Chapter 3601: Primordial Dao Ancestor (1)

The moment Shen Le made a breakthrough, it was already destined that Eldest Senior Brother would embark on the path of no return. Not only did he embark on that path, but he also took away a true ominous above the dominator level with his own strength.

Even Li Daoyi, at his peak, still failed to completely eliminate the ominous. He relied on the guardian of the Divine Realm, Jing Guangming, to suppress the remaining trace of the ominous for an entire era before completely obliterating the ominous after Han Fei appeared.

However, Eldest Senior Brother took away an ominous creature alone. From this point of view, it could be said that no one had done this before. He was the only person in the history of the Sea of Stars who had completely taken away an ominous creature alone.

"Eldest Senior Brother, rest in peace."

Everyone from the Void Temple couldn't help but be moved. They didn't even have the time to say goodbye and didn't see their Eldest Senior Brother one last time. They could only bow deeply in the direction of the Path of No Return.

The dominator-level ominous that was fighting Han Fei naturally knew what had happened and immediately flew into a rage. Void, Shen Le, Time, and Death God were the greatest obstacles for them to destroy the Sea of Stars.

They had been preparing and waiting for too long. At this moment, they were naturally unwilling to accept this.

As soon as Senior Brother Undead appeared, he was about to go straight to Han Fei, when Shen Le shouted, "Old Three, kill all the dominator-level ominous creatures outside the Myriad God Palace."

Hearing this, Senior Brother Undead also stopped, carrying a black coffin on his back, standing among the countless ominous things.

How could he be weak if he could fight a powerhouse above the dominator level with his Eldest Senior Brother? In the past, it had only been a moment since Senior Brother Undead killed the dominator-level ominous. Now with the enhancement of the black coffin, his skeleton hand actually ignored the invasion of the ominous mist and grabbed two dominator-level ominous creatures, pulling them to the left and right of the black coffin. Everyone saw that the two dominator-level ominous creatures turned into a pool of black liquid at a visible speed and were sucked into the black coffin.

Seeing that Senior Brother Undead had come, the dominator-level ominous fighting Han Fei naturally knew that the real ominous had been taken away.

This meant that the attack plan this time might be in a stalemate for the time being.

"Retreat ~"

Although the ominous was unwilling, it was the truth. Void was gone but here came Shen Le.

Besides, although Han Fei was still not strong enough, with the Demon Purification Pot, he could barely restrain him.

The boundless ominous mist quickly began to dissipate and penetrate the Endless Void. And the dominator-level ominous that was entangled by Han Fei seemed to have finally given up advancing.

However, at this point, how could Senior Sister Shen Le let him get his way?

"Don't you think it's too late to retreat now?"

Senior Sister Shen Le screamed, "Sky Splitting."

At that moment, in the Sea of Stars, in the endless sky, darkness opened as if the world had collapsed. This blow, enough to twist and annihilate millions of stars, smashed down.

Rumble!

With the dominator-level ominous as the center, a terrifying law storm was set off. In the violent law, blood beads were falling, and light was like a sword, attacking here.

Han Fei clung to the dominator-level ominous. He didn't want another ominous to appear after Eldest Senior Brother took away one. In that case, the Sea of Stars would still be in danger like in the Primordial Era.

For a moment, the blocking of the billions of purifying stars on the Skynet, Senior Sister Shen Le's terrifying outburst, and Han Fei's siege with the Demon Purification Pot made the dominator-level ominous almost isolated and helpless.

In particular, Senior Sister Shen Le's breakthrough seemed to have caused her combat power to soar too much. The claw tore down, making Han Fei feel that even his invincible body in his peak state could probably only block one blow of hers.

Crack~

Sure enough, although the dominator-level ominous was strong, its body was torn apart at once. The infinite ominous aura was burned into dark red flames. The surrounding light of purification crazily swept away the ominous aura on the surface of its body.

Seeing this, Han Fei rushed up with the Invincible Body. This time, Han Fei knew that the other party had the gray powder, but he still stepped forward resolutely. As long as he resisted the gray powder once, while creating an opportunity for Senior Sister Shen Le, he could also create an opportunity for the Demon Purification Pot.

Once this dominator-level ominous was caught by the Demon Purification Pot, he wouldn't be able to escape even if he had wings.

Swish! Swish! Swish!

Millions of chains of laws of life, like divine chains of order spreading out between the heavens and earth, intertwined in the void. However, such chains of laws certainly couldn't catch this dominator-level ominous.

Rumble!

However, in this void, billions of lightning bolts suddenly sounded, thunder and fire grew, and the lightning ring spread out like ripples, temporarily sealing this domain.

Han Fei, on the other hand, turned into lightning marks that filled the sky and arrived in front of the dominator-level ominous at an extreme speed. At an extremely short distance, the ten vines of the Demon Purification Pot between his eyebrows broke through the void and grabbed the dominator-level ominous.

"Humph, die!"

At this critical moment, the dominator-level ominous aura burst out and was about to cover Han Fei in an instant. And Han Fei also felt the strange power of the gray powder touch the Invincible Body at the same time.

As the saying went, the braver would win if they met on a narrow path. Han Fei's almost-extinguished invincible body temporarily shone and resisted the gray mist.

At this moment, with multiple piercing sounds, the Demon Purification Pot finally attached onto the dominator-level ominous. And Han Fei was only inches away from the dominator-level ominous. Information about the dominator-level ominous immediately appeared in his eyes.

[God of Fishing](#)

Chapter 3602: Primordial Dao Ancestor (2)

In the blink of an eye, Senior Sister Shen Le and Han Fei moved too fast and decisively. This dominator-level ominous also realized that the other party was determined to take him down.

The moment the Demon Purification Pot caught him, he roared, "Sacrifice."

Buzz!

At that moment, this dominator-level ominous body burned with black flames. With this ominous body as the center, billions of kilometers of sky were locked down.

Because he was too close to the dominator ominous, in Han Fei's eyes, the information of the dominator ominous had changed.

<Name> Primordial Dao Ancestor's Ominous Body

< Introduction > An ominous body of the supreme dominator of the Primordial Star Sea born because of the corrosion of the ominous. Because it has the power to dominate the world, even if it is corroded by the ominous, it can still have indelible intelligence. However, the ominous body is only a part of the Primordial Dao Ancestor. Only when the Primordial Star Sea is completely swallowed can the ominous body become the supreme dominator.

<Ominous Level > Ominous Level

< Realm > Dao Ancestor

< Battle Technique > Ominous

< Collectible > Dao Domain Crystal

<Absorbable>

< Remarks >

Yes, the moment the dominator-level ominous burned itself, its information changed, turning into the ominous level.

At the same time, Han Fei learned another piece of information. Sure enough, there was another place similar to the Chaotic Star Sea in this world, and this dominator-level ominous was born from the Primordial Star Sea.

