

"I'm not talking to you."

Han Fei interrupted the Heavenly Monarch, but the latter was full of doubts. Who were you talking to if you weren't talking to me? However, since Han Fei had said so, he could only suppress his curiosity and wait quietly.

The world trembled slightly, and Hongjun said, "Something happened. Half a day ago, Hongjun's ominous body descended to the Guardian Divine Realm and corroded nearly half of the Star Rivers in a moment. Shen Le and the other two paid a certain price to take my ominous body away from the Guardian Divine Realm. They should be in the vast Sea of Stars now. You have to find them yourself."

Han Fei's heart sank. It was probably not a small matter to make Hongjun say that they had paid a certain price. Senior Sister Shen Le and the other two must have paid a huge price.

"Okay."

Han Fei thought for a moment and closed the door behind him. Then he looked at the Heavenly Monarch and the other two and said, "You can gather all the strong masters here. If there is really an unresolvable problem in the Guardian Divine Realm, I will take you away."

The Heavenly Monarch and the other two were shocked.

The Nine Heavens Mystic Fairy hurriedly asked, "Master Human Emperor, even you are not confident of defeating those otherworldly sky fiends? In just half an hour, we lost more than 1,300 Star Rivers and trillions of creatures..."

Han Fei naturally knew how they felt now. After all, they had no experience in fighting the ominous. They were naturally stunned to encounter an existence at the level of Hongjun.

The Heavenly Monarch said, "Fellow Daoist Human Emperor, who... were you talking to just now?"

What the Heavenly Monarch was curious about was this. He was the strongest person in the Guardian Divine Realm. But since Han Fei didn't speak to him, did it mean that there was still a super powerhouse in the Guardian Divine Realm?

Han Fei said casually, "Heavenly Dao."

After Han Fei finished speaking, he disappeared from the Guardian Divine Realm with a swish.

As for the Heavenly Monarch and the other two, they seemed to be struck by lightning and couldn't help but look up at the sky, shocked and puzzled. Could the Heavenly Dao speak?

...

The Primordial Star Sea was not the Chaotic Star Sea. Han Fei didn't control this place, so he couldn't control the Heavenly Dao here. The law of time flashed in Han Fei's eyes. Through the time trace of the aftershock of past battles, Han Fei instantly crossed more than 50 Star Rivers with a thought.

Shen Le and the others couldn't move quickly in the Primordial Star Sea either, so the place where they fought couldn't be too far away from the Guardian God Realm.

...

At this moment, in a certain star river in the Primordial Star Sea.

An intense battle was going on here. The source of the battle was Shen Le and an ominous creature at the peak of the dominator level.

"Cough, cough ~"

Shen Le was coughing violently. Because of this short distraction, she was blasted back.

Besides, every time she coughed, a mass of filthy blood would be coughed out.

The peak-level dominator-level ominous said brazenly, "Shen Le, your strength has plummeted after you were hit by the ominous forbidden curse. You won't be able to withstand it in the end."

However, as long as you make way for me, I can transform you into an ominous creature. At that time, you will be second only to me and above everyone else. In the future, you might even surpass the dominator realm.

Behind Shen Le was a sealed sealing barrier formed by the Time Sealing Sky Lock. And in the sealing barrier, a black coffin would suddenly collide with the Time Sealing Sky Lock every dozens of seconds.

Crack~

Several cracks appeared on the Time Sealing Sky Lock again. In the coffin, a voice roared, "Undead, Time, the two of you can't trap me. In a moment, I will kill all of you."

The Master of Time's face was very pale, but he had no choice. He had to resist!

Senior Brother Undead didn't speak, but it was obvious that he was also in the black coffin at this moment, probably to restrain Hongjun's ominous body.

As for the black coffin, it was also trembling violently. The coffin board that was already broken was almost cut into rotten wood. It was densely packed with cracks and could collapse at any time.

Shen Le seemed to have temporarily calmed down and said coldly, "If you are destined to take down the Guardian Divine Realm, the moment you take down the Guardian Divine Realm, I will definitely open the Creation Star Compass and release the real ominous."

"Hahaha!"

The peak-level dominator-level ominous laughed out loud. "You can forget that this is the Primordial Star Sea, my territory. Even if you let him out, so what? Besides, as I said, I'm not interested in the Chaotic Star Sea. I just need to control the Primordial Star Sea. But once you release the real ominous, tsk, tsk... I will definitely banish him, and the only place I can banish him to is your Chaotic Star Sea."

Shen Le sneered. "So what? Do you think I'll believe you? Will you give up the Chaotic Star Sea that has almost fallen?"

The other party said, "Shen Le, don't say that I didn't give you a chance and suggestion. It takes time for me to control the Primordial Star Sea. As for you, why don't you take this opportunity to go back to the Chaotic Star Sea and take the creatures of your Sea Realm to embark on the Path of No Return? Look, the path you pursue is on that path. Han Fei has gone there and you should go there too. And I might embark on that path in the future as well. Otherwise, it would be boring to guard these two Seas alone."

"Humph! Do I believe your nonsense?"

"Cough, cough ~"

Shen Le coughed again, and filthy blood overflowed.

Seeing this, the other party couldn't help but smile. "If you are willing to go back and take away the myriad races, I can even remove your curse. Think about it? Otherwise, even if you are here, how can the Death God defend against hundreds of dominator-level ominous and peak-level dominator-level ominous?"
