

As soon as Han Fei spoke, he woke Ximen Linglan up. The latter hurriedly opened her eyes, canceled the time acceleration, and quickly got up.

"You're awake?"

Han Fei nodded slightly. "Have I comprehended it for a long time?"

"Less than 800 years."

"Eight hundred years?"

Han Fei was shocked. He felt that he had only comprehended it for half an hour. Eight hundred years?

At that moment, Eldest Senior Brother slowly said, "There are some paths that have no shortcuts for ordinary people. To comprehend the path of invincibility, you need to see the infinite of the world. 800 years is already extremely fast. If Teacher hadn't taken you to see the myriad worlds, even if your talent is unparalleled, you might not have been able to succeed in eight million years."

Han Fei couldn't help but click his tongue. "Eldest Senior Brother is right."

Eldest Senior Brother shook his head slightly. "Strictly speaking, I am not your senior brother at the moment. I just know that you will be my junior brother."

[God of Fishing](#)

Chapter 3517: Crisis in the Sea of Stars (2)

The corners of Han Fei's mouth twitched slightly, and he thought to himself, Eldest Senior Brother was too serious.

However, perhaps because Eldest Senior Brother was too serious, he could guard this place alone for countless years.

Han Fei couldn't imagine how lonely Eldest Senior Brother could be if he had been guarding here since this moment.

In the next moment, Eldest Senior Brother raised his hand, and a divine wood scroll flew towards Han Fei.

Eldest Senior Brother said, "Before my teacher left, he asked me to hand this over to you. It's some of my teacher's research results. Take a look at them and then destroy them. The fewer people know about some things, the better."

At this moment, Eldest Senior Brother was still a little cold to Han Fei. Or rather, Eldest Senior Brother had always been like this. This was just his normal tone.

Han Fei took the Divine Wood Book and opened it. He was shocked because what was recorded in this book was the Path of Reincarnation.

It read, "I created the Path of Reincarnation for three purposes."

Firstly, the soul was born in the world. If it wasn't destroyed, it could reincarnate. This path could protect all races from being destroyed. If necessary, it could seal the Door of Rebirth and kill all living beings in order to protect the divine fire seed of all races. They may appear again.

Secondly, contain the ominous, cleanse the sins of the world, weaken the source of the ominous power, and delay the recovery time of the ominous.

Seeing this, Han Fei knew why Jiang Taichu could make a deal with the ominous with the Path of Reincarnation. Obviously, the appearance of the Path of Reincarnation had greatly restrained the ominous.

The main source of the ominous power was the negative side of the myriad races in the Sea of Stars. But if the myriad races in the Infinite Ocean had all embarked on the Path of Reincarnation after they died and all their sins had been brought into this path and purified, how much of the sins could be left to the ominous?

With this alone, the Path of Reincarnation had surpassed countless Supreme Nature Treasures.

The third was a portrait.

When Han Fei was immersed in his thoughts, the portrait seemed to come to life, and Han Fei's consciousness seemed to be taken into another time and space. He saw a place where Primordial Purple Qi and Chaotic Mist intertwined, and the Demon Purification Pot was born here. And a white-haired old man, who was the Prophet, was holding a long sword and standing in front of the Demon Purification Pot.

The Prophet didn't look back but said leisurely, "This thing was born by nature. It has ten vines and feeds on the Chaotic Origin. It can understand all races, observe their luck, and control their creation. Unfortunately, the tenth vine hasn't matured yet."

The Prophet looked up as if predicting something. After a while, he slowly said, "It's too late."

With that, the Prophet waved his sword and cut off the tenth vine, sweeping it into his sleeve.

Then, the Prophet drew in the air with her finger and left a message. "This calabash has ten vines and its tenth vine is difficult to nurture. I've cut it off and will nurture it in the Chaotic Origin. When it matures, it can be taken and can resolve the danger of the world."

At this moment, the Prophet turned around and looked at Han Fei as if they were looking at each other from a distance.

The Prophet said, "Remember: this thing is ultimately an external object."

Swish ~

The scene in front of him dissipated, and Han Fei suddenly came back to himself. He was shocked. What did his teacher mean by the last sentence? Did he say that the Demon Purification Pot was an external object?

