God of Fishing

Chapter 3591: Annihilate the Enemies with the Flick of a Finger (3)

However, he couldn't rush out of these 28 Star Rivers at all.

"So, you want to use your last breakthrough to resist our ominous army. However, can you afford three thousand different Daos?"

"Tweet ~"

Senior Sister Shen Le's divine voice resounded, "Don't you know that I took over after Void left?"

At that moment, on the battlefield in the rear, Senior Brother Azure Dragon, Fifth Senior Brother, Lei Heng, Six God, and the others all looked back in the direction of Senior Sister Shen Le.

Senior Brother Azure Dragon said, "I didn't expect her to really do it."

Fifth Senior Brother couldn't help but sigh. "Disturb the Heavenly Secrets, steal the three thousand Heavenly Daos, and order the heavens and earth. I wonder how strong she will be if this technique succeeds."

The dominator-level ominous was furious. He roared, "Shen Le, how dare you make a breakthrough in front of me? How can I let you get what you want?"

Buzz!

The dominator-level ominous immediately activated the boundless ominous mist to attack the void released by Shen Le. And he charged at Shen Le.

Bang!

However, this full-strength attack of a dominator was actually blocked by Senior Sister Shen Le with a palm. As Senior Sister Shen Le grabbed out, the latter's ominous body was almost severed.

Shen Le sneered and said, "I didn't want to take this risk, but you wish. You want both the first battlefield and the Sea Realm."

"Little Junior Brother."

Senior Sister Shen Le's strength soared, but the first thing she did was not to rush to kill the other party, but to suddenly summon Han Fei.

...

In the past few days, Han Fei didn't dare to cultivate again. Senior Sister Shen Le was obviously planning something, and it concerned the survival of the first battlefield. He couldn't be negligent.

However, after waiting for three days, there was still no news.

At this moment, Han Fei was chatting with the Distanceless Gate.

Han Fei said, "Old Distanceless! As the Distanceless Gate, why don't you know what happened on the first battlefield at all?"

The Distanceless Gate: "I didn't go there. How would I know?"

Han Fei said, "But you have many brothers and sisters! I don't believe you don't have telepathy with the other eight Distanceless Gates."

The Distanceless Gate: "No. Besides, we are not brothers and sisters. We are just doors."

Han Fei shook his head slightly. "As a door, how boring is your life!"

The Distanceless Gate: "It's fun to watch the ominous destruction."

Han Fei shrugged. "That's quite difficult! By the way, who created you?"

The Distanceless Gate: "My father is not famous, but I know that he is the greatest person in the history of the Chaotic World. His name is Distanceless."

"Uh, I thought your name meant to cross the Sea of Stars, but it turns out that your father's name is Distanceless."

The Distanceless Gate: "It's the same. Father changed his name to Distanceless because he wanted to create a door with no distance. I don't know his original name."

Han Fei couldn't help but sigh. "I really don't understand. How keen is his grasp of space to create the nine of you?"

At this moment, Ximen Linglan was sitting on the side, watching the two of them talk. She rested her elbows on her knees, supported her chin with her hand, and had a faint smile on her face.

Han Fei looked back. "The drool is flowing out."

Ximen Linglan snorted. "It's too late for you to complain now."

Han Fei was grinning when suddenly, the mark between his eyebrows flashed.

Swish ~

Han Fei immediately stopped smiling and his face changed. "Linglan, let's go."

At that moment, Ximen Linglan's heart skipped a beat. Since they were reunited, she felt that time had passed very quickly. This first battlefield must be full of dangers at this moment. In her heart, she didn't want Han Fei to face such a dangerous battle. But she knew that Han Fei had to go. After all, he didn't belong to her alone.

...

Swish ~

The Distanceless Gate suddenly appeared in the Myriad God Palace. The moment Han Fei came out of the door, before he had the time to look at this battlefield, Senior Sister Shen Le said via voice transmission, "Little Junior Brother, cover an area as large as you can with the law of life. Time is

seriously injured. Please solve the battle in the Skynet. It's best if you can kill a few dominators and help Time recover..."

Why Shen Le and the Master of Time both felt that Han Fei's arrival could change the current situation was not because of Han Fei's combat power, nor was it because of the Demon Purification Pot, but because of Han Fei's law of life.

The law of life was one of the strongest nemeses of the ominous. The long-term existence of the ominous relied mostly on the ominous mist. But that was because even if they died in battle, the ominous mist could recast them, so their river of life wasn't broken.

However, once the river of life was stripped from these ominous creatures or cut off, it meant that it only needed one time to kill these ominous creatures.

In particular, Han Fei was now a Supreme-level powerhouse. As soon as he advanced, he was already a top powerhouse. Even if he was a dominator-level ominous creature, under Han Fei's law of life, the ominous creatures' river of life would still be stripped away.

Therefore, Han Fei's appearance meant a lot.

Originally, Senior Sister Shen Le wanted to use the strong masters of the myriad races on the first battlefield and herself as bait to attract as many dominator-level ominous creatures as possible. At the same time, she would unleash the power of her entire life to kill these ominous creatures.

Eldest Senior Brother had been waiting for Shen Le. He had long known that Shen Le was the best person to replace him.

[God of Fishing](#)

Chapter 3592: Annihilate the Enemies with the Flick of a Finger (4)

However, the ominous' well-planned probing made it impossible for Shen Le to continue the stalemate with them. She had no choice but to use her final trump card in advance.

Hearing this, Han Fei didn't dare to be negligent. The law of life immediately covered 12 Star Rivers.

Yes, Han Fei stayed in the Source of Chaos too short. He only had time to increase his basic combat power to 12 Star Rivers.

However, when Han Fei activated the law of life, he discovered that the place enveloped by this huge ominous mist exceeded 12 Star Rivers.

Immediately, between Han Fei's eyebrows, the Invincible Eye opened. Instantly, the coverage of the law of life reached an astonishing 24 Star Rivers.

When Han Fei's river of life covered all the Star Rivers, he saw the current situation.

48 dominator-level ominous creatures? 80,000 God Slaying-level ominous creatures? More than 100 billion ominous creatures on the battlefields in four directions? The ominous mist beyond his perception range?

Also, in the surrounding dozens of Star Rivers, there were endless star remains floating. Almost none of these Star Rivers were intact. From the looks of it, how many battlefields had he experienced to make these Star Rivers like this?

This was what Han Fei saw the moment he appeared here. Then, Han Song's memories were synchronized with his.

Han Fei immediately looked at the countless Monarchs who were shuttling between the purifying stars and retreating to the Myriad God Palace from the Skynet.

Among them, Han Song, Luo Xiaobai, was quickly retreating with Han Chanyi and the others. Xia Xiaochan, Zhang Xuanyu, Le Renkuang, and the others were fighting and retreating, mostly injured.

On the rear battlefield, his parents, Senior Brother Azure Dragon, Fifth Senior Brother, and the others were fighting fiercely, forcibly resisting the pressure of the rear battlefield and protecting the retreat of the strong masters of the myriad races in the Skynet.

