Chapter 3581: Battle for the City, Wheel of Annihilation (1)

On the first battlefield.

The ominous came quite quickly, because they were not moving forward in a normal way at all. On the way to the first battlefield, the endless void along the way was engraved with ominous mist at the same time. In less than half a day, the boundless ominous mist was less than 50,000 light-years away from the first battlefield.

Ordinary people couldn't sense the ominous mist, but all Sea Quelling Gods were shocked at this moment, because there were too many of the ominous this time.

Suddenly, the Master of Time said solemnly, "As I expected, the ominous mist that blocked the Chaotic Sea has surrounded us. It seems that they want to kill all the strong masters of the myriad races here before we recover."

Senior Sister Shen Le sneered. "It just so happens that I can finish this battle in one fell swoop."

In the next moment, in Senior Sister Shen Le's sea of consciousness, the void mark flashed. "Little Junior Brother."

Han Fei, who was cultivating in seclusion, was already cultivating hard. At this moment, his flesh and blood were shining, but what was important was not his flesh and blood, but his double spiritual heritage.

According to Li Daoyi, the rinsing of the Source of Chaos could increase his strength by about 30%. However, Han Fei didn't think that was the case. This was because the Source of Chaos also rinsed dual spiritual heritages, and the black hole intertwined with dual spiritual heritages seemed to have changed. Not only could it accommodate more Source Power, but it was also more solid.

At this moment, Han Fei had only been cleansed for 50,000 years, and his comprehensive strength had increased by 30%. He could feel that he still had at least 20 to 30% room for improvement.

Suddenly, Han Fei, who was cultivating, felt the void mark tremble.

"Little Junior Brother."

Buzz!

Han Fei suddenly opened his eyes. Of course, he knew what it meant for Senior Sister Shen Le to take the initiative to find him. Obviously, the final battle on the first battlefield had begun more than 80 years earlier than expected.

In fact, this error was already very small. Senior Sister Shen Le had already bought him a lot of time.

Han Fei immediately replied, "Senior Sister, I'm here."

Senior Sister Shen Le said, "Be prepared to come at any time. Wait for my news. When I call you, you must arrive within a second."

"Okay!"

Han Fei agreed, but then he asked, "Senior Sister, the war has already started? Can I go there directly? At least this way, I can avoid more unnecessary sacrifices."

Senior Sister Shen Le's voice carried a hint of exhaustion. "A general's success is built on tens of thousands of bones. I used the strong masters of the Sea of Stars as bait and finally attracted this deciding game. You are the most important part..."

With that, Senior Sister Shen Le fell silent, and Han Fei's heart trembled. Using the strong masters of the Sea of Stars as bait? It was indeed in line with Senior Sister Shen Le's temper. If he lost this battle, the Sea of Stars would be doomed.

If all the strong masters were destroyed, even if there were still some dominator-level powerhouses left, what was the use?

...

Another half a day passed.

On the first battlefield.

All the Sea Quelling Gods had already sensed it. In addition to the ominous mist outside the palace, on the battlefield behind, there was also an ominous mist coming from the direction of the Raging Sea.

It could be said that the corner where the first battlefield was located had been completely surrounded. There was no escape except fighting the battle.

However, on this battlefield, except for the Master of Time and Senior Sister Shen Le, there were only three dominator-level powerhouses and 29 Sea Quelling Gods.

Yes, this was the peak combat power of the first battlefield. Of the three dominators, two were strong masters of the six lineages, and only one was a strong master of an outsider race. Before, they had been cultivating in seclusion because they were only ordinary dominators. It was extremely difficult for them to advance further after stepping into this realm. Therefore, they had been cultivating in seclusion and trying to improve themselves.

But now, they had no choice but to come out of seclusion.

But even so, three ordinary dominators couldn't change the situation. This was because the dominator rank was much more ominous than they had imagined.

At this moment, Senior Sister Shen Le said, "Old Five, Six God, Lei Heng, Dark Shadow, Yue Lingke, and Qiong Qi, the rear battlefield is yours. Feng Yu, no matter what happens in this battle, you are not allowed to make a breakthrough. The Sea of Stars doesn't lack a god or a god-slaying level powerhouse like you. If you want to make a breakthrough, you have to be at least a Sea Quelling God. Do you understand?"

Holding a wine calabash, Fifth Senior Brother said calmly, "That's true."

On a certain purification star in the rear, Feng Yu clutched her mouth, her face full of regret.

She despised herself. It was too fast. This ominous battle had erupted too quickly. If she had been given more time, she might have been able to succeed.

Senior Sister Shen Le didn't reply. She appeared 100,000 light-years away alone. In terms of combat power, she was the strongest here. Because the Master of Time was very weak in fighting, in this full-scale battle, she could only temporarily resist the ominous that seemed to have surpassed the dominator rank alone.

This ominous was much stronger than ordinary dominator-level ominous creatures, but his combat power didn't reach the upper limit of his and the Master of Time's endurance, so they just suspected that he had surpassed the dominator rank.

Shen Le had seen the real ominous that exceeded the dominator level. It was clearly much stronger than this person.

Senior Sister Dark Shadow frowned. "Fifth Senior Brother, Senior Sister Shen Le's injuries are not optimistic."

Fifth Senior Brother said leisurely, "She knows what she's doing. I know you want to fight head-on, but... the physique of the God Slaying Demon Puppet can only block one dominator-level ominous at most. Facing that one, you will definitely die."

Lei Heng sighed. "There are so few strong masters in the Sea of Stars now! Isn't it a little... too few for only the six of us to block the entire rear?"

[God of Fishing](#)

Chapter 3582: Battle for the City, Wheel of Annihilation (2)

Senior Brother Six God smiled and said, "Do you really think there are only the six of us?"

Lei Heng was stunned. "What are you talking about? Oh, are Senior Brother Azure Dragon and Little Junior Brother coming?"

"Sizzle~ Ah~"

Fifth Senior Brother took a sip of hard liquor and smiled. "Aren't they already here?"

Buzz!

In the next moment, two huge Distanceless Gates suddenly appeared in the Sea of Stars at the same time.

"Roar!"

"Roar!"

Dragon roars sounded here, and from the Distanceless Gate, dragons rushed out one after another.

Obviously, the entire dragon race was already prepared, waiting for the battle to begin. And the only thing that could send them over was the Distanceless Gate.

At this moment, as a piece of time intertwined, Senior Brother Azure Dragon didn't appear from the Distanceless Gate, but walked out of time.

Senior Brother Six God took a look. "Huh! Senior Brother Azure Dragon, did you go to the Time Temple?"

Senior Brother Azure Dragon smiled. "I have no choice. Time is tight. Unfortunately, I still can't make the breakthrough in time."

Seeing this, Fifth Senior Brother couldn't help but ask, "Why do I feel that you seem to have made a breakthrough?"

Senior Brother Azure Dragon shook his head. "For now."

As he spoke, Senior Brother Azure Dragon looked at the dragon army. "Everyone below the god level, except for the Origin Guards, enter the Skynet and choose a purification star as your stronghold. Everyone above the Monarch level, guard in front of the Skynet. I don't need you here."

The old dragon god asked, "Shall I stay?"

