Chapter 3641: Appointment with Hongjun's Ominous Body (1)

Pa, Pa, Pa ~

The divine vine was still whipping. Every time the vine whip fell, a dominator-level ominous died.

"Roar!"

"Human Emperor, Human Emperor hasn't died. He has returned."

"I knew it. As the owner of the Demon Purification Pot, how could the Human Emperor die so easily?"

"So strong. Such an infinitely terrifying ominous was destroyed with a vine. How strong is the Human Emperor?"

"However, where is Human Emperor? Why is there only a gourd?"

"It looks like the Human Emperor is in the gourd."

The appearance of Han Fei and the Demon Purification Pot brought hope to countless people.

They had been fighting too long and sacrificing too much in this war. Unlike the Primordial Era, they had pitifully few resources, magic weapons, and strong masters.

Without the Three Temples, it was impossible for the myriad races to resist such a powerful ominous army.

But even so, the strong masters of the myriad races were forced to retreat to the Sea Realm, and Han Fei's appearance killed the peak-level dominator-level ominous that many dominators couldn't shake in one fell swoop. For the strong masters of the myriad races, this was already a great victory, a great victory worthy of everyone's cheers.

Of course, most people were excited. For Xia Xiaochan and Ximen Linglan, the weight in their hearts was finally lifted. The last thing they wanted to see was that they were about to die but couldn't see Han Fei one last time.

However, now was not the time to reminisce. Han Fei knew that he had to end this battle quickly. If he guessed right, Hongjun's ominous body would soon discover his return.

He wanted to keep it a secret for the past few days because he needed time to absorb the Six-Pulse Fruit. It would be good if he could keep it a secret, but he needed to kill this peak-level dominator-level ominous now. If he didn't kill it now, he might not have a chance in the future. Therefore, even if he was exposed, he had to kill it.

Pa! Pa! Pa!

The entire Star River was suppressed by Han Fei. The law of life enveloped the entire Star River, and the shadow of the divine vine flashed in the void.

One, two, three... Without that peak-level dominator-level ominous creature, no dominator-level ominous creature could resist Han Fei.

The Black Dragon Dominator, Fifth Senior Brother, and the others didn't hesitate. They immediately shouted, "Counterattack and kill our way back."

Buzz—

At the same time, under the brilliance of the light, the injured Old Han, Senior Brother Azure Dragon, Han Fei's mother, the Black Dragon Dominator, and the others felt the flames of life beating on their bodies at the same time.

In the next moment, they felt that the injuries in their bodies were recovering at a terrifying speed. Old Han's broken arm, which was originally covered with a destructive ominous power, was also purified at this moment.

The black dragon dominator muttered, "When I saw this kid thousands of years ago, he was only a peak-level Great Monarch. But he's already at this level?"

The Black Dragon Dominator's muttering didn't escape Han Fei's ears. Han Fei was a little puzzled. When had he ever met this Black Dragon Dominator?

Suddenly, Han Fei remembered that this might be the ancient Dragon God in the depths of the Dragon Pool! However, hadn't this guy already died? Why was he still alive?

However, Han Fei didn't pay much attention to it. The strength of this ancient Dragon God shouldn't be at its peak, at least not as strong as it sounded before. It must have been dormant for too long and its strength had dropped.

Pa!

When Han Fei killed another nine dominator-level ominous creatures with the divine vine, the peak-level dominator-level ominous creature sucked by the Demon Purification Pot finally died.

Han Fei was about to continue to attack, when he suddenly felt a gaze coming from dozens of Star Rivers away. At the same time, an angry voice sounded between the heavens and earth, "Human Emperor, you disappoint me. Exchanging the Primordial Star Sea for the Chaotic Star Sea is your best choice. Unfortunately, you gave up."

As soon as this voice sounded, the strong masters who were about to fight were also stunned. Where did this voice come from? In their perception, they had no idea where the source of the voice came from.

Also, what was the Primordial Star Sea?

A muffled sound came from the gourd where Han Fei was. "Everyone, return to the Sea Realm immediately."

Han Fei even triggered some of the void in this Star River to teleport many people from the battlefield to the edge of the Chaotic Sea of Fire.

Ignoring the shock of these people, Han Fei finally responded, "If I give up the Primordial Star Sea and let you achieve your wish, will you let go of the Chaotic Star Sea?"

The person who spoke was naturally Hongjun's ominous body. However, Han Fei didn't expect him to come so quickly. He had only appeared for dozens of seconds and hadn't even killed all these dominator-level ominous creatures.

Hongjun's ominous body was really a little angry at this moment. In his plan, after the real ominous appeared in the Chaotic Star Sea, Han Fei should open the passage between the two worlds in a day, at most three days.

The reason why he felt that he would come in three days at most was that he believed that Han Fei would definitely find a way to return to the Guardian God Realm through the Primordial Origin.

The reason why he was sure that Han Fei would take the passage between the two worlds was that he didn't think Han Fei was stupid. He was shrewd and selfish. He should know that only giving the Primordial Star Sea to him was the best choice. Otherwise, the Chaotic Star Sea would face the wrath of him and the real ominous, two people above the dominator level. This was an extremely stupid action.

Hearing Han Fei's answer, Hongjun's ominous body snorted coldly. "I thought that there would be a tacit understanding between us. If I devour the Primordial Star Sea, the next one will destroy the real ominous. As for you, with the Creation Jade Plate and the Demon Purification Pot, you can completely protect the Guardian World and the strong masters of the entire myriad races and take them into the Path of No Return. With the natural protection of the Creation Jade Plate, even the Path of No Return can't annihilate you. You might even be able to reach the end of the Path of No Return. I didn't expect you to be so stupid as to choose to return alone and completely make me your enemy."

[God of Fishing](#)

Chapter 3642: Appointment with Hongjun's Ominous Body (2)

In the gourd, Han Fei's heart stirred. He had really neglected Hongjun's idea. Yes, he, who had the Creation Jade Plate before, could indeed use him to protect all races. Even if he didn't leave the Chaotic Star Sea, the worst situation would only become the current Primordial Star Sea, but most people could still live and work in peace. Hongjun's ominous body was also good at calculating. He had even calculated that he could return to the Guardian God Realm through the Primordial Origin. How could he not foresee his future worries?

If he really followed Hongjun's ominous body, he could indeed leave with the myriad races. As for what they would encounter and see after going to the Path of No Return, it was not his consideration.

However, in general, Hongjun's ominous body was a little domineering, but he did leave a way for him and the myriad races. However, this idea never appeared in Han Fei's mind at all.