"Little Junior Brother, retreat."

Everything happened too quickly. Han Fei had only wanted to hold back the dominator-level ominous, but he didn't expect this guy to be so crazy in the end. He sacrificed himself in exchange for the ominous-level power.

Shen Le held a feather in her hand, which was like the sharpest blade, piercing through this locked space in one fell swoop.

Hearing that, Han Fei certainly didn't dare to be negligent and quickly retreated.

However, the burning ominous sneered. "Do you think you've won? You don't know that this is just the beginning. Human Emperor, go with me!"

With that, the dominator-level ominous pushed forward, and the road in front of Shen Le completely collapsed, turning into an abyss that led to the unknown.

"Little Junior Brother."

Senior Sister Shen Le's face changed drastically. A red light flashed between her eyebrows, and a life feather crossed the abyss. Shen Le stepped on the burning feather, forcibly rushed into this unknown place that didn't belong to the Chaotic Star Sea, and grabbed Han Fei.

However, this abyss carried an infinite suction force. Even Shen Le, who had made a breakthrough, couldn't break free from the collapsing force.

At this moment, the Demon Purification Pot was clinging to the ominous body. Han Fei couldn't break free even if he wanted to.

He didn't expect this situation. At this moment, the figures of Xia Xiaochan, Han Chanyi, Ximen Linglan and the others appeared in his mind.

No! Eldest Senior Brother had embarked on the path of no return. The Chaotic Star Sea couldn't be left unguarded. Otherwise, the Master of Time and the Death God alone wouldn't be able to withstand the ominous.

Once Senior Sister Shen Le fell with him, all races in the Abyss would be destroyed. And Xia Xiaochan, Ximen Linglan, Han Chanyi, Zhang Xuanyu, and the others would die too.

No, I can't let this happen.

Han Fei roared, "Senior Sister, the six Divine Realms are in my Origin Star."

"Little Junior Brother..."

"Senior Sister, someone must guard the Sea of Stars. Please protect my wife and children... I might be able to return."

Han Fei looked determined, and the Blade of Hope appeared in his hand. With a swish, the Blade of Hope took Shen Le to fly away from the dark abyss.

"Tweet ~"

Senior Sister Shen Le wailed, "Little Junior Brother, take my life feather. It can burn everything for three days."

As soon as he said so, the two disappeared from each other's vision.

...

"Tweet ~"

Outside the Myriad God Palace, a divine bird wailed. It was naturally Senior Sister Shen Le.

At this moment, Senior Sister Shen Le stood proudly on the Nine-Turn Heavenly Wheel, and boundless blood Qi directly covered the three surrounding Seas of Stars.

"Sky Burning Fury."

"Hula..."

The blood and Qi burned the air, and the billions of ominous creatures that were rapidly retreating were burned and annihilated by this furious blood and Qi. Billions of ominous creatures were swept away by this blood and Qi fire.

Nearly ten dominator-level ominous creatures were burnt into nothingness by this violent fury.

Outside the Myriad God Palace, peace finally came. Countless strong masters of the myriad races were shocked for a long time and shouted, "We won, we won."

"Hahaha! We repelled the ominous."

"Is the war finally over?"

"How did we win? The ominous really retreated."

These people all looked at Shen Le with admiration in their eyes.

However, only a few people noticed the Blade of Hope in Shen Le's hand.

When Ximen Linglan saw that there was only one Blade of Hope left, her heart skipped a beat.

Swish ~

Ximen Linglan appeared in front of Shen Le, her eyes bloodshot.

In the next moment, Senior Brother Azure Dragon, Fifth Senior Brother, Lei Heng, Six God, Han Guanshu and Jiang Linxian, all came to Shen Le. Xia Xiaochan, who clearly realized that something was wrong, hurriedly pulled Han Chanyi to the Nine-Turn Heavenly Wheel.

Xia Xiaochan knew the Blade of Hope. She knew that this was Ximen Linglan's talent knife, an existence of the same type as her spiritual beast. Most people in the world had awakened spiritual beasts, but there were also extremely rare people who had awakened weapons. Ximen Linglan was such a person.

Xia Xiaochan knew that there were two Blades of Hope. At this moment, it was definitely not a good thing that one of them appeared in Shen Le's hand.

[God of Fishing](#)

Chapter 3603: Primordial Dao Ancestor (3)

Xia Xiaochan asked, "Senior Shen Le, where is he?"

Everyone present was not stupid. The ominous had retreated. Shen Le, the top powerhouse of the Void Temple, had returned, and the Master of Time was still here, but Han Fei hadn't returned. What this meant was almost self-evident.

Feeling Xia Xiaochan's slightly trembling hand and Ximen Linglan's extremely ugly expression, Han Chanyi's eyelids twitched. "Where, where is my father? He just said that he would come to me. Where is my father?"

"Alas..."

Senior Brother Azure Dragon sighed slightly and didn't speak.

Jiang Linxian's voice was also extremely cold. "Fellow Daoist Shen Le, what happened?"

Shen Le's expression was ugly. After a few seconds of silence, she slowly said, "If I've guessed right, Little Junior Brother was dragged into the world where the ominous is."

Buzz!

Xia Xiaochan's body trembled slightly, and the others felt their hearts skip a beat.

An ominous world? That was a place that no one had ever set foot in. The ominous had fought against all races for several eras, but no one had ever entered an ominous world and returned.

Lei Heng said, "Senior Sister Shen Le, haven't you killed your way in?"

However, Shen Le shook her head slightly. "I've killed my way into the depths of the ominous mist, but I haven't killed my way into the ominous world."

Hearing this, Xia Xiaochan couldn't help but feel a trace of hope. "Isn't it said that the ominous was created by the destruction of the myriad races? Why is there a separate world? If that's the case, it means that he might still be alive."

Fifth Senior Brother heaved a long sigh. "That's true and false. Negative power can indeed create the ominous, but it's not the real source of the ominous. In the Primordial Era, a person once fought to the source of the ominous, only to find that it was actually a channel that led to the Endless Void. Therefore, negative power creates the ominous. It's just a way of birth, but it's not the source of the ominous. Perhaps, the world where the ominous is located is similar to the Chaotic Star Sea and there is also war there... If Little Junior Brother really goes there, it's indeed possible that he... is still alive."

Fifth Senior Brother could only give Xia Xiaochan and the others hope, but this hope seemed pale in the ears of everyone.

At this moment, Ximen Linglan said firmly, "He is still alive."

Everyone looked at Ximen Linglan, who took the Blade of Hope and said, "The Blade of Hope is my talent weapon. If it's not damaged, it means that Han Fei is still alive."

...

Buzz!

