Chapter 3661: Breakthrough, Above the Dominator Level (4)

It was very difficult to achieve the Daoless body. First of all, spiritual heritage was a problem. If he wanted to build a Daoless body, he had to destroy his dual spiritual heritages first. This was almost no different from suicide.

It wasn't enough to destroy his two spiritual heritages. His Supreme Bones would probably collapse too. Then wouldn't his flesh and blood have to be rebuilt?

In this case, he'd better let the Creation Jade Plate completely reshape him.

Han Fei thought carefully about the price this kind of behavior would bring him. If he went the wrong way, not only would he not be able to return to the Chaotic Star Sea, but he might also die. Although he had comprehended death, God knew how long it would take for him to revive again.

In a flash, eight years had passed.

Although less than two days had passed outside the law of time, Han Fei became anxious. Not to mention two days, even half an hour might be enough for something to happen in the Chaotic Star Sea. What if Senior Sister Shen Le failed to stop Hongjun's ominous body?

Han Fei estimated that Senior Sister Shen Le could only hold Hongjun's ominous body in check for five to seven days. This was because if Hongjun's ominous body was determined to run, even if Senior Sister Shen Le wanted to stop him, it wouldn't be easy.

With the power of the Primordial Star Sea, it was impossible for it to resist the baptism of Hongjun's ominous body for a day. If he didn't hurry up, it would be too late even if he could return.

"I'll try it."

Han Fei suddenly got up, and the surrounding time law suddenly dissipated. The eight dominators were stunned to see Han Fei suddenly get up, wondering if he had finished reading it so quickly.

However, in the next moment, Han Fei punched out a cave. He curled his finger and wrote in the air, permanently leaving the true meaning of the Daoless Realm in the cave and branding it with a seal.

Han Fei wrote outside the cave, "My name is Han Fei. I'll leave a way to surpass the dominator realm for future generations to see."

"Hiss ~"

Han Fei's actions stunned the eight dominators. A technique that surpassed the dominator realm?

"Impossible. I don't believe it at all."

"He is powerful, but why? I've never heard of anyone surpassing the dominator realm."

"I think we can take a look. I don't think a strong master at his level will brag."

Someone said, "Why don't we just ask him?"

"Fellow Daoist... Dao..."

As soon as this person shouted, before he had the time to say anything, Han Fei had already arrived at the terrain where the three dragons of the Dragon Subduing Island converged.

Swish ~

These people hurriedly followed him, only to see that Han Fei had already taken a step forward and returned to the Sea of Great Daos.

At that moment, the surrounding waves of laws began to transform into spiritual bodies again.

Han Fei had made up his mind. He bet that he might still have this chance to return to the Chaotic Star Sea. If he lost the bet, he would walk ahead of Xia Xiaochan and Ximen Linglan. After all, he didn't want to hear the bad news about them.

"Fellow Daoist Han Fei, what are you going to do?"

Han Fei glanced at them and then shouted, "My name is Han Fei. Today, I'm on Dragon Subduing Island. I want to break through the dominator realm and reach the Daoless realm. Fellow Daoists, you can take this as a reference."

"What?"

"Break through the dominator realm?"

"What realm is the Daoless Realm?"

At this moment, on the Great Dao Sea, waves rose one after another, and Great Dao spiritual bodies were condensed.

Even the three dominator-level Great Dao Spiritual Bodies that Han Fei pierced through were condensing.

"Explode!"

Han Fei was breaking his spiritual heritage, but he wasn't courting death. It wasn't that he hadn't seen a Pulseless Body before. The first technique he cultivated, the Indestructible Body, was actually based on the Pulseless Body. This was created by Ren Tianfei in the past. It could be said to have pioneered body refinement.

Therefore, destroying one's spiritual heritage didn't mean death.

Besides, Han Fei also wanted to try the path behind the Godfiend Body.

One of his dual spiritual heritages carried power, and the other carried the soul. Although the two fused to give birth to a black hole vortex, this was not the true fusion.

Therefore, he had once wondered if the dual spiritual heritages should be fused.

However, he didn't have to worry about this problem now.

Boom! Boom!

As the Origin Spiritual Heritage and the Eternal Darkness Spiritual Heritage shattered, Han Fei drenched himself in blood in an instant.

"The first step is to have no spiritual heritage."

Rumble!

Even on the Sea of Great Daos, a strange phenomenon appeared, and a death knell began to wail. Multicolored light spewed out of Han Fei's body, accompanied by terrifying energy, instantly expelling the surrounding water vapor.

As for Han Fei, his seven orifices were bleeding, but his expression was unusually calm.

There was no turning back. The golden cave born from the convergence of the two spiritual heritages had already trembled crazily. Han Fei thought to himself, The second step is to fuse the gods and devils and condense a divine persona Dao Seed!

At that moment, the two shattered spiritual heritages were all sucked into the golden cave. At the same time, infinite energy was sucked in.

Since he became a god, Han Fei hadn't condensed a divine persona because he didn't need it.

But today, he wanted to give it a try. If he refined the golden cave as a divine persona and a Dao Seed, he could temporarily stabilize its form.

And the collapse of his dual spiritual heritages represented the collapse of his original Great Dao. Although the law of life was powerful, if he wanted to go further, he had to put it down.

First, it was dual spiritual heritages, then energy, and then the Great Dao and laws. Everything was surging into the golden cave.

Just as the powerhouse suspected to be Teacher Prophet said, use all his strength to transform into a supreme Dao Seed and wait for the flower to bloom on the other side of the shore.

But Han Fei didn't want the flower to bloom on the other side. He wanted the flower to bloom in the present.

A terrifying energy burst out of Han Fei's body, which shocked the eight people on the Dragon Subduing Island.

"What a terrifying power."

"Sure enough, this person is definitely a peak-level dominator."

"So strong."

At that moment, Han Fei's body was like a huge black hole, from the passive swallowing at first to the active swallowing now. The newly condensed Great Dao Spiritual Bodies flew uncontrollably to Han Fei. When they flew into the air, they suddenly dispersed, turned into the Origin Great Dao, and were also absorbed by the golden hole.

At the same time, with a crack, Han Fei's Supreme Bones were broken.

Crack ~ Crack ~ Crack ~

"Roar!"

As the Supreme Bone cracked inch by inch, Han Fei felt excruciating pain. At first, he could still roar, but later, his flesh and blood were already melting, and the Supreme Bone had already shattered. Only his tenacious Supreme Will was still showing its power.

In the eyes of the eight people on the Dragon Subduing Island, Han Fei had completely turned into a golden hole, swallowing everything he could.

The water vapor that was as heavy as stars, the endless Great Dao Spiritual Bodies, and the supreme Great Dao laws produced by the surging tide were all crazily swallowed by Han Fei.

This was the Sea of Great Daos. There were infinite Great Daos and laws. The eight people on the Dragon Subduing Island watched dumbfounded until more and more waves of Great Daos completely enveloped the black hole, turning it into a cocoon of Origin Great Daos.

Chapter 3662: Return (1)

"Can, can he succeed?"

On the Dragon Subduing Island, the eight people looked at each other, shocked, nervous, and even a little excited.

They had stayed here for too long and were in a dilemma. At this moment, if someone could step into the unknown domain above the dominator realm, he might be able to lead them back to the Chaotic Star Sea.

He even led them across this land of no return. In short, it was better than being trapped on the Dragon Subduing Island.