Obviously, the Prophet said the words to him, but why did Han Fei feel that he didn't understand it? He said the Demon Purification Pot could resolve the ominous danger but emphasized that it was an external object after all. What was his teacher trying to say?

At this moment, the Divine Wood Book in Han Fei's hand shattered into powder and dissipated in the vast Sea of Stars.

Han Fei took a deep breath. The Demon Purification Pot appeared in these 90 million years. There was no telling if it was because he had mentioned this name to the Prophet or because he had foreseen it, but he had made a plan in advance.

Han Fei never expected that the tenth vine was cut off and hidden by the Prophet.

As for where the Chaotic Origin was, Han Fei seemed to have a clue. Luo Xiaobai once reminded him that under the Path of Reincarnation, the river of laws flowed from and to unknown places.

Now, since Han Fei knew that the Path of Reincarnation was created by the Prophet, the tenth vine should be in this river if he guessed right.

At this moment, Han Fei figured out a lot of things.

Ximen Linglan: "What's wrong?"

Han Fei shook his head slightly and then looked at Eldest Senior Brother. "Eldest Senior Brother, have you read this book?"

Eldest Senior Brother shook his head slightly and said after a pause, "You don't have to think about what Teacher left behind. You'll understand it when the time is right."

Han Fei couldn't help but smile bitterly. "Eldest Senior Brother, can you tell me what kind of person Teacher is? There seems to be no record of him in the entire human race."

Eldest Senior Brother looked into the depths of the Path of Return. After a long time, he said calmly, "He's just an ordinary old man who has lived for a long time."

Han Fei: "..."

Han Fei thought to himself, Eldest Senior Brother is indeed not a suitable person to chat with. He certainly didn't believe that his teacher was an ordinary old man. Perhaps Eldest Senior Brother just didn't want to say it.

As for when Eldest Senior Brother became Teacher's disciple, he probably wouldn't know until he dated back to an even older era.

Of course, Han Fei wouldn't trace back to the source for this little curiosity. Otherwise, he would have too many things to trace back to.

Now, his teacher had already given him a hint that the vine he saw was the tenth vine. So there was no need for him to find Li Daoyi.

Han Fei said, "Eldest Senior Brother, I should go now. Please give me a ride. I'm going to the Chaotic Vast Land."

"Okay!"

After a while, when Han Fei and Ximen Linglan walked out of a void, they had already appeared outside the Chaotic Vast Land.

God of Fishing

Chapter 3518: Crisis in the Sea of Stars (3)

On a lone peak where the human race was, Qingming was sitting on the tiger's back, quietly looking at the Sea of Stars.

When Han Fei and Ximen Linglan appeared behind her, Qingming didn't look back but said indifferently, "Haven't you left yet?"

Han Fei cupped his hands. "Senior Qiming, I want to ask you for a favor."

"Yes?"

Although Qingming didn't like Han Fei, what the Prophet said was right. After accommodating a trace of Han Fei's soul, Cangtian's luck didn't decrease but increased.

Besides, Han Fei was the future Human Emperor after all. He appeared here for the Chaotic Star Sea, so she wouldn't refuse Han Fei's request.

Han Fei said, "I want the bones of strong masters. I don't need complete ones. I just need part of them. No matter what race they are from, the more the better."

Han Fei couldn't take the complete corpse, because he didn't know if the corpses would affect future generations or how much they would. But if it was just a part of the bones, he believed that Qingming could help him.

"Okay, come to get them in three months."

...

Three months later.

When Han Fei held a small world of Dao Bones in his hand, his eyes lit up. He knew that this trip to the Chaotic Era was about to end.

After the battle of Cangtian and his teacher was over, what was left was the battle of the Doomsday Era, a battle that belonged to him.

...

In the Time River, Han Fei hesitated for a moment and found the end of the Sea of Stars with the help of the Vast Ocean Navigator. Across the Time Sea, Han Fei bowed deeply to the lonely figure in front of the dam before leaving.

Ximen Linglan said, "Suppressing this place alone for billions of years... The Master of the Void must be very lonely, right?"

"Alas! This might be the path Eldest Senior Brother chose!"

