

Gacha 1191

[Chapter 1191 - Alaya](#)

"!!!" It turned out they were trying to trick each other by using several layers of attacks but ended up getting fired back right after.

The Blood God narrowed his eyes and decided to observe Alaya's expression first to see if she had more tricks on her sleeve.

"Come, come. Let's fight again, I wonder who will come at the top. In the past, I couldn't do it, so I'm curious whether you're worthy of being my opponent." Alaya smiled, perfectly fine.

The Blood God felt chill down his spine because he just lost his connection to her blood.

Meanwhile, Alaya also felt the movement of her blood. The Blood God really tried to stir up the blood inside her body, but the Life Energy supported the blood while the Death Energy destroyed the energy that wanted to control them. Hence, Alaya was perfectly fine against this enemy.

"To be honest, fighting you is my decision. I've seen your ability in the past. Although it's only a bit of your power, I've understood the most important thing against you. The Time God actually used his power to stop the time of his and the Dungeon's Blood to prevent you from controlling it. Then, the Evil God and Demon God will try to attack them.

"As for the Vampire Goddess... That brat, who couldn't even become a God King in the past? Should I even care about her? No, I should say, you seem to be underestimating the God of Destruction that much. His potential is far beyond your imagination... No, should I say that his full potential is at the same level as the Sword God?" Alaya smiled.

"Impossible!" The Blood God denied it, but he then asked himself a question. 'Eh? Why did she say something like this during our fight? Is she implying that the Vampire Goddess will be defeated within a few minutes and the God of Destruction will help her?

'No, it's impossible. Vampire Goddess is a strong God King. I've personally seen her power. It's impossible to defeat her easily. Besides, even if she is defeated, there's no telling that the God of Destruction will come here.

'And... If he helps the other battlefields, the situation will become even worse for us. In this case, I should finish my fight as soon as possible.' After deciding what to do, the Blood God released all his power at once.

The Blood began to permeate his surroundings. His eyes turned red and released the bloodlust.

"Blood Enhancement."

Suddenly, the Blood God disappeared with speed faster than before.

"Stimulating your blood to gain an additional strength and speed, huh?" Alaya said coolly while knowing the Blood God was already behind her, punching her right on the back of her head.

He blew her away until she crashed to a planet and went straight to her to add another strike. However, he noticed that his lifespan was reduced again. He gritted his teeth and looked at the Life and Death Coffin.

The information about that coffin was still fresh in his mind. The coffin itself was known to be unbreakable because it was the materialization of Alaya's existence. The only way to destroy that coffin was to kill Alaya, so he decided to ignore it this whole time. No, the Metal God or any other fighters that attacked her in the past also did the same because of the exact reason.

He gritted his teeth and flew to the planet.

The next second, the planet cracked because he just created massive destruction, turning the ground into a massive crater that could be easily seen from outer space.

Alaya was still there, getting pounded continuously without fighting back.

The Blood God kept hitting her without any care since he was winning... Or so he thought.

Once again, Alaya surpassed his imagination because her body was splattered like it was destroyed. Yet, the Blood God felt uncomfortable before leaping back to outer space. He didn't know why but he was close to death at that moment. "What just happened?"

Alaya, whose body only remained the lower half, suddenly recovered in an instant as if she rewind time.

Looking at her topless body, she quickly made another shirt before looking at the Blood God and appearing right in front of him.

"That hurts you know..." She scratched the back of her head as if nothing happened.

"You... You... What are you?!" The Blood God shivered, finding that Alaya's energy didn't even decrease after doing such damage.

"You really don't know anything, aren't you?" She shook her head and said, "I'm not a human. I'm known as Blood Shaman who doesn't have my own body."

If Alex were here, he would think of her statement about her Law. She said she had experienced dying and reincarnating a few times. And Life and Death was a combination of her experience, existence, and understanding. He would realize what it meant when he fought her.

But the Blood God was simply clueless about it. She graciously explained while buying time, "I'm an artificial life. As long as I have enough energy, I can keep reincarnating my body. Although the body needs to die first, I'm practically immortal.

"That's why I was known as the most mysterious God King since a few thousand years ago, I didn't use this body. I'm the oldest among God Kings, experiencing and watching Life and Death pass by every time to the point I gained that kind of insight.

"My offensive power might not be that great since I could only rely on my Life and Death Coffin, but only a few people could actually kill me. Only a being like Sword God, Fire God, and the current Spirit God could kill me. And the reason why I have so many praises to the God of Destruction is due to his power. Yes, his power has the ability to kill me as well. That's why I'm placing my bet on him.

"Unfortunately for you, you don't have the ability to kill me. The furthest you can do is to seal me with your power like how the Dungeon God and Time God tried to do it when they fought me. Well, unfortunately, you've your time. No, should I say you're wasting too much time on me?" Alaya smiled mysteriously.

Suddenly, another person came onto the battlefield. Alaya glanced at that person while the Blood God turned around, finding a muscular man who appeared right next to him.

"Wha—" The Blood God couldn't even react because he never expected there was another man who appeared in their fight. And the one who showed up was none other than the one who fought the Vampire Goddess, the God of Destruction, Raiju.

"Thank you for your advice, Life and Death Goddess. Let me repay that advice by helping you in this fight." As he said it, Raiju already sent a fist right at the Blood God's face. "Fist of Destruction."

The Blood God gritted his teeth and used his blood to smear it on Raiju's hand, but as one would expect from someone who handled the Vampire Goddess who used a similar technique, Raiju quickly removed the bloodstain without hesitation.

"What?!" The Blood God widened his eyes even though his face got disfigured.

Meanwhile, Alaya raised her vision, finding that her Life and Death Coffin's count had been reduced drastically.

"You!" The Blood God tried to create another blood soldier to stop him while shouting, "You've killed the Vampire Goddess?"

Raiju simply snorted and waved his hand, destroying the blood soldier with his Destruction. "She was too easy for me. I didn't even need a long time to kill her."

"Oh!" Alaya smiled and said, "I'm glad that my advice can make you this powerful. Congratulations."

"Thanks!" Raiju nodded and charged at the Blood God, planning to kill him.

Alaya also made her move by summoning a giant sphere formed by her Life Energy. "Life Cage."

The Blood God narrowed his eyes and tried to attack the cage, but Raiju already arrived in front of him, sending another punch. "Fist of Destruction."

"Blood Plant." The blood on his face bloomed like a flower and tried to stop that punch.

He seemed to have successfully stopped him because Raiju actually stopped on his track, not finishing his fist. Yet, the power of destruction flew out of his hand and burst out to the front.

Boom.

The Blood God was launched before the entire body disappeared because of the Decaying Power.

It reduced his lifespan tremendously, but Alaya realized the Blood God had yet to die.

The next time he appeared, he already went around Raiju and planned to kill him from behind.

"Hahaha! You're good, God of Destruction, but it's time for you to die." The Blood God laughed in frustration. He just wanted to believe everything Alaya told him earlier was a lie by killing the God of Destruction.

Unfortunately for him, when he was about to kill Raiju, Alaya's voice resounded in his head. "Nope. You're going to die."

"Life and Death Cycle. Unending Samsara."

"Wait, you're going to hit the God of Destruction too." The Blood God shouted when he saw Alaya swinging her scythe.

However, before the two could react, Alaya already completed her swing right at their necks. Even Raiju was dumbstruck by her action, wondering if Alaya actually wanted him to die.

But all his assumptions were broken when he realized his head still remained. He turned around to see the Blood God, who happened to be in the same condition, but he unintentionally glanced at the Life and Death Coffin.

The number went right to "0" in an instant before the Life and Death Coffin opened its lid, releasing a huge amount of Death Energy.

"Alright. It's time to put you into the coffin." Alaya smirked. "Just so you know, my Death Scythe is used to harm the soul that has been marked by the Life and Death Coffin, so it won't harm my allies even if I slash them a few times. And this technique... is the technique to reincarnate me into another lifeform... It's a perfect name, isn't it? Unending Samsara... Well, I'm tired of doing it again and want to die in this life properly.

"That's why I made an agreement with the Spirit God to have my own retirement life for one or two thousand years before asking him to kill me with his power. I have no more purpose in this life since I can't even reach the next level despite living for so long... Sigh, my talent is the worst among the God King, isn't it?"

"Oi, oi. Don't talk about such a scary thing and replace it with your philosophical thinking. I thought I was going to die." Raiju started sweating. To think Alaya would be a sadist that made one's heart beat crazily, he was speechless.

However, he couldn't even joke around with her as the Blood God suddenly screamed in agony.

"Argh! What is this? Wait, something is pulling me." The Blood God gritted his teeth and flew away from the coffin, but he couldn't muster any power from his body as if no Divine Energy remained in his body.

Ultimately, he got dragged inside the coffin while shouting, "Old haaaaaagggg..." and the lid was closed again as the situation turned tranquil.

"You sure about that joke earlier?"

"Haha, young man, it's a joke, okay? It's a popular joke in the past, you know." Alaya shrugged while chuckling.

"I never knew that the past was actually joking about your life like this. It seems you all were crazier than me. And by the way, which era was the past you are talking about?" Raiju squinted his eyes, looking at Alaya with a prying look since she said she was the oldest God King.

"If we were not crazy, we wouldn't pursue the strength to the extreme and become that strong. And I won't tell you about it since even I feel a bit offended when people mention my age, you know. Bad boy."

Raiju smiled and closed his eyes for a second before opening it again while saying with a playful tone, "Old hag."

"I didn't need your help in this fight, you brat!"

[Chapter 1192 - Father And Daughter](#)

Among the retainers, only one person remained. It was none other than the Evil God.

Lin Xingzhi looked at him with a frown.

The Evil God obviously knew who Lin Xingzhi was. He laughed and shouted, "Haha. To think I can kill both father and daughter, it seems I'm pretty lucky eh?"

Lin Xingzhi remained calm and retorted. "No, It just means the daughter can avenge the grievance of her father. That's all."

"Avenge your father? That is impossible. You're not as strong as your father nor the Dungeon God."

"Yeah, but you also don't come together with the others to gang up on two people. Alone... You're just a pathetic bat that can't even become a true God King." Lin Xingzhi shook her head and sighed, "Now, I need to handle you first before ending this deep grievance."

"You talk big!" The Evil God shouted and glared at Lin Xingzhi, saying, "You're evil. Haha, even the Spirit God is evil. Every person borns evil because if evil doesn't exist, you don't know what is good. That's why my existence is evitable."

Lin Xingzhi simply raised her hand and summoned a Lightning Disturbance above his head before a bolt of lightning struck forth, hitting him right on his head. However, the latter managed to lower his position and used his hand to take the lightning on before dispersing it.

