Chapter 3631: Crisis of the Two Worlds (3)

Han Fei raised his head and looked at the ominous storm that had gradually subsided at the opening in the Sea of Stars. The ominous had left and might have descended on the Chaotic Star Sea.

When everything calmed down, Han Fei was a little confused. Could he make it in time?

After being stunned for more than ten seconds, Han Fei took a deep breath, and his eyes gradually became sharp. He entered the opening of the Sea of Stars again.

But at this moment, there were no more ominous creatures here. He stepped to the deepest part of the Sea of Stars and saw the passage corroded by the ominous matter here.

However, at this moment, this passage was actually healing.

Yes, Han Fei didn't see it wrong. The passage that Hongjun mentioned that had existed for countless years, the place of birth of the ominous, was actually healing.

"B*llshit channel."

One of Hongjun's two guesses was confirmed.

Since the ominous didn't come from the Sea of Stars, it meant that there had only been one so-called ominous from the beginning to the end. Besides, it was very likely to be the ominous matter. This didn't seem to be disputed. After all, the ominous matter gathered into an ominous figure in front of his eyes. But this also meant that the so-called ominous things he had seen or fought in the past were just puppet-like clones he had created.

As for why Hongjun's ominous body became an independent ominous creature, Han Fei had some guesses, but he had to return to the Guardian Divine Realm and see Hongjun first to confirm his guess.

The result of this trip was actually completely beyond Han Fei's expectations. He had thought that the opening in the Sea of Stars was either sealed or not sealed. But now, the opening in the Sea of Stars was gone, the ominous had left, and the barrier formed by the mysterious mirror had completely lost its meaning.

The broken mirror couldn't be restored. Han Fei couldn't even feel the existence of this mirror at all, let alone find the fragments of this mirror.

At this moment, what Han Fei needed to consider was how to return to the Guardian Divine Realm.

It had taken him 18 years to come from the Guardian Divine Realm. Although the obstacles along the way had been cleared by him, the path was probably covered by the ominous mist again.

The key problem was not that this road was covered in ominous mist, but that he couldn't quickly travel through the world of Star River Source Power like in the Chaotic Star Sea.

This also meant that it would take him at least ten years to return to the Guardian God Realm.

However, when Han Fei looked at the Creation Jade Plate at this moment, he felt that the luck environment of the divine vine immediately dimmed. This meant that the Sea Realm would definitely suffer changes in the near future, so he might not have decades.

Even if he returned to the Guardian Divine Realm, it could be foreseen that Hongjun's ominous body would almost definitely be waiting for him outside the passage between the two worlds in the Mud Sea.

Hongjun's ominous body was meant to take down the Primordial Star Sea. At this moment, the opening in the Sea of Stars was no longer a problem for him. He only needed to take down the Guardian Divine Realm.

Once the passage between the two worlds was opened and he was given a chance to enter the Guardian Divine Realm, the Three Thousand Star Rivers in the Primordial Star Sea probably wouldn't be enough for Hongjun's ominous body to fight for a day.

Therefore, although the situation in the Chaotic Star Sea was extremely urgent, Han Fei didn't race against time to rush back. This was because he knew that it would be too late if he left normally.

"No, there must be time. I must have missed something."

Han Fei was so sure because he knew that Hongjun's ominous body definitely didn't want to see the real ominous conquer the Chaotic Star Sea earlier than him conquering the Primordial Star Sea.

With their ominous' greed and appetite, if one of them took the lead to control a Sea of Stars, would they give up another Sea of Stars?

Han Fei didn't know if they would break through to a higher level or what after mastering a Sea of Stars, but he knew that Hongjun's ominous body and the real ominous would definitely compete.

Therefore, Hongjun's ominous body must have known that it would take him more than ten years to come here. He also knew that once the real ominous went to the Chaotic Star Sea, it would launch an attack as quickly as possible.

In that case, could he just watch the real ominous take down the Chaotic Star Sea?

The answer was absolutely impossible.

Therefore, he must have left a way for him to return.

Han Fei immediately tried to enter the world of Star River Source Power, but it was useless. The Heavenly Dao of the Primordial Star Sea had long been corroded, and Hongjun's ominous body didn't leave a way out for him here.

"Other than this, is it the Creation Jade Plate?"

Han Fei studied it for a long time but still didn't find that the Creation Jade Plate had this function.

Han Fei took out the Vast Ocean Navigator again. The moment the needle turned, Han Fei was overjoyed.

"As I expected, I knew that this old fox would never let the real ominous succeed first."

However, in the next moment, Han Fei frowned, because the needle was pointing at him.

"Me?"

Why are you pointing at me?

Could it be that the way back was on him?

Han Fei's heart stirred. He certainly knew what treasures he had. He immediately took out the most likely Creation Jade Plate, followed by the Demon Purification Pot, but the Demon Purification Pot had never had the ability to teleport, so Han Fei didn't have much hope.

The Blood Sky Blade was a weapon. Impossible.

The Creation Divine Prison, impossible.

[God of Fishing](#)

Chapter 3632: Crisis of the Two Worlds (4)

The Hidden Divine Seal, possible. However, the Hidden Divine Seal was only a Supreme Nature Treasure after all. Even if it could guide him, could it guide him to cross infinite distances?

The Blade of Hope was possible, but when he tried to cut out a teleportation channel, it was useless.

The Primordial Eight Fierce Swords and the Creation Mystic Yellow Tower were both offensive and defensive, but they were still useless.

The Path of Reincarnation was used for life-and-death reincarnation. Should he kill himself?

"Wait a minute ~"

Suddenly, Han Fei's eyes glittered. He had two reincarnation paths.

The green jade stone bridge was the Path of Reincarnation in the Chaotic Star Sea, but the Reincarnation Path of Six Daos in the Primordial Star Sea was also with him. And the green jade stone bridge could lead to the Origin of Chaos. What about the Reincarnation Path of Six Daos? Could it lead to the Origin of Primordial Chaos?

Once he could enter the Primordial Origin, which contained all the star rivers in the Primordial Star Sea, he could actually reach the Guardian Divine Realm with a thought.

Swish! Swish! Swish!

Six purple doors appeared. Han Fei didn't hesitate to enter from which door, because the purpose of the six doors was reincarnation, and the only place in the current Primordial Star Sea that could reincarnate was to protect the Divine Realm. Therefore, no matter which door he took, the result would be the same.

This time, Han Fei didn't hesitate and chose a door to walk in.

This was the first time Han Fei had entered the Primordial Purple Gate, which was the Reincarnation Path of Six Daos.

As soon as he stepped into this place, surging Primordial Purple Qi enveloped him. At this moment, Han Fei was even more certain of his judgment. The fact that there was still such rich Primordial Purple Qi on this day when the Primordial Purple Qi was almost exhausted could only be from the Primordial Source.

There was only one road behind the door, which was vast and boundless. Han Fei sensed the source of the Primordial Purple Qi and quickly moved forward. After only a few steps, he felt a powerful force that wanted to forcibly deprive his body and soul and disperse his laws.

This power was very strong. He had only taken a few steps, but he felt that this power was so powerful that it could disassemble gods.

When Han Fei continued forward, this power was almost at the level of being able to shake the Sea Quelling God.

