

Gacha 1161

[Chapter 1161 - Spirit God Vs Dragon God](#)

The entire battlefield was stunned when they saw a planet just got cut cleanly into half. They then found a huge fox made of fire coming from a single individual.

The moment the people from Eulja saw his figure, they couldn't help but cheer. "Uoh!"

All God Kings on the battlefield shivered, especially the one strategizing for the enemy, the Angel. He never thought that the Spirit God would appear with this timing.

As for those who came from other God King territories, they simply couldn't believe what they just saw earlier. They didn't even know whether their God King could cut a planet in one strike, but they knew the ancient God Kings could do something like that. Of course, it only measured up to those with the highest power like the Sword God or the Spirit God.

And the same Spirit God just showed them the information was true. Although it required a huge amount of Divine Energy, Alex never thought of it as unimportant. There was one main reason.

The current armies didn't have enough morale even though Lin Xingzhi and the others had raised it a bit. He let them witness that this war was in their bag. After all, he just killed the Phoenix in one slash.

All of them couldn't help but cheer together with those from Eulja.

"We are going to win this."

"With the Spirit God here, we have nothing to fear."

"Let's push them back."

To respond to their excitement, Alex smiled and shouted out loud, amplified by his Divine Energy so everyone could hear. "My people and my allies, are you ready? We shall turn around the situation and kill all of them! Drive all those invaders and traitors to hell!"

"Uoh!"

"Kill them."

Many shouts echoed as those who were injured thought they could still move to push them back one more time. Those who were still full of energy felt the need to release everything they had at this moment.

Alex smiled and pointed at the Battle God. "Ask someone to replace you, God of Destruction. Help the Magic Goddess instead."

"Sure thing!" He smirked and cracked his hand. "But I'm not going to follow your order since I have something better to do."

The God of Destruction suddenly disappeared. The Battle God was taken aback because he was too focused on the Spirit God and instinctively raised both hands to the left side to block something coming.

It turned out Raiju's fist hit him, blowing him away toward the Magic Goddess as Raiju followed him.

"!!!" The Magic Goddess was surprised to see another one coming, but then she heard the God of Destruction saying, "Haha, Magic Goddess, how about we collaborate? This will be two versus three. I'm sure we can do it..."

The Magic Goddess smiled before narrowing her eyes. "Sure thing."

Alex shook his head helplessly and let him do whatever he wanted since it wouldn't affect them so much. He then went toward Lin Xingzhi, who had been suppressed by the Dragon God and his pet.

"Do the same thing as the God of Destruction. I will handle the Dragon God. You go help Marcus." Alex commanded as the situation would slightly turn better at this point.

Lin Xingzhi nodded and created Space and Light Disturbances, combining them together. The moment she released it, the light turned into a powerful laser that was capable of bending space.

The Dragon God opened his mouth to shoot it down together with his pet.

When the blue freezing breath flew toward the laser, Alex appeared between them. A giant golden lotus appeared on top of his head as it suddenly leaned forward before releasing all the petals, hitting the breath at many points.

"Divine Petals."

Boom.

Boom.

Boom.

A series of explosions occurred when the petals made contact with the freezing breath. The Sun God Fire instantly overwhelmed the Ice Element and evaporated it.

"Your Ice Element can be considered as a Pure Ice Element, eh..." Alex narrowed his eyes. "It's strong. I admit it."

The Dragon God gritted his teeth and roared.

Alex smirked and raised his hand, "Whatever you're going to do, you will die today."

"Don't be too proud, Spirit God. The only reason why you could kill the Phoenix Goddess was due to the elemental advantage. You won't have such a thing against me."

"And despite possessing such a power, you ended up dying in the past." Alex smirked. "Despite overwhelming them, you died under the hand of my father-in-law and the Dungeon God. And I shall kill you here to make sure you won't appear again in this Universe."

Roar.

The Dragon God was angry when Alex poked the past and summoned six giant ice spikes. "You're nowhere near their strength."

Alex saw those six spikes and knew that his people would be targeted the moment he looked away. He narrowed his eyes and jumped forward.

"You won't be able to save them, Spirit God." The Dragon God launched all those ices would turn into thousands of pieces to strike his people. "Luminous Ice."

Alex kept moving forward to strike him and when he was about to slip past the six spikes, his identity would be questioned whether he wanted to prioritize his people first or the Dragon God.

Unfortunately for him, the Dragon God had read him well. For Alex, his people were more important than his enemy. But there was one thing that the Dragon God couldn't predict.

The current Alex had now begun his journey to surpass the past Spirit God. He swung his sword and spear three times at the same time.

"Triple Draws."

This attack wouldn't be able to hit those spikes and even if he used his Sword Wave, he would only cut them. The original spikes could still split and hit his people. To protect them, Alex had no other way. He needed to burn those spikes.

However, this time, he had another plan.

"One Inch Spear."

His blades were extended with flame covering them. All six ice spikes were cut into half before the flame spread and burned them completely.

"What?!" The Dragon God dropped his jaw and wondered why the flame could actually melt his ice so quickly.

"I'm pretty lucky to have the fire element around that area slightly denser than other areas." Alex smirked and arrived right in front of the Dragon God. He thrust his spear toward his chest.

The Dragon God wouldn't let him do something like that easily, so he swiped both arms to squeeze Alex dead. The Ice Energy covered his hands to avoid Alex from burning them.

Alex looked left and right before solidifying the Space Element to both sides, creating a pair of plates that would stop the claws.

Bam.

"Hgh!" The Dragon God looked down, feeling something hard preventing him from moving.

Alex, on the contrary, had enough time to thrust the Dragon God's chest.

As expected from a God King, he managed to form a powerful ice barrier that acted as a breastplate to stop Alex's attack.

Still, Alex's spear carried the power of Space Element while his Fire Element slipped past through the Space World and was about to hit him from behind.

As if feeling something was coming, the Dragon God flapped his wing, which accidentally knocked the fire from his back, stopping it from hurting him.

Alex narrowed his eyes and started pushing the spear, bending the breastplate to the inside.

"Kh!" The Dragon God gritted his teeth, but his misery had yet to end.

His luck had been manipulated again, and as he said, this place's Fire Energy was denser than around them. After the fire strike from behind got blocked, the Fire Energy erupted, causing a chain of explosions around them.

Boom.

Boom.

Boom.

"Uah!" The Dragon God screamed in pain as some explosions were near his body and directly hit him.
"What?! How?"

Alex only smiled, not feeling to respond to him. He only thought, 'Hahaha, The one who said Luck is part of your strength is a genius.'

Since he didn't know what was going on, the Dragon God decided to force Alex to distance himself by summoning five star-shaped blue lights around his body.

They then flew toward his army.

Seeing this, Alex clicked his tongue and teleported himself between them. He stared at the five lights and raised his right hand.

Suddenly, he lifted his forefinger before the five lights flew back toward the Dragon God.

"Subjective Reality." Alex smiled. By using his Subjective Reality, he managed to fool the Dragon God and the five lights to think that going backward meant going forward, so it turned back to the Dragon God.

"!!!" The Dragon God gritted his teeth and exploded those five lights, sending a powerful freezing power to the surroundings. If it were to hit Alex's army, they would be frozen on the spot.

Even Alex narrowed his eyes and raised both hands, swinging them diagonally simultaneously.

"One Sword Kill, Blade of Extinction."

The Sword Wave went together, creating a cross Sword Wave.

The Dragon God's cheek puffed. Unlike the earlier breath, this one seemed to be something different.

Alex activated his Spirit Eyes and furrowed his eyebrows.

When the Dragon God opened his mouth, a small flying blue ball flew at a fast speed, hitting the Sword Wave.

The light ball burst out, freezing the cross Sword Wave before it broke apart.

"..." Alex could see and understand what just happened as he said, "Freezing the entire thing, including the connection between me and my Sword Wave..."

"It's not the end yet, Spirit God. If you think you can kill me that easily like the Phoenix Goddess, you're wrong." The Dragon God smirked and flapped his wing, creating a shock wave that shook the entire battlefield.

"Interesting." Alex took a deep breath, knowing that he needed to end this as soon as possible. If he didn't kill the Dragon God today, he wouldn't be able to turn around the battlefield. Although he wanted to cut him with his Eight Purities Slash, there was a slim chance it would hit, so he was trying to create an opportunity to strike this whole time.

Unfortunately, the Dragon God seemed to have understood that as well and blocked all moves that could potentially endanger his life.

Suddenly, a Fire Disturbance appeared behind him. The energy flowed out of the disturbance and slowly covered his sword and spear.

"..." The Dragon God gulped down, knowing that Alex would start getting serious.

"Rose, tell everyone I will be a bit late. At least, with the current situation, they won't be killed within one hour."

[Understood.]

After giving the instruction to Rose, Dragon Aura and Phoenix Aura rose from his body to raise his physical ability.

'It seems his Law is related to freezing since it can freeze my Law. As expected... To destroy the freezing power, I need to rely on my Sun God Fire in this battle.' Alex took a deep breath and raised his hand, summoning a fire lotus.

"Divine Petals."

[Chapter 1162 - Worst Case Scenario](#)

"Divine Petals."

Just like his Divine Petals, the Dragon God quickly summoned the same five star-shaped lights and shot them toward him.

Unfortunately, Alex had ten petals while he had five.

Boom.

Boom.

A series of explosions occurred when both sides clashed, but five of them slipped past through the explosions and started absorbing the nearby Flame Energy. Like the Dragon God's, Alex also kept utilizing his Law in this way, making the situation favorable to him.

Sooner or later, the Dragon God would lose its advantage and die.

The Dragon God clicked his tongue when he saw those five petals and quickly closed his wing to cover the entire body.

Boom.

The petals hit him at the same time and burned the Dragon God, albeit only his wings got damaged. The wings had many holes on them because of the explosions and Alex's Sun God Fire.

"..." The Dragon God narrowed his eyes and wondered how to win against the Spirit God. Unfortunately, no matter how hard he tried, there was nothing he could do to turn the situation around.

Seeing this expression, Alex became even more confident in winning against them. He thought for a moment and turned his head to check the others.

'Alas... I seem to have arrived too late. They can't gain any advantage in fighting those guys despite the sudden turnaround. If it continues like this, we will be on the losing side sooner or later. Should I retreat? To fight them on equal ground, I need to kill the Dragon God here. After that, I can retreat to recover the injuries before eliminating them for good.' Alex thought, assessing the overall situation.

He then turned back to the Dragon God with a serious expression. The Fire from the Disturbance covering his weapons had grown restless, so he planned to start clashing with the Dragon God.

"One Sword Kill, Blade of Extinction." Alex sent a Sword Wave toward the Dragon God.

"It's useless." The Dragon God only laughed before shooting another blue light and destroyed the Sword Wave.

Because of the Fire Disturbance embedded into the Sword Wave, the smoke from evaporated ice became slightly bigger and thicker, preventing the Dragon God from finding him.

However, his Divine Energy and sharp Dragon's senses were enough for him to locate Alex, only to be surprised right after.

Alex emerged from the smoke, flying straight to him.

Not wanting to be killed, the Dragon God quickly sent his fist to push him back, only to be played by Alex once again.