"You!" The Evil God gritted his teeth.

"You're evil and I'm Nature. No matter if you're inevitable or not, your Evil Law still comes from this Universe. That's why I'm wondering whether your Evil Law can withstand Nature?" Lin Xingzhi snorted and said, "And you talked too much. It seems my father shut your mouth by stopping the time of your mouth when he fought you."

"!!!" The Evil God gritted his teeth and charged at him, covering his fist with a grey-colored aura.

Lin Xingzhi summoned the Space Disturbance in front of her and blocked the Evil God's fist.

Boom.

A huge explosion resounded on the entire battlefield before the barrier began to crack because it couldn't contain the power of evil.

"This is the difference between you and me." The Evil God smirked and blasted through the obstacles, making his way toward Lin Xingzhi.

Lin Xingzhi flew backward while waving both hands, summoning two Element Disturbance at the same time.

On her right was a Lightning Disturbance, sparking some lightning that would hit him if he were to go too close. On her left was a Wind Disturbance that somehow approached the Lightning Disturbance to absorb the Lightning Element, turning into a spherical barrier covered with lightning.

The Evil God narrowed his eyes and planned to go around it, but after all the things he said earlier, he decided to confront it head-on.

He raised his fist again and struck the wind barrier, trying to destroy it like the Space Element Disturbance.

However, the wind caused another reaction, blowing all the Evil Energy in his hand as the Lightning sparked, trying to pierce his hand.

The Evil God furrowed his eyebrows and took one step backward to avoid retaliation from the barrier and Lin Xingzhi.

He looked at his fist and noticed his skin was missing due to the lightning as blood flowed out quickly. He gritted his teeth and glared at Lin Xingzhi.

The moment their eyes intertwined, Lin Xingzhi made a playful smile, mocking him, "Come on, I'm waiting to see your power. Unfortunately, it seems I'm not the one unqualified to fight you. It's the other way around."

The Evil God gritted his teeth. The fact that they couldn't practice for another fifty years because of Alex's super growth indeed hurt them a bit because they should be able to reach the same height as their former self. But if they indeed went that route, their king would've died since the Spirit God had stepped beyond the God King Realm.

Still, he couldn't really complain he didn't have anything since it was no one's fault. He simply gritted his teeth and raised his hand, planning to do another thing.

Even Lin Xingzhi didn't know about this. She simply waved her hands and summoned two more Element Disturbances. The first was a Water Disturbance while the other one was a Dark Disturbance.

She combined both of them together, creating poisonous water that also contained a curse. She controlled them and swallowed the Evil God or that was the plan.

The Evil God seemed to have understood what was going on and gritted his teeth. Seeing the current attack, he raised both hands and waved it down, creating a barrier formed by his grey-colored energy.

He could see how the poisonous water destroyed his barrier, especially the curse. Luckily, he managed to get away on time, not wanting to touch it at all.

However, Lin Xingzhi already predicted it and turned the entire thing into a trap. She summoned four more Element Disturbance from four directions. They were Fire, Lightning, Wind, and Light Element Disturbances. The Fire and Wind joined together as they created a horrible fire tornado that was big enough to cover half of the Lower World. Meanwhile, the Lightning and Light Element formed a sparking white beam.

Lin Xingzhi, sadly, couldn't control them at the same time. She used the Fire Storm to stop his movement and didn't control it at all, letting it run wild.

When the Evil God decided to escape from his current predicament, Lin Xingzhi aimed right at him and released that sparkling white beam toward him.

"Light and Lightning Union. Sparking Beam Blast."

The Evil God gritted his teeth and released another barrier that tried to stop the attack for one or two seconds.

"Evil Shield."

At the same time, the Evil God raised his hands before grey-colored energy appeared next to Lin Xingzhi.

Due to her controlling the union, she needed to get a bit closer to them, so she ended up getting near the Evil God's last position.

It turned out the Evil God left his energy only to be used at a time like this.

The grey-colored energy glowed and formed a ball. It then released so many spikes that were about to pierce her body.

"Not good!" She tried to summon her Divine Energy to block the attacks, but grey-colored energy suddenly came out of her body without her realizing it. "This... This energy!"

Lin Xingzhi suddenly lost her control over her own energy before her body got stabbed by multiple spikes.

"Gah!" Blood flowed down the spikes. She endured the pain and quickly stepped back, trying to assess her situation. She glared at the Evil God and realized what he had done.

The Evil God only laughed and said, "Everyone's born evil. That's why those so-called good people exist. They manage to suppress this 'evil' in their heart. However, I can see the evil in your heart and utilize it.

"The reason your father could defeat me was due to him stopping the time of that 'evil' in his body. If not, I could win." The Evil God snorted. "And you... You're not even close to your father. There's no way you can win against me."

"Haha..." Lin Xingzhi suddenly chuckled when she heard those words. A certain scene flashed in her mind. It was the last meeting with her father inside that special treasury that was locked in time.

A few years ago.

After talking with Alex about the benefits, her father returned to her side and handed her something. It was a Space Ring.

"Inside this ring is the suit that I've specifically made for my wife in the past. It carries my Time Power and I think it will suit you perfectly."

Lin Xingzhi was confused because it was a kind of memento to her and her father. Her father had even mentioned it when she grew up in the past. It was one of the most important things he wanted to have when he died.

Yet, he gave it to her. At first, she thought it was just him wanting her to keep it, so the memory went on. But when she considered the reason why he didn't give it to her directly and put it inside the Space Ring, she realized her father felt hurt by giving this to her. There was always a boundary even though they were father and daughter. Lin Xingzhi had it too, especially when it came down to Alex. They both respected each other and gave them space.

That was why giving her these clothes must be hard for him. There might be a special meaning to it. She only accepted it without saying anything to him to avoid reminding him about the past or the sadness.

"Thank you, Father." Lin Xingzhi made a gentle smile.

The Time God only closed his eyes before hugging her, saying, "Please take care of it."

"Yes. I love you, Father."

"I love you too, daughter. All I wish is for you not to be like me or your mother. We wish you could have a blissful life with an end of the journey is nothing but old age." The Time God held her tightly, expressing his love to her.

He remembered his wife died because of an illness and weak body after giving birth to Lin Xingzhi. Despite experiencing the pain, he never looked at any other woman and tried to become the best father she could ever get.

Unfortunately, he couldn't watch her grow up because he ended up dying after killing four God Kings together with the Dungeon God. That was why his only wish was for Lin Xingzhi to pass away due to old age. This also meant that Lin Xingzhi had filled her life with all the memories and lived to the fullest.

This was just the unconditional love from a father to his daughter.

While she remembered that scene, the Evil God decided to kill her right now due to her confusion. He flew toward Lin Xingzhi.

Before he arrived, Lin Xingzhi took out a Space Ring, floating in the emptiness. She grabbed it and channeled the Divine Energy into it and took out a one-piece dress.

Just like how someone could take out something from the space ring above their hand, in front of them, or even on top of their head, Lin Xingzhi basically took it out and put it on at the same time, overlapping her current dress.

No matter how weird the appearance was, Lin Xingzhi was happy. She could feel her father's Time Element inside the dress and remembered the dress's purpose.

The dress itself had only one effect. He only wanted the dress to protect his wife from anything. That was why when his wife got injured, the dress would release the Time Element to freeze the body,

preventing the blood from coming out. This also meant she wouldn't feel anything about the wound, allowing her to keep fighting.

Lin Xingzhi smiled and muttered, "Thanks, Father."

She then summoned Lightning and Fire Disturbances at the same time and combined them into one.

The Evil God raised his hand and tried to manipulate the "evil" inside her body to make her lose control over the two Disturbances, but it was at that time he realized, he couldn't control it anymore as if it wasn't there.

"What? I can't control it?!"

Instead of releasing the combined Element Disturbances, Lin Xingzhi actually controlled it and coated her hands with this power. The combined Lightning and Fire became the gloves that would blast everything for her.

And due to the size, Lin Xingzhi even compressed the two Element Disturbances, meaning the power behind these gloves was beyond one's imagination.

"Lightning and Fire Union." Lin Xingzhi smirked and took one step forward, using that movement to gain more power from her lower half as she struck the Evil God with both palms.

Boom.

The shock quickly shook the universe before a huge fire burst out behind his back, covered with lightning.

"Great Blazing Shock."

"Gah!" Blood spurted out of his mouth as his consciousness went blank for a second.

[Chapter 1193 - Destroy A Lower World](#)

Boom.

The Evil God was launched and crashed to a Lower World, creating a huge crater on the planet. Lin Xingzhi simply looked with a small smile. "Nice."

The Evil God quickly leaped forward, facing her with a serious expression. "That suit... It's interfering with my power. You... No, that suits... holds the power of time. Artifact?"

Lin Xingzhi shrugged. "It's impossible to affect me again."

"Kh!" The Evil God gritted his teeth. He didn't know that the Time God was actually a Forging Master or else, how could he create so many things?

He created the Space and Time Seal that the Spirit God used to seal the beast five thousand years ago. Then, there was the Time Box that Alex used to save Alicia.

All the things he created had the power of time, including this dress. He must have seen the prediction, coming to the conclusion that this suit can help Lin Xingzhi win the war.

She smiled and thanked her father secretly while staring at the Evil God, asking with a playful tone to infuriate him. "Now, what can you do to me?"

The Evil God flinched and remembered what she used earlier. The technique was indeed something he had never seen before. Instead of releasing the power of the combined Element Disturbances, she covered her own body with that power to increase her power drastically.

That power was far more dangerous than he thought because he got a serious internal injury from that attack alone, making him think twice before making his next move.

Yes, this was Lin Xingzhi's answer to Alaya's advice a few years ago. She shouldn't fear her power and, in fact, lived in harmony with them. She didn't treat them like a tool that could hurt her body like grabbing a blade. Instead, she thought of them as a part of her body.

This was the essence of what she taught. Like how Alaya showed her that the Power of Life and Death could actually protect her and be embraced to the point it covered her whole hands, Lin Xingzhi imitated it to make her power could be used that way too.

He thought for a moment and knew that the suit was the Time God's artifact that could stop the time on her body, preventing the blood from coming out. At the same time, it sealed his way to control Lin Xingzhi's power.

Just like a few thousand years ago, he didn't manage to overcome the difference between their power. As much as he didn't want to admit it, Lin Xingzhi was indeed stronger than him with that new technique and suit.

