Chapter 3551: Jiang Buyi's Ultimate Trump Card (4)

It was hard to imagine how powerful the billions of tribulation clouds were if they were compressed into one point.

Boom!

The fingernail-sized blood-colored divine tribulation rushed straight at Han Fei, and Han Fei was fearless. In a battle of two wills, either you win or I lose.

Han Fei opened his mouth and sucked the fingernail-sized divine tribulation bead into his body.

Bang!

The last tribulation exploded in Han Fei's body, as if it wanted to shatter him to show the might of the heavens. And Han Fei's body was abnormally solid at this moment. Although his body had completely collapsed, it didn't dissipate. It was just a little transparent because of the power of this divine tribulation. In fact, these flesh and blood were still surrounding Han Fei, looking as if Han Fei had had a special physique.

More importantly, the speed at which Han Fei's bones swallowed energy was beyond imagination. The power of the exploding blood-colored divine tribulation was constantly swallowed by Han Fei.

"Myriad Daos are my body. Supreme is my will. Supreme Bones, condense."

Buzz!

Han Fei's Dao Bones were undergoing a transformation. When the Supreme Bones were formed, Han Fei immediately stepped into the dominator realm.

At this moment, Jiang Buyi's eyes lit up. He knew that his chance had come.

Jiang Buyi immediately roared, "Rise!"

Han Guanshu and Jiang Linxian immediately tried their best to pressure him. They were a little puzzled. In such a short time, Jiang Buyi shouldn't be able to break through their siege. What was he up to?

However, to everyone's surprise, on the land where the Eternal Race was swallowed by the Creation Star Compass, the towering Bloodline Divine Tree rose from the ground.

The tree erupted with terrifying power. It was also a dominator-level divine tree.

"What?"

"Impossible."

"The Bloodline Divine Tree is a functional divine tree. Even if it can give birth to will, how can it listen to you?"

Han Fei, who was swallowing the blood-colored divine tribulation, looked down and then turned to look at Jiang Buyi.

"Hahaha!"

Jiang Buyi laughed out loud. "I told you that the Concealing Divine Seal was given to you by me. The Demon Purification Pot's vine is just bait. I thought that the Sea of Stars was about to collapse, and you had no hope of clearing the Supreme Path. I didn't expect you to give me a big surprise... Fuse..."

The boundless branches of the Bloodline Divine Tree enveloped Han Fei, and the tree seemed to come to life. And Jiang Buyi, who was besieged by Han Guanshu and Jiang Linxian, began to collapse and fade.

In the next moment, the Bloodline Divine Tree realm emitted a dull buzzing sound. "No matter how talented you are, you're just my nutrient. I have the ability to become a dominator in the first place. Why should I become the tool of the myriad races' reincarnation? I can give birth to billions of bloodlines, so I can naturally give birth to the strongest bloodline in the world. In that case, why don't I become the strongest in the Sea of Stars?"

"Hahaha!"

At that moment, everyone was shocked, including the dominators of the Eternal Race. They had always thought that Jiang Buyi was a Heavenly Talent of the Eternal Race and had grown up to be a dominator. However, they didn't expect that the Bloodline Divine Tree was his original body, and Jiang Buyi was just a clone.

The dominator of the Eternal Race who was suppressed by the Ten Yama Kings also roared, "Ji Heng, if you have such strength, why do you watch the Eternal Race be destroyed?"

Jiang Buyi scoffed at such a question. "Stupid. If I can surpass the dominator realm, what's a mere race worth? Not to mention a race, I can even destroy ten races, a hundred races, or a thousand races."

At this moment, Jiang Buyi seemed to have gone crazy.

"Han Fei! Do you really think I don't know that the Path of Reincarnation is with you? I'm just waiting for you to grow up. I have the first bloodline in the Sea of Stars. Today, I'll swallow my dominator clone and then your supreme body. The three dominators will become one. I'll become the first person in the history of the Sea of Stars to surpass the dominator. Even if it's ominous, what can it do to me? Hahaha..."

At that moment, Han Guanshu opened more than a dozen pages of the Heavenly Book of Creation in a row, all of which had the power to shake a dominator.

That was not all. Han Guanshu's eyes were bloodshot as he roared, "I contain a thousand rivers with my body!"

Han Guanshu tore off a page of the Heavenly Book of Creation and went crazy. His momentum instantly soared, and a tide seemed to be surging in his body, frantically attacking the dominator realm.

Jiang Linxian also jumped up, and the Primordial Seal pressed down from the top of the Bloodline Divine Tree. On her wrist, the Primordial Purple Jade Bracelet turned into a divine ring and wrapped around Jiang Buyi.

Yes, Han Guanshu and Jiang Linxian had always had trump cards, so they were not afraid that Jiang Buyi would break through their siege.

However, they never expected that Jiang Buyi, who was in the dominator realm, was actually a clone created by the Bloodline Divine Tree.

It wasn't just Jiang Buyi. At that moment, a silver-haired man in green with black pupils and a dignified expression suddenly appeared from the Creation Divine Prison. This person crossed billions of Seas of Stars with a single step and waved his hand, instantly fusing the Primordial Eight Fierce Swords into one.

"Law Enforcement, Heavenly Punishment."

"Hehehe, are you finally willing to show up? When you could easily control the Creation Mystic Yellow Tower and the Primordial Eight Fierce Swords, I had guessed who you were. Jing Guangming... Unfortunately, you came out late."

Swish ~

Faced with the joint attack of Han Guanshu, Jiang Linxian, and Jing Guangming, the Bloodline Divine Tree, which was Jiang Buyi, suddenly fused into Han Fei's body.

Immediately, Han Guanshu and Jiang Linxian's faces changed drastically, and they quickly stopped.

Jiang Buyi was not stupid. There was no need for him to withstand the siege of three dominator-level powerhouses at the same time. As long as he entered Han Fei's body, Han Guanshu and Jiang Linxian would definitely stop attacking.

As for Jing Guangming...

The Primordial Seal blocked Jing Guangming's Heavenly Punishment Sword.

Jing Guangming frowned slightly and waved his hand, and the Heavenly Punishment dissipated. He stood calmly in the void with his hands behind his back and said indifferently, "If I kill him now, this fusion technique can be broken. Han Fei, choose for yourself."

[God of Fishing](#)

Chapter 3552: Star River Source Power (1)

At this moment, all the battlefields seemed to be collapsing.

Senior Brother Azure Dragon rushed out of the chaotic battle with an ugly expression.

Ximen Linglan finally appeared from the predicament of the world, but she didn't panic or be afraid immediately. Instead, she immediately shot out the Blade of Hope, turning into two streams of light that rushed at Han Fei.

Buzz!

The Blade of Hope sank into Han Fei's body without any resistance.

At the same time, a void appeared in front of Ximen Linglan. Just as she was about to punch out this void, she suddenly heard Han Fei suddenly look at Jing Guangming and grin. "I don't have to choose."

Han Fei's body began to disintegrate again, crushed, and turned into dust. He didn't care about such a collapse at all.