"Inverted Dimension."

A pink sphere that trapped both of them inside appeared, inverting all the rules the universe had to offer.

With the sudden off balance, the Dragon God was in a bad position. Fortunately for him, he once heard it when Alex used this technique against a Rank 2 God from the Earth God. He quickly closed his wings to cover his entire body while covering them with ice.

Bang.

Alex's strike didn't manage to cut through, so he pushed him away as the Inverted Dimension disappeared and everything returned to normal.

Obviously, Alex didn't want to waste this chance, so he enveloped his sword with Divine Energy, Soul, Blade Qi, Intent and Elements.

"One Sword Kill, Blade of Extinction." Alex sent another Sword Wave to the Dragon God, planning to kill him.

However, the Dragon God managed to lean his body to the left while covering his wing with ice. Still, Alex's firepower was far greater than his ice as the Sword Wave cut his wing.

Roar.

The Dragon God screamed in pain while glaring at Alex. He needed to buy time so the others could defeat Alex's subordinates and allies, so the Dragon God decided to use everything since Alex had planned to fully release his power.

Roar.

The Dragon God flew forward and sent a fist toward Alex. The latter released the Life and Death and Nature Energy. He then struck the Dragon God's fist as his energy and Dragon God's energy clashed, creating a shock wave around them.

"I won't let you do whatever you want, Spirit God." The Dragon God roared.

"No. You're going to die today." Alex snorted before thrusting his spear to the left, where his tail tried to strike him.

Bam.

Alex and the Dragon God continued to clash for another ten minutes. As expected, the Dragon God was covered in blood as Alex had cut both of his wings. There were numerous wounds, small and big, deep and shallow, all over his body. It was like the Dragon God was on his last leg.

When he was about to kill the Dragon God, he halted his movement and widened his eyes.

[Master. Sister Xingzhi wanted you to look at the Angel Planet. It's doing something weird!]

The moment he got the notification from Rose, Alex quickly turned around before the Dragon God noticed it and tried to block his vision.

Alex's Spirit Eyes allowed him to see through him and saw the energy. The planet was emanating powerful energy, containing all kinds of elements, from Fire Element to Space Element. There was even Time Element in the mix.

He understood a bit of the Time Element due to the special space the Time God built for him, so there was no doubt that this powerful energy would be able to disrupt Space and Time.

He then suddenly realized something. The memory of his Previous Life fighting the beast resurfaced in his mind.

"!!!"

Alex shivered just by the thought alone, but when he looked at his surroundings. Either the planets and other things, most of them looked the same. Only the Angel Planet seemed to be entering the orbit of this cluster of planets.

"You bastard!" Alex couldn't help but curse when he realized they were fooled by the entire situation.

The Dragon God noticed Alex's complexion and believed Alex had noticed it. He tried to distract Alex again by spitting a blue light ball that would freeze him.

However, Alex lifted his finger and used his Subjective Reality to turn it back to the Dragon God.

Expecting something like this, the Dragon God quickly made it explode.

Alex, on the contrary, used this chance to slightly teleport himself a bit to the left as he looked at the planet.

It was a kind of Magic Goddess's Magic Circles, but it seemed to be combined with arrays.

What he saw was five magic circles circling around the planet, taking all the planet's energy as well as all the living beings inside there. After absorbing all those, the Angel finally launched the magic circles.

Just by seeing it, Alex clenched his teeth. "We've been had."

Not wanting to waste any more time, he knew he needed to stop that ritual. He quickly flew forward with eight powerful powers inside Alex revolved and went to his sword.

"Hahaha, it's futile, Spirit God. We have been preparing everything for a long time. It's time for us to rip the reward." The Dragon God laughed before stretching his hand, freezing the entire area to prevent Alex from going anywhere.

The Dragon God then covered all his skin with Ice, trying to stop Alex even if it meant using his life.

"Come. I won't let you stop my king's revival. Still, I need to applaud you for forcing us to use our trump card. We need to sacrifice billions of lives and planets to make it work.

"Hahahahaha! The people of this universe are idiots. No matter if they are humans or any other race, all of them want power. Now that we have given them power, they are going to die to offer them back. Hahahahaha!" The Dragon God laughed.

Alex clenched his teeth and raised his hand, swinging his sword. He knew it was impossible to go around because the Dragon God seemed to have frozen the Space Element around them as well. As expected from a God King's Law...

Still, Alex was in a bind because he could only rely on this sword and wouldn't be able to use the second one. This immense power couldn't be easily used in succession, so the moment his sword struck the Dragon God's Ice, it would be his last resort to destroy the ritual.

Having no choice, Alex finally struck the Dragon God.

"Eight Purities Slash."

The Space Energy bent the Ice while his Flame burst and evaporated the Ice. The other power then made it through the Dragon God's body as the residual power formed a shock wave and flew toward the planet.

His enemies obviously wouldn't let him do something like this. Three shadows appeared and deflected the shock wave with difficulty. They were the Battle God, God of Virtue and his pet.

"This is the power of the Spirit God?" The Battle God's whole body was numb just by stopping that attack. He gritted his teeth and complained. "This is far above the God King Level."

"Don't fret. This power is still within the God King Level. We witnessed this five thousand years ago, but all you need to know is that our King is more powerful than him." The God of Virtue or the Angel snorted. "If not... The Spirit God wouldn't have sacrificed his life to seal our King in this Time and Space Seal."

Alex frowned and started getting agitated because he knew what happened since he failed to do this task. When he looked at the others, they had been pretty exhausted to the point those three could escape and block his attack.

"This is the worst case possible."

Suddenly, the Outer Space cracked. A pair of red eyes glowed in the darkness was revealed when a piece of that crack fell down, releasing their killing intent.

A sound echoed on the battlefield. "Hahaha, Seventy years... No, Five thousand years... It's been a very long time, huh, Spirit God."

[Chapter 1163 - Reinforcement](#)

"Hahaha, Seventy years... No, Five thousand years... It's been a very long time, huh, Spirit God." The eerie voice containing a vast amount of killing intent echoed in the battlefield, sending chills down everyone's spine.

Everyone's gaze was fixated on the crack that appeared out of this outer space's nothingness. The commotions stopped for a few seconds as they looked at the beast that had been sealed this whole time.

"It is as I predicted. You would have destroyed me in this timeline. Fortunately, I have prepared another plan. By extracting the elements from billions of lives, I would be able to create this surge of energy that could destroy the weakened space and time seal. Hahaha."

As his voice resounded the vast battlefield, a bear paw suddenly emerged from the crack, ripping the entire thing open, showing the beast's real appearance.

Gasp! Everyone widened their eyes.

The beast they tried to fight was truly the combination of six beasts. The head was that of a snake and the body was that of a dragon. Behind that giant body, two pairs of wings were visible. They were none other than bat wings and angel wings. His hands were bear paws, but the feet were that of a phoenix talon.

Each beast would surely have one element and for this beast, who managed to fuse with all of them, he had all six elements. In addition, due to the fight he had with the Spirit God in the past, he was able to acquire the skill to utilize them at the same time.

Alex summoned back his Fire Fox from the Fire Authority to let his presence known before shouting. "Shut up, Monster. Do you think you can challenge me with that condition of yours? You don't even have your full power yet."

That shout was meant to tell his allies that this wasn't the worst-case scenario yet, so they shouldn't give up.

The beast, on the contrary, laughed and said, "That's certainly true. But you are also not the past Spirit God who had accumulated thousands of years' worth of experiences. You are still a newborn chick."

"Then taste it for yourself." Alex raised his hand and swung his sword. "One Sword Kill, Blade of Extinction."

The Sword Wave flew toward the beast. This was the same Sword Wave that killed the Dragon, so all God Kings felt dread just to stop it, but because their king was threatened, they would have no choice other than to block it.

When they were about to move, the Supreme Beast chuckled. "Haha, come then. I will let you see the difference between us."

The Supreme Beast raised his paw before rainbow-colored energy coated his paw like that of a gauntlet. He then stretched his hand forward and grasped the Sword Wave.

"One Sword Kill, Blade of Extinction... I have indeed remembered this power." The beast smirked. "Back when I fought the past Spirit God, this same technique almost killed me. Well, I should praise you for being able to recreate seventy percent of its power despite not being the original. Unfortunately..."

As he said it, he clenched his fist, crushing the Sword Wave without a problem. "It's still too weak."

"..." Everyone was stunned to see their exchange. Even the God of Destruction found himself shaking in fear when he saw this beast. That rainbow-colored energy was simply too strong. Although he vaguely felt it, there was a trace of six Laws in that power. In other words, the beast didn't only combine the body parts and elements, but also their ability to grasp the Law. It was no wonder why such a beast would be called the strongest.

"How about you try to test this power of mine, Spirit God?" The beast raised both hands while opening his mouth. The rainbow-colored energy gathered again, emanating an even stronger aura than Alex's technique.

"Gehenna Ray."

The energy was released forward, flying toward the Spirit God in a torrential flow.

Alex gathered all his power on his blade and raised his sword. Right before the attack hit him, Alex slashed his sword down.

"Eight Purities Slash."

The space element once again began to shake while Alex's Sun God Fire started burning the energy. The remaining energy then started to cut that Gehenna Ray while creating a huge amount of pressure and shock wave that traveled together with the slash.

After splitting the attack into half, the flame burned the residual energy to prevent it from injuring the people behind him, while the shock wave he created flew to the beast.

Even the Supreme Beast couldn't contain his surprise as he punched the shock wave to neutralize it. He laughed and said, "Hahaha, to think you would give me this kind of surprise. You have finally become a worthy opponent. Our battle will be legendary."

"..." Alex narrowed his eyes and raised his hands. His voice resounded in every single person on his side. "The situation may be bad, but it's not the end. What will happen to our families, worlds, and this universe if we fall in this battle?"

Not only those from Eulja but also the people from other Divine Worlds had their hearts wrenched by those words. They looked at the Spirit God's back... The broad back that towered the fate of the universe.

They looked at the weapons in their hands and clenched them tightly. They regained their motivation and determination to fight.

Alex decided to use this time to regroup with the other God Kings while observing their conditions. As expected, if the situation continued like this, they would certainly lose.

"How are you all doing?" Alex narrowed his eyes.

"Not that good." Lin Xingzhi shrugged.

"Indeed." Anna and Jeanne agreed while Leoz shook his head. "I can hold on for another hour."

"As much as I hate to say this, but the enemies are stronger than us." The Palm God sighed.

"Yeah, to think the traitors who were formerly our peers become this much stronger." The God of Destruction took a deep breath, assessing the situation.

"I'm just repaying my debt. You don't know how much effect the thing you gave me has on my magic foundation." The Magic Goddess smirked, still feeling excited. "I don't feel like losing."

"Still, the enemies are not that easy." The Song Goddess shook her head helplessly.

"Unfortunately, I can't help you in this matter. If I have more time, I should be able to reach my former stage..." Alaya felt helpless. She came to this timeline to help them win this war but ended up becoming a burden due to high expectations.

"Don't worry, Master. I will continue fighting until my last breath." Marcus, the God of Wrath, assured Alex.