Rumble!

Knock, knock, knock!

The Heavenly Dao cracked and the mournful death knells kept ringing. This meant that many people died every second, because the ominous' deaths wouldn't produce these weather phenomena.

"Has it reached this point?"

Han Fei was shocked by the scene in front of him. He had never seen such a large-scale war in his life. Even the battle against Jiang Taichu in the Creation Star Compass couldn't compare to the current first battlefield.

In terms of size, the two were not even on the same level.

Ximen Linglan was the same. She was clearly shocked by the first battlefield too.

Han Fei's face turned dark. "B*stard, you want to destroy the myriad races."

Buzz!

At that moment, Han Fei instantly activated the Star River Source Power in his body. As he issued an order in his heart, a large amount of purification light was activated in the collapsing and intact purification stars, turning into tens or even hundreds of billions of long knives.

Buzz!

These blades of purification rose and fell in the Skynet like an endless sea of knives.

Someone was fleeing. When he crossed to another purification star, an ominous creature took the opportunity to take his life. He was already desperate, but suddenly, countless purification blades swept past him.

In the next moment, the ominous creatures that were chasing him just now were all annihilated without even a chance to revive.

Dozens of gods retreated as they fought, protecting the others in the rear to evacuate, but they were besieged.

Someone shouted, "Brothers, let's drink and chat happily on the Path of Reincarnation."

Someone laughed. "Ominous b*stards, I'll take you with me even if I die."

Swish! Swish! Swish!

They were about to detonate all the Purification Thunder on their bodies and die together with the ominous. However, in the blink of an eye, a tide of purification blades instantly swept across all the ominous creatures around them, including more than 30 doomsday-level ominous creatures.

"The Sea Quelling Gods saved us?"

However, in the next moment, they discovered that something was wrong, because in their perception, all the purified stars spontaneously burst out with knife lights. In the blink of an eye, the knife lights gathered like a tide.

Zhang Xuanyu, Xia Xiaochan, and Le Renkuang were all at the God Slaying level. Even if they retreated, it wouldn't be their turn to retreat immediately. At this moment, the three of them were fighting and retreating, all covered in wounds. If it weren't for the accumulation of a lot of Purification Thunder, they might have gone to the Path of Reincarnation to find Han Fei.

Le Renkuang said, "Yuyu! In my opinion, let's slip away first! There are so many people. Even two or three of us leave, they can't tell."

Zhang Xuanyu said, "Fatty, don't disgrace yourself. Do you really see anyone slip away?"

Xia Xiaochan was lost for words. "Kuangkuang, if you slip away now, will you keep slipping away in the future?"

Le Renkuang said, "Look, the other party has thousands of God Slaying-level ominous creatures. But on our side, there are less than a thousand God Slayers in total. Of course we should return to the Myriad God Palace first and bombard them with the Creation Heavenly Wheel!"

Crack! Crack! Crack!

Just as Le Renkuang was educating Zhang Xuanyu and Xia Xiaochan, Purification Blades completely covered them. In an instant, the God Slaying-level ominous in front of them was instantly extinguished by the tide like balls of flames.

"Sh*t!"

Zhang Xuanyu asked in shock, "Who is attacking? Why is the noise so loud?"

Le Renkuang said, "Hey, why does the shape of this knife look familiar? Isn't this the Blood-Drinking Knife?"

"Hiss!"

"Feifei is back?"

Zhang Xuanyu looked back in shock. However, he didn't see Han Fei, only the overwhelming purification knife light that swept across the entire Skynet.

Xia Xiaochan was also overjoyed. She hurriedly said, "Let's go back to the Myriad God Palace."

Le Renkuang was lost for words. "Why don't you say I'm embarrassing myself now?"

Zhang Xuanyu laughed and scolded, "Now that someone has taken action for us, it's not embarrassing at all!"

...

On the other side, Han Song, Luo Xiaobai, and the others were not far from the Myriad God Palace. This was because from the beginning, Xia Xiaochan and Han Song chose this place because they were worried about Han Chanyi. After all, they had to take care of the kid and fight, so they had to be fully prepared.

The closer to the Myriad God Palace, the safer they would be.

Han Chanyi, who was retreating, exclaimed, "There are so many blades of purification. I can't perceive the end of them."

Han Song smiled mysteriously.

After a while, they returned to the Myriad God Palace first.

At that moment, Han Chanyi and the others saw a familiar figure standing proudly beside the Nine-Turn Heavenly Wheel on the Myriad God Palace. The center of this person's eyebrows was shining with golden light, and his two fingers pointed at the Skynet.

Han Chanyi said, "Ah! He... Stinky Daddy, you're finally back."

[God of Fishing](#)

Chapter 3593: On A Killing Spree (1)

At this moment, not only was Han Chanyi stunned, but everyone in the Myriad God Palace was dumbfounded the moment they saw Han Fei attack.

"Isn't this power comparable to the Wheel of Annihilation?"

"Who is this?"

"I don't know! However, he is a dominator. He is definitely a dominator-level powerhouse."

At this moment, under the sweep of the Infinite Blade Sea, almost all the ominous creatures in the entire Skynet had been killed. In fact, it was only normal that Han Fei could do this. If it weren't for the suppression of so many dominator-level ominous creatures on the frontal battlefield, if it weren't for the fact that Senior Sister Shen Le was busy, they could have swept away the ominous here.

However, they didn't have the time or opportunity to take action. For example, once the Master of Time took action, the other party's eighteen dominator-level ominous creatures would definitely try their best to stop him.

However, on the first battlefield, everyone had experienced hundreds of battles and was used to seeing big scenes. Therefore, this endless sea of knife lights only shocked them for a moment before these people began to get busy again.

Many people entered some of the arrays of the Myriad God Palace. Although they couldn't stay in the Skynet anymore, the battle had to continue. There were countless arrays on the walls of the palace of the Myriad God Palace, and there were also countless arrays in the palace. The arrays on both sides were interconnected, which was equivalent to having countless fixed batteries in the palace.

The Monarchs and gods who had just returned immediately occupied these fixed-point "batteries". However, the Myriad God Palace was so big that even if tens of millions of people filled it, it wouldn't be enough.

Han Fei certainly knew that time was precious. He just glanced at Han Chanyi. "Yiyi, I'll talk to you after the battle."

After that, Han Fei raised his hand, and the Primordial Eight Fierce Swords appeared behind him. After Jing Guangming died, the Primordial Eight Fierce Swords and the Creation Mystic Yellow Tower were naturally controlled by him, and the combat skills he wanted to use were also reserved on the fourth level of the Creation Divine Prison.

This Supreme Nature Treasure could at most unleash the combat power of a Sea Quelling God with its own strength. But in the hands of a dominator, it was a different story.

When the Star River Source Power activated the Primordial Eight Fierce Swords, in an instant, the eight swords fused and appeared outside the Skynet in the blink of an eye.

