Chapter 3531: Kill into the Eternal Race (4)

At this point, Han Fei finally had a comprehensive understanding of the Eternal Race.

If the high-end combat power of the Eternal Race was excluded, then this race was trash. He finally knew why the strong masters of the Ten Thousand Races let the Eternal Race guard the Bloodline Divine Tree.

One was because it was safe in the Soul Sea, and the other was because it was too difficult for the Eternal Race to grow. Even if they grew a little stronger, the strong masters of the myriad races felt that they could sweep them.

However, these strong masters of the myriad races never expected that the Path of Reincarnation would disappear, and the Bloodline Divine Tree became the only condition for the birth of the creatures of the myriad races. At this time, the Eternal Race betrayed them and threatened them with the Bloodline Divine Tree, so the strong masters of the myriad races had to be careful.

"Just a thousand-people clan."

Han Fei smacked his lips and his eyes gradually turned cold. "All of you must die."

After understanding the Eternal Race, Han Fei didn't change his mind about destroying them because of their strength. Instead, he wanted to start a war even more.

At this point, it had been less than half an hour since the Concealing Divine Seal sealed this place. However, it was impossible for the Concealing Divine Seal to hide here for long. Now, the Eternal Race didn't realize the danger. Once a dominator-level powerhouse or a Sea Quelling God-level powerhouse tried to communicate with the people on the Bloodline Divine Tree, they would immediately discover the problem. Therefore, it was only a matter of time before he was discovered.

In that case, Han Fei thought for a moment and turned back into the God Slaying-level Eternal Race just now.

Yu Cang was right. This person was not his subordinate. If he entered the Eternal Race as Yu Cang, he definitely couldn't hide it from some people, because Yu Cang had no reason to leave the Bloodline Divine Tree at this time.

This person's name was Liu Qing, and he was a strong master under the command of a Sea Quelling God named Mu. Han Fei left the Bloodline Divine Tree openly and quickly came to a reef cave outside the Bloodline Divine Tree.

Outside the cave, Han Fei bowed respectfully. "Master Mu Mu, I have something to ask of you."

After all, it was the base camp of the Eternal Race. Mu Mu wouldn't have thought that his subordinate, a mere God Slaying level powerhouse, would dare to kill him. Therefore, when the cave opened, Han Fei walked in without meeting any resistance.

In the cave, Mu Mu was surrounded by three God Slaying-level soul bodies, all of which were female cultivators. At this moment, the four of them were connected by a soul chain, and something exciting and indescribable was happening to their souls.

Because it was a soul intercourse, the Eternal Race wasn't afraid of being seen. Mu Mu even sat upright and looked at Han Fei with a smile. "Liu Qing, didn't you go to provide nourishment for my body? The three-year nourishment period hasn't expired. Why are you back?"

Han Fei looked at him indifferently and said, "I'm here to send you to hell."

Yes, the moment Han Fei came here to enter this cave, the cover effect of the Concealing Divine Seal enveloped this place and gave up on the Bloodline Divine Tree.

Although the Concealing Divine Seal could completely envelop both the Bloodline Divine Tree and this place, in this way, if a battle happened here, someone would immediately notice it.

Before Mu Mu could react, Han Fei had already activated the Void Stealing Technique. Although Mu Mu was protected by a Soul Suppressing Spiritual Treasure, he still became temporarily absent-minded.

At that moment, the Law Enforcement Divine Chain had already been activated.

This sudden change shocked the three female cultivators who were having sex with Mu Mu. After all, they were at the God Slaying level. Their reaction was extremely fast. They knew that if they wanted to survive, they couldn't rely on themselves but on Mu Mu, so they immediately tried to break the Law Enforcement Divine Chain.

"Time Splitting."

Almost at the same time, three Han Fei appeared here. Each of them slashed out an Immortal Slaying Knife and cut off the long river of life here. These three God Slaying Level powerhouses had no time to touch the Law Enforcement Divine Chain before they were directly cut apart, their souls shattered, and the long river of life was cut off.

As for Han Fei, he stood where he was with a faint smile on his face, watching Mu Mu who had just recovered his consciousness and was wrapped by the Law Enforcement Divine Chain.

"Law Enforcement Divine Chain, you are Han Fei. How dare you step into our Eternal Race?"

Han Fei looked at him with a smile. "Twenty-three left."

Before Mu Mu realized what Han Fei meant, he roared, "Master ~"

"Whether your master comes or not, you're doomed."

The Creation Divine Prison hovered, convicting him.

Han Fei had already walked out of this cave and murmured, "Has no one discovered it yet? The Eternal Race has probably forgotten the cruelty of the world and no longer has any vigilance. Fine, in that case, let me remind you."

The law of life around Han Fei activated, and the river of life of the person he killed instantly collapsed.

Rumble!

Rumble!

Clang! Clang! Clang!

Suddenly, the Heavenly Dao cracks crisscrossed, and the death knells wailed continuously. A rain of blood fell to the Soul Sea, and the entire Eternal Race was stunned. The death knells were like dense drum beats, directly waking up the entire Eternal Race.

"Something happened to the Bloodline Divine Tree."

"Not good. My soulless body is gone."

"What's wrong?"

"What happened?"

Finally, a strong master shouted angrily, "How dare you break into our Eternal Race and kill our clansmen? You're courting death."

At the same time, they didn't need to take the initiative to find it. From the place where Mu Mu was cultivating, the terrifying power of the Sea Quelling God suddenly erupted and swept out.

Almost at the same time, 23 Sea Quelling Gods and two dominator-level powerhouses surrounded Mu Mu's cultivation place.

However, the aftershock still crushed the hundreds of millions of ordinary Eternals in Mu Mu's territory. These people instantly evaporated before they knew anything.

If it weren't for the timely arrival of the Sea Quelling Gods and the dominators, less than ten percent of the billions of Eternal Race members under Mu Mu's command would have survived this power.

Of course, there were no ifs.

Just as the two dominators were about to attack, their perception was blocked again.

In the next moment, everyone saw Han Fei sitting on a throne, one foot on the chair, holding juice in one hand and fishing pole in the other.

In front of him floated a total of 20 God Slaying-level Soul Purifying Pearls and 23 God-level Soul Purifying Pearls. Each of these Soul Purifying Pearls was the last crystal of an Eternal Race powerhouse. Its effects were extraordinary.

Han Fei raised his head, looked at the two dominators, and smiled faintly. "Nice to meet you. This is just a small gift for you."

[God of Fishing](#)

Chapter 3532: Five Dominators Appeared at the Same Time (1)

"Han Fei, how dare you slaughter in our Eternal Race? Even the void can't save you today."

The one who spoke was Heavenly Soul Dominator who had met Han Fei once and was also a leader of the Eternal Race. This person wanted to peep at the Path of Reincarnation with two drops of blood. On the dragon battlefield, this person almost ruined it.

"Han Fei, hand over the soulless body and the bloodlines you stole. Leave the Demon Purification Pot. I may spare your life."

"Idiot!"

Han Fei sneered. "I'm afraid you yourself don't even believe the crap, but you still said them out loud. Are you insulting my intelligence? I definitely don't have anything for you, and let me tell you clearly, this is just a clone of mine."

"How dare you!"

