Chapter 3672: The Fourth Level of the Path of Invincibility, Mastering the Chaos (2)

"Was our master deceived?"

"What should we do now?"

"Retreat. Retreat first. When our master returns, it won't be too late to destroy the myriad races."

A dominator-level ominous immediately retreated. However, a white stream of fire suddenly blotted out the sky and rolled over. At the same time, in the void, a hand appeared in the air.

"Disaster Flowing Fire."

Swish! Swish! Swish!

Then, nine balls of white fire instantly surrounded the fleeing dominator ominous. As the flames rose, the dominator ominous had no chance to escape at all. It was covered by the white fire, burned, and purified into ashes in the blink of an eye.

"Is this the Great Dao of White Fire? It was once one of the strongest Daos in the Age of Gods. It was created by Nanfeng Liuxue!"

Someone quickly explained the origin of this fire.

But then someone said, "However, it's said that Nanfeng Liuxue has embarked on the Path of No Return."

At the same time, a broken broadsword, half of which was a broadsword and the other half a Great Dao, slashed down. It was dazzling like a line in the sky, impossible to dodge.

Immediately afterward, a dominator-level ominous was cut in half by the broadsword. Before it could recover, the Great Dao on the broadsword light burned and drowned the dominator-level ominous.

"He cut off vitality with one slash and severed the Great Dao with another. It's Broken Blade Lu Tian. This person was a peerless powerhouse from 30 million years ago. He was once known as the person most likely to suppress an era."

Countless people saw a group of eight people lined up, blocking the way of nearly a hundred dominator-level ominous creatures.

"Get lost."

A dominator-level ominous creature roared and turned into a boundless mist, as if it wanted to directly envelop the eight people above.

However, in the next second, the boundless mist was instantly cut into hundreds of thousands of pieces. When he looked again, the void was full of silver threads, which seemed to be sharp enough to cut everything.

"Li Yue, the Silk Lady, can control the Heavenly Dao and all laws with the Heavenly Silk Dao. She's also a super powerhouse who disappeared in the Age of Gods."

"Who are the remaining five?"

"No matter who it is, he seems to be very strong."

The eight of them attacked in unison. Each of them had cultivated bitterly on the Dragon Subduing Island for thousands of years and mastered various origin laws. How could ordinary ominous creatures resist them?

Swish! Swish! Swish!

Bang! Bang! Bang!

These eight people were like eight city walls, blocking the dominator-level ominous that was trying to escape. Accompanied by Senior Brother Azure Dragon's dragon roar, another battle broke out here.

In the field, Lu Tian and the other three were fighting like crazy. The more they fought, the faster and fiercer they became.

Someone laughed. "Great! I haven't felt so good in a long time."

Someone exclaimed, "A long-awaited feeling, the long-lost myriad races!"

A woman said leisurely, "Okay, don't be pretentious. The other party is not weak. We might not be able to stop them."

Someone smiled and said, "What are you afraid of? With Fellow Daoist Human Emperor here, what's the big deal?"

Sure enough, as soon as they said so, in less than three seconds, Han Fei had arrived with Han Chanyi, Ximen Linglan, Lei Heng, and the others.

When Lu Tian and the others saw Han Fei, they hurriedly said in unison, "Greetings, Human Emperor..."

Seeing this, Senior Brother Azure Dragon and Fifth Senior Brother seemed to understand something. Fifth Senior Brother said, "Little Junior Brother, be quick."

Han Fei smiled and nodded. With his hands behind his back, he stepped to the side of a dominator-level ominous.

The dominator-level ominous seemed to want to dodge, but he was stunned to find that he couldn't move at all.

Han Fei just glanced at him and took the second step without attacking, disappearing in front of him.

Although this dominator-level ominous didn't know why Han Fei left again, it couldn't help but feel a little glad. Unfortunately, before it could be happy, its body shattered uncontrollably.

Yes, he didn't see Han Fei attack, and the others, including the ancient Dragon God, didn't see Han Fei attack.

Only Lu Tian and the others looked yearning.

Lu Tian said, "Wherever the Human Emperor is, all the Daos are shattered. As long as there is a Dao in the ominous body, it can be used by the Human Emperor. This realm is really fascinating."

Nanfeng Liuxue shook her head slightly. "It's too profound for you and me to understand now."

Li Yue smiled. "It's useless to yearn for it. Let's be realistic. The Sea of Stars will definitely revive this time. We should have many interesting things to do."

Hearing this, Lu Tian nodded quickly. "Yes..."

While they were talking, Han Fei had already taken 13 steps in a row. With every step he took, a dominator-level ominous creature died.

This scene made many people stop fighting, because half of the dominator-level ominous had already stopped fighting and gathered together.

At this moment, when Han Fei walked to a dominator-level ominous creature, this person took out half a bottle of ominous matter. However, as soon as this half bottle of ominous matter was released, it was absorbed by the Demon Purification Pot that extended out from between Han Fei's eyebrows.

Among the dominator-level ominous creatures, the stronger ones shouted, "Everyone, charge out with me."

However, this time, Han Fei finally raised his hand. With a flip of his hand, he turned into a Great Dao palm and pressed down in the void, as if he had fused with the sky. Everyone felt that the world was about to collapse, and there was boundless divine might that seemed to be about to annihilate everything.

As for the dominator-level ominous creatures, their faces were filled with horror. They wanted to resist, but they discovered that their Dao had already collapsed. They couldn't even control the power of the laws here at all.