"It seems that the effects of reincarnation paths are very similar!"

The difference was that the river of laws under the green jade stone bridge wouldn't hurt Han Fei. And the Reincarnation Path of Six Daos Path was even more domineering, even trying to disassemble Han Fei.

However, this power was limited to this. When one reached the dominator realm, it could no longer shake him. There was no telling if it was because the dominator had already exceeded the upper limit of reincarnation, or if the current Primordial Star Sea had already been corroded by the ominous.

In short, this trip was quite smooth. When Han Fei walked to the end of this road, he finally saw the billions of star rivers. However, most of these star rivers were dim, and only one star domain was still emitting divine brilliance. That was naturally the Three Thousand Star Rivers in the Guardian Divine Realm.

At the end of this road, there was a floating platform leading to the Primordial Origin. On the platform stood an ancient stone stele with three patterns condensed from Dao Patterns.

As long as it was a Dao Pattern, it could be resolved. Han Fei glanced at it, and infinite Dao Patterns disintegrated in his eyes, finally gathering into three words: "Reincarnation Platform".

"Huh? Could it be that this Path of Reincarnation was not created by the heavens but by humans?"

Unfortunately, now was not the time for Han Fei to study this. He stepped in, tapped the bottom of the Reincarnation Platform with the tip of his foot, and stepped into the Primordial Origin.

In the next moment, Han Fei felt countless summonings, which were extremely weak life auras.

"You want to reincarnate me?"

Han Fei ignored any of the summonings. Instead, he broke through the baptism of the Primordial Origin with his body and descended directly into the Three Thousand Star Rivers of the Guardian World.

Buzz!

When Han Fei suddenly descended and appeared in the Guardian Divine Realm, he finally heaved a sigh of relief. Therefore, as long as he was strong enough, he could break the rules and ignore the Heavenly Dao.

At this moment, Hongjun's voice suddenly sounded, "Just now, I sensed that a peerless creature was about to be born, so I guessed that it was you. You didn't hesitate to return through the Reincarnation Path of Six Daos. You seem to be in a hurry? Did something happen in the Chaotic Star Sea?"

Han Fei said calmly, "I'm indeed in a hurry. I need to go to the Chaotic Star Sea immediately. But before that, I have a few more questions. I hope you can answer them truthfully. It's very important."

After a few seconds of silence, Hongjun finally replied, "Okay!"

Han Fei asked, "First question, in your current state, can you open the passage between the two worlds?"

This question made Hongjun fall silent for a few seconds.

Finally, Hongjun slowly said, "No."

Han Fei's pupils were constricted. "Senior, is there ominous matter in the Creation Jade Plate you brought back?"

Hongjun was silent for a few more seconds, then sighed slightly and said, "Yes."

Han Fei continued, "So, Senior, you're actually contaminated by the ominous, right?"

"Yes."

Han Fei said, "So, Senior's ominous body wasn't created because you were unwilling to give up when you transformed into the heavens, but because you were contaminated by the ominous and cut your negative side out, right?"

"Yes."

Han Fei seemed to have expected it, so he wasn't surprised. He said, "Senior, as you speculated, there's nothing behind that passage. It's closed now, but there's not only one ominous, but... two all the time."

Hongjun was not surprised. Instead, he said calmly, "Is there one in the Demon Purification Pot and one in the Creation Jade Plate?"

Han Fei nodded. "Yes, and Senior's ominous body should be outside the passage of the Mud Sea at this moment, waiting for the passage between the two worlds to open."

At this point, Hongjun finally raised his doubts. "What happened at the opening in the Sea of Stars?"

At this moment, Han Fei also said calmly, "It doesn't matter what happens. Senior, you just need to know that the hole in the Sea of Stars is gone, and the ominous has descended on the Chaotic Star Sea. And your ominous body is waiting for the passage between the two worlds to open. And once this passage opens, the Primordial Star Sea will be destroyed. Your ominous body will really control the Primordial Star Sea and achieve the goal he has never achieved..."

After a pause, Han Fei's voice was full of killing intent. "If the passage between the two worlds is not opened, the Chaotic Star Sea will die. So, Senior, do you have a third path?"

This time, Hongjun was silent for a long time and finally said slowly, "Yes."

Hearing it, Han Fei heaved a long sigh of relief. He smiled and said, "If you said no, I'm afraid I'll have to attack you."

[God of Fishing](#)

Chapter 3633: Fierce Battle in the Sea Realm (1)

In fact, Han Fei knew that there was no problem with Hongjun. He should be a friend but not an enemy, but he couldn't take the risk.

Therefore, Han Fei's question was a trap from the first sentence.

From the beginning to the end, he only wanted to ask the first and last questions.

He asked Hongjun if he could open the passage between the two worlds now. Hongjun's answer to this question must be true and correct.

Han Fei just made use of the information gap, because Hongjun didn't know what Han Fei knew from the opening in the Sea of Stars. He was afraid that once he said something wrong, he would immediately become Han Fei's enemy.

However, this answer was actually not beyond Han Fei's expectations.

This was because if there was something wrong with Hongjun and he had already fallen, if he could open the passage between the two worlds, he would have done so long ago. Why would he wait until now?

Therefore, if there was a problem with Hongjun, he definitely couldn't open the passage between the two worlds on his own, so he could only answer no.

However, Hongjun didn't tell him that he couldn't open the passage between the two worlds. He only said that he would permanently seal this path because after opening it, it would be accompanied by the loss of the Heavenly Dao and luck of the Primordial Star Sea, which would eventually cause the death of the Primordial Star Sea.

What he said was that it was easy to mistake that he could open the passage between the two worlds at any time.

Therefore, when Hongjun said no, Han Fei's heart skipped a beat. But he couldn't be sure if there was something wrong with Hongjun because of this. Therefore, he had one last question. Han Fei asked if there was a third way.

As a person who had single-handedly established the Chaotic Star Sea and sent countless creatures from the Primordial Star Sea into it, how could he really not have any trump cards?

There was one thing that Han Fei knew, which was the divine vine.

The roots of the divine vine were rooted in the Primordial Star Sea, which was a channel in itself.

This passage might not be able to accommodate many people, but it could definitely be used as a singularity to cross space, even if this behavior would sacrifice the divine vine.

Therefore, Hongjun could only say that there was. Because if he said there wasn't, Han Fei would definitely take action.

If Hongjun had no problem, he would decisively help him return through the third path.

If there was anything wrong with Hongjun, he still had to help him return, because he clearly wouldn't open the passage between the two worlds. However, Hongjun couldn't let the real ominous control the Chaotic Star Sea. He could only help him return.

Therefore, all the questions were just Han Fei's test. He couldn't be sure that Hongjun was righteous just because he protected the Three Thousand Star Rivers.

This was because the fall of a person didn't necessarily need to be ominous. Especially since Hongjun was in an extremely awkward situation now, he was only the Heavenly Dao, not a human. He was lonely and must be unwilling.

However, as the Heavenly Dao, he couldn't attack ordinary people directly, so Han Fei couldn't be sure if Hongjun was good or bad.

Han Fei couldn't judge whether Hongjun was good or bad just because he gave him the Creation Jade Plate. What if the Creation Jade Plate was a shackle to Hongjun?

