Chapter 3611: The Primordial Is the Cause, While the Chaos Is the Result (3)

The ominous body of the Primordial Dao Ancestor sneered. "With this incomplete Heavenly Dao, it will take at least 20 to 30% of the power of the Creation Jade Plate to restore his original body. Can you hold on?"

Hongjun didn't continue but replied calmly, "However, you are afraid. Once he returns to his original body, it will be difficult for you to stop him."

"Hahaha, I'm afraid? I'll make you regret it. Since you bet on him to win, I'll make you lose more thoroughly. The Chaotic Star Sea can't be defended for long. When I take down the Chaotic Star Sea first and break the Creation Jade Plate, the two Seas of Stars will be mine and no one will be my match."

As soon as he finished speaking, the ominous body of the Primordial Dao Ancestor turned around and left.

After more than 1,800 years, the ominous body of the Primordial Dao Ancestor returned again.

He said, "Old guy, the front line of the Chaotic Star Sea has collapsed. I can't wait to share this joy with you. Let's see how much power the Creation Jade Plate has lost."

This time, Hongjun didn't respond.

As for his ominous body, he had tried to shake the Creation Jade Plate for nearly a hundred years. Han Fei could feel how powerful the collision of the power of the Heavenly Dao was. The ominous body of the Primordial Dao Ancestor seemed to have become stronger. Although it still didn't shake the Creation Jade Plate, he wasn't anxious. He just let the dominator-level ominous creatures continue to attack, continuously trying to corrode the Creation Jade Plate. As for him, he just left two words: Just Wait.

Since he left that time, he hadn't returned to this place.

The law of time in Han Fei's eyes dissipated, and his expression became abnormally solemn. The collapse of the entire battlefield in the Chaotic Star Sea meant that the first battlefield was gone.

Needless to say, the Chaotic Storm, one of the seven Divine Realms, must have collapsed.

Once the first battlefield collapsed, the last pure land of all the races in the Sea of Stars would be the Sea Realm.

However, the power to guard the Sea Realm was limited. How long could the remaining six Divine Realms resist it?

Now, the power of the Chaotic Star Sea was definitely not enough.

Although Eldest Senior Brother had taken away an ominous, the ominous attack would definitely not slow down. The ominous body of the Primordial Dao Ancestor had probably personally taken action.

Although Senior Sister Shen Le had replaced Eldest Senior Brother, she was probably still in a difficult situation. In the past, it was Eldest Senior Brother and Senior Brother Undead who restrained the

ominous, while Senior Sister Shen Le and the Master of Time were defending the front line. Even so, they were still retreating step by step.

Now, if Senior Sister Shen Le was restraining the ominous, they would lose a top combat power like Senior Sister Shen Le on the main battlefield. Besides, Senior Sister Shen Le probably couldn't restrain the ominous alone. After all, even Eldest Senior Brother needed the cooperation of Senior Brother Undead.

Besides, 8,600 years had passed since he entered the Primordial Star Sea, which was enough for many things to happen in the Chaotic Star Sea.

Han Fei asked, "Senior, where is the road to the Chaotic Star Sea?"

Hongjun replied, "Are you going over now?"

Han Fei said, "Compared to the Primordial Star Sea, the Chaotic Star Sea needs me more."

However, Hongjun said, "I can tell you this path, but before that, I need you to do something. Consider it your repayment for my giving you the Creation Jade Plate."

At this moment, Han Fei finally understood that he didn't get the Creation Jade Plate for nothing. There was no free lunch in the world. A treasure comparable to the Demon Purification Pot was not simple in itself.

Han Fei asked, "How long will it take?"

Han Fei didn't ask about the difficulty of this matter, because what Hongjun wanted him to do by paying him a treasure like the Creation Jade Plate couldn't be simple.

Sure enough, Hongjun sighed. "I don't know, but I'm afraid you have to go there."

"Why?"

Han Fei frowned. What could be more important than the Chaotic Star Sea that he had to go there?

Hongjun said, "Because that's the source of the ominous dissipation, the real source of the Creation Jade Plate and the Demon Purification Pot."

"Huh?"

Han Fei couldn't help but look up at the sky.

Hongjun's voice was ethereal. "Aren't you curious why the ominous is said to be inexhaustible and eternal? The Chaotic Star Sea has also destroyed more than one ominous creature, right? Why do they appear every once in a while? Are they the same one or many? I think you should be curious too, right?"

Of course, Han Fei was curious. In the Chaotic Era, the ominous appeared for the first time and was taken away by Cangtian and his teacher. In the Primordial Era, the ominous appeared for the second time, but two appeared. One was taken away by Li Daoyi, and the other must have returned to the Primordial Star Sea.

Now, Eldest Senior Brother had taken away one, but there was still the ominous body of the Primordial Dao Ancestor.

Therefore, from the Chaotic Era to the Doomsday Era, a total of three real ominous had been taken away. Including the ominous body of the Primordial Dao Ancestor, a total of four ominous-level powerhouses had appeared.

Han Fei couldn't help but ask, "Senior, please enlighten me."

Hongjun said leisurely, "This begins with the origin of the ominous. In the past, when I traveled the Primordial Star Sea, I found two strange things at a border. One was the Creation Jade Plate, and the other was the Demon Purification Pot. At that time, I couldn't see through these two things, so I took them as treasures. However, when I opened the two things, it was the beginning of this catastrophe. In both of them, a gray powder was sealed, which was the ominous substance. The moment these ominous substances appeared, they corroded a hole in the border. Fortunately, the Demon Purification Pot took the initiative to take action. Ten vines appeared at the same time and sealed the hole. I knew that something was wrong, so I didn't dare to take back the Demon Purification Pot and left with the Creation Jade Plate."

[God of Fishing](#)

Chapter 3612: The Primordial Is the Cause, While the Chaos Is the Result (4)

Han Fei thought to himself, So that's why they're called the containers of the ominous. However, why did the Creation Jade Plate and the Demon Purification Pot appear in the Primordial Star Sea?

Hongjun continued, "Over the endless years, I knew that the ominous matter was definitely not a good thing, but with the Demon Purification Pot guarding it, nothing went wrong. Besides, the Creation Jade Plate was too powerful, allowing me to grow quickly and eventually become the strongest in the Primordial Star Sea. Unfortunately, the good times didn't last long. In fact, the ominous had quietly been born in this world."

Han Fei was puzzled. "Wasn't it blocked by the Demon Purification Pot? Why was there an ominous?"

"Negative."

Han Fei immediately understood. So that was the reason.

Hongjun's answer was simple and direct. "I didn't know until later that when the ominous matter was released, the negative side of all living beings in the world seems to have found an outlet to pour forth. As a result, the ominous became stronger and stronger. Although I killed it several times, as long as the negative side didn't disappear, it wouldn't really die."

Han Fei nodded slightly. He knew this, and it was very similar to the Emperor Sparrow. The Emperor Sparrow was called ominous because of his undead characteristics. As long as there was a negative existence, the Emperor Sparrow could be resurrected. If it weren't for the fact that the Emperor Sparrow had always maintained absolute consciousness and wouldn't corrode others, it wouldn't be wrong to call him ominous.