However, after a moment of silence, Han Fei smiled and shook his head.

"You think I'll gladly take the risk, but you still asked me to bet. I don't mind if you ask me to bet, but I do mind if you ask me to take billions of lives to bet. They don't need to see the scenery of the Path of No Return."

Pa!

While talking to Hongjun's ominous body, Han Fei attacked again and killed a dominator-level ominous.

However, in the next moment, a black divine deer appeared only ten thousand kilometers away from Han Fei. On the divine deer sat a sage-like old man. At this moment, everyone noticed this person.

Senior Brother Azure Dragon asked, "Little Junior Brother, who is this person?"

Han Fei was a little puzzled. "Have you never seen him before?"

Hongjun's ominous body personally said, "If I really want to conquer the Chaotic Star Sea, you can't defend this place at all. The one who attacked them before was only a peak-level dominator under me. As for me, I never personally took action."

Swish! Swish! Swish!

In the next moment, Han Fei saw three peak-level dominator-level ominous creatures appear behind Hongjun.

Seeing this scene, Han Fei's heart sank. For him, this ominous body at the peak of the dominator realm was naturally nothing to be afraid of. However, for others, the ominous at the peak of the dominator realm was almost no different from the real ominous, because they were no match for them.

Han Fei couldn't help but feel a chill down his spine. If Hongjun restrained him, these three peak-level dominator ominous creatures would probably be able to directly enter the Sea Realm.

Han Fei said, "You shouldn't take action now either. The Chaotic Star Sea is occupied by the real ominous. If you conquer the Sea Realm, the ominous that swallows and controls the Chaotic Star Sea won't be you. Do you think he will let you go?"

Hongjun's ominous body said indifferently, "Therefore, you can either open the passage between the two worlds now, or I'll restrain you. I won't destroy the Sea Realm, but that one will. I'll let you personally witness the destruction of the myriad races in front of your eyes. And I can still return to the Primordial Star Sea and seal all the passages between the two worlds. Even if that person controls the Chaotic Star Sea, it won't be easy for him to devour me."

Pa!

This time, Han Fei wanted to attack the scattered dominator-level ominous creatures again, but a void hand bloomed in the void and blocked the divine vine.

Hongjun's ominous body said, "Although these ominous creatures are controlled by that one, why do you think I'll let you kill them?"

This scene was seen by Fifth Senior Brother and the others. Han Fei's terrifying whip could kill a dominator-level ominous, but it was easily stopped by someone. What did this mean? The old man riding the deer was definitely an extremely terrifying existence, even surpassing the peak-level dominator-level ominous just now.

Finally, Fifth Senior Brother said, "It's the ominous. An ominous-level powerhouse."

Buzz!

At that moment, everyone was shocked. How could another ominous-level powerhouse appear?

Ordinary people had never fought an ominous-level ominous creature. Even Fifth Senior Brother and the others had never fought a real ominous-level ominous creature.

However, they knew how terrifying the real ominous level was. In history, no one in the Chaotic Star Sea had ever really won against an ominous-level ominous creature. The only way was to take them into the Path of No Return.

Therefore, when they saw another ominous-level ominous creature appear, they felt as if a huge rock was pressing down on their hearts and could no longer be happy.

Even Ximen Linglan's face was a little pale. Han Fei had been gone for more than 8,000 years. She didn't want to experience the pain of parting again. She had waited too long.

However, Han Fei sneered. "Are you kidding me? Once he takes control of the Chaotic Star Sea, it's only a matter of time before you die. So what if he hides in the Primordial Star Sea? Since he can come to the Chaotic Star Sea, he can go to the Primordial Star Sea. Therefore, do I need you to give me a choice? Why don't I give you two choices? Let's work together to kill all his subordinates. At that time, when you return to your Primordial Star Sea, I will find a way to send that one to the Path of No Return, making it impossible for him to return. At that time, you will be the only ominous in this world. You can't kill us, and we can't kill you either. Then we can live in peace. What do you think of it?"

However, Hongjun's ominous body also chuckled. "It's not impossible. However, you should be the one going to the Path of No Return, not Shen Le."

Of course, Hongjun's ominous body wouldn't believe Han Fei's nonsense. How could he let others sleep soundly next to him? If the real ominous was sent away, it would be an endless war between him and Han Fei.

[God of Fishing](#)

Chapter 3643: Appointment with Hongjun's Ominous Body (3)

And Han Fei controlled the Demon Purification Pot and was almost invincible against him. At that time, there would only be an endless stalemate.

However, what Hongjun didn't expect was that Han Fei actually said, "Okay, but you don't have to interfere first. That person has so many dominator-level ominous subordinates. How can I be at ease if I don't kill some of them? If you don't let me take action and force me to a corner, I might really take away the entire Sea Realm and leave the Chaotic Star Sea to that person. Then what will you do?... Don't forget, this is his home ground. If we leave, you won't be able to escape death in the end."

Hongjun's ominous body's eyes were sharp. "Without the protection of the Creation Jade Plate, aren't you afraid of leading the myriad races to destruction?"

Han Fei sneered. "Anyway, staying here is also death. What's the difference between death and walking the Path of No Return? Besides, for us, we've already done our best. However, if the myriad races dare to die, do you?"

Hongjun's ominous body snorted and didn't speak again, as if he was thinking about something.

Indeed, Han Fei's threat did touch him. Although he knew that Han Fei would probably not take away the myriad races in the Sea Realm, it was not impossible for him to be forced to a dead end.

Although he didn't know where the Path of No Return led to, this might indeed be a way out. If Han Fei was really forced to this point, as Han Fei said, once the myriad races left, he would definitely die. Even if he returned to the Primordial Star Sea, that person would eventually find and devour him.

It was not unacceptable for Han Fei to weaken the power in the hands of the real ominous. However, giving Han Fei a chance was no different from asking a tiger for its skin, so he fell into a short hesitation.

In the end, Hongjun's ominous body said coldly, "Three years. How many you can kill in three years depends on your own ability. In addition, I will watch you in the dark."

Han Fei was overjoyed to hear that, but on the surface, he rolled his eyes. "Three years? All the strong masters of the myriad races have been fighting that person for billions of years, but they were still beaten to this state. You only give me three years?"

However, this time, Hongjun didn't allow him to retort. "Do you really think I don't know? With your current strength, I don't want to give it to you for three years. If you don't accept this, you will face the wrath of the two ominous."

"Three years it is. Retreat."

"Hmph!"