Senior Brother Azure Dragon shook his head. "There are so many people for you to take care of, Dragon God. I took all the top combat power of the dragon race here to participate in the battle, not to send them to death."

In the dragon race, in addition to Senior Brother Azure Dragon, there was the old Dragon God, two god slayers, five gods, and 100,000 Monarch-realm dragons.

In terms of the power of a race alone, such power was actually extremely terrifying. However, on the first battlefield, there were tens of millions of Monarchs, so the power of the dragon race was not so conspicuous.

However, when 100,000 dragons poured into the Skynet, many people were still shocked.

"The dragon race is here."

"I knew it. The news of a great victory on the dragon battlefield just came out a while ago, but I didn't see any dragons on the first battlefield. So they only appeared in the end."

"100,000 Monarchs! Rumor has it that the dragon race is declining. Do they look like they're in decline?"

"Unfortunately, a hundred thousand Monarchs are still not enough!"

"What are you talking about? It's better than nothing, right? In the past, a hundred thousand Monarchs could sweep through countless ominous battlefields."

Behind.

Lei Heng was puzzled. "Senior Brother Azure Dragon, are you alone? Where's Little Junior Brother?"

Senior Brother Azure Dragon said indifferently, "He will come when he should. As for the others, they have come."

On the battlefield in the rear, a Palace Master and three Sea Quelling God-level powerhouses of the Time Temple walked out of time.

The Palace Master of the Time Temple nodded slightly. "Greetings, everyone from the Void Temple."

With that, behind the leader of the Time Palace, the Time River appeared. The three Sea Quelling God-level powerhouses also activated the Time River. For a moment, countless time chains surged out of the Time River and locked the void behind.

Lei Heng muttered, "It seems that in this era, only the Three Temples can resist the ominous! If the Ten Yama Kings can come, it will be complete."

Senior Brother Six God teased, "If everyone comes, who will guard the Sea Realm?"

Bang!

While everyone was talking, a loud bang suddenly swept across the sky above the entire Skynet. With the strength of the Sea Quelling Gods, it could be seen that at the front line, Senior Sister Shen Le had already started a war with a humanoid ominous creature.

The collision just now was caused by Senior Sister Shen Le being blasted down and hitting the Time Sealing Sky Lock.

"Tweet ~"

At the moment she hit the Time Sealing Lock, Senior Sister Shen Le held a blood feather in her hand and swept away all the ominous mist within a light-year. Then, she slashed out and cut open the humanoid ominous she was fighting.

However, the humanoid ominous was unmoved. Its body instantly healed, and it materialized an ominous hand that spanned billions of kilometers, preparing to slap Senior Sister Shen Le.

The ominous didn't care where a battle broke out. If they could kill the strong masters of the myriad races here with the aftershock of their battle, they were naturally happy to do so.

However, Senior Sister Shen Le was unwilling. A nebula rose to the sky behind her. This huge nebula turned into the form of a divine bird, and its two feathers unfolded, bathing in blood-colored brilliance.

Whoosh!

The nebula bird's feathers waved, and wherever the blood-colored energy passed, all the ominous mist turned into nothingness. It met the huge palm and caused the sky billions of kilometers to collapse.

Senior Sister Shen Le didn't dare to hold back. She wanted to take this person away, or at least, she couldn't fight here. Senior Sister Shen Le's body transformed and turned crimson.

The ominous that seemed to have surpassed the dominator level sneered. "Shen Le, the battle has just started, and you're already using your blood body. It seems that you're indeed seriously injured!"

Senior Sister Shen Le spat. "I'll still beat you."

"Hehehe! How long can you last? A year, two years?"

Senior Sister Shen Le ignored this person. Her sharp claws tore through the sky, and the claw marks spread out, tearing straight at the endless ominous mist. Wherever the three claw marks passed, the ominous mist was cut open like paper, and these claw marks showed no signs of stopping.

[God of Fishing](#)

Chapter 3583: Battle for the City, Wheel of Annihilation (3)

Senior Sister Shen Le shouted, "Unless you can break through the barrier of the Time Sky Sealing Lock, if you still fight me here, I don't mind killing my way into the ominous mist. Let's see how long it will take you to kill me."

The humanoid ominous creature snorted and retreated, stepping into an endless void.

Seeing this, Senior Sister Shen Le secretly heaved a sigh of relief. She glanced at the Master of Time. "I'll leave this place to you."

The aftershock of the battle was too great for a dominator, especially for Senior Sister Shen Le and the ominous creature who seemed to have surpassed the dominator realm. If it weren't for the Time Sealing Lock of the Master of Time, the strong masters of the myriad races would have been destroyed a hundred times.

At this moment, Senior Sister Shen Le was naturally relieved to be able to temporarily push back this humanoid dominator.

After Senior Sister Shen Le and the ominous that seemed to have surpassed the dominator level left, three dominator-level ominous creatures suddenly appeared in the ominous mist. The three of them borrowed the infinite mist to forcibly annihilate the power of Senior Sister Shen Le's claw.

At the same time, the three dominators except for Senior Sister Shen Le and the Master of Time had already stepped out to meet the dominator-level ominous.

In such a war, there was no such thing as reserve strength, nor was there any way to preserve strength. The combat power of a dominator-level powerhouse was almost infinite. He could keep fighting, so it didn't make much sense to reserve strength.

The three dominators attacked together and activated the Star River Source Power, blocking the entire ominous mist.

They didn't attack just to deal with the three dominator-level ominous creatures. They wanted to lure out more dominator-level ominous creatures. If there weren't dominator-level ominous creatures, the ominous mist alone couldn't move forward.

Sure enough, the moment the three dominators took action, three more dominator-level ominous creatures appeared in the ominous mist. On average, they fought two alone. The three of them knew that it was about time, so they took away six dominator-level ominous creatures. Perhaps they could take away more, but if they wanted to kill the other party as soon as possible and come back to participate in the battle, they couldn't wait anymore.

If it was really three against one, the result might not be good. Even if the ominous' combat power was on average weaker than the strong masters of the myriad races, they had more people. When the number reached a certain level, this combat power gap would naturally be made up.

The three dominators took away six dominator-level ominous creatures.

At this moment, only the Sea Quelling God could fight. In the future, there were a total of 29 Sea Quelling Gods here.

Now, with Senior Brother Azure Dragon, the Dragon God, the Palace Master of Time, and the three Sea Quelling Gods, there were 35 of them. But on the rear battlefield, including Senior Brother Azure Dragon and the Dragon God, 12 Sea Quelling Gods went. On the Time Master's side, there were still two Palace Masters of Time who didn't appear. There were only 20 Sea Quelling Gods left.

However, these 20 Sea Quelling Gods couldn't all fight. At least one of them had to be left to protect the Sky Net. Therefore, only 19 people could fight in the end.

At this moment, the 19 Sea Quelling Gods were already prepared and were divided into three teams. Their goal was to block the three dominator-level ominous creatures.

They were not like the Palace Master of the Time Palace who could revive ancient creatures, nor were they like the Ten Yama Kings who were weirdly undead. They were also not like Fifth Senior Brother and Senior Brother Azure Dragon who could unleash dominator-level combat power.