At the same time as the crisis in the Chaotic Star Sea was resolved, Han Fei stepped on a feather in this boundless dark abyss and held a Blade of Hope. The Demon Purification Pot no longer had a target. The dominator-level ominous was completely annihilated after sacrificing itself at the last moment and temporarily surpassing the dominator level.

"Cough, cough ~"

Han Fei coughed, and black blood appeared in his palm.

His invincible body had long been extinguished. Han Fei didn't expect the dominator-level ominous to be so crazy. It was only one step away from becoming a dominator, but it was still sacrificing itself? Didn't these ominous cherish him at all?

He had wanted to use his invincible body to resist for a while, thinking that when Senior Sister Shen Le came, the situation would definitely change. Who would have expected such a thing to happen?

At this moment, he was contaminated by the gray powder. The moment the dominator-level ominous sacrificed itself and temporarily surpassed the dominator-level, his invincible body was broken.

As soon as the Invincible Golden Body was broken, Han Fei was contaminated by the gray powder.

The coughing began at that moment, as if an inexplicable power was circulating in his body, destroying his supreme body.

If it weren't for the fact that his physique was abnormally strong, that he had mastered the law of life, and that he was so strong, he wouldn't have been able to last a moment before he died.

Even now, he was not in a good state. Affected by the power of the powder, his combat power was roughly weakened by 20%.

Originally, Han Fei's basic combat power was only 12 pieces of Star River Origin. Now that it had been weakened by 20%, it meant that his basic combat power was less than 10 pieces of Star River Origin.

Buzz!

Suddenly, Han Fei fell into an ominous mist from the abyss.

"A space contaminated by the ominous?"

At this moment, because Han Fei had to suppress the strange power of the powder in his body, the divine brilliance on his body had long dimmed. Suddenly trapped in this dense ominous mist, only the faint divine brilliance on the surface of his body was left.

At the same time, Han Fei's heart stirred. Since there was an ominous mist, he should have come to a space in the Sea of Stars.

However, this place was completely made of ominous mist, and he couldn't release his perception at all.

At this moment, Han Fei saw dozens of God Slaying-level ominous creatures gathering from all directions.

"God Slaying-Level?"

Yes, the ominous here was at the God Slaying level as soon as it appeared. In fact, dominator-level ominous creatures appeared in a moment.

There were more and more ominous creatures around, and their levels were not low. He couldn't see any of them below the doomsday level. Obviously, he had really entered the ominous nest this time.

"Human powerhouses are really rare!"

At this moment, a middle-aged man in a black Daoist robe sat on an ominous giant deer and slowly walked over.

Han Fei's pupils were constricted slightly. "Primordial Dao Ancestor?"

Han Fei sensed the same ominous aura from this person as the one who dragged him in just now.

God of Fishing

Chapter 3604: Primordial Dao Ancestor (4)

The Daoist nodded slightly. "A human Supreme? Fortunately, you haven't fully grown up yet. Otherwise, you would be a little difficult to deal with."

Han Fei narrowed his eyes. He was not stupid. Since this person had admitted his ominous body, it was equivalent to telling Han Fei that he was a powerhouse above the dominator level, a real ominous-level powerhouse.

And this was the Primordial Star Sea, a place similar to the Chaotic Star Sea.

Perhaps, in an ancient period, there was once a channel between these two Seas of Stars, so there was Primordial Mist in the Chaotic Star Sea.

Faced with such a strong master, Han Fei knew that under such circumstances, it was probably useless even if he walked the Dao of All Living Beings. The only solution now was to swallow the Fruit of

Creation. This was because the information the Demon Purification Pot had seen before told him that the ominous body of the Primordial Dao Ancestor hadn't completely swallowed the Primordial Star Sea.

Han Fei snorted. "Although this Sea of Stars is occupied by you, the laws of the world exist, which means that you haven't completely controlled this Sea of Stars. If that's the case, you might not be able to take me down."

The ominous body of the Primordial Dao Ancestor said indifferently, "You've been contaminated with ominous matter. Sooner or later, you'll become one of us. Why struggle?"

"B*llshit."

Han Fei sneered. "Since you know me, you should know that the Demon Purification Pot is also in my hands. If I'm contaminated by the ominous substance, the Demon Purification Pot can absorb it immediately."

The Dark Primordial Dao Ancestor was not in a hurry. Instead, he said calmly, "You keep calling us ominous, but do you know what the real ominous is? You don't. Not only do you not know, but even the word ominous is transmitted from our mouths. Although the Demon Purification Pot is powerful, do you know that it's just a container to store the ominous! Besides, there is more than one such container."

"What are you talking about?"

Han Fei's eyelids twitched. "Do you think I'll believe you?"

The Primordial Dao Ancestor smiled and said, "Believe it or not, it has nothing to do with me. The real ominous things have never been us, but those suppressed ominous things. However, for you and me, what's the difference if you are contaminated by the ominous things? For example, even if you are contaminated by the ominous things, you can still maintain your consciousness, have all the combat skills you know, and know all the Great Daos you have mastered. Therefore, is there any difference between you before you are contaminated by the ominous things and you after you are contaminated by the ominous things?"

Han Fei sneered. "What about those below the doomsday level?"

The Primordial Dao Ancestor smiled. "They're just nutrients. We control the Sea of Stars, and all living beings are at our mercy. You can understand that this Sea of Stars is just a vast farm. Every once in a while, we have to harvest them, and you and I are both beneficiaries."

"B*llshit."

The ominous body of the Primordial Dao Ancestor's words were getting more and more ridiculous. His thoughts might already be abnormal. This was even more terrifying than treating all living beings as ants.

Ordinary people wouldn't trample on ants. However, this Primordial Dao Ancestor wanted to harvest a Sea of Stars as his nutrients. In his eyes, the creatures of all races were just resources.

The Primordial Dao Ancestor said indifferently, "I've already told you the whole story. If you join us, I can give you the Chaotic Star Sea. Otherwise, I can only cut off your path. It's a waste of your talent. You shouldn't end up like this."

Han Fei laughed. "Invite me to join you? Okay! Then give me a few bottles of the gray powder first."

The Primordial Dao Ancestor shook his head gently. "Ominous matter is extremely rare. It's not something you can get just because you want it. Besides, if you're not sincere, I'm afraid I can't give it to you."

Han Fei's heart stirred. Is the gray powder that looks like gangrene really something good for ominous creatures?

Han Fei said again, "If you want me to join you, you have to give me some benefits, right? How can I join you without any benefits?"

The Primordial Dao Ancestor smiled and said, "Didn't I say that the Chaotic Star Sea can be given to you?"

Han Fei rolled his eyes. "I want tangible benefits. Don't draw pancakes for me. Besides, if I really want the Chaotic Star Sea, do I need you to give it to me?"