At this moment, Han Fei was solely supported by the black hole. The human powerhouse suspected to be his teacher had suggested using all one's strength to transform into a supreme Dao Seed. Han Fei's current situation was basically the same. He had used all his strength to transform into this black hole. As for whether this black hole was called a divine persona, a Dao Seed, or a black hole, it didn't matter. Anyway, the general meaning was the same.

Infinite Great Daos were gathering, and the Supreme Will barely maintained itself.

If there was no destruction, there would be no construction.

Han Fei was crazy enough to abandon his original Great Dao, his dual spiritual heritage, and his Supreme Bones. Of course, he couldn't die.

"Unseal."

"Open!"

Dozens of terrifying seals suddenly appeared on Han Fei's body. This was the power of the six-lineage fruit. He had long obtained it, but because he couldn't break through it, he had to seal it. Now, he needed to use this power to rebuild his true self.

It was not easy to put everything down.

Even for an ordinary person who had infinite wealth, it was extremely difficult for him to completely let go of his wealth in one go. Han Fei had obtained unparalleled divine power and had reached the strongest in the world.

Han Fei had already seen through his own life and death, but he couldn't see through the lives of others, such as Xia Xiaochan, Ximen Linglan, and Han Chanyi.

If Han Fei died, he would be reborn one day. But if the Chaotic Star Sea fell and the people he cared about all died, so what if there was a Path of Reincarnation? If the Chaotic Star Sea was gone, how could there be reincarnation?

Therefore, Han Fei decided to go completely crazy.

In the Great Dao Tide, the Great Dao cocoons were still intertwined.

Six hours later.

On the Dragon Subduing Island, someone said, "Ordinary people can't withstand such a baptism of the Great Dao for a few seconds. This one... lasted for six hours."

Someone sighed. "The Great Dao spiritual bodies are still surging. Doesn't this mean that new Great Daos are pouring into the cocoon?"

Someone said with a trembling voice, "We exhaust all our efforts to explore and control the Great Dao of Origin, but I'm afraid what we've obtained is not as good as what this person has gained in a breathing. Alas..."

"Look, the Great Dao spiritual bodies are no longer attacking."

At that moment, everyone saw that the Great Dao spiritual bodies that covered the Great Dao Sea gradually calmed down and turned into a Great Dao tide again, and the waves rose and fell.

Another twelve hours passed.

Crack~

Everyone saw cracks appear on the Great Dao cocoon.

"Has he succeeded?"

"He's still alive."

"Are we going to witness history?"

Bang!

The Great Dao cocoon shattered, but no one was seen. There was only a spiral black hole still spinning.

"Where is he? Did he fail?"

"How can that be? Didn't it go quite smoothly just now?"

"How is it smooth? I knew it. How can anyone withstand the baptism of the Great Dao for hours?"

"But what's with this black hole?"

They had never experienced such a scene before. They knew nothing about the realm above the dominator realm. It was impossible for them to understand Han Fei's current state.

Buzz ~ Buzz ~

Suddenly, some golden light spewed out of the black hole like a small mass of mist.

Immediately afterward, an arm extended out of the black hole without any warning. On the Dragon Subduing Island, the eight people immediately held their breath, not daring to miss it.

One arm, two arms, they seemed to be pulling at the door frame, and a familiar figure slowly crawled out of the black hole. But this time, the Great Dao Tide didn't turn into spiritual bodies again, as if it had completely ignored Han Fei.

The moment Han Fei crawled out of the black hole, the black hole behind him seemed to build a bridge with Han Fei's body.

In the next moment, the black hole kept shrinking and finally seemed to freeze. It no longer vortexed but seemed to become a mark that disappeared into Han Fei's body.

"So that's it."

Feeling this body, Han Fei put on a faint smile.

When he crazily kept absorbing the Origin Great Dao in the Great Dao Tide, he suddenly understood. The Daoless Body was not really Daoless, and the Daoless realm couldn't escape the Dao. The Dao was born with and without. At this moment, he was in an intermediate state. He was above all Daos but below the Daoless realm. Therefore, he hadn't completely reached the Daoless realm.

The current realm should be called the Realm with Dao. The current body could also be called the Body with Dao, the Ten Thousand Dao Body, the Heavenly Dao Body... No matter what it was called, it was a real Dao Body.

It was on a completely different level from the Dao Body he had when he was at the Immortal Level. When he was at the Immortal Level, his body was called the Dao Body as long as he comprehended a single Dao. And that Dao he comprehended was not the Dao of Origin. That kind of Dao Body could only be considered a beginner Dao Body.

As for the real Dao Body, he didn't need to deliberately control a single Great Dao. In his body, ten thousand Daos fused. It could be said that it carried ten thousand Daos and had also melted ten thousand Daos. The Dao Body no longer distinguished ten thousand Daos. It was just a pure Dao.

At this moment, he had achieved the Realm with Dao before he achieved the Daoless Realm. Although he didn't know the difference, he felt that there should be only one step between the two.

Chapter 3663: Return (2)

At this moment, with a thought from Han Fei, the law of life and the law of time burst out of his body. However, after Han Fei put down this thought, the two laws immediately disappeared.

"The Dao is born from temptation, and the Dao is destroyed by peace of mind? Interesting."

As for strength, Han Fei didn't feel that it had changed much. He immediately looked at the Demon Purification Pot, only to see information popping up in it.

Owner: Han Fei

Level: Immortal Supreme

Bloodline Ranking among the Clans in the Infinite Ocean: No.1

Star River Source Power: 50 pieces

First spiritual beast: Twin Yin-Yang Sky Swallowing Fish (God Slaying Level)

Second spiritual beast: Emperor Sparrow (Dominator)

Main Art: Godfiend Body

"Immortal? Is that how this realm is called?"

Han Fei wasn't surprised. Both the Realm with the Dao and the Daoless Realm were concepts he came up with himself, and no one could verify them for him.

However, at this moment, when he reached this realm, he saw the name of this realm.

He understood what the Immortal meant. All things and the world would eventually decay. Only the foundation of the Dao wouldn't decay and would exist forever.

However, were there only 50 pieces of Star River Source Power?

Han Fei was puzzled. Could it be that after breaking through to the Immortal Level, his strength only improved by one piece of Star River Source Power?

Han Fei frowned. There was no mistake that a casual blow of his could produce 50 pieces of Star River Source Power. Different from when he was at the peak of the dominator realm, at that time, he could unleash 49 pieces of Star River Source Power at most, but it didn't mean that every blow could unleash 49 pieces of Star River Source Power.

But now, in the Immortal Level, there was no need to deliberately attack. Even if he casually attacked, his power could reach 50 pieces of Star River Source Power.

As for whether he could become stronger? The answer was no.

Yes, after Han Fei discovered this, he immediately understood that the Immortal realm should only be a transition realm above the dominator realm. And above the Immortal realm, the true Daoless realm was the key to a breakthrough in strength.

Yes, at this moment, Han Fei was very sure that he hadn't reached the Daoless Level, but had only reached the Immortal Level. He was really at the same level as the heavens, even slightly stronger.

The number of Grand Development was 50, and he was now 50. He had only found one of the Heavenly Dao Escapes.

Han Fei couldn't help but look at the eight people on the Dragon Subduing Island who were flushed and excited.

Seeing Han Fei's gaze, the eight of them shouted,

"Congratulations on becoming a dominator, Fellow Daoist."

"Congratulations, Fellow Daoist. You've completed an unprecedented feat."

"Congratulations, fellow Daoist..."

Swish ~

In the next moment, Han Fei appeared on the Dragon Subduing Island and smiled. "Thank you, Fellow Daoists. I haven't mastered this realm yet. Therefore, I want to ask you to attack me at the same time."