Of course, if there was really something wrong with the Emperor Sparrow, Han Fei would have had a problem long ago. It was impossible for him to become the current Human Emperor, let alone achieve his current achievements.

Han Fei said, "I can understand that, but this doesn't mean that the ominous is really immortal. In the Chaotic Star Sea, there is an unknown road. As long as the ominous is taken to that road, they can never return."

However, as soon as Han Fei asked this question, Hongjun asked, "Being unable to return doesn't mean death. Do you know if they will die or not if they are led to that path?"

Han Fei choked. Who knew? I've never been on that road. How could I know if they will die or not?

Hongjun said, "I know that path."

Han Fei's eyes glittered. "Was that road also transformed from you, Senior?"

"No."

Hongjun immediately denied it. "Although I've turned into the Chaotic Star Sea, the premise is that there is Chaos. What I've turned into is Dao, the world, and all laws. It can only be said that I established the Chaos and evolved into the Chaotic Star Sea. Furthermore, after I transform into the heavens, I'm actually no longer alive. It's no different from death. Therefore, I know very little about the Chaotic Star Sea. However, because I control the Creation Jade Plate, I can retain some of my will. I've seen that path, but I don't know where that path leads to, nor can I imagine it. Perhaps it's a Sea of Stars, or a world that we are completely unfamiliar with. As for being unable to return, I'm not surprised. It's just like you can't cross the edge of the Sea of Stars, but you can't say that there is no Sea of Stars beyond the edge. There are no other creatures. Therefore, if the end of that path is another Sea of Stars, the result will be just like the Primordial Star Sea and the Chaotic Star Sea. It just brings ominousness to that Sea of Stars."

Hongjun's words made Han Fei think of a lot of things. What if that road was actually not a road that couldn't be returned but just a pure channel?

Hongjun returned to the topic just now. "Regardless of whether the ominous people who embarked on that path have died or not, there are always new ominous people being born. And the source of their birth is the place where I found the Demon Purification Pot and the Creation Jade Plate in the past. And what's there in that place? The opening in the Sea of Stars built by the ominous matter, as well as the ominous matter itself. From this, two guesses can be made."

Han Fei couldn't help but ask, "Two?"

"Firstly, being indestructible is fake. The ominous came through the opening in the Sea of Stars. The real mystery of the ominous lies behind the opening in the Sea of Stars."

"Secondly, the ominous being immortal and indestructible is true, but if what you said is true that while the ominous that was taken into the Path of Return didn't die, a new ominous was born here, it can only mean that there has always been one so-called ominous. And it's very likely that it's that ominous substance. And the so-called ominous we see or fight are just puppet-like clones he created."

Hearing Hongjun's speculation, Han Fei frowned. After a long time, Han Fei said, "So, according to Senior's speculation, as long as we block the opening in the Sea of Stars, no new ominous will appear."

"That's exactly what I mean."

Han Fei said, "So, Senior, you want me to use the Demon Purification Pot to suppress the opening in the Sea of Stars."

"Yes."

Han Fei was a little tempted. Although the Demon Purification Pot had followed him for so long, for him, the Demon Purification Pot had actually made the best use of its resources. If he could suppress the source of the ominous, as long as he could defeat the ominous body of the Primordial Dao Ancestor, no matter how ominous there was left, it would only be cleared up.

However, Han Fei couldn't help but ask, "Senior, I have a question. Didn't you leave the Demon Purification Pot there to suppress the opening in the Sea of Stars? Why did the Demon Purification Pot appear in the Chaotic Sea?"

Hongjun seemed to be recalling. "In the past, I thought that I would be fine with the Demon Purification Pot suppressing the hole in the Breaking Sea of Stars. Until one day, a dominator other than me was suddenly born in the Primordial Star Sea, and he found the sealed place and took down the Demon Purification Pot. By the time I realized it, it was too late..."

Han Fei frowned. "A dominator was born in the Primordial Star Sea. With your strength back then, you should be able to detect it, right?"

Hongjun sighed slightly. "This is also what I found strange. The person who took the Demon Purification Pot must have taken it under the ominous' temptation. Then, he exiled the Demon Purification Pot to an inaccessible chaos with an unknown method. It was not until that moment that I learned that the Primordial Star Sea was not the only Sea of Stars. Without the Demon Purification Pot, I had fought the ominous for countless years, studied countless methods, and created countless treasures, but none of them could replace the Demon Purification Pot to suppress that place. Even the Creation Jade Plate was not enough. The Creation Jade Plate was best at creating all living beings and gathering luck. Therefore, in the end, I could only transform into the sky and open up the Chaotic Star Sea, trying to give up the Primordial Star Sea."

Hearing this, Han Fei couldn't help but continue, "However, the Chaotic Star Sea couldn't stop the ominous in the end. They went over in the end."

"Yes."

Hongjun said indifferently, "In the end, I was greedy and wanted to transfer all creatures in the Primordial Star Sea to the Chaotic Star Sea, so I left two channels. One is in the light, and I personally guard it with the Creation Jade Plate. The other is in the dark. I originally wanted to use the power of the Chaotic Star Sea to fight back to the Primordial Star Sea again in the future. Unfortunately..."

Han Fei narrowed his eyes. "Unfortunately, the dark path has been found?"

Hongjun nodded. "That's right, so I had no choice but to suppress it with the Demon Purification Pot."

At this moment, Han Fei finally understood the whole story. He naturally knew what happened later. The Demon Purification Pot was uprooted by Li Daoyi, and the ominous battle in the Chaotic Star Sea officially began.

[God of Fishing](#)

Chapter 3613: Kill into the Ominous Mist (1)

When Han Fei learned the origin of the ominous, he naturally agreed with Hongjun.

With the current situation of the Primordial Star Sea, if he could really block the opening in the Sea of Stars, there might not be enough negative side to support the ominous recovery.

However, suppressing the opening in the Sea of Stars sounded simple, but it was definitely not easy to do.

Han Fei asked, "Senior, I have another question. Why does the ominous want to conquer the entire Primordial Star Sea and devour the Heavenly Dao?"

In Han Fei's opinion, the top powerhouse that could be born in a Sea of Stars was at most at his level. Even if he comprehended the last Heavenly Secret, it would only be at the same level as the ominous realm. There must be a reason why the ominous was so determined to destroy the Primordial Star Sea and the Chaotic Star Sea at all costs, right?

Hongjun said, "You know that the ominous is alive, right?"

Han Fei nodded. Of course he knew. That was why his law of life inherently suppressed the ominous.

Hongjun continued, "Since it's a life, where did it come from? The Primordial Star Sea has been fighting for countless years, and countless races have died. The Chaotic Star Sea has also been fighting for a long time, and countless ominous creatures have died. Why are there still endless and almost endless ominous creatures?"

Han Fei couldn't help taking a breath. "Senior, do you mean that the ominous has a way to give birth to children? They have actually become a race that can reproduce?"