The Primordial Dao Ancestor sighed softly. "People are stupid. With your current situation, there's really no need for me to lie to you. I just cherish talent. After all, in this endless era, there are very few companions. It's really lonely. I'll give you one last chance to accept the gift of the ominous matter. Otherwise, I can only solve you myself."

[God of Fishing](#)

Chapter 3605: Fruit of Creation (1)

Faced with the ominous body of the Primordial Dao Ancestor and the increasing number of dominator-level ominous creatures around him, Han Fei knew that he had no way out.

Han Fei said, "Last question. What are you pursuing? With your strength, it should be a matter of time for you to control the Primordial Star Sea. But even if you really completely control the Primordial Star Sea, what can you get? This Sea of Stars has become your nutrients. No matter how strong you are, what's the point?"

Faced with Han Fei's question, the ominous body pondered for a long time and then said with a sigh, "You've successfully evoked my memories. Before I encountered the ominous matter, I had nothing to ask for. But at this moment, what I pursue is probably the more mysterious unknown. Don't you want to see the world outside the Primordial Star Sea and the Chaotic Star Sea?"

Han Fei sneered. "If it weren't for you, to be honest, I really wouldn't want to. However, I'm very satisfied with your answer. I already know what I want to know."

Without hesitation, Han Fei grabbed the life feather that Shen Le left for him and shouted, "You've probably forgotten your original intention. I'd better not join you!"

Buzz!

Han Fei ignited the life feather. In the next moment, the surrounding space and laws distorted, and infinite blood Qi burst out of the feather and then began to burn.

With a swish, many doomsday-level ominous creatures around were ignited by this sudden Qi and blood and were instantly incinerated.

Where there was life, there was the law of life. Under the envelopment of Han Fei's law of life, thousands of doomsday-level ominous creatures were instantly burned up.

However, as soon as the power of the feather erupted, the ominous body of the Primordial Dao Ancestor shot out an endless ominous mist, forcibly protecting the ominous creatures here.

The ominous body snorted. "I treat you with sincerity, but you failed me. In that case, don't blame me."

With that, the ominous figure instantly disappeared from the giant deer. As it attacked, Han Fei felt that all laws in the world turned into divine chains of laws that swept over.

Yes, almost all the laws of the Heavenly Dao in the Primordial Star Sea were controlled by the Primordial Dao Ancestor. The other party knew all the laws Han Fei could use. As a result, the other party could easily borrow the power of the world and activate all the laws in the world with a raise of his hand.

Bang! Bang! Bang!

Fortunately, after Senior Sister Shen Le's breakthrough, her strength was probably not weak. This life feather was said to be able to burn everything for three days. Therefore, when these law divine chains appeared around him, they were immediately burned apart and couldn't penetrate him.

The Primordial Dao Ancestor's voice floated in Han Fei's ears. "A dominator is a dominator after all. No matter how strong Shen Le is, she can't take the last step. The power of this feather can only delay your death. When the power of this feather is exhausted, I will occupy your body and corrode your soul. I will turn you into an ominous creature and make you return to the Chaotic Star Sea."

Han Fei roared, "I'm afraid you don't have the ability."

With a flip of his hand, the Vast Ocean Navigator appeared in his palm. As he issued an order in his heart, the Vast Ocean Navigator began to spin.

Seeing this, Han Fei couldn't help but smile.

"Sure enough, there is still an uncorroded world in the Primordial Star Sea."

Before, Han Fei's last question was not about what the ominous body pursued at all, but to know his control of the Primordial Star Sea.

If the Primordial Star Sea had completely fallen and only a little bit of the Heavenly Dao was fighting it, he might indeed have no way out. However, through the Vast Ocean Navigator, he learned that there was still pure land here. This meant that there was a certain power here fighting it, and that was where he was going.

Han Fei tried to go directly to the pure land through a world similar to the source power of the Star River. However, this was not the Chaotic Star Sea. Some powers were not under his control at all. He couldn't go to any place in the Sea of Stars in an instant like in the Chaotic Star Sea.

Swish ~

Having no choice, Han Fei could only cross this ominous mist with the Vast Ocean Navigator. Each time he crossed it, he just needed to cross ten Star Rivers at most.

Han Fei wanted to use the Invincible Body, but the ominous matter in his body was causing trouble, making it difficult for him to activate the Invincible Body.

Han Fei had just crossed a small area of the Star River when the ominous body of the Primordial Dao Ancestor appeared in front of him. As he slapped down, a Great Dao spiral burst out of his palm and pushed Han Fei back billions of kilometers of the Star River. Even with Senior Sister Shen Le's life feather, it could only obliterate 50 to 60% of the power of this slap.

The ominous voice was cold. "This is my world. Where do you want to go?"

"F*ck off. You're just a remnant body, a negative aspect of others. You want to control a Sea of Stars? Dream on."

With that, Han Fei turned into thousands of lightning marks, which crossed a Star River at the same time.

Sure enough, this time, the Primordial Dao Ancestor couldn't appear in front of him immediately. In the Thousand Thunder Flash, Han Fei could be any lightning mark unless the Primordial Dao Ancestor could block all the lightning marks at once.

However, Han Fei wasn't happy for long. Among the thousands of lightning marks, in the blink of an eye, the lightning technique suddenly moved, and thousands of lightning marks instantly exploded.

[God of Fishing](#)

Chapter 3606: Fruit of Creation (2)

This time, Han Fei was not spared either. He was blown out, and all his bones were cracking.

The Primordial Dao Ancestor smiled contemptuously. "You used the laws of heaven and earth in the Sea of Stars under my control. Have you asked me?"

Han Fei's heart sank. This person was indeed terrifying. Under his control, if it weren't for Senior Sister Shen Le's life feather, he wouldn't have been able to fight back.

However, he couldn't go on like this! Because he needed to suppress the ominous matter, his combat power couldn't return to its peak at all. Even his Invincible Body was vaguely restrained by the ominous matter.

And all he could use at this moment was that his basic combat power was less than ten pieces of Star River Source Power.

This made Han Fei's heart sink. Sure enough, no matter what, basic combat power was the most important. All powers enhanced by external means might be ineffective one day.

Han Fei gritted his teeth and activated the Ten Thousand Blood Body again.

Just now, at the moment the path of invincibility collapsed, the Ten Thousand Blood Body were also dispersed. At this moment, Han Fei couldn't care less. He used the Ten Thousand Blood Body inherited from his bloodline again. This was a power that forcibly absorbed the Heavenly Dao into his body.

Since the Primordial Star Sea hadn't been completely corroded by the ominous body of the Primordial Dao Ancestor, he should be able to borrow power.

Sure enough, the moment the Heavenly Dao entered his body, Han Fei's strength barely reached the power of 13 Star Rivers.

However, this was still not enough compared to the Primordial Dao Ancestor. In just a moment, Han Fei was penetrated thousands of times. In this endless ominous mist, it was difficult for him to move.