But this didn't mean that they would be weak. In fact, it was already commendable that an average of six people could resist one dominator-level ominous. After all, the gap between the Sea Quelling God and a dominator was far greater than imagined. If it were the dominators of the myriad races, not to mention six Sea Quelling Gods, even if the number doubled, they would probably be obliterated one by one.

Besides, as Sea Quelling Gods, when they fought dominators, they couldn't lure these ominous dominators away. The ominous dominators weren't fools. If you don't want to fight, we'll attack the city.

Therefore, at this moment, the 19 Sea Quelling Gods were divided into three teams and rushed out at the same time. And in the endless ominous mist, another three dominator-level ominous creatures were mobilized.

Seeing this scene, the Master of Time frowned slightly. This ominous attack was indeed more ferocious than before. In the past, many God Slaying-level ominous creatures would besiege and restrain these Sea Quelling Gods first before breaking through with the power of the dominator.

But this time, the ominous side simply mobilized the dominator-level ominous, which seemed to directly restrain all the Sea Quelling Gods.

This was not a good sign. The Sea Quelling God was restrained, which meant that the other party would have a large number of God Slaying-level ominous creatures free. Furthermore, this was an ominous general attack. The entire line was shrinking, and it was obvious that they wanted to eat all the strong masters of the myriad races in one bite. The two sides had been fighting for so long, so it was impossible for them not to know how many strong masters there were on the other side. Therefore, the Master of Time was not optimistic about the current situation.

Not to mention whether the rear battlefield could be defended, in the blink of an eye, only the Master of Time was left on the front line battlefield.

Millions of ancient bones appeared beside the Master of Time. At this moment, these million bones were intertwined by the law of time at the same time because of his power alone.

Although Senior Sister Shen Le kept saying that the Master of Time was not good at fighting, she was talking about a battle at the dominator level. And in the entire Sea of Stars, there was no one stronger than the Master of Time in dealing with a super-large-scale war below the dominator level.

One ancient beast after another roared in time, forming a barrier made of ancient creatures outside the Time Sealing Sky Lock.

[God of Fishing](#)

Chapter 3584: Battle for the City, Wheel of Annihilation (4)

Sure enough, in the next moment, 18 dominator-level ominous creatures appeared from the ominous mist. When so many dominator-level ominous creatures appeared at the same time, the Master of Time couldn't help but look solemn. In the previous battle that heavily injured Shen Le, the other party had mobilized a total of 23 dominator-level ominous creatures.

However, this time, on the front line battlefield alone, they had triggered a total of 27 dominator-level ominous creatures, as well as the ominous that seemed to have surpassed the dominator level. This strength was enough to shake his Time Sealing Sky Lock.

Before the battle began, dominator-level ominous figures appeared on both sides of the palace in the Raging Sea. The ominous mist hadn't arrived, but the dominator-level ominous still appeared first.

"Are you forcing me?"

The Master of Time said indifferently, "Aren't you afraid that all the dominator-level ominous creatures will die at my hands?"

Immediately, among the 18 dominator-level ominous creatures, someone said, "Killed by you? Time, if you were so strong, you wouldn't have been trapped here. Let the other two hall masters of the Time Temple come out! Otherwise, I'm afraid they won't have a chance later."

The Master of Time snorted, but beside him, time was intertwined. Sure enough, the two Palace Masters of the Time Temple walked out from behind the time barrier.

In addition to these two Palace Masters, there were also six Sea Quelling God-level powerhouses from the Time Temple.

Without needing the Master of Time's instructions, the two Palace Masters of Time respectively led some Sea Quelling Gods to the side battlefield. They had no choice. They had to defend in all directions. It was hard to say if they could defend.

The two Palace Master of the Time Temples of the Time Temple activated the Time Sky Sealing Lock at the same time. They didn't know how long they could block it.

But if they couldn't resist it in the end, they could only take away a dominator-level ominous through Time Predicament.

At this moment, one of the dominator-level ominous creatures said, "Time, there's no one around you who can be used now. There aren't many dominator-level resurrected ancient creatures, and there's a time limit. Do you think you can resist us alone?"

Another dominator said ominously, "Even if you trap us, I'm afraid you won't be able to maintain the Time Sealing Sky Lock! You can't defend it with the Myriad God Palace and such a little Sky Net."

The Master of Time snorted. "Whether we can defend it or not, it's up to me."

At this moment, the two parties didn't attack immediately. The Master of Time didn't attack because he didn't know what other moves the other party would have after he attacked. Therefore, if the other party didn't take the initiative to attack, he wouldn't attack either.

As for why these dominator-level ominous creatures didn't take action, it was because they could restrain the Master of Time here. While restraining the Master of Time, infinite ominous creatures had already rushed out of the ominous mist. They were densely packed and covered all the defense lines of this palace.

Furthermore, the ominous mist was also attacking, trying to break the Time Sealing Lock.

"Roar!"

Bam! Bam! Bam!

At this moment, the first defense was the millions of ancient creatures resurrected by the Master of Time. These ancient creatures were at least Monarchs, but there was no lack of God Slaying-level and God-level powerhouses. There were even a small number of Sea Quelling God-level powerhouses.

The only significance of this defense line was to kill as many ominous creatures as possible and defend against the first wave of the ominous attacks.

Bam! Bam! Bam!

Knock, knock, knock!

Rumble!

For a moment, outside the palace, endless combat skills and divine techniques were activated. As soon as the resurrected creatures collided with the ominous creatures, the entire Star Domain almost collapsed. One resurrected creature after another was annihilated, and at the same time, tens of millions of ominous creatures were annihilated.

However, in the tide of ominous mist, the infinite supply of ominous power made these annihilated ominous creatures revive again.

In the rear, in the huge city on the first battlefield, the Phoenix Patriarch was guarding. He roared, "Everyone, activate the first round of the purification array."

For a moment, in the city, nearly a million Monarchs poured their strength into the countless arrays in the city. In the next moment, on the city wall, laser-like purification pillars instantly shot into the ominous mist.

"Kill!"

"Brothers, this is only the first round of attacks. Fight hard."

Immediately, the sky was filled with endless brilliance. Any ominous creature enveloped by this pillar of purification light had their vitality and ominous aura instantly annihilated.

In the rear, everyone who could see this battle was watching the battle with a solemn expression.

Although there were many purification pillars, they still needed to be invested with power. However, Monarchs were not gods. Except for Immortals and Great Monarchs, the power of others was limited.

Even Immortal-level cultivators couldn't continuously shoot out the purification pillars in an extremely short period of time. And the number of Great Monarchs was limited.

However, only half an hour after the battle began, half of the resurrected creatures outside the time barrier had already disappeared. It was not that the Master of Time couldn't hold on anymore, but that these resurrected creatures had all been killed.

Furthermore, the purification pillars bursting out of the city wall were less than half of their original number. Some people couldn't hold on anymore and were either taking the time to rest or swallowing spiritual fruits to recover.

In just half an hour, billions of ominous creatures had been purified.

No one knew how many ominous creatures there were, but outside the time barrier, the number of ominous creatures had never decreased, reaching tens or hundreds of billions.

Boom ~

Suddenly, the time barrier was shaken, and a large wave of ominous mist forcibly collided, shaking the entire palace.

At this moment, the Phoenix Patriarch immediately shouted, "Gods, listen up. The first Wheel of Annihilation is activated."