Han Fei had a feeling that the Eldest Senior Brother at this moment should be a little different from the Eldest Senior Brother in the future. At this moment, he seemed to be more cold and unapproachable. The one in the latter generation was much better and made people feel very amiable.

"Perhaps some stories have more or less happened to Eldest Senior Brother during this long period of time!"

...

Doomsday Era.

Sea Realm, Central Sea Divine Realm, Free City.

The current Central Sea Divine Realm was abnormally prosperous. After breaking the situation of the former rule of the strong, countless strong masters from the various races in the Sea Realm rushed to the Central Sea Divine Realm.

Large and small forces established sects in the Central Sea Divine Realm and set up camps in the Free City.

For a moment, the Free City became the most prosperous place in the Sea Realm, gathering countless Heavenly Talents and resources from the Sea Realm. Its open cultivation method caused the four Divine Realms to imitate it.

Here, there were endless opportunities. As long as one worked hard, he could always exchange for the cultivation techniques, weapons, combat skills, and other things he liked.

And the human race was growing at an unbelievable speed in this magnificent world.

Many young Heavenly Talents had appeared in the human race. Their cultivation speed could be said to be terrifying. There were even as many as five or six people who had been confirmed to be incarnation bodies of gods. These people had stepped into the Monarch realm in just a thousand years.

More importantly, the Free City, which was the pioneer of cultivation in the Sea Realm, actually traded a large amount of the power of laws in the city. This matter was determined by the Free City, the five Divine Realms, and countless strong masters in the Sea Realm after negotiation.

The purpose of trading the power of laws was very obvious. It was to help Immortal-level powerhouses quickly stack laws. This was a hundred, a thousand, or even ten thousand times faster than their slowly drawing the laws in the Chaotic Void.

Of course, if they wanted to stack tens of thousands of laws, the price they had to pay was not small. Therefore, although this method was good, the time was too short. In less than two thousand years, only no more than a hundred Great Monarchs were created.

The rise of the Sea Realm was like the last moments of life before death. But everyone knew that this was the last struggle of all races. Some chose to lie flat, some chose to fight one last time, some chose to be extremely crazy, and some chose to enjoy the mortal world...

However, these were mostly the choices of ordinary people. After all, this world was always supported by strong masters. Many Sky Opening Realm powerhouses in the Sea Realm chose to go to the Sea of Stars. If they were destined to die in ten thousand years, they also wanted to see the wonders of the Sea of Stars and the brilliance of the Chaotic Sea, not to survive in the Sea Realm for ten thousand years.

...

Swish, Swish ~

A Time River appeared in the void, and Han Fei and Ximen Linglan walked out.

Han Fei couldn't help but sigh. "I thought I would return in a few years at most, but it took me 1,800 years. Let's go home."

"Wait a minute."

Ximen Linglan was a little nervous at this moment. "Do you really want me to go with you?"

A trace of gentleness appeared on Han Fei's face. "Now, you are also my wife."

Ximen Linglan took a deep breath and seemed to have made a decision. She shouted in a low voice, "Go."

"Huh ~"

Han Fei scanned around with his perception. He wanted to find Xia Xiaochan and go straight there, but Xia Xiaochan, Han Chanyi, Zhang Xuanyu, Le Renkuang, Luo Xiaobai, and the others were all gone.

Han Fei activated his Original Great Dao, reached the strength of a Sea Quelling God, and scanned the entire Sea Realm with his perception. His heart sank slightly. Senior Brother Six God, Senior Brother Lei Heng, Yue Lingke, and Old Fierce were not around either.

All the gods of the divine descendants were gone, and there were only seven Great Monarchs left.

Even in the Sea of Strange Beasts, there were only less than ten Great Monarchs left.

The Emperor Sparrow seemed to sense Han Fei and was about to soar into the sky.

Han Fei said, "I'll find you later."

Han Fei guessed that so many strong masters were missing in the Sea Realm. They must have gone to the Sea of Stars.

[God of Fishing](#)

Chapter 3519: Crisis in the Sea of Stars (4)

At this moment, Qiu Wanren was the only one guarding the Central Sea Divine Realm. After Han Fei glanced at Qiu Wanren, Qiu Wanren immediately looked back.

"1800 years, you're finally back?"