After all, with the Creation Jade Plate, it couldn't become ominous, because the ominous would be suppressed by the Creation Jade Plate.

However, from the first question to the last question, Hongjun at least answered perfectly, so Han Fei still couldn't tell if he was good or bad.

However, Han Fei had one last solution.

However, before Han Fei could continue, Hongjun sighed slightly. "There's no need for you to test me. Return the Creation Jade Plate to me!"

"Oh?"

Hearing this, Han Fei immediately felt a sense of respect and cupped his hands. "Sorry, Senior. It's not that I'm too suspicious, but this concerns the survival of the two worlds. I can't take the risk."

Han Fei immediately took out the Creation Jade Plate. Of course, it wasn't that he didn't like the Creation Jade Plate. Who wouldn't like a treasure comparable to the Demon Purification Pot? However, he couldn't keep the Creation Jade Plate just because he liked it and wanted it.

Only when the Creation Jade Plate was in Hongjun's hands could Han Fei feel at ease. His last solution was actually to return the Creation Jade Plate. In this way, no matter if Hongjun was good or bad, the Creation Jade Plate would restrain him.

Another moment later.

When Han Fei returned the Creation Jade Plate and watched it become a part of the Heavenly Dao, he was relieved.

Han Fei immediately cupped his hands. "Thank you for your cooperation, Senior. If I can defeat the ominous and your ominous body in the future, I will definitely return and help you purify the Primordial Star Sea."

At this moment, Hongjun said, "Actually... there's a better way for you to descend into the Chaotic Star Sea. It might even allow you to surpass the dominator realm."

Buzz!

Han Fei's eyelids twitched, and he looked up at the sky without saying anything.

Hongjun slowly said, "The spatial nodes of the two worlds penetrated by the roots of the divine vine can indeed allow you to descend. However, have you ever thought of the significance of the existence of the six fruits on the divine vine?"

Han Fei was puzzled. "Isn't this used to give birth to creatures of six lineages?"

Hongjun said leisurely, "The first time was, and the second time was not. In fact... this is the last way out I left for myself."

"Huh?"

Han Fei didn't speak, and Hongjun continued, "People like you and I will have some ways to survive. If the Primordial Star Sea really falls, I will be born in the Chaotic Star Sea through the divine vine. But now, you chose to protect the Primordial Star Sea and resist two ominous creatures beyond the dominator level alone. How can I sit by? The divine vine absorbed the luck of the two worlds and poured my billions of years of effort into it. I'll give it to you! Although the divine vine fruit hasn't matured yet, with your extraordinary luck that can carry the fate of the Sea of Stars and your aspiration to surpass the heavens, if you absorb the luck of the other five fruits, it should be able to mature in advance. At that time, you will gather the luck of the two worlds in one body, but... I don't know if you can transcend the dominator level."

[God of Fishing](#)

Chapter 3634: Fierce Battle in the Sea Realm (2)

Han Fei opened his mouth slightly, thinking to himself, As expected of an extraordinary existence who established the Chaotic Star Sea. Even the retreat path left for himself is directly to surpass the dominator realm.

Han Fei took a deep breath. "What if the Divine Fruit doesn't ripen?"

This time, Hongjun's tone carried a trace of aloofness and confidence. "That's impossible. I can't be wrong about your luck. If you descend, the divine fruit will definitely ripen. However, if you want to absorb the fruits of the other six lineages, it might take you some time. Whether to bet on the possibility of surpassing the dominator realm is up to you."

"I bet ~"

Han Fei didn't hesitate at all. He had to take the risk.

In fact, even if he returned to the Sea Realm with his current strength, so what? He and Senior Sister Shen Le might be able to restrain the two ominous creatures.

But this time, in addition to these two ominous creatures, there were also four peak-level dominator-level ominous creatures and at least 400 dominator-level ominous creatures. This didn't include the power controlled by Hongjun's ominous body.

Plus the gray powder, even if Han Fei appeared in his strongest state, could he really defeat them?

It had to be known that since the Chaotic Era, no one had been able to kill an ominous-level creature, be it Cangtian ruling all races, Li Daoyi who had suppressed an entire era, or his Eldest Senior Brother who had guarded several eras.

In the end, their only way was to lead the ominous into the Path of No Return.

Han Fei had just fought an ominous-level ominous creature. Even if he only fought for a day, it was very difficult. He would be lucky if his Dao heart didn't collapse after fighting for a thousand years like Eldest Senior Brother.

Therefore, if there was a chance to bet that he could surpass the dominator realm, why didn't Han Fei take the risk?

Buzz!

At that moment, in the Guardian Divine Realm of the Primordial Star Sea, the Heavenly Dao moved.

No one knew why the Heavenly Dao moved. Only the Heavenly Monarch, the Nine Heavens Mystic Fairy, and the Supreme Dao Monarch guessed that Han Fei had returned.

At the same time, in the Sea Realm, the divine vine that had never shown signs of maturity in the ancestral land of the Chaotic Divine Race, one of the six divine fruits emitted divine light and a dazzling golden halo.

The moment the golden halo bloomed, the fruit retracted its charm.

"It has ripened?"

Qiu Wanren's eyes lit up and his heart stirred. Why now? How could it be now? A great enemy had just come from outside the Sea Realm, and this divine vine happened to mature.

Qiu Wanren suddenly stood up. The first thing he wanted to do was to inform the dominator-level powerhouses. Now the only human dominator-level powerhouses were Han Guanshu and Jiang Linxian.

As for why he didn't inform others, this divine vine was used to nurture six lineages after all. It was only related to the six lineages. What was the use of calling others?

However, just as Qiu Wanren was about to go out, he suddenly heard a voice from the fruit. "Old Qiu, it's me."

Qiu Wanren: "???"

Qiu Wanren was a little stunned. He first looked around, and in the end, his eyes fell on the fruit that was emitting a halo just now, and he looked incredulous.

Qiu Wanren felt that he was hallucinating. He couldn't help but move forward and then ask uncertainly, "Han Fei?"

"Yes."

"Hiss ~"

Qiu Wanren was shocked. "Weren't you taken away by the ominous? Why... why are you in the fruit?"

Han Fei said, "It's a long story. Don't worry about how I got here. Old Qiu, what's the situation in the Sea Realm now?"

Qiu Wanren had seen a lot of things. Although this scene was very magical, he quickly recovered from his shock. "The situation is not optimistic. The first battlefield has been conquered, and now the myriad races are guarding the periphery of the Sea Realm. However, there are too many enemies. Three of the seven Divine Realms you left behind have been destroyed. Besides, one of the Divine Realms happened to be conquered today. Today, there were suddenly many ominous strong masters outside the Sea Realm, so almost all the strong masters in the Sea Realm went to fight."

"Only three of them were conquered?"

Han Fei couldn't help but heave a sigh of relief when he heard that. Sure enough, Hongjun's ominous body didn't sincerely make a deal with the ominous. Otherwise, with the strength of Hongjun's ominous body, this matter should have been broken through at least four divine realms.

"Only three? How many of them do you want to be conquered?"

Qiu Wanren was speechless. This was a life-and-death moment for all races, but Han Fei still had the strength to joke.

Qiu Wanren said, "I'll inform your parents, wife, and children..."

"Wait a minute!"