Seeing Hongjun's ominous body disappear, Han Fei was secretly relieved. Although three years was very short, it was still a long time compared to three days. Otherwise, if these two joined forces to attack the Sea Realm, even with the protection of the four Divine Realms, it was hard to say if they could last three days.

After all, these were two ominous-level powerhouses and six peak-level dominators. Could the divine domains left behind by Li Daoyi withstand an attack of this level? Anyway, Han Fei wasn't confident.

Of course, Hongjun's ominous body gave him three years because he wanted to take advantage of the situation and use him to consume some of the real ominous' power. That was all. Han Fei didn't believe that he would really sit by. He just didn't know what methods he would prepare next.

However, at least the current crisis was resolved.

Pa! Pa!

In the next moment, the divine vine shot out like a whip again.

Bang! Bang! Bang!

After a while, with the help of the Black Dragon Dominator and the others, except for the five or six dominator-level ominous creatures that escaped because of the appearance of Hongjun's ominous body, the others all died.

Seeing Hongjun's ominous body leave, Fifth Senior Brother and the others were also puzzled. This ominous creature actually chose to retreat? Why?

Swish! Swish! Swish!

For a moment, figures broke through the void and came to Han Fei one after another.

"Little Junior Brother."

"Feifei!"

"Son."

"Dad."

...

Everyone rushed forward, and Fifth Senior Brother spoke first, "Little Junior Brother, where were you taken by the ominous? What have you experienced in the past eight thousand years? How... did you appear in such a way?"

Xia Xiaochan asked, "Are you okay? Why did you become a gourd?"

Ximen Linglan said, "I know. You will definitely come back."

"Dad ~"

Han Chanyi, who was only a Great Monarch, came relatively slowly. As she rushed over, the green vine that could kill the ominous with a whip appeared under her feet. Immediately, Han Chanyi stood on the green vine. In the next second, she stood on the gourd.

"Dad, are you in the gourd?"

In the next moment, Han Fei's voice came from the gourd. "Dad is this gourd now."

"Ah?"

Not only Han Chanyi, but Xia Xiaochan and the others were also stunned.

Lei Heng said, "Haha! Little Junior Brother, have you become a demon plant now?"

Lei Heng still wanted to tease him, but Senior Brother Azure Dragon shouted in a low voice, "Alright, now is not the time to chat. Little Junior Brother, Senior Sister Shen Le and the others are in trouble too. Since you are so strong, you have to help them quickly."

Han Fei replied, "Okay! Senior Brother Azure Dragon, before we come back, don't let anyone leave the Sea Realm. This is no longer a war below the dominator level. As for where I have been for the past eight thousand years, you can ask my avatars."

After that, Han Fei said, "Yiyi, girl, Linglan, I'll go help Senior Sister Shen Le first. Don't worry. I've reached the peak of the dominator realm. This time, no one will be able to take me away."

"A peak-level dominator?"

Everyone was horrified. Only when they reached the dominator realm did they know how difficult it was to take a step higher in this realm. And only Eldest Senior Brother and Shen Le had reached the peak of the dominator realm before. This made them feel relieved.

God of Fishing

Chapter 3644: Appointment with Hongjun's Ominous Body (4)

The black dragon dominator asked, "Was the deer-rider just now at the ominous level?"

Han Fei knew of the Black Dragon Dominator's worry. He said, "Yes, but he won't take action for the time being."

Although Han Fei said that the Hongjun Ominous Body wouldn't take action for the time being, everyone was still worried. And Han Fei didn't dare to believe the promise of the Hongjun Ominous Body, so he had to act quickly.

Han Chanyi asked, "How long will you be gone this time?"

Han Fei said, "I'll be back in a few days."

Han Chanyi was relieved to hear that it would be a few days instead of a few years, but she was still a little worried about Han Fei's guarantee. However, Old Han said, "Yiyi, let's just wait for your father to return."

Jiang Linxian said, "Fei'er, be careful."

Xia Xiaochan said, "Be careful. You have to keep your word this time."

Han Fei said, "Definitely. By the way, why don't I see Little White?"

Yes, Han Fei saw everyone except Luo Xiaobai, which gave him a bad feeling.

This time, it was Fifth Senior Brother who said, "Don't worry. That girl didn't die. However, her path is too similar to Li Daoyi's. At this moment, she is staying on the World Tree to comprehend."

"Huh?"

The calabash trembled slightly. Luo Xiaobai and Li Daoyi?

On second thought, Han Fei realized that it did make sense. Li Daoyi and Luo Xiaobai were both born from the human race and demon plants. The difference was that Li Daoyi was born in the Chaotic Era and was born with extraordinary talent. As for Luo Xiaobai, she was born in the Yin-Yang World, which was only a small world and extremely lacked all kinds of resources.

Even though she came to the Sea Realm later, how could the current Sea Realm be compared to the former Chaotic Era? Therefore, Luo Xiaobai's growth was not stunning.

At this moment, when he heard that Luo Xiaobai had embarked on Li Daoyi's path, Han Fei couldn't help but understand what she meant. However, Luo Xiaobai had lost her innate opportunity and didn't embark on the path of invincibility. Therefore, she probably only embarked on Li Daoyi's path in one aspect. She stayed in the World Tree because she wanted to directly break through to the Sea Quelling God!

However, since Luo Xiaobai was fine, Han Fei didn't stay any longer. With a swish, he disappeared from the 49 Star Rivers.

...

At the moment Han Fei left, Hongjun's ominous body looked into the distance, his eyes revealing a trace of ruthlessness.

He murmured, "Han Fei, you should have opened the passage between the two worlds..."

...

Deep space.

Senior Sister Shen Le, the Death God, the Master of Time, and Senior Brother Undead were fighting.

But when Han Fei arrived, he only saw the Master of Time and Senior Brother Undead. He happened to see the body of the Master of Time annihilated. In the next moment, he saw the time tide caused by the Time Indestructibility Technique, and the Master of Time recovered again.

Furthermore, as soon as he appeared, he was slapped away, and half of his body turned into the Time River.

Fortunately, the recovery ability of time was too strong, and the Time Sky Sealing Lock could barely lock the ominous at the peak of the dominator realm. However, the Time Sky Sealing Lock was full of cracks. In Han Fei's opinion, it probably wouldn't last long.

At this moment, Han Fei knew that the Master of Time was no match for the ominous at all. If he hadn't mastered the Time Indestructible Technique, he probably wouldn't have been able to hold on until now.

As for Senior Brother Undead, he was standing on the boundless black coffin. Yes, he had completely refined the black coffin. At this moment, there was a dominator-level ominous suppressed in the coffin, and the dominator-level ominous was melting at a visible speed, turning into ominous liquid.