This dominator almost attacked, but he was blocked by Heavenly Soul Dominator.

Heavenly Soul Dominator said, "Since it's a clone, why? Are you here to show off your battle results?"

"Slurp! Ah ~"

Han Fei took a sip of juice and said lazily, "Show off? I just killed two Sea Quelling Gods, 20 God Slaying-level, and 23 gods. What's there to show off? If I really want to show off, I have to kill a dominator! Don't you think so?"

Heavenly Soul Dominator snorted. "If you don't have anything more to say, I'll destroy this clone of yours. Since you've killed your way into the Eternal Race unscrupulously, it's not too much for me to slaughter your human race, right?"

Han Fei smiled. "Of course, it's not too much at all, provided that you can kill them."

Heavenly Soul Dominator sneered. "Do you think the Death God can protect humans?"

Han Fei sneered. "If you have the ability, say that in front of him... Okay, I'm too lazy to talk nonsense with you. Firstly, this is a revenge for what you did in the battle of the divine descendants, and secondly, I'm here to ask you for the Demon Purification Pot's vine. If you return it, I'll leave immediately."

"Hahaha!"

Heavenly Soul Dominator laughed as if he had heard a great joke. Then, he looked at Han Fei coldly. "I think you've lost your mind because of the trouble in the Sea Realm. You want the divine vine? What makes you think you can have it? In the current Sea Realm, there are almost no strong masters. What qualifications do you have to take it?"

Han Fei looked around and glanced at the furious Sea Quelling Gods surrounding him who couldn't wait to tear him apart. He smiled. "I'll exchange the lives of hundreds of billions of people of your Eternal Race for it. Do you think it's enough?"

Heavenly Soul Dominator had run out of patience. He said coldly, "If you continue to talk nonsense with me, don't blame me for killing you now."

Han Fei's fishing pole trembled violently. He grinned. "Look, the fish has taken the bait."

Han Fei began to pull his fishing pole. It seemed to be quite laborious, but Heavenly Soul Dominator and the others didn't stop him. The Eternal Race also had their confidence. They knew that Han Fei could fish out some extraordinary things. However, they were also confident that they could suppress whatever Han Fei fished out today.

They were even looking forward to Han Fei's trump card.

A dense black mist was fished over from the Time River. Even if Heavenly Soul Dominator and the others could see through the Time River, they could only see the black fog, but they couldn't see what was in the black fog.

"Death energy?"

Their first reaction was that Han Fei had caught a piece of death energy, and what could be in the death energy? At most, it was the Death God.

But if the Death God really appeared here today, they would be overjoyed. In the Soul Sea, they had infinite power. Not to mention the Death God, even if the void came, they were confident that they could suppress it.

However, the moment the black fog broke through the Time River, the expressions of Heavenly Soul Dominator and the other dominator changed at the same time.

"The ominous?"

There was no difference between the ominous mist and the death energy. Therefore, they would only associate it with the Immortal Temple, but they never expected Han Fei to fish for the ominous.

The Eternal Race had no contact with the ominous. If the ominous really entered the Soul Sea, God knew if the Soul Sea would change.

At that moment, everyone felt that Han Fei had gone crazy. He was trying to use the ominous to destroy the Eternal Race.

In the Eternal Race, there were even two strange caves that suddenly opened at this moment. There was no telling what kind of powerhouse was hidden inside.

At that moment, this place was filled with an ominous aura. Heavenly Soul Dominator snorted coldly, and a soul tide immediately surged. Endless soul power burst out with a light of purification at the same time, instantly dispelling the ominous mist.

However, to Heavenly Soul Dominator's surprise, it was just an ominous mist.

"Are you kidding me?"

Heavenly Soul Dominator had no patience to play with Han Fei anymore. He slapped down and crushed Han Fei.

At the same time as Heavenly Soul Dominator attacked, in other places of the Eternal Race, in the area where ordinary people were, a terrifying power suddenly erupted. It was the full-strength attack of the

Sea Quelling God. With a thought, tens of millions of kilometers of soul sea collapsed and quickly spread out.

After coming out of Mu Mu's cultivation cave, Han Fei only left a white-mist body. The moment the effect of the Concealing Divine Seal on the white-mist body dissipated, Han Fei had already moved.

This time, Han Fei's goal was to destroy the Eternal Race. Since it was destruction, it meant that he wouldn't let go of any member of the Eternal Race.

Besides, he didn't want to let them go. He needed luck. Over the years, the Eternal Race had actually become the strongest race in the Sea of Stars. Furthermore, they had been harvesting other people's luck. Their luck was right at the peak now.

[God of Fishing](#)

Chapter 3533: Five Dominators Appeared at the Same Time (2)

Han Fei couldn't collect the luck of the six lineages, but don't forget that the six lineages could devour the luck of other races. Besides, in the face of this traitor of the myriad races, Han Fei didn't feel guilty at all.

He even felt that the next generation of the Eternal Race might have been instilled with the deformed concept of stealing the fruits of the myriad races since they were young.

In short, he had a clear conscience to wipe them out.

At this moment, in addition to Heavenly Soul Dominator, another dominator and two strong masters coming out of the two caves immediately appeared in that area, trying to stop this power from spreading.

However, just as the three dominators were about to attack, they heard a cold voice. "All of you, die."

Buzz!

"Death God?"

"You really dare to come?"

"Humph, die!"

The three dominators, plus the Heavenly Soul dominator who was a little slower, attacked at the same time. The four of them sealed the Death Ray at the same time.

They didn't dare to let the death light burst out. This was the light of death. Anyone who was enveloped by this light would be deprived of their vitality, or cut off. Even a god might only be able to resist it for a few seconds.

If the Death God were to fight them head-on, they wouldn't be worried. But the Death God was clearly going to attack ordinary Eternal Race members, which was very tricky. They had no time to attack the Death God, so they could only seal the Death Ray.

However, the Death Ray was indeed blocked by them, but Han Fei's Sea Quelling God-level power had already erupted. Although there were also 23 Sea Quelling Gods in the Eternal Race, Han Fei had the

upper hand after all. When they cut off Han Fei's power, billions of Eternal Race people had been completely annihilated.

If it were someone else, they might not have been able to do this. But Han Fei had mastered the law of life. At that moment, he cut off the river of life here and unleashed his strongest power. As long as one died, he would never have a chance to revive.

Seeing this scene, whether it was Heavenly Soul Dominator and the others, or the 23 Sea Quelling Gods, their eyes almost popped out in rage.

"Han Fei, you're courting death."

"Everyone, kill him!"

At this moment, the dominators of the Eternal Race knew why the other party was here.

Han Fei was really here to attack the Eternal Race, and he came so directly.

In their fury, their first thought was to kill Han Fei as well as the Death God.

The appearance of the Death God was completely beyond their expectations. They didn't expect the Death God to really dare to enter their territory. They didn't even understand why the Death God dared.

Not to mention whether he couldn't beat them, he actually dared to abandon the Sea Realm and attack the Eternal Race?

These dominators instinctively felt that something was wrong.

Immediately, Heavenly Soul Dominator roared, "It's fake. This Death God was fished out by Han Fei and won't exist for long. Let's join forces and kill him first."

"Huh?"