The ominous body said, "There's no need to try. It's impossible for you to reach there."

The ominous waved its whisk and swept over. The whisk's black hair turned into billions of runes. In the blink of an eye, it sealed the sky and locked the earth, forcibly trapping Han Fei again.

Between Han Fei's eyebrows, ten vines of the Demon Purification Pot appeared at the same time, piercing through the rune in the blink of an eye and opening a path for him.

Faced with the Demon Purification Pot, even the ominous body of the Primordial Dao Ancestor was a little afraid. He said, "Even if you don't use the ominous power, how can you be my match merely with this?"

In the next moment, fist lights, knife lights, sword Qi, whip marks, and waves of laws filled the sky, trapping Han Fei.

At this point, Han Fei knew that he probably couldn't escape.

On the other party's home ground, he was too restricted. If it weren't for the protection of his life feather, he wouldn't have been able to move at all.

Han Fei immediately stopped, and the Demon Purification Pot appeared in his palm. And his hand was on the tenth vine of the Demon Purification Pot.

Here, there was a small fruit, which was the Fruit of Creation.

Han Fei said coldly, "Old guy, do you know what this is?"

Seeing that Han Fei stopped running, the Primordial Ancestor also stopped. He looked at the small vine on the Demon Purification Pot and seemed a little afraid, but he didn't say anything.

Seeing this, Han Fei's eyes glittered, and then he laughed. "Sure enough, you don't know it?"

The Fruit of Creation was the only fruit born in the ultimate form of the Demon Purification Pot. Once it was used, it couldn't be regenerated. This meant that so far, he was the only one who had obtained the Fruit of Creation. Even the Primordial Dao Ancestor didn't know the effect of the Fruit of Creation.

Seeing this, the Primordial Dao Ancestor said indifferently, "The appearance of the tenth vine of the Demon Purification Pot is not enough to suppress me. Besides, if this fruit is really so useful, wouldn't it be better to use it in the Chaotic Star Sea? Why were you taken into the Primordial Star Sea by me?"

The Primordial Ancestor clearly didn't care. He didn't believe that a fruit could resolve Han Fei's current predicament.

Han Fei also knew that he had no choice now.

The ominous body of the Primordial Dao Ancestor was right. One of Senior Sister Shen Le's feathers couldn't withstand it for long. With his current strength, he could only take the beating passively. If that was the case, the power of the feathers might not even be able to last three days.

In this endless ominous mist, it was almost impossible for him to pass the ominous body of the Primordial Dao Ancestor and go to the last pure land of the Primordial Star Sea.

"Do you want to bet?"

If it was the Chaotic Star Sea, he really didn't dare to bet. However, the Heavenly Dao in the Primordial Star Sea was incomplete, and there was only a pure land left here. The only thing he could bet on was that the remaining will of the Heavenly Dao in the Primordial Star Sea couldn't assimilate him.

Han Fei murmured to himself. In the end, he became determined.

"Let's bet."

Perhaps he might be assimilated by the will of the Heavenly Dao here, but it was better than becoming an ominous creature. After all, he still had Han Song and Zhang Daqian. The avatars formed by All Things Three were essentially not clones, but original bodies.

Besides, Han Fei had a bold idea...

"Crunch ~"

Han Fei swallowed the Fruit of Creation in front of the ominous body of the Primordial Dao Ancestor. Seeing this, the latter retreated a little.

In his opinion, Han Fei was just struggling in his death throes. But this fruit grew from the Demon Purification Pot after all. He didn't have to take the risk.

Buzz!

The moment the Fruit of Creation entered Han Fei's mouth, he was immediately refreshed. At that moment, he felt that a supreme will suddenly surged into his body.

In the next moment, with Han Fei as the center, a Primordial Mist bloomed, and the laws of the heavens formed a storm, sweeping him into it.

The ominous body of the Primordial Dao Ancestor frowned and attacked brazenly. With the power of the Heavenly Dao he had mastered, he pushed forward. With a loud rumbling sound, a purple gas stream of light burst out, instantly purifying the ominous mist in the surrounding void.

[God of Fishing](#)

Chapter 3607: Fruit of Creation (3)

"Remnants of the Heavenly Dao?"

The Primordial Dao Ancestor's ominous body saw that Han Fei's flesh and blood were disintegrating. Many Great Daos and 100,000 laws that escaped from his body were interwoven with the remnants of the Heavenly Dao.

He shouted angrily, "You're simply stupid. Even if you are a Supreme, how can you swallow the will of the world? You might as well accept the baptism of the ominous matter."

"Roar!"

Han Fei had no time to care about the ominous body of the Primordial Dao Ancestor now. As soon as the Fruit of Creation entered his body, it was fusing with his flesh and blood. Even his Supreme Bones began to liquefy, turning into boundless Dao Patterns.

In terms of will, he felt that there was a supreme will that seemed to want to swallow him, but the Supreme Heart was no weaker than the heavens and was not controlled by the will of the world, so it could still hold on.

After only a moment, Han Fei's body completely turned into nothingness. In this world, there was no Han Fei, only the Supreme Will still struggling.

Even the ominous matter that tried to infect Han Fei was forcibly removed, because Han Fei's body, soul, and will had completely turned into the Heavenly Dao. Although the ominous matter tried to follow him, it was blocked by something.

In his daze, Han Fei seemed to sense this Primordial Star Sea, infinite Great Daos and laws, and rivers of stars and worlds.

Besides, he felt that he could control everything.

However, in this endless Sea of Stars, most places were already enveloped by gray-black mist. He saw dead stars, ominous creatures fighting each other in the mist, and some spiritual creatures of the world that had all grown pitch-black.

In this endless Sea of Stars, there was an invisible force that protected the Three Thousand Star Rivers. Yes, in the vast Primordial Star Sea, there were billions of Star Rivers, but now there were only Three Thousand Star Rivers left.

The reason why the Three Thousand Star Rivers wasn't contaminated was that the Three Thousand Star Rivers seemed to be attracted by something, forming a Star River Array similar to a large array.

There were still living beings in the Three Thousand Star Rivers. Han Fei scanned around with his mind and found that most of these living beings were natives. Han Fei was no stranger to these living beings. They were all from the six lineages.

Among them, most creatures were mortals. There weren't many cultivators, and their strength was ordinary. However, there was actually a dominator-level human powerhouse here who was revered as the Heavenly Monarch.

However, this Heavenly Monarch of the human race was very weak. His strength was only about the power of three Star Rivers.

Well, he wasn't weak, but relatively speaking, he wasn't strong enough.

Han Fei had learned a lot of things and some secrets, but he had no time to care about this now, because he had more important things to do.

"It's time."