Over there, under the strong attack of the seven dominators, the Time Temple couldn't withstand it at all. But Han Fei could clearly tell that the two sides of the battlefield had just been broken through.

In total, there were 14 dominator-level ominous creatures, more than 10,000 God Slaying-level ominous creatures, and more than 100,000 doomsday-level ominous creatures.

If it were him in the past, he wouldn't have participated in such a battle at all, because he had no chance of winning.

However, as a Supreme, he was very calm after understanding the combat power of a dominator.

Han Fei roared, "Kill!"

"Puff ~"

On the side battlefield, a dominator-level ominous felt a sword light suddenly appear in front of his eyes. He wanted to resist, but the momentum coming from the sword contained invincible fighting intent, the Dao of Slaughter God, the supreme will, and the terrifying Star River Source Power that he couldn't resist at all.

Bang!

This dominator was instantly pierced through, his body burning with milky flames. In the blink of an eye, even his infinite ominous aura was burning.

Many of the Monarchs didn't know what Han Fei had killed, because their perception wasn't enough to cross so far at once to see the situation on the side battlefield.

However, some gods and God Slaying-level powerhouses exclaimed.

Seeing this, the Phoenix Patriarch's eyes flashed. When Han Fei summoned billions of purifying knife lights, he knew that Han Fei had already advanced to the dominator level and was extremely powerful.

However, at first, he didn't think that Han Fei could be as strong as the Master of Time and Shen Le.

Therefore, he was both surprised and delighted to see Han Fei kill a dominator-level ominous creature with a single slash. He was shocked that Han Fei's strength far exceeded his imagination, and he was delighted that with Han Fei around, the two side battlefields could be safe.

Immediately, the Phoenix Patriarch shouted, "Congratulations to Human Emperor Han Fei for becoming a dominator. He killed a dominator-level ominous with one slash. Congratulations to the myriad races."

At this moment, in the Skynet, tens of millions of strong masters of the myriad races were retreating. Everyone's heart was heavy and pessimistic. This time, it had only been three days since the war started, and they were forced to abandon the remaining Skynet. It wouldn't be long before the Myriad God Palace was penetrated!

At this moment, the Phoenix Patriarch's voice spread in all directions, instantly shocking the retreating powerhouses of the myriad races.

"Kill a dominator with one slash?"

"How is it possible? Isn't Human Emperor Han Fei only a Great Monarch?"

"Ah, this! Really?"

"Human Emperor, is Human Emperor also participating in the battle? Why didn't I know?"

"There aren't many humans here!"

Hearing this, Xia Xiaochan and the other two grinned.

Zhang Xuanyu sighed. "It's ridiculous. Is this a Great Monarch directly entering the dominator realm?"

Le Renkuang sighed. "Do we have to wait until now? We were almost killed."

Xia Xiaochan said, "Why are you nagging? Come back."

Even Han Chanyi couldn't help but look at Han Song in shock. "Didn't you go to find a lover? How did you become a dominator?"

As she spoke, Han Chanyi kept glancing at Ximen Linglan behind Han Fei.

As for Ximen Linglan, she also looked at Han Chanyi, and a rare faint smile appeared on her cold face.

[God of Fishing](#)

Chapter 3594: On A Killing Spree (2)

"Cough, cough ~"

Han Song coughed awkwardly.

...

At this moment, Han Fei looked at the Phoenix Patriarch in surprise. The Phoenix Patriarch was also looking at him and said via voice transmission, "The myriad races need confidence now. The war is not optimistic. I hope Human Emperor can kill more enemies."

Although Han Fei looked at the Phoenix Patriarch, his hands didn't stop. He held the Creation Mystic Yellow Tower in his hand, and with loud bangs, the Creation Mystic Yellow Tower grew larger and larger, and then Han Fei threw it to another battlefield on the side.

Neither side could resist it, but under his power, the Creation Mystic Yellow Tower could temporarily restrain several dominator-level ominous creatures.

In the next moment, Han Fei instantly disappeared, and the billions of purifying knife lights crossed the Endless Void and appeared on one of the side battlefields.

In the blink of an eye, the dominator-level ominous was still burning. It had only been one second since it was pierced.

Han Fei's sudden appearance immediately attracted the attention of the remaining six dominators.

One of them shouted, "Human Emperor, you've advanced unknowingly. However, how many people can you fight in a mere thousand years?"

Han Fei's breakthrough was in the Creation Star Compass, so the ominous didn't know it. What the ominous noticed was only Old Han and his mother, because they were the masters of the Sea of Stars.

But the ominous didn't care, because they didn't think that two newly-promoted dominators would affect them.

As they expected, although Old Han and his mother could fight two alone, their performance was not too exaggerated. After all, their breakthrough time was too short.

With Old Han and his mother as examples, the dominator rank ominous didn't think much of Han Fei. Although it knew that Han Fei walked the path of supreme, it didn't retreat when it met Han Fei. Instead, it wanted the six of them to work together to take Han Fei down.

However, Han Fei transformed, and six old bodies suddenly appeared. Having mastered the Time Splitting Technique, it was not a problem for Han Fei to instantly use a few old bodies.

In the next moment, six knife lights dazzled. These dominators also triggered the endless ominous aura behind them at the same time, each like a peerless Demon God.

"Puff! Puff! Puff!"

However, something unexpected happened. The ominous aura they triggered was cut apart by Han Fei's knife as if it were made of paper.

In the next moment, the three of them were directly killed by Han Fei.

Different from the Master of Time, his power of time mainly interfered with the other party's time, vitality, and speed. In battle, he would at most use the Time Cutting Technique to fight.

However, in the entire Six Divine Techniques of Time, only the Time Splitting Technique was considered an extremely offensive technique. The Time Predicament needed to be set up in advance. The other techniques such as the Time Resurrection Technique, the Indestructible Technique, the Predicament Technique, the Overlapping Technique, and the Sky Sealing Lock were all auxiliary and defensive. Therefore, the head-on killing ability of the Time Temple was limited.

Therefore, although the Master of Time was very powerful, in terms of killing techniques, it depended on the strong masters like Han Fei who had fought since they were young.

Seeing this, the other three were extremely shocked. They were spared because they had triggered the ominous tide earlier and were about to pounce into the Skynet.

And they discovered, to their shock, that the river of life had been severed. Even if there was endless ominous aura, it couldn't rebuild itself.

The three of them realized that something was wrong and were about to retreat. However, in an instant, millions of invincible fist lights, carrying the suppressing pressure of a Supreme, hammered the three of them crazily like sandbags.

Han Fei's strength was already extremely powerful. The terrifying power of 24 pieces of Star Rivers was not something ordinary dominators could compare to.

Not to mention the ominous master, even the masters of all races couldn't resist his terrifying power.

It was like asking Senior Sister Shen Le to attack the masters of all races. She might be able to beat them into dust in a few clashes.

The difference was that whether Senior Sister Shen Le was the master of all races or the dominator-level ominous, she might not be able to instantly kill the other party. This had nothing to do with how strong she was, because the Dao of Slaughter God only had a little annihilation characteristic and didn't have any purification characteristics at all.