All the bluff and strong words wouldn't affect her anymore. Even so, he couldn't retreat in this battle. He released all the grey-colored energy in his body and glared at her. "Since that is not working, I will be doing things in my own way."

His eyes glowed before he winked once, sending a powerful shock wave toward Lin Xingzhi.

The latter summoned Wind and Lightning Disturbances, combined them, and covered her hands with that power.

She then thrust her palm forward, releasing the Wind Tornado that neutralized the shock wave. The lightning then sparked and released its almighty power by becoming the front guy that charged straight at the Evil God.

The wind kept supplying energy and power behind the lightning as they arrived in front of the Evil God.

"!!!"

"Evil Aura! Battle Form." The Evil God waved his hand to the front and bent his knees. All the grey-colored energy then fused with each other, getting compressed into a small dragon head. He controlled that power and made it swallow the lightning and wind at the same time.

It took one big bite and the power disappeared. The Dragon looked satisfied as it burped, intentionally mocking Lin Xingzhi.

Since that wasn't worked out, Lin Xingzhi summoned another two Disturbances, Earth and Light. The Earth Element turned her hands giant while the light coated her palm. This looked like the Palm God with the help of the Holy God.

With both arms, she flew straight toward the Evil God and swiped both hands, trying to squeeze him to death.

The Evil God clicked his tongue and decided to tell Lin Xingzhi that killing him would mean she might die too in the process. Those words were said by his action when he went straight toward Lin Xingzhi, fully knowing that he would get hit too.

When he arrived in front of Lin Xingzhi, he punched her cheek, trying to blast that head away, but Lin Xingzhi simply remained calm and used that momentum to gain more distance with the Evil God.

As soon as she reached the necessary length to use her giant arms, she quickly clapped, hitting the Evil God from both sides as if he was a mosquito.

"Earth and Light Union, Purification."

"Gah!" The Evil God formed a gauntlet with his Evil Aura to stop the two hands and Lin Xingzhi ended up carrying him due to the momentum.

When she saw a planet nearby, she spun her body and threw the Evil God to the planet.

Bam.

The Evil God gritted his teeth and tried to stand up, but he soon saw Lin Xingzhi with a giant stone arm covered with fire punch him.

"Oh sh*t!" The Evil God cursed as he raised both hands trying to stop this attack again.

Lin Xingzhi snorted and used all her might to hit the Evil God.

"Fire and Earth Union, Blazing Rock."

Boom.

The fire caused an additional explosion, but the fist was more terrifying than anyone could think. Lin Xingzhi shattered the ground below them as rubbles flew out of the world, becoming space debris.

"Tch." Lin Xingzhi clicked her tongue and realized the world's state. "I can only destroy two-thirds of the Lower World. Pathetic."

The Evil God wanted to spurt blood when he accidentally heard her muttering. He simply couldn't accept it because he was the one getting crushed underneath it.

He tried to lift this hand up but to no avail, wondering how much power she used in this attack. However, since his vision was blocked, he couldn't see the huge fire tornado behind these big arms.

Although Lin Xingzhi couldn't control two more than two elements to wield them with her hands, she could still summon a pair and blast it to either her opponent or herself.

This time, she used the Wind and Fire Disturbance to create a tornado that allowed her to boost that power. That was why she managed to destroy two-thirds of a Lower Planet.

Even so, Lin Xingzhi kept complaining because she wasn't someone with extraordinary strength like the God of Strength or God of Destruction, so she was just feeling unsatisfied with this current result.

She gritted her teeth and leaped to the air, summoning another two disturbances, the Light and Dark Disturbances.

"Light and Dark Union, Ying Yang Judgment."

The Light and Dark Disturbances released both powers and had them rotated together as if they became one.

Boom.

"Gah!" The Evil God spat a mouthful of blood, getting the full energy from the explosion.

The Evil God just couldn't understand how Lin Xingzhi became this powerful and turned the situation around with just one suit. No, she might have prepared for this for a long time, especially the fact that she could wield the element disturbances with her own hands. That was why she became this powerful.

Although power-wise, she might not be the greatest, she had a combination of many elements that improved her overall strength. This was the biggest reason she managed to own the Evil God like he was just an ant.

If one were to ask the God of Destruction or Alaya about this power, they believed Lin Xingzhi might have grown strong enough to defeat both of them in one on one fight.

"I'm not going to die here!" The Evil God roared and released his power again. He used the almost destroyed world and absorbed its energy before turning them into Evil Energy. Just like how he treated Lin Xingzhi, he actually extracted the Evil Power of the World itself.

Lin Xingzhi widened her eyes and summoned Lightning and Fire Disturbances, combining them together. This was the most powerful combination she could use, so she flew forward to face this energy head-on.

The Evil God formed a giant hand to knock Lin Xingzhi out of this planet and regained his ground in this fight.

However, Lin Xingzhi struck the giant hand with both palms with the power of Lightning and Fire.

"Fire and Lightning Union. Great Blazing Shock."

Boom.

A shock wave shook the entire planet. There were no more clouds in the sky behind Lin Xingzhi due to the Evil God's power.

Her suit and dress got shredded a bit, but she kept her focus and used all her strength to push forward. At the same time, two Wind Disturbances appeared behind her and pushed her body and her hands, increasing the power output.

"Just die!" Lin Xingzhi shouted before she could feel something snap inside the arm as it bent in another direction, allowing her to push forward.

"Impossible!" The Evil God gritted his teeth, recalling what happened in his last fight a few thousand years ago. He regretted the fact that he still couldn't win even though he was fighting his daughter instead of the Time God. "Blood never lies, huh."

Lin Xingzhi already reached him and struck his body.

"Ha!"

The fire exploded and swallowed his body while the lightning shredded and burned his body until nothing remained. However, another huge shock wave shook the Universe as the almost destroyed world snapped into two.

Boom.

Lin Xingzhi managed to destroy a Lower World, but she wasn't satisfied. She only let out a long sigh while saying, "I couldn't destroy a Lower World in a single strike, huh. I still have a long way to go..."

After killing the Evil God, she suddenly turned around and found Raiju and Alaya coming to her place with a serious expression. "How are you two?"

"We're fine. We've just finished checking all the other battlefields."

"How are they?" Lin Xingzhi widened her eyes, feeling a bit surprised that these two were this fast.

"Well, all of them can't fight anymore. I do think the Palm God can, but he stays there to protect the other God Kings because of their injuries." Alaya answered.

"Is that so?" Lin Xingzhi looked down, contemplating for a moment.

"By the way, we both are fine. We can still fight another round. That's why we're visiting you, planning to ask you to go to Alex to watch his battle. If it's possible, I would like to help as well." Alaya smiled.

"I'm curious about the power beyond God King, so I'm tagging along." Raiju shrugged as this was his first intention.

Lin Xingzhi couldn't come to a decision, making them confused.

Alaya asked, "Is there something wrong with us visiting him and potentially helping him even from afar like shooting a certain technique toward the beast? I think that's fine, right?"

Lin Xingzhi shook her head. "I mean, that's the best option, but when I think about it, I just can't decide. I'm sure you know what kind of power both of them have in their first clash, right? And it's not their full power. We may be able to see them from afar to avoid any direct contact and release a certain attack to help him. But I don't know their real capabilities, so I can't judge."

Raiju closed his eyes and sighed, "Well, I understand your point, but I will tell the Spirit God that I'm ready to die if I'm in his way. No, I will personally kill myself before that happens. This fight is something that we can't lose, so to calm down my curiosity, I'm planning to lay my life down."

Alaya glanced at him and started thinking about the possibility. She sighed, "We can try to erase our trace for a few seconds just to see one or two exchanges to see whether it's a fight that we can help or not."

Lin Xingzhi contemplated for a moment and asked about the system.

[Chapter 1194 - Sun God Fire Disturbance](#)

The last fight was the peak fight between Alex and the Supreme Beast.

Alex simply raised his hand and asked, "What did you say again?"

The Supreme Beast gritted his teeth after seeing Alex destroying two Lower Worlds in one attack. And it wasn't even his strongest attack.

"You're the best, Spirit God." The Supreme Beast suddenly laughed. There was still confidence in his eyes as he had yet to think this battle was his loss. After all, the Supreme Beast hadn't released all of his power yet.

"I'm not." Alex shrugged and raised his Dragon and Phoenix Aura. His Spirit Crown was revolving crazily.

"Hahaha!" The Supreme Beast laughed again before charging toward him. The rainbow-colored energy appeared in his hands as a gauntlet.

Alex struck the gauntlet with all his might, but it was harder than his own Divine Weapon. He clicked his tongue and leaped back again, wondering what kind of option he had in this fight.

He then summoned a giant fox behind him and tried to swallow the beast.

"Fire Authority."

"This technique is indeed annoying. To think there is a fire that can suppress my Phoenix Fire, I'm impressed." The Supreme Beast laughed and released all of his energy other than his Fire Energy to create an explosion inside the fox's body.

Boom.

The shock wave traveled far away and the fox got itself a disfigured head. Instead of disappearing, Alex decided to pour a bit more power to recover it before the fox shrunk until it became part of his body.

Even the Supreme Beast felt the suppression for his Fire was insane. However, the Supreme Beast knew that the stronger Alex became, the more satisfying the fight would be. That was why he kept laughing every time Alex showed something new.

"This is good. How about this?!" The Supreme Beast appeared next to him while flapping his wings, creating waves after waves of rainbow-colored energy that seemed to be powerful enough to either blow him away or cut him down.

Alex narrowed his eyes and used his Teleportation Array to appear behind the beast.

"Triple Draws."

"One Inch Spear."

The Beast noticed Alex's presence and flapped his wings once again before covering his back with all four wings.

"!!!" Alex widened his eyes because the bat wings and angel wings stopped two strikes each while his hands stopped the last two.

After that, Alex saw an incoming tail and slightly raised his elbow to block that attack. Still, the blow was powerful enough to launch him to the right until he crashed into an asteroid. Unlike other God Kings, their power was beyond imagination to the point the asteroid went at a far faster speed compared to any other God Kings just because of the collision alone.

Alex used the asteroid as a stepping stone and launched himself back, blasting the asteroid even further. He then raised his hand and summoned five Arrays in succession.

"Five Executioner."

Five swords emerged from each array, totaling a full twenty five swords for Alex to use. He then waved his hand, so they started going toward the Supreme Beast to stop his movement.

The Supreme Beast, on the other hand, felt annoyed when Alex relied on this cheap trick. Even so, he still kept using all of his ability to fight against these swords as he knocked all of them away one minute later.

Right after he destroyed the last sword, Alex appeared on his side this time since the Supreme Beast's back was well protected by the wings.