Han Fei dared to bet because the Heavenly Dao of the Primordial Star Sea was incomplete. He wanted to take the chance to comprehend the third level of the path of invincibility when he swallowed the Fruit of Creation and controlled the world.

The third level of the path of invincibility was to swallow the sky and absorb the earth. It controlled the power of the world and refined a star domain. With a thought, one could obtain the power of a domain, maintain the invincible momentum, and greatly increase their strength.

He had already transformed into the Heavenly Dao, so he should be able to grasp the third level of the path of invincibility. However, since he had already transformed into the Heavenly Dao, who would care about the path of invincibility?

At this moment, the ominous body of the Primordial Dao Ancestor roared, because Han Fei disappeared in front of him, turned into the law of the Heavenly Dao, and dissipated without a trace.

"Transform into the Heavenly Dao? Okay, it just so happens that I was worried that I couldn't corrode the Three Thousand Star Rivers. Since you took the initiative to transform into the Heavenly Dao, I'd like to see how much you can grow."

At the same time.

In the Primordial Star Sea, in the Three Thousand Pure Land.

The Heavenly Monarch of the human race, who was guarding the Heavenly Palace, suddenly opened his eyes and looked at the sky. In the next moment, his expression suddenly changed.

Between the heavens and earth, the Great Dao was expanding, and the rules began to be messed up. He hurriedly tried to trigger all the laws in the world. However, the laws here were completely uncontrollable.

Swish! Swish! Swish!

One figure after another appeared in front of the Heavenly Monarch of the human race.

"Master Heavenly Monarch, the Heavenly Dao is in chaos."

"Master Heavenly Monarch, we can't borrow the power of the heavens and earth. Is there a problem on the dark border?"

The human Heavenly Monarch said solemnly, "Don't panic yet. It's a little strange. The myriad Daos in the heavens don't seem to be as simple as just becoming chaotic. It's more like they've changed their operation method."

However, as soon as he said so, his face changed. In the next moment, he shouted, "The otherworldly sky fiends are gathering. Everyone, follow me to the border."

...

Countless strong masters in the Three Thousand Pure Land were summoned to the border of the Star River together. However, they didn't seem to know what they were going to face at all.

At this moment, Han Fei was controlling the myriad laws of this world. Since he had transformed the world, controlling the power of the world was just a matter of course.

Therefore, the third level of the path of invincibility was cleared almost instantly without needing any comprehension.

Now, Han Fei's will, with the enhancement of the Fruit of Creation, completely covered the Three Thousand Star Rivers. In theory, he should be able to mobilize the power of the Three Thousand Star Rivers. But in fact, he discovered that he could only burst out 49 pieces of Star River Source Power.

This was a contradictory comprehension. His will controlled Three Thousand Star Rivers, but his power could only control 49 Star Rivers. After carrying 49 Star Rivers of Origin Power, Han Fei felt an unknown power blocking in front of him.

"How is this possible? Isn't it said that taking the Fruit of Creation can obtain power above the dominator level? Why am I stuck at 49 pieces of Star River Source Power?"

God of Fishing

Chapter 3608: Fruit of Creation (4)

"Could it be that the Heavenly Dao of the Primordial Star Sea is incomplete, so even the Fruit of Creation can't help me directly cross the limit of 49 pieces of Star River Source Power?"

Just as Han Fei was wondering, suddenly, a certain will collided with him.

In the next moment, Han Fei felt that another will was talking to him in the Three Thousand Star Rivers. Han Fei seemed to see a futon on the nine high clouds, and on the futon was the Primordial Dao Ancestor who had just been chasing him.

The Primordial Dao Ancestor said, "There are 50 Great Developments. Of them, 49 are used. One of them is the Heavenly Secrets. If you don't comprehend the Heavenly Secrets or the Heavenly Mandate, it's the limit of living beings. If you comprehend the Heavenly Secrets and comprehend the Heavenly Mandate, you can find one. Only then can you reach the heavens and transform into the heavens."

Han Fei was dumbfounded. "Are you the real Primordial Dao Ancestor?"

The middle-aged man's will replied, "You can call me... Hongjun."

"Who is it?"

Han Fei was stunned. His will trembled, and all the Daos and techniques in the Three Thousand Star Rivers trembled with him.

Han Fei never expected to hear this name. It was said that Hongjun was not a god, a human, a devil, or a demon, but an incarnation of the Great Dao.

Han Fei was also a little confused. He didn't expect the so-called Primordial Dao Ancestor to appear in front of him.

"You... What are you now?"

The middle-aged man was also formed by his will. He seemed to be sighing. "In a sense, I'm already dead. I've already turned into the heavens. I'm nothing now."

Han Fei was shocked. "What do you mean? Senior, can you explain it clearly?"

Han Fei knew that this was the real Primordial Dao Ancestor. He must know a lot.

Hongjun said, "How do you think the Chaotic Star Sea was born?"

Han Fei's will trembled slightly, and Hongjun continued, "The ominous came and the Primordial Chaos was contaminated. If I, as a creature, was no match for it in the end, I could only go further. Unfortunately, I couldn't stand shoulder to shoulder with the heavens and could only transform into the Heavenly Dao. However, by transforming into the Heavenly Dao, I didn't really have infinite power. Instead, I transformed into a Sea of Stars... Therefore, I created the Chaotic Star Sea. This is because I am the Chaotic Star Sea. I am the Great Dao. I am the myriad laws. I am the world..."

At that moment, the Star River trembled, the Great Dao rolled crazily, and all laws were messed up. Han Fei was shocked.

Who would have expected that the Infinite Sea of Stars was transformed from a cultivator? This simply subverted Han Fei's understanding.

However, Han Fei was immediately puzzled. "Since you've already turned into the heavens, why are you still here?"

"Maybe it's because of him!"

In front of Hongjun, there was a magical disc that seemed to evolve into an endless river of stars.

Hongjun said, "This is the Creation Jade Plate, which should be at the same level as the Demon Purification Pot. It's this thing that protected the Three Thousand Star Rivers and left the last world for the Primordial Star Sea. It's also this thing that guarded my last wisp of will."

A treasure at the same level as the Demon Purification Pot?

This was the first time Han Fei had seen a treasure that was on par with the Demon Purification Pot, but at this moment, treasures were actually not important in Han Fei's opinion. Even if it was the Demon Purification Pot, he was not omnipotent and couldn't really suppress the ominous.

"So, you sent the six lineages to the Chaotic Star Sea?"

"Yes!"

"Were the so-called myriad races all transformed from you?"

"At first, they were based on the evolution of the creatures in the Primordial Star Sea, but all creatures have their own evolution. It can be said that those are brand-new races."

Han Fei asked, "Why do you have an ominous body?"

Hongjun said, "I couldn't stand shoulder to shoulder with the heavens and transform into the Heavenly Dao, so I created an avatar and made two preparations. Unfortunately, this avatar fell into the hands of the ominous in the end."