Even if the ominous was torn into pieces by Senior Sister Shen Le, as long as a trace of it escaped, it could be resurrected.

However, against Han Fei, whether it was the masters of the myriad races or the dominator-level ominous, as long as they died, they would really die. Han Fei wouldn't give them a chance to revive unless their star origin power far exceeded Han Fei's. They could even touch the River of Life and forcibly shatter Han Fei's control of the law of life.

There were definitely such strong masters, but it definitely didn't include the present dominators.

Therefore, under the dumbfounded gaze of the Time Temple Master and the group of Sea Quelling Gods, in just a second, under the bombardment of infinite fist lights, the six dominator-level ominous creatures were forcibly beaten into nothingness.

"Gulp ~"

"So strong."

The Phoenix Patriarch was stunned. "Is it so simple for Han Fei to break through to the dominator level? Why do I feel that the strength Han Fei unleashed is stronger than the Master of Time? Since Han Fei appeared, he has killed seven dominator-level ominous creatures in less than five seconds. Those who don't know better would think that a Temple Master of the Three Temples has descended."

"The Supreme Path is indeed terrifying."

[God of Fishing](#)

Chapter 3595: On A Killing Spree (3)

The Phoenix Patriarch immediately came back to his senses. He didn't care what path Han Fei took as long as he could fight.

In the next moment, the Phoenix Patriarch roared again, "Human Emperor Han Fei, kill another six dominator-level ominous in one second. Congratulations to the myriad races... Everyone, the ominous will definitely lose this battle."

The Phoenix Patriarch wasn't bragging. On the first battlefield, if Shen Le hadn't been restrained by the ominous, no matter how many ordinary dominator-level ominous came, it would have been a chaotic situation.

At this moment, the dominator-level ominous that was fighting Senior Sister Shen Le naturally discovered Han Fei's arrival. He had wanted to lure the Death God into the trap, but he didn't expect it to be Han Fei.

"A Supreme?"

This dominator-level ominous creature naturally knew Han Fei. He just didn't expect Han Fei to really make a breakthrough. Because the time was too short, they didn't give Han Fei a chance to cultivate in seclusion at all. Even so, Han Fei still made a breakthrough, and once he made a breakthrough with the Supreme Technique, he would definitely become a Supreme.

In history, Cangtian and Li Daoyi were both Supremes who had blocked the ominous. They could be said to be the greatest heroes of the Chaotic Era and the Primordial Era.

Now, another Supreme had appeared in the myriad races. How could he allow this?

The dominator-level ominous immediately roared, "Shen Le, do you think you're the only one with a trump card? Since we can't meet the Death God, we can kill a Supreme."

The dominator-level ominous suddenly threw itself into the boundless ominous mist.

"Master Primordial, please descend with me as your carrier!"

The expressions of Shen Le and the Master of Time changed at the same time, and the Master of Time roared, "Shen Le, stop him."

Han Fei couldn't help but look in Shen Le's direction. When Senior Sister Shen Le unleashed the power of her claw, his heart stirred. This Star River Source Power seemed to be much stronger than his now!

Yes, with just a glance, he knew that the Star River Source Power controlled by Senior Sister Shen Le exceeded his. But even so, her full-strength claw didn't shake the boundless ominous mist. Instead, it was poured back by the ominous aura and even its sharp claws were shattered.

"How is it possible? Isn't it said that there is no ominous beyond the dominator level?"

Buzz!

The Primordial Eight Fierce Swords fused again. In the next moment when Senior Sister Shen Le attacked, the Sword of Shattering also rushed tens of thousands of light-years away.

For people like Han Fei who had mastered dozens of pieces of Star River Origin, this distance could be covered with a thought.

However, the sword that contained the supreme and invincible will was blocked by a strange gray barrier.

Buzz—

The vibration power formed by the sword tip and the barrier instantly crushed the surrounding endless Sea of Stars. All the broken stars were almost instantly crushed into powder.

But even with such power, the barrier didn't move at all. Instead, the Primordial Eight Fierce Swords began to tremble slightly.

Crack~

Suddenly, a crisp sound appeared. It turned out that a slight crack appeared on the Primordial Eight Fierce Swords.

"What?"

This was the first time Han Fei had seen a Supreme Nature Treasure broken. He could imagine how powerful the other party's barrier was.

However, in order to create such a barrier, the other party had paid a price. The moment this barrier appeared, with the dominator-level ominous as the center, the ominous mist in the nearly ten Star Rivers outside began to fade, as if buying time for this barrier.

"Hahaha!"

"Shen Le, Master of Time, Human Emperor, you are destined to lose this battle. If it weren't for the barrier of the Sea of Stars, you would have long been slaughtered. However, it's not too late now... Don't you suspect that I am a creature above the dominator level?"

"You're right... I am."

In the next moment, the strength of this dominator-level ominous was growing crazily.

Shen Le attacked crazily, and the feathers that filled the sky shattered the void.

But she stopped Han Fei from continuing to attack. "Little Junior Brother, the battle is coming. Continue to kill as many as you can. You might not have a chance later."

"No chance?"

Hearing that, Han Fei didn't dare to be negligent.

The sea of purification knives that he mobilized rushed into the army of the God Slaying-level ominous in the blink of an eye. Like a surging wave, it extinguished nearly a hundred God Slaying-level ominous in the blink of an eye.

The five old bodies also activated a killing mode here. Wherever the supreme will crushed, wherever the knife light and fist passed, the wind blew away, and not a blade of grass grew. None of the God Slaying-level ominous creatures could withstand the power of Han Fei's punch.

However, compared to the God Slaying-level ominous, the dominator-level ominous was the biggest problem.

Rumble!

In an instant, Han Fei turned into billions of lightning bolts and killed his way into the other side of the battlefield. There were also seven dominator-level ominous creatures here. Two of them were suppressed by the Creation Mystic Yellow Tower and were thinking about how to break through it. As for the other five, after seeing Han Fei instantly kill the seven dominator-level ominous creatures, they chose to run.

But how could Han Fei allow it? He immediately turned into billions of lightning bolts and blocked them.

Clank ~

With the Blood Sky Blade in hand, Han Fei immediately killed the slowest one. The other four rushed back into the ominous mist, and Han Fei followed closely behind. With a golden light on his body, he charged into the ominous mist alone.

While the Sea Quelling Gods were nervous, they saw golden beams of light erupting from the depths of the ominous mist.

In the next moment, a crack stretched across an entire Star River, cutting a chasm in the void.

[God of Fishing](#)

Chapter 3596: On A Killing Spree (4)

The ominous mist that was cut open seemed to be crazily swallowed by some power.

The Sea Quelling Gods looked in through the golden hole that burst out of the ominous mist, only to find that the Ten Vine Demon Purification Pot was dancing wildly, and countless ominous creatures were being killed and swallowed by the Demon Purification Pot.