"Triple Draws."

He used Triple Draws on both weapons, turning the two slashes into six. Yet, the Supreme Beast managed to keep up with him. He used one hand and two right wings to block the first three.

Before the other three struck him, he raised his foot which was larger than where Alex wanted to hit him and raised it, so it would come into their ways.

As he expected, the remaining three slashes hit the knee, leaving three small marks on the beast's knee.

The Beast then used his tail to counterattack, blowing him away, so Alex didn't get the advantage. However, Alex still raised his hand and summoned a Fire Lotus above his head.

"Divine Petals."

"Go!" Alex sent all those petals toward the Supreme Beast as all ten petals hit him simultaneously.

Boom.

The huge explosion blew Alex again, but all the smoke and fire soon disappeared when the Supreme Beast flapped his wing, sending a powerful wind that erased all things related to the explosion.

He roared as loud as possible. "That won't work!"

"Haha, I know."

When the Supreme Beast heard Alex's chuckle, he realized something was wrong and raised his vision, only to be shocked by what Alex planned to do next.

"Star God Divine Control." Alex summoned a Fire Disturbance before releasing his Sun God Fire toward the Fire Disturbances, trying to force them to live in harmony. "Sun God Fire."

Because of the difference between normal Fire and Sun God Fire as well as the fact Alex used Immortal Energy to fuel up his Sun God Fire, the Fire Disturbance just let his Sun God Fire entered its body, turning the Fire Disturbance into a Sun God Fire Disturbance.

"Ha!" Alex gritted his teeth and used all his focus to change the shape of the disturbance into that of a lotus. Yes, it was none other than the lotus of his Divine Petals. "This is the main course, Beast."

"Divine Petals."

The petals fell off the lotus and flew toward the Supreme Beast. The latter even cursed at him while gritting his teeth. "Sh*t! This is bad!"

Boom.

Once again, the Divine Petals, an even stronger one, hit the Supreme Beast's body from point-blank range.

Alex thought this kind of power should be enough to injure the Supreme Beast, but... No, he was wrong.

The Supreme Beast once again flapped his wings and blew everything away from him. Instead of an injured beast, the beast showed up just fine with rainbow-colored energy covering his whole body. In other words, the Supreme Beast just used his Gehenna Gauntlet but to his body.

"Seriously?!" Alex's eyebrows twitched before shaking his head. "No. I should say as expected of a beast of this caliber."

"Hahaha! I've finally succeeded in turning the rainbow-colored energy into a suit that would protect me. Again and again... I need to thank you, Spirit God. In the past, you let me understand more about this power and taught me how to fuse all my energy. Now, you've given me the opportunity to improve my own technique even further. As thanks, I'm going to let you become the first one to experience my power."

Suddenly, the beast disappeared as Alex widened his eyes, looking at his right. The beast had arrived next to him with speed far faster than he experienced the whole time. He hit Alex and blew him to another asteroid.

Bam.

Alex gritted his teeth and thought nothing of the pain since he had felt worse. When he was about to fight him again, Alex suddenly turned his head to the right.

The two finally made their appearances on this battlefield after a long time. Alex and the Supreme Beast obviously recognized them despite them trying to hide their presence.

"What is this? Are they going to interfere with our fight?" The Supreme Beast frowned and turned his head.

"Nope. Their appearance is just the mark of our victory. All your people have been killed by us, meaning you are only alone in this universe. Even if you managed to kill me, you wouldn't be able to do anything to this universe anymore." Alex chuckled and continued, "It's your loss, Beast."

"It's my loss?" The Supreme Beast laughed and roared, "Do you really think you can win against me, Spirit God? You're absolutely wrong. After killing you, I'm going to kill all of them, removing every single God King in this universe. After that, I will send my slaves to this place in the near future to take over the universe. I'm going to have all of you suffer."

"And that's why I can't let you leave this universe. Thankfully, your pride is stupid enough to keep you in this place and now it's impossible for you to leave unless you kill me." Alex smiled.

"Then, I want to know how the heck are you planning to kill me while protecting THEM?!" The Supreme Beast released another rainbow-colored energy toward Alaya and Raiju. "Gehenna Ray."

Lin Xingzhi didn't follow them because Alex told her not to participate because he couldn't afford to save her life in a battle like this. Although the past trauma she suffered after Alex died resurfaced, she still believed in Alex and chose to stay away from the battlefield. She could ask Rose about it anyway.

Meanwhile, Alaya and Raiju decided to come and ask Alex not to mind their lives if they happened to die because of it. Alex agreed with one additional condition.

Once he took a blow for them, they needed to leave immediately because they still hadn't used all their power yet.

After agreeing to his condition, Alaya and Raiju came here and saw their fight, only to find themselves strangled between life and death right after they arrived.

"Protect them, Spirit God!" The Supreme Beast laughed.

Alex suddenly appeared in front of those two with a serious expression. He raised his sword and released a Sword Wave from one swing.

"One Sword Kill. Blade of Extinction."

The Sword Wave flew for a split second until it arrived and clashed with the Gehenna Ray, splitting the powerful Gehenna Ray into two again.

Just like his Sword Wave, the Gehenna Ray carried the same amount of energy as his power, so the clash didn't end in a jiffy. Instead, the Gehenna Ray hit the two Lower Worlds behind them.

Alaya and Raiju dropped their jaws dumbfoundedly, staring at the big hole in both of the Lower Worlds in shock. The Gehenna Ray had clashed with Alex's power and split into two, yet, it still managed to destroy two Lower Worlds?

This question remained unanswered in their mind because it was just beyond belief even for them.

Alaya and Raiju realized that they were just ants in this fight and understood why Alex didn't want to involve them in this fight. In fact, the reason he wanted Lin Xingzhi not to get close to this place was to protect her from this kind of battle.

Meanwhile, Raiju and Alaya were not his family. He recognized them as allies and still protected them in time like this, but without guarantee.

Alaya took a deep breath, understanding what Alex implied by this one action. And it was enough for her to abandon this fight. She simply said, "We're not going to run away, okay?!"

Without wasting more time, she grabbed Raiju and quickly left the battlefield.

"Not run away? Hahahaha, and they're running away right now!" The Supreme Beast laughed.

Alex simply released his killing intent again and pointed his sword at the Supreme Beast, saying with a cold tone. "They're not running away from this war... And this also means they trust me that I can defeat you. So, just die already. You won't be missed."

[Chapter 1195 - Chaos Law And Energy](#)

Just like Alex said, the reason she said earlier was their trust that Alex would kill the Supreme Beast. They would wait together with all the other God Kings, praying so Alex would win.

The Supreme Beast gritted his teeth, never expecting Alex to create a disturbance of his already overwhelming Fire. Still, he should be able to fight him with this new power, so he thought no more.

With a smile on his face, Alex summoned another Fire Disturbance and integrated it with his Sun God Fire.

"Fire Authority!" Alex controlled the Sun God Fire Disturbance and turned it into a fox before shrinking into a tail and a pair of ears.

"You're too proud, Spirit God." The Supreme Beast snorted while feeling heavier pressure than what he felt this whole time due to Alex's Pure Fire. It turned out the Sun God Fire Disturbance improved the suppression as well.

"I'm not too proud. I just want to show you that I will win." Alex shook his head. "After taking another look at that energy, I believe your rainbow-colored energy will lose against mine."

"Star God Divine Control." He once again covered his sword and spear with Sun God Fire Disturbance to improve their firepower.

Alex waved his sword as a Sword Wave flew forth.

"One Sword Kill, Blade of Extinction."

The Supreme Beast gritted his teeth and grabbed the Sword Wave with both hands, trying to shred it. But the moment the energy disappeared, Alex, who was using it to cover his trail, appeared and thrust his spear.

"Twin Fusion Spear!"

The Supreme Beast widened his eyes and took the spear head-on before flapping his wings to stop something behind his back.

"Gah!" Although the spear didn't manage to pierce the protective armor, the Supreme Beast still felt the impact on his chest. At the same time, his angel wings were on fire before he used the Water Element to extinguish the fire.

"Sword Prison Array!" Alex didn't stop there and summoned another Array. A thousand swords emerged from the array, trying to seal the beast's movement.

But the Supreme Beast simply didn't do anything because the swords couldn't even penetrate the Gehenna Gauntlet that had been conjured all over his body.

Alex clicked his tongue before another Gehenna Ray came to him. He snapped his fingers and controlled the Space Element to turn two-third of the Gehenna Ray toward the Supreme Beast.

"Subjective Reality."

Even the Supreme Beast was surprised because Alex still gained enough control to do something like this. He slammed the Gehenna Ray, deflecting it to another planet below him.

Meanwhile, Alex waved his hand, creating a Black Hole and launching it toward the Gehenna Ray. The latter was already weak enough, so it got absorbed once it hit the Black Hole, turning the situation tranquil.

"..." The Supreme Beast frowned. Alex perfectly countered him in every single way, so he needed something new to break past his defense. Sadly, he needed to buy enough time for him to think first.

After contemplating his next move, the Supreme Beast charged forward.

Alex gladly invited him in and released his Space Energy when he reached his range. Everything turned upside down as he quickly tried to adapt to this environment while fighting Alex.

Obviously, the latter didn't let him do so without harassing him.

"Triple Draws."

"One Inch Spear."

The blade managed to cut the wings that tried to cover him as he continued for a few more seconds before realizing the Supreme Beast had adapted to the new environment.

"Tch. Why are you adapting so fast?"

"Foolish question. I have six bodies!"

When he was about to reply to him, a blue screen appeared in front of him.

[Master. Big Sister Xingzhi said everyone is together, waiting for you to end the battle.]

"Yeah, sure. Thank you." Alex smiled and took a deep breath to regain his focus. At the same time, he also planned to end this as quickly as possible.

They continued to clash with this new power to test the utmost limit of this power. After all, neither Alex nor the Supreme Beast understood the extent of their power after becoming a True Immortal. That was why they decided to take it a bit easy to understand his enemy and their power.

The result of this continuous clash was devastating. No, devastating might be an understatement. In their clash, they crushed all the asteroids in their surroundings until nothing remained. Alex cut more than ten Lower Worlds while half-destroyed a few Upper Worlds.

Not wanting to lose, the Supreme Beast also destroyed the same amount of planets, showing that he wasn't behind him.

They eventually moved to a Divine World where their clash destroyed the surface and gradually chipped the surface until a giant Divine World was reduced to a tenth of its original size.

Alex gained a deep understanding of how his Sun God Fire Disturbance worked and how much it improved his overall prowess. He thought this was already his luck because this power was indeed far more amazing than he thought.