"Ah?"

"Fellow Daoist, this... isn't good, right?"

Han Fei smiled. "Everyone, just attack. I won't fight back."

Everyone thought to themselves, You want to fight back? They haven't even reached the peak of the dominator realm. If Han Fei fights back, he might be able to kill all eight of them with a slap.

Seeing that Han Fei was going to test the power above the dominator level, they didn't dare to be negligent. They weren't really afraid of hurting Han Fei, because it was impossible. Among them, the strongest was only 23 pieces of Star River Source Power. Even if they used all their strength, they could only resist peak-level dominators a few times at most.

Another moment later.

They all unleashed their strongest attack methods. In the years on the Dragon Subduing Island, they had achieved something. They had already mastered a lot of the Origin Great Dao. And their strength couldn't really be looked at with a normal gaze. Although the superimposition of the Origin Great Dao couldn't give them the power of a peak-level dominator, their combined strength was enough to shake a peak-level dominator.

Swish! Swish! Swish!

Boom, Boom, Boom ~

A Sky Penetrating Divine Finger pressed down from the void, a sword light soared into the sky, and its speed reached its peak. A fist light dazzled the world, and a secret technique was superimposed on origin strength techniques. Demonic sounds vibrated, and ripples surged.

Surrounded by eight people, Han Fei stood calmly.

These eight people also wanted to see how strong the so-called "dominator-above" realm was and if they could shake Han Fei.

However, in the next moment, they were dumbfounded. The power they punched out was melting. All kinds of Great Daos and secret techniques dissipated before they were even qualified to approach Han Fei.

Without the support of their Great Daos, their strength was like rootless duckweed, unable to even break Han Fei's protective barrier.

"I see."

The corners of Han Fei's mouth curled up slightly. Although the power he controlled didn't increase much, there was one thing that was almost unsolvable.

That was the mastery of the Dao. In short, I know all the Daos you know and all the ones you don't know. Your Dao can't hurt me, and your strength can't surpass mine. In this Sea of Stars, I am already invincible.

The expressions of these eight people changed drastically.

"How is it possible? The Origin Great Dao we mastered has melted."

"How can we fight then?"

"Fellow Daoist Han Fei... May I ask, is this the inheritance you left on the Dragon Subduing Island?"

Han Fei nodded slightly. "Yes! However, don't try it before you reach the peak of the dominator realm."

"A peak-level dominator?"

They were excited just now and couldn't help but want to observe, but Han Fei's words chilled them.

A peak-level dominator! How many peak-level dominators had there been in the Chaotic Star Sea in all these eras?

One attack from these people was enough. Han Fei had already understood the power of this realm. Although it was not the Daoless realm he wanted, Han Fei thought that it would be enough to help him return to the Chaotic Star Sea.

After a pause, Han Fei suddenly said, "Do you still want to continue on the Path of No Return?"

[God of Fishing](#)

Chapter 3664: Return (3)

Instantly, the eight of them shook their heads in unison. "Fellow Daoist Han Fei, can you lead us back to the Chaotic Star Sea?"

Han Fei thought for a moment. "I don't know, but I can give it a try."

Han Fei was really not sure. If his estimation was correct, the Great Dao Tide could no longer hurt him, or it wouldn't attack him at all.

However, it was hard to say for the others. It would be fine if they returned to the dam, but he couldn't guarantee that they could board it.

However, if he could take them back to the Chaotic Star Sea, it could greatly increase the strength of the Chaotic Star Sea. Although these people hadn't reached the peak of the dominator realm, they had been on the Dragon Subduing Island for countless years. It wasn't easy for them to survive the Great Dao Tide. Besides, they had been cultivating in seclusion for so long and had mastered several Origin Great Daos.

To put it bluntly, with the strength they had just shown, they might be able to stop two ominous creatures at the peak of the dominator realm for years.

Han Fei said, "In that case, there's no time to lose. The Chaotic Star Sea is in great danger. I have to return quickly."

They were overjoyed. In the Chaotic Star Sea, even if they couldn't continue to improve their strength, so what? The Sea of Stars was so big. It would definitely be better than this remote and desolate Dragon Subduing Island.

With that, Han Fei had already stepped out, and the eight people from the Dragon Subduing Island followed closely behind.

However, even if the Great Dao Tide here no longer attacked Han Fei, it would still attack the other eight. Therefore, the Great Dao Tide turned into spiritual bodies again.

However, with a wave of Han Fei's hand, seven or eight Great Dao Spiritual Bodies dissipated on the spot. After all, they were not peak-level dominators. Before, they could barely stop Han Fei, but now, it was completely impossible.

With Han Fei as their backer, they traveled smoothly and arrived at the dam in a moment.

"Sure enough, at the Immortal Level, I become stronger in all aspects. It took me a day to go from the dam to Dragon Subduing Island. Now, it only takes me three quarters of an hour, and I'm taking eight people with me. The difference is obvious."

Faced with the dam, only the last Great Dao tsunami was the most terrifying. Han Fei's only problem was to take eight people with him. He had to rely on his control of the Great Dao to take these eight people through the Great Dao tsunami.

At this moment, what they relied on was no longer strength, but Dao.

They were nervous, and a man among them said, "Fellow Daoist Han Fei, we know that it's difficult to go back, and we once saw big waves drowning our companions. Will there still be such waves?"

"Waves?"

"Then you are indeed very far away."

Han Fei smiled. "Follow me closely. Stay within ten feet of me, or I won't be able to protect you."

They didn't dare to be negligent and quickly approached Han Fei.

Han Fei, on the other hand, was not fast. The moment he tried to land on the dam, countless powerful techniques attacked him again.

Fist light, knife light, sword Qi, finger marks, arrow streams, palm prints... All kinds of destructive techniques poured down. Han Fei's eyes were firm. He could see all the techniques when they were a thousand feet away from him, and these powers would collapse in an instant and transform into the Great Dao again.

Behind Han Fei, the eight people were horrified. This was the first time they had faced a dam head-on. The moment they saw so many terrifying powers descend, to be honest, their hearts turned cold.

With such a terrifying power, even if the eight of them worked together, they probably wouldn't be able to withstand ten seconds before being killed on the spot. They wouldn't even have a chance to retreat.

However, Han Fei could withstand the overwhelming divine techniques alone, which was completely beyond their understanding.

However, Han Fei suddenly roared, "Everyone, be careful."

Hualala ~

The terrifying Great Dao Tide turned into huge waves and then into a tsunami. If Han Fei weren't here, these people would have felt despair.

"This... How can human strength stop it?"

It was no wonder that they had this illusion. When Han Fei faced this tsunami back then, he was also shocked. Just once, the Creation Mystic Yellow Tower collapsed, and his Invincible Body couldn't resist it at all. If he hadn't mastered the law of life, that wave would definitely have seriously injured him.

Bang!

The furious waves surged and the tsunami pounced. The monstrous tide drowned Han Fei and the others in an instant.

In front of Han Fei, countless Great Daos were impacting and collapsing. And Han Fei's resistance range fell from a thousand feet to ten feet.

Han Fei didn't say anything. Under such power, the Star River Source Power was useless. All he could do was to wait and shatter this charging Great Dao with all his heart.

But after waiting for more than ten seconds, the tsunami still didn't stop. Han Fei immediately realized that he had to go forward.

"Everyone, follow me."