"Reproduction shouldn't work for them. If you observe in the depths of the ominous mist, you will find that the way the ominous was born is very strange. At first, they were just a mass of energy, but they had vitality from the moment they were born. By devouring each other, they became stronger from the weak, and their growth speed was very fast. Until they were born with self-awareness, they almost had no breakthrough barrier. The reason why their growth speed slowed down after they were born with self-awareness was that the conscious ominous didn't want to become a resource of others. Therefore, they developed several ways to grow. Devouring each other is one way, absorbing negative energy is another way, and invading normal creatures of all races and corroding them is the other."

At this point, Hongjun suddenly asked, "Do you know where the source of the ominous power is?"

Han Fei said without thinking, "Of course it's the ominous mist."

"Where did the power of the ominous mist come from? Any kind of creature has its source of power. If ordinary people want to cultivate to the dominator realm, the resources they need to consume can be

said to be an extremely huge number. In addition to resources, they also need luck, training, and hard cultivation. But have you ever seen the ominous do anything?"

Han Fei seemed to be enlightened. "The Sea of Stars has fallen, but the resources of the Infinite Star River are actually still there. Resources are mostly dead things. Even the ominous can only affect those living resources... To be able to create so many ominous powerhouses, it must require an extremely huge amount of resources. Therefore, the ominous mist is transformed from the resources of the billions of Star Rivers."

"That's right. This is the horror of that ominous matter. It has the ability to transform resources into ominous mist, and the ominous mist carries vitality. As a result, the ominous creatures born in the mist have lives from the beginning. Therefore, in essence, it's the endless resources of the Star River that give birth to endless ominous creatures. But because they lack experience, their general strength will be weaker than the cultivators of the myriad races in the same realm."

Han Fei's face sank slightly. "No wonder there are almost endless ominous creatures. It turns out that we are fighting against endless resources. No wonder energy crystals will be born after the ominous creatures are killed. In fact, it's a manifestation of energy gathering, the foundation to drive the ominous."

Hongjun also said, "Unfortunately, it was too late when I discovered this. Most of the Primordial Star Sea had already been enveloped by the ominous mist."

Han Fei's heart sank. If that was the case, then the Chaotic Star Sea was completely repeating the mistake of the Primordial Star Sea. And if the ominous took down the Primordial Star Sea and the Chaotic Star Sea and completely controlled the Heavenly Dao, as time passed, it was very likely to slowly create one powerful dominator-level ominous creature after another.

However, this raised another question. Even if so many powerful ominous creatures appeared, what was the point? When there was only the ominous left in these two Seas of Stars, what could they do? Could they live and work in peace?

Unfortunately, Hongjun couldn't answer this question, because so far, the ominous hadn't taken down a complete Sea of Stars.

At this point, Han Fei didn't ask further but said, "I'm willing to try, but I'll only try once for the time being. This is because I don't know what's going on in the Chaotic Star Sea at all. I've been here for too long, and it might be a miracle that the Chaotic Star Sea can last until now."

However, after Han Fei expressed his worry, Hongjun said, "The Chaotic Star Sea should be fine for the time being."

Han Fei couldn't help but look up at the sky. "Why do you say that?"

Hongjun said, "In the past, I thought that the Chaotic Star Sea would give birth to a top powerhouse who would go back and forth to help the Primordial Star Sea. Therefore, with the infinite luck of the Creation Jade Plate, I gave birth to a divine vine in the Chaotic Star Sea that could give birth to six top bloodline creatures in the Primordial Star Sea. This divine vine is closely related to the Creation Jade Plate."

Through the luck in the roots of the divine vine, we can roughly judge the current state of the Chaotic Star Sea."

"Huh?"

Han Fei's eyes widened. "Senior, did you create that divine vine?"

[God of Fishing](#)

Chapter 3614: Kill into the Ominous Mist (2)

Hongjun said, "No, no. My original intention was to nurture a few top bloodline creatures in the Primordial Star Sea in the Chaotic Star Sea. However, after this vine was born, it was no longer something I could dominate. It had already become an independent lifeform. To be honest, that divine vine might have inherited some of the characteristics of the Creation Jade Plate."

Han Fei was lost for words. "That divine vine has been swallowing the luck of six lineages."

Hongjun didn't think so. Instead, he said, "It might be more appropriate to say that it's recycling the luck of six lineages. When the recycled luck accumulates to a certain limit, creatures of the six lineages will be born again."

Han Fei was speechless. Fine! The six lineages were created by him. Now that the six lineages couldn't recover, there didn't seem to be anything wrong with retracting his luck.

Han Fei asked, "Senior, what's the current state of the Chaotic Star Sea?"

Hongjun said, "The Creation Jade Plate is in your hand now. You can feel it."

Han Fei's heart stirred. Although Hongjun gave him the Creation Jade Plate, he had slept for 8,600 years and had just woken up. He didn't have the time to see what the use of the Creation Jade Plate was.

However, the Demon Purification Pot couldn't read the specific functions of the Creation Jade Plate at all. Just like in the past, he had to figure out the functions of the Demon Purification Pot step by step.

Han Fei immediately immersed his mind in the Creation Jade Plate. Then, he felt some magical techniques.

For example, he discovered that the Creation Jade Plate could automatically collect and gather luck. In addition to gathering luck, it could also observe the rise and fall of the luck of creatures for a period of time in the future.

Another example was that the Creation Jade Plate could actually build on the host's strength and create any creature or item he wanted. Of course, what he created required resources, time, luck, and even some special materials.

Also, the magical patterns on the Creation Jade Plate that looked like endless star rivers turned out to be perceptions of the endless star rivers. For example, the Creation Jade Plate protected the Three Thousand Star Seas not because it had the power of protection, but because it affected the Heavenly Dao of the Three Thousand Star Seas, and it could only affect the Three Thousand Star Seas; anything more was beyond its reach.

Through the Creation Jade Plate, Han Fei could sense everything in the Three Thousand Star Seas.

Oh, no, Han Fei soon discovered that in fact, the protection range of the Primordial Star Sea at this moment was less than 3,000 Seas of Stars, with an accurate number of 2,782 Seas of Stars.

However, when Han Fei transformed into the heavens, he had clearly felt that the Creation Pure Land once controlled Three Thousand Star Rivers. However, after a nap, it controlled 218 Star Rivers less.

Han Fei's heart sank. He knew why. In order to rebuild himself, the power of the Creation Jade Plate was being consumed. Besides, he felt that the ominous mist was still advancing. This meant that in the near future, the number of Star Rivers protected by the Creation Jade Plate would continue to decrease.

Fortunately, the Heavenly Monarch here seemed to have been prepared to move some of the living stars at the edge of the Star River to the center.

Regarding this, Han Fei could only secretly apologize. He didn't expect that it would pay such a huge price to rebuild his body. The already pitifully small Primordial Purple Land would even shrink a lot.

Putting aside the distracting thoughts, Han Fei soon sensed some roots from the Creation Jade Plate. They were the roots of the divine vine. He could see the luck environment where the divine vine was through the state of the roots.

Han Fei could sense the environment where the divine vine was through the divine vine. The luck was steadily exhausted and would maintain this state for a short time in the future. As for how long it would affect the future, Han Fei couldn't feel it. It seemed to be very vague, as if it was covered by some power.