"The problem is time and people. If only we can reset this fight, I'm sure we can win this time even with that beast..." Lin Xingzhi frowned. "Should we retreat, Alex?"

"No. The consequence will be fatal. I'm sure you know the reproduction of the bats, right? If they feast on billions of lives, I'm afraid it will become even worse." Alex shook his head.

Knowing what they were thinking, the beast laughed out loud, saying, "Spirit God, it's impossible to win this battle. Even if you can stop me, your allies will die one by one."

"You talk too much." Alex snorted.

"No, no! Just take a look at yourself... Your Divine Energy is almost empty because of the continuous usage of your technique. Even with my current power, I will—" The Supreme Beast stopped his mouth and turned around as if feeling something from his right.

Suddenly, loud cheers resounded on the battlefield. All their gazes turned to the right, where they found many spaceships emerging along with thousands of God Rank Experts. Still, the ones that stood out the most were three people. Two of them were God Kings that surprisingly to be the ones that quitted the alliance after the Holy God exited the room. Yes, they were the other two who left beside the Magic Goddess, God of Greed and God of Strength.

Yet, the one that took Alex's gaze was none other than a certain boy who was only a mere Rank 7 God. That boy was like any other boy who couldn't contribute much in this battle, but he might become the MVP today.

"Is that Navin?" The Palm God dropped his jaw while clutching his head in distress.

The boy smiled and clasped his hand politely. "Master! I, Navin, have returned with reinforcement."

Alex then remembered Navin's purpose when he confronted him, telling him about the lifespan and the so-called key that would be able to change the fate of this universe.

And that same person truly came to this battlefield to change it. Even though the two God Kings wouldn't bring that much of a difference, for Alex, it was everything he needed to turn the situation around.

The Supreme Beast also understood the meaning of this reinforcement in the heart of his enemies and shouted to lower their morale again. "Hahaha! Do you think this puny reinforcement of yours can let you win this battle? Are you mentally retarded Spirit God?"

That laugh was to insult the Spirit God, but the beast didn't stop there. He gathered the energy again and shot it toward Alex.

To raise their morale again, Alex needed to do one more step. He raised both weapons while saying, "Eve, Elle, Elliot... Will you trust me with your lives?"

"Master. That's a stupid question." Eve smiled.

"Yes. I have never been this happy until I met Master." Elle confirmed with a nod.

"That's right, Master. Our lives are yours. Use it as you see fit." Elliot smirked and released his power.

Alex couldn't help but smile, feeling blessed. A dull but bending pink-colored energy and golden-colored energy came out of his body simultaneously before they gathered inside the Spirit Crown. The blue jewel shone brightly as Alex's golden eyes now had a small pink circle in the middle.

His sword also changed its color. The handle turned black and half the blade turned to gold while the other half became pink.

The same applied to the spear, but instead of black, the handle was full of white, signifying the Life Energy from the Spirit Crown unlike the sword that carried the power of Death.

"Sword and Spear Possession."

Alex's earth-shattering aura shook the battlefield as if telling them that he was stronger than the beast. At the same time, his power was suddenly restored to the point the excessive power gushed out of his body, sending powerful pressure on the surroundings. Only some people knew about this because the reserve that the Void Flower had created finally opened its reserve for the first time.

To show his supremacy, Alex slashed his sword downwards, using the same technique that the beast looked down upon.

"One Sword Kill, Blade of Extinction."

The Sword Wave surprisingly cut through the Gehenna Ray all the way to the beast that the latter couldn't help but use his Gehenna Gauntlet to stop it again.

"!!!" The beast widened his eyes and checked Alex's body. "You!"

Everyone was stunned when they found Alex still had this much energy left even though he had used the Eight Purities Slash that needed a huge amount of energy twice. But at the same time, it meant the fight was far from over.

Like their current condition, as long as Alex killed that beast, they would eventually win this battle.

"It's not over."

"We need to continue fighting for our universe."

"Don't let those traitors and enemies trample upon you."

"Fight!"

"We will fight!"

"Uoh!" All the people shouted at the top of their lungs. If this wasn't outer space, the ground might have started vibrating.

Seeing this kind of morale, Alex shouted. "Those who believe in me, follow me and prepare to lay down your lives!"

"Uoh!" The cheers erupted even bigger while they raised their weapons.

Alex finally advanced toward the beast. "Let's go!"

"Uoh!" Every single person followed Alex from behind, forgetting about the pain from their wounds and tiredness from using so much energy.

"Kill!"

[Chapter 1164 - Retreat](#)

"Move!" Alex advanced without waiting for the enemies to react.

"Kh!" The Supreme Beast clenched his teeth and raised his voice. "Attack them. I will handle the Spirit God."

The Supreme Beast actually knew that Alex already had enough power to kill him, considering he could use his Eight Purities Slash again, but there was no way he would admit it.

"My King, you should recover first!" The Angel shouted, knowing that the beast couldn't handle Alex's full power in his current condition. "Let us protect you for the time being."

Like how desperate the Spirit God and the others were, their side also didn't want to lose this war, especially after having so many sacrifices. The Angel called a name, "Michael. Go use your life to recover our King. I will take full responsibility after this."

The Michael in his mouth was none other than his own pet. Despite being reluctant to die, Michael nodded his head and stopped fighting, returning to the Supreme Beast's side.

Meanwhile, a bat's pet appeared, trying to stop Alex with his life. "My King, let me block him for you. If you can recover to your peak, we will win."

The Supreme Beast nodded his head and went back.

"No, you won't!" Alex used his Teleportation Array to go past the bat, but the latter managed to react fast enough to stop him again.

"My King! Let me supply that energy to you." The Angel's Pet suddenly appeared and released a huge amount of Life Energy that had been converted from the Light Element.

"What is he doing?" Alex narrowed his eyes while clashing with the bat's pet that turned out to be a serpent.

"You won't pass me!" The bat's pet smirked, trying to buy time for the Supreme Beast.

"Move, traitor!" Alex gritted his teeth and found that the Angel used his body to turn all his Light Element to Life Energy as his entire self would change as well. At the same time, the Supreme Beast appreciated that and opened his mouth, trying to absorb that power to recover his energy.

'This is bad,' Alex thought, knowing that if the Supreme Beast would recover to his peak, even if he couldn't defeat Alex, he could hold Alex back long enough until his subordinates killed the God Kings on his side.

Yet, it seemed they had forgotten someone who had a natural affinity with Life and Death Energy.

"Life and Death Coffin, Activate." A huge coffin appeared above Alaya's head. The huge amount of Life Energy from the Angel was like delicious food presented in front of her.

When it was about to flow to the beast, the energy suddenly turned around, flowing toward the Life and Death Coffin instead.

"!!!" The beast widened his eyes and looked at Alaya. "You are the Life and Death Goddess."

"Hmph!" Alaya snorted and kept absorbing the energy. "I'm sick of being useless in this battle."

Not wanting to waste that huge amount of energy and knowing that it was impossible to stop that kind of flow to her coffin, the beast decided to devour all the energy he could in a few seconds before a scream echoed in his ears.

Alex just killed a God King, specifically one of the Bats' pets, he went straight to the beast, forcing him to stop devouring the energy.

"Spirit God!" The beast roared and marched forward to handle him. Unfortunately, the beast could only devour half of the energy from the Angel, so his energy was only half of Alex's, while Alaya got at least half of the portion.

Alex snorted and slashed his sword.

"One Sword Kill, Blade of Extinction."

The Sword Wave flew toward the beast. The other God Kings seemed to want to stop it, but Alex's side pushed harder than before, so they couldn't really stop it.

The Supreme Beast gritted his teeth and spat a purple ball, corroding the Sword Wave to weaken it before he deflected the attack with his Gehenna Gauntlet.

"It's useless." Alex snorted and flew straight toward him. Right before he arrived, Alex waved his weapons three times.

"Triple Draws."

"One Inch Spear."

Six extended blades went straight toward him, trying to trap him.

The Supreme Beast created round-shaped rainbow-colored energy, protecting him from these six slashes before releasing another wave of the same energy toward Alex.

"Gehenna Ray."

Alex lifted his finger and used his Subjective Reality to turn it around, but as he expected earlier, that also became the reason why he didn't utilize it until now. Only half of the Gehenna Ray was able to be controlled and turned back.

Meanwhile, Alex raised his other hand to face the other half. A powerful torrential Space Energy gathered on top of his palm as he tossed it to the front. "Black Hole."

The Black Hole absorbed all that energy before exploding because it went beyond its limit, transmitting the shock wave from the collision between Space Energy to that rainbow-colored energy.

"..." Alex narrowed his eyes, knowing that it wouldn't be that easy to defeat the Supreme Beast. Although the beast's six Laws were not perfect, it managed to neutralize his Law, making it hard this whole time.

To increase his power once again, Alex summoned a giant Fire Disturbance before he absorbed all that energy and channeled his Sword and Spear. "Star God Divine Control."

"Divine Petals."

A huge lotus appeared above his head before all the petals fell, flying toward the beast.

Looking at these ten petals, the beast tried to figure out what he should do. Because of Alex's Sun God Fire, he couldn't really summon his Phoenix Fire, leaving only five elements left. Luckily, Alex's Sun God Fire only removed his Phoenix Fire instead of his entire body. His combined body seemed to reduce that effect too.

He then summoned Light and Dark Elements together from his Angel and Bat bodies. The two energies fused together to make ten small white and black balls.

"Yin Yang Bomb."

Those ten clashed with Alex's petals, but Alex managed to camouflage himself among the petals as he slashed his sword, sending a Sword Wave that cut through both the petal and the ball.

"!!!" The beast widened his eyes and furrowed his eyebrows before creating two rainbow gauntlets and tried to stop Alex's attack. "Ha!"

That clash was witnessed by all people on the battlefield, including his subordinates. "My King!"

Because of that attack, Alex used that chance to use another Space Element to teleport him right before the Supreme Beast. "Die!"

The nearest bat realized Alex's sword was covered in energy that far surpassed his Eight Purities Slash.

If his normal Eight Purities Slash contained either his Law or his Fire Disturbance, this slash contained both of them at the same time.

Of course, this could only be used once because it sucked almost fifty percent of his Divine Energy at an instant if he didn't want to have it explode in his hand.

"My King!" One of the Bat's pets actually appeared between Alex and the beast and used his own body to shield this attack to prevent it from killing the Supreme Beast.

Unfortunately for him, this strength was far more tremendous than anyone could think of.

The Supreme Beast already covered his whole body with rainbow-colored energy while creating another sphere as a layer of protection from this attack.

"Move!" Alex roared and slashed his sword as hard as possible. "Nine Purities Slash."

All strength erupted for a second before the outer space began to crack like when the Supreme Beast first made its appearance. This power was even transmitted to those behind the Supreme Beast as it continued forward until it cut an Upper World, leaving a giant Sword Mark on its surface to the point it almost reached the planet's core.

The pet managed to stop that attack for a little, but some still went to slash the Supreme Beast as a huge sword mark appeared on its body.

Yet, the most shocking thing was the one who spat a mouthful of blood first was not the beast. Instead, it was Alex.

"Gah."