Han Fei raised his hands flat. In front of him, Dao techniques were invincible. The tsunami flowed around him. The whistling sound resounded in his ears, but just the Dao sound that seeped in had already made the seven orifices of the eight people behind Han Fei bleed. Even their bodies cracked to varying degrees.

"How can this Great Dao tsunami last so long? It's as if this wave can't pass at all."

"Not good, Fellow Daoist Han Fei, we don't seem to be able to carry such Dao sounds."

Han Fei frowned. "Hold on a little longer."

One step, two steps, three steps.

Finally, after Han Fei took thirty steps in the tsunami of the Great Dao, the flesh and blood of the eight people behind him melted to varying degrees.

God of Fishing

Chapter 3665: Return (4)

Han Fei said, "Even if your flesh and blood dissipate or even your bones melt, as long as your will is not destroyed and your divine persona exists, once we reach the Chaotic Star Sea, I can revive you."

Han Fei didn't have to take these people back. He just wanted to see if he could lead them back to the Chaotic Star Sea. Whether he could or not made a great difference. He had a feeling that he would come back eventually.

At that time, would he return alone or leave with his men? Although he didn't know, it was necessary to try now. Even if he failed several times, it would be worth it if he could bring these people back to the Dragon Subduing Island.

After Han Fei took 37 steps in a row, there were only eight shining bones left behind him.

After Han Fei took 42 steps, someone's dominator bone shattered. Fortunately, the divine persona was still there.

After Han Fei took 49 steps, two more dominator bones shattered, leaving only divine personas.

And Han Fei seemed to have discovered something. The road of the dam had a total of fifty steps, which secretly conformed to the Heavenly Dao.

"Open!"

Crack!

Buzz!

After Han Fei took fifty steps, everything was calm in front of him. He looked back and found that he was standing on the dam again.

However, there were only two people behind him who could barely maintain the dominator bones and their bones were already full of cracks.

"Are we back?"

"I'm finally back. I didn't expect I, Nanfeng Liuxue, to return one day."

The two of them were so excited that they had completely forgotten their current state and appearance. If their bodies were still there, they would probably be in tears.

Even Han Fei was overjoyed. He had returned. He had broken the rule that he couldn't go back.

At this moment, except for the two skeletons, they had all turned into divine personas.

With a thought from Han Fei, the law of life swept across the two people and the six divine personas.

Although Han Fei could bring them back, it would take a certain amount of time and resources to revive them. It could be seen that even if he exceeded the dominator realm, it would be very difficult for him to bring them back from the Path of No Return.

And these eight people were all dominator-level powerhouses, old monsters who had lived for countless years. If it were an ordinary dominator, he might have been directly annihilated by the Dao sounds of the tsunami.

While healing these people's bodies, Han Fei looked at the sky and felt that the will of the world entered his heart. He felt that he seemed to be able to feel the entire Chaotic Star Sea with a thought.

However, his expression immediately turned ugly.

"Is it too late?"

"It's only four days."

...

Han Fei said that because he didn't see Senior Sister Shen Le and Senior Brother Undead here.

Han Fei didn't need to guess where Senior Sister Shen Le and Senior Brother Undead went. They must be in the Primordial Star Sea, but he didn't know how they got there.

Besides, judging from the current situation of the Sea Realm, it was completely different from a few days ago. The current battle was almost white-hot. A few days ago, the Sea Realm was still protected by the Chaotic Sea of Fire, but now, the Chaotic Ice Domain and the Chaotic Thunder Domain erupted at the same time.

The Death God was fighting fiercely to stop a peak-level dominator-level ominous.

As for the others, there were more than 300 dominator-level ominous creatures guiding the ominous mist to corrode the two divine realms of the Sea Realm.

...

Sea Realm.

On the periphery, the Shattered Star Sea had already been in a mess. In the past few days, there had been scenes of large stars falling nonstop. However, this spectacle was not a good thing. Instead, a large number of stars in the Shattered Star Sea had been pierced through and blasted down.

The dense ominous army, billions of them, was pressing forward step by step. If it weren't for the fact that there were many undead creatures in the Immortal Temple, these creatures might have surrounded the Sea Realm.

At this moment, countless dominator-level ominous creatures were attacking the Guardian Divine Realm while shouting, trying to quell the army of the myriad races.

A dominator ominous creature shouted, "Let go! You will die in the end."

"No one in the entire Chaotic Star Sea can save the myriad races. Human Emperor Han Fei has been trapped on the Path of No Return. The strongest person in the Void Temple, Shen Le, has been suppressed by our master. The Master of Time of the Time Temple has also been suppressed by our master. Your struggle is meaningless."

"The Immortal Temple can't last long."

"It's just the Divine Realms. When Master returns, even if all the Divine Realms of the Sea Realm are opened, you guys won't be a match for Master."

"What's wrong with becoming ominous? You will coexist with the heavens and earth when you become ominous."

"..."

Such shouts kept ringing. Their only purpose might be to shake the morale of the army.

On the battlefield, the strong masters of the myriad races naturally didn't believe these ominous creatures' nonsense. However, the other party repeated it over and over again.

Not to mention the countless creatures living in the Sea Realm, even the brave ones couldn't help but feel a little pessimistic at this moment. And these negative aspects were one of the sources of ominous power.

Someone sighed. "Are we going to die in the end?"

Someone heaved a long sigh. "I thought that the Human Emperor would be able to kill the ominous after he returned, but in the end, I'm afraid he's still no match for the ominous!"

"It's indeed been a long time since I saw the strongest powerhouses of the Void Temple. I didn't see them the moment the Chaotic Sea of Fire was broken through."

"Are they really suppressed?"

"That's bulls * it. A bunch of useless people who scare themselves. The war is still going on. We can still fight."

Beside Han Chanyi, Zhang Panpan and the others responded angrily while fighting fiercely.

Someone sneered. "I'm telling the truth. If Human Emperor and the others were still here, why aren't they here at this moment? You said we're scaring ourselves? Don't think we don't know that the Shattered Star Sea is about to fall. The Immortal Temple is about to lose to the ominous."

[God of Fishing](#)

Chapter 3666: Return (5)

Han Chanyi shouted angrily, "Anyway, the Human Emperor will definitely return. He promised me that himself."

"Promise you personally? Who do you think you are? How can a figure like the Human Emperor know you? Besides, with the Human Emperor's character, if he could return, he would have come back long ago."

"You..."

Toot...

Han Chanyi was about to flare up when a deafening horn suddenly sounded in the sky above the five Divine Realms of the Sea Realm.

Countless people's expressions changed when they heard that. "Not good. It's the ominous charge horn. The ominous tide is coming."

In the next moment, a divine voice spread throughout the Sea Realm. "The outer domain of the Central Sea Divine Realm is about to welcome an ominous tide. Everyone, take relevant defensive measures. It's best if you find secret realm caves, defense spiritual treasures, cultivation caves, and so on, to temporarily stay in."

In the next moment, the voice sounded again, "Order, all cultivators above the Monarch realm, come through the teleportation arrays of the five divine realms."

Buzz!

In the Free City, the settlement of the human race, and now the center of the Central Sea Divine Realm, thousands of barrier arrays appeared in the city. These were all arrays set up by the founders of the Free City.

The residents of the city were a little panicked.

Someone exclaimed, "It's only been three days. Three days ago, the ominous tide launched and broke through the Chaotic Sea of Fire. A shocking power fell on the Divine Capital Dynasty. It's said that even the dynasty array of the Divine Capital Dynasty was destroyed. Just the aftershock killed billions of people."

Someone's face turned pale. "How can it be so fast? In just three days, why is there a second ominous tide?"