This was just a vague feeling, but it reassured Han Fei. This meant that the Sea Realm was still protected and hadn't been broken through.

As expected of a treasure at the same level as the Demon Purification Pot. He had just mastered this thing and had already discovered some magical uses.

Knowing that the Sea Realm could still be defended for the time being, Han Fei's heart stirred. In the next moment, six Primordial Purple Gates appeared around Han Fei.

"Senior, if the divine vines were created by you, do you know about the six Primordial Purple Gates?"

From the beginning, the Primordial Purple Gate seemed to be closely related to the divine vine. Now that he knew the origin of the divine vine, the Primordial Purple Gate must also be related to Hongjun.

Sure enough, Hongjun said, "I'm not surprised at all that this thing is with you. This is the Path of Six Daos, which is responsible for the life-and-death cycle of all living beings in the Primordial Star Sea. When the Primordial Star Sea is connected to the Chaotic Star Sea, the dead living beings in the Primordial Star Sea can reincarnate in the Chaotic Star Sea through the Six Daos. However, later, the passage between the two Seas of Stars was permanently sealed by me, so this thing can no longer enable this kind of reincarnation. So it was left in the Chaotic Star Sea."

"I see."

Han Fei was stunned. He couldn't help but remember that in the Chaotic Era, there was a large amount of Primordial Mist in the Chaotic Star Sea. And everyone snatched the Primordial Mist to nurture and strengthen their race. It seemed that the so-called nurturing was actually just the reincarnation of the dead in the Chaotic Star Sea.

"Is this also a Path of Reincarnation?"

Han Fei couldn't help but ask, "Was this Reincarnation Path of Six Daos created by Senior?"

Hongjun denied, "It can't be created. This is an origin law of the Primordial Star Sea. It was first discovered from the Primordial Origin. It should be a manifestation of the Primordial itself."

Han Fei raised his eyebrows. What a coincidence. Although the Path of Reincarnation was passed down by Teacher Prophet, it might not have been created by Teacher.

[God of Fishing](#)

Chapter 3615: Kill into the Ominous Mist (3)

Han Fei couldn't help but summon the green jade stone bridge. "Senior, do you know this road?"

This time, Hongjun denied it. "No."

Han Fei couldn't help but understand. When he heard about the Primordial Origin, he had a guess. Although Hongjun had transformed into the heavens and established the Chaotic Star Sea, there were some things he couldn't establish, such as the Chaos itself.

Perhaps the Path of Reincarnation was also discovered by Teacher in the Source of Chaos?

Han Fei asked, "Senior, do you need to take back the Reincarnation Path of Six Daos?"

Hongjun was silent for a moment. "There's no need for that for now. If the passage between the two worlds is reopened, the Reincarnation Path of Six Daos is more meaningful in the Chaotic Star Sea."

Han Fei raised his eyebrows. "Without the Reincarnation Path of Six Daos, how can the creatures in the Three Thousand Star Seas reincarnate?"

As soon as he said this, Han Fei couldn't help but think of the Creation Jade Plate. Yes, the Creation Jade Plate had the ability of creation. It could completely create another Reincarnation Path of Six Daos, just like the Bloodline Divine Tree in the Chaotic Star Sea.

Sure enough, Hongjun said, "I re-created the Path of Reincarnation by imitating the Reincarnation Path of Six Daos. Although it's a copy, there are only Three Thousand Star Rivers left in the Primordial Star Sea, which is enough."

Since Hongjun had said so, Han Fei didn't argue. Although the Reincarnation Path of Six Daos was useless to him, if he could win the ominous battle, it might work again.

In addition to the roots of the divine vine, Han Fei also felt a sealed path. That place was filled with Primordial Mist, enshrouded in rays of light. At the end of the mist was a door.

"The Mud Sea?"

Han Fei wasn't too surprised. In the Chaotic Star Sea, the Mud Sea had always been known as another mysterious path, leading to the unknown. Now it seemed that the Mud Sea was the path in the light that Hongjun mentioned.

Han Fei couldn't help but ask, "Senior, why is this road to the Chaotic Star Sea sealed?"

Hongjun said, "Because I discovered that the creatures in the Primordial Star Sea represent the Heavenly Dao and luck of the Primordial Star Sea. If all the creatures really go to the Chaotic Star Sea, in a sense, it also represents the death of the Primordial Star Sea. It's like a house. If someone lives in it, it will gather people. If no one lives in it for a long time, it will become creepy and desolate. This is why I permanently sealed this road later. Unless after the passage is opened, countless creatures in the Chaotic Star Sea enter the Primordial Star Sea. That's feasible. But I can't do that, because once the two worlds are connected, the ominous will definitely come."

Han Fei nodded. Indeed, once the ominous came to him, the Primordial Star Sea would be completely doomed. With the current state of the Primordial Star Sea, it was indeed not suitable to open this path.

After learning this, Han Fei no longer had any doubts. He had solved 80% of his doubts.

Han Fei asked, "Senior, where is that opening in the Sea of Stars?"

...

Primordial Star Sea, Three Thousand Star Rivers.

This world was prosperous. There were many mortals and few cultivators. The Heavenly Palace Master was in charge of order, and the Heavenly Monarch suppressed all the strong masters to protect this world.

In the past eight thousand years, ordinary people and cultivators naturally didn't know that there was an unparalleled great horror threatening them in the world. Only the top powerhouses above the god realm all felt heavy in their hearts.

Somewhere in the Three Thousand Star Rivers, countless ominous creatures were still triggering the ominous power to wear down the protection of the Creation Jade Plate.

Apart from the Heavenly Monarch, two Sea Quelling God-level powerhouses were guarding and observing this place. The two Sea Quelling Gods were a man and a woman. The man was a human and was conferred the title of Supreme Dao Monarch. The woman was from the lineage of Strange Beasts and was conferred the title of Nine Heavens Mystic Fairy, whose name shook the Three Thousand Star Rivers.

The two of them had guarded this place for 8,600 years. At this moment, they were retreating among the rivers of stars.

In front of them, not far away, the ominous mist was moving forward, quickly swallowing half of the Star River, and it didn't stop until it swallowed the entire Star River.

The Supreme Dao Monarch was shocked. "This is the third time in the past 8,000 years that the Guardian Divine Realm has shrunk. If this goes on, how can there be a place for all living beings in hundreds of thousands of years?"

The Nine Heavens Mystic Fairy also sighed. "But what can we do? We've tried more than once. But the otherworldly sky fiends in the outside world are too strong. In the past, the Heavenly Queen tried to fight her way out with the strength of a supreme god, but she was annihilated by a palm of the otherworldly sky fiends. I still dare not forget that scene."

The Supreme Dao Monarch sighed. "Why did you mention that? After this matter, the Heavenly Monarch didn't cultivate anymore. If you keep nagging and the Heavenly Monarch also rushes out, who will control the three thousand worlds in the future?"

The Nine Heavens Mystic Fairy said, "There are no three thousand worlds now... The Heavenly Monarch has become despondent, but we can't..."