Han Fei said, "I can see, but I can only see Yiyi. Where are Old Han and my mother?"

Han Fei immediately discovered Han Chanyi who was fighting outside the Sea Realm with the unique perception of his bloodline. At this moment, Han Chanyi already had the strength of a Great Monarch. Even Han Fei couldn't help but wonder how she could stack laws so quickly without the help of the Path of Reincarnation.

So far, Han Chanyi's combat power was not bad, and she was not in danger for the time being.

Qiu Wanren said, "Of course they're fighting outside. All the strong masters who can fight are fighting. Although they can't fight the powerful dominator-level ominous, they can still resist it."

Han Fei thought for a moment and said, "Old Qiu, I can't come out yet, and I can't expose the news that I've returned. It's not that I can't tell them, but I'm afraid that your voice transmission will be exposed."

Han Fei knew the ominous strength very well now. It was almost impossible to hide the voice transmission of Qiu Wanren, a Sea Quelling God, from them.

Qiu Wanren was stunned for a moment and asked suspiciously, "How long are you going to stay in this fruit?"

[God of Fishing](#)

Chapter 3635: Fierce Battle in the Sea Realm (3)

Han Fei said, "I don't know, but it should be soon. Old Qiu, the reason why I can't appear for the time being is that once I appear, the Sea Realm will immediately be besieged by two ominous creatures above the dominator level. And now, if I've guessed right, there should only be one ominous creature above the dominator level!"

"Two?"

Qiu Wanren was stunned and immediately revealed a look of horror. "Wasn't... wasn't one taken away by your Void Temple? This news was spread by your Void Temple. It said that there was only one ominous left."

Han Fei said, "Two. I've already fought these two. I can hold off one in the short term."

Han Fei's words made sense. Hongjun's ominous body would never attack at this moment. He couldn't be a thug for the real ominous. Therefore, there was a 99% chance that he was waiting for the passage between the two worlds to open in the depths of the Mud Sea.

As for how long Hongjun's ominous body would wait before he noticed it, Han Fei didn't know, but he could only delay it day by day.

Qiu Wanren's expression was ugly, and it took him a long time to come back to his senses. "You said you restrained one?"

Han Fei said, "Sort of! Old Qiu, guard me now. If no one takes the initiative to come here, don't go to the battlefield to tell them that I'm back."

"Guard you? What are you doing in this fruit?"

Han Fei's current state was very strange. This fruit contained the universe. After he entered this place, he had a half-illusory and half-real body. His body seemed to have completely fused with this fruit, turning into a special state of being one with the fruit.

Han Fei felt that being able to control this fruit was like controlling his body. However, his flesh, soul, will, spiritual heritage, and so on had already been raised to the strongest state in the Sea of Stars, so this fruit couldn't substantially increase his strength.

However, Hongjun had poured a lot of effort into leaving such a trump card for him, so there must be a deeper meaning behind it. He might not discover it until he absorbed the other fruits.

At this moment, Han Fei was absorbing the other five fruits with his powerful strength. Not only did he want to swallow the other five fruits, but he also wanted to swallow the divine vine itself.

Qiu Wanren's eyelids were twitching crazily, because he saw that the other five fruits began to emit a faint halo, but these halos were all absorbed by the fruit where Han Fei was.

How could Qiu Wanren not know what Han Fei was doing? He was going to swallow the fruits of the other five lineages!

Faced with Qiu Wanren's confusion, Han Fei said, "Old Qiu, I'm trying to break through the dominator realm. Tell me everything that happened while I was away."

"Above the dominator realm?"

Qiu Wanren was shocked. Had Han Fei already reached this level? What had he experienced after being taken away by the ominous?

However, Qiu Wanren didn't doubt him. He didn't think there was anything wrong with Han Fei in the fruit. In fact, only Han Fei could be connected to the fruit, because the six purple doors were all in his hands.

Qiu Wanren also calmed down and began to tell Han Fei about the events of the past eight thousand years. Han Fei listened while absorbing the luck and power of the other fruits.

...

At the same time, outside the Sea Realm, a blazing sea of fire enveloped the entire Sea Realm. The fire was ferocious, as if it was a divine fire that had burned for billions of years and could burn everything. This was naturally the Chaotic Sea of Fire.

Outside the Chaotic Sea of Fire, there were infinite star fragments. This place had almost become a huge Shattered Star Sea, forming the outermost barrier of the Sea Realm.

In this Star River, there were countless creatures of the myriad races hidden. It could be said that almost all the myriad races of today were here. In addition to the creatures of the myriad races, the Immortal Temple had finally revealed their strength. Since ancient times, countless people had died, and the number of undead creatures accumulated by the Immortal Temple since the Primordial Era was an astronomical figure.

And here, a great battle was breaking out.

In the Shattered Star River, at this moment, or rather at every moment, there were fireworks, each of which represented the death of a creature or an undead creature.

With the top combatants restrained, the war between the ominous creatures and the undead lasted for 8,000 years.

Han Fei glanced at the distance with his perception and sighed in his heart.

Sure enough, after the first battlefield was penetrated, the ominous mist enveloped the Chaotic Star Sea. The Sea Realm had probably become the last camp of the myriad races.

Han Fei knew that the collapse of the first battlefield was almost inevitable.

Although Senior Sister Shen Le had already taken over the Void Temple and become the new main force to fight the ominous, to restrain Senior Sister Shen Le, the ominous body of the Primordial Dao Ancestor would be enough.

Although Senior Sister Shen Le was strong, she had just reached the realm of 49 pieces of Star River Source Power and wasn't proficient in controlling her strength. Besides, Senior Sister Shen Le was good at killing. Her combat power was indeed very strong, but she might not be good at defense. No matter how strong she was, she couldn't kill the ominous body of the Primordial Dao Ancestor alone. And unlike Eldest Senior Brother whose random void attack could suppress the entire Sea of Stars, she didn't have enough ability to defend.

Therefore, once Senior Sister Shen Le was restrained and the Master of Time's strength dropped, it would be difficult for them to defend the first battlefield.

[God of Fishing](#)

Chapter 3636: Fierce Battle in the Sea Realm (4)

In fact, even if they could, Senior Sister Shen Le and the others didn't want to defend it, because it was meaningless to guard the first battlefield.

In the past, they protected the first battlefield because the Chaotic Sea was cut off by the ominous mist and they couldn't return to the Sea Realm, so they had to fight.

However, the predicament of the Chaotic Sea had been resolved. Senior Sister Shen Le and the others didn't want a top combat power like the Death God to be limited to the Sea Realm, so they had planned to abandon the first battlefield.

Therefore, the collapse of the first battlefield was inevitable.

At this moment, Han Fei didn't see Senior Sister Shen Le, the Death God, the Master of Time, and the other top powerhouses Han Fei knew appear.

Perhaps they were all fighting fiercely in deep space.

However, he saw the Emperor Sparrow. At this moment, the Emperor Sparrow was soaring in the Shattered Star Sea, flying continuously around the Sea Realm. However, wherever the Emperor Sparrow passed, all the ominous creatures disappeared. The ominous creatures that had been trying to charge into the Chaotic Sea of Fire all seemed to have become nutrients for the Emperor Sparrow.