Someone panicked. "It's over, it's over. We're itinerant cultivators and haven't joined any sects. Can the protective barrier of the Free City withstand it?"

At this moment, in the city, a voice sounded from the direction of the Thug Academy. "In the face of crisis, all creatures of the myriad races should suffer together. The Thug Academy can open the gate of the academy and provide shelter for everyone."

Hualala ~

In the place where the Thug Academy was, a huge tree that towered into the sky soared thousands of kilometers in the blink of an eye.

"The Thug Academy is honorable."

"As expected of the strongest academy of the human race. A place that can give birth to a figure like the Human Emperor is indeed extraordinary. It's not something some small sects can compare to."

"Let's go quickly. That divine tree looks majestic and extraordinary. It must be an extraordinary super barrier."

In the Free City, countless people saw this and ran away.

At the same time, the major sects and forces in the city followed closely behind.

"The Divine Capital Dynasty can offer shelter for you..."

"The Phoenix Divine Race can offer shelter for you..."

"The East Sword Pavilion can offer shelter for you..."

...

While everyone was preparing, Lei Heng, Feng Yu, and the others had already arrived in the Central Sea Divine Realm.

They had no choice. Their manpower was limited. In recent days, the ominous army seemed to be on drugs and attacked crazily, not caring how many ominous creatures were sacrificed. It could be said that the Chaotic Sea of Fire was forcibly extinguished by the ominous army with their own bodies.

Now, only three days had passed, and the ominous tide came again. Don't forget, there were still more than 300 dominator-level ominous creatures outside the Sea Realm. As a result, almost all the powerhouses who had stepped into the dominator realm were restrained and couldn't come over. They could only rely on the Divine Realm itself to resist them. They summoned Lei Heng and Feng Yu back under great pressure.

Even Senior Brother Six God was not free, because the insect army was large and needed someone to control it.

Only Lei Heng was extremely fast. He could turn into a vast sea of lightning alone and barely guard this place.

As for Feng Yu, after ten thousand years of cultivation and battle, she finally followed closely behind and advanced to the Sea Quelling God level. At this moment, summoning her to support was also a special form of protection for her.

This was because compared to fighting the ominous tide attacking the Central Sea Divine Realm, the other battles outside were equally terrifying.

Swish, Swish ~

Han Chanyi's eyes lit up when she saw Lei Heng and Feng Yu. "Uncle Lei Heng, Aunt Feng Yu..."

Seeing Han Chanyi rush over, Lei Heng felt a headache, but he said with a smile, "Yiyi, have you been guarding here?"

Han Chanyi said, "Yes! Panpan, Xiaoxiao, and I have been outside the Central Sea Divine Realm... However, you are too busy. I haven't seen you at all these days. By the way, Uncle Lei Heng, how is my father now?"

"Well..."

Lei Heng said solemnly, "Yiyi, your father is fighting. As you know, his enemies are stronger than ours."

Han Chanyi was immediately relieved, and her eyes were filled with surprise and joy. "Those dominator-level ominous creatures said that my father was trapped on the Path of No Return and couldn't return. They must be lying, right?"

Lei Heng's heart sank. In fact, Shen Le had already told them about what happened to Han Fei. But how should he tell Han Chanyi about this?

Not long after he said that, Senior Sister Shen Le and Senior Brother Undead disappeared together. He couldn't even contact them with the void mark.

Feng Yu snorted and said, "Yiyi, don't listen to the ominous' nonsense. Your father is only fighting the ominous on the Path of No Return. You should know that the Eldest Senior Brother of the Void Temple has been fighting the ominous for a thousand years, right? At their level, it's difficult for them to die even if they want to. Besides, your father is the Human Emperor. How can he abandon the human race and enter the Path of No Return with the ominous?"

"I knew it!"

Han Chanyi was furious. "I knew that those dominator-level ominous creatures were very bad. They're all liars."

Feng Yu said, "It's good that you know. Okay, Yiyi, the ominous tide is about to come. Your Uncle Lei Heng and I are going to enter the Chaotic Ice Domain first. Remember, don't approach it. Don't forcibly block the aftershock."

"Okay, Aunt Feng Yu."

...

In the Chaotic Ice Domain, Lei Heng sighed. "Little Junior Sister, are we going to keep this a secret forever?"

Feng Yu said, "Senior Brother, we don't know how many days the Sea Realm can exist. We have to give Yiyi something to look forward to. At that time, if the Sea Realm is annihilated... it doesn't matter if we keep it a secret to her or not."

Chapter 3667: Calming the Chaos (1)

Outside the Sea Realm, it was covered by ice.

Further out, the Shattered Star Sea stretched out.

The Shattered Star Sea itself couldn't resist the ominous army, but there were a large number of undead creatures and creatures of the myriad races in the Shattered Star Sea, which was why it had been in a stalemate with the ominous.

However, this persistence had lasted for too long. After several eras, although the Immortal Temple had accumulated countless undead creatures, the ominous had also been dormant for several eras, producing more and more ominous creatures.

At this moment, in the outer domain of the Central Sea Divine Realm, a passage was rushed out of the Shattered Star Sea with a bang. Immediately afterward, countless ominous creatures smashed into the Chaotic Ice Domain like raindrops. They were so fast that they arrived in an instant.

Bang! Bang! Bang!

In the blink of an eye, millions of ominous creatures rushed into the Chaotic Ice Domain.

Ka ka ka ~

However, the moment these ominous creatures entered the Chaotic Ice Domain, they were instantly frozen into ice and then exploded, only exploding into an ominous mist. However, the ominous mist was quickly enveloped by the extremely cold power of the Chaotic Ice Domain and then purified by the power of the Chaotic Ice Domain.

And purifying this ominous creature, the extreme cold power in the Chaotic Ice Domain would also dissipate a little bit. Although it was almost imperceptible, this was only one ominous creature. When hundreds of thousands, hundreds of millions, or even tens of billions of ominous creatures launched this kind of suicide charge at the same time, it would be different.

In the blink of an eye, hundreds of thousands of ominous creatures were annihilated by the Chaotic Ice Domain, but the layers of ice were also slightly damaged.

Another moment later.

A million, ten million.

More and more ominous creatures rushed forward fearlessly. It was as if it had suddenly rained on a snowy land. The raindrops were very subtle, but every drop of rain could melt some ice and snow.

After about an hour, a gap was chiseled open in the Chaotic Ice Domain. Although the Chaotic Ice Domain had the ability to repair itself, it was difficult to quickly heal this huge gap that was chiseled through by the ominous.

At this moment, Lei Heng and Feng Yu finally took action.

Rumble!

"Hula..."

The lightning domain, the sea of fire, and the extreme cold intertwined, forcibly blocking this gap. After all, two Sea Quelling Gods had taken action, and Lei Heng was an extremely powerful Sea Quelling God

who controlled the lightning domain. Therefore, to the ominous, Lei Heng was almost equivalent to a dominator.

However, the ominous creatures were not stupid. They certainly couldn't just let Lei Heng and Feng Yu block the ominous tide that they had spent so much effort to create.

Therefore, the moment Lei Heng and Feng Yu attacked, twelve dominator-level ominous creatures immediately rushed over along with the ominous tide.

Seeing this, Lei Heng immediately shouted, "Little Junior Sister, attack."

Upon hearing this, an ice-blue divine bead immediately appeared in Feng Yu's hand. This was the divine bead that controlled the Chaotic Ice Domain. As soon as this bead appeared, it could mobilize the power of the Chaotic Ice Domain.

