

**G O F 3651**

**God of Fishing**

**Chapter 3651: Banishment, Path of No Return (2)**

Therefore, after Han Fei understood what the other party meant, his heart turned cold.

However, it was too late to stop now. Han Fei was attacking as fast as he could, and the other party was also courting death as fast as he could.

"Puff! Puff! Puff!"

In the next moment, the ten vines pierced through this ominous creature at the peak of the dominator level.

However, Han Fei couldn't be happy at all, because all of this was still part of their plan.

At this moment, the ominous bodies of the ominous and Hongjun had already reacted. The two of them blocked Han Fei's way in unison.

They knew Han Fei's intentions very well. Remove the ominous matter around Shen Le so that she could continue to fight. However, it was a beautiful idea, but they couldn't let Han Fei realize it.

Boom, Boom, Boom ~

Raging flames suddenly rose from the surface of the bodies of the two ominous-level ominous creatures at the same time, burning fiercely, but it was not dazzling. There were only black smoke twisting in the void.

As the two of them attacked, wherever they attacked, the void would collapse, causing this world to wail, tremble, and twist.

Han Fei counterattacked angrily. On the calabash, Great Dao runes kept overflowing, turning into broadswords that slashed out.

Unfortunately, even though Han Fei used all his combat power, his calabash body was still retreating and staggering like a tumbler. The divine vine lashed out, breaking the law and evil, but it was grabbed by the real ominous and crushed a part of it on the spot. If it weren't for the effect of the Invincible Body, this part would have been contaminated by the ominous substance.

The two sides were fighting fiercely in the air, and Senior Brother Undead shouted in a low voice, "Time, guard Shen Le."

Although he was not strong enough, Senior Brother Undead resolutely attacked. However, the black coffin was broken, and Senior Brother Undead hadn't reached the peak of the dominator realm, so he was only slapped back billions of kilometers by Hongjun's ominous body. Wherever he passed, the void collapsed.

Immediately afterward, Hongjun's ominous body said to one of his peak-level dominator-level ominous subordinates, "Go and restrain the three of them."

"Tweet ~"

Shen Le erupted, and her Qi and blood surged, forcibly charging at the ominous matter. However, this thing couldn't be broken at any time with all her strength. No matter how anxious Shen Le was, it was useless.

As for the Master of Time, he was not good at fighting in the first place. The power of the Time Temple was not in one-on-one battles, but in large-scale killing and guarding. Therefore, the only thing he could do was to set up the Time Sky Sealing Lock.

He could revive ancient creatures, but even ancient creatures didn't have a peak-level dominator among them, so it was useless whether he revived ancient creatures or not.

In this situation, although Senior Brother Undead tried his best to fight the peak-level dominator-level ominous, he couldn't enter Han Fei's battlefield.

At this moment, Han Fei was forced to retreat step by step by the two ominous figures. Even his Invincible Body had dimmed. The Invincible Body was immune to both body and soul attacks and was not afraid of war. But when the power it carried exceeded its limit, it would be broken.

If it was just one of them, Han Fei was confident that he could fight him without being defeated. However, at this moment, he felt helpless.

"Han Fei, even if you use all your strength, it's impossible for you to fight the two of us at the same time. This is the limit of this Sea of Stars. You'd better obediently seek a breakthrough on the Path of No Return!"

The ominous said in a cold tone.

Crack~

Cracks appeared on Han Fei's calabash body, and the Invincible Body was already flashing, which meant that it couldn't hold on for long.

Han Fei roared, "Even if I go, I'll take you two with me."

"Hahaha!"

Hongjun's ominous body raised his hand and turned into an ominous sword embryo. Black light devoured people, and then he slashed at the crack on Han Fei's calabash body.

He said, "Do you think you can really keep me in check without opening the passage between the two worlds? Now that things have come to this point, I'm not afraid to tell you that the Creation Jade Plate is not indestructible. You can't protect either the Chaotic Star Sea or the Primordial Star Sea. You can't kill me or the ominous."

Clank ~

As the sword slashed at the calabash body, billions of cracks appeared in the surrounding void, like cracked glass. The ominous-level attack was extremely sharp, almost pushing Han Fei to the edge of nowhere.

Rumble!

In the next moment, Han Fei turned into billions of lightning marks, outlined a boundless lightning net, and shouted, "I said that if you want to send me away, you'll have to come with me."

"Humph! With your own lightning technique, how long can you last?"

Two ominous-level ominous creatures rolled up an ominous tide at the same time, spreading from the distant Star River. The lightning technique could purify the ominous mist, and the ominous mist could also destroy the lightning technique.

In the darkness, lightning intertwined and purified. Han Fei recited in his heart, It's been five seconds. In another five seconds, the Demon Purification Pot will completely swallow the peak-level dominator ominous.

However, at this moment, in the boundless ominous mist, the remaining two peak-level dominator-level ominous creatures burned at the same time. A blood-colored altar appeared under them, and endless Great Dao runes surged out of their bodies. Those Great Dao runes were weaving into chains for unknown purposes. They were probably for sealing Han Fei.

At the same time, the ominous body of Bu Xiang and Hongjun sprinkled out a large amount of ominous matter. Judging from its size, it was twice as big as those used on Senior Sister Shen Le.

If they were contained in the small bottle he had seen before, there might be dozens of bottles.

"How rich."

Although Han Fei didn't know how useful these ominous things were to ominous creatures, they were definitely extremely precious.

### **God of Fishing**

#### **Chapter 3652: Banishment, Path of No Return (3)**

After these two masses of ominous matter were thrown out, the Demon Purification Pot was restrained, the Invincible Body was extremely unstable, and the two peak-level dominator-level ominous creatures were holding back their ultimate moves.

Han Fei immediately knew that if he couldn't fight back, he would definitely be beaten into the Path of No Return.

Han Fei shouted, "If you exile me, you will never be able to open the passage between the two worlds."

"Really?"

Hongjun's ominous body sneered. "The ominous can still descend into the Chaotic Star Sea after being trapped by the World Divine Mirror for many eras. Why do you think it's like this?"

The World Divine Mirror? Han Fei thought of the three treasures that the mysterious woman used to seal the ominous, the Demon Purification Pot, the Creation Jade Plate, and a broken mirror. It turned out to be called the World Divine Mirror.

However, he had no time to think about this now, because Hongjun's ominous body's words made Han Fei realize that the ominous had a way to cross the seal of a treasure at the level of the Demon Purification Pot. If he could cross the World Divine Mirror, he could cross the Creation Jade Plate.

In the past, Hongjun's ominous body couldn't get this because the real ominous didn't want to give it to him.

And now, the real ominous had no choice. If he couldn't take down the Chaotic Star Sea this time, what awaited him was still endless war.

However, with the help of Hongjun's ominous body, although he could only obtain the Chaotic Star Sea, it was better than endless war. Otherwise, if he completely descended into the Chaotic Star Sea and the myriad races thought of some way to deal with him, he might not even be able to obtain the Chaotic Star Sea.

Han Fei immediately understood that there must be something in the ominous's hand, or a certain method, that could break the seal of the World Divine Mirror and the Creation Jade Plate.