Swish, Swish ~

When Han Fei appeared in front of Qiu Wanren, he couldn't help but ask in surprise, "You made a breakthrough?"

Qiu Wanren snorted proudly. "In the Creation Divine Prison, I've thought of countless ways to become a Sea Quelling God. Coupled with the Spirit of Plants and Trees and the treasures of the divine descendants, it's not difficult for me to become a Sea Quelling God."

Han Fei said, "Congratulations! Where are they?"

After a trip to the Chaotic Era, meeting the ominous once, understanding the story of the First Supreme, observing the myriad worlds, and comprehending the Invincible Body, Han Fei had completely lost his respect for the Sea Quelling God.

In front of the ominous, the Sea Quelling God could only play a limited role.

Qiu Wanren didn't care about Han Fei's sincere congratulations. Instead, he said, "They were all summoned away. While you were away, something big happened in the Sea of Stars."

Han Fei couldn't help but look solemn. "What happened?"

Qiu Wanren also said solemnly, "I don't know what happened exactly, but an emergency summoning from the Chaotic Sea took away almost 90% of the Monarchs in the Sea Realm."

Han Fei frowned. "No one objects?"

Qiu Wanren said, "Your Void Temple allowed it. Besides, the one who came to summon them talked to every Great Monarch. It was said that on the first battlefield outside the Chaotic Sea, the battle was abnormally fierce, and countless strong masters of the myriad races died. I was at a critical period of breakthrough, so I couldn't leave even if I wanted to, so I stayed in the Sea Realm to guard it."

Han Fei frowned. "Is it so serious?"

Qiu Wanren: "There's something more serious than this."

"Huh?"

Qiu Wanren's face sank. "Now, we can't contact the Chaotic Sea."

Buzz!

Han Fei's heart trembled. "What do you mean by 'can't contact the Chaotic Sea'?"

Qiu Wanren looked at Han Fei and sighed slightly. "An ominous mist cut off the Chaotic Sea, completely isolating the Sea Realm from the first battlefield outside the Chaotic Sea."

Ximen Linglan was also stunned. "How is that possible? The Chaotic Sea is so vast. How big a ominous mist will it have to be to isolate the Chaotic Sea?"

Qiu Wanren had never seen Ximen Linglan before, but he had more or less heard of her. Seeing that her strength was slightly above his, he sighed slightly. "It did happen. The people from the Three Temples should know more about this. You should be able to contact them, right?"

Han Fei frowned. "So, Xia Xiaochan, Yiyi, Zhang Xuanyu and the others are all trapped in the so-called first battlefield."

Qiu Wanren nodded. He was not from the Three Temples, couldn't contact them, and couldn't leave the Sea Realm, so the information he could know was limited.

Ximen Linglan said, "Don't panic. I'll ask the Time Temple."

Han Fei said, "No, I'll contact the senior brothers or sisters of the Void Temple."

Han Fei immediately triggered the void mark.

"Little Junior Brother, you're back?"

"Senior Sister Shen Le?"

Han Fei couldn't help being overjoyed. Senior Sister Shen Le responded to him, which meant that it was still inconvenient for Eldest Senior Brother, which meant that the ominous was still restrained by Eldest Senior Brother.

Han Fei hurriedly said, "Senior Sister Shen Le, I just returned from the Chaotic Era. What happened? Why was even the Chaotic Sea isolated? What's the situation on the first battlefield now?"

Senior Sister Shen Le said, "Something unexpected did happen this time. On the ominous side... a second ominous above the dominator level seems to have appeared."

"What?"

For a moment, Han Fei felt as if he had been struck by lightning. His first thought was, How can I fight this?

One ominous above the dominator level had already tortured the myriad races in the Sea of Stars for billions of years and almost destroyed them several times.

Now there was another one. What was the point of fighting?

Senior Sister Shen Le said, "Little Junior Brother, don't be hasty. It's just suspected and hasn't been confirmed yet. At present, Eldest Senior Brother and Old Three are restraining the ominous' original body. On the first battlefield, Master of Time and I are personally guarding it and fighting the ominous that is suspected to be beyond the dominator level. We've fought a few times, but it's difficult to judge the other party's strength. However, this time, the ominous seems to be well prepared. It seems to have planned for a long time. They removed the ominous battlefield of nearly a thousand domains in the Sea of Stars at the same time and all gathered in the Chaotic Sea, isolating the Chaotic Sea. Obviously, they are preparing to eat the first battlefield in one go."