Buzz—

In the palace, nearly a thousand gods injected the power of the Divine Source into the core array of the palace. Immediately, the mysterious spiritual treasure with nine rings above the palace began to spin.

More than a thousand gods gathered on this spiritual treasure together. Immediately, the entire palace flickered with the light of purification. In the next moment, the entire palace, on the city wall that was as wide as 30 years, surged with the light of purification at the same time.

In the blink of an eye, a super-large purification wheel with a diameter of thirty light-years cut horizontally like a harvesting wheel.

Bam! Bam! Bam!

Bang! Bang! Bang!

Almost in an instant, the billions of ominous creatures at the front were swept away and annihilated under the huge Wheel of Purification.

The ominous mist that was like a huge tide was instantly purified, revealing the originally shattered void.

The Phoenix Patriarch couldn't help but spit. "How can the strongest battlefield of the myriad races really have an undeserved reputation? I'd like to see if this ominous is really endless."

[God of Fishing](#)

Chapter 3585: The Outbreak of the Master of Time (1)

The Wheel of Annihilation with a diameter of thirty light-years swept away all the ominous creatures wherever it passed.

Such a large-scale destructive weapon was rarely used. Even the ominous didn't know that the Myriad God Palace could unleash such power.

In the blink of an eye, on the frontal battlefield, the ominous aura within a few light-years was swept away. Even so, the Wheel of Annihilation hadn't completely appeared.

At this moment, the expressions of the 18 dominator-level ominous creatures all changed. The 18 of them attacked at the same time, trying to shake the Wheel of Annihilation.

However, how could the Master of Time let them? When the Phoenix Patriarch used the Nine-Turn Heavenly Wheel, the tide of time surged ceaselessly. In the end, he took action and sent these eighteen people into a time predicament with unparalleled power.

The ominous creature suspected to be above the dominator level who was fighting Senior Sister Shen Le was furious when he saw this. He had never seen the myriad races use such a method, nor had he used it in history. Such a large-scale attack shouldn't even be a power that a Supreme Nature Treasure could unleash.

"Humph! Haven't you always wanted to know my real strength? As you wish."

The ominous creature above the dominator level suddenly took out a black bottle. As the bottle was opened, a dark red powder was sucked into his body.

At that moment, Senior Sister Shen Le didn't choose to stop him, because she instinctively felt that the dark red powder seemed to be extremely terrifying.

Buzz!

After the ominous creature swallowed the dark red powder, the entire Star River trembled slightly, and the dominator-level ominous immediately soared in strength. He didn't attack Senior Sister Shen Le immediately, but slapped at the Wheel of Annihilation.

But how could Senior Sister Shen Le allow it? She immediately unleashed all her strength to block it and also slapped out. However, in an instant, Senior Sister Shen Le's entire palm shattered, and her blood turned into a boundless red mist as she was instantly sent flying.

With a thought, Senior Sister Shen Le used the momentum of being pushed back to block tens of thousands of light-years in front of the Myriad God Palace in the blink of an eye. At the same time, she turned into her original body. With a clear cry, the blood-colored palm that had just been shattered turned into a blood-colored knife light and immediately slashed at the ominous.

However, the other party actually held the blood-colored knife light with one hand. With a loud rumbling sound, the blood-colored knife light was covered in darkness. However, the difficult power of the Dao of Slaughter God also shattered one of the other party's arms on the spot.

Senior Sister Shen Le's palm quickly recovered, so did the other party's shattered arm.

Senior Sister Shen Le snorted coldly. "You can control more than 40 pieces of Star Rivers, but I can still shake it. Your total Star Rivers should be between 42 and 45 pieces. The basic quantity above the dominator level is 50 pieces of Star Rivers. Therefore, you are just a very powerful dominator-level ominous, not beyond the dominator level at all."

"Humph! Even if I haven't reached that level, it's enough to deal with you. In this Sea of Stars, only Void can compete with me. You are not qualified."

Although this dominator-level ominous was powerful, Senior Sister Shen Le was finally relieved. She and the Master of Time guessed that this dominator-level ominous just wanted to slowly consume the strong masters of the myriad races. Therefore, it hadn't revealed its real strength. And because the other party could fight two alone, under the siege of her and the Master of Time, it wasn't at a disadvantage. Therefore, they suspected that the other party was above the dominator level.

However, from the looks of it, the other party hadn't surpassed the dominator level in the end. Not surpassing the dominator level was great news in itself. This meant that the other party was not invincible or invincible.

If Eldest Senior Brother were here, the other party would definitely not dare to act rashly.

Senior Sister Shen Le transmitted this information to the Master of Time with a thought. The latter couldn't help but heave a sigh of relief.

However, he only relaxed for a short while. Although the other party wasn't above the dominator level, his terrifying combat power of above 42 pieces of Star Rivers couldn't be described as an ordinary dominator at all.

Bam! Bam! Bam!

Boom, Boom, Boom ~

This dominator-level ominous was fighting Senior Sister Shen Le. Senior Sister Shen Le had clearly used some ultimate secret technique. Even so, she was still no match for her in terms of combat effect.

If it weren't for the Dao of Slaughter God that she created, she might not have been able to last until now before being defeated by the other party.

The dominator-level ominous found that Senior Sister Shen Le was determined to hold him off, and half of the Wheel of Annihilation had rushed out of the palace wall.

As many as ten billion ominous creatures of various sizes were killed by this sudden appearing Wheel of Annihilation. This was why this dominator-level ominous was angry. The ominous was naturally not afraid of sacrifice. However, being not afraid of sacrifice didn't mean that they had to sacrifice in vain.

The effect of the Wheel of Annihilation was too powerful. The first charge of the ominous creatures was defeated just like that.

The dominator-level ominous immediately snorted. "I didn't want to use all my strength. I know that there are some strange phenomena near the Sea Realm. You might still have some combat power hidden. But I'd like to see if you have any reinforcements that can block the charge horn of our army."

"Hiss ~"

In the next moment, seven dominator-level ominous creatures appeared in the ominous wave again.

[God of Fishing](#)

Chapter 3586: The Outbreak of the Master of Time (2)

If there were only so many dominator-level ominous creatures left, Senior Sister Shen Le might not be too worried.

However, at the same time, on the rear battlefield and the side battlefield, dominator-level ominous creatures appeared one after another, and the ominous mist also appeared one after another. A tide of ominous creatures began to attack the four barriers of the Myriad God Palace and the Skynet at the same time.

On the frontal battlefield, the most terrifying thing was that in addition to the seven ominous dominators, hundreds of thousands of God Slaying-level ominous creatures had appeared.

What did 100,000 God Slaying-level powerhouses mean? In the past, several God Slaying-level powerhouses were enough to tie down an ominous battlefield. Even if they moved out of the battlefield, there were definitely no more than 10,000 God Slaying-level powerhouses on the surface.

And now, 100,000 God Slaying-level powerhouses had appeared at once. It could be seen that the ominous determination this time was clearly determined to destroy the myriad races.

The appearance of these ominous powerhouses pushed the ominous mist to attack the Wheel of Annihilation.

The dominator rank who was fighting Senior Sister Shen Le grinned ferociously. "This Wheel of Purification is indeed extraordinary, but the power of purification is limited. With your few people, I don't believe you can use such power many times."