Han Fei was not surprised. If it were him, he would definitely not be willing to exist as the heavenly laws either.

Han Fei asked, "What is the ominous?"

Hongjun said, "I don't know. There are too many secrets in this world. Is the Heavenly Dao we see really the Heavenly Dao? People can't understand what they have never seen. They can't imagine it no matter how they think about it. The source of the ominous, as far as I know, is a forbidden dust sealed in the Demon Purification Pot by the Creation Jade Plate. As long as one is contaminated by it, it's extremely difficult to get rid of it and easy to take the wrong path."

Han Fei was shocked. "So is the Demon Purification Pot really a container for ominous matter?"

"No, is it a container, a seal, or..."

"Or what?"

Hongjun seemed to be a little emotional. "Or, it's just fish bait. As for what the fisherman wants to fish, I don't understand either."

Han Fei wanted to ask more, but Hongjun said, "You're not in a good state at the moment. Although you walk the Supreme Dao, you're transforming into the heavens at the moment. Fortunately, there aren't many Heavenly Daos left in the Primordial Star Sea. Otherwise, you would have embarked on my old path."

Han Fei thought to himself, That's right. I'm transforming into the heavens, the kind where I suffer a huge loss. I'm about to become the heavens, but I haven't obtained the power above the dominator realm.

However, he knew what the Supreme Dao Hongjun was talking about, which was naturally the Supreme Technique. The Supreme Technique was not interfered with by the Heavenly Dao and formed a kind of will on its own.

However, if possible, he didn't want to swallow the Fruit of Creation. But he was forced into a corner!

Han Fei immediately asked, "Senior Hongjun, how can I stop myself from transforming into the heavens?"

Han Fei felt that he had already achieved some of his goals. At least the third level of the path of invincibility had been unblocked the moment he entered the Sky Transformation Realm. The ominous matter in his body seemed to be gone too. After all, he didn't even have a body now.

If he could stop the heavens transforming process now, he should be able to unleash the combat power of a peak-level dominator.

But this time, Hongjun was silent for a long time before he slowly said, "Your current state is very contradictory. In theory, you can't transform into the Heavenly Dao because there aren't enough Heavenly Dao left here to assimilate a powerhouse of your level. However, there is a power that forcibly transforms you into the Heavenly Dao, causing you to have already fused with the remaining Heavenly Dao here... Forget it, luck is on your side. You happened to appear in such an incomplete Primordial Star Sea. Perhaps this is fate between you and me... I'll give you this Creation Jade Plate. Refine it and it can help you escape this situation."

God of Fishing

Chapter 3609: The Primordial Is the Cause, While the Chaos Is the Result (1)

A moment ago, Hongjun said that he would give him the Creation Jade Plate. In the next moment, a disc appeared in his will.

"Why did you give it to me so casually?"

"Senior, you're giving me the Creation Jade Plate just like that?"

Han Fei was very surprised. He didn't know or have heard of the Creation Jade Disk, but this thing protected the Three Thousand Star Seas and protected trillions of lives. It was a treasure on the same level as the Demon Purification Pot. How could it be given to him just like that?

"Why?"

Han Fei had to ask why. At least, he wouldn't give the Demon Purification Pot away.

Hongjun slowly said, "Actually, I've been waiting for a person to appear. I'm waiting for him to clear the Supreme Path and return to the Primordial Star Sea to quell the ominous. Your arrival made me see a trace of hope. I've already passed away. What this wisp of my will can do is too limited. But someone has to carry the burden forward and fight against the ominous to unveil the last secret, right?"

Bang!

At this moment, when Han Fei's will and Hongjun's will were communicating, the two felt the impact at the Heavenly Dao level at the same time. Almost at the same time, the two consciousnesses looked at the border of the Three Thousand Star Seas.

The powerful ominous creatures gathered together. The ominous body of the Primordial Dao Ancestor riding a deer looked quietly at the invisible barrier. Behind him flowed the laws of the Heavenly Dao, which were attacking the Creation Jade Plate.

At this moment, the Heavenly Monarch of the human race was guarding there with two Sea Quelling God-level powerhouses, nine God Slaying-level powerhouses, and 300 gods.

They seemed to be experienced in this matter and knew that these ominous creatures couldn't come over, so they didn't take the next step. However, regardless of whether the ominous creatures could come over or not, they had to be on guard. After all, if anything happened, they would be doomed.

At this moment, among the two Sea Quelling God-level powerhouses beside the Heavenly Monarch of the human race, a female cultivator was puzzled. "The otherworldly sky fiends are making a big scene this time. I remember the last time such a scene appeared was millions of years ago."

The human nodded slightly. "Otherwise, I wouldn't have mobilized such a huge force. There's a problem with the Heavenly Dao here. At this moment, the otherworldly sky fiends are attacking. There must be a connection between the two. We have to be careful."

At this moment, the Primordial Dao Ancestor's ominous body slowly said, "Human Emperor, I know that your will is still there. With the remaining Heavenly Dao of this world, it can't obliterate your will. Old guy, I know that you are there too. But one heaven can't accommodate two wills. One of you will always melt under the other party's will. Human Emperor, if the old guy attacks you, you might as well consider my previous proposal and accept the baptism of the ominous matter. Perhaps I can still accept you and allow you to walk the same path as me."

Outside, the Heavenly Monarch and the others had thought that the otherworldly sky fiends would bewitch them, but this time, the other party wasn't talking to them at all.

"Human Emperor? Who is the Human Emperor?"

"Who is 'old guy'?"

"Heavenly Dao? One heaven can't accommodate two wills?"

Everyone was dumbfounded. They had no idea what the Primordial Dao Ancestor was talking about.

However, on the level of the will of the Heavenly Dao, Han Fei was a little stunned. "Senior, is what he said true?"

Hongjun said calmly, "As he said, there is only one will of the heavens. The reason why you and I met is that our wills are fighting. Either my will melts or your will dissipates."

Han Fei couldn't help but feel that his will was shaken. However, this shaking was reflected in the world. A buzz was heard as if lightning was booming between the heavens and earth or a faint mystic sounded in the Sea of Stars.

However, Han Fei couldn't care less. He looked at Hongjun. "If you give me the Creation Jade Plate, what will happen to you?"

Hongjun smiled faintly. "It doesn't matter! I don't intend to sacrifice myself to make you. I gave you the Creation Jade Disk because it has the ability to create everything in the world. Similarly, it can create your body again. As long as your body appears and your will returns, my will can be preserved. My avatar only mentioned that one heaven couldn't accommodate two wills but didn't mention the ability of the Creation Jade Disk because he wanted to lure you to attack me."

