Chapter 3675: The Ultimate Battle (1)

After Han Fei was trapped on the Path of No Return, the first thing Shen Le did was to tell the disciples of the Void Temple about the path above the dominator realm, and then to the Death God and the Master of Time.

Now, Shen Le and the undead had disappeared, Han Fei had returned from the Path of Return, and then such a law abnormality erupted in the Sea of Stars. The Death God naturally guessed that Han Fei had made a breakthrough.

Although it was very fast, the Death God wasn't surprised. To be able to find the path above the dominator realm was already something that no one in history could do. Besides, Han Fei had the high hopes of many people.

The Death God said, "Shen Le, Undead, and I fought Hongjun's ominous body for two days. Time couldn't resist the siege of peak-level dominators and the dominators of the ominous. In the end, I replaced him to protect the Sea Realm. But in just half a day, they disappeared without a trace. Perhaps they had fallen into the so-called Primordial Sea."

Han Fei nodded. "I know. I'll go there immediately after I solve the remaining dominator-level ominous."

With that, Han Fei's old body entered time again and disappeared.

The law riot in the Chaotic Star Sea could almost kill 99% of the ominous creatures. However, a small number of God Slaying-level ominous creatures and the remaining nearly 200 dominator-level ominous creatures could escape.

This was because the Sea Quelling God could control a star river, so the ominous that could reach the strength of the Sea Quelling God could withstand the spontaneous power of laws in the Chaotic Star Sea, not to mention the dominator-level ominous.

...

After half an hour.

Han Fei, who had just flattened the dominator ominous in the Chaotic Star Sea, had already come to the end of the Mud Sea and stood in front of the passage between the two worlds that separated Primordial Chaos and Chaos.

Han Fei looked at the door and could feel that the Heavenly Dao of the Chaotic Star Sea was blocking this channel that connected to the outer domain. This was the fastest and safest way for Han Fei to go to the Primordial Star Sea.

Although there was another channel connecting the Chaotic Star Sea to the Primordial Star Sea, that channel had long been controlled by Hongjun's ominous body. Although he had broken through to the Immortal Level, if Hongjun's ominous body had already controlled the Primordial Star Sea, it might be able to cause a devastating blow to him.

But the passage between the two worlds was different. He could advance, attack, or retreat. If the Primordial Star Sea had already fallen, he would have to fight Hongjun's ominous body. If he couldn't win, he could retreat to the Chaotic Star Sea. With his current control of the Chaotic Star Sea, even if the ominous reached a higher level, it was impossible for the ominous to defeat him in the Chaotic Star Sea.

"A day and a half. I hope Senior Sister Shen Le and Senior Brother Undead can hold on."

Han Fei didn't know what was going on on the other side of the door. A day and a half was enough for him to do many things. For example, less than an hour after he returned to the Sea Realm, he had not only swept through all the dominator-level ominous creatures, but also broken through to the fourth level of the path of invincibility.

Similarly, once Hongjun's ominous body killed his way into the Creation Jade Plate, he might be able to subdue the Primordial Star Sea in less than an hour.

"In any case, this battle has finally come."

Buzz!

Han Fei pushed open the Gate of Two Worlds without hesitation. When he pushed the door open, he discovered that the power needed to open the door was above 30 pieces of Star River Source Power, and it required the blood of six lineages to open it.

Ka ka ka ~

Han Fei's Qi and blood surged into the sky and covered the entire door. With cracking sounds, the door was finally slowly pushed open. When the door was pushed open a crack, what came at him was not the ominous mist, which made Han Fei heave a sigh of relief.

As long as it wasn't the ominous mist, it was fine. This meant that the Guardian Divine Realm hadn't fallen yet. Perhaps it was indeed because Hongjun's ominous body hadn't returned for long and there were Shen Le, the undead, and Time keeping him in check that he couldn't attack the Guardian Divine Realm.

Buzz!

When Han Fei walked out of the white halo, he saw the figures of the Heavenly Monarch, Supreme Dao Monarch, and Nine Heavens Mystic Fairy rushing over.

At this moment, the three of them looked nervous as if they were facing a great enemy. There were more than a hundred weapons floating around them.

However, when they saw that it was Han Fei, they were overjoyed and quickly put away their weapons.

Immediately, the Heavenly Monarch cupped his hands. "Greetings, Human Emperor."

The Supreme Dao Ancestor and the Nine Heavens Mystic Fairy also hurriedly bowed. "Greetings, Human Emperor."

Although the Heavenly Monarch ruled the Three Thousand Star River, he still knew his limits. Han Fei was much stronger than him. Besides, the strength of the other two people was not something he could compare to.

"You're actually back."

Immediately afterward, Hongjun's voice sounded in Han Fei's heart, seeming a little stunned.

Han Fei didn't respond to the Heavenly Monarch and the other two. He first scanned around with his perception and didn't find Shen Le or Senior Brother Undead. However, he found that there were only more than 1,200 pieces of the Star River controlled by the Creation Jade Plate, more than half less than when he left a few days ago. He knew that something must have happened to the Guardian Divine Realm. Otherwise, it was impossible for the control range of the Creation Jade Plate to decrease so much in just a few days.

Han Fei looked up at the sky. "Well, you can only return after you've comprehended a lot on that path. However, thank you for your divine vine. Where are Shen Le and Undead?"

The Heavenly Monarch was puzzled. "Fellow Daoist Shen Le and Fellow Daoist Undead..."