"Puff! Puff! Puff!"

Sizzle~

The ominous army seemed to be prepared to die. They also knew that the city was difficult to attack, but as long as they survived the extreme outburst of the strong masters of the myriad races, victory would definitely belong to them.

When the entire Wheel of Annihilation appeared, it still wanted to move forward, only to fail to move forward anymore. Layers of ominous waves kept coming.

After only a moment, the Wheel of Annihilation began to dim. When the Wheel of Annihilation completely dimmed and disappeared, only more than 3,000 God Slaying-level ominous creatures were sacrificed.

Under normal circumstances, such an outcome would probably make the strong masters of the myriad races excited for a long time. But this was not normal time. This was an ultimate battle that concerned the survival of the myriad races.

However, the sweeping of the area of nearly thirty light-years did relieve some pressure on the front line battlefield.

However, the Phoenix Patriarch, who was guarding the Myriad God Palace, couldn't be happy at all. This was because except for the frontal battlefield, the other three battlefields had begun to discover a charge of the ominous.

Especially on the rear battlefield, Fifth Senior Brother and the others were no longer in the mood to watch the front line battle, because an ominous army of tens of billions was surging over like a tide.

There were also as many as eight dominator-level ominous creatures here. Senior Brother Azure Dragon took the lead to attack. "I can kill one within an hour. I hope this Time Sky Sealing Lock can withstand it."

"Roar!"

A dominator-level ominous took the initiative to pounce on the huge body of Senior Brother Azure Dragon. The two parties instantly fought into the Endless Void.

Senior Brother Azure Dragon cultivated in the Time Temple with the Million God Blood Bead. Because the battle was imminent, although he hadn't broken through to the dominator realm, he chose to forcibly fuse with the Million God Blood Bead, but he could barely reach the dominator level in thousands of years. Although he wasn't a powerful dominator, he could at least make it in time for this battle.

At this moment, he had to take action immediately. He had to rush back to restrain the second dominator-level ominous.

However, even if Senior Brother Azure Dragon took one away, there were still seven dominator-level ominous creatures on the opposite side.

Senior Brother Six God sighed. "There are too many dominator-level ominous creatures!"

However, Fifth Senior Brother shook his head slightly. "No, it's still not the most yet. In the battle in the Primordial Era, why do you think the strong masters of the Primordial Era were defeated? Because more than a thousand dominator-level ominous creatures appeared one after another."

"Hiss ~"

Fifth Senior Brother originally didn't want to tell this to others, but at this moment, he had to remind them that what was in front of them was not yet the full strength of the ominous army.

Lei Heng was lost for words. "If thousands of ominous creatures come at us at the same time, how can the Myriad God Palace resist them? I'm afraid we won't even be able to withstand a round of impact, right?"

Fifth Senior Brother said, "I'm talking about the appearance of more than a thousand dominator-level ominous creatures one after another. There are certain conditions for the appearance of dominator-level ominous creatures. Although I don't know what these conditions are, they should be related to the ominous mist. In the Primordial Era, nearly 80 dominator-level ominous creatures appeared. At present, on the four battlefields, there are a total of 48 dominator-level ominous creatures, but this shouldn't be their full strength. These are just stimulated by the Nine-Turn Heavenly Wheel. They know that we can't use the Nine-Turn Heavenly Wheel all the time. The other party wants to consume the power of the Nine-Turn Heavenly Wheel."

Senior Brother Lei Heng said, "Whatever, Bug, the two of us can hold back one of them, right?"

Senior Brother Six God frowned. "Yes, but we can't kill them. Once we restrain one of them, we won't be able to participate in the battlefield here. You can attack, but I can't. The insect army has to be under my control to exert its strongest combat power."

At this moment, behind everyone, many places on the Creation Worm Nest were bulging, and around the Creation Worm Nest, 12 God Slaying-level giant worms had already appeared.

And around the insect nest, there were nearly a hundred black holes. As long as Senior Brother Six God was willing, a massive number of insects would surge out of the black holes.

Lei Heng was lost for words. "The other insects of your insect race are so weak. How many slaps can they take?"

Senior Brother Six God said, "The Purification Worms are meant to charge. Although they can't kill the doomsday-level ominous, they should be able to purify hundreds of millions of them below the doomsday level."

Senior Sister Dark Shadow said, "Lei Heng, let's attack together and kill one of the dominator-level ominous. You are born to be able to restrain the ominous, and with my physique, I can barely fight the dominator-level ominous. It's not impossible for us to kill one."

[God of Fishing](#)

Chapter 3587: The Outbreak of the Master of Time (3)

Lei Heng said, "But there'll still be six dominators."

Fifth Senior Brother: "I can kill one."

Old Fierce said coldly, "Count me in."

At this moment, with a swish, the Distanceless Gate appeared again. There was no telling which Distanceless Gate this was. In the next moment, Han Guanshu and Jiang Linxian appeared.

Seeing these two people, Fifth Senior Brother couldn't help but heave a sigh of relief. "You came at the right time."

Han Guanshu smiled. "We kill four."

Han Guanshu and Jiang Linxian greeted Fifth Senior Brother and the others before stepping out of the time barrier.

Sure enough, at first, the other party's dominator-level ominous wanted to test it, but it was pierced by Jiang Linxian's jade-like hands. Immediately, four of the dominator-level ominous rushed out and fought Old Han and Jiang Linxian into the Endless Void.

Fifth Senior Brother heaved a sigh of relief. "In that case, Lei Heng, you stay behind. Your power of lightning restrains the ominous and can't deal with the dominator-level ominous, but those below the dominator level are definitely no match for you. It's more meaningful for you to stay behind. Dark Shadow, Qiong Qi, come with me. If only one of the ominous dominators comes, we can kill him in an hour. If two come... just try our best. Lingke, guard the rear with old Dragon God."

"Okay!"

They all stepped out of the time barrier. As Fifth Senior Brother expected, the other party saw that they were only Sea Quelling Gods, so they only sent one dominator-level ominous.

Seeing this, Fifth Senior Brother said via voice transmission, "Lei Heng, Six God, the other party is too decisive in mobilizing the dominator-level ominous. They don't intend to consume us with the God Slaying-level ominous at all. Therefore, there are definitely more dominators than these. The two of you, be prepared to fight dominators casually."

With that, Fifth Senior Brother and the others also fought into the Endless Void with the dominator-level ominous.

Seeing this scene, the remaining two dominator-level ominous only revealed a contemptuous smile. They didn't attack immediately. Instead, with the arrival of the ominous tide, tens of thousands of God Slaying-level ominous creatures, as well as doomsday-level ominous creatures and below, began to charge.

...

Half an hour later, if the battlefield in the rear was still manageable, it was mainly because the two dominator-level ominous didn't take action. Countless fearless self-destructing army of insects, Lei Heng's lightning domain, and the Time Sky Sealing Lock and the resurrected army of the Palace Masters of the Time Temple barely managed to resist the enemy.

However, they weren't in good shape. They had resisted the enemy, but they had taken too much. It was only a matter of time before the Time Sky Sealing Lock collapsed.