Han Fei could also tell that Senior Brother Undead seemed to have become much stronger. This must be the opportunity in the black coffin that Eldest Senior Brother mentioned.

Because he was in charge of the black coffin, although there were nearly fifty dominator-level ominous creatures around Senior Brother Undead, he could still barely hold on. However, Han Fei saw that Senior Brother Undead's huge body had collapsed in many places. His bones were incomplete, and even his head had been separated and was fighting independently.

At this moment, Han Fei had no time to find Senior Sister Shen Le and the Death God. If he could kill the ominous that besieged the Master of Time and Senior Brother Undead, it would be a huge victory.

The Master of Time and Senior Brother Undead naturally noticed the sudden appearance of the purple-gold calabash. Just a moment ago, they were a little puzzled. But in the next moment, the divine vine slashed out with a swish, producing an extremely dazzling knife light. The knife light contained the supreme will, the invincible will, the Dao of Slaughter God, the light of purification, the law of life...

The peak-level dominator-level ominous creature that was hammering Senior Brother Undead's skull was already on guard the moment Han Fei appeared, but in fact, it didn't pay much attention to him, because it only regarded Han Fei as a Supreme Nature Treasure-level treasure.

However, when the knife light slashed down, he knew that this power was extraordinary. He decisively gave up on Senior Brother Undead's head and faced it with billowing mist.

"Puff ~"

In an instant, knife light bloomed, covering billions of kilometers of star rivers.

In the same realm, facing a strong master like Han Fei who specialized in killing, even an ominous god at the peak of the dominator level would be cut in half in an instant, and half of the ominous mist was dispersed.

Under this slash, the peak-level dominator-level ominous instantly retreated in fright and shouted, "Impossible, how can you come back so quickly?"

Senior Brother Undead couldn't help but look sideways. His voice was low, but there was a rare trace of joy. "Little Junior Brother?"

"Senior Brother, it's me. Let me help you."

The moment the peak-level dominator-level ominous creature retreated, the knife light didn't stop and crushed a dominator-level ominous.

Pa! Pa!

The divine vine whipped the void like a whip, shattering two dominator-level ominous creatures in a row.

This scene shocked the Master of Time.

He roared, "Han Fei, shouldn't you help me first? I can't hold on much longer."

"What's the rush? Wait."

The Master of Time: "..."

God of Fishing

Chapter 3645: Slaughter, Betrayal, Cooperation (1)

The Master of Time had been beaten up countless times. Perhaps he had never thought that he, who was high and mighty, would be beaten so badly by the ominous.

Han Fei knew that the situation on the Master of Time's side was more urgent, but so what? His arrival had given this old thing hope. He would hold on until the moment he helped him no matter what.

Of course, Han Fei didn't intend to delay for too long.

Nine identical purple-gold calabashes appeared in the void.

There was no ominous-level existence here. A peak-level dominator-level ominous couldn't cut off the Time River and make Han Fei's old body pay the price, so he used the Time Division Technique without hiding anything.

However, except for the fact that Han Fei's original body had a divine vine, the other old bodies were just calabashes. Obviously, the divine vine was of an extraordinary level and it was impossible for more than one divine vine appear at the same time.

However, even the calabash itself was enough.

Different from the Master of Time, the Master of Time was born in time. His combat power was mediocre, but his comprehension of the law of time was unparalleled.

But Han Fei, as a body cultivator, a peak-level dominator who had fought his way up from the fisher realm, was not something the Master of Time could compare to in terms of strength, means, physique, killing techniques, and even realm.

Therefore, Han Fei, who had mastered the Time Division Technique, could summon nine peak-level dominators at any time.

This was why Han Fei dared to return to the Chaotic Sea of Stars to fight the ominous.

Of course, in the face of the real ominous level, he could only use the Time Splitting Technique as a last resort. Otherwise, if anything went wrong, it would be almost irreversible.

However, these enemies were not enough to scare Han Fei.

Seeing this, the ominous creatures at the peak of the dominator level knew that something was wrong. They knew their own strength. They dared to challenge Shen Le and the Master of Time and the Death God, but at this moment, Han Fei was like the former void, invincible unless he was at the ominous level. In their eyes, he was no longer an ordinary peak-level dominator.

The peak-level dominator roared, "Everyone, stop dealing with the undead. Attack with all your strength and stop Han Fei."

Han Fei clearly felt the unwillingness of these fifty ominous creatures, but there seemed to be nothing he could do. They really pounced at him overwhelmingly.

Han Fei couldn't help but wonder. He could see the unwillingness in the eyes of these ominous creatures, but they seemed to be have to take action.

"Could it be that these dominator-level ominous creatures weren't driven voluntarily?"

Han Fei seemed to understand something. It was the ominous matter. These dominator-level ominous creatures became stronger because of the ominous matter, but they were mostly restrained by the ominous matter.

Therefore, the moment they received the order, they had to stop Han Fei even if they had to die. And the peak-level dominator-level ominous knew that it was no match for Han Fei, so it quickly fled.

However, at this moment, Han Fei had nine clones, and the other party only had more than fifty dominator-level ominous creatures. How could he escape?

Han Fei sneered. "Don't forget, this is the Chaotic Sea of Stars, the territory of the myriad races. The Heavenly Dao here hasn't been controlled by you yet."

Buzz!

After the peak-level dominator-level ominous escaped ten Star Rivers, he found that he couldn't teleport at all. Besides, Han Fei's original body had already stood in front of him.

On the other side, a group of dominator-level ominous creatures were all emitting ominous mist. All kinds of Great Daos covered the sky.

A dominator-level ominous creature seemed to want to use the ability of its avatar to transform into millions of lightning strikes, trying to buy time. However, only one of Han Fei's old bodies took action. The calabash smashed at the void, and lightning shook and spread out. For a moment, countless lightning bolts covered this place, which were extremely intense. The lightning was dense, and the thunder rumbled. The vast Sea of Stars trembled nonstop, and the void kept cracking.

"Puff! Puff! Puff!"

In just an instant, the tens of millions of phantoms instantly disappeared. As for the dominator-level ominous, it was pierced by a lightning spear. The light of purification burned its body and the law of life severed its life. It died on the spot before it could even attack.

At the same time, a dominator-level ominous turned the ominous mist into a demonic claw that blotted out the sky. It also used the Godfiend Sound Killing Technique and shattered half of its original body to launch a powerful blow...

For a moment, the battle was fierce, and all kinds of methods were used.