In the blink of an eye, the power of the Chaotic Ice Domain quickly gathered and filled the gap. And the twelve dominator-level ominous creatures were still charging.

A dominator shouted ominously, "Do you know why only 12 of us came? Because the current Chaotic Ice Domain is different from the previous one. The current Chaotic Ice Domain has exhausted too much power."

"Puff! Puff! Puff!"

For a moment, the power of the twelve dominators was suppressed by more than 50% by the Chaotic Ice Domain, but they didn't care.

At the same time, a tremendous amount of extremely cold airflow began to spread out from the Chaotic Ice Domain, trying to sweep away these 12 dominator-level ominous creatures. However, dominator-level ominous creatures were not to be trifled with. The surging ominous mist of these 12 people worked together and barely blocked the invasion of this wave of extremely cold air.

However, as a variable, Lei Heng attacked consecutively. Endless lightning and fire burned in the gap at the same time.

Besides, Lei Heng also turned into the Thunder God Dharma Idol and began to attack.

Twenty minutes.

Half an hour passed.

Two hours.

...

After fighting for more than six hours, the gap in this Chaotic Ice Domain was broken through by the ominous tide three times in a row.

However, only three dominator-level ominous creatures had been purified by the extreme cold power of the Chaotic Ice Domain. The other nine had suffered varying degrees of damage, but they were basically intact.

Crack!

Feng Yu's expression suddenly changed drastically. "Senior Brother Lei Heng, the Chaotic Ice Domain is not very efficient at killing dominators."

Feng Yu had tried her best, but the Chaotic Ice Domain wasn't specifically targeted at dominator-level ominous creatures in the first place. Furthermore, in the Primordial Era, the Chaotic Ice Domain and the Chaotic Sea of Fire had all been activated. At that time, a Chaotic Sea of Fire could burn the Primordial Era, and a lightning domain could stop the endless ominous for thousands of years. The Chaotic Ice Domain was mainly a defensive divine domain, famous for being easy to defend but difficult to attack. Therefore, even if the Chaotic Ice Domain could kill a dominator-level ominous creature, there was still a limit.

Lei Heng said, "There's nothing we can do, but it's easy to defend but difficult to attack. Let's cooperate and hold on first."

Eight hours later.

Even though the dominator-level ominous creatures were heavily injured under the suppression of the Chaotic Ice Domain, Lei Heng was only a Sea Quelling God after all. Although his strength was invincible, he was still lacking in the realm. Even if he used all his strength, he could only kill one dominator-level ominous creature with the help of the Chaotic Ice Domain.

However, there were still eight of the twelve dominator-level ominous creatures left.

[God of Fishing](#)

Chapter 3668: Calming the Chaos (2)

However, Lei Heng and Feng Yu couldn't fight anymore. This was because in the end, he and Feng Yu were just keeping the ominous in check. What really killed these dominators was the Chaotic Ice Domain.

At this moment, the Chaotic Ice Domain had been dug open countless times. The biggest characteristic of the ominous tide was that it was endless. Lei Heng and Feng Yu were both a little weak at this moment. There were too many enemies and they were too strong. If this went on, the ominous could eventually penetrate the Chaotic Ice Domain.

Once the Chaotic Ice Domain was penetrated, the Sea Realm was also in danger.

Feng Yu asked, "Senior Brother Lei Heng, should we ask for reinforcements?"

"No!"

Lei Heng shouted in a low voice, "Their side is much more miserable than ours. All the dominators are there. As many as a hundred dominator-level ominous creatures have participated. Countless God Slaying-level powerhouses have been involved. If it weren't for the Chaotic Thunder Domain continuously resisting the impact, their side should have long been defeated."

Feng Yu asked, "Then what should we do? Unless... we detonate the Divine Realm."

Lei Heng panted heavily. "Of course not. The reason why the dominator-level ominous haven't all been deployed is that they are afraid that we will do something with the Divine Realm itself. Otherwise, if hundreds of dominator-level ominous attack together, no matter how strong the Divine Realm is, it won't be able to resist them."

Rumble!

Knock, knock, knock!

Suddenly, Great Dao cracks stretched across the Sea of Stars, and the Heavenly Dao Death Knell sounded one after another. This meant that a top powerhouse of the human race had died.

Lei Heng's expression changed. "It's the death of a dominator."

Feng Yu's expression changed drastically. "What? Has it reached this point?"

In the Chaotic Ice Domain, a dominator said ominously, "Someone has died, which means that the other side is completely restrained. It's about time. Let's begin!"

"Um!"

As he spoke, the eight dominator-level ominous creatures that were fighting fiercely in the Chaotic Ice Domain retreated at the same time and retreated from the Chaotic Ice Domain.

"Huh? Retreat? Why?"

Feng Yu said, "Something seems to be wrong. The ominous has already sacrificed so much. It definitely won't give up for no reason."

Sure enough, in the next moment, the overwhelming ominous creatures attacked the gap of the Chaotic Ice Domain again.

At the same time, another channel appeared in the Shattered Star Sea, but this time, it wasn't the ominous creatures pouring down.

From the Shattered Star Sea, from the endless ominous mist, a black ship was extremely huge. Compared to it, the stars were only worthy of being a light on the hull. At the front of the hull was the skull of an unknown creature, like some kind of single-horned Star Giant Beast.

This hull was pushed forward by a massive amount of ominous mist, heading straight for Lei Heng and Feng Yu.

"Shoot ~"

Lei Heng cursed, "Is this a ship?"

Feng Yu opened her mouth. "Well, it's ramming over."

"Senior Brother, retreat ~"

Lei Heng and Feng Yu immediately retreated. Both of them were a little stunned. This ship was going to hit the Sea Realm?

At the same time, on the other side of the battlefield, Senior Brother Azure Dragon, Fifth Senior Brother, the Old Dragon God, and the other strong masters were all restrained here.

There were nearly a hundred dominator-level ominous creatures here. They were tied down here and couldn't help Lei Heng and the others at all.

At this moment, Fifth Senior Brother immediately shouted in a low voice, "Not good. That's the ominous ice breaking ship. That's why the Chaotic Ice Domain didn't make any contributions in the Primordial Era. We've been tricked. This is an ominous scheme. The other party deliberately used hundreds of dominators and a large number of god-slaying level powerhouses to hold us here. In fact, they're attacking the Chaotic Ice Domain at the same time. If we leave, this battle line will collapse, and some dominator-level ominous will have a chance to forcibly cross the Chaotic Thunder Domain. If we don't go to support the Chaotic Ice Domain, the other party only needs to send a small number of strong masters to attack the Chaotic Ice Domain. Once something happens in the Chaotic Ice Domain, Lei Heng and Feng Yu won't be able to resist it. Our last resort is to detonate the Divine Realms to quell this war... Therefore, the ominous is forcing us to detonate the two Divine Realms at once."

Senior Brother Azure Dragon's expression was ugly. "Such a huge ice breaking ship. The other party has invested a lot!"

The ancient Dragon God shouted, "Why didn't you tell me earlier that there was such a thing?"

Fifth Senior Brother said, "The ominous' attacks these days are too fast, and this thing has only appeared once in history and has been used up. I didn't know there was a second ship. Now I suspect that this ship was very likely built by the ominous itself."

Upon hearing this, everyone couldn't help but feel a little desperate. "Is the ominous crazy? If these two divine realms really explode, I'm afraid there are only a handful of people who can escape. And the nearly a hundred dominator-level ominous creatures that came to restrain us will probably be wiped out."