Han Fei's pupils were constricted. Something was wrong with Heavenly Soul Dominator. Although he had used Void Fishing in the Miracle Forest, he had only used it to catch the God Slaying Arrow. Since then, it had only been used during the battle of the divine descendants. Besides, all the enemies at that time had been wiped out by the Creation Star Compass.

Therefore, Heavenly Soul Dominator shouldn't know that the Time Fishing Technique could fish creatures, let alone a figure like the Death God.

Heavenly Soul Dominator couldn't possibly think that he could fish living creatures just because he had used it once in the Miracle Forest, right?

The God Slaying Arrow was actually more like a combat skill. It wouldn't show the real power of Void Fishing at all.

"Jiang Buyi?"

Han Fei wasn't quite sure. In that battle, everyone died, including Jiang Buyi's clone.

Therefore, Jiang Buyi's original body shouldn't know the secret of Void Fishing.

However, Heavenly Soul Dominator knew it very clearly. He even knew that the Death God wouldn't exist for long.

Unless Heavenly Soul Dominator was present during the battle of the divine descendants. Because of his dominator-level strength, no one present discovered it. Then, before Senior Brother Undead and the others came, Heavenly Soul Dominator left. This could explain why Heavenly Soul Dominator knew the secret of Void Fishing.

Yes, Han Fei was sure that this possibility was extremely high. This was because the Primordial Tower was very confident that no one could break its defense in the West Wilderness. A dominator might be able to, but it might take time.

And once a dominator took action, the trump card of the Void Temple might be activated in advance, or even keep him forever. Therefore, even if Heavenly Soul Dominator was present, he had a reason not to take action.

However, now was not the time to think about this.

Whether or not the Void Fishing Technique would be seen through, Han Fei's plan began the moment the Death God appeared.

Suddenly, the soul power sea here disappeared, and above everyone's heads, there was a long river of stars.

"Not good! We've been tricked. This is the Creation Star Compass. Han Fei swallowed the Eternal Race with the Creation Star Compass."

The Creation Star Compass formed an independent Sea of Stars. The Soul Sea might be mysterious, but it was immovable, so the Creation Star Compass couldn't swallow it. But it didn't mean that he couldn't swallow the races in the Soul Sea.

In fact, the Creation Star Compass had swallowed everything in the part of the Soul Sea where the Eternal Race was. Except for the soul power sea itself, it had swallowed everything in it.

This plan was just the beginning of Han Fei's hundred-year plan. Both he and the Death God were bait. He killed those god-slaying level powerhouses and gods at the same time to cause a sensation in the Eternal Race and attract the strong masters of the Eternal Race.

[God of Fishing](#)

Chapter 3534: Five Dominators Appeared at the Same Time (3)

The Death God appeared firstly to protect Han Fei's original body, and secondly to attract the hidden dominators of the Eternal Race.

In fact, after this step, Han Fei could already destroy the Eternal Race. At this moment, he just needed to take the Creation Star Compass to the Path of No Return and throw it into the Path of No Return.

However, Han Fei couldn't do that, because he hadn't found the Demon Purification Pot's vine. Since it wasn't on the Bloodline Divine Tree, it could only be in the hands of a certain dominator.

If he really threw the Creation Star Compass into the Path of No Return, the Demon Purification Pot might never be able to be repaired, and the tenth fruit might never be used by him.

And if he just took the Creation Star Compass to the path of no return, once he released the Eternal Race, it would inevitably cause the worst outcome, which was that the Eternal Race would join forces with the ominous and attack Eldest Senior Brother and Senior Brother Undead.

Eldest Senior Brother and Senior Brother Undead were already struggling to resist the ominous. If he threw five more dominators over, once Eldest Senior Brother and Senior Brother Undead were defeated, he, Han Fei, would really become a sinner of the myriad races.

Besides, in that environment, even if all the people of the Eternal Race died, they weren't killed by him. Then Han Fei wouldn't be able to obtain the slightest bit of luck of the Eternal Race, which completely deviated from his purpose of snatching the luck of the Eternal Race.

Therefore, although he had moved the Eternal Race into the Creation Star Compass, he could only fight this battle himself.

At this moment, the entire Eternal Race panicked.

The billions of members of the Eternal Race had lived in the Soul Sea from beginning to end. But now that the Soul Sea was gone and there was only land left, they had never experienced such an environment. In addition to the continuous Heavenly Dao Death Knells and Heavenly Dao cracks, it would be a lie to say that they were not afraid.

At that moment, the 23 Sea Quelling Gods attacked Han Fei together.

However, a death aura suddenly appeared here, and figures appeared from the death aura one after another.

In the next moment, the Ten Yama Kings, Ximen Linglan, the Demon God, Senior Brother Azure Dragon, the current Dragon God, the first Palace Master of the Time Temple, and three Sea Quelling Gods of the Time Temple all appeared.

Among them, as soon as the ten Yama Kings appeared, they immediately stopped an Eternal Race dominator to share the pressure of the Death God.

As for the Time Palace Master, Senior Brother Azure Dragon, and Ximen Linglan, they protected Han Fei, blocking a round of attacks, and then attacked back.

The three of them were the strongest existences except for the dominator. The first Palace Master of the Time Temple was one of the three strongest subordinates of the Master of Time, so his strength was naturally extraordinary. They were not something the Sea Quelling Gods of the Eternal Race could compare to.

As for Senior Brother Azure Dragon, when he broke through to the Sea Quelling God Realm, he could try to break through the barrier of the dominator realm by the way. It could be seen that his strength had reached the peak of the Sea Quelling God Realm and was only one step away from the dominator realm.

These two people couldn't be completely regarded as ordinary Sea Quelling Gods. Also, over the years, Ximen Linglan had been cultivating in seclusion with the help of the treasure resources of the Divine Descendants, and her strength had grown rapidly.

After all, Ximen Linglan's fundamental talent had been replenished. In terms of her current talent, it was comparable to the creatures born from the heavens and earth in the Chaotic Era. Coupled with the acceleration of time, it was not something ordinary Sea Quelling Gods could compare to.

As soon as the three of them attacked, one of the three dominators who besieged the Death God immediately stopped attacking the Death God and fought them.

The man shouted in a low voice, "I'm going to kill the dragon and the woman. Wait for me for a moment."

The dominator knew how powerful Senior Brother Azure Dragon and the other two were, and he also knew that these Sea Quelling Gods of the Eternal Race were probably no match for the three of them. However, he was confident that no matter how powerful the Sea Quelling God was, it was only a Sea Quelling God and couldn't be a match for him. The first Palace Master of the Time Temple might not be easy to kill, but the other two shouldn't be difficult to kill.

However, just as the dominator's finger almost touched Senior Brother Azure Dragon, time changed here. He disappeared from the current timeline with the power of the finger.

And this was one of the key points of the hundred-year plan, the time dilemma.

When Yuan Kong from the Time Temple taught Han Fei the Six Divine Techniques of Time and demonstrated the Time Splitting Technique, a thousand Great Monarchs with identical strength appeared.

He said that it would take more than a day to set up such a trap.

In the time dilemma, there were many time techniques such as the Time Splitting Technique, the Time Indestructible Technique, the Time Cycle, and the Time Control Technique.

Back then, Yuan Kong was only a peak-level Great Monarch, but Han Fei had to use the power of the Sea Quelling God to break that trap.