Countless dominator-level ominous figures were entangled with the purple-gold calabash, and many of them even took out their remaining ominous matter, trying to corrode Han Fei.

However, all of this was in vain. Han Fei's calabash body emitted a holy light of purification. The surrounding space distorted and collapsed, turning into his power and means. Endless runes appeared on the surface of the calabash, and billions of knife lights left his body. The scene was too terrifying.

In just a few seconds, seven or eight dominator-level ominous creatures were killed on the spot.

Senior Brother Undead had just recovered his complete body. Seeing this scene, he couldn't help but secretly exclaim. Now his little junior brother had so many killing methods that were comparable to Shen Le's. Besides, his little junior brother's killing technique was ferocious, domineering, and extremely efficient.

More importantly, in addition to the light of purification, Little Junior Brother's calabash body was also bathed in golden divine brilliance. It was the power of the world triggered by the invincible will.

[God of Fishing](#)

Chapter 3646: Slaughter, Betrayal, Cooperation (2)

The Master of Time looked from a distance and naturally saw this scene. He couldn't help but feel a little jealous.

It wasn't that he didn't know the infinite killing techniques. He could peep at time at will, had witnessed too many divine techniques, and knew all kinds of peerless power. However, his body didn't allow him to use such a powerful and terrifying divine might. This was the weakness of time.

Perhaps, with gains, there would be losses. It was most appropriate to use it on the Master of Time. However, what he was jealous of was why Han Fei could do anything. Not only did he have a terrifying physique, but he also had the Supreme Will and the path of invincibility. He could even control time and win the favor of countless treasures.

The battle was still ongoing. Although Han Fei was in the form of a calabash, he had used all his abilities. Seeing that he really couldn't escape, the peak-level dominator-level ominous creature that fled but was stopped by Han Fei shouted, "Han Fei, you forced me to do this. If you want to die, let's die together. In the end, you haven't reached the dominator level, so you must have a weakness."

The peak-level dominator-level ominous was slapped in the chest by Han Fei as it spoke. The ominous aura exploded there, and some ominous matter fell and was absorbed by the Demon Purification Pot. And the peak-level dominator-level ominous had already distanced itself from Han Fei. In the end, it didn't dare to get too close to the Demon Purification Pot.

After pulling away, an altar appeared under him. From the body of the peak-level dominator-level ominous, endless Dao Pattern runes surged out. This seemed to be some kind of intrinsic technique of his. It seemed that this peak-level dominator-level ominous wasn't born out of nowhere, but was once a strong master or had swallowed a certain strong master with extraordinary means.

As soon as the altar appeared, it blocked Han Fei's thousands of collisions in a row. Although it was full of cracks, it didn't completely shatter.

Inside the altar, the dominator-level ominous actually produced a huge ominous Dharma Idol. The surrounding black light flashed, and the entire altar began to turn into greenish-black smoke.

"Living Sacrifice, Life Stealing Divine Spell."

Han Fei retreated light-years away, his eyes shining with golden light, and the surrounding green smoke, like maggots, tried to brand on the calabash in the form of Dao Patterns. Because this green-black smoke was mostly composed of runes, even the Demon Purification Pot couldn't damage it much.

This was a typical way of fighting where you harmed the enemy by a thousand but also suffered a loss of eight hundred yourself. This guy used his own body as a living sacrifice and tried to brand a curse mark on Han Fei.

Han Fei wanted to dodge, but the green-black smoke seemed to have corrosive power and spread infinitely far. If he kept dodging, he would only let the guy escape with his broken body.

"Hmph!"

Han Fei shouted, "I guess you were a genius in the past. However, as a Supreme, how can these mere runes shake me?"

Buzz!

In the next moment, Han Fei's purple-gold calabash body expanded crazily. His huge body seemed to transform into a world, like a huge star.

From Han Fei's calabash body, infinite light burst out at the same time. The power of the starry river around him unleashed all kinds of techniques, which were extremely majestic. The momentum of the world turned into ripples that filled the sky as if they had the power to destroy everything.

As this light bloomed, in these star rivers, the endless ominous mist was purified and burned. The rune mark was dispersed by the power of the world in one fell swoop.

On Han Fei's calabash vine, the power of the world gathered, glowing and condensing, making the divine vine straighten and bloom with divine light. It was peerlessly dazzling and finally turned into the embryonic form of a knife.

Then, Han Fei waved the divine vine, and the sound of laws rumbled. This broadsword of the Heavens and Earth emitted bursts of brilliance, indestructible, and indestructible. The entangled runes were easily broken.

"Kill!"

As Han Fei roared, the broadsword of momentum cut through the chaos, the ominous mist, and the green-black smoke of the runes, cutting the peak-level dominator-level ominous that sacrificed itself in half.

This blow was too terrifying. The peak-level dominator-level ominous was even shocked. They were both peak-level dominators. How could there be such a gap?

Most of this peak-level dominator-level ominous creature's body had been annihilated, leaving only the two pieces of ominous mist that had been cut open. It was still trying to escape.

Han Fei roared and the Creation Mystic Yellow Tower rose from the distant sky, enveloping him.

The Primordial Eight Ominous Swords stood in all directions, wrapped in the invincible will. With a clang, they shattered the void.

With a thought from Han Fei, the ten vines of the Demon Purification Pot between his eyebrows shot out at the same time, penetrating the ominous mist. The vines flickered as if they were breathing. The Demon Purification Pot could seal the real ominous. How could it not seal this mere peak-level dominator-level ominous creature?

At this moment, dozens of Star Rivers away, Senior Sister Shen Le was like a Flowing Fire, smashed down by some extraordinary power.

Han Fei knew that the real ominous level must have sensed the situation here and rushed over.

However, Han Fei put on a cold smile. A blood-colored feather flew out of his body, crossed the river of stars in an instant, and burned the world.

It was Senior Sister Shen Le's Life Feather. When he fell into the Primordial Star Sea, although it had bloomed, the time it bloomed was too short.

Now, it had returned to its rightful owner and burned the world. It would definitely increase Senior Sister Shen Le's strength slightly.

Sure enough, in the sea of fire, Senior Sister Shen Le grabbed the life feather, turned it into a knife, and slashed at the surging ominous tide with all her strength.

Rumble!

As the two sides fought, the world collapsed, and an endless void storm cut off the star rivers.

Chapter 3647: Slaughter, Betrayal, Cooperation (3)

One second, two seconds, three seconds...

The roar lasted for eight seconds. The peak-level dominator-level ominous creature in front of Han Fei finally couldn't resist the terrifying suction force of the Demon Purification Pot and completely dissipated.