Although people wondered where the Demon Purification Pot got its ten vines, its power was really shocking. Such a huge ominous mist was swallowed by a small calabash. Who wouldn't be shocked to witness such power with their own eyes?

At this moment, Han Fei walked out of the chasm that cut off the ominous mist and purified the two dominator-level ominous creatures under the Creation Mystic Yellow Tower. At this moment, killing

intent soared from his body. Seeing that the more than 5,000 God Slaying-level ominous creatures and 100,000 Doomsday-level ominous creatures still wanted to escape to the Skynet or other battlefields, Han Fei snorted and threw out the Blood Sky Blade.

"Blade out, Immortal Slaying."

"Puff! Puff! Puff!"

The Blood Sky Blade pierced through hundreds of God Slaying-level ominous creatures in the blink of an eye.

However, this slash didn't stop. Han Fei controlled the Blood Sky Blade to kill the enemy with his spiritual will. At the same time, his fist mark fell on the large group of doomsday-level ominous creatures.

Almost every punch he threw crushed dozens of doomsday-level ominous creatures.

In just ten seconds, a person had killed through two side battlefields. 14 dominator-level ominous creatures had all been killed. Some of the 10,000 God Slaying-level ominous creatures had been obliterated by the Time Division Technique, some had been overturned by the sea of purified knives, some had been killed by the Immortal Slaying Knife, and some were fleeing.

Han Fei entered the arena and started a massacre. His speed was so fast that even Shen Le and the Master of Time were surprised.

This was because the combat power that Han Fei unleashed at this moment was much stronger than they had expected. Although Han Fei walked the Supreme Path, he had just embarked on it after all. It was already extremely rare for him to have his current combat power.

However, Han Fei was alone after all. Even if he used the Time Division Technique, the power he could unleash without a long-term plan was limited.

He could quickly kill the dominator-level ominous firstly because the other party underestimated him, secondly because of the law of life, and secondly because there were fewer dominator-level ominous creatures gathered together.

Attacking the God Slaying-level and the Doomsday-level ominous was like cutting grass. Although it was easy, he had to slowly cut them. It was unrealistic to kill tens of thousands of God Slaying-level ominous with a slap.

Just as he was hesitating whether to solve the rear battlefield or help the Master of Time, Ximen Linglan said telepathically, "I'll go to the rear battlefield. You go to the front battlefield."

As they talked, Ximen Linglan had already appeared in the rear battlefield. She used the power of her bloodline without hesitation.

Hope gathered, and her combat power exceeded 40 million points of origin power. As the Time Sky Sealing Lock was set up, the battlefield behind was barely stabilized.

Lei Heng was still surprised. "A Palace Master-level powerhouse? Little Junior Brother is really lucky!"

Fifth Senior Brother sneered. "You're just a Thunder Spirit. What do you know about luck with women? Lei Heng speaks without thinking. Sister-in-law, don't mind him."

Ximen Linglan activated the Time Sealing Sky Lock and replied, "Greetings, Senior Brothers."

...

Ximen Linglan went to the rear battlefield, and Han Fei appeared on the frontal battlefield in an instant.

Buzz!

Endless divine brilliance suddenly poured into the body of the Master of Time. The latter couldn't help but feel refreshed. The law of life was indeed extraordinary. Just this blow could restore 10% of his strength.

Without communicating with the Master of Time at all, Han Fei charged at the 18 dominator-level ominous creatures without blinking.

As for the 18 dominator-level ominous creatures, they looked at each other and shouted, "Retreat to the mist."

They didn't want to fight Han Fei or try their luck. They had seen Han Fei's combat power. To them, he was almost comparable to half of the masters of the Three Temples. His combat power wasn't even weaker than Shen Le's.

The Master of Time immediately shouted, "Forget about these dominator-level ominous creatures and help Shen Le. As long as we can take down the dominator-level ominous creature opposite her, it's only a matter of time before we win this battle."

Han Fei glanced around and found that there were nearly 60,000 God Slaying-level powerhouses here. He was speechless, thinking to himself, What made you think we can win?!

Although he killed the 14 gods on the side battlefield immediately, the ominous was still powerful. If he no longer protected the side battlefield, the ominous army might make a comeback in a moment. At that time, it would only be a matter of time before the Skynet collapsed. Once the Skynet completely dissipated, the Myriad God Palace would become the last battlefield of all races in the Sea of Stars.

Although Han Fei didn't know what Senior Sister Shen Le was doing, he knew that she was moving in an injured state.

Just as Han Fei was about to help Shen Le, the dominator-level ominous creature who was fighting her immediately burst out with supreme divine might. With a bang, the Primordial Eight Fierce Swords were sent flying and trembled nonstop.

As for Senior Sister Shen Le, she had been swallowing and spitting the divine light born from the surrounding star rivers while attacking the dominator-level ominous opposite her. She erupted with the killing intent of the Dao of Slaughter God, trying to corrode the other party's protective power.

But at this moment, the dominator-level ominous had already swallowed nearly half of the ominous mist around him, and his temperament had risen to a level that shocked Han Fei.

Swish! Swish! Swish!

Han Fei appeared beside Senior Sister Shen Le and injected life divine brilliance into her body crazily. He asked, "Senior Sister, why do I feel that the other party's combat power seems to far exceed 40 pieces of Star River Source Power?"

Yes, Han Fei was not stupid. He was also a dominator now, a supreme dominator. He could feel the void fluctuations secretly triggered in the other party's body.

However, Senior Sister Shen Le replied, "49 pieces. If you can control 49 pieces of Star River Source Power, you will be an existence above the dominator level."

[God of Fishing](#)

Chapter 3597: Rest in Peace, Eldest Senior Brother (1)

"How much?"

Han Fei was dumbfounded. This guy had the combat power of 49 pieces of Star River Source Power, which was really unexpected.

He had thought that he was already strong enough after reaching the Supreme realm and walking the second level of the path of invincibility. But now it seemed that he had overestimated himself.

Originally, although he felt that Senior Sister Shen Le had surpassed him, she was the second most powerful person in the Void Temple after all. To put it bluntly, she should be ranked fourth in the Three Temples, so he could understand that Shen Le's control of the Star River Source Power had surpassed his.

However, as soon as he appeared, he encountered a dominator-level ominous that controlled 49 pieces of Star River Source Power. This clearly refreshed his self-knowledge.

Besides, the dominator-level ominous seemed to have used some unbelievable power. According to Senior Sister Shen Le, wasn't this guy trying to break through the dominator realm?

The other party had already forced Senior Sister Shen Le and the Master of Time to this point before he even surpassed the dominator level. What would happen if he completed this advancement?

Although Senior Sister Shen Le seemed to be doing something extraordinary at this moment, it was obvious that Senior Sister Shen Le's current behavior couldn't raise her to the level of surpassing the dominator. Otherwise, how could the Divine Musician be Second Senior Sister? She should be the Eldest Senior Sister.

Seeing this, Han Fei gritted his teeth and roared.