The same applied to the Supreme Beast. He noticed something in his rainbow-colored energy after coating his body. He also began thinking about his next move and progress with this energy.

Suddenly, the Supreme Beast blew Alex away to get enough distance as his movement came to a halt.

"Since you've shown me everything, then it's time for me to show you my most powerful power that I've realized in our fight." The Supreme Beast laughed before re-releasing the rainbow-colored energy. However, this energy suddenly returned to its normal state, where they were only six different elements that the Supreme Beast possessed.

"I've realized this energy fusion is not the ideal one. Unfortunately for me, I only realized it recently when I reached the True Immortal Stage. I always thought that this was good enough for me because it let me kill you." The Supreme Beast smirked and shouted, "No! This is not enough!"

Alex clenched his teeth and narrowed his eyes. The moment a chance appeared, he would take it and kill the beast. The only reason he didn't charge at him right now was to see if this talk was just to trap him.

Suddenly, the six elements spun around, creating a small circle.

With his Spirit Eyes, he could see something more amazing than the average person. The world of energy that his Spirit Eyes saw showed him the Law within the energy.

If the Supreme Beast only used Law to cover his energy to break his own Law, this time, the Supreme Beast actually included them in his energy to the point he planned to fuse them together with the elements.

"Not good!" Alex realized that the Supreme Beast would just get even stronger from now on, so he quickly channeled everything into his sword. All the nine different energies in his body.

He then charged toward the Supreme Beast to stop him. "I won't let you succeed."

"Unfortunately, you're too careful. You always assess whether I'm lying or not to see if I have a hidden intention or not, giving me precious time to complete everything." The Supreme Beast smirked and raised his hands, fusing the elements and laws together.

The rainbow-colored energy suddenly changed into another form of energy. This energy was a combination between purple, black, dark blue, dark pink, and grey. He could even feel the earth-shattering aura within the energy.

"Hahahaha!" The Supreme Beast laughed before swallowing the energy with his mouth and swallowing it down. "Because I've six different bodies and six different elements. My body has adapted to the limit, allowing me to understand six different Laws!

"However, everything was messed up until now. The Laws couldn't be combined with the elements where it was supposed to happen, forcing me to take the incomplete True Immortal Body route.

"I can fix this in the future, but I need to win against you first. That's why I took the risk to fuse everything into one... One energy and one Law. I realized the thing that my elements, my body, and my Laws needed was not harmony.

"You might force your Law and Energy to go in harmony, but I utterly believe that even rivals are something that can make you stronger. The answer is not always friends and good, but also bad. That's why I am taking this different approach that no one can replicate.

"My energy is not combined energy anymore. Instead, all the energy causes a chain of reactions from one another, turning the entire energy chaotic. The same applies to the Laws. The Laws that had their own supremacy in their own terms needed to obey this one Law which... above them.

"Hereby, I inform you of this one thing. You are going to die with this new energy which I called Chaos Energy along with my Chaos Law! Hahaha, Spirit God! I wonder if your luck can still function under my Chaos Law!" The Supreme Beast laughed.

Alex gritted his teeth and released the most powerful strike he had.

"Nine Purities Slash."

The Supreme Beast didn't need to dodge it again because he had enough confidence he would be able to kill Alex with this new power.

He accumulated the new energy inside his mouth before releasing a breath.

"Chaos Breath."

The shock wave shook the universe and blew all the Lower Worlds and Upper Worlds away, making them leave the orbits. Everything was clear for them to fight, but this clash still continued.

The Chaos Law clashed directly with Alex's Law, trying to reign each other. The Law of Luck tried to escape all things with all the luck available to come out on top, but the Chaos Law turned the universe so chaotic that the luck became confused about where it was supposed to go when the entire field was filled with chaos.

Even so, there came another luck as the elements helped the Law to fight against the Chaos Law, so they ultimately fought on equal ground.

Meanwhile, the nine forms of energy from Alex started getting interrupted by this Chaos Energy. Alex's Sun God Fire tried to burn the Chaos Energy to prevent it from disrupting their harmony. The Space Element also helped the Fire and transferred it somewhere else.

Life and Death Energy surprisingly went separate ways as if they became two forms of energy. His Immortal Energy disintegrated. The Pure Blade Qi tried to cut all the Chaos Energy but ended up affecting the Absolute Blade Intent.

With the peak of the clash, an explosion occurred. But Alex could only grit his teeth while the Supreme Beast had a grin on his face.

Both of them already knew who the winner was.

The Chaos Breath broke Alex's Nine Purities Slash and flew straight at him. Although the Nine Purities Slash managed to deplete almost the entire energy, it still showed that the Beast was stronger.

"Is this still useless?" Alex furrowed his eyebrows and muttered, "Is this the only way?"

When he was about to think about such a useless thing, Eve's voice resounded in his ears.

"Master, there's still a way."

[Chapter 1196 - Altered Reality Array](#)

"Master, there's still a way."

When Eve's voice resounded in his head, he quickly furrowed his eyebrows and raised his sword to buy time. "Hmph. I can still see some flaws in your technique."

The Supreme Beast couldn't accept it and tried to rebuke all his claims.

Meanwhile, Eve continued talking to him.

"Master is underestimating a Weapon Spirit. We still have a part of our consciousness in every attack you made, including the earlier one. And I've noticed there is something weird in that Law of his. However, that's why we are here.

"For example, Master will surely not be affected by the Chaos Law. Taking that as an example, the same applies to us. That's why when Master attacks next time, I am going to use all my consciousness to use the Nature Energy from the Spirit Crown to mend the broken Life and Death Energy.

"Your Law and Fire Disturbance still hold on for the whole time, so we can focus on the other things. It's between your Qi and Intent. Elle!"

When she heard her name called, Elle replied with an agreement. "I will make sure the Qi and Intent will keep their harmony. Elliot. You need to keep supplying the Immortal Energy to the Elements to fight against the Chaos Energy."

"I understand. Leave it to me." Elliot agreed without hesitation.

In this instant, the reason why a Weapon Spirit was powerful but scarce. Their intelligence level was the best among any consciousness dwelled inside a weapon. It was a kind of having another hand in a battle. And he had three of them together." Alex couldn't help but smile, feeling that there was still a chance in this fight.

"My Soul will maintain everything and keep things organized. I believe with the full power of my Nine Purities Slash, we can at least get a draw in the next clash." Alex nodded as his face became serious.

"There is one more thing, Master."

"What is it?" Alex narrowed his eyes.

"I have seen you surpassing many things in your life, especially the Fire Element. Not only have you surpassed the Godly Pure Fire with your Sun God Fire, but you can also make a Disturbance out of it. However, have you forgotten the fact you have another element?"

"!!!" Alex instantly felt the heaviness of that question as he shuddered at the fact he never tried his best despite receiving the Space Element from the Dungeon God. In fact, he might think the power was already enough for him.

However, the Dungeon God, who left this power to him, must dislike how he treats the Space Element. He gritted his teeth and took a deep breath.

"I believe there is something that you can use to surpass the Dungeon God!" Eve added excitedly.

Alex also arrived at the same conclusion as he smiled and said, "It seems we have the same thought. I will see what I can. Thank you, Eve. Thank you, Elle, Elliot. Your help means everything in this battle."

"Master. With pleasure!" Eve, Elle, and Elliot replied at the same time.

Alex took a deep breath and released all his energy, pointing his blade toward the Supreme Beast. "I don't feel like losing today."

"We will see whether you can say it again later, Spirit God." The Supreme Beast roared and charged toward him.

Alex smirked and saw an incoming fist that was covered by Chaos Energy.

"Chaos Gauntlet!"

Alex took one deep breath to gather all his strength to one arm and thrust his spear as fast as possible to gain enough momentum to back up his strength.

"Twin Fusion Spear."

Bam.

Another shock wave shook the battlefield before the Supreme Beast noticed something different in Alex's weapon.

Alex Fire and Space Element hit him from two different directions, trying to hit his hand.

'Hmm?!' The Supreme Beast frowned and leaped back to assess what he felt. 'My Chaos Energy and Law didn't manage to destroy that attack? What happened? I managed to do it earlier... Did he realize something from that first attack? If he indeed adjusted everything to cope with my energy on the first try, then I needed to end this fight as soon as possible because he might find something to counter my energy sooner or later.'

Alex, on the other hand, felt satisfied when he saw everything unfolded like how he intended to. He checked it once again, "Eve, Elle, Elliot."

"We're fine, Master. There is no abnormality. But we need to kill him as soon as possible." Eve answered.

"Got it." Alex nodded and flew toward the Supreme Beast with all his nine forms of energy.

"Nine Purities Slash!" Alex once again tried to unleash his most powerful strike. Just like planned, the trio Weapon Spirits tried to do everything in their power to stop Chaos Energy from wreaking havoc on the integrity of Alex's attack.

The Supreme Beast accumulated all the energy again and created concentrated energy to show Alex that he was superior.

The breath turned into a concentrated black ball that flew at a fast speed toward the Nine Purities Slash.

"Chaos Bomb."

Even Alex widened his eyes because he didn't expect this development. He gritted his teeth and struck the black ball with all his might.

Just as expected, the Chaos Law tried to turn everything into disarray, but this time, Alex somehow managed to cope with it. Eve, Elle, and Elliot tried their best to keep everything in harmony, but the Black Ball power was far stronger than he expected to the point he didn't think his Nine Purities Slash would be able to win against it even with full power.

"Hahahaha! This is my real power. Bow before me, Spirit God!" The Supreme Beast laughed and said, "If only you come under me, I would give you the beast power from my original body, allowing you to become even stronger. You will be unstoppable."

Alex snorted and kept using the same power to cut it down, but he couldn't see the end of this black ball's power. "No! I still have the chance to kill you! I won't be joining the guy who is trying to harm my family."

"With your power?! That's enough! Die!" The Supreme Beast roared.

As if responding to the roar, the Black Ball suddenly disintegrated and created a huge explosion, swallowing Alex as a whole.

Suddenly, Alex emerged from within the smoke, flying toward a Divine World and crashing at that speed until he turned a tenth of the Divine World into a crater just from his momentum alone.

"Gah!" Alex spat a mouthful of blood. However, he still tried his best to stand up and looked at the Supreme Beast.

Jumping to outer space again, he glared at the Supreme Beast while pointing his blade. Compared to his last complexion, this one was worse. Blood flowed out of his eyes, mouth and nose while his body was covered with wounds.

"Hahaha! This is the difference between us." The Supreme Beast laughed.