Han Fei frowned. "Then can the first battlefield withstand it?"

Senior Sister Shen Le said, "We can resist it for the time being, but the number of people here is limited. We're surrounded by enemies both from the front and the back, so the strong masters of the myriad races can only defend. So far, we should be able to defend for a thousand years. But I won't let him really nibble away the first battlefield. When necessary, I will kill my way into the ominous. But Little Junior Brother, have you found a way to solve the ominous this time?"

Han Fei's face sank slightly. In fact, he really wanted to say that Eldest Senior Brother knew the way to solve the ominous.

However, no one knew if this method could still be used now. This was because in the Primordial Era, Jiang Buyi exchanged the Path of Reincarnation for a truce.

Besides, the ominous was indestructible. Teacher's solution could only resolve the urgent situation.

Besides, the myriad races in the Sea of Stars didn't have as many Supreme-level powerhouses as in the Chaotic Era. Even if they could take the ominous into the path of no return, they might have to sacrifice all their dominator-level powerhouses.

However, now there seemed to be a second ominous that exceeded the dominator level. If he really used all his dominators to take away one of the ominous and there was really another ominous that exceeded the dominator level, the Sea of Stars would be doomed.

Han Fei pondered for a moment. "Senior Sister, I already have a direction to deal with the ominous. Wait for me."

Senior Sister Shen Le's tone was obviously higher. "Really?"

Han Fei frowned. "Yes."

Senior Sister Shen Le immediately said, "Little Junior Brother, I'll wait for you for 800 years. You have to note that although the ominous seems to have staked everything and even isolated the Chaotic Sea, it doesn't mean that he has really given up on the Sea of Stars. With the ominous' intelligence, it's very likely that he will secretly attack the Sea Realm."

Han Fei asked, "Where is the Death God?"

Senior Sister Shen Le didn't mention the Death God just now, which meant that the Death God wasn't in these two battles. He had either died or was in the Sea of Stars.

But would the Death God die? Obviously not, so Han Fei guessed that he should be the real guardian of the Sea Realm now.

Senior Sister Shen Le said, "You should be able to guess it, right? The Death God is guarding the Sea Realm and monitoring the Thousand Domain Battlefield where the ominous had retreated from. At the same time, he has to be wary of the Eternal Race. If it's not necessary, don't disturb him. If you can guess it, the ominous naturally knows it, and the Eternal Race clearly knows it too. Therefore, the Death God can't appear easily now."

"Got it. Senior Sister, wait for me..."

[God of Fishing](#)

Chapter 3520: The Tenth Vine (1)

After chatting with Senior Sister Shen Le, Han Fei looked solemn. What Senior Sister Shen Le said about killing her way into the ominous must be an extremely dangerous thing. How could she alone break through the attack that sealed the entire first battlefield?

Besides, Senior Sister Shen Le wasn't the only one on the first battlefield. Fifth Senior Brother, Yue Lingke, Senior Sister Dark Shadow, Senior Brother Six God, and Lei Heng were all at the Sea Quelling God level.

In the past, a Sea Quelling God was enough to suppress many battlefields. Even the first battlefield seemed to only need one Sea Quelling God to guard it.

But now, it could be said that all the Sea Quelling God-level powerhouses in the entire Sea Realm had gone there, but they could only hold on for thousands of years. It could only be said that the situation had reached an unimaginable level.

Seeing Han Fei's ugly expression, Ximen Linglan and Qiu Wanren couldn't help but ask, "How is it?"

Han Fei said in a low voice, "Eight hundred years. The first battlefield can only be guarded for eight hundred years."

"Eight hundred years?"

Qiu Wanren said in shock, "Didn't you say that there were still ten thousand years? It's only been less than two thousand years, but it's already like this. Doesn't that mean that the Sea Realm will be gone in at most three thousand years?"

Ximen Linglan said, "The masters of the three temples can all resist the ominous. They can only resist it for 3,000 years, right?"