In the next moment, the blood Qi in his body surged like a tide. The first level of the Heavenly Dao Avatar, Ten Thousand Blood Body, finally erupted.

Instantly, Han Fei's control of the Star River Source Power soared from 24 pieces to 31 pieces.

However, these 31 pieces of Star River Origin Energy were already Han Fei's limit. Even if Senior Sister Shen Le bought him another hundred years to continue cultivating in the Chaotic Source and improve his physique, his ultimate combat power would only stop at 38 pieces of Star River Origin Energy.

If he wanted to continue to become stronger, he could only take the Dao of All Living Beings and eat the Fruit of Creation.

In the Sea of Bitterness, Han Fei had already had a feeling that if he walked the path of all living beings, his strength would probably double again. This was probably why his teacher left this path for him.

However, there should have been many people who could walk the path of all living beings, but very few people had really embarked on this path. Among the strong masters he knew, only Eldest Senior Brother seemed to walk the path of all living beings.

However, Han Fei didn't despair. The amount of Star River Source Power didn't mean absolute suppression. Otherwise, how could Eldest Senior Brother fight the ominous that had surpassed the dominator rank for thousands of years without being defeated? Even Senior Brother Undead was qualified to fight the ominous that had surpassed the dominator rank.

Han Fei's strength soared again, which couldn't be hidden from the Master of Time and Senior Sister Shen Le.

Senior Sister Shen Le saw that Han Fei's temperament suddenly changed, which was an extremely cold temperament.

"Little Junior Brother, are you transforming the power of the Heavenly Dao? You can't transform the Heavenly Dao often. You should use this technique carefully."

"Senior Sister, I have my own plans."

In the next moment, Han Fei had already rushed to the dominator-level ominous in the blink of an eye. As he issued an order in his heart, the Demon Purification Pot extended out from between his eyebrows.

To deal with an ominous creature of this level, Han Fei made himself stronger just to better control the Demon Purification Pot. After all, the Demon Purification Pot used to suppress the ominous.

Sure enough, as soon as Han Fei approached, the Demon Purification Pot quickly took action. Ten vines appeared at the same time. It was the dominator-level ominous. At this moment, its expression changed drastically. Endless ominous mist immediately surged over and rushed Han Fei away.

However, when had the Demon Purification Pot ever been afraid of the ominous mist? The ten vines pierced through the mist at the same time.

"Roar! So what if there are ten vines? Do you really think the complete Demon Purification Pot can suppress the endless ominous mist?"

Han Fei snorted. "Humph! It's one thing if I can suppress the ominous mist or not. I'll suppress you first, Light of Purification."

Buzz!

Light surged from Han Fei's body, and in the next moment, he rushed into the ominous mist. The ominous mist here was instantly penetrated by the light of purification, leaving thousands of holes.

It was obvious that the dominator rank ominous hadn't completed its advancement yet. Han Fei also unleashed his strongest combat power at the same time, took out the Demon Purification Pot, and cooperated with Senior Sister Shen Le to flatten the ominous mist nearby.

Of course, this only made the dominator-level ominous appear from the ominous mist and couldn't directly penetrate the ominous barrier on his body.

However, at this moment, all the ten vines of the Demon Purification Pot were stuck to the ominous barrier. Han Fei could feel that the infinite ominous aura was being swallowed by the Demon Purification Pot, causing the speed of the dominator-level ominous to stagnate to a certain extent.

Seeing this, Senior Sister Shen Le was slightly taken aback. In fact, when Han Fei had just broken through to the supreme dominator realm, although he had nine pieces of Star River Source Power, although they were very high, this didn't mean that it would change anything.

Compared to the nine pieces of Star River Origin, she cared more about the law of life that Han Fei had mastered and how well he could exert the law of life when he was still a dominator.

However, at this moment, it seemed that Han Fei, in his peak state, coupled with the Demon Purification Pot, had withstood the ominous that was almost at the peak of the dominator realm.

Senior Sister Shen Le suddenly shouted, "Little Junior Brother, help me block it for a while. Call me when you can't hold on anymore."

"Huh?"

Han Fei was dumbfounded. What was going on? Wasn't he overestimating himself? He had just advanced to the dominator realm and hadn't raised his strength to the limit.

[God of Fishing](#)

Chapter 3598: Rest in Peace, Eldest Senior Brother (2)

However, at this moment, Senior Sister Shen Le had already disappeared. When Han Fei saw Senior Sister Shen Le appear, she was already more than a dozen Star Rivers away.

Yes, Senior Sister Shen Le had really left. She couldn't wait for the light of the Great Dao to gather voluntarily. She wanted to swallow it voluntarily. But this would take time after all, and Han Fei controlled the Demon Purification Pot and had the strength of more than 30 pieces of Star River Source Power. In her opinion, he seemed to be able to resist it for a while.

Han Fei complained in his heart. He never expected things to develop to this point.

The dominator-level ominous roared, "Shen Le, you may not underestimate me. Even if the two of you join forces, you can't defeat me, let alone this Human Emperor alone!"

"Humph, who are you underestimating?"

Han Fei snorted. Although he complained in his heart, it didn't mean that he was really afraid.

Han Fei held the Law Enforcement Divine Chain in his hand and injected source power into it. With the chain as a knife, he gathered the supreme will, the invincible battle suit, the Dao of Slaughter God, and Life Law...

The Law Enforcement Divine Chain was not blocked by any barrier. It could even penetrate this ominous barrier.

Rumble!

The void rumbled and trembled violently, as if the entire Sea of Stars was trembling like a broken painting, producing swishing sounds as if it was really about to shatter.

However, the dominator-level ominous grabbed the Law Enforcement Divine Chain. The Demon Purification Pot was indeed tricky. He wanted to break through to the dominator realm, but he was interrupted by the Demon Purification Pot. In addition, Han Fei was provoking him at this moment, so he was extremely angry.

The holy brilliance pouring out of the Law Enforcement Divine Chain intertwined with the ominous aura emitted by the dominator rank, turning from holy brilliance into surging darkness.

Obviously, Han Fei's current strength was not enough to seriously injure the dominator-level ominous.

Fortunately, the dominator-level ominous seemed to be afraid of the Demon Purification Pot, so it didn't fight Han Fei for long.

He shouted, "Human Emperor, let me show you that the Demon Purification Pot is not omnipotent. Seal."

The ominous barrier around the dominator immediately moved and wrapped the Demon Purification Pot.

Seeing this, Han Fei's pupils were constricted slightly. Good lord, you're a tough guy.

This person probably knew that he couldn't beat the Demon Purification Pot, so he might as well gather the power of the surrounding endless ominous mist to temporarily suppress the Demon Purification Pot. As for him, he could temporarily take the time to attack him. Without the Demon Purification Pot, in terms of his strength, it would be extremely difficult to block a dominator-level ominous.

Sure enough, in the next moment, the dominator-level ominous instantly appeared in front of Han Fei. The ominous aura surged and collided with Han Fei with all its strength.

Rumble!