In the shattered flesh and blood, there seemed to be two blood shadows condensing tenaciously, but in the blink of an eye, the two blood shadows began to collapse.

Han Fei sneered. "Jiang Buyi, is this your last plan?"

Jiang Buyi roared, "Impossible! You haven't become a dominator yet. How can you crush my body?"

Han Fei said leisurely, "You don't understand the meaning of the word 'Supreme' at all. That's right. Your Eternal Race grows by stealing. How can you understand it? I haven't advanced to the Supreme realm yet, but it's not that I haven't advanced to the dominator realm. Originally, these blood-colored tribulation clouds were really not enough. Fortunately, you offered your two dominator bodies. In this case, it can be barely enough."

Han Fei and Jiang Buyi's flesh and blood were all crushed into stardust, turning into an infinite energy mist.

"Impossible ~"

"I'm the first bloodline in the Sea of Stars. It's impossible for me to lose if I fuse with my two bodies."

Three mists filled with source power were colliding and fusing. However, two of the mists were melting and assimilated at a visible speed.

Under the collision of source power, the stars in the Creation Star Compass trembled, and the power of the entire Star Domain seemed to be triggered by the battle between the two.

Han Fei could feel that Jiang Buyi was very strong, but in terms of will, he was at a completely different level from him. He wanted to defeat him with the will of a dominator, but he clearly overestimated himself and underestimated his Supreme will.

Rumble!

Dong! Dong! Dong!

In less than a hundred seconds, Jiang Buyi's dominator body was obliterated.

At that moment, in the Creation Star Compass, outside the Creation Star Compass, in the endless Sea of Stars, the Great Dao rumbled, and the blush that ignited in the heavens covered one galaxy after another. The blood-colored brilliance could be felt even in the Sea Realm.

At that moment, whether it was the Death God who presided over the Sea Realm, Eldest Senior Brother who was fighting at the end of the Sea of Stars, or even the first battlefield that was blocked by the ominous, there were some astronomical changes.

"A dominator has died?"

There were only so many dominator-level powerhouses born in this vast Sea of Stars. Those who could enter this realm all had infinite luck and talent.

However, at this moment, before the ominous attacked, a dominator had died. This matter was enough to shake the entire Sea of Stars.

No one knew what happened, but at this moment, in this vast Sea of Stars, countless creatures were in awe.

In the Creation Star Compass, Han Fei's voice was calm. "You've lived for billions of years. You have the number one bloodline in the world, but you don't want to improve. You just want to steal the fruits of others. Before you get the Ancient Divine Vine, you want to snatch my Supreme Body. With your temperament, even if you combine your three bodies, you are still a dominator. It's impossible for you to cross the unknown domain above the dominator realm. Therefore, you are still trash."

"Roar! I can't accept this..."

Rumble!

With a cry filled with infinite resentment, the Heavenly Dao cried blood, and the phenomena of sky mourning appeared again, superimposing on each other.

Han Fei only sighed slightly at Jiang Buyi's death. This person was actually not weak, even unimaginably strong. How could he be weak to have the number one bloodline in the Sea of Stars?

Unfortunately, too many schemes made him lose. He wanted to break through the dominator realm, but he didn't have a heart worthy of it. If Jiang Buyi hadn't been born in the Eternal Race but in the myriad races, he might have been able to reach the Supreme realm.

Unfortunately, there were no ifs.

Han Fei's body finally completely condensed, and the mountain-like treasury of the divine descendants appeared under him. Obviously, in order to take a bet this time, Qiu Wanren didn't hesitate to take out the entire treasury.

Han Fei stood quietly on the Treasure Divine Mountain, and energy kept pouring into his body under his feet, which seemed to be strengthening his body. And in Han Fei's palm, the Demon Purification Pot appeared, and nine small vines spread out wantonly.

"Come on!"

With Han Fei's shout, under the Origin Bloodline Divine Tree, billions of kilometers of land shattered, and an ancient array exploded. From the ancient array, a small vine rose to the sky and flew towards Han Fei.

"The tenth?"

Even Jing Guangming couldn't help narrowing his eyes. The tenth vine was only rumored to be found by Han Fei.

Old Han was overjoyed.

However, seeing that Han Fei had won, he couldn't hold on anymore. The power of his breakthrough to the dominator realm was gradually dissipating.

It wasn't that Old Han couldn't make a breakthrough, but that the energy in the Creation Star Compass was almost drained by Han Fei. This place couldn't support his breakthrough anymore.

God of Fishing

Chapter 3553: Star River Source Power (2)

Seeing this, Han Fei raised his hand and the Creation Star Compass spat out all the Sea of Stars here, turning into a disc again and appearing in Han Fei's palm.

Old Han and the others were only one step away from becoming dominators. The destruction of the Eternal Race had become a fact. It was time for them to become dominators.

Han Fei threw the treasure under his feet to Old Han, who shouted, "How can you give the resources to me when you're about to advance?"

However, Han Fei smiled casually. "Now, whether there are resources or not won't affect my breakthrough. Besides, I can take infinite energy at will in the vast Sea of Stars. There are no rules in this Sea of Stars that can restrain me."

This was the confidence of a Supreme.

At this moment, the tenth vine was returning and fusing with the Demon Purification Pot. Han Fei glanced at his information because he found that his body was abnormal.

He discovered that the Source Power was melting and dissipating in his bones and blood. What replaced it was a broader and boundless power. He felt that he could easily shake a Star River.

No, shaking a Star River was just the power of a Sea Quelling God.

What Han Fei felt was that he seemed to be able to shake several Star Rivers.

Information popped up in Han Fei's eyes.

Owner: Han Fei

Level: Supreme Dominator (Upgrading)

Bloodline Ranking among the Clans in the Infinite Ocean: 1

Source Power: 29,020,000 (Upgrading and transforming)

Star River Source Power: 3 pieces (Upgrading)

First Spiritual Heritage: Origin Spiritual Heritage

Second Spiritual Heritage: Eternal Darkness Spiritual Heritage

First spiritual beast: Twin Yin-Yang Sky Swallowing Fish (level 119)

Second spiritual beast: Emperor Sparrow (level 119)

Main Art: Godfiend Body

Seeing this information, Han Fei couldn't help being a little curious. He had no doubt about the improvement of his bloodline power. After Jiang Buyi was swallowed by him, whether he swallowed his bloodline or not, his second bloodline in the Sea of Stars would become first.

Even Jiang Buyi's flesh, blood, soul, and even bloodline had been swallowed by him as infinite law energy, so at this time, his bloodline might even exceed the original Jiang Buyi's.

As for the Star River Source Power, was it the power of a dominator?

The power of stars was the symbol of a Monarch.

The Divine Source was the symbol of a god.

Source Power was the symbol of a Sea Quelling God.

As for the Star River Source Power, it should be an upgraded version of Source Power. So far, Han Fei had tried it and felt that he could reach three Star Rivers away at furthest with a thought.