But if that was the case, he couldn't leave even more. If a high-level combatant like him left, what would happen to the Sea Realm? It was mainly Xia Xiaochan, Yiyi, Ximen Linglan, his parents, Zhang Xuanyu, and his senior brothers and sisters.

If Senior Sister Shen Le was exiled at the same time as him, the myriad races in the Chaotic Star Sea and the Infinite Ocean would really be doomed.

Han Fei's calabash body trembled violently. "Is this the ultimate battle?"

"No, I'm unwilling to give up. I've worked hard to grow and dare not be negligent. It wasn't easy for me to stand at the top of the Sea of Stars, at the same level as the sky. How can I not even protect the people I want to protect?"

"Roar! Do you really think I don't have any trump cards? Come on! Let's see if this ominous matter can corrode me."

Buzz!

The purple-gold calabash that Han Fei transformed into suddenly became abnormally dazzling. The chaotic laws of the Great Dao here were illuminated by this divine brilliance like a rain of light.

Han Fei rushed into the ominous matter, which was completely beyond the expectations of the ominous and Hongjun. They didn't understand Han Fei's stupid behavior. Was he courting death?

But in the next moment, the world trembled, and the light of the Great Dao was dazzling. An overwhelming will resonated with the world.

"Explode ~"

Ka ka ka ~

Countless cracks appeared on the purple-gold calabash. Its source power surged with a terrifying momentum. This didn't seem to be a terrifying divine might that could be activated with 49 pieces of Star River source power.

Yes, Han Fei's final trump card was to detonate the divine vine, but this was not to detonate himself. On the divine vine, he had already finished absorbing the Six Heritage Fruit. He had also comprehended the Daoless Realm. He had also obtained the infinite power contained in the Six Heritage Fruit. Only the divine vine itself was left, which contained infinite power.

Han Fei had planned to swallow it slowly and wait for it to completely absorb the power of the divine vine before breaking out of the cocoon.

However, the other party didn't give him a chance. He knew that if he didn't break out of the cocoon now, he might really not have a chance.

Seeing this, the real ominous' expression changed drastically. He suddenly pounced forward, and something suddenly appeared in his hand, as if he was holding a broken arm.

As soon as this arm appeared, the ominous mist in the world almost instantly faded a lot. In the next moment, it turned into a big hand that covered the river of stars and slapped at Han Fei heavily.

Rumble!

A violent explosion swept across the starry sky. Han Fei detonated the divine vine that had given birth to the six-lineage fruit twice in a row, this supreme treasure that had produced the six lineages.

At this moment, the law storm was whistling, billions of brilliance were flashing, the world was collapsing, the star rivers was shattering, and the peak-level dominator-level ominous creature sucked in by the Demon Purification Pot was destroyed on the spot, dissipating with the ominous matter.

More than 90% of the two masses of ominous matter had been crushed and purified by this shocking power.

Even the ominous matter that enveloped Shen Le was purified by nearly 50%.

Hongjun's ominous body was shocked. This guy was even more difficult to deal with than Li Daoyi and the others. Although he didn't expect to blow Han Fei into the Path of No Return so easily, he didn't expect to pay such a huge price.

Sacrificing a peak-level dominator-level ominous in exchange for one of Han Fei's trump cards.

In the center of the terrifying explosion, a figure exuding monstrous Qi and blood stood proudly in the air. He jumped up, covered in cracks, and didn't care.

At this moment, Han Fei stared at the arm in the real ominous hand.

If this was just an ominous ultimate move, Han Fei wouldn't have cared. However, he detonated the divine vine and unleashed such a terrifying divine might, but it was blocked. He was indignant.

[God of Fishing](#)

**Chapter 3653: Banishment, Path of No Return (4)**

Yes, this explosion almost shattered this star river. Countless big stars exploded and turned into dust in the Sea of Stars. However, the altar formed by the two peak-level dominators was still there. The ominous bodies of the ominous and Hongjun weren't even shaken back much. All of this was thanks to the broken arm.

This hand seemed to have been cut off by someone. It was unknown how many years had passed, but it was still filled with rich life power. At the cut, blood was still dripping.

The appearance of the drop of blood shocked Han Fei. It was an ominous substance.

As for the hand, it had been dripping with blood for a long time. It could be seen that the hand had the ability to regenerate and was still alive.

Han Fei was shocked. "What is this?"

This time, the real ominous said, "You won't know what it is even if I tell you. This vast Sea of Stars limits your vision. Don't you know that on the ultimate path, there should be no concerns?"

"Kill ~"

In this violent storm of laws, in this collapsed star river, the two ominous-level ominous creatures attacked again, ruthless and domineering. Han Fei paid the price of the divine vine, but he was also seriously injured.

At this moment, the law was chaotic. Even the law of life was very troublesome to guide.

The two sides fought fiercely for dozens of seconds, but this time, the two ominous-level ominous creatures didn't use that arm again. Obviously, although that thing was powerful, it probably cost a lot to use it once.

However, as long as Han Fei could be sent to the Path of No Return, it was worth it.

For a moment, Han Fei's blood splashed across the sea, and his body was almost torn apart.

In particular, the death of a peak-level dominator-level ominous creature was exchanged for the suicide charge of more than 50 dominator-level ominous creatures.

Yes, these dominator-level ominous creatures charged at Han Fei desperately, letting the Demon Purification Pot penetrate them. They didn't even wait for the Demon Purification Pot to penetrate them, but took the initiative to crash into the Demon Purification Pot.

Although Han Fei was strong and the Demon Purification Pot could restrain the ominous, it couldn't resist the suicidal charge of two ominous-level and so many dominator-level powerhouses.

"Tweet ~"

At this moment, a clear cry resounded throughout the world.

Because Han Fei didn't hesitate to blow up the divine vine just now to purify part of the ominous matter that enveloped Senior Sister Shen Le, Senior Sister Shen Le finally broke through the shackles of the ominous matter.

"Little Junior Brother, hold on."

Whoosh!

Fiery flames burned the sky, and the collapsed Great Dao here was burning. Endless Qi and blood burst out of Senior Sister Shen Le's body. Wherever the blood and Qi spread, killing intent was like fire, unstoppable.

Hongjun's ominous body snorted coldly. "I'll leave Shen Le to you."

The real ominous didn't say anything. Compared to Han Fei, he still felt that Shen Le was easier to beat. After all, Shen Le didn't master the law of life, the ridiculously strong Art of Invincibility, or a treasure like the Demon Purification Pot.

Of course, he also knew why Hongjun's ominous body chose to face Han Fei in person. He was just afraid that he wouldn't give that thing to him.

In fact, the ominous knew that if he could really exile Han Fei with his own hands, he would never give the thing to Hongjun's ominous body.

Therefore, even if Hongjun's ominous body had to take the risk, he had to take action himself.

The ominous took action personally and instantly faced Shen Le. As soon as the two collided, they fought their way out of the turbulent Star River.

Senior Sister Shen Le shouted with anger and dazzling Qi and blood. She was confident that her killing Dao was unparalleled, but she didn't have Han Fei's great luck.

Now that Eldest Senior Brother had left, Shen Le knew very well that she couldn't leave all the burden to her little junior brother. More than 8,000 years ago, she watched her little junior brother fall in front of her eyes.