Han Fei said, "Master of Time is on the first battlefield. There seems to be a second ominous that surpasses the dominator realm."

"Hiss ~"

Qiu Wanren and Ximen Linglan were both stunned and didn't know what to say. Two existences above the dominator level made them a little helpless and at a loss.

Han Fei said, "Well, there might still be a way."

Qiu Wanren asked, "What can you do to two ominous creatures above the dominator level?"

Han Fei said, "I suspect so. I can't be sure."

Qiu Wanren couldn't help but blow his beard. "An enemy who can trap even the Master of Time Temple is at least on the same level as the Masters of the Three Temple, even if he hasn't surpassed the dominator level. If he wants to change the situation of the battle, he has to be at least at the dominator level, right? How can there be a dominator now?"

Han Fei felt bitter too. What was needed wasn't just a dominator. The Death God couldn't move easily now, or the Seal Realm would be taken by the ominous. Even if the front line held on, if their home was gone, it would be useless.

Senior Sister Shen Le didn't mention the dragon race, but even if Senior Brother Azure Dragon woke up, could he break through to the dominator realm so quickly? If not, with the current Dragon God, he probably wouldn't be able to change the current situation.

Besides, the enemy was not just ominous. Once the Sea of Stars was defeated, the myriad races would be in danger. The Eternal Race would probably deal with the myriad races with the ominous.

After all, for the Eternal Race, they were not afraid of the ominous. At present, there was no precedent of the ominous invading the Soul Sea. Besides, if the myriad races were destroyed, the luck of all the races in the world might flow into the Eternal Race. After all, there might only be their race left in the world. With the Eternal Race's usual style, they probably couldn't wait for the myriad races to be destroyed, right?

Han Fei pondered for a moment. He had several ideas now. One was naturally to break through the Supreme Technique. Once the Supreme Technique was broken, he would definitely enter the dominator realm. Even if he couldn't definitely change the situation with his own strength, at least it was possible. He had seen the scene of Cangtian swallowing half of the ominous body in one bite. If Cangtian could, so could he.

Secondly, to collect all the ten vines of the Demon Purification Pot. It had been billions of years, and the tenth vine should be ripe, right? Since the Demon Purification Pot was regarded as a treasure to suppress the ominous, its effect on the ominous couldn't be worse than that of a dominator.

Thirdly, kill a dominator-level powerhouse and release the one on the fourth level of the Creation Divine Prison. This might be able to resolve the urgent situation.

And the best way was naturally for him to break through the Supreme Technique. In this way, even if he couldn't kill the dominator of the Eternal Race, he was confident that he could take back the Demon Purification Pot's vine.

After thinking for a moment, Han Fei made a decision. He had to try all the three methods.

The Eternal Race was a big hidden danger that could explode at any time. Besides, whether it was for the Demon Purification Pot's vine or to release the one in the Creation Divine Prison, he had to fight the Eternal Race and had to win.

However, how to fight them was a problem. They had a dominator, and there might not only be one dominator. Therefore, if he really wanted to fight them, he couldn't do it alone.

However, Old Han and his mother might be the people who knew the Eternal Race best in the entire Sea of Stars. He had to discuss this with them later.

...

Qiu Wanren and Ximen Linglan didn't speak. They were waiting. At this moment, their strength wasn't enough to change the situation. But Han Fei could. The human race had risen, and Han Fei's luck was in

the prime now. If there was anyone who could change the current situation when all the strong masters were stuck in fierce battles, this person must be Han Fei, which was the hope of countless people.

Suddenly, Han Fei asked, "Senior, how is the divine vine now?"

Qiu Wanren was stunned for a moment and then said, "No change."

Han Fei said, "I'm going to take a look."

Han Fei knew that if he wanted to break through the Supreme Technique, the Primordial Purple Gates would be a great help.

While parasitizing Cangtian, he knew that the Prophet had given the Primordial Purple Gates to Cangtian, and in addition to a massive amount of Primordial Purple Qi in the Primordial Purple Gates that could be used for cultivation, their main function was to gather the luck of the six lineages, provide luck enhancement for Cangtian to make a breakthrough, and strengthen his luck as the master of the world.