As if sensing a strange gaze, the Emperor Sparrow couldn't help but look at the Sea Realm. In the next moment, the Emperor Sparrow seemed to find something. He flapped his wings and was about to let out a sharp cry when Han Fei stopped him.

Han Fei said, "Keep flying. Don't respond to me. Just pretend I don't exist."

...

Five days later.

Rumble!

Knock, knock, knock!

The Heavenly Dao crack bloomed, and the death knell wailed.

This was the 183rd time Han Fei had seen an astronomical phenomenon at the level of a god in the past five days. Among them, there were 7 times at the God Slaying level, and 1 time at the Sea Quelling God level.

This meant that in just five days, the strong masters of the Sea Realm had suffered an unprecedented blow.

In the Sea Realm, everyone was already in a panic, and the entire Sea Realm was discussing.

"What's going on recently? Did a super war break out outside the Sea Realm? Why did so many strong masters die in just five days?"

"Even the Sea Quelling God has died. Is the Sea Realm going to collapse?"

"The number of strong masters who died in the past five days is comparable to the number of people who died in the past hundreds of years. How can we fight like this?"

"Damn it, why can't these ominous creatures give us more time?"

Someone sighed. "What can you do even if they give you more time? Do you know how difficult it is to become a god?"

Someone sighed. "Forget it, whatever! The ominous is endless. We will die sooner or later. It's just the difference between early and late."

"Bah, what are you talking about? Even the strongest are fighting. They didn't say they would give up. Why should you?"

All kinds of voices spread throughout the Sea Realm.

...

In the past few days, Qiu Wanren was probably the most nervous. He watched Han Fei swallow four Six-Pulse Fruits in a row in five days. At this moment, the fifth fruit had shriveled and looked like it would be completely swallowed at any time.

"How do you feel now? Can you surpass the dominator realm?"

Qiu Wanren had asked this question countless times, and Han Fei replied every time, "I don't know."

Han Fei replied patiently. He really didn't know that after swallowing almost five Six-Pulse Fruits, he seemed to be able to perceive everyone in the six lineages of the Sea Realm. There seemed to be infinite power accumulated in his body. This power might be able to help him break through the peak of the dominator realm.

However, there was no outlet of these powers. He had these powers, but he couldn't comprehend a way to surpass the dominator realm. This was useless!

His strength had long reached the peak of the dominator realm in the first place. But no matter how much power he absorbed, it could only accumulate and had accumulated to the limit. Han Fei had to forcibly stuff this power into the black hole intertwined with his dual spiritual heritages or seal it.

This made the black hole vortex with two spiritual heritages change. The black hole became dazzling, no longer a black hole, but a golden hole.

This made Han Fei suspect that the Godfiend Body could be advanced to a higher level. Unfortunately, when he mobilized the power in the golden vortex, what he showed was still origin power, but it was stronger than before. It had roughly reached 80 million points of origin power, but this was still equivalent to initially entering the dominator realm. It wasn't a big breakthrough.

Seeing that his hope was dashed, in the past five days, in addition to absorbing the power of the six-lineage fruits, Han Fei could only keep trying to deduce the fourth Dao Pattern left by the mysterious woman.

However, no matter how he tried, he found that the Dao Pattern was empty.

"Could it be that this Dao Pattern is meant to express the word 'empty'?"

"That's not right. These Dao Patterns are all amalgamated with various Great Dao Patterns, but in the end, the Dao Patterns melted. Why?"

"Monarch, no name; God, no contribution; Supreme, no heavens..."

Han Fei knew that the more eager he was, the more useless he would be. At this moment, something suddenly happened outside the Sea Realm.

"Retreat, retreat, retreat~"

"Everyone, retreat into the Chaotic Sea of Fire immediately."

Before he saw anyone, he saw a voice that spread throughout all the battlefields outside the Sea Realm.

Outside the Sea Realm, all the strong masters of the myriad races quickly retreated like dumplings thrown into the pot.

After only half an hour, before the strong masters retreated and defended, ripples swept across the Shattered Star Sea, and an ominous aura surged over.

Seeing this, the Emperor Sparrow's speed soared to the extreme. He circled the Sea Realm and set up a hurricane barrier at a speed outside the Sea Realm, forcibly blocking this wave of ominous aura.

At the same time, the Emperor Sparrow opened his mouth and swallowed. Many Sea Realm powerhouses who were contaminated by the ominous aura were sucked away by the Emperor Sparrow as soon as they were contaminated.

Han Fei couldn't help being a little surprised. The Emperor Sparrow didn't just have the strength of a junior dominator. This strength probably exceeded ten pieces of Star River Source Power. How did he do it in just eight thousand years?

Even when he broke through to the Venerable realm, he only had nine pieces of Star River Origin.

After another half an hour, a divine dragon rolled back in the Sea of Stars, smashing a large number of broken stars in a row. Its dragon scales were incomplete.

Han Fei's heart stirred. Who was this? This was not Senior Brother Azure Dragon, but a black dragon, and the other party had the strength of a dominator and didn't seem weak.

The old dragon roared, "B*stard, I'll spit you to death."

As soon as the dominator-level divine dragon stopped declining, it turned over and rose. Black flames spewed out of its mouth, forming a black pillar of light that shot into the distant void.

A dominator-level ominous swept over from deep space with boundless mist.

Surrounding the dominator-level ominous were the strong masters of the Sea Realm. Han Fei saw Han Guanshu, Jiang Linxian, Senior Brother Azure Dragon, and Fifth Senior Brother, as well as the three Palace Masters of the Time Temple and the ten Yama Kings.

Yes, so many people were fighting this one ominous, but even the dominator-level divine dragon was killed so miserably.

The closer the ominous mist got, the more familiar figures Han Fei saw. For example, Ximen Linglan, Senior Sister Dark Shadow, Senior Sister Green Lotus, and Senior Sister Red Lotus, and the two dominator-level powerhouses of the Sea Realm were also retreating.

Among them, except for the people from the Time Temple who had mastered the Time Indestructibility Technique, the others were all injured, weak in Qi and blood, and their bodies were broken. Even Old Han had lost an arm and his hair was disheveled. He was no longer as elegant as before.

Han Fei immediately recognized the ominous creature with billowing ominous mist and many dominator-level ominous creatures. It was one of the four ominous creatures who fought him in the opening in the Sea of Stars.

Yes, although the ominous itself was one level weaker than the strong masters of the myriad races, it was still an ominous creature that had reached the peak of the dominator realm. If no top combat power confronted it, the myriad races could only be defeated.

In the past, such an ominous peak-level dominator could compete with Senior Sister Shen Le and the Master of Time without being defeated.

Qiu Wanren suddenly stood up. "Is this... really ominous? Why can't so many of us beat it? Han Fei, are you not done yet?"

[God of Fishing](#)

Chapter 3637: Human Emperor Returns, Divine Vine Turned into A Gourd (1)

"It's only been five days. Where can I go?"

In five days, he hadn't had the time to absorb all the divine fruits. He didn't even know what would happen at the last moment. He wouldn't know until he completely absorbed the fifth Six-Pulse Fruit!

However, it was indeed dangerous at this moment. There were a few people who hadn't had the time to retreat, and his parents were clearly no match for the ominous. If it weren't for the fact that they were mostly dominator-level powerhouses, they might have been completely wiped out.