More than 8,000 years later, she didn't want that scene to happen again.

However, even though Shen Le tried his best, the ominous didn't take a step back.

On Han Fei's side, because the real ominous had left, the pressure was greatly reduced. However, the two peak-level dominator-level ominous creatures that had been setting up a trap suddenly attacked.

On the altar under the two of them, billions of chains intertwined in the void, and they turned into nothingness.

In the next moment, the Heavenly Dao couldn't be absorbed, and black thunderclouds gathered.

Han Fei's heart trembled. "Is this... the Sky Transformation?"

Han Fei was a little horrified. He never expected that these two ominous creatures at the peak of the dominator level would choose the Sky Transformation.

It turned out that the ominous could also transform into the sky?

In the next moment, Han Fei roared, "Not to mention whether you can succeed or not, even if these two people can transform into the Heavenly Dao, can they definitely suppress me?"

However, Hongjun's ominous body smiled contemptuously. "I don't need to suppress you for long. As long as I can suppress you for one second, it's enough."

At that moment, Han Fei was horrified. Endless Heavenly Dao Chains descended from the sky. Although he could dodge these Heavenly Dao Chains with his amazing footwork, he couldn't dodge this world!

The two peak-level dominator-level ominous creatures dissipated at the same time, and Han Fei seemed to have instantly fallen into some quagmire. He was finally entangled by the Heavenly Dao Chains and couldn't move at all.

Although Senior Sister Shen Le's Qi and blood had already spread over, they dissipated as soon as they touched this world.

This was no longer fighting the ominous. At this moment, they were all fighting the world.

In an instant, the situation almost collapsed. Han Fei was imprisoned and had no way out.

At this moment, Hongjun's ominous body shouted, "Ominous, give me the hand."

And the ominous who was fighting Senior Sister Shen Le didn't hesitate at this moment. One of the two peak-level dominator-level ominous was his person, controlled by him, and controlled a large amount of ominous matter. Therefore, he wasn't afraid that Hongjun's ominous body would go back on its word. If Hongjun's ominous body really went back on its word, at such a close distance, he could also push Han Fei into the Path of No Return.

Swish ~

The ominous threw the arm Han Fei saw just now to Hongjun's ominous body.

Seeing this, Han Fei's eyes almost popped out. Although he didn't know whose arm it was, he knew that this thing must not fall into the hands of Hongjun's ominous body.

"Steal, steal, steal ~"

He activated the Void Stealing Technique one after another. However, as soon as he activated it, Han Fei suffered three backlashes in a row and vomited three mouthfuls of essence blood.

Hongjun's ominous body had already grabbed the arm and looked at Han Fei disdainfully. "You overestimate yourself. You don't know what this is at all."

Bang!

In the next moment, the Heavenly Dao formed by the two peak-level dominators finally took the last step and took the trapped Han Fei onto the Path of No Return.

"Roar!"

Han Fei roared. He was unreconciled. He had just promised Han Chanyi, Xia Xiaochan, and Ximen Linglan. How could he go back on his word?

"Collect."

At that moment, a disc appeared in the sky from the Endless Void.

Han Fei didn't know if this method would work. If the divine vine exploded, he would have no trump cards left. Therefore, at the moment the divine vine exploded, Han Fei hid the Creation Star Compass in the Endless Void, waiting to activate it.

And this was the last moment.

The Creation Star Compass swallowed the Star River. The real ominous immediately wanted to retreat.

However, Hongjun's ominous body laughed. With one hand, he held the infinite power of the world to stop the ominous from escaping. With the other hand, he swept across the void with his broken arm, cutting off a section of the world that was about to be swallowed by the Creation Star Compass.

"Hahaha!"

Hongjun's ominous body laughed out loud. "I already knew of the existence of the Creation Star Compass. Do you think I didn't know it? It's just that this idiot, the ominous, thought he was strong and underestimated these small tricks. Shen Le, I'm not very interested in your Chaotic Star Sea, but I don't have the time to help you. Whether you can suppress the ominous depends on your own ability."

At this moment, the ominous still had a trace of spiritual will that hadn't been completely swallowed. He roared, "Han Fei, let go of the Creation Star Compass. At least I can help you destroy Hongjun's ominous body."

At this moment, Han Fei had almost been dragged onto the Path of No Return. A misty water vapor almost covered him.

Han Fei roared, "We can't release the ominous, nor can we release Hongjun's ominous body."

Immediately afterward, Han Fei condensed the last wisp of his spiritual will and left the last divine sound in front of the dam of the Path of No Return.

The sound wave surged. "Primordial Chaos has no Dao. When the world was first created, all things were born and myriad Daos were born. If they don't enter the world, I'll be the Dao. This is... the path to surpass dominators..."

In the next moment, Han Fei's figure was completely covered by the mist and disappeared on the Path of No Return.

### [God of Fishing](#)

#### **Chapter 3654: Great Dao Spiritual Body (1)**

On the Path of No Return, from the dam, the distant sky was enshrouded in multicolored light, and there seemed to be flying dragons and dancing phoenixes.

But on the Path of No Return, Han Fei saw a boundless sea, where water vapor was steaming, furious waves were surging, and waves were rising and falling.

As soon as Han Fei fell into it, he felt that the restraining power of the Heavenly Dao on his body had loosened. The two peak-level dominator ominous creatures that sacrificed themselves and transformed into the Heavenly Dao turned into colorful light of the Great Dao that filled the sky under the impact of the steaming water vapor here. Then, these Great Daos began to collapse and melt.

Whoosh!

A wave of water vapor surged and swept away the ominous mist in one fell swoop. Han Fei was sucked into the wave with some ominous matter.

Buzz!

At that moment, Han Fei felt the infinite Great Dao slapping him. Laws filled the sky, impacting his body and breaking laws.

"What a terrifying wave?"

Han Fei hurriedly activated the Invincible Body, because he discovered, to his shock, that this sea flowed with the Great Dao, and the waves undulated to form tides. The waves slapping here were laws, endless.

The Great Dao Tide and the waves of laws. Every wave was like the power of a star river impacting.

If one wasn't a dominator, how could he dare to set foot here? A single wave would be enough to destroy a Sea Quelling God. Even a dominator probably couldn't cross far here.

This was because Han Fei had already seen some broken ancient corpses precipitating in the Sea of Great Dao. These corpses looked like they had just died. Some had been pierced through, leaving mysterious holes on their bodies. Some had broken bones as if they had been whipped by a huge force, and some had broken bodies with claw marks all over their bodies.

"Is there a creature on this Path of No Return?"

Not all of these people were dominators. In the Primordial Era, many people had actually embarked on the Path of No Return, but they didn't know the conditions to embark on this path at all. They had to be at least Sea Quelling Gods to stop here for a moment.

However, it was obvious that many people just came here without knowing much about this place and then were swept into the sea by the Great Dao Tide, killed at the entrance by the waves of the law.

However, they probably wouldn't kill each other, because they might not even have a chance to fight here. Therefore, how these corpses were injured was still a mystery.