However, it was even more difficult on the side battlefield. These two sides were only guarded by the Master of the Time Temple and two Sea Quelling Gods of the Time Temple. Faced with the ominous tide

and the attacks of the other party's dominators, the resurrected army had all been eliminated, and the Time Sky Sealing Lock was also full of cracks and in danger.

On the frontal battlefield, they fell into a bitter battle again.

In the Myriad God Palace, the Phoenix Patriarch's expression was ugly. He immediately shouted,

"The second Wheel of Annihilation, open."

"The third Wheel of Annihilation, open."

"The fourth Wheel of Annihilation, open."

At that moment, even the Phoenix Patriarch had already gone into battle, continuously sending his power into the Nine-Turn Heavenly Wheel.

The three consecutive explosions of the Wheels of Annihilation almost drained the power of thousands of gods at once. Even if they were gods, the power of their Divine Sources was not infinite. Although the power of their Divine Sources could grow on their own, their recovery speed was not so fast after all, and they couldn't directly absorb it from the void.

Therefore, when the fourth Wheel of Annihilation was launched, all the gods took out their energy crystals and sat cross-legged to recover.

On all the battlefields in four directions, the battle was fierce.

Two hour later.

On the battlefield in the rear, half of Senior Brother Azure Dragon's body cracked and he returned seriously injured. He shouted, "Again."

After another half an hour, Fifth Senior Brother and the others returned, but Old Fierce's divine body had collapsed and he no longer had the power to fight. And following them back was a dominator-level ominous.

Lei Heng and the others immediately went up to them.

"What happened?"

Fifth Senior Brother said, "We were ambushed. The other party had a dominator secretly ambushing us. Qiong Qi activated his Origin Divine Image and narrowly killed one. It seems that we have to fight head-on."

Another two hours passed.

Rumble!

Rumble!

Knock, knock, knock!

Suddenly, a strange phenomenon appeared. Three consecutive Heavenly Dao cracks appeared, a rain of blood poured down, and the death knell wailed. This was a sign of the death of a powerhouse of the myriad races.

Changes suddenly happened on the front line battlefield.

Three of the nineteen Sea Quelling Gods who held back the dominator-level ominous died in a row. In the next moment, the void opened, and two groups of Sea Quelling God-level powerhouses quickly returned.

However, the team of the seven Sea Quelling Gods didn't return.

The Master of Time immediately sent a time tide into the Endless Void.

Rumble!

Knock, knock, knock!

The sky rumbled.

However, even so, they were still a step slower. Three Sea Quelling Gods returned with their remnant bodies, and at the same time, another person died on the spot.

Another seven dominator-level ominous creatures followed out of the Endless Void at the same time.

Yes, the ominous was not stupid. They knew that the number of strong masters of the myriad races was limited, and the people of the Three Temples had many trump cards. It was not easy to kill a dominator. Therefore, their target was the Sea Quelling Gods not from the Three Temples. During the fierce battle, they quickly mobilized six ominous dominators and secretly attacked.

[God of Fishing](#)

Chapter 3588: The Outbreak of the Master of Time (4)

Senior Sister Shen Le had no time to spare. The Master of Time suppressed the ominous while maintaining the Time Sealing Sky Lock. Although he still had a chance, he had only saved three.

It was definitely terrible news that four Sea Quelling Gods had died in a row.

Besides, how could these returning Sea Quelling Gods dare to attack rashly? This was because they weren't sure if there were any dominator-level ominous lurking in the dark to ambush them.

But if they didn't take action, with the six new dominator-level ominous creatures and the three ones they were fighting, on the front line battlefield, in addition to the 18 dominator-level ominous creatures suppressed by the Master of Time, there were 9 more dominator-level ominous creatures. In addition to the existing 7 dominator-level ominous creatures, the other party's dominator-level ominous creatures suddenly increased to 16.

The Master of Time was indeed very powerful. Just suppressing 18 dominator-level ominous creatures was enough to prove his strength, not to mention that he had to maintain the Time Sky Sealing Lock.

"Only 54 dominator-level ominous?"

The Master of Time's expression turned ugly. He shouted, "The returned Sea Quelling Gods, guard the side battlefield."

When there were as many as 16 dominator-level ominous creatures on the front line battlefield, the Master of Time knew that the Time Sealing Sky Lock couldn't hold on anymore.

Sure enough, these 16 ominous dominators worked together to push the endless ominous tide to attack repeatedly. After only a hundred seconds, cracks appeared on the Time Sealing Sky Lock with a crack.

Ka ka ka ~

The ominous aura was rapidly consumed, but the ominous didn't care. Less than half an hour later, although time chains kept surging out of the Time River, there were too many dominator-level ominous people on the other side.

"Master of Time, you can't defend it. You couldn't defend it before, and now you can't either."

"Hmph!"

The Master of Time snorted. "It's none of your business. As long as you're not afraid of death, just come."

Buzz—

In the next moment, nine Masters of Time walked out of the Time River one after another. One of them appeared directly under the Nine-Turn Heavenly Wheel.

As the Master of Time injected Star River Source Power, the entire Myriad God Palace was extremely dazzling. At that moment, on the palace walls, all the arrays were activated. In an instant, four Wheels of Annihilation rushed out of the frontal battlefield.

At the same time, the eight time tides turned into billions of time blades and attacked together with the four Wheels of Annihilation.

The ominous side was not surprised by the outburst of the Master of Time. Of course, they knew how powerful the Master of Time was. Otherwise, they wouldn't have paid the price of 18 people to force Time to take the initiative to use Time Predicament.

Now, the Master of Time had to maintain the Time Predicament, maintain the Time Sealing Sky Lock, and at the same time, activate the Time Splitting Technique. Even as a master of the Three Temples, he had reached his limit.

Accompanied by the ominous roar of the dominator, the 100,000 God Slaying Level powerhouses retreated quickly.

However, the Master of Time shouted, "Can you retreat?"

With a thought, an old body of the Master of Time appeared in the ominous mist. A Time Sealing Sky Lock cut through the ominous mist, blocking the ominous creatures that were about to retreat.

His remaining old bodies erupted at the same time and charged into the battle.

At the same time, the Master of Time shouted, "All battlefields, open the gates and let the ominous creatures in. Everyone from the Skynet, prepare to fight."

The voice of the Master of Time spread out, and the side battlefield responded first. The Time Sky Sealing Locks that were almost broken began to crack.

In the end, such a huge battlefield couldn't just rely on these powerhouses alone. At this moment, the ominous attacks were too fierce. Even if they tried their best, they wouldn't be able to withstand it. They might as well let some ominous creatures in to relieve the pressure on the battlefields in four directions.

Of course, those who were let in could only reach the doomsday level at most. Anyone above the doomsday level would definitely be targeted if they dared to enter.

In the blink of an eye, tens of millions of ominous creatures poured in from the hole. Almost every second, on average, millions of ominous creatures rushed into the Skynet.

However, in the Skynet, there were only ten million strong masters of the myriad races. Although they used the Purification Stars, their capacity was limited.

Almost in the blink of an eye, there was a fierce battle in the Skynet.

"Brothers, kill!"

"Everyone, unleash your full strength. No matter what trump cards you have, use them."

For a moment, countless purifying lights erupted in the Skynet. These purifying lights were mostly from top-notch purification beads refined from energy crystals, also known as Purification Thunder.