As for the so-called Star River, it was not difficult to understand. In a Star River, there might be a billion, ten billion, or even a hundred billion stars. These stars gathered because of some power, forming a complete Star River.

As for the Star River Source Power, Han Fei guessed that it should be the power that gathered billions of stars.

However, in the Sea of Stars, there were countless Star Rivers. It didn't seem to be a particularly powerful thing to cross three Star Rivers in an instant. Whether it was Eldest Senior Brother, the Death God, or even Senior Brother Undead, for them, they could arrive in the distant Sea of Stars in the blink of an eye.

Han Fei couldn't help but wonder, Could it be that I haven't completely completed my advancement, so I can't reach their level?

Or could it be that he had just entered the dominator realm, so he didn't know the specific abilities of this realm?

However, when Fifth Senior Brother advanced, his Source Power was 28 million, but he felt that he could fight a dominator-level powerhouse. If Fifth Senior Brother meant not to use secret techniques, it could be seen that the power of a dominator shouldn't be too exaggerated. Otherwise, why did Fifth Senior Brother feel that he could fight a dominator?

Now, his improvement could be said to be abnormally terrifying. In terms of Source Power alone, excluding the Star River Source Power, his improvement was more than 24 times.

Was this number exaggerated? In fact, in Han Fei's opinion, it wasn't exaggerated at all. It was normal for ordinary Great Monarchs to increase their combat power by ten times when they advanced to become gods.

And between gods and god-slayers, in terms of the gap in combat power alone, there was at least twice as much. In this case, there was 20 times more room for growth from a peak-level Great Monarch to a god-slayer.

And there was a threshold between the God Slaying level and the Sea Quelling God. The strongest Sea Quelling God, like Fifth Senior Brother, was nearly five times stronger than the strongest God Slayer.

In this case, the difference between a Great Monarch and a Sea Quelling God might be a hundred times. Not to mention a dominator, the power of a dominator was immeasurable in the eyes of ordinary people.

And his current improvement was clearly far from enough. Of course, he hadn't completely upgraded yet. He didn't know what the final result would be.

Apart from the statistical questions, the Supreme Divine Technique had already disappeared from his main arts. This meant that at this point, he had completely mastered the Supreme Divine Technique. He might still slowly improve his strength in the future, but there would be no further.

After checking his comprehensive combat power, Han Fei's target in the next moment was naturally the fruit on the tenth divine vine. Previously, his strength was too low, and he hadn't completely gathered the Demon Purification Vines, so he couldn't see through the last fruit.

At this moment, when Han Fei glanced over, he was stunned.

Han Fei didn't look too good.

Information popped up in front of him:

< Name > Fruit of Creation

< Introduction > A unique fruit born in the ultimate form of the Demon Purification Pot. Once used, it can't be regenerated.

God of Fishing

Chapter 3554: Star River Source Power (3)

< Level > None

< Quality > Creation

< Contained > Power of Creation

< Function 1 > Reopen the Chaos and create another Sea of Stars.

< Function 2 > After taking it, one will disintegrate himself and transform into the will rule of the Chaotic Sea of Stars, obtaining power beyond the dominator realm, but as time goes by, he will eventually assimilate into the world and lose himself.

< Function 3 > If absorbing its power slowly, after nine eras of reincarnation, there is a chance for its taker to surpass the dominator realm.

< Remarks > Only one of the three functions of the Fruit of Creation can be used.

When Han Fei saw this fruit, he was extremely uneasy. The three functions of the Fruit of Creation were all very powerful, but each choice didn't seem to be the best choice.

You gain some, you lose some. This completely confirmed the ability of the Fruit of Creation.

For example, reopening the Chaos and creating another Sea of Stars. It was hard to say if they could resist the ominous, but would the creatures of the myriad races in this Sea of Stars be taken away or left here to fend for themselves?

However, this function made Han Fei wonder if it was because of a power similar to the Fruit of Creation that created this Sea of Stars at the beginning of the Chaotic Era.

Did this mean that outside the Sea of Stars, there was a Sea of Stars and an unknown realm?

Why was the current Sea of Stars born? These were all mysteries.

The second function of the Fruit of Creation was to help its taker disintegrate himself, transform into the will rule of the Chaotic Sea of Stars, and then lose himself. Wasn't this f*cking suicide?

Perhaps after obtaining this power, he could experience a power that exceeded the dominator realm. However, it wasn't easy for him to get to where he was today. He had wives, children, parents, friends, and pursuits. He didn't want to sacrifice himself before he could experience all the beauty of life. No one would be willing to do that.

At least, Han Fei didn't have the righteousness to sacrifice himself to save the myriad races in the Sea of Stars. Did he know the myriad races? He didn't even know how many races the myriad races had. He had only fought for the human race in his life. It was already extremely difficult and life-threatening.

Now, could he still fight for the so-called myriad races? Perhaps others could, such as Eldest Senior Brother, the Death God, the Master of Time, and the others. Although they didn't seem easy to get along with on the surface, they had such intentions.

Unfortunately, Han Fei didn't, so he would never take this Fruit of Creation. Even if this Sea of Stars was really destroyed, with this Fruit of Creation, he could take away those who were important to him.

As for the third function, slowly absorbing the Fruit of Creation, this should be the best choice. Unfortunately, absorbing this thing required nine great eras. From the Prophet, he learned that one great era was billions of years. When he finally absorbed the Fruit of Creation, the Sea of Stars might have been destroyed eight hundred times.

Besides, even if the Sea of Stars persevered until that time, absorbing the Fruit of Creation didn't mean that it could definitely surpass the dominator realm. He just had a chance to surpass the dominator realm.

Therefore, on the surface, these three functions seemed to be meaningless to the current Han Fei.

And he could basically give up the idea of destroying the ominous through the tenth vine of the Demon Purification Pot.

Fortunately, this battle was not without gains.

One was that he had successfully walked the Supreme Dao. The other was that Jing Guangming had appeared. This person was the former guardian of the Creation Divine Prison. No one knew why he was suppressed on the fourth level of the Creation Divine Prison.

At least, Han Fei had never thought that such a master was still alive. He only thought that it was just a powerful dominator-level powerhouse on the fourth level.

Another benefit of this battle was naturally Old Han and his mother. Now they should be able to put their hatred down. They were already extremely powerful to be able to fight a dominator. What they lacked might be an opportunity.

And this opportunity had arrived. It was only a matter of time before they broke through to the dominator realm.

Besides, Old Han and his mother had both said that if the Eternal Race was destroyed, they would definitely become dominators.

In this case, in the short term, there would be four more dominators in the Sea of Stars. This should be able to slow down the pressure on the first battlefield and the path of no return.

After learning about his combat power and the Fruit of Creation, Han Fei looked at Jing Guangming and said casually, "Senior, are you finally willing to come out?"

Jing Guangming's eyes were calm and his expression was indifferent. "The rules of the Creation Divine Prison are ineffective against me. Whether you kill the dominator or not, I can come out at any time."