"It's indeed the difference between us. I am not satisfied and celebrated when one of my attacks hits my enemy because it's the beginning of losing. That's why we're different and it's the right choice to not affiliate myself with you." Alex snorted and calmed his heart down.

"You! Keep talking big even though you know you are at a disadvantage. Fine, then try this again!"

"Chaos Breath!" The Supreme Beast didn't like the fact that Alex started talking big in his condition and released another breath since he couldn't immediately use the Chaos Bomb again to pay the price of a technique of that level. That attack just simply took a toll on his body too.

Seeing this, Alex smirked and raised his finger. An array appeared out of nowhere to the point the Supreme Beast couldn't even comprehend Alex's action.

"Do you think an Array can stop my attack, Spirit God? You're foolish enough to think that way!"

"Then, we will see." Alex smiled and completed the array.

The Chaos Breath suddenly struck the array. However, the Chaos Breath, surprisingly, disintegrated and turned into six different elements with their own Law.

"What?!" The Supreme Beast dropped his jaw and stared at his Chaos Breath's disappearance. "What did you do?! There is no way you can stop my Chaos Breath just like that."

Alex simply waved his sword to create enough power to direct the remaining elements in another direction.

The array he used earlier was neither a barrier array nor an offensive array. Instead, he used the most useless array in a fight of this level, the Illusion Array. And it wasn't an ordinary Illusion Array. It was the array that had been like his companion since the start of his journey, the Simulation Room Array.

However, the Simulation Room Array was just a mere Illusion that altered the world inside the array... That was if Alex didn't pull another string that completely broke the array's concept.

What Eve and Alex thought earlier was the participation of his Space Element, especially two techniques, Subjective Reality and Inverted Dimension.

Using the Inverted Dimension, he could turn the entire thing upside down. Alex took that concept to another level and replaced something inside that certain dimension. And the Subjective Reality made it possible.

In other words, Alex managed to create a dimension in his Illusion into Reality by combining the three concepts.

And in the Simulation Room's Reality, the concept of Immortal Energy never existed. In other words, the only energy that allowed the Supreme Beast to fuse the Elements and Laws disappeared, so everything returned to its normal form.

Alex smirked and said with a mocking tone. "Do you like my new array, Beast? I called it Altered Reality Array."

Of course, the concept had yet to be finalized because of the lack of time, making him unable to erase the attack entirely and so on. That was why he couldn't claim that this array was a Rank 10 Array. However, he could proudly claim that he managed to surpass the Dungeon God by creating his own "Reality" in this Reality.

"You!" The Supreme Beast gritted his teeth and roared. "Do you think you have won? I know that it takes so much of your mental energy just by using that technique! Do you think it's easy to create a Reality?"

Alex smiled and didn't answer him. It was like he said. He couldn't use this type of power continuously, let alone when he had yet to perfect it.

Even so, he should be able to do it one or two more times.

The Supreme Beast quickly flew toward Alex while covering his whole body with Chaos Energy.

"Why don't you erase this energy from me again?" The Supreme Beast laughed and sent a fist toward him.

Alex didn't say anything and smiled, releasing the second wave of his Immortal Energy. "Void Flower. Release!"

All the Immortal Energy stored inside the Void Flower flowed out as Alex's complexion returned to normal. He struck the fist and pushed him back before saying, "Let's start the next round, shall we?"

[Chapter 1197 - EX Purities Slash](#)

The Supreme Beast never expected that Alex could decipher his Chaos Breath in an instant. However, seeing the extent of the damage, he didn't believe that Alex could take on his powerful concentrated Chaos Bomb, so he quickly made it his trump card.

Alex then tried it once again, slashing his sword downwards, releasing a Sword Wave.

"One Sword Kill, Blade of Extinction."

The Supreme Beast snorted at him and tried to grab the Sword Wave with his hands, trying to rip it apart to show that no matter what trick he had, he wouldn't be able to fight against his Chaos Energy.

Unfortunately for him, he couldn't be more wrong in this.

"This is my power!" The Supreme Beast shouted and grabbed the Sword Wave. However, it became his doom because the moment he touched the Sword Wave, an array that Alex had prepared appeared. It was none other than his Altered Reality Array.

By also using his Law, Alex gathered all the Immortal Energy and Fire Element to the very limit.

"If I can remove the information about Immortal Energy, I can add it as well, replicating it to a certain extent. And I'm pretty lucky that everything is set up beautifully." Alex smirked.

"!!!" The Supreme Beast realized he had fallen into his trap. He looked at the Sword Wave that suddenly shone brightly and...

Boom.

The Supreme Beast needed to cover his entire body with Chaos Energy, but he was still too late because several parts of his body had turned black due to the scorching fire.

The Supreme Beast blew all the smoke away and attacked the Spirit God to prevent any more ranged attack.

Alex wasn't afraid of him and clashed with him for another few minutes, destroying everything in their way. It was a fierce fight that no one could replicate even if there were ten God Kings in this place.

He kept the Supreme Beast occupied while searching for an opportunity. When that chance appeared, Alex summoned a Sun God Fire Disturbance before using his Altered Reality Array, Subjective Reality, and Space Compression at the same time. The combined power quickly trapped the Disturbance inside a sphere, where it got compressed to a head-size sphere.

The sphere suddenly released the flame energy and formed a lotus. This was none other than his Divine Petals, but Alex didn't want to stop it there. He didn't set those petals free. Instead, he kept them inside the lotus and launched the lotus toward the Supreme Beast.

This lotus became even more dangerous because it was the same as a suicide bomber, holding all the bombs he had around his stomach and coming to one person instead of grabbing each bomb and throwing it to his targets.

The Supreme Beast simply couldn't believe that someone managed to compress a Disturbance as he had never seen it before.

"Chaos Body Armor!" The Supreme Beast gritted his teeth and covered his body with Chaos Energy to protect his life. His wings obviously covered the front to take the full brunt.

Alex cared no more and struck the Supreme Beast with this power.

"Divine Petals (Compressed Version)."

Boom.

"Guah!"

A huge explosion like none other brightened the universe as if a supernova occurred. But what made it please the ears was the fact that this explosion was followed by the Supreme Beast's scream.

Even though it was hard to hear his voice because of the explosion, Alex was pretty happy with it because he thought the Supreme Beast would be heavily injured by this attack. Of course, he was exhausted as well because it took a lot of mental energy.

When the explosion dimmed down a bit, the Supreme Beast waved his hand and blew away all the smoke, leaving only him standing in the middle of the explosion. His body was scorched black while his wings had disappeared due to the explosion.

"You Bastard! It's impossible to kill me with such an attack!" The Supreme Beast roared and gathered the energy in his mouth. "Chaos Breath."

Alex let go of his spear because he felt that his head was in pain. It truly took a whole level of mental power. Even so, he still used it once more to create another opportunity, wanting to end it before he fell unconscious.

"Altered Reality."

The Array turned the Chaos Breath back to multiple colored breaths before Alex finally found a path to victory.

He then remembered one scene in his mind... The scene where the Spirit God talked to him one last time after reaching the True Immortal Stage flashed in his mind.

At that time, the Spirit God came to him with a smile. "You're good right now and have officially surpassed me in terms of cultivation. Congratulations."

"You have set up everything for me... I don't dare to take the full achievement." Alex shook his head.

"Haha, you should." The Spirit God chuckled before changing the topic with a question. "Anyway, do you think you're able to kill... No, I should ask a different question..."

The Spirit God looked down, falling into deep thought. Even Alex became curious about his thought, but since he said about killing, he must want to mention whether he could kill the beast or not.

When he was about to answer his question, the Spirit God cut in and asked, "Do you think your most powerful attack has reached the peak power?"

"What do you mean?" Alex narrowed his eyes, recalling his Nine Purities Slash. At that time, he thought he should be able to kill that beast with the Nine Purities Slash based on what had happened in their previous fight.

Then, a memory where the Spirit God died due to the beast improving himself in the middle of the fight flashed in his mind. If the beast indeed evolved with the power he had in their previous fight, Alex had no problem killing the beast.

But the outcome changed drastically when he entered another variable. If the Supreme Beast actually evolved once again, he would lose and leave everyone behind this time because he didn't set up any inheritance and such.

He started pondering Spirit God's question seriously before arriving at the same conclusion as his prediction. The answer was no.

Seeing the look on Alex's face, the Spirit God smiled and said, "There is something you can do to improve it even further."

"Hmm?!" Alex narrowed his eyes and asked, "How? I mean, I have put all kinds of energy into this attack. It's not like any outside will improve the power output any further."

"Your Purities Slash is indeed stronger than any of my attacks. However, there is something you haven't put there."

Alex narrowed his eyes as he couldn't see what kind of thing he hadn't put in there.

The Spirit God only gave him one hint. "You must have seen how I died, right?"

Alex nodded and started recalling that scene. The Spirit God actually died after using the Space and Time Seal to trap the beast, but the Spirit God itself should have done it from the start. After all, they could trap the beast and become even stronger when the beast made its second appearance.

Yet, there was one thing that the Spirit God sacrificed in order to power up the seal to be strong enough to hold the beast, which became the sole reason why they didn't use the seal as quickly as possible.

What the Spirit God sacrificed was none other than his life. Alex's face became twisted as he wondered if the Spirit God wanted him to sacrifice his life again, contradicting all the talks they had earlier.

It was at this time, he remembered the Spirit God had set everything to fight the beast. And there was one key that had yet to be utilized. This key was none other than Alaya.

It was true that Alaya gave him the power of Life and Death, but it came from Alaya herself, not the Spirit God's intention. That was why there must be a reason why Alaya actually stayed alive until now.

In a few seconds, Alex dropped his jaw and stared at the Spirit God. "Don't tell me..."

The Spirit God only patted his shoulders a few times with a smile as he closed his eyes. He said, "There are two reasons why I dare to give this option to you. First, becoming a True Immortal means you will live longer than any other normal God Kings, or you can say False Immortals.

"Second, this is maybe the only trump card that is strong enough to kill the beast. Of course, I hope such a thing is not needed, but I am not sure myself. The one who can answer that question is you and I won't say anything about your decision. I will leave everything on your shoulders... Alexander Sirius, I believe in you and me."

Alex gritted his teeth and returned with a serious expression.

When he remembered this discussion in his head, Alex looked at the Supreme Beast, who was completely stopped by his Altered Reality Array. This was the only chance. The Supreme Beast had almost exhausted all his strength and lowered his guard for once due to desperation.

'There is one thing I've forgotten from Alaya's power. It's the Life and Death Coffin. The Coffin will always present one's lifespan, meaning that the Life and Death must have carried that power where it was calculated by the Life and Death Coffin to project the exact number.