This was just the first thing Han Fei saw when he fell on the Path of No Return. Activating the Invincible Body, Han Fei immediately turned around and looked in the direction he came from. If possible, he certainly wanted to go back. Although he was indeed curious about the Path of No Return, he was not in the mood now, because there were still many people waiting for him.

Han Fei looked back and found that the dam was still there, visible to the naked eye. He was excited and couldn't help but look forward to it.

Although he couldn't return once he stepped on the Path of No Return, the dam was clearly there. He had just come in and was almost still on the shore. As long as he climbed up the dam, he had a chance to successfully return to the Chaotic Star Sea.

As for why the predecessors said that there was no way to return, it might be because the people who came in were either not strong enough and were slapped to death, or they pursued the supreme Great Dao, went deep into the Path of No Return, and fell into an even more terrifying situation, so they couldn't return.

As for him, he was a peak-level supreme dominator. If he didn't go deeper, why couldn't he return?

Han Fei stepped back on the road. However, before he took two steps, the Great Dao Tide that hit the dam surged back.

Bang!

Han Fei seemed to be baptized by infinite force. Not only did he fail to take a few steps forward, but he was also knocked back seven or eight steps by this terrifying force.

"Humph! I'm not afraid of the Heavenly Dao or the myriad Daos. This wave is just a little stronger. What can it do to me? Kill..."

Han Fei roared and took dozens of steps forward with his hand as a knife.

These dozens of steps were the limit of what Han Fei could do. In addition to the Great Dao tide and the surging tide of laws, there was also endless mist above the sea. This mist seemed to be an extremely special power. Every wisp of water vapor seemed to be as heavy as a star. Therefore, if Han Fei wanted to go back, he had to first withstand the heavy pressure of the water vapor.

But this was not a reason to stop Han Fei.

"Puff! Puff! Puff!"

The falling tide was cut in three places by Han Fei in a row. This scene gave Han Fei hope.

One slash, two slashes, three slashes.

Han Fei slashed thousands of times, and along the way, he saw corpses one after another. Obviously, many people immediately chose to go back after coming in.

However, it was not easy to return. In the end, they died here.

Han Fei was getting closer and closer to the dam, and his heart was even more excited. However, when he really stepped not far from the dam, he suddenly stopped. He couldn't see the Chaotic Star Sea through the dam.

Yes, the dam seemed to block his vision and all his perception. Han Fei pointed his hands and the Sword of Shattering suddenly shot out.

But this time, it wasn't as smooth as before. When the sword hit the edge of the dam, fist light shot out of the dam one after another. Han Fei didn't know where the fist light came from, but it appeared just like that and stopped him from returning.

"I'm going home. Why are you stopping me?"

Han Fei no longer attacked from a distance. He immediately pounced forward and threw out thousands of fist lights in an instant. However, Han Fei's attempt to cross the dam seemed to have triggered some mysterious power.

### God of Fishing

#### **Chapter 3655: Great Dao Spiritual Body (2)**

All kinds of attacks appeared from behind the dam. Fist light, sword Qi, knife intent, axe marks, and claw marks were endless.

"Kill ~"

Endless Great Dao runes also appeared around Han Fei, turning into dazzling knife lights that collided with the power gushing out of the dam.

Bang! Bang! Bang!

The explosions were continuous, and the attacks of the two sides had almost filled this place. However, it wasn't like in the Sea of Stars here. In the Chaotic Star Sea or the Primordial Star Sea, the collision of such extraordinary powers was enough to crush a star river.

However, here, it was just an ordinary explosion. After all the power dispersed, it only turned into the runes of the Great Dao and was sucked into the tide.

Han Fei moved forward with difficulty under these obstacles. He was very close to the dam, only a thousand steps away. But at this moment, he saw the Great Dao Tide floating in the air and stopping, turning into a huge wave and tsunami.

"F\*ck!"

Han Fei couldn't help but curse. Not only was there a Great Dao Tide, but there was also such a Great Dao tsunami?

In the blink of an eye, Han Fei roared and activated his invincible will to the extreme. At the same time, he summoned the Creation Mystic Yellow Tower and stood in front of him.

Whoosh!

The tsunami tide, the endless Great Dao, the surging laws, and the misty water vapor destroyed all the attacks that Han Fei had launched before. The powerful tide slapped at Han Fei ferociously, and the Creation Mystic Yellow Tower emitted sizzling sounds as light flashed on it.

Crack ~ Bam ~

In the end, it only lasted for eight seconds before the Creation Mystic Yellow Tower shattered, and the entire tower was broken in half.

The Creation Mystic Yellow Tower collapsed, and the tsunami tide hit Han Fei.

Ka ka ka ~

Han Fei retreated all the way. Only by constantly retreating could he digest this crazy tsunami.

In just a moment, Han Fei retreated past his starting point and was pushed all the way to the depths of the Path of No Return by the tsunami tide.

Crack~

The Invincible Body was broken, and in the blink of an eye, countless fine cracks appeared on Han Fei's body. Fortunately, there was no shortage of law power here, so with a thought from Han Fei, the law of life kept repairing itself.

Unfortunately, when the tsunami stopped, Han Fei was seven or eight times further away from the dam than before.

"Ahhh~"

Han Fei clenched his fist in anger and suddenly punched the flowing sea of the Great Dao, shattering the Great Dao under his feet, but in an instant, the sea returned to normal.

Han Fei seemed to understand why he couldn't return from this path. It was because it was too difficult to return. Even though he had 49 pieces of Star River Origin Power, when facing the tsunami, he felt that he was facing an entire Sea of Stars. He felt lucky that he wasn't slapped to death on the spot.

It was a pity that the Creation Mystic Yellow Tower, a top Supreme Nature Treasure, collapsed on the Path of No Return.

This was the first time Han Fei had seen a Supreme Nature Treasure-level treasure collapse so completely.

In addition, Han Fei also made some other discoveries in this tsunami, which was that there were some unknown Great Daos and unknown laws here that Han Fei had never seen.

Besides, there was something wrong with the steaming mist. Not only was it as heavy as a star, but it also seemed to be sharper than the Infinity Water that had reached the level of an ultra-quality Nature Spiritual Treasure.

When the tsunami came just now, the first thing that rushed over was water vapor, which was extremely sharp. It was also one of the main forces to destroy the Creation Mystic Yellow Tower.

At this moment, the law of life surged on Han Fei's body, and divine brilliance spread. He wondered if he should try again. Perhaps there was only one tsunami of that level?

This time, Han Fei was prepared. He left the remnants of the lightning technique along the way as a springboard for lightning jumping, so that he wouldn't have to use his Supreme Nature Treasures.

An hour later.

Bang!

The tsunami wave came again. Thunder arcs flashed and jumped. When the tsunami came again, Han Fei was blasted back a little, but fortunately, he was safe.

However, this also proved one thing. No matter how many times he went back, there would probably be such a powerful tsunami waiting for him. Han Fei made a clear judgment. A dominator couldn't withstand the impact of such a tsunami at all.

Not to mention the dominator realm, even Han Fei, who had cultivated to the third level of the path of invincibility and had a Supreme Nature Treasure, had been blasted back. What would happen to other dominator-level powerhouses could be imagined.

"No! I have to go back."