Han Fei was relieved to hear that, but he was also horrified. In this realm, it was indeed difficult to distinguish what was real and what was fake.

However, Han Fei said, "If you give me the Creation Jade Plate, who will protect the Three Thousand Star Rivers?"

Hongjun said, "As long as you don't take the Creation Jade Disk away, it will always envelop the Three Thousand Star Rivers."

Han Fei was overjoyed. From what Hongjun said, he could leave the Primordial Star Sea?

Han Fei immediately asked, "Senior, do you have a way to reach the Chaotic Star Sea?"

Hongjun said with mixed feelings, "I have a way to reach the Chaotic Star Sea, but that path has been sealed for too long. This path is also the one I left for the trillions of creatures in the Three Thousand Star Rivers... You can't open it unless you have to. Now, you just need to refine the Creation Jade Disk in peace."

Han Fei didn't ask any more questions. He had already got the answer he wanted, as long as he could go back.

In fact, Han Fei didn't even need to refine the Creation Jade Disk. This thing would take the initiative to guide Han Fei's will to fuse with it.

Han Fei gradually fell silent. Gradually, Han Fei suddenly felt something. It was that his lost Supreme Bone was returning and condensing again.

God of Fishing

Chapter 3610: The Primordial Is the Cause, While the Chaos Is the Result (2)

Immediately afterward, his flesh, blood, meridians, and soul returned, which was like a dream. Han Fei felt as if he had taken a nap. When he suddenly woke up, he was in a boundless starry sky somewhere in the Three Thousand Star Rivers.

Han Fei suddenly opened his eyes and felt that his body was full of explosive energy. He couldn't help but look at his information.

Information popped up:

Level: Supreme Dominator

Bloodline Ranking among the Clans in the Infinite Ocean: No.1

Star River Source Power: 49 pieces

First Spiritual Heritage: Origin Spiritual Heritage

Second Spiritual Heritage: Eternal Darkness Spiritual Heritage

First spiritual beast: Twin Yin-Yang Sky Swallowing Fish (God Slaying)

Second spiritual beast: Emperor Sparrow (Master)

Main Art: Godfiend Body

"49 pieces of Star River Source Power?"

Han Fei couldn't help but feel excited. Was it a blessing in disguise this time? Although he had used the Fruit of Creation and almost turned into the Heavenly Dao, he survived by chance.

As for the Fruit of Creation, although it didn't raise him above the dominator level, it still gave him the terrifying power of 49 pieces of Star River Source Power.

Han Fei wasn't very surprised about this, because at a certain moment after swallowing the Fruit of Creation, he felt that he could control Three Thousand Star Rivers with a thought. Now, he only had the power of 49 Star Rivers. What's the big deal about it?

Just as Han Fei was about to look away to find Hongjun's will, he suddenly saw the levels of Little Black, Little White, and the Emperor Sparrow.

It was fine for Little Black and Little White. They had been eating. After transcending the divine tribulation, it was only natural for them to become god slayers. If they accumulated enough strength, it wouldn't be surprising for them to become Sea Quelling Gods.

However, the Emperor Sparrow suddenly became a dominator from a peak-level Great Monarch?

"How is that possible?"

Han Fei was stunned. He cultivated the Supreme Divine Technique, so he could become a supreme dominator from a peak-level Great Monarch in one go. Besides, his process of becoming a supreme dominator was extremely dangerous.

However, what did the Emperor Sparrow do? Even if he had unified ferocious beasts and strange beasts and broken the ominous curse, it didn't make sense for him to break through from the peak of the Great Monarch realm to the dominator realm!

"That's not right. How long did it take for the Creation Jade Plate to help me rebuild?"

With a thought from Han Fei, a jade plate appeared in front of him. The runes on it were mysterious, as if they were branded with billions of rivers of stars. However, this time, the Demon Purification Pot didn't show any description of the Creation Jade Plate.

Perhaps because the two were treasures of the same level, the Demon Purification Pot couldn't recognize the Creation Jade Plate.

Immediately, Han Fei's will sank into the Creation Jade Disk. For a moment, the Three Thousand Star Rivers were all under the control of his will.

Through the Creation Jade Disk, Han Fei vaguely sensed the existence of Hongjun.

Hongjun's will touched his will and he said, "Your path is indeed extraordinary. It's really a little difficult to rebuild it with the remnants of the Heavenly Dao in the Primordial Star Sea."

Han Fei's heart stirred. "Senior, how long has it been since I started to rebuild my body?"

"More than 8,600 years, but for you and me, it's just a blink of an eye."

"How many years?"

Han Fei almost jumped up on the spot. More than 8,000 years had passed in just a nap. If he slept, the Chaotic Star Sea might be gone.

Han Fei's face immediately changed. "More than 8,000 years have passed, but the Three Thousand Star Rivers are intact. This means that even if the ominous body of the Primordial Dao Ancestor gathers an army, it won't succeed."

However, when he looked at it through the Creation Jade Disk, he found that there were still many dominator-level ominous creatures triggering the ominous mist, trying to corrode the power of the Creation Jade Disk.

"It's over!"

Han Fei's heart sank. In the blink of an eye, he came to the place where the ominous gathered.

In Han Fei's eyes, the law of time surged and quickly traced back 8,600 years.

In Han Fei's eyes, he saw the ominous body of the Primordial Dao Ancestor speak several times.

"Human Emperor, I'll give you one last chance. Kill that old b*stard and hand over the Three Thousand Star Rivers. Then I can let the Chaotic Star Sea off."

After waiting for a long time without a response, the ominous body said again, "Human Emperor, with your Supreme Will, you shouldn't have lost to this old guy. He's just a remnant will. How can he compete with your Supreme Will?"

Seeing that there was still no response, the ominous body tried to lure Hongjun to speak again. "Old guy, there will come a day when the Creation Jade Disk can't be defended. When I conquer the Chaotic Star Sea, it will be your death."

At this moment, Hongjun really responded. He said, "If you really had that ability, you would have taken down the Chaotic Star Sea long ago."

However, the moment Hongjun spoke, the ominous body was stunned. After a long time, it said, "Trash Human Emperor, you can't even take down a wisp of will."

Hearing this, Han Fei had a strange expression. Obviously, Hongjun spoke on purpose to let his ominous body guess that he had won and annihilated his will.

At that moment, Hongjun's ominous body retreated, leaving only some dominator-level powerhouses who kept triggering the ominous mist to attack the Three Thousand Star Rivers.

However, after about 2,300 years, the ominous body returned again and shouted at this place, "Old guy, I was almost deceived by you. You actually rebuilt his original body with the Creation Jade Disc. No wonder over the years, the Heavenly Dao of the Three Thousand Star Rivers has begun to weaken. I didn't expect that one day, you would also bet trillions of lives on whether he could win."

Hongjun said, "Why? Are you afraid?"