Han Fei was immediately sent flying. He felt that the invincible golden light on his body began to flash and disappear. This scene far exceeded his expectations. This was because he was now in the second level of the path of invincibility, the Invincible Body state. In this state, he was immune to both body and soul. As a dominator, even if the dominator ominous controlled 49 pieces of Star River Source Power, how could he be much stronger than him? How could he reach the upper limit of his Invincible Body with one blow?

"That's not right!"

Suddenly, Han Fei's heart skipped a beat. He felt a fatal threat.

He immediately shattered a piece of flesh on his palm, which immediately burst out with infinite purifying divine brilliance. And in the divine brilliance, there was a wisp of gray powder, trying to corrode Han Fei again.

"What the hell is this?"

Han Fei was shocked. Even the second level of the path of invincibility couldn't resist the gray powder. God knew what would happen if he was contaminated.

In the next moment, the Master of Time said, "Don't touch that thing. The destruction of the dragon race in the past seems to be related to this thing. The fall of the strange beast lineage is also related to this thing."

"Hiss ~"

Han Fei's heart sank when he heard that. The dragon race in the past could be said to be extremely powerful. Even the current dragon race could be said to have as many strong masters as clouds. The only problem was that they were cursed to need to eat.

As for the strange beasts, they were one of the six ancient lineages. The strongest of the strange beasts, who was the father of the Emperor Sparrow, could even fight the ominous alone.

He never expected that these two races would be killed by this gray powder. What was this?

Han Fei couldn't help but feel a little scared. Fortunately, he was a dominator and had the protection of the Invincible Body. Otherwise, he might have been tricked by this blow.

"Is this thing a curse?"

Han Fei wasn't sure, but at this moment, he was very angry.

Swish! Swish! Swish!

Han Fei's other five old bodies abandoned the side battlefield of the Ten Thousand God Palace and descended at the same time. The five old bodies burst out with the Time Sealing Sky Lock at the same time, directly sealing the dominator-level ominous and Han Fei himself.

Han Fei sneered. "Ominous? I'd like to see how many you can fight alone."

As the only offensive technique of the Six Divine Techniques of Time, the Time Splitting Technique was also one of the strongest abilities. It could summon him from the timeline, and his combat power methods were 100% replicated.

At this moment, the six of them activated the Time Sky Sealing Lock at the same time, trapping this place.

Senior Sister Shen Le was seeking a breakthrough, the Master of Time was guarding the battlefield, and the Demon Purification Pot was consuming endless ominous mist. And he had no choice but to participate in the game against the dominator-level ominous.

God of Fishing

Chapter 3599: Rest in Peace, Eldest Senior Brother (3)

With the previous experience, Han Fei no longer fought this ominous head-on. The six original bodies erupted with the Sword of Breakthrough at the same time. At the same time, the law of life surged on each of them. Among them, two old bodies rushed into the river of life and attacked the dominator-level ominous' river of life.

The remaining two old bodies immediately entered different timelines, trying to quickly create a time predicament. After all, once Senior Sister Shen Le's breakthrough was completed, she would definitely be able to cooperate with the Demon Purification Pot to kill or expel the dominator-level ominous.

Another old body threw his rod into the Time River and began to fish.

In the end, Han Fei's original body held the Blood Sky Blade, surrounded by the brilliant Primordial Eight Fierce Swords, and with the Creation Mystic Yellow Tower hanging above his head.

Han Fei believed that he had armed himself to his teeth.

However, in the next moment, the Time River was instantly invaded by an ominous. The fishing pole he had just thrown out was completely melted by the dark ominous.

Then, as soon as the two old bodies in different timelines stepped in, they found that this place was full of ominous mist, and they had no chance to create a time predicament. Having no choice, they could only take the initiative to return to the normal timeline.

As for the two old bodies that tried to shake the dominator-level ominous, they discovered that this guy's River of Life was actually black.

Han Fei was about to attack the river of life itself, only to find that a mist covered his river of life.

In reality, the dominator said ominously, "You have no idea how strong one will be in this realm."

Almost at the same time as the dominator opened his mouth, Han Fei's other old bodies felt an invisible hand pressing over at the same time. The throbbing just now appeared again.

"The gray powder again?"

Although Han Fei didn't see it, he had to disperse his old body. He knew the advantages and disadvantages of his old body. Its advantage was naturally to summon a few of his combat power at the same time, but the disadvantage was obvious. After all, it came from time. Once the Time River itself was contaminated, he might be accidentally tricked.

At this moment, Han Fei finally understood why the Master of Time seemed so powerless in the face of such a strong master. It was because the other party had a way to crack the strongest Time Splitting Technique.

Immediately, only he and the dominator-level ominous were left in the Time Sealing Lock.

The dominator-level ominous immediately shouted, "I have no time to play with you. Get lost."

The dominator-level ominous seemed to have made an important decision and immediately took out a strange small bottle.

As the gray powder inside was poured out, Han Fei immediately retreated. This bastard had so much of this powder. Just a wisp of them could break his Invincible Body.

At this moment, he had taken out the entire bottle. How could he fight?

Some gray powder poured out of the bottle and instantly attached to the Time Sealing Sky Lock, melting it in the blink of an eye.

As for the ominous that was already at the peak of the dominator realm, it smiled coldly. "You know nothing about our background. Except for tenacious resistance, you don't know anything and can't do anything. Today, I'll let you two know what it means to surpass the dominator realm."

With that, the dominator-level ominous appeared dozens of Star Rivers away in an instant. This place was still covered by the ominous mist. The Demon Purification Pot was temporarily trapped. If Han Fei wanted to continue to use it, he had to spend some time breaking the barrier. And taking advantage of this time, he could continue to make a breakthrough.

Han Fei gritted his teeth. The Demon Purification Pot was very strong, but its strength was the last Fruit of Creation. Although the Demon Purification Pot was powerful, it was not invincible and couldn't completely suppress the ominous.

Even if he took back the Demon Purification Pot now, so what? Unless he swallowed the Fruit of Creation, he would eventually be trapped.

With this in mind, Han Fei no longer hesitated and immediately chased after them again.

However, this time, Han Fei attacked the dominator-level ominous more from a distance. Seeing that the endless ominous mist began to gather and was about to condense into a new ominous barrier, Han Fei immediately snorted.

"Okay, anyway, I just need to stop you for a moment. If you want to play, I'll play with you."

Buzz!

In the next moment, Han Fei's figure appeared above the Myriad God Palace. Han Fei roared, "Rise ~"

The word "rise" resounded throughout the Sea of Stars. The purified stars in the Skynet all began to tremble.

In the next moment, refined stars disappeared into the Skynet one after another.

Swish! Swish! Swish!

A hundred, a thousand, ten thousand, a hundred thousand, a million, ten million...

When the billions of stars in the Skynet disappeared into thin air, all the strong masters of the myriad races were shocked. What kind of f*cking heaven-defying ability was this?