Alex widened his eyes and looked down, finding that the bear's paw pierced through the pet's stomach and stabbed him. If not due to his instant reaction to drop his spear and catch that paw, there might be a hole in his stomach already.

Still, the power that Alex used earlier was far greater than the beast could take as he fell back as blood started coming out. The beast's blood was not regular blood as his blood turned out to be purple.

"I won't go down that easily, Spirit God." He smirked. "Why don't you use your life again to seal me for another five thousand years?"

Alex gritted his teeth and leaped back while covering his stomach with his hand.

[Master.]

Alex quickly stopped the blood flow with his Divine Energy before looking at the beast whose condition was a bit worse than him.

There was no doubt that this injury had settled this war. While holding his stomach, Alex thought, 'What should I do? If I continue fighting, there will be a chance that I need to sacrifice my life to kill him. But if I don't, I'm afraid that the beast will come back even stronger.'

'No. Maybe the beast will arrive at the stage above God King... I don't know that stage yet because if the beast truly reaches the next stage, he will kill me and the others while leaving his subordinates to destroy this universe. Hence, I can't afford to... Unless...'

Alex suddenly remembered his encounter with the previous Spirit God in Encore. He promised that he wouldn't die again to prevent tears from coming out of his wives' eyes.

And to prevent the worst-case scenario, he said to him that there was another trump and last trump card he had prepared if anything couldn't work. Still, he couldn't afford to stop just like this.

If he retreated this easily, the army would lose their morale because the Spirit God actually feared death. They would be reluctant to follow him after today and the next battle would be hard to rally a war cry.

He took a deep breath and changed his strategy. Instead of fighting the beast in close range, he planned to do something else.

Hence, Alex laughed out loud and shouted, "You are pathetic, oi, Beast."

The Supreme Beast gritted his teeth and glared at Alex, releasing his killing intent. Of course, he didn't know Alex planned not to die, so he wondered what Alex would do.

"Five thousand years ago, I was not your match. Now?! You are in this pathetic state. Come! I will play along with you to the very end. Even if I need to die, I will make sure that you and all your "pets" die today." Alex smirked and released his killing intent, showing how serious he was.

The Supreme Beast also did not plan to die today, but the situation truly wasn't in his favor, considering that Alex was stronger than his past self, especially due to the Void Flower. In the past, if Alex had Void Flower, he had a chance to win against him and turn around the situation without allowing those old folks to die.

Yet, there were also a few miscalculations on his part. The first would be Alex's strength, which consisted of Fire God, Dungeon God, and Spirit God's power, turning him to be the strongest human in this Universe. The second would be Alaya's power. If she were not here, he would gain enough energy to kill Alex.

Last but not least, the reinforcement. Even though it was a small reinforcement, it was all it took for the Spirit God turned the situation around.

"My King!" The Angel gritted his teeth, feeling remorseful because his pet faced an unnecessary death. "It seems we need to go with the worst-scenario plan, My King."

"Yes." The beast narrowed his eyes and shook his head in disappointment. As much as he wanted to deny this situation, he couldn't. He said, "We're retreating."

[Chapter 1165 - Last Plan](#)

"We're retreating." The Supreme Beast needed to take this action. Although he hated to say it, his current strength wouldn't be enough to stop the Spirit God's Nine Purities Slash. There was a possibility that the Spirit God couldn't use it more than once because it took so much Divine Energy, but he also didn't want to risk it.

There was always next time as long as you didn't die. And he had no preparation like the Spirit God when he died. Hence, retreating was the most logical action to take in this situation.

As if they knew about his order, the monsters began escaping from the battlefield in systematic order like this had been planned before.

Even Alex, who saw the whole thing, couldn't help but furrow his eyebrows. He halted his steps and watched how they left one by one until all the God Kings decided to regroup with him.

"What should we do, Alex?" Lin Xingzhi asked. There was a trace of bloodlust in her eyes, telling him that she wanted to kill them, but she was unsure whether to do it or not.

Anna, Jeanne, and Leoz had the same intention, asking for Alex's order.

Before making his decision, Alex turned to Alaya and asked, "How is your condition?"

"With the energy I've stolen, I believe I can reach my top condition in one year instead of four years." Alaya nodded. "I'm sorry that I've been useless this entire war."

"No need to think about it." Alex waved his hand and contemplated.

Suddenly, the two God Kings that became their reinforcement came toward them, clasping their hands. "Spirit God."

"Thank you for coming here. I never thought that two more God Kings would be joining us in this battle." Alex nodded while checking their bodies to see whether they had a parasite inside them or not since he didn't want a traitor mixed in their ranks.

"No, no. Although I admit that I hate you because of your actions, when I realize you're doing something to save the universe, I know that I need to protect my home. And because of Navin, who risked his life to convince me... Yeah, I came here."

"I'm the same."

Alex looked at these two, who turned out to be the God of Shadow and Water God. "Even so, I need to thank you for coming here. As you can see, those beasts have been planning to destroy this universe since five thousand years ago. I believe this is the best time to eliminate them."

"Hahahahahaha!" The Palm God laughed and bragged. "How is it? My Navin can help you, right? Muahahaha."

"Annoying." The God of Destruction shook his head. "How about you step down from your title, Palm God? Your newest disciple is even more useful than you."

"What did you say?" The Palm God got triggered and glared at Raiju.

"Alright, you two, stop! This old man can't afford to hear more loud noises after that battle." The Holy God sighed and went between the two.

Song Goddess, on the other hand, asked Alex. "So, what are we going to do now? Should we pursue them?"

"Have someone trace their location, but I don't think we need to pursue them. It will be bad for us when they decide to turn around and hit us. We've lost too much in this war, so don't let anyone who can be saved die." Alex shook his head.

"I understand." The Song Goddess nodded.

"Still, we can't afford to let them free because the Bats will surely destroy many more worlds. As much as I don't care about the lives in those worlds, I don't like the idea that our enemies will be multiplied. We will corner and pressure them but don't get too close, so we can retreat all the time. I'm afraid that beast is planning for the worst." Alex frowned.

"The worst?" Alaya suddenly noticed something and remembered the scene of the past. After some contemplating, she said while drawing a gasp. "The stage above God King."

"!!!" All God Kings widened their eyes and looked at Alaya with a shocked expression. They never even considered something like that.

Alex acknowledged and continued, "I don't know, but my past life gave me a certain memory. It was the fight between him and the beast. In that fight, the beast was said to be close to reaching the next stage."

"But wouldn't it be not wise? I mean, if he advances to the next stage, he will be expelled from this universe."

"You will have some time. I don't know the exact time, but I think there are a few hours to a day. In that time span, the beast will kill all of us before his servants destroy the rest. I'm sure that's enough, right?" Alex let out a long sigh.

"..."

"Should we hide then?" The Magic Goddess, Rubia, asked with a serious expression. If the other party wanted to kill them, as long as they hid for a period of time, they shouldn't need to worry about it and kill the rest."

Alex shook his head. "The beast comes from another universe and a bigger one on top of that. I'm afraid the beast has some connections there, so if he escapes this universe and brings reinforcements, all of us will be defeated at that time. The best choice here is to kill him to avoid future problems."

Although they agreed with Rubia's suggestions, Alex's reasoning seemed to be more valid. It was like someone from the Upper World went to a Lower World. If he returned to the Upper World and brought a thousand people there, the Lower World would be destroyed.

"Still, it doesn't change the fact that we need to fight against someone above God King."

"I know." Alex's expression turned grim as he said, "Leave the Beast to me. I will make sure to kill him."

"Spirit God, this is not a joke. Even with your strength, it's impossible to win against someone that powerful. And with how you fought him on equal ground earlier..." Raiju gritted his teeth and didn't continue.

Alex looked down with a small smile. "I still have one trump card. I don't know if it will bring us any good, but I need to try."

"..." The God Kings exchanged looks, knowing that they had no idea how to fight the beast other than to trust Alex. After a long pause, they nodded their heads in succession.

Alex smiled. "Anyway, our plan is to corner them in one place while maintaining our distance. I'm sure they are going to come back as soon as possible."

"I understand. Should we have a rotation then?" Lin Xingzhi asked, looking at the other God Kings.

"Hmm... It's hard to fight them if we have a rotation. Instead, why don't we announce that all the people here are going to strike anyone who harms them during this period?" Alex answered. "We need to leave our place unguarded for a period of time after all."

"The people thought for a moment and exchanged gazes, knowing that this would be probably the best idea. If they only had half of them on the battlefield and clashed with the enemies, they would be wiped out."

"Still, the most important question... Are you aiming to reach the stage above God King, Spirit God?" Alaya frowned.

"I am not sure. I have just become a God King, so I don't think I can reach the next stage. At least, I need a few more years. Meanwhile, the beast might have surpassed it, so I need to go to the trump card first before saying anything. This is the trump card that the past Spirit God left me."

"..." They didn't know whether this move was right or wrong, but because they didn't have any alternatives, they decided to raise their hands, agreeing to Alex's idea.

"Alright. Let's all recover first. I'm sure one month is enough, right? After that, you all are going to buy as much time as possible." Alex nodded.

"Well, that's much is not a problem, I guess." The God of Destruction shrugged.

The others nodded before the Magic Goddess raised her hand, asking with a hesitant tone. "Can I have a bit of your time later?"

Alex tilted his head in confusion but still nodded. "Sure."

"Anyone want to ask a question?"

"I have one. What are you going to do after this war, Spirit God?" The Holy God frowned to check Alex's intention.

Alex waved his hand with a calm face. He simply said his genuine feeling. "To be honest, I don't care about what's happening to this universe as long as no one provokes me. Suppose there are any members of my Eulja that take advantage of that. In that case, I will deliver the punishment even if they are my own family. That's all to it. Besides, advancing to another universe... maybe a bit more interesting at that point."

"..." The Holy God was speechless when listening to his answer.

Although Alex had that kind of intention, he wanted to spend time with his family first for at least a thousand years since he was a family guy.

"I understand." The Holy God looked down and sighed.

"I don't think we have a question here." Lin Xingzhi waved her hand. "I will take care of the rest and contact you as soon as possible. Because we have a short time, I think you should go as soon as possible."

Alex looked at the others who seemed to agree with Lin Xingzhi's opinion and turned around, calling Rubia to the side.

The Magic Goddess followed him with a serious expression.

"What would you like to talk about?"

Rubia was a bit hesitant but still asked, "Ehm, this is a bit serious, but do you have a desire to invade another world?"

"I can't say expanding is not an option. As we continuously exploit the resources, it's going to dry at some point. At that time, we have no other choice than to search for a new planet."

"No. That's not what I'm asking..." She shook her head. "It's about my territory. After some careful consideration, I have a feeling that it's better to be your vassal."

"Huh?" Alex made an annoyed face, looking at Rubia, who seemed to have lost her mind.

"Those orbs of yours have truly helped me beyond your understanding to the point I can reach Nature Goddess's level within a short time. Hence, I'm thinking about becoming your vassal. Of course, I have carefully considered it.

"First of all, I have many benefits such as your protection, resources, and a chance... A chance to broaden my horizon. I also don't need to see my people suffer since there won't be any conflict with your people on a small or grand scale.