"Cough, cough ~"

While the two of them were complaining, the voice of the Heavenly Monarch sounded behind them. "If ordinary people find out that the dignified Nine Heavens Mystic Fairy is gossiping here, let's see how ashamed you can be!"

"Ahhh~"

"Greetings, Heavenly Monarch."

The Nine Heavens Mystic Fairy muttered, "It's the truth! You didn't cultivate all these years but pretended to be an ordinary person and played around, calling it training."

This Heavenly Monarch was not angry at this. Perhaps there were only a few top powerhouses in this world. If even these two people were afraid of him, he really had no one to talk to.

"It's not that he doesn't cultivate, but he doesn't dare."

Suddenly, a voice that they had never heard before sounded in their ears.

Even the Heavenly Monarch was shocked and his face suddenly changed. "Who?"

In the next moment, Han Fei quietly walked out of a nearby void.

The first reaction of the three of them was that it was impossible, including the Heavenly Monarch. This was because he couldn't see this person's strength at all, but he felt unprecedented pressure from this person.

[God of Fishing](#)

Chapter 3616: Kill into the Ominous Mist (4)

However, it was impossible for such a person to exist in the Three Thousand Star Rivers of the Primordial Star Sea. They knew very well how many strong masters there were in this world. It was impossible for such a terrifying existence to suddenly appear.

Han Fei didn't choose to hide himself. After all, he still needed to open the passage to the Mud Sea and needed their help.

Han Fei said, "He doesn't dare to continue to cultivate, because at his level, cultivation needs to carry the Heavenly Dao, not just resources. The only Sea of Stars left to you is too small."

Han Fei saw through this Heavenly Monarch at a glance. This person had three pieces of Star River Source Power, but he had put many seals on himself. Obviously, he had lived for too long and knew the Three Thousand Star Rivers well, so even if he didn't cultivate, his understanding of the Heavenly Dao increased day by day and he would unconsciously become stronger. However, the Heavenly Dao in the Primordial Star Sea was incomplete in the first place. How could it support a dominator?

"Who are you?"

As the Supreme Dao Monarch shouted, he and the Nine Heavens Mystic Fairy had already taken a stance to fight.

"Human Emperor."

"Human Emperor?"

"Nonsense, how can there be a strong master like you in the world? There is no Human Emperor... Wait, are you the Human Emperor that the otherworldly sky fiends mentioned?"

Earlier, the ominous body of the Primordial Dao Ancestor had clamored outside, trying to arouse the conflict between Han Fei and Hongjun. At that time, he had mentioned the word Human Emperor.

The Nine Heavens Mystic Fairy was vigilant and had even taken out seven Linglong Ball-like weapons, which was actually a Supreme Nature Treasure-level weapon.

Han Fei said casually, "I'm not from your world. You can understand it as me coming from the outside world."

The Supreme Dao Monarch and the Nine Heavens Mystic Fairy couldn't help but look at the ominous outside the Guardian Divine Realm of the Creation Jade Plate. Their hearts skipped a beat as they couldn't help but wonder if Han Fei was an otherworldly sky fiend. But since he was known as the Human Emperor, he shouldn't be an otherworldly sky fiend, right?

The Heavenly Monarch, on the other hand, was quite calm. He cupped his hands slightly. "Fellow Daoist, are you from outside the Three Thousand Worlds?"

"Three Thousand Worlds?"

Han Fei couldn't help but click his tongue. Good lord, the two Sea Quelling Gods, one called the Supreme Dao Monarch, and the other called the Nine Heavens Mystic Fairy, both sounded very powerful. However, they actually compared the Three Thousand Star Rivers to the Three Thousand Worlds. Those who didn't know better would think that they were very big.

Of course, if it were before when Han Fei was very weak, he would probably be quite amazed.

Han Fei said, "It's a long story. I'll tell you in detail when I return!"

The secrets of the Chaotic Star Sea and the Primordial Star Sea were too unbelievable for them and troublesome to explain. Han Fei had something important to do now. How could he be in the mood to explain so much?

"Return? Where are you going?"

The Heavenly Monarch secretly said to the Supreme Dao Monarch and the Nine Heavens Mystic Fairy via voice transmission, "This person is at the same level as me. Don't talk too much."

However, how could the voice transmission of the Heavenly Monarch hide from the current Han Fei?

However, he didn't expose it. He pointed at the ominous mist where the dominator-level ominous creatures were.

When the Supreme Dao Monarch and the Nine Heavenly Mystic Fairy heard this, they were speechless. Where did this lunatic come from? Do you know what level of Extraterrestrial Demon it is?

The Heavenly Monarch raised his eyebrows slightly. "Fellow Daoist, although I don't know where you are from, if you didn't come from the outer domain, I'm afraid you don't know the strength of the otherworldly sky fiends at all. Even with our strength, I'm afraid we won't be able to return if we go in there."

Han Fei looked at the dominator-level ominous that was triggering the ominous mist to attack the Divine Realm and thought to himself, I know their strength too well.

Han Fei said indifferently, "You lost hundreds of Worlds this time because of me. I can't take your resources for nothing. If the three of you don't mind, you can come with me to the mist."

"I mind."

At this moment, the Nine Heavens Mystic Fairy finally said, "Do you know the strength of these otherworldly sky fiends? Do you think you can make a trip there just like that? Even if you can be on par with the Heavenly Monarch, it's hard to say if you can block the other party's blow."

"Mystic Fairy, shut up."

The Heavenly Monarch could feel the suppressing pressure on Han Fei. He guessed that Han Fei should be stronger than him. But in terms of entering the ominous mist, it wasn't that he didn't believe Han Fei, but that was a place of no return. This was the lesson of countless blood and tears.

Han Fei smiled and didn't explain further. Instead, he came to the edge of the Guardian Divine Realm of the Creation Jade Plate with a thought. Under the shouts of the Nine Heavens Mystic Fairy and the Heavenly Monarch, he still stepped out.

"It's over."

The Supreme Dao Monarch was puzzled. A top powerhouse appeared out of nowhere, but he went to the outer domain to die without saying anything?

The Nine Heavens Mystic Fairy held her forehead. "Who does he think he is?"

Even the Heavenly Monarch narrowed his eyes and looked at the outer domain together.

As they expected, the moment Han Fei went out, six dominator-level ominous creatures immediately attacked him.

When they saw Han Fei clearly, they were shocked.

"Human Emperor?"

Although they had never been to the Chaotic Star Sea, Han Fei's appearance had long been engraved in their minds. Not only Han Fei, but they also knew some top powerhouses in the Chaotic Star Sea.

Because they had never fought Han Fei, they knew that Han Fei was powerful. But they were in the ominous mist, confident of their strength, and felt that they could fight Han Fei, so they didn't escape immediately.

At this moment, the Heavenly Monarch and the other two could clearly see from the Guardian Domain that the power unleashed by the six powerhouses comparable to the Heavenly Monarch at the same time was enough to easily crush the three of them.

The Nine Heavens Mystic Fairy couldn't help but be a little absent-minded. The Supreme Dao Monarch sighed slightly.

However, in the next moment, a broadsword beam flashed past, shining brightly.