'And it also means I can use my Life and Death Energy to transfer my own lifespan to my own technique.' Alex's eyes glowed as the Life and Death Jewels in his Spirit Crown glowed. Just like how the Spirit God hinted, Alex sent his lifespan into his own sword, gambling everything in this one strike.

The Supreme Beast got the feeling of the strength behind that energy as he remembered what happened to him last time. "You... Don't tell me you want to..."

Alex already made his way toward the Supreme Beast carrying all the ten forms of energy: Elements, Immortal Energy, Absolute Blade Intent, Pure Blade Qi, Soul, Life and Death Energy, Nature Energy from the Spirit Crown, his Sun God Fire Disturbance, Law, and more importantly, half of his lifespan.

He sacrificed half of his life to summon powerful energy that defied Heaven as the Universe calculated the power he had in that half lifespan and reinforced that attack.

"This is the end, Beast." Alex snorted and slashed his sword with all his might.

The Supreme Beast also had gathered the remaining energy and turned them into a concentrated energy bomb. He shot the Energy Bomb toward him so he could have time to escape.

"Chaos Bomb."

However, Alex didn't buy it and struck the Energy Bomb with his power, pushing it back until he reached the Supreme Beast.

Before he could escape, Alex released the remaining energy and completed his swing.

"EX Purities Slash."

[Chapter 1198 - Victory](#)

"EX Purities Slash."

"No!" The Supreme Beast widened his eyes because all he could see was Alex's splitting the concentrated energy bomb in an instant as he struck his body with all the energy on his sword.

"This is the end... The grudge of five thousand years ends here." Alex shouted and cut the body into two as the residual energy traveled past the Supreme Beast.

That power was so strong that everything was cut into two, including an Upper World that stood in its way before stopping due to a Divine World. Even so, it managed to cut a third of a Divine World.

In other words, Alex just set another record in this world as he was the first person who managed to cut one Upper World and a third Divine World right after that. If they compared the size alone, Alex would have cut two Upper Worlds or a hundred Lower Worlds in that one strike. It just showed how powerful the residual power was.

Meanwhile, the Supreme Beast still couldn't believe that he was the one losing. He glared at Alex, unwilling to die.

However, Alex only gazed at him coldly before using his fire to burn him.

"You're strong... Orthus." Alex called his name for the first time instead of using "Beast" like how he used it during the entire fight.

It was at this time, the Supreme Beast gradually closed his eyes. There was a trace of remorse, unwillingness, and many things, but the Supreme Beast still left one piece of advice to him. "There are many universes out there and there is a chance they will come here."

Alex shook his head. "Let them come. I am the one who is going to repel them. But this time... I won't remember their name."

The Supreme Beast smiled. At the very least, there was one person who would still remember his name after he died. "This was a good fight. I don't regr—"

Before he finished, the Supreme Beast's body had vanished after being burned by Alex's Sun God Fire.

Seeing everything had finished, all the adrenaline that kept him going this whole time finally disappeared as he lost his grip and wanted to pass out.

But Eve quickly used the energy from the sword to move to Alex's back, supporting him.

"Thanks, Eve. Elle and Elliot too. Without your help, I won't be able to beat the beast." Alex smiled.

"It's our pleasure, Master." The three Weapon Spirits replied at the same time.

[Master! Don't die.]

Rose suddenly gave him a message as if he was too exhausted to the point he would die.

"Why do you want your Master to die?" Alex sighed with a smile.

[No, no. You need to give a bit of your inheritance to me first.]

"You little girl, it seems you want a spanking? No, I will think of a better way to punish you... From Jeanne of course."

[Ehm, Master. Someone just hacked the system and said everything.]

"You're not getting away. I will do it after I return. Prepare yourself."

[No!]

"No use to run away. You won't be able to escape from me. I can also mobilize the N Squad." Alex chuckled since Rose's joke calmed his heart down.

[This... I have told Big Sister about your victory... Can you just forgive me for this?]

"I will consider it."

[No, no. Don't play word with your disciple here. Don't say you will consider it... You need to answer with yes or no.]

Alex only laughed it off before sensing their presence. He turned around and found Lin Xingzhi and all the God Kings came to him. Most of them had recovered from all the physical injuries, but they still looked worse.

They carefully entered the battlefield and saw how terrible it was. They could somehow imagine what kind of battle this place needed to endure.

So many worlds were destroyed. But the most important thing was the Upper World that was cut cleanly in one slash. All the God Kings immediately concluded that the only one who could create such a mark was none other than Alex. That was why they were even more shocked by Alex's strength.

Alex, on the other hand, sealed his strength to avoid the Universe Detection and looked at them with a serious expression.

He suddenly laughed evilly and shouted, "You all have finally come! This body is indeed very powerful. To think there is a human in this universe that can cultivate a body to this extent within one hundred years... I'm impressed."

Lin Xingzhi and the others were stunned and raised their weapons, thinking the Beast managed to get Alex's body. However, Alex couldn't hold his laughter anymore. "Hahaha. I always wanted to do that... Forgive me."

Lin Xingzhi and Anna suddenly appeared when Rose clarified that Alex was fine since nothing was hidden from the system. They both just hugged him tightly in tears, feeling relieved and angry at the same time.

"You!"

"That joke is not funny."

"Ahaha, it's better than Rose's inheritance joke." Alex laughed.

Lin Xingzhi stopped and checked his internal energy to see if he was alright or not. Anna, on the other hand, signaled the Holy God to check his body since he had healing power.

"Are you alright?" Lin Xingzhi asked and had him swallow a healing pill that would recover all physical injuries.

"I'm fine... Just a bit exhausted. There are some internal injuries, but nothing will last forever. I will be fine after some rest." Alex nodded, assuring that he was fine.

"Still, we should ask Silvia about your condition just to be sure." Lin Xingzhi sighed.

"Yeah." Alex smiled. His heart felt tranquil since he knew all the God Kings managed to survive this ordeal.

"Ah, by the way, Marcus seems to want to search for the Goddess of Destiny after falling in love with her in this battle. And he is only going to do it a thousand years from now on." Lin Xingzhi added with a playful tone.

Marcus, the God of Wrath, shuddered and looked at Lin Xingzhi dumbfoundedly, never expecting her to open the matter up with Alex.

Alex smiled and nodded. "You should go right away, Marcus. You can find her first before anything else since it's the most important thing. Whether you want to bring her with you or not, it will be up to you. But no matter what, I believe it's good to find her first. That's my only advice since I'm also a reincarnated person."

"This..." Marcus looked down, feeling embarrassed. He suddenly bowed to Alex and clasped his hand politely. "Thank you, Master."

Alex then looked at the others and asked, "How are all of you?"

The first one who answered his question was Rubia. She quickly tried to get closer to him while saying, "Ahem, since we've won the battle, it's time for you to fulfill your side of the agreement."

"Agreement?" Lin Xingzhi tilted her head.

"My place is going to be his vassal state and I'm going to be his tenth wife." The Magic Goddess smirked, puffing her chest as if she was proud of this claim.

"Except the second one... I've never heard of it until now." Alex corrected her.

"Wait, wait! The second one is more important!" Rubia protested, but Alex only gave her a shrug. "Then, let's cancel it immediately since I've never agreed to it. What I said back then was, 'I will consider it after the war,' so I'm not obligated to accept you."

"Wait, wait! I'm going to correct myself here. The second one is not important!" Rubia tried to explain to Alex. "I will just become a maid in your place."

"And your real intention?" Alex rolled his eyes.

"Everything can start by using a naked apron! Magical Maid with a naked apron... A perfect combination." Rubia nodded repeatedly.

"Okay, goodbye. See you in another few thousand years!" Alex sent her somewhere with his Teleportation Array.

"Wai—" And she was gone.

The others laughed. The next one who answered him was Alaya. "I'm good with my retirement. Just going to live my life to the fullest on your planet."

"That's fine by me. It's not like you're going to cause a problem anyway." Alex agreed without hesitation.

Jeanne sighed while looking at the aftermath. "Haiz... If only I can torture one God King, I would be settled for the rest of my life..."

"By the way, I want to ask you to punish Rose for me. Of course, my style, not your style." Alex smirked.

"Really?" Jeanne's eyes brightened.

[NO!]

There was a huge rejection from Rose, but both of them ignored it.

Leoz only nodded his head since his life was Alex's, so he didn't need to say anything.

Meanwhile, Alex used this chance to tease the God of Destruction. "I haven't managed to fulfill our agreement. How about we have a spar now?"

"Are you planning to bully me?" Raiju's expression was twisted as he wanted to beat Alex, but knew it was impossible. He only sighed, "Anyway, I just want to thank you for letting me know there is a sky beyond the sky. I think I have found my new destination... I want to reach the next level with my own power and go to another universe."

"Well, I may do that in the future, so we may be able to meet again." Alex nodded. "But I'm just going to live with my family for as long as I want for the time being..."

"Then, then, I can be another family member!" Rinrin, the Song Goddess, suddenly interjected, pointing her finger at herself. "You have seen me naked so many times and we have even taken a bath together."

"That's when you were in the orphanage. And I wasn't the same Spirit God." Alex shrugged.

"Wait, why are you all talking about his wives? It's obviously going to be my daughter... I'm demanding a marriage!" The Palm God pouted.

"Yeah, yeah. I'm planning to do that. Although it won't be as big as you expect..." Alex shrugged and added, "By the way, it will depend on Silvia whether to invite you or not."

"What?!" The Palm God widened his eyes in shock as if he didn't expect him to not invite him to the wedding.

Alex rolled his eyes and looked at the Holy God.

"I'm just going to go around this universe... The alliance happened because of me, so I would like to repent my sin by helping many people. Please don't stop me... I've decided..." The Holy God sighed with a small smile on his face.

"I'm not going to say anything. I will respect your decision. If you need help, just tell me." Alex nodded.

"Yeah." The Holy God nodded.

The God of Strength looked at Alex and asked, "How do you become this strong?"

"The secret?" Alex smirked, "Well, I will see whether I can disclose the way to reach this stage or not. I will inform you about it as thanks for your help."

"Well, I will be satisfied to know since I don't feel like I want to go to another universe to start all over again." The God of Strength sighed in defeat.

Meanwhile, the God of Greed looked at Alex and took out so many papers. "By the way, I have business proposals here. There are so many—"

Alex chuckled since he had heard about the God of Greed, who was a business maniac. He only said, "You can visit Eulja to talk with my Eulja's business manager. But I'm not planning to actively spread my influence, so you don't need to worry about me invading people. I can reach this stage because I have a constant challenge and I don't plan to rule this universe since the so-called challenges will disappear and the universe will only start declining from that point on."