Han Fei thought of something and immediately summoned the green jade stone bridge. What if he could return from the River of Laws? The more Han Fei thought about it, the more excited he became.

However, when he walked to the green jade stone bridge, he couldn't enter the Path of Reincarnation. He just stood on the bridge.

Han Fei tried to get off the bridge, but nothing changed. The green jade stone bridge seemed to have really become an ordinary bridge.

"Is it because I've left the Chaotic Star Sea?"

Han Fei took a deep breath, was silent for a moment, and thought to himself, There's still time. I can accelerate time.

Han Fei calmed himself down and began to think.

He couldn't go up the dam.

The Path of Reincarnation might not be within the range of the Chaotic Star Sea and couldn't be connected to the river of laws in the Chaotic Star Sea.

What else could he do?

There was only one answer. Breaking through to the Daoless Level was the only way for him to return to the Chaotic Star Sea.

However, even if he comprehended the Daoless Realm, how could he make a breakthrough so easily? His time was limited now.

### [God of Fishing](#)

#### **Chapter 3656: Great Dao Spiritual Body (3)**

The Creation Star Compass he had set up in advance had trapped the real ominous. Now that the Creation Star Compass was in the hands of Senior Sister Shen Le, he shouldn't have to worry about the ominous coming out for at least a year.

Previously, in the Primordial Era, the Creation Star Compass had trapped the ominous, but it was broken after only three years. Now, after the Creation Star Compass was broken and repaired, it was damaged again. It probably wouldn't last three years, but it would be good if it could trap the ominous for a year.

However, a year was too short for Senior Sister Shen Le and the myriad races in the Sea Realm, unless Senior Sister Shen Le could immediately comprehend the way to advance above the dominator level.

But even if Senior Sister Shen Le comprehended it, she probably didn't have the time to make a breakthrough, because she had clearly told Senior Sister Shen Le that she couldn't let Hongjun's ominous body leave.

This was because Hongjun's ominous body had obtained the mysterious severed arm. This thing was the agreement between Hongjun and the ominous. This thing would definitely be able to break the Creation Jade Plate, just like how the ominous could use that thing to break the World Divine Mirror.

Therefore, once Hongjun's ominous body left, the Creation Jade Plate would definitely be broken through. Senior Sister Shen Le and the others wouldn't even be able to descend into the Primordial Star Sea.

And once the Primordial Star Sea was really swallowed by Hongjun's ominous body, its strength would definitely be higher. Otherwise, why would they spend so much effort to conquer a Sea of Stars?

Once the Primordial Star Sea fell, the Chaotic Star Sea would definitely fall, and the real ominous who had lost the initiative would almost certainly die.

At that time, Hongjun would swallow two pieces of the Sea of Stars and destroy the ominous original body, which would be the biggest winner.

Therefore, no matter what Hongjun's ominous body said, he couldn't believe it. It was pure nonsense that he wasn't interested in the Chaotic Star Sea. This was just his stalling plan.

The only good thing was that the peak-level dominator-level ominous subordinates of the real ominous and Hongjun's ominous body had almost been wiped out.

Furthermore, these two people were shockingly similar. The real ominous controlled four peak-level dominator-level ominous creatures, which had been wiped out by Han Fei. Hongjun's ominous body also controlled four peak-level dominator-level ominous creatures. One died in the Primordial Star Sea, one died on the Path of No Return, and one transformed into the Heavenly Dao and was dispersed by the Great Dao Tide.

Therefore, the only powerhouses in the ominous at this moment were Hongjun's ominous body and one of his peak-level dominator-level subordinates. As for whether he had more, Han Fei didn't know. Even if he did, there were still Senior Brother Undead and the Death God in the Sea Realm. It shouldn't be a problem to temporarily entangle them.

Of course, the premise was that Senior Sister Shen Le could defend against Hongjun's ominous body.

In fact, Han Fei wasn't optimistic about this. The ominous was unimaginably powerful. After fighting the real ominous for five days, Shen Le was forcibly trapped by the other party with the ominous matter.

It wouldn't take long. As long as Senior Sister Shen Le was trapped for half an hour or a moment, Hongjun's ominous body could return to the Primordial Star Sea easily. This was what Han Fei was most worried about.

Although Senior Sister Shen Le had already suffered once, there were some things that even if she knew, she might not be able to avoid it. Just like when Han Fei was washed back by the tsunami once, could he say that he wouldn't be affected the second time?

Therefore, the best way was for him to break through the bottleneck of the dominator realm and enter the Daoless realm. He hadn't gone deep into the Path of No Return yet. There was still a chance. The only obstacle to his return was the dam.

After careful consideration, Han Fei decided to set up time acceleration here and comprehend the Dao.

In the misty water vapor, above the surging waves, Han Fei sat cross-legged in midair, as steady as a rock. Even though the power of various Great Daos impacted him again and again, he still couldn't shake it.

However, less than half an hour after Han Fei sat cross-legged, an inexplicable threat struck his heart. With a bang, Han Fei turned into a lightning arc and jumped out.

Crack ~

When Han Fei looked back, he found that a crab had appeared behind him. Its pincers were like the sharpest blades, and there were Great Dao laws flowing on its body.

"Crab? How is it possible?"

Han Fei found it ridiculous. How could creatures be born on this Path of No Return?

But in the next moment, Han Fei was surprised to find that this crab was not a real creature at all, but born with some kind of power, because they didn't have the River of Life.

"No vitality. It's just an illusion."

Swish ~

The crab was as fast as the wind. In the tide of the Great Dao, it seemed to enter an uninhabited place and was shockingly fast. In the blink of an eye, it arrived in front of Han Fei and waved its huge pincers, as if it wanted to hammer Han Fei to death.

Han Fei was not afraid at all. Facing the giant pincer, he punched out.

Boom ~

The violent explosion crushed the surrounding Great Daos and laws. Han Fei's face changed drastically. "How is this possible? Isn't this fake?"

However, this real impact of power was too real. It didn't feel like an illusion at all!

Furthermore, the power of this crab's hammer contained the power of annihilation, the Dao of destruction, and even a power seal. It was just a hammer, but it contained dozens of extremely rare and difficult to comprehend rules and laws.

If it weren't for the fact that the crab's strength seemed to be a little weaker, Han Fei even felt that this blow might have hurt him.

But Han Fei had no time to think. In the next moment, he was horrified again. This was because he saw with his own eyes that behind the crab, a Great Dao tide rose, but it didn't cause any waves. Instead, a cyan flood dragon crawled out.

## God of Fishing

### Chapter 3657: Great Dao Spiritual Body (4)

Not only the cyan flood dragon, but Han Fei also saw countless bulging bumps. He couldn't help but feel a chill down his spine. Did they say that there was a strange creature in every bulging bump?

Han Fei roared and held the Blood Sky Blade in his hand. The knife light burst out, and the surrounding void rumbled. With Han Fei as the center, the Great Dao collapsed, and Han Fei didn't let the Great Dao tide here hit his body again.

Swish, Swish ~

Han Fei moved like wind and thunder. In the next moment, he was already standing on the crab, and information had already appeared in his eyes.