Now, the Time Temple Master and Ximen Linglan had been preparing for a hundred years. If they couldn't even trap a dominator for a period of time, how could the Time Temple be worthy of being one of the Three Temples?

Senior Brother Azure Dragon snorted coldly, not paying attention to the disappeared dominator at all.

However, no matter how powerful Senior Brother Azure Dragon was, he was not a dominator after all. Although he could suppress these Sea Quelling Gods of the Eternal Race, it was unrealistic for him to kill a few of them instantly.

Senior Brother Azure Dragon restrained five Sea Quelling Gods alone, which was already shockingly strong.

The current Dragon God, in his dragon form, only stopped two people.

The three Sea Quelling Gods of the Time Temple also stopped three Eternals. It wasn't that they didn't want to stop more, but that the Sea Quelling Gods of the Eternal Race didn't want to fight them at all. Their goal was Han Fei. Killing Han Fei was their first priority. And the strong masters of the Time Temple who weren't good at fighting naturally couldn't stop a few each like others, even if they had the strength.

As for the Demon God, although he had just broken through to the Sea Quelling God level, his foundation was too strong. He had the Godfiend Body and the Godfiend Dual Form, so he stopped the two people.

[God of Fishing](#)

Chapter 3535: Five Dominators Appeared at the Same Time (4)

Only six people had stopped the twelve Sea Quelling Gods of the Eternal Race. This was already the best result.

The other eleven Sea Quelling Gods were about to charge at Han Fei.

However, there was a green light that was faster than them.

Buzz!

All of a sudden, a green light swept over, and the power of a dominator directly destroyed Han Fei.

However, Han Fei, who exploded, turned into a piece of law of time and dissipated on the spot.

At this moment, the last dominator of the Eternal Race finally appeared. Unfortunately, this sneak attack clearly didn't succeed.

In the next moment, Han Fei said leisurely, "Jiang Buyi, I learned from you that we have to reserve some strength in any case. Now that the Death God is restrained, it's the best time to kill me. However, before all the masters of the Eternal Race come out, do you think I will appear with my original body?"

The dominator stood in front of the Sea Quelling Gods who were about to charge up.

"If you don't want to die, don't go."

The death aura behind Han Fei didn't dissipate. Those Sea Quelling Gods might not think that Han Fei had any other trump cards, but this dominator knew.

In this battle, there were still two extremely important people who didn't appear, which were Han Guanshu and Jiang Linxian.

The dominator's face changed and he turned into Jiang Buyi. He looked at Han Fei quietly. "How did you guess it was me?"

"As I expect."

Han Fei was not surprised to see the dominator-level Jiang Buyi at all.

He said, "At first, I thought that it was Heavenly Soul Dominator who secretly participated in the battle of the divine descendants and then quietly retreated. But even so, how did Heavenly Soul Dominator know about the Creation Star Compass?"

Han Fei sneered and continued, "If he's really Heavenly Soul Dominator, he wouldn't have been able to escape the moment the Creation Star Compass appeared. Unless someone told him in advance, or the dominator present back then wasn't him at all. Either way, it means that there is a person who has already known about the Creation Star Compass. Your Chaotic Divine Race is really full of talents! You don't only have the traitor, Jiang Taichu, but also have a filial son like you."

"Hahaha!"

Jiang Buyi couldn't help but laugh. "It seems that I underestimated you in the past. You're a smart person. However, if it weren't for the fact that someone has been watching you, I would have killed you long ago. In addition, Jiang Buyi is just a clone I buried in the Chaotic Divine Race. From the beginning to the end, Jiang Buyi is just a clone. The Chaotic Divine Race is just a chess piece."

Han Fei sneered. "Really? It turns out that it has always been your Eternal Race causing trouble. You've been smart all your life. Why didn't you guess what happened today?"

"What happened today?"

Jiang Buyi smiled. "How long can the Death God exist? Without the Death God, do you think you can kill a dominator just with the ten Yama Kings and the first Palace Master of the Time Temple? Or with Han Guanshu and Jiang Linxian, two losers?"

With that, Jiang Buyi suddenly stopped laughing and looked at Han Fei weirdly. "Guess why I had Jiang Buyi bring the Concealing Divine Seal to you?"

Han Fei narrowed his eyes slightly, and Jiang Buyi continued, "How do you know that the Concealing Divine Seal wasn't given to you by me? My purpose is to let you sneak into the Eternal Race. Hahaha... I know you will definitely come. The only thing I didn't expect was the Creation Star Compass. But it doesn't matter. This time, you, Han Guanshu, Jiang Linxian, and the people you are with today will all die here in the end."

"Really?"

As he spoke, a divine seal suddenly pressed down in the sky. However, Jiang Buyi seemed to have expected it. Not only did he retreat from the range of the Primordial Seal, but he also took the 11 Divine Sea gods out.

However, at the moment Jiang Buyi retreated, a white fist mark struck the void. In the fist light, there seemed to be a river of stars pouring down.

Clang!

That punch failed to penetrate Jiang Buyi. A coat full of feathers appeared on his body at some point in time, forming a barrier in front of him, blocking the punch that seemed to be from a dominator.

"Creation Sky Covering Feather? Ji Heng, you deserve to die."

Yes, Jiang Linxian appeared. Her body was like white jade, and white light appeared on her body, illuminating the sky. Even her eyes were jade-colored.

Only then did Han Fei know that Jiang Buyi's real name was Ji Heng. However, no matter what his name was, he would just take him as Jiang Buyi.

Jiang Buyi chuckled. "Well, this is your first son, Han Ling's Supreme Nature Treasure. To be honest, this Creation Sky Covering Feather is indeed extraordinary. Unfortunately, your son was too arrogant, so he can't blame others for dying early."

After that, Jiang Buyi smiled contemptuously. "Jiang Linxian, it's really hard on you. You actually found the ancient Supreme Nature Treasure, the Primordial Purple Jade Bracelet, so you can barely be ranked as a dominator with the White Jade Primordial Body. However, you are not a dominator after all. You can't shake our Eternal Race with this."

"Let's see if I can."

Suddenly, there was a divine light in the Sea of Stars. Seeing this, Jiang Buyi's face changed slightly. He pushed the eleven Sea Quelling Gods away and shouted, "Go, kill Han Fei."

As soon as he said so, a divine painting enveloped him.

Jiang Buyi snorted. "One of the three ancient killing arrays, the Infinite Star Array? Han Guanshu, you must have been drawing this Supreme Clearness Divine Talisman for many years, right?"

Han Guanshu's voice sounded leisurely, "Believe it or not, I have a lot of Divine Talismans."

"Hmph~"

The moment Han Guanshu appeared, there was really no one on Han Fei's side. Jiang Buyi smiled disdainfully. "So what? When Jiang Linxian's White Jade Primordial Body loses its effect and your Infinite Star Array dissipates, I'll bury you."

With that, Jiang Buyi looked at Han Fei sideways and smiled. "It's been 18 seconds. How long can the Death God exist?"

However, as soon as he said so, he narrowed his eyes slightly.

This was because Han Fei, who had been standing there talking to him, had dissipated. Was this... also a clone?