Swish ~

"Puff! Puff! Puff!"

The six dominator-level ominous creatures didn't even have the time to attack before they were all killed by a single slash.

The law of life surged back, and light shone. These six dominator-level ominous creatures turned into six energy crystals before they could even fight Han Fei.

"This... so strong!"

[God of Fishing](#)

Chapter 3617: Suppressing the Heavens with One Knife (1)

At this moment, Han Fei didn't need the path of invincibility or the Ten Thousand Blood Body. He was already the top powerhouse in the Sea of Stars.

The instant death of six dominator-level powerhouses horrified other ominous creatures with intelligence. These ominous creatures immediately drilled into the ominous mist.

Looking at the surging ominous tide that was like the huge mouth of an abyss, as if it wanted to swallow everything between the heavens and earth, Han Fei's expression remained unchanged. Behind him, the Wheel of Life appeared, and the most secret river of life in the world turned into a phantom and appeared in the sky.

Han Fei waved his hand, and a knife light, with invincible will, holy and dazzling divine light, and violent and ceaseless killing intent, instantly swept across all the darkness in front of him.

Swish ~

"Puff! Puff! Puff!"

Chi! Chi!

Under the shocked gaze of the Heavenly Monarch, the Supreme Dao Monarch, and the Nine Heavens Mystic Fairy, they saw that the endless ominous mist in front of them had been cut open by someone.

Wherever the knife light passed, the ominous creatures retreated. All the ominous creatures hidden in the mist near Han Fei died without exception.

The three of them couldn't help but widen their eyes and swallow unconsciously.

Obviously, Han Fei's strength had subverted their understanding. The Heavenly Monarch still remembered the scene when the Heavenly Queen fought her way into the outer domain. An otherworldly sky fiend killed the Heavenly Queen with a slap.

And now, those otherworldly sky fiends that he thought were invincible couldn't even withstand a single slash from this person. Not only could they not withstand it, but even the darkness in the outer domain had been purified and light had reappeared.

The Nine Heavens Mystic Fairy covered her mouth with one hand. "Is this the Human Emperor?"

A moment ago, she was mocking Han Fei, but at this moment, the latter showed her what real power was.

Back then, Eldest Senior Brother's void could kill billions of ominous creatures and sweep across the Creation Star Compass. Now, Han Fei also felt this power. It was an absolute suppression. All resistance was meaningless in Han Fei's opinion now, because the gap was too great.

This realm was almost unparalleled in the Sea of Stars. With just one step, he could match the power of the Heavenly Dao in the entire Sea of Stars. If he really had such power, no matter how ominous it was, it could be destroyed with a flick of his finger.

Although Han Fei hadn't reached that realm yet, he was only one step away from that realm.

At this moment, Han Fei raised his hand, and billions of energy crystals gathered. Among them, there were thousands of energy crystals above the doomsday level, and countless energy crystals of other levels.

Han Fei looked back at the three of them, who immediately refreshed.

Seeing this, the Heavenly Monarch didn't hesitate at all. With a thought, he led the Nine Heavens Mystic Fairy and the Supreme Dao Monarch out of the Guardian Divine Realm. This was one of the few times in their lives that they had stepped out of the Guardian Divine Realm and come to the outer domain.

At this moment, dense energy crystals floated around Han Fei like stars.

"Futian greets you, Senior."

The Nine Heavens Mystic Fairy and the Supreme Dao Monarch were no longer as casual as before. They hurriedly said respectfully, "Greetings, Senior."

Han Fei thought to himself, You're much older than me, but he was too lazy to explain. He said, "This happened because of me, but you can rest assured. Even if your Guardian Divine Realm will shrink a

little, it will soon stop shrinking. As for these energy crystals, I'll give them to you. However, this is not enough. Walk with me for a while."

"Yes, Senior."

Although the Heavenly Monarch and the other two also wanted to know what had happened to make the Guardian Divine Realm shrink, and where Han Fei came from and why he had a conflict with these otherworldly sky fiends, seeing that Han Fei had no intention of saying it, the three didn't dare to ask.

Han Fei asked them to accompany him for a while. Although the three of them were unwilling, they knew that this was the most important change in their lives. With such a strong master in front of them, if they still didn't dare to step into the outer domain, from now on, it was impossible for them to understand the outer domain.

Han Fei didn't walk slowly, which was exactly the speed that the Sea Quelling God could catch up with. In a moment, the four of them arrived at the end of the knife light just now. Here, the knife intent was still strong. Even though the power of this knife had dissipated, the knife intent spreading here was still not something that the ominous mist could penetrate at will.

When Han Fei and the others arrived, they found that countless ominous creatures had already gathered here. Among them, there was a dominator-level ominous creature that appeared completely in human form. Its strength shouldn't be weak, not something other dominator-level ominous creatures could compare to.

In addition to that special dominator-level ominous creature, there were as many as 80 other dominator-level ominous creatures. Obviously, the ominous creatures wanted to completely kill Han Fei in one go.

After all, even the Death God might not be able to resist this number of dominator-level ominous creatures, let alone Han Fei.

It wasn't that Han Fei overestimated Eldest Senior Brother, but that the void power controlled by Eldest Senior Brother was too mysterious and domineering. As for the Master of Time, he directly ignored him. It was impossible for the Six Divine Techniques of Time to resist so many dominator-level ominous creatures. As for the Death God, although Han Fei didn't know if the Death God had some large-scale offensive divine techniques, if he could really block such a power, the Sea Realm wouldn't have been reduced to being defeated on the first battlefield.

Behind Han Fei, the faces of the Heavenly Monarch and the other two changed drastically. How many otherworldly sky fiends were there in front of them? Especially the leading one, it had almost completely turned into a human and was difficult to tell if it was really a human.

[God of Fishing](#)

Chapter 3618: Suppressing the Heavens with One Knife (2)

Even the Heavenly Monarch was terrified. An otherworldly sky fiend of this level was already invincible. He was tense at this moment. Once Han Fei was defeated, he would immediately leave with the Supreme Dao Monarch and the Nine Heavens Mystic Fairy. Fortunately, this place was not far from the Guardian Divine Realm.

The Nine Heavens Mystic Fairy said via voice transmission, "Is this the outer domain? It's simply too dangerous. We're no match for these sky fiends at all! Heavenly Monarch, why don't we tell Senior that we want to go back first?"

The Supreme Dao Monarch also swallowed. "For the first time, I feel so weak. Here... it seems that every otherworldly sky fiend can crush me."

The Heavenly Monarch replied, "Be confident. It doesn't seem that any random one of them can kill you."

The Heavenly Monarch took a deep look at Han Fei's back and didn't speak in the end. He didn't believe that the appearance of such a strong master had no deeper meaning.

At this moment, those ominous creatures didn't attack immediately.

After the leading dominator-level ominous saw Han Fei, his voice was cold. "I didn't expect that the broken Heavenly Dao could revive you so quickly. Human Emperor, we knew that you would appear, but we didn't expect you to stay in the Primordial Star Sea. Do you really think we didn't prepare anything?"

"Oh?"