And this was only a peak-level dominator-level ominous creature. The other dominator-level ominous creatures hadn't taken action yet.

Seeing this scene, Han Fei already knew the combat power of the current Sea Realm. Senior Sister Shen Le must have fought the real ominous. The Master of Time, the Death God, and Senior Brother Undead must have resisted the attacks of four peak-level dominators and even attracted the siege of a few ordinary dominators.

However, it was obvious that someone was fighting two alone, and he couldn't hold on anymore. One of the four peak-level dominator-level ominous creatures ran out.

As for the others, they were supposed to be responsible for the ominous creatures below the dominator level. They had no choice but to work together to snipe this peak-level dominator ominous.

Otherwise, this battle wouldn't have lasted for five days. With this divine dragon, the Void Temple, and the Palace Masters of the Time Temple, it would be good if they could hold on for at most one day.

It wasn't that Han Fei underestimated the Three Temples now, but that the other party was too strong. Even if he took action, he didn't dare to say that he could easily take down such a strong master without the help of the Demon Purification Pot.

However, it was precisely because they were working together to snipe this peak-level dominator-level ominous that the battlefield they were originally responsible for suffered a loss of combat power and was forced to retreat step by step.

At this moment, the peak-level dominator-level ominous was about to reach the Chaotic Sea of Fire. As the main force of this battle, the old divine dragon was seriously injured. Facing the peak-level dominator-level ominous that could maintain its peak state with the ominous mist at any time, it was clearly not enough.

In the next moment, Han Fei saw that Jiang Linxian was sent flying together with the Primordial Seal, and Jiang Linxian's arms were almost broken, and blood flowed from her mouth into the sky.

Seeing this, Old Han held Jiang Linxian with one hand and threw out a long scroll with the other. As soon as the scroll entered the sky, it turned into nine dragons of laws, trying to lock the void.

The peak-level dominator-level ominous sneered. "Nine Dragon Sea Returning Array, not good enough."

The dominator-level ominous condensed an ominous aura and punched out. The nine dragons of laws were annihilated at the same time, and Han Guanshu's blood splashed in the sky.

"Grandpa..."

In the Chaotic Sea of Fire, Han Chanyi was extremely anxious. At this moment, Xia Xiaochan and the others hadn't returned and were still fighting. In the past eight thousand years, Xia Xiaochan had been busy cultivating, so Han Guanshu and Jiang Linxian took care of Han Chanyi more.

Han Chanyi felt that she was an orphan now. Seeing that Jiang Linxian and Han Guanshu were both seriously injured, she immediately became anxious.

Han Guanshu roared, "Don't come over. We're fine. Stay in the Chaotic Sea of Fire."

Han Chanyi knew her limits. That was a dominator-level battle. Even the aftershock of the battle was not something she could withstand.

Seeing that Han Guanshu and the others were fine, Han Chanyi, Zhang Panpan, and the others quickly raised their heads, eager to see Xia Xiaochan, Zhang Xuanyu and the others return.

As he spoke, Senior Brother Azure Dragon and Fifth Senior Brother filled in. Senior Brother Azure Dragon took out a piece of Intrinsic Embryo Scale, condensed it into an extremely dazzling broadsword, and slashed out a power several times greater than his own. His combat power instantly increased to 30 pieces of Star River Source Power.

Fifth Senior Brother, on the other hand, drew a sword from the dust of history. The sword illuminated the Sea of Stars and shook in all directions. The power of that sword was comparable to Senior Brother Azure Dragon's full-strength blow.

But Han Fei could tell that after Fifth Senior Brother drew this sword, his blood and Qi were exhausted, and his body cracked. Obviously, he had also used some secret method.

However, the peak-level dominator-level ominous turned into two huge claws and pounced forward with the ominous tide.

"Puff! Puff! Puff!"

Crack! Crack! Crack!

A large amount of the ominous mist was purified, and the two huge claws were almost shattered by the broadsword and the sword. But immediately afterward, two more claw marks suddenly appeared.

Fifth Senior Brother barely had the time to summon a mist of history to block it, but it was easily pierced through by the two of them. As for Senior Brother Azure Dragon, his scales burst out with divine brilliance and blocked the ominous with his own body at that moment.

"Pu! Pu! Pu!"

However, Senior Brother Azure Dragon's huge dragon body was torn into six pieces.

Fortunately, the black divine dragon had recovered a little at this moment. It slapped Senior Brother Azure Dragon away with its tail and also tore apart the two claw marks with its sharp claws. The Emperor Sparrow arrived in time and swallowed an ominous mist.

In this way, everyone managed to block this blow.

Upon seeing this, Han Fei's face darkened. Were Senior Brother Azure Dragon and the others not strong? Of course not. In the eight thousand years when he wasn't around, Senior Brother Azure Dragon and Fifth Senior Brother had both become dominators. By paying a certain price and unleashing their

secret techniques, they had nearly 30 pieces of Star River Source Power. Who dared to say that they weren't strong?

However, the strength of the enemy was beyond imagination.

Ordinary dominators were actually meaningless to this peak-level dominator ominous.

No dominator-level powerhouse had died yet. It was completely because the powerhouses of the myriad races had many magic treasures and were born with some abilities to restrain the ominous.

"Emperor Sparrow~"

The peak-level dominator-level ominous snorted after seeing the Emperor Sparrow. This was because the birth of the Emperor Sparrow also exceeded the ominous' understanding, but in a certain aspect, the Emperor Sparrow was the more perfect ominous, which made him jealous.

God of Fishing

Chapter 3638: Human Emperor Returns, Divine Vine Turned into A Gourd (2)

The Emperor Sparrow was actually complaining in his heart, thinking, That guy has clearly returned. What is he doing now? Why is there no sound at all?

The Emperor Sparrow spread his wings, and flames flickered in his eyes. "Hellfire Burning."

Hualala ~

Infinite flames suddenly ignited in the boundless void on the opposite side, but as soon as the power of the flames bloomed, it was extinguished by an ominous mist.

The peak-level dominator-level ominous said, "You haven't advanced for long. You're not qualified to burn the ominous with a thought."

The Emperor Sparrow said, "You'll know if I'm qualified or not after you try."

The peak-level dominator sneered. "Hahaha! Do you need to try?"

Buzz!

Behind him, the dominator-level ominous creatures finally moved. In an instant, more than 30 people came out. And the power emitted by these dominator-level ominous creatures was not weak. Many of them even reached 10 pieces of Star River Source Power.

Obviously, these dominator-level ominous creatures had more or less swallowed some ominous matter. Otherwise, they wouldn't be so strong.

The black divine dragon cursed, "B*stard, so what if you have more people?"

As the divine dragon cursed, it stirred the void, setting off tens of thousands of spatial channels outside the Sea Realm to help the weak return.

However, this peak-level dominator-level ominous only waved its hand gently, and the more than 30 dominator-level ominous immediately took action to shatter these teleportation spaces.

The peak-level dominator-level ominous said arrogantly, "A mere Sea Realm will eventually perish. There's no need to save these people. You can't save them either."

It was also at this moment that the fifth six-lineage fruit that was about to be swallowed by Han Fei was finally completely swallowed. As Hongjun said, descending through the divine vine might waste a short time.