[God of Fishing](#)

Chapter 3536: Death of the Dominator (1)

Under the effect of Void Fishing, the existing time of the Death God was very limited. How could Han Fei not know this? How could he really mean to talk nonsense with Jiang Buyi there?

Therefore, from the moment the Creation Star Compass was activated, Han Fei's original body had never appeared.

At this moment, the eleven Sea Quelling Gods had completely lost their target, because Han Fei and the others had only sent so many people this time.

They would be courting death if they went to the Death God.

The battle between Han Guanshu and Jiang Linxian had been upgraded to the dominator level, so they couldn't participate.

The first Palace Master of the Time Temple and Ximen Linglan disappeared.

At this moment, the only people they could fight were the Ten Yama Kings and Senior Brother Azure Dragon.

Choosing between the two, they didn't intend to participate in the battle against the Ten Yama Kings.

This was because on the battlefield where the Ten Yama Kings were, a black flag appeared in the Ten Directions Purgatory. Although the Eternal Race didn't usually participate in the battles in the Sea Realm, they still knew some famous Supreme Nature Treasures that had appeared in history.

That black flag was the famous Ten Thousand Soul Banner in history. It was said that this flag could devour the soul, snatch one's killing intent, and seal one's power. Since ancient times, there had been frequent battles in the Sea Realm, and countless strong masters had died. The Immortal Temple specialized in harvesting death energy. God knew how many strong masters had collected their remnant souls and special techniques in this Ten Thousand Soul Banner. That thing could no longer be regarded as an ordinary Supreme Nature Treasure.

In comparison, they felt that it was easier to fight on Senior Brother Azure Dragon's side. After all, there were only six people there. No matter how powerful these six people were, they hadn't reached the dominator level. Since they hadn't reached the dominator level, it was still quite difficult for them to kill them.

Besides, if they besieged him in all directions, it would be almost four against one. In this case, their chances of winning were very high.

Immediately, the eleven Sea Quelling Gods charged at Senior Brother Azure Dragon and the others.

However, as soon as Han Fei arrived, he saw more than twenty divine bones, branches, carapace, petals, and other things appear around the three Sea Quelling Gods of the Time Temple.

Buzz!

In the interweaving of time, one ancient creature after another stepped through time.

An ancient tree shot out billions of vines, sealing the sky. On the tree, dense silver needles burst out like peerless sword Qi, pouring down like a tide.

Peach-colored petals floated in the sky, sweeping across the boundless realm. After these petals were touched by the power of the battle, they immediately turned into a red mist. For a moment, illusions appeared in this world.

There were humanoid insects whose bodies were made of spatial cracks and shadows that could summon the power of space. As soon as they attacked, billions of spatial cracks in the sky formed a tearing storm.

There was also a white Divine Ape, which was extremely ferocious. Its fists were like stars, and its roar was like thunder. When it attacked, it could set off an energy tide. More importantly, its physique was astonishingly powerful.

In fact, Han Fei had already expected this scene when he attacked.

Different tactics for different occasions. Although there were many Sea Quelling Gods in the Eternal Race, he had obtained countless bones of the Chaotic Era from Qingming. Among them, there were many more Sea Quelling Gods than in the Eternal Race.

After all, how could this era be compared to the Chaotic Era?

Perhaps in terms of gods, the Eternal Race was indeed not weak, but in terms of Sea Quelling Gods, there were a lot of strong masters born from the heavens and earth in the Chaotic Era.

Although these strong masters were born from the heavens and earth, not everyone could become a dominator. However, even if they couldn't become a dominator, their basic talent was the highest, so their upper limit of growth was extremely high.

Seeing this, the Sea Quelling Gods of the Eternal Race were stunned. Of course, they knew the Time Resurrection Technique of the Time Temple, but they had to have the capital to be resurrected.

With so many remains of Sea Quelling Gods, could it be that the Time Temple had bet all their wealth?

The Sea of Stars was vast and endless. God knew where to find a Sea Quelling God if he died in this vast Sea of Stars.

Even if there were some Sea Quelling Gods who died in some battles in history, the Time Temple must have consumed these resources over the years. This time, they took out so many Sea Quelling God-level items at once. They were determined to destroy the Eternal Race.

In fact, not only were the people of the Eternal Race shocked, but the three Sea Quelling Gods of the Time Temple were also shocked. They had thought that what Han Fei gave them was at most the remains of ordinary Sea Quelling Gods, but the result was completely different from what they had expected. More than half of what Han Fei gave them were the kind of ancestral Sea Quelling Gods born in the Chaotic World.

Their combat power far exceeded that of ordinary Sea Quelling Gods.

Han Fei wasn't surprised about this. He had sighed when he was in the Chaotic Era. Because of the difference in talent, the God Slayers in the Chaotic Era were super strong, so were the Sea Quelling Gods.

Therefore, when Senior Brother Azure Dragon and the others saw that these Sea Quelling Gods chose to join the chaotic battle on their side in the end, they couldn't help but smile. Now, there would be a fight.

Senior Brother Azure Dragon summoned the Twenty-Four Heavens and held an ancient dragon scale in his hand, covering the sky and sealing this world.

It was impossible to kill all these people, but before the resurrected ancient Sea Quelling Gods disappeared, it should be easy to kill six or seven of them.

Chapter 3537: Death of the Dominator (2)

It wasn't that Senior Brother Azure Dragon and the others didn't want to kill more, but because although they were also Sea Quelling Gods, they couldn't cut off the river of life like Han Fei. If they just forcibly obliterated it, killing six or seven Sea Quelling Gods was already a terrifying number. After all, how many tens of thousands of years would it take for a Sea Quelling God to appear in the Sea Realm? If they could easily kill all the Sea Quelling Gods on a head-on battlefield, how could they be called Sea Quelling Gods?

At this moment, all parties were fighting fiercely, and the god-slaying and god-level powerhouses couldn't interfere at all.

The moment the Eternal Race fell into the Creation Star Compass, the level of this battle was destined to only be at the Sea Quelling God level.

And the key to victory could only be the clash of dominators.

At this moment, the Death God was fighting two dominators alone, causing a huge territory to be enveloped by death energy.

Of the two dominators of the Eternal Race, one was surrounded by eight long swords, and the other had a small golden thirteen-story tower behind him.

Both of them were struggling to hold on at this moment. The two Supreme Nature Treasures were dim. Even so, their bodies were still corroded by some indescribable power. They had already changed into two sets of battle suits, and their bodies were already covered in livor mortis to varying degrees.

In front of the Death God was a long book, from which death rays kept spewing out.

As for the Death God himself, he summoned boundless death energy, which turned into billions of spear beams and bombarded him.

The golden tower burst out with light, narrowly resisting the continuous death.

A dominator on the opposite side roared, "Death God, the Life and Death Book is just a Supreme Nature Treasure after all. In such a short period of time, no matter how strong you are, you can't break the Creation Mystic Yellow Tower."

Swish! Swish! Swish!

At the same time, in front of Heavenly Soul Dominator, eight blood-colored swords were lined up. The void seemed to be filled with the ancient aura of the Primordial Era as they slashed at the Death God.

The Death God extended his claw, and the boundless death energy turned into a sharp claw, like the hand of a Demon God in the Sea of Stars.

Clang! Clang! Clang!