< Name > Great Dao Spiritual Body

< Introduction > Spiritual bodies evolved from Great Daos. They don't exist in themselves. It's the rules of the Great Dao that give them form. Great Dao Spiritual Bodies have no consciousness and no combat skills. They fight with the fundamental power of the rules or laws of the original Great Dao.

< Type > Great Dao Spirit Body

< Realm > Sea Quelling God

< Battle Technique > None

< Collectable > None

< Unabsorbable >

< Note > Fighting with a Great Dao Spiritual Body can increase your comprehension of the Origin Great Dao or the Origin Law.

"Origin Great Dao? Origin law?"

Han Fei was speechless when he saw the information about the crab. No wonder he couldn't feel the vitality of this thing. It turned out that this thing was formed by the rules of the Great Dao.

However, to Han Fei's shock, these Great Dao Spiritual Bodies all used the Origin Great Dao.

The Great Dao of Origin and the law of Origin! That was all the comprehension of this Dao. Ordinary people's Dao was enough for them to explore for a lifetime and even so, they still couldn't fully show their Daos' power.

But here, the Great Dao spiritual bodies were born with the Origin Great Dao and the Origin Law. How terrifying was this?

This power made a Sea Quelling God-level Great Dao Spiritual Body almost injure him, but Han Fei failed to kill it with one blow.

"Puff ~"

The Blood Sky Blade stabbed into the shell of the Great Dao Crab and poured out power, annihilating the crab.

However, infinite Great Dao Spiritual Bodies appeared in all directions, which made Han Fei's scalp tingle.

Could the Sea Quelling God really not kill a dominator?

Not necessarily.

If the Sea Quelling God had an independent consciousness and mastered the Origin Great Dao and the Origin Law, it was completely possible. For example, the ten Yama-Kings could suppress a dominator together. For example, the master of the Time Palace could resist the power of a dominator. These people had all walked extremely far on their respective paths. Although they weren't dominators, they barely had the power to resist a dominator.

When the number of Sea Quelling Gods of this level reached a certain number and attacked at the same time, not to mention ordinary dominators, they might even be able to kill peak-level dominators.

After all, a peak-level dominator could only grasp 49 pieces of Star River Origin Power. And a Sea Quelling God could actually barely grasp one piece of Star River Origin Power.

If there were thousands of Sea Quelling Gods who had mastered the Origin Great Dao and laws, they would probably be able to kill even peak-level dominators.

Therefore, facing the countless Great Dao Spiritual Bodies, Han Fei was speechless. Would they give him time to cultivate and comprehend the Dao? Obviously not.

But he had to find a way to survive their hands first.

However, how should he survive in this vast Sea of Great Daos? Either he could quickly return to the dam, or he could only run deeper into the Path of No Return. If he ran slowly, he might be killed by these Great Dao Spiritual Bodies.

Han Fei gritted his teeth. At this moment, he understood why no one could return after embarking on the Path of No Return.

On the way back, if one's strength didn't exceed the limit of the dominator realm, he wouldn't be able to climb the dam after stepping into the Daoless realm. And if he couldn't climb the dam, so many Great Dao Spiritual Bodies would appear. Although they weren't conscious, there were too many of them. Therefore, those who came in could only run into the depths of the Path of No Return. If they were slow, they would be directly killed.

However, the dense water vapor here was extremely powerful. Not everyone could run quickly here.

Therefore, as soon as he stepped on the Path of No Return, he saw a pile of corpses.

At this moment, Han Fei was facing the same situation as the others. He couldn't climb the dam, nor did he want to face these countless Great Dao Spiritual Bodies, so there was only one way for him. Go deeper, which was the only chance to survive.

No matter how unwilling Han Fei was, he had no choice. He couldn't die. Only by living could he have a chance to return. And if he didn't want to die, he had to go deeper.

At this moment, Han Fei made a choice. He would walk deeper and avoid the battle first. He had a chance. As long as he found a way to step into the Daoless Realm, it would be an opportunity.

Swish! Swish! Swish!

Immediately, Han Fei didn't stay any longer and accelerated towards the depths of the Path of Return. Of course, during this process, battles were inevitable.

Bang! Bang! Bang!

Han Fei walked on the Path of No Return, full of danger along the way. From time to time, a Great Dao Spiritual Body would attack him.

Han Fei didn't know how far he had gone. Anyway, in the endless battles, he was distracted by thinking about a way to make a breakthrough.

Suddenly, a shadow appeared in Han Fei's vision in the distance. Here, perception was meaningless and could only be observed with the naked eye.

"Is that an island?"

Han Fei had a strange feeling, but then he was overjoyed. The Path of No Return was full of Great Daos. Why was there an island? What power and what matter could turn it into an island here?

However, since it was an island, did it mean that there was a temporary habitat? After all, islands, like dams, could resist the Great Dao Tide.

In the vast Sea of Great Daos, if you moved forward every day, there would always be unexpected situations. At this time, if there was an island, would you go?

Han Fei rushed to the island without hesitation. Whether there was a more terrifying danger there or not, that was his only choice.

After a while, Han Fei leaned forward and saw the cliff of the island. He also saw that under the cliff, three tides were converging because of the terrain.

Han Fei saw with his own eyes that a great tide turned into a spiritual body, but it was no longer as simple as the Sea Quelling God.

"Those are... dominator-level Great Dao Spiritual Bodies... Three."

### **God of Fishing**

#### **Chapter 3658: Breakthrough, Above the Dominator Level (1)**

Although Han Fei had been walking on the Path of No Return for a day, he hadn't walked far. With the mysterious majestic water vapor blocking him, he couldn't move fast.

In other words, this island was very close to the dam.

At this moment, the three Great Dao Spiritual Bodies all turned into flood dragons. After seeing Han Fei, they rushed at him at the same time.

Han Fei had defeated countless Sea Quelling God-level Great Dao Spiritual Bodies along the way, so he was naturally not afraid. Furthermore, Han Fei took the initiative to attack first. He flipped his palm and expelled the water vapor here. Laws gathered in Han Fei's palm, thunder and fire spread, and a huge force was condensing, dazzling.

"Roar!"

Rumble!

Han Fei's casual blow seemed simple, but it was actually extremely domineering. The power of his palm crushed the three-headed flood dragon into the Great Dao wave.

However, how could it be so simple?

The three dragons raised their heads and spewed out the brilliance of the Great Dao. Among them, there were Original Strength Techniques attacking, Original Lightning Techniques interweaving, and Original Fire Techniques burning.

The three dragons worked together and broke the power of Han Fei's palm.

Han Fei snorted. The strength of the three early-stage dominator-level Great Dao Spiritual Bodies should be between five and eight pieces of Star River Origin Power. But when they used their Origin Great Daos or laws, they could even penetrate the power of him, a supreme dominator.

This at least proved that skill was superior to brute force.

Han Fei's fist light flashed and he instantly fought the three flood dragons.

It wasn't that Han Fei didn't want to fight, but he felt that the existence of Great Dao Spiritual Bodies was a little strange. How did they condense the Origin Laws they had? Along the way, countless Great Dao Spiritual Bodies had unique Daos, which were all Origin Daos.