Han Fei: "..."

Han Fei cursed in his heart. You can always come out? Then why were you pretending? The Sea of Stars is almost gone. But you had been hiding in the Creation Divine Prison and pretending to be dead?

"May I ask why?"

Jing Guangming glanced at the battlefield and said indifferently, "Finish your battle first!"

Logically speaking, Jing Guangming must be a righteous person responsible for capturing those who had committed heinous crimes. Otherwise, he probably wouldn't have been able to become the guardian of the Divine Prison.

Since he was such a person, why was he so cold when he came to him earlier? Even if he had something difficult to say, he should give him a response, right?

However, Han Fei didn't have the time or mood to talk to Jing Guangming about this. Indeed, the battle of the Eternal Race hadn't ended yet. Now, there were only three dominators left, respectively held off by the Ten Yama Kings, the First Palace Master of the Time Temple, and Jing Guangming.

However, Jing Guangming didn't care about that dominator anymore. Obviously, he was going to hand him over to Han Fei.

Han Fei knew what Jing Guangming meant, but this was indeed his battle. Although Jing Guangming ignored him before, he still took action in the end.

[God of Fishing](#)

Chapter 3555: Star River Source Power (4)

However, Han Fei didn't want to owe him too much.

At this moment, although he hadn't completely advanced, he could test his strength. At least, he had to figure out the true combat power of a dominator.

Previously, he had really planned every single step to kill the Heavenly Soul Dominator step by step. With the help of the Death God and the Law Enforcement Divine Chain, he finally trapped the Heavenly Soul Dominator step by step.

If they fought head-on, Han Fei wouldn't even be able to withstand a slap before he made a breakthrough.

At this moment, seeing that Jing Guangming had given up the battle here and Han Fei had removed the Creation Star Compass, the first reaction of the dominator who was held off by Jing Guangming was to run first.

Even Jiang Buyi, who had hidden himself so well, had died. At this moment, Han Fei had made a breakthrough. And there was also Jing Guangming. The Heavenly Eternal Race would have no chance to win.

Swish! Swish! Swish!

However, when he wanted to escape, he found that the Sea of Stars seemed to reject him. He wanted to jump directly, but he failed.

Swish ~

Before this person escaped halfway through the Star River, a knife light slashed at him. He pointed at it casually, and the knife light was shattered.

"Huh? A feint?"

This person's heart skipped a beat, because the power of this knife light was too weak. He had to guess the other party was brewing some power.

Han Fei, on the other hand, was a little excited. Now he could cover three Star Rivers in an instant.

However, he discovered that the dominator he stopped could easily shatter his knife light. He seemed to be very strong.

"Huh?"

Han Fei seemed to feel that something was wrong. In order to confirm his thoughts, he attacked again, instinctively trying to mobilize the power in the black hole.

In the next moment, Han Fei's face changed slightly. Although the power he unleashed was very strong, it wasn't right.

Previously, when he was a peak-level Great Monarch, his combat power could reach 12 million.

At this moment, although the power spewing out of the black hole was very strong, it was still source power, and it only had the combat power of 30 million points of source power.

If the power he could exert was only source power, what was the Star River source power? Was it to extract power from the Star River in time?

Bang!

Han Fei was casually slapped hundreds of millions of kilometers away.

"So weak?"

The god of the Eternal Race seemed to be very surprised. He had thought that it was just Han Fei's feint just now, so he was fully focused and abnormally vigilant. But he didn't expect the power that Han Fei erupted with to still be so weak.

Of course, he didn't believe that Han Fei was so weak. Otherwise, it was impossible for Han Fei to kill a dominator-level powerhouse.

"He hasn't comprehended the fighting style of a dominator yet."

This person immediately knew the reason. Han Fei had only entered the dominator realm for a short time. And the fighting style of the dominator realm had indeed changed a lot from when one was at the Sea Quelling God level. If he didn't figure out the knack, he might find that he didn't even know how to fight.

Han Fei frowned. He couldn't be so weak. He had already embarked on the Supreme path. Even if he hadn't completely advanced, his combat power shouldn't be so weak! But he couldn't even withstand a casual slap from the other party. This didn't make sense.

"No."

Han Fei suddenly realized that the other party's slap didn't injure him at all, nor did it make him feel irresistible.

It felt as if he had been casually pushed and it didn't cause any substantial damage at all.

This also meant that whether it was his physique or strength, he was not weaker than the other party at all. However, he was sent flying by the other party. It could only be that he didn't know how to fight.

He had been fighting all his life, but he didn't know how to fight when he reached the dominator realm. Wasn't that ridiculous?

As for the dominator of the Eternal Race, he clearly didn't attack Han Fei when the latter didn't know how to fight.

In the next moment, Han Fei felt that a certain power was trying to open an abnormal spatial channel.

He immediately wanted to mobilize the power of the heavens and earth to activate the power of the vast Star Rivers. However, the battlefield was ever-changing. This kind of mobilization was too slow. By the time his strength rushed over, the other party would have already run away.

Having no choice, Han Fei could only continue to use the source power in the black hole to punch the void. This punch triggered the entire galaxy. It seemed to be infinitely powerful, but the dominator

opposite him only slapped the air to block his power, but he had almost disappeared in front of Han Fei's eyes.

Han Fei had a feeling that this person would really run away in the next moment.

At this moment, a sword pierced through the void, and the escaping void channel was pierced by a sword light and exploded.

In the next moment, the Primordial Eight Fierce Swords appeared at some point in time and sealed the space where Han Fei and the dominator were.

In the next moment, Jing Guangming said indifferently, "If a dominator borrows power, then the dominator is not much stronger than the Sea Quelling God. You paid such a huge price to comprehend the Supreme Ultimacy, but you abandoned it in battle. Then why did you comprehend it?"

Reminded by Jing Guangming, Han Fei seemed to realize something. The dominator of the Eternal Race didn't seem to need to mobilize the Star River Source Power to fight at all. Then where did his strength come from?

In other words, the other party didn't absorb strength from the Star Rivers immediately.

And when the Creation Star Compass swallowed the Eternal Race, no one could connect to their Origin Stars, so it was impossible for the dominator to borrow strength from his Origin Star.

Then, power could only come from the body itself. However, he could only exert the source power in the black hole. This was clearly not the power of a dominator, but the power of a Sea Quelling God.

"Supreme Ultimacy? Will?"

Han Fei tried it. When the Supreme Heart was ignited, Han Fei felt his body tremble, and a terrifying power seemed to instantly ignite the black hole where the two spiritual heritages converged.

At that moment, Han Fei felt that his body seemed to carry the power of billions of stars. It was a kind of power domination. He felt that he seemed to be able to destroy a huge Star River in an instant.

"So, this is the true power of a dominator?"

[God of Fishing](#)

Chapter 3556: Death of Jing Guangming (1)

The profound meaning of the Supreme lay in the Supreme Heart. This was a power of will.