"And I'm sure you've heard something like this... If you can't fight the evil, join the evil and turn them into a good person by sedu—Ahem, staying by his side."

"..." Alex wanted to snap and beat this woman right away, but he ended up sighing. "It's something that needs to be discussed later after this war... But I will consider it for now."

"The seduction part?"

"The vassal part. I wonder if I should call you a magical girl or a horny girl..." Alex shook his head in disappointment.

"But usually, magical girls are defeated with tentacles and such." Rubia tilted her head in confusion.

"..." Alex facepalmed. "Anyway, if you don't have anything serious to say, I'm leaving right now."

Rubia only stuck her tongue out before clasping her hand politely, saying with a smile. "May fortune be with you."

When Alex was about to leave, he stopped, turned around, and said, "Lady, I'm the fortune itself." Before leaving with his Teleportation Array.

"Hmm... Luck, eh?" Rubia closed her eyes as if pondering over something. "I wonder if I can say I am trying to attain luck itself?"

She chuckled alone and shrugged her shoulders before returning to her post.

[Chapter 1166 - Next Stage?](#)

Meanwhile, on another planet where the Supreme Beast and his servants decided to rest, the Supreme Beast stood upon them while looking at the kneeling servants before him.

"To think I would have gotten defeated for the first time..." The Supreme Beast narrowed his eyes.

"My King!"

"You were not defeated."

His servants obviously tried to deny it because it was so humiliating to be defeated. At the same time, the Supreme Beast acknowledged it once again as he recalled all Alex's actions. "The reason we can escape like this is due to the Spirit God's character.

"In fact, the current situation didn't state any winner. Both of us might cause mutual destruction during this battle while most God Kings ended up dying. However, this will be the last chance to kill us, so the Spirit God decided to prepare for everything even if it means giving us a way to escape.

"You might haven't realized this, but he has killed four of you during this battle while injuring me. That's right. Everything looked so smooth while the rest of his people were his burden.

"He believes this result is enough for him. After all, it means he has enough people to kill all of us right now, even when I return. Normally, it's enough for him to keep chasing us, but mutual destruction is not something he wants to see, so I'm sure he is planning to restore everything first before coming for my neck.

"Obviously, we're going to lose him right now while camouflaging ourselves to make sure no one knows my exact position. This will buy us a few years as long as we're careful because they won't have enough courage to attack us without any information, fearing an ambush.

"Hence, I am confident that the Spirit God actually wants to win this without having anyone dying. That's admirable for him. Although there are a few flaws in his arguments and strategy, he is a man I respect even though we're enemies.

"Unfortunately for him, I won't let him just get away with everything. By using his softness to his family to our advantage, I'm going to succeed in reaching the next stage. While I'm breaking through, I want all of you to disperse to hide my body. I have enough confidence that with all of you here, they won't be able to find us.

"Anyway, because he knows how hard it is to find us, I'm sure that he is going to advance to the next stage too. With this, no one needs to die and the Spirit God will be the biggest winner. That's why... Angel, are you ready?" The Supreme Beast turned to Angel with a serious expression.

"I'm ready for everything, My King." The Angel nodded.

"I'm sorry for doing this to you, but we're at the turning point. If I'm found out first, we will lose. At the same time, I'm sure that the Spirit God will choose to advance to another level first because he will be able to find me. I don't know how much he understands the next level, but I will assume the worst.

"To put it simply, if I can't reach the next level before him without dying, I will lose... Probably. I don't know how strong his Nine Purities Slash will be after reaching another level, so yeah..." The Supreme Beast let out a long sigh.

Most of his speculations, especially why Alex decided to let him go, were mostly true. He simply didn't wish to have his wives and people die. There were Lin Xingzhi, Anna, Jeanne, Leoz, Marcus, and even Alaya on the battlefield.

It might be foolish, but it defined him. If not, Alex would have decided to kill the Dragon God, Phoenix Goddess, Battle God, and Earth God during the previous war without caring about his casualty.

The Angel nodded and clasped his hand. "Everything is for you, my King."

He then tapped his golden staff on the ground as Life Energy began to gush out of his body. He completely turned into something like his own pet when he wanted to let the beast consume the energy to recover his power.

However, unlike the previous time, the Angel seemed to have turned the power into another type of energy. Even if Alex were here, he wouldn't be able to comprehend this type of energy because he had never seen it before.

There was no trace of elements like Spiritual Energy or Divine Energy, making it look pure. Yet, the pressure emanating from this energy was far greater than the Spiritual Energy. Even all his servants felt the natural suppression this energy gave.

"What is this energy?" The Earth God muttered before keeping that question to himself, knowing that he shouldn't bother his master.

Suddenly, the energy created a chain reaction where the planet began to rumble. It turned out that the planet itself released another type of energy that gradually fused with the Angel's energy.

There was only one thought in their minds after feeling this energy.

'Strong.'

This type of strong energy might be able to surpass the Spirit God easily. And they realized that they had the chance to gain this energy as well.

After following their king on this journey, they might be able to get stronger by reaching the next level. This was also the reason why the people of this universe actually abandoned their own universe.

The power temptation was far too strong.

"Kh!" The Angel gritted his teeth, enduring the pain that was transmitted by the mutation of his power. He combined the two forms of energy forcefully, so this was like a backlash. The others also knew that there would be a time they could do something like this without the help of the Angel, so they observed the entire process attentively, making sure they didn't miss anything for various reasons.

The Angel kept fusing the two bit by bit. The pain might not be lower than Alex's body refining, but for their purpose, the Angel needed to withstand this power for a bit more.

After fifteen minutes long, the Angel fell to his knees, but his eyes were filled with determination, looking at the beast with a serious expression. He just finished the process, fusing the two forms of energy inside his body and said, "My King, I'm ready. Please."

"Yes." The Supreme Beast nodded and swallowed him as a whole like how a large snake was able to eat a human. All of the energy remained inside the beast's body as he began refining them bit by bit.

At the same time, the Supreme Beast became sleepy like how other monsters actually underwent their transformation.

"I will be leaving my body to all of you. Take care of it and you shall be rewarded." The Supreme Beast commanded them with a strict tone. Actually, there was another reason why they obeyed him. The fact that the parasite was inside them, the beast could take their lives as simple as flipping one's hand.

"Yes. We understand, My King." All of them shouted as they watched how the Supreme Beast slowly fell to the ground, sleeping.

Because of this incident, there were already one Dragon, one Phoenix, two Angels, and two Bats destroyed in the alliance's hand.

If one took another look at it, the progress was good because they only had two Bears, one Dragon, and six Bats. And half of them were Pets.

That was why Alex decided to stop pursuing them, so no one sacrificed themselves.

...

In another place.

While the beast tried to break through to the next level, Alex also made his way toward the Black Hole where he could reach the Abandoned Universe because he needed to go to Encore once again, visiting the last door.

He looked at the altar where he was supposed to receive an inheritance, but it soon changed to something he couldn't recognize.

As if feeling Alex's strength as a Rank 1 God, the ground started shaking once.

Rumble.

Rumble.

"What is happening?" Alex activated his Spirit Eyes to see his entire surroundings, finding that the last room seemed to be shining brightly. For something this bright, the amount of energy released to the outside was far tremendous than he thought. In fact, this was the first time he had witnessed concentrated energy this big.

"!!!" He soon realized something in that door as it gradually climbed to the top, leaving all the other doors behind. "Seriously? There's something moving the door to the top? I don't see any kind of mechanism, though."

Faint suspicious energy emanated from the door, and as this mysterious energy spread out, the ground started to shake even more uncontrollably and collapse. The collapsed ground was where the door would break through to reach the surface.

The entire planet suddenly trembled. Alex couldn't comprehend what this was anymore. "Kh. I seriously don't know what's going on..."

Still, the door kept moving until it finally reached the surface, revealing its appearance. There was silence in the world as Alex couldn't even comment when he saw the appearance of the gate.

Although he didn't find any changes on its surface, he realized that the gate turned out to be just a simple gate. There was nothing behind the gate and it wasn't like a Space Element covered this gate. Yet, Alex could feel a tremendous amount of energy leaking through the gate.

"This gate... Is it connected to something? But I don't see Space Element." Alex furrowed his eyebrows.

Suddenly, the gate was opened from the inside, showing something that Alex never expected.

"This..." Alex dropped his jaw to the ground as he instinctively entered the gate and the latter gradually closed itself, leaving one clicking sound at the end.

Clack.

[Chapter 1167 - Stronger](#)

Alex arrived in another place as if he just got teleported inside. There was nothing inside other than a chair in the middle of white space.

However, what shocked him the most was none other than the translucent figure who sat on that chair. It was none other than himself.

"The Spirit God..." Alex muttered in shock. He stood still and activated his Spirit Eyes, finding that the one before him was the soul of the Spirit God.

"Spirit God, huh... Are you calling me or calling yourself?" The Past Alex smirked and rose from the chair, snapping his hand to make the chair disappear. "We've met again."

"You..." Alex facepalmed and shook his head with a long sigh. "Did you plan all this?"

"Not really. I only prepared everything with the thought of it getting abandoned because you never used them." He shrugged.

Alex narrowed his eyes and asked, "Still, no matter what you say, I truly couldn't understand your thought process."

"It's the same for me. I can't predict what you're thinking, but I have enough knowledge to prepare something that you may need in the future. This is one of them." The Spirit God smiled.

"I just want to ask first... this future... Is it the worst?" Alex asked with a serious expression. This type of scenario truly frustrated him because he couldn't kill them without relying on everything that his past life had to offer.

"I don't know your current condition. How about telling me? Although I won't give you any advice regarding the timeline to ensure that it's not going somewhere unknown, I can answer your question without a problem."

Hearing that, Alex began to tell him how it was going from when he reached the God King Stage until he hunted the Supreme Beast.

"Hmm... I can say it's among the worst." The Spirit God acknowledged it and said, "The biggest miscalculation was the fact that the angel used billions of lives to destroy the Space and Time Seal."

Alex looked down and contemplated, "I wonder will it be different if I sacrifice my life to kill the Supreme Beast? Although I will end up dying, the war will end without any God Kings dying on our side."

"That's..." The Spirit God closed his eyes with a pained expression. "Well, it's already in the past, so I think it's fine to tell you this much. If you die fighting against the Supreme Beast and his servants, Lin Xingzhi will end up following you. After the excruciating pain she suffered in the past when I died, she couldn't handle it anymore and commit suicide."

"Although your current wives will be searching for your body, Anna and Anya would begin losing their will to live because they have been suffering for thousands of years. In the worst case, they will follow Xingzhi.

"Then, your wives will start doubting themselves and things will get even worse. I think I should stop at this." The Spirit God let out a long sigh. "You made the right choice. It's not the best choice for the universe, but it's the best for Eulja. I'm sure we have the same opinion about this, right?"

A gentle smile appeared on Alex's face as he nodded. "Yeah. We don't care about the universe as long as our family can live."

The Spirit God nodded in agreement. "Even if in the end, the result will be one of the worst, I will still choose that road without hesitation."

"Yeah." Alex then asked, "Do you think it's possible for me to defeat that beast?"