Although Han Fei knew that on the Path of No Return, the tide of the Great Dao was surging, why was it that what was condensed was the Origin Dao? If he could comprehend the Origin Dao on the Path of No Return, even if he couldn't break through to the dominator realm, he should be very strong.

While Han Fei was thinking, he saw a figure appear on the island. Someone was looking over.

"Has anyone come?"

"This person is very strong. He actually fought dominator-level Great Dao Spiritual Bodies for so long."

"He's not just very strong. He hasn't used his full strength yet. Look, the three origin laws can't shake him at all. Instead, he's trying to condense these three origin laws."

Han Fei was a little surprised and excited to see someone.

This was because this could at least prove one thing, which was that one didn't have to die on this path. He might indeed be able to survive this path.

Han Fei immediately lost interest in continuing to fight. He didn't know which era they were from. They should know the Path of No Return better. At the same time, this proved that the island on the Path of No Return could resist the Great Dao Tide.

Bang! Bang! Bang!

The three punches were unparalleled, like three rivers of stars, and billions of stars were attacking. The three Great Dao Spiritual Bodies shattered.

"What? This person is actually so strong? He blew up three dominator-level Great Dao Spiritual Bodies with three punches."

"Has the crisis in the Chaotic Star Sea been resolved? Are the strong embarking on this path again?"

Buzz!

Han Fei quickly landed on the island and came to the group of people in the next moment, looking at the eight of them.

Of the two powerhouses of the six lineages, one was from the strange beast lineage, and the other was from the demon plant lineage. The rest were from other lineages.

On the opposite side, someone was the first to speak. "May I ask your name?"

Han Fei glanced at the eight of them. They were all dominators, but their strength was neither high nor low. Their strength exceeded 10 pieces of Star River Origin Power, but the highest seemed to be no more than 20 pieces of Star River Origin Power.

Han Fei nodded slightly. "Human Emperor, Han Fei."

"Human Emperor?"

Someone was surprised. "The human race has risen again?"

Someone asked in concern, "How is it? Has the Chaotic Star Sea been defended?"

Han Fei looked at the man. "Do you know that the Chaotic Star Sea is fighting?"

A woman said, "More than 8,000 years ago, the Master of the Void descended here and brought us news."

"Oh?"

Han Fei's eyes glittered. "Eldest Senior Brother... Where is he?"

"Eldest Senior Brother?"

Everyone looked at each other and couldn't help but look at Han Fei again. They didn't expect this person to also be from the Void Temple. However, it wasn't surprising. Perhaps only the strong masters of the Three Temples could guard the current Chaotic Star Sea, right? Therefore, it seemed natural for the strong masters of the Three Temples to take the ominous to the Path of No Return.

Someone said, "The Master of the Void only stayed for a day, left some inheritances on the island, and left."

"Oh?"

Han Fei scanned around with his perception. At least, on this island, his perception hadn't been blocked by the Great Dao Tide and laws. This island was only the size of an ordinary star, relatively small. Compared to this boundless Sea of Great Daos, it was simply one of the stars.

On the island, there was a dense mysterious cave. There were thousands of caves, but each of them had a seal. Among them, some of the barriers outside the caves were surrounded by rays of light.

On the rock walls outside every cave, there was some information about this inheritor.

"I, Yu Xing, from the demon plant race, cultivated on the Dragon Subduing Island for 12 million years, but in the end, I couldn't make any more progress when I obtained 23 pieces of Star River Origin Power. Therefore, I decided to go deeper into the Path of No Return. I specially left my entire life of cultivation insights for future generations to see and appraise."

"I, Lin Chumeng, the patriarch of the True Phoenix Fish Clan, cultivated on the Dragon Subduing Island for eight million years. In the end, I obtained 27 pieces of Star River Origin Power and couldn't make any more progress. Therefore, I decided to go deeper into the Path of No Return. I specially left my lifelong cultivation insights for future generations to take a look."

### God of Fishing

#### **Chapter 3659: Breakthrough, Above the Dominator Level (2)**

"Wang Yang, the descendant of the Beiming Heavenly Roc, cultivated on the Dragon Subduing Island for 17 million years and finally obtained 31 pieces of Star River Origin Power..."

"Luo Huafeng, a member of the big demon sunflower family, cultivated on the Dragon Subduing Island for 41 million years and finally obtained 43 pieces of Star River Origin Power..."

"..."

Seeing these records, Han Fei was shocked. Countless strong masters from ancient times who embarked on the Path of No Return had once come to the Dragon Subduing Island and cultivated here. When they couldn't improve anymore, they finally chose to embark on the journey.

As for what they cultivated, Han Fei could understand. It was nothing more than comprehending more Origin Great Daos and Origin Laws to modify themselves.

In fact, when he saw the Great Dao spiritual bodies, Han Fei also had an urge, which was to slowly study the various Great Daos here and improve the Dao techniques he had mastered to the Origin realm. At that time, his strength would definitely soar. At that time, even those who were also peak-level dominators and had mastered many Origin Great Daos and laws were almost definitely stronger than those who hadn't mastered the Origin Great Dao.

However, what Han Fei knew better was that he didn't have time.

Most of these people who left behind the cave inheritance had stayed here for tens of millions of years. Even so, there were very few people who could step into the 49 pieces of Star River Origin Power.

Among them, there were some caves that were quite extraordinary. For example, Han Fei saw an ancient cave with the words, "The First Supreme of Chaos was here for a visit."

Another example was that there were only four words written outside a cave. "My name is Cangtian."

Another example was the words "Li Daoyi passed by here" outside the cave.

Han Fei soon found a new cave. There was nothing written outside the cave, but there was a void enshrouded. Immediately, Han Fei understood that this was the cave left behind by Eldest Senior Brother.

However, Han Fei looked around again but didn't find Teacher Prophet's inheritance. He thought to himself, Does Teacher disdain leaving an inheritance?

Han Fei came back to himself and then looked at these people. "Fellow Daoists, I'm afraid I'm in a hurry and can't have a long chat with you. Let's talk after I finish reading these tens of thousands of inheritances, OK?"

"Huh?"

Someone frowned. "Fellow Daoist, you've already come to the Path of No Return. What's the rush?"

Han Fei looked back and said casually, "I have to go back."

"Go back?"

They were all a little stunned for a moment, and then someone smiled bitterly. "Fellow Daoist, you should have seen the corpses along the way. You can come but you can't return. So far, no one has ever embarked on the path of return."

Someone shook his head. "Fellow Daoist, we know that you are not weak and probably have more than 40 pieces of Star River Origin Power. But it's unlikely for you to return. After you read the records left behind by those people, you will find that even if you reach the peak of the dominator realm, you still can't return."

Han Fei's Dao heart was firm and unwavering.

With a swish, he appeared in front of the tens of thousands of caves. As Han Fei issued an order in his heart, the barriers of the tens of thousands of caves were all opened.

"Well..."

The eight people were all shocked.

How terrifying was this power?

"Is he... a peak-level dominator?"

"It's very likely. Although it's not difficult to break these barriers, it's unbelievable that they can all be broken with a thought."

"That's right. It took us more than 8,000 years to break the void barrier left behind by the Master of the Void. I didn't expect it to be broken at this moment."