If Han Fei were here, he would understand the ominous' behavior very well. In order to descend into the Chaotic Star Sea, he had personally seen the ominous sacrifice 1,203 dominator-level ominous creatures. Therefore, what was the big deal of sacrificing hundreds of dominator-level ominous creatures?

In short, this was because the myriad races were desperately outnumbered by the ominous. A starving camel was still bigger than a horse. Although Han Fei had almost killed all the other party's peak-level dominators, there was still one who wasn't dead.

And this was the biggest problem.

At this moment, anyone above the God Slaying level could feel that something was wrong in the Chaotic Ice Domain.

In the Chaotic Thunder Domain, Xia Xiaochan shouted, "Fatty, Zhang Xuanyu, I'm going to the Chaotic Ice Domain. You stay here."

Zhang Xuanyu immediately spat. "I'm going too. Panpan and Yiyi are both in the Chaotic Ice Domain."

God of Fishing

Chapter 3669: Calming the Chaos (3)

Le Renkuang said, "If you two go, how can I stay here?"

Xia Xiaochan and Zhang Xuanyu deliberately left Han Chanyi and the others in the Chaotic Ice Domain. Because the attack of the Chaotic Thunder Domain was too ferocious, almost all the strong masters of the myriad races and all their Supreme Nature Treasures were still no match for it. And the Chaotic Ice Domain was easy to defend but difficult to attack.

After the Chaotic Fire Domain was easily destroyed by the ominous, in just two days, the power of the Chaotic Thunder Domain was weakened by the suicidal charge of countless ominous creatures. In just a few days, more than 500 strong masters of the myriad races had died. If it weren't for the high-end combat power of the Chaotic Thunder Domain and the Time Temple, all the strong masters of the myriad races would have been killed.

Although there were still many dominators on the ominous' side, some of them were restrained by the Death God, and some reserved their strength and didn't attack.

The reason why they reserved their strength was that they were afraid that the myriad races would detonate their divine domains and wipe out all the ominous powerhouses at once. Furthermore, they seemed to know that there were other divine domains behind the Chaotic Ice Domain and the Chaotic Thunder Domain, so it was clearly impossible for them to release all the dominator-level ominous powerhouses at once.

Senior Brother Azure Dragon and the others' defense of the Chaotic Ice Domain was so simple and they only sent Lei Heng and Shen Le over purely because the Chaotic Ice Domain was easier to defend than the Chaotic Thunder Domain and could repair itself. In their opinion, it was actually more difficult to break the Chaotic Ice Domain. However, who could have expected that the ominous had a way to break through the Chaotic Ice Domain?

"Puff ~"

A cross-shaped light knife instantly cut through the three God Slaying-level ominous creatures besieging Xia Xiaochan. The flames of purification burned and purified the three God Slaying-level ominous creatures in the blink of an eye.

Ximen Linglan held two knives in her hands and stood proudly. "It's useless even if you go. I'll go!"

Xia Xiaochan took a deep look at Ximen Linglan and gritted her teeth. "I'll leave Yiyi and the others to you. Take them back to the Sea Realm."

Xia Xiaochan was not stupid. The three of them were only at the God Slaying level. Even if they went to the Chaotic Ice Domain, they could only die with Han Chanyi and the others.

But Ximen Linglan was different. She had mastered the Six Divine Time Techniques, and her combat power was almost comparable to that of a dominator. If she used the Time Sky Sealing Lock, she might be able to protect Han Chanyi and the others.

Boom ~

As soon as Xia Xiaochan said so, Ximen Linglan had already disappeared.

It was also at this moment that the black ice breaking ship hit the Chaotic Ice Domain in one fell swoop. With countless cracking sounds, the Chaotic Ice Domain was naturally shattered.

However, because of the obstruction of the Chaotic Ice Domain, the entire hull of the ominous giant ship was pushed by infinite power. At first, it broke through the ice in the Chaotic Ice Domain, and the billions of years of extreme cold and freezing failed to stop it.

At the same time, a large amount of ominous mist spewed out of the hull, as if it was not afraid of the law of extreme cold.

"Lightning Tide Shakes the World!"

"Phoenix Feather Cover the Sun!"

Lei Heng and Feng Yu both erupted, but the surging lightning tide was broken under the ice breaking ship and couldn't even withstand a second. Instead, Lei Heng was seriously injured and sent flying back.

Feng Yu's feather shot across the sky, but it was instantly bent by the ice breaking ship, bent to the extreme, and shattered.

"Puff ~"

Feng Yu's blood splashed across the sky, and then she followed in Lei Heng's footsteps.

However, although Lei Heng and Feng Yu failed to stop the ice breaking ship, the Chaotic Ice Domain was ranked among the seven Divine Realms and had once suppressed the wasteland of the East Sea Divine Realm, so its reputation was not unearned. This ice breaking ship struggled to move halfway through the Chaotic Ice Domain before it was stuck in the Chaotic Ice Domain, unable to move.

Seeing this, Lei Heng and Feng Yu were relieved.

Feng Yu pointed at the ice breaking ship and shouted angrily, "B*stard ship, keep being arrogant if you have what it takes."

However, in the next second, a tremendous amount of ominous mist spewed out of the huge ship at an extremely fast speed. In the blink of an eye, it spread out, as if it was about to fill the holes in the Chaotic Ice Domain.

Lei Heng was lost for words. "Little Junior Sister, there are only two of us. Don't provoke them!"

Feng Yu was also dumbfounded. "Well... I'm just saying."

At this moment, the huge black ship trembled. The law here was no longer stable, and the law of extreme cold seemed to have been challenged.

Lei Heng and Feng Yu looked at each other and immediately shouted, "Run!"

Rumble!

In the blink of an eye, a violent explosion blasted a huge hole in the Chaotic Ice Domain.

The moment the rumbling shook, Han Yiyi and the others, who were closest to the Chaotic Ice Domain, were already prepared.

However, the impact of this power was too strong. The nearly a hundred gods in the lead roared at the same time and tried their best to block this energy impact.

Swish, Swish ~

At that moment, everyone saw two shadows falling from the sky of the Sea of Stars. A divine phoenix had lost nearly half of its feathers, one of its wings was broken, and three circles of flames revolved around its body. At this moment, it was also full of cracks.

The other was a bronze cauldron with thunder rumbling inside. The bronze cauldron was also full of cracks.

Knock! Knock!

With two consecutive bangs, something smashed into the seal barrier formed by hundreds of gods.

"Puff! Puff! Puff!"

For a moment, nearly half of the gods vomited blood.

However, not only that, there was also a terrifying energy impacting down from the Chaotic Ice Domain. This energy contained many Great Dao laws and was mixed with a large amount of Star River Source Power. Under such a violent force, the seal barrier of hundreds of gods immediately couldn't withstand it.

[God of Fishing](#)

Chapter 3670: Calming the Chaos (4)

With continuous cracking sounds, the sealing barrier was instantly full of cracks.

"Everyone, hold on."

Someone shouted and spared no effort to unleash his full strength.

However, even so, it only lasted for less than three seconds before the barrier shattered with a bang.

Fortunately, Lei Heng had recovered in time. He held a bronze cauldron in his hand and burst out boundless lightning, blocking the terrifying energy impact.

Immediately afterward, Feng Yu had recovered and hurriedly followed him. At this moment, she said in shock, "This power is too strong. Not only did it penetrate the Chaotic Ice Domain, but it also shattered the Hundred God Sky Locking Array. In the end, you still had to use a Supreme Nature Treasure to resist it."