The Spirit God shrugged, refusing to answer this question. Instead, he explained another thing to him. "In another universe, after Martial Saint, we will become a False Immortal, True Immortal, and so on until we reach God Stages such as False God and True God Stages.

"This information will be useful for you in the future, but the reason why I'm not giving you this information despite having the knowledge is due to how irrelevant it is."

"You have this kind of knowledge?" Alex widened his eyes in amazement.

"Yeah. I received it the moment I saw the future." The Spirit God had a sad expression as if thinking about something. "Back then, the moment I used a certain technique to receive the memory of my previous reincarnations, I learned that I wasn't born from this universe alone.

"There were so many universes out there. And even a slave could kill you just by flicking your head gently. However, I chose not to venture too deep about this knowledge and sealed it. I was a family man... Living with my family in a peaceful era was enough for me."

"Unfortunately, the beast came..." Alex narrowed his eyes.

"Yeah. That guy..." The Spirit God couldn't contain his smile when remembering the beast.

Even Alex was baffled by such a reaction. He never expected that the Spirit God could actually smile at the beast that ruined everything.

"That guy was just a kid who didn't get the attention he deserved. He threw a tantrum, so others would recognize him. I could feel that he wanted attention from me and anybody else in this universe. At the same time, he wanted someone to stop him and kill him because he couldn't bear this kind of action himself.

"I realized it after clashing blows with him. I can't say he was not a bad guy, but I know he is lonely." The Spirit God shook his head in disappointment. "Anyway, it doesn't really matter."

"Indeed. You mentioned earlier about the False Immortal Stage and so on..." Alex asked, "What's all that?"

"Hmm, I should give you an explanation about your inheritance first. I'm sure you notice that you have gained all the knowledge this universe can offer, right? I mean, not all, but most of them since they are ancient knowledge."

Alex admitted that he understood most of the things after observing them a few times.

"I have separated the entire inheritance and entrusted it to someone else. You can say the current knowledge you possess is only up to five percent of the entire thing." The Spirit God smirked. "Anyway, I don't care if you want to go to another universe or not, but you should remember that you have wives here. I don't wish to see them suffer."

Alex smiled and explained, "I am a family guy too. I don't have a plan to visit another universe if I don't have to. There is a possibility in the future, but I will stay in this universe for at least one thousand years."

The Spirit God nodded in agreement. "Well, living that long without cultivating is indeed very long. I have no complaints as long as you discuss it with your wives."

"Yeah."

"Back to the topic, I have entrusted this knowledge to someone... And that someone is none other than Eulja's Will. Yeah... Eulja's consciousness."

"Wha—" Alex widened his eyes, never expecting this kind of move.

"She was my teacher and my parent figure. She took care of me when I was abandoned by my family. At that time, I never knew her identity until Father-in-law... I mean, Xingzhi's Father came.

"That was not important though. What I wanted you to know was the fact that the knowledge is in her possession."

"This is the first time I heard someone grew up with the world as his mother..." Alex shook his head helplessly.

"Hahaha." He brushed it off with a laugh before continuing. "Alright, we need to talk about the False Immortal Stage first. This is your current stage."

"Looking at this, I feel like I have just begun my cultivation journey." Alex couldn't help but chuckle.

"I can't deny that." The Spirit God shrugged. "Anyway, let's think that you're a False Immortal finding a way to reach True Immortal. Once again... This is not information you shouldn't spread to the universe, okay?"

"Don't worry. I know." Alex waved his hand, telling him he understood the severeness of this matter.

"What do you think the difference between the 'False' Immortal and 'True' Immortal is?"

Alex thought for a moment and tilted his head in confusion before saying, "True Divine Energy?"

"Hahahaha! If I didn't have the knowledge, I would've said it too." The Spirit God laughed out loud.

"Well, I will give you a hint. What did you get during your journey in God Rank Expert?"

Alex narrowed his eyes and said, "Law?"

"Yes. But that's only one of the answers. There is another one..."

Alex thought for a while before realizing something. "Wait... It's Divine Energy!"

The Spirit God smirked and gave a thumb up. "Good. Those two are the answers."

"Don't tell me..." Alex quickly realized how these two were related.

"I think you have realized it already, so I will give you one short answer." The Spirit God nodded. "Yes. It's to combine the Law and the Divine Energy. The universe itself has given you the opportunity to reach the next stage, but because there's no knowledge about it yet, no one has yet to ascend to a higher level.

"By using your body, you will convert the Spiritual Energy from this universe to Divine Energy. Then, the same Divine Energy will be converted once again by using the Law to create another type of energy that will symbolize your existence. As much as I want to call it True Divine Energy, I can't because its name is Immortal Law Energy. Anyway, both suck, so yeah... Let's move on.

"Anyway, if you want to reach the True Immortal Stage, you're to convert all Divine Energy by using your Law. Only at that time will you be recognized as a True Immortal. Ah, don't forget... We will face another Lightning Tribulation, albeit it's going to be a Disturbance instead."

"I see. So, that's how it is... And that's the reason why you send this Gacha System, right? The Space Element is the most beneficial for me because it will fulfill all my wishes. Most important of all, I can seal my own power, so the universe won't recognize me as a True Immortal and expel me. I can spend the time with my family here then."

The Spirit God gave another thumb up. "Exactly. You understand it well."

"Still, where can I get rich Spiritual Energy? I'm afraid if I advance in the original universe, I will be recognized immediately. I mean, when I reached Martial Master, the world would try to expel me right away... Only a one day grace period. The same applied to when I reached the God Rank Stage... Wait a minute..." Alex once again was shocked and looked at the Spirit God with his mouth wide open.

"Yeah. This place is called an Abandoned Universe for a reason. It doesn't have any limit because the rules are not applicable here. Sure, you can find Spiritual Energy and Disturbances, but you won't face something like a limit or whatever because the universe doesn't have its will that maintains everything. Only natural phenomena will continue in this universe. Hence, you won't have any problem when you reach the True Immortal Stage and seal your energy first, so no one knows about it, including the beast."

[Chapter 1168 - Spirit God And Alexander Sirius](#)

"In that case, I won't have a problem in advancing to the next level in this place." Alex smiled because he could already see what would happen next. However, a concern also appeared in his eyes.

Finding a trace of fear in Alex's eyes, the Spirit God lowered his head. He knew his concern and what kind of method the beast did to speed up the process. After all, he had prepared for this too. "Actually, I have a method to make you advance as soon as possible. But this is going to be painful for you. I believe you will face this type of pain for a few years."

"As much as I hate to say it, the Undying Fire Body has turned me into someone who can withstand this type of pain." Alex scratched the back of his head, feeling pretty embarrassed.

"Well, I don't know about your pain tolerance, but since you're confident, we can start right away." He nodded. "To put it simply, I will be converting the Divine Energy here to Immortal Energy by using my Law of Nothingness. Since it doesn't have anything from elements to consciousness, the energy itself will attract the Immortal Energy that I have created in the past five thousand years.

"At that time, you will feel the sudden influx in your body, converting your Divine Energy into Immortal Energy. This way, you will be able to reach your goal fifty percent faster than doing it alone."

Alex contemplated for a moment and nodded. "I understand the gist of it. We can do it right now."

"I like your spirit. Now, let's sit down and do the process immediately. I will give you the instructions on how to create Immortal Energy first before I start supplying you."

Alex nodded and sat down on the floor, closing his eyes to feel the energy.

"First, try to release your Law and Divine Energy at the same time, trying to clash it with each other."

Alex nodded and did exactly what he was told before his eyebrows twitched as if he felt something unpleasant. The two indeed fought each other, but his Space and Fire Elements seemed to want to join the fight.

"I'm sure you can feel something moving in your body... Just let it out. It's your natural instinct to stop the reaction."

Alex acknowledged it again and let out the two elements. Surprisingly, the reaction suddenly got halved when his Sun God Fire suppressed them as if telling them to get along with each other. Then his Space Element tried to harmonize their relationship as if snitching them both with threads.

Slowly but surely, the Law and Divine Energy began to fuse, creating something new to his body. Alex felt this was the answer and continued without the Spirit God telling him to.

Seeing this improvement, the Spirit God nodded with a smile before sitting in front of him with a calm expression. He then released both his Law and Divine Energy.

Obviously, the Spirit God's energy was far weaker than Alex's, but his energy had another function. Because of his Law, the Law of Nothingness, all the energy converted by him had no element as he explained earlier. In other words, it was just neutral Immortal Energy.

At the same time, the Spirit God also helped him convert the Divine Energy into Immortal Energy through his Law of Nothingness. He then forcefully stuffed that kind of power inside Alex's body which caused a huge reaction from Alex's body.

After all, because of his elements as well as Law, the energy that Alex produced had the marking of both Law and his Elements. Yet, the one that entered his body had none of them.

The two energy clashed as Alex's original energy tried to devour the elementless energy, seeping a bit of Flame Energy with the help of Space Energy and Luck. This way, the energy that the Spirit God sent to him would turn into his own energy.

Although this looked like not helping him since it just added the amount of energy inside his body, the Law of Nothingness had another special effect. It was to attract the original energy to merge. In other words, not only his Flame, Space, and Luck, but his Divine Energy also came inside the energy.

This was how the Spirit God helped him. With this kind of speed, he should be able to finish everything in three years. That was the Spirit God's prediction while Alex felt they needed a bit longer.

And Alex also worried about his family out there because he didn't wish to see the beast kill them while he was here.

However, worrying was useless, so Alex decided to focus on his current objective instead to avoid wasting time. This was the only way for him to go back as soon as possible.

The entire process continued. Since Alex had entirely focused on the current training, the Spirit God smiled and began to use all his power to help Alex.

The pain began to spread all over his body, but Alex maintained his calm as if this was just a normal one for him. In fact, this felt like ants crawling on his body and stung him. He simply didn't feel anything.

Since Alex didn't let out a single groan, the Spirit God decided to increase his output. As one would expect, the pain also increased, numbing all his senses and body.

However, Alex had yet to let out a single groan as if he could easily endure this level of pain. If it were anyone else, they would have started screaming, but Alex turned out to be stronger than this.

The Spirit God couldn't help but remember a former best friend and shook his head helplessly. His best friend also seemed to have a weird level of pain tolerance, so he believed that the Undying Fire Body was truly far worse than he imagined.

While recalling his past memories, the Spirit God kept producing the Immortal Energy to help Alex. But this was also dangerous to his body because his body would surely disappear in just a month at this rate.

Fortunately for him, he had predicted this course and used the Immortal Energy he had produced for five thousand years that was stored inside this space. In fact, the energy he transferred consisted of ninety-five percent of the Immortal Energy in this place while the rest came from his own.

His own Immortal Energy only had one purpose. It was to bring all the Immortal Energy in the surroundings like a magnet, so Alex could absorb at the rate no one had ever seen before. This rate was far even more terrifying than the Supreme Beast even with the help of the Angel.

Just like the Supreme Beast, the Spirit God had been planning for this after all.

Still, no matter how prepared he was, his body was that of a soul. In just six months, his body had begun to disappear.

Seeing Alex had yet to let out a single sound, he decided to keep doing it until the last minute. He only stopped after his remaining energy was enough for him to stay for a few hours without doing anything that would waste his energy. It also included the fact that he couldn't help Alex anymore.