Han Fei guessed that the ominous matter might have just been absorbed by the Demon Purification Pot and sealed. As for how to obliterate it, he didn't know, but he couldn't care less for the time being.

On the other side, his old bodies and Senior Brother Undead had already killed all the other dominator-level ominous creatures. The main reason was that Han Fei had too many old bodies, which were equivalent to nine peak-level dominators. How could ordinary dominator-level ominous creatures withstand them?

One peak-level dominator-level ominous had restrained most of the dominator-level powerhouses of the myriad races. Han Fei's old bodies could only be stronger than him. These dominator-level ominous didn't even have a chance to restrain Han Fei's old bodies and could only die.

"Human Emperor, you will pay the price. I will turn all living beings of the myriad races into my nutrients."

Faced with the threat from far away, Han Fei sneered. "You can't do anything to me in the Primordial Star Sea. Do you think I'm afraid of you here?"

As he spoke, Han Fei, his old bodies, and Senior Brother Undead had already plunged into the dilapidated Time Sealing Sky Lock of the Master of Time.

Bang! Bang! Bang!

With an abnormally strong peak-level dominator-level powerhouse like Han Fei taking action, the more than 20 dominator-level ominous creatures and one peak-level dominator-level ominous in the Time Sealing Sky Lock were on guard.

The Master of Time shouted, "There are still some in the time predicament. I'll release them."

However, Han Fei said, "Don't. I'll go in."

In the next moment, Han Fei's five old bodies disappeared from the Time Sealing Sky Lock. At the same time, Han Fei attacked with all his strength. This was because countless cracks had already appeared in

the boundless sea of fire. The real ominous was determined to come to help. If it refused to fight Senior Sister Shen Le fiercely, it couldn't last long.

As soon as Han Fei, his old bodies, and Senior Brother Undead killed the 12th dominator-level ominous, Senior Sister Shen Le retreated again. And this time, Senior Sister Shen Le was surrounded by a large area of ominous matter. Obviously, the real ominous had paid a lot of ominous matter. He knew that he couldn't let Han Fei continue to fight like this. Han Fei's strength was already comparable to the void. Unless he was at the ominous level, it was almost impossible to suppress him.

Han Fei could see that in the world where Senior Sister Shen Le was, the Three Thousand Heavenly Daos were trying to stop the real ominous for a moment. Unfortunately, this ominous was a powerhouse above the dominator realm after all. In just one second, it pierced through that world.

"Pfft!"

Shen Le vomited blood. She could no longer withstand the corrosion of the ominous matter. The power of the Heavenly Dao returned and tried its best to wear down the ominous matter.

Han Fei sighed in his heart. In the end, it didn't work. The ominous reinforcements came too quickly. When the other party arrived with a thought, the Time Sky Sealing Lock was shattered.

Senior Brother Undead shouted in a low voice, "Little Junior Brother, keep killing."

With that, Senior Brother Undead disintegrated and his body turned into six parts. His head, body, and limbs were separated, and he charged at the real ominous at the same time.

"F*ck off."

In an instant, billions of brilliance bloomed, and infinite Dao techniques sent all six parts of Senior Brother Undead's body flying.

However, just as the ominous was about to go further, he found that six skeleton hands grabbed him in the void and suddenly pulled him into the huge black coffin.

"Humph! You want to use my things to keep me in check? Who do you think you are?"

Bang! Bang! Bang!

Three consecutive ominous tides bloomed from the black coffin. In the next moment, ominous hands grabbed the sides of the black coffin, trying to forcibly walk out.

However, how could Senior Brother Undead, who had just been sent flying, let him do as he pleased? He grabbed the coffin lid with both arms and smashed it down, and Great Dao runes burst out of the six parts of his body.

Yes, Senior Brother Undead used himself as a seal to forcibly lock down the ominous.

Boom ~

In the black coffin, a huge force came out, and ripples spread in all directions. The six parts of Senior Brother Undead's body almost bounced up.

Senior Brother Undead shouted, "Little Junior Brother, kill the enemy quickly. I can't hold on for long."

Bang! Bang! Bang!

Han Fei gritted his teeth. At this moment, he had no time to speak. His original body blocked the peak-level dominator-level ominous, and his old bodies were killing crazily.

The Master of Time was a little horrified. In the dilemma of time, Han Fei had already killed more than half of the ominous. In the Time Sealing Sky Lock, there were only six dominator-level ominous creatures and one peak-level dominator-level ominous creature left.

He didn't dare to imagine how this battle would have been fought if Han Fei hadn't appeared.

Knock, knock, knock!

As the continuous rumbling and shaking came from the black coffin, after the black coffin shook more than 30 times in a row, with a crack, a crack appeared on the coffin lid.

At this moment, there was only the ominous creature at the peak of the dominator level left.

However, at this moment, this ominous creature was besieged by nine Han Fei and forcibly cut through the River of Life. The Demon Purification Pot had already pierced through it.

Bang!

As if unable to hold back his anger anymore, a large amount of ominous matter spread out of the crack of the black coffin. Immediately afterward, the coffin lid exploded with a bang, leaving only half of it.

Five of the six parts of Senior Brother Undead's body were wrapped in ominous matter and exploded. Another head reacted quickly and retreated to Han Fei.

Han Fei said casually, "Sorry, you came out late."

Of the four peak-level dominator-level subordinates of the real ominous, three had already died, and the other should still be fighting the Death God.

[God of Fishing](#)

Chapter 3648: Slaughter, Betrayal, Cooperation (4)

After Han Fei returned this time, it could be said that he was on a killing spree. If it weren't for Hongjun's ominous body, he was confident that he could counterattack.

The ominous said coldly, "Just a peak-level dominator. Do you think I can't create another one?"

The ominous was really a little angry. He never expected Han Fei to come back so quickly and even become a calabash.

At this moment, Han Fei's tone was equally cold. "Who are you f*cking kidding? If you make one, I'll kill one. If you make a pair, I'll kill a pair. I'll see if your ominous matter is endless, and by the way, I'll see if you're so good at making."

At this moment, Han Fei's old bodies had dissipated. Faced with the real ominous, he didn't dare to be as negligent as he said. Only after fighting the ominous would he know that it was extremely difficult to fight it even just for a day. If he was accidentally tricked, there wouldn't have been anything he could do.

Senior Sister Shen Le was the example in front of him, although the moment Han Fei was taken into the Primordial Sea, he didn't see her strength because she had just made a breakthrough.