Xia Xiaochan and the others were shocked to see this shocking scene as soon as they returned. Xia Xiaochan keenly noticed that Han Fei's temperament seemed to have undergone a subtle change, which seemed to be a sense of distance.

It wasn't just Xia Xiaochan. Han Chanyi and Han Fei were of the same bloodline. At this moment, she vaguely discovered that her bloodline with her father seemed to be separated, which made her face turn pale.

She realized that Han Fei had become stronger, but this strength seemed to cost him a lot.

Because the Skynet had been taken away by Han Fei, the battlefield in the rear no longer existed. The only place they could guard was the Myriad God Palace.

[God of Fishing](#)

Chapter 3600: Rest in Peace, Eldest Senior Brother (4)

At this moment, Ximen Linglan saw Han Fei borrow the power of the Heavenly Dao again, and her heart sank. She threw the Blade of Hope at Han Fei without hesitation.

Han Fei glanced in Ximen Linglan's direction, opened his hand, and let the Blade of Hope enter his body.

In the next moment, Han Fei disappeared above the Myriad God Palace.

On the dominator-level ominous battlefield, billions of stars were shining with the light of purification at the same time.

The dominator-level ominous was speechless. Wasn't this guy a lunatic? He didn't even want the entire Skynet just to stop him for a moment? This was the last barrier of the myriad races. If the Skynet collapsed, how long could the Myriad God Palace resist it?

The dominator-level ominous was completely enraged. If the Skynet Array of the myriad races was really so easy to break, why would it need to go through millions of years and eras?

He grinned ferociously. "Shen Le is right. It's indeed a little difficult to take down both the first battlefield and the Sea Realm. Since you have given up the Skynet and bet on the Myriad God Palace, I'll let you understand that a gambler will eventually pay the price for his stupid actions."

Han Fei sneered. "If you win the bet, you won't have a chance anymore. Even if you lose the bet, so what? It's nothing more than the destruction of the myriad races a few days earlier."

The moment the two of them talked, billions of purification stars exploded one after another.

Boom, Boom, Boom ~

The ominous barrier that the ominous dominator had just condensed collapsed in the blink of an eye without the envelopment of the subsequent ominous mist.

At the same time, the ominous barrier that besieged the Demon Purification Pot was also surrounded by purifying stars and began to explode crazily. The light of purification enveloped the Sea of Stars and blew up, making the night as bright as day.

Yes, Han Fei successfully stopped the dominator-level ominous from continuing to upgrade. However, from the ominous mist of the Myriad God Palace, dominator-level ominous creatures suddenly walked out one after another. In the blink of an eye, more than 30 ominous creatures came, and the number was rapidly increasing.

Obviously, these dominator-level ominous creatures weren't on this battlefield in the first place. They came only because of the ominous fighting with Han Fei summoned all of them.

Shen Le and the Master of Time were right. The ominous army had indeed split into two groups, preparing to destroy the myriad races together.

At the moment the dominator-level ominous creatures arrived, at the same time, nine Distanceless Gates appeared at the same time. The ten Yama Kings arrived, together with a boundless death aura. Countless undead creatures kept walking out of the death aura.

However, the figure of the Death God didn't appear.

This also meant that there should be powerful dominator-level ominous creatures in the dark that hadn't appeared yet. The Death God couldn't leave yet. All he could do was to send ten Yama-Kings and a large number of undead creatures.

However, Han Fei didn't care if the Immortal Temple came or not. This was because a pearl appeared in his hand, one of the seven Divine Realms left behind by Li Daoyi, the Chaotic Storm.

Han Fei flicked his finger, and the pearl that represented the Chaotic Storm appeared above the Myriad God Palace. The void around the Myriad God Palace began to tremble violently, and the surging storm began to wreak havoc. In the blink of an eye, a storm barrier surrounded the Myriad God Palace.

"Chaotic Storm?"

Many people spoke in surprise.

Someone was shocked. "The Chaotic Storm has disappeared for an era. Has Han Fei found it?"

Many strong masters were relieved. "Okay, with the Wind Escape Storm, we can at least resist it for a while."

Someone frowned. "You're thinking too much. Don't you see how many ominous dominator-level powerhouses have come?"

Someone couldn't help but ask blankly, "What happened? Why did the battle suddenly become so strange and unpredictable?"

The Master of Time, Shen Le who was seizing the time to collect the light of the Great Dao, and some other people in the Myriad God Palace who knew the inside story all sighed. Had Li Daoyi finally passed on the seven Divine Realms to others?

However, every time Han Fei used one, it meant that the power protecting the Sea Realm would be reduced. Once the seven Divine Realms were used up, there would be no need to fight this war that lasted for several eras. This was because the Sea Realm didn't even have the last barrier. It could only be reduced to fish meat and at the mercy of others.

But Han Fei didn't care so much. He retracted the Demon Purification Pot and charged at the dominator-level ominous again. He sneered. "I'd like to see if you can create a third barrier."

Bang! Bang! Bang!

The two parties fought again, but because of the existence of the Demon Purification Pot, the two parties still collided in the air, causing cracks to appear in the Sea of Stars from time to time, as if they were going to blast a hole in the world.

However, in the end, Han Fei was still weaker. Even in such a long-distance clash, Han Fei's invincible body almost collapsed several times.

"Tweet ~"

Less than half an hour after the fierce battle, a soft cry spread throughout the Sea of Stars.

The dominator-level ominous's expression changed drastically. At this moment, he knew that another master at the level of Master of the Void had been born.

At the same time, Eldest Senior Brother, who was fighting the real ominous on the Path of No Return, put on a rare faint smile.

Eldest Senior Brother said calmly, "Undead, go! Leave this to me."

Upon hearing this, flames danced in Senior Brother Undead's skeleton pupils. "You know, this is not a solution after all."

Eldest Senior Brother's tone was a little relaxed for once. "At least, I'll solve one. It's up to you who's next."

Eldest Senior Brother pushed Senior Brother Undead across the Infinite Sea of Stars and pushed him to the first battlefield in one fell swoop.

The ominous creature that was fighting Eldest Senior Brother roared angrily, "Void, without you, the Sea of Stars can no longer resist my steps. Shen Le can't resist me."

Near the Path of Return, the Infinite Sea of Stars began to collapse. A boundless void enveloped this world and countless Star Rivers. Even the ominous couldn't escape.

Eldest Senior Brother said calmly, "Whether we can block it or not, you can't see it anyway."

With that, Eldest Senior Brother turned into nothingness and finally condensed into a void, floating into the path he had guarded for countless years.

...

On the first battlefield.

The sudden appearance of Senior Brother Undead made Shen Le, Senior Brother Azure Dragon, and Fifth Senior Brother realize something. Even Feng Yu had guessed it.

The Master of Time sighed. "The void! You've finally got your wish. You've embarked on that path in the end."

Han Fei's face changed drastically. "Senior Brother Undead, where is Eldest Senior Brother?"

However, Senior Brother Undead bowed deeply in the direction of the Path of No Return. "Eldest Senior Brother, rest in peace"