When he finished, the Spirit God decided to step back, looking at Alex. 'To be honest, I don't wish for you to go to another universe even if you want to do it a thousand years later. I have a feeling that you will do just fine, albeit that's the one worrying me.'

'There will be more and more women flocking around you, turning this entire situation a mess. Just like how you meet so many wives other than Anna, Anya, and Lin Xingzhi in your journey, I just don't wish to see more because they are going to be sad.'

'Still, I won't stop you for it because you are my reincarnation. It's not my place to order you something. Hence, I will believe in you to make the best choice in your life and hope the best for your wives. Ah, of course, you will surely have kids in the future. Don't make them feel lonely and force them to do something they won't want to do.'

'It's possible in your current state because you have the absolute power in that Universe. Also, don't lose sight of your important ones or you will regret it.' He couldn't help but make a gentle smile, only to find tears coming out of his eyes. 'Cherish them, take care of them, don't make them sad, and... Love them... forever. I'm sure you can do it because you're my reincarnation...'

The Spirit God kept thinking about all his advice but didn't say it out loud. However, as expected from a former life and its reincarnation, Alex seemed to feel something. Although the person himself didn't feel it, tears also fell down his eyes.

The Spirit God shook his head helplessly and rose from the ground. 'I shouldn't disturb him any further.'

...

Three years later.

After exhausting all the Immortal Energy inside the space, the entire place itself crumbled, turning it into a simple giant white floor.

In the middle of a white platform, Alex's body was floating, surrounded by another form of energy that didn't allow him to land on the ground. In fact, his energy was visible for all people to see... If there was any in this Universe.

If the color of the Spiritual Energy was sparkling gold, this energy had a pure Silver Color. It was close to grey to be honest. Although the appearance became a bit duller than the Spiritual Energy or Divine Energy, the power hidden inside this energy was far more amazing than them.

The energy couldn't be produced anywhere in this world.

Suddenly, a shock wave gushed out of his body and obliterated the entire field, creating a huge crater on where he sat.

Alex's eyes gradually opened as he slightly squinted his eyes for a while to adjust to the light outside.

"It's been three years, huh... I wonder if the beast has actually finished..."

"He has not, but soon." The Spirit God's voice resounded in his ears as he abruptly turned around, finding the translucent Spirit God became even more transparent.

"You..." Alex narrowed his eyes before lowering his head. "Thank you."

"Don't mind it. My soul shouldn't exist to be honest. If not because we're here, the Universe might have sent its Disturbance to kill both of us. After all, I am you and you are me. We are the same and shouldn't exist in one timeline, let alone talking to each other like this." The Spirit God smiled and waved his hand.

"..." Alex nodded in agreement. He had learned a few things from him and he was so grateful that his past life was someone like him. "Still... There is something I would like to say to you... I really wish we were born in the same timeline. I feel like we will be good buddies."

"Hahahaha! We're the same, so obviously. But, yeah, I want to see it as well. I feel like we can do anything if we were born as twins. Either way, I shouldn't take too much of your time because your Tribulation is coming. You should leave this planet as soon as possible."

Alex fell silent. He truly wanted to talk more with his past self, but he had been feeling it as soon as the shock wave occurred. It was the sign of excessive Immortal Energy. In other words, Alex had converted all his Divine Energy into Immortal Energy and a little amount of that energy could actually cause such destruction.

At the same time, there was a faint feeling that something big was coming toward him. With the reminder from the Spirit God, he knew it was his Tribulation. Having no other choices, he leaped to outer space to face it.

And just like the Divine Tribulation, the first Disturbance to appear to challenge his power was none other than the Fire Disturbance.

"Time to step on the True Immortal Level."

[Chapter 1169 - Arrangement](#)

Like Alex's progress, the other side had also progressed so much. Because of the continuous fights, they had become the center of the attention of this universe. Many wanted to fight together with the Spirit God because of the information that had been spreading like mad fire.

They never thought that such a beast was attempting to reach the stage that nobody ever achieved before, making him the strongest in this universe for a day. It was enough for him to slaughter the God Kings in this place.

And with the Spirit God and the others falling, the number of the current God Kings was not enough to handle his servants. Hence, the people began to feel scared because their turn would soon come and ask Lin Xingzhi to allow them to join the fight.

Unfortunately for them, Lin Xingzhi rejected all of them because she didn't know whether they were traitors or not. If there were traitors among them, backstabbing once was enough to turn the situation around.

That was why Alex wanted her to reject everyone to avoid any backstabbing. If they came to the battlefield, they could treat them as an enemy. At the very least, it wouldn't be that bad to treat them as enemy reinforcement since traitors will surely kill one of them first before making their appearance.

If they were enemy reinforcement, Alex would surely command the entire group to react accordingly. That kind of adjustment wouldn't hurt them for a period of time. Within that time, the fight between Alex and the beast would've ended.

After a long pursuit, Lin Xingzhi gathered the God Kings in their group.

"How is the situation?" She asked Anna.

"Everything is good. It seems we're pretty lucky. Not only do we manage to lower their number even more to the point we outnumber them by ten times, but we have prepared everything to fight all out with them. For now, we have a gist of their location, but we're not one hundred percent sure." Anna nodded with a serious expression.

Lin Xingzhi thought for a moment and nodded. "That's pretty good. Maybe Alex's Law is playing with fate...Haha."

No one actually objected to it since they thought the same.

Suddenly, Alaya raised her hand and asked, "What do you think if we fight all out right now?"

"I am not sure." Lin Xingzhi shook her head. "There is a possibility that the beast will come out and wipe all of us out. Without Alex, I don't dare to go there. After all, there's a chance that the beast will forcefully end his cultivation and hit us.

"In the future, even if Alex returned here, the beast was nowhere to be seen." Lin Xingzhi sighed, feeling that the situation was simple yet too complicated.

The Palm God tilted his head in confusion and asked, "In fact, we can actually fight them right now as long as the Spirit God is here. What is he doing? If the beast were cornered continuously, we would've ended the battle already."

The Magic Goddess shook her head helplessly, not knowing how this guy had a daughter that managed to become the Spirit God's wife. She decided to explain it to him, "If we attack them right now... We may win the war, but at what cost? I believe only one or two of us manage to live after that war."

"Is that so?"

"Just think about their strength. You alone won't be enough to kill them completely. If they decided to attack you without thinking about their lives, it would be mutual destruction." The Magic Goddess sighed. "The Spirit God must want war without casualty because we're his allies.

"And I, God of Destruction, God of Wrath, Nature Goddess, Life and Death Goddess have been preparing for this, right?"

Lin Xingzhi nodded, acknowledging her statement. "You must have felt the difference between the master and servant. For now, there are five masters, one bear and four bats. Five of us will deal with them while the rest of you fight the servants.

"Although I don't want to look down on your strength, this is the best lineup. Let's see our whole situation first. Their masters are Earth God, Evil God, Vampire Goddess, Blood God, and Demon God. I will handle the Earth God. Who is going to take the others?"

"I am wondering whether I should pick Evil God or Demon God. After all, a Magical Girl needs to defeat the bad guy. And according to the story, these two are fit to be my enemy." Rubia playfully answered her question first so no one would take her enemy.

"I will handle the Blood God. Blood is the source of life, so my power is at an advantage here." Alaya shrugged, ignoring the Magic Goddess.

Meanwhile, the God of Destruction thought otherwise, asking Rubia, "Why don't you fight that Vampire Goddess?"

"What? You can't fight against a woman, God of Destruction? How cute." Rubia stuck her tongue out.

Raiju crossed his arms as veins bulged on his forehead. He clicked his tongue and said, "I will handle the Vampire Goddess then."

"That's good."

They then turned to the God of Wrath since he would be fighting against the Evil God. Evil and Wrath might be a bit related, but the God of Wrath surprised them by his action. Instead of accepting his role, the God of Wrath, Marcus, lowered his head to Lin Xingzhi, begging, "Mistress, may I request to fight the Earth God in your stead?"

Lin Xingzhi widened her eyes as the others looked at him with amazement. Lin Xingzhi thought for a moment and asked, "Why?"

"Although I didn't have any feelings for the Goddess of Destiny, she had sacrificed her life for me to escape that encirclement and ended up dying in the hands of the Earth God and Battle God. I am not a man if I can't settle this grudge and gratitude." Marcus looked at Lin Xingzhi with a serious expression.

Seeing this reaction, Lin Xingzhi paused for a moment and kept staring at his eyes to see his resolve. In the end, Lin Xingzhi sighed and said, "If the fight were to start before his return, you would deal with him. Otherwise, you shall ask this matter Alex. I will follow his decision."

The God of Wrath clasped his hands politely. "Thank you very much."

"That's the arrangement. Now, we shall split the remaining to all of you. The enemies have Dragon's Pet, Water God. He is a Naga Race that can control water. I need two people." Lin Xingzhi continued with the arrangement.

Since this was the first one she mentioned, to smooth the process up, Anna and Jeanne raised their hands at the same time.

"Jeanne and I will handle this enemy. Jeanne has an elemental advantage, so I believe we can win. Well, I will be too ashamed if we can't." Anna scratched the back of her head. Meanwhile, Jeanne repeatedly nodded her head to show her support for Anna's statement.

"That's the first pair. Then, there's the Bear's Pet, the Battle God. Two people."

They stayed silent for a minute before the Palm God raised his hand. "I think I will fight him. In the past war, I have met him once, so I will settle the fight. As much as I want to deny it, the Battle God is stronger than me because of that power. It's because of that power, okay?!"

"..."

The people fell silent as they thought the same thing, 'He said it twice.'

They facepalmed, knowing how the Palm God hated to lose. After contemplating for another minute, the Holy God raised his hand. "I'm among the first allies you have, so I will be helping the Palm God. I have fought together with him once against a Bear and a Snake, so I think it's a good idea."

The Palm God narrowed his eyes. Surprisingly, he didn't say anything useless as if he was against the idea, telling people that he alone was enough. Instead, the words that came out of his mouth were, "I will be counting on you, Holy God."

"Likewise." The Holy God smiled.

"And since Alex has killed two Bat Pet's, there are only two more, a Lycan and a Panther. There are only four of you left." Lin Xingzhi looked at the remaining four with a serious expression.

The Song Goddess suddenly put her elbow on Leoz's shoulder while saying, "I have grown up watching this guy, so I will be fighting together with him. As for the fight, I don't care much. The other two can decide first."

They then turned to the reinforcement that Navin brought, the God of Greed and God of Strength.

The two exchanged looks and nodded.

"I understand. We will fight together." The God of Greed nodded and asked, "Which one do you like?"

The God of Strength thought for a moment and said, "Lycan. Let's go kill that wolf. I don't know his title since he's not recognized by the universe."

His partner nodded his head, confirming their target.

"Then we will take the Phanter..." The Song Goddess smiled and gave a thumb up.