As they spoke, the Time River suddenly flowed out around Han Fei, and the entire space was covered by the law of time.

The eight of them looked at each other. Someone was puzzled. "Aren't they strong masters from the Void Temple? How did they master the Great Dao of Time?"

"More importantly, this time law is so terrifying. It accelerated this place by more than a thousand times in an instant."

"Then let's just watch? We haven't had the time to introduce ourselves."

Someone said, "This person is extremely powerful. He might not care who we are. However, so what? He can only go forward. I don't believe that he can return to the Chaotic Star Sea."

...

Those who could leave caves on the Dragon Subduing Island were all peerless Heavenly Talents of the myriad races in the past. Although most of them stopped at the dominator realm, their lifetime insights were still precious.

For a moment, countless divine techniques, countless paths, endless bumpy experiences, and endless storms of blood appeared from these insights.

Han Fei paid special attention to the cave left by the First Supreme and the others.

However, nothing was left in the cave of the First Supreme. Just like his message, he was just here.

In the cave of Cangtian, there was his understanding of the Supreme Technique. However, even if future generations could find out through this place, they wouldn't have this chance. So what if they knew the way to walk the Supreme Path? Ordinary people couldn't make it in the end.

Immediately afterward, in Li Daoyi's cave, there was only a hairpin floating. At the end of the hairpin was a butterfly. There were no words or perceptions. It was just a butterfly hairpin.

Han Fei couldn't help but smile. Chen Lingsu gave him a butterfly hairpin, and Li Daoyi left a butterfly hairpin. It seemed that these two people were deeply in love.

However, Han Fei didn't know why Li Daoyi left the butterfly hairpin. Had he put this relationship down?

What was left in Eldest Senior Brother's cave was a memory, a memory of the Dao of All Living Beings. What Han Fei saw was a void wandering in the Sea of Stars, without a body. This void could swallow everything and became bigger and bigger until he swallowed a large area of Primordial Mist. As a result, this void gave birth to consciousness and even gradually turned into a human shape.

### [God of Fishing](#)

#### **Chapter 3660: Breakthrough, Above the Dominator Level (3)**

In the body of Void, billions of stars and endless creatures were born.

However, after Void turned into a human, he was still wandering. He felt that he should pursue something, but he didn't know what to do.

Until one day, Teacher Prophet appeared, met him, and saw through his nature. She said, "You don't have a heart, so what you've been chasing is just your own heart."

Eldest Senior Brother asked, "How should I find it?"

The Prophet pointed at the billions of creatures in his body and said, "You can treat them as your heart. They are you, and you are them."

Therefore, Eldest Senior Brother cut off all his consciousness, slumbering in the star rivers he nurtured, hiding in the hearts of the billions of creatures.

Gradually, Eldest Senior Brother witnessed the birth, growth, and destruction of living beings. He witnessed the various states of life, the entanglement of love and hate, the separation of life and death, and the cycle.

Until the ominous appeared, corroded this void, and destroyed the creatures here. And this behavior woke up Eldest Senior Brother who was dormant in the hearts of billions of creatures.

When all living beings were destroyed, the Great Dao was born. Therefore, Eldest Senior Brother, who had suppressed the Chaos for countless years, was born at this moment. From the moment he was born, Eldest Senior Brother was all living beings, holding the Dao of all living beings and transforming into all living beings. And Eldest Senior Brother was the only one who practiced the Dao of All Living Beings because of love instead of giving up love and severing affection to practice the Dao of All Living Beings.

Therefore, Eldest Senior Brother was the only one who controlled the Dao of All Living Beings and still had emotions.

After reading the short memory brand of Eldest Senior Brother, Han Fei couldn't help taking a deep breath. All Daos had to be walked by suitable people. Eldest Senior Brother's path was almost impossible to replicate. This was because at the moment he cut off all his consciousness, Eldest Senior Brother was actually equivalent to dying, or he had transformed into the will of the Heavenly Dao at that moment.

When Han Fei finished reading this memory, twelve words appeared in the cave.

"It's the world, the Heavenly Dao, all living beings, and... myself."

When he saw these twelve words, Han Fei couldn't help but smile. When he saw the last sentence, "It's myself", Han Fei knew that Eldest Senior Brother had comprehended something.

Perhaps, a long time ago, Eldest Senior Brother had already comprehended it. However, he still needed to guard the Sea Realm, and only he knew how to become himself.

However, Eldest Senior Brother's path was not suitable for the creatures of all races. The conditions of this path were extremely harsh. First of all, you had to master the Dao of All Living Beings and be able to suppress the Dao of All Living Beings to prevent yourself from becoming ruthless. Only then could you be qualified to propose the path of "finding yourself".

Han Fei knew that this was the path left by Eldest Senior Brother. He even left the path behind the Dao of All Living Beings.

Unfortunately, this path didn't mean much to him.

In addition to the caves opened by these top figures he knew, Han Fei was still searching and checking other people's insights.

One, a hundred, a thousand, ten thousand...

Most of these inheritances were the path of cultivation of the creators of these caves. In the end, they all came to the same destination without any particularly enlightening insights.

Just as Han Fei was about to give up, he suddenly saw that in the last few caves explored, a guy with only 13 pieces of Star River Origin Power raised an interesting guess.

"Since we've cultivated to this point, how can we not die? This is because of our Dao hearts. Our physical bodies will eventually decay, but our Dao Hearts will last forever. Since my body can't return from the Path of No Return, I shall abandon my body, refine my soul and use everything I have to transform into a supreme Dao Seed until the flower blooms on the other side."

"Who is this person? How bold!"

Han Fei couldn't help but look at the words left behind. He learned that this person was actually a human powerhouse, but he didn't sign it.

"Is this... Teacher?"

Han Fei's pupils were constricted slightly. His teacher had never said that he was very powerful, but all this time, his teacher had always given people the feeling that he was a real wise man.

Therefore, Han Fei didn't find the cave left by his teacher before, because he instinctively felt that his teacher had at least 40 or even 49 pieces of Star River Origin Power.

However, he had neglected one thing. As a teacher, he might not be stronger than his students! 13 pieces of Star River Origin Power were indeed not strong, even weaker than most people here. However, the insights he left in his cave shocked Han Fei greatly.

Just as he said, he would use everything he had to transform into a supreme Dao Seed. Who knew where this Dao Seed would eventually be and where it would flow to? However, as long as his Dao heart was not destroyed, this Dao Seed would eventually be revived and reappear somewhere, stunning the world.

Of course, Han Fei was amazed by this idea, but this path was not suitable for him.

What he wanted was to return to the Chaotic Star Sea, not to bloom on the other side.

However, he had gained something. Would he really die after using all his strength?

After reading the comprehension of all the strong masters in a day, Han Fei stopped looking. From the moment he comprehended the Daoless Realm, he had already opened a new door. The door was right in front of him. He just needed to enter it.

"The Daoless realm is definitely not the true Daoless realm, but a realm where I can derive my own Great Dao. If my Great Dao hasn't been derived, what am I? A Daoless body?"

"No, no!"

Han Fei didn't dare to continue thinking.

Three years later, Han Fei calculated countless possibilities, but none of them worked. He had to go back to his original idea.