"Still... This war has finally ended..." He then looked up and closed his eyes, wanting to settle everything in his mind. After five minutes, he smiled and opened his mouth. "Let's go home."

[Chapter 1199 - Ten Years \(END\)](#)

Time flew quietly by. Ten years passed in the blink of an eye.

During those ten years, there were many movements in the Universe.

Marcus had started searching for the Goddess of Destiny's reincarnation. Alex had offered some help to him, but Marcus didn't want to rely on him in his love affair, in which he respected his decision. In the end, he created a small influence under Alex's jurisdiction and helped him to find her.

Just like how hard Lin Xingzhi and the others searched for Alex, Marcus was still wandering around the Universe. As a caring boss, Alex already told Marcus to do whatever he wanted and didn't need to come back, but Marcus kept returning every five years to let him know his condition. He was still a responsible guy despite his mission.

Meanwhile, the God of Destruction had begun his training, trying to find a way to reach the next level. Alex had yet to offer him the tips to reach the next level, so he was stuck in God King Stage for a while.

The same person also asked Alex not to give him any hints unless he asked for it because he wanted to try to do it without his help. Besides, the fact that Alex had already shown what kind of power he wielded in the fight already told him a little about it.

For Raiju, discovering something new in cultivation was a romance, so Alex stopped mentioning it.

The God of Strength seemed to create a relationship with Raiju since they planned to reach the next stage together. They wanted to decipher it together, so the God of Strength often visited him and practiced together.

The Holy God also stepped down and let his daughter run the management. Of course, he still offered the protection to make sure everything was alright, but he himself often went out to explore the Universe, trying to help those who were in need.

The Palm God had been asking for marriage. And it had come into fruition a year after the war. But he ended up coming to the wedding with his hands, feet, and mouth tied up by none other than his wife to avoid causing any problem.

After missing for five thousand years, Leoz decided to reopen the orphanage that Alex created in the past and wanted to be someone who could bring good influence to people like how Alex saved him and turned him into a proper spirit.

Jeanne often visited the orphanage to help, which Alaya agreed upon. Yes, the head of the orphanage was none other than Alaya. At first, she just wanted to try it, but after a year or two, she fell in love with the job and took care of the kids.

...

Eulja's Castle.

Alex was sleeping after feeling exhausted before two kids, one male and one female, fell on top of him.

"Gah!" Alex quickly opened his eyes and looked at the black-haired boy with a pair of black butterfly wings behind him. Behind him was another black-haired human girl. She pouted and said, "I woke Dad up!"

"No, no. It's me this time. I won!" The boy made a smug smile.

The girl shouted at Alex. "Dad! Who is the winner?"

Alex only chuckled and gently got up, patting their heads. "Both of you hit me at the same time...So, neither of you wins."

The girl looked away, pouting. "Tch. Ten wins, ten loses, and thirty draws I guess."

"You're lucky today." The boy smirked.

"I love both of you, Lucas, Isabel." Alex smiled. Yes, Lucas was his and Anna's kid while Isabel was Evelyn's. Because of their same hair color, both of them always competed with each other. At the same time, the two would always get defensive if the others mocked either of them since they respected each other as rivals.

Alex then carried them on his shoulders and walked to the garden. "Let's go meet everyone then!"

The two just held on as they arrived at the garden in an instant since Alex used his Teleportation Array.

Suddenly, two kids also tried to hug him as soon as they felt his presence.

"You're open!"

Sherry was blessed with twins who seemed to be very competitive with Alex for some reason. They always tried to attack him every time they had a chance, saying they wanted to surpass their father.

Obviously, the two on his shoulders jumped and pinned them down on the ground. "Gotcha! We're Dad's bodyguards!"

"Mu!" The white-haired boy pouted and looked at his little sister. "We've lost again. We need to come up with another strategy!"

"Remember this, Lucas, Isabel, we will win next time!" The pink-haired little sister announced.

"It's still ten loses and nine wins. We still need to catch up!" Lucas looked away.

"Haha, don't get too violent, okay?" Alex patted the twins. "Still, good morning, Samuel, Sofia."

"Good morning, Papa!" The twins offered their best smile and replied to him.

Suddenly, Sherry appeared before them while staring at the twins. "You two... You should greet him first instead of attacking him!"

"What?! Mama is here! We need reinforcement!" The twins suddenly formed an alliance with Lucas and Isabel to take down Sherry.

Seeing this, Sherry did the usual thing as she faced them while saying with a smile. "Come, come. Let me see if you have improved or not!"

After turning around, he found Rose teaching a gold-haired young boy how to use a bow. He was not her son, but Alex and Alicia's. Still, it didn't stop her from teaching him bow technique since the latter adored her bow style since she could help so many people while staying on the back.

"Rose, Mark, you're practicing this early?" Alex called them from afar to which the latter only looked at him for a moment to tell they were good and continued practicing.

"Morning? It's almost noon, Alex." Alicia answered as she approached Alex with Firia and Letizia. Both Firia and Letizia carried a child they had with Alex... Just say... Alex had worked hard during the past few years since he didn't want to play favorites and made the others jealous for not having one with him. Alex also asked Letizia to stop calling him Master and started calling him husband for their kids, to which she agreed.

These two were the last, but all in all, they felt blessed.

Alex smiled and kissed them before giving a peck on the two children's foreheads. "Don't listen to your moms, okay? Daddy wakes up this late because moms are working Daddy to the bone. Still, I love you, Camie, Holly. Hope you grow well."

The three only rolled their eyes.

Suddenly, Alex disappeared when he noticed someone coming into the garden.

It was none other than Lin Xingzhi. She wore a one-piece dress while stroking her bloated belly gently. "You all seem to have fun."

"Wifey, why don't I help yo—" Alex tried to carry her, but Lin Xingzhi stopped him and shook her head helplessly. "You sure are a worrywart. I am fine, you know. I can't be too lazy or this son of mine will catch that bad habit."

"Actually, what I'm worried about is not that lazy habit." Sweats appeared on his forehead. What he worried about was Lin Xingzhi teaching his sons and daughters about all the things she knew about lives and turning them into perverts.

"Don't worry. I know the difference between adults and kids... I won't teach them something they don't need..." Lin Xingzhi gently flicked his forehead while smiling.

"Right, I have thought of a name for h—"

Before he finished, Lin Xingzhi stopped him and shook her head. "No, no. We've discussed this. Your naming sense sucks. You even wanted to name the children Moho, Bika, Waka, or something. We can't let you do that to the kids!"

"..."

"Haha, we can attest to it." Rinrin, the Song Goddess, chuckled before looking at the one beside her, Jeanne. "Right, Jeanne?"

Jeanne scratched the back of her head, wondering what she should say.

"That's right! You shouldn't give a name to a kid because you do more harm than good..." Alaya landed in the garden with Rubia and Carissa.

"Wha—Grandma Alaya!" A blonde-haired boy suddenly leaped toward Alaya and hugged her.

"Welcome!"

"Haha, Kiddo. You're here as always. How are you, kiddo?"

Surprisingly, behind him were the three Weapon Spirits, Elle, Elliot, and Eve, looking at him while shaking their heads. This kid was Alex and Anya's kid. He had something special in him that could attract weapons, including Weapon Spirits. But considering that all Alex's kids had their own strength and Alex even polished them even more, the kid didn't feel like he was special and got along with everybody else.

"You're coming to Alaya first instead of your dad? I'm going to get jealous, you know." Alex pouted.

"Hahaha, I love Dad too!" The boy quickly hugged Alex. "Good morning, Dad."

"Yep, morning, Luis." Alex smiled and stroked his hair.

"It seems everyone gets along well." Anya's voice entered his ears as he slightly raised his vision, finding Anya entering the garden with Aria.

"Isn't that nice?" Alex smiled.

"But we surely have a few people who don't get along..." Anya glanced over to the side, finding Rubia, Rinrin, Aria, and Carissa looking at each other intensely. All four of them seemed to be trying to fight for the tenth wife position, but because Alex's guard was so high, they decided to get along with the kids first to see who the kids would call Mother first.

Alex just ignored their fights as long as they didn't bring any harm to the family in both education and memory. As for who would become...

Leka suddenly hopped on Alex's head and shouted, "Hehe, Leka has come! Since everyone is fighting, Leka will be good and sacrifice herself to marry Master."

"!!!" Those four were stunned and looked at Leka dumbfoundedly.

Alex didn't answer Leka's statement. Instead, he just stroked her cheek gently and said, "Good morning, Leka. How are you doing?"

"I'm fine, Master. I have been preparing for another trip to a unique place. Maybe we can arrange a family trip there!"

"Ho?! Tell me in the details later, okay?" Alex smiled.

"Yes!"

Alex nodded and looked at who was coming next. There were three people walking to the garden, while the first two already leaped toward the garden, specifically Lucas and the three kids.

The first one was an eight years old girl with silver hair. She looked at Lucas and the other kids to check their condition. "Oh, they've only exhausted their energy... I shouldn't care about these four troublemakers."

"Haha, you shouldn't do that. You need to take care of your family." The one who said these words was Silvia's student, Axis.

"That's right, Big Brother Axis. I have a question about this particular topic."

"Sure, let me answer it for you." Axis nodded with a smile.

Silvia's voice then resounded in the garden. "Alright, Axis, Aya. Treat those kids first before discussing another problem."

Aya pouted and lazily said, "Alright." She then looked at Lucas and the others while sighing, "You four never give up..."

Meanwhile, Axis scratched the back of his head and looked at Sherry politely. "Madam Sherry, can you spare them a bit? Maybe just lock them up with your Energy."

"Fine, fine. I will just lock them up next time."

"Thank you."

Alex simply smiled, watching their interactions.

Seeing that all of them had gathered, Rose brought Mark to gather with all of them.

This was something he would never have imagined one hundred years ago. He never thought that his journey would lead to him having nine wives and kids, but when he arrived at this step, he had nothing but gratitude and happiness. He wished for this harmony to last forever.

Suddenly, Lin Xingzhi had an idea. "That's right, Alex. How about we introduce sports to the kids? Cultivation Sports! I feel like this is going to be popular!"

"Haha, we will see." Alex chuckled before looking at the blue sky with a smile on his face.

A breeze gently brushed his skin before a certain feeling appeared in his heart. Alex, who had no idea about this feeling, turned around, looking at the sky... No, something beyond the sky. He was silent for a few seconds before his lips curved again. "Interesting."

THE END.