Han Fei smiled casually. "Is it something specially prepared for me? Then I'll give you a chance to show it."

The dominator frowned. Han Fei had clearly become stronger. He could cause such an uproar the moment he appeared. However, no matter how strong he was, it was only eight thousand years. How strong could he be?

"Since you haven't returned, stay here forever!"

The dominator-level ominous pushed his palm forward, and the ominous mist that spanned a Star River surged like a tide, instantly slapping the remnants of the knife light that Han Fei slashed out.

Buzz!

Sizzle~

However, when the two powers collided, the dominator-level ominous creature's expression changed slightly. The power unleashed by Han Fei's knife light exceeded his imagination.

According to the information he had learned, although Han Fei was very strong, he only had the combat power of 30 pieces of Star River Source Power at his peak state. However, the power of this slash was several times stronger than he had expected.

This person couldn't help but guess. Could it be that in just 8,600 years, his strength could still soar in this broken Primordial Star Sea?

The ominous didn't know the function of the Fruit of Creation, nor would it expect that Han Fei's current combat power had reached the level of Eldest Senior Brother. Therefore, although this round of confrontation was meant to test him, it was also a bit disdainful of him.

"Hmph!"

"Ultimate Dark Dragon Breath."

This dominator-level ominous guessed that Han Fei's strength might have increased, but he didn't care. As the laws on his body surged, the power in the surrounding dozens of Star Rivers was triggered and attacked like a tide.

In the ominous mist behind the ominous dominator, nine black dragons tens of thousands of kilometers long and carrying infinite energy suddenly appeared.

"Huff... Huff..."

Ten dragon breaths, like ten divine flames, each with the power of dozens of Star Rivers, spewed at Han Fei.

Behind Han Fei, the Nine Heavens Mystic Fairy and the Supreme Dao Monarch were still in a fighting posture, but the Heavenly Monarch stood in front of them and said solemnly, "We can't defeat them. We just need to trust this senior."

Although he said that he believed Han Fei, Han Fei knew that the Heavenly Monarch was already prepared to run away at any time. If he was defeated, he would take the two of them away immediately.

There was no telling if he really knew that if even Han Fei couldn't resist this power, would they really have a chance to leave?

However, facing the ten dark dragons formed by the ominous mist, Han Fei couldn't help but smile contemptuously. He raised one hand, and countless laws in the ominous mist were forcibly deprived by him.

In the next moment, billions of divine lightning bolts burst out here. In the sea of lightning, the power of lightning gathered and turned into lightning flood dragons. In the blink of an eye, there were tens of thousands of them.

Boom! Boom! Boom!

"So strong! How can he be so strong?"

Not only the Heavenly Monarch and the other two, but even the dominator-level ominous creature was also stunned. Han Fei's strength had completely exceeded 30 pieces of Star River Source Power. He must have some experience in controlling the Heavenly Dao. He was completely a super powerhouse at the level of the Masters of the Three Temples!

Bang! Bang! Bang!

The ten ominous dragons were instantly pierced through, but the huge lightning sea didn't calm down. Instead, it went straight for the dominator-level ominous.

Han Fei said leisurely, "It seems that the ominous doesn't have many means of its own. Even this kind of divine technique can only be learned from other races. Now, let me see what you have prepared to deal with me. My time is limited and I don't have more time to watch you perform."

"Don't be arrogant."

The dominator-level ominous immediately roared, and a small black bottle appeared in its hand. There was no need to guess what was in the bottle. It could only be the ominous substance.

Sure enough, the dominator-level ominous poured out a bottle of ominous matter. Among them, half of the ominous matter surrounded him, and the other half was scattered in the endless ominous mist and the bodies of the other dominator-level ominous creatures on this trip. The ominous matter rolled up endless waves again and pounced at Han Fei and the others.

This time, Han Fei knew that the purification power of the sea of lightning alone might not be able to resist it.

"Hmph!"

Between Han Fei's eyebrows, the Invincible Eye opened. On his body, the will of a supreme erupted, shaking the world. The surrounding endless laws gathered and compressed under Han Fei's will. The invincible will turned into a magnificent divine body, tens of millions of feet tall and imposing.

God of Fishing

Chapter 3619: Suppressing the Heavens with One Knife (3)

Behind Han Fei, the Wheel of Life appeared and spun. He raised his hands, and dazzling divine light emerged from his palms.

"Purify!"

As Han Fei roared, countless chains of the law of life extended out of the entire Sea of Stars and poured into the ominous mist. Behind Han Fei, divine brilliance was born between the heavens and earth. Countless laws turned into runes and gathered like a tide, forming a sea of brilliance that could almost cross a Star River.

Clatter ~

A brilliance bloomed in the darkness, and a large number of ominous creatures were directly purified and baptized. It was like a ray of light suddenly rose in the darkness before dawn. This light became brighter and hotter, as if it was a flame that could burn the soul.

At that moment, the three of them felt that Han Fei was not a person at all, but a world that controlled the Heavenly Dao of this Sea of Stars.

Under the brilliance, the entire Star River, even the ominous mist of the nearby Star Rivers, was dispersed.

Under such circumstances, human wave tactics were meaningless. The ominous creatures below the dominator level couldn't resist this supreme divine might at all. As for the dominator level ominous creatures, they were all fighting with all their strength and had no chance to surround Han Fei.

This was like a burly adult man surrounded by seventy or eighty children. It wasn't that they couldn't fight, but that when the adult men erupted, who dared to fight? Whoever went up first would die first.

Of course, Han Fei's purification ability was not invincible. The ominous mist was indeed dispersed by him. However, less than 30% of the ominous matter released from the small bottle seemed to have been annihilated. The rest turned into a big net in the void and pounced at Han Fei.

Seeing this scene, Han Fei frowned slightly. Can't even such a power annihilate it?

If this ominous substance was so powerful, how did Eldest Senior Brother deal with it in the past? If the other party took out eight or ten bottles, how could he fight it?

However, at this moment, Han Fei had no time to think about how to annihilate this ominous matter. He pushed with one hand, and the Time River appeared behind him, and the Time Sealing Sky Lock appeared in front of him.

At the same time, Han Fei flipped his hand and the Demon Purification Pot appeared. Since the ominous matter was released from the Demon Purification Pot and the Creation Jade Plate, the Demon Purification Pot and the Creation Jade Plate naturally had a way to take them in again.

Treasures at the level of the Demon Purification Pot and the Creation Jade Plate were autonomous. Therefore, the moment the Demon Purification Pot appeared, the ominous matter gave up attacking Han Fei and quickly entered the bodies of the more than 80 dominator-level ominous creatures.

"Huh? Is this thing really active and has an autonomous consciousness?"

Han Fei didn't believe that this thing had no consciousness. If it didn't have consciousness and could only attack instinctively, how could it have run away when it saw the Demon Purification Pot? How could it have disappeared into the bodies of so many dominator-level ominous creatures at once?

At this moment, the dominator-level ominous creatures that were invaded by the ominous matter suddenly seemed to fall into madness and their strength soared.