Five days was indeed very short, but after Han Fei absorbed the other five Six-Pulse Fruits, he found that things were not that simple.

The moment Han Fei swallowed the last six-line fruit, he felt infinite Daos. These Daos were not Great Daos, but all the Daos of the creatures of the six lineages.

Some of these Daos were owned by the current creatures of the six lineages, and some had once appeared and disappeared in the dust of history. But at this moment, they all appeared like countless stars.

"They're not the Great Daos, but all the paths that the creatures of the six lineages have walked. They're infinite Dao hearts."

Han Fei discovered that even ordinary people had their own Dao. Their every choice and their existence had made this Dao.

This discovery shocked Han Fei, because he realized that the Great Dao was only a part of the Dao. The real Dao was endless. It would be born and die, just like life and death.

Then where did the Dao come from?

When the luck of the six lineages completely gathered into one, Han Fei seemed to have comprehended something extraordinary. Since an ordinary person could give birth to a Dao, and an ordinary person could destroy a Dao, this meant that there were all creatures in the world, so there was the Dao of all things. Without creatures, the Dao didn't exist.

"Living beings determine the existence of the Dao. At the beginning of the world, when there were only the Primordial and the Chaos, did Dao exist?"

At this moment, Han Fei seemed to suddenly understand something. When he remembered the fourth Dao Pattern that the mysterious woman showed him, his heart trembled.

Yes, it wasn't that he hadn't unlocked the Dao Pattern, but that he had done so from the beginning. Yes, he should have known that since it was a Dao Pattern recording, unlocking the Dao Pattern meant unlocking its true meaning. However, he didn't understand it. And when the Dao Pattern was broken down, the Dao Pattern melted, leaving only an empty space.

And this meant—no Dao.

"When that woman established the Primordial Star Sea, when the world was first created, there was no life or destruction, and there was no Dao. When all things were born, there were all kinds of Daos. Therefore, humans were the Dao, and all things were the Dao."

All of a sudden, the spiritual fruit where Han Fei was trembled. He understood. He understood the last realm.

"Monarch, no name; God, no contribution; Supreme, no heavens... Dao, no Dao."

The first Dao represented the realm of oneself and all living beings. And this realm could be called the Dao Realm, or the Daoless Realm, because in this realm, one could really control all Daos. Or rather, whichever Dao you chose, you could give birth to that Dao.

For example, in this realm, the Great Dao of Time was no longer mysterious. Anyone who entered this realm could control time. However, what Han Fei wasn't sure about at that time was whether the self-born Dao was an Origin Dao or an ordinary Dao. This couldn't be known until he reached that realm.

In short, this was the one that the Heavenly Dao hid. This was because the Heavenly Dao didn't master this Dao, but creatures gave it to the Heavenly Dao.

The Heavenly Dao was never complete; there was a glimmer of hope in everything. This was because the last Dao was not in the heavenly, but in all creatures, even a small ant.

At that moment, Han Fei felt that Hongjun was too terrifying and could be said to be a genius. In fact, he had already found a way to surpass the dominator realm, but he couldn't abandon the Primordial Star Sea, so the divine vine had never been born. Otherwise, if Hongjun gave up the Primordial Star Sea and chose this retreat that was left for him, he would probably understand this.

However, after understanding this so-called Daoless Realm, what should he do?

After all, just because he had mastered the realm and understood the abilities of this realm didn't mean that Han Fei could immediately advance to this realm.

God of Fishing

Chapter 3639: Human Emperor Returns, Divine Vine Turned into A Gourd (3)

Bang! Bang! Bang!

At this moment, the dominator-level ominous had already begun to destroy the void passage opened by the black dragon dominator.

At this moment, for a dominator, it was simple to destroy a mere passage. And many of the powerhouses who didn't have the time to return to the myriad races had already been swallowed by the ominous.

Han Fei knew that he had no time to think. He had to take action.

However, the appearance of a mere spiritual fruit was really not intimidating, and it was not conducive to combat. He couldn't come out now. He hadn't completely absorbed the divine vine. How could he come out easily?

Han Fei shook and his fruit body transformed into a gourd.

It became a gourd not for any special reason, but because Han Fei thought of it.

Swish ~

Just as the Black Dragon Dominator, Fifth Senior Brother, and the others had ugly expressions and didn't know how to attack, suddenly, a wisp of sword intent bloomed from the Sea Realm.

Everyone noticed that the sword intent appeared outside the Chaotic Sea of Fire in the blink of an eye. With a puff, a dominator-level ominous was instantly pierced through by the sword.

In the next moment, golden flames bloomed all over the dominator-level ominous creature's body. It burned fiercely and wailed in pain in the flames. It was directly incinerated to nothingness. Even the ominous mist couldn't revive.

And this sword wasn't over yet. It instantly pierced through another dominator-level ominous.

Only at this moment did the peak-level dominator-level ominous have the time to attack. He wanted to grab the wisp of sword intent, but in the next moment, the dominator-level ominous' expression changed drastically. This wisp of sword intent contained unparalleled killing intent, almost the same as Shen Le's power.

Bang!

The ominous peak-level dominator's entire arm was minced by this sword. Although it recovered in the next second, he was also shocked by this sword. Was there still a strong master of this level in the Sea Realm?

Not to mention the peak-level dominator, even the divine dragon and the others who were fighting him were shocked and looked at the Sea Realm.

Lei Heng shouted, "Are there hidden strong masters in the Sea Realm?"

However, when he looked over, he saw a big gourd floating where Qiu Wanren was guarding the divine vine. Yes, they weren't mistaken. It was a gourd that looked like the kind Fifth Senior Brother drank wine with.

Lei Heng said, "Fifth Senior Brother, that divine fruit has grown into a gourd."

Fifth Senior Brother was also dumbfounded. "Why does this look familiar?"

Lei Heng rolled his eyes. "Isn't it familiar? You use gourd to store wine every day. Which gourd don't you find familiar?"

Everyone was dumbfounded. It was a purple-gold gourd, shining with divine brilliance, followed by a long green vine.

Senior Brother Six God asked, "Why do I remember that the divine vine doesn't look like this? And the divine vine has six fruits? How did it become one?"

Two of these people had already guessed something.

One was the Emperor Sparrow. He knew that this was Han Fei, but he didn't know why Han Fei became a gourd on the divine vine.

The other was Ximen Linglan. She sensed the existence of the Blade of Hope.

"He's back."

The corners of Ximen Linglan's mouth curled up into a faint smile, and her heart that had long been silent began to palpitate again.

However, as soon as Han Fei attacked, the peak-level dominator-level ominous seemed to be a little angry. He had already fought his way to the gate of the myriad races and was about to sweep through the strong masters of the home of the myriad races, but now a hindrance appeared. How could he not be angry?

He immediately attacked again. This time, he smashed out millions of ominous fist lights like stars falling and a natural disaster descending.

"Hey! Come on, activate the Time Sealing Sky Lock."

Instantly, the three Palace Masters of the Time Temple and Ximen Linglan were about to attack at the same time.

However, with a swish, the purple-gold gourd in the Sea Realm appeared in the Sea of Stars outside the Chaotic Sea of Fire.

Bam! Bam! Bam!

