Chapter 3677: The Ultimate Battle (3)

Shen Le was also extremely anxious at this moment. This time, the price they paid was really too great.

In the past, when Eldest Senior Brother fought the ominous alone, she thought that as long as she reached Eldest Senior Brother's level, she could fight the real ominous.

However, when she really reached this level, she realized how difficult it was. Not to mention a thousand years, even a day was an extremely headache.

However, she believed that the Path of No Return was definitely not a place ordinary people could step on. Even peak-level dominators couldn't return after entering it. Otherwise, there would definitely be such cases in history.

Even in the Primordial Era, many people had tested it. Among them, she knew Li Daoyi. Li Daoyi had once said that even if he entered the Path of No Return, he would try to walk back. If he didn't come back, it meant that the Path of No Return was a place one could go but couldn't return. That path could even suppress peak-level dominators, so it was definitely not something ordinary people could step on.

"If I hadn't cooperated with you once, I might have been tricked by you. Oh, by the way, how long did we cooperate last time? I remember it wasn't even half a day."

At this moment, a voice sounded leisurely, his tone full of playfulness.

Buzz!

The peak-level dominator-level ominous hurriedly looked at the source of the voice, but he didn't see anything.

In the next moment, the voice sounded again, "You are indeed not at the ominous level. You are just a powerful ominous creature half a step into the Immortal Level."

Someone was stepping into the range of the 49 Star Rivers.

Shen Le's eyes lit up as she said in joy, "Little Junior Brother?"

The Master of Time was also overjoyed and shocked.

The peak-level dominator-level ominous' expression changed drastically. "How is it possible? How did you return? This is impossible."

Han Fei chuckled. "I've heard many people say that today, but look, am I not standing right in front of you?"

"Ahhh~"

In the next moment, a holy brilliance enveloped Senior Sister Shen Le. Accompanied by a large amount of steaming black fog, Senior Sister Shen Le's expression was especially painful.

Han Fei quickly stopped and frowned deeply.

"Hahaha!"

The peak-level dominator-level ominous couldn't help but laugh out loud. "This is an ominous forbidden curse. How can you purify it so easily?"

Senior Sister Shen Le said, "Little Junior Brother, I was corroded by the ominous matter in the end. This corrosion permeated my Dao technique and soul."

Han Fei narrowed his eyes slightly. "It doesn't matter. Senior Sister, as long as you return to the Chaotic Star Sea, I can solve it for you."

"Huh?"

Shen Le couldn't help being overjoyed. "Really?"

Han Fei smiled and said, "Of course. And I suspect that there should be more than one way to resolve this ominous forbidden curse. However, let me kill this guy first."

Shen Le said, "Be careful. This peak-level dominator-level ominous was sacrificed. It's actually a part of Hongjun's ominous body."

Han Fei nodded slightly and then raised his hand, and the Blood Sky Blade appeared in his hand. He instantly appeared beside the dominator-level ominous. The latter's reaction was not slow either. A small piece of ominous matter emerged from his body. He chose to use the ominous matter to test Han Fei's strength.

However, Han Fei just sneered and slashed out the astonishing power of 50 pieces of Star River Origin. The knife light was extremely powerful, turning into Great Dao runes that filled the sky.

As for the dominator-level ominous, he wanted to use his strength, only to find that his Great Dao and law immediately collapsed the moment they left his body, which shocked him.

The ten divine vines between Han Fei's eyebrows attacked, enveloping the ominous matter. And under Han Fei's slash, half of the dominator-level ominous creature's body was almost shattered.

Unfortunately, he couldn't fully exert the fourth level of the path of invincibility yet, so he couldn't instantly kill this peak-level dominator-level ominous. After all, it was because he had controlled the Heavenly Dao of the Chaotic Star Sea that he could control the Chaos and mobilize all the laws of the Chaos.

However, in the Primordial Star Sea, he didn't master the Heavenly Dao and laws here, so at this moment, he was only suppressing it with his Immortal realm and strength.

However, even so, the control of the Great Dao of the Immortal Level was not something this peak-level dominator-level ominous could compare to. As long as the ominous creature dared to use his Dao on him, he could instantly make it collapse.

The peak-level dominator-level ominous seemed to sense how terrifying Han Fei was and immediately exclaimed, "You made a breakthrough?"

"He made a breakthrough?"

Shen Le's heart trembled, and the Master of Time who was struggling to hold on was also refreshed. Had he really made a breakthrough in the mysterious Daoless Realm?

Bang!

In the Time Sealing Sky Lock, Hongjun's ominous body in the black coffin seemed to have become manic. Although he was also ramming crazily before, he was not in a hurry at that time. This was because no matter if it was the Primordial Star Sea or the Chaotic Star Sea, there was no power that could restrain him. As long as he waited for a moment, he would be able to break free. In another half a day, he would be able to fight his way back to the Guardian God Realm.

"Why can he still return?"

"Roar!"

The violent Hongjun Ominous Body roared. In the next moment, with a loud bang, a deafening sound burst out of the black coffin, and the cracks on the coffin lid gradually enlarged.

The Master of Time shouted, "Han Fei..."