Originally, these dominator-level ominous creatures might only control two or three pieces, at most seven or eight pieces of Star River Source Power, but with the enhancement of this ominous matter, their strength almost doubled, and even the weakest had five or six pieces of Star River Source Power.

Faced with this situation, Han Fei just smiled casually. "Even if your strength doubles, so what?"

Seeing that the ominous matter had all fused into the bodies of these dominators, Han Fei no longer hesitated. He raised his foot and took a step in the void, and the other eight identical Han Fei appeared beside him.

The Time Splitting Technique was indeed an extremely powerful divine technique. As long as the battlefield was fixed and Han Fei was given enough time, he was even sure that even if the ominous body of the Primordial Dao Ancestor came in person, he could still kill him.

However, if he wasn't prepared, he could only summon the nine of his old bodies at the same time.

But even so, the Heavenly Monarch and the others were dumbfounded. They had only left the Guardian Divine Realm for a moment, but the dazzling power made them dizzy.

If the power that erupted fell on them, they might have been crushed countless times.

Although the Heavenly Monarch and the Nine Heavens Mystic Fairy weren't strong enough, they were still knowledgeable. The Great Dao of Time, the law of life, the path of invincibility... They were all extremely rare paths, but this person had walked them to this extent. Therefore, they were a little numb now. Perhaps only strong masters of this level could kill the otherworldly sky fiends to this extent?

At this moment, the nine Han Fei attacked at the same time.

An old body wielded the Primordial Eight Fierce Swords.

An old body controlled the Creation Mystic Yellow Tower.

An old body controlled the Law Enforcement Divine Chain.

Han Fei, on the other hand, held the Blood Sky Blade and attacked.

The strongest dominator-level ominous creature had swallowed half a bottle of ominous matter, and its strength and momentum had soared. But even so, when the combat power of the two sides collided, it was punched back by Han Fei.

Bam! Bam! Bam!

As the two sides fought, billions of rays of light burst out of the Sea of Stars, and the laws that filled the sky shattered and recombined. The ominous creature tried to corrode Han Fei with the ominous substance. However, with the enhancement of the invincible will and the Supreme Will, even if Han Fei really fought the other party, the ominous substance couldn't wrap around Han Fei in an instant.

In particular, Han Fei was in an invincible state in battle, both his body and soul immune to any physical and soul attacks.

[God of Fishing](#)

Chapter 3620: Suppressing the Heavens with One Knife (4)

"Impossible! It's only been eight thousand years. Why has your strength been raised to the limit of the Sea of Stars?"

The ominous finally realized that something was wrong. He swallowed half of the ominous substance and forcibly increased his strength to the level of 49 pieces of Star River Source Power. Although he could indeed go further, that would take time. Han Fei obviously wouldn't give him that time. And even if he temporarily improved his strength, it would fall after the battle. It was just a secret technique.

However, when he increased his strength to 49 pieces of Star River Origin, he found that Han Fei's combat power had always been at 49 pieces of Star River Origin. Besides, Han Fei had the Supreme Will, the Invincible Will, and the Dao of Slaughter God. Even if his strength was increased to this point, he was no match for Han Fei at all.

Seeing this, the dominator-level ominous immediately knew that they couldn't win this battle. Although there were 80 dominator-level ominous creatures here, if Han Fei's old bodies he summoned all had 49 pieces of Star River Source Power, not to mention 80 dominators, even 180 wouldn't be enough to kill them. After all, Han Fei wasn't Shen Le or Time. This was someone who had mastered the law of life.

However, as soon as he wanted to retreat and escape, Han Fei didn't give him a chance at all. Unknowingly, the Time Sky Sealing Lock had been set up. Obviously, Han Fei had known from the beginning that he would try to escape.

At this moment, there were many dominator-level ominous creatures who wanted to escape. Han Fei didn't even need to set up the Time Sky Sealing Lock, because this Star River had been purified by him. The Heavenly Dao here was almost completely suppressed by Han Fei alone. It could even be said that he was the Heavenly Dao here. As a result, even if these dominator-level ominous creatures wanted to escape, they couldn't instantly move several stars away. They could only run with their legs.

However, how could they escape?

In less than a hundred seconds, the Heavenly Monarch and the other two saw countless stars retreat quickly. Thousands of voids collapsed, and nearly half of the Star River here was almost destroyed. And less than half of the otherworldly sky fiends that they regarded as extremely powerful had been killed by Han Fei alone.

The Supreme Dao Monarch swallowed. "Heavenly, Heavenly Monarch... Aren't those eight clones? Why... why are his clones so powerful?"

The Nine Heavens Mystic Fairy also nodded quickly. "Yes! These clones are ridiculously strong."

However, the Heavenly Monarch looked solemn and shook his head slightly. "These are not clones. If I'm not wrong, it's a magical technique of the Great Dao of Time. The nine people we saw are all original bodies. The difference is that the eight Venerables are all from different timelines."

"What?"

"How is that possible?"

"How can the Heavenly Dao allow this cheating method of fighting?"

The Heavenly Monarch frowned. "Perhaps I'm not very accurate. The other eight seniors we saw shouldn't exist at all. Instead, they launched attacks at different times. Through the flow of time, they burst out with power in the old timeline and appeared at this time. Look, Senior and the otherworldly sky fiend fought thousands of times in an instant. Senior completed countless attacks in advance. It's simply amazing. I didn't expect there to be such a terrifying divine technique in this world. How well have you mastered the Great Dao of Time?"

"Is it so complicated?"

"An attack from the past has an effect in the present. What... what realm is this senior in?"

"I don't know."

The Heavenly Monarch shook his head. This power, not to mention the Nine Heavens Mystic Fairy and the others, was completely different from what he could do.

Another hundred seconds later.

In this starry river that had almost been destroyed, 80 dominator-level ominous creatures had all died.

Only one dominator-level ominous was trapped in the Time Sky Sealing Lock by Han Fei, unable to retreat or charge forward. If it weren't for the ominous substance, it might have been killed by Han Fei.

"Human Emperor, even if you become stronger, so what? We are Immortal and will return in the end. Besides, many strong masters have gone to the Chaotic Star Sea. Your myriad races can't hold on. You don't have many choices. You can open the passage between the two worlds to save them, but in that case, you can only give up the Primordial Star Sea. If you stay in the Primordial Star Sea, the Chaotic Star Sea will definitely fall."

"Shut up."

Han Fei snorted and waved his hand, and the Demon Purification Pot returned. Instantly, ten vines danced wildly, and under the control of Han Fei's billions of life chains, this dominator-level ominous whose combat power had soared to 49 pieces of Star River Source Power could only be controlled by the Demon Purification Pot.

When this guy was pierced by the Demon Purification Pot, the ominous power in his body and the ominous matter were absorbed by the Demon Purification Pot, and his strength was declining at a visible speed. In addition, Han Fei had cut off his river of life. Death was his only destination.

Han Fei said leisurely, "If you die, you'll be gone. I said so. So, you don't have to worry about me."

"Roar!"

As the dominator-level ominous roared hysterically, all the ominous creatures in this place were eliminated.

Han Fei curled his lips and looked back at the three of them. "All the energy crystals here are yours."