The battle slowed down. On the frontal battlefield, within hundreds of light-years, the Time Blades were densely packed.

With the outburst of the Master of Time, in less than a hundred seconds, more than ten thousand God Slaying-level ominous creatures had died.

However, after only a hundred seconds, two of the Wheels of Annihilation had been destroyed. Water could extinguish fire, but if there were too many flames, they couldn't be distinguished.

However, among the sixteen dominator-level ominous creatures, except for eight that temporarily blocked the Master of Time, the other eight all went to fight an old body of the Master of Time at the same time.

One of the dominator-level ominous creatures shouted, "It's not like the Time Splitting Technique can't be broken. If one of your old bodies is injured, all your old bodies are injured. Time, you can't resist us anyways."

The eight dominator-level ominous creatures surrounded one of the old bodies of the Master of Time and sacrificed themselves at the same time, turning it into an ominous ball that forcibly sealed the old body of the Master of Time.

Bang! Bang! Bang!

The ominous balls kept emitting terrifying power.

Finally, in just three seconds, it exploded.

Rumble!

"Puff! Puff! Puff!"

Bang! Bang! Bang!

All the old bodies of the Master of Time vomited blood at the same time, and hundreds of places on his body were blown through.

Almost at the same time, all the old bodies of the Master of Time dissipated. And in the void, fluctuations also appeared. It was the 18 dominator-level ominous creatures suppressed by the Master of Time in the time predicament. They seized the opportunity and rioted collectively.

"Indestructible Time."

The Master of Time's body recovered in the blink of an eye, but only he knew that his origin had been seriously injured, and his combat power had dropped by 30% on the spot.

However, he also knew that he couldn't let these 18 dominator-level ominous creatures come out. Immediately, he looked at Shen Le and roared, "Do you know why I'm called the Master of Time and no one else? Because... the seventh divine technique of the Time Temple, Time Shattering."

Behind the Master of Time, the Time River that bloomed suddenly exploded in the sky, annihilating part of his old time in the Time River.

Bang! Bang! Bang!

The 18 dominator-level ominous creatures that were about to rush out of the Time Predicament all fell silent as time shattered.

"Alas!"

Shen Le sighed in her heart. This time, Time permanently lost almost 20% of his combat power in exchange for the death of 18 dominator-level ominous creatures.

And it might take tens of millions of years to cultivate back this 20% of his strength, which was a heavy price.

Since then, there were only eight dominator-level ominous creatures left on the main battlefield. When the Wheel of Annihilation was completely drowned by the ominous, there were only 60,000 of the 100,000 God Slaying-level ominous creatures left.

At this moment, the Master of Time was emitting dazzling divine brilliance. His golden robe rippled, and he looked dignified as he looked down at the main battlefield. He didn't seem to be injured at all.

"As expected of s Master of the Three Temples. You're indeed extraordinary."

One of the eight dominator-level ominous creatures let out a demonic laugh. "As long as you can destroy all races, today's sacrifice is worth it. Master of Time, you don't have to hide anymore. You have definitely been injured. I wonder how many of us you can fight now that your strength has plummeted?"

Bang! Bang! Bang!

The ominous mist cut off by the Master of Time finally opened again. And from the ominous mist on the front battlefield, another ten dominator-level ominous creatures walked out.

The Master of Time sneered. "Don't forget, 26 of you died just now. Do you think another ten can break through my defense?"

The dominator giggled. "Even if you can block us, what about the other battlefields? The strong masters of your Time Temple can be immortal, but others will die in the end!"

God of Fishing

Chapter 3589: Annihilate the Enemies with the Flick of a Finger (1)

On the first battlefield.

The Master of Time and the 18 dominator-level ominous creatures were in a stalemate. The other party wanted to test him, but this time, they didn't dare to take the initiative to enter the Time Predicament of the Master of Time.

After all, they all agreed that even if the Master of Time was injured, he still had the strength to destroy them again.

However, only the Master of Time knew that he had been seriously injured and had lost 30% of his combat power. Then, he had forcibly annihilated a part of his Time River. Although he had destroyed the 18 ominous dominators in the Time Predicament, his combat power had been reduced by 20%.

Overall, he only had 50% of his combat power now.

Although with 50% of his combat power, he was still very strong, if these 18 dominator-level ominous creatures really fought to the death, coupled with the 60,000 God Slaying-level ominous creatures, the defense of the frontal battlefield would definitely collapse.

Therefore, most of his current strength was fake.

He even knew that Shen Le's state was no better than his. It was already very rare for Shen Le to hold off a super dominator-level ominous that could control more than 42 pieces of Star River Source Power alone.

However, this situation wouldn't last long. Therefore, both Senior Sister Shen Le and the Master of Time were waiting.

They didn't believe that there were only so many dominator-level ominous creatures in this ultimate battle. As the third counterattack of the ominous, their current attack seemed to be lacking.

While strengthening the Time Sky Sealing Lock, the Master of Time said to Shen Le via voice transmission, "If this continues, the consequences will be very serious. They clearly still have dominator-level ominous creatures that haven't come out. Otherwise, the side battlefield won't be able to withstand them at all."

Shen Le replied, "They must be deliberately baiting us to force the Death God to take action. Once the Death God comes, this place will be besieged, and a war will definitely break out in the Sea Realm. When the time comes, if we go back, the first battlefield will collapse. If we don't go back, the Sea Realm is very likely to be taken. Without the Death God guarding it, the Immortal Temple can't resist such an attack. Hold on for another three days. If the ominous still maintains its current combat power in three days, I will call Little Junior Brother over."

Three days later.

In the Skynet, there was a fierce battle. All the strong masters above the God Realm in the Myriad God Palace supported the side battlefield.

Xia Xiaochan, Zhang Xuanyu, Le Renkuang, and the others were all fighting a bloody battle. At this moment, they could only be ordinary members of the battlefield.

In the Skynet, where Luo Xiaobai was, demon plants were densely packed in the void. Han Song, who was next to Luo Xiaobai, had already created tens of thousands of loose clones.

In fact, with Han Song's strength, with the accumulation of a massive amount of energy crystals, he was already qualified to become a god. However, he also knew clearly that even if he could make a breakthrough, he would at most be at the God Slaying level. It was not worth mentioning in a war where even dominators could die at any time.

Therefore, it was impossible for Han Song to choose this opportunity to make a breakthrough.

Bam! Bam! Bam!

As Han Fei's daughter, Han Chanyi was talented. With sufficient resources and more than 2,000 years of battle tempering, she had already broken through the Monarch Tribulation, and her strength had reached the Carefree Level. At this moment, she was at the peak of the Carefree Level, passing through the sea of demon plants created by Luo Xiaobai and Han Song.

She had perfectly inherited Xia Xiaochan's perception of space. Like a shadow, she hid in a sea of demon plants. A destruction-level ominous creature was brainlessly attacking the sea of demon plants, trying to annihilate the demon plants here.

Swish ~

Suddenly, Han Chanyi appeared behind him, and a dazzling knife light instantly shattered the destruction-level ominous.

When the destruction-level ominous body exploded, Han Chanyi casually threw down a Purification Thunder and disappeared into the sea of demon plants in the next second. This was because she already had her next target.