Amidst the raging energy, Heavenly Soul Dominator was sent flying with his sword. The flesh and blood on his body instantly turned into powder, leaving only his Supreme Bones that flickered with a dazzling light.

At the same time, black water currents clung to the Supreme Bones, trying to entangle and corrode them, forcing the Heavenly Soul Ruler to obliterate the Water of Death first before recovering his body.

At this moment, the Death God slowly said, "The Creation Mystic Yellow Tower and the Primordial Eight Fierce Swords were both Supreme Nature Treasures that Li Daoyi gave to Jing Guangming, the guardian of the Divine Realm. Li Daoyi killed his way through the Primordial Era. Jing Guangming punished all evils. They are both the most ferocious persons in the world. The things they used are all treasures that they tempered in a sea of blood. And your two's killing intent and ferociousness can't even stimulate 50% of the power of these two things. How dare you compare to my Life and Death Book?"

"On the other side of life, the destination of the dead, the Chaotic Divine Tomb, and even the heavens can't stop them. Order..."

Heavenly Soul Dominator hurriedly met up with another dominator. The Creation Mystic Yellow Tower immediately burst out with a strange light.

However, this strange light only bloomed for less than a second before the void here turned into a lone tomb, burying the two of them in it.

At this moment, the lonely tomb hadn't closed yet. In the Death God's hand, the Life and Death Book turned into a black silk scroll, locking the divine light of the Mystic Yellow Tower.

Bang!

At this point, the Death God suddenly appeared in front of the two of them and pushed his palms forward. Both of them felt boundless power, causing their souls to tremble and cracks to appear on their Supreme Bones.

"It's about time."

Suddenly, the Death God spoke.

A Time River suddenly appeared, enveloping Heavenly Soul Dominator.

At this moment, the first Palace Master of the Time Temple, Ximen Linglan, and the three Sea Quelling Gods of the Time Temple were all in the battle, so they naturally couldn't get involved in the battle of the Death God, nor were qualified to participate.

Therefore, the Time River that appeared at this moment could only come from Han Fei.

In an instant, the timeline here changed multiple times, and tens of thousands of time illusions sucked Heavenly Soul Dominator in.

This was the most important part of Han Fei's hundred-year plan.

Heavenly Soul Dominator didn't have the protection of the Creation Mystic Yellow Tower just now, so he was hit by the Death God. It wasn't that he didn't feel the Time River, but that he didn't feel that there was someone in the Time River.

It was as if this Time River had appeared out of thin air.

However, when he came back to his senses from this space-time, this place was empty, and he was the only one left.

"Stop pretending. Even without the protection of the Creation Mystic Yellow Tower, how can you kill me?"

Buzz!

At that moment, infinite energy erupted from the Heavenly Soul Ruler's body. He wanted to destroy the black liquid left on his Supreme Bone by the Death God.

This thing blocked him from condensing his body. Without his body's Qi and blood, his strength had dropped by 30%. It was definitely not a good thing to lose 30% of his combat power in a game with the Death God.

After all, he was a dominator. Although he couldn't beat the Death God, it didn't mean that he couldn't obliterate the power of the Death God. In just two seconds, Heavenly Soul Dominator obliterated the black liquid.

Then, in less than half a second, his body had recovered.

However, the moment his strength recovered, he saw a Death Divine Claw grabbing at him. This was the power of the Death God. Just now, Heavenly Soul Dominator was slapped away by this claw, leaving black liquid on his body.

At this moment, this power appeared again, and the same result happened again.

Chapter 3538: Death of the Dominator (3)

Heavenly Soul Dominator was sent flying, and his body dissipated again, leaving only the Supreme Bone. Furthermore, there was a black liquid on the Supreme Bone again, trying to corrode and penetrate it.

"Time Dilemma, a circulation technique? A displaced timeline?"

Heavenly Soul Dominator snorted. "Han Fei, it's you, isn't it? The power of this Time Predicament is even weaker than the one of the first Palace Master of the Time Temple. How dare you try to stop me?"

With that, the pupils of Heavenly Soul Dominator turned dazzling white, as if he could see through the time predicament Han Fei had set up at a glance. The eight swords behind him combined into one and broke through thousands of timelines in a row.

Heavenly Soul Dominator didn't care at all. Even if he was in a different timeline, he was still powerful. The power of a dominator, coupled with a treasure like the Primordial Eight Fierce Swords, was not something the timeline Han Fei set up could resist.

However, at the same time as the Heavenly Soul Dominator cut open these timelines, another Death God's Claw rushed over and corroded his body again.

"Huh?"

Heavenly Soul Dominator was also stunned. These thousand timelines were actually enveloped by a time illusion. He had thought that this predicament could be unfolded with a single slash, but he only cut through one illusion.

This time, not only was his flesh and blood corroded by the Death God's Claw, but he also felt that someone was trying to shake his vitality.

Yes, it was actually too difficult to trap and kill Heavenly Soul Dominator in a time predicament. The Death God would disappear in at most ten seconds. Once the Death God disappeared, the situation outside would be instantly reversed because of the addition of two dominators.

Therefore, he had to kill Heavenly Soul Dominator in ten seconds. Otherwise, his hundred-year plan would fail.

Therefore, Han Fei couldn't just wait for the time predicament to slowly obliterate Heavenly Soul Dominator. Therefore, he chose to take the initiative to cut off the river of life of Heavenly Soul Dominator.

However, as soon as this technique was used, the Heavenly Soul Dominator discovered it. As the powerful power of the Heavenly Soul Dominator shook this place, all laws were messed up, and even the laws of life were shattered.

The power of a dominator lay in the fact that sometimes, it was unreasonable. Its powerful perception and sensitivity to the operation of laws were too strong.

Buzz!

In the Time River, the time vortex trembled.

Not only did Han Fei fail to cut off the river of life of Heavenly Soul Dominator, but he was also injured.

Heavenly Soul Dominator, who only had Supreme Bones left, suddenly looked at the Time River and sneered. "I've found you. Han Fei, you're just a Sea Quelling God. Who gave you the courage to scheme against me?"

Swish ~

The Primordial Eight Fierce Swords tore open the Time River, and Heavenly Soul Dominator came directly to the time vortex. Although he couldn't see where Han Fei was, he knew that Han Fei was in this vortex, or the vortex itself.

Heavenly Soul Dominator snorted and raised his hand, trying to shatter the time vortex with the Primordial Eight Fierce Swords. However, faster than the Primordial Eight Fierce Swords, a broadsword beam suddenly burst out of the vortex. The power of this broadsword beam had reached the dominator level, and this broadsword beam was filled with killing intent.

Clank ~

This terrifying slash was instantly blocked by the Primordial Eight Fierce Swords. Only then did Heavenly Soul Dominator see that it was a knife light composed of countless knife fragments.

Yes, this was the power of the Blood Sky Blade again.

Heavenly Soul Dominator looked indifferently at the Primordial Eight Fierce Swords that seemed to be about to be broken at any time and snorted. "Han Fei, you are not even a Sea Quelling God. You know too little about the power of a dominator. Although your slash does have the power of a dominator and is indeed very powerful, its level of power is not enough."

Boom ~

After only one second, the Primordial Eight Fierce Swords were broken by Han Fei's slash.