However, at the opening of the Sea of Stars in the Primordial Star Sea, he had fought the ominous with the strength of a peak-level dominator. Therefore, he knew very well how difficult it was for Senior Sister Shen Le to hold on for five days.

At this moment, Senior Sister Shen Le was resisting the corrosion of the ominous matter. It could be said that the Master of Time and Senior Brother Undead were seriously injured. Even if they weren't seriously injured, the two of them were no match for the ominous.

Only Han Fei could still fight him.

But Han Fei knew that the ominous should still have a trump card, which was related to the ominous matter. When the ominous descended in the Chaotic Star Sea through the passage that day, it took away a large amount of ominous matter. The amount of ominous matter should not only help these dominator-level ominous creatures increase their strength, but might also have other uses, but Han Fei didn't know now.

The ominous was also thinking at this moment. If he couldn't continue to suppress Shen Le, it was only a matter of time before she escaped. And Han Fei was obviously another Shen Le... No, Han Fei, who had mastered the law of life and the Demon Purification Pot, was stronger than Shen Le. In terms of killing speed, he was even stronger than Void. This was because although Void could refine the ominous matter, it would take time. But for Han Fei, he didn't need to refine the ominous matter at all. He could just absorb it.

Just as the ominous was hesitating, suddenly, a voice sounded leisurely in everyone's ears. "It seems that I really can't give you three years. In your state, even I think something will happen if I give you three days, let alone three years."

"What are you doing here?"

Han Fei frowned. Of course, he wouldn't really think that Hongjun's ominous body would give him three years. All he wanted was to temporarily hold the other party back.

But how long had it been? It had only been a moment, but this guy had returned?

Hongjun's ominous body chuckled. "Why do you think I'm here?"

Seeing this, Han Fei immediately said, "Senior Brothers, guard Senior Sister Shen Le."

Senior Brother Undead didn't speak. He didn't ask who the comer was, but carried the damaged black coffin and went to Senior Sister Shen Le. The Master of Time looked solemn as if he had guessed something. He took a deep look at Han Fei and retreated to Shen Le's side too.

As for the ominous and Hongjun's ominous body, they ignored the two of them. For them, the strong masters of the myriad races who hadn't advanced to the peak of the dominator realm weren't enough to be a threat.

The real ominous suddenly said, "Hongjun, did you deliberately let him back?"

Hongjun's ominous body chuckled. "If I deliberately let him back, why would I interfere in your war?"

"Do you think I'll believe you?"

The ominous was not stupid. Hongjun's ominous body used Han Fei to force him to leave the Primordial Star Sea. However, he also knew that he controlled a lot of ominous matter and had too strong a military force, so it was completely possible for him to release Han Fei and restrain him so that he could focus on conquering the Guardian Divine Realm. Once the opening in the Sea of Stars was gone, Hongjun's ominous body only needed to seize the Guardian Divine Realm to become the first winner, or perhaps the only winner.

Although Hongjun's ominous body did think so, he didn't expect Han Fei to rather face two ominous-level ominous creatures, multiple peak-level dominator-level ominous creatures, and hundreds of dominator-level ominous creatures than open the passage between the two worlds. In his opinion, this was simply courting death.

But now that everything had happened, the plan had been messed up, and Hongjun's ominous body could only adapt to the situation and take out a backup plan.

He said, "Ominous, it's time for the two of us to join forces. Why don't we cooperate again?"

Although the ominous was unwilling, once Hongjun's ominous body didn't interfere and Han Fei was here, it wouldn't be easy for him to conquer the Sea Realm.

"How can we cooperate?"

Hongjun's ominous body smiled faintly. "We've been wary of each other for too long. Why don't we advance at the same time?"

"Upgrade at the same time?"

Han Fei's heart was full of doubts. One couldn't open the Path of No Return, and the other's combat power wasn't enough to suppress him and Senior Sister Shen Le, and they couldn't work together to conquer a Sea of Stars first.

So, how could they advance at the same time?

Hongjun's ominous body said, "It's not too much for me to take half of your ominous matter, right? After all, my sacrifice is huge."

"Okay!"

The ominous's reaction was extremely decisive, as if he knew that this was already the ultimate battle. Although the result might not be as perfect as he thought, he had to make a choice. Compared to continuing to fight the myriad races, he would rather level up together with Hongjun's ominous body.

God of Fishing

Chapter 3649: Slaughter, Betrayal, Cooperation (5)

Hongjun's ominous body continued, "Also, give me half of that thing."

The ominous suddenly looked at Hongjun's ominous body. "Your appetite is too big."

Hongjun's ominous body chuckled and his lips curled into a sinister smile. "Without that thing, what's the use of me taking the ominous substance?"

This time, the ominous's expression was a little ugly, but after thinking for less than a second, he said, "Okay!"

Seeing that the two ominous creatures had reached an agreement, Han Fei's heart sank. Although he didn't know how the other party would advance together or what the thing they were talking about was, it was obvious that if Hongjun's ominous body wanted to devour the Guardian Divine Realm, opening the passage between the two worlds was not the only way.

Buzz!

At this moment, Han Fei saw a large amount of ominous substances emerging from the ominous' body, and Hongjun's ominous body was also receiving the ominous matter in front of Han Fei.

"Humph! Dividing the Chaotic Star Sea and the Primordial Star Sea in front of me? Do you think I don't exist?"

Han Fei suddenly attacked. The ten vines of the Demon Purification Pot danced wildly and immediately rushed at the two of them. It wasn't that Han Fei wanted to attack, but he had no choice. He didn't know what the two of them were planning, but they clearly understood each other's meaning.

However, in the face of the two ominous-level powerhouses, the two of them each summoned an ominous mist. Like two dark seas, they turned into a huge wave of stars and sent Han Fei flying.

Hongjun's ominous body said, "Don't waste your effort. You can only restrain one of us. If you want to restrain both of us at the same time, not to mention that you have the Demon Purification Pot, even if you have the Creation Jade Plate, it won't be enough."

With that, Hongjun looked at the ominous. "Where is that thing?"

The ominous said coldly, "I'll give it to you the moment this plan succeeds."

Han Fei still wanted to attack again, only to see that the two of them had completed the preliminary deal and the ominous matter had been given out.

Swish! Swish! Swish!

Before Han Fei had the time to curse, at this moment, three peak-level dominator-level ominous creatures appeared in the void in a row. At the same time, nearly fifty peak-level dominator-level ominous creatures blocked Han Fei's way.

"No, four."

At that moment, Han Fei saw the Death God fighting another ominous creature at the peak of the dominator realm.