"That's all for the arrangement for the God Kings. Now, let's move on to the second matter. It will be the positioning for the Rank 2 Gods who will handle all our armies. For now, we have many Rank 2 Gods. My Eulja has Six Elemental Gods, Five Guardians, and two more. In addition, we will also bring the former Fire God, Phitrus's God Beasts, which means another ten Rank 2 Gods. If we add the help from the Blackwade Clan and others, we can add another five Rank 2 Gods at maximum." Lin Xingzhi explained.

"Wow, Eulja alone sent twenty-eight Rank 2 Gods without their Commandants?" The Holy God widened his eyes. "Well, I will give the command to my daughter, the Saintess, to lead the other nine Rank 2 Gods to help."

"I have eight that will help me." The God of Destruction nodded.

"I have seven." The Magic Goddess clapped her hand apologetically. "I have equipped them with my power though, so they are worth more."

The Song Goddess scratched the back of her head, wondering if these people were flexing or not. "I only have six with me, so don't expect much from me."

"..." The God of Greed and God of Strength exchanged looks and said, "Our combined forces only have ten Rank 2 Gods. Because of our far location, we can't contribute much and leave our place unguarded after all."

"In other words, we have a total of sixty-nine Rank 2 Gods then." Lin Xingzhi nodded with satisfaction. She patted Marcus's shoulder since the person had a sad expression. Knowing that all his people had been slaughtered by those beasts, he must feel frustrated. So, Lin Xingzhi said, "We will have all these people to kill those beasts without mercy as well as protecting our battlefield."

"Those who appear on the battlefield will be considered as enemies even if they're not. I'm sure we have sent enough threats about it, right?"

The God Kings nodded with serious expressions, agreeing to what she said. Only Rubia stuck her tongue out while correcting her, "I don't see any threats. It's just a friendly warning. We don't want collateral damage."

The God Kings shrugged their shoulders, ignoring her useless comments again.

Rubia pouted and complained, "Why is no one taking me seriously?"

"Are you seriously asking that question?" The Palm God looked at her with an annoyed face.

"Of course! I have been serious this whole time."

"Such a weird complex." The Palm God shook his head helplessly before he got blown away by a small explosion on his stomach.

The Magic Goddess shouted, "Are you trying to pick a fight against a Magical Girl, the helper of justice? Fine by me! Let's fight!"

Lin Xingzhi and the others only ignored both of them and continued discussing the battle plan.

Unbeknownst to them, the battle between Alexander and the Supreme Beast still continued to this day, trying to reach the next stage as soon as possible. Surprisingly and unknowingly, the one who won this battle was none other than Alex, who met his tribulation first.

[Chapter 1170 - One Hell Of A Tribulation](#)

Meanwhile, Alex had finished his training and stood in outer space, ready to face the Tribulation for the next realm.

Alex activated his Spirit Eyes and Spirit Crown at the same time while maintaining his Dragon Aura and Phoenix Aura. This was something unprecedented before. Even his past self didn't know anything about what would come to him.

As he closed his eyes, he could feel something start moving. His skin suddenly felt heat brushing his body as the temperature continued rising up.

Alex opened his eyes again and looked to the right, finding a Fire Disturbance that gradually became a star trying to hit him.

"..." Alex narrowed his eyes and raised his hand. Despite the terrible heat, this fire didn't make him feel hot at all. His Sun God Fire had been protecting him this whole time while Alex was collecting his focus.

When the Fire Disturbance was about to shoot, he channeled all his energy into his hand and infused that energy into the Fire Disturbance, controlling the star itself.

"Star God Divine Control."

Alex quickly took out his Sword and Spear, covering them with this Fire Disturbance. Instead of facing the first Disturbance head-on, Alex just used it to his own advantage.

The newborn Fire Disturbance had no choice other than to submit to Alex's control and the first stage should be over.

As one would expect, the moment the first one finished, Alex found the next Disturbance. It was none other than Water Disturbance. Surprisingly, this Water Disturbance dispersed to millions of droplets scattered in the surroundings.

But there was one thing that could be distinguished from this Disturbance. It was the fact that all droplets had a cone shape, facing Alex.

If Alex were to remain not moving, his body would surely be pierced by this power, albeit he knew it better than anyone else. Raising both hands, he summoned two dragons that enveloped him from all directions, including the top and bottom.

"Swallowing Heaven." Alex smiled. The Weapon Spirits planned to use the dragons' bodies to administer the heat from Alex's Sun God Fire, evaporating those droplets before it hit Alex.

However, Alex might have underestimated his power the moment he turned his energy into Immortal Energy. The heat released by his Sun God Fire became even stronger and started evaporating the droplets before he intended.

"Seriously?" Alex widened his eyes when he saw the effect. He couldn't help but smile, saying, "I'm lucky to have this Fire. And with my Law, I can somehow turn all the Fire Energy in the area to create a chain of heating stoves because the fire energy "happens" to be there."

Feeling threatened by Alex's power, the Universe sent its second tribulation, piercing the dragons' bodies. As expected, even if he had an elemental advantage, fighting water was easier said than done.

The dragons managed to evaporate all those droplets, but he soon realized that the dragons gradually shrunk at a visible rate.

He checked the situation again with the Spirit Eyes and found that the energy should last until the end unless something big happened.

But to his surprise, he felt the temperature decreased uncontrollably to the point it tried to freeze his own Sun God Fire. Looking left and right, Alex couldn't find the cause, wondering if the Universe controlled the energy around him.

However, the cause came into his vision not long after he raised his vision. A giant chunk of ice appeared above his head and already made its way toward him.

"Kh! Seriously?" Alex clenched his teeth and channeled his power into his sword, swinging it upward.

Rumbling sounds began to echo as cracks appeared on the ice's surface. The next second, the ice had been split in half.

But his challenge had yet to end. Due to the decrease in temperature, his Dragons had a bad time. Alex channeled his energy and created a giant ball of fire. Yes, it was none other than his Fire Disturbance that was called by the Star God Divine Control.

The moment it appeared, the ice and water began to evaporate.

"To think I would need to face two Disturbances at the same time..." Alex shook his head in surprise before asking himself, "Why? I never heard anything about two Disturbances or Tribulation at the same time. Did I just surpass the human's boundary? No, no. It's not logical to think this way.

"Instead, I should focus on the Disturbances first." He furrowed his eyebrows, feeling something weird about the two Disturbances. And it was at that time he realized what was going on. The second wave of his tribulation was to summon those droplets and attack him without a care.

When all of them were released, without waiting for Alex to eliminate all of them, the third tribulation appeared. It meant the second tribulation had actually finished when it shot the droplets. This was why he needed to face two Tribulations at the same time.

"To think it's like this..." Alex narrowed his eyes and added his Space Element to reinforce his two Dragons to prevent the water droplets from breaking through the defense.

Unfortunately for him, he needed to face the third wave. It turned out that the ice chunk he cut earlier had yet to end. Instead of disappearing, the ice turned around and went back together as if they fused together.

Alex looked at his own Fire Disturbance and swung his hand, controlling the Fire Disturbance to hit the strength.

"Star God Divine Control."

When the Fire Disturbance was about to clash with the Ice meteorite, Alex found that the ice and his Fire Disturbance got twisted once as if something appeared between them.

"Seriously? No wonder it's hard for people to pass this stage." Alex gasped as he realized the fourth wave of his Tribulation had come to kill him. Just like the water droplets that had yet to end, the fourth already started not long after the third wave 'finished', pressuring Alex for an action.

Within a split second, he understood what was going on. 'If I keep this up, I will be facing all the rest of Tribulation at the same time. In other words, I need to finish each of them as soon as possible... This is insane.'

Without waiting for Alex to finish his thought, the Space Tribulation suddenly twisted both the Fire Disturbance and Ice Meteoroid, making the Fire Disturbance fly past the meteoroid while the latter went straight toward him, covered by the Space Element. He could already feel and see the bending power in that meteoroid.

"They can even fuse?" Alex's eyebrows twitched as he looked at the meteoroid with an annoyed expression. Unfortunately, he couldn't waste more time and proceeded to deal with this type of attack.

He raised his hand and summoned a Black Hole on his palm while controlling his Fire Disturbance to turn around and hit the Ice from behind.

"Black Hole." Alex threw the Black Hole toward the ice meteoroid. When it clashed with the Space Element that covered the whole ice, the Black Hole caused a huge shock wave that shook the entire area. However, Alex had enough control and luck to absorb all the Space Element to end the fourth wave of his Tribulation.

Meanwhile, his Fire Disturbance was going to engulf this huge ice before it hit him. But to assure that nothing would happen next, Alex lifted his finger a bit and channeled his Space Element.

"Subjective Reality."

This technique influenced all the water droplets, making them turn around to hit the ice that tried to kill him. As one would expect, the water didn't do much to the ice before the latter froze them. The ice turned into a sea urchin right after, but that was enough for Alex because what he wanted to do was to confirm whether his attack would be able to destroy it or not.

Unfortunately for him, the next wave had appeared again. This time, it turned out to be an Earth Disturbance.

And yeah, what could you expect from an Earth Disturbance other than a meteor. However, unlike the Ice, this one was significantly bigger to the point Alex began to doubt whether he could pass this because what was thrown at him was the size of a Lower World.

"Oi, oi. Are you joking with me? There is a limit to this, no?" Alex clenched his teeth and looked back at the third tribulation, the ice.

The Fire Disturbance and the Ice had made a contact in which the Fire Disturbance began to swallow the ice, evaporating it into nothing. At least, he had enough time for the Earth Disturbance because he planned to handle the Ice First.

Before it hit him, Alex raised his hand and summoned four arrays in succession.

"Star Barrier." Alex used this time to fully stop the Ice with four barriers.

Crack.

Crack.

Cracking noises filled his ears as the Ice Disturbance began to destroy it one by one. As much as he hated to say it, this kind of tribulation was far stronger than Lin Xingzhi's techniques. After all, even Lin Xingzhi couldn't create large enough Disturbance to even form a Lower World.

Bam.

The Ice Disturbance finally stopped at the third barrier, numbing Alex's hand because he poured too much strength and effort to stop it.

The Fire Disturbance then swallowed the Ice as he could see inside the Fire Disturbance, the Ice Element began to disappear and shrunk at speed visible with naked eyes.

However, this turned out to be his worst option. When he was about to face the next tribulation and cut that Lower World like how he did it with his Eight Purities Slash or above, he found that it wasn't impossible anymore.

Even with his current strength that seemed to be possible to cut with Seven Purities Slash, Alex knew that his attack would fail if he only threw an Eight Purities Slash.

After all, what he saw was the fact that this Lower World had been covered by lightning. And he couldn't just split it and say it's over since the Ice Tribulation had told him that it would get back together and hunt him down no matter what happened.

Unless he destroyed this Lower World to pieces or nothing, he would continue facing it. Yet, the time he needed to think about his action became another weapon that would eventually slice his throat.

The next tribulation already appeared. It was none other than the Wind Tribulation, releasing a huge tornado that increased the power and speed of the Lower World that had been covered by lightning.

He believed this attack was far more amazing than the beast's Gehenna Ray since he couldn't imagine if a planet suddenly hunted him down with several elements around it.

"Oi, oi! Is this truly a Tribulation? It's not the universe's will trying to kill me? Wait, that's the same!" Alex clenched his teeth and released everything.