This power gave Source Power greater effect and destructive power. Besides, Han Fei couldn't help but feel that the Source Power in the black hole was ignited by the Supreme Will. His body seemed to contain infinite power.

Han Fei casually punched out, and the starry sky collapsed. A dazzling divine light instantly fell on the Eternal Race's dominator.

Bang!

This time, the dominator of the Eternal Race was sent flying thousands of kilometers away. With a bang, he hit the sword domain of the Primordial Eight Fierce Swords, and half of his Qi and blood were dispersed by Han Fei's punch.

Han Fei clearly felt that the other party had slowed down. At the same time, he had a feeling that he could make the fist light he blasted out appear anywhere in the three Star Rivers in an instant.

"Is this the Star River Source Power?"

Han Fei seemed to understand something. In the dominator realm, the number of Star Rivers he could control represented his immediate combat range. Within the range of the three Star Rivers, he was almost omnipotent and could dominate everything. Dominating everything, this was the origin of the dominator realm.

However, since he could dominate these Star Rivers, so could the dominator of the Eternal Race. However, the other party couldn't escape with a thought. Instead, he was intercepted by him who hadn't grasped the use of power just now.

Obviously, when two dominators could both dominate a Star River, the competition of dominator power would make them lose the authority of dominator. Both parties could interrupt the other party's behavior of dominating the Star River. Therefore, the competition of dominators ended up as a battle.

And once it became a battle, it would become a competition of the Dao wills they had comprehended.

He could stop the dominator of the Eternal Race because the Supreme Will completely crushed his dominator will, causing the other party's power to dominate Star Rivers almost completely disappear. In the end, he could only fight him head-on.

In order to confirm his guess, Han Fei issued an order in his heart, and the sword domain covered by the Primordial Eight Fierce Swords was shattered by him.

In the next moment, Han Fei smiled.

Yes, although he was now a dominator, he was a supreme dominator and had a unique supreme heart. Within his dominator range, no one, including Jing Guangming, could compete with him in terms of dominator will.

This was a natural advantage. It meant that once one fell into his dominated range, no other will could surpass his will to dominate the Star Rivers.

Jing Guangming didn't react to Han Fei's actions. Instead, he sighed in his heart. He hadn't seen a Supreme Will for a long time.

At this moment, the strong master of the Eternal Race cursed Jing Guangming more than ten thousand times in his heart. Aren't you f*cking aloof? Then why did you meddle in this? If you have the ability, let Han Fei comprehend it himself!

Now, Han Fei had clearly discovered how to use the power of a dominator. Furthermore, the power of that punch was comparable to his.

However, how could anyone have the Source Power of three pieces of Star Rivers as soon as he became a dominator?

A Sea Quelling God could suppress a sea and mobilize the power of this Star River, but it wasn't fast enough, complete, or pure enough. When one became a dominator, he could completely dominate this Star River. Therefore, under normal circumstances, one had to start from grasping the source power of one Star River when he became a dominator.

He had cultivated for 30 million years, but he could only carry the Source Power of three pieces of Star Rivers. But Han Fei, who had just stepped into this realm, was already comparable to him who had cultivated 30 million years. Who would feel comfortable about this?

Clang!

As soon as the punch was extinguished, another broadsword slashed down. The dominator's fists soared to the sky, and sixteen diamond bracelets on his wrists turned into billions of divine bracelets that blasted at Han Fei. However, the broadsword beams didn't stop, and the countless divine bracelet phantoms were all shattered.

"That's impossible. Just now, you only had the Source Power of three pieces of Star Rivers. How can you have four now?"

The dominator of the Eternal Race was also stunned. This was too unbelievable. Even if Han Fei had walked the path of a Supreme, it didn't make sense for him to be so abnormally strong, right?

Han Fei, on the other hand, was not surprised at all. He was still leveling up in the first place. Wasn't it normal for his strength to increase?

"Puff ~"

The Eternal Race dominator's body was almost cut in half by Han Fei, and half of his flesh and blood melted under this knife.

"Huh? So weak?"

Just now, Han Fei felt that he was very weak. But now, he felt that the dominator of the Eternal Race was very weak.

Or rather, it shouldn't be said that the dominator of the Eternal Race was weak, but that the Star River Source Power he had was too strong. In addition, the Supreme Will was driving the Star River Source Power, so he should be one level higher than this person. Therefore, this slash almost cut this dominator in half.

Seeing this, Han Fei wanted to activate his Original Great Dao and completely kill this dominator. But then his heart trembled. He had activated his Original Great Dao, but his strength surprisingly didn't increase. Not to mention ten times his combat power, it didn't even double.

"Could it be that my original Great Dao can no longer provide for my strength to soar?"

However, Han Fei wasn't too surprised. Indeed, even without the enhancement of ten times his combat power, this person was still no match for him. If he really had ten times his combat power and the Source Power of 40 pieces of Star Rivers at once, he would be much stronger than this dominator.

A dominator was a dominator after all. This person might not be a match for him, but he was definitely not weak. If he was really weak, it was impossible for him and the Heavenly Soul Dominator to block the Death God with the Creation Mystic Yellow Tower and the Primordial Eight Fierce Swords.

God of Fishing

Chapter 3557: Death of Jing Guangming (2)

Therefore, the improvement of the Star River Source Power couldn't be that simple.

However, Han Fei didn't give up. In addition to his original Great Dao, he still had the path of invincibility!

The third eye between Han Fei's eyebrows opened, and in an instant, it was shining, and his strength doubled.

"Not bad!"

Han Fei was secretly relieved. His Original Great Dao might have reached its limit. He could rely on this dozens-of-times strengthening before probably because he was too weak in the past. Now, his Original Great Dao's potential for improvement might have been used up by him.

However, the path of invincibility had nothing to do with his original Great Dao, so it could still improve him.

Besides, when the path of invincibility was activated, Han Fei felt that the infinite energy accumulated in his body was quickly absorbed and assimilated by his body.

Seeing that Han Fei's momentum soared again, the dominator knew that he couldn't give Han Fei any more time, or he would have no chance of escaping.

He pierced through the Endless Void with the power of the Star River, trying to cross it by force.

When he had the source power of four pieces of Star Rivers, this dominator was already no match for him. Now that Han Fei had the source power of eight pieces of Star Rivers, this person was naturally no match for him.

The power of the Supreme Technique and the path of invincibility was completely revealed at this moment.

As soon as the dominator rushed into the Endless Void, he saw endless void cracks turn into a broadsword beam that slashed in the opposite direction.

"Pfft!"

This power directly crushed the flesh and blood of the Eternal Race's dominator, leaving only his Dao Bones. In fact, Han Fei didn't know what kind of bone it was exactly, but the other party's bones were

clearly weaker than his, so it couldn't be called a Supreme Bone. However, this kind of bone was stronger than Dao Bones, so it wasn't a Dao Bone.

But Han Fei didn't think too much about it. He had just entered the dominator realm and didn't have much experience after all.

At the moment when the other party's flesh and blood were dispersed, Han Fei cut off the river of life and suppressed this person with the Supreme Will, forcibly stripping his vitality.