At that moment, thousands of huge gourdes erupted in the void, spewing out endless brilliance. The ominous fist marks that looked like stars were shattered one after another.

In the end, the purple-gold gourd pierced through the sky billions of kilometers and crashed at the ominous creature at the peak of the dominator realm. The latter didn't know that this was Han Fei. He only thought that it was a powerful treasure similar to the Nine-Turn Heavenly Wheel hidden by the myriad races. He even sneered, not believing that this gourd could really seriously injure him.

Behind him, the endless ominous mist turned into an entire nebula, turned into huge sharp claws, and grabbed at Han Fei.

However, when he felt the power of the gourd at close range, he couldn't help but be secretly shocked. How could this gourd be so strong? Its strength had reached the peak of the dominator realm. Which Supreme Nature Treasure could be so strong? Why didn't he know about it before?

With a loud bang, the void billions of kilometers long collapsed. In the Shattered Star Sea, a vacuum collapsed. When everyone looked again, the ominous creature at the peak of the dominator realm was directly smashed into a meat patty by the gourd. Its entire body was shattered, and its body was even enveloped by a rich light of purification.

However, after all, it was an ominous at the peak of the dominator realm. After being defeated in one blow, it immediately emitted an ominous mist, and he quickly retreated into the ominous mist.

"Hiss ~"

The black dragon dominator, who was about to fight head-on, was dumbfounded. He couldn't help being speechless. He, the dignified ancient Dragon God, was even weaker than a gourd?

God of Fishing

Chapter 3640: Human Emperor Returns, Divine Vine Turned into A Gourd (4)

The Emperor Sparrow's eyelids were also trembling. He knew that this guy was not dead, but why did he suddenly become so strong?

Han Guanshu, Jiang Linxian, Fifth Senior Brother, Lei Heng, and the others were also shocked and dumbfounded.

Lei Heng said, "Is this mature divine vine so powerful? It's already standing at the peak of the Sea of Stars before it's born?"

Senior Brother Six God couldn't help but sigh. "So, after cultivating for so long, we're still not as good as a fruit?"

Not only were the Black Dragon Dominator and the others dumbfounded, but the powerhouses who had escaped back into the Chaotic Sea of Fire also sighed in shock.

"What is that?"

"Are you blind? That's a gourd."

"I surely know that's a gourd! But isn't this gourd too strong?"

"Is this a Supreme Nature Treasure?"

"Impossible. How can a Supreme Nature Treasure be so strong? Even so many dominators couldn't beat the ominous, but this gourd smashed it into pieces. If this was a Supreme Nature Treasure that could be used by all races, the ominous would have long been gone."

Han Chanyi and Zhang Panpan were also exclaiming.

Zhang Panpan said, "What a powerful gourd. It smashed the ominous so easily. I think it can compare to Uncle Human Emperor's Demon Purification Pot."

Han Chanyi frowned. "That's impossible. The Demon Purification Pot is the strongest."

When Han Fei was forcibly dragged into that unknown place by the ominous, she cried for a long time. Countless people thought that Han Fei was the savior of the world. She firmly believed it. She no longer blamed Han Fei for hooking up with other women. She just hoped that Han Fei could return.

Now, someone said that this gourd was comparable to the Demon Purification Pot. How could she be willing?

Pa!

Like thunder in the clear sky, countless people shivered.

As soon as Han Chanyi said so, with a crack, the green vine of the gourd waved in the air like a divine whip. With a whip, a dominator-level ominous that was about to destroy the void channel was directly whipped apart, and then a light of purification fell from the sky.

The moment the light of purification enveloped the dominator ominous, Han Fei directly cut off the dominator ominous' life river, causing the dominator ominous to die and dissipate without any chance to recover.

This time, even Han Chanyi couldn't help but open her mouth. She didn't know how to refute.

Pa!

Pa!

Pa!

The divine vine whipped seven times in a row, and the seven dominator-level ominous creatures died without even having a chance to run.

As for the ominous creature that was crushed by Han Fei, it finally couldn't sit still anymore. According to this killing method, no matter how many dominator-level ominous creatures there were, they would still be whipped to death.

He attacked again, but this time, he was no longer careless. Instead, he began to attack Han Fei with the boundless ominous mist, trying to wrap Han Fei in the ominous mist.

But how could Han Fei be afraid of this thing? He had killed peak-level dominators before.

The gourd was shining with divine light, the light of purification condensed, and the law of life accurately located it. Faced with the surging ominous mist, the gourd began to tremble crazily. The light of purification surrounded the gourd and seemed to turn into a ring of stars. The moment the dominator-level ominous arrived, an oscillating ripple, like a blade, instantly spanned thousands of light-years, covering the Star River.

At that moment, the ominous mist that enveloped this Star River was dispersed. Billions of ominous creatures were killed and dispersed by the purifying knife light.

In the ominous mist that dispersed the Star River, Xia Xiaochan, Zhang Xuanyu, Zhang Daqian, Han Song, Little Black, and Little White all appeared in Han Fei's perception.

Han Song and Zhang Daqian immediately synchronized information with him. Xia Xiaochan and the others were also at a loss. Where was the ominous creature fighting with them? Had it been purified by the light just now?

Zhang Xuanyu shouted, "Come on, don't waste this opportunity. Go back to the Chaotic Sea of Fire."

"Humph, die!"

Han Fei's super-large-scale purification had limited effect on the ominous above the dominator level. Even the god-slaying level ominous couldn't be completely purified. However, below the god-slaying level, there was almost no chance of survival.

Seeing that Han Fei could unleash such divine brilliance, the ominous peak-level dominator slapped Han Fei's gourd at the risk of being pierced by Han Fei again.

However, the power of this palm failed to shake Han Fei. Only the ominous matter surrounded the gourd, trying to contaminate it.

At that moment, the black dragon dominator roared, "Don't be contaminated by the gray powder. That thing is a curse. Once you are contaminated, you can't escape."

However, the Black Dragon Dominator reminded him too late. Therefore, seeing this scene, his heart couldn't help but turn cold.

However, what made him even more speechless was that the gray powder was sucked into the gourd through its shell.

"It's over. It's over."

Even the Black Dragon Dominator wanted to slap himself. It wasn't easy for a super existence to appear that could compete with the ominous, but it was contaminated by the gray ominous powder. This gourd would probably be damaged.

"Hahaha!"

The peak-level dominator laughed ominously. "No matter how magical you are, you will still become an ominous servant."

"Shut up."

"Puff! Puff! Puff!"

Just as the ominous peak-level dominator roared, suddenly, ten small vines penetrated him in an instant and began to devour him crazily.

"Demon Purification Pot? How is it possible?"

The peak-level dominator wanted to retreat, but the Demon Purification Pot caught him. Where could he retreat to?

Even an ominous creature that had reached the peak of the dominator level wasn't absolutely invincible. It was indeed a little difficult for Han Fei to kill it directly, but it wouldn't be difficult for the Demon Purification Pot to kill it.

This ominous creature at the peak of the dominator level didn't expect Han Fei to appear here in such a form. Otherwise, it would never have been able to fight Han Fei in such close combat.

"Demon Purification Pot?"

"Demon Purification Pot?"

"Little Junior Brother?"

"Feifei?"

"Darling."

"Dad?"

"Human Emperor?"