As for Heavenly Soul Dominator, he just used his Supreme Bones to hold the strongest blow of the Blood Sky Blade.

In the end, the crazy power flowed past Heavenly Soul Dominator.

At this moment, an invisible slight fluctuation seemed to be trying to leave the time vortex.

Buzz!

Unfortunately, Heavenly Soul Dominator grabbed an invisible force with one hand and laughed out loud. "Hahaha! Han Fei, have you forgotten that your Yin-Yang Twin Spirit Swallowing Fish is only at the peak of the Great Monarch realm? How dare you leave in front of me?"

At this moment, Han Fei finally turned into his original body and was strangled by Heavenly Soul Dominator with an invisible hand, unable to move.

Han Fei's reaction was extremely fast. A third eye opened between his eyebrows, and his body was shining with golden light. The invisible hand could no longer control him.

"The second level of the path of invincibility?"

Heavenly Soul Dominator was quite knowledgeable and could tell Han Fei's invincible body at a glance.

Once Han Fei was given a chance to escape, Heavenly Soul Dominator didn't know if he could still catch him.

Therefore, Heavenly Soul Dominator didn't hesitate. He also stepped in front of Han Fei, pressed his palm on Han Fei's chest, and sneered. "The Invincible Body has an upper limit after all."

However, the moment the Heavenly Soul Dominator appeared in front of Han Fei, he suddenly saw the surrounding scene change inexplicably. He suddenly appeared on a green jade stone bridge.

At this moment, he was pressing his palm on Han Fei's chest, but he couldn't cause any substantial damage.

"The Path of Reincarnation?"

Heavenly Soul Dominator's expression suddenly changed drastically. His strength was all suppressed. His strength had already been weakened by 30% because of the power of the Death God.

God of Fishing

Chapter 3539: Death of the Dominator (4)

Now, he had fallen into the Path of Reincarnation. Although he was a dominator, he couldn't resist the suppressing power of the Path of Reincarnation. At this moment, his laws were dissipating crazily.

The corners of Han Fei's mouth curled up slightly, and he slowly said, "Do you really think I dare to attack you without any backing? Haven't you Eternal Race been looking for the Path of Reincarnation? Now that the Path of Reincarnation has delivered itself to you, why don't you look happy at all?"

Heavenly Soul Dominator's face finally changed, not because of the Death God, let alone Han Fei, but because of the Path of Reincarnation. If the Path of Reincarnation was really so easy to solve, he wouldn't have frequently sent people to test it.

Buzz!

The Heavenly Soul Dominator still tried to mobilize all his strength to resist the rules of the Path of Reincarnation. However, the more he wanted to erupt, the stronger the suppressing power from the Path of Reincarnation would be, and the faster the laws would dissipate.

Han Fei grinned. "On the Path of Reincarnation, I am the real master."

With that, Han Fei clasped Heavenly Soul Dominator with both hands and pulled him into the river of laws.

With the blood of the dominator, the gods dared to walk on the bridge of the Path of Reincarnation. However, the dissipation effect of the river of laws on laws was ten times stronger than the suction force on the bridge.

When Han Fei took Luo Xiaobai and the others to stack laws in the river, they needed Han Fei's protection. When Han Fei took Ximen Linglan upstream this river with him, for 180 years, he didn't dare to let go of Ximen Linglan.

Now, the Supreme Bone of Heavenly Soul Dominator seemed to have encountered a strong acid and bubbled crazily.

Seeing this, even Han Fei couldn't help being surprised. As expected of a dominator. At this speed, even if this river of laws wanted to completely kill a Heavenly Soul dominator, it would probably take several days.

"Roar!"

"Han Fei, even if you can kill me, so what? Once the Death God disappears, the first Palace Master of the Time Temple and Han Guanshu won't be able to kill a dominator. Our Eternal Race still has four dominators. It's impossible for all of them to be tricked by you. Why don't we each take a step back and I'll give you the small vine of the Demon Purification Pot? In addition, I'll help you save the first battlefield."

Han Fei sneered. "There's no turning back. I never negotiate with my enemies. If you become my enemy, there can only be one result, which is death. As for what happens to the other four dominators, that's my business. If I can kill you, I can kill them."

"Han Fei, there are countless strong masters and 50,000 gods in our Eternal Race. Do you know how much impact it will have if we participate in the ominous battle?"

Heavenly Soul Dominator roared angrily. At this moment, he had to compromise. On the Path of Reincarnation, he couldn't exert his strength, so he could only wait for death. As one of the leaders of the Eternal Race, how could he die here?

Unfortunately, Han Fei wasn't moved at all. Instead, he smiled in disdain. "Fifty thousand gods is a lot, but you've experienced the Primordial Era. Don't you know how many gods were born in that era? At that time, there were more than a hundred thousand gods. I would believe you if you said a million, but did they win against the ominous? So, just wait for death in peace! I will let the gods of your Eternal Race who relied on stealing the fruits of the divine tribulation know what dream bubbles are."

Buzz!

Heavenly Soul Dominator felt the river of life tremble. Obviously, Han Fei was cutting off his river of life.

Outside the Path of Reincarnation, Han Fei indeed couldn't shake the river of life of a dominator, but in the Path of Reincarnation, Heavenly Soul Dominator couldn't activate the power of a dominator at all, let alone shatter Han Fei's river of life. He could only let Han Fei do whatever he wanted.

And Heavenly Soul Dominator knew that once the river of life was cut off by Han Fei, the vitality contained in the Supreme Bones couldn't resist the river of laws and Han Fei's forcible stripping.

"Blood Soul Technique ~"

The Supreme Bone of Heavenly Soul Dominator turned blood-red, as if he had used all its strength, trying to shake the Path of Reincarnation.

For a moment, the Path of Reincarnation began to tremble, and the green jade stone bridge began to shake. The 100,000-strong line was shaken to the point of staggering.

Han Fei snorted. "Enforce the law."

Swish! Swish! Swish!

The Law Enforcement Divine Chain immediately attached to the body of Heavenly Soul Dominator, who shouted, "Hahaha, Han Fei, you brat, you can't kill me in the end. Even if I enter the Creation Divine Prison, it can't obliterate me with its strength. No matter what your plan is, you won't be able to kill me."

"Really? I spent a hundred years to set up this trap. Do you really think you can escape?"

Han Fei sneered. The moment the Law Enforcement Divine Chain attached to Heavenly Soul Dominator, Han Fei finally cut off the river of life of Heavenly Soul Dominator.

But it was impossible for Han Fei to let the Creation Divine Prison seal Heavenly Soul Dominator. Before the Creation Divine Prison convicted Heavenly Soul Dominator, Han Fei left the Path of Reincarnation and returned to this time predicament.

At this moment, although Heavenly Soul Dominator who was caught by the Law Enforcement Divine Chain didn't know what Han Fei was doing, after leaving the Path of Reincarnation, he wanted to see if the Law Enforcement Divine Chain really couldn't be broken free.

For a moment, Heavenly Soul Dominator unleashed his full strength, trying to break free from the Law Enforcement Divine Chain.

The Creation Divine Prison had just appeared and was convicting Heavenly Soul Dominator.

On the other hand, suddenly, three thousand Han Fei appeared here, all of whom were his original bodies.