The latter struggled hard, but it was in vain. Han Fei had already risen. His combat power was stronger than his, his Dao Bones were stronger than his, his bloodline was stronger than his, and his control of laws was stronger than his. In the current Sea of Stars, Han Fei's speed was even faster than his. Therefore, when this person felt a great loss of vitality, he could do nothing about it.

He was unwilling. Why was it that after cultivating hard for thousands of years, he was still no match for a newbie dominator? He was unwilling. He clearly had an endless lifespan, but his River of Life had been severed and his vitality had been forcibly stripped, but he couldn't do anything about it.

Swish, Swish ~

Under the effect of the Time Splitting Technique, two more Han Fei appeared at the same time. The three of them worked together and the law of life completely enveloped this dominator.

In just thirty seconds, the river of life of this person was almost drained.

"Roar! Han Fei, my life, I dominate. Explode..."

Han Fei could suppress the dominator, but if the other party really wanted to blow himself up, Han Fei couldn't stop him.

Rumble!

This person was really ruthless. Knowing that he couldn't survive, he still wanted to drag Han Fei down with him. However, the boundless energy caused by the self-detonation was crazily absorbed by the three Han Feis into their bodies.

He was in the middle of a breakthrough and needed a lot of energy. The self-destruction of a dominator should be extremely powerful, but the infinite power was also Han Fei's best nutrition.

In the next moment, the sound of death knell spread throughout the Sea of Stars.

Han Fei's body was shining with golden light. Before he could do anything, the dominator of the Eternal Race who was suppressed by the Ten Yama Kings roared, "Han Fei, I admit defeat. However, although the Eternal Race has been defeated, I'm at least a dominator. If I'm on the ominous battlefield, I can still help a lot."

However, Han Fei said solemnly, "You? I was afraid that you would surrender to the enemy, so you'd better die!"

"No! I can swear and establish a contract. As long as you can believe me, I can do anything."

This dominator panicked. Han Fei, who had mastered the Supreme Technique, was unimaginably terrifying. In a one-on-one battle, he could kill a dominator in a moment. This combat power was probably at the level of the Masters of the Three Temples.

If he were in the Soul Sea at this moment, he might be able to fight him with the infinite soul power of the Soul Sea. But this was the f*cking Sea of Stars. Even if he could escape from Han Fei, there were still Jing Guangming, and Han Guanshu who was making a breakthrough.

It was impossible for him to escape under these people's noses, so surrender was his only choice.

"I, don't accept it."

A moment later, in the Ten Directions Purgatory, Han Fei was holding a rotten divine bone in his hand. The divine bone was dissipating bit by bit, turning into infinite energy and laws, which were swallowed by Han Fei.

He needed all the energy and the power of laws now. These would become resources on his way to advancement. This was the dominance of the Supreme Technique. Swallowing these strong masters was like swallowing refined stars for him now.

After another moment, Han Fei held the Blade of Hope in one hand and dragged out a dominator-level corpse from the Time River with the other. Seeing this, the Sea Quelling Gods and God Slaying-level powerhouses of the Eternal Race who had long stopped fighting all gave up.

Yes, they had already stopped fighting and didn't dare to fight anymore.

At this point of this battle, the dominators on their side had all died, and a new legend had been born. In front of this legend, they had no room to resist.

However, they clearly still had a trace of hope. They hoped that Han Fei could send them to the ominous battlefield.

[God of Fishing](#)

Chapter 3558: Death of Jing Guangming (3)

However, Han Fei just glanced at these people calmly. "You have made too many mistakes to achieve your current achievements. Some mistakes can be forgiven and punished, but some can only be made up with your lives. Giving you a chance to enter the Path of Reincarnation is already the greatest mercy."

Buzz!

As Han Fei waved his hand, infinite knife lights were born in the void. Each of them carried the will of a dominator and was not something the Sea Quelling Gods and the God Slayers could resist.

When the strong masters all turned into stardust, Han Fei felt a little emotional. The dominator realm was too powerful. In this Sea of Stars, only dominators could keep a dominator in check.

When Han Fei had seen the power of Senior Brother Azure Dragon could shake a Star River, he had thought that when the number of Sea Quelling Gods reached a certain level, they might be able to kill a dominator.

But now, he didn't think so. Even the weakest dominator wasn't someone Sea Quelling Gods could kill. Of course, except for the dominator-level ominous.

Old Han and his mother were strong enough, weren't they? They could increase their strength to the dominator level, which could indeed temporarily restrain dominator-level powerhouses. However, the Sea Quelling God was still the Sea Quelling God. Even if they temporarily obtained the power of dominator through secret techniques and Supreme Nature Treasures, it was essentially borrowed. Unlike real dominators, they had such power in the first place, and it was endless.

He seemed to understand now why Cangtian and the others were not afraid of embarking on the Path of No Return. It was because they had reached the upper limit of the Sea of Stars, and the Path of No Return was the higher level they pursued.

As for life, it was actually very clear to dominator-level powerhouses. At this level, most dominators didn't care about life and death.

Of course, there might be some exceptions for the dominators of the Eternal Race. This was because their strength came too easily. They had experienced too little on the way to becoming dominators, so they cherished their lives and even begged for mercy.

Compared to others, Jiang Buyi was an extremely special figure in the Eternal Race. He was not afraid of death, so he dared to try to snatch Han Fei's Supreme Body without knowing the Supreme Ultimacy.

Because for him, once he succeeded, he would reach a realm that had never been reached in the history of the Sea of Stars. This temptation was too great, even greater than life.

Therefore, before Jiang Buyi died, he was only unwilling. Perhaps in his eyes, he was only one step away from becoming a dominator and couldn't feel the power above the dominator realm, so he was unwilling.

At this moment, the battle was over.

Most of the strong masters here were relieved.

The first Palace Master of the Time Temple bowed to Han Fei. "Congratulations on becoming a dominator, Human Emperor. Please inform me when you go to the first battlefield in the future."

With that, the first Palace Master of the Time Temple left with the three Sea Quelling Gods of the Time Temple.

As for Ximen Linglan, she naturally had to stay. She and Han Fei were already husband and wife. If there was nothing else, she wouldn't go to the Time Temple again.

The ten Yama Kings also bowed to Han Fei. Among them, the Yama King who took out the five-colored Primordial Chaos Banner said, "Congratulations on stepping into the dominator realm, Human Emperor. I have a presumptuous request. I hope you can agree..."

Han Fei nodded slightly. "Yes."

He said, "The Ten Directions Purgatory has suffered a certain amount of damage, so we need a Supreme Nature Treasure to temporarily suppress it. When the Ten Directions Purgatory recovers, we'll return it to you."

"Oh? Creation Primordial Tower?"

"No, it's the Six-Foot God Seal."

Following his gaze, Han Fei saw the two Supreme Nature Treasures used by the dominator who was besieged by the Ten Yama Kings. He had two Supreme Nature Treasures. One was the Million God Blood Bead, and the other was a small seal. Han Fei didn't recognize it. It turned out to be called the Six-Foot God Seal.