Lei Heng said, "That should be an attack condensed after the ominous aura was infinitely compressed. Its purpose is to penetrate the Chaotic Ice Domain. Now that the Chaotic Ice Domain has been penetrated, the ominous won't give us a chance to fight back. It seems that we can only use the Chaotic Sand Sea."

Buzz ~ Buzz ~

At that moment, countless ominous creatures crawled out of the cracks of the Chaotic Ice Domain. The first to bear the brunt were the eight dominator-level ominous creatures.

"Oh no."

Feng Yu immediately shouted, "Everyone, retreat to the second line of defense."

In the plans of the strong masters of the Sea Realm, the Chaotic Sand Sea and the World Tree were the last barriers of the Sea Realm. Once it involved the use of the Chaotic Sand Sea, it meant that the enemy was almost unstoppable.

Swish! Swish! Swish!

However, the dominator-level ominous wouldn't give the strong masters of the myriad races a chance to escape. In an environment that wasn't the Chaotic Ice Domain, they only needed one person to keep Lei Heng and Feng Yu in check.

And there were eight of them here, so it was almost impossible to leave at this moment. Previously, no one had expected the ominous to break through the Chaotic Ice Domain so quickly. In theory, even in the face of such a terrifying ominous tide, the Chaotic Ice Domain could last for many years. It was impossible for it to be broken through in a moment.

But now, the myriad races seemed to have completely underestimated the ominous power and the number of ominous creatures.

The moment the Chaotic Ice Domain was penetrated, the sky above the entire Sea Realm rumbled, and a strange color seemed to appear between the heavens and earth, like rolling thunder, scaring countless people.

Countless people looked up at the sky in horror and anxiety.

"Will the ominous really invade the Sea Realm?"

"What should we do? So the strong masters of the myriad races can't resist the ominous in the end?"

"Hold on!"

Some were afraid, some were desperate, some were hoping fervently, some were praying, some were cheering for their superiors, and some were thinking about what they should do if they only had one day left.

At this moment, ordinary people were confused and lucky, because they had never seen a real enemy, nor did they know what they would face in the next moment.

At this moment, Lei Heng, Feng Yu, and the strong masters of the myriad races guarding under the Chaotic Ice Domain were in despair.

The ominous had never been merciful. If they were given a chance, they would corrode everyone present, no matter who you were or what your identity was.

Therefore, the moment those dominator-level ominous creatures appeared, they immediately launched a fierce attack on all the strong masters of the myriad races. The billowing ominous mist covered the sky and swept over.

At that moment, Lei Heng and Feng Yu both knew that they had nowhere to run, and Lei Heng roared, "Chaotic!Sand!..."

Bang!

Suddenly, before Lei Heng finished shouting, a time tide surged here, and a Time Sealing Sky Lock condensed.

The ominous mist was temporarily blocked. Lei Heng was overjoyed. He thought that reinforcements had arrived, but there was only a valiant woman.

"Huh? Sister-in-law, only you here?"

Feng Yu was speechless. "Are you crazy? Ximen Linglan, this is a dire situation. Why did you come here?"

Feng Yu, on the other hand, looked at Han Chanyi, who was guarding the rear of the army. Their eyes met for only a moment before Ximen Linglan retracted her gaze and said indifferently, "The Chaotic Ice Domain can still be saved."

"Huh?"

In the next moment, Ximen Linglan pushed the huge hole in the Chaotic Ice Domain and said solemnly, "Because I still have a void."

Swish ~

A void power was slapped out of Ximen Linglan's palm.

The void encompassed darkness and swallowed. The ominous mist that was about to extend was swept away by this invisible and strange power.

Seeing this, the eight dominator-level ominous creatures suddenly retreated, looking as if they wished they had eight legs.

Lei Heng laughed. "Great! If you have the ability, keep being arrogant. How can you break my Eldest Senior Brother's void power? Today, you'll have to fill it with at least one Star River of ominous mist."

Outside the current Sea Realm, in a star river, how many ominous creatures were there? No one expected that Ximen Linglan still had the power of the void in her hand.

Before Eldest Senior Brother left, he left some for Senior Sister Shen Le and Senior Brother Undead. However, in the endless battles, this consumable void power had long been used up.

After all, this thing was only for temporary life-saving purposes, and Eldest Senior Brother couldn't give Ximen Linglan much. Giving her a piece actually consumed a portion of his strength.

Therefore, as soon as the power of the void appeared, Lei Heng and Shen Le both heaved a long sigh of relief.

However, after this void appeared, the eight dominator-level ominous creatures only retreated to the crack of the Chaotic Ice Domain before stopping and not continuing to escape.

The power of the void didn't spread as fast as imagined, just like in the Creation Star Compass, so there was still time for them to react.

This behavior of the ominous stunned Ximen Linglan and the others.

"Are you looking for death?"

Lei Heng was still puzzled.

However, among the eight of them, a dominator-level ominous walked out and said calmly, "Sure enough, you still have some trump cards. What a pity. I originally wanted to use them on the Chaotic Sand Sea, but now I have to use them on you."

The ominous hand took out a small bottle. He opened the bottle without hesitation and sneered. "If it's just a piece of void, half a bottle is enough. The extra... Welcome to joining us, hahaha..."

Clatter ~

As the bottle was poured out, a large amount of ominous matter quickly disappeared into the void. And the void power that Ximen Linglan punched out suddenly stopped and began to disintegrate on the spot.

Feng Wu glared at Lei Heng. "You jinx, what you said has come true! Run..."

However, the ominous matter was at the peak of the dominator level. Even Shen Le couldn't stop an ominous creature from swallowing the ominous matter. Now, how could Lei Heng and the others escape the spreading speed of the ominous matter?

Ximen Linglan disappeared in an instant, grabbed Han Chanyi, and was about to run towards the Sea Realm. But even someone as strong as Ximen Linglan wasn't a dominator yet, so her speed wasn't that fast.

As soon as she came to Han Chanyi, she was caught up and contaminated by the ominous matter. Feng Yu and Lei Heng were also contaminated. Obviously, the ominous matter targeted people too. After all, this thing was conscious.

At this moment, the moment he was contaminated by the ominous matter, Lei Heng had already taken out the divine bead that represented the Chaotic Sand Sea, but his speed was still a little slow.

"Damn it."

Lei Heng cursed and was about to release the Chaotic Sand Sea, but in the next second, the Chaotic Sand Sea didn't appear.

Lei Heng, Ximen Linglan, Feng Yu, and even the dominator-level ominous were all stunned.

However, Lei Heng immediately roared, "F*ck, where is my Chaotic Sand Sea?"

"Puff! Puff! Puff!"

As soon as Lei Heng said so, three green vines suddenly drilled out of Lei Heng, Ximen Linglan, and Feng Yu's bodies.

As for the ominous matter, it had already dispersed, preparing to infect everyone here. However, they suddenly stopped here as if someone had pressed a pause.

Immediately afterward, a gentle voice sounded here, "Senior Brother, you'd better keep the Chaotic Sand Sea!"

Han Chanyi felt that the voice was right beside her ears. She suddenly turned around, only to see Han Fei standing beside her with a smile.

"Dad?"

Han Chanyi's eyes widened with joy. The situation here was changing rapidly. A moment ago, she thought she was going to die. How could she have expected Han Fei to appear beside her at this moment?

Han Fei rubbed Han Chanyi's head and then looked at Ximen Linglan. "Does it hurt?"

Ximen Linglan's lips curled into a rare warm smile. "Yes."

"Alas! That's a serious problem."