Buzz—

The three thousand Han Fei activated the law of life at the same time to extract the vitality of Heavenly Soul Dominator. Even Heavenly Soul Dominator was stunned. The river of life had been severed, and his strength was first suppressed by the Path of Reincarnation and then by the Law Enforcement Divine Chain. At this moment, he couldn't avoid Han Fei's law of life at all.

Almost instantly, the dazzling Supreme Bone of Heavenly Soul Dominator lost all vitality.

Yes, everything was for this moment. The Death God created an opportunity to send Heavenly Soul Dominator into Han Fei's time predicament. Han Fei deliberately used himself as bait to let Heavenly Soul Dominator discover something wrong. Then Han Fei used all his strength to launch a dominator-level blow, pretended to be exhausted, and escaped with his invincible body, luring Heavenly Soul Dominator to embark on the Path of Reincarnation. He then would cut off his river of life on the Path of Reincarnation, sealed Heavenly Soul Dominator's power with the Law Enforcement Divine Chain, and used the Time Splitting Technique that he had prepared for a hundred years to extract his vitality...

If anything went wrong with this plan, it was very likely to fail.

However, Han Fei did it.

Rumble!

Dong! Dong! Dong!

At that moment, in the Creation Star Compass, above the vast Sea of Stars, the Great Dao rumbled, the heavens were ignited with a blush, and the entire Sea of Stars was filled with a blood-colored brilliance.

The continuous Heavenly Dao Death Knells shocked everyone.

The old Dragon God shouted, "The Heavenly Dao is crying blood, and the heavens are mourning. This is... a dominator has died."

For a moment, Senior Brother Azure Dragon and the others were slightly relieved, and a smile appeared on their faces.

As for the countless people of the Eternal Race, they had never seen such a scene before. At this moment, they were only horrified, feeling that this astronomical phenomenon was too terrifying.

Seeing this, under the black robe, the face in the shadow put on a faint smile and disappeared in the next moment.

God of Fishing

Chapter 3540: 50,000 Gods Accompany Me to Transcend the Divine Tribulation (1)

The death of a dominator was no small matter. Jiang Buyi, who was fighting, and the two dominators trapped by the Ten Yama Kings were both shocked. Their first guess was that the Death God had unleashed some extraordinary method and forcibly killed a dominator-level powerhouse.

However, this was too shocking. They admitted that the Death God was very powerful, but it couldn't be so powerful that he could kill a dominator in just dozens of seconds. Even the dominator ominous couldn't have been killed so quickly, right?

Bam ~ Bam ~

Almost at the same time as the weather changed, the death energy in the area enveloped by the Death God quickly faded.

Everyone saw a lone tomb standing in the Sea of Stars. From the lone tomb, there were continuous explosions, as if someone was trapped inside.

"The Death God has indeed disappeared."

The dissipation of the death energy and the continuous sounds coming from the lonely tomb were good proof. If the Death God was still there, it was impossible for the people trapped inside to pry open this lonely tomb in such a short period of time.

Swish ~

Time intertwined, and Han Fei's figure appeared in front of the tomb.

"Hmph!"

Han Fei didn't do anything to the lonely tomb but left the Creation Divine Prison here.

He said, "Senior, I've killed the dominator. It's up to you whether to fight or not."

Han Fei bet that the person inside would definitely take action. He didn't believe that anyone was willing to stay in the Creation Divine Prison for the rest of their lives. After all, this was a cage. Was he going to wait for death inside? It was better to die than wait for death.

He had naturally thought that the person locked up in the Creation Divine Prison might not be a good person, but what did it matter?

Whether he was a good person or not, the Sea of Stars was about to be destroyed. It didn't matter what kind of person the person inside was. As long as he didn't want to die, as long as he still had desires, pursuits, and thoughts, he should take action.

As for whether he would become a helper of the Eternal Race or not, it was absolutely impossible. The Eternal Race in the Primordial Era was a useless race. There were countless people that could easily destroy them in that era. It was impossible for the Eternal Race to have such a powerful member to be locked up in the Creation Divine Prison.

"Leave the Primordial Eight Fierce Swords behind."

Just as Han Fei had turned around and was about to leave, a voice came into Han Fei's mind from the Creation Divine Prison.

The corners of Han Fei's mouth curled up slightly. Without any hesitation, the Law Enforcement Divine Chain floated quietly beside the Creation Divine Prison with the Primordial Eight Fierce Swords.

Leaving the Primordial Eight Fierce Swords behind, Han Fei stepped out.

At this moment, the remaining dominators were restrained, and the Sea Quelling Gods were trapped. Even if they could break free, it might take them at least hundreds of seconds.

During this period of time, no one could keep Han Fei in check.

Jiang Buyi, who was fighting Jiang Linxian, shouted, "The God Slaying-level and God-level powerhouses of the Eternal Race, listen up. Han Fei is only a peak-level Great Monarch. Even if he can barely become a Sea Quelling God, his strength is limited. Block him. As long as we defend Han Fei for an hour, the Eternal Race will definitely win."

For a moment, on the Eternal Race's side, countless god-slaying and god-level powerhouses all soared into the sky.

They had to take action. This was a great disaster for the Eternal Race. The dominator said an hour, which made them immediately relieved. The Sea Quelling God was powerful, but it would be a joke if 300 God Slaying-level powerhouses couldn't even defend against Han Fei for an hour.

However, before they could be happy, they saw Dao Bones and ancient remains appear behind Han Fei.

In the next moment, time intertwined, and ancient creatures left time one after another. Among them, ferocious beasts formed groups and roared. Demon plants were everywhere, and plants grew crazily. Giant demons flew across the sky, comparable to stars. Primordial humans reappeared in the world...

In the blink of an eye, more than three hundred God Slaying-level powerhouses from the Chaotic Era appeared behind Han Fei.

Yes, it wasn't that Han Fei didn't have enough divine bones. After all, he wasn't a real Sea Quelling God. He couldn't use all his strength to revive these divine bones. Three hundred was already his limit. With his Sea Quelling God-level strength, he could probably summon them for three hundred seconds.

If he summoned a god at the level of Sea Quelling God, Han Fei might only be able to revive more than thirty people at most, and the time limit was probably less than a hundred seconds.

After all, the gap between the God Slaying level and the Sea Quelling God was actually quite large.

However, these 300 God Slaying-level ancient powerhouses were enough to make those people suffer. These were God Slaying-level powerhouses from the Chaotic Era. Only when they fought would they know what kind of abnormal people they had encountered.

For a moment, great techniques flew all over the sky. The two parties fought without any nonsense. A strong master of the Eternal Race swept his knife light at the neck of an ancient god-slaying powerhouse.

However, the ancient human who was attacked actually put his hands in front of his neck, crushed the knife light, and rushed into the army of gods fearlessly.

The resurrected had no weapons or even consciousness. They could only fight with their instincts, which were actually very crazy.

Han Fei's order was to kill the group of God Slaying-level powerhouses on the opposite side, so they didn't care about their own situation at all and activated their strongest killing technique.

Someone was pierced, but he didn't care about his injuries at all and punched through the person who injured him.

Some strange beasts were tied up by the ball cage and chose to self-destruct.

It didn't matter how they fought. The casualties didn't matter either. What mattered was that the group of God Slaying-level powerhouses were stopped.