Han Fei nodded. "Okay."

"Thank you, Human Emperor."

With that, the Ten Yama Kings returned with the small seal.

"Little Junior Brother."

Senior Brother Azure Dragon and the old Dragon God stepped forward, and Senior Brother Azure Dragon said, "Little Junior Brother, the Million God Blood Bead is refined from the dragon ball of the ancient Dragon God. It's an Acquired Supreme Nature Treasure. This bead may help me break through to the dominator realm. I'm afraid I'll have to borrow it from you for a while, but I might not be able to return it to you."

Han Fei smiled. "Senior Brother, what are you talking about? It belongs to the dragon race in the first place, not me. If I can help you step into the dominator realm, I'm more than willing to do it."

Senior Brother Azure Dragon shook his head slightly. "It's not easy. I'm afraid I won't be able to make it before you go to the first battlefield. I can only give it a try. When will you leave?"

Han Fei looked at his information and shook his head slightly. "I've just made a breakthrough and may need some time to consolidate my foundation. But it depends on the situation on the first battlefield. Once Senior Sister Shen Le informs me, I'll have to go regardless of whether I've completely consolidated my foundation or not."

Senior Brother Azure Dragon nodded. "OK, remember to call me when the time comes. Time waits for no man. I have to go first."

"Wait a minute!"

"Huh?"

Han Fei looked at the old Dragon God and said, "Senior Dragon God has a lot of injuries in his body. Wait a moment."

The old Dragon God grinned. "Can they be cured?"

Han Fei smiled. "Yes."

With a thought from Han Fei, the power of the Star Rivers was triggered, and infinite divine brilliance fused into the body of the old Dragon God.

Senior Brother Azure Dragon also put on a rare smile. Although time was tight, they still had time to heal wounds.

The Demon God glanced at him. There was no point in staying here. He said, "Han Fei, I'll go back to the Sea Realm and study the follow-up of the Godfiend Body with Old Qiu."

God of Fishing

Chapter 3559: Death of Jing Guangming (4)

Han Fei smiled and said, "Okay, I have questions about this technique too. The limit of the soul-body fusion techniques is the Sea Quelling God. But this technique is a Monarch-level divine-quality technique. It doesn't seem right. I suspect that there is some extended profound meaning to the soul-body fusion. If I can deduce the subsequent techniques, this technique is very likely to reach the dominator level."

The Demon God's eyelids twitched. "I think so too... However, go about your business! The matters on the first battlefield are more important."

After a short conversation, the Demon God left.

Old Han was making a breakthrough, and his mother was guarding him.

Han Fei extended his hand, and Ximen Linglan came to Han Fei with a faint smile. She held his hand and said, "I knew you would succeed."

Han Fei said, "Of course I have to succeed. Otherwise, how could I bear to leave you alone?"

Ximen Linglan muttered, "It's not like you haven't done it before."

"Cough, cough ~"

Han Fei awkwardly looked away, but in fact, he knew very well that Ximen Linglan's personality was too strong. If anything happened to him, she would definitely follow him to die. It seemed that everything was still the same as they were in the Grand Myriad Mountains. They would never abandon each other.

At this moment, Han Fei looked at Jing Guangming and said, "There's no one else now. Can you tell me, Senior? For example, why did you seal yourself in the Creation Divine Prison?"

However, Jing Guangming didn't answer Han Fei's question directly. Instead, he said, "I didn't expect to see the ten vines of the Demon Purification Pot appear again in this life! Release the Demon Purification Pot and you'll know."

"Huh?"

Han Fei found it a little strange. Did Jing Guangming have anything to do with the Demon Purification Pot?

However, Han Fei wasn't afraid of what Jing Guangming would do. Although he hadn't completely stabilized his foundation, if Jing Guangming had any ill intentions, he wouldn't be afraid. Besides, if he really had ill intentions, he would have long attacked him.

Therefore, Han Fei didn't hesitate. The Demon Purification Pot appeared in his palm.

However, at this moment, something unexpected happened. Suddenly, the ten vines of the Demon Purification Pot attacked at the same time and instantly pierced through Jing Guangming.

Han Fei's face changed. Why did the Demon Purification Pot take the initiative to attack? And the target was actually Jing Guangming. More importantly, Jing Guangming didn't resist at all.

For a moment, Senior Brother Azure Dragon, his mother, and the others looked over.

In the next moment, a tremendous amount of ominous aura spewed out of Jing Guangming's body. Behind Jing Guangming, a twisted figure intertwined with darkness appeared.

The darkness seemed to be roaring, but no sound came out.

"The ominous?"

Han Fei couldn't help being shocked. The ominous was suppressed in Jing Guangming's body.

In this way, it actually explained a lot of things, such as why Jing Guangming disappeared and sealed himself.

The Blade of Hope had already appeared in Ximen Linglan's hand. As for Han Fei, he was relatively calm, because Jing Guangming still looked calm, and he didn't seem to be in pain at all, let alone have any intention of resisting.

Han Fei couldn't help but ask in a low voice, "What level of ominous?"

Jing Guangming said, "Ominous-level ominous."

Buzz!

Instantly, Han Fei's pupils were constricted. He looked at Jing Guangming in shock. "The ominous original body?"

Jing Guangming nodded slightly.

"Hiss!"

Han Fei couldn't help taking a breath. "If the ominous original body is suppressed by you, is the one that is causing trouble in the Sea Realm fake?"

Jing Guangming said indifferently, "No one has ever said that there is only one ominous, right?"

Jing Guangming continued, "The world doesn't know that in the Primordial Era, there was actually already a second ominous that exceeded the dominator level."

Han Fei asked, "So, in the Primordial Era, you were actually fighting two ominous?"

Jing Guangming nodded slightly. "Li Daoyi, you probably don't know him. He solved one of them alone, but he didn't completely solve it. There are still some remnants left, which are suppressed by me. As for the other ominous, that's the matter of the other strong masters of the myriad races."

"He solved an ominous that exceeded the dominator level alone?"

Han Fei couldn't help being surprised. Even Eldest Senior Brother didn't seem to be able to do this, but Li Daoyi could do this. How strong was he at his peak?

Han Fei asked, "So you sealed yourself in the Creation Divine Prison for billions of years just to obliterate him?"

Seeing Jing Guangming nod slightly, Han Fei felt a trace of admiration in his heart. This guy was also a ruthless person. He made a different choice from Jiang Taichu. Jiang Taichu chose to devour the ominous, while this person chose to suppress it for billions of years.

Jing Guangming said indifferently, "It's not obliteration, but I'm indeed waiting for an opportunity. Now, ten vines have appeared."

The Demon Purification Pot was crazily swallowing the ominous aura, and even Jing Guangming's flesh and bones were decaying. Han Fei could feel that Jing Guangming's river of life was trembling violently and seemed to be about to break free at any time.