Bang!

This destruction-level ominous creature was killed on the spot under this sneak attack.

Han Chanyi, on the other hand, dove into the sea of demon plants without looking back, muttering, "The 9,996th. Only four more to kill ten thousand people."

Han Chanyi was not talking about the number of enemies she had killed in the past three days, but the accumulated number of enemies she had killed since she came to the first battlefield.

In the past three days, she had completed 203 solo kills. This number of enemies was enough to compete with an Immortal Level powerhouse.

Rumble!

Rumble!

In the sky, the Heavenly Dao crack appeared again. This was the umpteenth Heavenly Dao crack in the past three days, because every second, a Heavenly Dao lightning crack would appear. Han Chanyi was already used to it.

In the past three days, they had even changed to more than a dozen purification stars. This was because under the crazy baptism of the army, countless purification stars were collapsing every day.

"Woo ~ Woo ~"

"Woo ~ Woo ~"

Suddenly, the horn of the Myriad Gods Palace sounded again.

In the next moment, the Phoenix Patriarch's voice spread throughout the entire Skynet. "Everyone, abandon the Skynet immediately and approach the Myriad God Palace."

"What? Give up the Skynet?"

"What happened? Why did they give up the Skynet?"

"Are they crazy? How can we resist the ominous if we give up the Skynet?"

In the next moment, the Phoenix Patriarch shouted again, "The ominous has launched the second wave of attacks. Everyone, abandon the Skynet immediately and go to the Myriad God Palace."

Han Song immediately shouted, "Yiyi, come back."

Han Chanyi was annoyed. "Only four left."

Luo Xiaobai also shouted, "Yiyi, listen up. War is not a place to show off. Retreat with us immediately."

"Okay, okay!"

Han Chanyi had to give up her next target. In a few flashes, she landed on the purification star where Luo Xiaobai was. In the next moment, Han Song's clone had also arrived. Taking Zhang Panpan and Wang Xiaoxiao, they immediately retreated in the direction of the Myriad God Palace.

God of Fishing

Chapter 3590: Annihilate the Enemies with the Flick of a Finger (2)

Han Chanyi said, "What happened? Why did you suddenly give up Skynet? If it weren't for Skynet, wouldn't there only be the lonely Myriad God Palace left?"

Han Song said solemnly, "The two side battlefields have collapsed."

"Huh? How is that possible? Isn't it said that there are many Sea Quelling Gods guarding them?"

Luo Xiaobai said, "Their combat power has a limit. Although the Sea Quelling Gods are strong, they can't withstand the endless ominous army."

However, Luo Xiaobai looked at Han Song and said, "However, the side battlefields collapsed too suddenly. Did you see what happened there?"

Han Song said, "I don't know. The purification stars my loose clones parasitized were instantly annihilated. A battle of the top powerhouses might have broken out over there."

Han Chanyi hurriedly said, "Where is my mother? Then let her come back!"

Han Fei said, "I've already asked them. They're also retreating in our direction."

Han Chanyi was immediately relieved. "That's good!"

Luo Xiaobai, on the other hand, clearly felt that something was wrong. "The God Slayers are the top combat power of the myriad races. You mean even they are retreating?"

Han Fei nodded solemnly. He also knew that this meant that the battle on the side battlefields had exceeded the limit of what the Sea Quelling Gods could resist.

...

A moment ago.

The battlefields in four directions were still barely resisting. Although the ominous attacks were ferocious, it wasn't to the point where they couldn't breathe.

In the past three days, as many as 400,000 strong masters of the myriad races had died, although they had the advantage of purification stars and Purification Thunders.

Without these barriers, the casualties would be immeasurable.

Originally, if the battle continued, Senior Sister Shen Le and the Master of Time would eventually compromise and put down their plans.

However, just a moment ago, the ominous added fuel to the fire. On both sides of the battlefield, five dominator-level ominous creatures, as well as 5,000 God Slaying-level and 30,000 Doomsday-level ominous creatures appeared at the same time.

Although there weren't many dominator-level ominous creatures added, this sudden increase completely exceeded the limits of the strong masters on the side battlefields.

As the Master of Time and Senior Sister Shen Le expected, as long as the ominous was willing, it could easily break the defense of the side battlefields.

However, judging from the number of God Slaying-level and Doomsday-level powerhouses, the Time Master and Senior Sister Shen Le realized at the same time that the other party was very careful. Obviously, after the first round of attacks of the ominous army was disintegrated by the Time Master, it was peaceful for three days, and their wolfish ambition was revealed.

Yes, they also hoped to crush the Skynet and bring tremendous pressure to the first battlefield to force the arrival of the Death God.

For this reason, the combat power they provided was exactly the limit of the Skynet.

At this moment, on the side battlefields, there were seven dominator-level ominous creatures each. Even if the Wheel of Annihilation was activated, it would probably be blocked by the seven dominator-level ominous creatures and the 5,000 God Slaying-level ominous creatures.

And this was not what the Master of Time and Senior Sister Shen Le wanted at all. What they wanted was a large number of dominator-level ominous creatures attacking at the same time. But now, the other party had only sent ten dominator-level ominous creatures over.

For the ominous, this was enough. If Senior Sister Shen Le and the others still didn't summon the Death God, with their current strength, once the ominous army broke through the side battlefield, the strong masters of the myriad races on the first battlefield would definitely suffer huge casualties.

The ominous wasn't afraid of being ambushed. They were just testing the bottom line of the Master of Time and Senior Sister Shen Le. This was because once the Death God really came, nearly half of the dominator-level ominous that appeared here might die. They knew how precious the dominator-level ominous was and didn't want to waste it casually.

After realizing this, the Master of Time immediately said via voice transmission, "Shen Le, that's enough. It's time to reel in the net, or it will be too late."

At this moment, Senior Sister Shen Le, who was bathed in blood, roared angrily. She suddenly opened her mouth and spat out a void.

The ominous dominators immediately retreated when they saw the void power. The void power of the Master of the Void was quite powerful, definitely much stronger than the Wheel of Annihilation.

Even he couldn't block it, but there was no need to rely on his own strength to block it. Otherwise, if he took this blow head-on, he might be seriously injured.

As if knowing that the person on the opposite side would temporarily retreat, Senior Sister Shen Le turned into a scarlet divine bird with a swish.

Senior Sister Shen Le's voice echoed in the void. "Three thousand extreme suns, guarding my four directions. Bloodstained chaos, the radiance of primordial gods. Heavenly secrets arrayed, the celestial power ever-changing. In my name, I decree boundless command."

Buzz!

Senior Sister Shen Le's sudden outburst made the ominous dominator's expression change. Although he didn't know what Shen Le was doing, he knew that something bad must have happened.

Swish! Swish! Swish!

At that moment, around the first battle battlefield, in a total of 28 Star Rivers, dazzling divine light burst out like a blood-colored divine bird. A total of 3,000 dazzling nebulae suddenly appeared in these 28 Star Rivers.

Bang! Bang! Bang!

The ominous dominator's expression changed drastically. "The light of the Great Dao condensed from the three thousand Great Daos?"

"Roar!"

The dominator-level ominous seemed to have guessed something and immediately tried to leave the area surrounded by the 28 Star Rivers.