Han Fei's face changed slightly. Something was wrong. Why were all the strong masters of the Sea Realm here? He roared, "Death God, retreat. Don't come over."

Bang!

As soon as Han Fei said so, the Death God moved horizontally with a thought. He didn't have time to react. Although he didn't know what the reminder meant, the calabash was clearly on the myriad races' side.

However, the peak-level dominator-level ominous fighting the Death God plunged into this star river.

At the moment Han Fei shouted, Hongjun's ominous body suddenly looked at Han Fei and grinned. "Collapse."

Boom! Boom!

The entire Sea of Stars, including Senior Sister Shen Le and the others, began to collapse.

Han Fei's first reaction was to teleport out of here. However, he discovered that this star river was no longer affected by the origin power of the star river. At the same time, the Heavenly Dao of this star river collapsed and completely turned into an independent star river, as if it had been sealed with a barrier.

Han Fei suddenly looked at Hongjun's ominous body. "So, you have been setting up something on the Star River since just now?"

Hongjun smiled. "Otherwise, do you really think I'll give you three years if I compromise with you?"

Buzz!

The Star River collapsed into the Endless Void, and billions of stars disappeared without a trace. The Death God was horrified. Fortunately, he stopped in time. Otherwise, he would have collapsed with the Star River.

However, where did they go?

[God of Fishing](#)

Chapter 3650: Banishment, Path of No Return (1)

Rumble!

This was the first time Han Fei had seen an entire star river collapse.

However, the moment they fell into the Endless Void, Han Fei discovered that this was not a void turbulence, but a directional void channel wrapped in ominous mist.

Feeling that this passage was filled with Star River Origin Power, Han Fei suddenly realized that this was clearly a Star River Origin Power space condensed from countless black holes. It was the fastest shortcut for dominators to quickly travel in all directions of the Chaotic Star Sea.

"Where is Hongjun's ominous body going to take me, Senior Sister Shen Le and the others?"

Han Fei was puzzled. He had thought that this collapsed Star River would eventually be trapped in the endless ominous mist, and the ominous and Hongjun's ominous body would besiege him in the boundless ominous mist.

If that was all, Han Fei was confident that he could still leave. However, the other party was clearly using the Heavenly Dao they had already controlled to forcibly teleport the Sea of Stars.

However, why did they teleport the Star River? How could it be possible to seal and suppress Han Fei and Senior Sister Shen Le in the Chaotic Star Sea?

But in the next moment, when this star river reappeared in the Sea of Stars, the first thing Han Fei saw was the Path of No Return.

Yes, when he saw the Path of No Return, Han Fei couldn't help but be shocked. He immediately understood the other party's purpose. These two guys wanted to exile him, Senior Sister Shen Le, and the others to the Path of No Return.

No one could return from the Path of No Return. This was a law that no one could break in the Chaotic Star Sea for several eras. Once he and Senior Sister Shen Le fell into this Path of No Return, the destruction of the Sea Realm would be inevitable.

At this moment, Han Fei's mind became clear. Why did the other party want to gather the strong masters of the Sea Realm together? Why did these two ominous-level powerhouses personally take action with four peak-level dominator-level ominous creatures and more than 50 dominator-level ominous creatures?

Hongjun's ominous body had already thought of a countermeasure. The other party was clearly trying to send them into the Path of No Return.

It had always been the strong masters of the myriad races who led the ominous creatures to the Path of No Return. But why couldn't it be the ominous creatures who led the strong masters of the myriad races to the Path of No Return?

Not only Han Fei, but Senior Brother Undead and the Master of Time also realized this.

At this moment, Senior Brother Undead was helping Senior Sister Shen Le absorb the ominous matter with the black coffin. Although Senior Sister Shen Le didn't speak and was still resisting, she clearly realized what had happened. She was also using all her strength, trying to break through the seal of the ominous matter.

Han Fei knew that in the battle among the strong, victory or defeat lay in the seconds. Senior Sister Shen Le might be able to break through the ominous matter soon, but they would be sent to the Path of No Return even sooner. He immediately understood that he couldn't just sit idle.

Han Fei roared, and the nine Time Rivers lined up. At this moment, he couldn't have too many scruples. He couldn't resist the two ominous-level and four peak-level dominators alone. He had to use the Time Division Technique.

However, as soon as the nine Time Rivers appeared, Hongjun's ominous body snorted coldly. "I know you have many means, but it's too late to use this technique now."

Hongjun and the ominous both triggered the laws in the ominous mist at the same time and messed up the Great Dao laws here. The law of time was one of the many laws after all. How could the law of time not be messed up?

Immediately, the nine Time Rivers behind Han Fei collapsed at the same time. In the end, he couldn't use the Time Division Technique.

Han Fei wasn't surprised about this. After all, these two were ominous-level. Even without them, even if he faced the four peak-level dominators alone, it would be difficult for him to use the Time Division Technique.

This was because he needed his original body to suppress the other party and not give the other party a chance to shake the law and the Time River before he could complete the Time Division Technique.

As for peak-level dominators, they were actually in the same realm as him. As long as one of them couldn't be suppressed, the other party could interrupt the Time Splitting Technique in the same way.

At this moment, Han Fei couldn't help but think of the Daoless Realm above the dominator realm. If he could reach that realm, he could give birth to his own Great Dao and condense a law. That way, he wouldn't be restrained by this.

Taking advantage of the moment when the two ominous-level ominous creatures attacked at the same time, Han Fei took the opportunity to try to kill the way to Senior Sister Shen Le's side. However, the four peak-level dominators wouldn't give him a chance to approach Senior Sister Shen Le.

However, Han Fei had to rush over and help Senior Sister Shen Le get out of this predicament before he had a chance.

Holding the Demon Purification Pot, Han Fei bathed in the divine light of purification in his invincible body and rammed at it.

However, this time, one of the four peak-level dominator ominous creatures actually approached the Demon Purification Pot head-on.

This scene stunned Han Fei, and then his heart turned cold.

Under normal circumstances, a peak-level dominator-level ominous creature couldn't resist the Demon Purification Pot at all. It would only take ten seconds for the Ten Vine Demon Purification Pot to absorb a peak-level dominator-level ominous creature. This was a fundamental suppression. Therefore, under normal circumstances, no peak-level dominator-level ominous creature would be stupid enough to fight Han Fei in close combat.

However, at this moment, ten seconds was extremely important. The other party was clearly prepared to sacrifice themselves to hold back the Demon Purification Pot and buy more than ten seconds for the ominous and Hongjun's ominous bodies.