He realized that Jing Guangming was asking for death.

Han Fei couldn't help but say, "Hold on. Since you said that this is just the remnant of the ominous, why did you die with him?"

However, Jing Guangming shook his head slightly. "I've already become one with him. Once I leave the Creation Divine Prison, if I don't die, I will eventually fall into the darkness and become the next ominous. Death is the greatest kindness and the best relief for me."

Jing Guangming's tone was extremely calm. Han Fei didn't expect that asking him to help would kill him.

This kind of person who risked his life to fight the ominous had his own righteousness. Han Fei didn't think he could do it, nor did he dare to agree, but it didn't mean that Jing Guangming wasn't worthy of admiration.

A person who endured billions of years of loneliness and still upheld justice in his heart was worthy of admiration.

The Demon Purification Pot in its complete state finally showed its dominance. In just a moment, more than half of the dominator had melted. At this moment, even the dominator bone was fading.

As for the dark shadow, it seemed to be struggling desperately, but in the end, under the baptism of the Demon Purification Pot, it calmed down and finally dissipated.

Jing Guangming suddenly asked, "Is there wine?"

"Yes, there is!"

Han Fei took out Fifth Senior Brother's precious wine and handed it over. He couldn't stop Jing Guangming from dying. Even if he did, he might not know how to deal with it.

Jing Guangming's almost illusory dominator bone took the wine calabash, pulled out the stopper, and poured it to the ground horizontally in front of him, as if paying tribute to someone.

"In my previous life, as the guardian of the Divine Prison, I never drank. What a waste of this pot of good wine."

Jing Guangming's words made Han Fei a little sad. He didn't know what this person had experienced in his life.

Han Fei asked, "Senior, do you have any last wishes?"

Jing Guangming shook his head slightly and looked into the distance of the Sea of Stars, muttering, "I once controlled the light and was once trapped in darkness. I've seen the good and the evil in the world. Li Daoyi, I've returned the favor I owe you."

In the next moment, Jing Guangming's body and the dark shadow completely faded, and the Demon Purification Pot ate them without leaving any stardust.

Here, only the death knells of the heavens were still ringing. The desolate sad songs seemed to be telling the end of a period of history.

[God of Fishing](#)

Chapter 3560: God of War, A Big Tragedy (1)

Thirteen years had passed since the battle of the Eternal Race.

Old Han and his mother broke through to the dominator realm one after another and cultivated in seclusion in the Sea Realm.

After the battle, Han Fei became busy. His first reaction was to enter his Origin Star and upgrade the Time Chain.

However, after he entered his Origin Star, he discovered that it was impossible for him to cultivate on his Origin Star again.

This was because with his current strength, it was useless to rely on an Origin Star. As long as he needed it, he could easily digest the power of a star in the blink of an eye.

Therefore, although the Time Chain could continue to upgrade, he could only waste time here at most. And his Origin Star had finally become something like a backyard to him.

Besides, when the Time Chain was upgraded to 2,048, it could no longer be upgraded. This was because the tenth vine of the Demon Purification Pot didn't seem to have the effect of upgrading the Time Chain. All its strength might be on the Fruit of Creation.

Just like Han Fei, Little Black and Little White couldn't stay in Han Fei's Origin Star for long.

As Han Fei's spiritual beast, Han Fei's breakthrough gave Little Black and Little White huge room for growth.

They had been at the peak of the Great Monarch realm for too long and could make a breakthrough long ago, but it was meaningless to devour another 100,000 or million refined stars.

Therefore, Han Fei found a Star River that had been swept by war for Little Black and Little White. Everything withered and the energy was mixed here, but it was not a bad place to cultivate. In the past, they all swallowed Origin Stars, but this time, what Han Fei asked them to swallow was a Star River.

For the current Han Fei, a Star River could be known with a thought, but for Little Black and Little White, who were only at the peak of the Great Monarch realm, there were billions of stars in a Star River.

When they could completely eat this Star River, even if they hadn't advanced to the dominator realm, it would probably be enough.

...

Unable to cultivate in his Origin Star, Han Fei hadn't recovered from the state of advancement yet. He could only leave his Origin Star and do some research in this vast Sea of Stars, such as exploring the use of the power of dominators, combat methods suitable for dominators, and how to quickly travel through the Sea of Stars.

Speaking of walking quickly in the Sea of Stars, Han Fei consulted Senior Sister Shen Le, but Senior Sister Shen Le asked him to study the birth of the Star River Source Power.

Therefore, Han Fei took Ximen Linglan to repeatedly pass through a Star River. This was because Han Fei could perceive that in a Star River, there were nearly ten million black holes. Some Star Rivers even had more.

Soon, he understood the reason for the birth of the Star River. It was because of the countless stars attracted by tens of millions of black holes. These stars gathered together and became a Star River.

However, this was the Star River on the surface. In fact, the power of these tens of millions of black holes was intertwined, forming a power that could cross a territory.

This power was invisible, like the darkness hidden under the light. Only when one reached the Sea Quelling God realm could he sense their existence. Only when one reached the dominator realm could he completely control this power. This was the Star River Source Power.

When he learned about the birth of the Star River Origin, Han Fei also learned something.

In this Star River, almost every day, new stars were born. Some stars were just new stars, and the surging energy hadn't settled and was inactive. And some stars would suddenly give birth to vitality for some inexplicable reason. And this was the initial form of the Origin Sea. The source of this vitality was behind the countless black holes.

When Han Fei stepped into these black holes, he seemed to be able to feel billions of Star Rivers at once. This was a strange space almost completely made of the source power of the Star Rivers, a space that was almost unbearable for anyone below the Sea Quelling God realm.

Here, Han Fei sensed that the Sea of Stars had boundaries.

Here, whether it was the law of time or the law of space, they were very vague. When Han Fei tried to cross this Source Power space, with a thought of his, the Star River Source Power in his body resonated with the Source Power here. In the resonance, Han Fei felt that he could go to all the places he wanted in an extremely short period of time.

When Han Fei took Ximen Linglan to the border of the Sea of Stars, the two of them could clearly see that the border of the Sea of Stars was a gray mist.

Ximen Linglan asked, "What's over there in the mist?"

Of course, Ximen Linglan didn't expect Han Fei to answer. She was just curious.

Han Fei tried to touch the mist with the power of a dominator, but he seemed to have encountered some insurmountable barrier and couldn't penetrate it at all.

Han Fei asked, "Do you think this vast Sea of Stars looks like a cage?"

Ximen Linglan smiled and said, "Then this cage is too big. According to this logic, there might be countless cages outside the cage. Then what are those spaces that carry the cages?"

Han Fei laughed. "Who knows? Forget it. If we can walk into this mist, there's no need for the dominators to embark on the Path of No Return. Obviously, compared to this mist, the Path of No Return is a better choice."

Han Fei and Ximen Linglan wandered in the Sea of Stars, crossing star rivers one after another, seeing trillions of races, and discovering countless Origin Grounds, but they didn't disturb these Origin Grounds.
